AFFILIATED MANAGERS GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

1. Basis of Presentation and Use of Estimates

The Consolidated Financial Statements of Affiliated Managers Group, Inc. (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all normal and recurring adjustments considered necessary for a fair statement of the results have been included and all intercompany balances and transactions have been eliminated. During the quarter, the Company changed its Consolidated Statement of Income presentation to include Income from equity method investments in Operating income, as its equity method Affiliates are integral to the Company's operations. This change, along with other reclassifications, has been made to the prior period's financial statements to conform to the current period's presentation. Operating results for interim periods are not necessarily indicative of the results that may be expected for any other period or for the full year. The Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016 includes additional information about its operations, financial position and accounting policies, and should be read in conjunction with this Quarterly Report on Form 10-Q.

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

All amounts in these notes, except per share data in the text and tables herein, are stated in millions unless otherwise indicated.

2. Recent Accounting Developments

Effective January 1, 2017, the Company adopted Accounting Standard Update ("ASU") 2016-07, Investments - Equity Method and Joint Ventures: Simplifying the Transition to the Equity Method of Accounting and ASU 2016-06, Derivatives, and Hedging: Contingent Put and Call Options in Debt Instruments. The adoption of these updates did not have a significant impact on the Company's Consolidated Financial Statements.

In May 2014, the Financial Accounting Standards Board (the "FASB") issued ASU 2014-09, Revenue from Contracts with Customers, and subsequently issued several related amendments. The new standard provides a comprehensive model for revenue recognition and is effective for interim and fiscal periods beginning after December 15, 2017. The standard may be adopted using either the full or modified retrospective method. The Company continues to evaluate the impact of this standard on the timing of the recognition of its Revenue and how certain costs will be presented, but does not expect the adoption of this standard to have a significant impact on the timing of the recognition of Revenue. In January 2016, the FASB issued ASU 2016-01, Fair Value: Recognition and Measurement of Financial Assets and Liabilities. Under the new standard, all equity investments in unconsolidated entities (other than those accounted for using the equity method of accounting) will generally be measured at fair value with any changes recognized through earnings. The standard is effective for interim and fiscal periods beginning after December 15, 2017 and must be adopted using a modified retrospective method. The impact of this standard on the Company's Consolidated Financial Statements will depend on the equity investments held by the Company at the time of adoption.

In February 2016, the FASB issued ASU 2016-02, Leases, which requires lessees to recognize assets and liabilities arising from most operating leases on the statement of financial position. The standard is effective for interim and fiscal periods beginning after December 15, 2018 and must be adopted using a modified retrospective method. The Company is evaluating the impact of this standard on its Consolidated Financial Statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows - Classification of Certain Cash Receipts and Cash Payments, which clarifies how cash receipts and cash payments are classified in the statement of cash flows. The standard is effective for interim and fiscal periods beginning after December 15, 2017 and must be adopted using a full retrospective method. The Company does not expect the adoption of this standard to have a significant impact on its Consolidated Financial Statements.

In January 2017, the FASB issued ASU 2017-01, Clarifying the Definition of a Business, which provides guidance on evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The standard is effective for interim and fiscal periods beginning after December 15, 2017. The Company will apply the standard prospectively upon adoption. The impact of this standard on the Company's Consolidated Financial Statements will depend on acquisitions (or disposals) of assets or businesses by the Company in periods following adoption.

AFFILIATED MANAGERS GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

In January 2017, the FASB issued ASU 2017-04, Intangibles - Goodwill and Other: Simplifying the Accounting for Goodwill Impairment. A goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. The standard is effective for interim and fiscal periods beginning after December 15, 2019. The Company will apply the standard prospectively upon adoption. The Company is evaluating the impact of this standard on its Consolidated Financial Statements.

In May 2017, the FASB issued ASU 2017-09, Compensation - Stock Compensation, which simplifies modification accounting related to share-based arrangements. Under the new standard, modification assessments will not be required if fair value, vesting conditions and classification would be unaffected by a modification. The standard is effective for interim and fiscal periods beginning after December 15, 2017. The Company will apply the standard prospectively upon adoption. The Company does not expect the adoption of this standard to have a significant impact on its Consolidated Financial Statements.

3. Investments in Marketable Securities

Investments in marketable securities at December 31, 2016 and June 30, 2017 were \$122.4 million and \$103.6 million, respectively. The following is a summary of the cost, gross unrealized gains and losses and fair value of investments classified as available-for-sale and trading:

	Available-	-for-Sale	Trading	5
	December	Bul ne 30,	Decemb	aterne130,
	2016	2017	2016	2017
Cost	\$ 66.1	\$ 36.0	\$34.4	\$43.2
Unrealized gains	17.6	17.5	6.6	8.0
Unrealized losses	(1.8)	_	(0.5)	(1.1)
Fair Value	\$ 81.9	\$ 53.5	\$40.5	\$ 50.1

In the three and six months ended June 30, 2016, the Company received proceeds of \$28.6 million and \$34.4 million, respectively, from the sale of investments classified as available-for-sale and recorded gains of \$7.5 million and \$9.2 million, respectively. In the three and six months ended June 30, 2017, the Company received proceeds of \$13.1 million and \$43.3 million, respectively, from the sale of investments classified as available-for-sale and recorded gains of \$6.0 million and \$11.8 million, respectively. There were no significant realized gains or losses on investments classified as trading in the three and six months ended June 30, 2016. In the three and six months ended June 30, 2017, the Company received proceeds of \$7.9 million and \$15.0 million, respectively, from the sale of investments classified as trading and recorded net gains of \$2.4 million and \$3.3 million, respectively. The realized gains and losses on securities held in Affiliate sponsored consolidated products were recorded in Other operating expenses (net), other realized gains and losses were recorded in Investment and other income.

4. Investments in Affiliates and Affiliate Sponsored Investment Products Investments in Affiliates

The Company's Affiliates are consolidated or accounted for under the equity method, depending upon the underlying structure of and relationship with each Affiliate.

A limited number of the Company's Affiliates are considered voting rights entities ("VREs") because the total equity investment at risk is sufficient to enable the entities to finance their activities independently and the entities' equity holders have the right to receive residual returns, the obligation to absorb losses and the right to direct the activities of the entity that most significantly impact its economic performance. Most of the Company's Affiliates considered VREs are accounted for under the equity method because the Company lacks control, but is deemed to have significant influence.

Substantially all of the Company's Affiliates are considered variable interest entities ("VIEs") because they are structured as partnerships (or similar entities) and the limited partners lack substantive kick-out and substantive participation rights over the general partner. The Company consolidates a VIE when it is the general partner (or similar role) and, therefore, the primary beneficiary of the entity, which is defined as having the power to direct the activities that most significantly impact the VIE's economic performance and the right to receive benefits from or the obligation to absorb losses of the entity that could potentially be significant to the VIE. Substantially all of the Company's consolidated Affiliates are considered VIEs. The Company applies the equity method of accounting to a VIE when it is not the primary beneficiary.

_

AFFILIATED MANAGERS GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

The unconsolidated assets, net of liabilities and non-controlling interests of equity method Affiliates considered VIEs, and the Company's maximum risk of loss were as follows:

December 31, 2016 June 30, 2017

Unconsoli**Caterd**ing Value and VIE Net Maximum Exposure

Unconsolidated Value and VIE Maximum Exposure

Net Maximum Exposure

Assets to Loss Assets to Loss

Affiliates accounted for under the Equity Method \$1,047.6 \$ 2,846.8 \$895.2 \$ 2,753.3

Affiliate Sponsored Investment Products

The Company's consolidated Affiliates sponsor various investment products for which they also act as the investment advisor. These investment products are primarily owned by third-party investors; however, certain products are funded with seed capital investments from Affiliates. Third-party investors are generally entitled to substantially all of the economics of these products.

Certain of the Company's Affiliate sponsored investment products are considered VIEs because they are structured as partnerships (or similar entities) and the limited partners lack substantive kick-out and substantive participation rights over the general partner. The Company's Affiliates' involvement with sponsored investment products is generally limited to that of a service provider, and their seed capital investments, if any, represent an insignificant interest in the relevant investment products' net assets. The Company's and its consolidated Affiliates' exposure to risk in these entities is generally limited to any capital contribution made or required to be made and any earned but uncollected management and performance fees. As a result, in most cases these VIEs are not consolidated and are accounted for under the equity method because neither the Company nor its Affiliates are deemed to be the primary beneficiary.

The net assets of Affiliate sponsored investment products that were considered VIEs accounted for under the equity method and the Company's maximum risk of loss were as follows:

December 31, 2016 June 30, 2017

Unconsolidated ing Value and Unconsolidated ing Value and VIE Net Maximum Exposure VIE Net Maximum Exposure

Assets to Loss Assets to Loss Affiliate sponsored investment products \$1,756.6 \$ 9.4 \$1,919.4 \$ 10.1

5. Commitments and Contingencies

From time to time, the Company and its Affiliates may be subject to claims, legal proceedings and other contingencies in the ordinary course of their business activities. Any such matters are subject to various uncertainties, and it is possible that some of these matters may be resolved in a manner unfavorable to the Company or its Affiliates. The Company and its Affiliates establish accruals, as necessary, for matters for which the outcome is probable and the amount of the liability can be reasonably estimated.

Third Avenue Management LLC ("Third Avenue"), one of the Company's consolidated Affiliates, was named as a defendant in various legal actions relating to the liquidation and closure of the Third Avenue Focused Credit Fund. The Company was named as a co-defendant in one of these actions, as a purported control person. In 2016, Third Avenue recorded a reserve of \$15.0 million in connection with the proposed resolution of all claims, including against the Company, related to the Focused Credit Fund. During the quarter, a proposed settlement of these claims, including those against the Company, was approved by the applicable courts, and the settlement payment is expected to be

funded by Third Avenue and its insurers in the third quarter of 2017. The amount of the previously recorded reserve has not changed as a result of the settlement.

The Company has committed to co-invest in certain Affiliate sponsored investment products. As of June 30, 2017, these unfunded commitments were \$92.1 million and may be called in future periods. In connection with a past acquisition agreement, the Company is contractually entitled to reimbursement from a prior owner of one of the Company's Affiliates for \$11.1 million of these commitments if they are called.

AFFILIATED MANAGERS GROUP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

As of June 30, 2017, the Company was contingently liable, upon the achievement by certain Affiliates of specified financial targets, to make payments related to the Company's investments in the Affiliates through 2019. For its consolidated Affiliates, the Company was contingently liable for up to \$21.7 million, and expected to make payments of \$8.9 million (\$1.6 million in 2017). The present value of these expected payments was \$7.8 million as of June 30, 2017. For its equity method Affiliates, the Company was contingently liable for up to \$170.0 million, and expected to make no payments.

Affiliate equity interests provide holders with a conditional right to put their interests to the Company over time. See Note 12. In addition, in connection with an investment in an Affiliate accounted for under the equity method, the Company entered into an arrangement with a minority owner of the Affiliate that gives such owner the right to sell a portion of its ownership interest in the Affiliate to the Company annually beginning in 2018. The purchase price of these conditional purchases will be at fair market value on the date of the transaction.

The Company and certain Affiliates operate under regulatory authorities that require that they maintain minimum financial or capital requirements. Management is not aware of any significant violations of such requirements. 6. Fair Value Measurements

The following tables summarize the Company's financial assets and liabilities that are measured at fair value on a recurring basis:

		Fair V	ements

⁽¹⁾ Principally investments in equity securities.

The following are descriptions of the significant financial assets and liabilities measured at fair value and the fair value methodologies used.

Cash equivalents consist primarily of highly liquid investments in daily redeeming money market funds, without enacted liquidity fees or redemption gates that are valued at net asset value ("NAV").

Investments in marketable securities consist primarily of investments in publicly traded securities and funds advised by Affiliates that are valued at NAV. Publicly traded securities and funds advised by Affiliates valued using unadjusted quoted market prices for identical instruments in active markets are classified as level 1. Publicly traded securities valued using quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active are classified as level 2.

Contingent payment arrangements represent the present value of the expected future settlement of contingent payment arrangements related to the Company's investments in consolidated Affiliates. The significant unobservable inputs that are used in the fair value measurement of these obligations are growth and discount rates. Increases in the growth rate result in a higher obligation while increases in the discount rate result in a lower obligation.

Affiliate equity obligations include agreements to repurchase Affiliate equity. The significant unobservable inputs that are used in the fair value measurement of the agreements to repurchase Affiliate equity are growth and discount rates. Increases in the growth rate result in a higher obligation while increases in the discount rate result in a lower obligation.

Foreign currency forward contracts use model-derived valuations in which all significant inputs are observable in active markets to determine fair value.

It is the Company's policy to value financial assets or liabilities transferred as of the beginning of the period in which the transfer occurs. There were no significant transfers of financial assets or liabilities between level 1 and level 2 in

⁽²⁾ Amounts are presented within Other assets or Other liabilities.

the three and six months ended June 30, 2016 and 2017. Level 3 Financial Assets and Liabilities The following tables present the changes in level 3 liabilities:
