Heartland, Inc. is the parent company of Lee Oil Company, Inc. and its subsidiaries (“Lee Oil”), a petroleum distributor operating in the southeastern Kentucky, southwestern Virginia, and northeastern Tennessee.

As previously reported in Heartland’s Form 8-K filed on October 3, 2008 and in Heartland’s Form 10-Q for the quarter ended September 30, 2008, on October 1, 2008, Heartland entered into and closed a Securities Purchase Agreement (the “Agreement”) with Lee Holding Company LP and Gary Lee (“Sellers”) that allowed Heartland to obtain 100% of the outstanding securities in Lee Oil Company, Inc., Lee’s Food Mart, LLC, and Lee Enterprises, Inc. Terry Lee, the company’s Chief Executive Officer and a director, is also the principal partner of Lee Holding Company LP and Gary Lee is the brother of Terry Lee.

Pursuant to the Agreement, Lee Oil became a fully owned subsidiary of Heartland as of October 1, 2008 and will file consolidated financial statements going forward. For further information on the Purchase Agreement, Completion of Acquisition, the Creation of a Direct Financial Obligation, or the Unregistered Sales of Equity Securities, see the Heartland’s Form 8-K filed on October 3, 2008.

Heartland, Inc.  
Unaudited Pro Forma Condensed Consolidated Financial Statements and Footnotes  
For the Nine Months Ended September 30, 2008  
and the Year Ended December 31, 2007

Introduction

On October 1, 2008, Heartland, Inc. (“Heartland”) obtained 100% ownership in Lee Oil Company, Inc., Lee’s Food Marts, LLC, and Lee Enterprises, Inc. (“Lee Oil”). The closing of the transaction is not expected to result in a gain for tax purposes. The accompanying unaudited pro forma condensed consolidated financial statements assume the formation of the consolidated entity will be recorded using purchase accounting in accordance with SFAS No. 141, “Business Combinations” with Heartland being treated as the acquirer for accounting purposes.

The unaudited pro forma condensed consolidated balance sheet of Heartland at September 30, 2008 assumes the formation of the consolidated entity occurred on September 30, 2008. The unaudited pro forma condensed consolidated statements of income of Heartland for the year ended December 31, 2007 and for the nine months ended September 30, 2008 assume the formation of the consolidated entity occurred on January 1, 2007.

The unaudited pro forma condensed consolidated financial statements and accompanying notes have been prepared in conformity with U.S. generally accepted accounting principles consistent with those used in, and should be read together with, Heartland’s historical consolidated financial statements and related notes included in Heartland’s Form 10-KSB for the year ended December 31, 2007 and Form 10-Q for the quarter ended September 30, 2008.

The adjustments reflected in the unaudited pro forma condensed consolidated financial statements are based on currently available information and certain estimates and assumptions; therefore, actual results may differ from the pro forma adjustments. However, management believes that the assumptions used provide a reasonable basis for presenting the significant effects of the formation of the consolidated entity and that the pro forma adjustments in the unaudited pro forma condensed consolidated financial statements give appropriate effect to the assumptions and are applied in conformity with accounting principles generally accepted in the United States.

The unaudited pro forma condensed consolidated financial statements do not purport to present Heartland’s results of operations had the formation of the consolidated entity actually been completed at the dates indicated. In addition, the unaudited pro forma condensed consolidated financial statements do not project Heartland’s results of operations for any future period.

Lee Oil Company, Inc.  
P.O. Box 2580  
Middlesboro, KY 40965

Board of Directors & Stockholders:

I have audited the accompanying consolidated balances sheets of Lee Oil Company, Inc. as of December 31, 2007 and 2006, and the related consolidated statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of Lee Oil Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lee Oil Company, Inc. as of December 31, 2007 and 2006 and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Lee Oil Company, Inc. and Subsidiaries  
Notes to Consolidated Financial Statements

Note A – Summary of Significant Accounting Policies

Basis of Consolidation

The consolidated financial statements include the accounts of Lee Oil Company, Inc. and Lee's Food Marts, LLC, a wholly owned subsidiary (collectively, the Company). All significant inter-company accounts and transactions have been eliminated in consolidation.

Nature of Operations

The Company distributes petroleum products on both a retail and wholesale basis in the Northeastern Tennessee, Southeastern Kentucky, and Southwestern Virginia area.

Cash and Cash Equivalents

For purposes of classification within the financial statements, the Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. At December 31, 2007, the Company had approximately \$919,697 on deposit with banks in excess of federally insured limits and not otherwise collateralized.

Trade Accounts Receivable

The Company performs ongoing credit evaluations of its customers' financial condition and generally requires no collateral on trade accounts receivable.

Trade accounts receivable are recorded at the amount the Company expects to collect on balances outstanding at year-end. Management closely monitors outstanding balances and writes off all balances that are deemed to be uncollectible. Any account that falls outside of the credit terms specified for that account (normally 30 days) is subject to a finance charge being placed on the account at the end of each month. This process continues until such time as the account is paid or the amount is written off through bad debts.

Estimates are used in determining the allowance for doubtful accounts and are based on historical collection experience and current trends. Management periodically evaluates the standard allowance estimation methodology for appropriateness and modifies as necessary. The Company's accounts receivable are written off once the account is deemed to be uncollectible. This typically occurs once we have exhausted all efforts to collect the account, which include collection attempts by our employees and outside collection agencies.

For the periods ending December 31, 2007 and 2006, we have estimated the allowance for bad debts to be \$17,191 and \$13,981, respectively. The total amount of the accounts receivable which were over 90 days old and being charged a finance charge as of December 31, 2007 and 2006 was \$21,543 and \$3,186, respectively.

Inventories

Inventories consist primarily of gasoline and diesel fuel. These products are carried at average cost for products stored at the bulk plants and at last cost for products delivered to the retail locations.

Excise Taxes

Products picked up at the terminal may be subject to both federal and state excise taxes. These taxes along with other taxes placed on the products from various taxing authorities are passed through as separate line item charges in our billing process at the wholesale level and had a carrying value of \$124,748 and \$132,867 for the periods ending December 31, 2007 and 2006, respectively.

## Property and Equipment

Property and equipment are carried at cost. Expenditures for major renewals and betterments that extend the useful lives or property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred. Depreciation of property and equipment is provided using the straight-line method at rates based on the following estimated useful lives:

	Years
Vehicles	3 - 5
Machinery & Equipment	5 - 7
Furniture & Fixtures	7 - 10
Buildings & Improvements	15 - 40

The following table reflects the carrying values of the significant categories of property and equipment as of December 31:

	2007	2006
Equipment	6,167,910	5,843,903
Buildings	3,074,014	2,941,738
Plant Equipment	414,843	414,843
Other Assets	53,286	192,079
Land	1,240,713	1,190,713
Less: Accumulated		
Depreciation	(6,502,278)	(5,706,037)
Totals	4,448,488	4,877,239

## Use of Estimates

The preparation of financial statements in accordance with accounting principals generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## Note B – Notes Receivable

Notes receivable relate to amounts due from related parties or other outside parties and are reported under other assets. The notes are non-interest bearing.

	2007	2006
\$6,500 promissory note from a former customer with monthly payments until the note is paid in full.	\$ 6,000	\$ -
\$18,000 promissory note from a customer to be repaid over a four year period, ending September 30, 2008. Thereafter, any balance remaining will be repaid over six years ending September 30, 2014.	18,000	18,000
Other notes receivable	1,000	-
Totals	\$ 25,000	\$ 18,000

## Note C – Concentration of Credit Risk

Three customers comprised 24%, 22%, and 11% of trade accounts receivable at December 31, 2007 and 25%, 23%, and 8%, respectively, of trade receivables at December 31, 2006

## Note D – Notes Payable

Notes payable consist of long term notes entered into with various financial institutions or outside parties for the purchase of property and equipment with a carrying value of \$4,448,488 at December 31, 2007. The assets purchased with these notes serve as collateral for the individual notes. The following tables give the notes and terms along with maturities:

Thereafter	2,084,208
<b>Total Due</b>	<b>4,743,721</b>

For the periods ended December 31, 2007 and 2006, the Company recorded interest expense of \$271,952 and \$291,826, respectively.

The Company's president is also the chief executive officer of Commercial Bank, which provides the Company's line of credit.

Note E – Advertising

Advertising costs are expensed as incurred and totaled \$15,237 and \$20,616 in 2007 and 2006, respectively.

## Note F – Unearned Supplier Incentives

The major oil companies require distributors to upgrade their sites to a new store image from time to time. To induce the distributors to upgrade all the sites and keep them from switching brands within a given amount of time, the major oil suppliers will provide the distributors with upfront funds to help cover some of the expenses in these conversions. This money has to be paid back if the distributor fails to comply with the standards set forth or wishes to switch brands before the agreement has been completed.

The Company has estimated this liability to be \$381,953 and \$322,990 for the years ending December 31, 2007 and 2006, respectively.

## Note G – Leases

The Company has entered into a number of renewable leases that allow it to continue leasing certain pieces of property and/or stores through such time as it may no longer be cost effective to continue the lease or the property is deemed to be worth purchasing. The Company looks at each lease prior to being renewed to see if any changes need to be made. Normally, these leases are setup for five year terms with the option of renewing for multiple five year terms and would automatically renew if no notification is given by either party. The only change in the renewal would normally be an escalator clause for inflation. We can not predict with certainty the amount of any such adjustment, therefore, the estimated lease payouts over the next five years would be a multiplier of the current year.

For the year ended December 31, 2007, the Company paid \$256,212 to outside parties for the lease of certain real property. The Company would expect to pay out the same in each of the next five years for an estimated total of \$1,281,059 over the next five years.

## Note H – Income Taxes

Prior to January 1, 2007, Lee Enterprises, Inc. elected to be treated as a small business corporation for federal income tax purposes whereby the income and other tax attributes are reported by the individual shareholders rather than by the Company. Accordingly, no provision was made for federal income tax purposes. On January 1, 2007, Lee Enterprises, Inc. merged into Lee Food Marts, LLC.

For both 2007 and 2006, Lee Food Marts, LLC (Lee Food) elected to be treated as a partnership for federal income tax purposes. Accordingly, the taxable income of Lee Food was allocated to the members and no provision for federal income taxes was provided in the accompanying financial statements.

Lee Food merged into Lee Oil Company, Inc. on September 30, 2008.

The following table provides reconciliation between Income from Operations before Income Taxes to taxable income for the Company:

	2007	2006
Income from Operations before Income Taxes	\$ 906,979	\$ 650,193
Less: Income from Lee Enterprises, Inc. operations	(189,741)	(158,651)
Income from Lee Food Mart, LLC operations	(195,809)	(18,949)
Income subject to federal income tax	\$ 521,429	\$ 472,593

## Note I – Subsequent Events

All the issued and outstanding stock of the Company was purchased by Heartland, Inc on October 1, 2008. All future financial information for the Company will be consolidated into the Heartland's financial statements as a wholly owned subsidiary.
