## Overview

Genius Brands International, Inc. is a global content and brand management company dedicated to providing entertaining and enriching “content and products with a purpose” for toddlers to tweens. Led by industry veterans Andrew Heyward (Chief Executive Officer) and Amy Moynihan Heyward (President), we produce original content and license the rights to that content to a variety of partners. Our licensees include (i) companies to which the audio-visual rights are licensed for exhibition in various formats such as Pay Television, Free or Broadcast Television, Video-on-Demand (“VOD”), subscription on demand (“SVOD”), DVDs/CDs and more and (ii) companies that develop and distribute products based on our content within different product categories such as toys, electronics, publishing, home goods, stationary, gifts, and more.

We own a portfolio of original children’s entertainment that is targeted at toddlers to teens including the award-winning *Baby Genius*, Warren Buffett's *Secret Millionaires Club*, *Thomas Edison's Secret Lab* and *Stan Lee's Mighty 7*, the first project from *Stan Lee Comics, LLC*, a joint venture with legendary Stan Lee's POW! Entertainment.

In addition to our wholly-owned brands, we also act as licensing agent for certain brands, leveraging our existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include the best-selling children’s book series, *Llama Llama*; *Psycho Bunny*, a luxury apparel line; *From Frank*, a humor greeting card and product line; and *Celessence Technologies*, the world's leading microencapsulation company.

On April 2, 2014, we filed a Certificate of Amendment to our Articles of Incorporation to effect a one-for-one-hundred reverse split of our common stock (the “Reverse Split”). All per share amounts referenced herein are reflective of the Reverse Split.

## Products

### Original Content

We own and produce original content that is meant to entertain and enrich toddlers to tweens. We have found it generally requires a period of three years from the inception of an idea, through production of the content and development and distribution of a range of consumer products to retail, creating an inevitable lag between the creation of the intellectual property to the realization of economic or accounting benefit of those assets. Our goal is to maintain a robust and diverse portfolio of brands, appealing to various interests and ages, featuring evergreen topics with global appeal. Our portfolio of intellectual property can be licensed, re-licensed, and exploited for years to come, with revenue derived from multiple sources and territories.

### Licensing Agent

Augmenting our original content, we act as an agent for established brands which maximizes the existing infrastructure while creating incremental sources of revenue for us without additional overhead:

*Psycho Bunny:* Inspired by the 17th-century maritime marauders and secret societies such as the infamous Skull & Bones, Psycho Bunny creates timeless wardrobe essentials that couple refined English tailoring with bold American design. Currently available in limited product categories in upscale department stores, we are expanding this popular brand to additional product lines, new retail outlets, and additional international territories. We have already signed licensees for headwear and footwear.

*From Frank:* Already a popular line of greeting cards, we are expanding the brand into new product categories and have already signed licensees for publishing, stationery, gifts, lottery and more.

*Celessence:* Celessence's microencapsulation technology releases fragrance and is used to scent products including socks, stationery, toys, bedding and pillows. We are licensing this technology to a range of products from homewares, bedding, fragrance, automotive, pets, apparel and more.

*Llama Llama:* With 9.4 million units in print, Anna Dewdney's Llama Llama books have all been New York Times bestsellers, with several titles claiming the #1 spot. Her work has been translated into eight languages. Praised as a "geographer extraordinaire of the emotional terrain of preschoolers and their mothers" (Chicago Tribune), Dewdney's soothing tales are synonymous with calming early childhood anxiety. Llama Llama Red Pajama was chosen as Jumpstart's Read for the Record book in 2011, setting the world record for the most reads of a particular book on one day. Dewdney is an outspoken advocate for literacy and many states and non-profits use her books for literacy campaigns and programs, including the Library of Congress.

## **Private Placement of Common Shares and Warrants**

On October 29, 2015, the Company entered into securities purchase agreements (the “October 2015 Purchase Agreements”) with certain accredited investors (the “October 2015 Investors”) pursuant to which the Company sold an aggregate of 4,330,000 shares of common stock and warrants (the “October 2015 Warrants”) to purchase up to an aggregate of 4,330,000 shares of common stock for a purchase price of \$1.00 per share (the “October 2015 Private Placement”) and gross proceeds to the Company of \$4,330,000. The closing of the October 2015 Private Placement was subject to certain customary closing conditions and occurred on November 3, 2015.

The October 2015 Warrants are exercisable into shares of common stock for a period of five (5) years from issuance at an initial exercise price of \$1.10 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. The Company is prohibited from effecting an exercise of the October 2015 Warrants to the extent that as a result of such exercise, the October 2015 Investor would beneficially own more than 4.99% (subject to increase up to 9.99% upon 61 days’ notice) in the aggregate of the issued and outstanding shares of common stock.

Pursuant to the October 2015 Purchase Agreements, beginning on the closing date of the October 2015 Private Placement and ending sixty (60) days after the Effective Date (as defined in the October 2015 Purchase Agreements), the Company agreed not to issue any shares of common stock or securities convertible or exercisable into common stock, subject to certain exceptions. Additionally, until the later of (i) such time as the October 2015 Investors, in the aggregate, hold less than 50% of the shares of common stock originally purchased in the October 2015 Private Placement and the average daily trading volume of the common stock for a period of ten (10) consecutive trading days is greater than \$75,000 and (ii) the one year anniversary of the closing of the October 2015 Private Placement, the Company agreed to not sell any common stock or securities convertible or exercisable into common stock, subject to certain exceptions, at an effective per share price of common stock less than the purchase price per share of common stock sold in the October 2015 Private Placement.

In connection with the October 2015 Private Placement, the Company’s officers, directors and 10% or greater shareholders executed a lockup agreement whereby they are prohibited from disposing of any of the Company’s

common stock or securities convertible or exercisable into the Company's common stock held by them for a period of ninety (90) days from the closing of the October 2015 Private Placement.

Pursuant to a registration rights agreement entered into between the Company and the October 2015 Investors, the Company agreed to file a "resale" registration statement with the Securities and Exchange Commission (the "SEC") covering the resale of all shares of common stock and shares of common stock issuable upon exercise of the October 2015 Warrants issued pursuant to the October 2015 Private Placement within 45 days of the closing of the October 2015 Private Placement (the "Filing Date") and to maintain the effectiveness of the registration statement until all securities have been sold or are otherwise able to be sold pursuant to Rule 144 under the Securities Act of 1933, as amended (the "Securities Act"). The Company agreed to use its reasonable best efforts to have the registration statement declared effective within 90 days of the closing of the October 2015 Private Placement (or 120 days after such closing if the registration statement is subject to review by the SEC (the "Effectiveness Date"). The Company is obligated to pay to the October 2015 Investors a fee of 1% per month in cash for every thirty day period up to a maximum of six (6%) percent of the purchase price paid under the October 2015 Purchase Agreement, (i) that the registration statement has not been filed after the Filing Date, (ii) following the Effectiveness Date that the registration statement has not been declared effective; and (iii) as otherwise set forth in the Registration Rights Agreement.

Chardan Capital Markets LLC ("Chardan") acted as sole placement agent in the October 2015 Private Placement in consideration for which the Company paid Chardan received a cash fee of \$300,000 and issued to Chardan and its designee a five-year warrant to purchase up to 425,000 shares of common stock (the "Placement Agent Warrants") at an initial exercise price of \$1.20 per share. The terms of the Placement Agent Warrant are identical to the October 2015 Warrants issued to the October 2015 Investors in the October 2015 Private Placement except with respect to the exercise price thereof.

### **About This Offering**

This prospectus includes the resale of (i) 3,480,000 shares of common stock issued in the October 2015 Private Placement, (ii) 3,480,000 shares of common stock issuable upon exercise of the October 2015 Warrants, and (iii) 425,000 shares of common stock issuable upon exercise of the Placement Agent Warrants.

## **RISK FACTORS**

*Any investment in our common stock involves a high degree of risk. Investors should carefully consider the risks described below and all of the information contained in this prospectus before deciding whether to purchase our common stock. Our business, financial condition or results of operations could be materially adversely affected by these risks. This prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks we face as described below and elsewhere in this prospectus.*

## **Risks Related to Our Business**

### ***We have incurred net losses since inception.***

We have a history of operating losses and incurred net losses in each fiscal quarter since our inception. For the nine months ended September 30, 2015, we generated revenues of \$710,999 and incurred a net loss of \$2,421,938. For the year ended December 31, 2014, we generated revenues of \$925,788 and incurred a net loss of \$3,728,599, while for the previous year, we generated revenue of \$2,556,538 and incurred a net loss of \$7,216,031. These losses, among other things, have had an adverse effect on our results of operations, financial condition, stockholders' equity, net current assets and working capital.

We will need to generate additional revenue to achieve profitability. We have already achieved significant cost savings and are beginning to generate revenues derived from our existing properties, properties in production, new brands being introduced into the marketplace, the re-launch of Baby Genius, and incremental revenue derived from the licensing business we manage on behalf of our clients. However, the ability to sustain these revenues and generate significant additional revenues or achieve profitability will depend upon numerous factors some of which are outside of our control.

### ***We may need additional capital to fund our growing operations. If we are not able to obtain sufficient capital, we may then be forced to limit the scope of our operations.***

We expect that as our business continues to grow we may need additional working capital. While we believe that we will be able to fund our business through operating cash flows generated through our enhanced business model, if these cash flows are less than anticipated or do not come to fruition in the time horizon we anticipate, we will require additional debt and/or equity financing to sustain our operations. If adequate additional debt and/or equity financing is not available on reasonable terms or at all, we may not be able to continue to expand our business, and we will have to modify our business plans accordingly. These factors could have a material adverse effect on our future operating results and our financial condition.

If we reach a point where we are unable to raise needed additional funds to continue as a going concern, we could be forced to cease our activities and dissolve. In such an event, we will need to satisfy various creditors and other claimants, severance, lease termination and other dissolution-related obligations.

Our ability to raise financing through sales of equity securities depends on general market conditions and the demand for our common stock. We may be unable to raise adequate capital through sales of equity securities, and if our stock has a low market price at the time of such sales, our existing stockholders could experience substantial dilution. If adequate financing is not available or unavailable on acceptable terms, we may find we are unable to fund expansion, continue offering products and services, take advantage of acquisition opportunities, develop or enhance services or products, or to respond to competitive pressures in the industry which may jeopardize our ability to continue operations.

***Restrictions on subsequent equity sales under the October 2015 Purchase Agreements may make it more difficult for us to raise additional capital in the future.***

Pursuant to the October 2015 Purchase Agreements, beginning on the closing date of the October 2015 Private Placement and ending sixty (60) days after the Effective Date (as defined in the October 2015 Purchase Agreements), the Company agreed not to issue any shares of common stock or securities convertible or exercisable into common stock, subject to certain exceptions. Additionally, until the later of (i) such time as the October 2015 Investors, in the aggregate, hold less than 50% of the shares of common stock originally purchased in the October 2015 Private Placement and the average daily trading volume of the common stock for a period of ten (10) consecutive trading days is greater than \$75,000 and (ii) the one year anniversary of the closing of the October 2015 Private Placement, the Company agreed to not sell any common stock or securities convertible or exercisable into common stock, subject to certain exceptions, at an effective per share price of common stock less than the purchase price per share of common stock sold in the October 2015 Private Placement. These provisions may make it more difficult for us to raise capital in the future.

***Our revenues and results of operations may fluctuate from period to period.***

Cash flow and projections for any entertainment company producing original content can be expected to fluctuate until the animated content and ancillary consumer products are in the market and could fluctuate thereafter even when the content and products are in the marketplace. There is significant lead time in developing and producing animated content before that content is in the marketplace. Unanticipated delays in entertainment production can delay the release of the content into the marketplace. Structured retail windows that dictate when new products can be introduced at retail are also out of our control. While we believe we have mitigated this in part by creating a slate of properties at various stages of development or production as well as representing certain established brands which contribute immediately to cash flow, any delays in the production and release of our content and products or any changes in the preferences of our customers could result in lower than anticipated cash flows.

As with our cash flows, our revenues and results of operations depend significantly upon the appeal of our content to our customers, the timing of releases of our products and the commercial success of our products, none of which can be predicted with certainty. Accordingly, our revenues and results of operations may fluctuate from period to period. The results of one period may not be indicative of the results of any future period. Any quarterly fluctuations that we report in the future may not match the expectations of market analysts and investors. This could cause the price of our common stock to fluctuate.

Production cost will be amortized according to the individual film forecasting methodology. If estimated remaining revenue is not sufficient to recover the unamortized production costs, the unamortized production costs will be written down to fair value. In any given quarter, if we lower our previous forecast with respect to total anticipated revenue, we will be required to adjust amortization of related production costs. These adjustments would adversely impact our business, operating results and financial condition.

***Changes in the United States, global or regional economic conditions could adversely affect the profitability of our business.***

A decrease in economic activity in the United States or in other regions of the world in which we do business could adversely affect demand for our products, thus reducing our revenue and earnings. A decline in economic conditions could reduce demand for and sales of our products. In addition, an increase in price levels generally, or in price levels in a particular sector, could result in a shift in consumer demand away from the animated content and consumer products we offer, which could also decrease our revenues, increase our costs, or both.

***Inaccurately anticipating changes and trends in popular culture, media and movies, fashion, or technology can negatively affect our sales.***

While trends in the toddler to tween sector change quickly, we respond to trends and developments by modifying, refreshing, extending, and expanding our product offerings on an on-going basis. However, we operate in extremely competitive industries where the ultimate appeal and popularity of content and products targeted to this sector can be difficult to predict. We believe our focus on “content and products with a purpose” serves an underrepresented area of the toddler to tween market; however, if the interest of our audience trends away from our current properties toward other offerings based on current media, movies, animated content or characters, and if we fail to accurately anticipate trends in popular culture, movies, media, fashion, or technology, our products may not be accepted by children, parents, or families and our revenues, profitability, and results of operations may be adversely affected.

***If we are unable to compete effectively with existing or new competitors, our sales and market share could decline.***

The industries in which we operate are competitive, and our results of operations are sensitive to, and may be adversely affected by, competitive pricing, promotional pressures, additional competitor offerings and other factors, many of which are beyond our control. Indirectly through our licensing arrangements, we compete for retailers as well as other outlets for the sale and promotion of our licensed merchandise. Our primary competition comes from competitors such as The Walt Disney Company, Nickelodeon Studios, and the Cartoon Network.

We have sought a competitive advantage by providing “content and products with a purpose” which are both entertaining and enriching for children and offer differentiated value that parents seek in making purchasing decisions for their children. While we do not believe that this value proposition is specifically offered by our competitors, our competitors have greater financial resources and more developed marketing channels than we do which could affect our ability, through our licensees, to secure shelf space thereby decreasing our revenues or affecting our profitability and results of operations.

***The production of our animated content is accomplished through third-party production and animation studios around the world, and any failure of these third-parties could negatively impact our business.***

As part of our business model, to manage cash flows, we have partnered with a number of third-party production and animation studios around the world for the production of our new content in which these partners fund the production of the content in exchange for a portion of revenues generated in certain territories. We are reliant on our partners to produce and deliver the content on a timely basis meeting the predetermined specifications for that product. The delivery of inferior content could result in additional expenditures by us to correct any problems to ensure marketability. Further, delays in the delivery of the finished content to us could result in our failing to deliver the product to broadcasters to which it has been pre-licensed. While we believe we have mitigated this risk by aligning the economic interests of our partners with ours and managing the production process remotely on a daily basis, any failures or delays from our production partners could negatively affect our profitability.

***If we fail to honor our obligations under the terms of our third party supply agreements, our business may be adversely affected.***

In early 2014, we entered into an exclusive 3-year arrangement with Sony DADC US Inc. which gives Sony the right to fulfill our DVD and CD duplication requirements for our product. In consideration for these exclusive rights we received an initial marketing support payment of \$750,000 with an additional \$750,000 paid in February 2015. Sony will recoup the marketing support payment through a premium on the physical media unit costs. We are obligated to repay a pro-rata portion of the marketing support payment if we do not order a minimum number of DVD/CD units during the term. However, while we believe the minimum order threshold is achievable over the term based on our existing properties and properties currently in production or in development, if we does not meet the minimum order threshold we would be obligated to repay any outstanding balances in 2017 and to do so may require it to divert funds from operations which may have a material adverse effect on its business.

***Failure to successfully market or advertise our products could have an adverse effect on our business, financial condition and results of operations.***

Our products are marketed worldwide through a diverse spectrum of advertising and promotional programs. Our ability to sell products is dependent in part upon the success of these programs. If we or our licensees do not successfully market our products or if media or other advertising or promotional costs increase, these factors could have an adverse effect on our business, financial condition, and results of operations.

In addition, the availability of retailer programs relating to product placement, co-op advertising and market development funds, and our ability and willingness to pay for such programs, are important with respect to promoting our properties. In addition, although we may have agreements for the advertising and promotion of our products through our licensees, we will not be in direct control of those marketing efforts and those efforts may not be done in a manner that will maximize sales of our products and may have a material adverse effect on our business and operations.

***We may not be able to keep pace with technological advances.***

The entertainment industry in general, and the music and motion picture industries in particular, continue to undergo significant changes, primarily due to technological developments. Because of the rapid growth of technology, shifting consumer tastes and the popularity and availability of other forms of entertainment, it is impossible to predict the overall effect these factors could have on potential revenue from, and profitability of, distributing entertainment programming. As it is also impossible to predict the overall effect these factors could have on our ability to compete

effectively in a changing market, if we are not able to keep pace with these technological advances, our revenues, profitability and results from operations may be materially adversely affected.

***Loss of key personnel may adversely affect our business.***

Our success greatly depends on the performance of our executive management team, including Andrew Heyward, our Chief Executive Officer and Amy Moynihan Heyward, our President. The loss of the services of any member of our core executive management team or other key persons could have a material adverse effect on our business, results of operations and financial condition.

***Our management team currently owns a substantial interest in our voting stock.***

Our officers and directors control a substantial portion of our voting securities. Therefore, our management may significantly affect the outcome of all corporate actions and decisions for an indefinite period of time including election of directors, amendment of charter documents and approval of mergers and other significant corporate transactions. In addition, sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our common stock.

***Litigation may harm our business or otherwise distract management.***

Substantial, complex or extended litigation could cause us to incur large expenditures and could distract management. For example, lawsuits by licensors, consumers, employees or stockholders could be very costly and disrupt business. While disputes from time to time are not uncommon, we may not be able to resolve such disputes on terms favorable to us.

***Our vendors and licensees may be subject to various laws and government regulations, violation of which could subject these parties to sanctions which could lead to increased costs or the interruption of normal business operations that could negatively impact our financial condition and results of operations.***

Our vendors and licensees may operate in a highly regulated environment in the US and international markets. Federal, state and local governmental entities and foreign governments may regulate aspects of their businesses, including the production or distribution of our content or products. These regulations may include accounting standards, taxation requirements (including changes in applicable income tax rates, new tax laws and revised tax law interpretations), product safety and other safety standards, trade restrictions, regulations regarding financial matters, environmental regulations, advertising directed toward children, product content, and other administrative and regulatory restrictions. While we believe our vendors and licensees take all the steps necessary to comply with these laws and regulations, there can be no assurance that they are compliant or will be in compliance in the future. Failure to comply could result in monetary liabilities and other sanctions which could increase our costs or decrease our revenue resulting in a negative impact on our business, financial condition and results of operations.

***Protecting and defending against intellectual property claims may have a material adverse effect on our business.***

Our ability to compete in the animated content and entertainment industry depends, in part, upon successful protection of our proprietary and intellectual property. We protect our property rights to our productions through available copyright and trademark laws and licensing and distribution arrangements with reputable companies in specific territories and media for limited durations. Despite these precautions, existing copyright and trademark laws afford only limited, or no, practical protection in some jurisdictions. It may be possible for unauthorized third parties to copy and distribute our productions or portions of our productions. In addition, although we own most of the music and intellectual property included in our products, there are some titles which the music or other elements are in the public domain and for which it is difficult or even impossible to determine whether anyone has obtained ownership or royalty rights. It is an inherent risk in our industry that people may make such claims with respect to any title already included in our products, whether or not such claims can be substantiated. Litigation may be necessary in the future to enforce our intellectual property rights, to protect our trade secrets, to determine the validity and scope of the proprietary rights of others or to defend against claims of infringement or invalidity. Any such litigation could result in substantial costs and the resulting diversion of resources could have an adverse effect on our business, operating results or financial condition.

### **Risks Related to Our Common Stock**

***Our common stock may be affected by limited trading volume and price fluctuations which could adversely impact the value of our common stock.***

Trading in our common stock can fluctuate significantly and there can be no assurance that an active trading market will either develop or be maintained. Our common stock is expected to continue to experience significant price and volume fluctuations. This trading activity could adversely affect the market price of our common stock without regard to our operating performance. In addition, we believe that factors such as quarterly fluctuations in our financial results and changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially. These fluctuations may also cause short sellers to periodically enter the market in the belief that our stock price will decline in the future. We cannot predict the actions of market participants or the stock market as a whole. We can offer no assurances that the market for our common stock will be stable or that our stock price will fluctuate in a manner that is consistent with our operating results.

***We do not expect to pay dividends in the future and any return on investment may be limited to the value of our common stock.***

We do not currently anticipate paying cash dividends in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as the Board of Directors may consider relevant. Our current intention is to apply net earnings, if any, in the foreseeable future to increasing our capital base and development and marketing efforts. There can be no assurance that we will ever have sufficient earnings to declare and pay dividends to the holders of our common stock, and in any event, a decision to declare and pay dividends is at the sole discretion of our Board of Directors. If we do not pay dividends, our common stock may be less valuable because the return on investment will only occur if its stock price appreciates.

***We are authorized to issue “blank check” preferred stock without stockholder approval, which could adversely impact the rights of holders of our common stock.***

Our Articles of Incorporation authorize us to issue up to 10,000,000 shares of blank check preferred stock, 6,000 shares of which have been designated Series A Convertible Preferred Stock (see “Description of Securities”). Any additional preferred stock that we issue in the future may rank ahead of our common stock in terms of dividend priority or liquidation premiums and may have greater voting rights than our common stock. In addition, such preferred stock may contain provisions allowing those shares to be converted into shares of common stock, which could dilute the value of common stock to current stockholders and could adversely affect the market price, if any, of our common stock. In addition, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control of the Company. Although we have no present intention to issue any additional shares of authorized preferred stock, there can be no assurance that we will not do so in the future.

***If we fail to maintain effective internal controls over financial reporting, the price of our common stock may be adversely affected.***

Our internal control over financial reporting may have weaknesses and conditions that could require correction or remediation, the disclosure of which may have an adverse impact on the price of our common stock. We are required to establish and maintain appropriate internal controls over financial reporting. Failure to establish those controls, or any failure of those controls once established, could adversely affect our public disclosures regarding our business, prospects, financial condition or results of operations.

Rules adopted by the SEC pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 require an annual assessment of internal controls over financial reporting, and for certain issuers an attestation of this assessment by the issuer’s independent registered public accounting firm. The standards that must be met for management to assess the internal controls over financial reporting as effective are evolving and complex, and require significant documentation, testing, and possible remediation to meet the detailed standards. We expect to incur significant expenses and to devote resources to Section 404 compliance on an ongoing basis. It is difficult for us to predict how long it will take or costly it will be to complete the assessment of the effectiveness of our internal control over financial reporting for each year and to remediate any deficiencies in our internal control over financial reporting. As a result, we may not be able to complete the assessment and remediation process on a timely basis. In addition, management’s assessment of internal controls over financial reporting may identify weaknesses and conditions that need to be addressed in our internal controls over financial reporting or other matters that may raise concerns for investors. Any actual or perceived weaknesses and conditions that need to be addressed in our internal control over financial reporting or disclosure of management’s assessment of our internal controls over financial reporting may have an adverse impact on the price of our common stock.

## **FORWARD-LOOKING STATEMENTS**

This prospectus contains forward-looking statements. Such statements include statements regarding our expectations, hopes, beliefs or intentions regarding the future, including but not limited to statements regarding our market, strategy, competition, development plans (including acquisitions and expansion), financing, revenues, operations, and compliance with applicable laws. Forward-looking statements involve certain risks and uncertainties, and actual results may differ materially from those discussed in any such statement. Factors that could cause actual results to differ materially from such forward-looking statements include the risks described in greater detail in the section of this prospectus entitled “Risk Factors”. All forward-looking statements in this document are made as of the date hereof, based on information available to us as of the date hereof, and we assume no obligation to update any forward-looking statement, except as may be required under applicable securities laws. Market data used throughout this prospectus is based on published third party reports or the good faith estimates of management, which estimates are based upon their review of internal surveys, independent industry publications and other publicly available information. Management believes such third party sources are reliable, but there can be no assurance that such data is in fact accurate.

You should review carefully the section entitled “Risk Factors” for a discussion of these and other risks that relate to our business and investing in shares of our common stock.

## **USE OF PROCEEDS**

We will receive no proceeds from the sale of shares of common stock offered by the selling stockholders. However, we will generate proceeds from the cash exercise of the warrants by the selling stockholders, if any. We intend to use those proceeds for general corporate purposes.

## **SELLING SECURITY HOLDERS**

The common stock being offered by the selling shareholders are those previously issued to the selling shareholders, and those issuable to the selling shareholders, upon exercise of the warrants. For additional information regarding the issuances of those shares of common stock and warrants, see “Private Placement of Common Shares and Warrants” above. We are registering the shares of common stock in order to permit the selling shareholders to offer the shares for resale from time to time. Except for the ownership of the shares of common stock and the warrants, the selling shareholders have not had any material relationship with us within the past three years.

The table below lists the selling shareholders and other information regarding the beneficial ownership of the shares of common stock by each of the selling shareholders. The second column lists the number of shares of common stock beneficially owned by each selling shareholder, based on its ownership of the shares of common stock and warrants, as of November 16, 2015, assuming exercise of the warrants held by the selling shareholders on that date, without regard to any limitations on exercises.

The third column lists the shares of common stock being offered by this prospectus by the selling shareholders.

In accordance with the terms of a registration rights agreement with the selling shareholders, this prospectus generally covers the resale of the sum of (i) the number of shares of common stock issued to the selling shareholders in the October 2015 Private Placement and (ii) the maximum number of shares of common stock issuable upon exercise of the related warrants, determined as if the outstanding warrants were exercised in full as of the trading day immediately preceding the date this registration statement was initially filed with the SEC, each as of the trading day immediately preceding the applicable date of determination and all subject to adjustment as provided in the registration right agreement, without regard to any limitations on the exercise of the warrants. The fourth column assumes the sale of all of the shares offered by the selling shareholders pursuant to this prospectus.

Under the terms of the warrants, a selling shareholder may not exercise the warrants to the extent such exercise would cause such selling shareholder, together with its affiliates, to beneficially own a number of shares of common stock which would exceed 4.99% of our then outstanding common stock following such exercise, excluding for purposes of such determination shares of common stock issuable upon exercise of the warrants which have not been exercised. The number of shares in the second column does not reflect this limitation. The selling shareholders may sell all, some or none of their shares in this offering. See “Plan of Distribution.”

## PLAN OF DISTRIBUTION

Each selling stockholder of the securities and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their securities covered hereby on the OTCQB or any other stock exchange, market or trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. A selling stockholder may use any one or more of the following methods when selling securities:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the selling stockholders to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The selling stockholders may also sell securities under Rule 144 or any other available exemption from registration under the Securities Act of 1933, as amended (the "Securities Act"), if available, rather than under this prospectus.

Broker-dealers engaged by the selling stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the securities or interests therein, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The selling stockholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to

reflect such transaction).

The selling stockholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each selling stockholder has informed the Company that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the securities. The Company has agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the securities may be resold by the selling stockholders without registration and without regard to any volume or manner-of-sale limitations by reason of Rule 144, without the requirement for the Company to be in compliance with the current public information under Rule 144 under the Securities Act or any other rule of similar effect or (ii) all of the securities have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale securities will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the selling stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the common stock by the selling stockholders or any other person. We will make copies of this prospectus available to the selling stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

Each series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our Board of Directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

### *Series A Convertible Preferred Stock*

We have designated six thousand (6,000) shares of preferred stock as Series A Convertible Preferred Stock. Each share of Series A Preferred Stock is convertible into shares of our common stock based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Preferred Stock is \$1,000 and the initial conversion price is \$2.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event we issue shares of our common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. Accordingly, in connection with the closing of the October 2015 Private Placement, the conversion price of the Series A Preferred Stock was reduced to \$1.00. We are prohibited from effecting a conversion of the Series A Preferred Stock to the extent that as a result of such conversion, the holder would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of our common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Preferred Stock. The shares of Series A Preferred Stock possess no voting rights.

## **DESCRIPTION OF BUSINESS**

### **General**

Genius Brands International, Inc. is a global content and brand management company dedicated to providing entertaining and enriching “content and products with a purpose” for toddlers to tweens. Led by industry veterans Andrew Heyward (Chief Executive Officer) and Amy Moynihan Heyward (President), we produce original content and license the rights to that content to a variety of partners. Our licensees include (i) companies to which the audio-visual rights are licensed for exhibition in various formats such as Pay Television, Free or Broadcast Television, Video-on-Demand (“VOD”), subscription on demand (“SVOD”), DVDs/CDs and more and (ii) companies that develop and distribute products based on our content within different product categories such as toys, electronics, publishing, home goods, stationary, gifts, and more.

We own a portfolio of original children's entertainment that is targeted at toddlers to teens including the award-winning *Baby Genius*, Warren Buffett's *Secret Millionaires Club*, *Thomas Edison's Secret Lab* and *Stan Lee's Mighty*, the first project from *Stan Lee Comics, LLC*, a joint venture with legendary Stan Lee's POW! Entertainment.

In addition to our wholly-owned brands, we also act as licensing agent for certain brands, leveraging our existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include the best-selling children's book series, *Llama Llama; Psycho Bunny*, a luxury apparel line; *From Frank*, a humor greeting card and product line; and *Celessence Technologies*, the world's leading microencapsulation company.

We commenced operations in January 2006, assuming all of the rights and obligations of our then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which we obtained all rights, copyrights, and trademarks to the brands "Baby Genius," "Little Genius," "Kid Genius," "123 Favorite Music" and "Wee Worship," and all then existing productions under those titles. In October 2011, we (i) changed our domicile to Nevada from California, and (ii) changed our name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the "Reincorporation"). In connection with the Reincorporation, the trading symbol of our common stock changed from "PENT" to "GNUS".

On November 15, 2013, we entered into an Agreement and Plan of Reorganization (the "Merger Agreement") with A Squared Entertainment LLC, a Delaware limited liability company ("A Squared"), A Squared Holdings LLC, a California limited liability company and sole member of A Squared (the "Parent Member") and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary ("Acquisition Sub"). Upon closing of the transactions contemplated under the Merger Agreement (the "Merger"), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, we acquired the business and operations of A Squared.

## Strategic Initiatives

During 2014, we began a series of strategic initiatives to restructure certain areas of business in an effort to operate more profitably in the long run. This included product sales, content distribution, production, and product development, including as follows:

During the second quarter of 2014, we began phasing out the direct production and sale of physical products including DVDs and CDs and shifted to a licensing model whereby these functions were outsourced to industry 1)experts and category leaders in their respective industries. On July 14, 2014, we hired Stone Newman in the newly created position of President - Global Consumer Products to leverage his experience and relationships to manage all consumer products, licensing and merchandising sales for the Company's brands.

Prior to the third quarter of 2014, we utilized an agency to license our content to international television 2)expanding portfolio of content, during the second quarter of 2014, we formed a new global distribution division and broadcasters, home video, and digital distribution outlets. To exert greater control over the distribution of our appointed Andrew Berman to the newly created position of Senior Vice President - International Sales to oversee the division and the appointment of regional agents to represent us locally in key regions.

During the third and fourth quarter of 2014, we partnered with various pre-production, production, and animation 3) companies to provide services to us for the production of *Thomas Edison's Secret Lab* in exchange for a certain percentage of the series' forthcoming adjusted net revenues and the ability to distribute the series in certain languages in certain territories. This model helps to better manage our cash flows while enabling us to exploit territories that would otherwise be challenging to manage and monetize. We intend to replicate the model for future productions.

The infrastructure we have put in place enables us to efficiently exploit a growing portfolio of brands. We are 4) actively developing a number of new brands to add to our growing portfolio and consistently look for existing brands to acquire or act as licensing agent, as with the best-selling line of books, *Llama Llama* which we recently signed. We remain focused on brands that lend themselves to interactive exploitation in multiple areas and are consistent with our primary point of differentiation: providing multi-media "content and products with a purpose" that entertain and enrich kids.

## Recent Events

Consistent with our strategy of securing widespread distribution for our content in a variety of formats and building awareness and engagement for our brands that in turn drives our consumer products business, we have expanded our successful relationship with Comcast, beyond the already popular *Baby Genius* on-demand offering. In October 2015,

we launched and commenced operating everything from advertising to programming of a new Kid Genius Cartoon Channel, offering video-on-demand content on an on-demand basis consistent with our “content and products with a purpose” mission. The new video on-demand channel includes our own content, in addition to other content we curate to offer a robust line-up for kids. Our Senior Vice President- International Sales, Andrew Berman, oversees the channel.

## **Products**

### *Original Content*

We own and produce original content that is meant to entertain and enrich toddlers to tweens. We have found it generally requires a period of three years from the inception of an idea, through production of the content and development and distribution of a range of consumer products to retail, creating an inevitable lag between the creation of the intellectual property to the realization of economic or accounting benefit of those assets. Our goal is to maintain a robust and diverse portfolio of brands, appealing to various interests and ages, featuring evergreen topics with global appeal. Our portfolio of intellectual property can be licensed, re-licensed, and exploited for years to come, with revenue derived from multiple sources and territories.

Our portfolio of original content includes:

#### *Already Released Content*

Its catalogue of 500 songs, 125 music videos, and toys feature classic nursery rhymes, learning songs, classical music, holiday favorites and more. Expanding the timeless appeal of Baby Genius offerings, we re-launched Baby Genius in September 2015 with fresh, new designs, new entertainment and an array of new toddler products.

*Warren Buffett's Secret Millionaire's Club*: In this popular animated series, Warren Buffett acts as a mentor to a group of kids who have international adventures in business. Secret Millionaire's Club empowers kids by helping them learn about the business of life and the importance of developing healthy life habits at an early age. In addition to the animated series, product offerings include classroom materials, an annual youth promotion, books, home video and a new line of consumer products introduced in the fall of 2015.

*Stan Lee's Mighty 7*: This animated feature length film is the first property from Stan Lee Comics, LLC, a joint venture with legendary superhero creator Stan Lee. We continue to expand distribution of the film with recent sales in a number of international territories.

*Martha & Friends*: Martha & Friends is an animated series featuring a 10-year-old Martha Stewart. Together with her three best friends and two dogs, the kids learn how easy and fun it is to do-it-yourself. Every show is filled with lots of projects kids can do by themselves.

*Llama Llama*: We recently announced we have been appointed to lead the worldwide expansion of Anna Dewdney's New York Times bestselling and multiple award-winning children's book franchise, Llama Llama. We will be

### Licensing Agent

Augmenting our original content, we act as an agent for the following established brands which maximizes the existing infrastructure while creating incremental sources of revenue for us without additional overhead:

*Psycho Bunny*: Inspired by the 17th-century maritime marauders and secret societies such as the infamous Skull & Bones, Psycho Bunny creates timeless wardrobe essentials that couple refined English tailoring with bold American design. Currently available in limited product categories in upscale department stores, we are expanding this popular brand to additional product lines, new retail outlets, and additional international territories. We have already signed licensees for headwear and footwear.

*From Frank*: Already a popular line of greeting cards, we are expanding the brand into new product categories and have already signed licensees for publishing, stationery, gifts, lottery and more.

*Celessence*: Celessence's microencapsulation technology releases fragrance and is used to scent products including socks, stationery, toys, bedding and pillows. We are licensing this technology to a range of products from homewares, bedding, fragrance, automotive, pets, apparel and more.

*Llama Llama*: With 9.4 million units in print, Anna Dewdney's Llama Llama books have all been New York Times bestsellers, with several titles claiming the #1 spot. Her work has been translated into eight languages. Praised as a "geographer extraordinaire of the emotional terrain of preschoolers and their mothers" (Chicago Tribune), Dewdney's soothing tales are synonymous with calming early childhood anxiety. Llama Llama Red Pajama was chosen as Jumpstart's Read for the Record book in 2011, setting the world record for the most reads of a particular book on one day. Dewdney is an outspoken advocate for literacy and many states and non-profits use her books for literacy campaigns and programs, including the Library of Congress.

## **Distribution**

Children today spend upwards of 35 hours/week consuming various forms of media, a 7% increase or an additional 2.2 hours since 2009 (Source: Nickelodeon, November 2013). With the increased demand for and impact of media on kids' lives, we are focused on serving an underrepresented segment of the industry, namely "content with a purpose" meaning content that is both entertaining and enriching in a variety of interactive formats. With this distinct and focused mission, we are focused on expanding content distribution across multi-media platforms, extending our domestic and international presence, building awareness for our brands and building an engaged audience which in turn drives demand for its consumer products.

During 2014, we recruited and hired a number of key personnel to manage the distribution of our content across all platforms in all markets:

We formed a new global distribution division and appointed Andrew Berman to the newly created position of Senior Vice President - International Sales to oversee the division and the appointment of regional agents to represent us locally in key regions and in all formats, including Pay Television, Free or Broadcast Television, Video-on-Demand ("VOD"), subscription on demand ("SVOD"), DVDs/CDs and more.

We formed a new global consumer products division and appointed Stone Newman to the newly created position of President, Global Consumer Products to manage all consumer products, licensing and merchandising sales for the Company's brands, including toys, electronics, publishing, home goods, stationary, gifts, and much more.

Additionally, during the first quarter of 2014, we entered into an exclusive three year agreement with Sony DADC, the optical disc manufacturing and fulfillment arm of Sony, to provide all CD, DVD and BD replication, packaging and distribution to our customers. Under the terms of the long-term, exclusive supply chain services agreement, we will order a minimum level of disc replication, packaging and distribution services for our content across all physical media, including DVD, CD, and Blu-ray from Sony DADC. As consideration for these minimum order levels, we received a total of \$1,500,000, \$750,000 during the first quarter of 2014 and \$750,000 during the first quarter of 2015.

## **Marketing**

The commercial success of every Genius Brands property is reliant on our ability to attract an engaged audience that in turn drives demand for our products. As our properties are introduced into the marketplace, these efforts will intensify to ensure parents and kids are aware of our offerings. For example:

We formed a new Digital division and appointed industry veteran Jason Brumbaugh to the newly created position of Vice President of Digital, responsible for our digital presence in addition to all forms of online marketing that will be critical to building engaged audiences online. Mr. Brumbaugh held producer and senior producer positions at Disney Interactive Media Group, the Hub Network, DIC Entertainment, and Knowledge Kid Network.

We work with 360-Communications, a public relations agency that proactively solicits publicity for our content and products, both among the trade and consumers.

## **Competition**

We compete against creators of children's content, including Disney, Nickelodeon, Cartoon Network, Sesame Street, and many others, small and large. In the crowded children's entertainment space, we compete with other content creators for distribution and retail shelf space that is largely now dedicated to the large studios. To compete, we are focused on filling a void in the marketplace by offering something the big studios do not: "content and products with a purpose," a positioning and important point of differentiation embraced by the industry, as well as parents and educators.

## **Customers and Licensees**

During 2014, we were reliant on one or a few major customers. However, given the changes in our business model, we will be working with a larger network of customers and partners from around the world including broadcasters, consumer products licensees, and retailers. This broad cross section includes companies such as Comcast, Netflix, Sony, PBS, Leap Frog Enterprises, Enesco, Zak Designs, Penguin Publishing, Manhattan Toys, Amazon, Barnes & Noble, Target, Bertelsmann Music Group, InGrooves, Discovery International, TF1 and many others both domestically and internationally.

## **Government Regulation**

The FCC requires broadcast networks to air a required number of hours of Educational and Informational content (E/I). We are also subject to online distribution regulations, namely the FTC's Children's Online Privacy Protection Act (COPPA) which regulates the collection of information of kids younger than 13 years old.

We are currently subject to regulations applicable to businesses generally, including numerous federal and state laws that impose disclosure and other requirements upon the origination, servicing, enforcement and advertising of credit accounts, and limitations on the maximum amount of finance charges that may be charged by a credit provider. Although credit to some of our customers is provided by third parties without recourse to us based upon a customer's failure to pay, any restrictive change in the regulation of credit, including the imposition of, or changes in, interest rate ceilings, could adversely affect the cost or availability of credit to our customers and, consequently, our results of operations or financial condition.

Licensed toy products are subject to regulation under the Consumer Product Safety Act and regulations issued thereunder. These laws authorize the Consumer Product Safety Commission (the "CPSC") to protect the public from products which present a substantial risk of injury. The CPSC can require the manufacturer of defective products to repurchase or recall such products. The CPSC may also impose fines or penalties on manufacturers or retailers. Similar laws exist in some cities and other countries in which we plan to market our products. Although we do not manufacture and may not directly distribute the toy products, a recall of any of the products may adversely affect our business, financial condition, results of operations and prospects.

We also maintain websites which include our corporate website located at [www.gnusbrands.com](http://www.gnusbrands.com), as well as [www.babygenius.com](http://www.babygenius.com), [www.smckids.com](http://www.smckids.com), [www.slam7.com](http://www.slam7.com), and [www.edisonsecretlab.com](http://www.edisonsecretlab.com). These websites are subject to laws and regulations directly applicable to Internet communications and commerce, which is a currently developing area of the law. The United States has enacted Internet laws on children's privacy, copyrights and taxation. However, laws governing the Internet remain largely unsettled. The growth of the market for Internet commerce may result in more stringent consumer protection laws, both in the United States and abroad, that place additional burdens on companies conducting business over the Internet. We cannot predict with certainty what impact such laws will have on our business in the future. In order to comply with new or existing laws regulating Internet commerce, we may need to modify the manner in which we conduct our website business, which may result in additional expense.

Because our products are manufactured by third parties and licensees, we are not significantly affected by federal, state and local environmental laws and do not have significant costs associated with compliance with such laws and regulations.

## **Employees**

As of November 16, 2015, we had fifteen full-time equivalent employees and an additional four temporary or contracted full-time equivalents in certain functions, such as production management and design. We engage on an outsourced, as-needed basis contractors in the fields of investor relations, public relations, and production. We believe all of our employee relationships to be good.

## **Intellectual Property**

As of November 16, 2015, we own the following properties and related trademarks: *Secret Millionaires Club*, *Thomas Edison's Secret Lab*, "Baby Genius", "Little Genius", "Kid Genius", "Wee Worship", "A Squared", and "Ready, Play, Learn" well as several other names and trademarks on characters that had been developed for our content and brands. *Thomas Edison's Secret Lab*, currently in production and estimated to be completed in the summer of 2016, will include 52 eleven-minute episodes as well as 52 90-second music videos.

As of November 16, 2015, we hold fourteen registered trademarks in multiple classes in the United States as well as additional trademarks in the United States that are associated with our other brands. We also have a number of registered and pending trademarks in Europe and other countries in which our products are sold.

As of November 16, 2015, we also held ninety-six motion picture, thirteen sound recording and one literary work copyrights related to our video, music and written work products.

We own a two-thirds ownership interest in Stan Lee Comics, LLC which owns the publishing brand *Stan Lee Comics* and all properties produced therein. Stan Lee Comics, LLC is a joint venture with Stan Lee's POW! Entertainment and Archie Comics. Stan Lee Comics, LLC is the owner of the *Stan Lee's Mighty 7* property.

We are party to 50/50 ownership agreements with the following partners and their related brands: Martha Stewart's *Martha & Friends*; and Gisele Bündchen's *Gisele & the Green Team*.

In addition to the wholly-owned or partially-owned properties listed above, we have agreements with certain intellectual property owners to represent their content as a licensing agent. We act as a licensing agent for the following established brands: *Llama Llama*, *Psycho Bunny*, *From Frank*, and *Celescence*.

## **DESCRIPTION OF PROPERTY**

We own no real estate property. We lease approximately 3,251 square feet of general office space at 301 North Canon Drive, Suite 305, Beverly Hills, CA 90210 pursuant to a 35-month sub-lease that commenced on May 1, 2015. We pay approximately \$136,542 annually, subject to annual escalations of 3%.

*The following discussion and analysis should be read together with our financial statements and the related notes appearing elsewhere in this prospectus. This discussion contains forward-looking statements reflecting our current expectations that involve risks and uncertainties. See "Cautionary Note Regarding Forward-Looking Statements and Industry Data" for a discussion of the uncertainties, risks and assumptions associated with these statements. ### **Overview**

The MD&A is based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make certain estimates and judgments that affect the reported amounts of assets, liabilities and expenses and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

### **Results of Operations**

*Comparison of Results of Operations for the Three months Ended September 30, 2015 and 2014*

Below is a discussion of our operating results for the three months ended September 30, 2015, compared to our operating results during the comparable period in 2014. Net loss for the three months ended September, 2015, was \$797,820 compared to net loss of \$848,970 for the three months ended September 30, 2014. The decrease in net loss resulted from a decrease in revenue, a decrease in costs of sales, increases in operating costs, and offset by decreases in other expense, as described below.

**Revenues.**

	<b>9/30/2015</b>	<b>9/30/2014</b>	<b>Change</b>	<b>% Change</b>
Licensing & Royalties	\$98,035	\$53,774	\$44,261	82%

Total Revenue	\$280,750	\$318,801	\$(38,051)	-12%

Licensing and royalty revenue includes items for which we license the rights to our copyrights and trademarks of our brands and those of the brands in which we act as a licensing agent. During the three months ended September 30, 2015 compared to September 30, 2014, this category increased \$44,261 due to an increase in revenue from our established agency properties while the licensing programs of wholly owned properties are in development.

Television & Home Entertainment revenue is generated from distribution of our properties for broadcast on television, VOD, or SVOD in domestic and foreign markets and the sale of DVDs for home entertainment. During the three months ended September 30, 2015, Television & Home Entertainment revenue increased \$157,080 compared to the three months ended September 30, 2014, as we continue to earn revenue from properties previously completed and begin delivering and meeting revenue recognition criteria of our current projects.

Product sales represent physical products including DVDs and CDs in which the Company holds intellectual property rights such as trademarks and copyrights to the characters and which are manufactured and sold by the Company either directly at wholesale to retail stores or online retailers. During the three months ended September 30, 2015, there were no product sales, for a decrease of \$239,392 compared to the three months ended September 30, 2014 due to the change in business strategy whereby the Company has transitioned from the direct production and sale of physical products and their associated low-margins, to a licensing model in which these functions were outsourced to industry experts and category leaders. The Company plans to re-launch its *Baby Genius* brand in fourth quarter 2015 utilizing a newly designed and expanded product line, resulting in a period-over-period loss in *Baby Genius* sales.

Cost of Sales decreased \$149,743 during three months ended September 30, 2015 compared to the same period of 2014. The decrease was a result of the decrease in product sales discussed above as well as the elimination of the overhead associated with handling sales directly, replaced by a new model whereby these costs will be borne by our licensees.

General and Administrative expenses consist primarily of salaries, employee benefits, as well as other expenses associated with finance, legal, facilities, marketing, rent, and other professional services. General and administrative costs for the three months ended September 30, 2015 decreased \$29,876 compared to the same period in 2014. The aggregate decrease for the category results primarily from increases in professional fees of \$42,649 related to additional legal fees associated with the 2015 annual shareholder meeting as well as an arbitration that was settled in the fourth quarter. Offsetting these increases is a decrease in salaries and related expenses by \$13,412 and a decrease in other general and administrative expenses by \$58,386 due to decreases in consulting and investor relations fees.

Marketing and sales expenses decreased \$18,334 for the three months ended September 30, 2015 compared to the three months ended September 30, 2014 primarily due to the amortization of certain prepaid marketing expenses which did not exist in the current period.

## **Critical Accounting Policies**

The Company's accounting policies are described in the notes to the financial statements. Below is a summary of the critical accounting policies, among others, that management believes involve significant judgments and estimates used in the preparation of its financial statements.

### *Principles of Consolidation*

The Company's consolidated financial statements include the accounts of Genius Brands International, Inc. and its wholly owned subsidiary A Squared Entertainment, LLC. All significant inter-company balances and transactions have been eliminated in consolidation.

### *Goodwill and Intangible Assets*

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with ASC Topic 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. The Company completes the annual goodwill and indefinite-lived intangible asset impairment tests during the fourth quarter. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units. While we may use a variety of methods to estimate fair value for impairment testing, our primary methods are discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. Additionally, the Company develops new videos, music, books and digital applications in addition to adding content, improved animation and bonus songs/features to its existing product catalog. In accordance with ASC 350 Intangible Assets and ASC 730 Research and Development, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

### *Films and Televisions Costs*

The Company capitalizes production costs for episodic series produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates their capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

### *Revenue Recognition*

The Company recognized revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 Revenue Recognition.

Revenues associated with the sale of products, are recorded when shipped to customers pursuant to approved customer purchase orders resulting in the transfer of title and risk of loss. Cost of sales, rebates and discounts are recorded at the time of revenue recognition or at each financial reporting date.

The Company recognizes revenue in accordance with ASC Topic 926-605 Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

For its distribution, TV, and home entertainment income the Company generally enters in to flat fee arrangements to deliver multiple films or episodes. The Company allocates revenue to each film or episode based on their relative fair

market values and recognizes revenue as each film or episode is complete and available for delivery.

The Company's licensing and royalty revenue represents both (a) variable payments based on net sales from brand licensees for content distribution rights. These license agreements are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees and (b) licensing income the Company recognizes revenue as an agent in accordance with ASC 605-45 Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

#### *Other Estimates*

## **Corporate Governance**

### **General**

We believe that good corporate governance is important to ensure that the Company is managed for the long-term benefit of our stockholders. This section describes key corporate governance practices that we have adopted.

## Board Leadership Structure and Role in Risk Oversight

The Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The primary responsibility of our Board of Directors is to oversee the management of our company and, in doing so, serve the best interests of the Company and our stockholders. The Board of Directors selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. Our Board of Directors also participates in decisions that have a potential major economic impact on our company. Management keeps the directors informed of company activity through regular communication, including written reports and presentations at Board of Directors and committee meetings.

Although we have not adopted a formal policy on whether the Chairman and Chief Executive Officer positions should be separate or combined, we have traditionally determined that it is in the best interest of the Company and its shareholders to partially combine these roles. Due to the small size of the Company, we believe it is currently most effective to have the Chairman and Chief Executive Officers positions combined.

The Company currently has eight directors, including Mr. Heyward, its Chairman, who also serves as the Company's Chief Executive Officer. The Chairman and the Board are actively involved in the oversight of the Company's day to day activities.

## Board Committees

On June 9, 2014, the Board of Directors of the Company unanimously decided to form an Audit Committee, Compensation Committee and Nominating Committee.

The following table sets forth the three standing committees of our board and the members of each committee:

<b>Director</b>	<b>Board</b>	<b>Audit Committee</b>	<b>Compensation Committee</b>	<b>Nominating Committee</b>

Bernard Cahill	X	X		
Joseph "Gray" Davis	X			

P. Clark Hallren	X	Chair	X	
Lynne Segall	X			Chair
Anthony Thomopoulos	X		Chair

To assist it in carrying out its duties, the Board of Directors has delegated certain authority to an Audit Committee, a Compensation Committee and a Nominating Committee as the functions of each are described below.

### **Audit Committee**

Messrs. Hallren and Cahill serve on our Audit Committee. Our Audit Committee’s main function is to oversee our accounting and financial reporting processes, internal systems of control, independent auditor relationships and the audits of our financial statements. The Audit Committee’s responsibilities include:

- selecting, hiring, and compensating our independent auditors;
- evaluating the qualifications, independence and performance of our independent auditors;
- overseeing and monitoring the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to financial statements or accounting matters;
- approving the audit and non-audit services to be performed by our independent auditor;
- reviewing with the independent auditor the design, implementation, adequacy and effectiveness of our internal controls and our critical accounting policies; and
- preparing the report that the SEC requires in our annual proxy statement.

The Board of Directors has adopted an Audit Committee Charter. The Audit Committee members meet NASDAQ’s financial literacy requirements, and the board has further determined that Mr. Hallren (i) is an “audit committee financial expert” as such term is defined in Item 407(d) of Regulation S-K promulgated by the SEC and (ii) also meets NASDAQ’s financial sophistication requirements.

## Compensation Committee

Messrs. Thomopoulos and Hallren serve on the Compensation Committee. Our Compensation Committee's main functions are assisting our board of directors in discharging its responsibilities relating to the compensation of outside directors, the Chief Executive Officer and other executive officers, as well as administering any stock incentive plans we may adopt. The Compensation Committee's responsibilities include the following:

- reviewing and recommending to our board of directors the compensation of our Chief Executive Officer and other executive officers, and the outside directors;
- conducting a performance review of our Chief Executive Officer;
- reviewing our compensation policies; and
- if required, preparing the report of the Compensation Committee for inclusion in our annual proxy statement.

The Board of Directors has adopted a Compensation Committee Charter.

The Compensation Committee's policy is to offer our executive officers competitive compensation packages that will permit us to attract and retain highly qualified individuals and to motivate and reward these individuals in an appropriate fashion aligned with the long-term interests of our Company and our stockholders.

***Compensation Committee Risk Assessment.*** We have assessed our compensation programs and concluded that our compensation practices do not create risks that are reasonably likely to have a material adverse effect on us.

## Nominating Committee

Ms. Segall serves on our Nominating Committee. The Nominating Committee's responsibilities include:

- identify qualified individuals to serve as members of the Company's board of directors;

- review the qualifications and performance of incumbent directors;

#### **DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION FOR SECURITIES ACT LIABILITIES**

Section 78.7502(1) of the Nevada Revised Statutes provides that a corporation may indemnify any person who was or is a party, or is threatened to be made a party, to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (except in an action brought by or on behalf of the corporation) if that person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by that person in connection with such action, suit or proceeding, if that person acted in good faith and in a manner which that person reasonably believed to be in, or not opposed to, the best interests of the corporation, and, with respect to any criminal action or proceedings, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent, alone, does not create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in, or not opposed to, the best interests of the corporation, and that, with respect to any criminal action or proceeding, the person had reasonable cause to believe his action was unlawful.

Section 78.7502(2) of the Nevada Revised Statutes provides that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit brought by or on behalf of the corporation to procure a judgment in its favor because the person acted in any of the capacities set forth above, against expenses, including amounts paid in settlement and attorneys' fees, actually and reasonably incurred by that person in connection with the defense or settlement of such action or suit, if the person acted in accordance with the standard set forth above, except that no indemnification may be made in respect of any claim, issue or matter as to which such person shall have been adjudged by a court of competent jurisdiction after exhaustion of all appeals therefrom to be liable to the corporation or for amounts paid in settlement to the corporation unless and only to the extent that the court in which such action or suit was brought or other court of competent jurisdiction determines that, in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Section 78.7502(3) of the Nevada Revised Statutes further provides that, to the extent a director or officer of a corporation has been successful on the merits or otherwise in the defense of any action, suit or proceeding referred to in subsections 1 and 2 thereof, or in the defense of any claim, issue or matter therein, that person shall be indemnified by the corporation against expenses (including attorneys' fees) actually and reasonably incurred by that person in connection therewith.

Section 78.751 of the Nevada Revised Statutes provides that unless indemnification is ordered by a court, the determination to provide indemnification must be made by the stockholders, by a majority vote of a quorum of the board of directors who were not parties to the action, suit or proceeding, or in specified circumstances by independent legal counsel in a written opinion. In addition, the articles of incorporation, bylaws or an agreement made by the corporation may provide for the payment of the expenses of a director or officer of the expenses of defending an action as incurred upon receipt of an undertaking to repay the amount if it is ultimately determined by a court of competent jurisdiction that the person is not entitled to indemnification. Section 78.751 of the Nevada Revised Statutes further provides that the indemnification provided for therein shall not be deemed exclusive of any other rights to which the indemnified party may be entitled and that the scope of indemnification shall continue as to directors, officers, employees or agents who have ceased to hold such positions, and to their heirs, executors and administrators.

Section 78.752 of the Nevada Revised Statutes provides that a corporation may purchase and maintain insurance on behalf of a director, officer, employee or agent of the corporation against any liability asserted against him or incurred by him in any such capacity or arising out of his status as such whether or not the corporation would have the authority to indemnify him against such liabilities and expenses.

Our Articles of Incorporation and By-Laws provide that, to the fullest extent permitted by applicable law, none of our directors will be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director. Any repeal or modification of this provision will be prospective only and will not adversely affect any limitation, right or protection of a director of our company existing at the time of such repeal or modification.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the "Securities Act") may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed hereby in the Securities Act and we will be governed by the final adjudication of such issue.
