Water Pik Technologies, Inc.
Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

DESCRIPTION OF BUSINESS

Water Pik Technologies, Inc. ("Water Pik Technologies" or the "Company") is a leader in designing, manufacturing and marketing a broad range of well-recognized personal health care products and pool products and water-heating systems. The Company's products include: showerheads; consumer and professional oral health products; water filtration products; personal stress relief products; swimming pool and spa heaters, heat pumps, electronic controls, valves, pumps, filters and water features; and residential and commercial water-heating systems. Water Pik Technologies operates in two business segments the Personal Health Care segment and the Pool Products and Heating Systems segment.

In December 2002, the Company formalized a plan to dispose of its Ozone product line, a component of the Personal Health Care segment. The Ozone product line includes the Aquia® home sanitizing product introduced in September 2001. The operating results of the discontinued product line have been reported separately as discontinued operations in the consolidated statements of operations and the assets and liabilities have been reclassified to other assets and other liabilities in the consolidated balance sheets for all periods presented.

FISCAL YEAR

The company operates on a 52- or 53- week fiscal year ending on the Sunday nearest to December 31 with fiscal quarters ending on the Sunday nearest to the end of the applicable thirteen-week period. The fiscal quarter and year-to-date periods presented in the Company's consolidated financial statements are presented as of the last day of the calendar quarter for convenience.

UNAUDITED INTERIM FINANCIAL INFORMATION

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included. Certain amounts reported in previous years have been reclassified to conform to the 2003 presentation. These reclassifications had no effect on reported results of operations or stockholders' equity. These financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2002. Operating results for the interim periods presented are not necessarily indicative of the results to be expected for the full year ended December 31, 2003.

RECENT ACCOUNTING PRONOUNCEMENTS

In May 2003, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 150, "Accounting For Certain Financial Instruments with Characteristics of Both Liabilities and Equity." SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. This Statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003.

Adoption of SFAS No. 150 did not have a material impact on the Company's consolidated results of operations or financial position.

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities." SFAS No. 149 amends and clarifies accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133. In particular, SFAS No. 149 clarifies under what circumstances a contract with an initial net

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

investment meets the characteristic of a derivative and when a derivative contains a financing component that warrants special reporting in the statement of cash flows. SFAS No. 149 is generally effective for contracts entered into or modified after June 30, 2003 and is not expected to have a material impact on the Company's consolidated results of operations or financial position.

In January 2003, the FASB issued Interpretation No. 46 ("FIN 46"), "Consolidation of Variable Interest Entities." FIN 46 requires companies to evaluate variable interest entities to determine whether to apply the consolidation provisions of FIN 46 to those entities. Companies must apply FIN 46 to entities created after January 31, 2003, and to variable interest entities in which a company obtains an interest after that date. It applies in the first fiscal year or interim period ending after December 15, 2003, to variable interest entities in which a company holds a variable interest that it acquired before February 1, 2003. Adoption of FIN 46 is not expected to have a material impact on the Company's consolidated results of operations or financial position.

2. Inventories

Inventories are stated at the lower of cost (last-in, first-out ("LIFO") and first-in, first-out ("FIFO") cost methods) or market. Inventories consist of the following:

	September 30, 2003	December 31, 2002
	<i>(In thousands)</i>	
Raw materials and supplies	\$ 19,292	\$ 16,710
Work-in-process	4,998	4,672
Finished goods	25,519	18,375
	49,809	39,757
Total inventories at current cost	49,809	39,757
Less: Allowances to reduce current cost values to LIFO basis	(4,050)	(3,917)
	\$ 45,759	\$ 35,840
Total inventories		

Inventories determined using the LIFO cost method were \$38,031,000 at September 30, 2003 and \$30,960,000 at December 31, 2002, net of the respective LIFO reserves. The remainder of inventory was determined using the FIFO cost method.

3. Acquisition

On June 2, 2003, as part of its strategic objective to accelerate sales and profit growth in its pool business through development of a more comprehensive package of pool equipment and accessories, the Company acquired substantially all of the assets of Air Energy Heat Pumps, Inc. and affiliates ("Air Energy"), a Ft. Lauderdale, Florida manufacturer of premium branded heat pumps for swimming pools and spas. The estimated purchase price totaled \$8,631,000 (including direct acquisition costs and estimated additional contingent payments based on future performance) with payment consisting of \$7,703,000 in cash and an additional payment due upon completion of the contingency period. The estimated purchase price as of September 30, 2003 has been adjusted to reflect additional information regarding assets acquired, liabilities assumed and estimated contingent payments. The final purchase price is subject to calendar year 2003 financial performance and other measurements. The allocation of the purchase price resulted in \$7,077,000 in goodwill, \$120,000 in identifiable intangible assets with

7

estimated three-year lives, \$2,960,000 of current assets (primarily accounts receivable and inventory), \$819,000 in property, plant and equipment and \$2,345,000 in assumed liabilities. The goodwill was assigned to the Pool Product and Heating Systems segment and is expected to be deductible for tax purposes. The results of operations of Air Energy are included in the Company's consolidated results of operations beginning June 2, 2003.

4. Long-Term Debt

Long-term debt is comprised of the following:

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

	September 30, 2003	December 31, 2002
	<i>(In thousands)</i>	
Revolving credit facility	\$ 165	\$ 11,774
Canadian revolving credit facility		1,059
Mortgage notes payable	19,011	19,629
Promissory notes payable equipment financing facility	11,028	13,246
Other	86	26
	<u>30,290</u>	<u>45,734</u>
Less: Current portion	(3,797)	(4,858)
	<u>26,493</u>	<u>40,876</u>
Long-term debt	\$ 26,493	\$ 40,876

On August 27, 2003, the Company entered into an amended and restated credit agreement with a group of banks for a revolving credit facility of up to \$80,000,000, including \$10,000,000 revolving credit availability for our Canadian subsidiary. The facility expires on December 1, 2007 and replaced the Company's previous \$60,000,000 revolving credit facility, which was due to expire in November 2004, and its CDN \$11,000,000 Canadian revolving credit facility, which was renewable annually and terminable on demand. Borrowings and letters of credit under the revolving credit facility are secured by certain company assets and are limited by borrowing base calculations based upon eligible accounts receivable and inventory, as defined in the credit agreement. At September 30, 2003, the Company had \$27,999,000 of borrowing availability remaining under borrowing base limitations of the credit facility.

Domestic borrowings under the revolving credit facility bear interest at varying rates at either the greater of the bank's prime rate, 1.0 percent above the base CD (Certificates of Deposit) rate, or 0.5 percent above the federal funds effective rate, plus a margin of 25 to 100 basis points or, if the Company exercises a LIBOR (London Interbank Offered Rate) option, at the LIBOR rate plus a margin of 125 to 250 basis points per annum. For borrowings by the Company's Canadian subsidiary, U.S. dollar denominated borrowings bear interest at either the greater of the Canadian bank's US Base prime rate or 1.0 percent above the federal funds effective rate, plus a margin of 25 to 100 basis points. Canadian dollar borrowings bear interest at the greater of the bank's Canadian prime rate or 1.0 percent above the CDOR (Canadian Dollar Offered Rate), plus a margin of 25 to 100 basis points or, if the Company exercises a BA (Bankers' Acceptance) loan option, at 0.1 percent above the CDOR rate plus a margin of 125 to 250 basis points per annum. The Company is subject to a \$50,000 annual agency fee and an unused line fee equal to 0.15 percent to 0.50 percent per annum of the monthly average unused borrowings. The margins and unused line fees are dependent on the ratio of funded debt to earnings before interest, taxes, depreciation and amortization ("EBITDA") and are adjusted quarterly. Interest on the revolving credit facility is payable monthly.

The revolving credit facility provides for issuance of letters of credit up to the borrowing base less the outstanding line of credit balance, not to exceed \$10,000,000. A letter of credit fee is charged to the Company equal to the LIBOR rate less 25 basis points on the aggregate undrawn amount of all outstanding letters of credit. The Company also is subject to a fronting fee equal to 0.25 percent per annum of outstanding letters of credit. At September 30, 2003, the aggregate amount of outstanding letters of credit under the credit facility was \$7,750,000.

The revolving credit facility and the Company's real estate loan agreement and related mortgage notes require the Company to be in compliance with specific financial and non-financial covenants and restrictions relating to indebtedness, liens, investments, dividend payments, fixed charge coverage, capital expenditures and the relationship of our total consolidated indebtedness to EBITDA. The Company was in compliance with these covenants at September 30, 2003.

The Company utilizes interest rate swap agreements as cash flow hedges to lock in the interest rate on borrowings and therefore achieve a desired proportion of variable and fixed-rate debt. At September 30, 2003 and December 31, 2002, the Company had outstanding two interest rate swap agreements related to borrowings under the equipment financing facility with aggregate notional amounts of \$7,203,000 and \$8,747,000, respectively, expiring on January 1, 2007. The changes in their fair values resulted in gains of \$77,000 and \$92,000 for the three months and nine months ended September 30, 2003, respectively, and losses of \$208,000 and \$433,000 for the three months and nine months ended September 30, 2002, respectively, which have been recognized in accumulated comprehensive loss within stockholders' equity. The counterparty to these interest rate swap agreements is a major financial institution. The Company continually monitors the credit quality of the

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

financial institution and anticipates full performance by the counterparty.

5. Stock Option Fair Value Disclosure

The Company has adopted the disclosure-only provisions of SFAS No. 123, "Accounting for Stock-Based Compensation," as amended by SFAS No. 148, but applies Accounting Principles Board ("APB") No. 25 and related interpretations in accounting for its plans. If the Company had elected to recognize compensation cost for its stock option plans based on the fair value at the grant dates, consistent with the method prescribed by SFAS No. 123, net income and net income per common share would have been as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2003	2002	2003	2002
	<i>(In thousands, except per share amounts)</i>			
Net income, as reported	\$ 3,016	\$ 1,683	\$ 5,026	\$ 5,264
Stock-based compensation expense included in reported net income, net of tax	107	102	318	305
Total stock-based compensation expense determined under the fair value based method for all awards, net of tax	(279)	(433)	(952)	(1,303)
	\$ 2,844	\$ 1,352	\$ 4,392	\$ 4,266
Pro forma net income				
Basic net income per common share as reported	\$ 0.25	\$ 0.14	\$ 0.42	\$ 0.44
Basic net income per common share pro forma	\$ 0.24	\$ 0.11	\$ 0.36	\$ 0.35
Diluted net income per common share as reported	\$ 0.24	\$ 0.13	\$ 0.41	\$ 0.42
Diluted net income per common share pro forma	\$ 0.23	\$ 0.11	\$ 0.36	\$ 0.34

For purposes of pro forma disclosure, the estimated fair value of the options is amortized ratably over the options' vesting period. The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model. The following weighted-average assumptions were used for the grants in 2002: an expected dividend yield of 0 percent, an average expected life of the options of 6 years, an expected volatility of 46.5 percent and a risk-free interest rate of 4.71 percent. The weighted-average fair value of options granted during 2002 was \$5.22. There were no options granted during the three months and nine months ended September 30, 2003.

9

6. Comprehensive Income

The components of comprehensive income were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2003	2002	2003	2002
	<i>(In thousands)</i>			
Net income	\$ 3,016	\$ 1,683	\$ 5,026	\$ 5,264
Foreign currency translation gains (losses)	(351)	(153)	1,860	394
Change in fair value of cash flow hedge	77	(208)	92	(433)
	\$ 2,742	\$ 1,322	\$ 6,978	\$ 5,225
Comprehensive income				

7. Income Taxes

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

The provision for income taxes for the 2003 and 2002 interim periods was computed in accordance with FASB Interpretation No. 18, "Accounting for Income Taxes in Interim Periods," and was based on projections of total year pretax income in accordance with SFAS No. 109, "Accounting for Income Taxes." The effective income tax rate attributable to continuing operations was 34.6 percent for the three months and 35.3 percent for the nine months ended September 30, 2003, compared to 31.8 percent for the three months and 35.9 percent for the nine months ended September 30, 2002. The effective income tax rates attributable to continuing operations for the three months ended September 30, 2003 and 2002 reflect adjustments based on completion of the prior year income tax returns.

8. Commitments and Contingencies

WARRANTIES

The Company provides for the estimated cost of product warranties at the time revenue is recognized. The Company generally warrants its products for a period ranging from one to five years. Factors considered in determining appropriate accruals for product warranty obligations include size of the installed base of products subject to warranty protection, historical warranty claim rates, historical cost-per claim, and knowledge of specific product failures that are outside the Company's typical experience. The Company assesses the adequacy of its preexisting warranty liabilities and adjusts the amounts as necessary based on actual experience and changes in future expectations.

Information on changes in the Company's accrued warranties and related costs are as follows:

	Nine Months Ended September 30, March 31,	
	2003	2002
	<i>(In thousands)</i>	
Beginning warranty reserves	\$ 4,820	\$ 4,052
Cost of warranty claims	(5,837)	(5,227)
Product warranties acquired	236	
Accruals for product warranties	5,955	5,390
	\$ 5,174	\$ 4,215

INSURANCE RESERVES AND LEGAL CONTINGENCIES

A number of lawsuits, claims and proceedings have been or may be asserted against the Company relating to the conduct of its business, including those pertaining to product liability, personal injury,

patent infringement, commercial, employment and employee benefits. While the outcome of litigation cannot be predicted with certainty and some of these lawsuits, claims or proceedings may be determined adversely to the Company, management does not believe that the disposition of any such pending matters is likely to have a material adverse effect on the Company's financial condition or liquidity, although the resolution in any reporting period of one or more of these matters could have a material adverse effect on the Company's results of operations for that period and ultimately could affect the Company's insurance premiums or its ability to obtain insurance coverage.

As a consumer goods manufacturer and distributor, the Company is subject to continuing risk of product liability and related lawsuits involving claims for substantial monetary damages. The Company is party to various personal injury and property damage lawsuits and claims relating to its products and other litigation incidental to its business. The Company has general liability, product liability and workers' compensation insurance coverage. The Company's insurance coverage provides that the Company is responsible for policy deductibles and legal costs and expenses. Loss accruals have been recorded in accordance with SFAS No. 5, "Accounting for Contingencies" to cover the portion of general liability, product liability and workers' compensation claims, both asserted claims and incurred but not reported claims, that are not covered by insurance policies. Such accruals are based on estimates which include information provided by the Company's insurance company, claims adjusters and insurance broker, taking into account prior experience, numbers of claims, discussions with legal counsel and other relevant factors. The methods of making such estimates and establishing the resulting accrual are reviewed on a regular basis and any adjustments are

reflected in current operating results.

The Company has recorded loss accruals covering the portion of lawsuits and claims not covered by insurance policies of \$4,745,000 and \$6,066,000 as of September 30, 2003 and December 31, 2002, respectively. The amount related to product and general liability lawsuits, asserted claims and incurred but not reported claims was \$3,212,000 and \$4,904,000 as of September 30, 2003 and December 31, 2002, respectively. The amount related to workers' compensation asserted claims and incurred but not reported claims was \$1,533,000 and \$1,162,000 as of September 30, 2003 and December 31, 2002, respectively.

9. Net Income Per Common Share

Basic net income per common share is calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share is calculated by dividing net income by the sum of the weighted average number of common shares outstanding plus the dilutive effect of unvested restricted shares and outstanding stock options using the "treasury stock" method.

A reconciliation of weighted average shares outstanding, used to calculate basic net income per common share, to weighted average shares outstanding assuming dilution, used to calculate diluted net income per common share, is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2003	2002	2003	2002
	<i>(In thousands)</i>			
Weighted average common shares outstanding basic	12,101	12,065	12,086	12,038
Diluted effect of employee stock options and restricted shares	354	493	249	396
Weighted average common shares outstanding diluted	12,455	12,558	12,335	12,434

10. Business Segments

The Company operates in two business segments organized around its products: the Personal Health Care segment and the Pool Products and Heating Systems segment. The Personal Health Care

11

segment designs, manufactures and markets personal health care products including showerheads, consumer and professional oral health products, water filtration products and personal stress relief products. The Pool Products and Heating Systems segment designs, manufactures and markets swimming pool and spa heaters, heat pumps, electronic controls, valves, pumps, filters, water features and residential and commercial water-heating systems.

Information on the Company's business segments is as follows:

11. Subsequent Event

On October 23, 2003, pursuant to the Stock Acquisition and Retention Program ("SARP") under the Company's Employee Stock Purchase Plan, certain officers of the Company tendered back to the Company a total of 178,482 shares of the Company's common stock, which they had originally purchased pursuant to the SARP, as repayment of principle and accrued interest on notes owed by the officers to the Company totaling \$1,999,000. Pursuant to the terms of the SARP, the tendered shares were valued at the average of the high and low market price on the day preceding the date the shares were tendered to the Company. The terms of the SARP permit repayment of loans and interest using shares of common stock originally purchased under the SARP. As a result of the transactions, the number of outstanding shares of the Company's Common Stock were reduced by 178,482.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements regarding future events or the future financial performance of the Company that involve certain risks and uncertainties. Any statements contained in this report, which are not historical fact, may be considered forward-looking statements, and the Company relies upon the "safe harbor" for forward-looking statements provided by Private Securities Litigation Reform Act of 1995. Actual results could differ materially from these forward-looking statements as a result of the risk factors described in the Company's Annual Report on Form 10-K for the year ended December 31, 2002, including, among others, its ability to develop new products and execute its growth strategy, the uncertainty of new product testing and regulatory approvals, the uncertainty that its marketing efforts will achieve the desired results with respect to existing or new products, its dependence on key customers, the seasonal nature of its businesses, the impact on consumer confidence and consumer spending as a result of acts of terrorism and war, the effect of product liability claims, risks associated with using foreign suppliers and failure to protect its intellectual properties. All forward-looking statements in this report and subsequent written or oral statements attributable to the Company are expressly qualified in their entirety by the foregoing factors.

Overview of Business

Water Pik Technologies is a leader in designing, manufacturing and marketing a broad range of well-recognized personal health care products, swimming pool products and water-heating products. We operate in two business segments: the Personal Health Care segment and the Pool Products and Heating Systems segment. The Personal Health Care segment designs, manufactures and markets personal health care products including showerheads, consumer and professional oral health products, water filtration products and personal stress relief products. The Pool Products and Heating Systems segment designs, manufactures and markets swimming pool and spa heaters, heat pumps, electronic controls, valves, pumps, filters, water features and residential and commercial water-heating systems.

On June 2, 2003, as part of our strategic objective to accelerate sales and profit growth in our pool business through development of a more comprehensive package of pool equipment and accessories, we acquired substantially all of the assets of Air Energy Heat Pumps, Inc. and affiliates ("Air Energy"), a Ft. Lauderdale, Florida manufacturer of premium branded heat pumps for swimming pools and spas. The results of operations of Air Energy are included in our consolidated results of operations beginning June 2, 2003.

In December 2002, we formalized a plan to dispose of our Ozone product line, a component of the Personal Health Care segment. The Ozone product line includes the Aquia home sanitizing product introduced in September 2001. We have decided that the promotional investment necessary to create the market for consumer products based on this technology is significantly greater than the available resources. We are actively marketing the Ozone product line toward completing the disposition by December 2003. The operating results of the discontinued product line have been reported separately as discontinued operations in the consolidated statements of operations and the assets and liabilities have been reclassified to other assets and other liabilities in the consolidated balance sheets for all periods presented in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." All discussions and amounts herein for all periods presented relate to continuing operations only unless otherwise noted. As such, the discussions related to prior years have been modified to reflect information on continuing operations only.

Critical Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses Water Pik Technologies' consolidated financial statements, which have been prepared in accordance

13

with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

In "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report of Form 10-K for the year ended December 31, 2002, we have discussed those policies that we believe are critical and require the use of complex judgment in their application. Since the date of that Form 10-K, there have been no material changes to our critical accounting policies or the methodologies or assumptions applied under them.

The results of operations classified as discontinued are excluded from the following discussions of our consolidated and Personal Health Care segment operating results.

Three months ended September 30, 2003 compared to the three months ended September 30, 2002

Sales for the three months ended September 30, 2003 were \$76,129,000, representing an increase of \$8,325,000 or 12.3 percent over the comparable period in 2002 due to an increase of \$10,774,000 in Pool Products and Heating Systems segment sales partially offset by a decrease of \$2,449,000 in Personal Health Care segment sales. The increase in Pool Product and Heating System segment sales includes \$2,230,000 in heat pump sales related to the Air Energy acquisition.

Gross profit (sales less cost of sales) decreased to \$22,210,000 for the three months ended September 30, 2003 compared to \$22,481,000 for the same period in 2002. Gross profit as a percentage of sales for the three months ended September 30, 2003 decreased to 29.2 percent compared with 33.2 percent for the same period in 2002. The decline in gross profit was due primarily to a mix shift to lower margin pool products and to a less profitable product mix within both operating segments as well as to increased sales incentives, discounted sales of slow moving products and higher freight costs in the Personal Health Care segment.

14

Operating income (gross profit less selling, general and administrative, and research and development expenses) increased \$1,382,000 to \$4,993,000 for the three months ended September 30, 2003 from \$3,611,000 for the three months ended September 30, 2002. The increase in operating income was due primarily to decreased selling and research and development expenses partially offset by the decline in gross profit and increased general and administrative expenses. The decrease in selling expenses was due primarily to decreased advertising costs in the Personal Health Care segment. Research and development expenses decreased in both operating segments due to higher costs in 2002 related to new product activities and to the reallocation of engineering resources in the Pool Products and Heating Systems segment to sustaining activities in 2003. The increase in general and administrative expenses was due to general increases in costs including higher insurance and employee-related costs.

Interest expense, which relates to borrowings under credit facilities and to promissory and mortgage notes payable, decreased \$35,000 to \$496,000 for the three months ended September 30, 2003 from \$531,000 for the three months ended September 30, 2002. This decrease was due to a lower weighted average interest rate on borrowings during third quarter 2003 as compared with the same period in 2002.

Nine months ended September 30, 2003 compared to the nine months ended September 30, 2002

Sales for the nine months ended September 30, 2003 were \$208,014,000, representing an increase of \$10,816,000 or 5.5 percent over the comparable period in 2002, due to an increase of \$12,631,000 in Pool Products and Heating Systems segment sales partially offset by a decrease of \$1,815,000 in Personal Health Care segment sales. The increase in Pool Product and Heating System segment sales includes \$2,736,000 in heat pump sales related to the Air Energy acquisition.

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

Gross profit decreased \$2,381,000 to \$61,655,000 for the nine months ended September 30, 2003 from \$64,036,000 for the nine months ended September 30, 2002 due to a decrease of \$2,103,000 in the Personal Health Care segment partially offset by an increase of \$278,000 in the Pool Products and Heating Systems segment. Gross profit as a percentage of sales for the nine months ended September 30, 2003 decreased to 29.6 percent from 32.5 percent for the same period in 2002 due to declines in both operating segments. The decrease was due primarily to a less profitable product mix in both operating segments and to increased sales incentives primarily in the Personal Health Care segment.

Operating income decreased \$2,780,000 to \$9,120,000 for the nine months ended September 30, 2003 from \$11,900,000 for the nine months ended September 30, 2002. The decrease in operating income was due to the decrease in gross profit as discussed above and to an increase in operating expenses of \$339,000. The increase in operating expenses consisted of increases of \$484,000 in selling expenses due to increased advertising and commissions in the Pool Products and Heating System segment, \$691,000 in general and administrative expenses partially offset by a decrease of \$776,000 in research and development expenses in the Personal Health Care segment.

Interest expense decreased \$231,000 to \$1,595,000 for the nine months ended September 30, 2003 from \$1,826,000 for the nine months ended September 30, 2002. This decrease was due to lower weighted average interest rate on lower average borrowings during the nine months ended September 30, 2003 as compared with the same period of 2002.

15

Personal Health Care

Operating income as a percent of sales	4.7%	7.6%		5.8%	7.5%	

Three months ended September 30, 2003 compared to the three months ended September 30, 2002

Sales in the Personal Health Care segment for the three months ended September 30, 2003 were \$30,832,000, a decrease of \$2,449,000 or 7.4 percent over the comparable period in 2002. Sales of oral health products decreased \$353,000 to \$13,129,000 for the three months ended September 30, 2003. Shower products sales increased \$1,176,000 due primarily to increased sales of AquaFall® and New Visions® showerheads. Sales for the other products category decreased \$3,272,000 to \$2,139,000 for the three months ended September 30, 2003 due primarily to decreased sales of personal stress relief products, which were higher in 2002 due to new product introductions and earlier timing of seasonal orders.

Gross profit decreased to \$10,918,000 or 35.4 percent of sales for the three months ended September 30, 2003 from \$13,773,000 or 41.4 percent of sales for the same period in 2002. The decrease in gross profit as a percentage of sales was due primarily to increased sales allowances, discounted sales of slow-moving products, product mix, higher freight costs and lower sales.

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

Operating income decreased \$1,061,000 to \$1,459,000 for the three months ended September 30, 2003 from \$2,520,000 for the three months ended September 30, 2002. Operating income as a percentage of sales decreased to 4.7 percent in the three months ended September 30, 2003 from 7.6 percent for the same period in 2002. The decrease in operating income was due to lower gross profit as discussed above partially offset by decreased selling and research and development expenses.

Nine months ended September 30, 2003 compared to the nine months ended September 30, 2002

Sales in the Personal Health Care segment for the nine months ended September 30, 2003 were \$88,403,000, a decrease of \$1,815,000 or 2.0 percent over the comparable period in 2002. Shower products sales increased \$2,508,000 to \$45,287,000 for the nine months ended September 30, 2003 compared to \$42,779,000 for the same period 2002 due to increased sales of New Visions® and AquaFall® showerheads. Sales of oral health products decreased \$529,000 to \$36,655,000 for the nine months ended September 30, 2003 due to increased sales incentives and lower sales of professional dental products partially offset by increased consumer oral health product sales including sales of the Waterpik® flosser and sales of the new SynchroSonic toothbrush introduced in September 2002. Sales for the other products category decreased \$3,794,000 to \$6,461,000 for the nine months ended September 30, 2003 due primarily to decreased sales of personal stress relief products and water treatment products.

16

Gross profit decreased to \$34,347,000 or 38.9 percent of sales for the nine months ended September 30, 2003 from \$36,450,000 or 40.4 percent of sales for the same period 2002 due to increased sales allowances, higher freight costs and a less favorable product mix partially offset by lower warranty costs.

Operating income decreased \$1,642,000 to \$5,130,000 for the nine months ended September 30, 2003 from \$6,772,000 for the nine months ended September 30, 2002. The decrease in operating income was due to lower gross profit partially offset by decreased research and development expenses.

Pool Products and Heating Systems

Gross profit as a percent of sales	24.9%	25.2%		22.8%	25.8%	
Operating income as a percent of sales	7.8%	3.2%		3.3%	4.8%	

Three months ended September 30, 2003 compared to the three months ended September 30, 2002

Sales in the Pool Products and Heating Systems segment for the three months ended September 30, 2003 were \$45,297,000 an increase of \$10,774,000 or 31.2 percent over the comparable period in 2002. Sales for the pool product category increased \$9,113,000 to \$34,949,000 for the three months ended September 30, 2003 due primarily to increased sales of new pumps and filters, general increases across most product lines driven by our pool builder conversion program and to \$2,230,000 in heat pump sales from the June 2, 2003 acquisition of Air Energy. Water-heating systems sales increased \$1,661,000 to \$10,348,000 for the three months ended September 30, 2003 from the same period in 2002 due to increased sales of commercial and residential products. The increase in commercial sales was driven by the new Laars® Rheos and the

Laars® Pennant boilers.

Gross profit increased \$2,584,000 to \$11,292,000 for the three months ended September 30, 2003 from \$8,708,000 for the same period in 2002. Gross profit as a percentage of sales decreased to 24.9 percent for the three months ended September 30, 2003 from 25.2 percent for the same period in 2002. The increase in gross profit was due primarily to higher sales volume. The decrease in gross profit as a percentage of sales was due primarily to a mix shift to lower margin products and to higher warranty costs.

Operating income increased \$2,443,000 to \$3,534,000 for the three months ended September 30, 2003 from \$1,091,000 for the comparable period of 2002. The increase in operating income was due primarily to the higher gross profit as previously described.

Nine months ended September 30, 2003 compared to the nine months ended September 30, 2002

Sales in the Pool Products and Heating Systems segment were \$119,611,000 for the nine months ended September 30, 2003, an increase of \$12,631,000 or 11.8 percent over the comparable period of 2002. Sales for the pool product category increased \$11,484,000 to \$93,941,000 for the nine months

17

ended September 30, 2003 due primarily to increased sales of pumps and filters, general increases across most product lines driven by our pool builder conversion program and \$2,736,000 in heat pump sales from the acquisition of Air Energy. Water-heating systems sales increased \$1,147,000 to \$25,670,000 for the nine months ended September 30, 2003 from the same period in 2002 due to increased sales of new commercial boilers.

Gross profit decreased \$278,000 to \$27,308,000 or 22.8 percent of sales for the nine months ended September 30, 2003 from \$27,586,000 or 25.8 percent of sales for the same period in 2002 due primarily to product mix and increased warranty costs.

Operating income decreased \$1,138,000 to \$3,990,000 for the nine months ended September 30, 2003 from \$5,128,000 for the comparable period of 2002. The decrease in operating income was due primarily to increased advertising and research and development expenses related to new product development activities, increased sales commissions on higher sales and to the decrease in gross profit as discussed above.

Seasonality

Our business is highly seasonal, with operating results varying from quarter to quarter. The Personal Health Care segment has historically experienced higher sales in the fourth quarter of each year due to stronger retail demand during the holiday season. The Pool Products and Heating Systems segment has historically experienced higher sales in the second and fourth quarters of each year as customers purchase such products in preparation for the cooler weather and in anticipation of the warm spring and summer months. In addition, as a result of the seasonality of product demand, the Pool Products and Heating Systems segment offers incentive programs and extended payment terms to encourage pool product customers to purchase products generally during the fourth quarter, as is consistent with industry practice. Seasonal variations in operating results can also occur due to short-term trends such as changes in the economic environment and weather patterns.

Financial Condition and Liquidity

Our principal capital requirements are to fund working capital needs and capital expenditures and to meet required debt payments. We anticipate that our operating cash flow, together with available borrowings under the credit facilities described below, will be sufficient to meet our working capital requirements, fund capital expenditures and make scheduled principal and interest payments on our debt obligations for at least the next 12 months. However, a decrease in demand for our products or deterioration in our financial ratios under our credit facilities could adversely affect our liquidity.

Cash increased \$2,850,000 from \$1,038,000 at December 31, 2002 to \$3,888,000 at September 30, 2003. Cash provided by operating activities for the nine months ended September 30, 2003 of \$29,886,000 related to continuing operations was used to fund \$7,703,000 of the Air Energy acquisition, to fund capital expenditures of \$3,987,000, to repay borrowings under revolving credit facilities of \$12,756,000 and to make scheduled payments on promissory notes and capital leases of \$2,907,000.

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

Net cash provided by operations for third quarter 2003 results primarily from net income adjusted for non-cash items including depreciation and amortization expense and from collections on accounts receivable balances that are seasonally higher at year-end. This was partially offset by a decrease in accrued liabilities and an increase in inventory. The decrease in accrued liabilities was due primarily to the payment during first quarter 2003 of customer incentive programs, bonuses and commissions accrued for in 2002. The increase in inventory was due primarily to the build-up of inventory in preparation for seasonally strong sales in the fourth quarter as well as to new product inventory including Pool Products new pump and filter and heat pump lines.

18

For the nine months ended September 30, 2002, cash provided by operating activities related to continuing operations of \$19,463,000 was used to repay borrowings under revolving credit facilities of \$8,567,000, to make scheduled payments on promissory notes and capital leases of \$1,746,000 and to fund capital expenditures of \$5,107,000.

Our working capital was \$57,294,000 at September 30, 2003 as compared to \$70,359,000 at December 31, 2002. The decrease in working capital was due to the decrease in accounts receivable partially offset by the increase in inventory and decreases in accounts payable, accrued liabilities and current portion of long-term debt. These fluctuations are reflective of the seasonality of our business. The current ratio increased to 2.2 at September 30, 2003 from 2.3 at December 31, 2002.

We have general liability, product liability and workers' compensation insurance programs. Insurance coverage under these programs is subject to policy deductibles for which we are at risk for losses. The actual settlements or other resolution of claims under these insurance programs may differ from estimated reserves, however, the possible range of loss in excess of those accrued is not reasonably estimable. Based upon currently available information, we do not believe that resolution of any pending insurance claims will have a material adverse effect on our financial condition, results of operations or liquidity although the resolution in any reporting period of one or more of these matters could have a material adverse effect on our results of operations for that period and ultimately could affect the cost of our insurance premiums or our ability to obtain insurance coverage.

On August 27, 2003, we entered into an amended and restated credit agreement with a group of banks for a revolving bank credit facility of up to \$80,000,000, including \$10,000,000 revolving credit availability for our Canadian subsidiary. Borrowings under the facility are limited to borrowing base calculations based on eligible accounts receivable and inventory balances. The credit facility also provides for the issuance of letters of credit up to the borrowing base less the outstanding line of credit, not to exceed \$10,000,000. The credit facility expires on December 1, 2007 and replaced our previous \$60,000,000 revolving credit facility, which was due to expire in November 2004, and our CDN. \$11,000,000 Canadian revolving credit facility. At September 30, 2003, there were \$165,000 in borrowings and \$7,750,000 in letters of credit outstanding under the credit facility with \$27,999,000 of borrowing availability remaining under borrowing base limitations of the credit facility.

On October 22, 2001, we entered into a real estate financing agreement with a bank and mortgaged our four U.S. manufacturing facilities to secure four promissory notes totaling \$20,590,000. The notes require monthly payments of approximately \$69,000 plus accrued interest through August 2008 with a final principal payment of \$14,893,000 and accrued interest due on September 30, 2008. In August 2003, we voluntarily amended the real estate financing agreement to conform certain financial covenants to those in the amended and restated revolving credit facility. The balance outstanding at September 30, 2003 was \$19,011,000.

On December 21, 2001, we entered into a \$15,000,000 equipment financing agreement with a bank. Initial borrowings under the agreement of \$10,290,000 were funded on December 28, 2001 and are evidenced by two term notes secured by specific machinery and equipment located at our manufacturing facilities. The notes require quarterly payments of \$514,500 plus accrued interest beginning on April 1, 2002 with all unpaid principal balances and accrued interest due on January 1, 2007. In January 2002, we entered into interest rate swap agreements that effectively convert the variable rate interest on the \$10,290,000 promissory notes payable to a fixed rate of 6.73 percent. The interest rate swap expires on January 1, 2007. Interest differentials to be paid or received because of the swap agreements are reflected as an adjustment to interest expense over the related period that the debt is outstanding. On September 30, 2002, we borrowed an additional \$4,500,000 under the equipment financing agreement evidenced by two term notes secured by specific machinery and equipment located at our manufacturing facilities and at certain vendors' facilities. The notes require quarterly payments of \$225,000 beginning on December 29, 2002 with all unpaid principal balances and

19

accrued interest due on September 30, 2007. The balance outstanding under this agreement at September 30, 2003 was \$11,028,000. No additional amounts can be borrowed under this agreement.

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

Our revolving credit facility and mortgage notes require us to comply with various financial covenants and restrictions, including covenants and restrictions relating to indebtedness, liens, investments, dividend payments, fixed charge coverage, capital expenditures and the relationship of our total consolidated indebtedness to our earnings before interest, taxes, depreciation and amortization. A security interest in substantially all of our assets was granted as collateral to the lenders under the credit agreements. To the extent that we are not able to comply with the financial covenants, we may be unable to borrow additional amounts and outstanding amounts may become due on an accelerated basis, which would adversely affect our liquidity.

Due to the seasonality of our pool products business, the extended payment term receivables offered during the fall and winter months are collected during the spring and summer. This creates a seasonal peak in borrowing levels during the spring months.

We currently anticipate that no cash dividends will be paid on our Common Stock in order to conserve cash to fund our future operations and growth. In addition, the terms of our credit facilities prohibit us from paying dividends.

As noted above, on August 27, 2003, we replaced our \$60,000,000 revolving credit facility and CDN. \$11,000,000 Canadian revolving credit facility with a \$80,000,000 revolving credit facility. Also, our debt, including borrowings under the revolving credit facility and notes payable, has declined by \$15,418,000 to \$30,290,000 at September 30, 2003 compared to \$45,708,000 at December 31, 2002. Additionally, our long-term noncancelable raw material purchase obligations increased \$2,295,000 to \$4,792,000 at September 30, 2003 from \$2,497,000 at December 31, 2002. There were no other significant changes in our contractual cash obligations and other commercial commitments from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2002. See Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations, Financial Condition and Liquidity" in our Annual Report on Form 10-K for the year ended December 31, 2002.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Reference is made to Part II, Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in the Registrant's Annual Report on Form 10-K for the year ended December 31, 2002. There has been no significant change in the nature or amount of market risk since year-end.

ITEM 4 CONTROLS AND PROCEDURES

As required by Rule 13a-15(b), Water Pik Technologies management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation as of the end of the period covered by this report, of the effectiveness of the Company's disclosure controls and procedures as defined in Exchange Act Rule 13a-15(e). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. During the period covered by this report, there have been no changes in the Company's internal controls over financial reporting, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
