## PROSPECTUS SUMMARY

*This summary highlights selected information contained elsewhere in this prospectus and in documents we file with the Securities and Exchange Commission, or the SEC, that are incorporated by reference in this prospectus. This summary is not complete and does not contain all of the information that you should consider before investing in our common stock. You should read the entire prospectus and the information incorporated by reference in this prospectus carefully, including the financial statements and the related notes appearing elsewhere in this prospectus or incorporated by reference in this prospectus, before making an investment decision. This prospectus contains forward-looking statements, which involve risks and uncertainties. Our actual results could differ materially from those anticipated in such forward-looking statements as a result of certain factors, including those discussed in the "Risk Factors" and other sections of this prospectus and in the documents incorporated by reference in this prospectus. Unless the context otherwise requires, references in this prospectus to "we," "us," "our" and "the Company" refer to TransDigm Group Incorporated and its subsidiaries.*

*As more fully described below under the heading "Recent Developments," on February 7, 2007, we completed the acquisition of Aviation Technologies, Inc., or ATI, and related financing transactions. The acquisition of ATI and the related financing transactions are sometimes collectively referred to in this prospectus as the "Transactions." Except as the context otherwise requires, all pro forma data gives effect to the Transactions.*

*We and ATI have historically reported our financial results based on different fiscal year-ends. References to the Company's "fiscal year" mean the year ending or ended September 30. For example, "fiscal year 2006" or "fiscal 2006" means the period from October 1, 2005 to September 30, 2006. However, references to ATI's fiscal year mean the year ending or ended December 31.*

### Our Company

We believe we are a leading global designer, producer and supplier of highly engineered aircraft components for use on nearly all commercial and military aircraft in service today. Our business is well diversified due to the broad range of products we offer to our customers. Some of our more significant product offerings, substantially all of which are ultimately provided to end-users in the aerospace industry, include ignition systems and components, gear pumps, mechanical/electro-mechanical actuators and controls, NiCad batteries/chargers, power conditioning devices, hold-open rods and locking devices, engineered connectors, engineered latches and cockpit security devices, lavatory hardware and components, specialized AC/DC electric motors, aircraft audio systems, specialized cockpit displays and specialized valving. Each of these product offerings consists of many individual products that are typically customized to meet the needs of a particular aircraft platform or customer.

For fiscal year 2006, we generated net sales of \$435.2 million and net income of \$25.1 million. In addition, for fiscal year 2006, our EBITDA was \$134.3 million, or 30.9% of net sales, our EBITDA As Defined was \$194.4 million, or 44.7% of net sales, and our capital expenditures were \$8.4 million, or 1.9% of net sales. For the twenty-six week period ended March 31, 2007, we generated net sales of \$267.1 million and net income of \$41.8 million. In addition, during the same period, our EBITDA was \$117.4 million, or 44.0% of net sales, our EBITDA As Defined was \$124.5 million, or 46.6% of net sales, and our capital expenditures were \$4.2 million, or 1.6% of net sales.

As described in more detail below, on February 7, 2007, we completed the Transactions. For the twelve-month period ended September 30, 2006, our pro forma net sales would have been \$540.1 million and our pro forma net income would have been \$16.4 million. In addition, for the twelve-month period ended September 30, 2006, our pro forma EBITDA would have been \$160.9 million, or 29.8% of pro forma net sales, and our pro forma EBITDA As Defined would have been \$228.5 million, or 42.3% of pro forma net sales. For the twenty-six week period ended March 31, 2007, our pro forma net sales would have been \$304.9 million and our pro forma net income would have been \$23.6 million. During this same period, our pro forma EBITDA would have been

\$102.8 million, or 33.7% of pro forma net sales, and our pro forma EBITDA As Defined would have been \$136.0 million, or 44.6% of pro forma net sales.

We estimate that over 90% of our net sales for fiscal year 2006 were generated by proprietary products for which we own the design. In addition, for fiscal year 2006, we estimate that we generated approximately 75% of our net sales from products for which we are the sole source supplier. The ATI business has similar characteristics, with approximately 90% of its net sales for its fiscal year ended December 31, 2006 being generated by its proprietary products, and approximately 85% of its net sales during this period being generated from products for which it is the sole source supplier.

Most of our products generate significant aftermarket revenue. Once our parts are designed into and sold as original equipment on an aircraft, we generate net sales from recurring aftermarket consumption over the life of that aircraft. This installed base and our sole source provider position typically generate a long-term stream of aftermarket revenues over the estimated 30-year life of an individual aircraft. We estimate that approximately 60% of our net sales in fiscal year 2006 were generated from aftermarket sales, the vast majority of which come from the commercial and military aftermarkets. These aftermarket revenues have historically produced a higher gross margin and been more stable than sales to original equipment manufacturers, or OEMs. Similarly, we estimate that approximately 50% of ATI's net sales for its fiscal year ended December 31, 2006 were generated from aftermarket sales.

We provide components for a large, diverse installed base of aircraft and, therefore, we are not overly dependent on any single airframe. For example, we estimate that sales to support any single OEM airframe production requirement did not exceed 4% of our net sales for fiscal year 2006, and sales to support any single aftermarket airframe platform did not exceed 5% of our net sales for this same period.

### Industry and Market Overview

We primarily compete in the commercial and military aerospace industry. The commercial aftermarket, where we have historically derived the largest percentage of our net sales, has generally been more stable and has exhibited more consistent growth compared to the commercial OEM market, which has historically exhibited cyclical swings due to changes in production rates for new aircraft. We believe that over any extended period, commercial aftermarket revenue is driven primarily by the number of miles flown by paying customers of commercial airlines, which is known in the industry and referred to in this prospectus as revenue passenger miles, or RPMs, and by the size and age of the worldwide aircraft fleet.

Historically, aftermarket and OEM sales in the military sector tend to follow defense spending. Military aftermarket revenue is driven primarily by the operational tempo of the military, while military OEM revenue is driven primarily by spending on new systems and platforms.

### Our Competitive Strengths

We believe our key competitive strengths include:

**Large and Growing Installed Product Base with Aftermarket Revenue Stream.** We provide components to a large and growing installed base of aircraft to which we supply aftermarket products. We estimate that our products are installed on more than 40,000 commercial transport, regional transport, military and general aviation fixed wing turbine aircraft and over 15,000 rotary wing aircraft.

**Diversified Revenue Base.** We believe that our diversified revenue base reduces our dependence on any particular product, platform or market segment and has been a significant factor in maintaining our financial performance. Our products are installed on almost all of the major commercial aircraft platforms now in production, including the Boeing 737, 747, 757, 767 and 777, the Airbus A300/310, A319/20/21 and A330/340, the Bombardier CRJ's and Challenger, the Embraer RJ's, the Cessna Citation family, the Raytheon Premier and Hawker and most Gulfstream airframes. Military platforms

include aircraft such as the Boeing C-17, F-15 and F-18, the Lockheed Martin C-130J and F-16, the Northrop Grumman E2C (Hawkeye), the Joint Strikefighter and the Blackhawk, Chinook and Apache helicopters. We expect to continue to develop new products for military and commercial applications. For example, we have been certified to provide, and expect to receive additional certifications to provide, a range of components for the new Boeing 787 and Airbus A380 and A400M.

**Significant Barriers to Entry.** We believe that the niche nature of our markets, the industry's stringent regulatory and certification requirements, the large number of products that we sell and the investments necessary to develop and certify products create barriers to entry for potential competitors. We believe that because we strive to deliver products that meet or exceed our customers' expectations and performance standards, our customers have a reduced incentive to certify another supplier because of the cost and time of the certification process. In addition, concerns about safety and the indirect costs of flight delays if products are unavailable or undependable make our customers hesitant to switch to new suppliers.

**Strong Cash Flow Generation.** We have generated strong recurring operating cash flow as a result of our historically high margins and low capital expenditure requirements. We believe that our high margins are the result of the value we provide to our customers through our engineering, service and manufacturing capabilities, our focus on proprietary and high margin aftermarket business, our ability to generate profitable new business and our ability to consistently realize productivity savings. For fiscal years 2006, 2005 and 2004, our EBITDA As Defined margins were 44.7%, 43.9% and 46.3%, respectively. In addition, our low recurring capital expenditure requirements, which have historically been approximately 2% of net sales per year, coupled with our consistent installed revenue base, have historically provided us with a stable stream of cash flows.

**Consistent Track Record of Financial Success and Strong Growth.** From fiscal year 1994 to fiscal year 2006, our net sales grew at a Compound Annual Growth Rate, or CAGR, of 19.4%, and during this same period our EBITDA As Defined grew at a CAGR of 28.2%.

**Value-Driven Management Team with a Successful Track Record.** Our operations are managed by a very experienced, value-driven management team with a proven record of growing our business organically, reducing overhead, rationalizing costs and integrating acquisitions. In the aggregate, our management team owns approximately 15.1% of our common stock before this offering, and will own approximately 12.1% of our common stock after this offering (or approximately 11.7% if the underwriters' over-allotment option is exercised in full), in all cases on a fully diluted basis, assuming the exercise of outstanding stock options.

### **Our Business Strategy**

Our business strategy is made up of two key elements: (1) a value-driven operating strategy focused around our three core value drivers; and (2) a selective acquisition strategy.

**Value-Driven Operating Strategy.** Our three core value drivers are:

*Obtaining Profitable New Business.* We attempt to obtain profitable new business by using our technical expertise, application skill and our detailed knowledge of our customer base and the individual niche markets in which we operate. We develop reliable, high value-added products that meet our customers' specific new application requirements and/or solve problems with current applications. We have regularly been successful in identifying and developing both aftermarket and OEM products to drive our growth. We work closely with OEMs, airlines and other end users to identify components that are not meeting their performance or reliability expectations. We then attempt to develop products that meet or exceed their expectations. For example, Airbus S.A.S. selected us to design the security bolting system that has been installed on all Airbus cockpit doors to comply with the Federal Aviation Administration, or the FAA, and European regulatory requirements adopted after the events of September 11, 2001. In addition, we have been selected to design and produce the flight deck audio system for the Boeing 787 aircraft.

*Improving Our Cost Structure.* We attempt to make improvements to our cost structure through detailed attention to the cost of each of the products that we offer and our organizational structure, with a focus on reducing the cost of each. By maintaining this detailed focus across each area of our company, we have been able to consistently improve our overall cost structure through all phases of the market cycles of the aerospace industry.

*Providing Highly Engineered Value-Added Products to Customers.* We focus on the engineering, manufacturing and marketing of a broad range of highly engineered niche products that we believe provide value to our customers. We have been consistently successful in communicating to our customers the value of our products. This has generally enabled us to price our products to fairly reflect the value we provide and the resources required to do so.

*Selective Acquisition Strategy.* We selectively pursue the acquisition of proprietary component businesses when we see an opportunity to create value through the application of our three core value-driven operating strategies. The aerospace industry, in particular, remains highly fragmented, with many of the companies in the industry being small private businesses or small non-core operations of larger businesses. We have significant experience among our management team in executing acquisitions and integrating acquired businesses into our company and culture, having successfully acquired and integrated 19 businesses and/or product lines since our formation in 1993.

### Recent Developments

On February 7, 2007, we completed the acquisition of ATI, which resulted in ATI becoming a wholly owned subsidiary of TransDigm Inc. Stockholders of ATI received cash in exchange for their shares of ATI. The aggregate purchase price paid by TransDigm Inc. in connection with the acquisition was \$430.1 million, which included the amounts paid by TransDigm Inc. in connection with the repayment of ATI's outstanding indebtedness and the transaction expenses of ATI.

ATI serves the aerospace and defense marketplace with a proprietary, sole source, custom engineered product offering through its wholly owned subsidiaries, Avtech Corporation and ADS/Transicoil. Avtech Corporation has been an industry leader in the design, development and manufacture of electronic systems for the aerospace industry, focusing on audio and power systems, cabin and other lighting products and power control products. ADS/Transicoil focuses on developing and manufacturing products involving micro-mechanics and sophisticated electronics primarily for aerospace and defense applications, including liquid crystal and other cockpit displays, clocks, motors and related components and instruments. We believe that the acquisition of ATI will expand our existing positions in aerospace motors and electrical power applications as well as open up a new growth platform in flight deck and cabin electronics products.

ATI sells a significant amount of proprietary products with substantial aftermarket content. Approximately 90% of ATI's net sales for its fiscal year ended December 31, 2006 were generated from proprietary products and approximately 50% of ATI's net sales during this period were related to the aftermarket. In addition, approximately 80% of ATI's net sales for its fiscal year ended December 31, 2006 came from the commercial sector, with the remaining 20% of such net sales coming from the military sector. ATI has a diversified revenue base with its products installed on almost all of the major commercial platforms now in production, including the Boeing 737, 747, 757, 767 and 777, the Airbus A300/310, A319/20/21, the Bombardier CRJs and Challenger and the Embraer RJs, which reduces its dependence on any particular product or platform. In addition, ATI services most of the same military platforms that we currently serve.

We financed the ATI acquisition through additional borrowings under our senior secured credit facility, the issuance by TransDigm Inc. of additional senior subordinated notes and the use of a portion of our available cash balances. Specifically, on January 25, 2007, we entered into an amendment to our senior secured credit facility which provided for, among other things, an additional term loan of \$130 million. In addition, on February 7, 2007, TransDigm Inc. issued and sold \$300 million of its 7<sup>3</sup>/<sub>4</sub>% senior subordinated notes due 2014, or the new senior subordinated notes. The new senior

## Edgar Filing: TransDigm Group INC - Form 424B4

subordinated notes were issued under the indenture dated as of June 23, 2006 pursuant to which TransDigm Inc. previously issued \$275 million in aggregate principal amount of its 7<sup>3/4</sup>% senior subordinated notes due 2014, or the original senior subordinated notes. The new senior subordinated notes and the original senior subordinated notes are sometimes collectively referred to in this prospectus as the "senior subordinated notes." We used the net proceeds from the issuance and sale of the new senior subordinated notes, together with the net proceeds from the borrowing under the additional term loan under our senior secured credit facility and a portion of our existing cash balances, to fund our acquisition of ATI and to pay related transaction expenses.

### Organizational Structure and Related Matters

TransDigm Inc. was formed in July 1993 in connection with the acquisition of certain companies from IMO Industries Inc. TransDigm Group Incorporated, or TD Group, was formed in July 2003 at the direction of Warburg Pincus Private Equity VIII, L.P., or Warburg Pincus, to facilitate the acquisition of TransDigm Holding Company, or TransDigm Holdings. On July 22, 2003, TD Acquisition Corporation, a newly formed, wholly-owned subsidiary of TD Group, was merged with and into TransDigm Holdings with TransDigm Holdings continuing as the surviving corporation. Contemporaneously with the completion of that merger, a newly formed, wholly-owned subsidiary of TD Acquisition Corporation was merged with and into TransDigm Inc., with TransDigm Inc. continuing as the surviving corporation. These mergers are sometimes referred to in this prospectus as the "Mergers." Upon the completion of the Mergers, TransDigm Holdings became a wholly-owned subsidiary of TD Group, and TransDigm Inc. continued to be a wholly-owned subsidiary of TransDigm Holdings. In an effort to simplify our organizational structure, on June 26, 2006, TransDigm Holdings was merged with and into TransDigm Inc., with TransDigm Inc. continuing as the surviving corporation. TransDigm Holdings did not conduct any operations and did not have any significant assets other than its ownership interest in TransDigm Inc. Accordingly, as of the date of this prospectus, TransDigm Inc. is a wholly-owned subsidiary of TD Group.

On March 20, 2006, certain of our stockholders and certain members of our management sold an aggregate of 12,597,756 shares of our common stock in an underwritten initial public offering, or the initial public offering, at a price of \$21.00 per share. We did not offer any shares of common stock for sale in the initial public offering and we did not receive any of the proceeds from the sale of shares by the selling stockholders. Our common stock is listed on The New York Stock Exchange, or the NYSE, under the trading symbol "TDG." The last reported sale price of our common stock on the NYSE on May 21, 2007 was \$35.50 per share.

In connection with the initial public offering, Warburg Pincus and certain other then existing stockholders of TD Group contributed an aggregate of 31,093,057 shares of our common stock to TD Group Holdings, LLC, or TD Group, LLC, in exchange for membership interests in TD Group, LLC. As of the date of this prospectus, TD Group, LLC owns an aggregate of 31,093,057 shares of our common stock, and Warburg Pincus owns approximately 84.4% of the membership interests in TD Group, LLC. In addition, Warburg Pincus is the managing member of TD Group, LLC and, as such, controls all decisions with respect to the voting and disposition of our shares of common stock held by TD Group, LLC. TD Group, LLC is selling shares of common stock in this offering. After giving effect to this offering, TD Group, LLC will own 22,645,285 shares of our common stock (or 21,378,120 shares of our common stock if the underwriters' over-allotment option is fully exercised).

### Corporate Information

Our executive offices are located at 1301 East 9<sup>th</sup> Street, Suite 3710, Cleveland, Ohio 44114 and our telephone number is (216) 706-2960. **The Offering**

Common stock offered by the selling stockholders	10,000,000 shares (11,500,000 shares if the underwriter's over-allotment option is fully exercised).
Underwriters' over-allotment option	1,500,000 shares.
Common stock to be outstanding after this offering	46,582,957 shares (46,805,628 shares if the underwriters' over-allotment option is fully exercised).
Use of Proceeds	The proceeds from the sale of shares of our common stock offered pursuant to this prospectus are solely for the account of the selling stockholders. We will not receive any proceeds from the sale of shares by the selling stockholders. See "Use of Proceeds."
The New York Stock Exchange symbol	TDG
Risk Factors	See "Risk Factors" on page 12 of this prospectus for a discussion of factors you should carefully consider before deciding to invest in our common stock.
Dividend Policy	We do not anticipate declaring or paying any regular cash dividends on our common stock in the foreseeable future. Any payment of cash dividends on our common stock in the future will be at the discretion of our Board of Directors and will depend upon our results of operations, earnings, capital requirements, financial condition, future prospects, contractual restrictions and other factors deemed relevant by our Board of Directors.

Members of our management will exercise stock options in order to sell shares of common stock in this offering, and the number of shares of common stock to be outstanding immediately after this offering includes shares of common stock which will be issued upon exercise of stock options, and subsequently sold in this offering.

The number of shares to be outstanding immediately after this offering is based on 45,098,507 shares of our common stock outstanding as of April 28, 2007, and excludes:

6,407,353 shares of our common stock (or 6,184,682 shares if the underwriters' over-allotment option is fully exercised) issuable upon the exercise of options to purchase shares of our common stock that will be outstanding immediately after this offering, at a weighted average exercise price of \$8.91 per share (or \$9.13 per share if the underwriters' over-allotment option is fully exercised); and

2,681,773 shares of our common stock reserved for future grants under our stock compensation plans as of April 28, 2007.

In this prospectus, references to the number of shares of our common stock outstanding includes shares of restricted common stock issued under our stock compensation plans. As of April 28, 2007, there were 4,190 shares of restricted common stock outstanding under our stock compensation plans.

Unless otherwise indicated, all information contained in this prospectus assumes no exercise of the underwriters' over-allotment option.

**Summary Historical and Pro Forma Condensed Consolidated Financial Data**

TD Group was formed in July 2003 under the name TD Holding Corporation to facilitate the consummation of the Mergers. TD Group does not have any operations other than through its ownership of its direct and indirect subsidiaries.

The following table sets forth summary historical consolidated financial and other data of TD Group for the fiscal years ended September 30, 2006, 2005 and 2004, which have been derived from TD Group's audited consolidated financial statements. The following table also sets forth summary historical consolidated financial and other data of TD Group as of March 31, 2007 and for the twenty-six week periods ended March 31 2007 and April 1, 2006, which have been derived from TD Group's unaudited consolidated financial statements.

On July 9, 2004, TransDigm Inc. acquired all of the outstanding capital stock of Avionic Instruments, Inc. On December 31, 2004, Skurka Aerospace Inc., or Skurka, acquired certain assets and assumed certain liabilities of Skurka Engineering Company. On January 28, 2005, TransDigm Inc. acquired all of the outstanding capital stock of Fluid Regulators Corporation. On June 30, 2005, Skurka acquired an aerospace motor product line from Eaton Corporation. On May 1, 2006, Skurka acquired certain assets and assumed certain liabilities of Electra-Motion, Inc. On June 12, 2006, TransDigm Inc. acquired all of the outstanding capital stock of Sweeney Engineering Corp. On October 3, 2006, TransDigm Inc. acquired all of the issued and outstanding capital stock of CDA InterCorp. On February 7, 2007, TransDigm Inc. completed the merger with ATI, resulting in ATI becoming a wholly-owned subsidiary of TransDigm Inc. The results of operations of the acquired entities, businesses and product line are included in TD Group's consolidated financial statements from the date of each of the acquisitions.

The following table also sets forth summary pro forma condensed consolidated financial and other data (i) for the twelve-month period ended September 30, 2006 and (ii) for the twenty-six week period ended March 31, 2007, which we have derived from and should be read in conjunction with our unaudited pro forma condensed consolidated financial and other data included elsewhere in this prospectus. The unaudited condensed consolidated pro forma statement of operations data set forth below gives effect to the Transactions as if they had occurred on October 1, 2005. The summary pro forma condensed consolidated financial information set forth below should not be considered indicative of actual results that would have been achieved had the Transactions occurred on the respective date indicated and do not purport to indicate results of operations as of any future date or for any future period. We cannot assure you that the assumptions used in the preparation of the pro forma condensed consolidated financial information will prove to be correct.

We present in this prospectus certain financial information based on our EBITDA and EBITDA As Defined. Neither EBITDA nor EBITDA As Defined is a measurement of financial performance under accounting principles generally accepted in the United States of America, or GAAP, and neither of these financial measures should be considered an alternative to net income or operating cash flows determined in accordance with GAAP, and our calculation of EBITDA and EBITDA As Defined may not be comparable to the calculation of similarly titled measures reported by other companies. While we believe that the presentation of EBITDA and EBITDA As Defined will enhance an investor's understanding of our operating performance, the use of EBITDA and EBITDA As Defined as analytical tools has limitations and you should not consider either of them in isolation, or as a substitute for an analysis of our results of operations as reported in accordance with GAAP. For a reconciliation of EBITDA and EBITDA As Defined to net income and for a description of the manner in which management uses these non-GAAP financial measures to evaluate our business, the economic substance behind management's decision to use these non-GAAP financial measures, the material limitations associated with the use of these non-GAAP financial measures and the manner in which management compensates for these limitations and the reasons why management believes these non-GAAP financial measures provide useful information to investors, please refer to footnotes 6 and 7 below.

- (1) TD Group's fiscal year ends on September 30. Prior to the acquisition, ATI's fiscal year ended on December 31. For purposes of determining the pro forma statement of operations and other financial data for the twelve-month period ended September 30, 2006, we utilized TD Group's statement of income and other financial data for its fiscal year ended September 30, 2006, and ATI's statement of income and other financial data for its fiscal year ended December 31, 2006. In addition, for purposes of determining the pro forma statement of operations and other financial data for the twenty-six week period ended March 31, 2007, we utilized TD Group's statement of income and other financial data for its twenty-six week period ended March 31, 2007, and ATI's statement of income and other financial data for the period from October 1, 2006 to February 7, 2007, the closing date of the Transactions.
- (2) Gross profit and income from operations include the effect of charges relating to purchase accounting adjustments to inventory associated with the acquisition of various businesses and a product line during the pro forma twelve-month period ended September 30, 2006 of \$5.2 million, the fiscal years ended September 30, 2006, 2005 and 2004 of \$0.2 million, \$1.5 million and \$18.5 million, respectively, the pro forma twenty-six week period ended March 31, 2007 of \$1.1 million and the twenty-six week periods ended March 31, 2007 and April 1, 2006, of \$2.5 million and \$0, respectively.
- (3) Represents costs incurred in connection with the refinancing transactions completed in June 2006, including the premium paid to redeem the 8<sup>3</sup>/<sub>8</sub>% senior subordinated notes of TransDigm Inc. of \$25.6 million, the write off of debt issue costs of \$22.9 million and other expenses of \$0.1 million.
- (4) Represents a non-cash charge recorded by ATI relating to the disposal of certain property, plant and equipment by ATI during its fourth fiscal quarter ended December 31, 2006.
- (5) Computed as total current assets less total current liabilities.
- (6) EBITDA represents earnings before interest, taxes, depreciation and amortization. EBITDA As Defined represents EBITDA plus, as applicable for the relevant period, inventory purchase accounting adjustments, acquisition integration costs, non-cash compensation and deferred compensation costs, one-time special bonus payments made to members of our management in November 2005, certain acquisition earnout costs, certain other non-cash and non-recurring expenses and certain costs and expenses incurred in connection with our financing activities and the initial public offering.

We present EBITDA because we believe it is a useful indicator of our operating performance. Our management believes that EBITDA is useful to investors because it is frequently used by securities analysts, investors and other interested parties to measure a company's operating performance without regard to items such as interest expense, income tax expense and depreciation and amortization, which can vary substantially from company to company depending upon, among other things, accounting methods, book value of assets, capital structure and the method by which assets are acquired. We also believe EBITDA is useful to our management and investors as a measure of comparative operating performance between time periods and among companies as it is reflective of changes in pricing decisions, cost controls and other factors that affect operating performance.

## Edgar Filing: TransDigm Group INC - Form 424B4

Our management uses EBITDA As Defined to review and assess our operating performance and management team in connection with our employee incentive programs, the preparation of our annual budget and financial projections. Our management also believes that EBITDA As Defined is useful to investors because the revolving credit facility under our

## Edgar Filing: TransDigm Group INC - Form 424B4

senior secured credit facility requires compliance, on a pro forma basis, with a first lien leverage ratio, which is measured based on our Consolidated EBITDA. The senior secured credit facility defines Consolidated EBITDA in the same manner as we have defined EBITDA As Defined.

Although we use EBITDA and EBITDA As Defined as measures to assess the performance of our business and for the other purposes set forth above, the use of these non-GAAP financial measures as analytical tools has limitations, and you should not consider any of them in isolation, or as a substitute for analysis of our results of operations as reported in accordance with GAAP. Some of these limitations are:

none of these measures reflects the significant interest expense, or the cash requirements necessary to service interest payments, on our indebtedness;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and none of these measures reflects any cash requirements for such replacements;

the omission of the substantial amortization expense associated with our intangible assets further limits the usefulness of these measures;

none of these measures includes the payment of taxes, which is a necessary element of our operations; and

EBITDA As Defined excludes the cash expense we have incurred to integrate acquired businesses into our operations, which is a necessary element of certain of our acquisitions.

Because

of these limitations, EBITDA and EBITDA As Defined should not be considered as measures of discretionary cash available to us to invest in the growth of our business. Management compensates for these limitations by not viewing EBITDA or EBITDA As Defined in isolation, and specifically by using other GAAP measures, such as net income, net sales and operating profit, to measure our operating performance. Neither EBITDA nor EBITDA As Defined is a measurement of financial performance under GAAP and neither should be considered as an alternative to net income or cash flow from operations determined in accordance with GAAP, and our calculation of EBITDA and EBITDA As Defined may not be comparable to the calculation of similarly titled measures reported by other companies.

- (8) The EBITDA margin represents the amount of EBITDA as a percentage of net sales. The EBITDA As Defined margin represents the amount of EBITDA As Defined as a percentage of net sales.

## RISK FACTORS

*Investing in our common stock involves a high degree of risk. You should carefully consider the risks described below, together with the other information contained in this prospectus and in the documents incorporated by reference into this prospectus, before making your decision to invest in shares of our common stock. These risks could have a material and adverse impact on our business, results of operations, financial condition and cash flows. If that were to happen, the trading price of our common stock could decline, and you could lose all or part of your investment.*

### **Risks Related to Our Business**

*Future terrorist attacks may have a material adverse impact on our business.*

Following the September 11, 2001 terrorist attacks, passenger traffic on commercial flights was significantly lower than prior to the attacks and many commercial airlines reduced their operating schedules. Overall, the terrorist attacks resulted in billions of dollars in losses to the airline industry. Any future acts of terrorism and any military response to such acts could result in further acts of terrorism and additional hostilities, including possible retaliatory attacks on sovereign nations, as well as financial, economic and political instability. While the precise effects of any such terrorist attack, military response or instability on our industry and our business is difficult to determine, it could result in further reductions in the use of commercial aircraft. If demand for new aircraft and spare parts decreases, demand for certain of our products would also decrease.

*Our business is sensitive to the number of flight hours that our customers' planes spend aloft, the size and age of the worldwide aircraft fleet and our customers' profitability. These items are, in turn, affected by general economic conditions.*

Our business is directly affected by, among other factors, changes in RPMs, the size and age of the worldwide aircraft fleet and, to a lesser extent, changes in the profitability of the commercial airline industry. RPMs and airline profitability have historically been correlated with the general economic environment, although national and international events also play a key role. For example, RPMs declined primarily as a result of increased security concerns among airline customers following the events of September 11, 2001. In addition, in recent years, the airline industry has been severely affected by the downturn in the global economy, higher fuel prices, the Severe Acute Respiratory Syndrome, or SARS, epidemic and the conflicts in Afghanistan and Iraq. As a result of the substantial reduction in airline traffic resulting from these events, the airline industry incurred, and some in the industry continue to incur, large losses and financial difficulties. Some carriers have also parked or retired a portion of their fleets and have reduced workforces and flights. During periods of reduced airline profitability, some airlines may delay purchases of spare parts, preferring instead to deplete existing inventories. If demand for new aircraft and spare parts decreases, there would be a decrease in demand for certain of our products.

*Our sales to manufacturers of large aircraft are cyclical, and a downturn in sales to these manufacturers may adversely affect us.*

Our sales to manufacturers of large commercial aircraft, which accounted for approximately 15% of our net sales in fiscal year 2006, have historically experienced periodic downturns. In the past, these sales have been affected by airline profitability, which is impacted by, among other things, fuel and labor costs, price competition, downturns in the global economy and national and international events, such as the events of September 11, 2001. Prior downturns have adversely affected our net sales, gross margin and net income.

*We rely heavily on certain customers for much of our sales.*

Our two largest customers for fiscal year 2006 were Honeywell International Inc. and Aviall, Inc. (a distributor of commercial aftermarket parts to airlines throughout the world). These customers accounted for approximately 10% and 9%, respectively, of our net sales in fiscal year 2006. Our top ten customers for fiscal year 2006 accounted for approximately 48% of our net sales. In addition, during the second half of fiscal 2006, The Boeing Company acquired Aviall, Inc. During fiscal 2006, The Boeing Company accounted for approximately 7% of our net sales, and therefore its acquisition of Aviall, Inc. increases our reliance on The Boeing Company as a customer. Honeywell International Inc. and The Boeing Company are also significant customers of ATI, accounting for approximately 7% and 19%, respectively, of ATI's net sales for its fiscal year ended December 31, 2006, and as a result of our acquisition of ATI, our reliance on these two customers has increased.

*We generally do not have guaranteed future sales of our products. Further, we enter into fixed price contracts with some of our customers, so we bear the risk of cost overruns.*

As is customary in our business, we do not generally have long-term contracts with most of our aftermarket customers and, therefore, do not have guaranteed future sales. Although we have long-term contracts with many of our OEM customers, some of those customers may terminate these contracts on short notice and, in many other cases, our customers have not committed to buy any minimum quantity of our products. In addition, in certain cases, we must anticipate the future volume of orders based upon the historic purchasing patterns of customers and upon our discussions with customers as to their anticipated future requirements, and this anticipated future volume of orders may not materialize.

We also have entered into multi-year, fixed-price contracts with some of our OEM customers, pursuant to which we have agreed to perform the work for a fixed price and, accordingly, realize all the benefit or detriment resulting from any decreases or increases in the costs of making these products. Sometimes we accept a fixed-price contract for a product that we have not yet produced, and this increases the risk of cost overruns or delays in the completion of the design and manufacturing of the product. Most of our contracts do not permit us to recover increases in raw material prices, taxes or labor costs, although some contracts allow renegotiation to address certain material adverse changes.

*U.S. military spending is dependent upon the U.S. defense budget.*

The U.S. Department of Defense, or the DOD, budget has generally increased for each fiscal year from fiscal year 1997 to the budget for fiscal year 2007, and, based on the Bush Administration's current Future Year Defense Program, the DOD budget is expected to continue to increase modestly through fiscal year 2010. However, future DOD budgets after fiscal year 2007 could be negatively impacted by several factors, including but not limited to the U.S. Government's budget deficits, spending priorities, the cost of sustaining the U.S. military presence in Iraq and Afghanistan and possible political pressure to reduce U.S. Government military spending, each of which could cause the DOD budget to remain unchanged or to decline. A significant decline in U.S. military expenditures in the future could result in a reduction in the amount of our products sold to the various agencies and buying organizations of the U.S. Government.

***We are subject to certain unique business risks as a result of supplying equipment and services to the U.S. Government. In addition, government contracts contain unfavorable termination provisions and are subject to modification and audit.***

Companies engaged in supplying defense-related equipment and services to U.S. Government agencies are subject to business risks specific to the defense industry. These risks include the ability of the U.S. Government to unilaterally:

suspend us from receiving new contracts pending resolution of alleged violations of procurement laws or regulations;

terminate existing contracts;

reduce the value of existing contracts; and

audit our contract-related costs and fees, including allocated indirect costs.

Most of our U.S. Government contracts can be terminated by the U.S. Government either for its convenience or if we default by failing to perform under the contract. Termination for convenience provisions provide only for our recovery of costs incurred or committed, settlement expenses and profit on the work completed prior to termination. Termination for default provisions provide for the contractor to be liable for excess costs incurred by the U.S. Government in procuring undelivered items from another source.

On contracts where the price is based on cost, the U.S. Government may review our costs and performance, as well as our accounting and general business practices. Based on the results of such audits, the U.S. Government may adjust our contract-related costs and fees, including allocated indirect costs. In addition, under U.S. Government purchasing regulations, some of our costs, including most financing costs, amortization of intangible assets, portions of research and development costs, and certain marketing expenses may not be subject to reimbursement.

Approximately 7% of our net sales in fiscal year 2006 were to the U.S. Government through various agencies and buying organizations.

In addition to these U.S. Government contract risks, we are at times required to obtain approval from U.S. Government agencies to export our products. Additionally, we are not permitted to export some of our products. A determination by the U.S. Government that we failed to receive required approvals or licenses could eliminate or restrict our ability to sell our products outside the United States, and the penalties that could be imposed by the U.S. Government for failure to comply with these laws could be significant.

***Certain of our divisions and subsidiaries have been subject to a pricing review by the DOD Office of the Inspector General.***

Five of our divisions and subsidiaries have been subject to a DOD Office of the Inspector General review of our records for the purpose of determining whether the DOD's various buying offices negotiated "fair and reasonable" prices for spare parts purchased from those five divisions and subsidiaries in fiscal years 2002 through 2004. On April 19, 2006, the Inspector General issued its final report dated February 23, 2006 and made public a redacted version of the report. The report recommends (i) that the Defense Logistics Agency request that those five subsidiaries and divisions voluntarily refund, in the aggregate, approximately \$2.6 million for allegedly overpriced parts and (ii) that Defense Logistics Agency contracting officers reevaluate their procedures for determining the reasonableness of pricing for sole source spare parts purchased from those divisions and subsidiaries and seek to develop Strategic Supplier Alliances with those divisions and subsidiaries.

Our position has been, and continues to be, that our pricing has been fair and reasonable and that there is no legal basis for the amount suggested as a refund by the Inspector General in its report. In response to the report, we offered reasons why we disagree with the Inspector General's overall analysis and why computations related to a voluntary refund contained in the report fail to consider key data, such as actual historical sales. If the Defense Logistics Agency requests a voluntary refund from any of our divisions or subsidiaries, we would consider such a request under the circumstances existing at that time.

In February 2006, the Defense Logistics Agency made a request to initiate discussions regarding future pricing and developing an acquisition strategy that would mutually strengthen our business relationship with the Defense Logistics Agency. The parties have discussed future purchasing but negotiations regarding Strategic Supplier Alliances have not commenced, but will likely occur at a later date. As a result of those negotiations, it is possible that the divisions and subsidiaries subject to the pricing review will enter into Strategic Supplier Alliances with the Defense Logistics Agency. It is likely that in connection with any Strategic Supplier Alliance, the Defense Logistics Agency will seek prices for parts based on cost. It is also possible that the DOD may seek alternative sources of supply for such parts. The entry into Strategic Supplier Alliances or a decision by the DOD to pursue alternative sources of supply for parts we currently provide could reduce the amount of revenue we derive from, and the profitability of certain of our supply arrangements with, certain agencies and buying organizations for the U.S. Government.

***Our business may be adversely affected if we would lose our government or industry approvals or if more stringent government regulations are enacted or if industry oversight is increased.***

The aerospace industry is highly regulated in the United States and in other countries. In order to sell our components, we and the components we manufacture must be certified by the FAA, the DOD and similar agencies in foreign countries and by individual manufacturers. If new and more stringent government regulations are adopted or if industry oversight increases, we might incur significant expenses to comply with any new regulations or heightened industry oversight. In addition, if material authorizations or approvals were revoked or suspended, our business would be adversely affected.

***We are dependent on our highly trained employees and any work stoppage or difficulty hiring similar employees could adversely affect our business.***

Because our products are complicated and highly engineered, we depend on an educated and trained workforce. There is substantial competition for skilled personnel in the aircraft component industry, and we could be adversely affected by a shortage of skilled employees. We may not be able to fill new positions or vacancies created by expansion or turnover or attract and retain qualified personnel.

As of March 31, 2007, we had approximately 2,000 employees. Approximately 6% of our employees were represented by the United Steelworkers Union, approximately 4% were represented by the United Automobile, Aerospace and Agricultural Implement Workers of America and approximately 4% were represented by the International Brotherhood of Electrical Workers. Collective bargaining agreements between us and these labor unions expire in April 2008, November 2008 and May 2009, respectively. Although we believe that our relations with our employees are satisfactory, we cannot assure you that we will be able to negotiate a satisfactory renewal of these collective bargaining agreements or that our employee relations will remain stable. Because we maintain a relatively small inventory of finished goods, any work stoppage could materially and adversely affect our ability to provide products to our customers.

***Our business is dependent on the availability of certain components and raw materials from suppliers.***

Our business is affected by the price and availability of the raw materials and component parts that we use to manufacture our components. Our business, therefore, could be adversely impacted by factors affecting our suppliers (such as the destruction of our suppliers' facilities or their distribution infrastructure, a work stoppage or strike by our suppliers' employees or the failure of our suppliers to provide materials of the requisite quality), or by increased costs of such raw materials or components if we were unable to pass along such price increases to our customers. Because we maintain a relatively small inventory of raw materials and component parts, our business could be adversely affected if we were unable to obtain these raw materials and components from our suppliers in the quantities we require or on favorable terms. Although we believe in most cases that we could identify alternative suppliers, or alternative raw materials or component parts, the lengthy and expensive FAA and OEM certification processes associated with aerospace products could prevent efficient replacement of a supplier, raw material or component part.

***We could incur substantial costs as a result of violations of or liabilities under environmental laws and regulations.***

Our operations and facilities are subject to various environmental laws and regulations that govern, among other things, discharges of pollutants into the air and water, the handling, storage and disposal of hazardous materials and wastes, and the remediation of contamination. We could incur substantial costs, including clean-up costs, fines and sanctions and/or third party property damage or personal injury claims, as a result of violations of or liabilities under environmental laws, relevant common law or the environmental permits required for our operations.

Pursuant to certain environmental laws, a current or previous owner or operator of a contaminated site may be held liable for the entire cost of investigation, removal or remediation of hazardous materials, whether or not the owner or operator knew of, or was responsible for, the presence of any hazardous materials. Persons who arrange for the disposal or treatment of hazardous materials may also be held liable for such costs related to a disposal or treatment site, regardless of whether the affected site is owned or operated by them. Contaminants have been detected at some of our present and former sites, principally in connection with historical operations, and investigations and/or clean-ups have been undertaken by us or by former owners of the sites. We also receive inquiries and notices of potential liability with respect to offsite disposal facilities from time to time. Although we are not aware of any sites for which material obligations exist, the discovery of additional contaminants, the imposition of additional clean-up obligations or the initiation of suits for personal injury or damages to property or natural resources could result in significant liability.

***Failure to successfully and efficiently integrate ATI into our operations may adversely affect our operations and financial condition.***

As described above, on February 7, 2007, we completed the acquisition of ATI. The integration of ATI into our operations will be a significant undertaking and will require significant attention from our management team. The acquisition involves the integration of two companies that previously operated independently. This integration is a complex, costly and time-consuming process and we cannot assure you that this process will be successful. In addition, the integration of ATI into our operations will require significant one-time costs for tasks such as site visits and audits and may be difficult to execute, and we cannot guaranty or accurately estimate these costs at this time. Additional integration challenges include, among other things:

retaining existing employees;

persuading our employees and employees of ATI that the business cultures are compatible, maintaining morale, and retaining and integrating key employees;

incorporating new facilities into our business operations, including ATI's operations in Malaysia;

coordinating sales and marketing functions;

combining products and services;

integrating systems; and

maintaining our standards, controls, procedures and policies.

If we are not able to successfully overcome these integration challenges, we may not achieve the benefits we expect from the ATI acquisition.

***We intend to pursue future acquisitions. Our business may be adversely affected if we cannot consummate acquisitions on satisfactory terms, or if we cannot effectively integrate acquired operations.***

A significant portion of our growth has occurred through acquisitions. Any future growth through acquisitions will be partially dependent upon the continued availability of suitable acquisition candidates at favorable prices and upon advantageous terms and conditions. We intend to pursue acquisitions that we believe will present opportunities consistent with our overall business strategy. However, we may not be able to find suitable acquisition candidates to purchase or may be unable to acquire desired businesses or assets on economically acceptable terms. In addition, we may not be able to raise the capital necessary to fund future acquisitions. In addition, acquisitions involve risks that the businesses acquired will not perform in accordance with expectations and that business judgments concerning the value, strengths and weaknesses of businesses acquired will prove incorrect.

We regularly engage in discussions with respect to potential acquisition and investment opportunities. If we consummate an acquisition, our capitalization and results of operations may change significantly. Future acquisitions could likely result in the incurrence of additional debt and contingent liabilities and an increase in interest and amortization expenses or periodic impairment charges related to goodwill and other intangible assets as well as significant charges relating to integration costs.

In addition, we may not be able to successfully integrate any business we acquire into our existing business. The successful integration of new businesses depends on our ability to manage these new businesses and cut excess costs. The successful integration of future acquisitions may also require substantial attention from our senior management and the management of the acquired business, which could decrease the time that they have to service and attract customers and develop new products and services. In addition, because we may actively pursue a number of opportunities simultaneously, we may encounter unforeseen expenses, complications and delays, including difficulties in employing sufficient staff and maintaining operational and management oversight.

***We have recorded a significant amount of intangible assets, which may never generate the returns we expect.***

Our acquisitions have resulted in significant increases in identifiable intangible assets and goodwill. As of March 31, 2007, identifiable intangible assets, which primarily include trademarks, trade names, trade secrets, license agreements and technology, were approximately \$340.0 million, representing approximately 17.3% of our total assets. As of March 31, 2007, goodwill recognized in accounting for the Mergers, the acquisition of ATI and other recent acquisitions was approximately \$1,218.9 million, representing approximately 61.9% of our total assets. We may never realize the full value of our identifiable intangible assets and goodwill, and to the extent we were to determine that our identifiable intangible assets and/or goodwill were impaired within the meaning of applicable accounting regulations, we would be required to write-off the amount of any impairment.

***We face significant competition.***

We operate in a highly competitive global industry and compete against a number of companies, including divisions of larger companies, some of which have significantly greater resources than we do, and therefore may be able to adapt more quickly to new or emerging technologies and changes in customer requirements, or devote greater resources to the promotion and sale of their products than we can. Competitors in our product lines are both U.S. and foreign companies and range in size from divisions of large public corporations to small privately held entities. We believe that our ability to compete depends on high product performance, consistent high quality, short lead-time and timely delivery, competitive pricing, superior customer service and support and continued certification under customer quality requirements and assurance programs. We may have to adjust the prices of some of our products to remain competitive.

***We could be adversely affected if one of our components causes an aircraft to crash.***

Our operations expose us to potential liabilities for personal injury or death as a result of the failure of an aircraft component that we have designed, manufactured or serviced. While we maintain liability insurance to protect us from future products liability claims, in the event of product liability claims our insurers may attempt to deny coverage or any coverage we have may not be adequate. We also may not be able to maintain insurance coverage in the future at an acceptable cost. Any liability not covered by insurance or for which third party indemnification is not available could result in significant liability to us.

In addition, a crash caused by one of our components could damage our reputation for quality products. We believe our customers consider safety and reliability as key criteria in selecting a provider of aircraft components. If a crash were to be caused by one of our components, or if we were to otherwise fail to maintain a satisfactory record of safety and reliability, our ability to retain and attract customers may be materially adversely affected.

***Our substantial indebtedness could adversely affect our financial health and could harm our ability to react to changes in our business. We also may be able to incur a significant amount of additional indebtedness.***

We have a significant amount of indebtedness. As of March 31, 2007, our total indebtedness was \$1,358.0 million (including premium received, net of amortization, in connection with the issuance of the new senior subordinated notes), which would have represented approximately 76.7% of our total capitalization. In addition, we may be able to incur substantial additional indebtedness in the future. For example, as of March 31, 2007 we had \$198.4 million of unused commitments under our revolving loan facility. Although our senior secured credit facility and the indenture governing our senior subordinated notes contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of significant qualifications and exceptions, and the indebtedness incurred in compliance with these qualifications and exceptions could be substantial. If we incur additional debt, the risks associated with our substantial leverage would increase.

Our substantial indebtedness could have important consequences to investors. For example, it could:

increase our vulnerability to general economic downturns and industry conditions;

require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, research and development efforts and other general corporate requirements;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

place us at a competitive disadvantage compared to competitors that have less debt; and

limit, along with the financial and other restrictive covenants contained in the documents governing our indebtedness, among other things, our ability to borrow additional funds, make investments and incur liens.

Our substantial level of indebtedness increases the possibility that we may be unable to generate cash sufficient to pay, when due, the principal of, interest on or other amounts due in respect of our indebtedness. We cannot assure you that our business will generate sufficient cash flow from operations, that currently anticipated cost savings and operating improvements will be realized on schedule or at all or that future borrowings will be available to us under our senior secured credit facility or otherwise in amounts sufficient to enable us to service our indebtedness. If we cannot service our debt, we will have to take actions such as reducing or delaying capital investments, selling assets, restructuring or refinancing our debt or seeking additional equity capital.

***The terms of our senior secured credit facility and the indenture governing our senior subordinated notes may restrict our current and future operations.***

Our senior secured credit facility and the indenture governing our senior subordinated notes contain a number of restrictive covenants that impose significant operating and financial restrictions on us and may limit our ability to engage in acts that may be in our long-term best interests. Our senior secured credit facility and the indenture governing our senior subordinated notes include covenants restricting, among other things, our ability to pay distributions on, redeem or repurchase our capital stock, make investments, sell assets and consolidate, merge or transfer all or substantially all of our assets. A breach of any of these covenants or any of the other covenants contained in our senior secured credit facility or the indenture governing our senior subordinated notes could result in a default under those documents. If any such default occurs, the lenders under our senior secured credit facility and the holders of our senior subordinated notes may elect to declare all outstanding borrowings, together with accrued interest and other amounts payable thereunder, to be immediately due and payable. The lenders under our senior secured credit facility also have the right in these circumstances to terminate any commitments they have to provide further borrowings. In addition, following an event of default under our senior secured credit facility, the lenders under that facility will have the right to proceed against the collateral granted to them to secure the debt.

#### **Risks Related to Our Common Stock**

***Our stock prices may be volatile, and your investment in our common stock could suffer a decline in value.***

There has been significant volatility in the market price and trading volume of equity securities, which is unrelated to the financial performance of the companies issuing the securities. These broad market fluctuations may negatively affect the market price of our common stock. You may not be able to resell your shares at or above the purchase price due to fluctuations in the market price of our common stock caused by changes in our operating performance or prospects, including possible changes due to the cyclical nature of the aerospace industry and other factors such as fluctuations in OEM and aftermarket ordering, which could cause short-term swings in profit margins.

***Future sales of our common stock in the public market could lower our share price.***

A substantial amount of our outstanding stock is held by affiliates and not currently traded in the public market. While the sale of these shares into the open market may be limited by applicable regulations, the holders of these shares are not bound by any contractual obligations not to sell, other than the "lock-up" arrangements described below. Thus, our existing stockholders may sell additional shares of our common stock into the public markets. In addition, we may sell additional shares of our common stock into the public markets or issue convertible debt securities to raise capital in the future. The market price of our common stock could decline as a result of sales of a large number of shares of our common stock in the public markets or the perception that these sales could occur. These sales, or

the possibility that these sales may occur, also might make it more difficult for us to sell equity securities to raise capital at a time and price that we deem appropriate.

After the consummation of this offering, we will have outstanding 46,582,957 shares of common stock and options to purchase an additional 6,407,353 shares of common stock (or 46,805,628 shares of common stock and options to purchase an additional 6,184,682 shares of common stock if the underwriters' over-allotment option is exercised in full). The number of shares of common stock outstanding after this offering includes the shares being sold by the selling stockholders in this offering, which may be resold immediately in the public market. Of the remaining 42,990,310 outstanding shares and shares issuable upon exercise of options, 26,797,252 or 62.3% of our total outstanding shares and shares issuable upon exercise of options will be restricted from immediate resale under the "lock-up" agreements between certain of our current stockholders and option holders and the underwriters described in the section entitled "Underwriting" below, but may be sold into the market after those "lock-up" restrictions expire or if they are waived by Credit Suisse Securities (USA) LLC, as the representative of the underwriters, in its sole discretion. The outstanding shares and shares issuable upon exercise of options subject to the "lock-up" restrictions will generally become available for sale at various times following the expiration of the lock-up agreements, which is 90 days after the date of this prospectus, subject to the volume limitations and manner-of-sale requirements under Rule 144 of the Securities Act of 1933, as amended, or the Securities Act.

***Our principal stockholder and its affiliates will be able to influence matters requiring stockholder approval and could discourage the purchase of our outstanding shares at a premium.***

Warburg Pincus, through its control of TD Group, LLC, may be deemed to beneficially own approximately 68.9% of our outstanding common stock as of April 28, 2007 (after giving effect to this offering, Warburg Pincus, through its control of TD Group, LLC, may continue to be deemed to beneficially own approximately 48.6% of our outstanding common stock (or 45.7% if the underwriters' over-allotment option is exercised in full)). This concentration of ownership may have the effect of delaying, preventing or deterring a change in control of our company, could deprive our stockholders of an opportunity to receive a premium for their common stock as part of a sale or merger of our company and may negatively affect the market price of our common stock. These transactions might include proxy contests, tender offers, mergers or other purchase of common stock that could give you the opportunity to realize a premium over the then-prevailing market price for shares of our common stock.

As a result of Warburg Pincus' control of TD Group, LLC and representation on our Board of Directors, Warburg Pincus will be able to influence all affairs and actions of our company, including matters requiring stockholder approval, such as the election of directors and approval of significant corporate transactions. The interest of Warburg Pincus may differ from the interest of our other stockholders. For example, Warburg Pincus could oppose a third party offer to acquire us that you might consider attractive, and the third party may not be able or willing to proceed unless Warburg Pincus supports the offer. In addition, if our Board of Directors supports a transaction requiring an amendment to our certificate of incorporation, Warburg Pincus, through its control of TD Group, LLC, is currently in a position to defeat any required stockholder approval of the proposed amendment. If our Board of Directors supports an acquisition of us by means of a merger or similar transaction, the vote of Warburg Pincus, as the managing member of TD Group, LLC, alone is currently sufficient to approve or block the transaction under Delaware law. In each of these cases and in similar situations, you may disagree with Warburg Pincus as to whether the action opposed or supported by Warburg Pincus is in the best interest of our stockholders. Furthermore, Warburg Pincus has no obligation to provide us with any additional equity or debt financing.

***We currently are a "controlled company" within the meaning of the NYSE listing requirements and, as a result, are exempt from certain corporate governance requirements. Upon completion of this offering we will no longer be a "controlled company" within the meaning of the NYSE listing requirements and we may have difficulties complying with the NYSE listing requirements relating to the composition of our Board of Directors and the committees thereof.***

Because TD Group, LLC controls more than 50% of the voting power of our common stock, we are currently considered to be a "controlled company" for the purposes of the NYSE listing requirements. Under the NYSE listing requirements, a "controlled company" may elect not to comply with certain NYSE corporate governance requirements, including (1) the requirement that a majority of our Board of Directors consist of independent directors, (2) the requirement that the nominating and corporate governance committee of our Board of Directors be composed entirely of independent directors and (3) the requirement that the compensation committee of our Board of Directors be composed entirely of independent directors. Given that TD Group, LLC currently controls a majority of the voting power of our common stock, we have elected to opt out of compliance with the aforementioned NYSE corporate governance requirements. Accordingly, our stockholders currently do not have the same protections afforded to stockholders of companies that are subject to all of the NYSE corporate governance requirements.

At the conclusion of this offering, we will no longer be a "controlled company" within the meaning of the NYSE listing requirements and, in accordance with the NYSE rules, we will have to phase in compliance with the NYSE listing requirements, including the requirements that our Board of Directors consist of a majority of independent directors and that our nominating and corporate governance committee and our compensation committee consist entirely of independent directors. Under the NYSE listing standards, upon the closing of this offering, we will be required to have at least one independent member on each of the nominating and corporate governance committee and the compensation committee. Within 90 days of the closing of this offering, each of the nominating and corporate governance committee and the compensation committee must consist of a majority of independent directors, and within twelve months of the closing of this offering, the members of these committees must all be independent within the meaning of the NYSE listing requirements. In addition, within twelve months of the closing of this offering, the majority of our Board of Directors must be independent within the meaning of the NYSE listing requirements. Only three members of our current Board of Directors qualify as independent directors under the NYSE rules. We intend to comply with the NYSE listing requirements and we are in the process of formulating a plan to achieve compliance. We may not be able to attract and retain the number of independent directors needed to comply with the NYSE listing requirements during the phase-in period for compliance.

***Our corporate documents and Delaware law contain provisions that could discourage, delay or prevent a change in control of our company.***

Provisions in our amended and restated certificate of incorporation and bylaws may discourage, delay or prevent a merger or acquisition involving us that our stockholders may consider favorable. For example, our amended and restated certificate of incorporation authorizes our Board of Directors to issue up to 149,600,000 shares of "blank check" preferred stock. Without stockholder approval, the Board of Directors has the authority to attach special rights, including voting and dividend rights, to this preferred stock. With these rights, preferred stockholders could make it more difficult for a third party to acquire us. In addition, our amended and restated certificate of incorporation provides for a staggered Board of Directors, whereby directors serve for three-year terms, with approximately one-third of the directors coming up for re-election each year. Having a staggered board will make it more difficult for a third party to obtain control of our Board of Directors through a proxy contest, which may be a necessary step in an acquisition of us that is not favored by our Board of Directors. Our amended and restated certificate of incorporation also provides that the affirmative vote of the holders of at least 75% of the voting power of our issued and outstanding capital stock, voting together

as a single class, is required for the alteration, amendment or repeal of certain provisions of our amended and restated certificate of incorporation, including the provisions authorizing a staggered board, and certain provisions of our amended and restated bylaws, including the provisions relating to our stockholders' ability to call special meetings, notice provisions for stockholder business to be conducted at an annual meeting, requests for stockholder lists and corporate records, nomination and removal of directors, and filling of vacancies on our Board of Directors.

We are also subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law. Under these provisions, if anyone becomes an "interested stockholder," we may not enter into a "business combination" with that person for three years without special approval, which could discourage a third party from making a takeover offer and could delay or prevent a change of control. For purposes of Section 203, "interested stockholder" means, generally, someone owning 15% or more of our outstanding voting stock or an affiliate of ours that owned 15% or more of our outstanding voting stock during the past three years, subject to certain exceptions as described in Section 203. TD Group, LLC, Warburg Pincus and their affiliates do not constitute "interested stockholders" for purposes of Section 203 of the Delaware General Corporation Law.

***We do not intend to pay regular cash dividends on our common stock in the foreseeable future.***

We do not anticipate declaring or paying regular cash dividends on our common stock or any other equity security in the foreseeable future. The amounts that may be available to us to pay cash dividends are restricted under our debt and other agreements. Any payment of cash dividends on our common stock in the future will be at the discretion of our Board of Directors and will depend upon our results of operations, earnings, capital requirements, financial condition, future prospects, contractual restrictions and other factors deemed relevant by our Board of Directors. Therefore, you should not rely on dividend income from shares of our common stock.

**SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus and the documents incorporated by reference in this prospectus contain both historical and forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. All statements other than statements of historical fact included in this prospectus and the documents incorporated by reference in this prospectus that address activities, events or developments that we expect, believe or anticipate will or may occur in the future are forward-looking statements including, in particular, the statements about our plans, objectives, strategies and prospects regarding, among other things, our financial condition, results of operations and business. We have identified some of these forward-looking statements with words like "believe," "may," "will," "should," "expect," "intend," "plan," "predict," "anticipate," "estimate" or "continue" and other words and terms of similar meaning. These forward-looking statements are based on current expectations about future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Many factors mentioned in our discussion in this prospectus and the documents incorporated by reference in this prospectus, including the risks outlined under "Risk Factors," will be important in determining future results. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we do not know whether our expectations will prove correct. They can be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties, including those described under "Risk Factors" and those discussed in other documents we file with the SEC which are incorporated by reference in this prospectus. Since our actual results, performance or achievements could differ materially from those expressed in, or implied by, these forward-looking statements, we cannot give any assurance that any of the events anticipated by these forward-looking statements will occur or, if any of them do, what impact they will have on our business, results of operations and financial condition. You are cautioned not to place undue reliance on these forward-looking statements. We do not undertake any obligation to update these forward-looking statements to reflect new information, future events or otherwise, except as may be required under federal securities laws.

**USE OF PROCEEDS**

The proceeds from the sale of shares of our common stock offered pursuant to this prospectus are solely for the account of the selling stockholders, which includes members of our senior management. We will not receive any proceeds from the sale of shares of our common stock by the selling stockholders.

**PRICE RANGE OF OUR COMMON STOCK**

Our common stock is listed for trading on the NYSE under the trading symbol "TDG." Our common stock has traded on that market since the date of the initial public offering on March 20, 2006.

The following table sets forth, in dollars and cents (in lieu of fractions), the high and low daily sales prices for our common stock, as reported by the NYSE, for the periods indicated below. These prices do not include retail markups, markdowns or commissions.

<b>2006</b>	<b>High</b>	<b>Low</b>
Second Quarter (beginning March 20, 2006)	\$ 25.96	\$ 23.99
Third Quarter	\$ 26.73	\$ 21.42

Second Quarter	\$ 37.22	\$ 25.15
Third Quarter (through May 21, 2007)	\$ 39.92	\$ 35.00

On May 21, 2007, the last reported sale price for our common stock on the NYSE was \$35.50 per share. We estimate that there were approximately 4,475 holders of record of our common stock as of April 2, 2007.

**DIVIDEND POLICY**

We do not anticipate declaring or paying regular cash dividends on our common stock in the foreseeable future. Any payment of cash dividends on our common stock in the future will be at the discretion of our Board of Directors and will depend upon our results of operations, earnings, capital requirements, financial condition, future prospects, contractual restrictions and other factors deemed relevant by our Board of Directors. We are a holding company and conduct all of our operations through our direct and indirect subsidiaries. Unless we receive dividends, distributions, advances, transfers of funds or other payments from our subsidiaries we will be unable to pay any dividends on our common stock in the future. The ability of our subsidiaries to take any of the foregoing actions are limited by the terms of our existing debt documents and may be limited by future debt or other agreements that we may enter into from time to time.

## CAPITALIZATION

The following table sets forth the cash and cash equivalents and the consolidated capitalization of TD Group as of March 31, 2007, but does not reflect adjustments for expenses to be borne by TD Group in connection with the completion of this offering. This table should be read in conjunction with the information in "Pro Forma Condensed Consolidated Financial Data," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the consolidated financial statements and the notes thereto included elsewhere in this prospectus or incorporated by reference in this prospectus.

(1) The senior secured credit facility consists of a \$780.0 million term loan facility, all of which was fully drawn as of March 31, 2007, and a \$200.0 million revolving credit facility, with total borrowing availability of \$198.4 million as of March 31, 2007.

(2) The aggregate principal amount of senior subordinated notes reflected above includes the premium received in connection with the issuance of the new senior subordinated notes due to the fact that such new senior subordinated notes were issued at 101% of the principal amount thereof, and gives effect to the amortization of such premium as of March 31, 2007.

The number of shares of our common stock shown as issued and outstanding in the table above excludes (i) 7,913,513 shares of common stock issuable upon the exercise of options outstanding as of March 31, 2007, with a weighted average exercise price of \$7.65 per share and (ii) 2,683,593 shares of common stock reserved for future grants under our stock compensation plans as of March 31, 2007. In addition, the number of shares our common stock shown as issued and outstanding in the table above excludes shares of common stock that will be issued upon exercise of stock options by members of our management in connection with this offering.

**PRO FORMA CONDENSED CONSOLIDATED FINANCIAL DATA**

The following pro forma condensed consolidated financial data is based on the historical financial statements of TD Group and ATI, each included elsewhere in this prospectus or incorporated by reference in this prospectus, adjusted to give pro forma effect to the Transactions. The pro forma condensed consolidated statements of income for the twelve-month period ended September 30, 2006 and for the twenty-six week period ended March 31, 2007 give effect to the Transactions as if they had been consummated on October 1, 2005.

Assumptions underlying the pro forma adjustments necessary to fairly present this pro forma information are described in the accompanying notes, which should be read in conjunction with this pro forma condensed consolidated financial data. The pro forma adjustments described in the accompanying notes have been made based on available information and, in the opinion of management, are reasonable. The pro forma condensed consolidated financial data should not be considered indicative of actual results that would have been achieved had the Transactions occurred on the date indicated and do not purport to indicate results of operations for any future period. We cannot assure you that the assumptions used in the preparation of the pro forma condensed consolidated financial data will prove to be correct. The pro forma condensed consolidated financial statements should be read together with the historical financial statements of TD Group and ATI and the notes thereto, and other financial information included or incorporated by reference in this prospectus, together with the other documents filed by TD Group with the SEC that are incorporated by reference in this prospectus. The pro forma condensed consolidated financial statements include certain reclassifications from the historical financial statements of ATI in order to conform to the historical financial statements of TD Group.

The acquisition of ATI was accounted for as a purchase in conformity with Statement of Financial Accounting Standards, or SFAS, No. 141, Business Combinations, with intangible assets recorded in accordance with SFAS No. 142, Goodwill and Other Intangible Assets. The allocation of the excess of the purchase price over the historical basis of the net assets acquired is preliminary and is included in the accompanying pro forma condensed consolidated financial data based on valuation estimates and certain assumptions that management believes are reasonable.

**Notes to Unaudited Pro Forma Condensed Consolidated Statement of Income**  
**for the Twelve-Month Period Ended September 30, 2006**

(1) TD Group's fiscal year ends on September 30. Prior to the acquisition, ATI's fiscal year ended on December 31. For purposes of preparing this pro forma condensed consolidated statement of income for the twelve-month period ended September 30, 2006, we utilized TD Group's statement of income for its fiscal year ended September 30, 2006, and ATI's statement of income for its fiscal year ended December 31, 2006. The net income of ATI for its fiscal year ended December 31, 2006 excludes gain from discontinued operations.

(2) Represents the adjustments necessary to give effect to the acquisition of ATI. Adjustments (a), (b) and (c) are based upon a preliminary allocation of the purchase price. TD Group is in the process of obtaining third-party valuations of certain tangible and intangible assets; thus the values attributed to acquired assets are subject to adjustment.

(a) Represents the inventory purchase accounting adjustment that will be charged to cost of sales as the inventory on hand when the ATI acquisition was consummated is sold.

(b) Represents a decrease in depreciation expense due to the write-down of ATI's real property as a result of the acquisition. The adjustment was computed using the straight-line method of depreciation and an assumed weighted average useful life for the property to which the fair value adjustment pertains.

(c) Represents the change in amortization expense resulting from the amortization of the amortizable intangible assets recorded in connection with the acquisition of ATI using the straight-line method based on the following (dollars in thousands):

Amortizable Intangible Assets	Estimated Useful Life	Estimated Fair Value	Pro Forma Adjustment

**Notes to Unaudited Pro Forma Condensed Consolidated Statement of Income**  
**For the Twenty-Six Week Period Ended March 31, 2007**

(1) TD Group's fiscal year ends on September 30. Prior to the acquisition, ATI's fiscal year ended on December 31. For purposes of preparing this pro forma condensed consolidated statement of income for the twenty-six week period ended March 31, 2007, we utilized TD Group's statement of income for the twenty-six week period ended March 31, 2007, and ATI's statement of income for the period from October 1, 2006 to February 7, 2007. The net loss of ATI for the period from October 1, 2006 to February 7, 2007 excludes gain from discontinued operations.

(a) Includes approximately \$25.8 million compensation expense recognized with respect to stock options of ATI that were cancelled upon the closing of the acquisition.

(2) Represents the adjustments necessary to give effect to the acquisition of ATI. Adjustments (b) and (e) are based upon a preliminary allocation of the purchase price. The Company is in the process of obtaining third-party valuations of certain tangible and intangible assets; thus the values attributed to acquired assets are subject to adjustment.

(a) Represents the adjustment to eliminate the inventory purchase accounting adjustment charged to cost of sales that was, on a pro forma basis, fully amortized in the pro forma twelve-month period ended September 30, 2006.

(b) Represents a decrease in depreciation expense due to the write-down of ATI's real property as a result of the acquisition. The adjustment was computed using the straight-line method of depreciation and an assumed weighted average useful life for the property to which the fair value adjustment pertains.

(c) Represents merger related expenses borne by the previous stockholders of ATI.

(d) Represents the adjustment to eliminate order backlog amortization that was, on a pro forma basis, fully amortized in the pro forma twelve-month period ended September 30, 2006.

(e) Represents the change in amortization expense resulting from the amortization of the amortizable intangible assets recorded in connection with the acquisition of ATI using the straight-line method based on the following (dollars in thousands):

Amortizable Intangible Assets	Estimated Useful Life	Estimated Fair Value	Pro Forma Adjustment

## SELLING STOCKHOLDERS

The following table sets forth certain information with respect to the common stock beneficially owned by each selling stockholder as of April 28, 2007 and as adjusted to reflect the sale of 10,000,000 shares by the selling stockholders in this offering (or 11,500,000 shares if the underwriters' over-allotment option is fully exercised). Beneficial ownership is determined in accordance with the rules and regulations of the SEC. The number of shares outstanding used in calculating the percentage of beneficial ownership for each person listed below includes the shares underlying options held by such person that are exercisable within 60 days of April 28, 2007, but excludes shares underlying options held by any other person. The number of shares and percentages of beneficial ownership set forth below are based on 45,098,507 shares of our common stock being outstanding as of April 28, 2007. Except as indicated in the footnotes to this table and subject to applicable community property laws, the persons named in the table, to our knowledge, have sole voting and investment power with respect to all shares of common stock listed as beneficially owned by them.

### UNDERWRITING

TD Group, the selling stockholders and the underwriters named below have entered into an underwriting agreement dated May 21, 2007 with respect to the shares being offered by this prospectus. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table. Credit Suisse Securities (USA) LLC, Banc of America Securities LLC and Lehman Brothers Inc. are the representatives of the underwriters.

Underwriters	Number of Shares
Credit Suisse Securities (USA) LLC	3,500,000
Banc of America Securities LLC	2,500,000
Lehman Brothers Inc.	2,500,000
UBS Securities LLC	1,500,000
<b>Total</b>	<b>10,000,000</b>

The underwriters are committed to take and pay for all of the shares being offered, if any are taken, other than the shares covered by the option described below unless and until this option is exercised.

If the underwriters sell more shares than the total number set forth in the table above, the underwriters have an option to buy up to an additional 1,500,000 shares from the selling stockholders to cover such sales. They may exercise that option for 30 days following the completion of this offering. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by the selling stockholders. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 1,500,000 additional shares.

	Paid by the Selling Stockholders	
	No Exercise	Full Exercise
Per Share	\$ 1.5863	\$ 1.5863
Total	15,863,000	18,242,450

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$0.9518 per share from the initial public offering price. If all the shares are not sold at the public offering price, the representatives may change the offering price and the other selling terms.

Any broker-dealers or agents that are involved in selling the shares are "underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them are deemed to be underwriting commissions or discounts under the Securities Act. Discounts, concessions, commissions and similar selling expenses, if any, that can be attributed to the sale of securities will be paid by the selling stockholder and/or the purchasers. Some of the selling stockholders may be deemed to be affiliates of registered broker-dealers. However, each such stockholder has represented and warranted to us that it acquired the securities subject to this prospectus in the ordinary course of such selling stockholder's business and, at the time of its purchase of such securities such selling stockholder had no agreements or understandings, directly or indirectly, with any person to distribute any such securities.

We, certain of our directors and executive officers, TD Group, LLC and Warburg Pincus have agreed, subject to certain exceptions, not to dispose of or hedge any shares of our common stock or securities convertible into or exchangeable for shares of our common stock or any membership interests in TD Group, LLC, as applicable, during the period from the date of this prospectus continuing through the date 90 days after the date of this prospectus, except with the prior written consent of Credit Suisse Securities (USA) LLC. Credit Suisse Securities (USA) LLC has advised us that it has no current intention or arrangement to release any of the shares or membership interests, as applicable, subject to the lock-up agreements prior to the expiration of the lock-up period. Any waiver is at its sole discretion. Credit Suisse Securities (USA) LLC has advised us that in considering any request to release shares or membership interests, as applicable, covered by a lock-up agreement, it would consider, among other factors, the particular circumstances surrounding the request, including but not limited to the number of shares or membership interests, as applicable, requested to be released, market conditions, the possible impact on the market for our common stock, the trading price of our common stock, historical trading volumes of our common stock, the reasons for the request and whether the person seeking the release is one of our officers or directors.

The 90-day restricted period described in the preceding paragraph will be extended if:

during the last 17 days of the 90-day restricted period we issue an earnings release or announce material news or a material event; or

prior to the expiration of the 90-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 90-day period,

in which case the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day period beginning on the date of the issuance of the earnings release or the announcement of the material news or material event.

In connection with the offering, the underwriters may purchase and sell shares of our common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares from the selling stockholders. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option granted to them. "Naked" short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or retarding a decline in the market price of our common stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that otherwise might exist in the

open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the NYSE, in the over-the-counter market or otherwise.

The underwriters do not expect sales to discretionary accounts to exceed five percent of the total number of shares offered.

We have agreed to pay the expenses of the offering, excluding underwriting discounts and commissions, which we estimate will be approximately \$668,458.

We and the selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory, investment banking and commercial banking services in the ordinary course of business for us and for Warburg Pincus and certain of the selling stockholders or their affiliates, for which they have received or will receive customary fees and expenses. Credit Suisse Securities (USA) LLC, Lehman Brothers Inc., Banc of America Securities LLC and UBS Securities LLC each acted as an underwriter in connection with our initial public offering in March 2006. In addition, an affiliate of Credit Suisse Securities (USA) LLC acts as a lender and the administrative agent and collateral agent under our senior secured credit facility, and certain affiliates of the other underwriters have or may act as lenders or agents thereunder. In addition, Credit Suisse Securities (USA) LLC and Banc of America Securities LLC each acted as an initial purchaser and a joint book-running manager and UBS Securities LLC acted as an initial purchaser in connection with the June 2006 offering of the original senior subordinated notes, and Credit Suisse Securities (USA) LLC and Lehman Brothers Inc. each acted as an initial purchaser and a joint book-running manager in connection with the February 2007 offering of the new senior subordinated notes. Credit Suisse Securities (USA) LLC also acted as an initial purchaser and the sole lead book-running manager, and Banc of America Securities LLC and UBS Securities LLC each acted as an initial purchaser and co-manager, in connection with the July 2003 offering of 8<sup>3</sup>/<sub>8</sub>% senior subordinated notes by TransDigm Inc. Credit Suisse Securities (USA) LLC acted as dealer-manager and solicitation agent in connection with the May 2006 tender offer for our then outstanding 8<sup>3</sup>/<sub>8</sub>% senior subordinated notes. In addition, affiliates of Credit Suisse Securities (USA) LLC, an affiliate of Lehman Brothers Inc. and Banc of America Securities LLC acted as arrangers, agents and lenders in connection with a loan facility under which TD Group was the borrower, which facility was repaid in June 2006. An affiliate of Credit Suisse Securities (USA) LLC also acted as dealer-manager and solicitation agent in connection with TransDigm Inc.'s July 2003 tender offer for its then outstanding 10<sup>3</sup>/<sub>8</sub>% senior subordinated notes.

A prospectus in electronic format will be made available on the website maintained by one or more of the lead managers of this offering and may also be made available on websites maintained by other underwriters. The underwriters may agree to allocate a number of shares to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the lead managers to underwriters that may make Internet distributions on the same basis as other allocations.

The common stock will be offered for sale in those jurisdictions in the United States, Europe, Asia and elsewhere where it is lawful to make such offers.

Each of the underwriters has represented and agreed that it has not offered, sold or delivered and will not offer, sell or deliver any of the common stock directly or indirectly, or distribute this prospectus or any other offering material relating to the common stock, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof and that will not impose any obligations on us except as set forth in the underwriting agreement.

**NOTICES TO NON-U.S. RESIDENTS**

---

**NOTICE TO CANADIAN INVESTORS**

**Resale Restrictions**

The distribution of the common stock in Canada is being made only on a private placement basis exempt from the requirement that we and the selling stockholders prepare and file a prospectus with the securities regulatory authorities in each province where trades of common stock are made. Any resale of the common stock in Canada must be made under applicable securities laws which will vary depending on the relevant jurisdiction, and which may require resales to be made under available statutory exemptions or under a discretionary exemption granted by the applicable Canadian securities regulatory authority. Purchasers are advised to seek legal advice prior to any resale of the common stock.

**Representations of Purchasers**

By purchasing common stock in Canada and accepting a purchase confirmation, a purchaser is representing to us, the selling stockholders and the dealer from whom the purchase confirmation is received that:

the purchaser is entitled under applicable provincial securities laws to purchase the common stock without the benefit of a prospectus qualified under those securities laws,

where required by law, that the purchaser is purchasing as principal and not as agent,

the purchaser has reviewed the text above under Resale Restrictions, and

the purchaser acknowledges and consents to the provision of specified information concerning its purchase of the common stock to the regulatory authority that by law is entitled to collect the information.

Further details concerning the legal authority for this information is available on request.

**Rights of Action Ontario Purchasers Only**

Under Ontario securities legislation, certain purchasers who purchase a security offered by this prospectus during the period of distribution will have a statutory right of action for damages, or while still the owner of the common stock, for rescission against us and the selling stockholders in the event that this prospectus contains a misrepresentation without regard to whether the purchaser relied on the misrepresentation. The right of action for damages is exercisable not later than the earlier of 180 days from the date the purchaser first had knowledge of the facts giving rise to the cause of action and three years from the date on which payment is made for the common stock. The right of action for rescission is exercisable not later than 180 days from the date on which payment is made for the common stock. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against us or the selling stockholders. In no case will the amount recoverable in any action exceed the price at which the common stock was offered to the purchaser and if the purchaser is shown to have purchased the securities with knowledge of the misrepresentation, we and the selling stockholders will have no liability. In the case of an action for damages, we and the selling stockholders will not be liable for all or any portion of the damages that are proven to not represent the depreciation in value of the common stock as a result of the misrepresentation relied upon. These rights are in addition to, and without derogation from, any other rights or remedies available at law to an Ontario purchaser. The foregoing is a summary of the rights available to an Ontario purchaser. Ontario purchasers should refer to the complete text of the relevant statutory provisions.

### **Enforcement of Legal Rights**

All of our directors and officers as well as the experts named herein and the selling stockholders may be located outside of Canada and, as a result, it may not be possible for Canadian purchasers to effect service of process within Canada upon us or those persons. All or a substantial portion of our assets and the assets of those persons may be located outside of Canada and, as a result, it may not be possible to satisfy a judgment against us or those persons in Canada or to enforce a judgment obtained in Canadian courts against us or those persons outside of Canada.

### **Taxation and Eligibility for Investment**

Canadian purchasers of common stock should consult their own legal and tax advisors with respect to the tax consequences of an investment in the common stock in their particular circumstances and about the eligibility of the common stock for investment by the purchaser under relevant Canadian legislation.

### **NOTICE TO UNITED KINGDOM INVESTORS**

Each of the underwriters severally represents, warrants and agrees as follows:

(a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of FSMA) to persons who have professional experience in matters relating to investments falling with Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 or in circumstances in which section 21 of FSMA does not apply to the company; and

(b) it has complied with, and will comply with all applicable provisions of FSMA with respect to anything done by it in relation to the common stock in, from or otherwise involving the United Kingdom.

### **NOTICE TO EEA INVESTORS**

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), each underwriter represents and agrees that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of common stock to the public in that Relevant Member State prior to the publication of a prospectus in relation to the common stock which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of common stock to the public in that Relevant Member State at any time,

(a) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

(b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000 and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;

(c) to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the manager for any such offer; or

(d) in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer of common stock to the public" in relation to any common stock in any Relevant Member State means the communication in any form

and by any means of sufficient information on the terms of the offer and the common stock to be offered so as to enable an investor to decide to purchase or subscribe the common stock, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

In particular, each underwriter has represented that it has not engaged and has agreed that it will not engage in a public offering in (offentliches Angebot) within the meaning of the Act with respect to any of our common stock otherwise than in accordance with the Act and all other applicable legal and regulatory requirements.

France. The common stock are being issued and sold outside the Republic of France and that, in connection with their initial distribution, it has not offered or sold and will not offer or sell, directly or indirectly, any common stock to the public in the Republic of France, and that it has not distributed and will not distribute or cause to be distributed to the public in the Republic of France this prospectus or any other offering material relating to the common stock, and that such offers, sales and distributions have been and will be made in the Republic of France only to qualified investors (investisseurs qualifiés) in accordance with Article L.411-2 of the Monetary and Financial Code and décret no. 98-880 dated 1st October, 1998.

The Netherlands. Our common stock may not be offered, sold, transferred or delivered in or from the Netherlands as part of their initial distribution or at any time thereafter, directly or indirectly, other than to individuals or legal entities situated in The Netherlands who or which trade or invest in securities in the conduct of a business or profession (which includes banks, securities intermediaries (including dealers and brokers), insurance companies, pension funds, collective investment institution, central governments, large international and supranational organizations, other institutional investors and other parties, including treasury departments of commercial enterprises, which as an ancillary activity regularly invest in securities; hereinafter, "Professional Investors"), provided that in the offer, prospectus and in any other documents or advertisements in which a forthcoming offering of our common stock is publicly announced (whether electronically or otherwise) in The Netherlands it is stated that such offer is and will be exclusively made to such Professional Investors. Individual or legal entities who are not Professional Investors may not participate in the offering of our common stock, and this prospectus or any other offering material relating to our common stock may not be considered an offer or the prospect of an offer to sell or exchange our common stock.

Italy. The offering of the common stock has not been cleared by the Italian Securities Exchange Commission (Commissione Nazionale per le Società e la Borsa, the "CONSOB") pursuant to Italian securities legislation and, accordingly, the common stock may not be offered, sold or delivered, nor may copies of the common stock or any other documents relating to the common stock be distributed in Italy, except (i) to professional investors (operatori qualificati), as defined in Article 31, second paragraph, of CONSOB Regulation No. 11522 of July 1, 1998, as amended, (the "Regulation No. 11522"), or (ii) in other circumstances which are exempted from the rules on solicitation of investments pursuant to Article 100 of Legislative Decree No. 58 of February 24, 1998 (the "Financial Service Act") and Article 33, first paragraph, of CONSOB Regulation No. 11971 of May 14, 1999, as amended.

Any offer, sale or delivery of the common stock or distribution of copies of the prospectus or any other document relating to the common stock in Italy may and will be effected in accordance with all Italian securities, tax, exchange control and other applicable laws and regulations, and, in particular,

will be: (i) made by an investment firm, bank or financial intermediary permitted to conduct such activities in Italy in accordance with the Financial Services Act, Legislative Decree No. 385 of September 1, 1993, as amended (the "Italian Banking Law"), Regulation No. 11522, and any other applicable laws and regulations; (ii) in compliance with Article 129 of the Italian Banking Law and the implementing guidelines of the Bank of Italy; and (iii) in compliance with any other applicable notification requirement or limitation which may be imposed by CONSOB or the Bank of Italy.

Any investor purchasing the common stock in the offering is solely responsible for ensuring that any offer or resale of the common stock it purchased in the offering occurs in compliance with applicable laws and regulations.

The prospectus and the information contained therein are intended only for the use of its recipient and, unless in circumstances which are exempted from the rules on solicitation of investments pursuant to Article 100 of the "Financial Service Act" and Article 33, first paragraph, of CONSOB Regulation No. 11971 of May 14, 1999, as amended, is not to be distributed, for any reason, to any third party resident or located in Italy. No person resident or located in Italy other than the original recipients of this document may rely on it or its content.

Italy has only partially implemented the Prospectus Directive, the provisions under the heading "Notice to EEA Investors" above shall apply with respect to Italy only to the extent that the relevant provisions of the Prospectus Directive have already been implemented in Italy.

Insofar as the requirements above are based on laws which are superseded at any time pursuant to the implementation of the Prospectus Directive, such requirements shall be replaced by the applicable requirements under the Prospectus Directive.

#### **NOTICE TO JAPANESE INVESTORS**

The underwriters will not offer or sell any of our common stock directly or indirectly in Japan or to, or for the benefit of any Japanese person or to others, for re-offering or re-sale directly or indirectly in Japan or to any Japanese person, except in each case pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law of Japan and any other applicable laws and regulations of Japan. For purposes of this paragraph, "Japanese person" means any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

#### **NOTICE TO INVESTORS IN HONG KONG**

### WHERE YOU CAN FIND MORE INFORMATION

We are subject to the information reporting requirements of the Exchange Act and we file annual, quarterly and special reports, proxy statements and other information with the SEC relating to our business, financial results and other matters. The reports, proxy statements and other information we file may be inspected and copied at prescribed rates at the SEC's Public Reference Room and via the SEC's website (see below for more information).

In connection with the common stock offered by this prospectus, we have filed a registration statement on Form S-3 under the Securities Act with the SEC. This prospectus, which constitutes a part of that registration statement, does not contain all of the information included in that registration statement and its accompanying exhibits and schedules. For further information with respect to our common stock and us you should refer to that registration statement and its accompanying exhibits and schedules. Statements contained in this prospectus regarding the contents of any contract or any other document that is filed as an exhibit to the registration statement are not necessarily complete, and each such statement is qualified in all respects by reference to the full text of such contract or other document filed as an exhibit to the registration statement.

You may inspect a copy of the registration statement of which this prospectus is a part and its accompanying exhibits and schedules, as well as the reports, proxy statements and other information we file with the SEC, without charge at the SEC's Public Reference Room, 100 F Street, N.E., Room 1580, Washington, D.C. 20549, and you may obtain copies of all or any part of the registration statement from those offices for a fee. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains a web site that contains reports, proxy and information statements and other information regarding registrants that file electronically, including us. The address of the site is <http://www.sec.gov>.

In addition, we maintain a website that contains information regarding our company, including copies of reports, proxy statements and other information we file with the SEC. The address of our website is [www.transdigm.com](http://www.transdigm.com). Our website, and the information contained on that site, or connected to that site, is not intended to be part of this prospectus.

#### **TRANSFER AGENT AND REGISTRAR**

National City Bank is the transfer agent and registrar for our common stock. Its telephone number is 800-622-6757.

#### **INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE**

The SEC allows us to "incorporate by reference" information that we file with it, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus. Information in the prospectus supersedes information incorporated by reference that we filed with the SEC prior to the date of this prospectus, while information that we file later with the SEC will automatically update and supersede this information. We incorporate by reference the documents listed below and any future filings we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act:

Our Annual Report on Form 10-K for the fiscal year ended September 30, 2006, filed with the SEC on November 28, 2006;

Our Quarterly Report on Form 10-Q for the quarter ended December 30, 2006, filed with the SEC on February 13, 2007;

Our Quarterly Report on Form 10-Q for the quarter ended March 31, 2007, filed with the SEC on May 8, 2007;

Our Definitive Proxy Statement on Schedule 14A, filed with the SEC on January 22, 2007; and

Our Current Reports on Form 8-K filed with the SEC on April 20, 2007, February 28, 2007, February 13, 2007, February 12, 2007 (only with respect to those sections filed, and not furnished, to the SEC), February 6, 2007, January 30, 2007 (only with respect to those sections filed, and not furnished, to the SEC), January 29, 2007 (only with respect to those sections filed, and not furnished, to the SEC), January 18, 2007, January 10, 2007, December 12, 2006,

## Edgar Filing: TransDigm Group INC - Form 424B4

November 17, 2006 (only with respect to those sections filed, and not furnished, to the SEC), November 6, 2006 and October 3, 2006.

Notwithstanding the above, information that is "furnished" to the SEC shall not be deemed "filed with" the SEC and shall not be deemed incorporated by reference into this prospectus or the registration statement of which this prospectus is a part.

We will provide without charge to each person, including any beneficial owner, to whom a copy of this prospectus is delivered, upon written or oral request of such person, a copy of any or all of the documents incorporated by reference in this prospectus, other than exhibits to such documents unless such exhibits are specifically incorporated by reference into such documents. Requests may be made in writing to: TransDigm Group Incorporated, 1301 East 9<sup>th</sup> Street, Suite 3710, Cleveland, Ohio 44114, Attn: Chief Financial Officer, or by telephone at (216) 706-2939.

TRANSDIGM GROUP INCORPORATED

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

THIRTEEN AND TWENTY-SIX WEEK PERIODS ENDED MARCH 31, 2007 AND APRIL 1, 2006

(UNAUDITED)

**1. DESCRIPTION OF THE BUSINESS AND MERGER**

**Description of the Business** TransDigm Group Incorporated ("TD Group"), through its wholly-owned subsidiary, TransDigm Inc., is a leading global designer, producer and supplier of highly engineered aircraft components for use on nearly all commercial and military aircraft in service today. TransDigm Inc., which includes the AeroControlex and Adel Wiggins Groups, along with its direct and indirect wholly-owned operating subsidiaries, MarathonNorco Aerospace, Inc., Adams Rite Aerospace, Inc., Champion Aerospace Inc., Avionic Instruments, Inc., Skurka Aerospace Inc., Sweeney Engineering Corp., CDA InterCorp, Avtech Corporation, Transicoil Corporation, West Coast Specialties, Inc. and Transicoil (Malaysia) Sendirian Berhad (collectively, with TD Group, the "Company" or "TransDigm") offers a broad range of proprietary aerospace components. Major product offerings, substantially all of which are ultimately provided to end-users in the aerospace industry, include ignition systems and components, gear pumps, mechanical/electromechanical actuators and controls, NiCad batteries/chargers, power conditioning devices, hold open rods and locking devices, engineered connectors, engineered latches, cockpit security devices, lavatory hardware and components, specialized AC/DC electric motors, aircraft audio systems, specialized cockpit displays and specialized valving.

TransDigm Holding Company ("TransDigm Holdings") was formerly a wholly-owned subsidiary of TD Group and the direct parent of TransDigm Inc. but was merged into TransDigm Inc. on June 26, 2006.

TD Group was incorporated on July 8, 2003 under the name TD Holding Corporation by outside investors to acquire control of TransDigm Holdings through the Merger described below and had no operations prior to the Merger. TD Group has no significant assets or operations other than its 100% ownership of TransDigm Inc.

**Initial Public Offering** On March 20, 2006, TD Group completed an initial public offering ("IPO") of its common stock. As a result of the IPO, TD Group's common stock is publicly traded on the New York Stock Exchange under the ticker symbol "TDG".

On March 14, 2006, TD Group effected a 149.60 for 1.00 stock split and, in conjunction therewith, amended and restated its certificate of incorporation to increase the number of authorized shares of common stock and preferred stock. All common shares and per common share amounts in these condensed consolidated financial statements prior to March 14, 2006 have been retroactively adjusted for all periods presented to give effect to the stock split, including reclassifying an amount equal to the increase in par value from additional paid-in capital to common stock.

**Merger** On July 22, 2003, an entity formed by Warburg Pincus Private Equity VIII, L.P. ("Warburg Pincus") merged with and into TransDigm Holdings, with TransDigm Holdings continuing as the surviving corporation as a wholly-owned subsidiary of a newly formed corporation controlled by Warburg Pincus, TD Group (the "Merger").

**Separate Financial Statements** Separate financial statements of TransDigm Inc. are not presented since TransDigm Inc.'s 74% senior subordinated notes are fully and unconditionally guaranteed on a senior subordinated basis by TD Group and all existing domestic subsidiaries of TransDigm Inc. and since TD Group has no significant operations or assets separate from its investment in TransDigm Inc.

## 2. UNAUDITED INTERIM FINANCIAL INFORMATION

The financial information included herein is unaudited; however, the information reflects all adjustments (consisting solely of normal recurring adjustments) that are, in the opinion of management, necessary for a fair presentation of the Company's financial position and results of operations and cash flows for the interim periods presented. These financial statements and notes should be read in conjunction with the financial statements and related notes for the year ended September 30, 2006 included in its Form 10-K dated November 28, 2006. The September 30, 2006 condensed consolidated balance sheet was derived from the TD Group's audited financial statements. The results of operations for the twenty-six week period ended March 31, 2007 are not necessarily indicative of the results to be expected for the full year.

## 3. NEW ACCOUNTING STANDARDS

In February 2007, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115" ("SFAS 159"). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. SFAS 159's objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS 159 is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. The Company anticipates that the adoption of this pronouncement will not have a material impact on its consolidated financial position or results of operations.

In September 2006, the SEC issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" ("SAB 108"). SAB 108 requires companies to evaluate the materiality of identified unadjusted errors on each financial statements and related financial statement disclosure using both the rollover approach and the iron curtain approach. The requirements of SAB 108 are effective for annual financial statements covering the first fiscal year ending after November 15, 2006. The Company has adopted SAB 108 during its first quarter of fiscal year 2007. The adoption of SAB 108 did not have a material impact on the Company's consolidated financial position or results of operations.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158, "Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans-an amendment of FASB Statements No. 87, 88, 106, and 132(R)" ("SFAS 158"). This statement requires balance sheet recognition of the overfunded or underfunded status of pension and postretirement benefit plans. Under SFAS 158, actuarial gains and losses, prior service costs or credits, and any remaining transition assets or obligations that have not been recognized under previous accounting standards must be recognized in Accumulated Other Comprehensive Income, net of tax effects, until they are amortized as a component of net periodic benefit cost. In addition, the measurement date, the date at which plan assets and the benefit obligation are measured, is required to be the company's fiscal year end. Presently, the Company uses a September 30 measurement date for its defined benefit pension plans. SFAS 158 is effective for publicly-held companies for fiscal years ending after December 15, 2006, except for the measurement date provisions, which are effective for fiscal years ending after

December 15, 2008. The Company anticipates that the adoption of this pronouncement will not have a material impact on its consolidated financial position or results of operations.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. This statement defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. The Company has not determined the impact, if any, that this statement will have on its consolidated financial position or results of operations.

In July 2006, the FASB issued Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 prescribes the minimum accounting and disclosure requirements of uncertain tax positions. FIN 48 also provides guidance on the derecognition, measurement, classification, interest and penalties, and transition of uncertain tax positions. FIN 48 is effective for fiscal periods beginning after December 15, 2006. The Company is currently analyzing the expected impact of adoption of FIN 48 on its financial statements.

#### **4. ACQUISITIONS**

*ATI* On February 7, 2007, TransDigm Inc. acquired all of the outstanding capital stock of Aviation Technologies, Inc. ("ATI") for \$430.1 million in cash. ATI consists of two primary operating units that service the commercial and military aerospace markets Avtech Corporation (which, together with West Coast Specialties, Inc., is referred to as "Avtech") and Transicoil Corporation (which, together with Transicoil (Malaysia) Sendirian Berhad is referred to as "ADS/Transicoil"). Avtech is a leading supplier of flight deck and passenger audio systems, cabin lighting, and power control products and related components. ADS/Transicoil is a leading supplier of displays, clocks, brushless motors and related components and instruments. Through Avtech and ADS/Transicoil, ATI manufactures proprietary products for the aerospace industry with broad platform positions and high aftermarket content, all of which fit well with TransDigm's overall direction.

The purchase price consideration and costs associated with the acquisition of \$430.1 million were funded through additional borrowings under our senior secured credit facility of \$125.5 million (net of fees of \$4.5 million), the proceeds from the issuance by TransDigm Inc. of additional senior subordinated notes of \$297.0 (net of fees of \$6.0 million) and the use of \$7.6 million of our available cash balances.

The Company accounted for the acquisition of ATI as a purchase and included the results of operations of ATI in its consolidated financials statements from the date of acquisition. The Company is in the process of obtaining third-party valuations of certain tangible and intangible assets of ATI; thus, the values attributed to acquired assets in the consolidated financial statements are subject to adjustment. The Company expects that substantially all of the \$307.2 million of goodwill recognized for the acquisition will not be deductible for tax purposes.

Edgar Filing: TransDigm Group INC - Form 424B4

The following table summarizes the estimated fair value of the assets acquired and the liabilities assumed at the date of the acquisition of ATI (in thousands).

<b>Assets:</b>	
Current assets	\$ 34,069
Deferred income taxes	10,963
Property, plant and equipment	23,995
Goodwill	307,225
Other intangible assets	110,580

<b>Total liabilities</b>	<b>56,694</b>
	<hr/>
<b>Net assets acquired</b>	<b>\$ 430,138</b>
	<hr/>

The following table summarizes the unaudited, consolidated pro forma results of operations of the Company, as if the acquisition of ATI had occurred at the beginning of the periods ended (in thousands, except per share data):

	<b>Thirteen Week Periods Ended</b>		<b>Twenty-Six Week Periods Ended</b>	
	<b>March 31, 2007</b>	<b>April 1, 2006</b>	<b>March 31, 2007</b>	<b>April 1, 2006</b>
Net sales	\$ 153,845	\$ 132,585	\$ 304,862	\$ 254,593
Operating income	30,914	45,817	84,934	82,082
Net income	1,116	10,843	18,743	16,186
Diluted earnings per share	0.02	\$ 0.23	\$ 0.39	\$ 0.35

These pro forma results of operations include the effects of the: (i) inventory purchase accounting adjustments that will be charged to cost of sales as the inventory that was on hand as of the date of the acquisition is sold, (ii) additional amortization expense that will be recognized from the identifiable intangible assets recorded in accounting for the acquisition, (iii) a reduction in depreciation expense that resulted from the write-down of the carrying value of certain real property to fair value in accounting for the acquisition, and (iv) additional interest expense that resulted from the Company's increased indebtedness resulting from the acquisition. The pro forma results of operations for the periods ended March 31, 2007 includes approximately \$25.8 million of additional compensation expense recognized with respect to stock options of ATI that were cancelled upon the closing of the acquisition. This pro forma information is not necessarily indicative of the results that actually would have been obtained if the transactions had occurred as of the beginning of the periods presented and is not intended to be a projection of future results.

**CDA** On October 3, 2006, TransDigm Inc. acquired all of the outstanding capital stock of CDA InterCorp ("CDA") for \$45.6 million in cash, subject to adjustment based on the level of working capital as of the close of the acquisition. CDA designs and manufactures specialized controllable drive actuators, motors, transducers, and gearing. The products fit closely with TransDigm's existing business. The Company expects that the \$33.9 million of goodwill recognized for the acquisition will not be deductible for tax purposes.

**Sweeney** On June 12, 2006, TransDigm Inc. acquired all of the outstanding capital stock of Sweeney Engineering Corp. ("Sweeney") for \$25.5 million in cash. Sweeney designs and manufactures specialized aerospace valving used primarily in fuel, environmental control, and de-icing applications. The products are used on defense and commercial aircraft applications. Sweeney's product characteristics and market position fit well with TransDigm's overall direction. The acquired business was consolidated into AeroControlex's existing business in Painesville, Ohio. The Company expects that the \$21.1 million of goodwill recognized for the acquisition will not be deductible for tax purposes.

The Company accounted for the acquisitions of CDA and Sweeney as purchases and included the results of operations of CDA and Sweeney in its consolidated financial statements from the date of each acquisition. The Company is in the process of obtaining third-party valuations of certain tangible and intangible assets of CDA and Sweeney; thus, the values attributed to acquired assets in the consolidated financial statements are subject to adjustment. Pro forma net sales and results of operations for CDA and Sweeney, had they occurred at the beginning of the twenty-six week periods ended March 31, 2007 and April 1, 2006, respectively, are not significant and, accordingly, are not provided.

## 5. INVENTORIES

Inventories are stated at the lower of cost or market. Cost of inventories is determined by the average cost and the first-in, first-out (FIFO) methods. Inventories consist of the following (in thousands):

	March 31, 2007	September 30, 2006
Work-in-progress and finished goods	\$ 65,323	\$ 51,077
Raw materials and purchased component parts	67,310	46,060

Other	1,803	285	1,518
<b>Total</b>	<b>\$ 126,706</b>	<b>\$ 26,244</b>	<b>\$ 100,462</b>

The total carrying amount of identifiable intangible assets not subject to amortization consists of \$159.4 million and \$125.5 million of trademarks and trade names at March 31, 2007 and September 30, 2006, respectively.

The aggregate amortization expense on identifiable intangible assets for the thirteen and twenty-six week periods ended March 31, 2007 and April 1, 2006 was approximately \$3.4 million, \$5.0 million, \$1.5 million, and \$3.3 million, respectively. The estimated amortization expense for fiscal 2007 is \$12.9 million and for each of the five succeeding years 2008 through 2012 is \$10.4 million, \$9.2 million, \$9.2 million, \$9.2 million and \$9.1 million, respectively.

Edgar Filing: TransDigm Group INC - Form 424B4

Intangible assets acquired during the twenty-six week period ended March 31, 2007 were as follows (in thousands):

	Twenty-Six Week Period Ended

## 7. PRODUCT WARRANTY

The Company provides limited warranties in connection with the sale of its products. The warranty period for products sold varies among the Company's operations, ranging from 90 days to five years. A provision for the estimated cost to repair or replace the products is recorded at the time of sale and periodically adjusted to reflect actual experience.

The following table presents a reconciliation of changes in the product warranty liability for the periods indicated below (in thousands):

	Twenty-Six Week Periods Ended	
	March 31, 2007	April 1, 2006
Liability balance at beginning of period	\$ 2,472	\$ 2,789
Accruals for warranties issued	639	545
Warranty costs incurred	(705)	(902)
Acquisitions	1,593	
Liability balance at end of period	\$ 3,999	\$ 2,432

## 8. DEBT

**Summary** The Company's long-term debt at March 31, 2007 and September 30, 2006 consisted of the following (in thousands):

	March 31, 2007	September 30, 2006
Term loans	\$ 780,000	\$ 650,000
7 <sup>3</sup> / <sub>4</sub> % senior subordinated notes due 2014	575,000	275,000
Premium on 7 <sup>3</sup> / <sub>4</sub> % senior subordinated notes due 2014	2,968	
Total debt	\$ 1,357,968	\$ 925,000

**Revolving Credit Facility and Term Loans** In connection with the acquisition of ATI, TransDigm entered into an amendment to our senior secured credit facility which provided for, among other things, an additional term loan of \$130 million. TransDigm used the proceeds from the additional term loan together with the proceeds from the issuance and sale of the New Notes (defined below) and a portion of the Company's available cash balances to fund the acquisition of ATI and to pay related transaction expenses. The interest rate on the term loans at March 31, 2007 was 7.35%. Also, see Note 4.

In addition, pursuant to the terms of the amendment, and effective as of the closing date of the acquisition of ATI, the revolving credit facility was increased by \$50 million, resulting in an aggregate revolving credit facility of \$200 million, of which approximately \$198.4 million was available as of March 31, 2007.

**Senior Subordinated Notes** On February 7, 2007, TransDigm Inc. issued and sold \$300 million aggregate principal amount of its 7<sup>3</sup>/<sub>4</sub>% senior subordinated notes due 2014 (the "New Notes"). The Company received \$3.0 million of premium in connection with the issuance of the New Notes due to the fact that such New Notes were issued at 101% of the principal amount thereof. The terms of the

New Notes are substantially identical to the terms of the 7<sup>3/4</sup>% senior subordinated notes due 2014 that were issued and sold by TransDigm on June 23, 2006.

## 9. INCOME TAXES

At the end of each reporting period, the Company makes an estimate of its annual effective income tax rate. The estimate used in the year-to-date period may change in subsequent periods. The Company recorded an income tax provision of \$13.0 million in the thirteen week period ended March 31, 2007 compared to a provision of \$8.9 million in the prior year period. The effective tax rate for the thirteen week period ended March 31, 2007 was 37.7% compared to 38.5% for the comparable period in the prior year. The lower effective tax rate was primarily due to a reduction in state and local taxes.

The Company recorded an income tax provision of \$24.7 million in the twenty-six week period ended March 31, 2007 compared to \$14.5 million in the prior year period. The effective tax rate for the twenty-six week period ended March 31, 2007 was 37.2% compared to 38.4% for the comparable period in the prior year. The lower effective tax rate was due to the retroactive reinstatement of the research and development tax credit and a reduction in state and local taxes. The federal research and development tax credit expired on April 1, 2006. On December 20, 2006, the Tax Relief and Health Care Act of 2006 was enacted, which retroactively reinstated and extended the research and development tax credit from January 1, 2006 to December 31, 2007. The retroactive benefit for the previously expired period from January 1, 2006 to September 30, 2006 is reflected as a discrete item which lowered the Company's effective tax rate by approximately 0.8%.

**10. EARNINGS PER SHARE CALCULATION**

The following table sets forth the computation of basic and diluted earnings per share:

	Thirteen Week Periods Ended		Twenty-Six Week Periods Ended	
	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006
(in thousands, except per share data)				
<b>Basic Earnings Per Share Computation:</b>				
Net income	\$ 21,514	\$ 14,274	\$ 41,849	\$ 23,258
Weighted-average shares outstanding	44,972	44,255	44,872	44,228
Basic earnings per share	\$ 0.48	\$ 0.32	\$ 0.93	\$ 0.53
<b>Diluted Earnings Per Share Computation:</b>				
Net income	\$ 21,514	\$ 14,274	\$ 41,849	\$ 23,258
Weighted-average shares outstanding	44,972	44,255	44,872	44,228
Effect of dilutive options outstanding(1)	3,028	2,866	3,025	2,665
Total weighted-average shares outstanding	48,000	47,121	47,897	46,893
Diluted earnings per share	\$ 0.45	\$ 0.30	\$ 0.87	\$ 0.50

(1)

Stock options outstanding at March 31, 2007 that were excluded from the diluted earnings per share computation for the thirteen and twenty-six weeks ended March 31, 2007, due to the anti-dilutive effect of such options, were immaterial.

**11. STOCK COMPENSATION PLANS**

The Company's stock compensation plans are designed to assist us in attracting, retaining, motivating and rewarding key employees, directors or consultants, and promoting the creation of long-term value for stockholders by closely aligning the interests of these individuals with those of the Company's stockholders. The Company's stock compensation plans provide for the granting of stock options, restricted stock and other stock-based incentives.

Prior to December 20, 2006, the Company used the minimum value method of accounting for stock-based compensation as provided for in Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"). The minimum value method does not require the use of a volatility factor in measuring the value of a stock-based compensation grant. Concurrent with the initial filing of the Company's Registration Statement on Form S-1 on December 20, 2006, on a prospective basis, the Company converted to the fair value method also provided for in SFAS 123.

Effective October 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123R, "Share-Based Payment" ("SFAS 123R"), which replaces SFAS 123 utilizing the modified prospective method. SFAS 123R requires stock-based compensation to be measured using the fair value method of accounting. The Company records compensation expense for service based awards under the

straight line method. Expense related to performance based awards is recorded in the service period corresponding to the performance target. SFAS 123R also requires the tax benefits associated with these share-based payments to be classified as financing activities in statements of cash flows, rather than as operating activities as required under SFAS 123. The tax benefit of \$1.8 million associated with share-based payments was recorded in operating activities in the twenty-six week period ended April 1, 2006. The adoption of SFAS 123R did not have a significant impact on the Company's financial condition or results of operations. The Company estimates that forfeitures of unvested awards will be insignificant and accordingly does not adjust stock based compensation expense for projected forfeitures.

The following table shows the expense recognized by the Company for stock-based compensation (in thousands):

	Thirteen Week Periods Ended		Twenty-Six Week Periods Ended	
	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006
Stock option compensation expense:				
Time vested stock options	\$ 111	\$ 57	\$ 222	\$ 103
Performance vested stock options	537	841	1,227	1,031
Restricted stock award amortization	5		10	
	<u>\$ 653</u>	<u>\$ 898</u>	<u>\$ 1,459</u>	<u>\$ 1,134</u>

As of March 31, 2007, there was \$5.5 million of total unrecognized compensation cost related to nonvested awards expected to vest, which is expected to be recognized over a weighted-average period of 1.5 years.

#### ***2006 Stock Incentive Plan***

In conjunction with the consummation of the IPO, a 2006 stock incentive plan was adopted by TD Group. TD Group has reserved 2,619,668 shares of its common stock for issuance to key employees, directors or consultants under the plan. Awards under the plan may be in the form of options, restricted stock or other stock-based awards. Options granted under the plan will expire no later than the tenth anniversary of the applicable date of grant of the options, and will have an exercise price of not less than the fair market value of our common stock on the date of grant.

On April 21, 2006, 2,370 restricted shares were issued with a weighted-average grant date fair value of \$25.34 and which vest over three years. During the twenty-six weeks ended March 31, 2007, 5,460 shares of common stock with a weighted-average grant date fair value of \$27.43.

At March 31, 2007, 2,611,838 remaining shares were available for award under TD Group's 2006 stock incentive plan.

**2003 Stock Option Plan**

Certain executives and key employees of the Company were granted stock options under TD Group's 2003 stock option plan. Upon the closing of the Merger, certain employees rolled over certain then-existing options to purchase shares of common stock of TransDigm Holdings. These employees were granted rollover options to purchase an aggregate of 3,870,152 shares of common stock of TD Group (after giving effect to the 149.60 for 1.00 stock split effected on March 14, 2006). All rollover options granted were fully vested on the date of grant. In addition to shares of common stock reserved for issuance upon the exercise of rollover options, an aggregate of 5,469,301 shares of TD Group's common stock are reserved for issuance upon the exercise of new management options. In general, approximately 20% of all new management options vest based on employment service or a change in control. These time vested options have a graded vesting schedule of up to four years. Approximately 80% of all new management options vest (i) based upon the satisfaction of specified performance criteria, which is annual and cumulative EBITDA As Defined targets through 2008, or (ii) upon the occurrence of a change in control if the Investor Group (defined as Warburg Pincus and the other investors who invested in TD Group in connection with the Merger) receives a minimum specified rate of return. Unless terminated earlier, the options expire ten years from the date of grant.

TD Group has reserved a total of 9,339,453 shares of its common stock for issuance to the Company's employees under the plan, 9,267,698 of which had been issued as of March 31, 2007.

In addition to the stock options issued under the plan covering the Company's employees, members of the Company's board of directors have also been granted stock options of TD Group.

The fair value of the Company's employee stock options was estimated at the date of grant using a Black-Sholes-Merton option-pricing model with the following weighted average assumptions for all options granted during the twenty-six week periods ended:

	<b>March 31, 2007</b>	<b>April 1, 2006</b>
Risk-free interest rate	4.41% to 4.49%	4.21% to 4.33%
Expected life of options	4 years	4 years
Expected dividend yield of stock		
Expected volatility of stock	30%	0% to 30%

The risk-free interest rate is based upon the three and five-year Treasury Bond rates as of the grant date. The average expected life of stock-based awards is based on vesting schedules and contractual terms. Expected volatility of stock was calculated using historical and implied volatilities. The Company does not pay dividends; thus, no dividend rate assumption is used.

The total fair value of shares vested during the twenty-six weeks ended March 31, 2007 and April 1, 2006 was \$0.1 million and \$1.0 million, respectively.

**Report of Independent Registered Public Accounting Firm**

The Board of Directors and Shareholders of  
TransDigm Group Incorporated

We have audited the accompanying consolidated balance sheets of TransDigm Group Incorporated and subsidiaries as of September 30, 2006 and 2005, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the three years in the period ended September 30, 2006. Our audit also included the financial statement schedule on page F-58. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of TransDigm Group Incorporated and subsidiaries at September 30, 2006 and 2005, and the consolidated results of their operations and their cash flows for each of the three years in the period ended September 30, 2006, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, present fairly in all material respects the information set forth therein.

TRANSDIGM GROUP INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

**1. DESCRIPTION OF THE BUSINESS AND MERGER**

**Description of the Business** On January 19, 2006 TD Holding Corporation changed its legal name to TransDigm Group Incorporated ("TD Group"). This change was effected to ensure that investors recognize that TD Group is the ultimate owner of the TransDigm group of operating companies, as the TransDigm name is recognized in the industry in which TD Group's subsidiaries operate. TD Group, through its wholly-owned subsidiary, TransDigm Inc., is a leading global designer, producer and supplier of highly engineered aircraft components for use on nearly all commercial and military aircraft in service today. TransDigm Inc., which includes the AeroControlex and Adel Wiggins Groups, along with its wholly-owned operating subsidiaries, MarathonNorco Aerospace, Inc., Adams Rite Aerospace, Inc., Champion Aerospace Inc., Avionic Instruments, Inc., Skurka Aerospace Inc., and Sweeney Engineering Corp. (collectively, with TD Group, the "Company" or "TransDigm") offers a broad range of proprietary aerospace components. Major product offerings, substantially all of which are ultimately provided to end-users in the aerospace industry, include ignition systems and components, gear pumps, mechanical/electromechanical actuators and controls, NiCad batteries/chargers, power conditioning devices, hold open rods and locking devices, engineered connectors, engineered latches, cockpit security devices, lavatory hardware and components, specialized AC/DC electric motors and specialized valving.

TransDigm Holding Company ("TransDigm Holdings") was a wholly-owned subsidiary of TD Group and the direct parent of TransDigm Inc. and was merged into TransDigm Inc. on June 26, 2006.

TD Group was incorporated on July 8, 2003 by outside investors to acquire control of TransDigm Holdings through the Merger described below and had no operations prior to the Merger. TD Group has no significant assets or operations other than its 100% ownership of TransDigm Inc.

**Initial Public Offering** On March 20, 2006, TD Group completed an initial public offering, or IPO, of its common stock (see Note 14). As a result of the IPO, TD Group's common stock is publicly traded on the New York Stock Exchange under the ticker symbol "TDG".

On March 14, 2006, TD Group effected a 149.6 for 1 stock split and, in conjunction therewith, amended and restated its certificate of incorporation to increase the number of authorized shares of common stock and preferred stock. All common shares and per common share amounts in these condensed consolidated financial statements prior to March 14, 2006 have been retroactively adjusted for all periods presented to give effect to the stock split, including reclassifying an amount equal to the increase in par value from additional paid-in capital to common stock.

**Merger** On July 22, 2003, an entity formed by Warburg Pincus Private Equity VIII, L.P. ("Warburg Pincus") merged with and into TransDigm Holdings, with TransDigm Holdings continuing as the surviving corporation as a wholly-owned subsidiary of a newly formed corporation controlled by Warburg Pincus, TD Group (the "Merger").

**Separate Financial Statements** Separate financial statements of TransDigm Inc. are not presented since the 7<sup>3</sup>/<sub>4</sub>% senior subordinated notes, or the 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes, are fully and unconditionally guaranteed on a senior subordinated basis by TD Group and all existing domestic subsidiaries of TransDigm Inc. and since TD Group has no significant operations or assets separate from its investment in TransDigm Inc.

**2. ACQUISITIONS**

**Sweeney** On June 12, 2006, TransDigm Inc. acquired all of the outstanding capital stock of Sweeney Engineering Corp. ("Sweeney") for \$25.5 million in cash. Sweeney designs and manufactures specialized aerospace valving used primarily in fuel, environmental control, and de-icing applications.

The products are used on defense and commercial aircraft applications. Sweeney's product characteristics and market position fit well with TransDigm's overall direction. The acquired business was consolidated into AeroControlex's existing business in Painesville, Ohio during the first quarter of fiscal 2007. The Company expects that the \$20.7 million of goodwill recognized for the acquisition will not be deductible for tax purposes.

**Motor Product Line** On June 30, 2005, TransDigm Inc., through its wholly-owned Skurka Aerospace Inc. subsidiary, acquired an aerospace motor product line from Eaton Corporation for \$9.6 million in cash. The Eaton business has been a long-time supplier of aerospace motors and related products. The motor products are used on a range of commercial aircraft, as well as military programs. The product line's proprietary products, market position, and aftermarket content fit well with TransDigm's overall direction. The acquired business was consolidated into Skurka's existing aerospace motor business in Camarillo, California. The Company expects that the \$4.8 million of goodwill recognized for the acquisition will be deductible for income tax purposes.

**Fluid Regulators** On January 28, 2005, TransDigm Inc. acquired all of the outstanding capital stock of Fluid Regulators Corporation, a wholly-owned subsidiary of Esterline Technologies Corporation, for \$23.5 million in cash, net of a purchase price adjustment of \$0.5 million received in April 2005. Fluid Regulators designs and manufactures highly engineered flight control and pressure valves used in hydraulic, fuel, lubrication and related applications. The products are used on a wide range of commercial and regional aircraft as well as many corporate and military aircraft. Fluid Regulator's product characteristics and market position fit well with TransDigm's overall direction. Fluid Regulators was merged into TransDigm Inc. on September 30, 2005. The Company expects that the \$15.7 million in goodwill recognized in accounting for the acquisition will not be deductible for income tax purposes.

**Skurka** On December 31, 2004, TransDigm Inc., through its wholly-owned Skurka Aerospace Inc. subsidiary, acquired certain assets and assumed certain liabilities of Skurka Engineering Company ("Skurka") for \$30.7 million in cash. Skurka designs and manufactures engineered aerospace components, primarily AC/DC electric motors and transducers. The products are used on a wide range of commercial and military aircraft, ships and ground vehicles. Skurka's product characteristics and market position fit well with TransDigm's overall direction. The Company expects that the \$20.7 million of goodwill recognized in accounting for the acquisition will be deductible for income tax purposes.

**Avionic Instruments** On July 9, 2004, TransDigm acquired all of the outstanding capital stock of Avionic Instruments, Inc. ("Avionic Instruments") and DAC Realty Corp. ("DAC") for approximately \$20.9 million in cash, net of a purchase price adjustment of \$0.6 million, net of fees, received in April 2005. Avionic Instruments designs and manufactures specialized power conversion devices for a wide range of aerospace applications. These products are used on most commercial and regional transports as well as many corporate and military aircraft. DAC is a realty company that holds title to the real property used in connection with the operation of the business of Avionic Instruments. Avionic Instruments' proprietary products, market position and aftermarket content fit well with the TransDigm's overall business direction. In addition, the acquisition significantly enhances the Company's existing market position in aerospace power conversion devices.

The purchase price consideration of \$20.9 million in cash was funded through the use of the Company's existing cash balances. Goodwill of \$13.1 million recognized in accounting for the acquisition will not be deductible for income taxes. The Company accounted for the acquisition as a

purchase and included the results of operations of the acquired company in its consolidated financial statements from the effective date of the acquisition.

The Company accounted for the acquisitions of Sweeney, Skurka, Fluid Regulators, the motor product line and Avionic Instruments (collectively, the "Acquisitions") as purchases and included the results of operations of the Acquisitions in its consolidated financial statements from the effective date of each acquisition. The Company is in the process of obtaining third-party valuations of certain tangible and intangible assets of Sweeney; thus, the values attributed to acquired assets in the consolidated financial statements are subject to adjustment. Pro forma net sales and results of operations for the Acquisitions, had the Acquisitions occurred at the beginning of the applicable fiscal year ended September 30th are not significant and, accordingly, are not provided.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Presentation and Consolidation** The accompanying consolidated financial statements include the accounts of TD Group and subsidiaries. All significant intercompany balances and transactions have been eliminated.

**Revenue Recognition and Related Allowances** The Company recognizes substantially all revenue based upon shipment of products to the customer, at which time title and risk of loss passes to the customer. Substantially all sales are made pursuant to firm, fixed-price purchase orders received from customers. Shipping and handling costs are included in cost of goods sold. Provisions for estimated returns, uncollectible accounts and the cost of repairs under contract warranty provisions are provided for in the same period as the related revenues are recorded and are principally based on historical results modified, as appropriate, by the most current information available. Due to uncertainties in the estimation process, it is possible that actual results may vary from the estimates and the differences could be material.

**Research and Development Costs** The Company expenses research and development costs as incurred. The cost recognized for research and development costs for the years ended September 30, 2006, 2005 and 2004 was approximately \$3.9 million, \$2.5 million and \$2.2 million, respectively.

**Cash Equivalents** The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

**Marketable Securities** Marketable securities consist of U.S. Treasury Notes, U.S. Government Agency mortgage-backed obligations, corporate bonds and asset backed securities. The Company accounted for its marketable securities under Statement of Financial Accounting Standards ("SFAS") No. 115, "Accounting for Certain Investments in Debt and Equity Securities" ("SFAS No. 115"), which requires that marketable debt and equity securities be adjusted to market value at the end of each accounting period, except in the case of debt securities which a holder has the positive intent and ability to hold to maturity, in which case the debt securities are carried at cost. For marketable debt and equity securities carried at market value, unrealized market value gains and losses are charged or credited to a separate component of stockholders' equity ("accumulated other comprehensive loss").

The Company determined the proper classification of its marketable debt and equity securities at the time of purchase and reevaluated such designations as of each balance sheet date. All marketable securities were sold during fiscal 2005. Realized gains and losses on sale of securities, as determined on a specific identification basis, were included in net income.

Proceeds from the sale/maturity of marketable securities were \$116.0 and \$44.0 million during the years ended September 30, 2005 and 2004, respectively. Gross realized losses for the years ended September 30, 2005 and 2004 were \$0.8 million and \$0.1 million, respectively. There were no marketable securities at September 30, 2006 and September 30, 2005.

**Allowance for Uncollectible Accounts** The Company reserves for amounts determined to be uncollectible based on specific identification and historical experience. The allowance also incorporates a provision for the estimated impact of disputes with customers. The determination of the amount of the allowance for doubtful accounts is subject to significant levels of judgment and estimation by management. If circumstances change or economic conditions deteriorate or improve, the allowance for doubtful accounts could increase or decrease.

**Inventories** Inventories are stated at the lower of cost or market. Cost of inventories is determined by the average cost and the first-in, first-out (FIFO) methods. Provision for potentially obsolete or slow-moving inventory is made based on management's analysis of inventory levels and future sales forecasts. In accordance with industry practice, all inventories are classified as current assets even though a portion of the inventories may not be sold within one year.

**Property, Plant and Equipment** Property, plant and equipment are stated at cost. Depreciation is computed using the straight-line method over the following estimated useful lives: land improvements from 10 to 20 years, buildings and improvements from 10 to 30 years, machinery and equipment from 3 to 10 years and furniture and fixtures from 3 to 10 years.

The Company assesses the potential impairment of its property by determining whether the carrying value of the property can be recovered through projected, undiscounted cash flows from future operations over the property's remaining estimated useful life. Any impairment recognized is the amount by which the carrying amount exceeds the fair value of the asset.

**Debt Issue Costs, Premiums and Discounts** The cost of obtaining financing as well as premiums and discounts are amortized using the interest method over the terms of the respective obligations/securities.

**Intangible Assets** Intangible assets consist of identifiable intangibles acquired or recognized in accounting for the Merger and other acquisitions (trademarks, trade names, a license agreement, patented and unpatented technology, trade secrets and order backlog) and goodwill. Under the provisions of SFAS No. 142, amortization of goodwill and intangible assets that have indefinite useful lives ceased effective October 1, 2002. Amortization of such assets was replaced with the requirement to test them for impairment upon adoption of SFAS 142 and at least annually thereafter. A two-step impairment test is used to identify potential goodwill impairment. The first step of the goodwill impairment test, used to identify potential impairment, compares the fair value of a reporting unit (as defined) with its carrying amount, including goodwill. If the fair value of the reporting unit exceeds its carrying amount, goodwill is not considered impaired, and the second step of the goodwill impairment test is unnecessary. The second step measures the amount of impairment, if any, by comparing the carrying value of the goodwill associated with a reporting unit to the implied fair value of the goodwill derived from the estimated overall fair value of the reporting unit and the individual fair values of the other assets and liabilities of the reporting unit.

The impairment test for indefinite lived intangible assets consists of a comparison between their fair values and carrying values. If the carrying amounts of intangible assets that have indefinite useful

lives exceed their fair values, an impairment loss will be recognized in an amount equal to the sum of any such excesses. The Company's annual impairment test is performed as of its fiscal year end.

The Company assesses the recoverability of its amortizable intangible assets by determining whether the amortization over their remaining lives can be recovered through projected, undiscounted, cash flows from future operations.

**Interest Rate Swap** In connection with the June 2006 debt refinancing, the Company entered into an interest rate swap agreement with a financial institution to eliminate the variability of cash flows in interest payments on a portion of its new variable rate debt. The notional amount of the swap contract was \$187 million, and will decrease to \$170 million on September 23, 2007, and to \$150 million on September 23, 2008. The interest rate swap agreement expires on June 23, 2009. The Company's interest rate swap effectively converts the variable rate interest on the notional amount of the New Senior Secured Credit Facility to a fixed rate of 5.63% plus the 2% margin percentage, over the term of the agreement.

The interest rate swap qualifies as an effective cash flow hedge under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities". Accordingly, changes in the fair value of the interest rate swap are recorded as other comprehensive income. The fair value of the interest rate swap as quoted by the financial institution, (the amount that the Company would pay to terminate the interest rate swap agreement) was \$2.9 million and is recorded in other non-current liabilities and other comprehensive income (net of tax of \$1.1 million) at September 30, 2006. The net-after tax derivative loss included in accumulated other comprehensive income is expected to be reclassified into interest expense in conjunction with the recognition of interest payments on the notional amounts of the swap contract through June 23, 2009, with \$0.5 million of after-tax net loss expected to be recognized in interest expense within the next year.

**Stock Option and Deferred Compensation Plans** Effective with the consummation of the Merger and the issuance of the TD Group stock options the Company adopted the provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, which requires the measurement of compensation expense under a stock option plan to be based on the estimated fair values of the awards under the plan on the grant dates and amortizes the expense over the options' vesting periods. In addition, the Company accounts for the cost of its deferred compensation plans in accordance with Opinion No. 12 of the Accounting Principles Board, which requires the cost of deferred compensation arrangements to be accrued over the service period of the related employees in a systematic and rational manner.

**Income Taxes** The Company accounts for income taxes using an asset and liability approach. Deferred taxes are recorded for the difference between the book and tax basis of various assets and liabilities. A valuation allowance is provided when it is more likely than not that some or all of a deferred tax asset will not be realized.

**Estimates** The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Comprehensive Income (Loss)** The term "comprehensive income (loss)" represents the change in shareholders' equity from transactions and other events and circumstances resulting from

non-shareholder sources. The Company's accumulated other comprehensive loss, consisting principally of its interest rate swap and minimum pension liability adjustment, is reported separately in the accompanying consolidated statements of changes in stockholders' equity, net of taxes of \$1.0 million, \$0.2 million and \$0.1 million for fiscal years ended September 30, 2006, 2005 and 2004, respectively.

**Segment Reporting** The Company's principal business, aircraft component supplier, is reported as one segment. Substantially all of the Company's operations are located within the United States.

**Reclassifications** Certain reclassifications have been made to the accompanying fiscal 2005 and fiscal 2004 footnote disclosures to conform to the classifications used for the year ended September 30, 2006.

#### 4. SALES AND TRADE ACCOUNTS RECEIVABLE

**Sales** The Company's sales and receivables are concentrated in the aerospace industry. TransDigm's customers include: distributors of aerospace components; commercial airlines, large commercial transport and regional and business aircraft OEMs; various armed forces of the United States and friendly foreign governments; defense OEMs; system suppliers; and various other industrial customers.

	<u>          </u>	<u>          </u>

**Revolving Credit Facility and Term Loans** In connection with the refinancing, all of TransDigm Inc.'s borrowings (term loans) under the former senior secured credit facility were repaid and a new senior secured credit facility was obtained. TransDigm Inc.'s new senior secured credit facility, or the New Senior Secured Credit Facility, totals \$800 million, which consists of (1) a \$150 million revolving credit line maturing in June 2012 and (2) a \$650 million term loan facility maturing in June 2013. At September 30, 2006, the Company had \$1.2 million letters of credit outstanding and \$148.8 million of borrowings available under the New Senior Secured Credit Facility.

The interest rates per annum applicable to the loans under the New Senior Secured Credit Facility are equal to either an alternate base rate or an adjusted LIBO rate for one, two, three, or six-month (or to the extent available to each lender, nine or twelve month) interest periods chosen by TransDigm Inc. in each case, plus an applicable margin percentage. The alternate base rate is the greater of (1) Credit Suisse First Boston's prime rate or (2) 50 basis points over the weighted average of rates on overnight Federal funds as published by the Federal Reserve Bank of New York. The adjusted LIBO rate is determined by reference to settlement rates established for deposits in dollars in the London interbank market for a period equal to the interest period of the loan as adjusted for the maximum reserve percentages established by the Board of Governors of the United States Federal Reserve. The applicable margin percentage is a percentage per annum equal to (1) 1.00% for alternate base rate term loans, (2) 2.00% for adjusted LIBO rate term loans, and (3) in the case of alternate base rate revolving loans and adjusted LIBO rate revolving loans, a percentage which varies based on the consolidated leverage ratio of TransDigm Inc. as of the relevant date of determination. The interest rate on the New Senior Secured Credit Facility at September 30, 2006 was 7.39%.

Under the terms of the New Senior Secured Credit Facility, the Company is required to pay the administrative agent certain fees. In addition, on the last day of each calendar quarter the Company is required to pay a commitment fee of 0.375% on any unused commitments under the revolving credit

line and certain other fees in respect of letters of credit that may be outstanding thereunder from time to time.

The New Senior Secured Credit Facility is subject to mandatory prepayments of term loans based on certain percentages of excess cash flows, as defined, commencing 90 days after the end of fiscal 2007, subject to exceptions. In addition, subject to exceptions (including in respect of reinvestment in productive assets), TransDigm Inc. will be required to offer to prepay the loans outstanding under the term loan facility at 100% of the principal amount thereof, plus accrued and unpaid interest, with the net proceeds of certain asset sales.

The New Senior Secured Credit Facility is guaranteed by TD Group and all of TransDigm Inc.'s current and future domestic restricted subsidiaries, and is secured by a first priority security interest in substantially all of the existing and future property and assets, including inventory, equipment, general intangibles, intellectual property, investment property and other personal property (but excluding leasehold interests, deposit accounts and certain other assets) of TransDigm Inc. and all of TransDigm Inc.'s existing and future domestic restricted subsidiaries, and a first priority pledge of the capital stock of TransDigm Inc. and TransDigm Inc.'s domestic subsidiaries and 65% of the voting capital stock of TransDigm Inc.'s foreign subsidiary.

The agreement also contains a number of restrictive covenants restricting or limiting the ability of TD Group, TransDigm Inc. and TransDigm Inc.'s direct and indirect restricted subsidiaries to, among other things, incur or guarantee additional indebtedness or issue preferred stock, pay distributions on, redeem or repurchase our capital stock or redeem or repurchase our subordinated debt, make investments, sell assets, enter into agreements that restrict distributions or other payments from our restricted subsidiaries to us, incur liens, consolidate, merge or transfer all or substantially all of our assets, engage in transactions with affiliates, create unrestricted subsidiaries, and engage in certain business activities. Such negative covenants are subject to certain exceptions. The negative covenants are substantially identical to the corresponding negative covenants of the 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes. In addition, the New Senior Secured Credit Facility includes a financial maintenance covenant requiring that TransDigm comply, on a pro forma basis, with a consolidated secured debt ratio test. Such covenant, however, inures only to the benefit of the revolving lenders. TransDigm is in compliance with all of the covenants contained in the New Senior Secured Credit Facility.

**Interest Rate Swap** In connection with the refinancing, the Company entered into a three year interest rate swap agreement with a financial institution to eliminate the variability of cash flows in interest payments on a portion of its new variable rate debt. The notional amount of the swap contract was \$187 million, and will decrease to \$170 million on September 23, 2007, and to \$150 million on September 23, 2008. The Company's interest rate swap effectively converts the variable rate interest on the notional amount of the New Senior Secured Credit Facility to a fixed rate of 5.63% plus the 2% margin percentage, over the term of the agreement.

**Senior Subordinated Notes** In connection with the refinancing, \$399.7 million of TransDigm Inc.'s 8% senior subordinated notes due July 15, 2011 were repaid, the remaining \$0.3 million were redeemed in August 2006 and \$275 million of new 7<sup>3</sup>/<sub>4</sub>% senior subordinated notes due July 15, 2014, or the 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes were issued. The 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes are unsecured obligations of TransDigm Inc. ranking subordinate to TransDigm Inc.'s senior debt, as defined in the indenture governing the Notes. Interest under the Notes is payable semi-annually.

The 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes are redeemable by TransDigm after July 15, 2009, in whole or in part, at specified redemption prices, which decline from 105.813% to 100% over the remaining term of the 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes. Prior to July 15, 2009, TransDigm may redeem specified percentages of the 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes from the proceeds of equity offerings at a redemption price of 107.75%. If a change in control of the Company occurs, the holders of the 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes will have the right to demand that TransDigm redeem the 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes at a purchase price equal to 101% of the principal amount of the 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes plus accrued and unpaid interest. The 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes contain many of the same restrictive covenants included in the New Senior Secured Credit Facility. TransDigm is in compliance with all of the covenants contained in the 7<sup>3</sup>/<sub>4</sub>% Senior Subordinated Notes.

**Senior Unsecured Promissory Notes** In connection with the initial funding of TD Group (see Note 1), TD Group issued approximately \$200 million of senior unsecured promissory notes due July 22, 2003, or the 12% senior unsecured promissory notes. The 12% senior unsecured promissory notes, including accrued and unpaid interest of \$62.7 million, were repaid in their entirety on November 10, 2005 (see TD Group Loan Facility below and Note 13). Interest on the 12% senior unsecured promissory notes accrued at an annual fixed rate (compounding semi-annually) and was payable on the maturity date of the notes or the earlier prepayment thereof.

**TD Group Loan Facility** On November 10, 2005, TD Group closed on a \$200 million loan facility, or the TD Group Loan Facility. TD Group used the net proceeds from the TD Group Loan Facility of approximately \$193.8 million, together with substantially all of the proceeds received from a dividend payment from TransDigm Holdings to prepay the entire outstanding principal amount and all accrued and unpaid interest the former 12% senior unsecured promissory notes. In connection with the June 2006 refinancing discussed above, the entire \$200 million TD Group Loan Facility was repaid.
