The aggregate market value of the voting and non-voting common equity held by non-affiliates computed using \$16.79, the price at which the common equity was last sold as of March 31, 2008 (the last business day of the Registrant's most recently completed second fiscal quarter), was approximately \$99,000,000.

On December 8, 2008, there were 6,082,305 shares of the Registrant's common stock, \$.01 par value, outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's Proxy Statement to be filed with the Commission in connection with the Annual Meeting of Stockholders scheduled to be held on January 23, 2009 are incorporated by reference into Part III of this Form 10-K.

PART I.

Our fiscal year ends on September 30. All references in this report to our fiscal years refer to the fiscal year ended on September 30 in the year mentioned. For example, our "fiscal 2008" ended on September 30, 2008. Unless otherwise indicated, operating data referred to in this report is as of September 30, 2008. As used in this report, "retail locations" include our stores and leased departments and exclude locations where Kohl's® sells our products under an exclusive product and license agreement.

Item 1. Business

Overview

We are the leading designer and retailer of maternity apparel in the United States and are the only nationwide chain of maternity specialty stores. We operate 1,032 retail locations, including 754 stores in all 50 states, Puerto Rico, Guam and Canada, and 278 leased departments located within department stores and baby specialty stores throughout the U.S. We are also the exclusive provider of maternity apparel to Kohl's®, which operates approximately 957 stores throughout the U.S. We operate our 754 stores under four retail nameplates: Motherhood Maternity®, Mimi Maternity®, A Pea in the Pod® and Destination Maternity®. In addition to our 754 stores, we operate 278 maternity apparel departments, which we refer to as leased departments, within leading retailers such as Macy's®, Bloomingdale's®, Babies "R" Us®, Boscov's® and Gordmans®. We are the exclusive maternity apparel provider in each of our leased department relationships. As we disclosed in September 2007, we were unable to reach terms on a renewal of our relationship with Sears® and, as a result, our relationship with Sears ended on June 20, 2008, resulting in the closure of our leased departments within Sears stores during June 2008. In October 2008, we announced our planned expansion into six key markets in the Middle East through an international franchise agreement. Our initial branded retail locations in the Middle East under this agreement are expected to open during 2009. We also sell merchandise on the Internet, primarily through DestinationMaternity.com and our various brand-specific websites.

In July 2008, we announced that we are streamlining our merchandise brands and store nameplates and implementing cost reductions in order to simplify our business model, reduce our overhead costs and improve and tighten our merchandise assortments to drive the best possible results both in the near term and in the long term. Pursuant to our strategic restructuring, we are rebranding our Mimi Maternity merchandise brand under our A Pea in the Pod brand beginning with the Spring 2009 collection, which initially debuted in November 2008. Also beginning with the Spring 2009 collection, we are rebranding our existing luxury-priced A Pea in the Pod merchandise assortment as the A Pea in the Pod Collection to emphasize its exclusive designer brand position. We also plan on streamlining our store nameplates by January 2009, by renaming our single-brand Mimi Maternity stores as A Pea in the Pod, and by renaming our multi-brand Mimi Maternity stores as Destination Maternity. However, we anticipate that the storefront sign of certain of our existing Mimi stores will not be changed, either in situations where we are unable to obtain the required landlord consents to change the storefront sign, or because they are stores which we may close in the relatively near future. We feel strongly that the strategic restructuring and streamlining of our merchandise brands and store nameplates will help improve our long-term profitability by simplifying our brand structure, reducing our cost structure, and leveraging both our renowned A Pea in the Pod luxury brand and our growing multi-brand Destination Maternity store brand. We expect to realize approximately \$5 million of annualized pre-tax expense savings from the cost reductions associated with our strategic restructuring actions, and we began to realize these savings in the fourth quarter of fiscal 2008.

On December 8, 2008, we changed our corporate name from "Mothers Work, Inc." to "Destination Maternity Corporation" (the "Company"). The corporate name change was undertaken as an extension of our previously announced strategic restructuring and streamlining of our merchandise brands and store nameplates. The name change was accomplished through the merger of a newly-

Edgar Filing: Destination Maternity Corp - Form 10-K

formed, wholly-owned subsidiary, DM Newco, Inc., into Mothers Work, Inc. Our Nasdaq® symbol also changed from "MWRK" to "DEST" coincident with the name change. Our comprehensive focus on the needs of all maternity customers is epitomized by our Destination Maternity multi-brand store concept, which includes both our moderate-priced Motherhood Maternity brand and our luxury-priced A Pea in the Pod brand, and provides the broadest range of maternity apparel products, accessories and services available to the maternity customer for all of her lifestyle needs. With Destination Maternity effectively having become our umbrella brand, we believe the name "Destination Maternity Corporation" better aligns our corporate name with our merchandise brands, our store nameplates, and our overall business scope.

After giving effect to our merchandise brand and store nameplate rebranding, we expect that we will maintain our leading position across all major price points of maternity apparel through our three distinct merchandise brands, which enable us to reach a broad range of maternity customers. Through our 754 stores and certain of our leased departments and giving effect to our merchandise rebranding, we offer maternity apparel under our two primary merchandise brands, Motherhood Maternity ("Motherhood") at value prices and A Pea in the Pod ("Pea") at both contemporary and luxury prices. Our A Pea in the Pod Collection ("Pea Collection") is the distinctive premier maternity line within the Pea brand, featuring exclusive designer label product at luxury prices. We also have an additional value-priced maternity apparel brand, our Oh Baby by Motherhood collection, which we sell exclusively through Kohl's, and is the exclusive maternity apparel offering in this chain.

We believe that one of our key competitive advantages is our ability to fulfill, in a high-service store environment, all of an expectant and nursing mother's clothing needs, including casual and career wear, formal attire, lingerie, sportswear and outerwear, in sizes that cover all trimesters of the maternity cycle. We believe that our sophisticated vertically-integrated business model enables us to offer the broadest assortment of in-stock, fashionable maternity apparel. We design and contract for the production of approximately 90% of the merchandise we sell using sewing factories located throughout the world, predominantly outside of the U.S.

In fiscal 2003, we began to develop and introduce, on a limited basis, new multi-brand store concepts that offer merchandise from our various brands in a single location in order to provide a broader product assortment at multiple price ranges to our customers and to increase average store sales and profitability. After giving effect to our store nameplate rebranding, our multi-brand stores will predominately be operated under our Destination Maternity nameplate, which will include two-branded Destination Maternity combo stores (carrying Motherhood and Pea merchandise) and Destination Maternity superstores, which also carry both of our principal merchandise brands, as well as a significant array of maternity-related products and customer service features. These multi-brand stores are larger and have historically had higher average sales than our average store. The continued rollout of our multi-brand store initiative provides the opportunity for us to improve store operating profit margins over time by reducing store operating expense percentages through economies of scale, and may increase overall sales in the geographical markets they serve. Opening these multi-brand stores will typically involve closing two or more smaller stores and may frequently result in one-time store closing costs resulting primarily from early lease terminations.

We plan to open approximately 14 - 18 new retail stores during fiscal 2009, of which we expect approximately 4 - 7 will be new Destination Maternity combo or superstores, with the balance primarily under the Motherhood brand. We estimate that we will close approximately 45 - 55 stores in fiscal 2009, with approximately 8 - 12 of these store closings related to the opening of new Destination Maternity stores.

Currently, we operate 36 Motherhood stores in Canada and we operate a Motherhood website under a Canadian URL (MotherhoodCanada.ca). In addition, we believe there is a significant opportunity to develop international sales beyond Canada. Our initial branded retail locations through

Edgar Filing: Destination Maternity Corp - Form 10-K

our initial franchise agreement in the Middle East are expected to open during 2009. We are currently evaluating other international sales opportunities.

We believe that our customers, particularly first-time mothers, are entering a new life stage that drives widespread changes in purchasing needs and behavior, thus making our maternity customer and her family a highly-valued demographic for a range of consumer products and services companies. As a result, we have been able to expand and leverage the relationship we have with our customers and generate incremental revenues and earnings by offering other value-added baby and parent-related products and services through a variety of marketing partnership programs utilizing our extensive opt-in customer database and various in-store marketing initiatives.

Destination Maternity Corporation (formerly Mothers Work, Inc.) was founded by Dan and Rebecca Matthias in 1982 as a mail-order maternity apparel catalog. We began operating retail stores in 1985 and completed our initial public offering in 1993. To address multiple price points in maternity apparel and improve operating productivity, we acquired Motherhood and A Pea in the Pod in 1995 and eSpecialty Brands, LLC, or iMaternity, in October 2001. Since the acquisitions of Motherhood and A Pea in the Pod, we have developed and grown these brands along with growing our Mimi and Destination Maternity brands. Also, since the 1990s we have partnered with other retailers to sell our products through maternity apparel departments within their stores.

Industry Overview

We are unaware of any reliable external data on the size of the maternity apparel business. However, based on our own analysis, we believe that there are approximately \$1.2 billion of maternity clothes sold each year in the U.S. We believe that there is an opportunity to grow the industry, and our business, by selling maternity clothes to those pregnant women who currently purchase loose-fitting or larger-sized non-maternity clothing as a substitute for maternity wear. We also believe that our business can grow by reducing the amount of "hand-me-down" and "borrowing" associated with maternity apparel, particularly in the value-priced segment. Further, we believe that the demand for maternity apparel is relatively stable when compared to non-maternity apparel. Expectant mothers continue to need to replace most of their wardrobe and the current steady rate of approximately four million U.S. births per year has remained relatively stable over the last decade. Also, although we are affected by fashion trends, we believe that maternity apparel is less fashion sensitive than women's specialty apparel in general, as demand is driven primarily by the need to replace wardrobe basics as opposed to a desire to add to one's wardrobe in order to meet current fashion trends.

Our Competitive Strengths

We are the leader in maternity apparel. We are the leading designer and retailer of maternity apparel in the U.S. and are the only nationwide chain of maternity specialty stores. We believe that our brands are the most recognized in maternity apparel. We have established a broad distribution network, with stores in a wide range of geographic areas and retailing venues. In addition, we have a leading position across all major price points of maternity apparel through our retail store nameplates and our merchandise brands. Our exclusive focus on maternity apparel and our leadership position enable us to gain a comprehensive understanding of the needs of our maternity customers and keep abreast of fashion and product developments. We further enhance our leadership position, increase market penetration and build our brands by distributing our products under exclusive leased department and licensed relationships.

We offer a comprehensive assortment of maternity apparel and accessories. A primary consideration for expectant mothers shopping for maternity clothes is product assortment, as pregnant women typically need to replace almost their entire wardrobe. We believe that we offer the widest selection of merchandise in the maternity apparel business. We also offer product for multiple seasons, as pregnant

women's clothing needs vary depending on their due date. Our ability to offer a broad assortment of product is due, in large part, to our vertically-integrated business model, which includes our extensive in-house design and contract manufacturing capabilities, as well as our rapid inventory replenishment system.

We are vertically integrated. We design and contract manufacture approximately 90% of the merchandise we sell. We believe that vertical integration enables us to offer the broadest assortment of maternity apparel, to respond quickly to fashion trends and to maximize in-stock levels. We combine our in-house design expertise, domestic and international sourcing capabilities, a rapid inventory replenishment process and extensive proprietary systems to enhance operational and financial results.

We utilize a rapid inventory replenishment system. We are able to offer a wide selection of merchandise in our retail locations due, in large part, to our rapid inventory replenishment system. Our proprietary inventory replenishment system enables us to offer our customers a much broader selection than any of our competitors, without dedicating retail space to "back-stock" storage. We coordinate the rapid replenishment of inventory for all of our retail locations through our Philadelphia, Pennsylvania and Mississauga, Ontario distribution centers to meet the individualized needs of our retail locations. Our stores receive shipments from our distribution centers between two and seven times per week. This enables us to maintain a high percentage in-stock merchandise position in each of our stores.

We have proprietary systems that support our business. In order to support our vertically-integrated business model and inventory replenishment system, we have developed a fully integrated, proprietary enterprise resource planning (ERP) system. This system includes point-of-sale systems, our TrendTrack merchandise analysis and planning system, our materials requirement planning system, and our web-based, global sourcing and logistics systems. These systems also support our automated picking and sorting systems and other aspects of our logistics infrastructure. We believe that our proprietary systems are a critical competitive strength that enables us to offer a broad product assortment and respond quickly to fashion trends as well as helps us to reduce product costs and rapidly replenish inventory in our retail locations.

We are able to obtain prime real estate locations. We believe our ability to lease attractive real estate locations is enhanced due to the brand awareness of our concepts, our multiple price point approach, our highly sought after maternity customer and our dedicated in-house real estate management and procurement team. We are the only maternity apparel retailer to provide mall operators with the ability to choose from differently priced concepts, depending on the mall's target demographics. We are also able to provide a multi-brand store for malls that want to offer their maternity customers a wide range of price alternatives. In addition, in the case of multi-mall operators, we have the flexibility to provide several stores across multiple malls. As a result, we have been able to locate stores in many of what we believe are the most desirable shopping malls in the country and are able to obtain attractive locations within these malls.

We are able to enhance our leadership position by distributing our products under exclusive leased department and licensed relationships. We operate 278 leased departments within leading retailers such as Macy's, Bloomingdale's, Babies "R" Us, Boscov's and Gordmans. We are also the exclusive provider of maternity apparel to Kohl's pursuant to an exclusive licensed relationship. We believe that we have an opportunity to continue to increase the sales we generate from these ongoing relationships through expanding our relationships with our current partners as well as developing relationships with new partners.

We have a highly experienced management team. We have a management team with significant experience in all aspects of the retail and apparel business. Rebecca Matthias, our President and Chief Creative Officer co-founded the Company over 25 years ago and is a leader in maternity apparel retailing. Edward (Ed) Krell, our Chief Executive Officer, has served as a senior executive of the

Edgar Filing: Destination Maternity Corp - Form 10-K

Company for nearly seven years and has over 20 years of business experience encompassing apparel, retail, finance and overall management.

Merchandise Brands

We believe that our brands are the most recognized brands in the maternity apparel business. After giving effect to our restructuring of our merchandise brands, which began in November 2008, we will sell our merchandise under the following three distinct brands:

Brand	Brand Positioning	Apparel Price Range
Motherhood Maternity	Broad assortment of the latest fashions, offering great quality merchandise at everyday low prices	\$9 \$60
A Pea in the Pod	Contemporary, fashion-forward and luxury, offering sophisticated career, as well as fun casual merchandise, including exclusive designer labels	\$16 \$425
Oh Baby by Motherhood	Select assortment of the latest fashions, offering great quality merchandise at value price points	\$14 \$48 (1)

(1)

Kohl's, which sells our Oh Baby by Motherhood brand under an exclusive product and license agreement, sets the apparel price range for this merchandise.

Motherhood Maternity. Our Motherhood Maternity brand serves the value-priced portion of the maternity apparel business, which has the greatest number of customers. The Motherhood brand is positioned with a broad assortment of quality fashion at everyday low prices. We believe that the Motherhood customer shops at moderate-priced department stores and discount stores when she is not expecting. The Motherhood Maternity brand will not be affected by our merchandise brand restructuring.

A Pea in the Pod. Our A Pea in the Pod brand currently serves the luxury-priced portion of the maternity apparel business, while our Mimi Maternity brand currently serves the medium-priced portion of the maternity apparel business. After giving effect to our planned merchandise brand restructuring, our A Pea in the Pod brand will serve both the medium-priced portion and, through our Pea Collection line, the luxury portion of the maternity apparel business. The Pea brand will generally be positioned as contemporary, fashion-forward and luxury, with prices ranging from affordable mid-priced to true luxury prices, offering the mom-to-be exceptional contemporary maternity pieces that reflect her uncompromising sense of style in both casual and career. The Pea Collection is the distinctive premier maternity luxury line within the Pea brand, featuring a selection of extraordinary styles along with exclusive designer labels. In our stores which carry the A Pea in the Pod brand merchandise, we also offer exclusive maternity versions of select styles from well-known designer and contemporary brands, where we have assisted in developing these maternity versions. We believe that the typical Pea customer shops at department stores and specialty apparel chains when she is not expecting, with the Pea Collection customer typically shopping at higher-end department stores and luxury designer boutiques when not pregnant. We believe the Pea brand is the leading luxury maternity brand in the United States. Publicity, including celebrities wearing our clothes, is an important part of the marketing and positioning of the Pea brand.

Oh Baby by Motherhood. Our Oh Baby by Motherhood collection was launched in February 2005 at Kohl's stores throughout the U.S. and on Kohls.com. The Oh Baby by Motherhood collection is available at all Kohl's stores under an exclusive product and license agreement. The collection features a modern assortment of quality fashions, with most items priced under \$40. The collection is available

Edgar Filing: Destination Maternity Corp - Form 10-K

at all of Kohl's stores. The Oh Baby by Motherhood brand will not be affected by our merchandise brand restructuring.

Retail Nameplates

After giving effect to our planned store nameplate rebranding, which began in November 2008, we will sell maternity apparel through the stores, leased departments and licensed relationships identified in the table below. However, we anticipate that the storefront sign of certain of our existing Mimi stores will not be changed, either in situations where we are unable to obtain the required landlord consents to change the storefront sign, or because they are stores which we may close in the relatively near future.

Store Nameplate	Description of Target Location	Brand(s) Carried	Apparel Price Range	Average Size (Sq. Ft.)
Stores:				
Motherhood Maternity	Moderate regional malls, strip and power centers, and central business districts	Motherhood	\$9 \$60	1,700
A Pea in the Pod	Mid-priced and high-end regional malls, lifestyle centers, central business districts and some stand-alone stores in affluent street locations	Pea (including, in some cases, Pea Collection)	\$16 \$425	1,900
Destination Maternity	Combo stores located in mid-priced regional malls and lifestyle centers Superstores located primarily in outdoor and power centers and central business districts	Motherhood Pea (including, in some cases, Pea Collection)	\$9 \$425	Combo stores 2,800
				Superstores 6,700
Leased Departments:				
Macy's	Mid-priced regional malls	Motherhood Pea	\$9 \$168	
Babies "R" Us	Big box power centers	Motherhood	\$9 \$60	
Boscov's	Mid-priced and moderate regional malls	Motherhood	\$9 \$60	
Gordmans	Big box power centers	Motherhood	\$9 \$60	
Exclusive Licensed Relationship:				
Kohl's	Big box power centers	Oh Baby by Motherhood	\$14 \$48 (1)	

- (1) Kohl's, which sells our Oh Baby by Motherhood brand under an exclusive product and license agreement, sets the apparel price range for this merchandise.

Edgar Filing: Destination Maternity Corp - Form 10-K

The following table sets forth our store count by nameplate as of September 30, 2008, both on an actual basis (before giving effect to our planned store nameplate rebranding), and on a pro forma basis after giving effect to our planned store nameplate rebranding.

	Store Count as of September 30, 2008	
	Actual Before giving effect to store nameplate rebranding	Pro Forma (1) After giving effect to store nameplate rebranding
Motherhood Maternity	616	616
A Pea in the Pod	30	74
Destination Maternity		
Combo stores		45
Superstores	19	19
 Total Destination Maternity stores	 19	 64
Mimi Maternity		
Single-brand stores	44	
Multi-brand stores	45	
 Total Mimi Maternity stores	 89	
 Total stores	 754	 754

(1)

We anticipate that the storefront sign of certain of our existing Mimi stores will not be changed, either in situations where we are unable to obtain the required landlord consents to change the storefront sign, or because they are stores which we may close in the relatively near future.

Major regional malls with several department stores and a wide range of price points may be able to accommodate a multi-brand store, or more than one maternity store. Our retail nameplates provide us with the ability to address multiple price alternatives at a given mall. As of September 30, 2008, we had at least two of our store concepts in 21 major regional malls. Our preference is, over time and assuming we can obtain a suitable location under acceptable financial terms, to operate one larger-sized multi-brand store under the Destination Maternity nameplate in or near these malls, rather than two smaller single-brand stores.

Motherhood Maternity Stores. Motherhood Maternity is our largest chain with 616 stores as of September 30, 2008. Motherhood is positioned with a broad assortment of quality fashion at everyday low prices. Motherhood stores average approximately 1,700 square feet and are located primarily in moderate regional malls, strip and power centers, and central business districts. Motherhood stores include 87 outlet locations that carry Motherhood-branded merchandise as well as some closeout merchandise. In fiscal 2008, we opened 22 new Motherhood stores and outlets and closed 41 Motherhood stores and outlets, with 12 of these store closings related to multi-brand store openings. As of September 30, 2008, we operated 36 Motherhood stores in Canada and believe that market opportunities may permit us to open additional stores in Canada in the future. The Motherhood Maternity retail nameplate will not be affected by our merchandise brand restructuring.

A Pea in the Pod Stores. As of September 30, 2008, we had 30 A Pea in the Pod stores. On a pro forma basis as of September 30, 2008, giving effect to our store nameplate rebranding (through which our single-brand Mimi stores will be rebranded as A Pea in the Pod), we would have 74 A Pea in the Pod stores averaging approximately 1,900 square feet. However, we anticipate that the storefront sign of certain of our existing Mimi stores will not be changed, either in situations where we are unable to

obtain the required landlord consents to change the storefront sign, or because they are stores which we may close in the relatively near future. Certain of the A Pea in the Pod stores will be located in mid-priced regional malls, lifestyle centers and central business districts while others will be located in upscale venues, including Beverly Hills, Oak Street, South Coast Plaza, Bal Harbour and Newbury Street. In fiscal 2008, we closed one Pea store (in addition to one Pea store converted to a Motherhood store) and closed 13 Mimi single-brand stores, with seven of these store closings related to multi-brand store openings.

Destination Maternity Stores. As of September 30, 2008, we had 19 Destination Maternity stores, consisting entirely of Destination Maternity superstores. On a pro forma basis giving effect to our store nameplate rebranding (through which our multi-brand Mimi stores will be rebranded as Destination Maternity), we would have 64 Destination Maternity stores averaging approximately 4,000 square feet, including 45 Destination Maternity combo stores and 19 Destination Maternity superstores. However, we anticipate that the storefront sign of certain of our existing Mimi stores will not be changed, either in situations where we are unable to obtain the required landlord consents to change the storefront sign, or because they are stores which we may close in the relatively near future.

Destination Maternity Combo Stores. As of September 30, 2008, 45 of our stores are Mimi multi-brand stores using the Mimi name, which we refer to as Mimi combo stores. Pursuant to our store nameplate rebranding, we plan to rebrand our multi-brand Mimi combo stores as Destination Maternity stores although, as we noted previously, we anticipate that the storefront sign of certain of our existing multi-brand Mimi combo stores will not be changed, primarily in situations where we are unable to obtain the required landlord consents to change the storefront sign. Our combo stores are larger (average of approximately 2,800 square feet) than our single-brand stores, generally have higher average sales volume than our average store and provide the opportunity to improve store operating profit margins over time. A new combo store typically involves closing two stores (often one Motherhood store and one single-brand Mimi store), although we sometimes close only one store in a given geographical market in situations where we believe we can expand sales through replacing a single-brand store with a Destination Maternity combo store. Store closings will often involve one-time store closing costs resulting primarily from early lease terminations. Based on our internal research, we believe that over the next several years we have the potential to expand the Destination Maternity combo store chain to 70 or more total Destination Maternity combo stores in the U.S. In fiscal 2008, we opened two multi-brand Mimi Maternity stores and we did not close any multi-brand Mimi combo stores.

Destination Maternity Superstores. In March 2004, we opened our first Destination Maternity superstore in Danbury, Connecticut. As of September 30, 2008, we had 19 Destination Maternity superstores. Destination Maternity superstores currently carry all three of our existing primary merchandise brands (Motherhood, Mimi and Pea), plus a greatly expanded line of maternity-related accessories, nursing products, health and fitness products, books, and body and nutritional products. After giving effect to our merchandise brand restructuring, Destination Maternity superstores will carry both of our primary merchandise brands (Motherhood and Pea), with some also carrying the luxury A Pea in the Pod Collection portion of the Pea brand. Our Destination Maternity superstores also typically feature a dedicated "learning center" area for maternity-related classes, a "relax area" for husbands and shoppers alike, and an inside play area for the pregnant mom's toddlers and young children, with seven of our superstores also having our Edamame® The Maternity Spa . These elements combine to give our Destination Maternity superstore not only the largest assortment of maternity apparel and accessories available, but also a unique and engaging atmosphere and experience for the maternity customer. A new Destination Maternity superstore typically involves closing at least two, and sometimes more, single brand stores, is expected to decrease store operating expense percentages through economies of scale, and may increase overall sales in the geographical areas they serve. Destination Maternity

superstores range from nearly 4,000 square feet to approximately 11,000 square feet, with an average of approximately 6,700 square feet for the 19 stores open as of September 30, 2008. In February 2006, we celebrated the grand opening of our Destination Maternity superstore on the corner of 57th Street and Madison Avenue in Manhattan. This is the largest maternity store in the world, spanning three floors and including our Edamame The Maternity Spa, all of our primary apparel brands, prenatal education and yoga classes, a juice bar with internet access, relax area and children's play area. As the only national retailer that is solely focused on maternity, we are further differentiating ourselves as the ultimate maternity destination with these large, well-assorted, "must visit" superstores. We opened five Destination Maternity superstores during fiscal 2008. Based on our internal research, we believe that over the next several years we have the potential to expand the Destination Maternity superstore chain to 50 or more total Destination Maternity superstores in the U.S.

Leased Departments. In addition to the stores we operate, we have arrangements with department stores and baby specialty stores, including Macy's, Bloomingdale's, Babies "R" Us, Boscov's and Gordmans, to operate maternity apparel departments in their stores. We are the exclusive maternity apparel provider in each of our leased department locations. We staff these leased departments at varying levels and maintain control of the pricing terms and the timing and degree of the markdowns of our merchandise that is sold in the leased departments. We operate our leased departments during the same hours and days as the host store and are responsible for replenishment of the merchandise in the leased departments. These leased departments typically involve the lease partner collecting all of the revenue from the leased department. The revenue is remitted to us, less a fixed percentage of the volume earned by the lease partner as stipulated in the agreement.

Exclusive Licensed Relationship. Our Oh Baby by Motherhood collection is available at all Kohl's stores under an exclusive product and license agreement. The collection was launched in February 2005 at Kohl's stores throughout the U.S. and on Kohls.com. As of September 30, 2008, Kohl's operated approximately 957 stores throughout the U.S.

International. Currently, we operate 36 Motherhood stores in Canada and we operate a Motherhood website under a Canadian URL (MotherhoodCanada.ca). In October 2008, we announced our planned expansion into six key markets in the Middle East through an international franchise agreement with Multi Trend, a member of the Al-Homaizi Group, to introduce our Destination Maternity, Motherhood Maternity, A Pea in the Pod, and Edamame The Maternity Spa brands into the Middle East. Our initial branded retail locations in the Middle East are expected to open during 2009. We are also evaluating other international sales opportunities. As our Middle East franchise relationship demonstrates, we anticipate that our initial international strategy will consist primarily of franchising, licensing or similar arrangements with foreign partners, although we anticipate that our strategy, particularly over the longer term, may include both licensing arrangements with foreign partners, as well as potentially entering into joint ventures or developing our own operations in certain countries.

Internet Operations

We sell our merchandise on the Internet at our DestinationMaternity.com, MaternityMall.com and iMaternity.com websites, as well as our brand-specific websites such as Motherhood.com. We also sell our merchandise through our Canadian website, MotherhoodCanada.ca. We believe that many pregnant women use the Internet to find maternity-related information and to purchase maternity clothes. Our websites are therefore important tools for educating existing and potential customers about our brands and driving traffic to our stores. In addition to providing links to all of our websites, our DestinationMaternity.com and MaternityMall.com websites contain maternity advice and information, related baby product information and editorial content. Our marketing and technology capabilities and the replenishment capabilities of our distribution centers and stores enable us to incorporate Internet design, operations and fulfillment into our existing operations. Over the past several years, we have increased the sales we generate from our websites. We look to continue to grow our Internet sales in the future.

Marketing Partnerships

We believe our customers, particularly first-time mothers, are entering a new life stage that drives widespread changes in purchasing needs and behavior, thus making our maternity customer and her family a highly-valued demographic for a range of consumer products and services companies. We have been able to leverage the relationship we have with our customers to earn incremental revenues and expect to expand these revenues through marketing partnerships and our futuretrust® college savings program.

We expect to continue to expand and leverage the relationship we have with our customers and earn incremental revenues through a variety of marketing partnership programs utilizing our extensive opt-in customer database and various in-store marketing initiatives, which help introduce our customers to various baby and parent-related products and services offered by leading third-party consumer products companies. Our current revenues in this area have predominantly been derived from the prenatal portion of our customer database. We have taken steps to update and manage our entire customer database so we can actively market our full customer database to a much broader range of consumer products and services companies that market to families with children.

Through our stores and our Internet sites, we market our futuretrust college savings program to our customers. Futuretrust is a MasterCard® based college savings program that enables members to help save for college when they link their futuretrust MasterCard to a tax advantaged 529 College Savings account. Members earn rebates on all purchases with their futuretrust MasterCard that are automatically contributed to their 529 College Savings account and can also earn additional college savings at merchants in the futuretrust Preferred Merchant Network. We have entered into relationships with select providers of 529 savings programs, tax preparation services, home mortgages, online banking, life insurance and real estate services for our futuretrust members and, in the future, we anticipate further developing our futuretrust program into a full service financial services and information resource for our members known as the Futuretrust Family Financial Center . We anticipate that additional potential services offered through the Futuretrust Family Financial Center may include other financial services needed by families with children. We plan to offer such services through relationships with high-quality third-party providers of these services.

Operations

Brand-Specific Operations Teams. To obtain maximum efficiencies, we are organized primarily along functional lines, such as store operations, merchandising, design and production. After giving effect to our merchandise brand restructuring, our business will consist of three merchandise brands, which each require decisions on a brand-specific basis. As such, we have built business teams by brand where the functional leaders within each brand work together. Each brand team is led by the head merchant and includes a brand-specific head designer, head planner and distributor, key production manager, and, where applicable, a director of stores. These teams also include visual, fabric purchasing and other necessary professionals.

Store Operations. The typical maternity customer, especially the first-time mother, seeks more advice and assistance than the typical non-maternity customer. Therefore, we aim to employ skilled and motivated store team members who are trained to provide the high level of service and reassurance needed by our customers. We attempt to provide a boutique level of attentive service that differentiates us from our competitors. Our centralized merchandising and store operations also enable our store team members to focus primarily on selling and maintaining the appearance of the stores. In addition, visual merchants coordinate with the merchandising department to develop floor-sets, design store display windows and define and enhance the product presentation.

The field/store management reporting structure for each chain consists of a director, regional managers, district managers and store managers. These members of field/store management are each

eligible to receive incentive-based compensation related to store, district, regional and chain-level performance.

Merchandising, Design and Inventory Planning and Allocation

Merchandising. We strive to maintain an appropriate balance between new merchandise and proven styles, as well as between basic and fashion items. Our merchandising decisions are based on current fashion trends, as well as input from our designers and outside vendors. This information is used in conjunction with the item-specific sales data provided by our proprietary merchandising and replenishment system. Each brand has its own team of merchants, designers and planners. These teams are led by the head merchant of the brand who each report to our Chief Merchandising Officer.

Design. Our design department creates and produces samples and patterns for our contract-manufactured products under the guidance of the merchandising department. This capability differentiates us from many of our competitors, who source their products from a limited number of maternity wear vendors. The design of our products begins with a review of European and New York runway trends, current non-maternity retail trends, fashion reporting service information and fabric samples. The designers review our best selling items from prior seasons and integrate current fashion ideas from the non-maternity apparel business.

Inventory Planning and Allocation. Our inventory planning and allocation department is responsible for planning future inventory purchases and markdowns, as well as targeting overall inventory levels and turnover. We establish target inventories for each store using our inventory planning system with the goals of optimizing our merchandise assortment and turnover, maintaining adequate depth of merchandise by style and managing closeout and end-of-season merchandise consolidation. Our proprietary capabilities enable us to continually monitor and respond quickly to consumer demand and are integral to our inventory management program. These capabilities are facilitated by our TrendTrack system, which provides daily product sell-through data and merchandising information.

Production and Distribution

We design and contract for the production of approximately 90% of the merchandise we sell using sewing factories located throughout the world, predominantly outside of the U.S., and we continue to seek additional contractors for our sourcing needs. No individual contractor represents a material portion of our sewing. A majority of our merchandise is purchased "full package" as finished product made to our specifications, typically utilizing our designs. Fabric, trim and other supplies are obtained from a variety of sources.

Our production and quality assurance personnel monitor production at contractor facilities in the U.S. and work with our buying representatives abroad to ensure quality control, compliance with our design specifications and timely delivery of finished goods. This quality control effort is enhanced by our worldwide Internet-based contracting and logistics systems, which include advanced features such as measurement specifications and digital photography. We also use a third-party consulting firm to help monitor working conditions at our contractors' facilities on a worldwide basis.

We operate our primary distribution center in Philadelphia, Pennsylvania and a distribution center in Mississauga, Ontario to support our stores in Canada. We also lease a facility located in the Philadelphia Naval Business Center in Philadelphia, Pennsylvania, which we use for warehousing, distribution and raw material cutting.

Finished garments from contractors and other manufacturers are received at our primary distribution center in Philadelphia, Pennsylvania and our Canadian distribution center. Garments are inspected using statistical sampling methods and stored for picking. Our primary distribution center

utilizes sophisticated fulfillment technology to serve as a replenishment center, as opposed to solely a distribution center. This distribution center sends a specific selection that meets individual store needs from our overall inventory, with each store shipped between two and seven times per week. Retail location replenishment decisions are made automatically based upon target inventories established by the allocation department and individual retail location sales data. Our primary distribution center uses several automated systems, including our pick-to-light system for flat-packed goods and our hanging garment sortation system, which speed up deliveries to our retail locations and reduce costs.

Shipments to retail locations are tracked by our proprietary delivery tracking software. Freight is routed through zone-skipping, over-the-road carriers and delivered locally by a variety of carriers, and is supplemented by a small percentage of second-day air, providing one to three day delivery to our retail locations.

In November 2003, we were certified to participate in Customs-Trade Partnership Against Terrorism, or C-TPAT, a U.S. Department of Homeland Security sponsored program, with U.S. Customs and Border Protection ("U.S. Customs"), through which we implement and monitor our procedures to manage the security of our supply chain as part of the effort to protect the U.S. against potential acts of terrorism. In January 2005, we were certified to participate in the Importer Self Assessment Program, or ISA, a U.S. Customs program available only to C-TPAT participants with strong internal controls and oversight mechanisms, through which we have assumed responsibility for monitoring our own compliance with applicable U.S. Customs regulations in exchange for certain benefits, which may help increase efficiency in importing. These benefits include exemption from government audits, increased speed of cargo release from U.S. Customs, enhanced prior disclosure rights from U.S. Customs in the event of alleged trade violations, availability of voluntary additional compliance guidance from U.S. Customs, and less intrusive government oversight of trade compliance. In May 2007, we were accepted to participate in the U.S. Customs and Border Protection Drawback Compliance Program. The benefits of this program include (i) waiver of prior notice where we do not have to notify U.S. Customs at the time of export of product to Canada and (ii) with respect to goods we export from the U.S., which we previously imported into the U.S., accelerated payment privileges to receive drawback refunds of U.S. import duties previously paid within 30 days of filing the claim for refund.

Management Information and Control Systems

We believe that our proprietary systems are instrumental to our ability to offer the broadest assortment of maternity merchandise and accomplish rapid replenishment of inventory. We continuously develop, maintain and upgrade our systems and we employ an in-house team of programmers. Our stores have point-of-sale terminals that provide information used in our customized TrendTrack merchandise analysis and planning system. This system provides daily financial and merchandising information that is integral to monitoring trends and making merchandising decisions. The TrendTrack system has numerous features designed to integrate our retail operations with our design, manufacturing and financial functions. These features include custom merchandise profiles for each store, rapid inventory replenishment, item-tracking providing daily updated selling information for every style, classification open-to-buy and inventory control, as well as the daily collection of customer payment data, including cash, check, credit card and gift card sales data.

As part of our proprietary enterprise resource planning (ERP) system, we employ a comprehensive materials requirement planning (MRP) system to manage our production inventories, documentation, work orders and scheduling. This system provides a perpetual inventory of raw materials, actual job costing, scheduling and bill of materials capabilities. The foundation of our ERP system is a perpetual inventory of finished goods by SKU and location across all of our retail locations, which interfaces directly with our distribution facility.

Edgar Filing: Destination Maternity Corp - Form 10-K

Our proprietary, Internet-based point-of-sale system provides real-time access to financial and merchandising information in addition to rapid credit authorization. This point-of-sale system has significantly reduced the amount of training required for new sales associates and store managers. In addition, we regularly add new features and functionality to the system, and anticipate that the system will improve our customer relationship management capabilities by enhancing our ability to create customized promotional and marketing strategies.

Given the importance of our management information systems, we have taken extensive measures to ensure their responsiveness and security. Our hardware and communications systems are based on a redundant and multiprocessing architecture, which allows their continued operation on a parallel system in the event that there is a disruption within the primary system. Our main computer system, located at our headquarters in Philadelphia, Pennsylvania, is duplicated by a fully mirrored system in a separate part of the building with a separate power source that is designed to assume full operations should disruption in the primary system occur. In addition, our software programs and data are backed up and securely stored off-site. Our communications links come from two telephone frame rooms and are delivered through underground and aboveground feeds.

Pricing

Our merchandise brands target customers at different price points of the maternity apparel business. Our Motherhood brand is positioned primarily on everyday low prices, while, after giving effect to our planned merchandise restructuring, Pea will employ both middle level pricing and, through our Pea Collection line, luxury pricing. None of our stores rely on point-of-sale high/low promotional strategies to drive traffic into the stores. Our price reductions are done at the individual style level and are used to accelerate the sale of slower selling merchandise. Generally, merchandise that is selling slowly is quickly marked down or moved to another store where the item is selling faster. For our leased department relationships, we consider a number of factors in determining pricing, including the target customer base, and we may use alternative pricing strategies to promote sales. The pricing of our Oh Baby by Motherhood merchandise is determined by Kohl's pursuant to the terms of our exclusive product and licensing relationship.

Advertising and Marketing

We believe that we drive traffic into our stores through the power of our brands, referrals from friends and family of prior customers, our various websites and, perhaps most importantly, our convenient, high-traffic locations in various types of shopping malls and, to a much lesser extent, street locations. Therefore, we have modest advertising and marketing expenditures. Our advertising and publicity efforts include in-store marketing, prenatal consumer-targeted advertising and our websites. For our Destination Maternity superstores, we also advertise locally prior to their grand opening and do some ongoing advertising nationally and in their local markets thereafter. We advertise one or more of our brands in pregnancy-targeted publications, such as *Fit Pregnancy* and *Babytalk Mom-to-Be*, as well as in other broad-reach publications, such as *Glamour* and *In Style*. We also advertise certain of our brands in Spanish language publications, such as *People en Español* and *Espera*. For our luxury A Pea in the Pod Collection line, we advertise in high-fashion publications, such as *Vogue* and the *New York Times Magazine: Fashion of the Times*. In addition, we utilize our publicity efforts to generate free editorial coverage for all of our brands on broadcast television, radio, the Internet and in magazines and newspapers.

Competition

Our business is highly competitive and characterized by low barriers to entry. The following are several important factors to competing successfully in the retail apparel industry: breadth of selection in sizes; colors and styles of merchandise; product procurement and pricing; ability to anticipate fashion

trends and customer preferences; inventory control; reputation; quality of merchandise; store design and location; visual presentation and advertising; and customer service. We face competition in our maternity apparel lines from various sources, including department stores, specialty retail chains, discount stores, independent retail stores and catalog and Internet-based retailers, from both new and existing competitors. Many of our competitors are larger and have substantially greater financial and other resources than us. Our mid- and luxury-priced merchandise faces a highly fragmented competitive landscape that includes locally based, single unit retailers, as well as a handful of multi-unit maternity operations, none of which we believe has more than 25 stores nationwide. In the value-priced maternity apparel business, we currently face competition on a nationwide basis from retailers such as Gap®, JCPenney®, Kmart®, Old Navy®, Sears®, Target® and Wal-Mart®. All of these competitors also sell maternity apparel on their websites. We believe that over the past several years there has been increased competition in the maternity apparel business, from both new and existing competitors.

Employees

As of September 30, 2008, we had 2,176 full-time and 2,488 part-time employees. None of our employees are covered by a collective bargaining agreement. We consider our employee relations to be good.

Executive Officers of the Company

The following table sets forth the name, age and position of each of our executive officers:

Name	Age	Position
Edward M. Krell	46	Chief Executive Officer
Rebecca C. Matthias	55	President & Chief Creative Officer
Lisa H. Hendrickson	47	Chief Merchandising Officer
Judd P. Tirnauer	39	Senior Vice President & Chief Financial Officer

Edward M. Krell has served as our Chief Executive Officer and a director since October 1, 2008. From July 2008 until October 1, 2008, Mr. Krell served as our Chief Operating Officer and from May 2007 to July 2008, Mr. Krell served as our Chief Operating Officer & Chief Financial Officer. From November 2003 to May 2007, Mr. Krell served as our Executive Vice President Chief Financial Officer, having served as Senior Vice President Chief Financial Officer from the time he joined us in January 2002 until November 2003. Prior to joining us, Mr. Krell served in various senior financial management positions, including having served as Chief Financial Officer of Mammoth Sports Group, Inc. (an Internet and catalog retailer of golf equipment and accessories) and London Fog Industries, Inc. (a wholesale and retail distributor of rainwear and outerwear). Mr. Krell began his career as an investment banker with Kidder, Peabody & Co. Incorporated and earned an M.B.A. degree from Stanford University and a B.A. degree from Harvard University.

Rebecca C. Matthias co-founded the Company in 1982 (along with Dan W. Matthias) and has served as a director and our President since our inception. Ms. Matthias is also currently serving as our Chief Creative Officer. From January 1993 to May 2007, Ms. Matthias also served as our Chief Operating Officer. In 1992, Ms. Matthias was chosen as "Regional Entrepreneur of the Year" by *Inc.* magazine and Merrill Lynch Corporation, and in September 2003, Ms. Matthias was recognized as a top woman entrepreneur by the United States Small Business Administration. Prior to 1982, Ms. Matthias was a construction engineer for the Gilbane Building Company. Ms. Matthias also serves as a director on the Board of Directors of CSS Industries, Inc.

Lisa H. Hendrickson has served as our Chief Merchandising Officer since January 2008. From May 2006 to January 2008, Ms. Hendrickson served as our Vice President of Design, having served as Design Director of Motherhood Maternity from the time she joined us in February 1998 until May

Edgar Filing: Destination Maternity Corp - Form 10-K

2006. Prior to joining us, Ms. Hendrickson served as the Design Director for Stephanie Queller, a private label sportswear company, from September 1992 to January 1998. Ms. Hendrickson began her career as a Designer with Etcetera, a division of J.G. Hook.

Judd P. Tirnauer has served as our Senior Vice President & Chief Financial Officer since July 2008. From June 2005 to July 2008, Mr. Tirnauer served as our Vice President Finance, having previously served with us as our Vice President Financial Planning & Analysis since October 2003, and Director of Financial Planning & Analysis since joining us in November 2001. Mr. Tirnauer has earned both a Masters of Business Administration degree and a Juris Doctorate legal degree, and has earned a Certified Public Accountant designation.

Our executive officers are appointed annually by our Board of Directors and serve at the discretion of the Board. There is a husband and wife relationship between the Chairman of our Board of Directors, Dan Matthias, and Rebecca Matthias. There are no family relationships among any of our other executive officers.

Intellectual Property

We own trademark and service mark rights that we believe are sufficient to conduct our business as currently operated. We own several trademarks, including Destination Maternity Corporation, Mothers Work®, A Pea in the Pod®, A Pea in the Pod Collection, Mimi Maternity®, Motherhood®, Motherhood Maternity®, Destination Maternity®, Edamame® The Maternity Spa, Two Hearts® Maternity, Oh Baby by Motherhood, Motherhood Maternity Outlet®, MaternityMall.com and iMaternity.com. Additionally, we own the marks futuretrust®, Futuretrust Family Financial Center, Real Time Retailing®, What's Showing is Your Style®, Motherhood: It's Hot!, Motherhood is Everything Good, Motherhood Baby, Maternity Redefined®, The Art of Maternity, Made With the Earth in Mind, Secret Fit Belly and Expect Low Prices Every Day.

In addition, from time to time, we may pursue patent protection for certain maternity apparel related technologies that we develop. For example, in fiscal 2007 we filed a patent application for our Secret Fit Belly. The Secret Fit Belly is made of seamless super stretch fabric that can form part of nearly any type of bottom (such as jeans, pants, shorts and skirts) to provide a better, more comfortable fit and a seamless look.

Seasonality

Our business, like that of many other retailers, is seasonal. Our quarterly net sales have historically been highest in our third fiscal quarter, corresponding to the Spring selling season, followed by the first fiscal quarter, corresponding to the Fall/holiday selling season. Given the typically higher gross margin we experience in the third fiscal quarter compared to other quarters, the relatively fixed nature of most of our operating expenses and interest expense, and the historically higher sales level in the third quarter, we have typically generated a very significant percentage of our full year operating income and net income during the third quarter. Results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. Quarterly results may fluctuate materially depending upon, among other things, the timing of new store openings and new leased department openings, net sales and profitability contributed by new stores and leased departments, increases or decreases in comparable store sales, the timing of the fulfillment of purchase orders under our product and license arrangements, adverse weather conditions, shifts in the timing of certain holidays and promotions, changes in inventory and production levels and the timing of deliveries of inventory, and changes in our merchandise mix.

Securities and Exchange Commission Filings

Our Securities and Exchange Commission ("SEC") filings are available free of charge on our website, www.DestinationMaternityCorp.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports are posted on our website as soon as practicable after we furnish such materials to the SEC.

Item 1A. Risk Factors

You should consider carefully all of the information set forth or incorporated by reference in this document and, in particular, the following risk factors associated with our business and forward-looking information in this document (see also "Forward-Looking Statements" included in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations"). The risks described below are not the only ones we face. Additional risks not presently known to us or that we do not currently consider significant may also have an adverse effect on us. If any of the risks below actually occur, our business, results of operations, cash flows or financial condition could suffer.

Our earnings would decline if our goodwill becomes impaired.

As a result of purchase accounting for our various acquisitions, we have accumulated \$50.4 million of goodwill as of September 30, 2008. Our goodwill is not amortized but is tested for impairment at least annually or when events or changes in circumstances indicate the carrying value of the goodwill might exceed the fair value. As of September 30, 2008, our book value was \$14.74 per share of outstanding common stock and the closing trading price of our common stock was \$13.88 per share. The impairment test requires us to compare the fair value of business reporting units to their carrying value, including assigned goodwill. The fair value of our single reporting unit is determined based on a combination of the fair market value of our outstanding common stock on a control basis, a discounted cash flow analysis and other generally accepted valuation methodologies and, if necessary, an outside independent valuation is obtained to determine the fair value. The carrying value of our single reporting unit, expressed on a per share basis, is represented by the book value per share of our outstanding common stock. The results of the annual impairment test performed as of September 30, 2008 indicated the fair value of the reporting unit exceeded its carrying value. As part of our impairment analysis as of September 30, 2008, an outside independent valuation was obtained and the fair value of our single reporting unit exceeded the carrying value. If the per share fair value of our single reporting unit was less than the book value per share on September 30, 2008, our goodwill would have been impaired.

Our goodwill may also need to be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of our single reporting unit below its carrying value. The market price of our common stock has been subject to substantial volatility subsequent to September 30, 2008 and is currently trading near historically low prices. Consequently, if our stock price does not increase in the near term, our goodwill would likely be impaired and we would need to recognize a non-cash impairment charge, which could have a material adverse effect on our consolidated balance sheet, results of operations and, potentially, our common stock price, but would not have any adverse effect on the covenant calculations of our debt agreements or our overall compliance with the covenants of our debt agreements.

Our performance may be affected by general economic conditions and the current global financial crisis.

Our performance is subject to worldwide economic conditions and their impact on levels of consumer spending, which have recently deteriorated significantly and may remain depressed, or be subject to further deterioration, for the foreseeable future. Some of the factors that are having an impact on discretionary consumer spending include general economic conditions, employment, consumer debt, reductions in net worth based on recent severe market declines, residential real estate and mortgage markets, taxation, fuel and energy prices, interest rates, credit availability, consumer confidence and other macroeconomic factors.

The worldwide apparel industry is heavily influenced by general economic cycles. Apparel retailing is a cyclical industry that is heavily dependent upon the overall level of consumer spending. Purchases of specialty apparel and related goods tend to be highly correlated with the cycles of the levels of disposable income of consumers. As a result, any substantial deterioration in general economic conditions could adversely affect our net sales and results of operations. Downturns, or the expectation

Edgar Filing: Destination Maternity Corp - Form 10-K

of a downturn, in general economic conditions could adversely affect consumer spending patterns, our sales and our results of operations.

Consumer purchases of discretionary items generally decline during recessionary periods and other periods where disposable income is adversely affected. The downturn in the economy may continue to affect consumer purchases of our merchandise and have an adverse impact on our sales, results of operations and cash flow. Because apparel generally is a discretionary purchase, declines in consumer spending may have a more negative effect on apparel retailers than on other retailers. We may not be profitable if there is a decline in consumer spending.

In addition, continued declines in our profitability could result in a charge to earnings for the impairment of goodwill, which would not affect our cash flow but could decrease our earnings or increase our losses, and our stock price could be adversely affected.

The recent distress in the financial markets has resulted in extreme volatility in security prices and diminished liquidity and credit availability, and there can be no assurance that our liquidity will not be affected by changes in the financial markets and the global economy. Tightening of the credit markets and recent or future turmoil in the financial markets could also make it more difficult for us to access funds, to refinance our existing indebtedness (if necessary), to enter into agreements for new indebtedness, or to obtain funding through the issuance of our securities.

In addition, the current credit crisis is having a significant negative impact on businesses around the world, and the impact of this crisis on our suppliers cannot be predicted. The inability of suppliers to access liquidity, or the insolvency of suppliers, could lead to their failure to deliver our merchandise. Worsening economic conditions could also result in difficulties for financial institutions (including bank failures) and other parties that we may do business with, which could potentially impair our ability to access financing under existing arrangements or to otherwise recover amounts as they become due under our other contractual arrangements. Additionally, either as a result of or independent of the current financial crisis in the United States, material fluctuations in currency exchange rates could have a negative impact on our business.

We may not be successful in expanding our business and opening new stores.

Any future growth depends significantly on our ability to successfully establish and operate new stores (including combo stores and superstores) and our leased department and licensed relationships on a profitable basis, as well as the success and profitability of our international business, including through franchising relationships. This growth, if it occurs, will place increased demands on our management, operational and administrative resources. These increased demands and operating complexities could cause us to operate our business less effectively, which, in turn, could cause a deterioration in our financial performance and negatively impact our growth. Any planned growth will also require that we continually monitor and upgrade our management information and other systems, as well as our distribution infrastructure.

Our ability to establish and operate new stores and our leased department and licensed relationships successfully depends on many factors, including, among others, our ability to:

identify and obtain suitable store locations, including mall locations, the availability of which is outside of our control;

retain existing, expand existing and establish new leased department and licensed relationships;

negotiate favorable lease terms for stores, including desired tenant improvement allowances;

negotiate favorable lease terminations for existing store locations in markets where we intend to open new combo stores or superstores;

source sufficient levels of inventory to meet the needs of new stores and our leased department and licensed relationships;

successfully address competition, merchandising and distribution challenges; and

Edgar Filing: Destination Maternity Corp - Form 10-K

hire, train and retain a sufficient number of qualified store personnel.

The success and profitability of our international relationships depends on many factors, including, among others:

the ability of our franchisees to identify and obtain suitable store locations, including mall locations, the availability of which is outside of their control;

the ability of our franchisees to negotiate favorable lease terms for stores, including desired tenant improvement allowances;

our ability to source sufficient levels of inventory to meet the needs of our international operations;

our ability and the ability of our franchisees to successfully address competition, merchandising and distribution challenges; and

the ability of our franchisees to hire, train and retain a sufficient number of qualified store personnel.

There can be no assurance that we will be able to grow our business and achieve our goals. Even if we succeed in establishing new stores, further developing our leased department and licensed relationships, and further expanding our international relationships, we cannot assure that these initiatives will achieve planned revenue or profitability levels in the time periods estimated by us, or at all. If any one of these initiatives fail to achieve or are unable to sustain acceptable revenue and profitability levels, we may incur significant costs.

Our comparable store sales and quarterly operating results have fluctuated in the past and can be expected to continue to fluctuate in the future and, as a result, the market price of our common stock may fluctuate or decline substantially.

Our comparable store sales and quarterly results of operations have fluctuated in the past and can be expected to continue to fluctuate in the future and are affected by a variety of factors, including:

the opening of new stores and success of our leased department and licensed relationships;

the success of our merchandise brand and retail nameplate restructuring;

the timing of new store openings and leased department and licensed brand business openings;

the timing of the fulfillment of purchase orders under our product and license arrangements;

the extent of cannibalization of sales volume of some of our existing retail locations by our new retail locations opened in the same geographic markets;

changes in our merchandise mix;

any repositioning of our brands;

general economic conditions and, in particular, the retail sales environment;

Edgar Filing: Destination Maternity Corp - Form 10-K

calendar shifts, including shifts of holiday or seasonal periods, or shifts in the number of weekend days occurring in a given month;

changes in pregnancy rates;

actions of competitors;

the level of success and/or actions of anchor tenants where we have stores or leased department and licensed relationships;

fashion trends; and

weather conditions and seasonality.

Edgar Filing: Destination Maternity Corp - Form 10-K

If, at any time, our comparable store sales or quarterly results of operations decline or do not meet the expectations of Wall Street research analysts, the price of our common stock could decline substantially.

Our business, financial condition and results of operations may be materially and adversely impacted at any time by a significant number of competitors.

We operate in a highly competitive environment characterized by few barriers to entry. We compete against department stores, specialty retail chains, discount stores, independent retail stores and catalog and Internet-based retailers. Many of our competitors are larger and have substantially greater financial and other resources than us. Further, we do not typically advertise using television and radio media and thus do not reach customers through means our competitors may use. Our mid- and luxury-priced merchandise faces a highly fragmented competitive landscape that includes locally based, single unit retailers, as well as a handful of multi-unit maternity operations, none of which we believe have more than 25 stores nationwide. In the value-priced maternity apparel business, we face competition on a nationwide basis from retailers such as Gap, JCPenney, Kmart, Old Navy, Sears, Target and Wal-Mart. All of these competitors also sell maternity apparel on their websites. Over the past few years, there has been increased competition in the maternity apparel business from both new and existing competition. Our business, financial condition and results of operations may be materially and adversely affected by this competition, including the potential for increased competition in the future. For example, the maternity apparel business has previously experienced oversupply conditions due to increased competition in the maternity apparel business, which resulted in a greater level of industry-wide markdowns and markdowns recognized by us on sales from our retail locations. There can be no assurance that these conditions will not occur again or worsen.

Our relationships with third-party retailers may not be successful.

We cannot guarantee successful results from or the continuation of our leased department and licensed relationships with third-party retailers such as Macy's, Bloomingdales, Babies "R" Us, Boscov's, Gordmans and Kohl's. Under our agreement with Kohl's, subject to certain notice obligations, Kohl's is not obligated to purchase any maternity apparel from us and we are not obligated to sell any maternity apparel to them. Under our agreement with our leased department partners, those partners do not make any promises or representations as to the potential amount of business we can expect from the sale of our product in their stores. We do not control the pricing terms or the timing or degree of the markdowns at Kohl's. The success of our leased department and licensed brand businesses is highly dependent on the actions and decisions of the third-party retailers, which are outside of our control. The retailers could limit the merchandise carried, close stores, go out of business or terminate their agreements with us. Our failure to properly manage our leased department and licensed brand businesses (including any failure by us in timely delivering goods to any third-party retailer or any failure to respond to the actions of or changes in business conditions at third-party retailers) would have a direct impact on the profitability and continuation of these relationships. As we disclosed in September 2007, we were unable to reach terms on a renewal of our relationship with Sears and, as a result, our relationship with Sears ended on June 20, 2008, resulting in the closure of our leased departments within Sears stores. This closure of our leased departments within Sears stores resulted in a reduction in revenues and profit.

We require a significant amount of cash to service our indebtedness, which reduces the cash available to finance any growth and could adversely affect our financial health.

We have a significant amount of indebtedness and we have the ability to incur substantial additional indebtedness in the future. Our ability to make required payments on our indebtedness, as well as to fund our operations and future growth, depends upon our ability to generate cash. Our success in generating cash depends upon the results of our operations, as well as upon general economic, financial, competitive and other factors beyond our control.

Edgar Filing: Destination Maternity Corp - Form 10-K

Additionally, our substantial indebtedness could have important consequences. For example, it could:

increase our vulnerability to general adverse economic and industry conditions;

require us to dedicate a substantial portion of our cash flow from operations to making payments on our indebtedness, thereby reducing the availability of our cash flow to implement our growth strategy, or to fund working capital, capital expenditures and other general corporate needs;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

result in higher interest expense in the event of increases in interest rates as some of our debt is, and will continue to be, at variable rates of interest, and our available borrowings under our credit facility, to the extent borrowed in the future, would be at variable rates of interest;

place us at a competitive disadvantage compared to our competitors that have less debt, or debt at lower interest rates;

limit our ability to borrow additional funds;

make it more difficult for us to open new stores or improve or expand existing stores;

restrict our ability to pay dividends or make distributions to our stockholders;

require us to pledge all or substantially all of our assets as collateral to secure indebtedness; and

make it more difficult for us to pursue strategic acquisitions, alliances and partnerships.

If we are unable to meet our expenses and debt obligations, we may need to refinance all or a portion of our indebtedness before the scheduled maturity dates of such debt, sell assets or raise equity. On such maturity dates, we may need to refinance our indebtedness if our operations do not generate enough cash to pay such indebtedness in full and if we do not raise additional capital. Our ability to refinance will depend on the capital markets and our financial condition at such time. We cannot assure you that we would be able to refinance any of our indebtedness, sell assets or raise equity on commercially reasonable terms or at all, which could cause us to default on our obligations and impair our liquidity.

Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

Our \$90.0 million term loan, with an outstanding balance of \$75.7 million as of September 30, 2008, bears interest at a variable rate equal to, at our election, either (i) the prime rate plus 1.00%, or (ii) the LIBOR rate plus the applicable margin. The applicable margin for LIBOR rate borrowings is either 2.25% or 2.50%, depending on our Consolidated Leverage Ratio (as defined). Based upon our Consolidated Leverage Ratio as of September 30, 2008, the applicable margin for LIBOR rate borrowings will remain at 2.50% for the first quarter of fiscal 2009. In order to mitigate our floating rate interest risk on the variable rate term loan, we entered into an interest rate swap agreement that commenced on April 18, 2007 and expires on April 18, 2012. The interest rate swap agreement enables us to effectively convert an amount of the term loan equal to the notional amount of the interest rate swap from a floating interest rate of LIBOR plus 2.50% (subject to reduction to LIBOR plus 2.25% if we achieve a specified leverage ratio), to a fixed interest rate of 7.50% (subject to reduction to 7.25% if we achieve a specified leverage ratio) for the significant majority of the term of the term loan. The notional amount of the interest rate swap was \$75.0 million at the inception of the swap agreement and decreases over time to a notional amount of \$5.0 million at the expiration date. The notional amount of the swap was \$57.5 million as of September 30, 2008 and over the next eighteen months decreases as follows: to \$50.0 million starting October 20, 2008; to \$42.5 million starting April 20, 2009; and to \$35.0 million starting October 19, 2009. Regardless of our attempts to mitigate our exposure to interest rate fluctuations through the interest rate swap, we still have exposure for the un-swapped amounts of

the term loan borrowings, which remain subject to a variable interest rate. As a result, an increase in interest rates could result in a substantial increase in interest expense, especially as the swapped amount of the term loan decreases over time.

We are heavily dependent on our management information systems and our ability to maintain and upgrade these systems from time to time.

The efficient operation of our business is heavily dependent on our internally developed management information systems. In particular, we rely on point-of-sale terminals, which provide information to our customized TrendTrack merchandise analysis and planning system used to track sales and inventory. The TrendTrack system helps integrate our design, manufacturing, distribution and financial functions, and also provides daily financial and merchandising information. Although our software programs and data are backed up and securely stored off-site, our servers and computer systems are located at our headquarters in Philadelphia, Pennsylvania. As a result, our business, financial condition and results of operations could be materially and adversely affected if our servers and systems were inoperable or inaccessible.

From time to time, we improve and upgrade our management information systems. We have a proprietary, Internet-based point-of-sale system. If we are unable to maintain and upgrade our systems or to integrate new and updated systems in an efficient and timely manner, our business, financial condition and results of operations could be materially and adversely affected.

As an apparel retailer, we rely on numerous third parties in the supply chain to produce and deliver the products that we sell, and our business may be negatively impacted by disruptions in the supply chain.

If we lose the services of one or more of our significant suppliers or one or more of them fail to meet our product needs, we may be unable to obtain replacement merchandise in a timely manner. If our existing suppliers cannot meet our increased needs and we cannot locate alternative supply sources, we may be unable to obtain sufficient quantities of the most popular items at attractive prices, which could negatively impact our sales, revenues and results of operations. We obtain apparel and other merchandise from foreign sources, both purchased directly in foreign markets and indirectly through domestic vendors with foreign sources. To the extent that any of our vendors are located overseas or rely on overseas sources for a large portion of their products, any event causing a disruption of imports, including the imposition of import restrictions, could harm our ability to source product. This disruption could materially limit the merchandise that we would have available for sale and reduce our revenues and earnings. The flow of merchandise from our vendors could also be adversely affected by financial or political instability, or war, in or affecting any of the countries in which the goods we purchase are manufactured or through which they flow. Trade restrictions in the form of tariffs or quotas, embargos and customs restrictions that are applicable to the products that we sell also could affect the import of those products and could increase the cost and reduce the supply of products available to us. Any material increase in tariff levels, or any material decrease in quota levels or available quota allocation, could negatively impact our business. Further, changes in tariffs or quotas for merchandise imported from individual foreign countries could lead us to shift our sources of supply among various countries. Any such shift we undertake in the future could result in a disruption of our sources of supply and lead to a reduction in our revenues and earnings. Supply chain security initiatives undertaken by the U.S. government that impede the normal flow of product could also negatively impact our business. In addition, decreases in the value of the U.S. dollar against foreign currencies could increase the cost of products that we purchase from overseas vendors.

Edgar Filing: Destination Maternity Corp - Form 10-K

We also face a variety of other risks generally associated with relying on vendors that do business in foreign markets and import merchandise from abroad, such as:

political instability or the threat of terrorism, in particular in countries where our vendors source merchandise;

enhanced security measures at U.S. and foreign ports, which could delay delivery of imports;

imposition of new or supplemental duties, taxes, and other charges on imports;

delayed receipt or non-delivery of goods due to the failure of foreign-source suppliers to comply with applicable import regulations;

delayed receipt or non-delivery of goods due to organized labor strikes or unexpected or significant port congestion at U.S. ports; and

local business practice and political issues, including issues relating to compliance with domestic or international labor standards, which may result in adverse publicity.

The U.S. may impose new initiatives that adversely affect the trading status of countries where apparel is manufactured. These initiatives may include retaliatory duties or other trade sanctions that, if enacted, would increase the cost of products imported from countries where our vendors acquire merchandise. Any of these factors could have a material adverse effect on our business, financial condition and results of operations.

We could be materially and adversely affected if our distribution operations were disrupted.

To support our distribution of product throughout the U.S. and Canada, we operate our main distribution facility in Philadelphia, Pennsylvania and two significantly smaller distribution facilities, one in Philadelphia, Pennsylvania and the other, serving as our Canadian distribution facility, in Mississauga, Ontario. Finished garments from contractors and other manufacturers are inspected and stored for distribution to our stores. We do not have other distribution facilities to support our distribution needs. If our main Philadelphia distribution facility were to shut down or otherwise become inoperable or inaccessible for any reason, we could incur significantly higher costs and longer lead times associated with the distribution of our products to our stores during the time it takes to reopen or replace this facility. In light of our strategic emphasis on rapid replenishment as a competitive strength, a distribution disruption might have a disproportionately adverse effect on our operations and profitability relative to other retailers. In addition, the loss or material disruption of service from any of our shippers for any reason, whether due to freight difficulties, strikes, natural disaster or other difficulties at our principal transport providers or otherwise, could have a material adverse impact on our business, financial condition and results of operations.

We could be materially and adversely affected if we are unable to obtain sufficient raw materials or maintain satisfactory manufacturing arrangements.

We do not own any manufacturing facilities and therefore depend on third parties to manufacture our products. We place our orders for production of merchandise and raw materials by purchase order and do not have any long-term contracts with any manufacturer or supplier. We compete with many other companies for production facilities and raw materials. Furthermore, we have received in the past, and may receive in the future, shipments of products from manufacturers that fail to conform to our quality control standards. In such event, unless we are able to obtain replacement products in a timely manner, we may lose sales. If we fail to maintain favorable relationships with these third parties, or if we cannot obtain an adequate supply of quality raw materials on commercially reasonable terms, it could have a material adverse impact on our business, financial condition and results of operations.

Our stores are heavily dependent on the customer traffic generated by shopping malls.

We depend heavily on locating our stores in prominent locations within successful shopping malls in order to generate customer traffic. We cannot control the development of new shopping malls, the availability or cost of appropriate locations within existing or new shopping malls or the success of existing or new mall stores.

The success of all of our mall stores will depend, in part, on the ability of each mall's anchor tenants, such as large department stores, other tenants and area attractions to generate consumer traffic in the vicinity of our stores, and the continuing popularity of malls as shopping destinations. Many traditional enclosed malls are experiencing lower levels of customer traffic than in the past. Sales volume and mall traffic may be adversely affected by economic downturns in a particular area, the closing of anchor tenants or competition from non-mall retailers and other malls where we do not have stores.

Our success depends on our ability to identify and rapidly respond to fashion trends.

The apparel industry is subject to rapidly changing fashion trends and shifting consumer demands. Accordingly, our success depends on the priority that our target customers place on fashion and our ability to anticipate, identify and capitalize upon emerging fashion trends. Our ability or our failure to anticipate, identify or react appropriately to changes in styles or trends could lead to, among other things, excess inventories and higher markdowns, as well as the decreased appeal of our brands. Particular fashion trends, or an inaccuracy of our forecasts regarding fashion trends could have a material adverse effect on our business, financial condition and results of operations. For example, in fiscal 2007 we were negatively impacted from the popularity of certain styles in the non-maternity women's apparel market, such as trapeze and baby-doll dresses and tops, which can more readily fit a pregnant woman early in her pregnancy than typical non-maternity fashions.

The failure to retain our existing senior management team or to attract and retain highly skilled and qualified personnel could have a material adverse impact on our business, financial condition and results of operations.

Our business requires disciplined execution at all levels of our organization in order to timely deliver and display fashionable merchandise in appropriate quantities in our stores. This execution requires experienced and talented management. We currently have a management team with a great deal of experience with us and in apparel retailing. If we were to lose the benefit of this experience, our business, financial condition and results of operations could be materially and adversely affected.

In addition, as our business expands, we believe that our success will depend greatly on our continued ability to attract and retain highly skilled and qualified personnel. There is a high level of competition for personnel in the retail industry. Like most retailers, we experience significant employee turnover rates, particularly among store sales associates and managers, and our continued growth will require us to hire and train even more new personnel. We therefore must continually attract, hire and train new personnel to meet our staffing needs. We constantly compete for qualified personnel with companies in our industry and in other industries. A significant increase in the turnover rate among our sales associates and managers would increase our recruiting and training costs and could decrease our operating efficiency and productivity. If we are unable to retain our employees or attract, train, assimilate or retain other skilled personnel in the future, we may not be able to service our customers as effectively, thus impairing our ability to increase revenue and could otherwise harm our business.

Our quarterly operating results and inventory levels may fluctuate significantly as a result of seasonality in our business.

Our business, like that of other retailers, is seasonal. Results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. Quarterly results may fluctuate

materially depending upon, among other things, the timing of new store openings and new leased department openings, net sales and profitability contributed by new stores and leased departments, increases or decreases in comparable store sales, the timing of the fulfillment of purchase orders under our product and license arrangements, adverse weather conditions, shifts in the timing of certain holidays and promotions, changes in inventory and production levels and the timing of deliveries of inventory, and changes in our merchandise mix. Our quarterly net sales have historically been highest in our third fiscal quarter, corresponding to the Spring selling season, followed by our first fiscal quarter, corresponding to the Fall/holiday selling season. Given the typically higher gross margin we experience in our third fiscal quarter compared to other quarters, the relatively fixed nature of most of our operating expenses and interest expense, and the historically higher sales level in our third fiscal quarter, we have typically generated a very significant percentage of our full year operating income and net income during our third fiscal quarter. Thus, any factors which result in a material reduction of our sales for the third quarter could have a material adverse effect on our results of operations for our fiscal year as a whole. Seasonal fluctuations in sales also affect our inventory levels, as we usually order merchandise in advance of peak selling periods and sometimes before new fashion trends are confirmed by customer purchases. We must carry a significant amount of inventory, especially before the Fall/holiday and Spring selling seasons. If we are not successful in selling our inventory during this period, we may be forced to rely on markdowns or promotional sales to sell the excess inventory or we may not be able to sell the inventory at all, which could have a material adverse effect on our business, financial condition and results of operations.

Our business depends on sustained demand for maternity clothing and is sensitive to birth rates, women's fashion trends, economic conditions and consumer spending.

Our business depends upon sustained demand for maternity clothing. Our future performance will be subject to a number of factors beyond our control, including demographic changes, fashion trends, economic conditions and consumer spending. If demand for maternity clothing were to decline for any reason, such as a decrease in the number of pregnancies, our operating results could be adversely affected. Additionally, our operating results could be adversely affected if certain non-maternity women's apparel fashions have a more pregnancy-friendly fit. For example, in fiscal 2007, we were negatively impacted by the popularity of certain styles in the non-maternity women's apparel market, such as trapeze and baby-doll dresses and tops, which can more readily fit a pregnant woman early in her pregnancy than typical non-maternity fashions. Downturns, or the expectation of a downturn, in general economic conditions could adversely affect consumer spending patterns, our business, financial condition and results of operations. In addition, the specialty apparel retail business historically has been subject to cyclical variations. Consumer purchases of specialty apparel products, including maternity wear, may decline during recessionary periods and at other times when disposable income is lower. Declines in consumer spending patterns may have a more negative effect on apparel retailers than some other retailers. Therefore, we may not be able to maintain our historical revenues and earnings, or remain as profitable, if there is a decline in consumer spending patterns. A prolonged economic downturn could have a material adverse impact on our business and results of operations.

If an independent manufacturer violates labor or other laws, or is accused of violating any such laws, or if their labor practices diverge from those generally accepted as ethical, it could harm our business and brand image.

While we maintain policies and guidelines with respect to labor practices that independent manufacturers that produce goods for us are contractually required to follow, and while we have an independent firm and Company employees inspect certain manufacturing sites to monitor compliance, we cannot control the actions of such manufacturers or the public's perceptions of them, nor can we assure that these manufacturers will conduct their businesses using ethical or legal labor practices. Apparel companies can be held jointly liable for the wrongdoings of the manufacturers of their

products. While many of our independent manufacturers are routinely monitored by buying representatives, who assist us in the areas of compliance, garment quality and delivery, we do not control the manufacturers' business practices or their employees' employment conditions, and manufacturers act in their own interest which may be in a manner that results in negative public perceptions of us, and/or employee allegations against us or court determinations that we are jointly liable. Violations of law by our importers, buying agents, manufacturers or distributors could result in delays in shipments and receipt of goods and could subject us to fines or other penalties, any of which could restrict our business activities, increase our operating expenses or cause our revenues to decline.

We may be unable to protect our trademarks and other intellectual property and may be subject to liability if we are alleged to have infringed on another party's intellectual property.

We believe that our trademarks, service marks and other intellectual property are important to our continued success and our competitive position due to their recognition with our customers. We devote substantial resources to the establishment and protection of our trademarks, service marks and other intellectual property. Although we actively protect our intellectual property, there can be no assurance that the actions that we have taken to establish and protect our trademarks, service marks and other intellectual property, including our rights in our management information systems and our proprietary rights in products for which we have applied for patent protection (for example, our Secret Fit Belly innovation), will be adequate to prevent imitation of our marks, products or services by others or to prevent others from seeking to block sales of our products as a violation of their trademarks, service marks or other proprietary rights. Also, others may assert rights in, or ownership of, our trademarks and other proprietary rights or may allege that we have or are infringing on their intellectual property rights and we may not be able to successfully resolve these types of conflicts. In addition, the laws of certain foreign countries may not protect our trademarks and proprietary rights to the same extent as do the laws of the U.S. We cannot assure you that these registrations will prevent imitation of our name, merchandising concept, store design or private label merchandise or the infringement of our other intellectual property rights by others. Imitation of our name, concept, store design or merchandise in a manner that projects lesser quality or carries a negative connotation of our brand image could have a material adverse effect on our business, financial condition and results of operations. Additionally, the high expense in both prosecuting and defending against, and potential liability related to, alleged infringements of intellectual property rights could be substantial and could have a material adverse effect on our business, financial condition and results of operations.

War or acts of terrorism or the threat of either may negatively impact availability of merchandise and otherwise adversely impact our business.

In the event of war or acts of terrorism, or if either is threatened, our ability to obtain merchandise available for sale may be negatively affected. A substantial portion of our merchandise is imported from other countries. If goods become difficult or impossible to import into the U.S., and if we cannot obtain such merchandise from other sources at similar costs, our sales and profit margins may be adversely affected. In the event that commercial transportation is curtailed or substantially delayed, our business may be adversely impacted, as we may have difficulty shipping merchandise to our main distribution facility and retail locations, as well as fulfilling catalog and website orders.

The terms of our debt instruments impose financial and operating restrictions.

Our credit facility and term loan agreements each contain restrictive covenants that limit our ability to engage in activities that may be in our long term best interests. These covenants limit or restrict, among other things, our ability to:

incur additional indebtedness;

Edgar Filing: Destination Maternity Corp - Form 10-K

pay dividends or make other distributions in respect of our equity securities, or purchase or redeem capital stock, or make certain investments;

have our subsidiaries pay dividends, make loans or transfer assets to us;

sell assets, including the capital stock of our subsidiaries;

enter into any transactions with our affiliates;

transfer any capital stock of any subsidiary or permit any subsidiary to issue capital stock;

create liens;

enter into certain sale/leaseback transactions; and

effect a consolidation or merger or transfer of all or substantially all of our assets.

These limitations and restrictions may adversely affect our ability to finance our future operations or capital needs or engage in other business activities that may be in our best interests. In addition, our ability to borrow under the credit facility is subject to borrowing base requirements. If we breach any of the covenants in our credit facility or term loan agreements, we may be in default under our credit facility or our term loan. If we default, the lenders under our term loan or the lender under our credit facility could declare all borrowings owed to them, including accrued interest and other fees, to be due and payable.

Our share price may be volatile and could decline substantially.

The market price of our common stock has been, and is expected to continue to be, volatile, both because of actual and perceived changes in our financial results and prospects and because of general volatility in the stock market. The factors that could cause fluctuations in our share price may include, among other factors discussed in this section, the following:

actual or anticipated variations in the financial results and prospects of our business or other companies in the retail business;

changes in financial estimates by Wall Street research analysts;

actual or anticipated changes in the U.S. economy or the retailing environment;

changes in the market valuations of other specialty apparel or retail companies;

announcements by our competitors or us;

additions and departures of key personnel;

Edgar Filing: Destination Maternity Corp - Form 10-K

changes in accounting principles;

the passage of legislation or other developments affecting us or our industry;

the trading volume of our common stock in the public market;

changes in economic conditions;

financial market conditions;

natural disasters, terrorist acts, acts of war or periods of civil unrest;

the realization of some or all of the risks described in this section entitled "Risk Factors"; and

any goodwill impairment would require a write down that would likely negatively affect our stock price.

Edgar Filing: Destination Maternity Corp - Form 10-K

In addition, the stock markets have experienced significant price and trading volume fluctuations from time to time, and the market prices of the equity securities of retailers have been extremely volatile and are sometimes subject to sharp price and trading volume changes. These broad market fluctuations may adversely affect the market price of our common stock.

Our charter documents contain certain anti-takeover provisions, and we are entitled to certain other protective provisions under Delaware law.

We are a Delaware corporation and the anti-takeover provisions of Delaware law impose various impediments to the ability of a third party to acquire control of the Company, even if a change of control would be beneficial to our existing stockholders. We also have adopted a stockholder rights plan, commonly known as a "poison pill," that entitles our stockholders to acquire additional shares of us, or a potential acquirer of us, at a substantial discount to their market value in the event of an attempted takeover. In addition, our amended and restated certificate of incorporation and by-laws contain provisions that may discourage, delay or prevent a merger or acquisition involving us that our stockholders may consider favorable by, among other things:

authorizing the issuance of preferred stock, the terms of which may be determined at the discretion of our Board of Directors;

restricting the ability of stockholders to call special meetings of stockholders;

providing for a classified Board of Directors, with staggered three-year terms; and

establishing advance notice requirements for nominations for election to our Board of Directors or for proposing matters that can be acted on by stockholders at meetings.

These provisions may also reduce the market value of our common stock.

We do not expect to pay cash dividends in the foreseeable future.

We have not paid any cash dividends on our common stock since our initial public offering and do not anticipate paying cash dividends on our common stock in the foreseeable future. In addition, the terms of each of our credit facility and term loan agreements significantly restrict our ability to declare or pay dividends on our common stock. Even if our ability to pay dividends were not restricted, any future payment of dividends would still be at the discretion of our Board of Directors and would be based upon any applicable restrictive financial covenants, earnings, capital requirements and our financial condition, among other factors, at the time any such dividend is considered.

Any increase in our sales and marketing efforts that target markets outside the U.S. would expose us to additional risks associated with international operations.

We believe that in the future, an opportunity for sales growth may come from the development of international sales. We may not be successful in these efforts. International operations and sales subject us to risks and challenges that we would otherwise not face if we conducted our business only in the U.S. For example, we may depend on third parties to market our products through foreign sales channels, and we may be challenged by laws and business practices favoring local competitors. In addition, our ability to succeed in foreign markets will depend on our ability to protect our intellectual property. We must also adapt our pricing structure to address different pricing environments and may face difficulty in enforcing revenue collection internationally. To the extent we achieve significant sales outside of the U.S. in the future, we may have significant exposure to fluctuating foreign currency exchange rates.

We could have failures in our system of internal controls.

We maintain a documented system of internal controls which is reviewed and monitored by management, who meet regularly with our Audit Committee of the Board of Directors. We believe we have a well-designed system to maintain adequate internal controls on the business. We cannot assure you that there will not be any control deficiencies in the future. Should we become aware of any control deficiencies, we would report them to the Audit Committee and recommend prompt remediation. We have devoted significant resources to document, test, monitor and improve our internal controls and will continue to do so; however, we cannot be certain that these measures will ensure that our controls are adequate in the future or that adequate controls will be effective in preventing fraud. If we fail to maintain an effective system of internal controls, we may not be able to accurately report our financial results or prevent fraud. Any failures in the effectiveness of our internal controls could have a material adverse effect on our financial condition or operating results or cause us to fail to meet reporting obligations.

Item 1B. Unresolved Staff Comments

Not applicable.

Item 2. Properties

We own our principal executive offices and distribution facility, which is located at 456 North Fifth Street, Philadelphia, Pennsylvania, subject to a mortgage under the terms of which we owe approximately \$2.5 million as of September 30, 2008. This facility consists of approximately 318,000 square feet, of which approximately 45,000 square feet is dedicated to office space and the remaining square footage is used for finished goods warehousing and distribution. On August 26, 2002, we entered into a ten-year lease for a facility located at 2001 Kitty Hawk Avenue, Philadelphia, Pennsylvania in the Philadelphia Naval Business Center. The area leased at this facility, which we use for raw material cutting, warehousing and distribution, consists of approximately 64,000 square feet of space. To facilitate our store growth in Canada, we entered into a three-year lease commencing November 1, 2002 for approximately 12,000 square feet of finished goods warehouse and distribution space in Mississauga, Ontario in Canada. Since this time, we have renewed this lease in Canada and it currently expires on November 30, 2009. From time to time we may also utilize third-party warehousing services in the Philadelphia, Pennsylvania area when we have increased storage requirements. These services essentially operate on a month-to-month basis. We believe that these facilities will be adequate to support our anticipated distribution needs for the near term and, potentially, longer. In the event we need additional space to meet our future distribution needs, we believe that such space would be readily available. Our facilities are subject to state and local regulations that range from building codes to health and safety regulations.

We lease our store premises for terms averaging from five to ten years. Certain leases allow us to terminate or reduce our obligations at specified points in time in the event that the applicable store does not achieve a specified sales volume. Some of our store leases also provide for contingent payments based on sales volume, escalations of the base rent, as well as increases in operating costs, marketing costs and real estate taxes.

Edgar Filing: Destination Maternity Corp - Form 10-K

As of September 30, 2008, the following numbers of store leases are set to expire as listed in the table below. We do not expect the expiration of any leases to have a material adverse impact on our business or operations.

Fiscal Year Leases Expire	Number of Stores
2009	131
2010	109
2011	84
2012	76
2013	112
2014 and later	242
Total	754

In addition to the stores we operate, we have arrangements with department and specialty stores, including Macy's, Bloomingdale's, Babies "R" Us, Boscov's and Gordmans to operate maternity departments in their stores. These leased departments typically involve the lease partner collecting all of the revenue from the leased department. The revenue is remitted to us, less a fixed percentage of the volume earned by the lease partner as stipulated in the agreement. We provide at least some amount of staffing for each of the leased departments, with the amount varying depending on the specific arrangement. Generally, under each of our leased department agreements, our lease partner has the right to terminate any or all of our rights to operate our leased departments in their stores subject to varying notice requirements.

As we disclosed in September 2007, we were unable to reach terms on a renewal of our relationship with Sears and, as a result, our relationship with Sears ended on June 20, 2008, resulting in the closure of our leased departments within Sears stores. As of September 30, 2007, we operated 501 leased departments within Sears stores.

Item 3. Legal Proceedings

From time to time, we are named as a defendant in legal actions arising from our normal business activities. Litigation is inherently unpredictable and although the amount of any liability that could arise with respect to currently pending actions cannot be accurately predicted, we do not believe that the resolution of any pending action will have a material adverse effect on our financial position or liquidity.

Item 4. Submission of Matters to a Vote of Security Holders

Not applicable.

PART II.

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock is traded on the Nasdaq Global Market under the symbol "DEST." Prior to December 9, 2008 (before giving effect to our corporate name change), our common stock traded under the symbol "MWRK." The following table sets forth for the periods indicated below the reported high and low sales prices of our common stock as reported on the Nasdaq Global Market:

	High	Low
Fiscal Year Ended September 30, 2007:		
Quarter ended December 31, 2006	\$ 57.65	\$ 38.36
Quarter ended March 31, 2007	43.81	30.76
Quarter ended June 30, 2007	39.86	29.33
Quarter ended September 30, 2007	32.24	14.48
Fiscal Year Ended September 30, 2008:		
Quarter ended December 31, 2007	\$ 19.27	\$ 15.22
Quarter ended March 31, 2008	20.21	14.99
Quarter ended June 30, 2008	18.15	9.62
Quarter ended September 30, 2008	17.00	9.89

As of December 1, 2008, there were 1,237 holders of record and 807 estimated beneficial holders of our common stock.

We have not paid any cash dividends on our common stock since our initial public offering and do not anticipate paying cash dividends on our common stock in the foreseeable future. In addition, the terms of our senior secured Term Loan B due March 13, 2013 (the "Term Loan") and our credit facility significantly restrict our ability to declare or pay dividends on our common stock. Even if we were not restricted under the terms of our Term Loan or our credit facility from being able to pay dividends, any future payment of dividends would still be at the discretion of our Board of Directors and would be based upon certain restrictive financial covenants, earnings, capital requirements and our financial condition, among other factors, at the time any such dividend is considered.

Under our 2005 Equity Incentive Plan (the "2005 Plan"), awards may be granted in the form of options, stock appreciation rights, restricted stock or restricted stock units. Up to 500,000 shares of our common stock may be issued in respect of awards under our 2005 Plan, with no more than 250,000 of those shares permitted to be issued in respect of restricted stock or restricted stock units granted under the 2005 Plan. Our Board of Directors has approved an amendment to the 2005 Plan, subject to the approval of our stockholders at our Annual Meeting of Stockholders to be held on January 23, 2009, to increase the authorized shares for issuance under the plan to 700,000 shares total (an additional 200,000 shares) with no more than 350,000 total (an additional 100,000 shares) permitted to be issued in respect of restricted stock or restricted stock units granted under the 2005 Plan.

In July 2008, our Board of Directors approved a program to repurchase up to \$7.0 million of our outstanding common stock. Under the program, we may repurchase shares from time to time through solicited or unsolicited transactions in the open market or in negotiated or other transactions. The program will be in effect until the end of July 2010. There were no repurchases of common stock under the program during fiscal 2008.

Stock Price Performance Graph

The graph below compares the cumulative total stockholder return on our Common Stock for the period from September 30, 2003 to September 30, 2008, with the cumulative total return of the Standard & Poor's 500 Index and the Standard & Poor's Apparel Retail Index. The comparison assumes \$100 was invested on September 30, 2003 in our Common Stock and in each of the foregoing indices and assumes reinvestment of dividends.

COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN*
Among Destination Maternity Corporation, The S&P 500 Index
And The S&P Apparel Retail Index

- (1) Comparable store sales figures represent sales at retail locations that have been in operation by the Company for at least twelve full months at the beginning of the period for which such data is presented. As used in this Form 10-K, "retail locations" include stores and leased departments, and exclude locations where Kohl's sells our products under an exclusive product and license agreement.
- (2) Based on stores in operation by the Company during the entire twelve-month period (which does not include leased department or licensed relationships).
- (3) Based on stores in operation by the Company at the end of the period.

Edgar Filing: Destination Maternity Corp - Form 10-K

- (4) Based on all retail locations in operation at the end of the period.
- (5) Adjusted EBITDA represents operating income before deduction for the following non-cash charges: (i) depreciation and amortization expense; (ii) loss on impairment of long-lived assets; (iii) (gain) loss on disposal of assets; and (iv) stock-based compensation expense. We have presented Adjusted EBITDA to enhance your understanding of our operating results. Adjusted EBITDA, although possibly calculated

Edgar Filing: Destination Maternity Corp - Form 10-K

differently by us than other companies, is provided because management believes it is an important measure of financial performance used in the retail industry to measure operating results, to determine the value of companies within the industry and to define standards for borrowing from institutional lenders. We use Adjusted EBITDA as a measure of the performance of the Company. We provide Adjusted EBITDA to investors to assist them in performing their analysis of our historical operating results. Adjusted EBITDA reflects a measure of our operating results before consideration of certain non-cash charges and consequently, you should not construe Adjusted EBITDA as an alternative to net income (loss) or operating income as an indicator of our operating performance, or as an alternative to cash flows from operating activities as a measure of our liquidity, as determined in accordance with generally accepted accounting principles. We may calculate Adjusted EBITDA differently than other companies. Presented below is a reconciliation of net income (loss) and operating income (the most directly comparable financial measures calculated and presented in accordance with GAAP) to Adjusted EBITDA.

Reconciliation of Net Income (Loss) to Adjusted EBITDA

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following discussion should be read in conjunction with the consolidated financial statements and their related notes included elsewhere in this report.

We are the leading designer and retailer of maternity apparel in the United States with 1,032 retail locations, including 754 stores in all 50 states, Puerto Rico, Guam and Canada and 278 leased departments. During fiscal 2008, we operated our stores under the Motherhood Maternity, Mimi Maternity, A Pea in the Pod and Destination Maternity retail concepts and also sold our merchandise on the Internet at our MaternityMall.com and our brand-specific websites, as well as through an exclusive product and license agreement with Kohl's. In addition to our 754 stores, our retail locations include 278 leased departments within department and specialty stores. We design and contract manufacture approximately 90% of the merchandise we sell.

Critical Accounting Policies and Estimates

Our consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States. These generally accepted accounting principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of our consolidated financial statements and the reported amounts of net sales and expenses during the reporting period.

Our significant accounting policies are described in Note 2 of "Notes to Consolidated Financial Statements." We believe that the following discussion addresses our critical accounting policies, which are those that are most important to the portrayal of our financial condition and results of operations and require management's most difficult, subjective and complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. If actual results were to differ significantly from estimates made, future reported results could be materially affected. However, we are not currently aware of any reasonably likely events or circumstances that would result in materially different results.

Our senior management has reviewed these critical accounting policies and estimates and the related Management's Discussion and Analysis of Financial Condition and Results of Operations with the Audit Committee of our Board of Directors.

Inventories. We value our inventories, which consist primarily of maternity apparel, at the lower of cost or market. Cost is determined on the first-in, first-out method (FIFO) and includes the cost of merchandise, freight, duty and broker fees. A periodic review of inventory quantities on hand is performed in order to determine if inventory is properly valued at the lower of cost or market. Factors related to current inventories such as future consumer demand and fashion trends, current aging, current analysis of merchandise based on receipt date, current and anticipated retail markdowns or wholesale discounts, and class or type of inventory are analyzed to determine estimated net realizable values. Criteria utilized by us to quantify aging trends include factors such as the amount of merchandise received within the past twelve months, merchandise received more than one year before with quantities on-hand in excess of 12 months of sales, and merchandise currently selling below cost. A provision is recorded to reduce the cost of inventories to its estimated net realizable value, if required. Inventories as of September 30, 2008 and 2007 totaled \$88.1 million and \$100.5 million, respectively, representing 34.4% and 36.4% of total assets, respectively. Given the significance of inventories to our consolidated financial statements, the determination of net realizable values is considered to be a critical accounting estimate. Any significant unanticipated changes in the factors

noted above could have a significant impact on the value of our inventories and our reported operating results.

Long-Lived Assets. Our long-lived assets consist principally of store leasehold improvements (included in the "Property, plant and equipment, net" line item in our consolidated balance sheets) and, to a much lesser extent, lease acquisition costs (included in the "Other intangible assets, net" line item in our consolidated balance sheets). These long-lived assets are recorded at cost and are amortized using the straight-line method over the shorter of the lease term or their useful life. Net long-lived assets as of September 30, 2008 and 2007 totaled \$66.8 million and \$69.2 million, respectively, representing 26.1% and 25.1% of total assets, respectively.

In assessing potential impairment of these assets, we periodically evaluate the historical and forecasted operating results and cash flows on a store-by-store basis. Newly opened stores may take time to generate positive operating and cash flow results. Factors such as (i) store concept, that is, Motherhood, Mimi, A Pea in the Pod or Destination Maternity, (ii) store location, for example, urban area versus suburb, (iii) current marketplace awareness of our brands, (iv) local customer demographic data, (v) anchor stores within the mall in which our store is located and (vi) current fashion trends are all considered in determining the time frame required for a store to achieve positive financial results, which is assumed to be within two years from the date a store location is opened. If economic conditions are substantially different from our expectations, the carrying value of certain of our long-lived assets may become impaired. As a result of our impairment assessment, we recorded write-downs of long-lived assets of \$1.6 million and \$1.8 million during fiscal 2008 and fiscal 2007, respectively.

Goodwill. The purchase method of accounting for business combinations requires the use of estimates and judgments to allocate the purchase price paid for acquisitions to the fair value of the net tangible and identifiable intangible assets. Goodwill represents the excess of the aggregate purchase price over the fair value of net assets acquired in business combinations and is separately disclosed in our consolidated balance sheets. As of both September 30, 2008 and 2007, goodwill totaled \$50.4 million, representing 19.7% and 18.3% of total assets, respectively. In June 2001, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets." SFAS No. 142 requires that goodwill no longer be amortized, but instead be tested for impairment at least annually or as impairment indicators arise.

The impairment test requires us to compare the fair value of business reporting units to their carrying value, including assigned goodwill. In assessing potential impairment of goodwill, we have determined that we have one reporting unit for purposes of applying SFAS No. 142 based on our reporting structure. As of September 30, 2008, our book value was \$14.74 per share of outstanding common stock and the closing trading price of our common stock was \$13.88 per share. The fair value of our single reporting unit is determined based on a combination of the fair market value of our outstanding common stock on a control basis, a discounted cash flow analysis and other generally accepted valuation methodologies and, if necessary, an outside independent valuation is obtained to determine the fair value. The carrying value of our single reporting unit, expressed on a per share basis, is represented by the book value per share of our outstanding common stock. The results of the annual impairment tests performed as of September 30, 2008, 2007 and 2006 indicated the fair value of the reporting unit exceeded its carrying value. As part of our impairment analysis as of September 30, 2008, an outside independent valuation was obtained and the fair value of our single reporting unit exceeded the carrying value. If the per share fair value of our single reporting unit was less than the book value per share on September 30, 2008, our goodwill would have been impaired.

Our goodwill may also need to be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of our single reporting unit

below its carrying value. The market price of our common stock has been subject to substantial volatility subsequent to September 30, 2008 and is currently trading near historically low prices. Consequently, if our stock price does not increase in the near term, our goodwill would likely be impaired and we would need to recognize a non-cash impairment charge, which could have a material adverse effect on our consolidated balance sheet and results of operations, but would not have any adverse effect on the covenant calculations of our debt agreements or our overall compliance with the covenants of our debt agreements.

Accounting for Income Taxes. We adopted the provisions of FASB Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes" effective as of October 1, 2007 (see "Notes to Consolidated Financial Statements; Note 13. Income Taxes").

As part of the process of preparing our consolidated financial statements, we are required to estimate our income taxes in each of the jurisdictions in which we operate. This process requires us to estimate our actual current tax exposure (including interest and penalties) together with assessing temporary differences resulting from differing treatment of items, such as depreciation of property and equipment and valuation of inventories, for tax and accounting purposes. We establish reserves for certain tax positions that we believe are supportable, but such tax positions are potentially subject to successful challenge by the applicable taxing authority. We determine our provision for income taxes based on federal and state tax laws and regulations currently in effect, some of which have been recently revised. Legislation changes currently proposed by certain of the states in which we operate, if enacted, could increase our transactions or activities subject to tax. Any such legislation that becomes law could result in an increase in our state income tax expense and our state income taxes paid, which could have a material and adverse effect on our net income or cash flow.

The temporary differences between the book and tax treatment of income and expenses result in deferred tax assets and liabilities, which are included within our consolidated balance sheets. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income. Actual results could differ from our assessments if adequate taxable income is not generated in future periods. Net deferred tax assets as of September 30, 2008 and 2007 totaled \$23.6 million and \$22.3 million, respectively, representing 9.2% and 8.1% of total assets, respectively. To the extent we believe that recovery is not more likely than not, we must establish a valuation allowance. To the extent we establish a valuation allowance or change the allowance in a future period, income tax expense will be impacted.

Accounting for Contingencies. From time to time, we are named as a defendant in legal actions arising from our normal business activities. We account for contingencies such as these in accordance with SFAS No. 5, "Accounting for Contingencies," including the provisions of Emerging Issues Task Force Issue D-77, "Accounting for Legal Costs Expected to be Incurred in Connection with a Loss Contingency." SFAS No. 5 requires us to record an estimated loss contingency when information available prior to issuance of our financial statements indicates that it is probable that an asset has been impaired or a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. An interpretation of SFAS No. 5 further states that when there is a range of loss and no amount within that range is a better estimate than any other, then the minimum amount of the range shall be accrued. Accounting for contingencies arising from contractual or legal proceedings requires management, after consultation with outside legal counsel, to use its best judgment when estimating an accrual related to such contingencies. As additional information becomes known, our accrual for a loss contingency could fluctuate, thereby creating variability in our results of operations from period to period. Likewise, an actual loss arising from a loss contingency which significantly exceeds the amount accrued for in our financial statements could have a material adverse impact on our operating results for the period in which such actual loss becomes known.

Restructuring

On July 1, 2008, we announced that we were streamlining our merchandise brands and store nameplates and implementing cost reductions in order to simplify our business model, reduce overhead costs and improve and tighten our merchandise assortments. Pursuant to the strategic restructuring, we are rebranding our Mimi Maternity® merchandise brand under our A Pea in the Pod® brand beginning with the Spring 2009 collection, which initially debuted in November 2008. We also plan to streamline our store nameplates, which began in November 2008, by renaming our single-brand Mimi Maternity stores as A Pea in the Pod, and by renaming our multi-brand Mimi Maternity stores as Destination Maternity®. We incurred pre-tax expense of approximately \$0.9 million from our restructuring and cost reduction actions in the fourth quarter of fiscal 2008, consisting of approximately \$0.7 million for cash severance expense and severance-related benefits, and approximately \$0.2 million of non-cash expense for accelerated depreciation of existing store signs resulting from planned store signage changes. Approximately \$0.1 million of non-cash expense for additional accelerated depreciation is expected to be recorded in the first quarter of fiscal 2009. We expect to realize approximately \$5 million of annualized pre-tax expense savings from the cost reductions associated with our strategic restructuring actions, and we began to realize these savings in the fourth quarter of fiscal 2008.

Leased Departments

As we disclosed in September 2007, we were unable to reach terms on a renewal of our relationship with Sears and, as a result, our relationship with Sears ended on June 20, 2008, resulting in the closure of our leased departments within Sears stores. Even after the end of the Sears relationship, we remain well positioned to service the needs of our customers through our own stores as well as through our exclusive licensed relationship and our other leased departments. After our relationship with Sears ended, the Two Hearts Maternity brand remained our exclusive property. As of September 30, 2007, we operated 501 leased departments within Sears stores.

Edgar Filing: Destination Maternity Corp - Form 10-K

Results of Operations

The following table sets forth certain operating data from our consolidated statements of operations as a percentage of net sales and as a percentage change for the periods indicated:

	% of Net Sales(1) Year Ended September 30,			% Increase (Decrease) Year Ended September 30,	
	2008	2007	2006	2008 vs. 2007	2007 vs. 2006

Net income (loss)	(0.2)%	(0.1)%	1.5%	N.M.	N.M.

N.M. Not meaningful

- (1) Components may not add to total due to rounding.
- (2) The "Cost of goods sold" line item includes: merchandise costs (including customs duty expenses), expenses related to inventory shrinkage, product related corporate expenses (including expenses related to our payroll, benefit costs and operating expenses of our buying departments), inventory reserves (including lower of cost or market reserves), inbound freight charges, purchasing and receiving costs, inspection costs, warehousing costs, internal transfer costs, and the other costs of our distribution network.
- (3) The "Selling, general and administrative expenses" line item includes: advertising and marketing expenses, corporate administrative expenses, and store expenses (including store payroll and store occupancy expenses).

The following table sets forth certain information regarding the number of our retail locations, including stores and leased maternity departments for the fiscal years indicated:

	Year Ended September 30,					
	2008			2007		
Retail Locations	Stores	Leased Departments	Total Retail Locations	Stores	Leased Departments	Total Retail Locations
Beginning of period	781	795	1,576	810	731	1,541
Opened	28	7	35	18	121	139
Closed	(55)	(524)	(579)	(47)	(57)	(104)
End of period	754	278	1,032	781	795	1,576

Years Ended September 30, 2008 and 2007

Net Sales. Our net sales for fiscal 2008 decreased by 2.9%, or \$16.8 million, to \$564.6 million from \$581.4 million for fiscal 2007. The decrease in sales versus last year resulted primarily from a decrease in sales from the Company's leased department and licensed relationships, largely due to a decrease in Sears leased department sales due to the closure of all of the remaining leased departments within Sears stores during June 2008, as well as reduced sales volume from the ongoing closure of certain underperforming stores, partially offset by increased internet sales and a slight increase in comparable store sales. Comparable store sales increased by 0.2% during fiscal 2008, based on 820 retail locations, versus a comparable store sales decrease of 4.8% during fiscal 2007, based on 1,330 retail locations.

As of September 30, 2008, we operated a total of 754 stores and 1,032 total retail locations: 616 Motherhood Maternity stores (including 87 Motherhood Maternity Outlet stores), 89 Mimi Maternity stores, 30 A Pea in the Pod stores, 19 Destination Maternity superstores, and 278 leased maternity departments, which were primarily under the Motherhood brand. In addition, our Oh Baby by Motherhood collection is available at Kohl's stores throughout the United States. In comparison, as of September 30, 2007, we operated a total of 781 stores and 1,576 total retail locations: 635 Motherhood Maternity stores (including 91 Motherhood Maternity Outlet stores), 100 Mimi Maternity stores, 32 A Pea in the Pod stores, 14 Destination Maternity superstores, and 795 leased departments. As of September 30, 2008, our store total included 64 multi-brand stores, including 19 Destination Maternity superstores, with the remaining multi-brand stores under the Mimi Maternity brand. In comparison, as of September 30, 2007, we operated 57 multi-brand stores, including 14 Destination Maternity superstores. These multi-brand store figures for fiscal 2008 and fiscal 2007 exclude our A Pea in the Pod stores, which have traditionally carried a full line of both A Pea in the Pod and Mimi branded merchandise. During fiscal 2008, we opened 28 stores, including 7 multi-brand stores, and closed 55 stores, with 18 of these store closings related to multi-brand store openings. In addition, during fiscal 2008, we opened 7 leased department locations and closed 524 leased department locations, including the 501 Sears leased departments operated by us at the end of September 2007.

Gross Profit. Our gross profit for fiscal 2008 decreased by 5.7%, or \$17.2 million, to \$283.0 million compared to \$300.2 million for fiscal 2007, reflecting the decrease in net sales as well as a decrease in gross margin. Gross profit as a percentage of net sales (gross margin) was 50.1% for fiscal 2008, compared to 51.6% for fiscal 2007. The decrease in gross margin for fiscal 2008 as compared to fiscal 2007 reflects increased markdowns to help manage our inventory level, product cost inflation pressures that are being felt throughout the apparel industry, and the effect of spreading fixed product overhead costs over a smaller sales volume.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses for fiscal 2008 decreased by 2.9%, or \$8.1 million, to \$271.6 million from \$279.7 million for fiscal 2007. This decrease in expense resulted primarily from significantly lower legal expenses, and from lower store occupancy, payroll and employee benefits costs, as a result of our reduced number of stores and leased departments. As a percentage of net sales, selling, general and administrative expenses remained consistent at 48.1% for fiscal 2008 and fiscal 2007.

Store Closing, Asset Impairment and Asset Disposal Expenses. Our store closing, asset impairment and asset disposal expenses for fiscal 2008 increased by 63.1%, or \$1.1 million, to \$2.9 million from \$1.8 million for fiscal 2007. We incurred impairment charges for write-downs of long-lived assets of \$1.6 million for fiscal 2008, as compared to \$1.8 million for fiscal 2006. We incurred charges relating to store closings and other asset disposals of \$1.3 million for fiscal 2008, comprised of \$0.7 million of cash lease termination fees and \$0.6 million of non-cash other asset disposal costs, which were primarily

Edgar Filing: Destination Maternity Corp - Form 10-K

related to store relocations, as compared to \$7,000 for fiscal 2007, comprised of \$0.4 million of cash lease termination fees offset by \$0.4 million non-cash gain on asset disposals from closed stores.

Restructuring and Other Charges. In the fourth quarter of fiscal 2008, we incurred pre-tax expense of \$0.9 million from our strategic restructuring and cost reduction actions. We also recognized a \$2.5 million charge in connection with the retirement of our Chief Executive Officer. The charge reflects benefit costs and payroll taxes related to an amendment to the executive's supplemental retirement agreement with us.

Operating Income. Our operating income for fiscal 2008 decreased by 72.9%, or \$13.6 million, to \$5.1 million from \$18.7 million for fiscal 2007, due to the lower sales volume, lower gross margin and associated gross profit reduction, as well as the restructuring and other charges and increased store closing and asset impairment costs, partially offset by lower selling, general and administrative expenses. Operating income as a percentage of net sales (operating income margin) for fiscal 2008 decreased to 0.9% from 3.2% for fiscal 2007. The decrease in operating income margin was primarily due to our decreased gross margin for fiscal 2008 compared to fiscal 2007 and the restructuring and other charges incurred in fiscal 2008.

Interest Expense, Net. Our net interest expense for fiscal 2008 decreased by 29.2%, or approximately \$2.8 million, to \$7.0 million from \$9.8 million in fiscal 2007. This decrease was primarily due to the lower interest rate on our new \$90.0 million Term Loan, which was used to redeem the remaining outstanding balance of our 11¹/₄% senior notes (the "Senior Notes") and, to a lesser extent, our lower debt level, as a result of the repurchase of \$25.0 million of our Senior Notes in December 2006, and the \$13.0 million of Term Loan prepayments in fiscal 2008, partially offset by higher average borrowings under our credit facility. During fiscal 2008, our average level of direct borrowings under our credit facility was \$5.2 million, but we did not have any direct borrowings under our credit facility as of September 30, 2008. During fiscal 2007, our average level of direct borrowings under our credit facility was \$1.0 million.

Loss on Extinguishment of Debt. During fiscal 2008, we prepaid \$13.0 million principal amount of our outstanding Term Loan. The \$13.0 million Term Loan prepayments resulted in pre-tax charges totaling \$0.1 million. During fiscal 2007, we repurchased \$25.0 million principal amount of Senior Notes in December 2006 and, with the proceeds of a new Term Loan, we redeemed the remaining \$90.0 million principal amount of Senior Notes in April 2007. The \$115.0 million of Senior Note repurchases resulted in pre-tax charges totaling \$9.4 million in fiscal 2007, representing the premium paid plus the write-off of unamortized debt issuance discount and deferred financing costs.

Income Taxes. Our effective tax rate was a benefit of 30.5% in fiscal 2008, compared to a benefit of 30.1% in fiscal 2007. Our income tax rate for fiscal 2008 reflects the effect of additional income tax expense (including interest and penalties) being recognized in connection with the implementation and ongoing accounting requirements of FIN No. 48. Additionally, our income tax rates for both fiscal 2008 and fiscal 2007 reflect the effects of certain minimum state tax requirements, partially offset by allowable federal tax credits. See Note 13 of the Notes to Consolidated Financial Statements for the reconciliation of the statutory federal income tax rate to our effective tax rate.

Net Loss. Net loss for fiscal 2008 was \$(1.4) million, or \$(0.23) per share (diluted), compared to net loss of \$(0.4) million for fiscal 2007, or \$(0.07) per share (diluted). Excluding the debt extinguishment, restructuring and other charges in fiscal 2008, and the debt extinguishment charge in fiscal 2007, net income for fiscal 2008 was \$0.9 million, or \$0.14 per share (diluted), compared to net income of \$5.4 million for fiscal 2007, or \$0.87 per share (diluted).

The average diluted shares outstanding of 5,924,000 shares for fiscal 2008 was 2.1% higher than the 5,802,000 shares outstanding for fiscal 2007. The increase in average diluted shares outstanding reflects higher shares outstanding in fiscal 2008 compared to fiscal 2007, as a result of stock option exercises and vesting of restricted stock awards.

Edgar Filing: Destination Maternity Corp - Form 10-K

Following is a reconciliation of net loss and net loss per share (diluted) to net income before loss on extinguishment of debt and restructuring and other charges, and net income per share before loss on extinguishment of debt and restructuring and other charges (diluted) for the years ended September 30, 2008 and 2007 (in thousands, except per share amounts):

	Year Ended September 30, 2008			Year Ended September 30, 2007		
	Net Income (Loss)	Shares	Diluted EPS	Net Income (Loss)	Shares	Diluted EPS
Net loss	\$(1,389)	5,924	\$(0.23)	\$ (393)	5,802	\$(0.07)
Loss on extinguishment of debt, net of tax	61			5,748		
Restructuring and other charges, net of tax	2,171					
Incremental shares from the assumed lapse of restrictions on restricted stock awards		22			36	
Incremental shares from the assumed exercise of outstanding stock options		102			297	
Adjusted net income before loss on extinguishment of debt and restructuring and other charges	\$ 843	6,048	\$ 0.14	\$5,355	6,135	\$ 0.87

Years Ended September 30, 2007 and 2006

Net Sales. Our net sales for fiscal 2007 decreased by 3.5%, or approximately \$21.3 million, to \$581.4 million from \$602.7 million for fiscal 2006. The decrease in sales versus last year resulted primarily from a decrease in comparable store sales, partially offset by increased sales from the Company's leased department and licensed relationships and marketing partnerships. Comparable store sales decreased by 4.8% during fiscal 2007, based on 1,330 retail locations, versus a comparable store sales increase of 4.3% during fiscal 2006, based on 932 retail locations.

As of September 30, 2007, we operated a total of 781 stores and 1,576 total retail locations: 635 Motherhood Maternity stores (including 91 Motherhood Maternity Outlet stores), 100 Mimi Maternity stores, 32 A Pea in the Pod stores, 14 Destination Maternity superstores, and 795 leased maternity departments, of which 501 were in Sears stores and the balance were primarily under the Motherhood brand. In addition, our Oh Baby by Motherhood collection is available at Kohl's stores throughout the United States. In comparison, as of September 30, 2006, we operated a total of 810 stores and 1,541 total retail locations: 659 Motherhood Maternity stores (including 97 Motherhood Maternity Outlet stores), 106 Mimi Maternity stores, 33 A Pea in the Pod stores, 12 Destination Maternity superstores, and 731 leased departments. As of September 30, 2007, our store total included 57 multi-brand stores, including 14 Destination Maternity superstores, with the remaining multi-brand stores under the Mimi Maternity brand. In comparison, as of September 30, 2006, we operated 48 multi-brand stores, including 12 Destination Maternity superstores. These multi-brand store figures for fiscal 2007 and fiscal 2006 exclude our A Pea in the Pod stores, which have traditionally carried a full line of both A Pea in the Pod and Mimi branded merchandise. During fiscal 2007, we opened 18 stores, including nine multi-brand stores, and closed 47 stores, with 20 of these store closings related to multi-brand store openings. In addition, during fiscal 2007, the Company opened 121 leased department locations and closed 57 leased department locations.

Gross Profit. Our gross profit for fiscal 2007 decreased by 4.6%, or approximately \$14.5 million, to \$300.2 million compared to \$314.7 million for fiscal 2006, reflecting the decrease in net sales as well as a decrease in gross profit as a percentage of net sales. Gross profit as a percentage of net sales (gross margin) was 51.6% for fiscal 2007, compared to 52.2% for fiscal 2006. The decrease in gross margin for fiscal 2007 as compared to fiscal 2006 reflects the negative effect of spreading product overhead costs over a smaller sales base, partially offset by modestly higher maintained gross margin in

our stores and increased marketing partnership revenues. The increase in our maintained gross margin in our stores for fiscal 2007 primarily reflects decreased markdown levels compared to fiscal 2006 for the first six months of fiscal 2007.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses for fiscal 2007 were equal to fiscal 2006, at \$279.7 million for both fiscal years. Significantly lower variable incentive compensation costs, and lower store occupancy expenses, as a result of our store closings and our new multi-brand stores, were offset by increased legal expenses that were primarily related to certain intellectual property disputes, increased employee benefits costs and increased payroll expenses. As a percentage of net sales, selling, general and administrative expenses increased to 48.1% for fiscal 2007 compared to 46.4% for fiscal 2006. The increase in this percentage was primarily a result of decreased net sales, even though the actual amount of selling, general and administrative expenses for fiscal 2007 was consistent with fiscal 2006. In addition to this unfavorable expense leverage related to decreased net sales, the operating expense percentage increased due to increased legal expenses, increased employee benefits costs and increased payroll expenses. The increase in selling, general and administrative expenses as a percentage of net sales was partially offset by decreases as a percentage of net sales in variable incentive compensation expense.

Store Closing, Asset Impairment and Asset Disposal Expenses. Our store closing, asset impairment and asset disposal expenses for fiscal 2007 decreased by 61.3%, or \$2.8 million, to \$1.8 million from \$4.6 million for fiscal 2006. We incurred impairment charges for write-downs of long-lived assets of \$1.8 million for fiscal 2007, as compared to \$2.6 million for fiscal 2006. We incurred charges relating to store closings and other asset disposals of \$7,000 for fiscal 2007, comprised of \$0.4 million of cash lease termination fees offset by \$0.4 million non-cash gain on asset disposals from closed stores, as compared to \$2.0 million for fiscal 2006, comprised of \$2.1 million of cash lease termination fees and \$0.1 million of non-cash other asset disposal costs, partially offset by \$0.2 million of non-cash gain on asset disposals from closed stores. The majority of the store closing charges for fiscal 2006 were for stores closed in connection with multi-brand store openings, with most of these charges related to the opening of our world flagship Destination Maternity superstore in New York City in February 2006.

Operating Income. Our operating income for fiscal 2007 decreased by 38.3%, or \$11.6 million, to \$18.7 million from \$30.3 million for fiscal 2006, due to the lower sales volume and associated gross profit reduction partially offset by lower store closing and asset impairment costs. Operating income as a percentage of net sales (operating income margin) for fiscal 2007 decreased to 3.2% from 5.0% for fiscal 2006. The decrease in operating income margin was primarily due to unfavorable leverage of selling, general and administrative expenses resulting from decreased comparable store sales and, to a lesser extent, due to our decreased gross margin, partially offset by a lower percentage of store closing and asset impairment costs.

Interest Expense, Net. Our net interest expense for fiscal 2007 decreased by 32.2%, or \$4.7 million, to \$9.8 million from \$14.5 million in fiscal 2006. This decrease was primarily due to the repurchase of \$35.0 million of our Senior Notes from August 2006 through December 2006 and, to a lesser extent, the partial year benefit of the lower interest rate on our new \$90.0 million Term Loan, which we began to recognize in April 2007. During fiscal 2007, our average level of direct borrowings under our credit facility was \$1.0 million, but we did not have any direct borrowings under our credit facility as of September 30, 2007. During fiscal 2006, our average level of direct borrowings under our credit facility was \$0.3 million.

Loss on Extinguishment of Debt. In December 2006, we repurchased \$25.0 million principal amount of our outstanding Senior Notes. In April 2007, we repurchased the remaining \$90.0 million principal amount of our outstanding Senior Notes with the proceeds from a new Term Loan. The \$115.0 million of Senior Note repurchases resulted in pre-tax charges totaling \$9.4 million, representing

Edgar Filing: Destination Maternity Corp - Form 10-K

the premium paid plus the write-off of unamortized debt issuance discount and deferred financing costs.

Income Taxes. Our effective tax rate was a benefit of 30.1% in fiscal 2007, compared to a provision of 39.0% in fiscal 2006, which reflected the effects of certain minimum state tax requirements and allowable federal tax credits in fiscal 2007. See Note 13 of the Notes to Consolidated Financial Statements for the reconciliation of the statutory federal income tax rate to our effective tax rate.

Net Income (Loss). Net loss for fiscal 2007 was \$0.4 million, or \$(0.07) per share (diluted), compared to net income of \$9.1 million for fiscal 2006, or \$1.63 per share (diluted). Excluding the debt extinguishment charges in fiscal 2007 and fiscal 2006, net income for fiscal 2007 was \$5.4 million, or \$0.87 per share (diluted), compared to net income of \$9.6 million for fiscal 2006, or \$1.72 per share (diluted).

The average diluted shares outstanding of 5,802,000 shares for fiscal 2007 was 3.8% higher than the 5,591,000 shares outstanding for fiscal 2006. The increase in average diluted shares outstanding reflects higher shares outstanding in fiscal 2007 compared to fiscal 2006, as a result of stock option exercises and restricted stock awards, partially offset by the elimination of the dilutive impact of outstanding stock options and restricted stock in fiscal 2007 due to the net loss for fiscal 2007, compared to the dilutive impact of outstanding stock options in fiscal 2006, when we generated net income.

Following is a reconciliation of net income (loss) and net income (loss) per share (diluted) to net income before loss on extinguishment of debt and net income per share before loss on extinguishment of debt (diluted) for the years ended September 30, 2007 and 2006 (in thousands, except per share amounts):

	Year Ended September 30, 2007			Year Ended September 30, 2006		
	Net Income (Loss)	Shares	Diluted EPS	Net Income	Shares	Diluted EPS
Net income (loss)	\$ (393)	5,802	\$(0.07)	\$9,102	5,591(1)	\$ 1.63
Loss on extinguishment of debt, net of tax	5,748			533		
Incremental shares from the assumed lapse of restrictions on restricted stock awards		36				
Incremental shares from the assumed exercise of outstanding stock options		297				
Adjusted net income before loss on extinguishment of debt	\$5,355	6,135	\$ 0.87	\$9,635	5,591	\$ 1.72

(1) Includes 243,000 shares from the assumed exercise of outstanding stock options and warrants.

Liquidity and Capital Resources

Our cash needs have primarily been for: (i) debt service, (ii) capital expenditures, including leasehold improvements, fixtures and equipment for new stores, store relocations and expansions of our existing stores, as well as improvements and new equipment for our distribution and corporate facilities and information systems, and (iii) working capital, including inventory to support our business. We have historically financed these capital requirements from cash flows from operations, borrowings under our credit facility or available cash balances.

Cash and cash equivalents increased by \$2.0 million during fiscal 2008 compared to a decrease of \$8.8 million during fiscal 2007.

Edgar Filing: Destination Maternity Corp - Form 10-K

Cash provided by operations of \$27.8 million for fiscal 2008 increased by \$0.4 million from \$27.4 million for fiscal 2007. This increase in cash provided by operations versus the prior year was primarily the result of working capital changes that provided more cash in fiscal 2008 compared to fiscal 2007, primarily due to a decrease in inventories in fiscal 2008, partially offset by the larger net loss and smaller loss on extinguishment of debt in fiscal 2008 compared to fiscal 2007. Total inventories as of September 30, 2008 were \$88.1 million, a decrease of \$12.4 million or 12.4% below the \$100.5 million inventories balance as of September 30, 2007. During fiscal 2008 we used the majority of our cash provided by operations to pay for capital expenditures. For fiscal 2008 we spent \$15.7 million on capital expenditures, including \$12.3 million for leasehold improvements, fixtures and equipment principally for new store facilities, as well as improvements to existing stores, and \$3.4 million for our information systems and distribution and corporate facilities. We funded repayments of long-term debt in fiscal 2008, including \$13.0 million of prepayments of our Term Loan, by using the remaining cash provided by operations and the cash received from the Grantor Trust related to amendments to certain supplemental executive retirement agreements (as described later in this section).

Cash provided by operations of \$27.4 million for fiscal 2007 decreased by \$15.0 million from \$42.4 million for fiscal 2006. This decrease in cash provided by operations versus the prior year was primarily the result of an increase in inventories in fiscal 2007 compared to cash generated from a decrease in inventories during fiscal 2006. Total inventories as of September 30, 2007 were \$100.5 million, an increase of \$6.2 million or 6.6% above the \$94.3 million inventories balance as of September 30, 2006. During fiscal 2007 we used a significant amount of our cash provided by operations to pay for capital expenditures. For fiscal 2007 we spent \$15.4 million in capital expenditures, including \$11.0 million for leasehold improvements, fixtures and equipment principally for new store facilities, as well as improvements to existing stores, and \$4.4 million for our distribution and corporate facilities and information systems. We funded the \$25.0 million repurchase of our Senior Notes in December 2006 by utilizing available cash, cash generated by net proceeds from the sales (net of purchases) of short-term investments, cash generated from stock option exercises, as well as the remaining cash provided by operations.

On December 8, 2006, we completed the repurchase of \$25.0 million principal amount of our Senior Notes at 105.625% of the principal amount, plus accrued and unpaid interest. On April 18, 2007, we completed the redemption of the remaining \$90.0 million principal amount of our outstanding Senior Notes through a new Term Loan financing. The December 2006 and April 2007 redemptions of the Senior Notes, which were both at a price of 105.625% of principal amount, plus accrued interest, resulted in "Loss on extinguishment of debt" of \$9.4 million on a pre-tax basis, consisting of the \$6.5 million cash redemption premium and \$2.9 million of non-cash expense from the write-off of unamortized deferred financing costs and debt issuance costs.

On March 13, 2007, we entered into a Term Loan Agreement for a \$90.0 million senior secured Term Loan B due March 13, 2013, the proceeds of which were received on April 18, 2007 and were used to redeem the remaining \$90.0 million principal amount of our Senior Notes. The new Term Loan extended the maturity for \$90.0 million principal amount of our debt from August 1, 2010 (the maturity date of the redeemed Senior Notes) to March 13, 2013 (the maturity date of the new Term Loan). The interest rate on the Term Loan is equal to, at our election, either (i) the prime rate plus 1.00%, or (ii) the LIBOR rate plus the applicable margin. The applicable margin for LIBOR rate borrowings is either 2.25% or 2.50%, depending on our Consolidated Leverage Ratio (as defined). Based upon our applicable quarterly Consolidated Leverage Ratio during fiscal 2008, the applicable margin for LIBOR rate borrowings remained at 2.50% for fiscal 2008. We are required to make minimum repayments of the principal amount of the Term Loan in quarterly installments of \$225,000 each. We are also required to make an annual principal repayment equal to 25% or 50% of Excess Cash Flow (as defined) in excess of \$5,000,000 for each fiscal year, with the 25% or 50% factor depending on our Consolidated Leverage Ratio. The required principal repayment for fiscal 2008, which was calculated based on the 50% factor, is \$622,000 and is due in December 2008. Additionally, the Term Loan can be prepaid at

our option, in part or in whole, at any time without any prepayment premium or penalty. On March 19, 2008, we prepaid \$5.0 million of the outstanding Term Loan and on June 19, 2008 we prepaid \$8.0 million of the outstanding Term Loan. At September 30, 2008, our indebtedness under the Term Loan Agreement was \$75.7 million.

The Term Loan is secured by a security interest in our accounts receivable, inventory, real estate interests, letter of credit rights, cash, intangibles and certain other assets. The security interest granted to the Term Lenders is, in certain respects, subordinate to the security interest granted to the Credit Facility Lender. The Term Loan Agreement imposes certain restrictions on our ability to, among other things, incur additional indebtedness, pay dividends, repurchase stock, and enter into other various types of transactions. The Term Loan Agreement also contains quarterly financial covenants that require us to maintain a specified maximum permitted Consolidated Leverage Ratio and a specified minimum permitted Consolidated Interest Coverage Ratio (as defined). Since the inception of the Term Loan Agreement we have been in compliance with all covenants of our Term Loan Agreement.

In order to mitigate our floating rate interest risk on the variable rate Term Loan, we entered into an interest rate swap agreement with the Agent bank for the Term Loan that commenced on April 18, 2007, the date the \$90.0 million Term Loan proceeds were received, and expires on April 18, 2012. The interest rate swap agreement enables us to effectively convert an amount of the Term Loan equal to the notional amount of the interest rate swap from a floating interest rate of LIBOR plus 2.50% (subject to reduction to LIBOR plus 2.25% if we achieve a specified leverage ratio), to a fixed interest rate of 7.50% (subject to reduction to 7.25% if we achieve a specified leverage ratio) for the significant majority of the Term Loan. The notional amount of the interest rate swap was \$75.0 million at the inception of the swap agreement and decreases over time to a notional amount of \$5.0 million at the expiration date. The notional amount of the swap was \$57.5 million as of September 30, 2008 and over the next eighteen months decreases as follows: to \$50.0 million starting October 20, 2008; to \$42.5 million starting April 20, 2009; and to \$35.0 million starting October 19, 2009.

In connection with the Term Loan transaction, we amended our existing \$60.0 million revolving Credit Facility in order to permit the new Term Loan financing. This amendment of the Credit Facility also extended its maturity from October 15, 2009 to March 13, 2012, increased its size to \$65.0 million, and reduced the LIBOR-based interest rate option under the facility by 0.25%. There are no financial covenant requirements under the Credit Facility provided that Excess Availability (as defined) does not fall below 10% of the Borrowing Base (as defined). If Excess Availability were to fall below 10% of the Borrowing Base, we would be required to meet a specified minimum Fixed Charge Coverage Ratio (as defined). During all of fiscal 2008 and fiscal 2007, we exceeded the minimum requirements for Excess Availability under the Credit Facility.

As of September 30, 2008, we had no outstanding borrowings under the Credit Facility and \$10.6 million in letters of credit, with \$45.9 million of availability under our credit line based on Borrowing Base limitations, compared to no outstanding borrowings and \$7.0 million in letters of credit, with \$58.0 million of availability under our credit line as of September 30, 2007. Borrowings under the Credit Facility as of September 30, 2008 would have borne interest at a rate of between approximately 4.93% and 5.00% per annum. During fiscal 2008 and 2007, our average level of direct borrowings under the Credit Facility was \$5.2 million and \$1.0 million, respectively. We expect that we will have borrowings under our Credit Facility during certain periods of fiscal 2009, reflecting seasonal and other timing variations in cash flow.

In March 2007, we entered into Supplemental Executive Retirement Agreements (the "SERP Agreements") with our Chairman of the Board and former Chief Executive Officer and our President and Chief Creative Officer (the "SERP Executives"). In April 2007, we made an initial required contribution of \$2.7 million to a Grantor Trust, which was established for the purpose of accumulating assets in anticipation of our payment obligations under the SERP Agreements. In November 2007, we made an additional required contribution to the Grantor Trust of \$1.2 million. In order to impact

positively our ability to comply with the Consolidated Leverage Ratio covenant of our Term Loan Agreement at March 31, 2008, with the consent of the SERP Executives we withdrew \$1.0 million from the Grantor Trust on March 28, 2008. The withdrawn funds were used to repay indebtedness under our credit facility. On May 20, 2008, we entered into (i) a Letter Agreement with the SERP Executives and the trustee for the Grantor Trust (the "Trustee"), and (ii) an amendment to the Grantor Trust agreement with the Trustee (collectively, the "Agreements"). The Agreements amended the SERP Agreements and the Grantor Trust agreement to provide for us to deliver an irrevocable standby letter of credit to the Trustee in an amount equal to our then current funding obligation under the SERP Agreements, which was \$3.9 million. As provided in the Agreements, in the third quarter of fiscal 2008 we received a distribution of the remaining assets held in the Grantor Trust, amounting to \$2.8 million. The amendments affected by the Agreements also allow for the issuance, from time to time, of irrevocable standby letters of credit, or the increase of size of an irrevocable standby letter of credit already held by the Trustee, in lieu of any deposit to the Grantor Trust otherwise required in the future. In addition, the Agreements permit us, from time to time at our sole discretion, to reduce the size of any irrevocable standby letter of credit issued to the Trustee, so long as we simultaneously fund the Grantor Trust with an amount of cash equal to the amount of the reduction of the letter of credit.

Our management believes that our current cash and working capital positions, expected operating cash flows and available borrowing capacity under our Credit Facility, will be sufficient to fund our working capital, capital expenditures and debt repayment requirements and to fund stock and/or debt repurchases, if any, for at least the next twelve months.

Contractual Obligations and Commercial Commitments

We have entered into agreements that create contractual obligations and commercial commitments. These obligations and commitments will have an impact on future liquidity and the availability of capital resources. The tables below set forth a summary of these obligations and commitments as of September 30, 2008 (in thousands):

Contractual Obligations:

Description	Total Obligations (1)	Less Than One Year	Payments Due by Period		
			One to Three Years	Three to Five Years	After Five Years
Long-term debt	\$ 78,646	\$ 1,860	\$ 2,443	\$ 72,703	\$ 1,640
Interest related to long-term debt (2)	22,114	5,399	9,909	6,438	368
Operating leases (3)	251,824	54,301	88,374	63,232	45,917
Purchase obligations (4)	82,836	82,836			
Total contractual cash obligations	\$ 435,420	\$ 144,396	\$ 100,726	\$ 142,373	\$ 47,925

-
- (1) The amounts in this table exclude obligations under employment and retirement agreements. For a discussion of the compensation of our executive officers, see the information contained under the caption "Executive Compensation" in our proxy statement, which will be filed with the Securities and Exchange Commission in connection with the Annual Meeting of Stockholders scheduled to be held on January 23, 2009.
- (2) Interest costs on our floating rate long-term debt were estimated using the interest rates in effect as of September 30, 2008. This presentation of interest costs on our floating rate long-term debt includes the effects of our interest rate swap agreement further described above in "Liquidity and Capital Resources."
- (3) Includes store operating leases, which generally provide for payment of direct operating costs in addition to rent. The amounts reflected include future minimum lease payments and exclude such direct operating costs.
- (4) Our purchase orders with contract manufacturers are cancelable by us at any time prior to our acceptance of the merchandise. Excludes purchase orders for supplies in the normal course of business.

Edgar Filing: Destination Maternity Corp - Form 10-K

Commercial Commitments:

Description	Total Obligations	Amount of Commitment Per Period			
		Less Than One Year	One to Three Years	Three to Five Years	After Five Years
Credit facility (1)	\$ 10,605	\$ 10,605	\$	\$	\$
Other standby letters of credit					
Total commercial commitments	\$ 10,605	\$ 10,605	\$	\$	\$

(1) Consists of outstanding letter of credit commitments under our credit facility.

New Accounting Pronouncements

SFAS No. 157

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value in U.S. generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 is effective for financial assets and liabilities that are measured at fair value on a recurring basis for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The FASB has issued a one-year deferral of SFAS No. 157's fair value measurement requirements for non-financial assets and liabilities that are not required or permitted to be measured at fair value on a recurring basis. The adoption of SFAS No. 157 for financial assets and liabilities is not expected to have a material impact on our consolidated financial position or results of operations. The impact from adoption of SFAS No. 157 for non-financial assets and liabilities, if any, on our consolidated financial position or results of operations has not yet been determined.

SFAS No. 159

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities." SFAS No. 159 provides companies with an option to report selected financial assets and liabilities at fair value and requires entities to display the fair value of those assets and liabilities for which the company has chosen to use fair value on the face of the balance sheet. SFAS No. 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The adoption of SFAS No. 159 is not expected to have a material impact on our consolidated financial position or results of operations.

SFAS No. 161

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities - an amendment of FASB Statement No. 133." SFAS No. 161 requires companies to provide qualitative disclosures about the objectives and strategies for using derivatives, quantitative data about the fair value of and gains and losses on derivative contracts, and details of credit-risk-related contingent features in hedged positions. SFAS No. 161 is effective for financial statements issued for fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The adoption of SFAS No. 161 is not expected to have a material impact on our consolidated financial position or results of operations.

Inflation

We do not believe that the relatively moderate levels of inflation which have been experienced in the United States in recent years have had a significant effect on our net sales or profitability. However, there can be no assurance that our business will not be affected by inflation in the future.

Forward-Looking Statements

Some of the information in this report, including the information incorporated by reference (as well as information included in oral statements or other written statements made or to be made by us), contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The forward-looking statements involve a number of risks and uncertainties. A number of factors could cause our actual results, performance, achievements or industry results to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. These factors include, but are not limited to: our ability to successfully manage various business initiatives, our ability to successfully implement our merchandise brand and retail nameplate restructuring, the success of our international expansion, our ability to successfully manage and retain our leased department and licensed relationships and marketing partnerships, future sales trends in our existing retail locations, weather, changes in consumer spending patterns, raw material price increases, consumer preferences and overall economic conditions, our ability to anticipate and respond to fashion trends and consumer preferences, anticipated fluctuations in our operating results, the impact of competition and pricing, availability of suitable store locations, continued availability of capital and financing, ability to hire and develop senior management and sales associates, ability to develop and source merchandise, ability to receive production from foreign sources on a timely basis, potential stock repurchases, potential debt prepayments, changes in market interest rates, war or acts of terrorism and other factors referenced in this report, including those set forth under the caption "Item 1A. Risk Factors."

In addition, these forward-looking statements necessarily depend upon assumptions, estimates and dates that may be incorrect or imprecise and involve known and unknown risks, uncertainties and other factors. Accordingly, any forward-looking statements included in this report do not purport to be predictions of future events or circumstances and may not be realized. Forward-looking statements can be identified by, among other things, the use of forward-looking terms such as "believes," "expects," "may," "will," "should," "seeks," "pro forma," "anticipates," "intends," "continues," "could," "estimates," "plans," "potential," "predicts," "goal," "objective," or the negative of any of these terms, or comparable terminology, or by discussions of our outlook, plans, goals, strategy or intentions. Forward-looking statements speak only as of the date made. Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the Securities and Exchange Commission, we assume no obligation to update any of these forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting these forward-looking statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Destination Maternity Corporation is exposed to market risk from changes in interest rates. We have not entered into any market sensitive instruments for trading purposes. The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market interest rates. The range of changes presented reflects our view of changes that are reasonably possible over a one-year period.

As of September 30, 2008, we had cash and cash equivalents of \$12.1 million. Our cash equivalents consist of money market accounts that bear interest at variable rates. A change in market interest rates earned on our investments impacts the interest income and cash flows, but does not materially impact the fair market value of the financial instruments. Due to the average maturity and conservative nature of our investment portfolio, we believe a sudden change in interest rates would not have a material effect on the value of our investment portfolio.

As of September 30, 2008, the principal components of our debt portfolio were the \$75.7 million Term Loan and the \$65.0 million Credit Facility, both of which are denominated in U.S. dollars.

Edgar Filing: Destination Maternity Corp - Form 10-K

Our Credit Facility carries a variable interest rate that is tied to market indices. As of September 30, 2008, we had no direct borrowings and \$10.6 million of letters of credit outstanding under our Credit Facility. Borrowings under the Credit Facility would have resulted in interest at a rate between approximately 4.9% and 5.0% per annum as of September 30, 2008. Any future borrowings under the Credit Facility would, to the extent of outstanding borrowings, be affected by changes in market interest rates. A change in market interest rates on the variable rate portion of the debt portfolio impacts the interest expense incurred and cash flows.

The Term Loan carries a variable interest rate that is tied to market indices. The sensitivity analysis as it relates to this portion of our debt portfolio assumes an instantaneous 100 basis point move in interest rates from their levels as of September 30, 2008, with all other variables held constant. The Debt Value of the Term Loan is approximately \$75.7 million. A 100 basis point increase in market interest rates would result in additional annual interest expense on the Term Loan of approximately \$0.8 million. A 100 basis point decline in market interest rates would correspondingly lower our annual interest expense on the Term Loan by approximately \$0.8 million.

In order to mitigate our floating rate interest risk on the variable rate Term Loan, we entered into an interest rate swap agreement with the Agent bank for the Term Loan that commenced on April 18, 2007. The interest rate swap agreement enables us to effectively convert an amount of the Term Loan equal to the notional amount of the interest rate swap from a floating interest rate (LIBOR plus 2.50% at inception), to a fixed interest rate (7.50% at inception). The notional amount of the interest rate swap was \$75.0 million at inception of the swap agreement and decreases over time to a notional amount of \$5.0 million at the expiration date. Based on the scheduled swap notional amount during the next 12 months of the swap agreement, a 100 basis point increase in market interest rates would result in interest expense savings for the year of approximately \$0.5 million related to the swap agreement. A 100 basis point decline in market interest rates would correspondingly increase our interest expense for the year by approximately \$0.5 million related to the swap agreement. Thus, a 100 basis point increase in market interest rates during the next 12 months of the swap agreement would result in additional interest expense for the year of approximately \$0.3 million on the Term Loan and swap agreement combined. A 100 basis point decline in market interest rates during the next 12 months of the swap agreement would correspondingly lower our interest expense for the year by approximately \$0.3 million on the Term Loan and swap agreement combined.

Based on the limited other variable rate debt included in our debt portfolio as of September 30, 2008, a 100 basis point increase in interest rates would result in additional interest incurred for the year of less than \$0.1 million. A 100 basis point decrease in interest rates would correspondingly lower our interest expense for the year by less than \$0.1 million.

Other than as described above, we do not believe that the market risk exposure on other financial instruments is material.

Item 8. Financial Statements and Supplementary Data

Our Consolidated Financial Statements appear on pages F-1 through F-32, as set forth in Item 15.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures

Our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that are filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. These disclosure controls and procedures include controls and

procedures designed to ensure that information required to be disclosed under the Exchange Act is accumulated and communicated to our management on a timely basis to allow decisions regarding required disclosure. We evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2008. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that as of September 30, 2008, these controls and procedures were effective.

Internal Control over Financial Reporting

(a) Management's Annual Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting to provide reasonable assurance regarding the reliability of the Company's financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Management assessed the Company's internal control over financial reporting as of September 30, 2008, the end of the Company's fiscal year. Management based its assessment on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Management's assessment included evaluation of such elements as the design and operating effectiveness of key financial reporting controls, process documentation, accounting policies, and the Company's overall control environment.

Based on its assessment, management has concluded that the Company's internal control over financial reporting was effective as of the end of the fiscal year to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with generally accepted accounting principles. The results of management's assessment were reviewed with the Audit Committee of the Company's Board of Directors.

KPMG LLP independently assessed the effectiveness of the Company's internal control over financial reporting. KPMG LLP has issued an attestation report, which is included below.

(b) Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Destination Maternity Corporation:

We have audited Destination Maternity Corporation's (formerly Mothers Work, Inc.) internal control over financial reporting as of September 30, 2008, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Destination Maternity Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the Management's Annual Report on Internal Control over Financial Reporting presented above. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain

Edgar Filing: Destination Maternity Corp - Form 10-K

reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Destination Maternity Corporation maintained, in all material respects, effective internal control over financial reporting as of September 30, 2008, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Destination Maternity Corporation and subsidiaries as of September 30, 2008 and 2007, and the related consolidated statements of operations, stockholders' equity and comprehensive income (loss) and cash flows for each of the years in the three-year period ended September 30, 2008 and the related financial statement schedule, and our report dated December 15, 2008 expressed an unqualified opinion on those consolidated financial statements and the related financial statement schedule.

/s/ KPMG LLP

Philadelphia, Pennsylvania
December 15, 2008

(c) Change in Internal Control over Financial Reporting

There have been no changes in internal control over financial reporting identified in connection with management's evaluation that occurred during the last fiscal quarter ended September 30, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

None

PART III.

Item 10. Directors, Executive Officers and Corporate Governance

Information concerning directors and corporate governance, appearing under the captions "Corporate Governance," "Election of Directors (Proposal 1)" and "Section 16(a) Beneficial Ownership Reporting Compliance" in our Proxy Statement, is incorporated herein by reference in response to this Item 10. Information concerning executive officers, appearing under the caption "Item 1. Business Executive Officers of the Company" in Part I of this Form 10-K, is incorporated herein by reference in response to this Item 10.

The Board of Directors has adopted a Code of Business Conduct and Ethics, which can be found on the Company's corporate website at www.DestinationMaternityCorp.com/CodeOfConduct.asp. We intend to satisfy the amendment and waiver disclosure requirements under applicable securities regulations by posting any amendments of, or waivers to, the Code of Business Conduct and Ethics on our website.

Item 11. Executive Compensation

The information contained in the Proxy Statement from the sections titled "Compensation Discussion and Analysis," "Reports of Committees of the Board of Directors" and "Executive Compensation" with respect to executive compensation, and in the section titled "Compensation of Directors" with respect to director compensation, is incorporated herein by reference in response to this Item 11.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information contained in the section titled "Security Ownership of Certain Beneficial Owners and Management" in the Proxy Statement, with respect to security ownership of certain beneficial owners and management, and in the section titled "Securities Authorized for Issuance Under Equity Compensation Plans," with respect to securities authorized for issuance under equity compensation plans, is incorporated herein by reference in response to this Item 12.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information contained in the sections titled "Corporate Governance" and "Election of Directors (Proposal 1)" in the Proxy Statement with respect to certain relationships and director independence, is incorporated herein by reference in response to this Item 13.

Item 14. Principal Accounting Fees and Services

The information contained in the Proxy Statement in the section titled "Auditor Fees and Services" is incorporated herein by reference in response to this Item 14.

PART IV.

Item 15. Exhibits, Financial Statement Schedules

(a)

(1) Financial Statements

The financial statements listed in the accompanying Index to Consolidated Financial Statements are filed as part of this Form 10-K, commencing on page F-1.

(2)

Financial Statement Schedules

Schedule II Valuation and Qualifying Accounts.

All other schedules are omitted because they are not applicable or not required, or because the required information is included in the consolidated financial statements or notes thereto.

(3)

Exhibits
See following Index of Exhibits.

INDEX OF EXHIBITS

Exhibit No.	Description
3.1	Amended and Restated Certificate of Incorporation of the Company (effective December 10, 2008).
*3.2	By-Laws of the Company (as amended through December 5, 2008) (Exhibit 3.3 to the Company's Current Report on Form 8-K dated December 5, 2008).
*4.1	Specimen certificate representing shares of the Company's common stock with legend regarding Preferred Stock Purchase Rights (Exhibit 4.2 to the Company's Current Report on Form 8-K dated October 12, 1995).
*4.2	Amended and Restated Rights Agreement, dated as of October 9, 2005, between the Company and StockTrans, Inc., which includes the Form of Series B Rights Certificate, the Certificate of Designation of the voting powers, designations, preferences, and relative, participating, optional or other special rights and qualifications, limitations and restrictions of the Series B Junior Participating Preferred Stock, and a Summary of Rights to Purchase Preferred Stock attached thereto as Exhibits A, B and C respectively (Exhibit 4.1 to the Company's Current Report on Form 8-K dated October 9, 2005).
*10.1	1994 Director Stock Option Plan (Exhibit 10.12 to the Company's Annual Report on Form 10-K for the year ended September 30, 1994).
*10.2	Loan Agreement dated September 1, 1995 between Philadelphia Authority For Industrial Development ("PAID") and the Company (Exhibit 10.26 to the Company's Registration Statement on Form S-1, Registration No. 33-97318, dated October 26, 1995 (the "1995 Registration Statement")).
*10.3	Indenture of Trust dated September 1, 1995 between PAID and Society National Bank (Exhibit 10.29 to the Company's 1995 Registration Statement).
*10.4	Variable/Fixed Rate Federally Taxable Economic Development Bond (Mothers Work, Inc.), Series of 1995, in the aggregate principal amount of \$4,000,000 (Exhibit 10.30 to the Company's 1995 Registration Statement).
*10.5	Note dated as of February 14, 1996 from the Company to PIDC Local Development Corporation (Exhibit 10.29 to the Company's Annual Report on Form 10-K for the year ended September 30, 1996 (the "1996 Form 10-K")).
*10.6	Installment Sale Agreement dated as of April 4, 1996 by and between PIDC Financing Corporation and the Company (Exhibit 10.30 to the 1996 Form 10-K).
*10.7	Open-ended Mortgage dated as of April 4, 1996 between PIDC Financing Corporation and the Pennsylvania Industrial Development Authority ("PIDA") (Exhibit 10.31 to the 1996 Form 10-K).
*10.8	Loan Agreement dated as of April 4, 1996 by and between PIDC Financing Corporation and PIDA (Exhibit 10.32 to the 1996 Form 10-K).
*10.9	1987 Stock Option Plan (as amended and restated) (Exhibit 4.1 to the Company's Registration Statement on Form S-8, Registration No. 333-59529, dated July 21, 1998).
*10.10	Amendment to the Company's 1987 Stock Option Plan, as amended and restated, effective as of November 13, 2002 (Exhibit 10.25 to the Company's March 2003

Edgar Filing: Destination Maternity Corp - Form 10-K

Form 10-Q).

- *10.11 Form of Non-Qualified Stock Option Agreement under the Company's 1987 Stock Option Plan (Exhibit 10.18 to the Company's Annual Report on Form 10-K for the year ended September 30, 2004 (the "2004 Form 10-K")).
- *10.12 Form of Non-Qualified Stock Option Agreement under the Company's 1994 Director Stock Option Plan (Exhibit 10.19 to the 2004 Form 10-K).

Edgar Filing: Destination Maternity Corp - Form 10-K

Exhibit

No.	Description
*10.13	Description of the Company's Non-Employee Directors Compensation Policy (See "Compensation of Directors" in Company's 2007 Fiscal Year Proxy Statement filed December 15, 2006).
*10.14	Form of Waiver of Rights Under Company's 1987 Stock Option Plan and 1994 Director Stock Option Plan executed by each of the Company's Non-Management Directors (Exhibit 10.21 to the Company's Current Report on Form 8-K dated December 29, 2005 (the "December 29, 2005 Form 8-K")).
*10.15	Form of Waiver of Rights Under Company's 1987 Stock Option Plan executed by certain of the Company's executive officers (Exhibit 10.22 to the December 29, 2005 Form 8-K).
*10.16	Form of Restricted Stock Award Agreement under the Company's 2005 Equity Incentive Plan (Exhibit 10.28 to the Company's Annual Report on Form 10-K for the year ended September 30, 2006 (the "2006 Form 10-K")).
*10.17	Form of Non-Qualified Stock Option Agreement under the Company's 2005 Equity Incentive Plan (Exhibit 10.29 to the 2006 Form 10-K).
*10.18	Management Incentive Program (Exhibit 10.1 to the Company's Current Report on Form 8-K dated December 19, 2006).
*10.19	Second Amended and Restated Employment Agreement dated as of March 2, 2007, between Rebecca C. Matthias and the Company (Exhibit 10.1 to the Company's Current Report on Form 8-K dated March 8, 2007 (the "March 8, 2007 Form 8-K")).
*10.20	Second Amended and Restated Employment Agreement dated March 2, 2007, between Dan W. Matthias and the Company (Exhibit 10.2 to the March 8, 2007 Form 8-K).
*10.21	Supplemental Retirement Agreement dated as of March 2, 2007, between the Company and Rebecca C. Matthias (Exhibit 10.3 to the March 8, 2007 Form 8-K).
*10.22	Supplemental Retirement Agreement dated as of March 2, 2007, between the Company and Dan W. Matthias (Exhibit 10.4 to the March 8, 2007 Form 8-K).
*10.23	Term Loan and Security Agreement, dated March 13, 2007, among the Company and Cave Springs, Inc., each as a Borrower, and Mothers Work Canada, Inc., as a Guarantor, and Bank of America, N.A, as Term Administrative Agent and Term Collateral Agent, and Banc of America Securities LLC, as Sole Lead Arranger and Sole Book Runner (Exhibit 10.1 to the Company's Current Report on Form 8-K dated March 15, 2007 (the "March 15, 2007 Form 8-K)).
*10.24	Second Amended and Restated Loan and Security Agreement, dated March 13, 2007, among the Company and Cave Springs, Inc., each as a Borrower, and Mothers Work Canada, Inc., as a Guarantor, and Bank of America, N.A, as the Lender (Exhibit 10.2 to the March 15, 2007 Form 8-K).
*10.25	Second Amended and Restated Employment Agreement dated May 15, 2007 between Edward M. Krell and the Company (Exhibit 10.1 to the Company's Current Report on Form 8-K dated May 21, 2007).
*10.26	Separation, Transition and Release Agreement between David Mangini and the Company dated July 30, 2007 (Exhibit 10.1 to the Company's Current Report on Form 8-K dated July 30, 2007).

Edgar Filing: Destination Maternity Corp - Form 10-K

- *10.27 2005 Equity Incentive Plan (as amended in December 2007) (Exhibit 10.1 to the Company's Current Report on Form 8-K dated January 22, 2008 (the "January 22, 2008 Form 8-K").
- *10.28 Letter between the Company and Lisa Hendrickson (Exhibit 10.2 to the January 22, 2008 Form 8-K).
- *10.29 Employment Agreement dated January 18, 2008 between the Company and Lisa Hendrickson (Exhibit 10.3 to the January 22, 2008 Form 8-K).

F-1

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Destination Maternity Corporation:

We have audited the accompanying consolidated balance sheets of Destination Maternity Corporation (formerly Mothers Work, Inc.) and subsidiaries as of September 30, 2008 and 2007, and the related consolidated statements of operations, stockholders' equity and comprehensive income (loss) and cash flows for each of the years in the three-year period ended September 30, 2008. In connection with our audits of the consolidated financial statements, we also have audited the related financial statement schedule, Valuation and Qualifying Accounts. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Destination Maternity Corporation and subsidiaries as of September 30, 2008 and 2007, and the results of their operations and their cash flows for each of the years in the three-year period ended September 30, 2008, in conformity with U.S generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Destination Maternity Corporation's internal control over financial reporting as of September 30, 2008, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated December 15, 2008 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

F-6

DESTINATION MATERNITY CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. NATURE OF BUSINESS

Destination Maternity Corporation (formerly Mothers Work, Inc.) and subsidiaries (the "Company") is a specialty designer and retailer of maternity clothing. On December 8, 2008, the Company changed its corporate name from "Mothers Work, Inc." to "Destination Maternity Corporation." The name change was accomplished through the merger of a newly-formed, wholly-owned subsidiary, DM Newco, Inc., into Mothers Work, Inc. The Company operated 1,032 retail locations as of September 30, 2008, including 754 stores and 278 leased departments, throughout the United States and Canada. In addition, the Company markets maternity apparel at Kohl's® stores throughout the United States under an exclusive product and license agreement. The Company was incorporated in Delaware in 1982.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its direct and indirect wholly-owned subsidiaries of Cave Springs, Inc., Mothers Work Canada, Inc., Maternity Factory Warehouse Centre, Inc. (a wholly-owned subsidiary of Mothers Work Canada, Inc.), Mothers Work Services, Inc. and Confecciones Acona S.A. All significant intercompany transactions and accounts have been eliminated in consolidation.

b. Fiscal Year-End

The Company operates on a fiscal year ending September 30 of each year. All references to fiscal years of the Company refer to the fiscal years ended on September 30 in those years. For example, the Company's "fiscal 2008" ended on September 30, 2008.

c. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

d. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash in the bank and short-term investments with an original maturity of three months or less when purchased. Cash overdrafts of \$4,830,000 and \$3,306,000 were included in accounts payable as of September 30, 2008 and 2007, respectively.

The Company maintains cash accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses from maintaining cash accounts in excess of such limits. Management believes that it is not exposed to any significant credit risks on its cash accounts.

e. Investments

The Company's investments may be classified as either held-to-maturity or available-for-sale. Held-to-maturity securities are carried at amortized cost and represent those securities that the Company has both the intent and ability to hold to maturity. Available-for-sale securities are carried at fair value and are classified as such because these securities are not actively traded and do not meet the classification of held-to-maturity. Interest on investments, as well as amortization of discounts and

DESTINATION MATERNITY CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

premiums, is included in interest income. Unrealized gains and losses on available-for-sale securities are excluded from earnings and are reported as accumulated other comprehensive income (loss) until realized. When available-for-sale securities are sold, the cost of the securities is specifically identified and is used to determine the realized gain or loss.

f. Inventories

Inventories are valued at the lower of cost or market. Cost is determined by the "first-in, first-out" (FIFO) method. Inventories of goods manufactured by the Company include the cost of materials, freight, direct labor, and manufacturing and distribution overhead.

g. Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation and amortization are computed for financial reporting purposes on a straight-line basis, using service lives ranging principally from five to ten years for furniture and equipment and forty years for the building. Leasehold improvements are amortized using the straight-line method over the shorter of the lease term or their useful life. The cost of assets sold or retired and the related accumulated depreciation or amortization are removed from the accounts with any resulting gain or loss included in net income (loss). Maintenance and repairs are expensed as incurred except for the capitalization of major renewals and betterments that extend the life of the asset. Long-lived assets are reviewed for impairment whenever adverse events, or changes in circumstances or business climate indicate that the carrying value may not be recoverable. Factors used in the evaluation include, but are not limited to, management's plans for future operations, brand initiatives, recent operating results and projected cash flows. If the associated undiscounted cash flows are insufficient to support the recorded asset, an impairment loss is recognized to reduce the carrying value of the asset. The amount of the impairment loss is determined by comparing the discounted expected future cash flows with the carrying value.

During fiscal 2008, 2007 and 2006, the Company recorded impairment write-downs of property, plant and equipment totaling \$1,615,000, \$1,776,000 and \$2,578,000, respectively, on a pre-tax basis.

h. Goodwill and Intangible Assets

Goodwill represents the excess of cost over the fair value of net assets acquired in business combinations. Goodwill is reviewed for impairment at least annually or when events or changes in circumstances indicate the carrying value of the goodwill might exceed the fair value in accordance with Statement of Financial Accounting Standards ("SFAS") No. 142, "Goodwill and Other Intangible Assets." Management determined that the Company has one reporting unit for purposes of applying SFAS No.142 based on its reporting structure. The Company makes its assessment of impairment as of September 30 of each fiscal year. The fair value of the Company's single reporting unit at each measurement date is determined based on a combination of the fair market value of the Company's outstanding common stock on a control basis, a discounted cash flow analysis and other generally accepted valuation methodologies and, if necessary, an outside independent valuation is obtained to determine the fair value. As part of the Company's impairment analysis as of September 30, 2008, an outside independent valuation was obtained and the fair value of the Company's single reporting unit exceeded the carrying value.

Based on these assessments, no impairment loss was required to be recognized at any of the measurement dates. The Company plans to perform an annual assessment for goodwill impairment at

DESTINATION MATERNITY CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

the end of each fiscal year or as impairment indicators arise. If the fair market value of the Company's outstanding common stock on a control basis were to significantly decline on an other than temporary basis, the goodwill would likely be impaired.

Intangible assets with definite useful lives, which primarily consist of lease acquisition costs and patents, are amortized over the shorter of their useful life or, if applicable, the lease term. Management reviews the carrying amount of these intangible assets as impairment indicators arise, to assess the continued recoverability based on future undiscounted cash flows and operating results from the related asset, future asset utilization and changes in market conditions. During fiscal 2008, 2007 and 2006, the Company recorded write-downs of intangible assets totaling \$13,000, \$5,000 and \$34,000, respectively, on a pre-tax basis. The Company has not identified any indefinite-lived intangible assets. Aggregate amortization expense of intangible assets in fiscal 2008, 2007 and 2006 was \$119,000, \$153,000 and \$199,000, respectively.

Estimated amortization expense for the next five fiscal years is as follows (in thousands):

Fiscal Year	
2009	\$ 133
2010	83
2011	70
2012	62
2013	55

i. Interest Rate Derivatives

The Company mitigates a portion of its floating rate interest risk on variable rate long-term debt through an interest rate swap agreement. In accordance with SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" and SFAS No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities," the Company recognizes the derivative on the balance sheet at fair value. On the date the derivative instrument was entered into the Company designated it as a hedge of the variability of cash flows to be received or paid related to a recognized asset or liability ("cash flow hedge"). Changes in the fair value of a derivative that is designated as, and meets all the criteria for, a cash flow hedge are recorded in accumulated other comprehensive income (loss) and reclassified into earnings as the underlying hedged item affects earnings. The Company formally documents the relationship between hedging instruments and hedged items. The Company also formally assesses at the inception of the hedge and on a quarterly basis, whether the derivative is highly effective in offsetting changes in cash flows of the hedged item. Any portion of the change in fair value of the derivative associated with hedge ineffectiveness is included in current earnings. As of September 30, 2008 and for the year then ended, the Company's interest rate swap was determined to have no ineffectiveness.

j. Deferred Financing Costs

Deferred financing costs (see Note 9) are amortized to interest expense over the term of the related debt agreement. Amortization expense of deferred financing costs in fiscal 2008, 2007 and 2006 was \$246,000, \$437,000 and \$689,000, respectively. In connection with debt extinguishments, in fiscal 2008, 2007 and 2006 the Company wrote off \$97,000, \$2,173,000 and \$213,000 of unamortized deferred financing costs (see Note 9).

DESTINATION MATERNITY CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimated amortization expense of deferred financing costs for the next five fiscal years is as follows (in thousands):

Fiscal Year	
2009	\$ 236
2010	235
2011	234
2012	168
2013	56

k. Deferred Rent

Rent expense on operating leases, including rent holidays and scheduled rent increases, is recorded on a straight-line basis over the term of the lease commencing on the date the Company takes possession of the leased property, which is generally four to six weeks prior to a store's opening date. The net excess of rent expense over the actual cash paid has been recorded as deferred rent in the accompanying Consolidated Balance Sheets. Tenant improvement allowances received from landlords are also included in the accompanying Consolidated Balance Sheets as deferred rent liabilities and are amortized as a reduction of rent expense over the term of the lease from the possession date.

l. Treasury (Reacquired) Shares

Shares repurchased are retired and treated as authorized but unissued shares, with the cost in excess of par value of the reacquired shares charged to additional paid-in capital and the par value charged to common stock.

m. Fair Value of Financial Instruments

The carrying values of cash and cash equivalents, investments, trade receivables and accounts payable approximate fair value due to the short-term nature of those instruments. A substantial portion of the Company's long-term debt bears interest at variable rates, which adjust based on market conditions and the carrying value of the long-term debt approximates fair value. A portion of the Company's floating rate interest risk on variable rate long-term debt is mitigated through an interest rate swap agreement. As of September 30, 2008 and 2007, the estimated fair value of the interest rate swap was an unrealized loss of \$(1,404,000) and \$(480,000), respectively.

n. Revenue Recognition, Sales Returns and Allowances

Revenue is recognized at the point of sale for retail store sales, including leased department sales, or when merchandise is shipped to customers for licensed product, Internet and mail order sales. Allowances for returns are recorded as a reduction of revenue, based on the Company's historical experience. Revenues are recorded net of applicable sales taxes.

o. Other Revenues

Included in net sales are revenues earned by the Company through a variety of marketing partnership programs utilizing the Company's opt-in customer database and various in-store marketing initiatives, focused on baby and parent-related products and services.

DESTINATION MATERNITY CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p. Cost of Goods Sold

Cost of goods sold in the accompanying Consolidated Statements of Operations includes: merchandise costs (including customs duty expenses), expenses related to inventory shrinkage, product-related corporate expenses (including expenses related to payroll, benefit costs and operating expenses of the Company's buying departments), inventory reserves (including lower of cost or market reserves), inbound freight charges, purchasing and receiving costs, inspection costs, warehousing costs, internal transfer costs, and the other costs of the Company's distribution network.

q. Shipping and Handling Fees and Costs

The Company includes shipping and handling revenue earned from its catalog and e-commerce activities in net sales. Shipping and handling costs, which are included in cost of goods sold in the accompanying Consolidated Statements of Operations, include shipping supplies, related labor costs and third-party shipping costs.

r. Selling, General and Administrative Expenses

Selling, general and administrative expenses in the accompanying Consolidated Statements of Operations includes: advertising and marketing expenses, corporate administrative expenses, store expenses (including store payroll and store occupancy expenses), and store opening expenses.

s. Advertising Costs

The Company expenses the costs of advertising when the advertising occurs. Advertising expenses were \$9,279,000, \$8,887,000 and \$9,908,000 in fiscal 2008, 2007 and 2006, respectively.

t. Store Closing, Asset Impairment and Asset Disposal Expenses

Store closing expenses include lease termination fees, gains or losses on disposal of closed store assets and recognition of unamortized deferred rent. Asset impairment expenses represent losses recognized to reduce the carrying value of impaired long-lived assets. Asset disposal expenses represent gains or losses on disposal of assets other than in connection with store closings, including assets disposed from remodeling or relocation of stores.

u. Income Taxes

The Company utilizes the asset and liability method of accounting for income taxes as prescribed by SFAS No. 109, "Accounting for Income Taxes." Under this method, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities as well as from net operating loss carryforwards. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in operations in the period that includes the enactment date.

The Company adopted the provisions of Financial Accounting Standards Board ("FASB") Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes" effective as of October 1, 2007. Under FIN No. 48, recognition of a tax benefit occurs when a tax position is more-likely-than-not to be sustained upon examination, based solely on its technical merits. Derecognition of a previously recognized tax position would occur if it is subsequently determined that the tax position no longer meets the more-likely-than-not threshold of being sustained. FIN No. 48 also provided guidance on the

measurement of uncertain tax positions. The Company records interest and penalties related to unrecognized tax benefits in income tax provision (benefit).

v. Earnings per Share

Basic earnings per share ("Basic EPS") is computed by dividing net income (loss) by the weighted average number of common shares outstanding, excluding restricted stock awards for which the restrictions have not lapsed. Diluted earnings per share ("Diluted EPS") is computed by dividing net income (loss) by the weighted average number of common shares outstanding, after giving effect to the potential dilution, if applicable, from the assumed lapse of restrictions on restricted stock awards and from the exercise of securities, such as stock options and warrants, into shares of common stock as if those securities were exercised (see Note 12).

The following table summarizes those effects for the diluted earnings per share calculation (in thousands):

	Year Ended September 30,		
	2008	2007	2006
Average number of shares outstanding Basic	5,924	5,802	5,348
