PROXY STATEMENT
For the Annual Meeting of Stockholders to be Held On
May 21, 2013

GENERAL INFORMATION ABOUT ROCKWOOD'S ANNUAL MEETING

We are providing this proxy statement in connection with the solicitation of proxies by the board of directors of Rockwood Holdings, Inc. for use at Rockwood's 2013 annual meeting of stockholders and at any adjournment of the annual meeting. You are cordially invited to attend the annual meeting, which will be held at our offices located at 100 Overlook Center, Princeton, New Jersey 08540, on Tuesday, May 21, 2013 at 9:00 a.m. local time. For driving directions to our offices, please call (609) 514-0300.

Stockholders Entitled to Vote

The record date for the annual meeting is March 28, 2013. Only stockholders of record as of the close of business on that date are entitled to notice of, and to vote at, the annual meeting. As of March 28, 2013, there were 79,124,466 shares of common stock outstanding.

Required Vote

The presence in person or by proxy of the holders of a majority of the shares outstanding on the record date is necessary to constitute a quorum for the transaction of business at the meeting. Each stockholder is entitled to one vote, in person or by proxy, for each share of common stock held as of the record date on each matter to be voted upon. Abstentions and broker non-votes are included in determining whether a quorum is present. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary power with respect to that item and has not received instructions from the beneficial owner.

Directors will be elected by a plurality of the votes present in person or represented by proxy and entitled to vote in the election of directors at the annual meeting. Thus, an abstention or broker non-vote will have no effect on the outcome of the vote on election of directors at the annual meeting. Each of the other proposals requires the affirmative vote of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter. In determining the results of the proposal for ratification of the appointment of Deloitte & Touche LLP and the stockholder proposal relating to the vote required to elect directors, abstentions will have the same effect as a vote against the respective proposal. Broker non-votes will have no effect on the outcome of these proposals.

The vote on the proposal for the ratification of the appointment of Deloitte & Touche LLP is advisory in nature and is non-binding.

Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting to Be Held on May 21, 2013.

We have elected to provide access to our proxy materials both by sending you this full set of proxy materials, including a proxy card, and by notifying you of the availability of our proxy materials on the internet. **This proxy statement and our 2012 Annual Report to Stockholders are available at our website at http://www.rockwoodspecialties.com/rock_english/ir/irdownload.asp which may be moved to <http://www.rockwoodspecialties.com/english/ir/publications.php> at a later date. BOARD RECOMMENDATIONS AND APPROVAL REQUIREMENTS

Delaware law and Rockwood's certificate of incorporation and by-laws govern the vote on each proposal. The board of directors' recommendation is set forth together with the description of each item in this proxy statement. In summary, the board of directors' recommendations and approval requirements are:

**Proposal 1.
Election of Directors**

The first item to be voted on is the election of the two Class II directors listed herein to serve until their successors are duly elected and qualified. The board of directors has nominated two people as directors, each of whom is currently serving as a director of Rockwood.

You may find information about these nominees Seifi Ghasemi and Sheldon Erikson beginning on page 5.

You may vote in favor of both nominees, withhold your votes as to both nominees, or withhold your votes as to a specific nominee. Assuming a quorum is present, each share of common stock may be voted for as many nominees as there are directors to be elected. Directors will be elected by a plurality of the votes cast. Stockholders may not cumulate their votes. Abstentions and broker non-votes will have no effect on the outcome of the vote on election of directors at the annual meeting.

The board of directors unanimously recommends a vote FOR each director nominee listed herein.

**Proposal 2.
Ratification of Appointment of Independent Registered Public Accounting Firm**

The second item to be voted on is the ratification of the appointment of Deloitte & Touche LLP as Rockwood's independent registered public accounting firm for the fiscal year ending December 31, 2013.

You may find information about this proposal beginning on page 7.

You may vote in favor of the proposal, vote against the proposal, or abstain from voting. Assuming a quorum is present, the proposal will pass if approved by a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the matter. Abstentions will have the same effect as votes against the proposal. We believe that there can be no broker non-votes with respect to Proposal 2 because brokers should have discretion under current stock exchange rules to vote uninstructed shares on Proposal 2.

The board of directors unanimously recommends a vote FOR the ratification of the appointment of Deloitte & Touche LLP as Rockwood's independent registered public accounting firm.

**Proposal 3.
Stockholder Proposal Relating to the Vote Required to Elect Directors**

The third item to be voted on is a stockholder proposal relating to the vote required to elect directors, if presented at the annual meeting.

You may find information about this proposal beginning on page 7.

You may vote in favor of the proposal, vote against the proposal, or abstain from voting. Assuming a quorum is present, the proposal will pass if approved by a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the matter. Abstentions will have the same

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

effect as votes against the proposal and broker non-votes will have no effect on the vote on the proposal, as brokers are not permitted to vote uninstructed shares on this matter.

The board of directors unanimously recommends a vote AGAINST the stockholder proposal relating to the vote required to elect directors.

OTHER MATTERS TO COME BEFORE THE ANNUAL MEETING

As of the date of this proxy statement, the board of directors was not aware of any other business to be presented for a vote of the stockholders at the annual meeting. If any other matters are properly presented for a vote, the people named as proxies will have discretionary authority, to the extent permitted by law, to vote on such matters according to their best judgment.

PROXIES AND VOTING PROCEDURES

Your vote is important and you are encouraged to vote your shares promptly.

How Proxies are Voted

You may vote by completing and mailing the enclosed proxy card or by voting in person at the annual meeting. Mailed proxy cards must be received by May 20, 2013. Each proxy will be voted as directed. However, if a proxy solicited by the board of directors does not specify how it is to be voted, it will be voted as the board of directors recommends that is, FOR the election of the two nominees for Class II director named in this proxy statement, FOR the ratification of the appointment of Deloitte & Touche LLP as Rockwood's independent registered public accounting firm for the fiscal year ending December 31, 2013, and AGAINST the stockholder proposal relating to the vote required to elect directors. If any other matters are properly presented at the annual meeting for consideration, such as consideration of a motion to adjourn the annual meeting to another time or place, the persons named as proxies will have discretion to vote on those matters according to their best judgment to the same extent as the person delivering the proxy would be entitled to vote. As of the date of this proxy statement, we did not anticipate that any other matters would be raised at the annual meeting.

How to Revoke or Change Your Proxy

If you submit a proxy and then wish to change your vote or vote in person at the annual meeting, you will need to revoke the proxy that you have submitted. You can revoke your proxy at any time before it is voted by delivery of a properly executed, later-dated proxy or a written revocation of your proxy. A later-dated proxy or written revocation of your proxy must be received before the annual meeting by the Corporate Secretary of Rockwood, Thomas J. Riordan, at Rockwood Holdings, Inc., 100 Overlook Center, Princeton, New Jersey 08540, or it must be delivered to the Corporate Secretary at the annual meeting before proxies are voted. You will be able to change your proxy as many times as you wish prior to its being voted at the annual meeting, and the last proxy received chronologically will supersede any prior proxies.

Method and Cost of Proxy Solicitation

This proxy solicitation is being made on behalf of Rockwood and the expense of preparing, printing and mailing this proxy statement is being paid by us. Proxies may be solicited by officers, directors and employees of Rockwood in person, by mail, telephone, facsimile or other electronic means. We will not specifically compensate those persons for their solicitation activities. In accordance with the regulations of the SEC and the New York Stock Exchange ("NYSE"), we will reimburse brokerage firms and other custodians, nominees and fiduciaries for their expense incurred in sending proxies and proxy materials to beneficial owners of our common stock.

Stockholder Director Nominations and Proposals for the 2014 Annual Meeting

Pursuant to Rockwood's by-laws, stockholders may present director nominations and proposals that are proper subjects for consideration at an annual meeting. Rockwood's by-laws require all stockholders who intend to nominate persons for election to the board of directors or make proposals at an annual meeting to give timely notice thereof in writing to the Corporate Secretary of Rockwood, Thomas J. Riordan, at Rockwood Holdings, Inc., 100 Overlook Center, Princeton, New Jersey 08540. Our by-laws require advance notice by any stockholder who proposes director nominations or any other business for consideration at a stockholders' meeting. To be timely, notice to our Corporate Secretary must be received at the above address not less than 90 days nor more than 120 days prior to the first anniversary of the date on which Rockwood first mailed its proxy materials for the previous year's annual meeting, after which point a stockholder proposal will be considered untimely. In the event that the date of the 2014 annual meeting is changed by more than 30 days from the anniversary date of the previous year's meeting, stockholder notice must be so delivered not earlier than 120 days prior to the 2014 annual meeting and not later than the close of business on the later of the 90th day prior to the 2014 annual meeting or the 10th day following the day on which public announcement of the date of the 2014 annual meeting is first made. However, if the number of directors to be elected to the board of directors of Rockwood is increased and there is no public announcement by Rockwood naming all of the nominees for director or specifying the size of the increased board of directors at least 100 calendar days prior to the anniversary of the mailing of proxy materials for the prior year's annual meeting, then a stockholder notice only with respect to nominees for any new positions created by such increase must be received by the Corporate Secretary of Rockwood not later than the close of business on the 10th calendar day following such public announcement. Please refer to our by-laws for certain other related requirements.

If any stockholder wishes to propose a matter for consideration at our 2014 annual meeting of stockholders, the proposal should be mailed by certified mail, return receipt requested, to our Corporate Secretary at the address in the previous paragraph. To be eligible under the SEC's stockholder proposal rule (Rule 14a-8(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) for inclusion in our 2014 annual meeting proxy statement and form of proxy card, a proposal must be received by our Corporate Secretary on or before December 9, 2013.

**PROPOSAL ONE
ELECTION OF DIRECTORS**

The first agenda item to be voted on is the election of two Class II directors to serve until their successors are duly elected and qualified.

General Information

The board of directors currently consists of five directors, and is divided into three classes Class I, Class II and Class III. Directors are generally elected for three-year terms on a staggered term basis, so that each year the term of office of one class will expire and the terms of office of the other classes will extend for additional periods of one and two years, as applicable. The term of office for current Class II directors expires at the 2013 annual meeting. The term of office for Class III and Class I directors will expire at the 2014 and 2015 annual meeting of stockholders, respectively.

The full board of directors has considered and nominated this year's nominees to serve for a three-year term expiring at the 2016 annual meeting of stockholders. It is intended that the proxies delivered pursuant to this solicitation will be voted in favor of the election of the nominees designated below, except in cases of proxies bearing contrary instructions. We have inquired of the nominees and confirmed that they will serve if elected. If, for any reason, any nominee becomes unavailable for election and the board of directors selects a substitute nominee, the proxies will be voted for the substitute nominee selected by the board of directors. The board of directors has no reason to believe that any of the named nominees is not available or will not serve if elected.

The nominees are current directors of Rockwood, and a description of the background of each is set forth below. Immediately thereafter is a description of the background of each of the existing directors whose terms of office extend beyond the annual meeting.

**PROPOSAL TWO
RATIFICATION OF APPOINTMENT OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

The second agenda item to be voted on is the ratification of the appointment of Deloitte & Touche LLP as Rockwood's independent registered public accounting firm for the fiscal year ending December 31, 2013.

The audit committee of the board of directors has appointed Deloitte & Touche LLP to audit our consolidated financial statements for the fiscal year ending December 31, 2013. We are asking our stockholders to ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm. Deloitte & Touche LLP has been the independent registered public accounting firm of the Company since before our initial public offering in 2005.

Even if the appointment is ratified, the audit committee may in its discretion select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of Rockwood and our stockholders. If the appointment is not ratified by our stockholders, the audit committee will reconsider the appointment.

A representative of Deloitte & Touche LLP is expected to attend the annual meeting and be available to respond to appropriate questions. The representative will be afforded an opportunity to make a statement if he or she desires to do so.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE RATIFICATION OF THE APPOINTMENT OF DELOITTE & TOUCHE LLP AS ROCKWOOD'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2013.

**PROPOSAL THREE
STOCKHOLDER PROPOSAL RELATING TO THE VOTE
REQUIRED TO ELECT DIRECTORS**

There is one stockholder proposal included in this year's proxy statement for stockholder consideration, if properly presented at the annual meeting. It is submitted by the California State Teachers' Retirement System ("CalSTRS"), located at 100 Waterfront Place, MS-04, West Sacramento, California 95605. CalSTRS has advised the Company that it plans to introduce the following resolution at the annual meeting. We have been notified that CalSTRS is the beneficial owner of 235,219 shares of Rockwood's common stock as of November 27, 2012.

Director Election Majority Vote Standard Proposal

BE IT RESOLVED:

That the shareholders of Rockwood Holdings, Inc. hereby request that the Board of Directors initiate the appropriate process to amend the Company's articles of incorporation and/or bylaws to provide that director nominees shall be elected by the affirmative vote of the majority of votes cast at an annual meeting of shareholders, with a plurality vote standard retained for contested director elections, that is, when the number of director nominees exceeds the number of board seats.

SUPPORTING STATEMENT:

In order to provide shareholders a meaningful role in director elections, the Company's current director election standard should be changed from a plurality vote standard to a majority vote standard. The majority vote standard is the most appropriate voting standard for director elections where only

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

board nominated candidates are on the ballot, and it will establish a challenging vote standard for board nominees to improve the performance of individual directors and entire boards. Under the Company's current voting system, a nominee for the board can be elected with as little as a single affirmative vote, because "withheld" votes have no legal effect. A majority vote standard would require that a nominee receive a majority of the votes cast in order to be re-elected and continue to serve as a representative for the shareholders.

In response to strong shareholder support a substantial number of the nation's leading companies have adopted a majority vote standard in company bylaws or articles of incorporation. In fact, more than 80% of the companies in the S&P 500 have adopted majority voting for uncontested elections. We believe the Company needs to join the growing list of companies that have already adopted this standard.

CalSTRS is a long-term shareholder of the Company and we believe that accountability is of utmost importance. We believe the plurality vote standard currently in place at the Company completely disenfranchises shareholders and makes the shareholder's role in director elections meaningless. Majority voting in director elections will empower shareholders with the ability to remove poorly performing directors and increase the directors' accountability to the owners of the Company, its shareholders. In addition, those directors who receive the majority support from shareholders will know they have the backing of the very shareholders they represent. We therefore ask you to join us in requesting that the Board of directors promptly adopt the majority vote standard for director elections.

Please vote FOR this proposal.

Rockwood's Statement in Response

One of the primary strengths of Rockwood is the continuity of vision and strong performance that have resulted from the diligent and positive manner in which the directors have guided the Company. Rockwood stockholders have benefited from the outstanding leadership the board of directors has provided the Company since its initial public offering in 2005. Over this period through March 31, 2013, the Company has delivered an average annual return to stockholders of 17.29% versus the S&P 500's 5.57% percent return over a comparable period.

Unintended and Adverse Consequences. A failure to receive a majority approval could result in unintended and adverse consequences. For example, this standard could result in an insufficient number of independent directors being elected to satisfy the NYSE listing standards or securities laws' requirements. In such events, we could be incapable of taking important corporate action until the situation was resolved. In addition to potentially forcing the Company into technical noncompliance with listing standards, given the small size of the current board, a vacancy could force the remaining independent directors to be overburdened with committee service, as even the failure of the vote of one of our independent directors would leave the Company with only three remaining independent directors, all of whom would be required to serve on each of the three standing committees: the audit, compensation and corporate governance and nominating committees. Further, the implementation of a majority voting standard may increase Rockwood's costs in connection with its annual meetings. Rockwood may be required to take additional actions, such as conducting telephone solicitation campaigns, second mailings or other vote-getting strategies, to obtain the required vote to elect directors, all of which would result in increased spending for routine elections. The board believes these expenditures would be a poor use of Rockwood and stockholder resources.

Uncertainty of Application. The rules governing plurality voting are well understood by stockholders. In plurality voting for the election of directors, the nominees with the most votes are elected. By contrast, in a majority voting system, the result is uncertain if one or more of the director nominees fails to receive a majority of the votes cast. Further, the Shareholder Proposal

does not address what would occur if the candidate fails to receive the requisite majority vote. Under Delaware law and Rockwood's Bylaws, the possible scenarios include an incumbent director remaining in office until a successor is elected and qualified, the board electing a director to fill the vacancy, or the position remaining vacant. Accordingly, if the proposal were adopted, stockholders would have no greater assurance that the person selected to fill the position would be any more satisfactory than the person who failed to receive the majority vote or the board could have vacancies for an indefinite period of time. All of these alternatives, in the view of the board, are less desirable than the ability of the board to address a low approval rating for an individual director, should that circumstance arise.

Thorough Process. The Company's corporate governance and nominating committee has a thorough and proven director selection process to identify strong nominees committed to serving the Company and its stockholders. Currently, with the exception of the Chairman and Chief Executive Officer, all directors are independent as defined under the NYSE listing standards. Withhold votes allow stockholders to express their views in a meaningful way without affecting our fundamental governance structure or limiting the flexibility that is necessary for the board to act efficiently. Stockholders should not underestimate the impact that a significant withhold vote would have under our current plurality vote standard. If one or more of our directors were to receive a significant withhold vote in an election, the board would take that into consideration in determining whether such directors should be re-nominated for election. In addition, stockholders are always free to express any concerns directly to the independent members of the board through the communication procedures described under "Corporate Governance and Related Matters Director Candidate Recommendations by Stockholders" in this Proxy Statement.

The Company has an excellent history of electing board directors by a substantial majority. In the past three years, every director nominee has received an affirmative vote greater than 94 percent of the shares voted through the plurality process. The proponent's statement that a director may be elected by a single vote is improbable especially in light of the Company's past voting results. In fact, the adoption of a majority voting standard would not have affected the outcome of the election of directors in any of the years since Rockwood has been a public company. The Company's stockholders have an excellent history of electing strong and independent directors by plurality voting.

Lack of Consensus Regarding Majority Voting: In light of the uncertainties described above, the legal community, shareholder advocates, governance experts, public companies and other groups are still debating whether the purported benefits of such a standard outweigh the risks and are considering how to deal with the practical difficulties of implementing a majority voting standard. The discussions surrounding the adoption of the Dodd-Frank Act, for example, included discussions about whether majority voting should be made mandatory for all public companies. Congress did not, however, mandate majority voting as part of the Dodd-Frank Act, supporting our view that concerns and questions regarding majority voting remains.

For the reasons stated above, the board believes electing directors under a plurality vote process is best for the ongoing success of the Company and its stockholders.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE "AGAINST" THE STOCKHOLDER PROPOSAL RELATING TO THE VOTE REQUIRED TO ELECT DIRECTORS.

OTHER MATTERS

As of the date of this proxy statement, we know of no business that will be presented for consideration at the annual meeting other than the items referred to above. If any other matter is

properly brought before the annual meeting for action by stockholders, proxies in the enclosed form returned to Rockwood will be voted in accordance with the recommendation of the board of directors, or in the absence of such a recommendation, in accordance with the judgment of the proxy holder.

CORPORATE GOVERNANCE AND RELATED MATTERS

Director Independence

Currently, in accordance with NYSE rules, the audit, the compensation, and the corporate governance and nominating committees are each comprised entirely of independent directors. The board of directors has determined that Nance K. Dicciani, Sheldon R. Erikson, Douglas L. Maine and J. Kent Masters are independent directors within the meaning of applicable NYSE listing standards and the applicable provisions of the Exchange Act.

When making "independence" determinations, the board of directors broadly considers all relevant facts and circumstances as well as any other facts and considerations specified by the NYSE, our by-laws or by any rule or regulation of any other regulatory body or self-regulatory body applicable to Rockwood. When assessing the materiality of a director's relationship with Rockwood, the board of directors considers the issue not merely from the standpoint of the director, but also from that of persons or organizations with which the director has an affiliation. The board of directors has adopted categorical standards designed to assist them in assessing director independence. The categorical standards can be found in the Company's Corporate Governance Guidelines, which are available on our website at www.rocksp.com in the "Investor Downloads Corporate Governance" section. The categorical standards set forth certain relationships between the Company and the directors and their immediate family members, or entities with which they are affiliated, that the board of directors, in its judgment, has determined to be material or immaterial in assessing director independence. The Company's Corporate Governance Guidelines and the categorical standards have been designed to align with the independence standards of the NYSE.

The board of directors has determined that the following relationships will not be considered material relationships that would impair a director's independence:

the director beneficially owns, or is an employee or affiliate of another company or entity that beneficially owns, less than 10% of Rockwood's common stock;

the director is a current employee or an immediate family member of the director is a current executive officer of another company that makes payments to or receives payments from Rockwood for property or services in an amount which does not exceed and has not for each of the last three years exceeded the greater of \$1,000,000 or 2% of the consolidated gross revenues of such other company; and

the director serves as an executive officer, director or trustee of a tax exempt organization, and Rockwood's contributions to such tax exempt organization do not exceed and have not for each of the last three years exceeded the greater of \$1,000,000 or 2% of such tax exempt organization's consolidated gross revenues.

On an annual basis, each member of the board of directors is required to complete a questionnaire designed in part to provide information to assist the board of directors in determining whether the director is independent under NYSE rules and our Corporate Governance Guidelines. In addition, the directors or potential directors have an affirmative duty to disclose to our corporate governance and nominating committee relationships which may impair their independence.

Our corporate governance and nominating committee reviews all relationships and transactions for compliance with the standards described above and makes a recommendation to the board of directors regarding the independence of the directors of the Company. For those directors identified as

independent, the Company and the board of directors are aware of no relationships or transactions with the Company or management.

Meetings of the Board of Directors

The board of directors is required to meet at least four times annually or more frequently as circumstances dictate. The board of directors met seven times in 2012, either in person or by telephone. All directors are expected to participate whether in person or by telephone in all meetings of the board of directors. Each incumbent director attended 100% of all board of directors meetings and at least 78% of all applicable committee meetings during 2012. All directors attended the 2012 annual meeting of stockholders held on May 18, 2012. We expect all directors to attend the annual meeting of stockholders.

Board Role in Risk Management

Rockwood is exposed to a number of risks, including geo-political risks, financial risks, strategic risks, operational risks, risks relating to general economic conditions and their effect on certain industries, and risks relating to regulatory and legal compliance. The board of directors oversees the company-wide risk management function of the Company with the assistance of the audit committee, the corporate governance and nominating committee, the compensation committee and a risk management committee comprised of a group of management employees from various functional groups. The senior executives manage and mitigate, to the extent possible, material risks on a day-to-day basis. The roles of each of these director and management committees are as follows:

Audit Committee the audit committee of the board of directors is generally responsible for oversight of the system of compiling and reporting risk and the oversight of material financial risk exposures;

Corporate Governance and Nominating Committee the corporate governance and nominating committee of the board of directors is generally responsible for the oversight of certain other material risk exposures, such as compliance risk and safety, health and environmental risk;

Compensation Committee the compensation committee of the board of directors is responsible for the compensation policies and programs and how they relate to risk; and

Risk Management Committee the risk management committee, which is comprised of members of the management team of the Company with backgrounds in finance, operations, legal, regulatory and safety, health and environmental compliance, is responsible for developing an ongoing enterprise risk management system to identify, collect, compile and assess significant exposures. The risk management committee reports directly to the senior executives on a regular basis about the nature of significant risks and, if possible, makes recommendations to manage and mitigate such risks. The risk management committee periodically, or as appropriate, reports material risks to the audit committee, the corporate governance and nominating committee and the board of directors.

Each of these committees along with the senior executives is responsible for periodically reporting to the board of directors the material risks facing the Company and highlighting any new material risks that may have arisen since they last met.

Audit Committee

Our audit committee currently consists of Nance K. Dicciani, Douglas L. Maine and J. Kent Masters. Mr. Maine is the chairperson of our audit committee. The board of directors has determined that all of the members of the audit committee are financially literate and meet the independence requirements mandated by the applicable NYSE listing standards, Section 10A(m)(3) of the Exchange

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

Act and our independence standards and that Mr. Maine is an audit committee financial expert. Our audit committee is responsible for:

oversight of the quality and integrity of the Company's financial statements and financial disclosures;

oversight of the financial reporting process;

oversight of the independent auditors' retention/termination, qualifications and independence;

oversight of the Company's internal audit function and the risk management reporting process;

oversight of the Company's compliance with legal and regulatory requirements;

preparing reports to be included in the Company's proxy statement and reporting regularly to the board of directors; and

performing any functions required to be performed by it and as otherwise appropriate under applicable law, rules or regulations, the Company's by-laws and the resolutions or other directives of the board of directors, including review of any certification required to be reviewed in accordance with applicable law or regulations of the SEC.

In fulfilling its responsibilities, the audit committee periodically meets separately in executive session with the managing partner of the audit team from the independent registered public accounting firm, Deloitte & Touche LLP, and the management employee responsible for the internal audit function.

The audit committee has adopted a formal policy concerning the pre-approval of audit and non-audit services to be provided by our independent registered public accounting firm. The policy requires that all services to be performed by Deloitte & Touche LLP and its affiliates, including audit services, audit-related services and permitted non-audit services, be pre-approved by the audit committee. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to the particular service or category of services and is subject to a budget. Specific services being provided by the independent accountants are regularly reviewed in accordance with the pre-approval policy and the audit committee may pre-approve particular services on a case-by-case basis. The audit committee has delegated the authority to grant pre-approvals to Mr. Maine, the audit committee chair, when the full audit committee is unable to do so. At each subsequent audit committee meeting, the audit committee reviews these pre-approvals, receives updates on the services actually provided by the independent accountants, and management may present additional services for approval. For 2012, the audit committee pre-approved all audit, audit-related and non-audit services performed by Deloitte & Touche LLP. The audit committee considers the impact of fees for non-audit services on the independence of Deloitte & Touche LLP.

Our audit committee is required to meet at least four times annually or more frequently as circumstances dictate. The committee met nine times in 2012.

Our board of directors has adopted a written charter for the audit committee, which is available on our website at www.rocksp.com in the "Investor Downloads Corporate Governance" section, and upon written request by our stockholders at no cost.

Audit Committee Report

The audit committee reviews Rockwood's financial reporting process on behalf of the board of directors. Management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls. The independent registered public accounting firm is responsible for expressing an opinion on those audited consolidated financial statements in conformity with accounting principles generally accepted in the United States.

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

In fulfilling its responsibilities, the audit committee has reviewed and discussed the audited consolidated financial statements contained in Rockwood's Annual Report on Form 10-K for the year ended December 31, 2012 with Rockwood's management and independent registered public accounting firm. The audit committee has also discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (*AICPA, Professional Standards*, Vol. 1. AU Section 380), as adopted by the Public Company Accounting Oversight Board ("PCAOB") in Rule 3200T, including the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of the disclosures in the financial statements. In addition, the audit committee reviewed and discussed with the independent registered public accounting firm the auditor's independence from Rockwood and its management, including the matters in the written disclosures and letter which were received by the audit committee from the independent registered public accounting firm, as required by applicable requirements of the PCAOB regarding the independent registered public accounting firm's communications with the audit committee concerning independence.

Based on the reviews and discussions referred to above, the audit committee approved the audited consolidated financial statements and recommended to the board of directors that they be included in Rockwood's Annual Report on Form 10-K for the year ended December 31, 2012 for filing with the SEC. The audit committee has also appointed Deloitte & Touche LLP as Rockwood's independent registered public accounting firm and is presenting its appointment to the stockholders for ratification.

The preceding audit committee report is provided only for the purpose of this proxy statement. This report shall not be incorporated, in whole or in part, in any other Rockwood filing under the Securities Act of 1933, as amended, or the Exchange Act.

Compensation Committee

The compensation committee (the "Committee") currently consists of Nance K. Dicciani, Sheldon R. Erikson and J. Kent Masters. Mr. Erikson is the chairperson of the Committee. The Committee is comprised solely of independent directors.

The Committee is responsible for:

establishing and reviewing our overall compensation philosophy;

reviewing compensation policies, plans and programs and how they relate to risk;

reviewing and approving the compensation and performance review of our chief executive officer and other executive officers;

reviewing and recommending to the board of directors the compensation of our directors;

reviewing and approving employment contracts and other similar arrangements between us and our chief executive officer and other executive officers;

reviewing and consulting with the chairman and chief executive officer on the selection of officers and evaluation of executive performance and other related matters;

administration of equity plans and other incentive compensation plans; and

such other matters that are specifically delegated to the Committee by the board of directors from time to time.

The Committee may form one or more subcommittees. The Committee shall be entitled to delegate any or all of its responsibilities to any subcommittee of the Committee and each subcommittee may take such actions as may be delegated by the Committee.

The Committee is required to meet at least two times annually, or more frequently, as circumstances dictate. The Committee met seven times in 2012.

Our board of directors has adopted a written charter for the Committee which is available on our website at www.rocksp.com in the "Investor Downloads Corporate Governance" section, and upon written request by our stockholders at no cost.

The Committee reviews and approves our executive compensation program on an annual basis. The Committee has sole discretion and adequate funding to engage consultants in connection with compensation-related matters. In 2012, the Committee retained the firm of Frederic W. Cook & Co., Inc. ("Cook & Co."), an internationally recognized human resources consultant to assist the Committee in evaluating the compensation of our directors, named executive officers and certain key employees and to assess our compensation program against other companies in our industry and related industries. In connection with its review, Cook & Co. generally evaluated the following elements of our compensation program:

current compensation program for our named executive officers including base salary, annual and long-term incentives, benefits and perquisites and stock ownership guidelines;

a competitive analysis of compensation levels for the Company's eight most senior executives including base salary, annual bonus and long-term incentives;

an assessment of share usage and overhang at Rockwood relative to the current and 3-year average levels among the peer group;

an analysis of the aggregate value of Rockwood's long-term incentive grants on an absolute basis and as a percent of market capitalization and revenue, relative to the current and 3-year average levels among the peer group;

pay for performance alignment; and

the compensation of our board of directors.

Cook & Co. compared these elements of compensation for our named executive officers to our peer group. Cook & Co. also compiled and presented published survey data, which is used as a broader industry reference for compensation of general industrial organizations. This data reflected industry information for functionally comparable positions at organizations of similar size to Rockwood and was referenced by the Committee as general information in evaluating compensation. Specifically, Cook & Co. provided data for public companies of comparable business character and size, including companies in the chemical industry, that include Air Products and Chemicals, Inc., Albemarle Corporation, Cabot Corporation, Celanese Corporation, Cytec Industries Inc., Eastman Chemical Company, FMC Corporation, RPM International Inc., Sigma-Aldrich Corporation, W.R. Grace & Co. and The Valspar Corporation. In addition, Cook & Co. compared the compensation of our named executive officers to published compensation survey data for similar executive job descriptions. Finally, Cook & Co. evaluated the compensation of our non-employee directors. After considering the relevant factors, we determined that no conflicts of interest have been raised in connection with the services Cook & Co. performed for the Company in 2012. In 2012, Rockwood paid Cook & Co. \$90,059 for

assessing the amount and form of compensation for our non-employee directors, named executive officers and certain other key executives.

The Committee sets the primary components of compensation for our chairman and chief executive officer based on our overall compensation philosophy and following consultation with Cook & Co. For compensation decisions related to our other named executive officers and key employees, our chairman and chief executive officer makes recommendations to the Committee which, in consultation with Cook & Co., ultimately determines such compensation.

Risk Analysis of Performance-Based Compensation Plans

The vast majority of compensation provided to our named executive officers and key employees is performance-based variable compensation. Our compensation programs encourage our named executive officers and key employees to remain focused on both short- and long-term financial measures. In recent years, under our 2009 Stock Incentive Plan, our equity awards have been, in part, performance-based restricted stock unit awards which vest based on total and relative stockholder return. In addition, the nature of stock option, market stock unit and restricted stock unit awards generally encourage our named executive officers and key employees to focus on sustained stock price appreciation. Similarly, in most years under the 2009 Rockwood Holdings, Inc. Short-Term Incentive Plan ("Short-Term Incentive Plan"), the performance targets measure our financial performance against annual budget targets for earnings before interest, taxes, depreciation and amortization and certain other adjustments ("Adjusted EBITDA"), as more fully described under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations - Definition of Adjusted EBITDA", of Rockwood's Form 10-K for the fiscal year ending December 31, 2012, and working capital and focus primarily on short-term financial measures. Accordingly, we believe the mix of compensation is such that it does not encourage excessive risk taking. Rockwood also has stock ownership guidelines that require long-term equity ownership by senior executives and "claw-back" provisions related to our annual cash incentive and recent long-term incentive grants that discourage excessive risk taking.

Compensation Committee Report

The Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on its review and discussion with management, the Committee recommended to the board of directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

COMPENSATION COMMITTEE

Sheldon R. Erikson, Chairperson
Nance K. Dicciani
J. Kent Masters

Compensation Committee Interlocks and Insider Participation

The compensation levels of our executive officers are currently determined by the Committee as described in this proxy statement. None of our executive officers currently serves or has served as a director or member of the compensation committee, or other committee serving an equivalent function, of any entity of which an executive officer currently serves or is expected to serve as a director or a member of the Committee.

Corporate Governance and Nominating Committee

Our corporate governance and nominating committee currently consists of Nance K. Dicciani, Sheldon R. Erikson, and Douglas L. Maine. Dr. Dicciani is the chairperson. The corporate governance and nominating committee is comprised solely of independent directors.

The corporate governance and nominating committee is responsible for:

developing corporate governance guidelines;

developing and recommending criteria for selecting new directors;

overseeing the evaluation of the board of directors and individual board members;

reviewing and evaluating succession plans, including screening and recommending to the board of directors individuals qualified to become executive officers;

overseeing and approving the management continuity planning process;

overseeing certain material risk exposures, such as compliance and safety, health and environmental risk; and

handling such other matters that are specifically delegated to the corporate governance and nominating committee by the board of directors from time to time.

In nominating candidates to serve as directors, the board of directors' objective, with the assistance of the corporate governance and nominating committee, is to select individuals whose particular experience, qualifications, attributes and skills can be of assistance to management in operating our business and enable the board of directors to satisfy its oversight responsibility effectively. In identifying prospective director candidates, the corporate governance and nominating committee may seek referrals from other members of the board of directors, management, stockholders and other sources. When evaluating the recommendations of the corporate governance and nominating committee, the board of directors considers, among other things, whether individual directors possess the following personal characteristics: high ethical standards, integrity, accountability, informed judgment, financial literacy, mature confidence and high performance standards. The board of directors believes that, as a whole, it should possess all of the following core competencies, with each candidate contributing knowledge, experience and skills in at least one domain: accounting and finance, business judgment, management, industry knowledge, leadership, international business experience and strategic vision. In addition, although the board of directors does not have a policy with regard to the consideration of diversity in identifying director nominees, among the many factors that the corporate governance and nominating committee carefully considers, are the benefits to the Company of national origin, gender, race, global business experience and cultural diversity in board composition.

When considering whether the directors and nominees have the experience, qualifications, attributes and skills, taken as a whole, to enable the board of directors to satisfy its oversight responsibilities effectively in light of the Company's business and structure, the board of directors focused primarily on the information discussed in each of the board members' biographical information set forth on pages 5 to 6. In addition, the corporate governance and nominating committee considered the following characteristics about each director:

Seifi Ghasemi Mr. Ghasemi's extensive business and strategic experience as a Chairman and CEO of Rockwood and other industrial companies, serving on the board of directors of another public corporation and strong technical and financial background leads the Company to conclude that he should be re-elected as a director of Rockwood;

Sheldon R. Erikson Mr. Erikson's long-term experience as a Chairman and CEO of industrial companies leads the Company to conclude that he should be re-elected as a director of Rockwood;

Douglas L. Maine Mr. Maine's extensive financial background, management experience with a large global company, and serving as a director of two other public companies leads the Company to conclude that he should continue to serve as a director of Rockwood;

Nance K. Dicciani Dr. Dicciani's experience as chief executive of specialty chemicals and materials businesses of large global public chemical companies and strong technical background leads the Company to conclude that she should continue to serve as a director of Rockwood; and

J. Kent Masters Mr. Masters' experience in strategic and operational leadership roles for global industrial companies leads the Company to conclude that he should continue to serve as a director of Rockwood.

For a description of the procedures for stockholders to submit proposals regarding director nominations, see "Director Candidate Recommendations by Stockholders" below.

Our corporate governance and nominating committee is required to meet at least two times annually or more frequently as circumstances dictate. Our corporate governance and nominating committee met four times in 2012.

Our board of directors has adopted a written charter for the corporate governance and nominating committee which is available on our website at www.rocksp.com in the "Investor Downloads Corporate Governance" section, and upon written request by our stockholders at no cost.

Board Structure

The board of directors has reviewed the board leadership structure of Rockwood and determined that the combined role of Chairman and Chief Executive Officer is appropriate in light of, among other things, the market capitalization and size of the Company. Mr. Ghasemi's leadership abilities, as exemplified by his ability to transform the Company, and his other accomplishments since joining Rockwood makes him qualified to fill both positions. Our Corporate Governance Guidelines require the independent directors of the board of directors to elect a lead independent director when the roles of Chairman and Chief Executive Officer are combined. Such lead independent director will be elected annually by plurality vote of the independent directors at the meeting of the board of directors immediately following the annual meeting of stockholders. Although elected for a term of one year, the lead director is generally expected to serve for more than one year. Generally, no independent director may serve as a lead director for more than five consecutive years. The lead independent director is responsible for:

presiding at all non-management executive sessions;

presiding over all meetings of the board of directors at which the Chairman is not present;

communicating to the CEO, together with the Chairperson of the Compensation Committee, the results of the board of director's evaluation of the CEO's performance;

collaborating with the CEO on the agenda for meetings of the board of directors and the need for special meetings;

servicing as a liaison for stockholders who request direct communication with the board of directors; and

recommending, with committee chairpersons, to the board of directors the retention of consultants and advisors.

Our independent directors elected Nance K. Dicciani to serve as lead independent director and she has been serving since October 2009.

Presiding Director of Non-Management Executive Sessions

As described above, the board of directors has determined that at each executive session of non-management members of the board of directors, the lead independent director will preside at such session, and in the absence of the lead independent director, the non-management members in attendance will determine which member will preside at such session.

Corporate Governance Guidelines

The board of directors has adopted Corporate Governance Guidelines which set forth the board of directors' core principles of corporate governance and categorical standards of independence and are designed to promote its effective functioning and assist the board of directors in fulfilling its responsibilities. The board of directors will review and amend these guidelines from time to time as it deems necessary and appropriate. The Corporate Governance Guidelines are available on our website at www.rocksp.com in the "Investor Downloads Corporate Governance" section, and upon written request by our stockholders at no cost.

Codes of Business Conduct and Ethics

We are committed to conducting business in accordance with the highest ethical standards and all applicable laws, rules and regulations. We have adopted a Code of Business Conduct and Ethics that applies to our employees, executive officers and directors and provide training on such Code of Business Conduct and Ethics and other compliance issues. In addition, we have adopted a Code of Ethics for Executive Officers and Financial Officers that applies to our executive officers and our financial officers. In accordance with, and to the extent required by, the rules and regulations of the SEC, we intend to post on our website at www.rocksp.com waivers or implicit waivers (as such terms are defined in Item 5.05 of Form 8-K of the Exchange Act) and amendments to the Code of Business Conduct and Ethics and the Code of Ethics for Executive Officers and Financial Officers that apply to any of our executive officers, including our chairman and chief executive officer, senior vice president and chief financial officer, senior vice president, law & administration and vice president corporate finance and principal accounting officer or other persons performing similar functions. Both codes are available on our website at www.rocksp.com in the "Investor Downloads Codes of Conduct" section, and upon written request by our stockholders at no cost.

Director Candidate Recommendations by Stockholders

The corporate governance and nominating committee has adopted policies and procedures for director candidate recommendations by stockholders. The corporate governance and nominating committee will consider candidates recommended by stockholders in the same manner as candidates recommended to, or identified by, the corporate governance and nominating committee through other sources. Acceptance of a recommendation does not imply, however, that the committee will nominate the recommended candidate.

Each recommendation should be accompanied by certain information relating to the stockholder making such recommendation, including, among other things, the full name and address of the stockholder and beneficial owner and information about the stock ownership and intentions of the recommending stockholder regarding the solicitation of proxies, as well as information concerning the recommended candidate, including the name, address and relevant qualifications of the recommended candidate, as well as a description of arrangements with respect to the nomination, if any, involving or affecting the recommending stockholder or beneficial owner and/or their respective affiliates. However, where the number of directors to be elected to the board of directors of the Company at an annual meeting is increased and there is no public announcement by the Company at least one hundred (100) days prior to the Anniversary Date, then the Director Recommendation Form shall be considered timely with respect to nominees for new positions if received by the Secretary of the Company within ten (10) calendar days following the Company's public announcement of such increase.

- (1) We also reimburse our directors for travel, education and other expenses incurred in connection with service on the board of directors.
- (2) The lead independent director does not receive additional compensation for serving in such capacity.

In 2010, the Committee retained Cook & Co. to assist the Committee in evaluating the compensation of our non-employee directors against a similar peer group utilized in Cook & Co.'s study of our executive compensation program, which is described below under "Executive Compensation Compensation Discussion and Analysis." Cook & Co.'s evaluation found that our non-employee director cash compensation is below the median in our peer group and equity compensation equates with the peer median. Accordingly, effective January 1, 2011, the Committee increased the cash compensation to our non-employee directors to \$65,000 per year based upon a recommendation from Cook & Co. The Committee continues to believe that this revised mix of cash-based and equity-based non-employee director compensation best serves Rockwood because it aligns the interests of our non-employee directors with the interests of our stockholders and allows us to be competitive in a tight market for the services of qualified non-employee directors. In addition, the Committee, with assistance from Cook & Co., established our stock ownership guidelines for our independent directors. According to these guidelines, each independent director is required to own at least four times the annual cash compensation paid to such director by the Company. For the purposes of compliance with the guidelines, the value of the common stock owned is based upon an average of the last three months of the previous fiscal year's month-end closing stock prices determined in January of each year. Each independent director is currently in compliance with these guidelines.

Compensation Overview

In our most recent say-on-pay vote, at our 2011 Annual Meeting of Stockholders, more than 98% of the votes cast approved the compensation of our named executive officers as described in our proxy statement for such meeting.

Our compensation program is designed to attract, motivate and retain highly qualified and talented professionals by providing compensation that is competitive with comparable employers and that aligns management's incentives with the interests of our stockholders.

To achieve these objectives, our senior management compensation is comprised of three main components: fixed annual cash compensation through salaries; variable annual cash compensation through incentives tied to our short-term financial performance (primarily measured by Adjusted EBITDA and relative net working capital) and long-term equity compensation tied to share price appreciation, absolute and relative shareholder return and continued employment.

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

The Committee has structured our compensation program such that a very substantial portion of our named executive officers' total compensation (more than 80% for our chairman and chief executive officer and more than 70% for our other named executive officers at target compensation) is based upon the concept of pay for performance and is thus directly tied to our short-term and long-term performance.

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

In addition, the Committee has adopted several positive pay practices, such as stock ownership guidelines, compensation recovery claw-backs, restrictions on hedging and pledging, prohibition on re-pricing of underwater stock options without shareholder approval, and in 2010, eliminated tax gross-ups on all benefits except for those related to change in control provisions granted in 2001 under grandfathered agreements with our named executive officers. The Committee does not intend to award tax gross-ups in the future.

In 2012, the Committee again retained Cook & Co. to assist the Committee in evaluating the total compensation of our named executive officers and to benchmark the compensation of our named executive officers and other key executives against those at other companies in our industry and related industries.

The Committee sets base salaries for our named executive officers between the median and 75th percentile, except for our chairman and chief executive officer, and has a compensation philosophy of targeting total compensation (base salaries, variable cash incentives at target and equity awards at target) in the range of the 75th percentile of total compensation for our peer group and related industries.

2012 and 2013 Compensation Overview

Our named executive officers have not received any increase in their base salaries since 2008. However, effective April 2013, our senior vice president and chief financial officer and senior vice president law and administration received a 5.5% increase in their base salaries.

In 2012, the targeted annual cash incentives for our named executive officers were not changed. Our financial performance in 2012 did not result in any payout under annual cash incentive awards to our named executive officers.

The 2013 target annual cash incentive for our named executive officers will not be increased and will remain the same as 2012. The annual cash incentive plan has a maximum payout of 300% of target.

In 2012, the Committee, with the assistance of Cook & Co., evaluated our equity award structure and retained the prior year's structure for our long-term incentive program. The 2012 equity award program consists of performance-based market stock units, which vest based upon the performance of our common stock over a three-year period, and performance-based restricted stock units, which vest based upon our total stockholder return as compared to the group of chemical companies comprising the Dow Jones U.S. Chemicals Index over a three-year period. The ultimate value of these awards is impacted by changes in the price of our common stock and thus ties long-term compensation directly to changes in stockholder value.

In late 2012, the Compensation Committee, after consultation with Cook & Co., increased the grant date value of the awards to our named executive officers, excluding our chairman and chief executive officer. By using performance-based restricted stock units and market stock units, we believe that our long-term compensation approach aligns the interests of both senior management and stockholders by tying equity compensation solely to our stock performance.

General Philosophy and Objectives

We compensate our senior management in a manner designed to be competitive with our peer group and comparable companies in related industries and to align management's incentives with the interests of our stockholders. The objectives of our executive compensation program are:

to attract and retain highly qualified and talented professionals;

to motivate our senior management to drive our short-and long-term financial performance;

to align the interests of our senior management with the interests of our stockholders; and

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

to support our business goals and our vision of creating a dynamic company that delivers value and growth to our stockholders.

To achieve these objectives, compensation for our senior management is allocated between base salary, short-term variable compensation tied to short-term performance measures and long-term variable compensation tied to long-term performance of our common stock. The Committee generally targets total compensation for our named executive officers to fall within the range of the 75th percentile of total compensation for our peer group and comparable companies in related industries.

Compensation Review

In order to ensure that our senior management's compensation is competitive within our industry, the Committee reviews and approves our executive compensation program on an annual basis. In 2012, the Committee retained Cook & Co. to assist in evaluating the compensation of our executive officers and certain key employees and to assess our compensation program against other companies in our industry and related industries. In connection with its review, Cook & Co. evaluated the following elements of our executive compensation program:

total compensation and each of the three components: base salary, annual cash incentives and targets and long-term equity-based incentives and targets;

total pay mix (base salary vs. annual cash incentives vs. long-term equity-based incentives);

pay and performance relationship;

executive benefits and perquisites; and

stock ownership guidelines.

Cook & Co. compared these components of compensation for our named executive officers to our peer group. In addition, Cook & Co. compiled and presented published survey data, which is used as a broader industry reference for compensation by general industry. These data reflected industry information for functionally comparable positions at organizations of similar size to Rockwood and was referenced by the Committee as general information in evaluating our named executive officers' compensation.

Specifically, in 2012, to assist the Committee's review, Cook & Co. provided data from a peer group of eleven companies that was designed to reflect the compensation practices for public companies of comparable business character and size, including companies in the chemicals industry. The peer group generally consists of specialty chemicals and materials companies with characteristics at the time of evaluation including:

revenue ranging from approximately \$2.0 billion to \$9.6 billion for the most recently reported four quarters;

net (loss) income ranging from approximately (\$77) million to \$999 million for the most recently reported four quarters;

total assets ranging from approximately \$3.4 billion to \$16.9 billion;

market capitalization ranging from approximately \$2.3 billion to \$16.4 billion, as of October 31, 2012; and

total employees ranging from approximately 4,100 to 18,900.

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

The companies used in this chemical industry peer group are: Air Products and Chemicals, Inc., Albemarle Corporation, Cabot Corporation, Celanese Corporation, Cytec Industries Inc., Eastman Chemical Company, FMC Corporation, RPM International Inc., Sigma-Aldrich Corporation, The Valspar Corporation and W.R. Grace & Co. In addition, as a supplemental reference, Cook & Co. compared the compensation of our named executive officers to published compensation survey data for similar executive job descriptions at general industrial organizations of comparable size.

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

Based upon the compensation review, Cook & Co. advised the Committee:

base salaries are generally below the median of the peer group and the survey data, with the exception of the chairman and chief executive officer who is above the 75th percentile of the peer group and slightly below the 75th percentile of the survey data;

target annual cash incentive percentages are above the 75th percentile of the peer group and survey data;

long-term incentives are well below the median of the peer group and survey data; and

total direct compensation in the aggregate is slightly above the median of the peer group and survey data and below the 75th percentile of the peer group and survey data.

Cook & Co. also summarized the pay and performance relationship for our named executive officers by comparing total cash compensation (salary and annual cash incentives) and total direct compensation (total cash compensation and long-term equity-based incentives) to various performance measures, such as total stockholder return, revenue growth, EBITDA growth, and return on invested capital, over one-year and three-year periods. The Committee evaluated and considered these data in setting the compensation for our named executive officers.

In 2012, Cook & Co. compiled and the Committee reviewed tally sheets that detail all of the elements of our named executive officers' compensation at target and actual levels for 2010 and 2011. The tally sheets include base salary, annual cash incentives, the value of long-term equity awards, including grant date fair value as well as unrealized gains, and other benefits and the amounts payable upon various termination scenarios, including a change in control. The tally sheets are used as a means along with the peer group and related industry data to evaluate total direct compensation and benefits for our named executive officers. Based upon its review, the Committee made no changes in the amounts of the primary components of compensation for our chairman and chief executive officer and increased the salaries and the targeted value of long-term incentives for our other named executive officers for 2013.

Say-on-Pay and Say-on-Frequency Results

In our most recent say-on-pay vote, at our 2011 Annual Meeting of Stockholders, a substantial majority of our stockholders (approximately 98% of the votes cast by stockholders) approved the compensation of our named executive officers. The Committee considered the highly positive result of the advisory, non-binding "say-on-pay" vote in connection with the discharge of its duties, including determining executive compensation for 2012 and 2013. In light of the overwhelming stockholder support, the Committee has not made significant changes in our compensation program for 2013.

In light of the voting results with respect to the frequency of stockholder votes on executive compensation at the 2011 Annual Meeting of Stockholders in which a majority of the votes cast voted for "say-on-pay" proposals to occur every three years, our board of directors decided that the Company will hold, in accordance with the vote, a triennial advisory vote on the compensation of named executive officers. Accordingly, we currently expect to hold the next "say-on-pay" vote at the Company's 2014 Annual Meeting of Stockholders. We currently expect to hold our next stockholder vote on frequency at the Company's 2017 Annual Meeting of Stockholders.

Compensation Mix For 2012 and 2013

The Committee sets the three primary components of compensation for our chairman and chief executive officer based on our overall compensation philosophy and following consultation with Cook & Co. The Committee also advises the board of directors of its deliberations on our named executive officers' compensation, including equity-based incentive awards, and considers any input from the board of directors. For compensation decisions related to our other named executive officers, our chairman and chief executive officer makes recommendations to the Committee, which ultimately determines such compensation in consultation with Cook & Co. The Committee believes that a

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

substantial portion of our named executive officers' total compensation should be variable and tied to performance measures that correlate with stockholder value.

The following charts provide summary information concerning the 2012 and 2013 total compensation mix of our named executive officers at target performance levels:

Chairman and Chief Executive Officer
2012 & 2013

Senior Vice President and Chief Financial Officer

2012

2013

Senior Vice President, Law & Administration and Secretary

2012

2013

As the above charts illustrate, more than 80% of the total target direct compensation of our chairman and chief executive officer is variable at-risk compensation and more than 70% of the total target direct compensation of our other named executive officers is variable at-risk compensation. We believe our pay mix, which has a substantial emphasis on pay for performance, contributed to shareholder approval of our named executive officer compensation by greater than 98% of the votes cast in such proposal in 2011.

2012 Financial and Operating Performance

Rockwood's financial results were impacted by a slow growth economy but nevertheless, we accomplished important strategic objectives in 2012. Our results reflect the focus and efforts of our

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

named executive officers and key employees and their ability to manage the Company during a year of continued economic uncertainty a weak U.S. economy and a fragile European economy. Our named executive officers focused on executing our business plan and strategic objectives for 2012, which included growing revenue and earnings per share, reducing debt and increasing cash flow and margins, based upon expectations for the economy. The following summarizes of our 2012 financial performance:

Net sales decreased 4.4% and our Adjusted EBITDA from continuing operations decreased 9.7% in 2012 as compared to 2011;

Overall Adjusted EBITDA margins from continuing operations decreased from 23.5% in 2011 to 22.2% in 2012;

Diluted earnings per share from continuing operations for 2012 were \$4.80, up 31.9%, from \$3.64 per share in 2011;

Initiated a quarterly dividend program and commenced a dividend of \$0.35 per share of common stock in the second quarter of 2012; and

Completed a \$1.25 billion 4.625% senior notes offering in September 2012, issued a new tranche of Term A loan under our existing senior secured credit facility, redeemed all of our 2014 Notes and reduced our weighted average cost of capital.

In addition, we achieved several other significant strategic objectives, including:

Completed a new surface treatment plant in the U.S. for our Surface Treatment segment;

Completed a new state-of-the-art lithium hydroxide plant in Kings Mountain, North Carolina and commenced work on our new lithium carbonate capacity in Chile for our Lithium segment; and

Continued global promotion of the electrification of vehicles in support of our lithium business.

Pay for Performance

In our most recent say-on-pay vote, at our 2011 Annual Meeting of Stockholders, more than 98% of the votes cast approved of the compensation program for our named executive officers. We believe that the highly favorable result confirms the overall design of our compensation program is consistent with the concept of pay for performance. For example, a substantial part of compensation (more than 80% for our chairman and chief executive officer and more than 70% for our other named executive officers at target compensation) is variable, at-risk compensation tied to our financial performance. Rockwood achieved solid total shareholder return ("TSR") on a one-, three- and five-year basis, as set forth below:

One-Year TSR Although we believe our performance and common stock were negatively impacted by the European sovereign debt crisis and slow growth which continued into 2012, we achieved a one-year TSR of 28.58%. The S&P 500 and DJIA had returns of 16.00% and 7.26%, respectively and the Dow Jones U.S. Chemicals Index and S&P Supercomposite Specialty Chemicals Index had returns of 22.71% and 40.09%, respectively.

Three-Year TSR We achieved a three-year TSR of 114.87% for 2010-2012 or 29.01% on an annual basis. The S&P 500 and the DJIA had three-year returns of 36.30% and 25.66%, or 10.86% and 7.90% on an annual basis, respectively and the Dow Jones U.S. Chemicals Index and S&P Supercomposite Specialty Chemicals Index had three-year returns of 61.30% and 94.84%, or 17.26% and 24.87 on an annual basis, respectively.

Five-Year TSR We achieved a five-year TSR of 52.39% for 2008-2012 or 8.78% on an annual basis. The S&P 500 and the DJIA had five-year returns of 8.59% and -1.21%, or 1.66% and -0.24% on an annual basis, respectively and the Dow Jones

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

U.S. Chemicals Index and S&P Supercomposite Specialty Chemicals Index had five-year returns of 39.02% and 112.91%, or 6.80% and 16.30% on an annual basis, respectively.

In early 2013, at the request of the Committee, Cook & Co. evaluated the alignment of executive compensation, in particular, the compensation of our chairman and chief executive officer, to our performance based upon the following three quantitative measures: relative degree of pay alignment, multiple of median pay and pay-TSR alignment. Cook & Co. analyzed our chairman and chief executive officer's compensation and our performance compared to the 24 companies listed below. Cook & Co. selected these companies because they had the same Global Industry Classification Standard (GICS) code as Rockwood and revenue in the range of 41% to 235% of our revenue. The following companies were included in this analysis:

Celanese Corporation
H.B. Fuller Company

This comparison group included some of the same companies that are included in the peer group used for the benchmarking of the compensation of our named executive officers discussed above; however, Cook & Co. elected to select for purposes of their evaluation a group based upon criteria that are frequently used by outside proxy advisory firms to evaluate peer performance. Using data for these companies, Cook & Co. performed the following analyses:

relative degree of pay alignment, which assesses the degree of alignment between a company's relative CEO pay and a weighted average of the company's relative one- and three-year TSRs, with one-year TSR weighted at 40% and three-year TSR weighted at 60%;

multiple of median pay, which assesses a company's CEO pay as a multiple of the sample group median; and

pay-TSR alignment, which compares the trend of a company's CEO compensation to its indexed TSR over a five-year period.

Based upon these analyses by Cook & Co., the Committee evaluated the pay for performance related to our chairman and chief executive officer and determined that the compensation of our chairman and chief executive officer is appropriately aligned with our performance.

In addition, Cook & Co. evaluated our compensation program to see whether it includes features that are generally viewed as poor pay practices, including:

Excessive perquisites;

Abnormally large bonus payouts without justifiable performance linkage;

Excessive severance and change in control provisions;

Dividends or dividend equivalents on unvested awards subject to performance conditions; and

Re-pricing or replacing of underwater stock options.

Based on Cook & Co.'s analysis, the Committee determined that our compensation program did not include any such features.

The Committee believes that the levels, ranges and mix for total compensation for 2012 and 2013 are appropriate and are consistent with our stated philosophy for our named executive officers, and in particular, our chairman and chief executive officer, and are appropriately aligned with our performance.

Base Salaries

Base salaries are set at levels designed to be competitive in the labor markets in which we compete for talented senior executives, using a target of the median of our peer group and survey data. The Committee annually reviews the performance of our executive officers, including our chairman and chief executive officer, based on quantitative and qualitative criteria as well as comparisons to the peer group and survey data references discussed above and establishes appropriate increases or decreases, if any, in base salaries. Our chairman and chief executive officer participates in the evaluation of our senior management and makes recommendations to the Committee regarding changes in the base salaries of our executive officers and other key executives. Any changes in base salaries typically commence in April of a given year. Factors considered in determining base salary (including any increases or decreases) include responsibility, experience, our financial performance and the qualitative performance of the named executive officer, such as leadership in completing strategic or other business objectives and the survey data regarding our peers and related industries.

Our chairman and chief executive officer's base salary is greater than that of our other named executive officers due to a number of factors, including his substantial experience in managing

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

industrial companies, his strategic expertise, his past performance and his significant role and responsibilities at Rockwood. In early 2010, the salary of our chairman and chief executive officer was decreased from \$1,300,000 to \$1,100,000 and was not increased in 2011, 2012 or 2013. Our other named executive officers have not been awarded increases in their base salaries since 2008. However, effective April 1, our senior vice president and chief financial officer's salary was increased to \$500,000 and our senior vice president law and administration's salary was increased to \$435,000, a 5.5% increase for both.

See "Executive Compensation Summary Compensation Table" for further information on base salaries paid to our named executive officers.

Annual Cash Incentives

Annual cash incentives are awarded under the Short-Term Incentive Plan, which was originally adopted in April 2009, and are designed to provide our named executive officers with the opportunity to achieve cash incentive awards based on predetermined quantitative financial performance criteria. Our incentive payments under the Short-Term Incentive Plan are typically made in the first quarter following the year of performance after our audited financial statements for such year are completed. The Committee has authority to use negative discretion in administering the Short-Term Incentive Plan.

The Committee sets the performance criteria based on our consolidated annual budgets at budgeted exchange rates that are approved by the board of directors. At the end of the performance period, the Committee evaluates our results, including the impact of acquisitions and divestitures, converted to budgeted exchange rates, as compared to the performance criteria. Cash incentives under the Short-Term Incentive Plan have typically represented a larger component of total compensation for our named executive officers than for similarly situated executives in our peer group. The Committee believes that the weighting of annual cash incentives in our compensation mix is appropriate and in line with our philosophy given that cash payments under the Short-Term Incentive Plan are tied directly to financial performance which ultimately correlates to stockholder value.

The annual cash incentives are substantially based upon Adjusted EBITDA performance, because it is an important financial measure for us and is a basis for specified covenants under our senior secured credit agreement and other debt agreements. In addition, we believe that Adjusted EBITDA is the appropriate financial measure to assess our operating performance because it excludes items that have been deemed by management and the board of directors to have little or no bearing on the evaluation of our day-to-day operating performance.

2012 Annual Cash Incentives

For 2012, the Committee determined the performance criteria for awards under the Short-Term Incentive Plan to our named executive officers would be predominately based upon Adjusted EBITDA. The annual cash incentives for our named executive officers, however, would be decreased by ten percent if our net working capital as a percent of sales increased above 19%. The Short-Term Incentive Plan provides for a range of potential awards to participants, including our named executive officers, both above and below their target incentive amounts based on actual results at budgeted exchange rates as compared to targeted performance. In addition, in 2011, the Committee adopted a cap on payments under the Short-Term Incentive Plan of three times the named executive officers' target award. For 2012, the target cash incentive percentage of base salary for our named executive officers was:

Named Executive Officer	Target Annual Cash Incentive
Chairman and Chief Executive Officer	200%
Senior Vice President and Chief Financial Officer	115%
Senior Vice President, Law & Administration	115%

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

The table below sets forth details for the 2012 annual cash incentives based on varying levels of achievement of the performance criteria, prior to any adjustment relating to net working capital, as described above:

Actual Adjusted EBITDA vs. Targeted Adjusted EBITDA	Percent of Targeted Award
Less than 90% of targeted Adjusted EBITDA	0%
90% of targeted Adjusted EBITDA	50%
95% of targeted Adjusted EBITDA	75%
100% of targeted Adjusted EBITDA	100%
110% of targeted Adjusted EBITDA	200%
120% of targeted Adjusted EBITDA or greater	300%

The incentive award is interpolated for results between 90% and 120% of the targeted levels of Adjusted EBITDA.

The Committee reviewed the Company's performance results and did not award cash incentives under the Short-Term Incentive Plan to our chairman and chief executive officer and our other named executive officers for 2012. The performance-based target for our named executive officers for purposes of determining cash incentives for 2012 was Adjusted EBITDA from continuing operations of \$1,033.4 million (at a constant exchange rate of \$1.45=€1.00 and \$2.00=£1.00). For 2012, our actual Adjusted EBITDA from continuing operations was \$778.9 million and at constant exchange rates was \$850.5 million.

2013 Annual Cash Incentives

For 2013, the Committee determined that it would not modify the structure utilized for the 2012 annual cash incentives. The incentive award is interpolated for results between 90% and 120% of the targeted levels of Adjusted EBITDA. The performance-based target for our named executive officers for 2013 is Adjusted EBITDA of \$844.79 million (at a constant exchange rate of \$1.45=€1.00 and \$2.00=£1.00). Similar to 2012, the annual cash incentive payment for our named executive officers, however, will be decreased by ten percent if our net working capital as a percent of sales increases above 24.1% and will be increased by 5% if our net working capital as a percent of sales decreases below 21.7%.

Long-Term Equity Compensation

Long-term compensation is equity-based and over the years has been provided through stock options, restricted stock units and market stock units granted under our 2009 Rockwood Holdings, Inc. Stock Incentive Plan ("Stock Incentive Plan"), which was originally adopted in April 2009. Ownership of equity interests by our named executive officers is a fundamental part of our compensation philosophy and furthers the goal of aligning management's interests with the interests of stockholders in value creation. In addition, our long-term equity compensation is designed to reward sustained financial performance and provide our executive officers and key employees with a retention incentive, which in turn, contributes to stability in key leadership roles. Over the last three years, the Committee has granted the following types of awards pursuant to our Stock Incentive Plan:

Performance-Based Restricted Stock Units The performance-based restricted stock units are designed primarily to reward increasing total stockholder return relative to a peer group, and to a lesser extent, continued service with Rockwood; and

Performance-Based Market Stock Units The performance-based market stock units are a type of restricted stock unit that are designed primarily to reward contributions in increasing stockholder return on an absolute basis, and to a lesser extent, continued service with Rockwood.

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

Upon vesting, each restricted stock unit and market stock unit represents the right to receive one share of our common stock, which aligns the interests of management with the interests of stockholders in stock price appreciation and value creation. In the future, the Committee may use a combination of these or other types of equity awards. Dividends are not awarded with respect to these unvested restricted stock units. In early 2013, the Committee amended our 2009 Stock Incentive Plan to prohibit the re-pricing of stock options or other equity awards without obtaining stockholder approval.

As a result of the use of these types of restricted stock units, the Committee believes the long-term equity compensation program is entirely based upon the concept of pay for performance. We believe that this equity-based pay for performance philosophy coupled with our stock ownership guidelines aligns the interests of senior management with stockholders by tying compensation to our financial performance and stockholder return over the three-year incentive period, while also simultaneously providing incentives designed to attract and retain highly qualified senior managers.

Equity Grants in 2012 and Previous Years

The Committee has adopted an annual program of awarding equity grants in order to tie a significant portion of an executive's compensation to our long-term performance to further align management's interests with those of our stockholders. The table below sets forth the nature of these recent equity awards:

Grant Date	Performance Period	Performance Measure	Types of Awards	Vesting/ Service Period
December 2009	Fiscal 2010	Adjusted EBITDA and earnings per share	Performance-based restricted stock units, time-based restricted stock units and time-based stock options	Fiscal 2010-2012
December 2010	Fiscal 2011-2013	Relative and Absolute Stock Performance	Performance-based restricted stock units and performance-based market stock units	Fiscal 2011-2013
December 2011	Fiscal 2012-2014	Relative and Absolute Stock Performance	Performance-based restricted stock units and performance-based market stock units	Fiscal 2012-2014
December 2012	Fiscal 2013-2015	Relative and Absolute Stock Performance	Performance-based restricted stock units and performance-based market stock units	Fiscal 2013-2015

Burn Rate

In determining the aggregate number of equity awards to grant in a particular year, the Committee considers, among other things, quantitative factors such as share usage, burn rate and the compensation cost associated with the awards. For example, the table below presents the burn rate for recent awards, which is the aggregate award to all employees at target achievement without regard to cancellations divided by the shares of common stock outstanding:

Grant Date	Burn Rate
December 2009	0.97%
December 2010	0.35%
December 2011	0.34%
December 2012	0.39%

The aggregate grant date fair value of the equity awards granted to all employees in December 2012 was approximately \$16.5 million, of which approximately \$4.8 million was attributable to equity awards granted to our named executive officers.

Outstanding Performance Awards

No performance-based restricted stock unit awards were eligible for vesting based upon the financial results for periods ending in 2012. However, on December 31, 2012 in connection with the awards granted in December 2009, our chairman and chief executive officer, our senior vice president and chief financial officer and our senior vice president law & administration vested in 139,002, 22,696 and 19,736 performance-based restricted stock units, respectively, and 5,707 and 4,963 time-based restricted stock units for our senior vice president and chief financial officer and our senior vice president law & administration, respectively, including dividend equivalent rights relating to such grants. The performance criteria for these performance grants were met at the end of fiscal 2010, and an additional two-year service period was fulfilled on December 31, 2012.

Please see "Employment and Other Agreements" and "Outstanding Equity Awards at 2012 Fiscal Year-End" for additional information regarding the awards granted to our named executive officers in previous years.

2013 Equity Compensation Program

In late 2012, the Committee, with the assistance of Cook & Co., evaluated our long-term equity incentive program and determined that it was prudent to continue to utilize award targets that measure absolute and relative stockholder return. Accordingly, for the 2013 equity program, the Committee again utilized performance-based market stock units, which vest based upon absolute performance of our common stock, and performance-based restricted stock units, which vest based upon relative performance of our common stock to a pre-determined index.

The aggregate value of the equity awards granted in December 2012 to each recipient was set by the Committee based upon individual valuations recommended by Cook & Co. The aggregate target value for the award for Mr. Ghasemi was \$2.8 million and was \$750,000 for each of Messrs. Zatta and Riordan, which fell below the median range of the peer group and survey data but took into account the executives' above median target cash compensation. The value of the awards granted to Messrs. Ghasemi, Zatta and Riordan in December 2012 was split nearly equally on a value basis between performance-based market stock units and performance-based restricted stock units, with the number of units awarded calculated based upon the 20-trading-day average closing price of our common stock prior to the date of grant. The Committee determined that the size and nature of the award was appropriate in light of our goal to retain executives, drive financial performance and align management's interests with the interests of stockholders in creating value. The following table summarizes the allocation of 2013 awards for our named executive officers:

Named Executive Officer	Target Award	Type of Award	
		Performance-Based Restricted Stock Units (% of Total Award Value)	Performance-Based Market Stock Units (% of Total Award Value)
Chairman and Chief Executive Officer	\$ 2,800,000	50%	50%
Senior Vice President and Chief Financial Officer	\$ 750,000	50%	50%
Senior Vice President, Law & Administration	\$ 750,000	50%	50%

In addition, the Committee included a claw-back provision in the December 2012 grant whereby participant awards may be reduced or recouped in certain situations. See " Other Policies Claw-Back Stock Incentive Plan."

Performance-Based Restricted Stock Units. The number of performance-based restricted stock units awarded in December 2012 represents a targeted number of shares to be received upon vesting. The number of shares which vest, if any, is determined based upon the Company's TSR (using the average closing stock price per share of the common stock of the Company for the 60 trading days prior to the beginning and end of the period) from January 1, 2013 through December 31, 2015 as compared to the

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

TSR for companies that comprise the Dow Jones U.S. Chemicals Index. No restricted stock units are earned if the Company's rank relative to such companies is less than the 25th percentile. The maximum number of restricted stock units that may vest upon the achievement of such performance measure is one and a half times the target amount of the restricted stock units granted. The performance-based restricted stock unit award is interpolated for results between performance targets. Vesting of performance-based restricted stock units earned, if any, generally occurs upon Committee review following the end of the performance period, subject to continued service on January 1, 2016, based upon the below table.

Performance of Rockwood TSR relative to the TSR of the components of Dow Jones U.S. Chemicals Index	% of Vesting
Less than 25 th percentile	0%
25 th percentile	25%
50 th percentile	100%
Greater than or equal to 75 th percentile	150%

In connection with this award in December 2012, Mr. Ghasemi was awarded a target award of 30,870 performance-based restricted stock units and Messrs. Zatta and Riordan were each awarded a target award of 8,269 performance-based restricted stock units.

Performance-Based Market Stock Units. The number of performance-based market stock units awarded in December 2012 represents a number of shares to be received upon vesting. The number of stock units which vest, if any, is determined based upon the product of (a) the Company's stock price multiplier, which is the percentage change in the price of the Company's common stock over the period January 1, 2013 through December 31, 2015, and (b) the target amount of shares. The stock price multiplier is the quotient of the average closing stock price for the 60 trading days prior to December 31, 2015 divided by the average closing stock price for the 60 days prior to January 1, 2013. No market stock units are earned if the Company's stock price at the end of the award period is less than 50% of the Company's stock price at the beginning of the award period. The maximum number of market stock units that may vest upon the achievement of such performance measures is up to one and a half times the target amount of the market stock units granted. The performance-based market stock unit award is interpolated for results between performance targets. Vesting of performance-based market stock units earned, if any, generally occurs upon Committee review following the end of the performance period, subject to continued service on January 1, 2016, based upon the below table.

Company Stock Price Multiplier	% of Vesting
Less than 50%	0%
50%	50%
100%	100%
Greater than or equal to 150%	150%

In December 2012, Mr. Ghasemi was awarded a target award of 27,808 performance-based market stock units and Messrs. Zatta and Riordan were each awarded a target award of 7,449 performance-based market stock units.

Total Equity Awards to Named Executive Officers in 2012. The following table summarizes the equity awards at targeted levels to our named executive officers in December 2012:

Named Executive Officer	Type of Award	
	Performance-Based Restricted Stock Units (# of Units at Target)	Performance-Based Market Stock Units (# of Units at Target)
Chairman and Chief Executive Officer	30,870	27,808
Senior Vice President and Chief Financial Officer	8,269	7,449
Senior Vice President Law and Administration	8,269	7,449

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

The Committee believes our long-term equity compensation program is entirely based upon the concept of pay for performance. In addition, the Committee and board of directors believe that these equity awards strike an appropriate balance by rewarding our named executive officers primarily for creating stockholder value and to a lesser extent for their continued service and dedication to Rockwood. We believe that this approach best aligns the interests of our named executive officers with those of our stockholders and is consistent with current trends in executive compensation as measured by our peer group and survey data. We therefore intend to continue to make annual equity compensation grants to our named executive officers and other key employees and may further modify the structure to adapt to changing economic conditions and market practices.

Equity Ownership of our Named Executive Officers

In accordance with current guidelines for stock ownership by our named executive officers, Mr. Ghasemi is required to own stock valued at an amount equal to at least six times his base salary, and Messrs. Zatta and Riordan are required to own stock valued at an amount equal to at least three times their respective base salaries. In evaluating stock ownership under these guidelines, the Committee includes shares actually owned by such named executive officer and excludes stock options, performance-based restricted stock units and market stock units that are either unearned or earned but not vested. Further, the Committee has adopted a retention ratio whereby each named executive officer is required to hold 50% of all shares received, net of taxes and exercise price, if any, upon the exercise of stock options or vesting of restricted stock units until such named executive officer has satisfied the ownership guidelines. For the purposes of compliance with these guidelines, the value of the common stock owned is based upon an average of the month-end closing stock prices for the last three months of the previous fiscal year, and is tested in January each year. As of January 1, 2013, all named executive officers held equity in excess of the amounts required under our guidelines.

Equity Grants and Procedures

All grants since 2007 have been made pursuant to a policy of the Committee under which the Committee has established a pre-determined schedule for equity grants during certain periods that correspond to "window periods" under our securities trading policy. These window periods begin at the opening of business on the second trading day on the New York Stock Exchange after the day we make a public news release of our quarterly earnings for the prior fiscal quarter, and close on the earlier of (a) 45 calendar days thereafter or (b) 75 calendar days after the end of the prior fiscal quarter. The date of grant for any equity awards will generally be in December of each year on the last business day of the corresponding window period, as this process is performed in conjunction with the Company's annual budget process. The exercise price of any stock option must equal the fair market value of our common stock on the date of grant, which is currently determined by the closing price of our common stock on the New York Stock Exchange on the grant date.

Hedging and Pledging Policies

The Company has a policy that prohibits our directors and named executive officers from entering into any hedging arrangements with respect to our securities or pledging our securities as collateral for a loan, including holding our securities in margin accounts.

Executive Benefits and Perquisites

We offer our named executive officers and other key employees selected perquisites and general health and welfare benefits. Our perquisites and other benefits include an automobile allowance and life insurance. We provide these benefits as an additional incentive for our named executive officers to remain competitive in the general marketplace for executive talent. Commencing in 2010, Rockwood no

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

longer reimburses our named executive officers for tax gross-ups on life insurance and Company autos or auto allowances. The Committee does not intend to award tax gross-ups in the future.

Retirement Plans

Our named executive officers participate in the following retirement plans, which are the same plans offered to all other Company employees located in the United States:

a defined contribution 401(k) plan, in which we match the lesser of: i) 50% of an employee's contribution or ii) 3% of such employee's annual cash compensation;

as part of our 401(k) plan, we annually contribute to each employee's account a discretionary profit-sharing amount (which is the same for all participating employees) between 0%-4% of such employee's base salary and annual cash incentive; and

also as part of our 401(k) plan, we currently contribute to each employee's account a non-discretionary 3% of such employee's annual base salary and annual cash incentive.

In each of the above cases, such contributions are subject to the Internal Revenue Service's ("IRS") annual contribution limit.

We also offer our senior vice president and chief financial officer and our senior vice president, law & administration participation in a supplemental savings plan in which a participant can defer up to 20% of his annual cash compensation (base salary and annual cash incentive) and in which we match the lesser of: i) 50% of such participant's contribution or ii) 3% of such employee's annual cash compensation. In addition, amounts above IRS contribution limits in respect of our 401(k) plan are also contributed to the supplemental savings plan for our named executive officers, except for our chairman and chief executive officer. The participant balances in the supplemental savings plan earn interest on a quarterly basis at the prime rate in effect at the beginning of each quarter and are only distributed on a termination event with no enhancement of benefits under any such event. We also make monthly payments to our chairman and chief executive officer in the amount of \$53,000 as a supplemental pension benefit in lieu of contributions into a non-qualified supplemental pension pursuant to the terms of his employment agreement which is based upon similar benefits he was entitled to receive from his previous employer. For additional information, please see "Employment and Other Agreements", "Potential Payments upon Termination or Change in Control" and "Non-Qualified Deferred Compensation for 2012."

Health and Welfare Benefits and Perquisites

Our named executive officers are also entitled to participate in our health and welfare programs. For our named executive officers, in addition to the plans offered to all employees, we provide an executive medical plan, which pays for annual expenses not covered by our standard health plans up to \$10,000 per participant, per plan (for each of medical, dental, vision, prescription and over-the-counter drugs), per year. The named executive officers also participate in company-wide life insurance plans, with Rockwood providing an additional life insurance policy for our chairman and chief executive officer. In addition, we provide an auto allowance to our named executive officers.

Severance Payments

We believe it is important to provide reasonable severance benefits to our named executive officers both to remain competitive within our industry and in acknowledgement that it may be difficult for these executive officers to find comparable positions in a short amount of time. Each named executive officer is entitled to a severance payment in the event that he is terminated by us without "cause" or if he terminates employment with Rockwood for "good reason," as defined in their respective employment agreements. Each of our named executive officers is also entitled to a severance payment

in the event that he is terminated following a change in control. In addition, certain awards under our Stock Incentive Plan accelerate upon a change in control. However, under the terms of the employment agreements with such officers, the amounts payable to such named executive officers are not payable solely in the event of a change in control.

We believe our arrangements are reasonable in light of the fact that cash severance is limited to two years for each of our named executive officers. Further, there are no severance payments unless such named executive officers are terminated within two years following a change in control of Rockwood. For additional information, please see "Employment and Other Agreements" and "Potential Payments upon Termination or Change in Control."

Other Policies Claw-Back

Annual Cash Incentives

The Committee determined that the employment agreements for our named executive officers should include "claw-back" provisions related to our annual cash incentive payments. Under such employment agreements, if Rockwood is required to restate its financial statements and the board of directors in good faith determines that such restatement is due to the intentional misconduct of one or more of our named executive officers, such named executive officers will be required to reimburse Rockwood, net of taxes, for the excess of the annual cash incentive paid to such executive officer for the year(s) of restatement over the payment such executive officer would have received if annual cash incentive payments had been calculated using Rockwood's restated financial results.

Stock Incentive Plan

In December 2012, the Committee again included a claw-back provision as part of the award agreements under the Stock Incentive Plan whereby participants' awards may be recouped or reduced in specified situations based upon a policy to be adopted by the Committee after final rules related to executive claw-backs have been adopted by the SEC under the Dodd-Frank Act. In addition, under the awards granted since December 2010, the Committee may recoup awards for a participant's failure to follow our Code of Ethics for Executive Officers and Financial Officers and Code of Business Conduct and Ethics (both codes are available on our website at www.rocksp.com in the "Investor Relations Codes of Conduct" section).

Section 162(m) of the Internal Revenue Code

Section 162(m) of the Internal Revenue Code generally allows publicly-traded companies to take tax deductions for particular qualifying performance-based compensation. Section 162(m) disallows a deduction to the extent that particular non-performance-based compensation over \$1 million is paid to the chief executive officer or any of the three other most highly compensated executive officers other than the chief financial officer. Rockwood believes that our Short-Term Incentive Plan and our Stock Incentive Plan, each of which was approved by our stockholders at the 2009 Annual Stockholders Meeting, satisfies the requirements for exemption under Internal Revenue Code Section 162(m) as a performance-based plan. To maintain flexibility in compensating executive officers in a manner consistent with its goals, the Committee has not adopted a policy that all compensation must be deductible. In making its compensation decisions, however, the Committee will consider the impact of Section 162(m).

Employment and Other Agreements

Agreements with Seifi Ghasemi

We entered into an employment agreement with Mr. Ghasemi, originally dated as of September 28, 2001, as amended and restated on November 13, 2008, and as further amended as of October 28, 2010, pursuant to which he is serving as our chairman and chief executive officer. This agreement automatically renews for successive one-year periods, unless either party gives 60 days advance written notice not to renew the term of the agreement prior to any such extension date, and otherwise terminates in August 2020. Either party may terminate the agreement at any time; however, Mr. Ghasemi must give at least 180 days advance written notice to terminate his employment (other than in connection with his notice not to renew the terms of the employment agreement described above).

The employment agreement provides Mr. Ghasemi with an annual base salary of \$1,100,000 effective April 1, 2010 and a target annual cash incentive award equal to 200% of his base salary (subject to our achievement of specified performance-based targets), both of which may be increased in the discretion of our board of directors. Pursuant to the employment agreement, the amount of supplemental pension benefit payments (in lieu of contributions into a non-qualified supplemental pension) to Mr. Ghasemi was increased effective as of April 1, 2010 from \$50,000 to \$53,000 per month. The employment agreement also provides Mr. Ghasemi with a company automobile or auto allowance and entitles Mr. Ghasemi to participate in our health, welfare and retirement programs.

In his original employment agreement with us, Mr. Ghasemi agreed to purchase a certain number of shares of our common stock, and in connection therewith, received: (1) a grant of 68,452 time-based restricted stock units (payable in shares of our common stock) which vested in equal quarterly installments over a three-year period and (2) a grant of time-based stock options to purchase a certain number of shares of our common stock which vested over a five-year period. The shares of common stock underlying those vested restricted stock units are issuable upon the later of (1) the date such shares can be sold in the public market without restrictions on transfer and (2) the termination of Mr. Ghasemi's employment. Pursuant to the agreement governing those restricted stock units, each time a cash dividend is paid on the outstanding shares of common stock, Mr. Ghasemi will receive, at the time he becomes entitled to receive the shares of our common stock underlying those restricted stock units, an additional number of shares of our common stock equal to the quotient of (a) the product of the amount of each dividend paid with respect to one share of our common stock multiplied by the number of restricted stock units then held by Mr. Ghasemi divided by (b) the fair market value per share of our common stock at the time each dividend is paid. Accordingly, Mr. Ghasemi received 1,643 additional restricted stock units in connection with the Company's cash dividends paid in 2012.

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

The number of shares of our common stock issuable is subject to adjustment in the event of a stock dividend, split, combination, recapitalization, change in control or other similar event.

In addition, under his employment agreement, Mr. Ghasemi is entitled to a gross-up payment equal to any excise tax imposed by Section 4999 of the Internal Revenue Code on any payment in the event of a change in control of Rockwood. Such payment is structured to comply with the provisions of Section 409A of the Internal Revenue Code. Under the terms of his amended employment agreement, Mr. Ghasemi is no longer entitled to a gross-up on his auto allowance and related expenses. His employment agreement also obligates Rockwood to indemnify Mr. Ghasemi to the fullest extent permitted by law or the by-laws of Rockwood during the employment term and after the employment term while potential liability exists.

Under the terms of Mr. Ghasemi's employment agreement, in the event that Rockwood is required to restate its financial statements due to the intentional misconduct of any of the senior executive officers of Rockwood (as determined in good faith by the board of directors), Mr. Ghasemi will be required to reimburse Rockwood the amount by which his annual cash incentive, calculated under the misstated financial statements exceeds the incentives he would have received under the restated financial statements. See "Compensation Discussions and Analysis Other Policies Claw-Back" section for a summary of the "claw-back" provisions related to our annual and long-term incentives.

Mr. Ghasemi's employment agreement also provides that if his employment is terminated under certain conditions he will be entitled to receive severance payments and benefits as described below under "Potential Payments upon Termination or Change in Control Chairman and Chief Executive Officer." Mr. Ghasemi's employment agreement also contains certain restrictive covenants relating to confidentiality, non-competition and non-solicitation.

Agreements with Robert J. Zatta

On November 13, 2008, we entered into a new employment agreement with Mr. Zatta, as amended as of October 28, 2010, pursuant to which he is serving as our senior vice president and chief financial officer. The following summarizes the compensation arrangements in Mr. Zatta's employment agreement:

annual base salary of \$473,800 which shall be reviewed at least annually for potential increase (increased to \$500,000 effective as of April 1, 2013);

annual target incentive award of 110%, subsequently increased to 115%, of base salary based upon achievement of certain performance goals established by the board of directors or the Committee and subject to further increase based upon such performance;

eligibility for participation in long-term incentive plans;

participation in Rockwood's employee benefit plans;

four weeks vacation annually; and

the option to receive use of a Rockwood automobile and reimbursement of related expenses, or an auto allowance.

Under the terms of Mr. Zatta's employment agreement, in the event Rockwood is required to restate its financial statements due to the intentional misconduct of any of the senior executive officers of Rockwood (as determined in good faith by the board of directors), Mr. Zatta will be required to reimburse Rockwood the amount by which his annual cash incentive calculated under the misstated financial statements exceeds the annual cash incentive he would have received under the restated financial statements. See "Compensation Discussions and Analysis Other Policies Claw-Back" sections for a summary of the "claw-back" provisions related to our annual and long-term incentives.

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

Mr. Zatta's employment constitutes "at will" employment and may be terminated at any time for any reason. Mr. Zatta will be entitled to receive severance payments and benefits resulting from his termination under certain conditions as described below under "Potential Payments upon Termination or Change in Control Other Named Executive Officers." In addition, Mr. Zatta is entitled to a gross-up payment equal to any excise tax imposed by Section 4999 of the Internal Revenue Code on any benefit or payment due to him in the event of a change in control of Rockwood. Such payment is structured to comply with the provisions of Section 409A of the Internal Revenue Code. Under the terms of his amended agreement, Mr. Zatta is no longer entitled to a gross-up on his auto allowance and related expenses. The employment agreement also contains customary restrictive covenants relating to confidentiality, non-competition and non-solicitation.

Agreements with Thomas J. Riordan

On November 13, 2008, we entered into a new employment agreement with Mr. Riordan, amended as of October 28, 2010, pursuant to which he is serving as our senior vice president, law & administration. Other than Mr. Riordan's base annual salary of \$412,000 (increased to \$435,000 effective as of April 1, 2013), the material terms under the new employment agreement are identical to those in the employment agreement with Mr. Zatta that are summarized above, including the subsequent increase in his annual target incentive award from 110% to 115%.

Potential Payments upon Termination or Change in Control

Severance Payments

Each of our named executive officers is entitled to a severance payment in the event that he is terminated, including a termination within a certain period following a change in control. However, under the terms of the employment agreements with such named executive officers, the amounts payable to such named executive officers are not enhanced solely in the event of a change in control. Hence, there is no increase in severance payments unless such named executive officers are terminated following a change in control of Rockwood.

General

The employment agreements for Messrs. Ghasemi, Zatta and Riordan include in their respective definitions of "cause," an employee's willful and continued failure or refusal to perform his duties. Mr. Zatta's and Mr. Riordan's employment agreements also include any act of fraud, embezzlement or theft on their part against Rockwood, while Mr. Ghasemi's employment agreement defines "cause" to include certain other acts which harm Rockwood, including a conviction, plea of guilty or no contest to fraud or, under certain conditions, a misdemeanor as defined in each of these employment agreements. "Good reason" will generally exist if the named executive officer's (1) responsibilities or compensation has been reduced, (2) benefits have been materially reduced, (3) primary workplace has been moved beyond 35 miles from its current location or (4) the agreement is materially breached by Rockwood. Mr. Ghasemi's employment agreement also includes in its definition of "good reason" the failure of Rockwood's successor to assume Rockwood's obligations under his employment agreement.

Change in Control Under Employment Agreements

Our named executives officers' employment agreements generally define a change in control of Rockwood as (1) the date at which any person or entity other than Rockwood or its employee benefit

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

plans becomes the beneficial owner of 30% or more of the combined voting power of its outstanding securities other than through a purchase of such securities directly from Rockwood through a private placement, (2) the date at which the members of Rockwood's board of directors at signing (the "Incumbent Board") no longer represent a majority of Rockwood's board of directors; *provided that* a member approved by a majority of the Incumbent Board will be counted as a member of the Incumbent Board, (3) a merger or consolidation of Rockwood with or into another entity, unless immediately following such transaction, 70% or more of the voting securities of the surviving entity are beneficially owned by beneficial owners of Rockwood prior to such transaction or (4) all or substantially all of the assets of Rockwood are sold or transferred and the (x) Incumbent Board does not directly control the buyer or transferee and (y) financial results of Rockwood and such buyer or transferee are not consolidated for financial reporting purposes.

Change in Control Relating to Equity Awards

For the awards in December 2010, 2011 and 2012, the number of shares earned is calculated based upon the change in control price and i) our common stock's performance relative to companies comprising the comparison group for the performance-based restricted stock units and ii) the related stock price multiplier for performance-based market stock units. All amounts in respect of accelerated vesting for the December 2012 awards would be paid on January 1, 2016, for the December 2011 awards would be paid on January 1, 2015, and for the December 2010 awards would be paid on December 31, 2013, unless the named executive officer is terminated without cause or resigns for good reason on or after a change in control but before the vesting date, in which case the amount would be paid in a lump sum at such termination. In the event of a change in control, all restricted stock units and performance-based market stock units are converted into a cash value and paid to holders on the applicable dates.

Our named executive officers' agreements related to equity awards generally define a change in control of Rockwood as:

- (1) the date at which any person or entity other than Rockwood or its employee benefit plans becomes the beneficial owner of 30% or more of the combined voting power of its outstanding securities other than through a purchase of such securities directly from Rockwood through a private placement;
- (2) the date at which the Incumbent Board no longer represent a majority of the Rockwood board of directors; *provided that* a member approved by a majority of the Incumbent Board will be counted as a member of the Incumbent Board;
- (3) a merger or consolidation of Rockwood with or into another entity, unless immediately following such transaction, 50.1% or more of the voting securities of the surviving entity are beneficially owned by beneficial owners of Rockwood prior to such transaction; or
- (4) all or substantially all of the assets of Rockwood are sold or transferred and the (x) Incumbent Board does not directly control the buyer or transferee and (y) financial results of Rockwood and such buyer or transferee are not consolidated for financial reporting purposes.

Chairman and Chief Executive Officer

Under the terms of Mr. Ghasemi's employment agreement, Rockwood may terminate Mr. Ghasemi's employment at any time. Unless otherwise terminated, his employment agreement terminates automatically on the August 1st following Mr. Ghasemi's attainment of age 75, which is

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

the Accrued Rights;

a lump sum pro rata portion of any annual cash incentive for the fiscal year in which the termination occurs based upon actual performance;

an amount equal to two times the sum of (x) his annual salary and (y) the average of his annual cash incentives for the two full fiscal years prior to such termination, payable in 24 equal monthly installments (or as a lump sum in the case of a termination following a change in control);

12 monthly supplemental pension benefit payments of \$53,000 following termination (or as a lump sum in the case of a termination following a change in control); and

Under all of such events, Mr. Ghasemi will be entitled to receive the Accrued Rights except solely in the event of a change in control.

(1)

Represents an amount equal to two times Mr. Ghasemi's 2012 base salary of \$1,100,000.

(2)

Represents the pro rata portion of the cash incentive payable based upon 2012 financial performance under the Short-Term Incentive Plan.

(3)

Represents an amount equal to two times the average of the cash incentives awarded to Mr. Ghasemi for 2012 and 2011, which were \$0 and \$6,005,672, respectively.

(4)

Represents twelve monthly supplemental pension benefit contributions of \$53,000 each.

(5)

In the event of disability, represents six months of salary continuation and welfare benefits until long-term disability benefits apply. This amount assumes Mr. Ghasemi is not eligible for any such long-term disability benefits.

(6)

Edgar Filing: Rockwood Holdings, Inc. - Form DEF 14A

Represents \$2.1 million in life insurance proceeds payable in case of death. An additional payment of 2¹/₂ times his base salary would be payable if death occurs during business travel up to a maximum of £2.0 million, but for purposes of this disclosure, we assumed Mr. Ghasemi's hypothetical death does not occur during business travel.

- (7) Represents the pro rata portion of outstanding performance-based restricted stock unit awards that would vest upon such event. For any outstanding awards for which the actual performance against the relevant target is not yet known, such pro rata portion is based upon the targeted award from the grant date through the hypothetical termination date. For a termination without cause under the December 2010, 2011 and 2012 grants, the vesting of any amount is subject to the sole discretion of the Committee. This amount assumes the Committee awarded such pro rata portion to Mr. Ghasemi at target amounts. For a resignation by Mr. Ghasemi for good reason, none of the outstanding performance-based restricted stock unit awards would vest.
- (8) Represents the vesting of all outstanding performance-based restricted stock unit awards that would vest upon such event. Under the December 2010, 2011 and 2012 grants, these performance-based restricted stock units generally become vested and converted into the right to receive a cash payment based on the sum of (x) the product of (a) the price per share paid in the Rockwood change in control transaction, (b) a stockholder return multiplier based on Rockwood's stock price performance in relation to its peers and (c) the number of securities underlying the performance-based restricted stock units and (y) interest on such amount from the closing of such change in control transaction through the end of the relevant vesting period. For purposes of this table, awards are assumed to vest at targeted amounts. In the event of a termination of employment without cause by Rockwood or a resignation by the employee for good reason on or after a change in control, but prior to the respective vesting date, the cash payment will be accelerated.
- (9) Represents the pro rata portion of outstanding performance-based market stock unit awards that would vest upon such event based upon the targeted award from the grant date through the hypothetical termination date. For a termination without cause under the December 2010, 2011 and 2012 grants, the vesting of any amount is subject to the sole discretion of the Committee. This amount assumes the Committee awarded such pro rata portion to Mr. Ghasemi at target amounts. For a resignation by Mr. Ghasemi for good reason, none of the outstanding performance-based market stock unit awards would vest.
- (10) Represents the vesting of all outstanding performance-based market stock unit awards that would vest upon such event. However, under the December 2010, 2011 and 2012 grants, these performance-based market stock units generally become vested and converted into the right to receive a cash payment based on the sum of (x) the product of (a) the price per share paid in the Rockwood change in control transaction (b) a stock multiplier calculated as the quotient of (i) the change in control price, divided by (ii) the beginning stock price and (c) the number of securities underlying the performance-based market stock units and (y) interest on such amount from the closing of such change in control transaction through the end of the relevant vesting period. For purposes of this table, awards are assumed to vest at targeted amounts. In the event of a termination of the employee's employment without cause by Rockwood or a resignation by the employee for good reason on or after a change in control, but prior to the respective vesting date, the cash payment will be accelerated.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Review and Approval of Transactions with Related Persons

The board of directors has adopted a written policy for review, approval and monitoring of transactions involving the Company and "related persons," who are defined as directors and executive officers or their immediate family members, or stockholders owning five percent or more of our outstanding common stock. The policy covers any related person transaction that meets the minimum required threshold for disclosure in the proxy statement under the relevant SEC rules (generally, transactions involving amounts exceeding \$120,000 in which a related person has a direct or indirect material interest). In considering a transaction involving the Company and a related person, the corporate governance and nominating committee or the board of directors, as applicable, will consider, among other things, factors such as:

the extent of the related persons interest in the transaction;

the availability of other sources of comparable products or services;

the terms of the transaction and the benefit to the Company;

the value of the transaction;

how the transaction may impact the judgment of the related person; and

any other factors deemed appropriate by the committee or the board of directors.

Under the policy, the affected director or executive officer will bring the matter to the attention of the senior vice president, law & administration, who will communicate such information to the corporate governance and nominating committee, which will review the related party transaction. Under the policy, related party transactions must be approved by the corporate governance and nominating committee, although the chairperson of the corporate governance and nominating committee may approve any related party transaction that involves an amount less than \$1 million. However, any related party transaction that involves an amount in excess of \$5 million requires the approval of the board of directors.

Agreements with KKR, Morgan Stanley and/or Management

The Company was incorporated in September 2000 in connection with the acquisition of certain businesses by funds affiliated with Kohlberg Kravis Roberts & Co. L.P. ("KKR"). In late 2012 KKR sold most of its remaining shares in the Company and on January 8, 2013, Brian Carroll and Todd Fisher resigned from the board of directors.

Recent Transactions Involving KKR and Morgan Stanley

Affiliates of KKR were arrangers, coordinators and bookrunners, managers, co-managers, joint arrangers and/or syndication agents in connection with: (i) the refinancing of our senior secured credit facility in February 2012, adding a \$350 million Tranche A term loan facility; (ii) the offering in September 2012 of \$1.25 billion of our 4.625% Senior Notes due 2020; and (iii) the refinancing of the facility agreement of our titanium dioxide business in May 2012 consisting of €400 million in term loans and a €30 million revolving credit facility, and received fees in the amount of \$0.3 million, \$1.7 million and \$1.4 million, respectively, for performing these services. KKR is also a party to the registration rights agreement described below. In connection therewith, in November 2012, KKR sold 6,900,838 shares of Rockwood common stock at a price of \$42.67 per share in a block sale in which Morgan Stanley acted as underwriter. Affiliates of Morgan Stanley are also a coordinator and bookrunner for our titanium dioxide businesses' facility agreement and received fees in the amount of €2.2 million.

Registration Rights Agreement

We are a party to a registration rights agreement, dated November 20, 2000, as amended as of July 23, 2003, with certain of our stockholders, including members of our management and certain other employees who are parties to the management stockholder's agreements described above. Pursuant to the registration rights agreement, if we propose to register shares of our common stock for sale under the Securities Act, the other parties to the registration rights agreement are entitled to request that we include their shares in such sale.

Stockholders' Agreement with Affiliates of KKR

In connection with the acquisition of the Dynamit Nobel businesses, we entered into a stockholders' agreement, dated as of July 29, 2004, with affiliates of KKR. The stockholders' agreement was amended on January 27, 2006 and December 20, 2010.

Management Services Agreement with KKR

In connection with the Dynamit Nobel acquisition, we entered into a management services agreement, dated as of July 29, 2004, with KKR which was terminated in connection with our initial public offering. Certain provisions in the management services agreement survive such termination, including the indemnification by us of KKR.

Warrants

In connection with the issuance in July 2003 of redeemable convertible preferred stock which was redeemed with a portion of the net proceeds from our initial public offering, we issued to an affiliate of KKR warrants, exercisable at any time at a specified exercise price of \$14.61 per share, to purchase 958,315 additional shares of our common stock. These warrants were exercised in 2012.

Indemnification and Insurance

The Delaware General Corporation Law authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties. Our amended and restated certificate of incorporation provides that no director shall be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director.

Our amended and restated certificate of incorporation and our amended and restated by-laws provide that we must indemnify our directors and officers to the fullest extent authorized by the Delaware General Corporation Law. We are also expressly authorized to advance certain expenses (including attorneys' fees and disbursements and court costs) and carry directors' and officers' insurance providing indemnification for our directors, officers and employees for some liabilities. We believe that these indemnification provisions and insurance are useful to attract and retain qualified directors and officers.

ANNUAL REPORT AND HOUSEHOLDING

A copy of the Annual Report of the Company for the 2012 Fiscal Year is being made available concurrently with this Proxy Statement to all stockholders entitled to notice of and to vote at the annual meeting. The Annual Report is not incorporated into this Proxy Statement and is not considered proxy solicitation material.
