RISK FACTORS

You should carefully consider the risks described below, the risks set forth in our Annual Report on Form 10-K for the year ended December 31, 2012 and the other information set forth in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference before making an investment decision. Additional risks and uncertainties not presently known to us, or that we currently deem immaterial, may also impair our business operations. The events discussed in the risk factors below, or the risk factors in our Annual Report on Form 10-K for the year ended December 31, 2012, may occur. If they do, our business, results of operations or financial condition could be materially adversely affected. In such an instance, the trading price of our securities, including the notes, could decline and you might lose all or part of your investment.

The notes will be effectively subordinated to the indebtedness and other liabilities of our subsidiaries.

Substantially all of our operations are conducted through our subsidiaries. None of our subsidiaries is a guarantor of the notes. As a result, our right to receive assets upon the liquidation or recapitalization of any of our subsidiaries, and your consequent right to participate in those assets, is subject to the claims of such subsidiary's creditors. Accordingly, the notes are effectively subordinated to all indebtedness and other liabilities, including trade payables, of our subsidiaries. Even if we are recognized as a creditor of one or more of our subsidiaries, our claims would still be effectively subordinated to any security interests in the assets of any such subsidiary and to any indebtedness or other liabilities of any such subsidiary senior to our claims. As of September 30, 2013, our subsidiaries accounted for \$500 million of our total debt. For further discussion, see "As a holding company, we depend on the ability of our subsidiaries to transfer funds to us to pay dividends and to meet our obligations" under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012.

In addition, we derive substantially all of our revenues from our subsidiaries. As a result, our cash flow and our ability to service our debt and other obligations, including the notes, depends on the results of operations of our subsidiaries and upon the ability of our subsidiaries to provide us with cash to pay amounts due on our obligations, including the notes. Our subsidiaries are separate and distinct legal entities and have no obligation to make payments on the notes or to make funds available to us for that purpose. In addition, dividends, loans or other distributions from our subsidiaries to us may be subject to contractual, legal and regulatory and other restrictions, are dependent upon results of operations of our subsidiaries, may be subject to tax or other laws limiting our ability to repatriate funds from foreign subsidiaries and are subject to other business considerations.

The notes will be unsecured and therefore will be effectively subordinated to any secured indebtedness we may incur.

The notes will not be secured by any of our assets. As a result, the notes are effectively subordinated to any secured debt we or our subsidiaries may incur in the future to the extent of the value of the assets securing such debt. In any liquidation, dissolution, bankruptcy or other similar proceeding, the holders of any of our secured debt and the secured debt of our subsidiaries may assert rights against the assets pledged to secure that debt in order to receive full payment of their debt before the assets may be used to pay other creditors, including the holders of the notes.

The indenture under which the notes will be issued will contain limited protection for holders of the notes.

The indenture under which the notes will be issued offers limited protection to holders of the notes. The terms of the indenture and the notes do not restrict our or any of our subsidiaries' ability to engage in, or otherwise be a party to, a variety of corporate transactions, circumstances or events that

Edgar Filing: AMERIPRISE FINANCIAL INC - Form 424B2

Table of Contents

could have an adverse impact on your investment in the notes. In particular, the terms of the indenture and the notes will not place any restrictions on our or our subsidiaries' ability to:

issue securities or otherwise incur additional indebtedness or other obligations, including (1) any indebtedness or other obligations that would be equal in right of payment to the notes and (2) securities, indebtedness or obligations issued or incurred by our subsidiaries which would be senior to our equity interests in our subsidiaries and therefore rank effectively senior to the notes with respect to the assets of our subsidiaries;

pay dividends on, or purchase or redeem or make any payments in respect of, capital stock or other securities ranking junior in right of payment to the notes;

sell assets (other than certain limited restrictions on our ability to consolidate, merge or sell all or substantially all of our assets);

enter into transactions with affiliates;

create liens (including liens on the shares of our subsidiaries) or enter into sale and leaseback transactions;

make investments; or

create restrictions on the payment of dividends or other amounts to us from our subsidiaries.

Certain of our current debt instruments, including our 5.65% senior notes due 2015 (the "2015 Notes"), include more protections for their holders than the indenture and the notes. In particular, the 2015 Notes are entitled to the benefit of a limitation on our ability to incur liens on the shares of capital stock of our principal subsidiaries without equally and ratably securing the 2015 Notes, which protection will be unavailable to the holders of the notes. As a result, holders of the notes may be effectively subordinated to holders of the 2015 Notes, and to new lenders or bondholders, to the extent the instruments they hold include similar protections.

In addition, the indenture will not require us to offer to purchase the notes in connection with a change of control.

Furthermore, the terms of the indenture and the notes do not protect holders of the notes in the event that we experience changes (including significant adverse changes) in our financial condition or results of operations, as they do not require that we or our subsidiaries adhere to any financial tests or ratios or specified levels of net worth, revenues, income, cash flow, or liquidity.

Our ability to recapitalize, incur additional debt and take a number of other actions that are not limited by the terms of the notes could negatively affect the value of the notes.

If an active trading market does not develop for the notes, you may be unable to sell your notes or to sell your notes at a price that you deem sufficient.

The notes have no established trading market, and we do not intend to list them on any securities exchange or automated quotation system. The underwriters currently intend, but are not obligated, to make a market for the notes. As a result, an active trading market for the notes may not develop, or if one does develop, it may not be sustained. If an active trading market fails to develop or cannot be sustained, you may not be able to resell your notes at their fair market value or at all.

Whether or not a trading market for the notes develops, none of us or the underwriters can provide any assurance about the market price of the notes. Several factors, many of which are beyond our control, might influence the market value of the notes, including:

our creditworthiness;

Table of Contents

the market for similar securities; and

economic, financial, geopolitical, regulatory and judicial events that affect us, the industries and markets in which we are doing business, and the financial markets generally.

Financial market conditions and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Any increases in prevailing interest rates would likely have an adverse effect on the price of the notes.

Accordingly, the notes that an investor purchases, whether in this offering or in the secondary market, may trade at a discount to the price that the investor paid for the notes.

USE OF PROCEEDS

We estimate that the net proceeds to us from this offering will be approximately \$151.7 million, after deducting underwriting discounts and commissions and estimated offering expenses payable by us. The net proceeds received by us from the sale of the notes will be used for general corporate purposes.

Table of Contents**CONSOLIDATED RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth the historical ratio of (1) our earnings to fixed charges before banking and deposit interest expense and interest credited to fixed accounts and (2) our earnings to our fixed charges, in each case for the periods indicated. For purposes of computing these ratios:

"Earnings" consists of pretax income (loss) attributable to Ameriprise Financial, Inc. plus (a) interest and debt expense, (b) the estimated interest portion of rental expense, (c) amortization of capitalized interest, (d) undistributed loss from equity investees, (e) minority interest in pretax income of subsidiaries that have incurred fixed charges and (f) banking and deposit interest expense and interest credited to fixed accounts.

"Fixed charges" consists of the sum of (a) interest and debt expense, (b) the estimated interest portion of rental expense, (c) capitalized interest and (d) banking and deposit interest expense and interest credited to fixed accounts.

	Nine Months Ended September 30, 2013	Years Ended December 31,

Ratio of earnings to fixed charges	2.8x	2.1x	2.2x	2.1x	1.6x	(2)	

- (1) The formula for this ratio calculation is (a) earnings less banking and deposit interest expense and interest credited to fixed accounts divided by (b) fixed charges less banking and deposit interest expense and interest credited to fixed accounts, each computed as described above.
- (2) Earnings were insufficient to cover fixed charges for the year ended December 31, 2008 by \$303 million primarily due to negative market impacts on results of operations, including \$762 million in pretax impairments on available-for-sale securities.

DESCRIPTION OF THE NOTES

The notes constitute senior debt securities described in the accompanying prospectus. This description supplements, and should be read together with, the description of the general terms and provisions of the notes set forth in the accompanying prospectus under the caption "Description of Debt Securities We May Offer." This description, to the extent inconsistent therewith, replaces the descriptions of the general terms and provisions contained in "Description of Debt Securities We May Offer" in the accompanying prospectus.

The notes will be issued under the indenture dated as of May 5, 2006, entered into with U.S. Bank National Association, as trustee (the "indenture"). The following description does not purport to be complete and is subject to, and qualified in its entirety by reference to, the description in the accompanying prospectus and the indenture. We urge you to read the indenture because it, and not the summaries below and in the accompanying prospectus, defines your rights. You may obtain a copy of the indenture from us without charge. See "Where You Can Find More Information" in the accompanying prospectus.

General

The notes will be issued in a principal amount of \$150 million.

The notes form a part of the series of our 4.00% Senior Notes due 2023 and have the same terms, other than their date of issue and initial price to the public, as the other notes of this series issued by us on September 6, 2013 pursuant to a prospectus supplement dated September 3, 2013. The notes will have the same CUSIP number as those other notes and will trade interchangeably with those other notes immediately upon settlement. The notes offered hereby and the other notes previously issued by us on September 6, 2013 will constitute a single series under the indenture for all purposes, including, without limitation, for voting purposes. Upon issuance of the notes, the aggregate principal amount outstanding of our 4.00% Senior Notes due 2023 will be \$750 million.

The notes will be our unsecured obligations and will rank prior to all of our subordinated indebtedness and on an equal basis with all of our other senior unsecured indebtedness.

The notes will be issued in fully registered form only, without coupons, in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000. The notes will be represented by one or more global notes deposited with or on behalf of The Depository Trust Company ("DTC"), or a nominee thereof. The trustee will initially act as paying agent and registrar for the notes. Except as otherwise provided in the indenture, the notes will be registered in the name of that depository or its nominee. We will pay principal, premium, if any, and interest on the notes to the depository or its nominee, as the case may be, as the registered owner or the holder of the global note. As provided by the indenture, at our option, interest may be paid at the trustee's corporate trust office or by check mailed to the registered address of the holder of record.

Maturity

The entire principal amount of the notes will mature and become due and payable, together with any accrued and unpaid interest thereon, on October 15, 2023.

Interest Provisions Related to the Notes

Interest on the notes will accrue at the rate of 4.00% per annum and will be payable semi-annually in arrears on each April 15 and October 15, commencing on April 15, 2014. We will pay interest to those persons who were holders of record of the notes on the last day of the month preceding each interest payment date (March 31 and September 30) and at maturity.

Table of Contents

Interest on the notes will accrue from September 6, 2013 or, if interest has already been paid, from the date it was most recently paid, and will be computed on the basis of a 360-day year comprised of twelve 30-day months.

If any interest payment date, date of redemption or the maturity date of the notes is not a business day, then payment of principal and interest will be made on the next succeeding business day. No interest will accrue on the amount so payable for the period from such interest payment date, redemption date or maturity date, as the case may be, to the date such payment is made.
