Dear Fellow Stockholder:

You are cordially invited to join us for our Annual Meeting of Stockholders, to be held at 10:00 a.m. on Thursday, May 7, 2015, in the Auditorium of the Landmark Center, 75 West 5th Street, Saint Paul, Minnesota 55102. The Notice of Annual Meeting and the Proxy Statement that follow describe the business to be conducted at our Annual Meeting. We urge you to read both carefully.

We hope you plan to attend our Annual Meeting. However, if you will not be able to join us, we encourage you to exercise your right as a stockholder and vote. Please sign, date and promptly return the accompanying proxy card, or make use of either our telephone or Internet voting services. Stockholders not in attendance may listen to a broadcast of the meeting on the Internet. Webcast instructions will be available on-line at www.ecolab.com/investor.

Sincerely,

Douglas M. Baker, Jr.
Chairman of the Board
and Chief Executive Officer

**YOUR VOTE IS IMPORTANT!
PLEASE SUBMIT YOUR PROXY TODAY.**

Your vote is a valuable part of the investment made in our Company, and is the best way to influence corporate governance and decision-making. Please take time to read the enclosed materials and vote!

Whether or not you plan to attend the meeting, please complete the accompanying proxy and return it in the enclosed envelope. Or, you may vote by telephone or the Internet. If you attend the meeting, you may vote your shares in person even though you have previously returned your proxy by mail, telephone or the Internet.

PLEASE REFER TO THE ACCOMPANYING MATERIALS FOR VOTING INSTRUCTIONS.

**NOTICE OF ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD MAY 7, 2015**

To the Stockholders of Ecolab Inc.:

The Annual Meeting of Stockholders of Ecolab Inc. will be held on Thursday, May 7, 2015, at 10:00 a.m., in the Auditorium of the Landmark Center, 75 West 5th Street, Saint Paul, Minnesota 55102, for the following purposes (which are more fully explained in the Proxy Statement):

- (1) to elect as Directors to a one-year term ending in 2016 the 16 nominees named in the Proxy Statement;
- (2) to ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current year ending December 31, 2015;
- (3) to approve, on an advisory basis, the compensation of executives disclosed in the Proxy Statement;
- (4) to consider a stockholder proposal, if properly presented at the meeting, requesting an independent board chair; and
- (5) to transact such other business as may properly come before our Annual Meeting and any adjournment or postponement thereof.

Our Board of Directors has fixed the close of business on March 10, 2015 as the record date for the determination of stockholders entitled to notice of, and to vote at, the meeting.

By Order of the Board of Directors

PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
MAY 7, 2015

The Board of Directors of Ecolab Inc. is using this Proxy Statement to solicit proxies from the holders of Ecolab Common Stock, par value \$1.00 per share ("Common Stock"), for use at the 2015 Annual Meeting of Ecolab Stockholders. We are first mailing this Proxy Statement and accompanying form of proxy to Ecolab stockholders on or about March 23, 2015.

Meeting Time and Place Thursday, May 7, 2015, at 10:00 a.m., in the Auditorium of the Landmark Center, 75 West 5th Street, Saint Paul, Minnesota 55102.

Purpose of the Meeting is to vote on the following items:

- (1) to elect as Directors to a one-year term ending in 2016 the 16 nominees named in this Proxy Statement;
- (2) to ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current year ending December 31, 2015;
- (3) to approve, on an advisory basis, the compensation of executives disclosed in this Proxy Statement;
- (4) to consider a stockholder proposal, if properly presented at the meeting, requesting an independent board chair; and
- (5) to transact such other business as may properly come before our Annual Meeting and any adjournment or postponement thereof.

Record Date The record date for determining the holders of Common Stock entitled to vote at our Annual Meeting is the close of business on March 10, 2015.

Shares Entitled to Vote As of March 10, 2015, the record date for the meeting, there were 297,349,851 shares of Common Stock outstanding. Each share of Common Stock is entitled to one vote. Common Stock held by Ecolab in our treasury is not counted in shares outstanding and will not be voted.

Note References in this Proxy Statement to "Ecolab," "the Company," "we," or "our" are to Ecolab Inc.

VOTING PROCEDURES

Quorum A quorum of stockholders is necessary to hold a valid meeting. The presence in person or by proxy at the meeting of holders of a majority of the outstanding shares of Common Stock entitled to vote at the meeting is a quorum. Abstentions and broker non-votes count as present for establishing a quorum. Common Stock held by Ecolab in our treasury does not count toward a quorum.

Broker Non-Votes Generally, broker non-votes occur on a proposal when a broker is not permitted under applicable rules to vote on that proposal without instruction from the beneficial owner of the Common Stock and no instruction is given. Broker non-votes are not counted as

Edgar Filing: ECOLAB INC - Form DEF 14A

votes cast for any purpose in determining whether a matter has been approved. **To ensure that their views are represented at the meeting, we strongly urge all beneficial owners to provide specific voting instructions on all matters to be considered at the meeting to their record-holding brokers.**

How to Vote by Proxy You may vote in person by ballot at our Annual Meeting or by submitting a valid proxy. We recommend you submit your proxy even if you plan to attend the Annual Meeting. If you attend the Annual Meeting, you may vote by ballot, thereby canceling any proxy previously submitted.

Voting instructions are included on your proxy card. If you properly complete your proxy and submit it to us in time to be tabulated, one of the individuals named as your proxy will vote your Common Stock as you have directed. You may vote for or against each proposal, or you may abstain from voting on a proposal. With respect to the election of directors, you may vote for or against each nominee, or you may abstain from voting on the election of one or more nominees.

Revoking Your Proxy You may revoke your proxy at any time before it is voted by:

timely delivery of a valid, later-dated proxy, including a proxy given by telephone or Internet;

timely delivery of written notice to our Corporate Secretary before the Annual Meeting, stating that you have revoked your proxy; or

voting by ballot at our Annual Meeting.

Table of Contents

Treatment of Abstentions Shares voting "Abstain" will have no effect on the election of directors. For the other proposals to be voted on at the Annual Meeting, abstentions are treated as shares present or represented and voting and therefore have the same effect as negative votes.

Vote Tabulation The vote on each proposal will be tabulated as follows:

Proposal 1: Election of Directors Each nominee will be elected by a majority of the votes cast in uncontested elections. We currently expect that the election of directors at our meeting will be uncontested. Under the majority voting standard, a nominee must receive a number of "FOR" votes that exceeds 50% of the votes cast with respect to that director's election. Votes cast with respect to a nominee include votes FOR or AGAINST a nominee and exclude abstentions and broker non-votes.

In a contested election, directors will be elected by a plurality vote. A contested election is an election in which the number of candidates for election as directors exceeds the number of directors to be elected. Under the plurality standard, the 16 nominees receiving the most number of "FOR" votes will be elected as directors.

If an uncontested nominee for director does not receive an affirmative majority of "FOR" votes, he or she will be required to promptly offer his or her resignation to the Board's independent Governance Committee. That committee will then make a recommendation to the Board as to whether the offered resignation should be accepted or rejected, or whether other action should be taken. The Board will publicly announce its decision regarding the offered resignation and the rationale behind it within 90 days after the election results have been certified. Any director who has so offered his or her resignation will not be permitted to vote on or participate in the recommendation of the Governance Committee or the Board's decision with respect to his or her resignation.

Unless a contrary choice is specified, proxies solicited by our Board of Directors will be voted FOR the election of the 16 nominees named in this Proxy Statement. If, for any reason, any nominee becomes unavailable for election prior to our Annual Meeting, the proxies solicited by our Board of Directors will be voted FOR such substituted nominee as is selected by our Board of Directors, or our Board of Directors, at its option, may reduce the number of directors to constitute the entire Board.

Proposal 2: Ratification of Appointment of Independent Registered Public Accounting Firm The affirmative vote of a majority of the total votes cast by holders of shares present in person or represented by proxy at the Annual Meeting and entitled to vote will constitute ratification of the appointment of PricewaterhouseCoopers LLP. Unless a contrary choice is specified, proxies solicited by our Board of Directors will be voted FOR ratification of the appointment of PricewaterhouseCoopers LLP.

Proposal 3: Advisory Vote to Approve the Compensation of Executives Disclosed in this Proxy Statement The affirmative vote of a majority of the total votes cast by holders of shares present in person or represented by proxy at the Annual Meeting and entitled to vote will constitute approval of the compensation of executives disclosed in this Proxy Statement. Unless a contrary choice is specified, proxies solicited by our Board of Directors will be voted FOR approval of the compensation of executives disclosed in this Proxy Statement.

Proposal 4: Stockholder Proposal Requesting an Independent Board Chair The affirmative vote of a majority of the total votes cast by holders of shares present in person or represented by proxy at the Annual Meeting and entitled to vote will constitute approval of the proposal. Unless a contrary choice is specified, proxies solicited by our Board of Directors will be voted AGAINST the proposal.

Discretionary Voting We are not currently aware of any other business to be acted upon at our Annual Meeting. If, however, other matters are properly brought before the Annual Meeting, or any adjournment or postponement of the Annual Meeting, your proxy includes discretionary authority on the part of the individuals appointed to vote your Common Stock or act on those matters according to their best judgment, including to adjourn the Annual Meeting.

Adjournments Adjournment of our Annual Meeting may be made for the purpose of, among other things, soliciting additional proxies. Any adjournment may be made from time to time by approval of the holders of Common Stock representing a majority of the votes present in person or by proxy at the Annual Meeting, whether or not a quorum exists, without further notice other than by an announcement made at the Annual Meeting. We do not currently intend to seek an adjournment of the Annual Meeting.

STOCKHOLDER ACCESS

Communications with Directors Our stakeholders and other interested parties, including our stockholders and employees, can send substantive communications to our Board using the following methods published on our website at <http://investor.ecolab.com/corporate-governance.cfm>:

to correspond with the Board's Lead Director, please complete and submit the on-line "Contact Lead Director" form;

to report potential issues regarding accounting, internal controls and other auditing matters to the Board's Audit Committee, please complete and submit the on-line "Contact Audit Committee" form; or

to make a stockholder recommendation for a potential candidate for nomination to the Board, please submit an e-mail to the Board's Governance Committee, in care of our Corporate Secretary, at investor.info@ecolab.com.

All substantive communications regarding governance matters or potential accounting, control, compliance or auditing irregularities are promptly relayed or brought to the attention of the Lead Director or Chair of the Audit Committee following review by our management. Communications not requiring the substantive attention of our Board, such as employment inquiries, sales solicitations, questions about our products and other such matters, are handled directly by our management. In such instances, we respond to the communicating party on behalf of the Board. Nonetheless, our management periodically updates the Board on all of the on-line communications received, whether or not our management believes they are substantive. In addition to on-line communications, interested parties may direct correspondence to our Board of Directors, our Board Committees or to individual directors at our headquarters address, repeated at the top of page 1 of this Proxy Statement.

Future Stockholder Proposals and Director Nomination Process Any stockholder proposal, other than those for director nominations, must comply with advance notice procedures set forth in Article II, Section 4 of our By-Laws. As described in more detail below, stockholder proposals for director nominations must comply with Article II, Section 3 of our By-Laws. Under our By-Laws, to be in proper written form, the stockholder's notice to our Corporate Secretary must set forth as to each matter such stockholder proposes to bring before the Annual Meeting a brief description of the business desired to be brought before the Annual Meeting and the reasons for conducting such business at the Annual Meeting and, as to the stockholder giving the notice and any Stockholder Associated Person (i.e., any person acting in concert, directly or indirectly, with such stockholder and any person controlling, controlled by or under common control with such stockholder) (i) the name and record address of such person, (ii) the class or series and the number of shares beneficially owned by the stockholder, (iii) the nominee holder for, and number of, shares owned beneficially but not of record by such person, (iv) whether and the extent to which any hedging or other transaction or series of transactions has been entered into by or on behalf of, or any other agreement or arrangement has been made, the effect or intent of which is to mitigate loss to or manage risk or benefit of share price changes for, or to increase or decrease the voting power of, such person with respect to any share of stock of the Company, (v) to the extent known, the name and address of any other stockholder supporting the proposal, (vi) a description of all arrangements or understandings between or among such persons in connection with the proposal and any material interest in such proposal, and (vii) a representation by the stockholder that he or she intends to appear at the Annual Meeting to present the business. Any ownership information shall be supplemented by the stockholder giving the notice not later than ten (10) days after the record date for the meeting as of the record date. This summary is qualified in its entirety by reference to the full text of our By-Laws, which can be found on our website at <http://investor.ecolab.com/corporate-governance.cfm>. If the presiding Chairperson of the Annual Meeting of Stockholders determines that business, or a nomination, was not brought before the meeting in accordance with the By-Law provisions, that business will not be transacted or the defective nomination will not be accepted.

Deadline for Inclusion in the Proxy Statement All proposals to be considered by the Board for inclusion in the Proxy Statement and form of proxy for next year's Annual Meeting of Stockholders expected to be held on May 5, 2016, must be received by the Corporate Secretary at our headquarters address, repeated at the top of page 1 of this Proxy Statement, no later than November 24, 2015.

Deadline for Consideration Stockholder proposals not included in a Company proxy statement for an annual meeting as well as proposed stockholder nominations for the election of directors at an annual meeting must each comply with advance notice procedures set forth in our By-Laws in order to be properly brought before that annual meeting of stockholders. In general, written notice of a stockholder proposal or a director nomination must be received by the Corporate Secretary not less than 120 days nor more than

Edgar Filing: ECOLAB INC - Form DEF 14A

150 days prior to the anniversary date of the preceding annual meeting of stockholders. With regard to next year's Annual Meeting of Stockholders, expected to be held on May 5, 2016, the written notice must be received between December 9, 2015 and January 8, 2016, inclusive.

Director Nomination Process Our Board's Governance Committee has, under its Charter, responsibility for director nominee functions, including review of any director nominee candidates recommended by stockholders. The Governance Committee has the authority to:

Review and recommend to the Board of Directors policies for the composition of the Board, including such criteria as:

size of the Board;

diversity of experience, employment, background and other relevant factors of Board members;

the proportion of the Board to be comprised of non-management directors;

qualifications for new or continued membership on the Board, including experience, employment, background and other relevant considerations; and

director retirement requirements or standards.

Table of Contents

Review any director nominee candidates recommended by stockholders.

Identify, interview and evaluate director nominee candidates and have sole authority to:

retain and terminate any search firm to be used to assist the Committee in identifying director candidates; and

approve the search firm's fees and other retention terms.

Recommend to the Board:

the slate of director nominees to be presented by the Board for election at the Annual Meeting of Stockholders;

the director nominees to fill vacancies on the Board; and

the members of each Board Committee.

Any stockholder nomination for directors must comply with the advance notice procedures set forth in Article II, Section 3 of our By-Laws. Under our By-Laws, to be in proper written form, the stockholder's notice to our Corporate Secretary must set forth as to each person whom the stockholder proposes to nominate for election as a director (i) the name, age, business address, residence address and record address of the person, (ii) the principal occupation or employment of the person, (iii) the class and series and the number of shares owned beneficially or of record by the person, (iv) any information relating to the person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors pursuant to Section 14 of the Securities Exchange Act of 1934 (the "Exchange Act"), and the rules and regulations promulgated thereunder, (v) the nominee holder for, and number of, shares owned beneficially but not of record by the person, (vi) whether and the extent to which any hedging or other transaction or series of transactions has been entered into by or on behalf of, or any other agreement or arrangement has been made, the effect or intent of which is to mitigate loss to or manage risk or benefit of share price changes for, or to increase or decrease the voting power of, the person with respect to any share of stock of the Company, (vii) to the extent known, the name and address of any other stockholder supporting the nominee for election or reelection as a director on the date of such stockholder's notice, (viii) a description of all arrangements or understandings between or among persons pursuant to which the nomination(s) are to be made by the stockholder and (ix) a representation that the stockholder intends to appear in person or by proxy at the meeting to nominate the persons named in its notice. Any ownership information shall be supplemented by the stockholder giving the notice not later than ten (10) days after the record date for the meeting as of the record date. The notice must be accompanied by a written consent of the proposed nominee to being named as a nominee and to serve as a director if elected. No person shall be eligible for election as a director of the Company unless nominated in accordance with the foregoing procedures. This summary is qualified in its entirety by reference to the full text of our By-Laws, which can be found on our website at <http://investor.ecolab.com/corporate-governance.cfm>.

In terms of our principles for composition of the Board generally, and qualifications for director nominees specifically, we refer you to our Corporate Governance Principles, which can be found on our website at <http://investor.ecolab.com/corporate-governance.cfm>. Under these provisions, for example:

no more than three Board members will be from current management. These management members normally would be the Chief Executive Officer, the Chairman (if an employee of the Company and not the CEO) and the President (if an employee of the Company and not the CEO) but may be any other officer deemed appropriate by the Board;

it is desired that the members of the Board represent a geographical dispersion and variety of business disciplines so as to bring to the work of the Board a diversity of experience and background, with the predominance of members being chief or executive officers from different industries; and

Edgar Filing: ECOLAB INC - Form DEF 14A

a continuing effort is made to seek well-qualified women and minority group members for the Board, but these persons must be sought out and evaluated as individuals rather than as representatives of specific groups.

Other criteria relevant to service as a director of our Company are also set forth in our Corporate Governance Principles.

All directors are encouraged to submit to the Governance Committee the name of any person deemed qualified to serve on the Board, together with information on the candidate's qualifications. The Governance Committee screens and submits to the full Board the names and biographical information of those persons considered by the Committee to be viable candidates for election as directors. The same evaluation process and criteria are used by the Committee (i) for recommendations for director candidates submitted by stockholders in accordance with our Restated Certificate of Incorporation and By-Laws and (ii) for recommendations submitted by any other source, such as a director or a third-party search firm.

New Director Selection Process In 2014, the Governance Committee began a search for additional directors in light of the fact that several members of our Board of Directors are approaching the age set forth as a retirement guideline in our Corporate Governance Principles. The Governance Committee intended to concentrate on candidates with significant organizational leadership experience, including individuals who were chief executive officers or otherwise headed a large and complex organization as well as qualified candidates with experience that would round out our Board, particularly experience germane to our key end-markets, such as food, water and energy, and technical competencies, such as information technology and cyber security. The Committee also sought to ensure that women and people of color were considered. Throughout the Committee's process, numerous candidates were identified by a third-party search firm and by members of the Board of Directors. After discussion of the qualifications of the various candidates during regular Governance Committee meetings, the top candidates were agreed on by the Committee and interviewed by our Chairman and Chief Executive Officer, the Lead Director and Governance Committee Chair and other members of the Governance Committee. Following this process, Ms. McKibben was appointed to the Board in February 2015 for a term expiring at this year's Annual Meeting. Ms. McKibben was also included by the

Table of Contents

Board of Directors on the slate of nominees for election for a term expiring at the 2016 Annual Meeting, and, as such, she is included in the group of nominees for election at this Annual Meeting. Also, Mr. Ettinger was identified following the process described above and is included by the Board of Directors on the slate of nominees for election for a term expiring at the 2016 Annual Meeting, and, as such, he is included in the group of nominees for election at this Annual Meeting. See Mr. Ettinger's and Ms. McKibben's biographies on pages 16 and 19, respectively.

SECURITY OWNERSHIP

Certain Beneficial Owners The following table sets forth information as to entities which have reported to the Securities and Exchange Commission ("SEC") or have advised us that they are a "beneficial owner," as defined by the SEC's rules and regulations, of more than 5% of our outstanding Common Stock.

Title of Class	Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class(1)
Common	William H. Gates III One Microsoft Way Redmond, WA 98052	32,286,819(2)	10.9%
Common	The Vanguard Group 100 Vanguard Blvd. Malvern, PA 19355	17,113,538(3)	5.8%
Common	BlackRock, Inc. 55 East 52nd Street New York, NY 10022	15,290,305(4)	5.1%

(1) The percent of class is based on the number of voting shares outstanding as of March 10, 2015.

(2) This information is based on Amendment No. 5 to the Schedule 13D filed jointly with the SEC on May 7, 2012 by Cascade Investment, LLC, which we refer to as Cascade, William H. Gates III, whom we refer to as Mr. Gates, the Bill and Melinda Gates Foundation Trust, which we refer to as the Trust, and Melinda French Gates, whom we refer to as Mrs. Gates, and a Form 4 relating to Mr. Gates filed with the SEC on June 7, 2012. Mr. Gates reports that he has sole power to vote or direct the vote, and to dispose or to direct the disposition, of 27,920,394 shares of Ecolab common stock beneficially owned by Cascade, as the sole

member of such entity. Additionally, the Schedule 13D reports that Mr. Gates and Mrs. Gates share the power to vote or direct the vote, and to dispose or to direct the disposition of, 4,366,425 shares of Ecolab common stock beneficially owned by the Trust, as co-trustees of such entity.

(3)

This information is based on Amendment No. 2 to the Schedule 13G filed on February 11, 2015 by The Vanguard Group, Inc., which we refer to as Vanguard. Vanguard reports that, as of December 31, 2014, they have sole power to vote or direct the vote of 472,041 shares, sole power to dispose or to direct the disposition of 16,669,608 shares and shared power to dispose or direct the disposition of 443,930 shares of Ecolab common stock.

(4)

This information is based on the Schedule 13G filed on February 6, 2015 by BlackRock, Inc. ("BlackRock"). BlackRock reports that, as of December 31, 2014, they have sole power to vote or direct the vote of 12,842,710 shares, and sole power to dispose or to direct the disposition of 15,290,305 shares of Ecolab common stock.

Executive Officers and Directors In general, "beneficial ownership" includes those shares of our Common Stock which a director or executive officer has the power to vote or transfer, as well as stock options that are exercisable currently or within 60 days and stock underlying stock units that may be acquired within 60 days. On March 10, 2015, our current executive officers and directors beneficially owned, in the aggregate, 4,344,049 shares of Common Stock constituting approximately 1.5% of our shares outstanding. As required by SEC disclosure rules, "shares outstanding" for this purpose includes options exercisable within 60 days and stock underlying stock units that may be acquired within 60 days by such executive officers and directors. The detail of beneficial ownership is set forth in the following table.

Mr. Larson is the Business Manager of Cascade Investment, LLC ("Cascade"), an entity owned by William H. Gates III, and the chief investment officer for Mr. Gates. As the Business Manager of Cascade, Mr. Larson has voting and investment power with respect to 27,920,394 shares of Ecolab common stock held by Cascade, and as the chief investment officer for Mr. Gates, he has voting and investment power with respect to 4,366,425 shares of Ecolab common stock held by the Bill & Melinda Gates Foundation Trust (the "Trust"). Mr. Larson disclaims beneficial ownership of any shares held by Cascade or the Trust.

CORPORATE GOVERNANCE

Corporate Governance Materials and Code of Conduct Our Company is managed under the overall direction of our Board of Directors for the benefit of all stockholders. Written materials concerning policies of our Board of Directors, corporate governance principles and corporate ethics practices, including our Code of Conduct as last amended in 2012, are available on our website at <http://investor.ecolab.com/corporate-governance.cfm>.

We intend to promptly disclose on our website should there be any amendments to, or waivers by the Board of Directors of, the Code of Conduct.

Board Structure Under our Corporate Governance Principles, the preferable size of the Board is between 11 and 15 members, in order to facilitate effective discussion and decision-making, adequate staffing of Board Committees, and a desired mix of diversified experience and background. Our Board of Directors currently consists of 15 members. As described on page 13 under Proposal 1: Election of Directors, the 16 nominees, if elected, will serve a one-year term ending as of the 2016 Annual Meeting expected to be held on May 5, 2016.

Table of Contents

Board Leadership Structure Our Board of Directors is led by Douglas M. Baker, Jr., our Chairman, who is also our Chief Executive Officer. Mr. Baker has served as our Chief Executive Officer and as a director since 2004, and he was elected Chairman in 2006.

As stated in our Corporate Governance Principles, the Board believes that it is best not to have a fixed policy on whether the offices of Chairman and Chief Executive Officer are to be held by one person or not. In May 2014, the Board determined that its current board leadership structure remains appropriate and best serves the interests of stockholders at this time. In making that annual determination, the Board considered numerous factors, including the benefits to the decision-making process with a leader who is both Chairman and Chief Executive Officer; the significant operating experience and qualifications of Mr. Baker; the importance of deep Ecolab knowledge in exercising business judgment in leading the Board; the size and complexity of our business; the significant business experience and tenure of our directors; and the qualifications and role of our Lead Director.

In accordance with our Corporate Governance Principles, the independent directors, after recommendation of the Governance Committee, re-appointed Jerry W. Levin as Lead Director in May 2014. As detailed in Mr. Levin's biography and qualifications on page 18, Mr. Levin has extensive public company board experience. Mr. Levin also is independent and is the Board's longest serving director, with 22 years of continuous service, so he has considerable knowledge of our business. Specific responsibilities of the Lead Director, as enumerated in our Corporate Governance Principles, include:

presiding over meetings of the board at which the Chairman is not present, including executive sessions of the independent directors;

acting as a liaison between the Chairman and the independent directors;

reviewing and approving information sent to the Board;

reviewing and approving meeting agendas for the Board;

reviewing and approving meeting schedules to assure that there is sufficient time for discussion of all agenda items;

at the discretion of the Lead Director, calling meetings of the independent directors; and

if requested by significant stockholders, ensuring that he or she is available for consultation and direct communication.

Mr. Baker continues to work closely with Mr. Levin to ensure the smooth and effective operation of the Board.

Board's Role on Risk Oversight The Board of Directors, in exercising its overall responsibility to direct the business and affairs of the Company, has established various processes and procedures with respect to risk management. First, annually as a core agenda item of the full Board, management presents to the Board a comprehensive and detailed risk assessment for the Company after following a vigorous enterprise risk review and analysis. Pursuant to the risk assessment, the Company has categorized the most relevant risks as follows: strategic, operating, reporting and compliance. As part of the annual risk assessment, the Board determines whether any of the Company's overall risk management processes or control procedures requires modification or enhancement.

Strategic risk, which relates to the Company properly defining and achieving its high-level goals and mission, and operating risk, which relates to the effective and efficient use of resources and pursuit of opportunities, are regularly monitored and managed by the full Board through the Board's regular and consistent review of the Company's operating performance and strategic plan. For example, at each of the Board's six regularly scheduled meetings throughout the year, management provided the Board presentations on the Company's various business units as well as the Company's performance as a whole. Agenda items were included for significant developments as appropriate, for example, significant acquisitions, important market developments and management succession. Pursuant to the Board's established monitoring procedures, Board approval is required for the Company's strategic plan and annual plan which are reported on by management at each Board meeting. Similarly, significant transactions, such as acquisitions and financings, are brought to the Board for approval.

Reporting risk, which relates to the reliability of the Company's financial reporting, and compliance risk, which relates to the Company's compliance with applicable laws and regulations, are primarily overseen by the Audit Committee. The Audit Committee meets at least five times per year and, pursuant to its charter and core agendas, receives input directly from management as well as from the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP, regarding the Company's financial reporting process, internal controls and public filings. The Committee also receives regular updates from the Company's General Counsel and the Chief Compliance Officer regarding any Code of Conduct issues or legal compliance concerns and annually receives a summary of all Code of Conduct incidents during the preceding year from the Chief Compliance Officer. See "Board Committees - Audit Committee" on page 8 for further information on how the Audit Committee monitors, and assists the Board of Directors' oversight of, reporting and compliance risks.

The Company believes that its leadership structure, discussed in detail above, supports the risk oversight function of the Board. While the Company has a combined Chairman of the Board and Chief Executive Officer, we have a Lead Director, strong directors chair the various Board Committees involved in risk oversight, there is open communication between management and directors, and all directors are actively involved in the risk oversight function.

Compensation Risk Analysis The Compensation Committee has established an annual process and criteria for assessing risk in our compensation programs and has directed management to apply that process and criteria to all compensation plans and practices that have the potential to give rise to behavior that creates risks that are reasonably likely to have a material adverse effect on the Company and to report the results to the Compensation Committee. As part of the process in 2014, the Company took the following steps to complete the assessment: (1) we agreed on a materiality framework for determining which compensation plans and practices to review; (2) we inventoried plans and practices that fell within the materiality framework;

Table of Contents

(3) we reviewed the identified plans and practices against our evaluation framework established in consultation with the Compensation Committee's independent compensation consultant, Frederic W. Cook & Co., Inc. ("Cook & Co."); (4) we identified factors, processes or procedures in place which may mitigate any risks in identified plans and practices; and (5) the Compensation Committee reviewed the results of the analysis with Cook & Co. Our risk assessment revealed that our compensation programs do not create risks that are reasonably likely to have a material adverse effect on the Company. In making this determination, we took into account the compensation mix for our employees as well as various risk control and mitigation features of our programs, including varied and balanced performance targets, review procedures for incentive pay calculations, appropriate incentive payout caps, the Company's rights to cancel incentive awards for employee misconduct, discretionary authority of the Compensation Committee to reduce award pay-outs, internal controls around customer and distributor pricing and contract terms, our stock ownership guidelines, prohibition on hedging Company stock and our compensation recovery ("clawback") policy.

Director Attendance There were six meetings of the Board of Directors during the year ended December 31, 2014. Each incumbent director attended at least 81% of all Board meetings and meetings held by all Committees on which he or she served. Overall attendance at Board and Committee meetings was 96%. Directors are expected, but are not required, to attend our Annual Meeting of Stockholders. All of the directors then serving who were continuing to serve following the meeting attended last year's Annual Meeting.

Board Committees Our By-Laws permit the Board of Directors to designate Committees, each comprised of three or more directors, to assist the Board in carrying out its duties. The Board annually reviews its Committee structure as well as the Charter and composition of each Committee and makes modifications as necessary. The Charters for the Board's five standing Committees – Audit, Compensation, Finance, Governance and Safety, Health and Environment – were last reviewed and approved by the Board in May 2014, and the charter for the Finance Committee was amended effective February 2015. The Charters of each of our Committees are available on our website at www.ecolab.com/investors/board-of-directors. The separately designated standing Audit Committee meets the requirements of Section 3(a)(58)(A) of the Exchange Act. The members of the Audit, Compensation and Governance Committees meet the "independence" and other requirements established by the rules and regulations of the SEC, the Internal Revenue Code of 1986, as amended (the "IRS Code"), the New York Stock Exchange and our Board, as applicable.

Audit Committee The Audit Committee members are Mses. McKibben, Reich (Vice Chair) and Vautrinot and Messrs. Casale, Chazen, Johnson (Chair) and Lumpkins. The Committee met five times during 2014. In addition, either the full Audit Committee or the Committee Chair, as representative of the Committee (and at their election the other members of the Audit Committee), discussed the interim financial information contained in each quarterly earnings announcement for the first three calendar quarters of 2014 with our Chief Financial Officer, Controller and Assistant Controller and with our independent registered public accounting firm, prior to each of our quarterly earnings announcements. The Committee met to discuss the financial information contained in the fourth quarter and full year 2014 earnings announcement prior to dissemination of that press release and it being furnished to the SEC on a Form 8-K in February 2015. The Form 10-K for the year ended December 31, 2014, was also discussed by the Committee at its February 2015 meeting.

The Committee fulfills, and assists the Board of Directors' oversight of, its responsibilities to monitor (i) the quality and integrity of our consolidated financial statements and management's financial control of operations; (ii) the qualifications, independence and performance of the independent accountants; (iii) the role and performance of the internal audit function; and (iv) our compliance with legal and regulatory requirements. The Committee meets regularly and privately with our management and internal auditors and with our independent registered public accounting firm, PricewaterhouseCoopers LLP.

A report of the Audit Committee is found under the heading "Audit Committee Report" at page 46.

The Board of Directors has determined that each member of the Audit Committee is "independent" and meets the independence and other requirements of Sections 303A.02 and 303A.07(b) of the listing standards of the New York Stock Exchange, and Rule 10A-3 under the Exchange Act, as well as of our Board. The Board has determined that each of Mses. McKibben and Reich and Messrs. Casale, Chazen, Johnson and Lumpkins is an "audit committee financial expert" under the SEC's rules and should be so designated. Further, the Board has determined, in its business judgment, that each of Mses. McKibben and Reich and Messrs. Casale, Chazen, Johnson and Lumpkins has "accounting and related financial management expertise" and that each member of the Audit Committee is "financially literate" under the New York Stock Exchange's listing standards.

Compensation Committee The Compensation Committee members are Messrs. Biller, Grundhofer (Chair), Higgins, Levin and Zillmer (Vice Chair). The Committee met five times during 2014. The principal functions of this Committee are to (i) review and approve or recommend to the Board, as applicable, with respect to the establishment, amendment and administration of any

Edgar Filing: ECOLAB INC - Form DEF 14A

compensation plans, benefits plans, severance arrangements and long-term incentives for directors and any executive officers (including the CEO); (ii) review and approve our overall compensation policy and annual executive salary plan, including CEO compensation; and (iii) administer our director stock option and deferred compensation plans, executive and employee stock incentive plans, stock purchase plans, cash incentive programs and stock retention and ownership guidelines. The Committee may not delegate its primary responsibilities with respect to overseeing executive officer compensation. In accordance with the terms of our 2010 Stock Incentive Plan, the Committee has delegated to the CEO (in his capacity as a director) the authority to grant long-term incentives to employees who are not officers or directors, subject to specified thresholds and applicable law. A report by the Committee is located on page 21 of this Proxy Statement.

To assist the Committee in the design and review of the executive and director compensation programs, the Committee has selected and retained Cook & Co., an independent compensation consulting firm, which reports directly to the Committee. As requested from time to time on behalf of the Committee, Cook & Co. provides the Committee with market data regarding various

Table of Contents

components of executive and director compensation, reviews the methodology on which compensation is based and designed, and informs the Committee of market trends in executive and director compensation. Cook & Co. performs no services for us other than those performed on behalf of the Committee.

The Committee has considered the independence of Cook & Co. in light of SEC rules and New York Stock Exchange listing standards. In connection with this process, the Committee has reviewed, among other items, a letter from Cook & Co. addressing the independence of Cook & Co. and the members of the consulting team serving the Committee, including the following factors: (i) other services provided to us by Cook & Co.; (ii) fees paid by us as a percentage of Cook & Co.'s total revenue; (iii) policies or procedures of Cook & Co. that are designed to prevent conflicts of interest; (iv) any business or personal relationships between the senior advisor of the consulting team with a member of the Committee; (v) any Ecolab stock owned by the senior advisor; and (vi) any business or personal relationships between our executive officers and the senior advisor. The Committee discussed these considerations and concluded that the work performed by Cook & Co. and its senior advisor involved in the engagement did not raise any conflict of interest.

The Board of Directors has determined that each member of the Compensation Committee meets the independence requirements of the SEC (including Rule 16b-3), the New York Stock Exchange, Section 162(m) of the IRS Code and of our Board.

Finance Committee The current Finance Committee members are Mses. McKibben and Vautrinot and Messrs. Biller (Chair), Chazen, Grundhofer, and Larson (Vice Chair). The Committee met five times during 2014. The principal functions of this Committee are to review and make recommendations to the Board concerning (i) management's financial and tax policies and standards; (ii) our financing requirements, including the evaluation of management's proposals concerning funding to meet such requirements; (iii) share repurchases and dividends; (iv) our capital expenditure budget; (v) adequacy of insurance coverage; and (vi) our use of derivatives to limit financial risk. The Committee also evaluates specific acquisition, divestiture and capital expenditure projects from a financial standpoint and reviews the financial impact of our significant retirement plans.

Governance Committee The Governance Committee members are Ms. Beck and Messrs. Higgins (Vice Chair), Johnson, Levin (Chair), and Zillmer. The Committee met four times during 2014. Certain functions of the Governance Committee are described on pages 3 and 4 of this Proxy Statement under the heading "Director Nomination Process." In addition, the principal functions of this Committee include: (i) lead the annual review of Board performance and effectiveness; (ii) review the Board's organizational structure and operations (including appointing a lead director for executive sessions of non-management directors) and its relationship to senior management; (iii) review issues of senior management succession; (iv) lead the annual Chief Executive Officer performance review and oversee the evaluation process for senior management; (v) review Certificate of Incorporation, By-Law or stockholder rights plan issues or changes in fundamental corporate charter provisions; (vi) review various corporate governance matters (including any necessary modifications to the Corporate Governance Principles); (vii) review and recommend to the Board with respect to director independence determinations and review, approve or ratify reportable related-person transactions; (viii) receive reports from management with regard to relevant social responsibility issues and report to the Board as appropriate; (ix) review our Company's efforts to achieve its affirmative action and diversity goals; (x) review director orientation, training and continuing education; (xi) review our political contributions policy as well as our corporate contributions; and (xii) undertake special projects which do not fall within the jurisdiction of other committees of the Board.

The Board of Directors has determined that each member of the Governance Committee meets the "independence" requirements of the SEC, the New York Stock Exchange and of our Board.

Safety, Health and Environment Committee The members of the Safety, Health and Environment Committee are Mses. Beck (Vice Chair) and Reich and Messrs. Baker, Casale, Larson, and Lumpkins (Chair). The Committee met four times during 2014. This Committee monitors compliance with applicable safety, health and environmental ("SHE") laws and regulations. The principle functions of this Committee include: (i) review SHE policies, programs and practices, SHE risks, SHE statistics, pending SHE matters, security risks and industry best practices; (ii) review regulatory, environmental and health and safety trends, issues and concerns which affect or could affect Ecolab's SHE practices; (iii) review the implementation of Ecolab's SHE practices and related compliance with applicable policies; and (iv) review Ecolab's Sustainability Report.

- (1) Represents annual retainer of \$100,000 earned during 2014, plus additional fees paid to the Lead Director, the respective Chairs of Board Committees and the members of the Audit Committee; includes retainer and fees, if any, deferred at the election of directors pursuant to the 2001 Non-Employee Director Stock Option and Deferred Compensation Plan (the "2001 Plan"), as described in footnote (2) below. The dollar amount of retainer and fees deferred by applicable directors during 2014 is as follows: Ms. Beck, \$100,000; Mr. Chazen, \$55,000; Mr. Grundhofer, \$115,000; Mr. Higgins, \$100,000; Mr. Johnson, \$120,000; Mr. Lumpkins, \$120,000; Ms. Reich, \$110,000; and Ms. VanDeWeghe, \$38,984.
- (2) Represents the crediting by the Company of \$72,500 (or a pro rata portion thereof) to a deferred stock unit account under the 2001 Plan during 2014. The features of the deferred stock unit account are described under footnote (3) to the "Security Ownership – Executive Officers and Directors" table at page 6 and the director compensation deferral paragraph under the "Summary" heading at page 11.
- (3) Represents the full grant date fair value of each option award, computed in accordance with FASB ASC Topic 718 (entitled "Compensation-Stock Compensation"). The value has been determined by application of the lattice (binomial)-pricing model, based upon the terms of the option grant to directors. Director stock options granted in May 2014 to directors have a ten-year contractual exercise term and vest 25% at the end of each

three-month period following the date of grant. Key assumptions include: risk-free rate of return, expected life of the option, expected stock price volatility and expected dividend yield. The specific assumptions used in the valuation of these options is summarized in the table below:

Grant Date	Risk Free Rate	Expected Life	Expected Volatility	Expected Dividend Yield
05/08/2014	1.92%	6.11 years	22.93%	1.05%

As of December 31, 2014, the aggregate number of stock options held by each director named in the table above is as follows: Ms. Beck, 28,300; Mr. Biller, 42,200; Mr. Casale, 3,400; Mr. Chazen, 5,600; Mr. Grundhofer, 31,800; Mr. Higgins, 18,100; Mr. Johnson, 42,200; Mr. Larson, 10,100; Mr. Levin, 2,400; Mr. Lumpkins, 42,200; Ms. Reich, 20,300; Ms. VanDeWeghe, 8,600; Ms. Vautrinot, 2,900; and Mr. Zillmer, 36,600.

- (4) Mr. Casale received an initial stock option grant in May 2014 valued at \$23,550 under FASB ASC Topic 718 to reflect his prorated service commencing in December 2013, as well as his periodic stock option grant valued at \$56,520.
- (5) Ms. VanDeWeghe retired from the Board on May 8, 2014 and received pro-rated portions of compensation for 2014.
- (6) Ms. Vautrinot was elected to the Board effective February 2014, and received a pro-rated portion of compensation for 2014. Ms. Vautrinot received an initial stock option grant in May 2014 valued at \$11,775 under FASB ASC Topic 718 to reflect her prorated service commencing in February, as well as her periodic stock option grant valued at \$56,520.

Summary During 2014, members of the Board of Directors who are not employees of the Company were entitled to receive base annual compensation valued at \$227,500 as follows:

An annual retainer of \$100,000;

\$72,500 annually in the form of stock units (which are described under footnote (3) to the "Security Ownership Executive Officers and Directors" table at page 6 and the director compensation deferral paragraph below); and

Stock options having a grant date fair value of approximately \$55,000.

Table of Contents

We also paid the following supplemental retainers to the Lead Director, committee chairs and members of the Audit Committee:

Type	Amount
Lead Director	\$25,000
Audit Committee Chair	\$20,000
Compensation Committee Chair	\$15,000
Finance Committee Chair	\$10,000
Governance Committee Chair	\$10,000
Safety, Health and Environment Committee Chair	\$10,000
Audit Committee Member	\$10,000

All reasonable travel, telephone and other expenses incurred by directors on behalf of Ecolab were reimbursed.

Non-employee directors may elect to defer some, or all, of the cash portion of their annual retainer and additional fees in a cash account or a deferred stock unit account until cessation of Board service. Amounts deferred in the cash account earn interest at market rates and amounts deferred in the stock unit account are credited with dividend equivalents. Upon cessation of Board service, deferred amounts (whether in the interest-bearing account or in the stock unit account) are paid in a lump sum or in equal installments to a maximum of ten years as elected by the director. The aggregate number of stock units held by each non-employee director is set forth under footnote (3) to the "Security Ownership Executive Officers and Directors" table at page 6.

Director stock option grants are made on the date of the Annual Meeting of Stockholders and have an exercise price which is the average of the high and low market price on the date of grant. We believe that the use of the average of the high and low market price on the date of the grant removes same-day stock volatility. We do not have a program, plan or practice to time stock option grants to directors in coordination with the release of material non-public information. Director stock options vest 25% at the end of each three-month period following the grant date. The options granted to directors under the 2001 Plan may be transferred to defined family members or legal entities established for their benefit.

Stock Retention and Ownership Guidelines We have in place stock retention and ownership guidelines to encourage our directors to accumulate a significant ownership stake so they are vested in maximizing long-term stockholder returns. Our guidelines provide that our directors own Company stock with a market value of at least five times the annual retainer. Until the stock ownership guideline is met, the director is expected to retain 100% of all after-tax profit shares from stock option exercises. For purposes of complying with our guidelines, stock is not considered owned if subject to an unexercised stock option. Shares owned outright, legally or beneficially, by a director or his or her immediate family members residing in the same household and deferred stock units in the director's deferral plan count towards meeting the guidelines. Our directors may not pledge shares or enter into any risk hedging arrangements with respect to Company stock. Our directors are in compliance with our guidelines by either having achieved the ownership guideline or, if the guideline is not yet achieved, by retaining 100% of all after-tax profit shares from any stock option exercises.

Changes Effective in 2015 The Committee reviews our compensation program for non-employee directors annually; however, it is our general practice to consider adjustments to our program every other year. Based upon the recommendation of the Compensation Committee's independent consultant, Cook & Co., we made the following changes effective as of January 1, 2015: (1) increased the annual retainer from \$100,000 to \$105,000; (2) increased the annual deferred stock unit award from \$72,500 to \$100,000; (3) increased the annual retainer for the Compensation Committee chair from \$15,000 to \$20,000; and (4) increased the annual retainers for the chairs of the Finance, Governance and Safety, Health and Environment Committees from \$10,000 to \$15,000. We retained all of the other components of our non-employee director compensation program, including the annual stock option grant with a grant date fair value of \$55,000 and the retainers for the Lead Director, Audit Committee chair and Audit Committee members, without change.

The changes to the annual retainer and stock unit awards increase total annual director compensation from \$227,500 per year to \$260,000 per year, excluding committee retainers, which is within the median range of our competitive market. For director compensation, we define our competitive market as a group of 20 comparison companies for compensation benchmarking and the median range as within 10% of the median for total annual director compensation. The companies comprising our comparison group are the same as the executive compensation comparison group and are set forth at page 26 of this Proxy Statement.

DIRECTOR INDEPENDENCE STANDARDS AND DETERMINATIONS

"Independence" Standards Pursuant to the Board of Directors' policy, a director is not independent if:

- (i) The director is, or has been within the last three years, an employee of the Company, or an immediate family member is, or has been within the last three years, an executive officer, of the Company.
- (ii) The director has received, or has an immediate family member who has received, during any twelve-month period within the last three years, more than \$120,000 in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service).
- (iii) (A) The director is a current partner or employee of a firm that is the Company's internal or external auditor; (B) the director has an immediate family member who is a current partner of such a firm; (C) the director has an immediate family member who is a current employee of such a firm and personally works on the Company's audit; or (D) the director or an

immediate family member was within the last three years a partner or employee of such a firm and personally worked on the Company's audit within that time.

(iv)

The director or an immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of the Company's present executive officers at the same time serves or served on that company's compensation committee.

(v)

The director is a current employee, or an immediate family member is a current executive officer, of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues.

The Board of Directors' independence policy is also available on our website at www.ecolab.com/investors/board-of-directors.

"Independence" Determinations In February 2015, the Governance Committee undertook a review of director independence by examining the nature and magnitude of transactions and relationships during 2014, 2013 and 2012 between each director serving during 2014 or director nominee, as the case may be (or any member of his or her immediate family or the company he or she is employed by and its subsidiaries and affiliates), and Ecolab, its subsidiaries and affiliates. Appropriate scrutiny is given to any situation which could be reasonably considered a material relationship. Both the existence and nature of the relationship are considered. The relationships include, among others, commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships. Ecolab also endeavors to identify, quantify and evaluate ordinary-course commercial transactions between Ecolab and any company that employs a director or director nominee, including subsidiaries and affiliates of the company. In this regard, the Board's Governance Committee has reviewed the following transactions and determined that the transactions do not exceed the Board's categorical "independence" standards described above or adversely affect the director or director nominee for "independence" status as the combined impact of the transactions is immaterial to Ecolab and the respective organizations:

Mr. Chazen serves as President and Chief Executive Officer of Occidental Petroleum Corporation. During 2014, Ecolab's sales to Occidental Petroleum and its affiliates were approximately \$58 million, or less than 0.3% of Occidental Petroleum's revenues, and Ecolab's purchases from Occidental Petroleum and its affiliates were approximately \$10 million, or less than 0.05% of Occidental Petroleum's revenues. Ecolab believes all sales to, and purchases from, Occidental Petroleum were made in the ordinary course, at arm's length, and at prices and on terms customarily available. Further, Ecolab believes Mr. Chazen had no personal interest in, nor received any personal benefit from, such commercial transactions.

Mr. Ettinger serves as Chairman of the Board, President and Chief Executive Officer of Hormel Foods Corporation. During 2014, Ecolab's sales to Hormel Foods and its affiliates were approximately \$8 million, or less than 0.1% of Hormel Foods' revenues, and Ecolab's purchases from Hormel Foods and its affiliates were approximately \$0.1 million, or less than 0.001% of Hormel Foods' revenues. Ecolab believes all sales to Hormel Foods were made in the ordinary course, at arm's length, and at prices and on terms customarily available. Further, Ecolab believes Mr. Ettinger had no personal interest in, or received any personal benefit from, such commercial transactions.

Mr. Casale serves as President and Chief Executive Officer of CHS, Inc. During 2014, Ecolab's sales to CHS and its affiliates were approximately \$3 million, or less than 0.008% of CHS's revenues. Ecolab believes all sales to CHS were made in the ordinary course, at arm's length, and at prices and on terms customarily available. Further, Ecolab believes Mr. Casale had no personal interest in, or received any personal benefit from, such commercial transactions.

Based on the review of the Governance Committee, the Board of Directors has determined that the following directors or director nominees, as the case may be, including those on the slate of nominees for election to the Board at this year's Annual Meeting (other than Mr. Baker), are, and have been since January 1, 2014, or the date which they became an Ecolab director if later than January 1, 2014, independent in accordance with the listing standards of the New York Stock Exchange, the rules and regulations of the SEC, applicable law, and the Board's "independence" policy: Barbara J. Beck, Leslie S. Biller, Carl M. Casale, Stephen I. Chazen, Jeffrey M. Ettinger, Jerry A. Grundhofer, Arthur J. Higgins, Joel W. Johnson, Michael Larson, Jerry W. Levin, Robert L. Lumpkins, Tracy B. McKibben, Victoria J. Reich, Suzanne M. Vautrinot, Mary M. VanDeWeghe (retired from the Board in May 2014) and John J. Zillmer.

The Board determined that Douglas M. Baker, Jr. is not "independent," due to his status as the current Chief Executive Officer.

RELATED-PERSON TRANSACTIONS

The Governance Committee of the Board of Directors is responsible for reviewing, approving or ratifying transactions in excess of \$120,000 with the Company's executive officers or directors, including their immediate family members, or any greater than 5% stockholder known to us. Our practices and procedures for identifying transactions with related persons are located in the charter of the Governance Committee. The Governance Committee considers the related person's relationship to the Company and interest in the transaction; the material facts of the transaction, including the proposed aggregate value of such transaction; the benefits to the Company of the proposed related-person transaction; if applicable, the availability of other sources of comparable products or services; an assessment of whether the proposed related-person transaction is on terms that are comparable to the terms available to an unrelated third party or to employees; and such other factors and information as the Governance Committee may deem appropriate. The Governance Committee determined that there were no such transactions with related persons during 2014, nor any currently anticipated transactions.

COMPENSATION DISCUSSION AND ANALYSIS**INTRODUCTION AND OVERVIEW**

The Company's Compensation Discussion and Analysis provides information about the Company's executive compensation philosophy and the components of its compensation programs, including information about how compensation for the fiscal year ended December 31, 2014 for the Company's named executive officers met the compensation philosophy's goals and was aligned with the Company's 2014 financial goals and performance. The Compensation Discussion and Analysis helps readers better understand the information found in the Summary Compensation Table and other accompanying tables located in this proxy statement.

This Compensation Discussion and Analysis focuses on our executive pay program as it relates to the following executive officers:

Douglas M. Baker, Jr.	Chairman of the Board and Chief Executive Officer
Daniel J. Schmechel	Chief Financial Officer
Thomas W. Handley	President and Chief Operating Officer
Stephen M. Taylor	Executive Vice President and President Nalco Champion
Michael A. Hickey	Executive Vice President and President Global Institutional

The Company's compensation programs have enabled us to attract and retain the leadership talent that has successfully managed our strong growth and returns over the past decade. The mix of annual salary, annual cash incentive bonus and long-term incentives, as more fully described in this Compensation Discussion and Analysis, has been an important contributing factor in attracting and motivating executives to meet the Company's annual growth targets (in nearly all these years, showing strong revenue and operating income growth accompanied by double-digit earnings per share ("EPS"), or adjusted EPS, growth) while balancing necessary investments in the business in order to achieve attractive, long-term shareholder returns. Evidence of the Company's consistently strong performance can be seen in both our financial performance and stock appreciation over the past decade. For the ten-year period from January 1, 2005 to December 31, 2014, the Company's adjusted earnings per share have increased 237%. During this same ten-year period, our stock price has appreciated 198% versus the S&P 500's 70% increase. More recently, 2014 reported sales and adjusted diluted earnings per share (earnings per share excluding the impact of special gains and charges and discrete tax items)⁽¹⁾ increased 8% and 18%, respectively, over 2013. Following a very strong outperformance in 2013 (when our share price increased 45% compared with the S&P 500 gain of 30% for the year), Ecolab shares rose 0.2% in 2014 compared with the S&P 500's 11% increase.

(1)

A reconciliation of 2014 diluted earnings per share to 2014 adjusted diluted earnings per share is as follows: 2014 reported earnings per share were \$3.93; excluding the impact of special gains and charges (\$0.20) and discrete tax items (\$0.04), adjusted diluted earnings per share were \$4.18. (Per-share amounts do not necessarily sum due to rounding.) Reported and adjusted diluted earnings per share for the years 2004 through 2014 are provided in our 2014 Annual Report. We believe that in this context adjusted diluted earnings per

share is a more meaningful measure of the Company's underlying business performance than reported diluted earnings per share because it provides greater transparency with respect to our results of operations and that it is more useful for period-to-period comparison of results. In addition, we use adjusted diluted earnings per share internally to evaluate our performance and in making financial and operational decisions.

The chart below depicts our 10-year adjusted earnings performance from January 1, 2005 through December 31, 2014 (left axis) and our stock price performance versus the S&P 500 Composite Index over the same period (right axis).

Highlights Some of the key components of our compensation programs that have contributed to our successful track record of business results are briefly highlighted below and discussed in more detail throughout this Compensation Discussion and Analysis:

Pay-for-Performance and Pay Risk Philosophy. We emphasize pay-for-performance and structure our programs to provide incentives for executives to drive business and financial results. We believe that the pay of our executives, particularly our principal executive officer, correlates well with our total shareholder returns; and while our incentive programs help to drive results, they do so without encouraging excessive risk taking that would threaten the long-term growth of our business (see "Total Compensation Mix" on page 32, "Annual Cash Incentives" on page 27, "Long-term Equity Incentives" on page 30 and "Corporate Governance Compensation Risk Analysis" on page 7);

Compensation Mix. We utilize a mix of compensation elements salary, annual cash incentive bonus and long-term incentives that is within the median range for the mix of executive compensation provided by the market survey data we review in determining compensation (see "Total Compensation Mix" on page 32);

Total Compensation Philosophy. We provide executives with competitive total compensation that is within the median range of our size-adjusted competitive market (see "Program Objectives and Reward Philosophy" on page 25);

2014 Compensation Actions. We took the following actions with respect to our named executive officers in 2014:

With respect to named executive officers who were employed by us in 2013 and 2014, base salaries increased between 3% and 11.1% and on average 5.1% versus 2013 (see "Base Salaries" on page 27);

Edgar Filing: ECOLAB INC - Form DEF 14A

Annual cash incentive bonus payouts were between 151% and 174% of target, and averaged 162% of target (see "Annual Cash Incentives" on page 27); and

Long-term incentive awards, consisting of stock options and performance-based restricted stock units, were granted in the same proportion as prior years and were within the median range of our size-adjusted competitive market for each named executive officer.

Performance-Based Compensation. At least 76% of each of our named executive officers' 2014 target compensation was performance-based (89% in the case of our principal executive officer), with the majority of the performance-based compensation coming in the form of long-term incentives (see "Total Compensation Mix" on page 32);

Setting Performance Targets. We utilize a robust planning process to establish financial and business performance metrics for incentive plans that, while challenging, are designed to be achievable for the participant when we meet our performance goals, and appropriately balance short-term results with necessary investments to achieve our long-term goals. These performance measures are fully disclosed in this Proxy Statement (see "Annual Cash Incentives" on page 27);

Performance Measures. We use numerous performance measures to determine the amount of incentive compensation an executive will receive under both short-term and longer-term performance-based incentive programs, including adjusted earnings per share, business unit sales and operating income and return on invested capital. Again, this approach balances annual financial objectives with long-term value creation and avoids reliance on a single metric that could unduly cause our executives to focus on limited components of our business (see "Annual Cash Incentives" on page 27 and "Long-term Equity Incentives" on page 30);

Table of Contents

Long-term Incentives. A significant portion of our executives' compensation is derived from long-term equity based compensation awards granted each year. Our long-term incentive program is designed so that approximately 50% of the value is delivered in the form of performance-based restricted stock units ("PBRUs") with the remaining 50% of the value delivered in the form of stock options. Under such awards, our executives' compensation increases in an appropriate relationship with the increase in the value of our Company, promoting our pay-for-performance philosophy. In addition, the PBRU component can only be earned when our performance on return on invested capital (adjusted for the impact of purchase accounting and special charges relating to the Nalco and Champion mergers) is above our weighted average cost of capital. This further aligns compensation with performance and shareholder value creation (see "Long-term Equity Incentives" on page 30);

Stock Ownership Guidelines. We have established stock ownership guidelines that encourage executives to retain a significant long-term position in our stock and thereby align their interests with the interests of our stockholders (see "Stock Retention and Ownership Guidelines" on page 31);

Change-in-Control Benefits. We have in place a balanced change-in-control severance policy that provides our officers severance at two times the sum of base compensation plus annual incentive pay at target following a change in control and termination of employment (a so-called "double-trigger"), with no tax gross-ups (see "Executive Change-in-Control Policy" on page 31); and

Risk Mitigation Features. Our programs contain other features to mitigate against our executives taking excessive risk in order to maximize pay-outs, including varied and balanced performance targets, discretionary authority of the Compensation Committee to reduce award pay-outs, bonus caps at 200% of target and a Policy on Reimbursement of Incentive Payments (or so-called "clawback" policy) (see "Compensation Recovery" on page 32 and "Corporate Governance Compensation Risk Analysis" on page 7).

The Compensation Committee of the Board of Directors oversees the design and administration of our executive compensation programs according to the processes and procedures discussed in the Corporate Governance section of this Proxy Statement, located at pages 8 and 9 hereof. The Committee is advised by an independent compensation consultant as it deems appropriate.

Shareholder Outreach and 2014 Say-on-Pay Results During 2014, we engaged in discussions with stockholders holding approximately 50% of our shares concerning a variety of topics, including our executive compensation program. The stockholders did not raise any significant issues with respect to our program. Additionally, at the 2014 Annual Meeting, Ecolab stockholders approved on an advisory basis the compensation of our named executive officers disclosed in that year's proxy statement, with more than 96% of the total votes cast by holders of shares represented at the meeting voting in favor of our executive compensation proposal. The Compensation Committee took this favorable shareholder support into account in deciding to retain the overall structure and philosophy of our compensation plans and programs in 2014.

Changes in 2014 We made two changes to our compensation programs in 2014, and several changes approved to the program in prior years became effective in 2014.

First, as noted at page 25, we further refined the peer group that we use in conjunction with competitive industry surveys to create competitive compensation scenarios for our named executive officers by adding one oil and gas equipment and services company to the group. This addition, which increases the total number of companies in the peer group from 19 to 20, does not materially impact our position at the market median for compensation. We believe the addition is appropriate as it brings into the peer group a non-U.S. company that provides U.S.-based compensation disclosure and has significant peer group overlaps with other companies in our peer group. The revised peer group of 20 companies was developed after the establishment of 2014 base salaries and annual incentive compensation. It was utilized for determining long-term equity incentives in 2014 and will additionally be used for establishing base salaries, annual incentive compensation as well as long-term incentives in 2015 (see "Program Objectives and Reward Philosophy" on page 25).

Second, at the 2014 Annual Meeting, our stockholders re-approved our Management Performance Incentive Plan, which is an annual cash incentive plan for our executives described at page 27. Several changes were approved in connection with the re-submission of the plan to the stockholders, including an increase in the maximum permitted payout to any individual in connection with an annual plan award from \$5 million to \$7 million and extension of the duration of the plan for five years.

Edgar Filing: ECOLAB INC - Form DEF 14A

In 2013, we made changes to the Company's Mirror Savings Plan, a non-qualified plan described at page 40. Certain of those changes took effect in 2014, namely 2014 served as a transition year for eligible executives of our Nalco and Champion subsidiaries during which such executives were permitted to defer bonus payments but not base salary earned in 2014, and a match was provided on base salary over the IRS limits on compensation in qualified plans for such executives in 2014 as though they had been eligible to defer base salary (a "deemed match"). The deemed match ended after 2014 and will not be provided on base salary earned after 2014. Base salary deferral elections for all executives in the plan were also simplified as part of the 2013 changes and are limited to the amount necessary for an executive to receive the maximum company match on base salary above the IRS pay cap for base salary earned in 2015 and subsequent calendar years. Mr. Taylor became eligible for the 2014 deemed matching contribution under the plan effective September 1, 2014, when he first became a participant in the Mirror Savings Plan following his transfer from employment in the United Arab Emirates to employment in the U.S.; as mentioned, the deemed matching contribution is not provided on base pay earned in 2015 and subsequent calendar years.

Additionally, eligible Champion employees entered the Pension Plan in 2014, and certain Champion executives entered the Mirror Pension Plan in 2014 as well. The Company's broad-based tax-qualified defined contribution/401(k) retirement plans, as well as the Mirror Savings Plan, provide an enhanced matching contribution for certain individuals who became participants in the Pension Plan after January 1, 2007. The enhanced matching contribution is equal to (i) 100% of the amount of the participant's deferrals that do not exceed 4% of covered compensation, plus (ii) 50% of the participant's deferrals that exceed 4% but do not

Table of Contents

exceed 8% of covered compensation. Mr. Taylor became eligible for the enhanced matching contribution under the deferred compensation plans when he entered those plans following his transfer to employment in the U.S.

Program Elements The principal elements of our executive compensation programs for 2014 are illustrated below:

Total compensation is defined as the sum of base salary, target annual cash incentives and the grant date present value of long-term equity incentives, and does not necessarily tie to the values disclosed in the Summary Compensation Table and supplemental tables. The chart is not drawn to scale for any particular named executive officer.

Table of Contents

Our philosophy is to position the aggregate of these elements of compensation in the median range of our competitive market, adjusted for the Company's current size. For annual cash incentives, our philosophy generally is to also position them at a level commensurate with the Company's performance based on adjusted earnings per share compared to EPS growth in the Standard & Poor's 500. We position annual cash incentives and long-term incentives to provide lower than median compensation for lower than competitive market performance and higher than median compensation for higher than competitive market performance. This approach provides motivation to executives without incentivizing inappropriate risk-taking to achieve pay-outs, as we believe that the Company's prospects for growth are generally at least as favorable as the average of the S&P 500. For stock options, our grant processes do not permit backdating and, as described under Long-Term Equity Incentives, stock options are granted on the same date as the Compensation Committee approval date.

This Compensation Discussion and Analysis contains statements regarding incentive targets and goals. These targets and goals are disclosed in the limited context of the Company's compensation programs and should not be understood to be statements of management's expectations or estimates of results or other guidance.

PROGRAM OBJECTIVES AND REWARD PHILOSOPHY

In General We use executive compensation (i) to support our corporate vision and long-term financial objectives, (ii) to communicate the importance of our business results, (iii) to retain and motivate executives important to our success and (iv) to reward executives for contributions at a level reflecting our performance. Our executive compensation program, that is the compensation package as a whole as well as each element of compensation, is designed to be market-competitive in order to attract, motivate and retain our executives in a manner that is in the best interests of our stockholders. Our executive compensation program is further designed to reinforce and complement ethical and sustainable management practices, which is supported in part by our compensation recovery (or "clawback") policy, promote sound risk management and align management interests (such as sustainable long-term growth) with those of our stockholders. We believe that our long-term equity incentive program, which typically accounts for at least half of our named executive officers' total annual compensation, is an effective tool in aligning our executives' interests with those of our stockholders and in incentivizing long-term value creation.

Competitive Market We define our competitive market to be a broad range of general industry companies, as reflected in third-party surveys in which we participate. We use surveys published by Aon Hewitt, Towers Watson and Cook & Co. as the primary sources of competitive data because we have determined these to be the best sources for credible, size-adjusted market data for general industry companies. Due to the high correlation between annual sales revenue and compensation, we size-adjust the competitive market compensation data and use the median to set our targeted parameters, which we refer to as the median range. We define the median range as within 15% of the median for base salaries and within 20% of the median for annual cash incentive targets and long-term incentive targets.

Additionally, for purposes of benchmarking 2014 base salaries and annual incentive compensation for the named executive officers, we utilized competitive data from a comparison group of 19 companies constructed from the screening process conducted in 2013 by the Compensation Committee's independent compensation consultant, Cook & Co., based on input from the Company and the Compensation Committee with respect to the selection criteria (the "Peer Group"). During 2014, utilizing the same process, we modified the size of the Peer Group from 19 companies to 20 companies by adding one company. The revised Peer Group was utilized in conjunction with the market surveys for determining long-term equity incentives in 2014 and will additionally be used in conjunction with the market surveys for establishing base salaries, annual incentive compensation and long-term incentives in 2015. Both the Peer Group constructed in 2013 and the revised Peer Group are comprised of companies that, under the Global Industry Classification Standards (GICS) taxonomy, fall into the classifications of Chemicals; Containers & Packaging, Paper Products; Oil & Gas Equipment & Services or Industrial Conglomerates; that have annual revenues of one-fourth to four times the annual revenues of the Company, within a reasonable size range in various other measures such as annual operating income, total employees and market capitalization; and that meet several other criteria, such as inclusion in the Company's primary GICS industry classification and positioning the Company near the Peer Group's median in terms of size. Operating income (EBIT) excludes special items such as restructuring charges.

We used the average of size-adjusted data from two surveys and the Peer Group data for benchmarking 2014 base salary and annual cash incentive compensation. The 2013 Towers Watson CDB Executive Compensation Survey includes over 442 corporate entities that range in revenue from approximately \$1 billion to over \$50 billion. Including subsidiaries, this survey includes over 850 participants. We also used the 2013 Aon Hewitt TCM Executive Regression Analysis Survey, which includes over 450 corporate entities that range in revenue from approximately \$2 million to \$469 billion. For benchmarking long-term incentives, we used the average of the competitive data yielded by the Peer Group, the 2014 Towers Watson CDB General Industry Executive Compensation Survey report and the Cook & Co. 2014 Survey of Long-Term Incentives. The 2014 Towers Watson survey has over 446 participants which range in revenue from less than \$1 billion to greater than \$20 billion. The Cook & Co. survey has 57 participants which range in revenue from \$5.1 billion to \$421 billion.

We size-adjust the survey data by inserting the annual revenue for the Company (for use with the principal executive officer and principal financial officer) or the applicable business unit (for use with the leaders of particular business units) into a statistical regression model supplied by the survey providers, which then computes the size-adjusted median by position for base salaries and annual cash incentives. We use the average of the size-adjusted medians from the two surveys and the Peer Group data as the standard by which we set base salary and annual cash incentive targets. For long-term incentive guidelines, we calculate the size-adjusted median by applying the median long-term incentive value as a percentage of salary from the Towers Watson and Cook & Co. long-term incentive surveys and the Peer Group data to the size-adjusted base salary.

Compensation Process For the named executive officers, the Compensation Committee reviewed and approved all elements of 2014 compensation, taking into consideration recommendations from our principal executive officer (but not for his own compensation), as well as competitive market guidance and feedback provided by the Compensation Committee's independent compensation consultant and our human resources staff regarding individual performance, time in position and internal pay comparisons. The Compensation Committee reviewed and approved all elements of 2014 compensation for our principal executive officer, taking into consideration the Board's performance assessment of the principal executive officer and recommendations, competitive market guidance and feedback from the Compensation Committee's independent compensation

Table of Contents

consultant and our human resources staff. Recommendations with respect to the compensation of our principal executive officer are not shared with our principal executive officer.

Regulatory Considerations We monitor changes in the tax and accounting regulatory environment when assessing the financial efficiency of the various elements of our executive compensation program. We have designed and administered our annual cash incentives, particularly our stockholder-approved Management Performance Incentive Plan, which we refer to as the MPIP, and long-term equity incentive plans in a manner that is intended to preserve the federal income tax deductibility of the associated compensation expense.

The MPIP is designed to meet the requirements of Internal Revenue Code Section 162(m) regarding performance-based compensation and is administered by the Compensation Committee, which selects the participants each year and establishes the annual performance goal based upon performance criteria that it selects, the performance target and a maximum annual cash award dependent on achievement of the performance goal. For 2014, the Compensation Committee selected diluted earnings per share as the performance measure under the MPIP. The Compensation Committee certifies the extent to which the performance goal has been met and the corresponding amount of the award earned by the participants, with the ability to exercise downward discretion to lower, but not raise, the award to an amount based upon the metrics used for our broader-based Management Incentive Plan cash incentive and to recognize individual performance. In effect, the MPIP establishes the maximum bonus payouts for the named executive officers, while the Management Incentive Plan criteria are used by the Compensation Committee to guide the exercise of its downward discretion in determining the actual pay-outs which have historically been (and were in 2014) well below the MPIP maximum permitted payouts. As described under Long-Term Equity Incentives on page 30, the Compensation Committee has similarly positioned the performance-based restricted stock units to meet the requirements of Section 162(m).

We have designed and administered our deferred compensation, equity compensation and change-in-control severance plans to be in compliance with federal tax rules affecting non-qualified deferred compensation. In accordance with FASB Accounting Standards Codification 718, *Compensation - Stock Compensation*, for financial statement purposes, we expense all equity-based awards over the service period for awards expected to vest, based upon their estimated fair value at grant date. Accounting treatment has not resulted in changes in our equity compensation program design for our named executive officers.

BASE SALARIES

In General The Compensation Committee reviews base salaries for the named executive officers and other executives annually in February effective as of April 1 of the current fiscal year, and increases are based on changes in our competitive market, changes in scope of responsibility, individual performance and time in position. Our philosophy is to pay base salaries that are within the median range of our size-adjusted competitive market. When an executive officer is new to his/her position, his/her initial base salary will likely be at the low end of the median range but, if performance is acceptable, his/her base salary will be increased over several years to arrive at the median.

Salary Increases For 2013 and 2014, annualized base salary rates for the named executive officers are summarized below:

Name	2013		2014		Increase Percentage(1)
	Annualized Base Salary Rate		Annualized Base Salary Rate		
Douglas M. Baker, Jr.	\$	1,079,000	\$	1,111,370	3.0%
Daniel J. Schmechel	\$	450,000	\$	500,000	11.1%
Thomas W. Handley	\$	580,000	\$	600,000	3.4%
Stephen M. Taylor	\$	500,000	\$	525,000	5.0%
Michael A. Hickey	\$	475,000	\$	490,000	3.2%

(1)

All increases represent merit increases.

Our Analysis For 2014, base salaries accounted for approximately 11% of total compensation for the principal executive officer and 22% on average for the four other named executive officers. 2014 base salary rates were within the median range for all of our named executive officers with the exception of Mr. Schmechel, who is below the median range due to being newly promoted to the role of Chief Financial Officer in October 2012. In general, the 2014 merit salary increases for our named executive officers were in line with the principles used to deliver the Company's U.S. salary increases broadly.

ANNUAL CASH INCENTIVES

In General To determine the 2014 award payments (which were paid in March 2015), the Committee reviewed the performance of the named executive officers and other executives at its February 2015 meeting. With respect to the 2014 awards, the Committee established a performance goal under the MPIP to determine maximum pay-out potential and then used the goals described below with respect to the Management Incentive Plan (or MIP) to determine whether and to what degree the actual payout amount for each named executive officer's annual cash incentive award would be less than the maximum permitted amount.

Target Award Opportunities Under the MIP, we establish annual target award opportunities expressed as a percentage of base salary paid during the year and various award payment limits expressed as a percentage of the target award. Our annual cash incentive targets are set within the median range relative to our competitive market for each position, and the annual cash incentive plan is structured so that lower performance results in below-market payouts and superior performance drives payouts above the median range. For 2014, target award opportunities were within the median range for all our named executive officers

Table of Contents

ranging from 75% to 140% of base salary. Minimum and maximum payout opportunities ranged from 0% to 200% of target award opportunity, respectively, with no payout for performance below the minimum level specified.

Performance Measures Under the MIP, we use a mix of overall corporate, business unit and individual performance measures to foster cross-divisional cooperation and to assure that executives have a reasonable measure of control over the factors that affect their awards. This performance measure mix varies by executive position. For 2014, the performance measure mix for the named executive officers is summarized in the table on page 29.

Performance Goals and Achievement Under the MIP, several performance goals are used, including goals measuring overall corporate performance as well as goals for specific business unit performance for those executives who are responsible for these business units. Overall corporate performance in 2014 was based on adjusted diluted earnings per share goals. The Company uses adjusted diluted earnings per share as a measure because it is most closely aligned with our strategy of delivering profitable growth and increased stockholder value. We define adjusted diluted earnings per share as diluted earnings per share excluding special gains and charges and discrete tax items. See footnote (1) on page 21 for a reconciliation of 2014 reported diluted earnings per share to 2014 adjusted diluted earnings per share. We believe that adjusted diluted earnings per share is a better measure of the Company's underlying business performance than reported diluted earnings per share because it provides greater transparency with respect to our results of operations, which is more useful for period-to-period comparison of results. In addition, a total company measure of performance such as adjusted diluted earnings per share is used as one of the performance measures with respect to our named executive officers who manage particular business units because it reinforces our Circle the Customer Circle the Globe strategy and fosters cross-divisional cooperation.

In establishing these goals for 2014, we took into consideration our prior year results, overall economic and market trends, other large companies' performance expectations and our anticipated business opportunities, investment requirements and the competitive situation. For 2014, the adjusted diluted earnings per share goals were: payout at 40% of the target award opportunity (minimum level) at \$3.66; payout at 100% of the target award opportunity (target level) at \$3.96; payout at 140% percent of the target award opportunity (140% level) at \$4.15; and payout at 200% of the target award opportunity (maximum level) at \$4.22 or greater. Payouts for results between performance levels are interpolated on a straight-line basis. Actual 2014 adjusted diluted earnings per share were \$4.18 resulting in the achievement of the adjusted diluted earnings per share goal at 166% of target.

For Mr. Handley, who is our president and chief operating officer, as indicated in the table on page 29, 30% of his annual cash incentive is based upon a 2014 total division operating income goal. For 2014, the total division operating income goals were: 1.8% growth over 2013 total division operating income for payout at 40% of the target award opportunity (minimum level); 8.0% growth over 2013 total division operating income for payout at 100% of the target award opportunity (target level); 12.1% growth over 2013 total division operating income for payout at 140% percent of the target award opportunity (140% level); and 18.5% growth over 2013 total division operating income for payout at 200% of the target award opportunity (maximum level). Champion's results for the period prior to the acquisition in 2013 were included for purposes of determining the growth of 2014 business unit revenue and operating income over 2013 business unit revenue and operating income for Mr. Handley. Payouts for results between performance levels are interpolated on a straight-line basis. Adjusted as noted above, 2014 total division operating income grew 12.6% over 2013 total division operating income resulting in the achievement of the total division operating income goal at 144% of target.

For two of our named executive officers, namely Messrs. Taylor and Hickey, who manage particular business units for us, as indicated in the table on page 29, 70% of their annual cash incentive is based upon their respective 2014 business unit performance goals which are measured against the achievement of revenue and operating income goals. For Mr. Taylor and Mr. Hickey, the revenue and operating income goals are weighted equally. The 2014 revenue goal for Mr. Taylor was 3.3% growth over 2013 revenue for payout at the minimum level, 6.5% growth for payout at the target level, 8.7% growth for payout at the 140% level and 13.4% growth for payout at the maximum level; and for Mr. Hickey it was 0.3% growth over 2013 revenue for payout at the minimum level, 2.2% growth for payout at the target level, 3.9% growth for payout at the 140% level and 6.2% growth for payout at the maximum level. The 2014 operating income goal for Mr. Taylor was 2.9% growth over 2013 operating income for payout at the minimum level, 15.0% growth for payout at the target level, 23.1% growth for payout at the 140% level and 31.2% growth for payout at the maximum level; and for Mr. Hickey it was 1.4% growth over 2013 operating income for payout at the minimum level, 4.4% growth for payout at the target level, 6.4% growth for payout at the 140% level and 11.8% growth for payout at the maximum level. Champion's results for the period prior to the acquisition in 2013 were included for purposes of determining the growth of 2014 business unit revenue and operating income over 2013 business unit revenue and operating income for Mr. Taylor. No pay-out is made with respect to the business unit revenue goal unless the business unit achieves at least the minimum level on its operating income goal. Pay-outs for results between these two performance levels are interpolated on a straight-line basis. Adjusted as noted above, revenue growth and operating income growth for the business units managed by Mr. Taylor were 10.4% and 30.5%, respectively, resulting in achievement by Mr. Taylor of his business unit goal at 178% of target. Revenue growth and operating income growth for the business units managed by Mr. Hickey were 3.7% and 7.5%, respectively, resulting in achievement by Mr. Hickey of his business unit goal at 144% of target.

For Mr. Schmechel, who holds a staff position as our chief financial officer, as indicated in the table on page 29, 30% of his annual cash incentive is based upon attainment of individual performance goals. This component of his staff position award under the MIP is set at 30% of the performance measure mix for annual cash incentives so that achievement of these goals is a component of the award but remains balanced against achievement of corporate performance goals. The 2014 individual performance objectives for our principal financial officer are specific, qualitative, achievable with significant effort and, if achieved, provide benefit to the Company. Mr. Schmechel's individual performance goals covered financial, organizational and strategic initiatives, including delivering on financial objectives, developing talent and projects to increase efficient service delivery. Mr. Schmechel achieved 140% of his individual target performance goals. The Compensation Committee, with input from the principal executive officer,

approved the annual cash incentive as shown on the table on page 29, including the component based on the principal financial officer's achievement of his 2014 individual performance goals.

2014 Annual Incentive Compensation Pay-Out Summary The table below illustrates the calculation of the 2014 annual cash incentive pay-outs for our named executive officers based on the targets and performance achievements described above:

Discretionary Adjustments To recognize individual performance, the Compensation Committee also may increase or decrease a named executive officer's payout from the level recommended by applying the MIP performance metrics (but always subject to the maximum permitted MPIP payout), with input from the principal executive officer (other than as to his own award), based on the individual performance of the named executive officer. This is done to recognize either inferior or superior individual performance in cases where this performance is not fully represented by the performance measures. No such discretionary adjustments were made to the 2014 annual cash incentive payouts.

Edgar Filing: ECOLAB INC - Form DEF 14A

The Compensation Committee reviews and approves all adjustments to our overall corporate results and significant adjustments to our business unit performance results. The 2014 annual cash incentive payouts were made in accordance with the overall corporate results and business unit performance results established for the named executive officers without adjustment.

Our Analysis In 2014 the Compensation Committee set the minimum, target and maximum levels of the adjusted EPS component of the annual incentive so that the intended relative difficulty of achieving the various levels is consistent with the past several years, taking into account current prospects and market considerations. Target award opportunities in 2014 accounted for approximately 17% of total compensation on average for the named executive officers receiving all elements of our compensation program and were within the median range of our competitive market for each position. Actual award payments for the named executive officers averaged 162% of target award opportunities. Ecolab's businesses experienced a number of headwinds in 2014, including weaker international and emerging markets, which made our executives' performance goals challenging. The 2014 award payouts are indicative of solid sales growth and operating margin gains during the year despite these challenges.

Table of Contents**LONG-TERM EQUITY INCENTIVES**

In General The Compensation Committee granted long-term equity incentives to our named executive officers and other executives in December 2014, consistent with its core agenda and past practice of granting these incentives at its regularly scheduled December meeting. For 2014, our long-term equity incentive program consisted of an annual grant of stock options and performance-based restricted stock units, weighted approximately equally in terms of grant value.

Our program continues to be based on pre-established grant guidelines that are calibrated annually to our competitive market. Grant guidelines for 2014 for the named executive officers were developed on a position-by-position basis using competitive data from the revised Peer Group and market data from the 2014 Towers Watson CDB General Industry Executive Compensation Survey report and the Cook & Co. 2014 Survey of Long-Term Incentives. The survey data represent the median range of long-term incentive values adjusted for size based on revenue. The average of the three data points is used for determining the guideline.

Actual grants may be above or below our guidelines based on our assessment of individual performance and future potential. Generally, long-term equity incentives are granted on the same date as our Compensation Committee approval date and in no event is the grant date prior to the approval date.

Stock Options Our stock options have a 10-year contractual exercise term from the date of grant and vest ratably over three years. Our stock options have an exercise price which is the average of the high and low market price on the date of grant. We believe that the use of the average of the high and low market price on the date of the grant removes potential same-day stock volatility. We do not have a program, plan or practice to time stock option grants to executives in coordination with the release of material non-public information. From time to time, in addition to our annual grants, we may make special grants of stock options to our named executive officers and other executives in connection with promotions and recruitment, and for general retention purposes. During 2014, we did not make any such special grants of stock options to our named executive officers.

Performance-Based Restricted Stock Units Our performance-based restricted stock units, or PBRsUs, cliff-vest after three years, subject to attainment of three-year average annual return on invested capital (ROIC) goals over the performance period. We selected ROIC as the performance measure because it reinforces focus on capital efficiency throughout the organization, is highly correlated with shareholder returns, matches well with our long-standing corporate goal of achieving consistent return on beginning equity and is understood by our external market. We define ROIC as the quotient of after-tax operating income divided by the sum of short-term and long-term debt and shareholders' equity, less cash and cash equivalents. The PBRsU awards provide for adjustment of the ROIC calculation in the event of a large acquisition (such as the Nalco and Champion transactions) or other significant transaction or event approved by the Board. Considering the significant impact of purchase accounting and special gains and charges related to the Nalco and Champion transactions on the ROIC calculation, for the 2015 to 2017 performance cycle, ROIC is measured excluding the purchase accounting impact and special gains and charges related to these transactions and is also adjusted for acquisitions and certain other unusual, non-recurring charges during the performance period. The Compensation Committee established an ROIC goal for the executive officers to determine maximum payout potential for Code Section 162(m) purposes, with the ability to exercise downward discretion to reduce the actual payout in accordance with the ROIC goals described below to be applied to a broader group of PBRsU award recipients. For the 2015 to 2017 performance cycle, 40% of the PBRsUs granted may be earned subject to attainment of a threshold goal of 10% average annual ROIC over the cycle, and 100% of the PBRsUs may be earned subject to attainment of a target goal of 15% average annual ROIC over the cycle, in each case adjusted as described above, with straight-line proration for performance results between threshold and target goals. No PBRsUs may be earned if ROIC is below the threshold goal, and no more than 100% of the PBRsUs may be earned if ROIC is above the target goal; accordingly, target and maximum are equal. Importantly, the threshold goal exceeds our cost of capital, thereby ensuring that value is created before awards are earned. Excluding the impact of purchase accounting and special gains and charges related to the Nalco and Champion transactions, the Company's annual ROIC for 2014 was 22.2%. Dividend equivalents are not paid or accrued on the PBRsUs during the performance period.

Pay-out of Performance-Based Restricted Stock Units Vesting in 2014 The PBRsUs granted by the Committee in December 2011 for the 2012 to 2014 performance cycle vested on December 31, 2014 and the Committee has determined the pay-out for such PBRsUs, including with respect to Messrs. Baker, Schmechel, Handley, Taylor and Hickey, to be 100% of the target opportunity. For the PBRsUs granted in December 2011, the target payout would be earned upon attainment of an average annual ROIC, adjusted in a manner consistent with the preceding paragraph, of 13% over the 2012 through 2014 performance cycle. Consistent with the established formula and definition of ROIC, the Company's average annual ROIC over the cycle, excluding the impact of purchase accounting and special gains and charges relating to the Nalco and Champion transactions, was 20.1%. Based upon this performance, the Committee approved pay-out of 100% of the PBRsUs. The

Edgar Filing: ECOLAB INC - Form DEF 14A

number of PBRsUs vested and the value realized at vesting are shown in the Option Exercises and Stock Vested for 2014 table on page 37.

Restricted Stock From time to time, we may make special grants of restricted stock or restricted stock units subject only to service-based vesting to our named executive officers and other executives in connection with promotions and recruitment, and for general retention purposes. During 2014, we did not make any special grants of restricted stock units to our named executive officers.

Our Analysis For the last completed fiscal year, long-term equity incentives accounted for approximately 74% of total target compensation for the principal executive officer and 61% on average for the other named executive officers, which is consistent with our competitive market. Actual grants to the named executive officers were within the median range for all of our named executive officers. Our annual practice of granting equity incentives in the form of stock options and PBRsUs is similar to our competitive market, where other forms of long-term equity and cash compensation are typically awarded in addition to, or in lieu of, stock options. Our selective use of restricted stock or restricted stock units as a retention or recruitment incentive is

Table of Contents

consistent with our competitive market. We believe that our overall long-term equity compensation cost is within a reasonable range of our competitive market as to our named executive officers and also our other employees.

EXECUTIVE BENEFITS AND PERQUISITES

In General Our named executive officers participate in all of the same health care, disability, life insurance, pension, and 401(k) benefit plans made available generally to the Company's U.S. employees. In addition, our named executive officers are eligible to participate in a deferred compensation program, restoration plans for the qualified 401(k) and pension plans, and, with respect to certain of our named executive officers, an executive disability and life benefit and a supplemental retirement benefit. The non-qualified retirement plans supplement the benefits provided under our tax-qualified plans, taking into account compensation and benefits above the IRS limits for qualified plans. These plans are described in more detail on pages 38 to 41. In the case of Mr. Taylor, he became eligible to participate in these plans on September 1, 2014. For the period January 1, 2014 through August 31, 2014, Mr. Taylor participated in certain plans offered to localized employees by a non-U.S. subsidiary. Mr. Taylor also continues to participate in the same executive death benefit plan that he participated in prior to the Nalco merger. The named executive officers also receive limited perquisites that are described in more detail in footnote (6) to the Summary Compensation Table.

The Company has maintained a private aircraft use policy for several years authorizing the use of private aircraft for business and personal use by the Company's Chairman of the Board and Chief Executive Officer and, under certain circumstances, business use by its directors and certain other executives. Under the policy, personal use of private aircraft by the Chairman of the Board and Chief Executive Officer is limited to \$100,000 of unreimbursed usage per year. During 2014, the Chairman of the Board and Chief Executive Officer did have unreimbursed personal usage. Additional information with respect to this perquisite is provided in more detail in footnote (6) to the Summary Compensation Table on page 33.

Our Analysis We review our executive benefits and perquisites program periodically to ensure it remains market-competitive for our executives and supportable to our stockholders. Excluding allowances provided to Mr. Taylor related to his localization in a non-U.S. subsidiary and subsequent relocation to the U.S., perquisites account for 0.6% of total compensation for the principal executive officer and the other named executive officers receiving all elements of our compensation program in 2014. Executive benefits and perquisites are consistent with our competitive market.

EXECUTIVE CHANGE-IN-CONTROL POLICY

In General The terms of our Change-In-Control Severance Compensation Policy, including the events constituting a change in control under our policy, are described on pages 44 and 45. Our policy applies to all elected officers, including the named executive officers, except those who are covered by separate change-in-control or similar agreements with the Company or a subsidiary, a circumstance which arises only in the case of an executive having such an agreement with a company we acquire. Such an executive will become covered automatically under the Company's change-in-control policy when the existing agreements terminate or expire.

Our Analysis We review our change-in-control protection periodically to ensure it continues to address the best interests of our stockholders. Our analysis indicates that our change-in-control policy, which is structured as a so-called "double-trigger" policy, promotes the interests of stockholders by mitigating executives' concerns about the impact a change in control may have on them, thereby allowing the executives to focus on the best interests of stockholders under such circumstances.

STOCK RETENTION AND OWNERSHIP GUIDELINES

In General We have in place stock retention and ownership guidelines to encourage our named executive officers and other executives to accumulate a significant ownership stake so they are vested in maximizing long-term stockholder returns. Our guidelines provide that the principal executive officer own Company stock with a market value of at least six times current base salary. The Company also requires other corporate officers to own Company stock with a market value of at least three times current base salary. Until the stock ownership guideline is met, our principal executive officer, principal financial officer and president are expected to retain 100% of all after-tax profit shares from exercise, vesting or payout of equity awards. Our other officers are expected to retain 50% of all after-tax profit shares from exercise, vesting or payout of equity awards until their stock ownership guidelines are met. For purposes of complying with our guidelines, stock is not considered

Edgar Filing: ECOLAB INC - Form DEF 14A

owned if subject to an unexercised stock option or unvested performance-based restricted stock unit. Shares owned outright, legally or beneficially, by an officer or his or her immediate family members residing in the same household and shares held in the 401(k) plan count towards meeting the guideline. Our named executive officers and other officers may not pledge shares or enter into any risk hedging arrangements with respect to Company stock.

Table of Contents

Stock Ownership Against Guideline Summary The table below illustrates the standing of each of our named executive officers in relation to their respective stock ownership guidelines as of December 31, 2014, based on the closing market price of our Common Stock on such date of \$104.52 per share.

	2014 Annualized Base Salary	Stock Ownership Guideline	Stock Ownership(1)	Multiple of 2014 Base Salary
Douglas M. Baker, Jr.	\$ 1,111,370	6× salary	417,429	39.3× salary
Daniel J. Schmechel	\$ 500,000	3× salary	109,583	22.9× salary
Thomas W. Handley	\$ 600,000	3× salary	66,767	11.6× salary
Stephen M. Taylor	\$ 525,000	3× salary	60,916	12.1× salary
Michael A. Hickey	\$ 490,000	3× salary	16,968	3.6× salary

(1)

Excludes shares underlying unexercised or unvested long-term incentive awards.

Our Analysis Our analysis indicates that our stock retention and ownership guidelines are consistent with the design provisions of other companies disclosing such guidelines, as reported in public SEC filings and as periodically published in various surveys and research reports. Our analysis further indicates that our named executive officers are in compliance with our guidelines either by having achieved the ownership guideline or, if the guideline is not yet achieved, by retaining 100% or 50%, as applicable, of all after-tax profit shares from any stock option exercises or restricted stock unit vesting.

COMPENSATION RECOVERY

The Company's Board of Directors has adopted a policy requiring the reimbursement of annual cash incentive and long-term equity incentive payments made to an executive officer due to the executive officer's misconduct, as determined by the Board based on the recommendation of the Compensation Committee. Each of our executive officers has agreed in writing to this policy. This policy was filed with the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008 as Exhibit (10)W.

TOTAL COMPENSATION MIX

In General The table below illustrates how total compensation for our named executive officers for 2014 was allocated between performance-based and fixed components, how performance-based compensation is allocated between annual and long-term components and how total compensation is allocated between cash and equity components:

2014 Total Compensation Mix
(base salary, target annual incentives, and long-term equity incentives valued in total at grant)

- (1) Target annual incentives plus long-term equity incentives divided by total compensation.
- (2) Base salary divided by total compensation.
- (3) Target annual incentives divided by target annual incentives plus long-term equity incentives.
- (4) Long-term equity incentives divided by target annual incentives plus long-term equity incentives.
- (5) Base salary plus target annual incentives divided by total compensation.
- (6) Long-term equity incentives divided by total compensation.

Our Analysis Our analysis indicates that total compensation mix for our named executive officers on average is generally consistent with the competitive market. The principal executive officer receives a higher proportion of his total compensation allocated to performance-based components than non-performance-based components and more allocated to equity-based compensation than cash-based compensation compared to the other named executive officers. The higher emphasis on performance-based compensation for the principal executive officer is designed to reward him for driving company performance and creating long-term shareholder value that is a greater responsibility in his position than in the positions of the other named executive officers, and is consistent with the competitive market for the CEO position. The level of compensation of Mr. Baker reflects the many responsibilities of serving as chief executive officer of a public company. Accordingly, Mr. Baker's median range

Table of Contents

competitive pay levels (including long-term equity awards) reflect his broader scope and greater responsibilities compared to our other named executive officers.

SUMMARY COMPENSATION TABLE FOR 2014

The following table shows cash and non-cash compensation for the years ended December 31, 2014, 2013 and 2012 for the persons serving as the Company's "Principal Executive Officer" and "Principal Financial Officer" during the year ended December 31, 2014 and for the next three most highly-compensated executive officers who were serving in those capacities at December 31, 2014.

(1)

Includes amounts deferred under Section 401(k) of the Internal Revenue Code pursuant to the Company's Savings Plan and ESOP, amounts deferred under a non-qualified mirror 401(k) deferred compensation plan maintained by the Company for a select group of executives, and any salary reductions per Section 125 or Section 132(f)(4) of the Internal Revenue Code.

(2)

Represents the aggregate grant date fair value of performance-based restricted stock unit (PBRSU) award grants during the year in accordance with FASB ASC Topic 718, based on the average daily share price of the Company's Common Stock at the date of grant, adjusted for the absence of future dividends, and assuming full (maximum) achievement of applicable performance criteria over the performance period. The PBRSU awards cliff-vest after three years, subject to attainment of three-year average annual return on invested capital goals for the Company over the performance period. See Note 11 to the Company's Consolidated Financial Statements for the year ended December 31, 2014, included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2014, for further discussion of the assumptions used in determining these values. See footnote (1) to the Grants of Plan-Based Awards for 2014 table on page 35 for a description of the specific performance goals for the PBRSU's.

In addition to his regular PBRSU award, Mr. Taylor received a special restricted stock unit award of 21,540 units in December 2012 as a retention incentive that is included in the 2012 amount reported for Mr. Taylor in the table above. Mr. Taylor's special restricted stock unit award was valued at \$1,426,379 and his regular PBRSU award was valued at \$492,835 in accordance with FASB ASC Topic 718. The special restricted stock unit award vests 50% on the third anniversary of the date of grant, and 25% on each of the fourth and fifth anniversaries of the date of grant, subject to continued employment and the post-termination and change-in-control provisions generally described at pages 42 through 45 under the heading "Potential Payments Upon Termination or Change in Control."

(3)

Represents the aggregate grant date fair value of stock option grants during the year in accordance with FASB ASC Topic 718 but with no discount for estimated forfeitures. The value of grants has been determined by application of the lattice (binomial)-pricing model. Key assumptions include: risk-free rate of return, expected life of the option, expected stock price volatility and expected dividend yield. See Note 11 to the Company's Consolidated Financial Statements for the year ended December 31, 2014, included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2014, for further discussion of the assumptions used in determining these values. The specific assumptions used in the valuation of the options granted in 2014 are summarized in the table below:

Grant Date	Risk Free Rate	Expected Life (years)	Expected Volatility	Expected Dividend Yield
12/03/2014 (all executives)	1.83%	6.12	22.91%	1.23%

In addition to his regular stock option grant, Mr. Taylor received a special stock option grant to acquire 97,900 shares in December 2012 as an additional retention incentive that is included in the 2012 amount reported for Mr. Taylor in the table above. Mr. Taylor's special stock option was valued at \$1,355,915 and his 2012 regular stock option was valued at \$451,510 in accordance with FASB ASC Topic 718. Both of Mr. Taylor's 2012 options have a ten-year term. Mr. Taylor's 2012 regular stock option vests on a cumulative basis as to one third of the shares subject to the option on each of the first three anniversaries of the grant date, while his 2012 special stock option vests as to 100% of the shares on the third anniversary of the grant date.

Table of Contents

- (4) Represents the annual cash incentive awards earned and paid in respect of 2014 under the Company's Management Performance Incentive Plan ("MPIP"). The MPIP is discussed in the Compensation Discussion and Analysis beginning at page 27 and as part of the table entitled "Grants of Plan-Based Awards For 2014" at page 35.
- (5) Represents the change in the actuarial present value of the executive officer's accumulated benefit under the Company's defined benefit plans as of December 31, 2014 over such amount as of December 31, 2013. The Company's defined benefit plans include the Pension Plan, the U.K. Plan, the Mirror Pension Plan and the Supplemental Executive Retirement Plan which are discussed beginning at page 38 and as part of the table entitled Pension Benefits for 2014. Mr. Taylor first became eligible to accrue benefits under the Pension Plan and the Mirror Pension Plan as of September 1, 2014. Mr. Taylor is an inactive participant in the U.K. Plan, a broad-based pension plan covering certain United Kingdom employees. There are no "above market" earnings under the Mirror Savings Plan, because all earnings under this plan are calculated at the same rate as earnings on one or more externally managed investments available to participants in the Company's broad-based tax-qualified deferred compensation plans. The Mirror Savings Plan is discussed beginning at page 40.
- (6) Amounts reported as All Other Compensation include:
- (a) Payment by the Company of certain perquisites, including costs relating to the following:
- (i) executive physical examinations for each of the named executive officers except Mr. Taylor;
 - (ii) allowances in connection with Mr. Taylor's localization at a non-U.S. subsidiary, including dependent education, housing allowance and cost-of-living equalization payments totaling \$26,128, storage fees, expenses related to his relocation to the U.S. of \$56,391, and a gross-up on taxable relocation expenses of \$11,640; (iii) in the case of Mr. Baker, \$72,160 for the personal use of corporate aircraft, with incremental cost calculated using a method that takes into account aircraft fuel expenses and engine reserve expense per flight hour, as well as any landing and parking fees, crew travel expenses, on-board catering costs and dead-head flight costs attributable to such use; and
 - (iv) business travel and accident insurance for each of the named executive officers for which no incremental cost is allocated to the named executive officers.
- (b) Pursuant to the Company's tax equalization policy, the Company paid tax preparation fees, and a gross-up of \$11,100 on foreign income, on behalf of Mr. Schmechel, in connection with income earned during a previous international assignment. The total amount listed in the All Other Compensation Column also reflects a negative entry of (\$63,159), representing a net amount the Company withheld from Mr. Schmechel's earnings pursuant to the Company's tax equalization policy so that his withholdings were at least equal to the tax withholdings which would have applied in the U.S.
- (c) Payment by the Company of life insurance premiums in 2014 for: Mr. Baker, \$41,102; Mr. Schmechel, \$18,537; Mr. Handley, \$33,810; and Mr. Hickey, \$25,284. Mr. Taylor also has a self-funded death benefit agreement described at page 43 which imposes no incremental cost on the Company.

(d)

Payment of matching contributions made by the Company for 2014 as follows: (i) matching contributions of \$10,400 to Messrs. Baker, Schmechel, Handley and Hickey, and a matching contribution of \$10,501 to Mr. Taylor, made by the Company under the Company's tax-qualified defined contribution 401(k) Savings Plan and ESOP available generally to all employees; and (ii) matching contributions made or to be made by the Company on base salary and annual cash incentive award earned in respect of 2014 that the executive deferred under a non-qualified mirror 401(k) deferred compensation plan maintained by the Company for a select group of executives, in the following amounts: Mr. Baker, \$136,295; Mr. Schmechel, \$32,240; Mr. Handley, \$45,648; Mr. Taylor \$8,474, and Mr. Hickey, \$31,022.

(e)

The Company maintains a self-funded, supplemental long-term disability benefit plan for certain executives, which benefits Messrs. Baker, Schmechel and Handley. No specific allocation of cost is made to any named executive officer prior to the occurrence of a disability.

(7)

Mr. Taylor's salary and allowances in connection with his localization at a non-U.S. subsidiary from January 1, 2014 to August 31, 2014 are denominated in United Arab Emirates dirham and have been converted into U.S. dollars for reporting in this table based on a conversion rate of 1.0 AED=0.27 \$U.S. Mr. Taylor's change in pension benefit is accrued in British pounds and is reported based on a conversion rate of 1GBP=1.5645 \$U.S. on November 30, 2014, and a conversion rate of 1GBP=1.6348 \$U.S. on November 30, 2013, using pension measurement dates of November 30, 2014 and November 30, 2013, consistent with the Company's assumptions under FASB ASC Topic 715 for financial reporting regarding international retirement plans.

(8)

Mr. Hickey was not a named executive officer in 2013.

(1)

Amounts reflect the threshold, target and maximum number of shares of Company Common Stock that may be earned pursuant to performance-based restricted stock unit (PBRSU) awards granted in 2014. The PBRSU awards cliff-vest after three years, subject to attainment of performance goals over a three-year performance period of 2015 to 2017. For the 2015 to 2017 performance cycle, 40% of the PBRsUs granted may be earned subject to attainment of a threshold goal of 10% average annual return on invested capital excluding purchase accounting and special gains and charges relating to the Nalco and Champion transactions (ROIC) over the performance cycle, and 100% of the PBRsUs may be earned subject to attainment of a target goal of 15% average annual ROIC over the cycle, with straight-line proration for performance results between threshold and target goals. No PBRsUs may be earned if ROIC is below the threshold goal, and no more than 100% of the PBRsUs may be earned if ROIC is above the target goal; accordingly, target and maximum are equal. Dividend equivalents are not paid or accrued during the performance period. See the discussion of performance-based restricted stock units in the Compensation Discussion and Analysis at page 30 for more information on these awards.

(2)

Options granted in 2014 have a ten-year contractual exercise term and vest (or will be exercisable) over three years, on a cumulative basis, as to one third of the option shares on the first and second anniversaries of the date of grant and as to the remaining option shares on the third anniversary.

(3)

If a holder terminates employment at or after age 55 with five or more years of continuous employment, stock options held at least six months will become immediately exercisable in full and the service-based vesting conditions on PBRsU awards held at least six months will be deemed satisfied but vesting will remain subject to attainment of the performance goals; all unvested restricted stock unit awards will terminate and be forfeited. A discussion of the consequences of a change in control on outstanding options, PBRsU awards and restricted stock awards is at page 44 under the heading "Change in Control."

(4)

Each of the stock options granted to our named executive officers during the year ended December 31, 2014 and reported in the table above were granted on the same date as our Compensation Committee approval date and have an exercise price which is the average of the high and low market price on the date of grant. We believe that the use of the average of the high and low market price on the date of the grant removes potential same-day stock volatility.

(5)

Represents the grant date fair value of each equity award, computed in accordance with FASB ASC Topic 718. With respect to stock options, the value has been determined by application of the lattice (binomial)-pricing model, based upon the terms of the option grant and Ecolab's stock price performance history as of the date of the grant. Key assumptions include: risk-free rate of return, expected life of the option, expected stock price volatility and expected dividend yield. The specific assumptions used in the valuation of these options are located in footnote (3) to the Summary Compensation Table at page 33.

With respect to PBRsUs, the value has been determined based on the maximum award payout, consistent with the estimate of aggregate compensation cost to be recognized over the three-year vesting period of the award. See footnote (1) above for a description of the performance goals and performance period.

(6)

The Company maintains annual cash incentive programs for executives referred to as the Management Incentive Plan, or MIP and Management Performance Incentive Plan, or MPIP, which are discussed in the Compensation Discussion and Analysis beginning at page 27. In May 2014, the Company's stockholders approved the version of the MPIP applicable for 2014, an annual incentive plan under which awards are intended to qualify as performance-based under Internal Revenue Code Section 162(m). As required under the terms of the MPIP, the Compensation Committee of the Board ("Committee") selected each of Messrs. Baker, Schmechel, Handley, Taylor and Hickey to participate in the MPIP for 2014 for the period January 1, 2014, through December 31, 2014, established the 2014 performance goal based upon the performance criteria of diluted earnings per share ("EPS"), an EPS performance target of a designated amount, and a maximum permitted cash payout of 300% of the participant's base salary for the period of participation in 2014 to the extent the goal is achieved. The MPIP permits the Committee to exercise downward discretion and pay an amount which is less than the amount of the maximum permitted payout that may have been earned by the participant. In applying this downward discretion, the Committee is guided by applying operating metrics established under the MIP at the beginning of 2014. In the case of the named executive officer participants, the potential payouts that could be earned under the MIP for 2014 and that

Table of Contents

would be used to guide the Committee's discretion under the MPIP are noted in the MPIP row of the above table. Actual payouts to each of the named executive officers with respect to 2014 are included under the Non-Equity Incentive Plan Compensation column in the Summary Compensation Table at page 33. Refer to the Compensation Discussion and Analysis beginning at page 27 for more detail regarding the MPIP and MIP performance goals. Each award is subject to and interpreted in accordance with the terms and conditions of the MPIP or MIP, as applicable, and no amount will be paid under the MPIP or the MIP unless and until the Committee has determined the extent to which the applicable performance goal has been met, the corresponding amount of the award earned by the participant and the degree to which the Committee chooses to exercise its permitted discretion under the MPIP.

Except for options held by Mr. Taylor described under footnote (3) to this table, stock options have a ten-year contractual exercise term and vest ratably on the first three anniversaries of the date of grant, subject to the post-termination and change-in-control provisions generally described at pages 42 through 45 under the heading "Potential Payments Upon Termination or Change in Control."

Represents performance-based restricted stock unit (PBRSU) awards which cliff-vest after three years, subject to attainment of performance goals over a three-year performance period, and assuming attainment of target (which also represents maximum) performance, as the performance over the prior three-year period has exceeded threshold. The reported market value is based on the closing market price of the Company's Common Stock on December 31, 2014 of \$104.52 per share. The awards are subject to the post-termination and change-in-control provisions generally described at pages 42 through 45 under the heading "Potential Payments Upon Termination or Change in Control."

(3)

On December 1, 2011 and December 5, 2012, Mr. Taylor received special stock option grants which vest as to 100% of the shares on the third anniversary of the grant and have a ten-year term.

(4)

Represents the grant of a restricted stock unit award on December 5, 2012 to Mr. Taylor which vests 50% on the third anniversary of the date of grant, and 25% on each of the fourth and fifth anniversaries of the date of grant, subject to continued employment.

- (1) Represents the aggregate number of shares and dollar amount realized by the named executive officer upon exercise of one or more stock options during 2014. The dollar amount realized on exercise represents the difference between the fair market value of our Common Stock on the exercise date and the exercise price of the option.
- (2) Represents the performance-based restricted stock unit (PBRSU) shares earned for the 2012-2014 performance period that ended on December 31, 2014 because performance targets were met. The value shown as realized is based on the number of shares earned for the 2012-2014 performance period using the per-share closing market price of our common stock of \$104.52 on December 31, 2014, although shares were not issued until Compensation Committee certification of results on February 25, 2015.
- (3) Represents (i) the vesting on February 28, 2014 of a performance stock unit award granted in 2011 that, in connection with the Nalco merger, was converted from an award to receive shares of Nalco Common Stock, (ii) the vesting on December 1, 2014 of a restricted stock unit award granted on December 1, 2011, and (iii) the vesting of PBRsUs in the manner set forth in footnote (2) above.

The Company maintains the following non-contributory defined benefit plans for its executives: (i) a U.S. tax-qualified plan (Pension Plan); (ii) a non-qualified excess plan (Mirror Pension); and (iii) a supplemental executive retirement plan (SERP). Mr. Taylor has a pension benefit in the Nalco Limited 2002 Pension Plan (U.K. Plan), which covers certain U.K. employees of the Company hired prior to October 1, 2002, from a prior employment assignment in the U.K. The U.K. Plan is described in more detail on page 40. Mr. Taylor became a participant in the Pension Plan and the Mirror Pension Plan at the time of his transfer to employment in the U.S. on September 1, 2014.

Edgar Filing: ECOLAB INC - Form DEF 14A

The preceding table shows the actuarial present value of the accumulated benefit for each executive officer under the Pension Plan, the Mirror Pension and the SERP as of December 31, 2014, using the same assumptions as are used by the Company for financial reporting purposes under generally accepted accounting principles, except that retirement age is assumed to be age 62, the earliest retirement age at which a participant may retire under the plans without any benefit reduction due to age. The current accrued benefit for U.S. executives is allocated between the tax-qualified Pension Plan and the related supplemental non-qualified plans based on the Internal Revenue Code limitations applicable to tax-qualified plans as of December 31, 2014. The present value is determined by using a discount rate of 4.14% for 2014 and assuming that the executive officer (i) terminated employment on December 31, 2014 with vested benefits; and (ii) commenced a retirement benefit at age 62 as a single life annuity or lump sum, if available. Pension annuities were converted to lump sums, where available, using an interest rate of 2.88% and the mortality rates defined in the Mirror Pension and SERP plans as prescribed in Revenue Ruling 2001-62. The present value of the pension single life annuity assumed mortality rates from the RP 2014 Healthy Annuitant Mortality with generational mortality improvement scale MP 2014 table. Cash balance benefits were valued assuming future interest credits of 2.33% for periods after December 31, 2014. The cash balance annuity conversion for the SERP offset used the interest rate and mortality assumptions prescribed by the IRS under Internal Revenue Code Section 417(e) for 2014 pension lump sum calculations. The actuarial assumptions used for the U.K. Plan are discussed at page 40.

The Pension Plan is a tax-qualified defined benefit plan covering most U.S. employees of the Company and its U.S. affiliates. It is intended to provide long-service employees a foundation for retirement benefits in the form of regular income. Participants hired prior to January 1, 2003, including Messrs. Baker, Schmechel and Hickey, earn monthly pension benefits under the following formula ("traditional formula"): $\frac{1}{12}$ of the sum of (a) years of credited service times 1% of "final average compensation" plus (b) years of credited service (not exceeding 35) times 0.45% of "final average compensation" minus "covered compensation." "Final average compensation" is the average of the participant's annual compensation for the five consecutive calendar years that produce the highest average, counting the participant's base salary and annual cash incentive compensation for a plan year, excluding any long-term and non-cash incentive bonuses and amounts above the IRS compensation limits for qualified plans. "Covered compensation" is the average Social Security taxable wage base over a 35 year period ending at a participant's Social Security retirement age.

Participants hired after 2002, including Messrs. Handley and Taylor (following his entry into the Pension Plan on September 1, 2014), accrue an account credit at the end of each year equal to a fixed percentage of the participant's compensation for that year plus an interest credit applied to the participant's account balance on the first day of that year ("cash balance formula"). The fixed percentage is either 3% or 5% depending on a participant's date of entry into the Pension Plan. Mr. Handley's cash balance formula is based on 5% of compensation, while Mr. Taylor's cash balance formula is based on 3% of compensation. Compensation used in determining the credits is the participant's base salary and annual cash incentive compensation for a plan year, excluding any long-term and non-cash incentive bonuses and amounts above the IRS limits for qualified plans.

Participants become entitled to a non-forfeitable ("vested") right to their Pension Plan benefit upon completing three years of continuous service with the Company. Normal retirement date is the date on which the participant attains age 65 and has completed at least three years of continuous service. Traditional formula participants who have terminated employment with the Company may begin to receive benefit payments as early as age 55, reducing the benefit by $\frac{1}{280}$ for each month by which

Table of Contents

payment begins before age 62. Unreduced benefits may begin after attaining age 62. The normal form of benefit is a single life only annuity for participants who are not married and a joint and 50% survivor annuity for married participants. Subject to a spousal consent requirement for married participants, participants may select an actuarially equivalent benefit in one of the following forms: single life only annuity; joint and 75% or 100% survivor annuity (married participants only); life and five-year certain annuity; and life and ten-year certain annuity. If a participant dies after benefit commencement, payments to a beneficiary, if any, are made according to the payment option selected by the participant. If a participant with a vested traditional formula benefit dies before benefit payments commence, the participant's beneficiary is entitled to a death benefit. If the beneficiary is the participant's surviving spouse, the benefit is a life annuity beginning after the participant would have attained age 55. Other beneficiaries receive a five- or ten-year annuity benefit.

Cash balance formula participants with at least three years of continuous service may commence benefit payment at any time after termination. The payment will be the actuarial equivalent value of their account balance, determined using the mortality and interest factors prescribed by the IRS. The normal form of benefit for cash balance formula participants is a single life only annuity for participants who are not married and a joint and 50% survivor annuity for married participants. Optional forms of payment for cash balance formula participants are lump-sum payment, single life annuity, and, for married participants only, joint and 75% or 100% survivor annuity. The beneficiary of a cash balance formula participant who dies before commencing benefits will receive a death benefit actuarially equivalent to the participant's account balance.

The Mirror Pension is a non-qualified plan intended to restore benefits under the tax-qualified Pension Plan for those employees whose benefits are reduced by Internal Revenue Code limits. The Mirror Pension has generally the same terms as the Pension Plan except: (i) compensation is determined without regard to the IRS limits for qualified plans; (ii) vesting is accelerated upon a change in control; (iii) benefits may be forfeited for certain serious misconduct; and (iv) the optional forms of benefits available to participants with respect to benefits accrued and vested as of December 31, 2004 ("Grandfathered Mirror Pension Benefits") include a lump sum payment. Benefits accrued or vested after December 31, 2004 are subject to Internal Revenue Code Section 409A ("409A Mirror Pension Benefits") and are not linked to the Pension Plan. The normal form of 409A Mirror Pension Benefits is a 10-year annual installment payout commencing upon the later of attainment of age 55 or separation from service for traditional formula participants, or upon separation from service for cash balance formula participants, provided that payment to a "specified employee" (corporate officers, including each of the named executive officers) may not commence earlier than six months after separation from service. Optional forms of benefits available to participants include 5-year annual installments, lump sum or an annuity option (single life, life and 5-year certain, life and 10-year certain, and for married participants, joint and 50%, 75% or 100% survivor). Participants were permitted to make a transition election as to an optional form of benefit for their 409A Mirror Pension Benefits before the end of 2008 as permitted under 409A regulations. Any subsequent change in optional form by a participant is subject to the "1-year/5-year rule" which requires that the change be made 12 months before separation from service and must not become effective for 12 months after the election is made (the 1-year rule), and the payment commencement date must be delayed for five years after the date the amounts would otherwise have been paid (the 5-year rule). A participant who elects an annuity option may choose among the various types of annuity forms at any time before benefit commencement. Despite the plan's normal form of benefit or a participant's election of an optional form of benefit, the Company will cash out the participant's Grandfathered Mirror Pension Benefit and/or the participant's 409A Mirror Pension Benefit in a lump sum if the present value of such portion of the benefit at the time of distribution does not exceed \$25,000.

The SERP is a non-qualified supplemental executive retirement plan intended to ensure a pension benefit that replaces a significant portion of the income of certain executives. The maximum SERP benefit equals 2% of final average compensation multiplied by years of credited service (up to 30 years), reduced by the benefits payable under the Pension Plan, the Mirror Pension and 50% of the age 65 Primary Social Security benefit. A participant age 65 with 30 years of service would receive benefits from all three defined benefit plans equal to 60% of final average compensation (less 50% of the age 65 Social Security benefit). For certain executives hired by the Company after age 35 and therefore unable to earn the maximum benefit at age 65, the SERP provides an additional "past service benefit." The annual past service benefit equals 1% of the difference between final average compensation and annualized earnings at the time of joining the Company ("first year earnings") multiplied by the difference between the executive's age at date of hire and 35. Material terms of the SERP are similar to those of the Pension Plan except: (i) compensation is determined without regard to the IRS limits for qualified plans; (ii) the SERP benefit vests upon attainment of age 55 and completion of ten years of service or attainment of age 65; (iii) vesting is accelerated upon a change in control; (iv) benefits may be forfeited for certain serious misconduct; and (v) participants hired after age 35 are credited with additional "past service credit" equal to one year for each year by which the executive's age at date of hire exceeded 35. In addition, the normal form of benefit with respect to SERP benefits accrued and vested as of December 31, 2004 ("Grandfathered SERP Benefits") is a 15-year certain monthly annuity commencing at age 65, and participants may elect to receive an actuarially equivalent benefit in any of the optional forms of payment available under the Pension Plan or in a lump sum. SERP benefits accrued or vested after December 31, 2004 are subject to Internal Revenue Code Section 409A ("409A SERP Benefits"). The normal form of benefit, election of optional forms of benefit and time of commencement of the 409A SERP Benefits are linked to the Mirror Pension. Despite the normal form of benefit or a participant's optional form of benefit election, the Company will cash out the participant's grandfathered SERP Benefits and/or the participant's 409A SERP Benefits in a lump sum if the present value of such portion of the benefit at the time of distribution does not exceed \$25,000.

Messrs. Schmechel and Handley were hired by the Company after age 35 and will benefit from the past service benefit and past service credits under the SERP. The SERP benefit in the above table includes past service benefits for Mr. Schmechel totaling \$69,008 for 1.35 years of past service credit, and Mr. Handley totaling \$1,248,305 for 14.10 years of past service credit.

Edgar Filing: ECOLAB INC - Form DEF 14A

In 2010, the SERP was amended to eliminate further benefit accruals after December 31, 2020.

Messrs. Baker, Schmechel and Handley are the only named executive officers eligible for early retirement under the Pension Plan, Mirror Pension and SERP as of December 31, 2014. As a cash balance formula participant, Mr. Handley would be eligible to receive his vested benefits under the Pension Plan and Mirror Pension upon separation from service.

The Company does not grant extra years of credited service under the Pension Plan or the Mirror Pension Plan except as approved by its Board of Directors. Prior service credits have been approved by the Board in limited circumstances in connection with a business acquisition or merger, entry into plan participation by employees formerly participating in a union plan while employed with the Company and for employment with the Company before the Pension Plan was adopted in 1972. None of the named executive officers has been granted extra years of service under these plans. The SERP grants extra years of credited service for certain executive officers hired by the Company after age 35. Messrs. Schmechel and Handley have been granted extra years as noted above in the discussion of the SERP.

The actuarial present value of Mr. Taylor's accumulated benefit in the U.K. Plan as of November 30, 2014, is \$536,624 and is reflected in the Pension Benefits for 2014 table on the line for "U.K. Plan". The measurement date of November 30, 2014, and other assumptions used to determine the value of Mr. Taylor's benefit, are consistent with those used by the Company for financial reporting purposes under U.S. generally accepted accounting principles. The value of Mr. Taylor's current accrued benefit was determined based on a 3.50% discount rate. Different portions of the U.K. pensions are indexed according to various inflation measures (CPI or RPI), which in addition in some instances are subject to caps. The resulting inflation measures are assumed to range from 1.75% to 4.5%, with the underlying inflation being assumed as 3.25% for RPI and 2.25% for CPI.

The U.K. Plan provides benefits described in the Trust Deed and Rules dated July 4, 2002, as amended on August 25, 2009, and subsequently amended at December 22, 2009, and November 8, 2012, and as supplemented by the provisions of the predecessor plans. The U.K. Plan provides a 5-year certain-and-life annuity benefit at normal retirement equal to one-sixtieth ($1/60$) of final pensionable pay multiplied by years of pensionable service. Final pensionable pay is defined as the average of the last three pensionable pay figures at the date of retirement or earlier exit. Pensionable pay is basic salary on each April 1. Effective January 1, 2010, the U.K. Plan was amended to limit increases in pensionable earnings to no more than 2% per year.

Participants in the U.K. Plan may exchange part of their pension for a tax-free lump sum at retirement. The rate of exchange is determined by the Trustees based on actuarial advice. The normal retirement age is 65, but members may draw their pension early. Active and deferred members require consent from the Company to retire early. Once in payment, pensions increase each April 1, in line with the provisions of the Trust Deed and Rules and in accordance with statutory provisions. Partner's and children's pensions may become payable on the event of the death of a member of the Plan.

Mr. Taylor's benefit in the U.K. Plan increased solely as a passage of time, as his service and compensation in 2014 were not considered in determining his U.K. Plan benefit.

Amounts reported in the aggregate balance at last fiscal year end include the following amounts which were reported as compensation to the named executive officer in the Summary Compensation Table in 2006-2013: Mr. Baker, \$1,920,204; Mr. Schmechel, \$104,955 (Mr. Schmechel became a named executive officer in 2012); Mr. Handley, \$696,862 (Mr. Handley became a named executive officer in 2007); and Mr. Hickey, \$63,180 (Mr. Hickey was a named executive officer in 2012). Amounts reported in the aggregate balance at last fiscal year end do not include deferrals or match on 2014 annual incentive bonus reported in the table above that are reported in the 2014 Summary Compensation Table at page 33 as these amounts are not credited to the executive's accounts until 2015.

(4)

Mr. Taylor began participating in the Company's non-qualified deferred compensation arrangements on September 1, 2014. However, contributions to his account were not credited until 2015 and so are not included in his Aggregate Balance at Last FYE.

The Mirror Savings Plan is a non-qualified mirror 401(k) deferred compensation excess plan which enables executives to obtain the benefits of a tax-deferred savings and investment program without regard to limits on compensation and benefits imposed by the Internal Revenue Code on the Company's tax-qualified deferred compensation plans. The plan is unfunded and does not protect the executive from insolvency of the Company. Effective January 1, 2013, we made changes to the Company's U.S. qualified and non-qualified retirement plans to provide for a unified platform of retirement benefits for eligible employees of the Company. In that regard, the Mirror Savings Plan was amended as of January 1, 2013, to provide an enhanced matching contribution for individuals who became participants in the Pension Plan after January 1, 2007, including Mr. Taylor.

Edgar Filing: ECOLAB INC - Form DEF 14A

Table of Contents

In 2014, participants were permitted to defer up to 25% of base salary and up to 100% of annual cash incentive compensation for the calendar year. The Company credits a matching contribution for each of the named executive officers participating in the plan. Participants who are entitled to a final average pay benefit or 5% cash balance benefit in the Pension Plan, including Messrs. Baker, Schmechel, Handley and Hickey, receive a matching contribution credit equal to (i) 100% of the amount of the executive's deferrals that do not exceed 3% of covered compensation plus (ii) 50% of the executive's deferrals that exceed 3% but do not exceed 5% of the executive's covered compensation. Participants in the Pension Plan who are eligible to accrue a 3% cash balance benefit in the Pension Plan, such as Mr. Taylor, receive a matching contribution credit equal to (i) 100% of the amount of the executive's deferrals that do not exceed 4% of covered compensation plus (ii) 50% of the executive's deferrals that exceed 4% but do not exceed 8% of the executive's covered compensation. However, Nalco and Champion executives, including Mr. Taylor beginning September 1, 2014, were not eligible to defer base salary earned in 2014, but received matching contributions as though they had deferred base salary in excess of the compensation that can be considered under the Company's tax-qualified 401(k) plan.

An account is maintained on the Company's books in the name of each participating executive. The account is credited with phantom earnings at the same rate as earnings on externally managed investment funds available to participants in the Company's tax-qualified deferred compensation plans. An executive is allowed to elect the investment fund or funds that will apply and may change the election at any time; provided that (i) an executive officer is not permitted to elect the Company stock fund, and (ii) effective January 1, 2006, the Company discontinued making its matching contributions to the Company stock fund. The earnings rate applicable to each such investment fund for 2014 is as set forth in the following table:

Participants are always 100% vested in their deferred compensation account and are entitled to receive a distribution in cash upon termination, death or disability. The normal form of distribution with respect to the portion of the account attributable to contributions made before 2005 ("Grandfathered Mirror Savings Benefit") is a single lump sum, but an executive may elect to receive such portion of the account in the form of annual installments over a period not to exceed ten years. The portion of the executive's account attributable to contributions made after 2004 is subject to Internal Revenue Code Section 409A ("409A Mirror Savings Benefit"). The normal form of 409A Mirror Savings Benefit is a 10-Year Annual Installment payout commencing upon separation from service, provided that payment to a "specified employee" (corporate officers, including each of the named executive officers) may not commence earlier than six months after separation from service. Optional forms of

benefits available to participants include 5-year annual installments or lump sum. Participants were permitted to make a transition election as to an optional form of benefit for their 409A Mirror Savings Benefit before the end of 2008 as permitted under 409A regulations and new participants may make such an election at the time of initial enrollment. Any subsequent change in optional form by a participant is subject to the "1-year/5-year rule" which requires that the change be made 12 months before separation from service and must not become effective for 12 months after the election is made (the 1-year rule), and the payment commencement date must be delayed for five years after it would otherwise be paid (the 5-year rule). Despite the plan's normal form of benefit or a participant's election of an optional form of benefit, the Company will cash out the participant's Grandfathered Mirror Savings Benefit and/or the participant's 409A Mirror Savings Benefit in a lump sum if the present value of such portion of the benefit at the time of distribution does not exceed \$25,000. Deferrals may be withdrawn during employment only upon an unforeseeable emergency and are limited to the amount needed to satisfy such emergency. Company matching amounts are not available for such in-service withdrawal and are subject to forfeiture for certain serious misconduct.

**POTENTIAL PAYMENTS UPON TERMINATION OR
CHANGE IN CONTROL**

The Company maintains certain plans, policies and practices covering named executive officers that will require it to provide incremental compensation upon certain types of terminations, including termination due to a change in control of the Company.

Overview The following discussion describes additional amounts that the Company would pay or provide to a named executive officer or his or her beneficiaries as a result of termination of employment in each of the following situations: voluntary resignation, discharge for cause, discharge without cause, resignation due to constructive discharge, death or disability and change in control of the Company. For purposes of this discussion, estimated benefits are calculated as if the termination occurred on December 31, 2014 and the value of a share of the Company's stock on that day was \$104.52, the closing price on December 31, 2014, the last trading day of 2014.

As permitted by SEC rules, the following discussion and amounts do not include the payments and benefits that are not enhanced by the termination of employment or change in control. These payments and benefits are referred to hereafter in this discussion as "vested benefits" and include:

benefits accrued under the Company's Pension Plan, U.K. Plan, tax-qualified deferred compensation 401(k) and profit-sharing plan, in which all eligible employees participate;

benefits provided under a retiree health, and except as specified, a death benefits program, in which all eligible employees participate;

accrued vacation pay, health and life insurance plan continuation and other similar amounts payable when employment terminates under programs applicable to the Company's salaried employees generally;

payment of earned annual cash incentive payable if employed through the end of the year described at page 27;

benefits accrued under the Mirror Savings Plan described in connection with the Non-Qualified Deferred Compensation table at page 40;

benefits accrued that have become vested under the SERP described in connection with the Pension Benefits table at page 38;

PBRSU awards that have vested upon completion of the relevant service period and whose payout are subject to the attainment of the relevant performance goals as described at page 30; and

shares of restricted stock or restricted stock units that have vested as described at page 30.

Voluntary Resignation The Company is not obligated to pay any amounts in addition to the named executive officer's vested benefits in the event of a voluntary termination of employment, unless the executive's age and years of service qualify for special provisions applicable for retirement under the plans described below.

Edgar Filing: ECOLAB INC - Form DEF 14A

Annual Cash Incentive If termination is after age 55 and completion of at least three years of service, the executive would receive payment of a portion of the annual cash incentive under the Company's annual cash incentive program (Management Performance Incentive Plan or "MPIP" and Management Incentive Plan or "MIP") which is described in the Compensation Discussion and Analysis beginning at page 27 and as part of the table entitled "Grants of Plan Based Awards in 2014" at page 35 earned for the year that is proportionate to the portion of the performance period under the Plan that was completed prior to the termination of employment. The earned annual cash incentive payable to such an eligible executive officer for termination on December 31, 2014 would be the full amount of the actual annual cash incentive earned as reported as Non-Equity Incentive Plan Compensation column of the Summary Compensation Table at page 33.

Retiree Life Insurance Certain elected corporate officers who terminate employment at or after (i) attaining age 55 and completing at least ten years of service or (ii) attaining age 65 are covered by an executive life insurance policy. Under the program, the beneficiary of the retired executive is entitled to a death benefit equal to the lesser of (i) 200% of the executive's average compensation for the five consecutive years of employment preceding retirement which yields the highest average compensation, or (ii) \$750,000. Mr. Taylor is not eligible for this benefit. Pursuant to the terms of a separate death benefit agreement described on page 43, if Mr. Taylor completes ten or more years of service after attaining age 45, his beneficiary would be entitled to a retiree death benefit of 150% of his annual base salary in effect on his termination date. Mr. Taylor had not met the conditions for the retiree death benefit as of December 31, 2014.

Options If termination is after (i) age 55 and (ii) completion of at least five years of service, the executive would be entitled to accelerated vesting for options held at least six months and an extended, post-retirement exercise period of five years (or the remaining term of the options, if shorter).

PBRsUs If termination is after (i) age 55 and (ii) completion of at least five years of service, service-vesting conditions with respect to PBRsU awards held at least six months will be deemed satisfied, but vesting remains subject to the attainment of performance goals.

Messrs. Baker, Schmechel and Handley are the only named executive officers who would have been entitled to some or all of such special retirement provisions as of December 31, 2014, as follows:

Mr. Baker's retirement benefits would include: \$2,564,100 annual cash incentive; \$750,000 retiree life insurance coverage; 165,701 accelerated option shares at \$2,278,550 value; and 76,214 PBRsUs at \$7,965,887 value.

Table of Contents

Mr. Schmechel's retirement benefits would include: \$578,500 annual cash incentive; \$750,000 retiree life insurance coverage; 26,254 accelerated option shares at \$274,059 value; and 11,185 PBRUs at \$1,169,056 value.

Mr. Handley's retirement benefits would include: \$806,200 annual cash incentive; \$750,000 retiree life insurance coverage; 46,094 accelerated option shares at \$609,863 value; and 20,960 PBRUs at \$2,190,739 value.

Discharge for Cause The Company is not obligated to pay any amounts in addition to the named executive officer's vested benefits in the event of a termination of employment for cause. The executive's right to exercise vested options expires and unvested PBRU and restricted stock unit awards are forfeited upon discharge for cause. Cause under the Company's stock incentive plans includes (a) deliberate injury or attempted injury related to the Company or any subsidiary, including dishonesty, fraud, misrepresentation, or embezzlement; (b) any unlawful or criminal activity of a serious nature; (c) any intentional and deliberate material breach of duty; or (d) material breach of any confidentiality or non-compete agreement.

An elected corporate officer with qualifying age and years of service would receive coverage under the retiree life insurance program described in the above section entitled "Voluntary Resignation." However, under Mr. Taylor's separate death benefit agreement described below, his death benefit is forfeited if he is terminated for cause or violates the terms of any agreement between him and certain of Ecolab's subsidiaries.

Death or Disability In the event of a termination as a result of death or disability, the named executive officer or his or her beneficiaries would be entitled to the following benefits in addition to his or her vested benefits.

Executive Long-Term Disability Benefits Certain executives who become "disabled" will, following a 180-day elimination period, receive payments from the Company equal to 60% of his or her base salary and annual cash incentive, reduced by the benefit paid under the Company's insured long-term disability plan available to all full-time employees (which is limited to \$15,000 per month). Total disability benefits are limited to \$35,000 per month. An executive is "disabled" during the first 18 months if he or she cannot earn at least 80% of his or her pre-disability compensation at his or her own occupation. After 18 months, the executive is "disabled" if he or she cannot earn at least 80% of his or her pre-disability compensation at any occupation for which he or she is qualified by training, education or experience. Benefits may continue until the executive reaches Social Security Normal Retirement Age, subject to certain minimum lengths of payment. Benefits are limited to 24 months if disability is a result of mental illness that results from any cause, any condition that may result from mental illness, alcoholism which is under treatment, or the non-medical use of narcotics, sedatives, stimulants, hallucinogens or any other such substance. Mr. Taylor is not eligible for this long-term disability benefit.

Executive Life Insurance If an executive covered by executive life insurance dies, his beneficiary will receive an insured basic executive death benefit equal to three times the executive's annual compensation for the year preceding the death, subject to a maximum benefit of \$9,000,000. The death benefit which would have been payable to the beneficiaries of each of the named executive officers for a death as of December 31, 2014 would be as follows: Mr. Baker, \$9,000,000; Mr. Schmechel, \$2,283,000; Mr. Handley, \$3,432,000; and Mr. Hickey, \$2,674,800. If an executive's death is accidental, the beneficiary would receive an additional accidental death benefit amount equal to the executive death benefit, subject to a maximum of \$6,000,000. If an executive's death occurs during travel on Company business, the benefit would be increased by three times the executive's annual compensation for the year preceding the death, subject to a maximum business travel benefit of \$6,000,000. Mr. Taylor is not eligible for the Company's executive life insurance program, and would instead be eligible for life insurance under the Company's plan for U.S. salaried employees of \$1,050,000, and business travel accident insurance under the Company's plan for U.S. salaried employees. Mr. Taylor would also receive death benefits under a separate death benefit agreement dated December 2, 2007, which provides a death benefit equal to two times his base salary in effect on the date of his death. This separate agreement benefiting Mr. Taylor is filed as Exhibit 10.23 to the Company's Annual Report on Form 10-K for the year ended December 31, 2014. The death benefit that would have been payable to Mr. Taylor's beneficiary under this agreement as of December 31, 2014, is \$1,050,000.

Annual Cash Incentive Payment of the annual cash incentive under the Company's annual cash incentive program (Management Performance Incentive Plan or "MPIP" and Management Incentive Plan or "MIP"), which is described in the Compensation Discussion and Analysis beginning at page 27 and as part of the table entitled "Grants of Plan Based Awards For 2014" at page 35, earned for the year that is proportionate to the portion of the performance period under the Plan that was completed prior to the termination of employment. The earned annual cash incentive payable to each of the named executive officers for termination due to death or disability on December 31, 2014 would be the full amount of the actual annual cash incentive earned as reported as Non-Equity Incentive Plan Compensation column of the Summary Compensation Table at page 33.

Options If employment terminates as a result of death or disability, the vesting of options is accelerated and the post-death/disability exercise period is extended to five years (or the remaining term of the options, if shorter). Accelerated vesting
