REPORT ON REVIEW BY INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS'

Board of Directors  
Sun River Mining, Inc.  
Denver, CO

We have reviewed the accompanying balance sheet of Sun River Mining, Inc. (A Development Stage Company) as of June 30, 2002 and the related statements of operations for the three and nine-months ended June 30, 2002 and 2001 and February 25, 1997 (Inception) to June 30, 2002, and cash flows for the nine-months ended June 30, 2002 and 2001 and for February 25, 1997 (Inception) to June 30, 2002, included in the accompanying Securities and Exchange Commission Form 10-QSB for the period ended June 30, 2002. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for the financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States, the objective of which is to express an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with auditing standards generally accepted in the United States, the balance sheet as of September 30, 2001, and the related statements of operations, stockholders' equity and cash flows for the year then ended (not presented herein). In our report dated December 14, 2001, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying balance sheet as of June 30, 2002 is fairly stated in all material respects in relation to the balance sheet from which it has been derived.
