INFORMATION STATEMENT

We Are Not Asking You for a Proxy and You are Requested Not To Send Us a Proxy

NON-REGISTERED HOLDERS

Only registered holders as of the record date of January 02, 2014 of shares of the Corporation's common stock (the "Common Shares") and holders of shares of the Corporation's preferred stock (the "Preferred Shares") or the persons they appoint as their proxies, are permitted to attend and vote at the Meeting.

In many cases, Common Shares of the Corporation beneficially owned by a holder (a "Non-Registered Holder") are registered either:

(A) in the name of an intermediary (an "Intermediary") that the Non-Registered Holder deals with in respect of the shares, such as, among others, banks, trust companies, securities dealers or brokers and trustees or administrators of self-administered registered retirement savings plans, registered retirement income funds and registered educational savings plans and similar plans; or

(B) in the name of a clearing agency (such as The Canadian Depository for Securities Limited) of which the Intermediary is a participant.

The Corporation has distributed copies of the Notice of Internet Access to the clearing agencies and Intermediaries for onward distribution to Non-Registered Holders.

Intermediaries are required to forward Meeting Materials to Non-Registered Holders unless a Non-Registered Holder has waived the right to receive them. Very often, intermediaries will use service companies to forward the Meeting Materials to Non-Registered Holders.

Should a Non-Registered Holder wish to attend and vote at the Meeting in person (or have another person attend and vote on behalf of the Non-Registered Holder), the Non-Registered Holder must obtain a proxy from their Intermediary. Non-Registered Holders should carefully follow the instructions of their Intermediaries.

QUORUM AND VOTING SHARES

The Corporation has fixed January 02, 2014 as the record date (the "Record Date") for the purpose of determining the shareholders entitled to receive the Notice of Meeting. As of December 15 2013, there were 320,046,834 Common Shares issued and outstanding and 81,518,410 Preferred Shares issued and outstanding. All of the holders of the Preferred Shares have given their proxies to vote their Preferred Shares to the Corporation's Board of Directors.

Any shares that are registered at the close of business on the Record Date will entitle its holder or any proxy named by him or her to receive notice of and to vote at the Meeting and at any adjournment thereof. Shares may be voted for or be withheld from voting with respect to the election of directors and the appointment of auditors and the authorization of directors to fix their remuneration. On all other matters, the shareholders may vote for or against the proposal.

The Corporation will prepare an alphabetical list of shareholders entitled to vote as of the Record Date at the Meeting that shows the number of Common Shares and Preferred Shares held by each shareholder. The list of shareholders is available for consultation during usual business hours at the office of the Corporation's transfer agent and registrar, Holladay Stock Transfer Inc., located at 2939 North 67th Place, Suite "C", Scottsdale, Arizona 85251, and at the Meeting.

Unless otherwise indicated, the matters submitted to a vote at the Meeting must be approved by a majority of the aggregate of the votes cast by the holders of Common and Preferred Shares attending the meeting in person or by proxy. Fifty percent (50%) of the voting shares constitutes a quorum sufficient to carry on with the Meeting.

The Chairman of the Meeting may conduct the vote on any matter by a show of hands of shareholders and proxy holders present at the Meeting and entitled to vote thereat unless a ballot is demanded by a shareholder present at the Meeting or by a proxy holder entitled to vote at the Meeting or unless the Chairman declares that proxies representing not less than five percent (5%) of the shares entitled to be voted at the Meeting would be voted against what would otherwise be the decision of the Meeting on such matter.

#### PRINCIPAL HOLDERS, EXECUTIVE OFFICERS AND DIRECTORS

The following table sets forth information concerning the beneficial ownership of the Corporation's outstanding Common and Preferred stock as of December 15, 2013 for: each of its directors and executive officers individually; each person or group that it knows owns beneficially more than five percent (5%) of the Corporation's common stock; and all directors and executive officers as a group.

Rule 13d-3 under the Securities Exchange Act defines the term, "beneficial ownership". Under this rule, the term includes shares over which the indicated beneficial owner exercises voting and/or investment power. The rules also deem common stock subject to options currently exercisable or exercisable within sixty (60) days, to be outstanding for purposes of computing the percentage ownership of the person holding the options but do not deem such stock to be outstanding for purposes of computing the percentage ownership of any other person. The applicable percentage of ownership for each shareholder is based on 320,046,834 shares of common stock outstanding plus 81,518,410 preferred shares plus 11,739,286 option shares outstanding as of December 15 2013. Except as otherwise indicated, the Corporation believes that the beneficial owners of the common stock listed below, based on information furnished by them, have sole voting and investment power over the number of shares listed opposite their names.

## Compensation Discussion and Analysis

The following Compensation Discussion and Analysis (CD&A) provides information on the compensation programs established for our "Named Executive Officers" during our fiscal year ended December 31, 2012. All information provided herein should be read in conjunction with the tables provided below.

Our Board of Directors is responsible for establishing, implementing and monitoring the policies governing compensation for our executives. Currently our Board does not have a compensation committee. Our officers are members of our Board of Directors and are able to vote on matters of compensation. We are not currently under any legal obligation to establish a compensation committee and have elected not to do so at this time. In the future, we may establish a compensation committee if the Board determines it to be advisable or we are otherwise required to do so by applicable law, rule or regulation. During the year ended December 31, 2012 our Board did not employ any outside consultants to assist in carrying out its responsibilities with respect to executive compensation, although we have access to general executive compensation information regarding both local and national industry compensation practices. In future periods we may participate in regional and national surveys that benchmark executive compensation by peer group factors such as company size, annual revenues, market capitalization and geographical location.

The executive employment market in general is very competitive due to the number of companies with whom we compete to attract and retain executive and other staff with the requisite skills and experience to carry out our strategy and to maintain compliance with multiple Federal and State regulatory agencies. Many of these companies have significantly greater economic resources than our own. Our Board has recognized that our compensation packages must be able to attract and retain highly talented individuals that are committed to our goals and objectives, without at

this time paying cash salaries that are competitive with some of our peers with greater economic resources. Our compensation structure is weighted towards equity compensation in the form of options to acquire common stock, which the Board believes motivates and encourages executives to pursue strategic opportunities while managing the risks involved in our current business stage, and aligns compensation incentives with value creation for our shareholders.

## Components of Our Executive Compensation Program

Our current executive compensation program is entirely salary based. In the future we intend to incorporate additional components we believe are necessary in order for the Company to provide a competitive compensation package relative to our peers and to provide an appropriate mix between short-term and long-term cash and non-cash compensation. Elements of our future executive compensation are likely to include:

- o Base Salary
- o Stock Awards
- o Other benefits available to all employees
- o Items specific to our President and Chief Executive Officer per an employment agreement

**Base Salary:** At present we do not have a salary structure for employees and Executives, and amounts are based on skill set, knowledge and responsibilities. Base salaries may be established as necessary. During the year ended December 31, 2010 the Chief Executive Officer received a salary increase of \$15,635.

**Stock Awards:** A portion of compensation paid to our executives will be equity based. We believe equity compensation helps align the interests of our executives with the interests of our shareholders. In that regard, our executives' compensation is subject to downside risk in the event that our common stock price decreases. In addition, we believe stock awards provide incentives to aid in the retention of key executives. Stock compensation awards were granted to directors during the year ending December 31, 2010.

**Other Benefits:** Our Executive Officers and employees receive group benefits plan.

## Corporate Governance

### Independence of the Board of Directors

The Company is not required by any exchange or market to meet any standard of independence. The Board of Directors has adopted the NASDAQ definition of an independent director. After review of all relevant transactions or relationships between each director and the Company and our senior management and our independent auditors, our Board has affirmatively determined that each of Mr. Reuscher, Dr. Queen and Mr. Thomson are independent directors.

### Meetings of the Board of Directors and Board and Member Attendance

Our Board of Directors telephonically met four times in Fiscal 2013. Each incumbent Board member attended seventy-five percent or more of the aggregate of the conferenced meetings of the Board that were held during the period for which he served as a director.

### Director Nominees

The Board does not have a nominating committee, which the Board of Directors determined is not necessary given the relatively small size of the Company's Board of Directors, management team and operations. Director nominees are selected, or recommended for the Board's selection, by a majority of the independent directors. The Board does not have a written charter regarding its director nomination process and will consider candidates for directors proposed by shareholders. Not less than 90 days prior to the next meeting of the Board at which the slate of Board nominees is adopted, the Board accepts written submissions that include the name, address and telephone number of the proposed nominee, along with a brief statement of the candidate's qualifications to serve as a director and a statement of why the shareholder submitting the name of the proposed nominee believes that the nomination would be in the best interests of shareholders. If the proposed nominee is not the shareholder submitting the name of the candidate, a letter from the candidate agreeing to the submission of his or her name for consideration should be provided at the time of

submission. The letter should be accompanied by a resume supporting the nominee's qualifications to serve on the Board, as well as a list of references.

The director nominees are identified through a combination of referrals, including by management, existing directors and shareholders, where warranted. Once a candidate has been identified, the Board reviews the individual's experience and background, and may discuss the proposed nominee with the source of the recommendation. If the Board believes it to be appropriate, one or more of our directors may meet with the proposed nominee before making a final determination whether to include the proposed nominee as a member of management's slate of director nominees submitted to shareholders for election to the Board.

Among the factors that the Board considers when evaluating proposed nominees are their experience in the bioscience, chemical and/or pharmaceutical industries, knowledge of and experience with business matters, finance, capital markets and mergers and acquisitions. The Board may request additional information from the candidate prior to reaching a determination. The Board is under no obligation to formally respond to all recommendations, although as a matter of practice, it will endeavor to do so.

We do not have a formal diversity policy for selecting members of our Board. However, we do believe that it is important that our Board members collectively bring the experiences and skills appropriate to effectively carry out their responsibilities with respect to our business both as conducted today and as we plan for our longer-term strategic objectives. We therefore seek as members of our Board individuals with a variety of perspectives and the expertise and ability to provide advice and oversight in financial and accounting controls; research and development and regulatory affairs; business strategy; business development; and corporate governance, among other key areas of our business.

The Board received no shareholder recommendations for nomination to the Board in connection with the Meeting. There are six director nominees for the Meeting, all of whom are incumbent directors standing for reelection.

#### The Board's Leadership Structure

We do not have a policy on whether the same person should serve as both the principal executive officer and Chairman of the Board or, if the roles are separate, whether the Chairman of the Board should be selected from the non-employee directors or should be an employee. Our Board believes that it should have the flexibility to make these determinations in the way that it believes best provides appropriate leadership for the Company at a given time based on the position and direction of the Company and the membership of the Board. Currently, the positions of Chairman and Chief Executive Officer are combined and held by Mr. Mac Donald. Mr. Mac Donald's in-depth knowledge of the Company's strategic priorities and operations enables him to facilitate effective communication between management and the Board of Directors and see that key issues and recommendations are brought to the attention of the Board, providing an effective leadership structure. Having the Chief Executive Officer serve as the Chairman also helps to ensure that the Chief Executive Officer understands and can implement the recommendations and decisions of the Board.

#### Shareholder Communications with our Board of Directors

Shareholders may communicate appropriately with our directors by sending written correspondence addressed to Sonja Dreyer, Executive Vice President, E-Debit Global Corporation, 3620 – 29th Street N.E. Calgary, Alberta, T1Y 5Z8. The Executive Vice President will maintain a log of all correspondence so received and will deliver as soon as practicable such correspondence to the identified director addressee(s). The correspondence will not, however, be delivered if there are safety, security, appropriateness or other concerns that mitigate against delivery of the correspondence, as determined by the Executive Vice President in consultation with legal counsel. The Board or individual directors so addressed shall be advised of any correspondence withheld. The Board or individual director, as applicable, will generate an appropriate response to all validly received shareholder correspondence and will direct the Executive Vice President to send the response to the particular shareholder.

#### PROPOSAL NUMBER FOUR: REVERSE SPLIT OF OUTSTANDING COMMON STOCK

Our Board believes that the two hundred to one reverse stock split of our outstanding shares (the "Reverse Split") is in our company's best interests principally because our Board believes that the Reverse Split will make the Company more attractive to investors and allow the Company the ability to issue new equity in future transactions. Our Board believes such future transactions of the Company could lead to an improved market for our common stock and an increase in the per share trading price of our Common stock.

Our Board believes that the current price of our Common stock and the number of outstanding shares of common stock deters potential reorganization candidates and impairs an efficient market in our stock. Without the Reverse Split, the resulting number of shares outstanding would be so high as to impair an efficient market for the shares of the Company. This is due to several factors that impact lower priced stocks, such as our Common stock, including (1) a

reluctance among certain institutions to invest in low priced securities, (2) internal restrictions imposed by many securities firms on the solicitation of orders for low priced stocks by stockbrokers, (3) the ineligibility of our Common stock for margin loans due to its low share price, (4) a reluctance among analysts to write research reports on low priced stocks due to the preceding factors, and (5) high transaction costs relative to share price due to the prevailing rule that commissions charged on the purchase and sale of stock, as a percentage of share price, are higher on lower priced stocks.

Our Board of Directors believes the Reverse Split will have the effect of making the Company more attractive to potential investors and other companies interested in taking equity in the Company in connection with transactions. While the Board believes that the Reverse Split will not immediately alleviate all the above factors that impact the price of our stock, they do believe that such increase may, over time, alleviate some or all of the factors noted above and lead to a more efficient market in our Common stock.

The immediate effect of the Reverse Split will be to reduce the number of issued and outstanding shares of Common stock from 320,046,834 shares to approximately 1, 600,234. The Reverse Split will not reduce or affect our authorized common stock or preferred stock.

Although the Reverse Split may increase the per share market price of the Common stock, no such increase can be assured or calculated. The per share market price of our shares of Common stock may not rise in proportion to the reduction in the number of shares outstanding as a result of the Reverse Split and such per share market price may be less than the proportionate increase in the number of shares outstanding as a result of the Reverse Split. There can be no assurance that the Reverse Split will lead to a sustained increase in the per share market price of the common stock or that the factors discussed above that we believe impair an efficient market in our Common stock will be alleviated. Stockholders should also be aware that the Reverse Split may result in a decrease in the trading volume of the common stock due to the decrease in the number of outstanding shares. The per share market price of our common stock may also change as a result of other unrelated factors as well as general market conditions.

No fractional shares will be issued in connection with the Reverse Split. Stockholders who would otherwise be entitled to receive fractional shares because they hold a number of shares of common stock that is not evenly divisible by ten will have the number of new shares to which they are entitled rounded up to the nearest whole number of shares. No stockholders will receive cash in lieu of fractional shares. The current number of holders of record of our shares of common stock, including shares held with a broker dealer is approximately 1, 215. Following the Reverse Split, the number of our stockholders of record will remain approximately 1027 as any of our stockholders with less than one share will be rounded up in the exchange to one share.

The Reverse Split will affect all of the holders of our common stock uniformly and will not affect any stockholder's percentage ownership interest or proportionate voting power, except for insignificant changes that will result from the rounding up of fractional shares. Our outstanding options and warrants contain provisions that are intended to protect the holders against dilution of the holders' percentage interest in our company and, in certain instances, that also effect a reduction in the exercise price of the option in the event our shares are issued at less than the option exercise price.

The Reverse Split of the common stock is expected to become effective (the "Effective Date") on or shortly after March 01, 2014. On or prior to the Effective Date, we will notify the Financial Industry Regulatory Authority, requesting that the split be made effective on the Effective Date. We do not intend to provide you with any further notification of the Effective Date other than the information contained in this Information Statement. The Reverse Split will take place on the Effective Date without any action on the part of the holders of our common stock and without regard to current certificates representing shares of common stock being physically surrendered for certificates representing the number of shares of common stock each stockholder is entitled to receive as a result of the Reverse Split. New certificates for shares of common stock will not be issued at this time.

We do not at this time have any specific plans, proposals or arrangements for any reorganization or transaction with any party or to issue any of our authorized but un-issued shares of common stock for any purpose, including future acquisitions and/or financings.

There are no adverse material consequences or any anti-takeover provisions in either our Articles of Incorporation or By-laws that would be triggered as a consequence of the Reverse Split. Our Articles of Incorporation or By-laws do not address any material adverse consequence resulting from the Reverse Split.

The affirmative vote of majority of the common shares present at the Meeting in person or by proxy is required to adopt Proposal No. 4.

Dissenters' Right of Appraisal

The Nevada Revised Statutes do not provide for dissenters' rights of appraisal in connection with the proposed action.
