Siebert Financial Corp. & Subsidiaries
Notes to Consolidated Financial Statements
Six Months Ended June 30, 2008 and 2007
(Unaudited)

1. Organization and Basis of Presentation:

The consolidated financial statements include the accounts of Siebert Financial Corp. (the Company) and its wholly owned subsidiaries Muriel Siebert & Co., Inc. (Siebert) and Siebert Women's Financial Network, Inc. (WFN). All material intercompany balances have been eliminated. Investment in two entities in which the Company has ownership interests of 49% and 33.33% and which are integral to the Company's operations are accounted for by the equity method. The statements are unaudited; however, in the opinion of management, all adjustments considered necessary to reflect fairly for the period ended June 30, 2008 and 2007. The Company's financial position and results of operations, consisting of normal recurring adjustments, have been included.

The accompanying consolidated financial statements do not include all of the information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America. Accordingly, the statements should be read in conjunction with the audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. Because of the nature of the Company's business, the results of any interim period are not necessarily indicative of results for a full year.

2. Securities Owned, at Market Value:

The Company adopted SFAS No. 157, Fair Value Measurements, in the first quarter of 2008. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. As defined in SFAS No. 157, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. In determining fair value, the Company often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 valued based on quoted prices at the measurement date for identical assets or liabilities trading in active markets.

Level 2 quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability.

Level 3 valuations derived from valuation techniques in which one or more significant inputs is not readily observable.

As of June 30, 2008:

| Securities owned, at market value | Level 1 | Level 2 | Level 3 | Total |
|-----------------------------------|---------------|---------|---------|---------------|
| Treasury bills | \$ 25,086,000 | | | \$ 25,086,000 |
| NASDAQ common stock | \$ 271,000 | | | \$ 271,000 |
| | 6 | | | |

3. Earnings per Share:

Basic earnings per share is calculated by dividing net income by the weighted average outstanding shares during the period. Diluted earnings per share is calculated by dividing net income by the number of shares outstanding under the basic calculation and adding all dilutive securities, which consist of options. The treasury stock method is used to reflect the dilutive effect of outstanding options, which, for the three months ended June 30, 2008 and 2007 amounted to 52,172 and 102,223 additional shares, respectively, added to the basic weighted average outstanding shares of 22,211,895 and 22,206,546, respectively and for the six months ended June 30, 2008 and 2007 amounted to 52,534 and 106,571 additional shares, respectively added to the basic weighted average outstanding shares of 22,212,120 and 22,204,955, respectively. Potentially dilutive securities consisting of outstanding options not included in the computation of diluted income per share as the effect would have been anti-dilutive for all periods amounted to 1,162,500.

4. Net Capital:

Siebert is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. Siebert has elected to use the alternative method, permitted by the rule, which requires that Siebert maintain minimum net capital, as defined, equal to the greater of \$250,000 or two percent of aggregate debit balances arising from customer transactions, as defined. (The net capital rule of the New York Stock Exchange also provides that equity capital may not be withdrawn or cash dividends paid if resulting net capital would be less than five percent of aggregate debits.) As of June 30, 2008, Siebert had net capital of approximately \$28,283,000 as compared with net capital requirements of \$250,000.

5. Capital Transactions:

On January 22, 2008, the Board of Directors of the Company authorized a buy back of up to 300,000 shares of common stock. During the six months ended June 30, 2008, 3,916 shares have been purchased at an average price of \$3.39 per share, including 500 shares from a buy back authorized in 2000.

6. Siebert Brandford Shank & Co., LLC:

Summarized financial data (presented in thousands) of Siebert Brandford Shank & Co., LLC, (SBS) is set forth below. Siebert holds a 49% ownership interest in SBS which serves as an underwriter for municipal bond offerings. Income from SBS is considered to be integral to Siebert's operations and material to the results of operations.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-Q

Siebert charged SBS \$65,000 and \$120,000 for the six months ended June 30, 2008 and 2007, respectively, and \$19,000 and \$60,000 for the three months ended June 30, 2008 and 2007, respectively, for general and administrative services, which Siebert believes approximates the cost of furnishing such services.

Siebert's share of undistributed earnings from SBS amounted to \$5,262,000 at June 30, 2008. Such amount may not be immediately available for distribution to Siebert for various reasons including the amount of SBS's available cash, the provisions of the agreement between Siebert and the principals and SBS's continued compliance with its regulatory and net capital requirements.

7. SBS Financial Products Company, LLC

The Company has a 33.33% ownership interest in, and the two individual principals of SBS have an aggregate 66.66% ownership interest in, SBS Financial Products Company, LLC, (SBSFPC) which engages in derivatives transactions related to the municipal underwriting business.

The Company's share of undistributed earnings of SBSFPC amounted to \$413,000 at June 30, 2008.

Summarized financial data of SBSFPC is set forth below. Income/(loss) from SBSFPC is considered to be integral to the Company's operations and material to the results of operations.

8. Commitments and Contingent Liabilities:

Siebert terminated the fully disclosed clearing agreement (the Clearing Agreement) with Pershing LLC (formerly the Pershing division of Donaldson, Lufkin & Jenrette Securities Corporation) (Pershing) in 2003. Based on consultation with counsel, Siebert believes that the \$1,500,000 that it advanced to Pershing in January 2003 should have been returned and that Pershing may be liable for damages. Pershing expressed its belief that it was entitled to retain the advance and receive a minimum of \$3 million for its unreimbursed costs, a termination fee of \$500,000 and \$5 million for lost revenues. Siebert received a release for the \$3 million related to disputed claims for unreimbursed fees and costs. In 2004, Siebert decided not to commence proceedings against Pershing and charged off the \$1,500,000 advance to Pershing. Siebert believes the Pershing claims are without merit and that the ultimate outcome of this matter will not have a material adverse effect on the Company's results of operations or financial position.

The Company is involved in various routine lawsuits of a nature deemed by the Company customary and incidental to its business. In the opinion of management, the ultimate disposition of such actions will not have a material adverse effect on its financial position or results of operations.

9. Dividend:

On June 9, 2008, the Board of Directors declared a dividend of ten cents per share on the common stock of the Company, which was paid on June 30, 2008 to shareholders of record at the close of business on June 23, 2008.

The Chief Executive Officer of the Company waived the right to receive the dividend in excess of the aggregate amount paid to other shareholders.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with our audited consolidated financial statements as of and for the year ended December 31, 2007, and the unaudited consolidated financial statements and the notes thereto contained elsewhere in this Quarterly Report.

Business Environment

The uncertainty over the state of the economy downturn in the real estate and mortgage markets weighed on the financial markets during the second quarter of 2008 and due to the high price of oil and the continues to affect interest in buying stocks. Competition in the brokerage industry remains intense although many of Siebert's competitors have been consolidated or have gone out of business.

Like other securities firms, we are directly affected by general economic and market conditions including fluctuations in volume and prices of securities, changes and prospects for changes in interest rates and demand for brokerage and investment banking services, all of which can affect our relative profitability. In periods of reduced market activity, profitability is likely to be adversely affected because certain expenses, including salaries and related costs, portions of communications costs and occupancy expenses remain relatively fixed. Earnings, or loss, for any period should not be considered representative of any other period.

Recent Developments

On January 22, 2008, the Board of Directors of the Company authorized a buy back of up to 300,000 shares of common stock. During the six months ended June 30, 2008, 3,916 shares have been purchased at an average price of \$3.39 per share, including 500 shares from a buy back authorized in 2000.

On June 9, 2008, the Board of Directors declared a dividend of ten cents per share on common stock of the Company, which was paid on June 30, 2008 to shareholders of record at the close of business on June 23, 2008. The Chief Executive Officer of the Company waived the right to receive the dividend in excess of the aggregate amount paid to other shareholders.

Critical Accounting Policies

We generally follow accounting policies standard in the brokerage industry and believe that our policies appropriately reflect our financial position and results of operations. Our management makes significant estimates that effect the reported amounts of assets, liabilities, revenues and expenses and the related disclosure of contingent assets and liabilities included in the financial statements. The estimates relate primarily to revenue and expense items in the normal course of business as to which we receive no confirmations, invoices, or other documentation at the time the books are closed for a period. We use our best judgment, based on our knowledge of these revenue transactions and expenses incurred, to estimate the amounts of such revenue and expense. We are not aware of any material differences between the estimates used in closing our books for the last five years and the actual amounts of revenue and expenses incurred when we subsequently receive the actual confirmations, invoices or other documentation. Estimates are also used in determining the useful lives of intangible assets, and the fair market value of intangible assets and securities. Our management believes that its estimates are reasonable.

Results of Operations

We believe that our business reflects the current difficult business environment for discount and online and institutional brokers. We had net income of \$568,000 and \$440,000 for the three months and six months ended June 30, 2008, respectively.

Three Months Ended June 30, 2008 Compared to Three Months Ended June 30, 2007

Total revenues for the three months ended June 30, 2008 were \$7.4 million, a decrease of \$764,000 or 9.4% from the same period in 2007.

Commission and fee income for the three months ended June 30, 2008 was \$5.8 million, a decrease of \$775,000 or 11.7% from the same period in 2007 due to a decrease in institutional trading and the commission recapture operation as well as a reduction in commissions generated by a decrease in retail customers trading volumes and a decrease in the average commission charged per trade.

Investment banking revenues for the three months ended June 30, 2008 were \$1.2 million, an increase of \$198,000 or 20.0% due to our participation in more new issues in the equity and debt capital markets.

Trading profits were \$213,000 for the three months ended June 30, 2008, an increase of \$106,000 or 99.1% over the same period in 2007 due to an overall increase in trading volume.

Interest and dividends for the three months ended June 30, 2008 were \$143,000, a decrease of \$293,000 or 67.2% from the same period in 2007 primarily due to lower interest rates.

Total expenses for the three months ended June 30, 2008 were \$8.1 million, an increase of \$749,000 or 10.2% from the same period in 2007.

Employee compensation and benefit costs for the three months ended June 30, 2008 were \$2.6 million, a decrease of \$251,000 or 8.7% from the same period in 2007. This decrease was due to decreases in commissions paid based on production, and health benefits due to a reduced headcount in administrative and customer service staff and staff bonus accrual; partially offset by an increase in the hiring of institutional sales traders.

Clearing and floor brokerage costs for the three months ended June 30, 2008 were \$1.5 million, a decrease of \$57,000 or 3.7% from the same period in 2007 primarily due to a decrease in listed floor executions for institutional customers executed at the New York Stock Exchange and a decrease in volume relating to the commission recapture operations.

Professional fees for the three months ended June 30, 2008, were \$2.0 million, an increase of \$738,000 or 57.9% from the same period in 2007 primarily due to an increase in legal fees relating to former employee matters, consulting fees relating to the commission recapture business and compliance with Sarbanes-Oxley and consultants assisting with the development of the front end computer system.

Advertising and promotion expenses for the three months ended June 30, 2008 were \$301,000, an increase of \$131,000 or 77.1% from the same period in 2007 primarily due to marketing and promotional expenses relating to the new front end computer system.

Communications expense for the three months ended June 30, 2008, was \$646,000, an increase of \$246,000 or 61.5% from the same period in 2007 due primarily to an increase in costs associated with our new website.

Edgar Filing: SIEBERT FINANCIAL CORP - Form 10-Q

Occupancy costs for the three months ended June 30, 2008 were \$317,000, a decrease of \$12,000 or 3.7% from the same period in 2007 due to reduced rents for new space in the California branch offset by increased rent for new space in our West Palm Beach branch.
