On December 4, 2002, Mobile TeleSystems OJSC, or MTS, announced that MTS would restate its consolidated financial statements for the year and three months ended December 31, 2001 and the first and second quarters of 2002.

This Form 6-K contains our restated financial statements for the fourth quarter of 2001 and a description of the effect of the restatement on our financial results for such period.

Restatement

The restatement of MTS financial statements for the year and the three months ended December 31, 2001 relates primarily to a change in the allocation of the purchase price for the Company s acquisitions of: an additional 4% stake in ReCom CJSC in April 2001; a 100% stake in Telecom XXI OJSC in May 2001; and an 81% stake in Telecom 900 CJSC in August 2001. As a result of a review of its financial statements by MTS management, MTS has restated approximately \$21 million previously allocated to licenses to property, plant and equipment and other intangible assets. This reallocation has resulted in restatements of property, plant and equipment, licenses, depreciation and amortization expense and certain related items of our balance sheet and statement of operations as of and for the year and the three months ended December 31, 2001. Additionally, the Company has reclassified an impairment charge related to its investment in a joint venture with the government of Belarus from other expenses to impairment of investment, which is deducted in determining our net operating income, in order to conform to the US GAAP presentation requirements.

The significant effects of this restatement on financial statements for the year and the three months endedDecember 31, 2001 were as follows (in thousands):
