NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

Principles of consolidation

Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

The accompanying unaudited interim condensed consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, which management believes are necessary to present fairly the financial position, results of operations and cash flows of Alliance Gaming Corporation (Alliance or the Company) for the respective periods presented. The results of operations for an interim period are not necessarily indicative of the results that may be expected for any other interim period or for the year as a whole. The accompanying unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes in the Company's annual report on Form 10-K for the year ended June 30, 2003.

The accompanying consolidated financial statements include the accounts of Alliance Gaming Corporation, and its wholly owned and partially owned, controlled subsidiaries. In the case of Video Services, Inc. (VSI), the Company owns 100% of the voting stock. The Company is entitled to receive 71% of dividends declared by VSI, if any, at such time that dividends are declared.

The Company, through a wholly-owned subsidiary, is the general partner of Rainbow Casino Vicksburg Partnership, L.P. (RCVP), the limited partnership that operates the Rainbow Casino. The limited partner, Rainbow Corporation, an independent third party, is entitled to receive 10% of the net available cash flows after debt service and other items, as defined (which amount increases to 20% of such amount for the proportional revenues above \$35.0 million) each year through December 31, 2010. The Company holds the remaining economic interest in the partnership and consolidates the partnership.

The Company records minority interest expense to reflect the portion of earnings of VSI and RCVP attributable to the minority shareholders.

During the fiscal year ended June 30, 2003, the Company acquired 100 percent of the stock of three companies: Casino Management Systems Software Company (CMS) on November 13, 2002, Micro Clever Consulting Systems Company (MCC) on April 9, 2003 and Honeyframe Systems Company (HSC) on May 28, 2003. These acquisitions reinforce the Company's position as the leading system provider to the gaming industry.

All significant intercompany accounts and transactions have been eliminated. Certain reclassifications have been made to prior year financial statements to conform to the current year presentation.

Revenue recognition

Revenue from sales of gaming machines is generally recognized at the time products are shipped and title has passed to the customer. Games placed with customers on a trial basis are not recognized as revenue until the trial period ends and the customer accepts the games. The Company sells gaming equipment on normal credit terms (generally 2%, net 30) and also offers financing to qualified customers for periods generally between 6 and 48 months.

Revenue from sales of computerized monitoring systems is recognized in accordance with the AICPA's Statement of Position 97-2 (SOP 97-2)

Software Revenue Recognition. In accordance with the provisions of SOP 97-2, the contracts for the sales of computerized monitoring units are considered to have multiple elements because they include hardware, software, installation, supervision, training, and post-contract customer support. Accordingly, revenues from the sale of systems are deferred and begin to be recognized at the point when the system is deemed to be functionally operational, and the residual method is used to recognize revenue for the remaining elements as they are delivered, each having vendor-specific objective evidence of relative fair values. Post-contract customer support revenues are recognized over the period of the support agreement (generally one year).

Our Bally Gaming and Systems business unit earns revenues from recurring revenue sources that consist of the operations of the wide-area progressive jackpot systems and revenues from gaming machines placed in a casino on a daily lease or rental basis. Revenue from these sources is recognized based on the contractual terms of the participation or rental agreements and is generally based on a share of money wagered, a share of the net winnings, or on a fixed daily rental rate basis.

In accordance with industry practice, the Company recognize gaming revenues in its route and casino operations as the net win from gaming machine operations, which is the difference between coins and currency deposited into the machines and payments to customers and, for other games, the difference between gaming wins and losses. The Company recognize total net win from gaming machines as revenues for route operations which the Company operates pursuant to revenue-sharing arrangements and revenue-sharing payments (either fixed or variable) as a cost of route operations.

The Company constantly monitors its exposure for credit losses and maintains allowances for anticipated losses.

Recently issued accounting pronouncements

In May 2003, the FASB issued Statement of Financial Accounting Standard No. 150 Accounting for Certain Financial Instruments With Characteristics of Both Liability and Equity (FASB No. 150). FASB No. 150 establishes standards for how companies classify and measure certain financial instruments with characteristics of both liabilities and equity. In July 2003, the Company adopted FASB No. 150, and which did not have any significant impact on its results of operations or financial position.

In November 2002, the Emerging Issues Task Force (EITF) reached a consensus on Issue No. 00-21, Revenue Arrangements with Multiple Deliverables (EITF 00-21). EITF 00-21 provides guidance on how to account for arrangements that involve the delivery or performance of multiple products, services and/or rights to use assets. The provisions of EITF 00-21 were applied to revenue arrangements entered into after July 1, 2003.

2. EARNINGS PER SHARE

The following computation of basic and diluted earnings per share and weighted average common and common share equivalents outstanding, are as follows (in 000 s except per share amounts):

	Three Months Ended September 30,	
	2002	2003
Net income from continuing operations	\$ 6,239	\$ 2,586
Net income from discontinued operations	19	3,442

Weighted average common shares outstanding	48,740	49,579
Effect of dilutive securities	1,081	1,108
Weighted average common and common share equivalents outstanding	49,821	50,687

Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

Earnings per basic share:			
Income from continued operations	\$	0.13	\$ 0.05
Income from discontinued operations			0.07
	\$	0.13	\$ 0.12
Earnings per diluted share:			
Income from continued operations	\$	0.13	\$ 0.05
Income from discontinued operations			0.07
	\$	0.13	\$ 0.12

Diluted earnings per share represent the potential dilution that could occur if all dilutive securities outstanding were exercised. Certain securities do not have a dilutive effect because their exercise price exceeds the average fair market value of the underlying stock during the respective period. Such securities are excluded from the diluted earnings per share calculation and consist of the following (in 000 s):

	Three Months Ended September 30,	
	2002	2003
Stock options	754	672

The Company accounts for its stock-based employee compensation awards in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25). Under APB 25, because the exercise price of the Company s employee stock options equals or exceeds the market price on date of grant, no compensation expense is recognized.

In 1998, the Company adopted FASB No. 123 Accounting for Stock-Based Compensation (FASB No. 123). Under FASB No. 123 companies may continue to account for employee stock-based compensation under APB 25, but are required to disclose historical pro-forma net income and earnings per share that would have resulted from the use of the fair value method described in FASB No. 123.

In December 2002, the FASB issued FASB No.148, Accounting for Stock-Based Compensation-Transition and Disclosure . This Statement amends FASB No. 123, to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this Statement amends the disclosure requirements of FASB No. 123 and APB Opinion No. 28 Interim Financial Reporting to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. Under the fair value method, compensation costs are measured using an options pricing model and amortized over the estimated life of the option, which is generally three to ten years, with option forfeitures accounted for at the time of the forfeiture, and all amounts are reflected net of tax. The historical and pro forma net income (assuming an after-tax charge for stock-based compensation) and related per share data are as follows (in 000 s, except per share data):

	Three Months Ended September 30,	
	2002	2003
Net income		
As reported	6,258	\$ 6,028
Stock-based compensation under FASB No. 123	(736)	(1,837)
Pro forma net income	\$ 5,522	\$ 4,191
Earnings per share:		
Basic As reported	\$ 0.13	\$ 0.12
Basic Pro forma	\$ 0.11	\$ 0.08
Diluted As reported	\$ 0.13	\$ 0.12
Diluted Pro forma	\$ 0.11	\$ 0.08

On the date of grant using the Black-Scholes option-pricing model, the following assumptions were used to value the options in the periods indicated:

	Three Months Ended September 30,	
	2002	2003
Risk-free interest rate	3.5%	3.5%
Expected volatility	0.28	0.26
Expected dividend yield	0	0
Expected life	3-10 years	3-10 years

The resulting fair values applied to the options granted were \$2.27 and \$3.09 per share for the three month periods ended September 30, 2002 and 2003, respectively.

3. DISCONTINUED OPERATIONS

In July 2003 the Company announced it had entered into definitive sale of its route operations segment consisting of United Coin Machine Co. (UCMC) and Video Services, Inc. (VSI) and its German wall machine and amusement games segment (Alliance Automaten GmbH & Co. KG dba Bally Wulff).

On June 30, 2003 the Company entered into a definitive agreement for the sale of Bally Wulff to a third party equity investor. The sale was consummated on July 18, 2003, at which time the Company received \$16.5 million in cash consideration. Pursuant to the sale agreement, the Company used \$5.6 million of the sale proceeds to purchase a 5 million Euro certificate of deposit as collateral for a tax claim currently being negotiated with the German tax authorities, for which the Company has indemnified the buyer. The certificate of deposit is included in Other Assets in the accompanying unaudited financial statements.

The Company has entered into a definitive agreement for the sale of UCMC to the privately held Century Gaming, Inc. based in Montana. The sales price is based on a multiple of EBITDA (as defined in the sale agreement) and is currently estimated at \$127 million, consisting of \$103 million in cash, \$18 million in 10% Pay-In-Kind preferred stock and \$6 million in assumed liabilities. The closing of this transaction is subject to customary closing conditions including that the business achieve a minimum EBITDA of \$21.0 million during a defined period of time prior to closing and that the buyer obtain the necessary gaming licenses. This transaction is expected to close in fiscal 2004.

Through a wholly owned subsidiary, Alliance owns 100 percent of the class B voting shares of VSI. Alliance and the owners of the class A shares have entered into a definitive agreement to sell 100 percent of VSI's stock to Gentilly Gaming, LLC. The all-cash transaction is subject to customary closing conditions and is expected to close on June 30, 2004. Concurrent with the sale agreement, VSI has entered into a 12-month operating agreement extension under terms and conditions that are the same as the existing agreement with the Fair Grounds Corporation.

Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

As a result of the transactions described above, each of the three businesses are treated as discontinued operations, and their results are presented net of applicable income taxes below income from continuing operations in the accompanying consolidated statements of operations. In accordance with generally accepted accounting principles, depreciation and amortization for these discontinued operations ceased as of July 1, 2003 as a result of their designation as assets held for sale. The assets and liabilities of the businesses are now classified as held for sale in the accompanying consolidated balance sheets. The prior year results have been reclassified to conform to the current year presentation.

Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

Summary operating results for the discontinued operations for UCMC, VSI and Wulff are as follows (in 000 s):

	Three Months Ended September 30,	
	2002	2003
Net revenues	\$ 65,403	\$ 53,973
Operating income	850	5,667
Income tax expense	897	1,890
Income from discontinued operations	\$ 19	\$ 3,442

The following net assets held for sale are included in the accompanying consolidated balance sheets (in 000 s):

	June 30, 2003	Sept. 30 2003
Cash and cash equivalents	\$ 27,644	\$ 27,787
Accounts and contracts receivable	21,587	4,374

Net assets of discontinued operations	\$ 87,281	\$ 74,293

4. INVENTORIES

Inventories are stated at the lower of cost, determined on a first-in, first-out basis, or market. Cost elements included for work-in-process and finished goods include raw materials, freight, direct labor and manufacturing overhead.

Inventories, net of reserves, consist of the following (in 000 s):

June 30, 2003	September 30, 2003

5. DEBT

Long-term debt and lines of credit consisted of the following (in 000 s):

	June 30, 2003	September 30, 2003
Term Loan facility	\$ 187,625	\$ 275,000
Revolving credit facility		70,000

Less current maturities	3,537	2,288
Long-term debt, less current maturities	\$ 341,678	\$ 350,054

The Company's debt structure at June 30, 2003 consisted primarily of a \$190 million term loan facility and a \$23.7 million undrawn revolving credit facility and \$150 million 10% Senior Subordinated Notes (Subordinated Notes). The term loan had an interest rate of LIBOR plus 3.25% (or 4.45% as of June 30, 2003).

On September 5, 2003, the Company completed a senior bank debt refinancing transaction (the Refinancing) whereby the Company entered into a new \$275 million term loan facility and a \$125 million revolving credit facility (which can be increased by up to \$75.0 million upon the consent of the bank group). Proceeds from the new loans were used to repay the existing bank term loans totaling approximately \$188 million, repay the Subordinated Notes, and to pay transaction fees and expenses. The new term loan has an interest rate of LIBOR plus 2.75% (or 3.96% as of September 30, 2003), has a 1% per year mandatory principal amortization after the first year, and a 6-year maturity. The revolving credit facility has an interest rate of LIBOR plus 2.50% (or 3.71% as of September 30, 2003), and the commitment decreases ratably over its 5-year term to a 60% balloon. As of September 5, 2003, the initial outstanding on the revolving credit facility totaled \$70.0 million.

On August 13, 2003, the Company initiated a tender offer and consent solicitation for all of the outstanding Subordinated Notes at a price of 103.33% plus a .25% tender premium which was contingent on the closing of the new bank facility. On September 10, 2003, the tender offer period expired, with \$78.6 million of the notes having been tendered. On September 11, 2003, the Company initiated redemption of the remaining Notes at a price of 103.33%, which was completed on September 16, 2003, at which time the Subordinated Notes were fully redeemed.

As a result of the Refinancing described above, the Company recorded a pre-tax charge in the quarter ended September 30, 2003 of \$12.3 million, which includes a \$5.0 million charge for the early extinguishment of the Subordinated Notes, \$7.0 million for the non-cash write off of deferred financing costs, and \$0.3 million in fees and expenses.

Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

The new bank facility is collateralized by substantially all domestic property and is guaranteed by each domestic subsidiary of the Company, other than the entity that holds the Company's interest in its Louisiana and Mississippi operations, and is secured by a Pledge Agreement. The bank facility contains a number of maintenance covenants and other significant covenants that, among other things, restrict the ability of the Company and the ability of certain of its subsidiaries to dispose of assets, incur additional indebtedness and issue preferred stock, pay dividends or make other distributions, enter into certain acquisitions, repurchase equity interests or subordinated indebtedness, issue or sell equity interests of the Company's subsidiaries, engage in mergers or acquisitions, or engage in certain transactions with subsidiaries and affiliates, and that otherwise restrict corporate activities. As of September 30, 2003, the Company is in compliance with these covenants.

6. INCOME TAXES

The Company recognizes Federal income tax expense based on 35% of pre-tax domestic income and state income taxes at a rate of approximately 4% of domestic income.

7. SEGMENTS AND GEOGRAPHICAL INFORMATION

The Company currently operates in two business segments (exclusive of the two business segments included in discontinued operations): (i) Gaming Equipment and Systems which designs, manufactures and distributes gaming machines and computerized monitoring systems for gaming machines, and (ii) Casino Operations which owns and operates two regional casinos. The accounting policies of these segments are consistent with Company's policies for the Consolidated Financial Statements.

The table below presents information as to the Company's revenues and operating income by segment (in 000's):

9. COMMITMENTS AND CONTINGENCIES

The Company is also a party to various lawsuits relating to routine matters incidental to its business. Management does not believe that the outcome of such litigation, including the matters above, in the aggregate, will have a material adverse effect on the Company.

10. SUBSEQUENT EVENT

As of November 11, 2003, the Company announced an agreement to purchase 100 percent of the outstanding shares of Sierra Design Group (SDG) for approximately \$45 million of consideration consisting of \$27 million of cash and 736,000 shares of Alliance Gaming Common Stock (valued at \$18 million) paid at closing and approximately \$95 million of contingent consideration payable in equal portions of cash and stock payable over the three years following the closing upon SDG achieving certain financial objectives. The acquisition, which is subject to regulatory approvals and certain other customary closing conditions, is expected to close in the first half of calendar 2004.

11. UNAUDITED CONSOLIDATING FINANCIAL STATEMENTS

The following unaudited condensed consolidating financial statements are presented to provide certain financial information regarding guaranteeing and non-guaranteeing subsidiaries in relation to the Company's new bank credit agreement. The financial information presented includes Alliance Gaming Corporation (the Parent), its wholly-owned guaranteeing subsidiaries (Guaranteeing Subsidiaries), and the non-guaranteeing subsidiaries Video Services, Inc., the Rainbow Casino Vicksburg Partnership, L.P. (dba Rainbow Casino) and the Company's non-domestic subsidiaries (together the Non-Guaranteeing Subsidiaries). The notes to the unaudited consolidating financial statements should be read in conjunction with these unaudited consolidating financial statements.

FORM 10-Q

September 30, 2003

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Liquidity and Capital Resources

As of September 30, 2003, we had \$44.6 million in cash and cash equivalents, and \$55.0 million in unborrowed availability on our revolving credit facility. In addition we had net working capital of approximately \$180.4 million at September 30, 2003, compared to \$156.1 million at June 30, 2003 excluding liabilities of discontinued operations. The changes within working capital are more fully described in the cash flow section below. Consolidated cash and cash equivalents at September 30, 2003 includes approximately \$3.7 million of cash which is utilized in Casino Operations held in vaults, cages or change banks, as well as \$13.4 million which is held in jackpot reserve accounts we maintain to ensure availability of funds to pay wide-area progressive jackpot awards. In addition, long-term investments of \$2.6 million are held in Treasury Strips for the previous jackpot winners.

Management believes that cash flows from operating activities, cash and cash equivalents held and the \$125 million revolving credit facility commitment will provide the Company with sufficient capital resources and liquidity. At September 30, 2003, we had no material commitments for capital expenditures.

As of November 11, 2003, the Company announced an agreement to purchase 100 percent of the outstanding shares of Sierra Design Group (SDG) for approximately \$45 million of consideration consisting of \$27 million of cash and 736,000 shares of Alliance Gaming Common Stock (valued at \$18 million) paid at closing and approximately \$95 million of contingent consideration payable in equal portions of cash and stock payable over the three years following the closing upon SDG achieving certain financial objectives. The acquisition, which is subject to regulatory approvals and certain other customary closing conditions, is expected to close in the first half of calendar 2004. This acquisition reinforces the Company's position as the leading gaming provider to the gaming industry.

From time to time we become aware of potential acquisition or development opportunities and we may at any time be negotiating to engage in transactions or developments both domestically and internationally. Additionally, we regularly evaluate all of our assets within our portfolio and will continue to consider disposition of assets that, in our opinion, do not represent the best use of our capital.

Cash Flow

During the three months ended September 30, 2003, we generated \$5.0 million of cash flows from operating activities, was down compared to \$7.3 million in the prior year period.

During the three months ended September 30, 2003, cash flow from investing activities included \$10.9 million of cash provided from the sale of Bally Wulff (net of \$5.6 million, used to purchase a 5 million Euro certificate of deposit as collateral for a tax claim currently being negotiated with the German tax authorities, for which the Company has indemnified the buyer), offset by capital expenditures totaling \$2.4 million, and costs incurred to produce participation games totaling \$5.0 million.

During the three months ended September 30, 2003, we used \$3.1 million of cash in financing activities resulting from \$345.0 million proceeds from issuance of long-term debt and \$1.5 million of cash provided from the exercise of stock options, offset by \$337.6 million payoff of debt from refinancing, \$5.7 of refinancing cost, \$5.4 million of premium paid on early redemption of the subordinated notes bonds and principal

payments on long-term debt totaling \$0.9 million.

Our Bally Gaming and Systems business unit reported an overall increase in revenues of 39% over the prior year's quarter. Bally game sales division reported an increase in revenues of 27% for the quarter. New units sold increased 30% to 5,200 and the average new-unit selling price (excluding OEM games) increased 6% for the quarter to \$8,400. Bally Systems revenues increased 96% over the prior year quarter driven by a 85% increase in game monitoring units shipped to 11,360, a 36% increase in the average selling price per unit to \$1,800, and increased sales of software licenses for the single-wire TITO solution, eTICKET, as well as its bonusing and promotions software. Bally Systems recurring hardware and software revenues increased to \$4.9 million for the quarter, resulting from the larger base of installed systems, which now stands at approximately 240,000 and an increase in the Bally eSeries installed cashless software. Gaming Operations revenues increased 9% compared to the prior year quarter as a result of a 27% increase in the end of period installed base of wide-area progressive (WAP) and daily-fee games deployed, which now total 1,980 and 2,810, respectively. The current quarter placements included the continued roll out of the Cash for Life WAP game which went live in July in Atlantic City, and continued placement of daily fee games such as Playboy and the recently introduced

Saturday Night Live series.

Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

For the quarter ended September 30, 2003, the overall gross margin percentage for Bally Gaming and Systems increased to 62% compared to 59% in the prior year quarter, this improvement is primarily a result of an increase in higher margin systems revenues.

Selling, general and administrative expenses increased 54% over the prior year quarter, as a result of the additional headcount added from acquisitions. In addition, increased submissions of our products to certain gaming jurisdictions for approval prior to commercialization resulted in an increase in regulatory expenses. Selling, general and administrative costs as a percentage of this business unit's revenue increased to 26% in the current year quarter compared to 23% for the prior year quarter. Research and development costs increased 50% for the quarter, resulting from the increase in hardware and software engineers added during the current quarter. Total depreciation expense increased 48% over the prior year quarter, driven by the increase in the installed base of wide-area progressive and daily fee games.

Rainbow Casino revenues increased 1% over the prior year quarter, as a result of a 10% increase in net win per day per gaming machine to \$148 offset by 7% decrease in the average number of gaming machines. Rail City Casino reported an increase in revenues of 5% for the quarter. The revenue improvement at the Rail City Casino was attributable to a 5% increase in the average number of gaming machines and 3% increase in net win per day per gaming machine to \$86.

Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

The gross margin for Casino Operations as a percentage of revenues increased to 56% for the quarter. This increase was a result of decreases in certain operating costs. Cost of casino revenues includes gaming taxes, rental costs and direct labor including payroll taxes and benefits.

The overall selling, general and administrative expenses increased 4% over the prior year quarter, as a result of an increase in advertising and promotional expenses. Selling, general and administrative costs as a percentage of revenue remained constant compared to prior year quarter. Total depreciation expense increased 37% over the prior year quarter as a result of the additional capital improvements made to the Rainbow Casino in the prior year.

Discontinued Operations

As previously discussed, in July 2003, we announced that we had entered into definitive agreements for the sale of our route operations. For purposes of financial reporting, these two business units are now treated as discontinued operations.

Route Operations

Summary financial results and operating statistics are as follows (dollars in 000 s):

	Three Months Ended September 30,

Revenues from the Nevada route operations decreased 2% over the prior year quarter. This decrease was attributable to a 6% decrease in the average number of gaming machines for the quarter, offset by an increase in the average net win per gaming machine per day of 3% to \$68.55 from \$66.60. Late in the quarter, the Nevada Route operations entered into an agreement to operate 750 games at a third party owned Las Vegas casino, and the full effect of the revenues and income will be realized in the coming quarter. Gamblers Bonus, a cardless players club and player tracking system, continued to have a favorable impact

Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

on the net win per day. As of September 30, 2003, the Gamblers Bonus product was installed in over 4,190 gaming machines at approximately 419 locations statewide or 55% of the installed base of gaming machines.

Revenues from route operations in Louisiana remained constant primarily as the result of a 1% decrease in the net win per gaming machine per day to \$55.90 from \$56.65 and the number of units deployed remained relatively flat compared to prior year quarter.

For quarter ended September 30, 2003, the overall gross margin percentage for the Route Operations remained constant.

The overall selling, general and administrative expenses remained constant compared to prior year quarter. Selling, general and administrative costs as a percentage of revenue remained at 6% compared to prior year quarter.

The results of the Nevada Route and Louisiana Route operations for the quarter ended September 30, 2002 include depreciation and amortization expense. In accordance with generally accepted accounting principles, depreciation and amortization for these discontinued operations ceased as of July 1, 2003 as a result of their designation as assets held for sale. Had depreciation and amortization expense been recorded for the current period, operating income for the discontinued operations would have decreased by \$3.8 million, an increase of 14% compared to prior year quarter.

The general and administrative expenses increased 31% over the prior year quarter. This increase was driven by higher corporate litigation cost and higher accruals for certain elements of our incentive based compensation plan. Total depreciation expense decreased 7% for the quarter.

Interest expense (net of interest income) for the current quarter totaled \$5.7 million compared to \$6.6 million in the prior year period. The current quarter lower interest expense reflects only 25 days of interest post-refinancing.

We recorded a \$12.3 million refinancing charge in the current quarter consisting primarily of a \$5.0 million prepayment penalty for the redemption of our Subordinated Notes, a non-cash charge of \$7.0 million to write off the deferred

financing costs, and \$0.3 million of fees and expenses. We recorded a tax benefit from these charges totaling approximately \$4.8 million.

Management has considered certain tax planning strategies as permitted by Statement of Financial Accounting Standards No. 109 Accounting for Income Taxes (FASB No. 109).

Beginning July 1, 2002, the Company began recognizing Federal income tax expense based on 35% of pre-tax domestic income and state income taxes at a rate of approximately 4% of domestic income.

We believe that the analysis of EBITDA is a useful adjunct to operating income, net income, cash flows and other GAAP-based measures. However, EBITDA should not be construed as an alternative to net income (loss) or cash flows from operating, investing and financing activities determined in accordance with GAAP or as a measure of liquidity. EBITDA is a common measure of performance in the gaming industry but may not be comparable to similarly titled measures reported by other companies. We disclose EBITDA primarily because it is a performance measure used by management in evaluating the performance of our business units and is one of several performance measures used in our management incentive plan. Additionally, EBITDA is utilized as a performance measure in covenants for our bank credit agreement.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Currency Rate Fluctuations

We derive revenues from our non-U.S. subsidiaries, all of which revenues are denominated in their local currencies, and their results are affected by changes in the relative values of non-U.S. currencies and the U.S. dollar. Most of the currencies in countries in which we have foreign operations strengthened versus the U.S. dollar in 2002 and 2003, which resulted in assets and liabilities denominated in local currencies being translated into more dollars. We do not currently utilize hedging instruments.

Market risks

During the normal course of our business, we are routinely subjected to a variety of market risks, examples of which include, but are not limited to, interest and currency rate movements, collectibility of accounts and notes receivable, and recoverability of residual values on leased assets. We continually assess these risks and have established policies and practices designed to protect against the adverse effects of these and other potential exposures. Although we do not anticipate any material losses in these risk areas, no assurances can be made that material losses will not be incurred in these areas in the future.

We have performed a sensitivity analysis of our financial instruments, which consist of our cash and cash equivalents and debt. We have no derivative financial instruments. In performing the sensitivity analysis, we define risk of loss as the hypothetical impact on earnings of changes in the market interest rates or currency exchange rates.

The results of the sensitivity analysis at September 30, 2003, are as follows:

Interest Rate Risk:

Upon completion of the Refinancing in September 2003, we had total debt of approximately \$352.3 million, consisting primarily of the new \$275 million term loan and the initial \$70 million borrowing on the revolver. The bank facility loans are broken into individual loans with varying terms from one to six months. The interest rate for each loan is set on the borrowing date and is effective for the term outstanding. If the LIBOR rates were to increase or decrease by 100 basis points, with all other factors remaining constant, earnings would decrease or increase by approximately \$3.6 million on a pre-tax basis.

Foreign Currency Exchange Rate Risk:

Edgar Filing: ALLIANCE GAMING CORP - Form 10-Q

Our foreign subsidiaries generally use their domestic currency as their functional currency. A 10% fluctuation in the exchange rates of these currencies against the U.S. dollar would result in a corresponding change in earnings reported in the consolidated group of approximately \$78,000.

ITEM 4. DISCLOSURE CONTROLS AND PROCEDURES

The Company's management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of the company's disclosure controls and procedures as defined in Exchange Act Rule 13a-15(e) as described at the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as of the end of the period covered by this report, the company's disclosure controls and procedures were effective. During the period covered by this report there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II

ITEM 1. Legal Proceedings

There have been no material changes in any legal proceedings since filing of the Company's annual report on Form 10-K for the fiscal year ended June 30, 2003.

ITEM 6. Exhibits and Reports on Form 8-K
