Item 1.01. Entry into a Material Definitive Agreement.

On September 21, 2007, Array BioPharma Inc. (Array) and Celgene Corporation (Celgene) entered into Drug Discovery and Development Agreement. Under the agreement, Celgene will make an upfront payment of \$40 million to Array, and, in return, Array will grant Celgene an option to select drugs developed under the collaboration that are directed to two of four mutually selected discovery targets. Array will be responsible for all discovery and clinical development through Phase 1 or Phase 2a. At that time, Celgene will have the option to select drugs resulting from up to two of these four therapeutic programs and will receive exclusive worldwide rights to those drugs, except for Array's limited co-promotional rights in the U.S. Additionally, Array is entitled to receive, for each drug, potential milestone payments of approximately \$200 million, if certain discovery, development and regulatory milestones are achieved and \$300 million if certain commercial milestones are achieved, as well as royalties on net sales. Array will retain all rights to the other programs. The agreement may be terminated in whole or in part with respect to the selected drugs by Celgene upon six months' written notice to Array and by either party, following certain cure periods, in the event of a breach by the other party of its obligations under the agreement.
