Emergency Medical Services Corporation

Notes to Unaudited Consolidated Financial Statements

(in thousands, except share and per share data)

1. General

Basis of Presentation of Financial Statements

The accompanying interim consolidated financial statements for Emergency Medical Services Corporation (EMSC or the Company) have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim reporting and accordingly, do not include all of the disclosures required for annual financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal, recurring nature. Operating results for the three and nine month periods ended September 30, 2007 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2007. For further information, see the Company s consolidated financial statements, including the accounting policies and notes thereto, included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

The consolidated financial statements of EMSC include those of its direct subsidiary, Emergency Medical Services L.P. (EMS LP), a Delaware limited partnership. EMS LP acquired American Medical Response, Inc. and its subsidiaries (AMR) and EmCare Holdings Inc. and its subsidiaries (EmCare) from Laidlaw International, Inc. (Laidlaw) on February 10, 2005, with an effective transaction date after the close of business on January 31, 2005. On December 21, 2005, the Company effected a reorganization and issued class A common stock in an initial public offering.

The Company is party to a management agreement with a wholly-owned subsidiary of Onex Corporation, the Company s principal equityholder. In exchange for an annual management fee of \$1.0 million, the Onex subsidiary provides the Company with corporate finance and strategic planning consulting services. For each of the three and nine months ended September 30, 2007 and 2006, the Company expensed \$250 and \$750, respectively, in respect of this fee.

Starting in the periods ended June 30, 2007, the Company reclassified income earned on insurance related assets as Interest Income from Restricted Assets in the accompanying consolidated statements of operations and comprehensive income; such income was previously reported as a component of insurance expense.

2. Summary of Significant Accounting Policies

Consolidation

The consolidated financial statements include all wholly-owned subsidiaries of EMSC, including AMR and EmCare and their respective subsidiaries. All significant intercompany transactions and balances have been eliminated.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions relating to the reporting of results of operations, financial condition and related disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates under different assumptions or conditions.

Insurance

Insurance collateral is comprised principally of government and investment grade securities and cash deposits with third parties and supports the Company's insurance program and reserves. Certain of these investments, if sold or otherwise liquidated, would have to be replaced by other suitable financial assurances and are, therefore, considered restricted.

Insurance reserves are established for automobile, workers compensation, general liability and professional liability claims utilizing policies with both fully-insured and self-insured components. This includes the use of an off-shore captive insurance program through a wholly-owned subsidiary for certain professional liability (malpractice) programs for EmCare. In those instances where the Company has obtained third-party insurance coverage, the Company generally retains liability for the first \$1 to \$2 million of the loss. Insurance reserves cover known claims and incidents within the level of Company retention that may result in the assertion of additional claims, as well as claims from unknown incidents that may be asserted arising from activities through the balance sheet date.

The Company establishes reserves for claims based upon an assessment of actual claims and claims incurred but not reported. The reserves are established based on quarterly consultation with third-party independent actuaries using actuarial principles and assumptions that consider a number of factors, including historical claim payment patterns (including legal

costs) and changes in case reserves and the assumed rate of inflation in healthcare costs and property damage repairs.

The Company's most recent actuarial valuation was completed in September 2007. As a result of this actuarial valuation, in the three and nine months ended September 30, 2007 the Company recorded reductions in its provision for insurance liabilities of approximately \$7.9 million and \$21.7 million, respectively, related to its reserves for losses in prior years. In the three and nine months ended September 30, 2006, the Company recorded a reduction in its provision for insurance liabilities of approximately \$4.8 million and \$9.8 million, respectively, as a result of an actuarial valuation completed in September 2006.

The long-term portion of insurance reserves was \$149.0 million and \$150.0 million as of September 30, 2007 and December 31, 2006, respectively.

Trade and Other Accounts Receivable, net

The Company determines its allowances based on payor reimbursement schedules, historical write-off experience and other economic data. The allowances for contractual discounts and uncompensated care are reviewed monthly. Account balances are charged off against the uncompensated care allowance when it is probable the receivable will not be recovered. Write-offs to the contractual allowance occur when payment is received. The allowance for uncompensated care is related principally to receivables recorded for self-pay patients.

Revenue Recognition

Revenue is recognized at the time of service and is recorded net of provisions for contractual discounts and estimated uncompensated care. Provisions for contractual discounts and estimated uncompensated care as a percentage of gross revenue and gross revenue less contractual discount provisions, are as follows:

	Quarter ended September 30,		Nine months ended September 30,	
	2007	2006	2007	2006
Gross revenue	100.0%	100.0%	100.0%	100.0%
Provision for contractual discounts	43.8%	41.0%	42.8%	42.0%
Provision for uncompensated care	19.4%	20.4%	19.6%	19.6%
After contractual discounts	34.5%	34.6%	34.3%	33.8%

Healthcare reimbursement is complex and may involve lengthy delays. Third-party payors are continuing their efforts to control expenditures for healthcare, including proposals to revise reimbursement policies. The Company has from time to time experienced delays in reimbursement from third-party payors. In addition, third-party payors may disallow, in whole or in part, claims for reimbursement based on determinations that certain amounts are not reimbursable under plan coverage, determinations of medical necessity, or the need for additional information. Laws and regulations governing the Medicare and Medicaid programs are very complex and subject to interpretation. As a result, there is a reasonable possibility that recorded estimates will change materially in the short-term. Retroactive adjustments may change the amounts realized from third-party payors and are considered in the recognition of revenue on an estimated basis in the period the related services are rendered. Such amounts, including adjustments between provisions for contractual discounts and uncompensated care, are adjusted in future periods, as adjustments become known. Retroactive adjustments recorded in the third quarter, which increased revenue, were 1.3% and 1.2 % of

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

consolidated net revenue for the three months ended September 30, 2007 and 2006, respectively. Retroactive adjustments recorded in the nine month period ended September 30, 2007 and 2006, which increased revenue, were 1.8% and 1.1% of consolidated net revenue, respectively.

The Company also provides services to patients who have no insurance or other third-party payor coverage. In certain circumstances, federal law requires providers to render services to any patient who requires emergency care regardless of their ability to pay.

Equity Structure

On December 21, 2005, the Company effected a reorganization and issued 8.1 million shares of class A common stock in an initial public offering. Pursuant to the reorganization, EMS LP, the former top-tier holding company of AMR and EmCare, became the consolidated subsidiary of EMSC, a newly formed corporation. To effect the reorganization, the holders of the capital stock of the sole general partner of EMS LP contributed that capital stock to the Company in exchange for class B common stock; the general partner was merged into the Company and the Company became the sole general partner of EMS LP. Concurrently, the holders of class B units of EMS LP contributed their units to the Company in exchange for shares of the Company's class A common stock, and the holders of certain class A units of EMS LP contributed their units to the Company.

in exchange for shares of the Company's class B common stock.

The Company holds 22.7% of the equity interests in EMS LP. LP exchangeable units, held by persons affiliated with the Company's principal equity holder, represent the balance of the EMS LP equity. The LP exchangeable units are exchangeable at any time, at the option of the holder, for shares of the Company's class B common stock on a one-for-one basis. The holders of the LP exchangeable units have the right to vote, through the trustee holder of the Company's class B special voting stock, at all stockholder meetings at which holders of the Company's class B common stock or class B special voting stock are entitled to vote.

In the EMS LP partnership agreement, the Company has agreed to maintain the economic equivalency of the LP exchangeable units and the class B common stock, and the holders of the LP exchangeable units have no general voting rights. The LP exchangeable units, when considered with the class B special voting stock, have the same rights, privileges and characteristics of the Company's class B common stock. The LP exchangeable units are intended to be economically equivalent to the class B common stock of the Company in that the LP exchangeable units carry the right to vote (by virtue of the class B special voting stock) with the holders of class B common stock as one class, and entitle holders to receive distributions only if the equivalent dividends are declared on the Company's class B common stock. Accordingly, the Company accounts for the LP exchangeable units as if the LP exchangeable units were shares of its common stock, including reporting the LP exchangeable units in the equity section of the Company's balance sheet and including the number of outstanding LP exchangeable units in both its basic and diluted earnings per share calculations.

Recent Accounting Pronouncements

On January 1, 2007, the Company adopted the recognition and disclosure provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* (FIN 48). This interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FIN 48, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. FIN 48 also provides guidance on derecognition, classification, interest and penalties on income taxes, and accounting in interim periods.

As a result of the implementation of FIN 48 at January 1, 2007, the Company recorded a \$49.0 million liability with an offsetting increase to net current deferred tax assets.

In accordance with the Company's accounting policy, EMSC recognized accrued interest and penalties related to unrecognized tax benefits as a component of tax expense, which is consistent with the recognition of these items in prior reporting periods. As of January 1, 2007, the Company recorded a liability of approximately \$4.8 million and \$6.1 million for interest and penalties, respectively. The liability for interest and penalties did not materially change as of September 30, 2007.

With limited exception, the Company is no longer subject to U.S. federal, state, and local income tax audits by taxing authorities for years through 2002.

3. Acquisitions

In July 2007, the Company acquired MedicWest Ambulance based in North Las Vegas, Nevada and Abbott Ambulance, Inc. based in St. Louis, Missouri, together with certain of their respective affiliates. In September 2007, the Company acquired certain ground ambulance assets from subsidiaries of Lifeguard Transportation Service, Inc. in Dallas, Texas and Atlanta, Georgia. The total cost for acquisitions completed during the nine months ended September 30, 2007 was \$77.7 million and was paid primarily in cash. The Company is in the process of completing the purchase price allocation for these acquisitions and has preliminarily recorded \$67.6 million of goodwill as of September 30, 2007.

4. Accrued Liabilities

Accrued liabilities were as follows at September 30, 2007 and December 31, 2006:

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

	September 30, 2007	December 31, 2006
Accrued wages and benefits	\$ 72,453	\$ 71,578
Accrued paid time-off	24,912	22,816
Current portion of self-insurance reserves	58,126	57,596
Accrued restructuring	1,181	5,738
Current portion of compliance and legal	4,690	4,910
Accrued billing and collection fees	4,982	5,085
Accrued profit sharing	23,560	19,695
Accrued interest	4,229	11,810
Other	33,039	32,403
Total accrued liabilities	\$ 227,172	\$ 231,631

5. Long-Term Debt

Long-term debt consisted of the following at September 30, 2007 and December 31, 2006:

	September 30, 2007	December 31, 2006
Senior subordinated notes due 2015 (10%)	\$ 250,000	\$ 250,000
Senior secured term loan due 2012 (7.72% at September 30, 2007)	224,743	226,472
Revolving credit facility	39,000	
Notes due at various dates from 2007 to 2022 with interest rates from 6% to 10%	2,358	1,856
Capital lease obligations due at various dates from 2007 to 2010 (see note 6)	6,897	1,447
	522,998	479,775
Less current portion	(4,691)	(4,159)
Total long-term debt	\$ 518,307	\$ 475,616

6. Commitments and Contingencies

Lease Commitments

The Company leases various facilities and equipment under operating lease agreements.

The Company also leases certain vehicles under a capital lease and during the first quarter of 2007 extended the terms of this capital lease for an additional three years. Assets under capital lease are capitalized using inherent interest rates at the inception of each lease. Capital leases are collateralized by the leased vehicles.

Services

The Company is subject to the Medicare and Medicaid fraud and abuse laws which prohibit, among other things, any false claims, or any bribe, kick-back or rebate in return for the referral of Medicare and Medicaid patients. Violation of these prohibitions may result in civil and criminal penalties and exclusion from participation in the Medicare and Medicaid programs. Management has implemented policies and procedures that management believes will assure that the Company is in substantial compliance with these laws and regulations but there can be no assurance the Company will not be found to have violated certain of these laws and regulations. From time to time, the Company receives requests for information from government agencies pursuant to their regulatory or investigational authority. Such requests can include subpoenas or demand letters for documents to assist the government in audits or investigations. The Company is cooperating with the government agencies conducting these investigations and is providing requested information to the government agencies. Other than the proceedings described below, management believes that the outcome of any of these investigations would not have a material adverse effect on the Company.

On April 17, 2006, the Office of Inspector General for the United States Department of Health and Human Services, or OIG, finalized its draft report requesting that the Company's Massachusetts subsidiary reimburse the Medicare program for approximately \$1.8 million in alleged overpayments from Medicare for services performed between July 1, 2002 and December 31, 2002. The OIG claims that these payments were made for services that did not meet Medicare medical necessity and reimbursement requirements. On December 10, 2006, AMR paid the \$1.8 million in alleged overpayments. However,

the Company disagrees with the OIG's finding and has filed an administrative appeal. If AMR is successful in the administrative appeal the Company may be entitled to repayment of all or part of the \$1.8 million.

Other Legal Matters

On December 13, 2005, a lawsuit purporting to be a class action was commenced against AMR in Spokane, Washington in Washington State Court, Spokane County. The complaint alleges that AMR billed patients and third party payors for transports it conducted between 1998 and 2005 at higher rates than contractually permitted. The court has certified a class in this case, but the size and membership of the class has not been determined. At this time, AMR does not believe that any incorrect billings are material in amount.

EmCare entered into a settlement agreement with respect to June Belt, et. al. v. EmCare, Inc. et. al. brought by a number of nurse practitioners and physician assistants under the Fair Labor Standards Act. The suit was filed on February 25, 2003 in the Eastern District of Texas. Pursuant to the settlement agreement, EmCare paid \$1.7 million during the first quarter of 2007 in satisfaction of all claims in the lawsuit.

AMR and the City of Stockton, California, are parties to litigation regarding the terms and enforceability of a memorandum of understanding and a related joint venture agreement between the parties to present a joint bid in response to a request for proposals to provide emergency ambulance services in the County of San Joaquin, California. The suit was filed on June 28, 2005, in the United States District Court for the Eastern District of California. The parties were unable to agree on the final terms of a joint bid. AMR has been awarded the San Joaquin contract. While we are unable at this time to estimate the amount of potential damages, we believe that Stockton may claim as damages a portion of our profit on the contract or the profit Stockton might have realized had the joint venture proceeded.

7. Restructuring Charges

The Company restructured certain billing functions of AMR and operations in the Los Angeles, California market during the first quarter of 2007 and recorded a restructuring charge of \$2.2 million. This restructuring charge included \$0.2 million in lease termination and exit costs and \$2.0 million related to termination benefits.

8. Equity Based Compensation

The Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004) *Share-Based Payment* (SFAS 123R) on January 1, 2006 using the prospective transition method. The stock options are valued using the Black-Scholes valuation method on the date of grant.

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

Under the Company's Equity Option Plan, key employees were granted options that permit the individuals to purchase class A common shares and vest ratably generally over a period of four years. In addition, certain performance measures must be met for 50% of the options to become exercisable. Options with similar provisions were granted to non-employee directors. The Company recorded a compensation charge of \$300 for each of the three months ended September 30, 2007 and 2006 and \$900 for each of the nine months ended September 30, 2007 and 2006.

In June 2006, the Board of Directors of the Company adopted an equity compensation program for non-employee directors of the Company, other than the Chair of the Compliance Committee (Directors' Plan), which was subsequently approved by the stockholders of the Company in May 2007. Non-employee directors were granted 8,000 Restricted Stock Units (RSUs) on June 1, 2006, and 2,705 RSUs on August 10, 2007, each RSU representing one share of the Company's class A common stock. Following each annual stockholder meeting, each non-employee director will receive a grant of RSUs having a fair market value of \$100 on the date of grant, based on the closing price of the Company's class A common stock on the business day immediately preceding the grant date. The Directors' Plan allows directors to defer income from the grant of RSUs. The RSUs vest immediately prior to the election of directors at the next following annual stockholder meeting, and will be paid in shares of the Company's class A common stock (one share for each RSU) at that time, unless deferred in accordance with the Directors' Plan. Each non-employee director (other than the Chair of the Compliance Committee) is also entitled to an annual cash retainer of \$50 to be paid in four quarterly installments. In connection with this plan, the Company expensed \$100 and \$300 in the three and nine months ended September 30, 2007 and \$100 and \$131 in the three and nine months ended September 30, 2006, respectively.

On April 7, 2007, the Board of Directors of the Company approved the adoption of the EMSC Long-Term Incentive Plan (the Plan), subject to stockholder approval. The stockholders of EMSC approved the Plan at the Company's 2007 Annual Meeting in May 2007. The Plan provides for the grant of long-term incentives, including various equity-based incentives, to those persons with responsibility for the success and growth of the Company and its subsidiaries. No future grants will be made under the Company's previous Equity Option Plan referred to above. On June 14, 2007, the Board of Directors of the Company granted 20,000 shares of restricted stock pursuant to the Plan, which shares vest ratably over a period of three years.

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

In addition, certain performance measures must be met for 50% of the shares to vest. In connection with this plan, the Company expensed \$93 for the three months ended September 30, 2007.

9. Segment Information

The Company is organized around two separately managed business units: healthcare transportation services and emergency management services, which have been identified as operating segments. The healthcare transportation services reportable segment focuses on providing a full range of medical transportation services from basic patient transit to the most advanced emergency care and pre-hospital assistance. The emergency management services reportable segment provides outsourced business services to hospitals primarily for emergency departments, urgent care centers and for certain inpatient departments. The Chief Executive Officer has been identified as the chief operating decision maker (CODM) for purposes of SFAS No. 131 *Disclosures about Segments of an Enterprise and Related Information* (SFAS 131), as he assesses the performance of the business units and decides how to allocate resources to the business units.

Net income before equity in earnings of unconsolidated subsidiary, income tax expense, loss on early debt extinguishment, interest and other income, realized gain (loss) on investments, interest expense, interest income from restricted assets and depreciation and amortization (Adjusted EBITDA) is the measure of profit and loss that the CODM uses to assess performance, measure liquidity and make decisions. The accounting policies for reported segments are the same as for the Company as a whole.

	Quarter ended September 30,		Nine months ended September 30,

10. Guarantors of Debt

EMS LP financed the acquisition of AMR and EmCare in part by issuing \$250.0 million principal amount of senior subordinated notes and borrowing \$370.2 million under its senior secured credit facility. Its wholly-owned subsidiaries, AMR HoldCo, Inc. (f/k/a EMSC Management, Inc.) and EmCare HoldCo, Inc., are the issuers of the senior subordinated notes and the borrowers under the senior secured credit facility. As part of the transaction, AMR and its subsidiaries became wholly-owned subsidiaries of AMR HoldCo, Inc. and EmCare and its subsidiaries became wholly-owned subsidiaries of EmCare HoldCo, Inc. The senior subordinated notes and the senior secured credit facility include a full, unconditional and joint and several guarantee by EMSC, EMS LP and EMSC's domestic subsidiaries. The senior subordinated notes and senior secured credit facility do not include a guarantee by the Company's captive insurance subsidiary. All of the operating income and cash flow of EMSC, EMS LP, AMR HoldCo, Inc. and EmCare HoldCo, Inc. is generated by AMR, EmCare and their subsidiaries. As a result, funds necessary to meet the debt service obligations under the senior secured notes and senior secured credit facility described above are provided by the distributions or advances from the subsidiary companies, AMR and EmCare.

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

Investments in subsidiary operating companies are accounted for on the equity method. Accordingly, entries necessary to consolidate EMSC, EMS LP, AMR HoldCo, Inc., EmCare HoldCo, Inc. and all of their subsidiaries are reflected in the Eliminations/Adjustments column. Separate complete financial statements of the issuers, EMS LP and subsidiary guarantors would not provide additional material information that would be useful in assessing the financial composition of the issuers, EMS LP or the subsidiary guarantors. The condensed consolidating and combining financial statements for EMSC, EMS LP, the issuers, the guarantors and the non-guarantor are as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements and Factors That May Affect Results

Certain statements and information herein may be deemed to be forward-looking statements within the meaning of the Federal Private Securities Litigation Reform Act of 1995. Forward-looking statements may include, but are not limited to, statements relating to our objectives, plans and strategies, and all statements (other than statements of historical facts) that address activities, events or developments that we intend, expect, project, believe or anticipate will or may occur in the future. Any forward-looking statements herein are made as of the date this Quarterly Report on Form 10-Q is filed with the Securities and Exchange Commission, and EMSC undertakes no duty to update or revise any such statements. Forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties. Important factors that could cause actual results, developments and business decisions to differ materially from forward-looking statements are described in EMSC's filings with the SEC from time to time, including in the section entitled "Risk Factors" in the Company's most recent Annual Report on Form 10-K and in subsequent Quarterly Reports on Form 10-Q. Among the factors that could cause future results to differ materially from those provided in this Quarterly Report on Form 10-Q are: the impact on our revenue of changes in transport volume, mix of insured and uninsured patients, and third party reimbursement rates and methods; the adequacy of our insurance coverage and insurance reserves; potential penalties or changes to our operations if we fail to comply with extensive and complex government regulation of our industry, both as it exists now and as it may change in the future; our ability to recruit and retain qualified physicians and other healthcare professionals, and enforce our non-compete agreements with our physicians; the loss of one or more members of our senior management team; the outcome of government investigations of certain of our business practices; our ability to generate cash flow to service our debt obligations and fund the cost of capital expenditures to maintain and upgrade our vehicle fleet and medical equipment; and the loss of existing contracts and the accuracy of our assessment of costs under new contracts.

All references to we, our, us or EMSC refer to Emergency Medical Services Corporation and its subsidiaries, including Emergency Medical Services L.P., or EMS LP. The Company's business is conducted primarily through two operating subsidiaries, American Medical Response, Inc., or AMR, and EmCare Holdings Inc., or EmCare.

This Report should be read in conjunction with the Company's consolidated financial statements and notes thereto included in our Annual Report on Form 10-K filed with the SEC on March 8, 2007.

Company Overview

We are a leading provider of emergency medical services in the United States. We operate our business and market our services under the AMR and EmCare brands. AMR is the leading provider of ambulance transport services in the United States. EmCare is the leading provider of outsourced emergency department staffing and management services in the United States.

American Medical Response

Over its more than 50 years of operating history, AMR has developed the largest network of ambulance transport services in the United States based on net revenue and number of transports. For the nine months ended September 30, 2007, approximately 55% of AMR's net revenue was

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

generated from emergency 9-1-1 ambulance transport services. Non-emergency ambulance transport services, including critical care transfer, wheelchair transports and other interfacility transports, or IFTs, accounted for 31% of AMR's net revenue for the same period, with the balance generated from fixed wing medical transportation services, Medicaid managed transportation services, and the provision of training, dispatch and other services to communities and public safety agencies.

EmCare

Over its more than 30 years of operating history, we believe that EmCare has become the largest provider of outsourced emergency department staffing and related management services to healthcare facilities based on number of contracts with hospitals and affiliated physician groups.

Recent Developments

On January 1, 2007, we adopted the recognition and disclosure provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* (FIN 48). This interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FIN 48, EMSC may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. FIN 48 also provides guidance on derecognition, classification, interest and penalties on income taxes, and accounting in interim periods.

As a result of the implementation of FIN 48 at January 1, 2007, we recorded a \$49.0 million liability with an offsetting increase to current deferred tax assets.

In accordance with our accounting policy, EMSC recognized accrued interest and penalties related to unrecognized tax benefits as a component of tax expense, which is consistent with the recognition of these items in prior reporting periods. As of January 1, 2007, we recorded a liability of approximately \$4.8 million and \$6.1 million for interest and penalties, respectively. The liability for interest and penalties did not materially change as of September 30, 2007.

With limited exception, we are no longer subject to U.S. federal, state, and local income tax audits by taxing authorities for years through 2002.

Key Factors and Measures We Use to Evaluate Our Business

The key factors and measures we use to evaluate our business focus on the number of patients we treat and transport and the costs we incur to provide the necessary care and transportation for each of our patients.

We evaluate our revenue net of provisions for contractual payor discounts and provisions for uncompensated care. Medicaid, Medicare and certain other payors receive discounts from our standard charges, which we refer to as contractual discounts. In addition, individuals we treat and transport may be personally responsible for a deductible or co-pay under their third party payor coverage, and most of our contracts require us to treat and transport patients who have no insurance or other third party payor coverage. Due to the uncertainty regarding collectibility of charges associated with services we provide to these patients, which we refer to as uncompensated care, our net revenue recognition is based on expected cash collections. Our net revenue is gross billings after provisions for contractual discounts and estimated uncompensated care. Provisions for contractual discounts and uncompensated care have increased historically primarily as a result of increases in gross billing rates.

In addition to continually monitoring our payor mix, we also analyze certain measures in each of our business segments.

AMR

Approximately 88% of AMR's net revenue for the nine months ended September 30, 2007 was transport revenue derived from the treatment and transportation of patients, including fixed wing medical transportation services, based on billings to third party payors, healthcare facilities and patients. The balance of AMR's net revenue is derived from direct billings to communities and government agencies for the provision of training, dispatch center and other services. AMR's measures for net revenue include transports (segregated into ambulance and wheelchair transports and in certain analyses weighted) and net revenue per transport.

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

The change from period to period in the number of transports is influenced by increases in transports in existing markets from both new and existing facilities we serve for non-emergency transports, the effects of general community conditions for emergency transports and the impact of newly acquired businesses.

The costs we incur in our AMR business segment consist primarily of compensation and benefits for medical crews and support personnel, direct and indirect operating costs to provide transportation services, and costs related to accident and insurance claims. AMR's key cost measures include unit hours and cost per unit hour (to measure compensation-related costs and the efficiency of our ambulance deployment), operating costs per transport, and accident and insurance claims.

We have focused our risk mitigation efforts on employee training for proper patient handling techniques, development of clinical and medical equipment protocols, driving safety, implementation of technology to reduce auto incidents and other risk mitigation processes which we believe have resulted in a reduction in the frequency, severity and development of claims. We continue to see positive trends in our claims costs but cannot provide assurance that these trends will continue.

EmCare

Of EmCare's net revenue for the nine months ended September 30, 2007, approximately 99% was derived from our hospital contracts for emergency department staffing, hospitalist and radiology services and other management services. Of this revenue, approximately 74% was generated from billings to third party payors and patients for patient visits and approximately 26% was generated from billings to hospitals and affiliated physician groups for professional services. EmCare's key net revenue measures are patient visits, net revenue per patient visit, and number of contracts.

The change from period to period in the number of patient visits under our same store contracts is influenced by general

community conditions as well as hospital-specific elements, many of which are beyond our direct control.

The costs incurred in our EmCare business segment consist primarily of compensation and benefits for physicians and other professional providers, professional liability costs, and contract and other support costs. EmCare's key cost measures include provider compensation per patient visit and professional liability costs.

We have developed extensive professional liability risk mitigation processes, including risk assessments on medical professionals and hospitals, extensive incident reporting and tracking processes, clinical fail-safe programs, training and education and other risk mitigation programs which we believe have resulted in a continued reduction in the frequency, severity and development of claims. We continue to see positive trends in our claims costs but cannot provide assurance that these trends will continue.

Factors Affecting Operating Results

Changes in Net New Contracts

Our operating results are affected directly by the number of net new contracts and related volumes we have in a period, reflecting the effects of both new contracts and contract expirations. We regularly bid for new contracts, frequently in a formal competitive bidding process that often requires written responses to a Request for Proposal, or RFP, and, in any fiscal period, certain of our contracts will expire. We may elect not to seek extension or renewal of a contract, or may reduce certain services, if we determine that we cannot continue to provide such services on favorable terms. With respect to expiring contracts we would like to renew, we may be required to seek renewal through an RFP, and we may not be successful in retaining any such contracts, or retaining them on terms that are as favorable as present terms.

Inflation

Certain of our expenses, such as wages and benefits, insurance, fuel and equipment repair and maintenance costs, are subject to normal inflationary pressures. Although we have generally been able to offset inflationary cost increases through increased operating efficiencies and successful negotiation of fees and subsidies, we can provide no assurance that we will be able to offset any future inflationary cost increases through similar efficiencies and fee changes.

Critical Accounting Policies

Revenue Recognition

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

Management also regularly analyzes the ultimate collectibility of accounts receivable after certain stages of the collection cycle using a look-back analysis to determine the amount of receivables subsequently collected. Retroactive adjustments recorded in the first nine months of the year, which increased revenue, were 1.8% of consolidated net revenue for the nine months ended September 30, 2007 compared to 1.1% of consolidated net revenue for the nine months ended September 30, 2006.

Results of Operations

Three and Nine Months Ended September 30, 2007 Compared to Three and Nine Months Ended September 30, 2006

The following tables present a comparison of financial data from our unaudited consolidated statements of operations for the three and nine months ended September 30, 2007 and for the three and nine months ended September 30, 2006 for EMSC and our two operating segments.

Non-GAAP Measures

Adjusted EBITDA. Adjusted EBITDA is defined as net income before equity in earnings of unconsolidated subsidiary, income tax expense, loss on early debt extinguishment, interest and other income, realized gain (loss) on investments, interest expense, interest income from restricted assets and depreciation and amortization. Adjusted EBITDA is commonly used by management and investors as a measure of leverage capacity, debt service ability and liquidity. Adjusted EBITDA is not considered a measure of financial performance under U.S. generally accepted accounting principles, or GAAP, and the items excluded from Adjusted EBITDA are significant components in understanding and assessing our financial performance. Adjusted EBITDA should not be considered in isolation or as an alternative to such GAAP measures as net income, cash flows provided by or used in operating, investing or financing activities or other financial statement data presented in our financial statements as an indicator of financial performance or liquidity. Since Adjusted EBITDA is not a measure determined in accordance with GAAP and is susceptible to varying calculations, Adjusted EBITDA, as presented, may not be comparable to other similarly titled measures of other companies. The tables set forth a reconciliation of Adjusted EBITDA to net income and cash flows provided by operating activities.

Quarter ended September 30, 2007 compared to the quarter ended September 30, 2006

Consolidated

Our results for the three months ended September 30, 2007 reflect an increase in net revenue of \$44.1 million and an increase in net income of \$4.4 million compared to the three months ended September 30, 2006. The increase in net income is attributable primarily to an increase of \$8.3 million in Adjusted EBITDA partially offset by increases in depreciation and amortization expense and income tax expense. Basic and diluted earnings per share were \$0.35 and \$0.34, respectively, for the three months ended September 30, 2007. Basic and diluted earnings per share were \$0.25 and \$0.24, respectively, for the same period in 2006.

Net revenue. For the three months ended September 30, 2007, we generated net revenue of \$529.8 million compared to net revenue of \$485.7 million for the three months ended September 30, 2006, representing an increase of 9.1%. The increase is attributable primarily to increases in rates and volumes on existing contracts and increased volume from net new contracts.

Adjusted EBITDA. Adjusted EBITDA was \$53.0 million, or 10.0% of net revenue, for the three months ended September 30, 2007 compared to \$44.7 million, or 9.2% of net revenue, for the three months ended September 30, 2006. The increase is attributable primarily to the net impact of revenue growth during the period and continued improvement in insurance claims costs.

Depreciation and amortization expense. Depreciation and amortization expense for the three months ended September 30, 2007 was \$17.8 million, or 3.4% of net revenue, compared to \$16.8 million, or 3.5% of net revenue, for the three months ended September 30, 2006. The increase is attributable to amortization expense on additional contract intangible assets recorded on acquisitions since September 30, 2006 and depreciation expense related to growth in capital expenditures during 2006.

Interest expense. Interest expense for the three months ended September 30, 2007 was \$12.7 million compared to \$11.5 million for the three months ended September 30, 2006. The increase is attributable primarily to rising interest rates and borrowings on our revolving credit facility during the quarter.

Income tax expense. Income tax expense increased by \$2.1 million for the three months ended September 30, 2007 compared to the same period in 2006, resulting primarily from increased operating income. Our effective tax rate for the three months ended September 30, 2007 was 37.4% and 38.9% for the same period in 2006.

AMR

Net revenue. Net revenue for the three months ended September 30, 2007 was \$310.9 million, an increase of \$11.6 million, or 3.9%, from \$299.3 million for the same period in 2006. The increase in net revenue was due primarily to an increase in net revenue per transport of 1.9%, or

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

\$5.8 million, and an increase of 1.9%, or \$5.8 million, in weighted transport volume. The increase in net revenue per transport is attributable primarily to additional stand by and special event revenue in the quarter including a limited deployment under our newly executed agreement with the Federal Emergency Management Agency (FEMA). Weighted transports increased 14,200 from the same quarter last year, primarily due to our acquisitions of Abbott Ambulance and MedicWest in July 2007, which added 33,600 transports in the quarter. Ambulance transport volume in other markets increased 1.4%. The increase was offset by a loss of transports due to our restructuring and exit of certain of our operations in Los Angeles and East Michigan.

Compensation and benefits. Compensation and benefit costs for the three months ended September 30, 2007 were \$196.3 million, or 63.1% of net revenue, compared to \$190.6 million, or 63.7% of net revenue, for the three months ended September 30, 2006. Ambulance crew wages per ambulance unit hour increased by approximately 0.6%, or \$0.7 million, principally from annual wage rate increases. Ambulance unit hours increased period over period by 0.6%, or \$0.6 million, due to the overall increase in transport volumes. Non-crew wages increased by \$4.4 million, or 9.2%, due to annual salary increases and compensation expenses from our acquisitions of Abbott Ambulance and MedicWest.

Operating expenses. Operating expenses for the three months ended September 30, 2007 were \$71.7 million, or 23.1% of net revenue, compared to \$71.1 million, or 23.8% of net revenue, for the three months ended September 30, 2006. Operating expenses per weighted transport decreased 1.1% in the three months ended September 30, 2007 compared to the same period in 2006.

Insurance expense. Insurance expense for the three months ended September 30, 2007 was \$6.8 million, or 2.2% of net revenue, compared to \$3.8 million, or 1.3% of net revenue, for the same period in 2006. Due to continued improvement in current and prior year ultimate claims costs, we recorded a reduction of prior year insurance provisions of \$4.7 million during the three months ended September 30, 2007 and \$4.8 million during the three months ended September 30, 2006. The 2006 insurance expense also included a reduction for provisions that were recorded in 2006.

Selling, general and administrative. Selling, general and administrative expense for the three months ended

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

September 30, 2007 was \$10.9 million, or 3.5% of net revenue, compared to \$9.8 million, or 3.3% of net revenue, for the three months ended September 30, 2006.

Restructuring charges. Restructuring charges of \$0.3 million were recorded during the three months ended September 30, 2006, related to the re-alignment of certain billing offices.

Depreciation and amortization. Depreciation and amortization expense for the three months ended September 30, 2007 was \$14.2 million, or 4.6% of net revenue, compared to \$13.6 million, or 4.5% of net revenue, for the same period in 2006. The increase is attributable to higher depreciation expense related to growth in capital expenditures during 2006.

EmCare

Net revenue. Net revenue for the three months ended September 30, 2007 was \$218.8 million, an increase of \$32.4 million, or 17.4%, from \$186.4 million for the three months ended September 30, 2006. The increase was due primarily to an increase in patient visits from net new hospital contracts and net revenue increases in existing contracts. Following June 30, 2006, we added 36 net new contracts which accounted for a net revenue increase of \$16.4 million for the three months ended September 30, 2007. Of the 36 net new contracts added since June 30, 2006, 31 were added in 2006 resulting in an increase in 2007 net revenue of \$10.8 million. During 2007, EmCare added 47 new contracts and terminated 42 contracts resulting in an increase in net revenue of \$5.6 million. Net revenue under our same store contracts (contracts in existence for the entirety of both periods) increased \$16.0 million, or 10.0%, for the three months ended September 30, 2007 due to a 6.9% increase in net revenue per patient visit from rate increases from our third-party payors. Current period same store patient visits increased 3.1% over same store patient visits in the prior period.

Compensation and benefits. Compensation and benefits costs for the three months ended September 30, 2007 were \$170.5 million, or 77.9% of net revenue, compared to \$142.8 million, or 76.6% of net revenue, for the same period in 2006. Provider compensation and benefits costs increased \$13.4 million from net new contract additions. Same store provider compensation and benefits costs increased \$10.2 million due to a 6.8% increase in provider compensation per patient visit attributable primarily to increases in net revenue.

Operating expenses. Operating expenses for the three months ended September 30, 2007 were \$10.8 million, or 4.9% of net revenue, compared to \$9.4 million, or 5.0% of net revenue, for the same period in 2006. Operating expenses increased primarily due to additional patient visits from net new contracts and additional off-hours radiology coverage.

Insurance expense. Professional liability insurance expense for the three months ended September 30, 2007 was \$6.7 million, or 3.1% of net revenue, compared to \$9.9 million, or 5.3% of net revenue, for the three months ended September 30, 2006. The decrease is due to the continued improvement in current and prior year ultimate claims costs resulting in a reduction of prior year insurance provisions of \$3.1 million during the three months ended September 30, 2007. There were no adjustments for prior year reserves in the three months ended September 30, 2006.

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

Selling, general and administrative. Selling, general and administrative expense for the three months ended September 30, 2007 was \$5.0 million, or 2.3% of net revenue, compared to \$4.9 million, or 2.6% of net revenue, for the three months ended September 30, 2006.

Depreciation and amortization. Depreciation and amortization expense for the three months ended September 30, 2007 was \$3.6 million, or 1.6% of net revenue, compared to \$3.3 million, or 1.8% of net revenue, for the three months ended September 30, 2006. Depreciation and amortization expense increased due to increased amortization expense related to the acquisition of Clinical Staffing Solutions, or CSS, in November 2006.

Nine months ended September 30, 2007 compared to the nine months ended September 30, 2006

Consolidated

Our results for the nine months ended September 30, 2007 reflect an increase in net revenue of \$136.5 million and an increase in net income of \$18.1 million compared to the nine months ended September 30, 2006. The increase in net income is attributable primarily to an increase of \$31.1 million in Adjusted EBITDA, partially offset by increases in depreciation and amortization expense and income tax expense. Basic and diluted earnings per share were \$1.12 and \$1.08, respectively, for the nine months ended September 30, 2007. Basic and diluted earnings per share were \$0.68 and \$0.67, respectively, for the same period in 2006.

Net revenue. For the nine months ended September 30, 2007, we generated net revenue of \$1,569.8 million compared to net

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

revenue of \$1,433.3 million for the nine months ended September 30, 2006, representing an increase of 9.5%. The increase is attributable primarily to increases in rates and volumes on existing contracts and increased volume from net new contracts.

Adjusted EBITDA. Adjusted EBITDA was \$159.7 million, or 10.2% of net revenue, for the nine months ended September 30, 2007 compared to \$128.6 million, or 9.0% of net revenue, for the nine months ended September 30, 2006. The increase is attributable primarily to the net impact of revenue growth during the period and continued improvement in insurance claims costs.

Depreciation and amortization expense. Depreciation and amortization expense for the nine months ended September 30, 2007 was \$52.2 million, or 3.3% of net revenue, compared to \$49.0 million, or 3.4% of net revenue, for the nine months ended September 30, 2006. The increase is attributable to higher depreciation expense related to growth in capital expenditures during 2006 and amortization expense recorded on additional contract intangible assets on acquisitions since September 30, 2006.

Interest expense. Interest expense for the nine months ended September 30, 2007 was \$35.3 million compared to \$34.3 million for the nine months ended September 30, 2006. The increase is attributable primarily to rising interest rates and borrowings on our revolving credit facility during the nine months ended September 30, 2007.

Income tax expense. Income tax expense increased by \$10.2 million for the nine months ended September 30, 2007, compared to the same period in 2006, resulted primarily from increased operating income. Our effective tax rate for the nine months ended September 30, 2007 was 38.0% compared with 38.9% for the same period in 2006.

AMR

Net revenue. Net revenue for the nine months ended September 30, 2007 was \$914.3 million, an increase of \$25.9 million, or 2.9%, from \$888.5 million for the same period in 2006. The increase in net revenue was due primarily to an increase in our net revenue per weighted transport of approximately 3.7%, or \$32.9 million and a decrease of 0.8%, or \$7.0 million, in weighted transport volume. Revenue per weighted transport increased due primarily to revenue from our fixed wing air transportation services business acquired in July 2006, and from our Medicaid managed transportation business in Texas, a contract under which we began providing services in June 2006. Weighted transports decreased 17,600 primarily from our restructuring and exit of certain of our operations in Los Angeles and East Michigan. These operations accounted for a decrease of approximately 116,500 weighted transports for the nine months ended September 30, 2007 over the same period in 2006. The decrease was offset by an increase in transports from our acquisition of Abbott Ambulance and MedicWest and by an increase in transport volume in other markets of 3.0%.

Compensation and benefits. Compensation and benefit costs for the nine months ended September 30, 2007 were \$576.3 million, or 63.0% of net revenue, compared to \$570.3 million, or 64.2% of net revenue, for the nine months ended September 30, 2006. Ambulance crew wages per ambulance unit hour increased by approximately 2.3%, or \$7.3 million, principally from annual wage rate increases. Ambulance unit hours decreased period over period by 1.6% or \$5.2 million, primarily in Los Angeles and East Michigan. Non-crew wages increased \$8.3 million, or 5.8% primarily from annual salary increases and additional compensation and benefit costs incurred under our fixed wing transportation services business, Medicaid management transportation contract and newly acquired companies. Benefit costs decreased by \$2.8 million for the nine

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

months ended September 30, 2007 primarily due to reduced claims costs incurred under our self-insured health plans.

Operating expenses. Operating expenses for the nine months ended September 30, 2007 were \$207.3 million, or 22.7% of net revenue, compared to \$190.3 million, or 21.4% of net revenue, for the nine months ended September 30, 2006. Operating expenses per weighted transport increased 9.8% in the nine months ended September 30, 2007 compared to the same period in 2006. This change is due to an additional \$15.9 million of operating expenses incurred under our fixed wing transportation services business and our Texas Medicaid managed transportation contract, under which we began providing services in June 2006.

Insurance expense. Insurance expense for the nine months ended September 30, 2007 was \$26.0 million, or 2.8% of net revenue, compared to \$27.5 million, or 3.1% of net revenue, for the same period in 2006. The decrease is due to the continued improvement in current and prior year ultimate claims costs resulting in a reduction of prior year insurance provisions of \$11.9 million during the nine months ended September 30, 2007, compared to an \$8.8 million reduction recorded during the same period in 2006.

Selling, general and administrative. Selling, general and administrative expense for the nine months ended September 30, 2007 was \$30.3 million, or 3.3% of net revenue, compared to \$29.1 million, or 3.3% of net revenue, for the nine months ended September 30, 2006.

Restructuring charges. Restructuring charges of \$2.2 million were recorded during the nine months ended September 30, 2007, related to the closure of one of our billing offices and restructuring our operations in Los Angeles and Orange Counties in

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

California. Restructuring charges of \$1.2 million were recorded during the nine months ended September 30, 2006, related to the re-alignment of certain west coast operations and billing offices.

Depreciation and amortization. Depreciation and amortization expense for the nine months ended September 30, 2007 was \$41.7 million, or 4.6% of net revenue, compared to \$39.2 million, or 4.4% of net revenue, for the same period in 2006. The increase is attributable primarily to higher depreciation expense related to growth in capital expenditures during 2006.

EmCare

Net revenue. Net revenue for the nine months ended September 30, 2007 was \$655.4 million, an increase of \$110.6 million, or 20.3%, from \$544.8 million for the nine months ended September 30, 2006. The increase was due primarily to an increase in patient visits from net new hospital contracts and net revenue increases in existing contracts. Following December 31, 2005, we added 48 net new contracts which accounted for a net revenue increase of \$59.9 million. Of the 48 net new contracts added since December 31, 2005, 43 were added in 2006 resulting in an increase in 2007 net revenue of \$49.0 million. For the nine months ended September 30, 2007, EmCare added 47 new contracts and terminated 42 contracts resulting in an increase in net revenue of \$10.9 million. Net revenue under our same store contracts (contracts in existence for the entirety of both periods) increased \$50.8 million, or 11.4%, for the period ended September 30, 2007 due to a 6.6% increase in net revenue per patient visit from rate increases from our third-party payors and retroactive revenue adjustments of 3.4% recorded in the period. Current period same store patient visits increased 1.4% compared to prior period patient visit levels.

Compensation and benefits. Compensation and benefits costs for the nine months ended September 30, 2007 were \$502.8 million, or 76.7% of net revenue, compared to \$420.1 million, or 77.1% of net revenue, for the same period in 2006. Provider compensation and benefits costs increased \$42.5 million from net new contract additions. Same store provider compensation and benefits costs increased \$28.6 million due to an 8.7% increase in provider compensation per patient visit primarily due to increases in net revenue per patient visit. The remaining variance is related primarily to higher expense for incentive compensation plans.

Operating expenses. Operating expenses for the nine months ended September 30, 2007 were \$31.4 million, or 4.8% of net revenue, compared to \$25.9 million, or 4.8% of net revenue, for the same period in 2006. Operating expenses increased primarily due to additional patient visits from net new contracts and additional off-hours radiology coverage.

Insurance expense. Professional liability insurance expense for the nine months ended September 30, 2007 was \$25.2 million, or 3.8% of net revenue, compared to \$31.0 million, or 5.7% of net revenue, for the nine months ended September 30, 2006. The decrease is due to the continued improvement in current and prior year ultimate claims costs. As a result, a reduction of prior year insurance provisions of \$9.7 million was recorded during the nine months ended September 30, 2007. A reduction of \$1.4 million was recorded for the period ended September 30, 2006.

Selling, general and administrative. Selling, general and administrative expense for the nine months ended September 30, 2007 was \$13.8 million, or 2.1% of net revenue, compared to \$13.6 million, or 2.5% of net revenue, for the nine months ended September 30, 2006.

Depreciation and amortization. Depreciation and amortization expense for the nine months ended September 30, 2007 was \$10.5 million, or 1.6% of net revenue, compared to \$9.8 million, or 1.8% of net revenue, for the nine months ended September 30, 2006. Depreciation and amortization expense increased due to increased amortization expense related to the CSS acquisition.

Critical Accounting Policies

For a discussion of accounting policies that we consider critical to our business operations and the understanding of our results of operations that affect the more significant judgments and estimates used in the preparation of our unaudited condensed consolidated financial statements, please refer to Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies contained in our annual report on Form 10-K for the year ended December 31, 2006 and incorporated by reference herein. As of September 30, 2007, there were no significant changes in our critical accounting policies or estimation procedures.

Liquidity and Capital Resources

Our primary source of liquidity is cash flows provided by our operating activities. We can also use our revolving senior secured credit facility, described below, to supplement cash flows provided by our operating activities if we decide to do so for strategic or operating reasons. Our liquidity needs are primarily to service long-term debt and to fund working capital requirements, capital expenditures related to the acquisition of vehicles and medical equipment, technology-related assets and

insurance-related deposits.

We believe our cash and cash equivalents, cash provided by our operating activities, and amounts available under our senior secured credit facility will meet the liquidity requirements of our business through at least the next 12 months. We have available to us, upon compliance with customary conditions, \$100.0 million under the revolving credit facility, less outstanding borrowings of \$39.0 million and less outstanding letters of credit of \$29.6 million at September 30, 2007. Further, we have a conditional right under our senior secured credit facility to request new or existing lenders to provide up to an additional \$100.0 million of term debt (in \$20.0 million increments).

Cash Flow

The table below summarizes cash flow information derived from our statements of cash flows for the periods indicated, amounts in thousands.

	Nine months ended September 30, 2007		Nine months ended September 30, 2006	
Net cash provided by (used in):				
Operating activities	\$	56,946	\$	123,594
Investing activities		(111,142)		(87,614)
Financing activities		37,254		(31,564)

Operating activities. Net cash provided by operating activities was \$56.9 million for the nine months ended September 30, 2007 compared to \$123.6 million for the same period last year. Operating cash flows were affected primarily by changes in accounts receivable, which increased operating cash flows by \$4.8 million for the nine months ended September 30, 2006 and decreased operating cash flows by \$71.0 million for the nine months ended September 30, 2007. The 2006 period was impacted positively by the collection of hurricane-related and income tax receivables recorded in 2005. The 2007 period has been impacted negatively by increases in accounts receivable at our EmCare segment related to a significant increase in revenue and delays in obtaining provider numbers from Medicare fiscal intermediaries required for billing, with resulting delays in the collection process. Our AMR segment was impacted negatively in the 2007 period primarily due to the implementation of a new billing system in several markets and by our acquisition of MedicWest, in which we did not purchase the existing accounts receivable balances. We expect these to be temporary delays in our collection process and to have no material effect on our financial condition or results of operations. Transport related collections showed improvement in the third quarter of 2007.

Investing activities. Net cash used in investing activities was \$111.1 million for the nine months ended September 30, 2007 compared to \$87.6 million for the same period in 2006. The increase relates primarily to acquisitions of businesses of \$75.6 million during the nine months ended September 30, 2007 compared with acquisitions of businesses of \$11.6 million during the same period in 2006. The increase in acquisitions was offset partially by a \$24.5 million reduction in net insurance collateral funding and an \$11.1 million reduction in net capital expenditures.

Financing activities. For the nine months ended September 30, 2007, net cash provided by financing activities was \$37.3 million compared to net cash used in financing activities of \$31.6 million for the nine months ended September 30, 2006. Net cash from financing activities for the nine months ended September 30, 2007 includes net borrowings of \$39.0 million under our revolving credit facility. Net cash used in financing activities for the same period in 2006 includes unscheduled repayments of approximately \$19.4 million on our senior secured credit facility.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our primary exposure to market risk consists of changes in interest rates on certain of our borrowings and changes in fuel prices. We have not entered into hedging transactions or used derivative instruments for speculative or trading purposes to mitigate related exposure.

As of September 30, 2007, we had \$518.3 million of debt, of which \$263.7 million was variable rate debt under our senior secured credit facility and the balance was fixed rate debt, including \$250.0 million aggregate principal amount of our senior subordinated notes. Over the past twelve months, prime interest rates have decreased 0.5% and LIBOR interest rates have decreased approximately 0.3%. We expect continuing changes to these interest rates. Increases and decreases in interest rates affect our interest costs for our variable rate debt. For comparative purposes, for every 0.125% change in interest rates, our interest costs on our senior secured credit facility will change by approximately \$0.3 million per year based on our outstanding indebtedness at September 30, 2007.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain a system of disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)) that are designed to ensure that information required to be disclosed in the reports that we file under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or furnishes under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Based on their evaluation of our disclosure controls and procedures conducted within 90 days of the date of filing this Report on Form 10-Q, our principal executive officer and our principal financial officer have concluded that, as of the date of their evaluation, our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) are effective.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our fiscal quarter ended September 30, 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Edgar Filing: Emergency Medical Services CORP - Form 10-Q

We completed a conversion of our accounting and payroll systems on April 1, 2007 and have implemented a new billing system in several of our AMR markets. This new billing system implementation has impacted our cash collections process at AMR. We do not believe these system conversions have affected our internal controls over financial reporting.

EMERGENCY MEDICAL SERVICES CORPORATION

PART II. OTHER INFORMATION

FOR THE THREE AND NINE MONTHS ENDED

SEPTEMBER 30, 2007

ITEM 1. LEGAL PROCEEDINGS

For additional information regarding legal proceedings, please refer to note 5, under the caption "Commitments and Contingencies" of the notes accompanying the consolidated financial statements included herein, to our Annual Report on Form 10-K filed with the SEC on March 8, 2007 and to our Quarterly Report on Form 10-Q filed with the SEC on May 4, 2007.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

ITEM 6. EXHIBITS

- 31.1 Certification of the Chief Executive Officer of Emergency Medical Services Corporation pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.*
