NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

Unless the context otherwise requires, the use of the terms the Company, we, us and our in these Notes to Consolidated Condensed Financial Statements refers to Helmerich & Payne, Inc. and its consolidated subsidiaries.

The accompanying unaudited Consolidated Condensed Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and applicable rules and regulations of the Securities and Exchange Commission (the Commission) pertaining to interim financial information. Accordingly, these interim financial statements do not include all information or footnote disclosures required by GAAP for complete financial statements and, therefore, should be read in conjunction with the Consolidated Financial Statements and notes thereto in our 2011 Annual Report on Form 10-K and other current filings with the Commission. In the opinion of management, all adjustments, consisting of those of a normal recurring nature, necessary to present fairly the results of the periods presented have been included. The results of operations for the interim periods presented may not necessarily be indicative of the results to be expected for the full year.

As more fully described in our 2011 Annual Report on Form 10-K, our contract drilling revenues are comprised of daywork drilling contracts for which the related revenues and expenses are recognized as services are performed. For contracts that are terminated by customers prior to the expirations of their fixed terms, contractual provisions customarily require early termination amounts to be paid to us. Revenues from early terminated contracts are recognized when all contractual requirements have been met.

2. Discontinued Operations

On June 30, 2010, the Official Gazette of Venezuela published the Decree of Venezuelan President Hugo Chavez, which authorized the forceful acquisition of eleven rigs owned by our Venezuelan subsidiary. The Decree also authorized the seizure of all the personal and real property and other improvements—used by our Venezuelan subsidiary in its drilling operations. The seizing of our assets became effective June 30, 2010 and met the criteria established for recognition as discontinued operations under accounting standards for presentation of financial statements. Therefore, operations from the Venezuelan subsidiary, an operating segment within the International Land segment, have been classified as discontinued operations in our Consolidated Condensed Financial Statements.

Summarized operating results from discontinued operations are as follows:

	Three Months Ended June 30,				Nine Months Ended June 30,			d		
	2012	(in thou	sands)	2011		2012	(in thou	ısands)	2011	
Revenue	\$		\$		\$			\$		
Loss before income taxes		(18)			(2)		(154)			(393)
Income tax provision							(81)			(5)
Loss from discontinued operations	\$	(18)	\$		(2) \$		(73)	\$		(388)

Significant categories of assets and liabilities from discontinued operations are as follows:

	une 30, 2012 (in thou	eptember 30, 2011
Other current assets	\$ 7,578	\$ 7,529
Total assets	\$ 7,578	\$ 7,529
Current liabilities	\$ 5,156	\$ 4,979
Noncurrent liabilities	2,422	2,550
Total liabilities	\$ 7,578	\$ 7,529

Other current assets consist of restricted cash to meet remaining in-country current obligations. Liabilities consist of municipal and income taxes payable and social obligations due within the country of Venezuela.

Table of Contents

3. Earnings per Share

Accounting Standards Codification (ASC) 260, Earnings per Share, requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as a separate class of securities in calculating earnings per share. We have granted and expect to continue to grant restricted stock grants to employees that contain non-forfeitable rights to dividends. Such grants are considered participating securities under ASC 260. As such, we are required to include these grants in the calculation of our basic earnings per share and calculate basic earnings per share using the two-class method. The two-class method of computing earnings per share is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared (or accumulated) and participation rights in undistributed earnings.

Basic earnings per share is computed utilizing the two-class method and is calculated based on weighted-average number of common shares outstanding during the periods presented.

Diluted earnings per share is computed using the weighted-average number of common and common equivalent shares outstanding during the periods utilizing the two-class method for stock options and nonvested restricted stock.

4. Inventories

Inventories consist primarily of replacement parts and supplies held for use in our drilling operations.

Table of Contents

5. Financial Instruments and Fair Value Measurement

The estimated fair value of our available-for-sale securities, reflected on our Consolidated Condensed Balance Sheets as Investments, is based on market quotes. The following is a summary of available-for-sale securities, which excludes investments in limited partnerships carried at cost and assets held in a Non-qualified Supplemental Savings Plan:

	Cost	Gross Unrealized Gains (in thou	Gross Unrealize Losses sands)	ed	Estimated Fair Value
Equity securities June 30, 2012	\$ 129,183	\$ 236,337	\$	\$	365,520
Equity securities September 30, 2011	\$ 129,183	\$ 203,486	\$	\$	332,669

On an on-going basis, we evaluate the marketable equity securities to determine if any decline in fair value below original cost is other-than-temporary. If a decline in fair value is determined to be other-than-temporary, an impairment charge is recorded and a new cost basis established. We review several factors to determine whether a loss is other-than-temporary. These factors include, but are not limited to, (i) the length of time a security is in an unrealized loss position, (ii) the extent to which fair value is less than cost, (iii) the financial condition and near term prospects of the issuer and (iv) our intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in fair value. The cost of securities used in determining realized gains and losses is based on the average cost basis of the security sold. We had no sales of marketable equity available-for-sale securities during the first nine months of fiscal 2012 and 2011.

Investments in limited partnerships carried at cost were approximately \$9.4 million at June 30, 2012 and September 30, 2011. The estimated fair value of the limited partnerships was \$16.9 million and \$15.8 million at June 30, 2012 and September 30, 2011, respectively. During the third quarter ended June 30, 2011, we sold our investment in a limited partnership realizing a gain of \$0.9 million that is included in gain on sale of investment securities in the Consolidated Condensed Statements of Income.

Assets held in the Non-qualified Supplemental Savings Plan are carried at fair market value which totaled \$7.7 million at June 30, 2012 and \$5.9 million at September 30, 2011.

The majority of cash equivalents are invested in taxable and non-taxable money-market mutual funds. The carrying amount of cash and cash equivalents approximates fair value due to the short maturity of those investments.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date . We use the fair value hierarchy established in ASC 820-10 to measure fair value to prioritize the inputs:

Level 1 Observable inputs that reflect quoted prices in active markets for identical assets or liabilities in active markets.

• Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
• Level 3 Valuations based on inputs that are unobservable and not corroborated by market data.
At June 30, 2012, our financial instruments utilizing Level 1 inputs include cash equivalents, equity securities with active markets and money market funds we have elected to classify as restricted assets that are included in other current assets and other assets. Also included is cash denominated in a foreign currency we have elected to classify as restricted that is included in current assets of discontinued operations and limited to remaining liabilities of discontinued operations. For these items, quoted current market prices are readily available.
At June 30, 2012, financial instruments utilizing level 2 inputs include a bank certificate of deposit included in other current assets.
Currently, we do not have any financial instruments utilizing Level 3 inputs.
10

Table of Contents

The following table summarizes our assets measured at fair value on a recurring basis presented in our Consolidated Condensed Balance Sheet as of June 30, 2012:

	Total Measure at Fair Value	•	Quoted Prices in Active Markets for Identical Assets (Level 1) (in thous	•	Significant Other Observable Inputs (Level 2)	Signif Unobse Inp (Leve	rvable uts
Assets:							
Cash and cash equivalents	\$ 148,866	\$	148,866	\$		\$	
Equity securities	365,520		365,520				
Other current assets	48,909		48,659		250		
Other assets	2,000		2,000				
Total assets measured at fair value	\$ 565,295	\$	565,045	\$	250	\$	

The following information presents the supplemental fair value information about fixed-rate debt at June 30, 2012 and September 30, 2011:

	June 20		S	eptember 30, 2011
		(in thou	isands)	
Carrying value of fixed-rate debt	\$	350.0	\$	350.0
Fair value of fixed-rate debt	\$	365.9	\$	376.9

The fair value for fixed-rate debt was estimated using cash flows discounted at rates reflecting current interest rates at similar maturities plus a credit spread which was estimated using market information on debt instruments with a similar credit profile to us. The debt was valued using a Level 2 input.

Table of Contents

6. Comprehensive Income

Comprehensive income, net of related income taxes, is as follows (in thousands):

	Three Months Ended June 30,			nded	Nine Months Ended June 30,		
		2012	,	2011	2012		2011
Net income	\$	149,925	\$	109,826 \$	423,930	\$	312,766

		556		469	1,635		1,406
Total comprehensive income	\$	112,409	\$	94,647 \$	446,310	\$	397,563

The components of accumulated other comprehensive income, net of related income taxes, are as follows (in thousands):

	June 20	,	September 30, 2011
Unrealized appreciation on securities	\$	146,871 \$	126,126
Unrecognized actuarial loss and prior service cost		(25,583)	(27,218)
Accumulated other comprehensive income	\$	121,288 \$	98,908

7. Cash Dividends

The \$0.07 cash dividend declared March 7, 2012, was paid June 1, 2012. On June 6, 2012, a cash dividend of \$0.07 per share was declared for shareholders of record on August 15, 2012, payable August 31, 2012. The dividend payable is included in accounts payable in the Consolidated Condensed Balance Sheet.

8. Stock-Based Compensation

On March 2, 2011, the 2010 Long-Term Incentive Plan (the 2010 Plan) was approved by our stockholders. The 2010 Plan, among other things, authorizes the Board of Directors to grant nonqualified stock options, restricted stock awards and stock appreciation rights to selected employees

and to non-employee Directors. Restricted stock may be granted for no consideration other than prior and future services. The purchase price per share for stock options may not be less than market price of the underlying stock on the date of grant. Stock options expire ten years after the grant date. There were 455,900 nonqualified stock options and 243,600 shares of restricted stock awards granted in the nine months ended June 30, 2012. We have the right to satisfy option exercises from treasury shares and from authorized but unissued shares.

A summary of compensation cost for stock-based payment arrangements recognized in general and administrative expense is as follows (in thousands):

		Three Months Ended June 30,			Nine Months Ended June 30,			
	:	2012		2011		2012		2011
Compensation expense								
Stock options	\$	2,314	\$	1,696	\$	7,345	\$	5,509
Restricted stock		2,228		1,274		5,955		3,605
	\$	4,542	\$	2,970	\$	13,300	\$	9,114
			12					

Table of Contents

STOCK OPTIONS

The following summarizes the weighted-average assumptions utilized in determining the fair value of options granted during the nine months ended June 30, 2012 and 2011:

	2012	2011
Risk-free interest rate	1.0%	1.9%
Expected stock volatility	53.3%	51.6%
Dividend yield	0.4%	0.5%
Expected term (in years)	5.5	5.5

Risk-Free Interest Rate. The risk-free interest rate is based on U.S. Treasury securities for the expected term of the option.

Expected Volatility Rate. Expected volatility is based on the daily closing price of our stock based upon historical experience over a period which approximates the expected term of the option.

Dividend Yield. The expected dividend yield is based on our current dividend yield.

Expected Term. The expected term of the options granted represents the period of time that they are expected to be outstanding. We estimate the expected term of options granted based on historical experience with grants and exercises.

A summary of stock option activity under the Plan for the three and nine months ended June 30, 2012 is presented in the following table:

	Three Months Ended June 30, 2012					
			Weighted-	Average		Aggregate
			Average	Remaining		Intrinsic
	Shares		Exercise	Contractual Term		Value
Options	(in thousands)		Price	(in years)		(in millions)
	4 = 20		20.50			
Outstanding at April 1, 2012	4,739	\$	29.58			
Granted	3		47.29			
Exercised	(22)		21.26			
Forfeited/Expired	(19)		49.30			
Outstanding at June 30, 2012	4,701	\$	29.55	5.1	\$	74.1
Vested and expected to vest at June 30,						
2012	4,661	\$	29.53	5.1	\$	73.6

Exercisable at June 30, 2012 3,587 \$ 24.67 4.1 \$ 68.2

Nine Months Ended June 30, 2012

Options	Shares (in thousands)	Weighted- Average Exercise Price
Outstanding at October 1, 2011	4,589	\$ 25.84
Granted	456	59.68
Exercised	(303)	16.96
Forfeited/Expired	(41)	42.04
Outstanding at June 30, 2012	4,701	\$ 29.55

The weighted-average fair value of options granted in the first quarter of fiscal 2012 was \$27.75. The weighted-average fair value of options granted in the third quarter of fiscal 2012 was \$20.69. No options were granted in the second quarter of fiscal 2012.

Table of Contents

The total intrinsic value of options exercised during the three and nine months ended June 30, 2012 was \$0.6 million and \$11.8 million, respectively.

As of June 30, 2012, the unrecognized compensation cost related to stock options was \$14.6 million which is expected to be recognized over a weighted-average period of 2.8 years.

RESTRICTED STOCK

Restricted stock awards consist of our common stock and are time vested over three to six years. We recognize compensation expense on a straight-line basis over the vesting period. The fair value of restricted stock awards under the 2010 Plan is determined based on the closing price of our shares on the grant date. As of June 30, 2012, there was \$15.6 million of total unrecognized compensation cost related to unvested restricted stock awards which is expected to be recognized over a weighted-average period of 2.8 years.

A summary of the status of our restricted stock awards as of June 30, 2012 and changes in restricted stock outstanding during the nine months then ended is presented below:

	Nine Months Ended June 30, 2012					
Restricted Stock Awards	Shares (in thousands)		Weighted- Average Grant-Date Fair Value			
Unvested at October 1, 2011	323	\$	42.38			
Granted	244		59.76			
Vested (1)	(119)		40.21			
Forfeited	(18)		49.47			
Unvested at June 30, 2012	430	\$	52.53			

⁽¹⁾ The number of restricted stock awards vested includes shares that we withheld on behalf of our employees to satisfy the statutory tax withholding requirements.

9. Debt

At June 30, 2012 and September 30, 2011, we had the following unsecured long-term debt outstanding (in thousands):

	June 30, 2012	September 30, 2011
Unsecured intermediate debt issued August 15, 2002:		
Series C, due August 15, 2012, 6.46%	\$ 75,000	\$ 75,000
Series D, due August 15, 2014, 6.56%	75,000	75,000
Unsecured senior notes issued July 21, 2009:		
Due July 21, 2012, 6.10%	40,000	40,000
Due July 21, 2013, 6.10%	40,000	40,000
Due July 21, 2014, 6.10%	40,000	40,000
Due July 21, 2015, 6.10%	40,000	40,000
Due July 21, 2016, 6.10%	40,000	40,000
	\$ 350,000	\$ 350,000
Less long-term debt due within one year	115,000	115,000
Long-term debt	\$ 235,000	\$ 235,000

The intermediate unsecured debt outstanding at June 30, 2012 matures over a period from August 2012 to August 2014 and carries a weighted-average interest rate of 6.53 percent, which is paid semi-annually. The terms require that we maintain a minimum ratio of debt to total capitalization of less than 55 percent. The debt is held by various entities, including \$3 million held by a company affiliated with one of our Board members.

We have \$200 million senior unsecured fixed-rate notes that mature over a period from July 2012 to July 2016. Interest on the notes is paid semi-annually based on an annual rate of 6.10 percent. We will make five equal annual principal repayments of \$40 million, the first of which was made July 20, 2012. We have complied with our financial covenants which require us to maintain a funded leverage ratio of less than 55 percent and an interest coverage ratio (as defined) of not less than 2.50 to 1.00.

Table of Contents

During the second quarter of fiscal 2012, five stand-by letters of credit totaling \$3.0 million were issued by a bank on behalf of the Company to support customs and transportation guaranties that were required to move a rig between two international locations. At June 30, 2012, two of these stand-by letters of credit, totaling \$0.6 million remained outstanding. During the third quarter of fiscal 2012, a bank issued a \$0.2 million letter of credit on behalf of the Company to guarantee payment of certain expenses incurred by an international transportation vendor. The \$0.2 million was also outstanding at June 30, 2012.

On May 25, 2012, we entered into an agreement with a multi-bank syndicate for a \$300 million unsecured revolving credit facility that will mature May 2017. We anticipate that the majority of any borrowings under the facility will accrue interest at a spread over the London Interbank Offered Rate (LIBOR). We will also pay a commitment fee based on the unused balance of the facility. Borrowing spreads as well as commitment fees are determined according to a scale based on a ratio of our total debt to total capitalization. The LIBOR spread ranges from 1.125 percent to 1.75 percent per annum and commitment fees range from .15 percent to .35 percent per annum. Based on our debt to total capitalization on June 30, 2012, the LIBOR spread and commitment fees would be 1.125 percent and .15 percent, respectively. Financial covenants in the facility require us to maintain a funded leverage ratio (as defined) of less than 50 percent and an interest coverage ratio (as defined) of not less than 3.00 to 1.00. The credit facility contains additional terms, conditions, restrictions, and covenants that we believe are usual and customary in unsecured debt arrangements for companies of similar size and credit quality. As of June 30, 2012, there were no borrowings or letters of credit outstanding.

Our \$400 million senior unsecured credit facility matured in December 2011 and was allowed to expire. During the first fiscal quarter of 2012, we funded two collateral trusts totaling \$26.1 million and terminated two letters of credit. The two collateral trusts are classified as restricted cash and are included in prepaid expense and other in the Consolidated Condensed Balance Sheet at June 30, 2012.

10. Income Taxes

Our effective tax rate for the first nine months of fiscal 2012 and 2011 was 36.2 percent and 37.2 percent, respectively. Our effective tax rate for the three months ended June 30, 2012 and 2011 was 35.1 percent and 36.5 percent, respectively. The effective rate differs from the U.S. federal statutory rate of 35.0 percent primarily due to state and foreign taxes.

For the next 12 months, we cannot predict with certainty whether we will achieve ultimate resolution of any uncertain tax position associated with our international operations that could result in increases or decreases of our unrecognized tax benefits. However, we believe it is reasonably possible that the reserve for uncertain tax positions may increase by approximately \$7.0 million to \$9.0 million during the next 12 months due to an international matter.

11. Commitments and Contingencies

In conjunction with our current drilling rig construction program, purchase commitments for equipment, parts and supplies of approximately \$271.3 million are outstanding at June 30, 2012.

Various legal actions, the majority of which arise in the ordinary course of business, are pending. We maintain insurance against certain business risks subject to certain deductibles. None of these legal actions are expected to have a material adverse effect on our financial condition, cash flows or results of operations.

We are contingently liable to sureties in respect of bonds issued by the sureties in connection with certain commitments entered into by us in the normal course of business. We have agreed to indemnify the sureties for any payments made by them in respect of such bonds.

During the ordinary course of our business, contingencies arise resulting from an existing condition, situation, or set of circumstances involving an uncertainty as to the realization of a possible gain contingency. We account for gain contingencies in accordance with the provisions of ASC 450, *Contingencies*, and, therefore, we do not record gain contingencies and recognize income until realized. As discussed in Note 2, Discontinued Operations, property and equipment of our Venezuelan subsidiary was seized by the Venezuelan government on June 30, 2010. Our wholly-owned subsidiaries, Helmerich & Payne International Drilling Co. and Helmerich & Payne de Venezuela, C.A., filed a lawsuit in the United States District Court for the District of Columbia on September 23, 2011 against the Bolivarian Republic of Venezuela, Petroleos de Venezuela, S.A. (Petroleo) and PDVSA Petroleo, S.A. (PDVSA). Our subsidiaries seek damages for the taking of their Venezuelan drilling business in violation of international law and for breach of contract. Additionally, we are participating in an arbitration against a third party not affiliated with the Venezuelan government, Petroleo or PDVSA in an attempt to collect an aggregate \$50 million relating to the seizure of our property in Venezuela. While there exists the possibility of realizing a recovery, we are currently unable to determine the timing or amounts we may receive, if any, or the likelihood of recovery. No gain contingencies are recognized in our Consolidated Financial Statements.

Table of Contents

Subsequent to June 30, 2012, we signed an agreement to settle an arbitration dispute with an additional third party not affiliated with the Venezuelan government, Petroleo or PDVSA related to the seizure of our property in Venezuela. Proceeds of \$7.5 million were received subsequent to June 30, 2012 and will be recorded as discontinued operations in the Consolidated Statement of Income in the fourth quarter of fiscal 2012.

12. Segment Information

We operate principally in the contract drilling industry. Our contract drilling business includes the following reportable operating segments: U.S. Land, Offshore, and International Land. The contract drilling operations consist mainly of contracting Company-owned drilling equipment primarily to large oil and gas exploration companies. Our primary international areas of operation include Colombia, Ecuador, Argentina, Tunisia, Bahrain and other South American countries. The International Land operations have similar services, have similar types of customers, operate in a consistent manner and have similar economic and regulatory characteristics. Therefore, we have aggregated our international operations into a single reportable segment. Each reportable segment is a strategic business unit which is managed separately. Other includes non-reportable operating segments. Revenues included in Other consist primarily of rental income. Consolidated revenues and expenses reflect the elimination of all material intercompany transactions.

We evaluate segment performance based on income or loss from operations (segment operating income) before income taxes which includes:

- revenues from external and internal customers
- direct operating costs
- depreciation and
- allocated general and administrative costs

but excludes corporate costs for other depreciation, income from asset sales and other corporate income and expense.

Certain general and administrative costs are allocated to the segments based primarily on specific identification and, to the extent that such identification is not practical, on other methods which we believe to be a reasonable reflection of the utilization of services provided.

Segment operating income is a non-GAAP financial measure of our performance, as it excludes general and administrative expenses, corporate depreciation, income from asset sales and other corporate income and expense. We consider segment operating income to be an important supplemental measure of operating performance by presenting trends in our core businesses. We use this measure to facilitate period-to-period comparisons in operating performance of our reportable segments in the aggregate by eliminating items that affect comparability between periods. We believe that segment operating income is useful to investors because it provides a means to evaluate the operating performance of the segments on an ongoing basis using criteria that are used by our internal decision makers. Additionally, it highlights operating trends and aids analytical comparisons. However, segment operating income has limitations and should not be used as an alternative to operating income or loss, a performance measure determined in accordance with GAAP, as it excludes certain costs that may affect our operating performance in future periods.

Table of Contents

Summarized financial information of our reportable segments for the nine months ended June 30, 2012, and 2011, is shown in the following tables:

(in thousands)	External Sales	Inter- Segment	Total Sales	Segment Operating Income (Loss)

Recognized net actuarial loss	863		751		2,587		2,251
Net pension expense	\$ 673	\$	682	\$	2,018	\$	2,044

Employer Contributions

We contributed \$8.2 million to the Pension Plan during the nine months ended June 30, 2012. This contribution meets our minimum contribution required by law. We do not expect to make additional contributions during the fourth quarter of fiscal 2012.

14. Risk Factors

International operations are subject to certain political, economic and other uncertainties not encountered in U.S. operations, including increased risks of terrorism, kidnapping of employees, expropriation of drilling rigs, equipment, land and other property, as well as expropriation of a particular oil company operator s property and drilling rights, taxation policies, foreign exchange restrictions, currency rate fluctuations and general hazards associated with foreign sovereignty over certain areas in which operations are conducted. There can be no assurance that there will not be changes in local laws, regulations and administrative requirements or the interpretation thereof which could have a material adverse effect on the profitability of our operations or on our ability to continue operations in certain areas.

15. Recently Issued Accounting Standards

On October 1, 2011, we adopted the provisions of Accounting Standards Update (ASU) No. 2010-06, Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements requiring a reconciliation of purchases, sales, issuance, and settlements of financial instruments valued with a Level 3 method, which is used to price the hardest to value instruments. The adoption had no impact on the Consolidated Financial Statements.

On May 12, 2011, the Financial Accounting Standards Board (FASB) issued ASU No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. ASU No. 2011-04 is intended to create consistency between U.S. GAAP and International Financial Reporting Standards (IFRS) on the definition of fair value and on the guidance on how to measure fair value and on what to disclose about fair value measurements. ASU No. 2011-04 will be effective for financial statements issued for fiscal periods beginning after December 15, 2011, with early adoption prohibited for public entities. We do not expect the adoption of these provisions to have a material impact on the Consolidated Financial Statements.

On June 16, 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income.* ASU No. 2011-05 was issued to increase the prominence of other comprehensive income (OCI) in financial statements. The guidance provides two options for presenting OCI. An OCI statement can be included with the net income statement, which together will make a statement of total comprehensive income. Alternatively, an OCI statement can be separate from a net income statement but the two statements will have to appear consecutively within a financial report. ASU No. 2011-05 will be applied retrospectively and is effective for fiscal years beginning after December 15, 2011 with early adoption permitted. We are currently evaluating the method of presentation and the timing of adoption but the adoption will have no impact on the Consolidated Financial Statements.

Table of Contents

16. Stock Repurchases

The Company has authorization from the Board of Directors for the repurchase of up to four million shares per calendar year. The repurchases may be made using our cash and cash equivalents or other available sources. During the nine months ended June 30, 2012, we purchased 1,747,819 treasury shares at an aggregate cost of \$77.6 million of which \$6.2 million did not settle until after June 30, 2012.

Table of Contents

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS

June 30, 2012

RISK FACTORS AND FORWARD-LOOKING STATEMENTS

The following discussion should be read in conjunction with the Consolidated Condensed Financial Statements and related notes included elsewhere herein and the Consolidated Financial Statements and notes thereto included in our 2011 Annual Report on Form 10-K. Our future operating results may be affected by various trends and factors which are beyond our control. These include, among other factors, fluctuations in natural gas and crude oil prices, early termination of drilling contracts, forfeiture of early termination payments under fixed term contracts due to sustained unacceptable performance, unsuccessful collection of receivables, inability to procure key rig components, failure to timely deliver rigs within applicable grace periods, disruption to or cessation of the business of our limited source vendors or fabricators, currency exchange losses, expropriation of assets, a sluggish global economy, changes in general economic and political conditions, adverse weather conditions including hurricanes, rapid or unexpected changes in technologies and uncertain business conditions that affect our businesses. Accordingly, past results and trends should not be used by investors to anticipate future results or trends. Our risk factors are more fully described in our 2011 Annual Report on Form 10-K and elsewhere in this Form 10-Q.

With the exception of historical information, the matters discussed in Management s Discussion & Analysis of Financial Condition and Results of Operations include forward-looking statements. These forward-looking statements are based on various assumptions. We caution that, while we believe such assumptions to be reasonable and make them in good faith, assumptions about future events and conditions almost always vary from actual results. The differences between assumed facts and actual results can be material. We are including this cautionary statement to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by us or persons acting on our behalf. The factors identified in this cautionary statement are important factors (but not necessarily all important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by us or persons acting on our behalf. Except as required by law, we undertake no duty to update or revise our forward-looking statements based on changes of internal estimates on expectations or otherwise.

RESULTS OF OPERATIONS

Three Months Ended June 30, 2012 vs. Three Months Ended June 30, 2011

We reported income from continuing operations and net income of \$149.9 million (\$1.38 per diluted share) from operating revenues of \$819.8 million for the third quarter ended June 30, 2012, compared with income from continuing operations and net income of \$109.8 million (\$1.01 per diluted share) from operating revenues of \$644.1 million for the third quarter of fiscal year 2011. Income from continuing operations for the third quarter of fiscal 2012 includes approximately \$1.2 million (\$0.01 per diluted share) of after-tax gains from the sale of assets. Income from continuing operations for the third quarter of fiscal 2011 includes approximately \$2.2 million (\$0.02 per diluted share) of after-tax gains from the sale of assets.

On June 30, 2010, the Official Gazette of Venezuela published the Decree of Venezuelan President Hugo Chavez, which authorized the forceful acquisition of eleven rigs owned by our Venezuelan subsidiary. The Decree also authorized the seizure of all the personal and real property and other improvements used by our Venezuelan subsidiary in its drilling operations. The seizing of our assets became effective June 30, 2010 and met the criteria established for recognition as discontinued operations under accounting standards for presentation of financial statements. Therefore, operations from the Venezuelan subsidiary, an operating segment within the International Land segment, have been classified as discontinued operations in our Consolidated Condensed Financial Statements.

Our wholly-owned subsidiaries, Helmerich & Payne International Drilling Co. and Helmerich & Payne de Venezuela, C.A., filed a lawsuit in the United States District Court for the District of Columbia on September 23, 2011 against the Bolivarian Republic of Venezuela, Petroleos de Venezuela, S.A. and PDVSA Petroleo, S.A. Our subsidiaries seek damages for the taking of their Venezuelan drilling business in violation of international law and for breach of contract. Additionally, we are participating in an arbitration against a third party not affiliated with the Venezuelan government, Petroleo or PDVSA in an attempt to collect an aggregate \$50 million relating to the seizure of our property in Venezuela. While there exists the possibility of realizing a recovery, we are currently unable to determine the timing or amounts we may receive, if any, or the likelihood of recovery. No gain contingencies are recognized in our Consolidated Financial Statements.

Table of Contents

Subsequent to June 30, 2012, we signed an agreement to settle an arbitration dispute with an additional third party not affiliated with the Venezuelan government, Petroleo or PDVSA related to the seizure of our property in Venezuela. Proceeds of \$7.5 million were received subsequent to June 30, 2012 and will be recorded as discontinued operations in the Consolidated Statement of Income in the fourth quarter of fiscal 2012.

Summarized operating results from discontinued operations are as follows:

		Three Months Ended June 30,		
	20	012 (in thousand	2011 (s)	
Revenue	\$	\$		
Loss before income taxes		(18)	(2)	
Income tax benefit				
Loss from discontinued operations	\$	(18) \$	(2)	

Significant categories of assets and liabilities from discontinued operations are as follows:

	ne 30, 2012 (in thou	eptember 30, 2011
Other current assets	\$ 7,578	\$ 7,529
Total assets	\$ 7,578	\$ 7,529
Total current liabilities	\$ 5,156	\$ 4,979
Total noncurrent liabilities	2,422	2,550
Total liabilities	\$ 7,578	\$ 7,529

Other current assets consist of restricted cash to meet remaining in-country current obligations. Liabilities consist of municipal and income taxes payable and social obligations due within the country of Venezuela.

The following tables summarize operations by reportable operating segment for the three months ended June 30, 2012 and 2011. Operating statistics in the tables exclude the effects of offshore platform and international management contracts, and do not include reimbursements of out-of-pocket expenses in revenue, expense and margin per day calculations. Per day calculations for international operations also exclude gains and losses from translation of foreign currency transactions. Segment operating income is described in detail in Note 12 to the Consolidated Condensed Financial Statements.

Three Months Ended June 30, 2012 2011 (in thousands, except days and per day amounts)

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Revenues	\$ 706,786	\$ 539,372
Direct operating expenses	382,418	289,311
General and administrative expense	7,227	6,330
Depreciation	81,457	66,899
Segment operating income	\$ 235,684	\$ 176,832
Revenue days	21,977	18,912
Average rig revenue per day	\$ 28,096	\$ 25,970
Average rig expense per day	\$ 13,337	\$ 12,748
Average rig margin per day	\$ 14,759	\$ 13,222
Rig utilization	89%	87%

U.S. Land segment operating income increased to \$235.7 million for the third quarter of fiscal 2012 compared to \$176.8 million in the same period of fiscal 2011. Revenues were \$706.8 million and \$539.4 million in the third quarter of fiscal 2012 and 2011, respectively. Included in U.S. land revenues for the three months ended June 30, 2012 and 2011 are reimbursements for out-of-pocket expenses of \$89.3 million and \$48.2 million, respectively.

Table of Contents

Segment operating income and average rig margin increased in the comparable quarters as rig utilization and average dayrates increased. U.S. land rig utilization increased to 89 percent for the third quarter of fiscal 2012 compared to 87 percent for the third quarter of fiscal 2011. U.S. land rig revenue days for the third quarter of fiscal 2012 were 21,977 compared with 18,912 for the same period of fiscal 2011, with an average of 241.5 and 207.8 rigs working during the third quarter of fiscal 2012 and 2011, respectively. Included in rig revenue and margin per day during the third quarter of fiscal 2012 is approximately \$140 per day of early termination fees.

At June 30, 2012, we had 245 out of 275 existing rigs in the U.S. Land segment that were generating revenue. A new FlexRig under contract was completed and ready for delivery at June 30, 2012. Of the 245 rigs generating revenue, 163 were under fixed term contracts and 82 were working in the spot market. At July 27, 2012, the number of existing rigs under fixed term contracts in the segment decreased to 157 and the number of rigs working in the spot market increased to 84.

		Three Months Ended June 30, 2012 2011

Rig utilization		74%		78%

Offshore revenues include reimbursements for out-of-pocket expenses of \$3.6 million and \$12.8 million for the three months ended June 30, 2012 and 2011, respectively.

Segment operating income and average rig margin per day decreased in the third quarter of fiscal 2012 compared to the third quarter of fiscal 2011 partly because the rig previously working in Trinidad returned to the U.S. during the second quarter of fiscal 2012 and was idle during the third quarter of fiscal 2012. Additionally, a second rig was on standby during the third quarter of 2012 compared to working all of the third quarter of fiscal 2011.

At June 30, 2012, seven of our nine platform rigs were active. One idle rig is expected to commence operations in the fourth quarter of fiscal 2012. The rig that returned from Trinidad is currently idle.

		Three Months Ended June 30,		
	2012		2011	
	(in t	housands, except day	s and per da	ay amounts)
INTERNATIONAL LAND OPERATIONS				
Revenues	\$	67,482	\$	46,051

Edgar Filing: HELMERICH & PAYNE INC - Form 10-Q

Direct operating expenses	52,495	39,131
General and administrative expense	939	825
Depreciation	7,773	6,719
Segment operating income (loss)	\$ 6,275	\$ (624)
Revenue days	1,852	1,437
Average rig revenue per day	\$ 33,362	\$ 29,201
Average rig expense per day	\$ 25,658	\$ 23,848
Average rig margin per day	\$ 7,704	\$ 5,353
Rig utilization	77%	65%

International Land segment operating income for the third quarter of fiscal 2012 was approximately \$6.3 million compared to an operating loss of \$0.6 million in the same period of fiscal 2011. Included in International land revenues for the three months ended June 30, 2012 and 2011 are reimbursements for out-of-pocket expenses of \$5.7 million and \$4.1 million, respectively.

Table of Contents

Revenues in the third quarter of fiscal 2012 increased by \$21.4 million compared to the third quarter of fiscal 2011 with utilization increasing to 77 percent from 65 percent. During the current quarter, an average of 20.1 rigs worked compared to an average of 15.6 rigs in the third quarter of fiscal 2011.

Segment operating income and average rig margin per day increased in the third quarter of fiscal 2012 compared to the third quarter of fiscal 2011 primarily due to an increase in utilization and higher dayrates.

RESEARCH AND DEVELOPMENT

For the three months ended June 30, 2012 and 2011, we incurred \$4.3 million and \$4.4 million, respectively, of research and development expenses related to ongoing development of a rotary steerable system.

OTHER

General and administrative expenses increased to \$25.6 million in the third quarter of fiscal 2012 from \$24.1 million in the third quarter of fiscal 2011. The increase is primarily due to an increase in stock-based compensation of approximately \$1.6 million due to a higher fair value for options granted in fiscal 2012 compared to the fair value of options granted in fiscal 2011.

Income from asset sales was \$1.9 million in the third quarter of fiscal 2012, compared to \$3.5 million in the same period of fiscal 2011. The decrease of \$1.6 million is primarily due to a reduction in the sale of drill pipe that is used in the ordinary course of business.

Income tax expense increased to \$80.9 million in the third quarter of fiscal 2012 from \$63.0 million in the third quarter of fiscal 2011, primarily due to an increase in operating income. The effective tax rate from continuing operations decreased to 35.1 percent from 36.5 percent for the two comparable quarters primarily due to an increased level of operations in states with a lower income tax rate.

Interest expense was \$2.4 million and \$3.2 million in the third quarter of fiscal 2012 and 2011, respectively. Capitalized interest, all attributable to our rig construction, was \$3.2 million and \$2.2 million for the comparable quarters.

Nine Months Ended June 30, 2012 vs. Nine Months Ended June 30, 2011

We reported income from continuing operations of \$424.0 million (\$3.88 per diluted share) from operating revenues of \$2.3 billion for the nine months ended June 30, 2012, compared with income from continuing operations of \$313.2 million (\$2.87 per diluted share) from operating

revenues of \$1.8 billion for the first nine months of fiscal year 2011. For the first nine months of fiscal 2012 and 2011, we had a net loss from discontinued operations of \$0.1 million and \$0.4 million, respectively, with no effect on a per diluted share basis. Including discontinued operations, we recorded net income of \$423.9 million (\$3.88 per diluted share) for the nine months ended June 30, 2012, compared to net income of \$312.8 million (\$2.87 per diluted share) for the nine months ended June 30, 2011. Income from continuing operations for the first nine months of fiscal 2012 includes approximately \$7.9 million (\$0.08 per diluted share) of after-tax gains from the sale of assets. Income from continuing operations for the first nine months of fiscal 2011 includes approximately \$6.4 million (\$0.06 per diluted share) of after-tax gains from the sale of assets and \$0.6 million (\$0.01 per diluted share) of after-tax gains from the sale of investment securities.

Summarized operating results from discontinued operations are as follows:

	Nine Months Ended June 30, 2012 (in thousands)	2011
Revenue	\$ \$	
Loss before income taxes	(154)	(393)
Income tax benefit	81	5
Loss from discontinued operations	\$ (73) \$	(388)

The following tables summarize operations by reportable operating segment for the nine months ended June 30, 2012 and 2011. Operating statistics in the tables exclude the effects of offshore platform and international management contracts, and do not include reimbursements of out-of-pocket expenses in revenue, expense and margin per day calculations. Per day calculations for international operations also exclude gains and losses from translation of foreign currency transactions. Segment operating income is described in detail in Note 12 to the Consolidated Condensed Financial Statements.

Table of Contents

Nine Months Ended June 30, 2012 2011 (in thousands, except days and per day amounts)

	(111 ti	(in thousands, except days and per day amounts)		
U.S. LAND OPERATIONS				
Revenues	\$	1,983,369	\$	1,511,649

Average rig revenue per day	\$	27,537	\$	25,536
Average rig expense per day	\$	13,160	\$	12,391
Average rig margin per day	\$	14,377	\$	13,145
Rig utilization		90%		85%

U.S. Land segment operating income increased to \$670.3 million for the first nine months of fiscal 2012 compared to \$499.5 million in the same period of fiscal 2011. Revenues were \$2.0 billion and \$1.5 billion for the first nine months of fiscal 2012 and 2011, respectively. Included in U.S. land revenues for the nine months ended June 30, 2012 and 2011 are reimbursements for out-of-pocket expenses of \$210.3 million and \$133.8 million, respectively.

Average rig margin per day during the comparable periods increased as rig utilization and average dayrates improved. U.S. land rig utilization increased to 90 percent for the first nine months of fiscal 2012 compared to 85 percent for the first nine months of fiscal 2011. U.S. land rig revenue days for the first nine months of fiscal 2012 were 64,389 compared with 53,958 for the same period of fiscal 2011, with an average of 235.0 and 197.6 rigs working during the first nine months of fiscal 2012 and 2011, respectively.

During the nine months ended June 30, 2012, three idle conventional rigs were sold and three FlexRigs were transferred from the U.S. Land segment to the International Land segment.

At June 30, 2012, we had 245 out of 275 existing rigs in the U.S. Land segment that were generating revenue. A new FlexRig under contract was completed and ready for delivery at June 30, 2012. Of the 245 rigs generating revenue, 163 were under fixed term contracts and 82 were working in the spot market. At July 27, 2012, the number of existing rigs under fixed term contracts in the segment decreased to 157 and the number of rigs working in the spot market increased to 84.

Revenue days	5,342	4,781
Average rig revenue per day	\$ 31,974 \$	32,188
Average rig expense per day	\$ 24,775 \$	23,791
Average rig margin per day	\$ 7,199 \$	8,397
Rig utilization	77%	69%

International Land segment operating income for the first nine months of fiscal 2012 was \$13.2 million, compared to operating income of \$16.2 million in the same period of fiscal 2011. Included in International land revenues for the nine months ended June 30, 2012 and 2011 are reimbursements for out-of-pocket expenses of \$21.5 million and \$15.8 million, respectively.

Revenues in the first nine months of fiscal 2012 increased by \$22.6 million compared to the same period of fiscal 2011, with utilization increasing to 77 percent from 69 percent. During the first nine months of fiscal 2012, an average of 19.5 rigs worked compared to an average of 17.5 rigs in the first nine months of fiscal 2011.

Segment operating income and average rig margin per day decreased in the first nine months of fiscal 2012 compared to the first nine months of fiscal 2011 primarily due to early termination revenue earned in the first nine months of fiscal 2011 and higher operating expenses in the first nine months of fiscal 2012.

During the first nine months of fiscal 2012, three FlexRigs were transferred to the International Land segment from the U.S. Land segment. Two of the rigs commenced operations in the second quarter of fiscal 2012 and the third FlexRig is expected to commence operations during the fourth quarter of fiscal 2012. Additionally, two new FlexRigs are expected to begin operations in the International Land segment during the fourth quarter of fiscal 2012.

RESEARCH AND DEVELOPMENT

For the nine months ended June 30, 2012 and 2011, we incurred \$11.4 million and \$11.5 million, respectively, of research and development expenses related to ongoing development of a rotary steerable system.

OTHER

General and administrative expenses increased to \$79.5 million in the first nine months of fiscal 2012 from \$68.4 million in the first nine months of fiscal 2011. The increase is primarily due to increases in salaries, bonuses and stock-based compensation of approximately \$8.0 million associated with growth in the number of employees and increases in wages in the comparative periods. The remaining increase is primarily due to higher professional services and other corporate overhead associated with supporting continued growth of our drilling business.

Income from asset sales was \$14.4 million in the first nine months of fiscal 2012, compared to \$10.3 million in the same period of fiscal 2011. The increase of \$4.1 million in fiscal 2012 is due to the sale of three idle U.S. land conventional rigs and the sale of drill pipe used in the ordinary course of business.

Income tax expense increased to \$240.2 million in the first nine months of fiscal 2012 from \$185.8 million in the first nine months of fiscal 2011, primarily due to an increase in operating income. The effective tax rate from continuing operations decreased to 36.2 percent from 37.2 percent for the two comparable periods.

Table of Contents

Interest expense was \$7.3 million and \$13.2 million in the first nine months of fiscal 2012 and 2011, respectively. Capitalized interest, all attributable to our rig construction, was \$9.6 million and \$5.8 million for the comparable periods. Interest expense before capitalized interest decreased \$2.0 million during the first nine months of fiscal 2012 compared to the first nine months of fiscal 2011 primarily due to \$1.7 million accrued for settlement of a lawsuit in fiscal 2011.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Cash and cash equivalents decreased to \$148.9 million at June 30, 2012 from \$364.2 million at September 30, 2011. The following table provides a summary of cash flows for the nine-month period ended June 30, (in thousands):

Net cash provided (used) by:

	2012	2011
Operating activities	\$ 612,978 \$	696,443
Investing activities	(742,405)	(472,106)
Financing activities	(85,953)	708
Increase (decrease) in cash and cash equivalents	\$ (215,380) \$	225,045

Operating activities

Cash flows from operating activities were approximately \$613.0 million for the nine months ended June 30, 2012 compared to approximately \$696.4 million for the same period ended June 30, 2011. The decrease in cash provided from operating activities is primarily due to an increase in accounts receivable and prepaid expenses and other, partially offset by increases in net income and depreciation. Depreciation increased to \$272.4 million for the nine months ended June 30, 2012 compared to \$228.4 million during the nine months ended June 30, 2011, primarily as a result of new rigs being placed into service during fiscal 2011 and 2012. For the nine months ended June 30, 2012, accounts receivable increased due to the additional rigs in service. During the nine months ended June 30, 2012, we funded two collateral trusts totaling \$26.1 million in connection with our primary casualty insurance program. The two collateral trusts are included in prepaid expense and other in the Consolidated Condensed Statements of Cash Flows.

Investing activities

The increase in net cash used in investing activities was primarily attributable to a \$280.5 million increase in capital expenditures during the nine months ended June 30, 2012. The growth in capital expenditures was a result of the increased building of new FlexRigs.

Financing activities

During the nine months ended June 30, 2012, 1,747,819 treasury shares were purchased at an aggregate cost of \$77.6 million of which \$6.2 million did not settle until after June 30, 2012. During the nine months ended June 30, 2011, we reduced our outstanding debt by \$10.0 million compared with no change in debt during the nine months ended June 30, 2012.

Other Liquidity

Funds generated by operating activities, available cash and cash equivalents, and our new credit facility represent our significant sources of liquidity. Given current market conditions and general expectations, we believe these sources of liquidity will be sufficient to sustain operations and finance estimated capital expenditures, including rig construction, for fiscal 2012. During the third quarter of fiscal 2012, we entered into an agreement with a multi-bank syndicate for a \$300 million unsecured revolving credit facility. There can be no assurance that we will continue to generate cash flows at current levels or obtain additional financing. Our indebtedness totaled \$350 million at June 30, 2012. Subsequent to June 30, 2012, we made a \$40 million debt payment. For additional information regarding debt agreements, refer to Note 9 of the Consolidated Condensed Financial Statements.

Backlog

Our contract drilling backlog, being the expected future revenue from executed contracts with original terms in excess of one year, as of June 30, 2012 and September 30, 2011 was \$4.1 billion and \$3.8 billion, respectively. The increase in backlog at June 30, 2012 from September 30, 2011 is primarily due to the expected revenue from 29 multi-year contracts announced during the first nine months of fiscal 2012. Approximately 89.4 percent of the June 30, 2012 backlog is not reasonably expected to be filled in fiscal 2012. Term contracts customarily provide for termination at the election of the customer with an early termination payment to be paid to us if a contract is terminated prior to the expiration of the fixed term. However, under certain limited circumstances, such as destruction of a drilling rig, bankruptcy, sustained unacceptable performance by us, or delivery of a rig beyond certain grace and/or liquidated damage periods, no early termination payment would be paid to us. In addition, a portion of the backlog represents term contracts for new rigs that will be constructed in the future. We obtain certain key rig components from a single or limited number of vendors or fabricators. Certain of these vendors or fabricators are thinly capitalized independent companies located on the Texas Gulf

27

Table of Contents

Coast. Therefore, disruptions in rig component deliveries may occur. Accordingly, the actual amount of revenue earned may vary from the backlog reported. See the risk factors under Item 1A. Risk Factors of our Annual Report on Form 10-K, filed with the Securities and Exchange Commission on November 23, 2011, regarding fixed term contract risk, operational risks, including weather, and vendors that are limited in number and thinly capitalized.

The following table sets forth the total backlog by reportable segment as of June 30, 2012 and September 30, 2011, and the percentage of the June 30, 2012 backlog not reasonably expected to be filled in fiscal 2012:

Three Months Ended					
Reportable Segment	_	me 30, 2012		September 30, 2011	Percentage Not Reasonably Expected to be Filled in Fiscal 2012
		(in billio	ons)		
U.S. Land	\$	3.5	\$	3.3	89.1%
Offshore		0.1		0.1	83.3%
International Land		0.5		0.4	92.1%
	\$	4.1	\$	3.8	

Capital Resources

During the first nine months of fiscal 2012, we announced agreements to build and operate 29 new FlexRigs under multi-year contracts. During the nine months ended June 30, 2012, we completed 36 FlexRigs that are under fixed term contracts. An additional four FlexRigs under fixed term contracts were completed by the end of July 2012. At a current cadence of four new FlexRigs per month, we currently expect to deliver a total of 48 new FlexRigs during fiscal 2012. Like those completed in prior fiscal periods, each of these new FlexRigs is committed to work for an exploration and production company under a fixed term contract, performing drilling services on a daywork contract basis.

Our capital spending estimate for fiscal 2012 is \$1.1 billion but the actual spending level may vary depending primarily on the timing of procurement related to our ongoing construction of new FlexRigs. Capital expenditures were \$774.2 million and \$493.8 million for the first nine months of fiscal 2012 and 2011, respectively. Capital expenditures increased from 2011 primarily due to the additional new rigs completed during the comparable nine month periods ended June 30.

There were no other significant changes in our financial position since September 30, 2011.

MATERIAL COMMITMENTS

In December 2011, we extended our current lease for office space near downtown Tulsa, Oklahoma for an additional five years and added approximately 31,000 square feet. The extension and expansion increases the material commitments reported in our 2011 Annual Report on Form 10-K by approximately \$15.0 million.

CRITICAL ACCOUNTING POLICIES

Our accounting policies that are critical or the most important to understand our financial condition and results of operations and that require management to make the most difficult judgments are described in our 2011 Annual Report on Form 10-K. There have been no material changes in these critical accounting policies.

RECENTLY ISSUED ACCOUNTING STANDARDS

On October 1, 2011, we adopted the provisions of ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements requiring a reconciliation of purchases, sales, issuance, and settlements of financial instruments valued with a Level 3 method, which is used to price the hardest to value instruments. The adoption had no impact on the Consolidated Financial Statements.

On May 12, 2011, the FASB issued ASU No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. ASU No. 2011-04 is intended to create consistency between U.S. GAAP and IFRS on the definition of fair value and on the guidance on how to measure fair value and on what to disclose about fair value measurements. ASU No. 2011-04 will be effective for financial statements issued for fiscal periods beginning after December 15, 2011, with early adoption prohibited for public entities. We do not expect the adoption of these provisions to have a material impact on the Consolidated Financial Statements.

Table of Contents

On June 16, 2011, the FASB issued ASU No. 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income.* ASU No. 2011-05 was issued to increase the prominence of OCI in financial statements. The guidance provides two options for presenting OCI. An OCI statement can be included with the net income statement, which together will make a statement of total comprehensive income. Alternatively, an OCI statement can be separate from a net income statement but the two statements will have to appear consecutively within a financial report. ASU No. 2011-05 will be applied retrospectively and is effective for fiscal periods beginning after December 15, 2011 with early adoption permitted. We are currently evaluating the method of presentation and the timing of adoption but the adoption will have no impact on the Consolidated Financial Statements.

PART I. FINANCIAL INFORMATION

June 30, 2012

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a description of our market risks, see

- Note 5 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof with regard to equity price risk is incorporated herein by reference;
- Item 7A. Quantitative and Qualitative Disclosures About Market Risk in our 2011 Annual Report on Form 10-K filed with the Securities and Exchange Commission on November 23, 2011;
- Note 9 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof with regard to interest rate risk is incorporated herein by reference; and
- Note 14 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof with regard to foreign currency exchange rate risk is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation was performed with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of June 30, 2012, at ensuring that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC s rules and forms. There have been no changes in our internal controls over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Pending Investigation by the U.S. Attorney. In May 2010, one of our employees reported certain possible choke manifold testing irregularities at one offshore platform rig. Operations were promptly suspended on that rig after receiving the employee's report. The Minerals Management Service (now known as the Bureau of Safety and Environmental Enforcement) was promptly notified of the employee's report and it conducted an initial investigation of this matter. Upon conclusion of the initial investigation, we were permitted to resume normal operations on the rig. Also, we promptly commenced an internal investigation of the employee's allegations. Our internal investigation found that certain employees on the rig failed to follow our policies and procedures, which resulted in termination of those employees. There were no spills or discharges to the environment.

The U.S. Attorney for the Eastern District of Louisiana has commenced a grand jury investigation, which is ongoing. We received, and have complied with, a subpoena for documents in connection with that investigation. Certain of our current and former employees have been interviewed by the government or have testified before the grand jury. In late April 2011, the Company was advised that it is a subject of this investigation.

Mr. Donald Hudson, former offshore platform rig manager, pleaded guilty to one felony charge of making false statements to a federal investigator concerning his participation in the testing irregularities that were reported in May 2010. Sentencing is currently scheduled for August 8, 2012. Mr. Hudson s employment was terminated by the Company in June 2010. We continue to cooperate with this government investigation. Although we presently believe that this matter will not have a material adverse effect on the Company, we can provide no assurances as to the timing or eventual outcome of this investigation.

Table of Contents
ITEM 1A. RISK FACTORS
International uncertainties and local laws could adversely affect our business.
International operations are subject to certain political, economic and other uncertainties not encountered in U.S. operations, including increased risks of terrorism, kidnapping of employees, expropriation of drilling rigs, equipment, land and other property, as well as expropriation of a particular oil company s property and drilling rights, taxation policies, foreign exchange restrictions, currency rate fluctuations and general hazards associated with foreign sovereignty over certain areas in which operations are conducted. There can be no assurance that there will not be changes in local laws, regulations and administrative requirements or the interpretation thereof which could have a material adverse effect on the profitability of our operations or on our ability to continue operations in certain areas.
Because of the impact of local laws, our future operations in certain areas may be conducted through entities in which local citizens own interests and through entities (including joint ventures) in which we hold only a minority interest or pursuant to arrangements under which we conduct operations under contract to local entities. While we believe that neither operating through such entities nor pursuant to such arrangements would have a material adverse effect on our operations or revenues, there can be no assurance that we will in all cases be able to structure or restructure our operations to conform to local law (or the administration thereof) on terms acceptable to us.
Although we attempt to minimize the potential impact of such risks by operating in more than one geographical area, during the nine months ended June 30, 2012, approximately eight percent of our consolidated operating revenues were generated from the international contract drilling business. During the nine months ended June 30, 2012, approximately 72 percent of the international operating revenues were from operations in South America.
Reference is made to the risk factors pertaining to the Company s securities portfolio in Item 1A of Part 1 of the Company s Form 10-K for the year ended September 30, 2011. In order to update these risk factors for developments that have occurred during the first nine months of fiscal 2012, the risk factors are hereby amended and updated by reference to, and incorporation herein of Note 5 to the Consolidated Condensed Financial Statements contained in Item 1 of Part I hereof.
Except as discussed above, there have been no material changes to the risk factors disclosed in Item 1A of Part 1 in our Form 10-K for the year ended September 30, 2011.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table reflects the Company s repurchase of Common Stock for the three months ended June 30, 2012:

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid Per Share (or Units)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) That May Yet Be Purchased Under
April 1 April 30, 2012		\$		
May 1 May 31, 2012	453,204	45.5375		3,546,796(1)
June 1 June 30, 2012	1,294,615	44.0066		2,252,181(1)
TOTAL	1,747,819	\$ 44.4035		2,252,181(1)

⁽¹⁾ The Company s Board of Directors previously authorized a stock repurchase program in fiscal 2006 for the repurchase of up to four (4) million shares per calendar year. This repurchase program was reannounced via Form 8-K on May 18, 2012. The repurchases may be made using the Company s cash and cash equivalents or other available sources. The program has no expiration date but may be terminated at any time at the Board of Directors discretion. All shares reported in the above table were purchased in the open market. No other purchases were made in the quarter ended June 30, 2012.

Subject to market considerations, the Company may repurchase additional shares in the open market. Repurchases, if any, would be funded with current cash and cash equivalents.
