Date of reporting period: April 30, 2017

Item 1. Reports to Stockholders.

Stockholder Letter (unaudited)

Edgar Filing: ABERDEEN JAPAN EQUITY FUND, INC. - Form N-CSRS

Dear Stockholder,

We present this Semi-Annual Report, which covers the activities of Aberdeen Japan Equity Fund, Inc. (the Fund), for the six-month period ended April 30, 2017. The Fund's investment objective is to outperform over the long term, on a total return basis (including appreciation and dividends), the Tokyo Stock Price Index (TOPIX).

NAV Total Return Performance

For the six-month period ended April 30, 2017, the total return to stockholders of the Fund based on the net asset value (NAV) of the Fund was -0.0% and 11.2% for the one year period ended April 30, 2017, assuming reinvestment of dividends and distributions, versus a return of 4.8% for the Fund's benchmark, TOPIX, on a U.S. dollar basis.¹

Share Price Total Return Performance & Discount

For the six-month period ended April 30, 2017, based on market price, the Fund's total return was 4.3% assuming reinvestment of dividends and distributions. The Fund's share price increased 0.1% over the six-month period ended, from \$8.18 on October 31, 2016 to \$8.19 on April 30, 2017. The Fund's share price on April 30, 2017 represented a discount of 10.3% to the NAV per share of \$9.13 on that date, compared with a discount of 14.0% to the NAV per share of \$9.51 on October 31, 2016.

Discount Management Program

Under the Fund's Discount Management Program, the Fund's Board of Directors has authorized management to make open market purchases, from time to time, in a maximum aggregate amount during each twelve month period ended October 31 of up to 10% of the Fund's shares of stock outstanding as of October 31 of the prior year. Such purchases may be made opportunistically at certain discounts to net asset value per share when, in the reasonable judgment of management based on historical discount levels and current market conditions, such repurchases may enhance stockholder value. During the six-month period ended April 30, 2017, the Fund repurchased 126,925 shares.

Merger of Aberdeen Asset Management PLC with Standard Life plc

The Fund's investment manager and administrator are each a subsidiary of Aberdeen Asset Management PLC (Aberdeen PLC). On March 6, 2017, the Boards of Standard Life plc and Aberdeen PLC announced that they had reached an agreement on the terms of a merger (Merger). The Boards of each of Standard Life plc and Aberdeen PLC believe that the Merger has a compelling strategic and financial rationale through combining complementary strengths to

create a world-class investment group. The Merger is expected to occur in the third quarter of 2017, subject to various conditions and terms, including regulatory approvals. The portfolio management team for the Fund is not expected to change as a result of the Merger. In addition, the agreements that the Fund has with Aberdeen PLC's subsidiary companies, the services provided by such companies, and the fees charged for those services are not expected to change as a result of the Merger.

Portfolio Holdings Disclosure

The Fund's complete schedule of portfolio holdings for the second and fourth quarter of each fiscal year are included in the Fund's Semi-Annual and Annual reports to stockholders. The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q filings are available on the SEC's website at <http://www.sec.gov> and may be reviewed and copied at the SEC's Public Reference

Edgar Filing: ABERDEEN JAPAN EQUITY FUND, INC. - Form N-CSRS

Room in Washington, D.C. Information about the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The information on Form N-Q is also available to stockholders on the Fund's website or upon request and without charge by calling Investor Relations toll-free at 1-800-522-5465.

Proxy Voting

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities, and information regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve months ended June 30 is available by August 31 of the relevant year: (i) upon request and without charge by calling Investor Relations toll-free at 1-800-522-5465; and (ii) on the SEC's website at <http://www.sec.gov>.

Unclaimed Share Accounts

Please be advised that abandoned or unclaimed property laws for certain states require financial organizations to transfer (escheat) unclaimed property (including Fund shares) to the state. Each state has its own definition of unclaimed property, and Fund shares could be considered unclaimed property due to account inactivity (e.g., no owner-generated activity for a certain period), returned mail (e.g., when mail sent to a shareholder is returned to the Fund's transfer agent as undeliverable), or a combination of both. If your Fund shares are categorized as unclaimed, your financial advisor or the Fund's transfer agent will follow the applicable state's statutory requirements to contact you, but if unsuccessful, laws may require that the shares be escheated to the appropriate state. If this happens, you will have

1 The Tokyo Stock Price Index (TOPIX) is a free-float adjusted market capitalization-weighted index that is calculated based on all the domestic common stocks listed on the Tokyo Stock Exchange First Section. The TOPIX Index shows the measure of current market capitalization assuming that market capitalization as of the base date (January 4,1968) is 100 points. Indexes are unmanaged and have been provided for comparison purposes only. No fees or expenses are reflected. You cannot invest directly in an index.

Stockholder Letter (unaudited) (concluded)

Edgar Filing: ABERDEEN JAPAN EQUITY FUND, INC. - Form N-CSRS

to contact the state to recover your property, which may involve time and expense. For more information on unclaimed property and how to maintain an active account, please contact your financial adviser or the Fund's transfer agent.

Report of the Investment Manager (unaudited)

Market/economic review

Japanese equities rose over the six-month period ended April 30, 2017. During that time, the stock market remained subject to both foreign news flow and the Japanese yen's decline, given the significant export sector and the economy's reliance on trade. Among the key events that played a role in determining market direction included the unexpected election win by U.S. President Donald Trump and the attendant hopes that he would deliver on his promises; anxiety over likely monetary policy tightening by the U.S. Federal Reserve; and UK Prime Minister Theresa May's decision to start Brexit negotiations in March 2017. Investor sentiment was also affected by geopolitical tensions in the Korean Peninsula and the largely positive outcomes from the general elections in the Netherlands and France.

The Bank of Japan (BoJ) left its benchmark interest rate unchanged at -0.1% during the reporting period, and maintained its 80 trillion yen (approximately US\$716 billion) asset-purchase program. Corporate earnings dominated news flow and the Japanese economy managed to string together five consecutive quarters of expansion (through the first quarter of 2017) for the first time in over three years. Consumer prices rose for a second consecutive month in March 2017, led by higher oil prices, but wage growth remained sluggish despite unemployment slipping to its lowest level since 1994.

On the political front, Prime Minister Shinzo Abe's popularity dipped following allegations of impropriety surrounding a questionable land deal, although recent polls have suggested that he maintains solid support.

Fund performance review

Both overall stock selection and sector allocation weighed on Fund performance over the reporting period. Specifically, the Fund's holdings in the financials (such as Daito Trust Construction Co. and Suruga Bank), consumer goods (including athletic apparel and equipment maker Asics Corp. and consumer products maker Unicharm Corp.) and telecommunication services sectors (such as telecom KDDI Corp.) were the key detractors from the Fund performance for the period.

At the stock level, the primary detractors from Fund performance for the reporting period included the holding in Japan Tobacco, as its stock price declined amid investors' concerns that its market share was being eroded by competitors' new offerings in the rapidly expanding electronic cigarettes segment. Nevertheless, the company retains a significant share of overall cigarette sales in Japan. Additionally, the company is planning to start selling its version of electronic cigarettes across Japan soon. The Fund's holding in Suruga Bank weighed on performance as its shares fell amid the dimming outlook for an interest-rate hike by the BoJ. The position in KDDI Corp. detracted from Fund performance for the reporting period amid a global sell-off in the telecommunications sector. However, we believe that there

have been no fundamental changes in KDDI's business, such as the competitive environment with other domestic mobile operators.

Conversely, Fund performance benefited from the holding in specialty chemicals maker Shin-Etsu Chemical Co., as its shares rallied on speculation that demand for its polyvinyl chloride products would improve on potentially higher infrastructure spending in the U.S. Furthermore, tighter market conditions raised the prospect of stronger pricing for its semiconductor wafer products. The position in Nippon Paint also contributed to Fund performance, as the company benefited from lower raw material costs and saw a recovery in demand in China, its key market. Finally, the lack of a position in diversified electronics manufacturer Toshiba Corp., a constituent of the Fund's benchmark, the Tokyo Stock Price Index (TOPIX), contributed to Fund performance for the period as its shares fell after its financially troubled nuclear subsidiary filed for bankruptcy amid massive losses from cost overruns.

Regarding portfolio activity over the reporting period, we exited the Fund's positions in both Unicharm Corp. and office devices manufacturer Canon due to our concerns over their deteriorating business prospects. Conversely, we initiated a position in Shionogi, a drug-maker specializing in treatments for infectious diseases such as HIV. We believe that the management is well-focused, and the company is positioned with diversified pipelines for both existing and new drugs, with no expiring patents in the near term.

Outlook

Looking ahead, we think that investors will be compelled to contemplate the likely impact of a raft of potential issues on trade and the global economy, from the Trump administration's America first stance, to the start of Brexit talks. In our view, Japan seems especially vulnerable to rising U.S. protectionism that may hobble exporters, a sector that comprises a substantial portion of the nation's economy. Meanwhile, Abenomics* appears to have stalled. In our view, reforms needed to keep growth sustainable have lost momentum and the labor market, in particular, continues to suffer from structural rigidity. Even though the economy is at full employment, wage growth has been lethargic.

Nonetheless, we remain confident in the Fund's carefully assembled portfolio of holdings consisting of market leaders that have invested in research and development in a bid to stay ahead of the pack. We believe that the Fund's holdings have well-diversified businesses and are positioned to ride the wave of long-term trends, led by adroit management and considerable financial strength. With investors refocusing on the fundamentals, our approach of seeking what we feel are the strongest companies should benefit the Fund's performance over the long term.

Aberdeen Asset Management Asia Limited

* Abenomics, which refers to the economic program of Japanese Prime Minister Shinzo Abe, is based upon three arrows of monetary easing, fiscal stimulus and structural reforms.

Aberdeen Japan Equity Fund, Inc. 3

Total Investment Return (unaudited)

The following table summarizes the six-month and average annual Fund performance compared to the TOPIX, the Fund's benchmark, for the 6-month, 1-year, 3-year, 5-year and 10-year periods as of April 30, 2017.

	6 Months	1 Year	3 Years	5 Years	10 Years
Net Asset Value (NAV)	-0.0%	11.2%	11.4%	11.1%	2.1%
Market Value	4.3%	14.6%	11.9%	11.1%	1.1%
TOPIX Index	4.8%	12.0%	8.7%	8.6%	1.7%

Returns represent past performance. Total investment return at NAV is based on changes in the NAV of Fund shares and assumes reinvestment of dividends and distributions, if any, at market prices pursuant to the dividend reinvestment program sponsored by the Fund's transfer agent. All return data includes fees charged to the Fund, which are listed in the Fund's Statement of Operations under Expenses. The Fund's total return is based on the reported NAV on each financial reporting period end. Total investment return at market value is based on changes in the market price at which the Fund's shares traded on the NYSE during the period and assumes reinvestment of dividends and distributions, if any, at market prices pursuant to the dividend reinvestment program. Because the Fund's shares trade in the stock market based on investor demand, the Fund may trade at a price higher or lower than its NAV. Therefore, returns are calculated based on both market price and NAV. **Past performance is no guarantee of future results.** The performance information provided does not reflect the deduction of taxes that a stockholder would pay on distributions received from the Fund. The current performance of the Fund may be lower or higher than the figures shown. The Fund's yield, return, market price and NAV will fluctuate. Performance information current to the most recent month-end is available at www.aberdeenjq.com or by calling 800-522-5465.

The annualized net operating expense ratio based on the six-month period ended April 30, 2017 was 0.89%.

Portfolio Composition (unaudited)

The following table summarizes the composition of the Fund's portfolio, in Standard & Poor's Global Industry Classification Standard (GICS) sectors, expressed as a percentage of net assets. The GICS structure consists of 11 sectors, 24 industry groups, 68 industries and 157 sub-industries. As of April 30, 2017, the Fund did not have more than 25% of its assets invested in any industry. The sectors, as classified by GICS Sectors, are comprised of several industries. As of April 30, 2017, the Fund held 98.6% of its net assets in equities, 0.2% in a short-term investment and 1.2% in other assets in excess of liabilities.

Top Sectors	As a Percentage of Net Assets
Industrials	21.1%
Consumer Staples	18.7%
Consumer Discretionary	12.8%
Materials	9.9%

Portfolio turnover	8%	8%	10%	98%	100%	110%

(a) Based on average shares outstanding.

(b) Total investment return based on market value is calculated assuming that shares of the Fund's common stock were purchased at the closing market price as of the beginning of the period, dividends, capital gains, and other distributions were reinvested as provided for in the Fund's dividend reinvestment plan and then sold at the closing market price per share on the last day of the period. The computation does not reflect any sales commission investors may incur in purchasing or selling shares of the Fund. The total investment return based on the net asset value is similarly computed except that the Fund's net asset value is substituted for the closing market value.

(c) Annualized.

See Notes to Financial Statements.

Aberdeen Japan Equity Fund, Inc. 11

Notes to Financial Statements (unaudited)

April 30, 2017

1. Organization

Aberdeen Japan Equity Fund, Inc. (the Fund) was incorporated in Maryland on July 12, 1990 under its original name The Japan Emerging Equity Fund, Inc. and commenced operations on July 24, 1992. It is registered with the Securities and Exchange Commission as a closed-end, diversified management investment company. The Fund's investment objective is to outperform over the long term, on a total return basis (including appreciation and dividends), the Tokyo Stock Price Index (TOPIX).

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The policies conform to generally accepted accounting principles in the United States of America (GAAP). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The books and records of the Fund are maintained in U.S. Dollars.

a. Security Valuation:

The Fund values its securities at current market value or fair value, consistent with regulatory requirements. Fair value is defined in the Fund's Valuation and Liquidity Procedures as the price that could be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants without a compulsion to transact at the measurement date.

Equity securities that are traded on an exchange are valued at the last quoted sale price on the principal exchange on which the security is traded at the Valuation Time subject to application, when appropriate, of the valuation factors described in the paragraph below. Under normal circumstances, the Valuation Time is as of the close of regular trading on the New York Stock Exchange (usually 4:00 p.m. Eastern Time). In the absence of a sale price, the security is valued at the mean of the bid/ask price quoted at the close on the principal exchange on which the security is traded. Securities traded on NASDAQ are valued at the NASDAQ official closing price. Closed-end funds and exchange-traded funds (ETFs) are valued at the market price of the security at the Valuation Time. A security using any of these pricing methodologies is determined to be a Level 1 investment.

Foreign equity securities that are traded on foreign exchanges that close prior to Valuation Time are valued by applying valuation factors to the last sale price or the mean price as noted above. Valuation factors

are provided by an independent pricing service provider. These valuation factors are used when pricing the Fund's portfolio holdings to estimate market movements between the time foreign markets close and the time the Fund values such foreign securities. These valuation factors are based on inputs such as depositary receipts, indices, futures, sector indices/ETFs, exchange rates, and local exchange opening and closing prices of each security. When prices with the application of valuation factors are utilized, the value assigned to the foreign securities may not be the same as quoted or published prices of the securities on their primary markets. A security that applies a valuation factor is determined to be a Level 2 investment because the exchange-traded price has been adjusted. Valuation factors are not utilized if the independent pricing service provider is unable to provide a valuation factor or if the valuation factor falls below a predetermined threshold; in such case, the security is determined to be a Level 1 investment.

Short-term investments are comprised of cash and cash equivalents invested in short-term investment funds which are redeemable daily. The Fund sweeps available cash into the State Street Institutional U.S. Government Money Market Fund, which has elected to qualify as a government money market fund pursuant to Rule 2a-7 under the Investment Company Act of 1940, as amended, and has an objective, which is not guaranteed, to maintain a \$1.00 per share net asset value (NAV). Generally, these investment types are categorized as Level 1 investments.

In the event that a security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which it trades closes before the Valuation Time), the security is valued at fair value as determined by the Fund's Pricing Committee, taking into account the relevant factors and surrounding circumstances using valuation policies and procedures approved by the Fund's Board of Directors. A security that has been fair valued by the Fund's Pricing Committee may be classified as Level 2 or Level 3 depending on the nature of the inputs.

In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Fund discloses the fair value of its investments using a three-level hierarchy that classifies the inputs to valuation techniques used to measure the fair value. The hierarchy assigns Level 1 measurements to valuations based upon unadjusted quoted prices in active markets for identical assets, Level 2 measurements to valuations based upon other significant observable inputs, including adjusted quoted prices in active markets for similar assets, and Level 3 measurements to valuations based upon unobservable inputs that are significant to the valuation. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability, which are based on market

12 Aberdeen Japan Equity Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

April 30, 2017

Edgar Filing: ABERDEEN JAPAN EQUITY FUND, INC. - Form N-CSRS

data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. The three-level hierarchy of inputs is summarized below:

Level 1 quoted prices in active markets for identical investments;

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, and credit risk); or

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The following is a summary of the inputs used as of April 30, 2017 in valuing the Fund's investments and other financial instruments at fair value. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Please refer to the Portfolio of Investments for a detailed breakout of the security types:

Investments, at Value	Level 1	Level 2	Level 3	Total
Long-Term Investments	\$	\$120,452,026	\$	\$120,452,026
Short-Term Investment	286,057			286,057
Total	\$286,057	\$120,452,026	\$	\$120,738,083

Amounts listed as - are \$0 or round to \$0.

For movements between the Levels within the fair value hierarchy, the Fund has adopted a policy of recognizing transfers at the end of each period. The utilization of valuation factors may result in transfers between Level 1 and Level 2. For the six-month period ended April 30, 2017, there were no transfers between Level 1 and Level 2.

For the six-month period ended April 30, 2017, there were no significant changes to the fair valuation methodologies.

b. Foreign Currency Translation:

Foreign securities, currencies, and other assets and liabilities denominated in foreign currencies are translated into U.S. Dollars at the exchange rate of said currencies against the U.S. Dollar, as of the Valuation Time, as provided by an independent pricing service approved by the Board.

Foreign currency amounts are translated into U.S. Dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities at the current daily rates of exchange; and
- (ii) purchases and sales of investment securities, income and expenses at the rate of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of gains and losses on investments in equity securities which is due to changes in the foreign exchange rates from that which is due to changes in market prices of

equity securities. Accordingly, realized and unrealized foreign currency gains and losses with respect to such securities are included in the reported net realized and unrealized gains and losses on investment transactions balances.

The Fund reports certain foreign currency related transactions and foreign taxes withheld on security transactions as components of realized gains for financial reporting purposes, whereas such foreign currency related transactions are treated as ordinary income for U.S. federal income tax purposes.

Net unrealized currency gains or losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of net unrealized appreciation/depreciation in value of investments, and translation of other assets and liabilities denominated in foreign currencies.

Net realized foreign exchange gains or losses represent foreign exchange gains and losses from transactions in foreign currencies and forward foreign currency contracts, exchange gains or losses realized between the trade date and settlement date on security transactions, and the difference between the amounts of interest and dividends recorded on the Fund's books and the U.S. Dollar equivalent of the amounts actually received.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign

Notes to Financial Statements (unaudited) (continued)

April 30, 2017

currency relative to the U.S. Dollar. Generally, when the U.S. Dollar rises in value against foreign currency, the Fund's investments denominated in that foreign currency will lose value because the foreign currency is worth fewer U.S. Dollars; the opposite effect occurs if the U.S. Dollar falls in relative value.

c. Security Transactions, Investment Income and Expenses:

Security transactions are recorded on the trade date. Realized and unrealized gains/(losses) from security and foreign currency transactions are calculated on the identified cost basis. Dividend income and corporate actions are recorded generally on the ex-date, except for certain dividends and corporate actions which may be recorded after the ex-date, as soon as the Fund acquires information regarding such dividends or corporate actions.

Interest income and expenses are recorded on an accrual basis.

d. Distributions:

The Fund records dividends and distributions payable to its stockholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These book basis/tax basis (book/tax) differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed net investment income and net realized capital gains for tax purposes are reported as return of capital.

e. Federal Income Taxes:

The Fund intends to continue to qualify as a regulated investment company by complying with the provisions available to certain investment companies, as defined in Subchapter M of the Internal Revenue Code of 1986, as amended, and to make distributions of net investment income and net realized capital gains sufficient to relieve the Fund from all, or substantially all, federal income taxes. Therefore, no federal income tax provision is required.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more likely than not to be sustained assuming examination by tax authorities. Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Since tax authorities can examine previously filed tax returns, the Fund's U.S. federal and state tax returns for each of the four fiscal years up to the most recent fiscal year ended October 31 are subject to such review.

The Fund is not subject to any Japanese income, capital gains or other taxes except for withholding taxes on certain income, generally imposed at a rate of 10.0% on interest and dividends paid to the Fund by Japanese corporations.

f. Rights Issues and Warrants:

Rights issues give the right, normally to existing shareholders, to buy a proportional number of additional securities at a given price (generally at a discount) within a fixed period (generally a short-term period) and are offered at the company's discretion. Warrants are securities that give the holder the right to buy common stock at a specified price for a specified period of time. Rights issues and warrants are speculative and have no value if they are not exercised before the expiration date. Rights issues and warrants are valued at the last sale price on the exchange on which they are traded.

g. Foreign Withholding Tax:

Dividend and interest income from non-U.S. sources received by the Fund are generally subject to non-U.S. withholding taxes. In addition, the Fund may be subject to capital gains tax in certain countries in which it invests. The above taxes may be reduced or eliminated under the terms of applicable U.S. income tax treaties with some of these countries. The Fund accrues such taxes when the related income is earned.

h. Repurchase Agreements:

The Fund may enter into a repurchase agreement under the terms of a Master Repurchase Agreement. It is the Fund's policy that its custodian/counterparty segregates the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. The repurchase price generally equals the price paid by the Fund plus interest negotiated on the basis of current short-term rates. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the counterparty of a repurchase agreement defaults and the value of the collateral declines, or if bankruptcy proceedings are commenced with respect to the counterparty of the security, realization of the collateral by the Fund may be delayed or limited. Repurchase agreements are subject to contractual netting arrangements with the counterparty, Fixed Income Clearing Corp. To the extent a Fund enters into repurchase agreements, additional information on individual repurchase agreements is included in the Portfolio of Investments.

14 Aberdeen Japan Equity Fund, Inc.

Notes to Financial Statements (unaudited) (continued)

April 30, 2017

3. Agreements and Transactions with Affiliates

a. Investment Manager:

Aberdeen Asset Management Asia Limited (AAMAL) serves as the Fund's investment manager with respect to all investments. Pursuant to the Management Agreement, the Manager makes investment management decisions relating to the Fund's assets. For such investment services, the Fund pays the Manager at an annual rate of 0.60% of the first \$20 million, 0.40% of the next \$30 million, and 0.20% of the excess over \$50 million of the Fund's average weekly Managed Assets. For purposes of this calculation, Managed Assets of the Fund means total assets of the Fund, including assets attributable to investment leverage, minus all liabilities, but not excluding any liabilities or obligations attributable to leverage obtained by the Fund for investment purposes through (i) the issuance or incurrence of indebtedness of any type (including, without limitation, borrowing through a credit facility or the issuance of debt securities), (ii) the issuance of preferred stock or other similar preference securities, and/or (iii) any other means, but not including any collateral received for securities loaned by the Fund. During the six-month period ended April 30, 2017, the Fund paid AAMAL \$188,363. In addition, the Fund has agreed to reimburse the Manager for all out-of-pocket expenses related to the Fund. For the six-month period ended April 30, 2017, no such expenses were paid to the Manager.

b. Fund Administration:

Aberdeen Asset Management Inc. (AAMI), an affiliate of AAMAL, serves as the Fund's administrator, pursuant to an amended fee schedule under which AAMI receives a fee, payable quarterly by the Fund, at an annual rate of 0.08% of the value of the Fund's average weekly net assets. During the six-month period ended April 30, 2017, AAMI earned \$47,575 from the Fund for administration fees.

c. Investor Relations:

Under the terms of the Investor Relations Services Agreement, AAMI provides and pays third parties to provide investor relations services to the Fund and certain other funds advised by AAMAL or its affiliates as part of an Investor Relations Program. Under the Investor Relations Services Agreement, the Fund owes a portion of the fees related to the Investor Relations Program (the Fund's Portion). However, investor relations services fees are limited by AAMI so that the Fund will only pay up to an annual rate of 0.05% of the Fund's average weekly net assets. Any difference between the capped rate of 0.05% of the Fund's average weekly net assets and the Fund's Portion is paid for by AAMI.

Pursuant to the terms of the Investor Relations Services Agreement, AAMI (or third parties hired by AAMI), among other things, provides

objective and timely information to shareholders based on publicly-available information; provides information efficiently through the use of technology while offering shareholders immediate access to knowledgeable investor relations representatives; develops and maintains effective communications with investment professionals from a wide variety of firms; creates and maintains investor relations communication materials such as fund manager interviews, films and webcasts, published white papers, magazine articles and other relevant materials discussing the Fund's investment results, portfolio positioning and outlook; develops and maintains effective communications with large institutional shareholders; responds to specific shareholder questions; and reports activities and results to the Board and management detailing insight into general shareholder sentiment.

During the six-month period ended April 30, 2017, the Fund incurred investor relations fees of approximately \$28,315. For the six-month period ended April 30, 2017, AAMI did not waive any investor relations fees because the Fund did not reach the capped amount.

4. Investment Transactions

Purchases and sales of investment securities (excluding short-term securities) for the six-month period ended April 30, 2017 were \$9,099,876 and \$13,994,878, respectively.

5. Capital

The authorized capital of the Fund is 30 million shares of \$0.01 par value common stock. During the six-month period ended April 30, 2017, the Fund repurchased 126,925 shares pursuant to its Discount Management Program and reinvested 55,595 shares pursuant to its Dividend Reinvestment and Cash Purchase Plan. As of April 30, 2017, there were 13,377,692 shares of common stock issued and outstanding.

6. Discount Management Program

The Fund's Discount Management Program authorizes management to make open market purchases, from time to time, in a maximum aggregate amount during each twelve month period ended October 31 of up to 10% of the Fund's shares of stock outstanding as of October 31 of the prior year. Such purchases may be made opportunistically at certain discounts to net asset value per share when, in the reasonable judgment of management based on historical discount levels and current market conditions, such repurchases may enhance stockholder value. During the six-month period ended April 30, 2017, the Fund repurchased 126,925 shares.

The Board of Directors authorized the Discount Management Program in order to potentially enhance share liquidity and increase Stockholder value through the potential accretive impact of the purchases to the

Notes to Financial Statements (unaudited) (continued)

April 30, 2017

Fund's NAV. There is no assurance that the Fund will purchase shares in any specific amounts.

7. Portfolio Investment Risks

a. Risks Associated with Foreign Securities and Currencies:

Investments in securities of foreign issuers carry certain risks not ordinarily associated with investments in securities of U.S. issuers. These risks include future political and economic developments, and the possible imposition of exchange controls or other foreign governmental laws and restrictions. In addition, with respect to certain countries, there is the possibility of expropriation of assets, confiscatory taxation, and political or social instability or diplomatic developments, which could adversely affect investments in those countries.

Certain countries also may impose substantial restrictions on investments in their capital markets by foreign entities, including restrictions on investments in issuers of industries deemed sensitive to relevant national interests. These factors may limit the investment opportunities available and result in a lack of liquidity and high price volatility with respect to securities of issuers from developing countries. Foreign securities may also be harder to price than U.S. securities.

The value of foreign currencies relative to the U.S. Dollar fluctuates in response to market, economic, political, regulatory, geopolitical or other conditions. A decline in the value of a foreign currency versus the U.S. Dollar reduces the value in the U.S. Dollars of investments denominated in that foreign currency. This risk may impact the Fund more greatly to the extent the Fund does not hedge its currency risk, or hedging techniques used by the Adviser are unsuccessful.

b. Focus Risk:

The Fund may have elements of risk not typically associated with investments in the United States due to focused investments in a limited number of countries or regions subject to foreign securities or currencies risks. Such focused investments may subject the Fund to additional risks resulting from political or economic conditions in such countries or regions and the possible imposition of adverse governmental laws or currency exchange restrictions could cause the securities and their markets to be less liquid and their prices to be more volatile than those of comparable U.S. securities.

c. Sector Risk:

To the extent that the Fund has a significant portion of its assets invested in securities of companies conducting business in a broadly related group of industries within an economic sector, the Fund may be more vulnerable to unfavorable developments in that economic sector than funds that invest more broadly.

Consumer Staples Sector Risk. To the extent the consumer staples sector represents a significant portion of the Fund, the Fund will be sensitive to changes in, and its performance may depend to a greater extent on, factors impacting this sector. The consumer staples sector may be affected by the regulation of various product components and production methods, marketing campaigns and other factors affecting consumer demand. Tobacco companies, in particular, may be adversely affected by new laws, regulations and litigation. The consumer staples sector may also be adversely affected by changes or trends in commodity prices, which may be influenced by unpredictable factors.

Industrial Sector Risk. To the extent that the industrials sector represents a significant portion of the Fund, the Fund will be sensitive to changes in, and its performance may depend to a greater extent on, factors impacting this sector. Industrial companies are affected by supply and demand both for their specific products or services and for industrial sector products or services in general. Government regulation, world events, exchange rates and economic conditions, technological developments and liabilities for environmental damage and general civil liabilities will likewise affect the performance of these companies. Aerospace and defense companies, a component of the industrial sector, can be significantly affected by government spending policies because companies involved in this industry rely, to a significant extent, on U.S. and foreign government demand for their products and services. Thus, the financial condition of, and investor interest in, aerospace and defense companies are heavily influenced by governmental defense spending policies which are typically under pressure from efforts to control the U.S. (and other) government budgets. Transportation securities, a component of the industrial sector, are cyclical and have occasional sharp price movements which may result from changes in the economy, fuel prices, labor agreements and insurance costs.

d. Valuation Risk:

The price that the Fund could receive upon the sale of any particular portfolio investment may differ from the Fund's valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair valuation methodology or a price provided by an independent pricing service. As a result, the price received upon the sale of an investment may be less than the value ascribed by the Fund, and the Fund could realize a greater than expected loss or lower than expected gain upon the sale of the investment. The Fund's ability to value its investments may also be impacted by technological issues and/or errors by pricing services or other third-party service providers.

8. Contingencies

In the normal course of business, the Fund may provide general indemnifications pursuant to certain contracts and organizational

16 Aberdeen Japan Equity Fund, Inc.

Notes to Financial Statements (unaudited) (concluded)

April 30, 2017

documents. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund, and therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

9. Tax Information

The U.S. federal income tax basis of the Fund's investments and the net unrealized appreciation as of April 30, 2017 were as follows:

			Net
			Unrealized
Tax Basis of Investments	Appreciation	Depreciation	Appreciation
\$101,531,654	\$23,128,784	\$(3,922,355)	\$19,206,429

10. By-Laws Amendment

The Board of Directors voted to amend Article 1 Section 6 of the Fund's Amended and Restated By-laws (the By-laws) effective March 31, 2017. Article 1 Section 6, as amended, provides the chairman of a meeting of stockholders the authority to adjourn a meeting for which there is not a quorum, which is an authority previously held only by the stockholders entitled to vote at the meeting who are present in person or represented by proxy. Section 6, as amended, now reads as follows:

Section 6. Quorum, Adjournment of Meetings. The presence in person or by proxy of the holders of record of a majority of the shares of the common stock of the Corporation issued and outstanding and entitled to vote thereat shall constitute a quorum at all meetings of the stockholders except as otherwise provided in the Articles of Incorporation. If, however, such quorum shall not be present or represented at any meeting of the stockholders, (a) the chairman of the meeting or (b) the holders of a majority of the stock present in person or by proxy shall have power to adjourn the meeting from time to time, without notice other than announcement at the meeting until the requisite amount of stock entitled to vote at such meeting shall be present. At such adjourned meeting at which the requisite amount of stock entitled to vote thereat shall be represented any business may be transacted which might have been transacted at the meeting as originally notified.

11. Recent Accounting Pronouncement

In December 2016, the Financial Accounting Standards Board issued Accounting Standards Update No. 2016-19 (ASU 2016-19), Technical Corrections and Improvements. The guidance includes an amendment to Topic 820, Fair Value Measurement, which clarifies the difference between a valuation approach and a valuation technique when applying the guidance in that Topic. The amendment also requires an entity to disclose when there has been a change in either or both a valuation

approach and/or a valuation technique. The transition guidance for the amendment must be applied prospectively because it could potentially involve the use of hindsight that includes fair value measurements. The guidance is effective for interim periods beginning after December 15, 2016. Management is currently evaluating the implication, if any, of the additional disclosure requirements and its impact on the Fund's financial statements.

12. Subsequent Events

Edgar Filing: ABERDEEN JAPAN EQUITY FUND, INC. - Form N-CSRS

Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued. Based on this evaluation, no disclosures or adjustments were required to the financial statements as of April 30, 2017.

Dividend Reinvestment and Cash Purchase Plan (unaudited)

A Dividend Reinvestment and Cash Purchase Plan (the Plan) is available to provide Stockholders with automatic reinvestment of dividends and capital gain distributions in additional Fund shares. The Plan also allows you to make optional semi-annual cash investments in Fund shares through the Plan Agent. A brochure fully describing the Plan s terms and conditions is available by calling the Plan Agent at (866) 669-9903 or by writing Aberdeen Japan Equity Fund, Inc., c/o the American Stock Transfer & Trust Company, Operations Center, 6201 15th Avenue, Brooklyn, NY 11219.

A brief summary of the material aspects of the Plan follows:

Who can participate in the Plan? If you wish to participate and your shares are held in your name, you may elect to become a direct participant in the Plan by completing and mailing the Enrollment Authorization form on the back cover of the Dividend Reinvestment and Cash Purchase Plan Brochure to the Plan Agent. However, if your shares are held in the name of a financial institution, you should instruct your financial institution to participate in the Plan on your behalf. If your financial institution is unable to participate in the Plan for you, you should request that your shares be registered in your name, so that you may elect to participate directly in the Plan.

May I withdraw from the Plan? If your shares are held in your name and you wish to receive all dividends and capital gain distributions in cash rather than in shares, you may withdraw from the Plan without penalty at any time by contacting the Plan Agent. If your shares are held in the name of a financial institution, you should be able to withdraw from the Plan without a penalty at any time by sending written notice to your financial institution. If you withdraw, you or your financial institution will receive a share certificate for all full shares or, if you wish, the Plan Agent will sell your shares and send you the proceeds, after the deduction of brokerage commissions. The Plan Agent will convert any fractional shares to cash at the then-current market price and send you a check for the proceeds.

How are the dividends and distributions reinvested? If the market price of the Fund s shares on the payment date should equal or exceed their net asset value per share, the Fund will issue new shares to you at the higher of net asset value or 95% of the then-current market price. If the market price is lower than the net asset value per share, the Fund will issue new shares to you at the market price. If the dividends or distributions are declared and payable as cash only, you will receive shares purchased for you by the Plan Agent on the NYSE or otherwise on the open market to the extent available.

What is the Cash Purchase feature? The Plan participants have the option of making semi-annual investments in Fund shares through the Plan Agent. You may invest any amount from \$100 to \$5,000 semiannually. The Plan Agent will purchase shares for you on the NYSE or otherwise on the open market on or about February 15th and August 15th of each year. Plan participants should send voluntary cash payments to be received by the Plan Agent approximately ten days before the applicable purchase date. The Plan Agent will return any cash payments received more than thirty days prior to the purchase date. You may withdraw a voluntary cash payment by written notice, if the notice is received by the Plan Agent not less than two business days before the investment date.

Is there a cost to participate? There are no Plan charges or brokerage charges for shares issued directly by the Fund. However, each participant will pay a service fee of \$2.50 for each investment and a pro rata portion of brokerage commissions for shares purchased on the NYSE or on the open market by the Plan Agent.

What are the tax implications? The automatic reinvestment of dividends and distributions does not relieve you of any income tax which may be payable (or required to be withheld) on such dividends and distributions. In addition, the Plan Agent will reinvest dividends for foreign participants and for any participant subject to federal backup withholding after the deduction of the amounts required to be withheld.

Edgar Filing: ABERDEEN JAPAN EQUITY FUND, INC. - Form N-CSRS

Please note that, if you participate in the Plan through a brokerage account, you may not be able to continue as a participant if you transfer those shares to another broker. Contact your broker or financial institution or the Plan Agent to ascertain what is the best arrangement for you to participate in the Plan.

April 1, 2017				
through				
April 30, 2017	0	None	0	1,217,977
Total	126,925	\$ 7.78	126,925	

(1) On December 12, 2014, the Board of Directors approved revisions to the Fund's Discount Management Program, which continued the Fund's open market repurchase program that went into effect May 2012, to authorize management to make open market purchases, from time to time, in a maximum aggregate amount during each twelve month period ended October 31 of up to 10% of the Fund's shares of stock outstanding as of October 31 of the prior year. Such purchases may be made opportunistically at certain discounts to net asset value per share when, in the reasonable judgment of management based on historical discount levels and current market conditions, such repurchases may enhance stockholder value.

Item 10. Submission of Matters to a Vote of Security Holders.

During the period ended April 30, 2017, there were no material changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Directors.

Item 11. Controls and Procedures.

(a) The Registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the Act (17 CFR 270.30a3(b)) and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d15(b)).

(b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) Not applicable.

(a)(2) Certifications pursuant to Rule 30a-2(a) under the Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.

(a)(3) Not applicable.

(b) Certifications pursuant to Rule 30a-2(b) under the Act and section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.
