NEWS RELEASE

Enbridge Increases Dividend by 12%; Announces 2009 Earnings Guidance

CALGARY, ALBERTA December 3, 2008 Enbridge Inc. (TSX: ENB, NYSE: ENB) today announced that its Board of Directors has declared a quarterly dividend of \$0.37 per common share payable on March 1, 2009 to shareholders of record on February 16, 2009. The dividend reflects a 12% increase from the Company's prior quarterly rate of \$0.33 per share. Enbridge also announced its 2009 guidance for adjusted operating earnings of \$2.18 to \$2.32 per share.

Enbridge expects to deliver very favourable financial performance next year with earnings higher than previously anticipated, said Patrick D. Daniel, President and Chief Executive Officer. This growth in earnings will enable us to provide a generous increase in the dividend paid to our shareholders, while reducing our payout to the middle of our 60% to 70% target range.

All in all, our near term and long term outlook confirms that Enbridge's value proposition – safety, income and growth delivers value to our investors even in a difficult economic environment.

Enbridge's positive outlook reflects continuing strong performance from the Company's core business operations which are largely unaffected by the current financial market turmoil and are not directly tied to oil and gas prices. Enbridge also anticipates benefiting from the higher U.S. dollar, its increased ownership interest in Enbridge Energy Partners, L.P. and corresponding participation in the Partnership's growth, and a reduced near term equity requirement.

Mr. Daniel said that Enbridge's longer term prospects are also favourable and that the Company will be examining a variety of potentially attractive infrastructure investment opportunities.

As a company with strong operating capabilities and financial capacity, we're well positioned to capitalize on opportunities available in the current environment. We remain confident of achieving a five year compound average annual growth rate in earnings per share of 10% through 2012, and a similar performance for the foreseeable future.

Mr. Daniel also noted that Enbridge's financial capacity and flexibility stands out as a distinguishing feature in the current financial market turmoil.

DBRS, Moody's and Standard & Poor's have all recently affirmed Enbridge's strong investment grade credit ratings. In November, Enbridge subsidiaries accessed capital markets with the issuance of two tranches of debt totaling \$500 million at competitive rates of 5.57% and 6.62%.

With more than \$3 billion of unutilized bank credit facilities, we have adequate liquidity to fund all of our committed growth projects, said Mr. Daniel. With the deferral of the Fort Hills Project we will have minimal need for equity in 2009 to fund our committed capital program. However, with a number of attractive additional investment opportunities potentially available, we will be looking to opportunistically bolstering our equity base through asset sales or monetizations, and equity issuance.
