NOTES TO INTERIM FINANCIAL STATEMENTS
February 28, 2007

(Unaudited)
(Expressed in U.S. Dollars)

1.

BASIS OF PRESENTATION

The unaudited interim financial statements as of February 28, 2007 and for the three and six months ended February 28, 2007 included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with United States generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These unaudited interim financial statements should be read in conjunction with the August 31, 2006 audited annual financial statements and notes thereto. Operating results for the three and six months ended February 28, 2007 are not necessarily indicative of the results that may be expected for the year ended August 31, 2007.

2.

ORGANIZATION AND BUSINESS

The Company is an independent mining company engaged in the exploration, development and acquisition of mineral properties in the United States and Canada.

The Company was incorporated in the State of Nevada on November 24, 2004.

3.

GOING CONCERN UNCERTAINTY

The accompanying unaudited interim financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business for the foreseeable future. The Company incurred a net loss of \$164,481 for the six months ended February 28, 2007 [net loss for the six months ended February 28, 2006 - \$70,735] and as at February 28, 2007 has incurred cumulative losses of \$532,255 that raises substantial doubt about its ability to continue as a going concern. Management has been able, thus far, to finance the operations through equity financing and cash on hand. There is no assurance that the Company will be able to continue to finance the Company on this basis.

In view of these conditions, the ability of the Company to continue as a going concern is in substantial doubt and dependant upon its ability to generate sufficient cash flow to meet its obligations on a timely basis, to obtain additional financing as may be required, to receive the continued support of the Company's shareholders, and

ultimately to obtain successful operations. These unaudited interim financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

4.

MINERAL PROPERTIES

On April 6, 2005, the Company entered into an Exploration Agreement with an Option to Joint Venture (the "Agreement") with Miranda U.S.A. Inc. ("Miranda") for the company to acquire an undivided 60% interest in a mineral lease containing the mineral claims Coal #1 to Coal #64 (BLM-NMC number 847957 to 848020) located in the Coal Canyon, Cortez Area, Eureka County, Nevada, United States of America. Miranda's interest in the property is held by way of a 20 year mining lease dated May 27, 2004 from Nevada North Resources (U.S.A.) Inc.

If the Company fails to expend these required amounts, or complete the required work, then it will forfeit its property option interest.

The expenditures required to acquire the 60% are as follows:

(a)

Exploration Expenditures

Expending \$1,000,000 in Exploration Expenditures on the property within a period of 4 years from the effective date April 6, 2005. Minimum expenditures for each year shall be as follows:

By December 31, 2005 (Completed)	\$ 50,000
By December 31, 2006	100,000
By December 31, 2007	300,000
By December 31, 2008	550,000
	\$ 1,000,000

The Company has the right to terminate the Agreement at any time without penalty, and without any obligation to make any future expenditures that would have been required under the Agreement, with the exception that if the Company terminates after June 1 in any year, the Company shall be responsible for the federal maintenance fees due in August of that year.

The agreement is subject to a Production Royalty to the underlying vendors, the amount of the Production Royalty being dependent on the price of gold as outlined below:

\$275 or less per ounce 2.5%

\$275.01 to \$375 per ounce 3.0%

\$375.01 to \$475 per ounce 4.0%

\$475.01 or greater 5.0%

At any time during the term of the agreement, the Production Royalty can be purchased down to a minimum of 2% at a rate of US\$250,000 for each 0.25% of the Production Royalty purchased.

On December 5, 2006, the Company entered into a Rotary Drilling Agreement (Agreement) with Lang Exploratory Drilling to engage the drilling of Coal Canyon property in Eureka County, Nevada. Pursuant to the Agreement, the Company was required to make \$75,000 deposit to be used against the cost of proposed drilling service. The drill program was completed during the period December 11 to December 18, 2006, inclusive.

Since April 6, 2005, the Company had commenced exploration work on the property and accumulated Exploration Expenditures in the amount of \$215,702 had been incurred as at February 28, 2007.

(b)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Forward-Looking Statements

Historical results and trends should not be taken as indicative of future operations. Management's statements contained in this report that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934 (the "Exchange Act"), as amended. Actual results may differ materially from those included in the forward-looking statements. The Company intends such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of complying with those safe-harbor provisions. Forward-looking statements, which are based on certain assumptions and describe future plans, strategies and expectations of the Company, are generally identifiable by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project," "prospects," or similar expressions. The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on the operations and future prospects of the Company on a consolidated basis include, but are not limited to: unanticipated problems relating to exploration, hazards such as pollution, or other hazards which cannot be insured against or predicted, changes in economic conditions, availability of capital, competition, and generally accepted accounting principles. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Further information concerning the Company and its business, including additional factors that could materially affect the Company's financial results, is included herein and in the Company's other filings with the SEC.

Management's Discussion and Analysis

We are an exploration company focused on developing North American mineral properties. Our current focus is on the exploration of our land portfolio comprised of an option to acquire a 60% interests in mineral lease claims, containing the mineral claims Coal #1 to Coal #64 (BLM-NMC number 847957 to 848020) located in the Coal Canyon, Cortez Area, Eureka County, Nevada United States of America in Nevada.

The following disclosure relates to each property that we have an interest in:

Coal Canyon, Cortez Area, Eureka County, Nevada

On April 6, 2005, we acquired an option to earn a 60% interest in mineral claims in Eureka County, Nevada, containing the mineral claims Coal #1 to Coal #64 (BLM-NMC number 847957 to 848020) located in the Coal Canyon, Cortez Area, Eureka County, Nevada, United States of America. Our interest option was acquired by us for costs as set out in note 4 of the unaudited interim financial statements. The mineral lease claims are owned by Miranda U.S.A. Inc. pursuant to a 20-year mineral lease dated May 27, 2004. At the present time there are no proven reserves.

On March 23, 2007, the Company terminated the above noted Option Agreement with Miranda U.S.A. Inc.

Results of Operations for the quarter ended February 28, 2007

For the quarter ended February 28, 2007, there were no revenues and there were no revenues for the same three-month period in the prior year.

For the quarter ended February 28, 2007 we incurred costs and expenses in the amount of \$151,975, compared to costs and expenses of \$22,919 for the corresponding period in the prior year.

This increase in costs and expenses is attributable to exploration and administrative expenses we incurred in connection with the following:

-

Exploration costs for the quarter ended February 28, 2007 amounted to \$121,943 when compared to \$0 for the same period in the prior year. The increase in costs was associated with final drilling costs of the Company's exploration property. The Company has concluded after this exploration phase to abandon the property and terminate its relationship with the Operator.

-

Rent payment in connection with the acquisition of office space. During the quarter ended February 28, 2007, the Company incurred \$5,629 (February 28, 2006: \$1,605); the increase was caused by the allocation of costs paid for accounting services and the use of premises used by the President of the Company.

-

The fees paid to for audit and accounting for the quarter ended February 28, 2007 were \$10,218 (February 28, 2006: \$4,148); the increase was caused by payments made for accounting services.

Liquidity and Capital Resources

As of February 28, 2007, we had total current assets of \$28,917 (August 31, 2006: \$165,918) while our total current liabilities as of February 28, 2007 were \$80,573 (August 31, 2006: \$53,093). As a result, on February 28, 2007 we had a working capital deficit of \$51,656 (August 31, 2006: a working capital of \$112,825). The decrease in working capital was caused by the Company's expenditure on exploration and administration costs.

The Company relied on cash on hand previously raised through the issue of equity capital to fund our operations during the quarter ended February 28, 2007.

The company generates no revenue. We still anticipate the need to raise significant capital through the sale of equity securities on a private or public basis in order to sustain operations. It is uncertain whether we will be able to obtain the necessary capital.

We intend to fund operations and commitments over the next twelve months from our cash on hand, including our capital expenditures, working capital or other cash requirements. We believe cash from operating activities, and our existing cash resources may not be sufficient to meet our working capital requirements for the next 12 months. We will likely require additional funds to support the Company's business plan. Management intends to raise additional working capital through debt and equity financing. There can be no assurance that additional financing will be available on acceptable terms, if at all. If adequate funds are not available, we may be unable to take advantage of future opportunities, respond to competitive pressures, and may have to curtail operations.

Revenue Recognition

The company has no revenue.

Item 3. Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of February 28, 2007. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Mr. Chris Bunka. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of February 28, 2007, our disclosure controls and procedures are effective. There have been no significant changes in our internal controls over financial reporting during the quarter ended February 28, 2007 that have materially affected or are reasonably likely to materially affect such controls.

Disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.
