FORD MOTOR COMPANY AND SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. FINANCIAL STATEMENTS

The consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the United States ("GAAP") for interim financial information and instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. In the opinion of management, these unaudited financial statements reflect a fair statement of the results of operations and financial condition of Ford Motor Company and its consolidated subsidiaries and consolidated variable interest entities ("VIEs") of which we are the primary beneficiary for the periods and at the dates presented. Results for interim periods should not be considered indicative of results for a full year. Reference should be made to the financial statements contained in our Annual Report on Form 10-K for the year ended December 31, 2006 ("2006 Form 10-K Report"). For purposes of this report, "Ford," the "Company," "we," "our," "us" or similar references mean Ford Motor Company and our consolidated subsidiaries and our consolidated VIEs of which we are the primary beneficiary, unless the context requires otherwise.

NOTE 2. INVENTORIES

Inventories are summarized as follows (in millions):

| | J | une 30, 2007 | D | 31, 2006 |
|---|----|-----------------|----|-------------|
| Raw materials, work-in-process and supplies | \$ | 4,360 | \$ | 4,545 |
| Finished products | | 9,314 | | 7,891 |
| Total inventories under first-in, first-out method ("FIFO") | | 13,674 | | 12,436 |
| Less: last-in, first-out method ("LIFO") adjustment | | (1,060) | | (1,015) |
| Total inventories | \$ | 12,614 | \$ | 11,421 |

During 2006, inventory quantities were reduced, resulting in a liquidation of LIFO inventory quantities carried at lower costs prevailing in prior years as compared with the cost of 2006 purchases, the effect of which decreased *Automotive cost of sales* by about \$4 million.

NOTE 3. GOODWILL AND OTHER INTANGIBLES

Goodwill

Our policy is to perform annual testing of goodwill and certain other intangible assets during the fourth quarter to determine whether any impairment has occurred. Testing is conducted at the reporting unit level.

Changes in the carrying amount of goodwill are as follows (in millions):

| Goodwill, | Goodwill | Exchange | Goodwill, |
|-----------|----------|--------------|-----------|

Item 1. Financial Statements (Continued)

NOTE 3. GOODWILL AND OTHER INTANGIBLES (Continued)

Automobile Protection Corporation ("APCO"). During the second quarter of 2007, our wholly-owned North American subsidiary, APCO, was sold. APCO was not an integrated component of our Ford North America reporting unit. Accordingly, the full amount of APCO's goodwill, \$112 million, was classified within Assets of discontinued/held-for-sale operations at December 31, 2006.

Aston Martin Lagonda Group Limited ("Aston Martin"). Aston Martin was owned primarily through our wholly-owned subsidiary, Jaguar Cars Limited, and has been a component of our PAG reporting unit. Its operations were integrated with our other PAG reporting entities, sharing, among other things, certain facilities and tooling, intellectual property, in-bound logistics, information technology services, and parts supply.

During the second quarter of 2007, we sold Aston Martin. Accordingly, we commissioned a third-party valuation to determine an appropriate allocation of goodwill for Aston Martin based on its fair value relative to the overall fair value of PAG. The third-party valuation used discounted cash flow and market methods of determining fair value, which resulted in \$434 million of goodwill being allocated to Aston Martin. We deemed the third-party valuations to be appropriate, and we classified the goodwill allocated to Aston Martin within *Assets of discontinued/held-for-sale operations* as of March 31, 2007. The goodwill remaining in our PAG reporting unit was tested at March 31, 2007, and no goodwill impairment was necessary.

Land Rover Deferred Tax. During the second quarter of 2007, we settled a tax matter related to the acquisition of Land Rover which resulted in a reduction of PAG goodwill of \$108 million. See Note 6 for additional information.

Exchange Translation. The net foreign currency translation adjustment for the first half of 2007 resulted in an increase in PAG goodwill of \$56 million.

In addition to the goodwill presented in the above table, included within *Automotive equity in net assets of affiliated companies* was goodwill of \$249 million at June 30, 2007.

Other Intangibles

The components of identifiable intangible assets are as follows (in millions):

| | June 30, 2007 | | | | | | December 31, 2006 | | | | | | | |

| Total | \$ | 1,424 | \$ | (312) | \$ | 1,112 | \$ | 1,353 | \$ | (259) | \$ | 1,094 | | |

Our identifiable intangible assets are comprised of a non-amortizable tradename, distribution networks with a useful life of 40 years, manufacturing and production incentive rights with a useful life of 4 years, and other intangibles with various amortization periods (primarily patents, customer contracts, technology, and land rights).

Pre-tax amortization expense related to these intangible assets was as follows (in millions):

| | First | Half | |
|------------------------------|----------|------|------|
| | 2007 | 2 | 2006 |
| Pre-tax amortization expense | \$ 47 | \$ | 12 |

Excluding the impact of foreign currency translation, intangible asset amortization is forecasted to range from \$80 million to \$90 million per year for the next four years and \$20 million to \$30 million thereafter.

Item 1. Financial Statements (Continued)

NOTE 4. VARIABLE INTEREST ENTITIES

We consolidate VIEs of which we are the primary beneficiary. The liabilities recognized, as a result of consolidating these VIEs, do not represent additional claims on our general assets; rather, they represent claims against the specific assets of the consolidated VIEs. Conversely, assets recognized as a result of consolidating these VIEs do not represent additional assets that could be used to satisfy claims against our general assets.

Reflected in our June 30, 2007 and December 31, 2006 balance sheets are consolidated VIE assets of \$5.9 billion and \$5.6 billion, respectively, for our Automotive sector and \$77.8 billion and \$69.5 billion, respectively, for our Financial Services sector. Included in Automotive consolidated VIE assets are \$592 million and \$488 million of cash and cash equivalents at June 30, 2007 and December 31, 2006, respectively. For our Financial Services sector, consolidated VIE assets included \$7.5 billion and \$3.7 billion in cash and cash equivalents and \$70.3 billion and \$65.8 billion of receivables and beneficial interests in net investment in operating leases at June 30, 2007 and December 31, 2006, respectively.

We have several investments in other entities determined to be VIEs of which we are not the primary beneficiary. The risks and rewards associated with our interests in these entities are based primarily on ownership percentages. Our maximum exposure was \$187 million and \$294 million for our Automotive sector and \$219 million and \$182 million for our Financial Services sector at June 30, 2007 and December 31, 2006, respectively. Any potential losses associated with these VIEs would be limited to the value of our invested capital or equity rights and, where applicable, receivables due from the VIEs.

Our Financial Services sector consists primarily of Ford Motor Credit Company LLC ("Ford Credit"). Ford Credit uses special purpose entities ("SPEs") that are considered VIEs for most of our on-balance sheet securitizations. Ford Credit also sells finance receivables to bank-sponsored asset-backed commercial paper issuers that are SPEs of the sponsor bank; these SPEs are not consolidated by us. The outstanding balance of finance receivables that have been sold by Ford Credit to the SPEs of the sponsored banks was approximately \$4.5 billion and \$5.2 billion at June 30, 2007 and December 31, 2006, respectively.

NOTE 5. EMPLOYEE SEPARATION ACTIONS

Automotive Sector

General

In 2006, we announced a major business improvement plan for our North American Automotive operations, which we refer to as the Way Forward plan. As part of this plan, we began implementing a number of different employee separation actions during 2006, our accounting for which is dependent on the design of the individual benefit action.

Jobs Bank Benefits Reserve

We expense Jobs Bank Benefits (see Note 17 of the Notes to the Financial Statements in our 2006 Form 10-K Report) expected to be provided to our hourly employees in accordance with our International Union, United Automobile, Aerospace and Agricultural Implement Workers of America ("UAW") and National Automobile, Aerospace, Transportation and General Workers Union of Canada ("CAW") collective bargaining agreements at facilities that will be permanently idled. We recorded an expense in *Automotive cost of sales*, and the following table summarizes the activity in the related Jobs Bank Benefits reserve:

Item 1. Financial Statements (Continued)

NOTE 5. EMPLOYEE SEPARATION ACTIONS (Continued)

Separation Actions

The cost of voluntary employee separation actions are recorded at the time of an employee's acceptance, unless the acceptance requires explicit approval by the Company. The costs of conditional voluntary separations are accrued when all conditions are satisfied. The costs of involuntary separation programs are accrued when management has approved the program and the affected employees are identified.

UAW Voluntary Separations. During 2006, we offered voluntary separation packages to our entire UAW hourly workforce and established a reserve for the costs associated with this action. We recorded an expense in *Automotive cost of sales* and the following table summarizes the activity in the related separation reserve:

| | I | Reserve (i | n mi | illions) | Number of employees | | | |
|---|--------------------|------------|------|------------------|---------------------|-----------|--|--|
| | First Half 2007 | | F | ull Year 2006 | First Half 2007 | Full Year | | |
| | | | | 2000 | | 2006 | | |
| Beginning balance | \$ | 2,435 | \$ | _ | - 26,351 | | | |

| Ending balance | \$ | 718 | \$ | 2,435 | 6,495 | 26,351 | | |

Other Employee Separation Actions. Most salaried employee separations within the United States were completed by the end of the first quarter of 2007, and were achieved through early retirements, voluntary separations, and involuntary separations where necessary. These actions resulted in pre-tax charges of \$1 million and \$7 million in the second quarter of 2007 and 2006 and \$154 million and \$10 million during the first half of 2007 and 2006, respectively, reported in Automotive cost of sales and Selling, administrative and other expenses.

The following table shows pre-tax charges for other hourly and salaried employee separation actions for the second quarter and first half of 2007 and 2006 (in millions). These charges are reported in *Automotive cost of sales* and *Selling, administrative and other expenses*.

| | Second Quarter | | | First Half | | |
|------------------------------|----------------|------|----|------------|----|------|
| | 2007 | 2006 | | 2007 | | 2006 |

| PAG | 21 | | 15 | 28 | | 17 |
| Ford Asia Pacific and Africa | 1 | | | 3 | | _ |

The charges above exclude costs for pension and other postretirement employee benefits ("OPEB"). For further information, see Note 10 for employee separation costs related to pension, postretirement health care and life insurance benefits.

Financial Services Sector

Separation Actions

In the first half of 2007, we recognized pre-tax charges of \$43 million in *Selling, administrative and other expenses* for employee separation actions in the United States and in Canada. These actions were associated with Ford Credit's North American business transformation initiative (i.e., the consolidation of its North American branches into its seven existing business centers). These charges exclude costs for pension and OPEB. For further information, see Note 10 for employee separation costs related to pension, postretirement health care and life insurance benefits.

Item 1. Financial Statements (Continued)

NOTE 6. INCOME TAXES

Generally, for interim tax reporting one single tax rate is estimated for tax jurisdictions not subject to a valuation allowance, which is applied to the year-to-date ordinary income/loss. However, we manage our operations by multi-jurisdictional business units and thus are unable to reasonably compute one overall estimated annual effective tax rate. Accordingly, our worldwide tax provision is calculated pursuant to Financial Accounting Standards Board ("FASB") Interpretation No. 18, *Accounting for Income Taxes in Interim Periods*, which provides that the tax (or benefit) in each foreign jurisdiction, not subject to a valuation allowance, be separately computed as ordinary income/loss occurs within the jurisdiction.

In June 2006, FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109* ("FIN 48"). FIN 48 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Pursuant to FIN 48, we may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement.

We adopted the provisions of FIN 48 on January 1, 2007. As a result of the implementation of FIN 48, we recorded an increase of \$1.3 billion to *Retained earnings*. The favorable impact to *Retained earnings* is primarily the result of recognizing a receivable of approximately \$1.5 billion associated with refund claims and related interest for prior years that meet the "more-likely-than-not" recognition threshold of FIN 48. These prior year refund claims and related interest were not recognized as of December 31, 2006 because they were considered gain contingencies under Statement of Financial Accounting Standards ("SFAS") No. 5, *Accounting for Contingencies* and could not be recognized until the contingency lapsed. The amount of gross unrecognized tax benefits at January 1, 2007 was \$1.7 billion, of which \$471 million would affect our effective tax rate, if recognized.

Examinations by tax authorities have been completed through 1998 in the United Kingdom, 1999 in Germany, and 2000 in Canada, Sweden, and the United States.

Effective with the adoption of FIN 48, we have elected to recognize accrued interest related to unrecognized tax benefits and tax-related penalties in the *Provision for/(benefit from) income taxes* on our consolidated statement of income. As of January 1, 2007, we had recorded a liability of \$221 million for the payment of interest. During the second quarter of 2007, we recorded an additional liability of \$127 million in interest and inflationary adjustments related to interest refunds in dispute for tax refunds received in prior periods.

During the second quarter of 2007, we settled tax matters related to the acquisition of Land Rover with the U.K. tax authorities. The final resolution resulted in an increase in deferred tax assets and a corresponding decrease in goodwill. The increase in deferred tax assets resulted in an increase in the valuation allowance of \$108 million.

NOTE 7. DISCONTINUED OPERATIONS, HELD-FOR-SALE OPERATIONS, AND OTHER DISPOSITIONS

Discontinued Operations

APCO. On April 2, 2007, the management team of APCO, together with Trident IV, L.P., a private equity fund managed by Stone Point Capital LLC, purchased APCO from us. This transaction was the result of the ongoing

strategic review of our operations. As a result of the transaction, we received \$180 million as gross proceeds on the sale. In the second quarter of 2007, we realized a pre-tax gain of \$51 million (net of transaction costs and working capital adjustments), reported in *Income/(loss) from discontinued operations*.

Item 1. Financial Statements (Continued)

NOTE 7. DISCONTINUED OPERATIONS, HELD-FOR-SALE OPERATIONS, AND OTHER DISPOSITIONS (Continued)

The assets and liabilities of APCO that were classified as a discontinued operation at April 2, 2007 and December 31, 2006 are summarized as follows (in millions):

Held-for-Sale Operations

Aston Martin. In order to restructure our core Automotive operations and build liquidity, on March 12, 2007, we announced that we had entered into a definitive agreement to sell Aston Martin. On May 31, 2007, Ford Motor Company and its subsidiary Jaguar Cars Limited completed the sale of our 100% interest in Aston Martin. Under the terms of the transaction, we received \$931 million (£474 million) in gross proceeds through a combination of cash and preferred stock in Primrose Cove, Ltd., the holding company of the acquirer. As a result of the sale, we recognized a pre-tax gain of \$187 million (net of transaction costs and working capital adjustments) reported in *Automotive interest income and other non-operating income/(expense)*, net.

The assets and liabilities of Aston Martin that were classified as a held-for-sale operation at May 31, 2007 and December 31, 2006 are summarized as follows (in millions):

Edgar Filing: FORD MOTOR CO - Form 10-Q

At June 30, 2007, there were no assets or liabilities on our balance sheet related to Aston Martin.

NOTE 7. DISCONTINUED OPERATIONS, HELD-FOR-SALE OPERATIONS, AND OTHER DISPOSITIONS (Continued)

Automotive Components Holdings, LLC ("ACH"). In April 2007, ACH committed to sell its Converca I plant in Mexico, which produces power transfer units, to Linamar Corporation. We expect to complete the sale during the third quarter of 2007. Accordingly, we have reported Converca I as held-for-sale. As a result of the transaction, we expect to receive an amount approximately equal to the book value of the plant during the third quarter of 2007.

The assets of Converca I classified as a held-for-sale operation are summarized as follows (in millions):

| Assets | June 20 | | | mber 2006 |
|--|------------|----|----|--------------|
| Inventories | \$ | 14 | \$ | 15 |

European dealerships. In April 2007, we committed to sell three European dealership operations. As a result of the transaction, we recorded a pre-tax loss of \$17 million in *Automotive interest income and other non-operating income/(expense)*, net.

The assets and liabilities of the three dealerships classified as held-for-sale operations at June 30, 2007 and December 31, 2006 are summarized as follows (in millions):

| Total liabilities of the held-for-sale operations | \$ | 14 | \$ | 17 |

Other Dispositions

ACH has entered into non-binding agreements for the sale of five of its businesses. The following table lists the businesses with their corresponding products:

| Sheldon Road plant | Produces heating, ventilating and cooling assemblies; heat exchangers; and manual control panel components |
|--------------------|--|
| Milan plant | Produces fuel tanks and bumper fascias |

| Monroe plant | Produces catalytic converters, driveshafts, and springs (driveshaft business only included in agreement – not the plant itself) |
|---|---|
| | |
| Nashvillle, Tulsa, and VidrioCar (Mexico) | |
| plants | Produces automotive and architectural glass products |
| | |
| Sandusky plant | Produces lighting components |

Each of these sales is conditional on a successful negotiation by the buyer of labor terms with the UAW, which has not been completed. Therefore, none has yet reached held-for-sale status.

NOTE 8. AMOUNTS PER SHARE OF COMMON AND CLASS B STOCK

The calculation of diluted income per share of Common and Class B Stock takes into account the effect of common stock equivalents, such as stock options and convertible securities, considered to be potentially dilutive. NOTE 9. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

Our operations are exposed to global market risks, including the effect of changes in foreign currency exchange rates, certain commodity prices and interest rates. We enter into various derivatives, including interest rate, foreign currency and commodity forwards, options and swaps to manage the financial and operational exposure arising from these risks. We have elected to apply hedge accounting to certain of these derivative instruments. Refer to Note 22 of the Notes to the Financial Statements in our 2006 Form 10-K Report for a more detailed description of our derivative instruments and hedge accounting designations.

Income Statement Effect of Derivative Instruments

The following table summarizes the estimated pre-tax gains/(losses) for each type of hedge designation for the Automotive and Financial Services sectors (in millions):

- (b) These gains/(losses) were related to foreign currency derivatives and were substantially offset by net revaluation impacts on foreign denominated debt, which were recorded to the same income statement line item as the hedge gains/(losses).
- (c) Amount represents the portion of the derivative's fair value attributable to the change in foreign currency exchange rates.

Balance Sheet Effect of Derivative Instruments

The fair value of derivatives reflects the price that a third party would be willing to pay or receive in arm's length transactions and includes mark-to-market adjustments to reflect the effects of changes in the related index. The following table summarizes the estimated fair value of our derivative instruments (in millions):

In the first quarter of 2007, we recorded a \$176 million curtailment loss for the U.S. salaried pension plan, a \$14 million curtailment gain for the Canadian hourly pension plan, and a \$960 million curtailment gain for the U.S. hourly retiree health care plan. In the second quarter of 2007, we recorded an additional \$148 million curtailment gain for the U.S. hourly retiree health care plan. These amounts are associated with employee separations related to the Way Forward plan, and are recorded in *Automotive cost of sales* and *Selling, administrative and other expenses*.

The weighted average discount rate assumption used at June 30, 2007 to determine the U.S. OPEB obligation was 6.18%. The weighted average initial health care cost trend rate was 6% for the 2007 calendar year.

Plan Contributions and Drawdowns

Our policy for funded plans is to contribute annually, at a minimum, amounts required by applicable laws, regulations, and union agreements. From time to time, we make contributions beyond those legally required.

Pension. In the first half of 2007, we contributed about \$1.5 billion to our worldwide pension plans, including benefit payments paid directly by the Company for unfunded plans. We expect to contribute from Automotive cash and cash equivalents an additional \$700 million in 2007, for a total of \$2.2 billion this year. Based on current assumptions and regulations, we do not expect to have a legal requirement to fund our major U.S. pension plans in 2007.

Health Care and Life Insurance. During the first half of 2007, we withdrew \$300 million from our Voluntary Employee Beneficiary Association trust ("VEBA") as reimbursement for U.S. hourly retiree benefit payments.

Item 1. Financial Statements (Continued)

NOTE 10. RETIREMENT BENEFITS (Continued)

Pension Asset Investment

Target pension asset allocations disclosed in our 2006 Form 10-K Report were about 70% equity investment and 30% fixed income investment, with less than one percent in alternative investments (such as private equity). In July 2007, in order to reduce the volatility of the value of our U.S. pension assets relative to U.S. pension liabilities, we changed our investment strategy to reduce the proportion of equity investments and increase the proportion of assets in fixed income and alternative investments. We expect our asset allocation for our U.S. plans at year-end 2007 to be about 50% equity investments, 45% fixed income investments, and up to 5% alternative investments.

NOTE 12. GUARANTEES

The fair values of guarantees and indemnifications during 2007 and 2006 are recorded in the financial statements and are *de minimis*.

At June 30, 2007, the following guarantees were issued and outstanding:

Guarantees related to affiliates and third parties. We guarantee debt and lease obligations of certain joint ventures, as well as certain financial obligations of outside third parties to support our business and objectives. Expiration dates vary, and guarantees will terminate on payment and/or cancellation of the obligation. A payment by us would be triggered by failure of the primary obligor to fulfill its obligation covered by the guarantee. In some circumstances, we are entitled to recover from the third party amounts paid by us under the guarantee. However, our ability to enforce these rights is sometimes stayed until the guaranteed party is paid in full, and may be limited in the event of insolvency of the third party or other circumstances. The maximum potential payments under these guarantees total \$9.9 million.

On December 15, 2006 we entered into an agreement (the "Credit Agreement") which provides for a seven-year \$7 billion term-loan facility and a five-year revolving credit facility of \$11.5 billion. We and certain of our domestic subsidiaries that constitute a substantial portion of our domestic Automotive assets (excluding cash) are guarantors under the Credit Agreement, and future material domestic subsidiaries will become guarantors when formed or acquired. For further discussion of this Credit Agreement, see Note 15 of the Notes to the Financial Statements in our 2006 Form 10-K Report.

On December 21, 2005, we completed the sale of The Hertz Corporation ("Hertz"). As part of this transaction, we provided cash-collateralized letters of credit in an aggregate amount of \$200 million to support the asset-backed portion of the buyer's financing for the transaction and deferred a portion of the gain recognized on the sale in an amount equal to the fair value of the guarantee. As of June 30, 2007, the deferred gain related to the letters of credit was \$20 million, which represents the estimated fair value of our guarantee. For further discussion of these letters of credit, see Note 27 of the Notes to the Financial Statements in our 2006 Form 10-K Report.

In 1996, we issued \$500 million of 7.25% Notes due October 1, 2008. In 1999, we entered into a de-recognition transaction to defease our obligation as primary obligor with respect to the principal of these notes. As part of this transaction, we placed certain financial assets into an escrow trust for the benefit of the noteholders, and the trust became the primary obligor with respect to the principal (we became secondarily liable for the entire principal amount).

We also have guarantees outstanding associated with our wholly-owned subsidiary trust, Ford Motor Company Capital Trust II ("Trust II"). For further discussion of Trust II, see Notes 15 and 20 of the Notes to the Financial Statements in our 2006 Form 10-K Report.

Indemnifications. We regularly evaluate the probability of having to incur costs associated with indemnifications contained in contracts to which we are a party, and have accrued for expected losses that are probable and for which a loss can be estimated. During the second quarter of 2007, there were no significant changes to our indemnifications.

Product Performance

Warranty. Estimated warranty costs and additional service actions are accrued for at the time the vehicle is sold by us. Included in the warranty cost accruals are costs for basic warranty coverages on vehicles sold. Additional service

actions, such as product recalls and other customer service actions, are not included in the warranty reconciliation below, but are also accrued for at the time of sale. Estimates for warranty costs are made based primarily on historical warranty claim experience. The following is a tabular reconciliation of the product warranty accruals (in millions):

| | First | lf | |

| Foreign currency translation and other | 121 | | 121 |
| Ending balance | \$ 5,841 | \$ | 6,383 |

Extended Service Plans. Fees or premiums for the issuance of extended service plans are recognized in income over the contract period in proportion to the costs expected to be incurred in performing services under the contract.

NOTE 14. SUBSEQUENT EVENTS

On August 3, 2007, we completed a conversion offer related to the outstanding 6.50% Cumulative Convertible Trust Preferred Securities, with an aggregate liquidation preference of \$5.0 billion (the "Trust Preferred Securities") of Ford Motor Company Capital Trust II. Each Trust Preferred Security is convertible into 2.8249 shares of Ford Common Stock pursuant to the conversion terms applicable to Trust Preferred Securities. In July 2007, we offered to holders of Trust Preferred Securities a conversion premium in the form of 1.7468 additional shares of Ford Common Stock per Trust Preferred Security converted pursuant to this offer. As a result of this offer, which expired on July 31, 2007, 42,543,071 Trust Preferred Securities with an aggregate liquidation preference of \$2.1 billion were converted into an aggregate 194,494,157 shares of Ford Common Stock. We will record a one-time pre-tax expense in the third quarter of 2007 equal to \$632 million (i.e., 74,314,236 premium shares issued multiplied by \$8.51, which was the closing trading price per share of Ford Common Stock on July 31, 2007 on the New York Stock Exchange). The after-tax impact on net income of this conversion is estimated to be \$258 million. As a result of this conversion offer, we will no longer incur annual pre-tax interest expense of \$138 million related to the Trust Preferred Securities that were converted, and our total stockholders' equity will increase by \$2.1 billion.

Report of Independent Registered Public Accounting Firm

To Board of Directors and Stockholders Ford Motor Company:

We have reviewed the accompanying consolidated balance sheet of Ford Motor Company and its subsidiaries as of June 30, 2007, and the related consolidated statements of income for each of the three-month and six-month periods ended June 30, 2007 and 2006 and the condensed consolidated statement of cash flows for the six-month periods ended June 30, 2007 and 2006. These interim financial statements are the responsibility of the Company's management.

The accompanying sector balance sheets and the related sector statements of income and of cash flows are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the review procedures applied in the review of the basic financial statements.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 6 of the Notes to the Financial Statements, on January 1, 2007, the Company adopted Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No.109."

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2006, and the related consolidated statements of income, of cash flows and of stockholders' equity for the year then ended (not presented herein), and in our report dated February 27, 2007, we expressed an unqualified opinion (with explanatory paragraphs relating to changes in its method of accounting for conditional asset retirement obligations in 2005 and the method of accounting for defined benefit pension and other postretirement plans, the timing of the annual goodwill and other intangible assets impairment testing, and the amortization method for special tools in 2006) on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet information which reflects the reclassification of the assets and liabilities of various operations as discontinued/held-for-sale as described in Note 7 as of December 31, 2006, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

SECOND QUARTER RESULTS OF OPERATIONS

Our worldwide net profit was \$750 million or \$0.31 per share of Common and Class B Stock in the second quarter of 2007, improved from a loss of \$317 million or \$0.17 per share in the second quarter of 2006.

Results by business sector for the second quarter of 2007 and 2006 are shown below (in millions):

| | Second Quarter | | | | | | | |

^{*}Primarily related to Ford Europe's consolidated 41%-owned affiliate, Ford Otosan. The increase in *Minority interests in net income/(loss) of subsidiaries* primarily reflected higher tax expense in 2006 related to tax law changes in the country of Turkey. The pre-tax results for Ford Otosan were \$139 million and \$153 million in the second quarter of 2007 and 2006, respectively.

Included in *Income/(loss) before income taxes* are items we do not consider indicative of our ongoing operating activities ("special items"). The following table details the second quarter 2007 and 2006 special items by segment or business unit (in millions):

- (a) Wholesale unit volumes generally are reported on a where-sold basis, and include all Ford-badged units and units manufactured by Ford that are sold to other manufacturers, as well as units distributed for other manufacturers. Vehicles sold to daily rental car companies that are subject to a guaranteed repurchase option, as well as other sales of finished vehicles for which the recognition of revenue is deferred (e.g., consignments), are included in wholesale unit volumes.
- (b) Included in wholesale unit volumes of Ford Asia Pacific and Africa are Ford-badged vehicles sold in China and Malaysia by certain unconsolidated affiliates totaling about 54,000 and 37,000 units in 2007 and 2006, respectively. "Sales" above does not include revenue from these units.
- (c) Reflects sales of Mazda6 by our consolidated subsidiary, AutoAlliance International, Inc. ("AAI").
