SOUTHWALL TECHNOLOGIES INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(dollar and share amounts in thousands, except per share data)

Note 1 – Basis of Presentation

Southwall Technologies Inc., including its wholly owned subsidiaries, Southwall Europe GmbH, Southwall IG Holdings, Inc., Southwall Insulating Glass, LLC (“SIG”) and Crown Operations International, LLC, are hereafter referred to as the “Company,” “Southwall,” “Registrant,” “We,” “Our” or “Us.”

The accompanying interim condensed consolidated financial statements of Southwall are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and footnote disclosure normally included in financial statements prepared in accordance with GAAP have been condensed or omitted. In the opinion of management, the unaudited condensed consolidated financial statements reflect all adjustments considered necessary to present fairly the financial position, results of operations and cash flows of Southwall for all periods presented. The year-end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. The Company suggests that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Form 10-K for the year ended December 31, 2010 filed with the Securities and Exchange Commission on March 29, 2011. The results of operations for the interim periods presented are not necessarily indicative of the operating results to be expected for any future periods.

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions, based on all known facts and circumstances that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the periods. Management makes these estimates using the best information available at the time of the estimates. The estimates included in preparing our financial statements include: allowance for doubtful accounts and sales returns, quarterly income taxes, inventory valuations (including reserves for excess and obsolete and impaired inventories), reserves for decommissioning costs associated with leasehold asset retirement obligations, impairment of goodwill and other long-lived assets and the valuation of stock-based compensation. Actual results could differ from those estimates.

Reverse Stock Split

On March 17, 2011, the Company completed a 1-for-5 reverse stock split of its common stock, pursuant to previously obtained stockholder approval on May 12, 2010. The reverse stock split reduced the number of shares of the Company's common stock issued and outstanding from approximately 28.8 million to approximately 5.8 million. In connection with the reverse stock split, the Company also reduced the number of our authorized shares of common stock from 50 million to 10 million to reflect the reverse stock split ratio. All share and per share amounts for the three and nine months ended September 30, 2010 herein are presented on a post-reverse stock split basis.

Reclassifications

Certain reclassifications have been made to the prior year's condensed consolidated balance sheet and condensed consolidated statement of cash flows to conform to the current year presentation.

Note 2 – Recent Accounting Pronouncements:

Since December 31, 2010, there are no recently issued accounting standards that are expected to have a material effect on our financial condition, results of operations or cash flows.

Note 3 – Fair Value Measurements

The Company has estimated the fair value amounts of its financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities using available market information and valuation methodologies considered to be appropriate and has determined that the book value of those instruments at September 30, 2011 approximates fair value.

Based on borrowing rates currently available to the Company for debt and capital lease obligations with similar terms, the carrying value of our term debt and capital lease obligations approximates fair value.

Index

Southwall invests its cash primarily in money market funds. The Company utilizes the market approach to measure fair value of its financial assets.

Cash and cash equivalents are summarized as follows:

	September 30, 2011		
	Fair Value	Book Value	Unrealized Gain, net
Money market funds, Level I	\$11,153	\$11,153	\$-
Total cash equivalents	11,153	11,153	-
Cash	1,709	1,709	-
Total cash and cash equivalents	\$12,862	\$12,862	\$-

	December 31, 2010		
	Fair Value	Book Value	Unrealized Gain, net
Money Market Funds, Level I	\$8,990	\$8,990	\$-
Certificates of deposit	2,000	2,000	-
Total cash equivalents	10,990	10,990	-
Cash	2,786	2,786	-
Total cash and cash equivalents	\$13,776	\$13,776	\$-

The Company's financial assets and liabilities are valued using market prices on active markets (Level 1). Level 1 instrument valuations are obtained from real-time quotes for transactions in active exchange markets involving identical assets. As of September 30, 2011, the Company did not have any Level 2 instrument valuations which were obtained from readily available pricing sources for comparable instruments or any Level 3 instruments without observable market values that would require a high level of judgment to determine fair value.

Note 4 – Balance Sheet Detail

	September 30, 2011	December 31, 2010
Inventories, net		
Raw materials	\$ 4,737	\$ 3,072
Work-in-process	1,768	817
Finished goods	1,678	1,647
	\$ 8,183	\$ 5,536

Land, buildings and leasehold improvements	\$ 9,750	\$ 9,453
Machinery and equipment	35,565	33,099
Furniture and fixtures	2,937	2,769
	48,252	45,321
Less: accumulated depreciation and amortization	(32,970)	(30,086)
	\$ 15,282	\$ 15,235

Note 5 – Net Income (Loss) Per Common Share

Basic net income (loss) per common share is computed by dividing net income (loss) attributable to common stockholders (numerator) by the weighted average number of common shares outstanding (denominator) for the period. Diluted net income (loss) per common share gives effect to all dilutive common shares potentially outstanding during the period, including stock options and convertible preferred stock. The Company excludes options from the computation of diluted weighted average shares outstanding if the exercise price of the options is greater than the average market price of the shares because the inclusion of these options would be anti-dilutive to net income (loss) per share. The Company also excludes preferred shares convertible into common stock from the computation of diluted weighted average shares outstanding when the effect would be anti-dilutive.

Index

At September 30, 2011 and 2010, 175 and 188 outstanding options, respectively, were excluded from the dilutive net income per common share calculation, as they were anti-dilutive because the option prices were higher than the average market price during each of the nine-month periods.

The Company has accrued a deemed dividend on preferred stock of \$122 for each of the three-month periods ended September 30, 2011 and 2010. The dilutive effect of convertible securities shall be reflected in diluted net income (loss) per share by application of the if-converted method. Under this method, if an entity has convertible preferred stock outstanding, the preferred dividends applicable to convertible preferred stock shall be added back to the numerator unless their effect is anti-dilutive.

Tables summarizing net income attributable to common stockholders, basic and diluted net income (loss) per common share, and weighted shares outstanding are shown below:

	Three Months Ended		Nine Months Ended	
	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
Net income (loss) attributable to common stockholders - basic	\$89	\$ 948	\$829	\$ 5,078
Add: Deemed dividend on preferred stock	122	122	366	366
Net income (loss) attributable to common stockholders - diluted	\$211	\$ 1,070	\$1,195	\$ 5,444
Weighted average common shares outstanding - basic (1)	5,811	5,768	5,809	5,764
Dilutive effect of Series A preferred shares	978	978	978	978
Dilutive effect of stock options	680	521	505	479
Weighted average common shares outstanding - diluted (1)	7,469	7,267	7,292	7,221
Basic net income (loss) per common share	\$0.02	\$ 0.16	\$0.14	\$ 0.88
Diluted net income (loss) per common share	\$0.03	\$ 0.15	\$0.16	\$ 0.75

(1) All share and per share amounts have been retroactively restated for the three and nine months ended September 30, 2010 to reflect the Company's 1-for-5 reverse stock split described in Note 1 to these condensed consolidated financial statements.

Note 6 – Segment Reporting

The Company is a developer and manufacturer of high performance films and glass products that improve energy efficiency in architectural and automotive glass applications. Prior to the year ended December 31, 2010, the Company operated only one segment. With the acquisition of the controlling interest in SIG, the Company operates in two segments: film, which is a manufacturer of thin film coatings on flexible substrates, and glass, which is a manufacturer of insulated glass units.

The Chief Operating Decision Maker (CODM) is the Company's President and Chief Executive Officer. The CODM allocates resources to and assesses the performance of each operating segment using information about its revenue and operating income (loss).

The Company does not allocate gains and losses from interest and other income, or taxes to operating segments. Although the CODM uses operating income (loss) to evaluate the segments, operating costs included in one segment

may benefit the other segment.

8

Edgar Filing: SOUTHWALL TECHNOLOGIES INC /DE/ - Form 10-Q

Index

Segment information is summarized as follows:

	Three Months Ended		Nine Months Ended

Index

Note 7 – Commitments and Contingencies

Commitments

The Company leases certain property and equipment as well as its facilities under noncancellable operating leases. These leases expire at various dates through 2016.

In January 2006, the Company renewed a lease agreement for its research and development facility in Palo Alto, California. The lease was renewed in January 2011 for an additional twelve months. Under this lease agreement, the Company had accrued \$480 for leasehold retirement obligations, which is included in other accrued liabilities in the accompanying condensed consolidated balance sheets. The method and timing of payments are not yet finalized, and therefore, this estimate of the Company's liability could differ from the actual future settlement amount.

As of September 30, 2011, the Company had unconditional purchase obligations to procure manufacturing raw material and services of \$2,969 and equipment of \$2,811 over the next twelve months

Credit Agreement with Wells Fargo Bank

In June 2011, the Company renewed its Credit Agreement with Wells Fargo Bank ("Bank"). The Credit Agreement provides for a \$3,000 revolving line of credit. Advances under the line exceeding \$1,500 will be limited to 80% of eligible accounts receivable. The Company will not be eligible for additional borrowings if the Company's consolidated cash balance falls below \$3,500. Amounts borrowed under the line of credit bear interest at either prime plus 0.75% or LIBOR plus 3.5%, determined at the discretion of the Company, and is annualized on the average daily financed amount outstanding. All borrowings under the line of credit facility are collateralized by the Company's assets in the United States and are subject to certain covenants including minimum quarterly net income and minimum liquid asset requirements. The line of credit facility matures in June 2012.

In August 2010, the Company's Credit Agreement with the Bank was amended to provide for a \$1,250 term loan, which was funded on September 2, 2010. Amounts borrowed under the term loan are payable over 36 months in equal installments and bear interest at a fixed rate of 4.05%. The Credit Agreement was further amended to provide covenants for tangible net worth and fixed charge coverage ratio.

The Company has classified \$482 and \$575 outstanding under the Bank term loan and capital lease as a short-term liability and long-term liability, respectively, at September 30, 2011. The Company is obligated to pay an aggregate of \$417 in principal under its Wells Fargo term loan in 2011.

On December 27, 2010, the Company entered into a lease agreement with the Bank to finance research and development equipment. The lease term is 48 months and requires monthly payments. As of September 30, 2011, the principal balance of this lease was \$223.

As of September 30, 2011 the Company was in compliance with all financial covenants.

Term Debt and Capital Lease Obligations

Index

As of September 30, 2011, the Company's term debt and capital lease obligations consisted of the following:

Description	Rate		Term Debt Balance at September 30, 2011	Capital Lease Balance at September 30, 2011	Total Debt Balance at September 30, 2011	Due In Next 12 Months	Balance at December 31, 2010

(1) Interest rate was reset on September 16, 2009 to 5.73%.

(2) Interest rate is fixed at 4.05%.

(3) Interest rate is fixed at 7.518% until payoff.

(4) Implied interest rate based on a lease rate factor.

Contingencies

The Company is involved in certain other legal actions arising in the ordinary course of business. The Company believes, however, that none of these actions, either individually or in the aggregate, will have a material adverse effect on its business, its consolidated financial position, results of operations or cash flows. See Note 16 for

disclosure of lawsuits filed after September 30, 2011.

Note 8 – Stock-Based Compensation

The Company has a stock-based compensation program that provides its Board of Directors broad discretion in creating employee equity incentives. The Company has granted stock options under various option plans and agreements in the past and currently grants stock options under the 2007 Long Term Incentive Plan (“2007 Plan”), which authorizes the granting of up to 10,000 shares of common stock. Under the terms of the 2007 Plan, the Company can grant both Incentive Stock Options and Nonstatutory Stock Options. Grants issued under the 2007 Plan vest and become exercisable at a rate of 25% on each anniversary of the date of grant and become fully vested on the fourth anniversary of the date of grant provided that the participant remains an employee or service provider of the Company or a related company. Each option granted under the 2007 Plan is non-transferable and expires over terms not exceeding ten years from the date of grant or 30 days after an option holder’s voluntary termination from the Company. If an option holder’s employment is terminated involuntarily for misconduct, the option will terminate immediately and may no longer be exercised. Involuntary termination not for misconduct allows for the option holder to exercise options within a period of three months after such termination of service occurs. The 2007 Plan provides for longer expiration periods for employees who terminate, but who were employed with the Company in excess of five years. Pursuant to the provisions set forth in the 2007 Plan, the option expiration will be extended anywhere from three months to one year, dependent upon the employee’s years of service. These provisions apply to options that expire as the result of involuntary termination not for misconduct. As of September 30, 2011, there were 1,301 shares of common stock available for grant under the 2007 Plan.

Index

The following table sets forth the total stock-based compensation for the periods indicated:

	Three Months Ended		Nine Months Ended	
	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
Cost of revenues	\$6	\$ 4	\$16	\$ 10
Research and development	49	29	128	74
Selling, general and administrative	233	135	596	349
Stock-based compensation expense before income taxes	288	168	740	433
Income tax benefit	-	-	-	-
Total	\$288	\$ 168	\$740	\$ 433

There were \$0 and \$25 of cash proceeds from the exercise of stock options for the three months ended September 30, 2011 and 2010, respectively. The Company presents excess tax benefits from the exercise of stock options, if any, as financing cash flows.

The fair value of stock-based awards was estimated using the Black-Scholes model with the following weighted-average assumptions for stock options granted during the three months ended September 30, 2010 and nine months ended September 30, 2011 and 2010, respectively. No stock options were granted during the three months ended September 30, 2011.

	Three Months Ended		Nine Months Ended	
	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
Expected life (in years)	-	5.0	5.0	5.0
Risk-free interest rate	- %	1.39 %	2.16 %	2.39 %
Volatility	- %	103 %	122 %	103 %
Dividend	-	-	-	-
Per share weighted average fair value at grant date (1)	\$-	\$ 1.34	\$9.28	\$ 1.24

(1) The amount for the three and nine months ended September 30, 2010 has been restated to reflect the Company's 1-for-5 reverse stock split described in Note 1 to these condensed consolidated financial statements.

The Company's computation of expected volatility was based on historical volatility. The Company's computation of expected life was based on historical exercise patterns. The interest rate for periods within the expected life of the award is based on the U.S. Treasury yield in effect at the time of grant.

The Company has not in the past and does not plan to issue dividends in the future.

Stock option activity for the nine months ended September 30, 2011 was as follows:

	Number of Options	Weighted Average Exercise Price	Remaining Contractual Weighted Average Term (in years)	Aggregate Intrinsic Value
Outstanding at December 31, 2010	1,287	\$4.49		
Granted	252	\$11.07		

Edgar Filing: SOUTHWALL TECHNOLOGIES INC /DE/ - Form 10-Q

Exercised	(13)	\$5.24		
Cancelled or expired	(36)	\$7.44		
Outstanding at September 30, 2011	1,490		\$5.52	6.52	\$6,459
Vested and expected to vest at September 30, 2011	1,353		\$5.21	6.30	\$6,215
Exercisable at September 30, 2011	920		\$3.90	5.26	\$5,247

12

Index

The aggregate intrinsic value in the table above represents the total pretax intrinsic value (the difference between Southwall's closing stock price on the last trading day of its second quarter of fiscal 2011 and the exercise price, times the number of shares) that would have been received by the option holders had all option holders exercised their options on September 30, 2011. This amount changes based on the fair market value of Southwall's stock. Total intrinsic value of options exercised was \$86 for the nine months ended September 30, 2011. There were no options exercised during the three months ended September 30, 2011.

As of September 30, 2011, \$2,115 of total unrecognized compensation cost, net of forfeitures, related to stock options was expected to be recognized over a weighted-average period of approximately 2.96 years.

Note 9 – Allowance for Sales Returns

The Company establishes an allowance for sales returns for specifically identified, as well as anticipated sales returns, based on experience. The activity in the allowance for sales returns account during the nine months ended September 30, 2011 and 2010 was as follows:

	Balance at December 31, 2010	Provision	Utilized	Balance at September 30, 2011
Allowance for Sales Returns	\$ 1,187	\$642	\$(398)	\$ 1,431

	Balance at December 31, 2009	Provision	Utilized	Balance at September 30, 2010
Allowance for Sales Returns	\$ 607	\$866	\$(393)	\$ 1,080

These amounts are included in accounts receivable, net, in the condensed consolidated balance sheets.

Note 10 – Comprehensive Income (Loss)

The components of comprehensive income (loss) for the three and nine months ended September 30, 2011 and 2010, respectively, were as follows:

	Three Months Ended		Nine Months Ended	
	September 30, 2011	September 30, 2010	September 30, 2011	September 30, 2010
Net income (loss)	\$211	\$ 948	\$976	\$ 5,292
Interest Rate Swap Instrument	-	(9)	-	(9)
Foreign currency translation adjustment	(653)	1,116	320	(601)
Other comprehensive income (loss)	\$(442)	\$ 2,055	\$1,296	\$ 4,682

Note 11 – Income Tax

The Company recorded income tax provisions of \$389 and \$1,057 for the three months ended September 30, 2011 and 2010, respectively, and \$1,870 and \$959 for the nine months ended September 30, 2011 and 2010, respectively. The effective tax rate was 65.7 % for nine months ended September 30, 2011 and 15.3 % for the nine months ended September 30, 2010. The primary reason for the change in the effective tax rates for the three and nine months ended September 30, 2011, compared to the three and nine months ended September 30, 2010, is due to an impairment charge for goodwill and the impact of the valuation allowance during 2010. The Company's effective tax rate differs

from the statutory rate due to various factors, such as tax legislation, the mix of domestic and international pre-tax income, research and development credits, foreign tax credits, share-based compensations and change in valuation allowance.

The impact of an uncertain income tax position on the income tax return must be recognized at the largest amount that is more likely than not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. As of September 30, 2011, the Company identified and recorded a discrete adjustment for estimated tax liabilities, including interest and penalties, of \$173 for costs incurred by Southwall Europe GmbH from 2006 through 2010 that were not reimbursed by Southwall Technologies Inc. Previously the Company identified and recorded unrecognized tax benefits in the amount of approximately \$394, but no interest and penalties have been recorded due to the immaterial impact to the financial statements. Management does not expect material changes in the balance of unrecognized tax benefits will occur within the next twelve months.

Index

Note 12 – Acquisitions

Controlling Interest in Joint Venture

In 2008, Southwall IG Holdings, Inc., a wholly owned subsidiary of Southwall Technologies Inc., entered into a Joint Venture Agreement with Sound Solutions Window & Doors, LLC (“Sound Solutions”), creating SIG, which manufactures insulated glass units for the domestic market, to further expand the market for the Company’s Heat Mirror product. As of December 31, 2009, Southwall IG Holdings, Inc. had a 50% investment in SIG. In 2009, Southwall IG Holdings, Inc. advanced a total of \$300 in the form of a promissory note to Sound Solutions. Pursuant to the terms of the promissory note dated May 11, 2009, the principal and accrued interest was due and payable to Southwall IG Holdings, Inc. by January 1, 2010. Under terms of the note, in the event of default, the outstanding principal was to be paid in the form of a credit to the Southwall IG Holdings, Inc. capital account.

Effective January 1, 2010, Sound Solutions had not paid the principal balance of \$300 and was in default of the promissory note. The \$300, for which Sound Solutions had received equity consideration in SIG, was credited to Southwall IG Holdings, Inc.’s capital account in SIG, thereby increasing the Company’s equity ownership to 66.3%. This change in equity did not result in Southwall IG Holdings, Inc. acquiring a controlling interest in SIG, as governance did not change as a result of the equity event. For the three months and nine months ended September 30, 2010, SIG was accounted for under the equity method of accounting and the Company’s share of SIG’s net losses of \$108 and \$333, respectively, were included in “other income (expense), net” in the condensed consolidated statements of operations.

On May 20, 2010, the Joint Venture Agreement was amended allowing Southwall IG Holding, Inc. to make additional cash contributions to the joint venture. In order to acquire an additional 8.7% to obtain 75% equity ownership, the Company relinquished \$256 of value allowing Sound Solutions to maintain a 25% equity interest in SIG. This transaction triggered a business combination event, which resulted in the consolidation of total assets and liabilities of SIG. Subsequently in 2010, the Company increased its equity ownership in SIG to 80%. In June 2011, the Company increased its equity ownership in SIG to 100%.

The unaudited pro forma net revenues for the three months and nine months ended September 30, 2010 were \$12,198 and \$35,486, respectively, and net income attributable to Southwall for the three and nine months ended September 30, 2010 were \$589 and \$4,044, respectively.

Crown Operations International

On August 30, 2010, Crown International Acquisition Company, LLC, a wholly owned subsidiary of Southwall Technologies Inc., acquired the operating assets of Crown Operations International, Ltd. (“Crown Operations”), for \$3,302 in cash. Subsequent to the acquisition of Crown Operations, Crown International Acquisition Company, LLC changed its name to Crown Operations International, LLC (“COI”). Crown Operations is an interlayer converting and laminating facility. The unaudited pro forma net revenues for the three and nine months ended September 30, 2010 were \$12,322 and \$35,005, respectively, and net income for the three and nine months ended September 30, 2010 were \$1,095 and \$5,930, respectively.

Note 13 – Goodwill and Intangible Assets

Goodwill

The Company reviews goodwill for impairment annually as of December 31 and whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable in accordance with authoritative

guidance. The circumstances that could trigger a goodwill impairment could include, but are not limited to, the following items to the extent that management believes the occurrence of one or more would make it more likely than not that we would fail the first step of the goodwill impairment test: significant adverse change in legal factors or in the business climate, an adverse action or assessment by a regulator, unanticipated competition, a loss of key personnel, a more-likely-than-not expectation that a reporting unit or a significant portion will be sold or otherwise disposed of, a portion of a reporting unit's goodwill has been included in the carrying amounts of a business that will be disposed or if our market capitalization is below our net book value.

In June 2011, the Company altered its business strategy to no longer support the Glass Segment's standard IGU product and reevaluated its ability to gain market share during the technology development stage. As a result, the Company determined that the goodwill related to the Glass Segment was impaired and recorded a one-time impairment charge of \$1,488 in the three month period ending June 30, 2011, which represents one hundred percent of the goodwill related to the Glass Segment.

Index

Goodwill impairment testing is a two-step process. Step 1 involves comparing the fair value of the Company's reporting units to their carrying amount. If the fair value of the reporting unit is greater than the carrying amount, there is no impairment. If the reporting unit's carrying amount is greater than the fair value, the second step must be completed to measure the amount of the impairment, if any. Step 2 calculates the implied fair value of goodwill by deducting the fair value of all tangible and intangible assets, excluding goodwill, of the reporting unit from the fair value of the reporting unit as determined in Step 1. The implied fair value of goodwill determined in this step is compared to the carrying value of goodwill. If the implied fair value of goodwill is less than the carrying value of goodwill, an impairment loss is recognized equal to the difference. The result of the Company's analysis indicated that there would be no remaining implied value attributable to the goodwill in the Glass Segment.

The Company's carrying value of goodwill at September 30, 2011 was \$366 as a result of the Company's acquisition of Crown International Operations.

Intangible Assets

Intangible assets are reviewed for impairment whenever events or circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. In June 2011, the Company determined that the goodwill of the Glass Segment was impaired. In conjunction with the valuation study for Step 2 of goodwill impairment testing, a valuation analysis of the Glass Segment's long-lived assets was also performed. Based on this analysis, the Company determined that the intangible assets of the Glass Segment were impaired and recorded an impairment charge of \$344 in the three month period ended June 30, 2011.

Intangible assets as of September 30, 2011 and December 31, 2010 consisted of the following:

	Range of Lives	September 30, 2011			December 31, 2010		
		Gross Assets	Accumulated Amortization	Net	Gross Assets	Accumulated Amortization	Net
Trade name	5	\$ 15	\$ (3)	\$ 12	\$ 315	\$ (38)	\$ 277
Customer relationships	2 - 10	170	(19)	151	420	(82)	338
Trade secrets	15	190	(14)	176	190	(4)	186
Non-compete agreement	2	15	(8)	7	15	(3)	12
Other	2- 5	-	-	-	100	(12)	88
		\$ 390	\$ (44)	\$ 346	\$ 1,040	\$ (139)	\$ 901

Amortization expense for the three months ended September 30, 2011 and 2010 for intangible assets was \$10 and \$65, respectively. Amortization expense for the nine months ended September 30, 2011 and 2010 for intangible assets was \$133 and \$83, respectively.

The following table represents the estimated future amortization expense of intangible assets as of September 30, 2011:

Fiscal year	Amount
2011 (3 months remaining)	\$10
2012	38
2013	33
2014	33
2015	32

Thereafter	200
Total	\$346

Note 14 – Total Equity

A summary of the changes in equity for the nine months ended September 30, 2011 is as follows:

	Nine Months Ended September 30, 2011		
	Southwall		
	Stockholders' Equity	Noncontrolling Interest	Total Equity
Balance at December 31, 2010	\$32,026	\$ (27)	\$31,999
Fair market value NCI of SIG	(246)	246	-
Stock-based compensation expense	740	-	740
Stock option exercises	71	-	71
Dividend accrual on Series A preferred stock	(366)	-	(366)
Total comprehensive income (loss)	1,515	(219)	1,296
Balance at September 30, 2011	\$33,740	\$ -	\$33,740

Note 15 – Related Party

As discussed in Note 12, Southwall IG Holdings, Inc., a wholly-owned subsidiary of Southwall Technologies Inc., obtained a 75% equity ownership in the joint venture with Sound Solutions in 2010, which resulted in the consolidation by the Company of assets and liabilities of SIG in May 2010. The Company's accounts receivable balance due from Sound Solutions was \$372 and \$650 at September 30, 2011 and December 31, 2010, respectively. The amount owed by the Company to Sound Solutions was \$3 at September 30, 2011 and December 31, 2010. Net revenues from Sound Solutions were \$351 and \$631 for the three and nine months ended September 30, 2011, respectively.

Note 16 – Subsequent Event

On October 6, 2011, the Company entered into a definitive agreement and plan of merger (the "Agreement") with Solutia Inc. ("Solutia") for the acquisition of the Company by Solutia for approximately \$113 million or \$13.60 per share, without interest. Solutia is a market-leading performance materials and specialty chemicals company. The acquisition of the Company by Solutia will help realize the potential of the Company's portfolio of energy efficiency solutions by combining the Company's innovations in sputtering technology with Solutia's commercial and market expertise.

On October 25, 2011, in accordance with the terms of the Agreement, Solutia commenced a tender offer to purchase all the outstanding shares of the Company's common stock (the "Shares") for \$13.60 net per share in cash, without interest (the "Offer"). Completion of the Offer is subject to customary terms and conditions, including, among other things (i) it having been validly tendered in accordance with the terms of the Offer and not properly withdrawn, at least a majority of the sum of (a) the number of Shares issued and outstanding plus (b) all Shares that the Company may be required to issue on or prior to Closing (as defined in the Agreement) as a result of the vesting, conversion or exercise of Company options and other derivative securities, including warrants, options (other than the Top-Up Option (as defined in the Agreement)) convertible or exchangeable securities or other rights to acquire Shares (including any shares of Preferred Stock remaining outstanding) and (ii) the required approvals under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and any other comparable applicable foreign antitrust laws, shall have been obtained, waived or made, as applicable, and the respective waiting periods required in connection with such laws shall have expired or been terminated. If the Offer is successfully completed, then following receipt of approval of the Company's stockholders, if required, we expect to consummate a merger that would result in all Shares remaining outstanding immediately prior to the merger being cancelled and converted into

the right to receive \$13.60 net per Share in cash, without interest. The tender offer is expected to be completed in the fourth quarter of 2011.

Additional details with respect to the Offer can be found in other filings with the U.S. Securities and Exchange Commission (the "SEC") made by the Company, including, but not limited to, the Solicitation/Recommendation Statement on Schedule 14D-9 filed by the Company with the SEC on October 25, 2011.

Shareholder Matters

On October 31, 2011 and November 1, 2011, three purported class action lawsuits were filed on behalf of the Company's stockholders related to the sale of the Company to Solutia and Backbone Acquisition Sub, Inc. ("Purchaser"). These suits name as defendants some combination of the Company and members of the Company's Board of Directors (collectively, the "Company Defendants"), Solutia and Purchaser (together with Solutia, the "Parent Defendants"), Dolphin Direct Equity Partners, L.P. and certain stockholders affiliated with the Needham Funds (collectively, the "Stockholder Defendants").

Index

Two complaints were filed in the Santa Clara Superior Court of California on October 31, 2011: Geometric Trading Company v. Capovilla, et al. (Case No. 111CV212244); and Beckett v. Capovilla et al. (Case No. 111CV212260). One complaint was filed in the Court of Chancery in the State of Delaware on November 1, 2011: Parcell v. Southwall Technologies, Inc. et al. (C.A. No. 7003-VCL).

The complaints generally allege that (i) the Company Defendants breached their fiduciary duties of care, loyalty, and good faith by facilitating the sale of the Company to Solutia and Purchaser through an unfair process at an unfair price; (ii) the Company Defendants breached their fiduciary duty of disclosure by omitting or misstating material information regarding the sale; (iii) the transaction unfairly benefits certain members of the Company's Board of Directors to the disadvantage of Company stockholders; (iv) the Stockholder Defendants breached their fiduciary duties to minority stockholders by facilitating the sale of the Company to Solutia and Purchaser; and (v) the Stockholder Defendants and Parent Defendants aided and abetted the Company Defendants' alleged breaches of fiduciary duties.

The complaints seek, among other relief, to enjoin the transaction, a declaration that the Company Defendants have breached their fiduciary duties to stockholders or aided and abetted those breaches, compensatory damages, or rescission of the transaction in the event the transaction has been completed and an award of costs, including reasonable attorneys' and expert fees.

On November 1, 2011, plaintiff Parcell filed a motion to expedite the proceedings in Delaware, seeking to expedite discovery and schedule a preliminary injunction hearing. The Delaware Court of Chancery denied the motion on November 8, 2011.

On November 3, 2011, plaintiff Geometric Trading Company filed an application for a temporary restraining order and expedited discovery in the Santa Clara Superior Court of California. A hearing on the application has been set for November 21, 2011.

On November 14, 2011, the parties to the putative class actions filed in California Superior Court and the Delaware Court of Chancery (the "Actions") reached an agreement in principle providing for the settlement of the Actions on terms and conditions set forth in a memorandum of understanding and subject to approval by the California Superior Court and the Delaware Court of Chancery.

Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations (in thousands):

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and notes thereto appearing elsewhere in this report. This discussion and analysis contains forward-looking statements that involve risks and uncertainties, including those discussed below under "Forward-Looking Statements" and "Risk Factors", set forth in Part I, Item 1A, of our Annual Report on Form 10-K for the year ended December 31, 2010 and in Part II, Item 1A of our Quarterly Report on Form 10-Q for the quarter ended September 30, 2011. You should not place undue reliance on these forward-looking statements. Actual results may differ materially from those anticipated in the forward-looking statements. These forward-looking statements represent our judgment as of the date of the filing of this Form 10-Q.

Forward Looking Statements

Cautionary Statement For the Purpose of the "Safe Harbor" Provisions of the Private Securities Litigation Reform Act of 1995

As used in this report, the terms "we," "us," "our," "Southwall" and the "Company" mean Southwall Technologies Inc. and its subsidiaries, unless the context indicates another meaning. This report contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995 that are subject to a number of risks and uncertainties. All statements other than statements of historical facts are forward-looking statements. These statements are identified by terminology such as "may," "will," "could," "should," "expects," "plans," "intends," "seeks," "anticipates," "believes," "estimates," "potential," or "continue," or the negative of such terms or other comparable terminology, or similar terminology, although not all forward-looking statements contain these identifying words. Forward-looking statements are only predictions and include, without limitation, statements relating to:

- our strategy, expected future operations and financial plans;
- our revenue expectations and potential financial results;
- the revenue expectations and potential financial results of Southwall Insulating Glass, LLC;
 - impact of current economic conditions on our business;
- the continued listing of our common stock on the NASDAQ Capital Market;
 - future applications of thin film coating technologies;
- our development of new technologies and products and integration;
 - the properties and functionality of our products;
- our projected need for additional borrowings and future liquidity;
- our ability to implement and maintain effective internal controls and procedures;
- the size of and the markets into which we sell or intend to sell our products;
- our intentions to pursue strategic alliances, acquisitions and business transactions;
 - the possibility of patent and other intellectual property infringement;
- our opinions regarding energy consumption and the loss of energy through inefficient glass;
 - pending and threatened litigation and its outcome;
- our competition and our ability to compete in the markets we serve; and
 - our projected capital expenditures.

You should not place undue reliance on our forward-looking statements. Actual events or results may differ materially. In evaluating these statements, you should specifically consider various factors, including the risks outlined under "Risk Factors" below. These and other factors may cause our actual results to differ materially from any forward-looking statement. Although we believe the expectations reflected in our forward-looking statements are reasonable as of the date they are being made, we cannot guarantee our future results, levels of activity, performance or achievements. Moreover, we do not assume any responsibility for the future accuracy and completeness of these forward-looking statements.

Index

XIR®, XUV®, Triangle Design®, Superglass®, Heat Mirror®, California Series®, Solis®, ETCH-A-FLEX®, and Southwall® are registered trademarks of Southwall. V-KOOL® is a registered trademark of Solutia, Inc. All other trade names and trademarks referred to in this Quarterly Report on Form 10-Q are the property of their respective owners.

Overview

Southwall is a developer and manufacturer of high performance films and, beginning in 2008, glass products that improve energy efficiency in architectural and automotive glass applications. Founded in response to the oil embargo of 1973, Southwall has approximately 35 years of experience and commercial adoption of its products worldwide. Our products are designed to assist our green building construction and transportation customers in their efforts to decrease carbon emissions which may reduce the use of oil and electricity in the heating and cooling of buildings and vehicles.

Our customers were not immune to the global economic downturn of 2009. We believe both the architectural and automotive industries experienced material sales declines, which negatively impacted our financial results in the early part of 2010.

In 2010, we acquired a controlling interest in Southwall Insulating Glass, LLC (“Southwall Insulating Glass” or “SIG”), a joint venture between our wholly-owned subsidiary Southwall IG Holdings Inc. and Sound Solutions Windows & Doors, LLC (“Sound Solutions”). In June 30, 2011, the Company increased its equity ownership in SIG to 100%.

As a result of our acquisition of a controlling interest in SIG, we operate in two segments: film, which includes our development and manufacture of thin film coatings on flexible substrates, and glass, which includes the production and sale of glass units through Southwall Insulating Glass.

In August 2010, we purchased substantially all of the assets of Crown Operations International, LTD (“Crown Operations”). Crown Operations is a Wisconsin-based processor of high performance, heat reflective interlayers that improve the energy efficiency of laminated glass in buildings, homes and cars. We expect the acquisition of these assets to provide additional integration and improvement of our production processes enabling us to bring new, energy-saving interlayer products to the market. We also believe that the Crown Operations’ laminating and converting capabilities simplify material logistics and facilitate the adoption of high performance interlayers for volume production. We believe we are now positioned to provide a complete interlayer solution from encapsulation through converting in furtherance of our goal of making it easier for manufacturers to integrate the performance of Southwall’s XIR heat-reflective film into their architectural and automotive laminated glass products.

Recent Events

On October 6, 2011, the Company entered into a definitive agreement and plan of merger (the “Agreement”) with Solutia Inc. (“Solutia”) for the acquisition of the Company by Solutia for approximately \$113 million or \$13.60 per share, without interest. Solutia is a market-leading performance materials and specialty chemicals company. The acquisition of the Company by Solutia will help realize the potential of the Company’s portfolio of energy efficiency solutions by combining the Company’s innovations in sputtering technology with Solutia’s commercial and market expertise.

On October 25, 2011, in accordance with the terms of the Agreement, Solutia commenced a tender offer to purchase all the outstanding shares of the Company’s common stock (the “Shares”) for \$13.60 net per share in cash, without interest (the “Offer”). Completion of the Offer is subject to customary terms and conditions, including, among other things (i) it having been validly tendered in accordance with the terms of the Offer and not properly withdrawn, at

least a majority of the sum of (a) the number of Shares issued and outstanding plus (b) all Shares that the Company may be required to issue on or prior to Closing (as defined in the Agreement) as a result of the vesting, conversion or exercise of Company options and other derivative securities, including warrants, options (other than the Top-Up Option (as defined in the Agreement)) convertible or exchangeable securities or other rights to acquire Shares (including any shares of Preferred Stock remaining outstanding) and (ii) the required approvals under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and any other comparable applicable foreign antitrust laws, shall have been obtained, waived or made, as applicable, and the respective waiting periods required in connection with such laws shall have expired or been terminated. If the Offer is successfully completed, then following receipt of approval of the Company's stockholders, if required, we expect to consummate a merger that would result in all Shares remaining outstanding immediately prior to the merger being cancelled and converted into the right to receive \$13.60 net per Share in cash, without interest. The tender offer is expected to be completed in the fourth quarter of 2011.

Index

Additional details with respect to the Offer can be found in other filings with the U.S. Securities and Exchange Commission (the “SEC”) made by the Company, including, but not limited to, the Solicitation/Recommendation Statement on Schedule 14D-9 filed by the Company with the SEC on October 25, 2011.

On October 31, 2011 and November 1, 2011, three purported class action lawsuits were filed on behalf of the Company’s stockholders related to the sale of the Company to Solutia and Backbone Acquisition Sub, Inc. (“Purchaser”). These suits name as defendants some combination of the Company and members of the Company’s Board of Directors (collectively, the “Company Defendants”), Solutia and Purchaser (together with Solutia, the “Parent Defendants”), Dolphin Direct Equity Partners, L.P. and certain stockholders affiliated with the Needham Funds (collectively, the “Stockholder Defendants”).

Two complaints were filed in the Santa Clara Superior Court of California on October 31, 2011: Geometric Trading Company v. Capovilla, et al. (Case No. 111CV212244); and Beckett v. Capovilla et al. (Case No. 111CV212260). One complaint was filed in the Court of Chancery in the State of Delaware on November 1, 2011: Parcell v. Southwall Technologies, Inc. et al. (C.A. No. 7003-VCL).

The complaints generally allege that (i) the Company Defendants breached their fiduciary duties of care, loyalty, and good faith by facilitating the sale of the Company to Solutia and Purchaser through an unfair process at an unfair price; (ii) the Company Defendants breached their fiduciary duty of disclosure by omitting or misstating material information regarding the sale; (iii) the transaction unfairly benefits certain members of the Company’s Board of Directors to the disadvantage of Company stockholders; (iv) the Stockholder Defendants breached their fiduciary duties to minority stockholders by facilitating the sale of the Company to Solutia and Purchaser; and (v) the Stockholder Defendants and Parent Defendants aided and abetted the Company Defendants’ alleged breaches of fiduciary duties.

The complaints seek, among other relief, to enjoin the transaction, a declaration that the Company Defendants have breached their fiduciary duties to stockholders or aided and abetted those breaches, compensatory damages, or rescission of the transaction in the event the transaction has been completed and an award of costs, including reasonable attorneys’ and expert fees.

On November 1, 2011, plaintiff Parcell filed a motion to expedite the proceedings in Delaware, seeking to expedite discovery and schedule a preliminary injunction hearing. The Delaware Court of Chancery denied the motion on November 8, 2011.

On November 3, 2011, plaintiff Geometric Trading Company filed an application for a temporary restraining order and expedited discovery in the Santa Clara Superior Court of California. A hearing on the application has been set for November 21, 2011.

On November 14, 2011, the parties to the putative class actions filed in California Superior Court and the Delaware Court of Chancery (the “Actions”) reached an agreement in principle providing for the settlement of the Actions on terms and conditions set forth in a memorandum of understanding and subject to approval by the California Superior Court and the Delaware Court of Chancery.

In June 2011, the Company altered its business strategy to no longer support the Glass Segment’s standard IGU product and reevaluated its ability to gain market share during the technology development stage. As a result, the Company determined that the goodwill related to the Glass Segment was impaired and recorded a one-time impairment charge of \$1,833 during the three month period ended June 30, 2011, which represents all of the goodwill and intangible assets related to the Glass Segment.

On March 17, 2011, we completed a 1-for-5 reverse stock split of our common stock, pursuant to previously obtained stockholder approval on May 12, 2010. The reverse stock split reduced the number of shares of our common stock issued and outstanding from approximately 28.8 million to approximately 5.8 million. In connection with the reverse stock split, we also reduced the number of our authorized shares of common stock from 50 million to 10 million to reflect the reverse stock split ratio. All share and per share amounts herein are presented on a post-reverse stock split basis.

In 2010, we were awarded a three-year grant of \$1,445 from the U.S. Department of Energy to develop advanced technologies aimed at making homes and buildings more energy efficient. We have used and will continue to use the funding to accelerate development of higher performance and lower cost Heat Mirror low-emissivity and solar-reflective films and multi-cavity, suspended-film insulating glass technology to enable the broad commercialization of "super-insulating" R-10 windows.

Demand for our customers' products. We derive significant benefits from our relationships with a few large customers and suppliers. Our revenues and gross profit can increase or decrease rapidly, reflecting underlying demand for the products of one or a small number of our customers. We may also be unable to replace a customer when a relationship ends or demand for our product declines as a result of evolution of our customers' products.

Our three largest customers in the automotive glass and window film market, and architectural glass markets include: Saint Gobain Sekurit, Pilkington PLC, and Solutia Inc., formerly GlobaMatrix Holdings Pte. Ltd., which collectively accounted for approximately 69% of our total revenues during the nine months ended September 30, 2011 and 2010.

Under our agreement with Solutia Inc., as amended, Solutia Inc. agreed to a 2004 minimum purchase commitment of \$9,000 of product. For each year after 2004 through the term of the contract, Solutia Inc. contracted to purchase an amount of product equal to 110% of the amount of product it was required to purchase in the prior year.

Critical Accounting Policies and Estimates

The accompanying discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (GAAP). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. We base our estimates and judgments on historical experience and on various other assumptions that we believe are reasonable under the circumstances. However, future events cannot be forecasted with certainty, and the best estimates and judgments routinely require adjustment. We are required to make estimates and judgments in many areas, including those related to: revenue recognition, accrual for product returns and warranties, allowance for doubtful accounts, quarterly income taxes, inventory valuations (including reserves for excess and obsolete and impaired inventories), impairment of intangibles and goodwill, reserves for decommissioning costs associated with leasehold asset retirement obligations and valuation of stock-based compensation. We believe these policies are the most critical to our financial statements because their application places the most significant demands on management's judgment. Senior management has discussed the development, selection and disclosure of these estimates with the Audit Committee of our Board of Directors.

Index

We believe there have been no significant changes during the first six months of fiscal 2011 to the items that we disclosed as our critical accounting policies and estimates in our discussion and analysis of financial condition and results of operations in our 2010 Form 10-K.

Three and Nine Months Ended September 30, 2011 compared with Three and Nine Months Ended September 30, 2010

Results of Operations

Net revenues

Net revenues by operating segment are summarized in the following table:

	Three Months Ended		Change in			Nine Months Ended		Change in		
	September 30, 2011	September 30, 2010	Dollars	Percent		September 30, 2011	September 30, 2010	Dollars	Percent	
Net revenues:										
Film:										
Automotive film	\$3,750	\$4,849	\$(1,099)	-23 %		\$15,989	\$14,735	\$1,254	9 %	
Window film	7,417	4,981	2,436	49 %		19,047	14,291	4,756	33 %	
Architectural	1,479	1,486	(7)	0 %		4,704	4,058	646	16 %	
Other	206	122	84	69 %		558	192	366	191 %	
Total film	12,852	11,438	1,414	12 %		40,298	33,276	7,022	21 %	
Glass	749	760	(11)	-1 %		1,368	1,193	175	15 %	
Total net revenues	\$13,601	\$12,198	\$1,403	12 %		\$41,666	\$34,469	\$7,197	21 %	

Total net revenues increased 12% and 21% for the three and nine months ended September 30, 2011, respectively, from the same periods in 2010. The decrease in automotive film net revenues in the three month period reflects a softening of the European automotive market while the increase for the nine month period reflects a continued growth in demand from 2010 from our OEM customers. The higher window film net revenues was primarily due to continued demand resulting from higher global sales of automobiles in the third quarter of 2011, compared to the same period in 2010. The net revenues growth in architectural film was primarily due to increased material required for a major project in China.

Cost of revenues

Cost of revenues increased \$1,125, or 16 %, to \$8,015 for the three months ended September 30, 2011 from \$6,890 for the same period in 2010 primarily as a result of higher sales volume in the three months ended September 30, 2011 as compared to the same period in 2010. Cost of revenues increased \$5,634, or 30 %, to \$24,183 for the nine months ended September 30, 2011 from \$18,549 for the same period in 2010 primarily as a result of higher sales volume and increased cost of precious metals consumed to manufacture sputtered film.

Index

Gross profit

	Three Months Ended				Change in						Nine Months Ended					
	September 30,		2010		Dollars		Percent		September 30,		2010		Dollars		Percent	
	2011	2010							2011	2010						
Gross profit	\$5,586	\$5,308	\$278	5	%	\$17,483	\$15,920	\$1,563	10	%						
Percentage of net revenues	41	%	44	%					42	%	46	%				

Our gross profit percentage decreased by approximately 3 percentage points to 41 percent for the three months ended September 30, 2011 compared to 44 percent for the same period in 2010. Our gross profit percentage decreased by approximately 4 percentage points to 42 percent for the nine months ended September 30, 2011 compared to 46 percent for the same period in 2010. The decrease was primarily due to costs associated with the consolidation of SIG beginning in May 2010 and increased cost of precious metals consumed to manufacture sputtered film.

Operating expenses

Operating expenses are summarized in the following table:

	Three Months Ended				Change in						Nine Months Ended					
	September 30,		2010		Dollars		Percent		September 30,		2010		Dollars		Percent	
	2011	2010							2011	2010						
Research and development	\$980	\$1,024	\$(44))	-4	%	\$3,127	\$2,608	\$519	20	%					
Percentage of net revenues	7	%	8	%					8	%	8	%				
Selling, general and administrative	3,775	2,772	1,003	36	%	9,651	7,038	2,613	37	%						
Percentage of net revenues	28	%	23	%					23	%	20	%				
Goodwill and intangible assets impairment	-	-	-	nm					1,833	-	1,833	nm				
Percentage of net revenues	-	-							4	%	-					
Total	\$4,755	\$3,796	\$959	25	%	\$14,611	\$9,646	\$4,965	51	%						
Percentage of net revenues	35	%	31	%					35	%	28	%				

nm – not meaningful

Research and development. The decrease in research and development expenses for the three months ended September 30, 2011 as compared to the same period in 2010 was due to a reduction in outside services in support of research projects and the benefit from the DOE grant proceeds. The increase in research and development expenses for the nine months ended September 30, 2011 of \$519 to \$3,127 as compared to the same period in 2010 was primarily due to higher headcount related expenses and increased spending for travel and outside services offset by the benefit from the DOE grant proceeds.

Selling, general and administrative. The increase in selling, general and administrative expenses for the three and nine months ended September 30, 2011 as compared to the same periods in 2010 was primarily due to higher headcount related expenses, including stock-based compensation expense, increased spending for mergers and acquisition activities and the consolidation of SIG and Crown Operations.

Goodwill and intangible assets impairment. The Company reviews goodwill for impairment annually as of December 31 and whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable in accordance with authoritative guidance. The circumstances that could trigger a goodwill impairment could include, but are not limited to, the following items to the extent that management believes the occurrence of one or more would make it more likely than not that we would fail the first step of the goodwill impairment test: significant adverse change in legal factors or in the business climate, an adverse action or assessment by a regulator, unanticipated competition, a loss of key personnel, a more-likely-than-not expectation that a reporting unit or a significant portion will be sold or otherwise disposed of, a portion of a reporting unit's goodwill has been included in the carrying amounts of a business that will be disposed or if our market capitalization is below our net book value.

In June 2011, the Company altered its business strategy to no longer support the Glass Segment's standard IGU product and reevaluated its ability to gain market share during the technology development stage. As a result, the Company determined that the goodwill related to the Glass Segment was impaired and recorded a one-time impairment charge of \$1,833 during the three month period ended June 30, 2011, which represents all of the goodwill and intangible assets related to the Glass Segment.

Index

Income from operations

Income from operations decreased \$681 to \$831 for the three months ended September 30, 2011, as compared to operating income of \$1,512 for the same period in 2010. The decrease in operating income was primarily due to higher selling, general and administrative expenses coupled with the impact of higher precious metals cost. Income from operations decreased \$3,402 to an operating income of \$2,872 for the nine months ended September 30, 2011, as compared to operating income of \$6,274 for the same period in 2010. The decrease for the nine month period was primarily due to higher operating expenses and a goodwill and intangible assets impairment charge of \$1,833.

Interest expense, net

Interest expense, net of \$60 for the three months ended September 30, 2011 was relatively unchanged as compared to \$67 for the same period in 2010 and decreased to \$192 for the nine months ended September 30, 2011 from \$225 for the same period in 2010. The decrease in net interest expense was primarily due to lower average outstanding debt balances for the nine months ended September 30, 2011, as compared to the same period in 2010.

Other income (expense), net

Other income (expense), net, was net other expense of \$171 compared to net other income of \$560 for the three months ended September 30, 2011, and 2010, respectively, and was primarily foreign currency losses and gains related to transactions with foreign customers that were denominated in foreign currencies, principally the Euro. For the nine months ended September 30, 2011, we recognized net other income of \$166, principally foreign exchange gains, compared to net other income of \$202 for the same period in 2010. For the nine months ended September 30, 2010, we recognized foreign exchange losses of \$210, 66.3% share of net losses incurred by SIG of \$333 and a gain of \$706 upon acquiring controlling interest in SIG in May 2010.

Income before provision for income taxes

Income before provision for income taxes for the three months ended September 30, 2011 was \$600 and income before provision for income taxes was \$2,846 for the nine months ended September 30, 2011, as compared to income before provision for income taxes \$2,005 and \$6,251, respectively for the same periods in 2010. The increases were primarily due to higher sales and production volumes.

Provision for income taxes

We recorded an income tax provisions of \$389 and \$1,697 in the three and nine months ended September 30, 2011, respectively, and \$1,870 and \$959 for the three and nine months ended September 30, 2010, respectively. The effective tax rate was 65.7% for the nine months ended September 30, 2011 and 15.3% for the same period in 2010. The primary reason for the change in the effective tax rates for the period in 2011 as compared to the same period in 2010 is due to the impairment charge for goodwill and the impact of the valuation allowance during 2010. Our effective tax rate differs from the statutory rate due to various factors, such as tax legislation, the mix of domestic and international pre-tax income, research and development credits, foreign tax credits, share-based compensations and change in valuation allowance.

The impact of an uncertain income tax position on the income tax return must be recognized at the largest amount that is more likely than not to be sustained upon audit by the relevant tax authority. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. As of September 30, 2011, we identified and recorded a discrete adjustment for estimated tax liabilities, including interest and penalties, of \$173 for costs incurred by Southwall Europe GmbH from 2006 through 2010 that were not reimbursed by Southwall Technologies

Inc. Previously we identified and recorded unrecognized tax benefits in the amount of approximately \$394, that if reversed, would impact the tax expense, but no interest and penalties have been recorded due to the immaterial impact to the financial statements. We do not expect material changes in the balance of unrecognized tax benefits will occur within the next twelve months.

Net loss attributable to noncontrolling interest

Net loss attributable to noncontrolling interest of \$219 for the nine months ended September 30, 2011, respectively, is related to the consolidation of SIG upon acquisition of a controlling interest during the second quarter of 2010. In June 2011, the Company increased its equity ownership in SIG to 100%. Net loss attributable to noncontrolling interest was \$122 and \$152 for the three and nine months ended September 30, 2010, respectively.

Index

Deemed dividend on preferred stock

We accrued \$122 of deemed dividend on preferred stock in each of the three months ended September 30, 2011 and 2010, respectively, and \$366 in each of the nine months ended September 30, 2011 and 2010, respectively. The holders of our secured convertible promissory notes converted those notes to shares of Series A preferred stock in December 2004. The Series A preferred stock accrues cumulative dividends at the rate of 10% per annum.

Liquidity and Capital Resources

Liquidity

Our principal liquidity requirements are for working capital, consisting primarily of accounts receivable and inventories, for debt repayments and capital expenditures. We believe that because of the production cycle of certain of our products, our inventories will continue to represent a significant portion of our working capital.

Our cash and cash equivalents decreased \$914 from \$13,776 at December 31, 2010 to \$12,862 at September 30, 2011. The decrease in cash is primarily due to changes in working capital and capital expenditures, partially offset by net income and non-cash expenses.

Specifically, cash provided by operating activities of \$2,015 for the nine months ended September 30, 2011 was primarily the result of net income of \$976, non-cash depreciation and amortization of \$2,569, non-cash stock-based compensation expense of \$740 and non-cash impairment charge for goodwill and intangible assets of \$1,833 offset by an increases in accounts receivable of \$2,021 and in inventories of \$2,503.

Cash used in investing activities for the nine months ended September 30, 2011 was for capital expenditures of \$2,238.

Cash used in financing activities for the nine months ended September 30, 2011 of \$614 was the result of scheduled payments of other term debt and capital lease obligations of \$696, offset by proceeds from stock option exercises of \$71.

Borrowing arrangements

Credit Agreement with Wells Fargo Bank

In June 2011, we renewed our Credit Agreement with Wells Fargo Bank (the "Bank"). The Credit Agreement provides for a \$3,000 revolving line of credit. Advances under the line exceeding \$1,500 will be limited to 80% of eligible accounts receivable. We will not be eligible for additional borrowings if our consolidated cash balance falls below \$3,500. Amounts borrowed under the facility bear interest at either prime plus 0.75% or LIBOR plus 3.5%, determined at our discretion, and is annualized on the average daily financed amount outstanding. All borrowings under the facilities are collateralized by our assets in the United States and are subject to certain covenants including minimum quarterly net income and minimum liquid asset requirements.

Generally, if any event of default occurs, the Bank may declare all outstanding indebtedness under the Credit Agreement to be due and payable. The maturity date of the facility is June 2012. Although we expect to renew the credit line, we can provide no assurance that we will be successful in obtaining a new or replacement credit facility due to restrictive credit markets. As of September 30, 2011, we had no balance outstanding on our line of credit. The foregoing does not purport to be a complete statement of the parties' rights and obligations under the Credit Agreement, and the transactions contemplated thereby or a complete explanation of material terms thereof.

In August 2010, our Credit Agreement with the Bank was amended to provide for a \$1,250 term loan, which was funded on September 2, 2010. Amounts borrowed under the term loan are payable over 36 months in equal installments and bear interest at a fixed rate 4.05%. The Credit Agreement was further amended to provide covenants for tangible net worth and fixed charge coverage ratio.

We have classified \$482 and \$575 outstanding under the Bank term loan and capital lease as a short-term liability and long-term liability, respectively, at September 30, 2011. We are obligated to pay an aggregate of \$417 in principal under our Wells Fargo term loan in 2011.

On December 27, 2010, we entered into a lease agreement with the Bank to finance research and development equipment. The lease term is 48 months and requires monthly payments. As of September 30, 2011, the principal balance of this lease was \$223.

As of September 30, 2011 the Company was in compliance with all financial covenants.

Index

Borrowing Arrangements with German Banks

Our borrowing arrangements with various German banks as of September 30, 2011 are described in Note 7 of the Notes to Unaudited Condensed Consolidated Financial Statements (Item 1. "Financial Statements") set forth herein. We are in compliance with all of the covenants of the German bank loans and capital leases, and we have classified \$389 and \$2,379 outstanding under the German bank loans and capital leases as a short-term liability and long-term liability, respectively, at September 30, 2011.

Capital expenditures

We expect to spend approximately \$5,700 in 2011 primarily related to machinery and equipment for production automation and additional equipment investment in our Germany facility.

Future payment obligations

Our future payment obligations on our borrowings pursuant to our term debt, non-cancelable operating and capital leases and other non-cancelable contractual commitments were as follows at September 30, 2011:

	Total	Less Than 1 Year	1-3 Years	3-5 Years	Greater Than 5 Years
Term debt (1)	\$3,553	\$757	\$1,097	\$680	\$1,019
Capital lease obligations (1)	371	213	140	18	-
Term debt and capital lease obligation interest (1)	678	186	248	156	88
Other obligations (2)	6,271	2,969	-	-	3,302
Operating leases (3)	2,734	201	1,443	865	225
Total	\$13,607	\$4,326	\$2,928	\$1,719	\$4,634

(1) Represents the principal and interest allocations of loan and capital lease agreements with Varilease Finance Inc. and several German Banks and Wells Fargo Bank.

(2) Represents commitments to purchase manufacturing material and services (less than one year) and accumulated dividends on Series A preferred stock (greater than five years).

(3) Represents the remaining rents owed on buildings we rent in Palo Alto, California, and Chicago, Illinois.

As of September 30, 2011, we maintained 30,174 square feet of office and warehouse space at 3780-3788 Fabian Way, Palo Alto, California 94303. In 2011, the monthly rent payments are \$40 and will increase annually at a rate of 3% through the expiration of the lease.

As of September 30, 2011, we had a lease obligation for 9,200 square feet at 3961 East Bayshore Road, Palo Alto, California 94303. The monthly rent payments for this facility are \$4.

As of September 30, 2011, we had a lease obligation for 75,640 square feet at 4404 W. Ann Lurie Place, Chicago, IL 60632. The monthly rent payments for this facility are \$20, which increases to \$25 in April 2011, \$29 in October 2011, and increases thereafter annually at a rate of 3.6% through the expiration of the lease.

As of September 30, 2011, we had unconditional purchase obligations to procure equipment of \$2,811.

Index

Item 3 – Quantitative and Qualitative Disclosures about Market Risk

We are exposed to the impact of interest rate changes, foreign currency fluctuations, and changes in the market values of our investments.

Financing risk. The interest rate on one of our German loans was reset to the prevailing market rate of 5.73% in September 2009. Fluctuations or changes in interest rates may adversely affect our expected interest expense. The effect of a 10% fluctuation in the interest rate on our line of credit and term debt would not have a material effect on our interest expense for the third quarter of 2011.

Investment risk. We invest our excess cash in money market accounts and, by practice, make every effort to limit the amount of exposure by investing with strong, well-known institutions. Investments in both fixed rate and floating rate interest earning instruments carry a degree of interest rate risk. Fixed rate securities may have their fair market value adversely affected due to a rise in interest rates, while floating rate securities may produce less income than expected if interest rates fall. The effect of a 10% fluctuation in the interest rate on our excess cash investments would not have had a material effect on our interest income in the nine months ended September 30, 2011.

Foreign currency risk. International net revenues (defined as sales to customers located outside of the United States) accounted for approximately 84% of our total net revenues in the three months ended September 30, 2011. Approximately 26% of our international net revenues were denominated in Euros in the third quarter of 2011. The remaining 58% of our international net revenues were denominated in U.S. dollars. In addition, certain transactions with foreign suppliers are denominated in foreign currencies. The effect of a 10% fluctuation in the Euro exchange rate would have had an effect of approximately \$355 on net revenues and \$611 on expenses and the effect on expenses of a 10% reduction in the Yen exchange rate would have an effect of approximately \$156 for the third quarter of 2011.

Item 4 – Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures. Under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended. Based on this evaluation, our Principal Executive Officer and Principal Financial Officer concluded as of the end of the period covered by this report, that our disclosure controls and procedures were effective, such that the information relating to our company, including our consolidated subsidiaries, required to be disclosed in our Securities and Exchange Commission (“SEC”) reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Controls. There were no changes during the nine month period ended September 30, 2011 in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the internal controls over financial reporting.

Internal control systems, no matter how well designed and operated, have inherent limitations. Consequently, even a system which is determined to be effective cannot provide absolute assurance that all control issues have been detected or prevented. Our systems of internal controls are designed to provide reasonable assurance with respect to financial statement preparation and presentation.

PART II – OTHER INFORMATION

Item 1– Legal Proceedings

We may be a party to various pending judicial and administrative proceedings arising in the ordinary course of business. While the outcome of the pending proceedings cannot be predicted with certainty, based on our review, we believe that any unrecorded liability that may result is not likely to have a material effect on our liquidity, financial condition or results of operations.
