Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Conflict Minerals Disclosure

This Conflict Minerals Disclosure of Stamps.com Inc. ("Stamps.com") is being filed for calendar year 2014 in accordance with Rule 13p-1 ("Rule 13p-1") promulgated under the Securities Exchange Act of 1934 (the "1934 Act"). Please refer to Rule 13p-1, Form SD and the 1934 Act Release No. 34-67716 for definitions to the terms used in this Conflict Minerals Disclosure, unless otherwise defined herein.

Form SD defines conflict minerals as columbite-tantalite, cassiterite, wolframite and gold, and their derivatives which are currently limited to tin, tungsten and tantalum. Stamps.com has determined that we are subject to the Conflict Minerals Statutory Provision because the use of conflict minerals are necessary to the functionality or production of some of our products contracted to be manufactured, mainly scales. Stamps.com has determined after its reasonable country of origin inquiry, reasonably designed and conducted in good faith, that its conflict minerals did not originate in the Covered Countries.

As part of the reasonable country of origin inquiry, Stamps.com contacted its suppliers of conflict minerals and requested information regarding the country of origin for the conflict minerals supplied to Stamps.com. In response to this inquiry, Stamps.com obtained executed Certificates of Origin from its suppliers of conflict minerals which certified that the conflict minerals either (i) did not originate in the Covered Countries or (ii) were derived from recycled or scrap sources.

Therefore, Stamps.com has determined that its conflict minerals did not originate in the Covered Countries.

A copy of Stamps.com's Conflict Minerals Disclosure is publicly available at [investor.stamps.com](http://investor.stamps.com).
