Diageo PLC

15 October 2008

Interim management statement for the three months ended 30 September 2008

15 October 2008

**Diageo maintains full year guidance of organic operating profit growth of between 7% and 9%.**

Organic net sales growth in the three month period ended 30 September 2008 was 6%. There has been no material change in the financial position of the group during the period. £277 million of share repurchases as part of the share buy back programme were the principal reason for the movement in net assets from £4.2 billion at 30 June 2008 to £4.1 billion at 30 September 2008.

Paul Walsh, Chief Executive of Diageo, will make the following comments at Diageo's AGM today:

'As we anticipated, global GDP growth has slowed since the beginning of the financial year. Although these challenging economic trends have affected our business, the strength and diversity of Diageo has delivered a good trading performance in the first quarter.

'While we have not seen significant adverse changes in our markets in the first quarter, we will be alert to the impact the recent dislocation in the financial markets is likely to have on trade customer and consumer behaviour during the rest of the financial year. However, based on our current performance we can repeat the guidance we gave in August, for organic operating profit growth for the coming year to be within the range of 7% to 9%.'
