NOTES TO CONDENSED FINANCIAL STATEMENTS
(Unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations and Activities

Soliton Devices, Inc., a Delaware corporation (the “Company” or “Soliton”), designs, develops, manufactures, and markets solid-state semiconductor components and related devices primarily for the military and aerospace markets. The Company was incorporated under the laws of the State of New York in 1959 and reincorporated under the laws of the State of Delaware in August 1987.

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Cash and Cash Equivalents

Cash and cash equivalents include demand deposits and money market accounts.

Investment in Treasury Bills

Investment in Treasury Bills includes treasury bills with maturities of one year or less and is stated at market value.

Accounts Receivable

Accounts receivable consists of unsecured credit extended to the Company’s customers in the ordinary course of business. The Company reserves for any amounts deemed to be uncollectible based on past collection experiences and an analysis of outstanding balances using an allowance account. The allowance amount was \$2,000 as of May 31, 2010 and February 28, 2010.

Shipping and Handling

Shipping and handling costs billed to customers are recorded in net sales. Shipping costs incurred by the Company are recorded in cost of sales.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the “first-in, first-out” (FIFO) method. The Company buys raw material only to fill customer orders. Excess raw material is created only when a vendor imposes a minimum buy in excess of actual requirements. Such excess material will usually be utilized to meet the requirements of the customer’s subsequent orders. If excess material is not utilized after two fiscal years it is fully reserved. Any inventory item once designated as reserved is carried at zero value in all subsequent valuation activities.

The Company’s inventory valuation policy is as follows:

Raw material /Work in process: All material purchased, processed, and/or used in the last two fiscal years is valued at the lower of its acquisition cost or market. All material not purchased/used in the last two fiscal years is fully reserved for.

Finished goods: All finished goods with firm orders for later delivery are valued (material and overhead) at the lower or cost or market. All finished goods with no orders are fully reserved.

Direct labor costs:

Direct labor costs are allocated to finished goods and work in process inventory based on engineering estimates of the amount of man-hours required from the different direct labor departments to bring each device to its particular level of completion.

SOLITRON DEVICES, INC.
NOTES TO CONDENSED FINANCIAL STATEMENTS

(Unaudited)

2. ENVIRONMENTAL REGULATION:

While the Company believes that it has the environmental permits necessary to conduct its business and that its operations conform to present environmental regulations, increased public attention has been focused on the environmental impact of semiconductor manufacturing operations. The Company, in the conduct of its manufacturing operations, has handled and does handle materials that are considered hazardous, toxic or volatile under federal, state and local laws and, therefore, is subject to regulations related to their use, storage, discharge and disposal. No assurance can be made that the risk of accidental release of such materials can be completely eliminated. In the event of a violation of environmental laws, the Company could be held liable for damages and the costs of remediation. In addition, the Company, along with the rest of the semiconductor industry, is subject to variable interpretations and governmental priorities concerning environmental laws and regulations. Environmental statutes have been interpreted to provide for joint and several liability and strict liability regardless of actual fault. There can be no assurance that the Company will not be required to incur costs to comply with, or that the operations, business or financial condition of the Company will not be materially adversely affected by current or future environmental laws or regulations.

3. ENVIRONMENTAL LIABILITIES:

The Company entered into an Ability to Pay Multi-Site Settlement Agreement with the United States Environmental Protection Agency (“USEPA”), effective February 24, 2006 (“Settlement Agreement”), to resolve the Company’s alleged liability to USEPA at the following sites: Solitron Microwave Superfund Site, Port Salerno, Florida (“Port Salerno Site”); Petroleum Products Corporation Superfund Site, Pembroke Park, Florida; Casmalia Resources Superfund Site, Santa Barbara, California (“Casmalia Site”); Solitron Devices Site, Riviera Beach, Florida (the “Riviera Beach Site”); and City Industries Superfund Site, Orlando, Florida (collectively, the “Sites”). The Settlement Agreement required the Company to pay to USEPA the sum of \$74,000 by February 24, 2008; the Company paid the entire sum of \$74,000 to USEPA on February 27, 2006. In addition, the Company is required to pay to USEPA the sum of \$10,000 or 5% of Solitron’s net after-tax income over the first \$500,000, if any, whichever is greater, for each year from fiscal years 2010-2013. For payment to USEPA to be above \$10,000 for any of these five years, the Company’s net income must exceed \$700,000 for such year, which has happened in fiscal year 2001, fiscal year 2006, fiscal year 2009 and fiscal year 2010. In February 2010, the Company paid \$10,000 to USEPA for fiscal year 2010 based on preliminary net income projections. The Company has accrued an additional \$4,000 for fiscal year 2010 pursuant to its obligations under the Settlement Agreement. The Company accrued \$30,000 for its remaining minimum obligations under the Settlement Agreement. This amount is reflected in “Accrued expenses and other current liabilities” on the Company’s balance sheets at May 31, 2010.

SOLITRON DEVICES, INC.
NOTES TO CONDENSED FINANCIAL STATEMENTS
(Unaudited)

In consideration of the payments made by the Company under the Settlement Agreement, USEPA agreed not to sue or take any administrative action against the Company with regard to any of the Sites. The Company has also been notified by a group of alleged responsible parties formed at the Casmalia Site (“Casmalia PRP Group”) that, based on their review and lack of objection to the Settlement Agreement, the Casmalia PRP Group does not anticipate pursuing Solitron for cost recovery at the Casmalia site.

On October 21, 1993, a Consent Final Judgment was entered into between the Company and the Florida Department of Environmental Protection (“FDEP”) in the Circuit Court of the Nineteenth Judicial Circuit of Florida in and for Martin County, Florida, in Case No. 91-1232 CA (the “Consent Final Judgment”). The Consent Final Judgment required the Company to remediate the Port Salerno and Riviera Beach Sites, make monthly payments to escrow accounts for each Site until the sale of the Sites to fund the remediation work, take all reasonable steps to sell the two Sites and, upon the sale of the Sites, apply the net proceeds from the sales to fund the remediation work. Both Sites have been sold pursuant to purchase agreements approved by FDEP.

Prior to the sale of the Port Salerno Site and Riviera Beach Site, USEPA took over from FDEP as the lead regulatory agency for the remediation of the Sites. At the closing of the sale of each Site, the net proceeds of sale were distributed to USEPA and/or FDEP or other parties, as directed by the agencies. In addition, upon the sale of the Riviera Beach Site, the Riviera Beach Escrow Account was transferred to USEPA, as directed by the agencies. The current balance in the Port Salerno Escrow Account is approximately \$58,000. At present, work at the Port Salerno Site is being performed by USEPA. Work at the Riviera Beach Site is being performed by Honeywell, Inc. (“Honeywell”), pursuant to an Administrative Order on Consent entered into between Honeywell and USEPA. The Company has been notified by FDEP that the successful performance of remediation work in accordance with the Consent Final Judgment standards by USEPA at the Port Salerno Site and by Honeywell at the Riviera Beach Site will be construed by FDEP as discharging the Company’s remediation obligations under the Consent Final Judgment.

There remains a possibility that FDEP will determine at some time in the future that the final remedy approved by USEPA and implemented at either, or both of, the Port Salerno Site and Riviera Beach Site does not meet the State cleanup requirements imposed by the Consent Final Judgment. If such a final determination is made by FDEP, there is a possibility that FDEP will require the Company to implement additional remedial action at either, or both of, the Port Salerno Site and Riviera Beach Site.

By letter dated November 16, 2006, FDEP notified the Company that FDEP has unreimbursed expenses associated with the Port Salerno Site and Riviera Beach Site of \$214,800. FDEP further notified the Company that FDEP required the Company to resume payments under the Consent Final Judgment to ensure that there are adequate funds to cover FDEP’s unreimbursed expenses and the Company’s residual liability under the Consent Final Judgment. During a follow up telephone conversation with the Company’s attorney, FDEP advised the Company that FDEP will prepare a justification for the asserted unreimbursed expenses. Upon receipt of the cost reimbursement package, the Company is required to transfer \$55,000 from the Port Salerno Escrow Account to FDEP as partial payment for FDEP’s unreimbursed expenses that are otherwise recoverable under the Consent Final Judgment. FDEP further stated, during the telephone conversation, that FDEP will work with the Company to establish a reduced payment schedule for the Company to resume under the Consent Final Judgment based on an appropriate showing by the Company of financial hardship. The Company is currently awaiting receipt of FDEP’s cost reimbursement package. Upon receipt of that documentation, the Company will be required to provide a recommendation to FDEP for resumption of payments to FDEP under the Consent Final Judgment based on the Company’s present ability to pay.

SOLITRON DEVICES, INC.
NOTES TO CONDENSED FINANCIAL STATEMENTS
(Unaudited)

On August 7, 2002, the Company received a Request for Information from the State of New York Department of Environmental Conservation (“NYDEC”), seeking information on whether the Company had disposed of certain wastes at the Clarkstown Landfill Site located in the Town of Clarkstown, Rockland County, New York (The Clarkstown Landfill Site”). By letter dated August 29, 2002, the Company responded to the Request for Information and advised NYDEC that the Company’s former Tappan, New York facility had closed in the mid-1980’s, prior to the initiation of the Company’s bankruptcy proceedings described below. The Company contends that, to the extent that NYDEC has a claim against the Company as a result of the Company’s alleged disposal of wastes at the Clarkstown Landfill Site prior to the closing of the Company’s former Tappan facility in the mid-1980’s, the claim was discharged in bankruptcy as a result of the Bankruptcy Court’s August 1993 Order. At NYDEC’s request, the Company entered into a revised Tolling Agreement with NYDEC on December 28, 2009, which provides for the tolling of applicable statutes of limitation through the earlier of November 19, 2010, or the date the State institutes a suit against the Company for any claims associated with the Clarkstown Landfill Site. It is not known at this time whether NYDEC will pursue a claim against the Company in connection with the Clarkstown Landfill Site. As of the date of this filing, no such claim has been made by NYDEC. The Clarkstown Landfill Joint Defense Group (“Clarkstown JDG”), a group of potentially responsible parties formed to respond to claims by NYDEC for recovery of closure and clean-up response costs at the Clarkstown Landfill Site, is negotiating with NYDEC to settle the claims of NYDEC against all potentially responsible parties at the Clarkstown Landfill site that participate in the Clarkstown JDG. In connection with those negotiations, the Clarkstown JDG, by letter dated March 17, 2010, offered to pursue a settlement of NYDEC’s claim against the Company in return for the Company’s agreement to pay the sum of \$125,000.00, representing the Company’s alleged share of the overall settlement with NYDEC. The Company rejected the settlement offer on March 29, 2010, based on its continuing contention that any claim of NYDEC against the Company was discharged in bankruptcy as a result of the Bankruptcy Court’s August 1993 Order.

4. EARNINGS PER SHARE:

The shares used in the computation of the Company’s basic and diluted earnings per common share were as follows:

	For the three months ended May 31,	
	2010	2009
Weighted average common shares outstanding	2,263,775	2,263,775
Dilutive effect of employee stock options	210,996	191,109
Weighted average common shares outstanding, assuming dilution	2,474,771	2,454,884

Weighted average common shares outstanding, assuming dilution, include the incremental shares that would be issued upon the assumed exercise of stock options. For the three month periods ended May 31, 2010 and May 31, 2009, 13,500 shares underlying the Company’s stock options were excluded from the calculation of diluted earning per share because the exercise prices of the stock options were greater than or equal to the average price of the common shares, and therefore their inclusion would have been anti-dilutive.

5. INVENTORIES:

As of May 31, 2010, inventories consist of the following:

Edgar Filing: SOLITRON DEVICES INC - Form 10-Q

	Gross	Reserve	Net
Raw Materials	\$ 1,618,000	\$ (379,000)	\$ 1,239,000
Work-In-Process	2,364,000	(760,000)	1,604,000
Finished Goods	508,000	(492,000)	16,000
Totals	\$ 4,490,000	\$ (1,631,000)	\$ 2,859,000

9

SOLITRON DEVICES, INC.
NOTES TO CONDENSED FINANCIAL STATEMENTS
(Unaudited)

As of February 28, 2010, inventories consist of the following:

	Gross	Reserve	Net
Raw Materials	\$ 1,515,000	\$ (379,000)	\$ 1,136,000
Work-In-Process	2,364,000	(760,000)	1,604,000
Finished Goods	557,000	(488,000)	69,000
Totals	\$ 4,436,000	\$ (1,627,000)	\$ 2,809,000

6. INCOME TAXES:

At May 31, 2010, the Company has net operating loss carryforwards of approximately \$15,802,000 that expire through 2024. Such net operating losses are available to offset future taxable income, if any. As the utilization of such net operating losses for tax purposes is not assured, the deferred tax asset has been mostly reserved through the recording of a 100% valuation allowance. Should a cumulative change in the ownership of more than 50% occur within a three-year period, there could be an annual limitation on the use of the net operating loss carryforward.

Total net deferred taxes were comprised of the following as of May 31 and February 28, 2010:

Deferred tax assets:	5/31/10	2/28/10
Loss carryforwards	\$ 5,946,000	\$ 6,005,000
Allowance for doubtful accounts	4,000	1,000
Inventory allowance	614,000	612,000
Depreciation	108,000	109,000
Section 263A capitalized costs	126,000	126,000
Total deferred tax assets	6,798,000	6,853,000
Valuation allowance	(6,798,000)	(6,853,000)
Total net deferred taxes	\$ 0	\$ 0

The change in the valuation allowance on deferred tax assets is due principally to the utilization of the net operating loss for the quarter ended May 31, 2010 and for the year ended February 28, 2010.

A reconciliation of the U.S. federal statutory tax rate to the Company's effective tax rate for the quarter ended May 31, 2010 and for the year ended February 28, 2010 is as follows:

	5/31/10	2/28/10
U.S. federal statutory rate	34.0%	34.0%
Change in valuation allowance	(34.0)	(34.0)
Effective income tax rate	0.1%	0.1%

7. OTHER INCOME:

The \$5,000 of other income reflected in the condensed statements of income for the quarter ended May 31, 2010 consists entirely of interest income on investment in treasury bills net of changes in market value. The \$1,000 of net other income reflected in the condensed statements of income for the quarter ended May 31, 2009 consists of \$7,000

of interest income on investment in treasury bills net of changes in market value less \$6,000 of other expense related to receivables adjustments.

SOLITRON DEVICES, INC.
NOTES TO CONDENSED FINANCIAL STATEMENTS
(Unaudited)

8. ACCRUED EXPENSES:

As of May 31, 2010 and February 28, 2010, accrued expenses and other liabilities consisted of the following:

	5/31/10	2/28/10
Payroll and related employee benefits	\$ 516,000	\$ 469,000
Other liabilities	53,000	36,000
	\$ 569,000	\$ 505,000

9. EXPORT SALES AND MAJOR CUSTOMERS:

Revenues from domestic and export sales to unaffiliated customers for the three months ended May 31, 2010 are as follows:

Geographic Region	Power Transistors	Hybrids	Field Effect Transistors	Power MOSFETS	Totals
Europe and Australia	\$ 0	\$ 132,000	\$ 0	\$ 0	\$ 132,000
Canada and Latin America	7,000	0	0	0	7,000
Far East and Middle East	0	0	0	56,000	56,000
United States	304,000	681,000	288,000	655,000	1,928,000
Totals	\$ 311,000	\$ 813,000	\$ 288,000	\$ 711,000	\$ 2,123,000

Revenues from domestic and export sales to unaffiliated customers for the three months ended May 31, 2009 are as follows:

Geographic Region	Power Transistors	Hybrids	Field Effect Transistors	Power MOSFETS	Totals
Europe and Australia	\$ 3,000	\$ 248,000	\$ 0	\$ 0	\$ 251,000
Canada and Latin America	0	0	0	1,000	1,000
Far East and Middle East	0	0	0	49,000	49,000
United States	202,000	797,000	188,000	332,000	1,519,000
Totals	\$ 205,000	\$ 1,045,000	\$ 188,000	\$ 382,000	\$ 1,820,000

Revenues from domestic and export sales are attributed to global geographic region according to the location of the customer's primary manufacturing or operating facilities.

For the quarter ended May 31, 2010, sales to the Company's top two customers, Raytheon Company (36%) and Harris Corporation (13%), accounted for 49% of net sales. For the quarter ended May 31, 2009, sales to the Company's top two customers, Raytheon Company (30%) and BAE Systems Australia (14%), accounted for 44% of net sales.

10. EXPORT SALES AND MAJOR CUSTOMERS:

Purchases from the Company's two top suppliers, WUXI Streamtek Ltd. (10%) and Hybrid Sources, Inc. (7%), accounted for 17% of total purchases of production materials for the quarter ended May 31, 2010. For the quarter ended May 31, 2009, purchases from the Company's two top suppliers, Platronics Seals (17%) and Stellar Industries (7%), accounted for 24% of the Company's total purchases of production materials.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview:

Solitron Devices, Inc., a Delaware corporation (the "Company" or "Solitron"), designs, develops, manufactures and markets solid-state semiconductor components and related devices primarily for the military and aerospace markets. The Company manufactures a large variety of bipolar and metal oxide semiconductor ("MOS") power transistors, power and control hybrids, junction and power MOS field effect transistors and other related products. Most of the Company's products are custom made pursuant to contracts with customers whose end products are sold to the United States government. Other products, such as Joint Army/Navy transistors, diodes and Standard Military Drawings voltage regulators, are sold as standard or catalog items.

The following discussion and analysis of factors which have affected the Company's financial position and operating results during the periods included in the accompanying condensed financial statements should be read in conjunction with the Financial Statements and the related Notes to Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in the Company's Annual Report on Form 10-K for the year ended February 28, 2010 and the Condensed Financial Statements and the related Notes to Condensed Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q.

Significant Accounting Policies:

The discussion and analysis of our financial condition and results of operations are based upon the condensed financial statements included elsewhere in this Quarterly Report on Form 10-Q which are prepared in accordance with accounting principles generally accepted in the United States. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. Our significant accounting policies include inventories, valuation of plant, equipment, revenue recognition and accounting for income taxes. A discussion of all of these significant accounting policies can be found in Note 1 of the "Notes To Financial Statements" in Item 8 of our Annual Report on Form 10-K for the fiscal year ended February 28, 2010.

Trends and Uncertainties:

During the three months ended May 31, 2010, the Company's book-to-bill ratio was approximately 1.46 as compared to approximately .40 for the three months ended May 31, 2009, reflecting an increase in the volume of orders booked. Generally, the intake of orders varies greatly from period to period as a result of the fluctuations in the general economy, variations in defense spending on programs the Company supports, and the timing of contract awards by the Department of Defense and subsequently by its prime contractors, which is expected to continue over the next twenty four months. Although the Company's book-to-bill ratio increased during the three months ended May 31, 2010, the Company continues its efforts to reduce its variable manufacturing costs to offset the potential impact of low volume of orders to be shipped. However, should order intake fall drastically below the level experienced in the last twenty four months, the Company might be required to implement further cost cutting or other downsizing measures to continue its business operations.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the "first-in, first-out" (FIFO) method. The Company buys raw material only to fill customer orders. Excess raw material is created only when a vendor imposes a minimum buy in excess of actual requirements. Such excess material will usually be utilized to meet the requirements of the customer's subsequent orders. If excess material is not utilized after two fiscal years it is

fully reserved. Any inventory item once designated as reserved is carried at zero value in all subsequent valuation activities.

The Company's inventory valuation policy is as follows:

Raw material /Work in process: All material purchased, processed and/or used in the last two fiscal years is valued at the lower of its acquisition cost or market. All material not purchased/used in the last two fiscal years is fully reserved for.

Finished goods: All finished goods with firm orders for later delivery are valued (material and overhead) at the lower of cost or market. All finished goods with no orders are fully reserved.

Direct labor costs: Direct labor costs are allocated to finished goods and work in process inventory based on engineering estimates of the amount of man hours required from the different direct labor departments to bring each device to its particular level of completion.

Results of Operations-Three Months Ended May 31, 2010 Compared to Three Months Ended May 31, 2009:

Net sales for the three months ended May 31, 2010 increased 17% to \$2,123,000 as compared to \$1,820,000 for the three months ended May 31, 2009. This increase was primarily attributable to a higher level of orders that were shipped in accordance with customer requirements.

Cost of sales for the three months ended May 31, 2010 increased to \$1,678,000 from \$1,549,000 for the comparable period in 2009. Expressed as a percentage of sales, cost of sales decreased to 79% from 85% for the same period in 2009. This change was due primarily to an increase in net sales combined with a decrease in cost of materials percentage.

Gross profit for the three months ended May 31, 2010 increased to \$445,000 from \$271,000 for the three months ended May 31, 2009. Accordingly, gross margins on the Company's sales increased to 21% for the three months ended May 31, 2010 in comparison to 15% for the three months ended May 31, 2009. This change was due mainly to an increase in net sales combined with a decrease in cost of materials percentage.

For the three months ended May 31, 2010, the Company shipped 51,241 units as compared to 48,459 units shipped during the same period of the prior year. It should be noted that since the Company manufactures a wide variety of products with an average sales price ranging from less than one dollar to several hundred dollars, such periodic variations in the Company's volume of units shipped should not be regarded as a reliable indicator of the Company's performance.

The Company's backlog of open orders increased 17% to \$6,900,000 for the three months ended May 31, 2010 from \$5,218,000 for the three months ended May 31, 2009. Changes in backlog reflect changes in the intake of orders and in the delivery requirements of customers.

The Company has experienced an increase of 321% to \$3,097,000 in the level of bookings during the three months ended May 31, 2010 from \$735,000 for the three months ended May 31, 2009. The increase in bookings for the current quarter is principally as a result of an increase in defense spending, resulting in an increase in the monetary value of, and timing differences in the placement of contracts by the Department of Defense and its prime contractors.

Selling, general, and administrative expenses increased to \$292,000 for the three months ended May 31, 2010 from \$271,000 for the comparable period in 2009. The increase reflects higher labor and sales commission expenses. During the three months ended May 31, 2010, selling, general, and administrative expenses as a percentage of net sales fell to 14% as compared with 15% for the three months ended May 31, 2009. The percentage decrease was due primarily to an increase in net sales.

Operating income for the three months ended May 31, 2010 increased to \$153,000 as compared to \$0 for the three months ended May 31, 2009. This increase is due primarily to higher net sales.

The Company recorded net other income of \$5,000 for the three months ended May 31, 2010 as compared to \$1,000 for the three months ended May 31, 2009. Included in net other income was \$5,000 of interest income on investment in treasury bills net of changes in market value for the three months ended May 31, 2010. For the three months ended May 31, 2009, the Company recorded \$7,000 of interest income on investment in treasury bills net of changes in market value offset by \$6,000 of other expense related to receivables adjustments. The decrease in interest income is due primarily to lower rates of return on invested funds.

Net income for the three months May 31, 2010 increased to \$155,000 as compared to \$1,000 for the same period in 2009. This increase is due primarily to higher net sales.

Liquidity and Capital Resources:

Subject to the following discussion, the Company expects its sole source of liquidity over the next twelve months to be cash from operations. The Company anticipates that its capital expenditures required to sustain operations will be approximately \$300,000 during the current fiscal year and will be funded from operations.

Based upon (i) management's best information as to current national defense priorities, future defense programs, as well as management's expectations as to future defense spending, (ii) the market trends signaling a leveling off in the amount of bookings, and an increase in the cost of raw materials and operations that will result in the potential erosion of profit levels and continued price pressures due to more intense competition, and (iii) the continued competition in the defense and aerospace market, the Company believes that it will have sufficient cash on hand to satisfy its operating needs during the current fiscal year. However, due to the level of current backlog and new order intake (due to the status of the general economy and the shift to Commercial Off -The-Shelf (COTS) by the defense industry), the Company might operate at a break even or a small profit during the balance of the current fiscal year. Thus, based on these factors and at the current level of bookings, costs of raw materials and services, profit margins and sales levels, the Company believes it will generate sufficient cash to satisfy its operating needs and its obligations to pre-bankruptcy creditors in accordance with the Company's plan of reorganization. In the event that bookings in the long-term decline significantly below the level experienced during the previous fiscal year, the Company may be required to implement further cost-cutting or other downsizing measures to continue its business operations. Such cost-cutting measures could inhibit future growth prospects. In appropriate situations, the Company may seek strategic alliances, joint ventures with others or acquisitions in order to maximize marketing potential and utilization of existing resources and provide further opportunities for growth.

The Company reported net income of \$155,000 and operating income of \$153,000 for the three months ended May 31, 2010.

At May 31, 2010, February 28, 2010 and May 31, 2009, the Company had cash of approximately \$243,000, \$400,000 and \$402,000, respectively. Net income contributed \$155,000 to the last three months' cash flow generated by ongoing operations.

At May 31, 2010, February 28, 2010 and May 31, 2009, the Company had investments in treasury bills of approximately \$5,846,000, \$5,601,000 and \$5,472,000, respectively.

At May 31, 2010, the Company had working capital of \$7,866,000 as compared with a working capital at May 31, 2009 of \$6,974,000. At February 28, 2010, the Company had a working capital of \$7,752,000. The \$114,000 increase for the three months ended May 31, 2010 was due mainly to a \$486,000 combined increase in receivables and investments in treasury bills offset by an increase in customer deposits and an increase in accrued expenses.

Off-Balance Sheet Arrangements:

The Company has not engaged in any off-balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Not applicable

FORWARD-LOOKING STATEMENTS

Some of the statements in this Quarterly Report on Form 10-Q are "forward-looking statements," as that term is defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements regarding our business, financial condition, results of operations, strategies or prospects. You can identify forward-looking statements by the fact that these statements do not relate strictly to historical or current matters. Rather, forward-looking statements relate to anticipated or expected events, activities, trends or results. Because forward-looking statements relate to matters that have not yet occurred, these statements are inherently subject to risks and uncertainties. Many factors could cause our actual activities or results to differ materially from the activities and results anticipated in forward-looking statements. These factors include those described under the caption "Risk Factors" in our Annual Report on Form 10-K for the year ended February 28, 2010, including those identified below. We do not undertake any obligation to update forward-looking statements.

Some of the factors that may impact our business, financial condition, results of operations, strategies or prospects include:

- Our complex manufacturing processes may lower yields and reduce our revenues.
- Our business could be materially and adversely affected if we are unable to obtain qualified supplies of raw materials, parts and finished components on a timely basis and at a cost-effective price.
- We are dependent on government contracts, which are subject to termination, price renegotiations and regulatory compliance, which can increase the cost of doing business and negatively impact our revenues.
 - Changes in government policy or economic conditions could negatively impact our results.
 - Our inventories may become obsolete and other assets may be subject to risks.
 - Environmental regulations could require us to incur significant costs.
- Our business is highly competitive, and increased competition could reduce gross profit margins and the value of an investment in our Company.
 - Downturns in the business cycle could reduce the revenues and profitability of our business.
 - Our operating results may decrease due to the decline of profitability in the semiconductor industry.
- Uncertainty of current economic conditions, domestically and globally, could continue to affect demand for our products and negatively impact our business.
- Cost reduction efforts may be unsuccessful or insufficient to improve our profitability and may adversely impact productivity.
- We may not achieve the intended effects of our new business strategy, which could adversely impact our business, financial condition and results of operations.
- Our inability to introduce new products could result in decreased revenues and loss of market share to competitors; new technologies could also reduce the demand for our products.
- Loss of, or reduction of business from, substantial clients could hurt our business by reducing our revenues, profitability and cash flow.
 - A shortage of three-inch silicon wafers could result in lost revenues due to an inability to build our products.
 - The nature of our products exposes us to potentially significant product liability risk.
- We depend on the recruitment and retention of qualified personnel, and our failure to attract and retain such personnel could seriously harm our business.
 - Provisions in our charter documents and rights agreement could make it more difficult to acquire our Company and may reduce the market price of our stock.
- Natural disasters, like hurricanes, or occurrences of other natural disasters whether in the United States or internationally may affect the markets in which our common stock trades, the markets in which we operate and our profitability.
- Failure to protect our proprietary technologies or maintain the right to use certain technologies may negatively affect our ability to compete.

- The price of our common stock has fluctuated widely in the past and may fluctuate widely in the future.

ITEM 4.

CONTROLS AND PROCEDURES

Our Evaluation of Disclosure Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of its management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e), and 15d-15(e)) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report.

Changes in Internal Control over Financial Reporting

Based on an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, there has been no change in our internal control over financial reporting during our last fiscal quarter identified in connection with that evaluation, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
