FORM 10-K

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended July 30, 2011

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-05893

FREDERICK'S OF HOLLYWOOD GROUP INC.
(Exact name of registrant as specified in its charter)

New York
(State or other jurisdiction of
incorporation or organization)

13-5651322
(I.R.S. Employer
Identification No.)

6255 Sunset Blvd., Hollywood, California
(Address of principal executive offices)

90028
(Zip Code)

Registrant's telephone number, including area code: (323) 466-5151

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, \$.01 par value	NYSE Amex

Securities registered pursuant to Section 12(g) of the Act:

None
(Title of Class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this Chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input checked="" type="checkbox"/>

(do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)

Yes No

As of January 28, 2011 (the last business day of the registrant's most recently completed second fiscal quarter), the aggregate market value of the registrant's common stock (based on its reported last sale price on the NYSE Amex of \$0.80), held by non-affiliates of the registrant, was \$7,618,461.

As of October 11, 2011, there were 38,728,467 common shares outstanding.

Forward Looking Statements

When used in this Form 10-K for the year ended July 30, 2011 of Frederick's of Hollywood Group Inc. (the "Company," "we," "us," "our" or "Frederick's") and in our future filings with the Securities and Exchange Commission, the words or phrases "will likely result," "management expects" or "we expect," "will continue," "is anticipated," "estimated" or similar expressions are intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Readers are cautioned not to place undue reliance on any such forward-looking statements, each of which speaks only as of the date made. We have no obligation to publicly release the result of any revisions which may be made to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.

Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical earnings and those presently anticipated or projected. These risks are included in "Item 1. – Business," "Item 1A. – Risk Factors" and "Item 7. – Management's Discussion and Analysis of Financial Condition and Results of Operations" of this Form 10-K. In assessing forward-looking statements contained herein, readers are urged to carefully read those statements. Among the factors that could cause actual results to differ materially are: competition; business conditions and industry growth; rapidly changing consumer preferences and trends; general economic conditions; working capital needs; continued compliance with government regulations; loss of key personnel; labor practices; product development; management of growth; increases of costs of operations or inability to meet efficiency or cost reduction objectives; timing of orders and deliveries of products; risks of doing business abroad; and our ability to protect our intellectual property.

ITEM 1. – BUSINESS

Our History

We are a New York corporation incorporated on April 10, 1935. On January 28, 2008, we consummated a merger with FOH Holdings, Inc., a privately-held Delaware corporation ("FOH Holdings"). As a result of the transaction, FOH Holdings became our wholly-owned subsidiary. FOH Holdings is the parent company of Frederick's of Hollywood, Inc. Upon consummation of the merger, we changed our name from Movie Star, Inc. to Frederick's of Hollywood Group Inc.

Following the merger and through the fourth quarter of fiscal year 2010, we conducted our business through two operating divisions, each representing a distinct business reporting segment: the multi-channel retail division, which includes our retail stores, catalogs and website operations, and the wholesale division, which included our wholesale operations in the United States and Canada.

During the fourth quarter of fiscal year 2010, we made a strategic decision to divest our wholesale division due to continuing losses and in order to focus on our core retail operations. On October 27, 2010, we completed the sale to Dolce Vita Intimates LLC ("Dolce Vita") of substantially all of the assets of the wholesale division, except cash, accounts receivable and certain other assets. The wholesale division's operations are classified as discontinued operations for all periods presented in the consolidated financial statements appearing elsewhere in this report. Unless otherwise noted, the wholesale division is not discussed in this report.

Our principal executive offices are located at 6255 Sunset Boulevard, Hollywood, California 90028 and our telephone number is (323) 466-5151. Our retail website is www.fredericks.com and our corporate website is www.fohgroup.com. We file our annual, quarterly and current reports and other information with the Securities and

Exchange Commission. Our corporate filings, including our Annual Report on Form 10-K, our Quarterly Reports on Form 10-Q, our Current Reports on Form 8-K, our proxy statements and reports filed by our officers and directors under Section 16(a) of the Securities Exchange Act of 1934, and any amendments to those filings, are available, free of charge, on our corporate website, www.fohgroup.com, as soon as reasonably practicable after we electronically file such material with the Securities and Exchange Commission. We do not intend for information contained in our websites to be a part of this Annual Report on Form 10-K.

Our Business

Frederick's of Hollywood Group Inc., through its subsidiaries, sells women's intimate apparel and related products under its proprietary Frederick's of Hollywood® brand predominantly through its U.S. mall-based specialty retail stores, which are referred to as "Stores," and through its catalog and website at www.fredericks.com, which are referred to collectively as "Direct." As of July 30, 2011, we operated 123 Frederick's of Hollywood stores nationwide and during fiscal year 2011 mailed approximately 13.6 million catalogs.

We also have a license agreement with a subsidiary of Emirates Associated Business Group ("EABG") which provides for EABG to build and operate Frederick's of Hollywood retail stores in the Middle East. The flagship store in Abu Dhabi opened in July 2011 and three additional stores are expected to open in the United Arab Emirates in fiscal year 2012. In addition, we selectively license the right to use the Frederick's of Hollywood® brand and logo on specified categories of products manufactured and sold by other companies. Our licensed merchandise categories currently include sexy Halloween costumes, jewelry, accessories, bed and bath items and beach towels. In October 2011, we terminated our swimwear license, which is now being managed in-house.

Operating Initiatives

While we continue to operate in a challenging macroeconomic environment, which has had a negative impact on our revenues, gross margins and earnings over the past few years, we are focused on executing the short and long term initiatives described below. We cannot be certain that any of these initiatives will be successful, but, if successful, some may have an immediate impact on our operating results while others may have a more gradual one. These initiatives are as follows:

- **Improve sales and profitability.** We recently announced a change in leadership with the appointment of a new President and Chief Operating Officer, who is leading the effort to improve sales and profitability through:
 - o a continued focus on merchandise trends and product mix;
 - o ensuring inventory is maintained at sufficient levels;
 - o increased efficiencies in planning and allocation functions;
 - o improving promotional planning and pricing; andoperforming more detailed analyses on a store-by-store basis to improve the operational efficiency and profitability of each store.
- **Utilize cost-effective marketing initiatives to drive traffic to stores and the website and increase conversion rates.** As our catalog operations have evolved over the past few years to serve more as a medium to drive traffic to our website and stores than as a revenue generator, we have been able to reduce catalog costs and reallocate resources to our website and online marketing efforts. We will continue to support innovative and cost-effective marketing initiatives to drive traffic to stores and the website while focusing on increased conversion rates through improved search engine optimization, social media advertising and targeted emails and mailings based on historical purchasing preferences and proximity to store locations.
- **Continue to enhance our website's functionality and content to improve the customer experience.** We are continuing to refine the improved functionality that we implemented over the past year and to add new functionality as it becomes available. Over the past year, we have added customer product reviews, mobile friendly access and rich media to provide more robust product views.
- **Develop the Frederick's of Hollywood brand into an expanded sexy lifestyle brand through store and product licensing arrangements, both internationally and domestically.**

- o In March 2011, we announced our international expansion plans and entered into an exclusive, multi-year licensing agreement with EABG, which provides for EABG to build and operate Frederick's of Hollywood retail stores in the Middle East. We are currently exploring opportunities with other international partners to expand in areas such as Brazil, Russia, India, China and Canada.

- o We currently have license agreements in place for sexy Halloween costumes, jewelry, accessories, bed and bath items and beach towels. In October 2011, we terminated our swimwear license, which is now being managed in-house. Our current license agreements, together with our terminated swimwear license, represented less than 1% of our total sales in fiscal year 2011. We are in the process of evaluating our long term product licensing strategy.

Market and Products

We sell women's intimate apparel and related products under our proprietary Frederick's of Hollywood® brand through our retail stores, website and catalog. Our customer target is women primarily between the ages of 18 and 35. Our major in-house merchandise categories are foundations (including bras, corsets, shapewear and panties), lingerie (including daywear and sleepwear), ready-to-wear (dresses, swimwear and sportswear), and fragrance and accessories (including shoes, personal care products and novelties). Retail prices generally range from approximately \$6.00 for panties up to approximately \$99.00 for dresses. Certain merchandise is marketed as collections of related items to increase the average sale amount. Our product lines and color pallets are updated seasonally in an effort to satisfy our customers' desire for fashionable merchandise and to keep our selections fresh and appealing.

The following table shows the percentage of sales that each of these product categories represented for the year ended July 30, 2011:

Product Category	% of Retail Sales	
Foundations	49	%
Lingerie	33	%
Ready-to-Wear	17	%
Fragrance and Accessories	1	%
Total	100	%

Product Development and Merchandising

Our product development efforts focus on satisfying customer demand for current trends and identifying new fashion trends and opportunities. Our merchandising/trend team conducts extensive research and utilizes its industry expertise to identify fashion trends and new merchandise initiatives. This team works directly with our merchandise vendors to develop products that meet those trends.

Store Operations

We operated 123 Frederick's of Hollywood retail stores as of July 30, 2011. These stores are primarily located in shopping malls in 29 states. Approximately one-third of the stores are in California. Of the stores outside of California, approximately 30% are situated in our other key operating states, which include Florida, Texas, New York and Nevada. Our flagship store is on Hollywood Boulevard in Hollywood, California.

Our retail stores range in size from 900 to 3,200 square feet and our flagship store is 5,700 square feet. A typical store uses approximately 75% of its square footage as selling space. Depending on size, square footage and past sales history, our retail stores showcase branded merchandise best suited for their respective locations, which may include licensed and lifestyle products. Depending on the size, newer and remodeled stores are either designed in the contemporary "Modern Hollywood" format or the sophisticated "Red Carpet" format. We continue to operate many of our older stores with legacy designs that evolved through the history of Frederick's of Hollywood. Periodically, in connection with lease renewals or as other opportunities arise, older stores are remodeled. New store locations are typically selected on the basis of local demographics, overall mall performance in terms of traffic, average sales per square foot for the mall and the proposed location within the mall.

During fiscal year 2011, we did not open any new stores and closed three underperforming stores upon expiration of the respective leases. We continuously monitor store performance and from time to time either close underperforming

stores or negotiate with landlords to modify lease terms. During fiscal year 2012, we do not intend to open or do any major remodeling of any stores, and we currently expect to close three underperforming stores, two upon expiration of the respective leases and one through a negotiated early termination.

Direct Operations

We have an extensive history – dating back to the first Frederick's of Hollywood catalog produced in 1947 – of offering provocative, women's intimate apparel directly to the consumer. Today, we market and sell our products directly to consumers through our website, www.fredericks.com, and catalogs. We continuously monitor our marketing strategies in order to maximize sales and profitability.

In addition to the website's value as an important distribution channel and source of revenue, it is also a key marketing tool we use to test new products, build brand equity and increase store traffic. We also partner with Internet search engines and participate in social media advertising programs to drive traffic to our stores and website. Approximately 90% of all Direct orders are placed online through our website. Our e-commerce web platform is hosted by a third-party service provider, which we believe provides a stable foundation upon which we can continue to upgrade and enhance our website to improve navigation, visual presentation and add functionality. During fiscal year 2011, we added customer product reviews, mobile friendly site access and rich media to provide robust product views. We are continuing to refine the improved functionality that we implemented over the past year and add new functionality as it becomes available.

Our catalog operations have evolved over the past few years to serve more as a medium to drive traffic to our website and stores than as a revenue generator. We generally mail five seasonal catalogs (fall, holiday, spring preview, spring and summer), as well as several sale and re-mail catalogs, annually. During fiscal year 2011, we mailed approximately 13.6 million catalogs to approximately 4.1 million households, down from approximately 15.3 million catalogs mailed to approximately 4.7 million households in fiscal year 2010. We have steadily reduced catalog circulation through the use of various cost effective alternatives such as targeted emails and mailings based on historical purchasing preferences and proximity to store locations. In addition, during fiscal year 2011, we replaced our full sized catalogs with "magalogs," which are smaller sized catalogs presented in a combination magazine and catalog format. They highlight new product offerings that can be purchased both in stores and on the website and contain product tips and special offers.

All creative and copy design for our website and catalogs is coordinated by our in-house design staff. Catalogs are designed approximately four months before their respective mailing dates. Photography is conducted on location or in studios. We utilize outside vendors to print and mail the catalogs. Our catalogs are currently mailed only within the United States.

Licensing Operations

Store Licensing. We have an exclusive multi-year licensing agreement for EABG to build and operate Frederick's of Hollywood retail stores in the Middle East. The agreement provides for EABG to open at least 10 stores in six Middle Eastern countries over the next three years, with additional store openings based on a mutually agreed upon expansion plan. The flagship store in Abu Dhabi opened in July 2011 and three additional stores are expected to open in the United Arab Emirates in fiscal year 2012. Under the agreement, EABG purchases product from us to sell in their licensed Frederick's of Hollywood stores. We are entitled to receive royalties based on sales of our products in the licensed stores, as well as a per-store opening fee once a certain number of stores are opened in the territory.

Product Licensing. We selectively license the Frederick's of Hollywood brand name and logo to be included on products sold by other companies. We pursue opportunities in product categories that we believe to be complementary to our existing products. We currently have license agreements in place for sexy Halloween costumes, jewelry, accessories, bed and bath items and beach towels. In October 2011, we terminated our swimwear license, which is now being managed in-house. Our current license agreements, together with our terminated swimwear license, represented less than 1% of our total sales in fiscal year 2011. We grant our product licensees the right to design, manufacture and sell at wholesale specified categories of products under our trademarks. We have the right to review, inspect and approve all product designs and quality and approve any use of our trademarks in packaging, distribution, advertising and marketing. Each licensee has agreed to pay us royalties based on its wholesale sales of products that use our trademarks. Our license agreements typically have three to five year terms, may grant the licensee conditional renewal options, limit licensees to certain territorial rights and give us the right to terminate the license agreements if specified sales levels are not achieved.

Sourcing, Production and Quality

We utilize a variety of third-party vendors for the sourcing and manufacturing of our merchandise. Orders are typically placed approximately four to six months prior to the selling season for new products, and approximately three to four months prior to the required delivery dates for reorders.

In fiscal year 2011, we purchased products from over 100 vendors. Our top ten vendors accounted for approximately 74% of the dollar value of those purchases. We had three suppliers that individually accounted for 10% or more of total purchases in fiscal year 2011. One domestic supplier accounted for approximately 15% of total purchases and two foreign suppliers based in Canada accounted for approximately 15% and 14% of total purchases in fiscal year 2011. The Canadian suppliers represented approximately 80% of the products purchased from foreign suppliers in fiscal year 2011. Many of our third-party domestic and foreign suppliers purchase products from foreign sources. Although we do not have direct relationships with these foreign sources, management believes that our suppliers source products primarily from China, Vietnam and the Philippines.

Although we have no long-term manufacturing contracts, our relationships with vendors are long-standing, with several vendors supplying products for over twenty years. To assure adequate sources, each major product category is sourced from three or four vendors. We also test products from new suppliers and develop those suppliers into more important suppliers as appropriate. We do not believe that we are overly dependent on any one supplier, and the loss of any one of them would not have a material effect on our business.

Brand Development and Marketing

We believe that Frederick's of Hollywood is one of the world's most widely recognized intimate apparel brand names. Our primary advertising medium includes our website, catalog and retail stores. We believe the concurrent operation of retail stores, a website and catalog proves to be advantageous in brand development and exposure. We use our website and store locations to test new items and promotional strategies that may, in turn, develop into successful programs.

Our brand development and marketing activities have focused on enhancing the customer experience online and in stores through updated imagery, increasing online shopping functionality and communicating the Frederick's of Hollywood lifestyle branding initiative across all channels. We support our social media activities by frequently posting new content for our Facebook, Twitter and blog followers.

We also increase brand awareness with the announcement of new product launches and the arrival of seasonal collections through public relations activities. Combinations of press releases, media events, gift with purchase offers, and product placements in national magazines and regional and national television programs are also used.

Distribution and Customer Service

We utilize a 168,000 square foot facility in Phoenix, Arizona to operate a distribution center, customer contact center and information technology center. The majority of shipments received for retail stores are allocated to individual stores and shipped within a few days. Website and catalog orders are typically processed within 24 hours. We believe our distribution center's capacity is adequate to meet our projected sales volume for the next several years.

Our customer contact center provides toll-free retail order placement and customer services, as well as email customer support services. The customer contact center is open six days per week. We believe our contact center capacity is adequate to handle projected call volumes for the next several years.

Information Technology

We maintain information technology systems to support our merchandising, marketing, planning, store operations, call center, inventory, order management and fulfillment, finance, accounting and human resources functions.

In our retail stores, sales are updated daily in the merchandise reporting systems by polling sales information from each store's point of sale terminals. Through automated nightly communication with each store, sales information and payroll hours are uploaded to the host system, and stock changes are downloaded through the terminals. We evaluate information obtained through daily reporting to implement merchandising decisions regarding markdowns and allocation of merchandise.

We sell Frederick's of Hollywood intimate apparel and related products on our website, www.fredericks.com. Customer orders are captured and processed on the website, which interfaces with our in-house systems for order management and fulfillment. Our e-commerce web platform is hosted by a third-party service provider, which we believe provides a stable foundation upon which we can continue to upgrade and enhance our website to improve

navigation, visual presentation and our customers' overall online shopping experience for intimate apparel and related products.

5

Trademarks and Service Marks

We have a variety of trademark applications and registrations in the United States and foreign countries. The registered United States trademarks that are material to the marketing of our products are Frederick's of Hollywood®, Frederick's®, Fredericks.com®, The Original Sex Symbol®, Hollywood Exxtreme Cleavage® Get Cheeky®, Seduction by Frederick's of Hollywood®, and Hollywood Icon®. We believe that Frederick's of Hollywood products are identified by their intellectual property. We have and intend to maintain our intellectual property by vigorously protecting it against infringement.

Seasonality

Our business experiences seasonal sales patterns. Sales and earnings typically peak during the second and third fiscal quarters (November through April), primarily during the holiday season in November and December, as well as the Valentine's Day holiday in the month of February. As a result, higher inventory levels are maintained during these peak selling periods.

Competition

The retail sale of intimate apparel, personal care and beauty products is a highly competitive business with numerous competitors, including individual and chain fashion specialty stores, department stores and discount retailers. This business is multi-faceted and operates through various channels; primarily retail stores, catalog and e-commerce. Brand image, marketing, fashion design, price, service, fashion assortment and quality are the principal competitive factors in retail store sales. We compete with numerous multichannel businesses in the women's apparel industry. Image presentation, fulfillment and the factors affecting retail store sales discussed above are the principal competitive factors in online and catalog sales.

We believe that we have competitive strengths because of our widely recognized brand, presence in shopping malls and direct marketing expertise. However, a number of our competitors are larger and have significantly greater financial, marketing and other resources than we do, and there can be no assurance that we will be able to compete successfully with them in the future.

Employees

As of September 16, 2011, we had 438 full-time employees and 606 part-time employees. Due to seasonal sales patterns, we hire additional temporary staff at our retail stores and distribution and customer contact centers during peak sales periods. We have never experienced an interruption of our operations because of a work stoppage. We believe our relationship with our employees to be good. We are not a party to any collective bargaining agreement with any union.

ITEM 1A. – RISK FACTORS

General economic conditions, including continued weakening of the economy, may affect consumer purchases of discretionary items, which could adversely affect our sales.

Since fiscal year 2009, there has been a significant deterioration in the global financial markets and economic environment, which we believe has negatively impacted consumer spending at many retailers, including our company. Our results are dependent on a number of factors impacting consumer spending, including general economic and business conditions; consumer confidence; wages and employment levels; the housing market; consumer debt levels; availability of consumer credit; credit and interest rates; fuel and energy costs; energy shortages; taxes; general political conditions, both domestic and abroad; and the level of customer traffic within department stores, malls and other shopping and selling environments. Consumer purchases of discretionary items, including our products, may decline during recessionary periods and at other times when disposable income is lower. A continued or incremental downturn in the U.S. economy, an uncertain economic outlook or an expanded credit crisis could continue to adversely affect our business and our revenue and profits.

If we cannot compete effectively in the retail apparel industry, our business, financial condition and results of operations may be adversely affected.

The intimate apparel industry is highly competitive. We compete with a variety of retailers, including national department store chains, national and international specialty apparel chains, apparel catalog businesses and online apparel businesses that sell similar lines of merchandise. Many of our competitors have greater financial, distribution, logistics, marketing and other resources available to them and may be able to adapt to changes in customer requirements more quickly, devote greater resources to the design, sourcing, distribution, marketing and sale of their products, generate greater national brand recognition or adopt more aggressive pricing policies. If we are unable to overcome these potential competitive disadvantages, such factors could have an adverse effect on our business, financial condition and results of operations.

The failure to successfully order and manage inventory to reflect customer demand and anticipate changing consumer preferences and buying trends may adversely affect our revenue and profitability.

Our success depends, in part, on management's ability to anticipate and respond effectively to rapidly changing fashion trends and consumer tastes and to translate market trends into appropriate, saleable product offerings. Generally, merchandise must be ordered well in advance of the applicable selling season and the extended lead times may make it difficult to respond rapidly to new or changing product trends or price changes. If we are unable to successfully anticipate, identify or react to changing styles or trends and we misjudge the market for our products or our customers' purchasing habits, then our product offerings may be poorly received by consumers and may require substantial discounts to sell, which would reduce sales revenue and lower profit margins. Brand image also may suffer if customers believe that we are unable to offer innovative products, respond to the latest fashion trends, or maintain product quality.

We currently have a working capital deficiency which could negatively impact our operations.

As of July 30, 2011, we had a working capital deficiency of \$7,960,000. We plan to rely on available borrowings under our revolving credit facility, together with our projected operating cash flows, to meet our working capital needs. If we require working capital and it is unavailable to us on acceptable terms or at all, it could result in our inability to successfully update and expand our product offerings in order to keep our selections fresh and appealing to our customers. The foregoing could negatively impact our results of operations.

We depend on key personnel and we may not be able to operate and grow the business effectively if we lose the services of any key personnel or are unable to attract qualified personnel in the future.

We are dependent upon the continuing service of key personnel and the hiring of other qualified employees. In particular, we are dependent upon the management and leadership of Thomas J. Lynch, our Chairman and Chief Executive Officer, Don Jones, our President and Chief Operating Officer, and Thomas Rende, our Chief Financial Officer. The loss of any of them or other key personnel could affect our ability to operate the business effectively.

We historically have depended on a high volume of mall traffic, the lack of which would hurt our business.

Most Frederick's of Hollywood stores are located in shopping malls. Sales at these stores are influenced, in part, by the volume of mall traffic. Our stores benefit from the ability of the malls' "anchor" tenants, generally large department stores, and other area attractions to generate customer traffic in the vicinity of its stores and the continuing popularity of malls as shopping destinations. A decline in the desirability of the shopping environment of a particular mall, whether due to the closing of an anchor tenant or competition from non-mall retailers, or recessionary economic conditions that consumers have been experiencing, could reduce the volume of mall traffic, which could have an adverse effect on our business, financial condition and results of operations.

If leases for Frederick's of Hollywood stores cannot be negotiated or renewed on reasonable terms, our ability to achieve profitability could be harmed.

Our sales are dependent on management's ability to operate retail stores in desirable locations with capital investments and lease costs that allow for the opportunity to earn a reasonable return. Desirable locations and configurations may not be available at a reasonable cost, or at all. If we are unable to renew or replace our store leases or enter into leases for new stores on favorable terms, our ability to achieve profitability could be harmed.

The extent of our foreign sourcing and manufacturing may adversely affect our business, financial condition and results of operations.

Substantially all of the products that we purchase from third-party vendors are manufactured outside the United States. As a result of the magnitude of foreign sourcing and manufacturing, our business is subject to the following risks:

- political and economic instability in foreign countries, including heightened terrorism and other security concerns, which could subject imported or exported goods to additional or more frequent inspections, leading to delays in deliveries or impoundment of goods, or to an increase in transportation costs of raw materials or finished products;
- the imposition of regulations and quotas relating to imports, including quotas imposed by bilateral textile agreements between the United States and foreign countries;
 - the imposition of duties, taxes and other charges on imports;
- significant fluctuation of the value of the U.S. dollar against foreign currencies;
- restrictions on the transfer of funds to or from foreign countries; and
- violations by foreign contractors of labor and wage standards and resulting adverse publicity.

If these risks limit or prevent us from selling or acquiring products from foreign suppliers, our operations could be disrupted until alternative suppliers are found, which could negatively impact our business, financial condition and results of operations.

Any disruptions at our distribution center could materially affect our ability to distribute products, which could lead to a reduction in our revenue and/or profits.

Our distribution center in Phoenix, Arizona serves our customers. There is no backup facility or any alternate distribution arrangements in place. If we experience disruptions at our distribution center that impede the timeliness or fulfillment of the products to be distributed, or our distribution center is partially or completely destroyed, becomes inaccessible, or is otherwise not fully usable, whether due to unexpected circumstances such as weather conditions or disruption of the transportation systems or uncontrollable factors such as terrorism and war, it would have a material adverse effect on our ability to distribute products, which in turn would have a material adverse effect on our business, financial condition and results of operations.

Our product licensees may not comply with standards, which could harm our brand, reputation and business.

We license our trademarks to third parties for various products. While we enter into comprehensive licensing agreements with our licensees covering product design, product quality, sourcing, manufacturing, marketing and other

requirements, our licensees may not comply fully with those agreements. Non-compliance could include marketing products under our brand name that do not meet our quality and other requirements, which could harm our brand equity, reputation and business.

Our efforts to expand internationally through store licensing and other arrangements may not be successful and could impair the value of our brand.

We are currently evaluating several opportunities to grow our business through international expansion. In March 2011, we entered into a licensing agreement with EABG, which provides for EABG to build and operate Frederick's of Hollywood stores in the Middle East. We have no prior experience operating through this type of third party arrangement, and it may not be successful. The administration of this relationship may divert management's attention and require more resources than expected. The effect of this type of arrangement on our business and results of operations is uncertain and will depend upon various factors, including the demand for our products in new markets internationally. In addition, certain aspects of this arrangement are not directly within our control, such as the ability of EABG to meet its projections regarding store openings and sales. Moreover, while the agreement may provide us with certain termination rights, to the extent that EABG does not operate its stores in a manner consistent with our brand and store concepts, the value of our brand could be impaired. In addition, our failure to comply with applicable laws and regulations in connection with this agreement could have an adverse effect on our results of operations.

Any material disruption of our information systems could disrupt our business and reduce our sales.

We rely on various information technology systems to manage our operations. We may experience operational problems with our information systems as a result of system failures, viruses, computer "hackers" or other causes. Any material disruption or slowdown of our systems, including a disruption or slowdown caused by our failure to successfully upgrade our systems, could cause information, including data related to customer orders, to be lost or delayed which could result in delays in the delivery of merchandise to our stores and customers or lost sales, which could reduce demand for our merchandise and cause our sales to decline. Moreover, we may not be successful in developing or acquiring technology that is competitive and responsive to the needs of our customers and might lack sufficient resources to make the necessary investments in technology to compete with our competitors. Accordingly, if changes in technology cause our information systems to become obsolete, or if our information systems are inadequate to handle our business requirements, we could lose customers.

The processing, storage and use of personal data could give rise to liabilities as a result of governmental regulation, conflicting legal requirements or differing views of personal privacy rights.

The collection of data and processing of transactions through our Frederick's of Hollywood e-commerce website and call centers require us to receive and store a large amount of personally identifiable data. This type of data is subject to legislation and regulation in various jurisdictions. We may become exposed to potential liabilities with respect to the data that we collect, manage and process, and may incur legal costs if our information security policies and procedures are not effective or if we are required to defend our methods of collection, processing and storage of personal data. Future investigations, lawsuits or adverse publicity relating to our methods of handling personal data could adversely affect our business, financial condition and results of operations due to the costs and negative market reaction relating to such developments.

Our collection and remittance of sales and use tax may be subject to audit and may expose us to liabilities for unpaid sales or use taxes, interest and penalties on past sales.

Our Direct business collects and pays sales tax to the relevant state taxing authority on sales made to residents in any state in which we have a physical presence. It is possible that one or more states may disagree with our method of assessing and remitting these taxes, including sales taxes on Direct sales. We expect to challenge any and all future assertions by state governmental authorities or private litigants that we owe sales or use tax, but we may not prevail. If we do not prevail, we could be held liable for additional sales and use taxes, interest and penalties which could have an adverse effect on our profitability.

We could be sued for infringement, which could force us to incur substantial costs and devote significant resources to defend the litigation.

We use many trademarks and product designs in our business and believe these trademarks and product designs are important to our business, competitive position and success. As appropriate, we rely on trademark and copyright laws to protect these designs even if not formally registered as marks, copyrights or designs. Third parties may sue us for alleged infringement of their proprietary rights. The party claiming infringement might have greater resources than us to pursue its claims, and we could be forced to incur substantial costs and devote significant management resources to defend the litigation. Moreover, if the party claiming infringement were to prevail, we could be forced to discontinue the use of the related trademark, patent or design and/or pay significant damages, or to enter into expensive royalty or licensing arrangements with the prevailing party, assuming these royalty or licensing arrangements are available at all on an economically feasible basis, which they may not be.

If we cannot protect our trademarks and other proprietary intellectual property rights, our business may be adversely affected.

We may experience difficulty in effectively limiting unauthorized use of our trademarks and product designs worldwide, which may cause significant damage to our brand name and our ability to effectively represent ourselves to our agents, suppliers, vendors and/or customers. We may not be successful in enforcing our trademark and other proprietary rights and there can be no assurance that we will be adequately protected in all countries or that we will prevail when defending our trademark and proprietary rights.

Our stock price has been volatile.

The trading price of our common stock has been volatile. During the quarter ended July 30, 2011, the closing sale prices of our common stock on the NYSE Amex ranged from \$0.60 to \$0.86 per share and the closing sale price of our common stock on October 11, 2011 was \$0.46 per share. Our stock price is subject to wide fluctuations in response to a variety of factors, including:

- quarterly variations in operating results;
- general economic conditions;
- low trading volume; and
- other events or factors that are beyond our control.

Any negative change in the public's perception of the prospects for the retail industry could further depress our stock price, regardless of our results. Other broad market fluctuations may lower the trading price of our common stock. Following significant declines in the market price of a company's securities, securities class action litigation may be instituted against that company. Litigation could result in substantial costs and a diversion of management's attention and resources.

The NYSE Amex may delist our common stock, which could limit investors' ability to make transactions in our common stock.

Our common stock is listed on the NYSE Amex, a national securities exchange. In order to continue listing our common stock, we must maintain certain financial, distribution and stock price levels. Generally, we must maintain a minimum amount of shareholders' equity (usually between \$2 million and \$6 million) and a minimum number of public shareholders (usually 300 shareholders or 200,000 shares held by our non-affiliates). Additionally, our common stock cannot have what is deemed to be a "low selling price" as determined by the exchange. If our common stock is delisted, we could face material adverse consequences, including:

- a limited availability of market quotations for our common stock;
- reduced liquidity in the trading of our stock;
- a limited amount of news coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

ITEM 1B. – UNRESOLVED STAFF COMMENTS

None.

ITEM 2. – PROPERTIES

We lease approximately 27,000 square feet of space for our principal executive offices at 6255 Sunset Boulevard, Hollywood, CA for an annual base rent of approximately \$785,000 pursuant to a lease that expires in February 2015.

We lease approximately 168,000 square feet of space for our distribution and customer contact center at 5005 S. 40th Street, Phoenix, AZ for an annual base rent of approximately \$1,300,000 pursuant to a lease that expires in March 2018.

We lease approximately 1,600 square feet of executive office space at 8 West 38th Street, New York, NY for an annual base rent of approximately \$51,000 pursuant to a lease that expires in November 2013.

Our 123 Frederick's of Hollywood stores are located in leased facilities, primarily in shopping malls, in 29 states. A substantial portion of these lease commitments consist of store leases with an initial term of ten years. The leases expire at various dates between 2011 and 2020, with some leases currently operating on a month-to-month basis. Rental terms for new locations often include a fixed minimum rent plus a percentage of sales in excess of a specified amount. We typically pay certain operating costs such as common area maintenance, utilities, insurance and taxes. We will continue to close certain underperforming stores upon the expiration of their respective leases. See "Business – Store Operations."

The following table sets forth the locations of Frederick's of Hollywood stores as of July 30, 2011.

Arizona	4	Massachusetts	4	Oklahoma	2
California	43	Michigan	3	Oregon	2
Connecticut	1	Minnesota	2	Pennsylvania	1
Florida	14	Missouri	1	South Carolina	1
Georgia	4	Nevada	5	Tennessee	1
Hawaii	1	New Hampshire	1	Texas	12
Illinois	3	New Jersey	1	Virginia	2
Indiana	1	New Mexico	1	Washington	1
Kansas	1	New York	6	Wisconsin	1
Maryland	1	Ohio	3		

Typically, when space is leased for a store in a mall shopping center, all improvements, including interior walls, floors, ceilings, fixtures and decorations are performed by contractors designated by Frederick's of Hollywood. The cost of improvements varies widely, depending on the design, size and location of the store. As a lease incentive in certain cases, the landlord of the property may provide a construction allowance to fund all, or a portion, of the cost of improvements.

We believe that our facilities are adequate for our current and reasonably foreseeable future needs and that our properties are in good condition and suitable for the conduct of our business.

ITEM 3. – LEGAL PROCEEDINGS

We are involved from time to time in litigation incidental to our business. We believe that the outcome of such litigation will not have a material adverse effect on our results of operations or financial condition.

ITEM 4. – [REMOVED AND RESERVED]

PART II

ITEM 5. – MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is traded on the NYSE Amex under the symbol “FOH.” The following table sets forth the reported high and low sales prices per share for the periods indicated.

	High	Low
Year Ended July 30, 2011		
First Quarter	\$1.23	\$0.74
Second Quarter	1.40	0.71
Third Quarter	0.98	0.62
Fourth Quarter	0.86	0.60
Year Ended July 31, 2010		
First Quarter	\$2.54	\$0.83
Second Quarter	1.80	1.05
Third Quarter	1.74	1.06
Fourth Quarter	1.11	0.70

On October 11, 2011, the closing sale price of our common stock was \$0.46.

Holdings

As of October 11, 2011, there were approximately 707 shareholders of record of our common stock. We believe that there are also a significant number of beneficial owners of our common stock whose shares are held in “street name.”

Dividend Policy

We have not paid any cash dividends on our common stock to date. It is the present intention of our board of directors to retain all earnings, if any, for use in our business operations and, accordingly, our board does not currently anticipate declaring any cash dividends in the foreseeable future. The payment of dividends will be within the discretion of our board of directors and will be contingent upon our revenue and earnings, if any, capital requirements, general financial condition and such other factors as our board may consider. In addition, certain covenants in our Facility (defined below) with Wells Fargo Bank, National Association (“Wells Fargo”) and our Term Loan (defined below) with Hilco Brands, LLC (“Hilco”) substantially restrict payment of cash dividends.

ITEM 6. – SELECTED FINANCIAL DATA

This item is not required to be completed by smaller reporting companies. Our consolidated financial statements appear elsewhere in this report in Item 8. – “Financial Statements and Supplementary Data.”

ITEM 7. – MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Frederick’s of Hollywood Group Inc., through its subsidiaries, sells women’s intimate apparel and related products under its proprietary Frederick’s of Hollywood® brand predominantly through its U.S. mall-based Frederick’s of Hollywood specialty retail stores, which are referred to as “Stores,” and through its catalog and website at www.fredericks.com, which are referred to collectively as “Direct.” As of July 30, 2011, we operated 123 Frederick’s of Hollywood stores nationwide and during fiscal year 2011 mailed approximately 13.6 million catalogs.

For financial reporting purposes, we have one reportable segment representing the aggregation of our two operating segments (Stores and Direct), based on their similar economic characteristics, products and target customers.

Financial information for the fiscal years ended July 30, 2011 and July 31, 2010 is included in the consolidated financial statements appearing elsewhere in this report.

Operating Initiatives

For a discussion of our operating initiatives, see Item 1. “Business – Operating Initiatives.”

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the appropriate application of certain accounting policies, many of which require estimates and assumptions about future events and their impact on amounts reported in the financial statements and related notes. Since future events and their impact cannot be determined with certainty, the actual results will inevitably differ from our estimates. Such differences could be material to the financial statements.

Management believes that the application of accounting policies, and the estimates inherently required by the policies, are reasonable. These accounting policies and estimates are constantly re-evaluated, and adjustments are made when facts and circumstances dictate a change. Historically, management has found the application of accounting policies to be appropriate, and actual results generally do not differ materially from those determined using necessary estimates.

Our accounting policies are more fully described in Note 2 to the consolidated financial statements appearing elsewhere in this report. Management has identified certain critical accounting policies that are described below.

Our most significant areas of estimation and assumption are:

- determination of the appropriate amount and timing of markdowns to clear unproductive or slow-moving inventory and overall inventory obsolescence;
- estimation of future cash flows used to assess the recoverability of long-lived assets, including trademarks;
- estimation of expected customer merchandise returns;
- estimation of the net deferred income tax asset valuation allowance; and

- capitalization of deferred catalog costs and the estimated amount of future benefit to be derived from the catalogs.

Revenue Recognition – We record revenue at the point of sale for Stores and at the time of estimated receipt by the customer for Direct sales. Outbound shipping charges billed to customers are included in net sales. We record an allowance for estimated returns from our retail consumers in the period of sale based on prior experience. At July 30, 2011 and July 31, 2010, the allowance for estimated returns was \$794,000 and \$868,000, respectively. If actual returns are greater than those expected, additional sales returns may be recorded in the future. Historically, management has found its return reserve to be appropriate, and actual results generally do not differ materially from those determined using necessary estimates.

Merchandise Inventories – Store inventories are valued at the lower of cost or market using the retail inventory first-in, first-out (“FIFO”) method, and Direct inventories are valued at the lower of cost or market, on an average cost basis that approximates the FIFO method. Store and Direct inventories consist entirely of finished goods. Freight costs are included in inventory and vendor promotional allowances are recorded as a reduction in inventory cost.

These inventory methods inherently require management judgments and estimates, such as the amount and timing of permanent markdowns to clear unproductive or slow-moving inventory, which may impact the ending inventory valuations as well as gross margins. Markdowns are recorded when the sales value of the inventory has diminished. Factors considered in the determination of permanent markdowns include current and anticipated demand, customer preferences, age of the merchandise, and fashion trends. We reserve for the difference between the cost of inventory and the estimated market value based upon assumptions about future demand, market conditions, and the age of the inventory. If actual market conditions are less favorable than those projected by management, additional inventory reserves may be required. Historically, management has found its inventory reserves to be appropriate, and actual results generally do not differ materially from those determined using necessary estimates. Inventory reserves were \$547,000 and \$278,000 at July 30, 2011 and July 31, 2010, respectively.

Deferred Catalog Costs – Deferred catalog costs represent direct-response advertising that is capitalized and amortized over its expected period of future benefit. The capitalized costs of the advertising are amortized over the expected revenue stream following the mailing of the respective catalog, which is generally less than three months. The realizability of the deferred catalog costs are also evaluated as of each balance sheet date by comparing the capitalized costs for each catalog, on a catalog by catalog basis, to the probable remaining future gross profit of the related revenue. Direct-response advertising costs of \$1,476,000 and \$1,488,000 are included in prepaid expenses and other current assets in the accompanying consolidated balance sheets at July 30, 2011 and July 31, 2010, respectively. Management believes that they have appropriately determined the expected period of future benefit as of the date of its consolidated financial statements; however, should actual sales results differ from expected sales, deferred catalog costs may be written off on an accelerated basis.

Impairment of Long-Lived Assets – We review long-lived assets, including property and equipment and our amortizable intangible assets, for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable based on undiscounted cash flows. If long-lived assets are impaired, an impairment loss is recognized and is measured as the amount by which the carrying value exceeds the estimated fair value of the assets.

The estimation of future undiscounted cash flows from operating activities requires significant estimates of factors that include future sales growth and gross margin performance. Management believes they have appropriately determined future cash flows and operating performance; however, should actual results differ from those expected, additional impairment may be required. For the years ended July 30, 2011 and July 31, 2010, we recorded an impairment of property and equipment of \$1,910,000 and \$1,705,000, respectively.

Intangible Assets – We have certain indefinite lived intangible assets, principally the Frederick’s of Hollywood trade name and domain names. Applicable accounting guidance requires us not to amortize indefinite life intangible assets, but to test those intangible assets for impairment annually and between annual tests when circumstances or events have occurred that may indicate a potential impairment has occurred. The fair value of the trademarks was determined using the relief-from-royalty method. The relief-from-royalty method estimates the royalty expense that could be avoided in the operating business as a result of owning the respective asset or technology. The royalty savings are measured, tax-effected and, thereafter, converted to present value with a discount rate that considers the risk associated with owning the intangible asset. No impairment was present and no write-down was required when the trademarks were reviewed for impairment in connection with the annual impairment test.

Income Taxes – Income taxes are accounted for under an asset and liability approach that requires the recognition of deferred income tax assets and liabilities for the expected future consequences of events that have been recognized in our financial statements and income tax returns. We provide a valuation allowance for deferred income tax assets when it is considered more likely than not that all or a portion of such deferred income tax assets will not be realized.

Results of Operations

Management considers certain key indicators when reviewing our results of operations and liquidity and capital resources. One key operating metric is the performance of comparable store sales, which are the net merchandise sales of stores that have been open at least one complete year. Because our results of operations are subject to seasonal variations, retail sales are reviewed against comparable store sales for the similar period in the prior year. A material factor that we consider when reviewing sales is the gross profit percentage. We also consider our selling, general and administrative expenses as a key indicator in evaluating our financial performance. Inventory and our outstanding borrowings are the main indicators we consider when we review our liquidity and capital resources, particularly the size and age of the inventory. We review all of our key indicators against the prior year and our operating projections in order to evaluate our operating performance and financial condition.

During the fourth quarter of fiscal year 2010, we made a strategic decision to divest our wholesale division due to continuing losses and in order to focus on our core retail operations. On October 27, 2010, we completed the sale to Dolce Vita of substantially all of the assets of the wholesale division, except cash, accounts receivable and certain other assets. The wholesale division's operations are classified as discontinued operations for all periods presented in the consolidated financial statements appearing elsewhere in this report.

The following table shows each specified item as a dollar amount and as a percentage of net sales in each fiscal period, and should be read in conjunction with the consolidated financial statements included elsewhere in this report (in thousands, except for percentages, which percentages may not add due to rounding):

	Year Ended					
	July 30, 2011 (52 weeks)			July 31, 2010 (53 weeks)		
Net sales	\$ 119,615	100.0	%	\$ 133,855	100.0	%
Cost of goods sold, buying and occupancy	76,647	64.1	%	84,180	62.9	%
Gross profit	42,968	35.9	%	49,675	37.1	%
Selling, general and administrative expenses	49,771	41.6	%	55,079	41.2	%
Impairment of long-lived assets	1,910	1.6	%	1,705	1.3	%
Operating loss	(8,713)	(7.3)	%	(7,109)	(5.3)	%
Interest expense, net	1,483	1.2	%	1,651	1.2	%
Loss from continuing operations before income tax provision	(10,196)	(8.5)	%	(8,760)	(6.5)	%
Income tax provision	134	0.1	%	47	0.1	%
Loss from continuing operations	(10,330)	(8.6)	%	(8,807)	(6.6)	%
Loss from discontinued operations, net of tax provision	(1,725)	(1.5)	%	(12,357)	(9.2)	%
Net loss	(12,055)	(10.1)	%	(21,164)	(15.8)	%
Less: Preferred stock dividends	-			430		
Net loss applicable to common shareholders	\$ (12,055)			\$ (21,594)		

Fiscal Year 2011 Compared to Fiscal Year 2010

Our fiscal year is the 52- or 53-week period ending on the last Saturday in July. Our consolidated financial statements for fiscal years 2011 and 2010 consist of the 52-week period ended July 30, 2011 and the 53-week period ended July 31, 2010, respectively.

Net Sales

Net sales for the year ended July 30, 2011 decreased to \$119,615,000 as compared to \$133,855,000 for the year ended July 31, 2010, and were as follows (in thousands, except for percentages):

	Year Ended		Increase/ (Decrease)	% of increase/ (decrease) from prior year
	July 30, 2011	July 31, 2010		
Stores	\$ 72,209	\$ 84,280	\$ (12,071)	(14.3)%
Direct (catalog and website)	39,663	41,558	(1,895)	(4.6)%
Licensing revenue	644	5	639	12,780.0 %
Other revenue	7,099	8,012	(913)	(11.4)%
Total net sales	\$ 119,615	\$ 133,855	\$ (14,240)	(10.6)%

Total store sales for the year ended July 30, 2011 decreased by \$12,071,000, or 14.3%, as compared to the year ended July 31, 2010. Comparable store sales for the year ended July 30, 2011 decreased by \$9,550,000, or 11.9%, as compared to the year ended July 31, 2010. This decrease was primarily due to:

- lower than optimal inventory levels as a result of credit limits imposed by certain of our vendors prior to the sale of our wholesale division in October 2010. We began fiscal year 2012 with normal inventory levels;
- the product and design choices made by our merchandising and design team that was in place in fiscal year 2010. Beginning in the latter part of the fourth quarter of fiscal year 2011, our newly restructured merchandising/trend team began to positively impact our product assortment;
 - lower consumer traffic at our stores as compared to the same period in the prior year;
 - a reduction in the number of stores from 126 at July 31, 2010 to 123 at July 30, 2011; and
 - one extra week of sales in fiscal 2010.

Direct sales for the year ended July 30, 2011 decreased by \$1,895,000, or 4.6%, as compared to the year ended July 31, 2010. This decrease is primarily attributable to lower than optimal inventory levels during fiscal year 2011 and mailing fewer catalogs in the year ended July 30, 2011 as compared to the year ended July 31, 2010 as part of our efforts to reduce catalog costs and reallocate resources to our website and online marketing initiatives, as well as having one extra week of shipments in fiscal year 2010. We mailed approximately 13.6 million catalogs during the year ended July 30, 2011 as compared to approximately 15.3 million catalogs during the year ended July 31, 2010.

Licensing revenue for the years ended July 30, 2011 and July 31, 2010 was \$644,000 and \$5,000, respectively. In March 2011, we entered into an exclusive, multi-year licensing agreement with EABG, which provides for EABG to build and operate Frederick's of Hollywood retail stores in the Middle East. EABG made an initial non-refundable payment of \$500,000 to us upon the execution of the agreement, which is included in licensing revenue for the year

ended July 30, 2011.

Other revenue consists of shipping revenue, commissions earned on direct sell-through programs, breakage on gift cards, and product sales to our licensing partner in the Middle East. Other revenue for the year ended July 30, 2011 decreased by \$913,000, or 11.4%, as compared to the year ended July 31, 2010. This decrease is primarily attributable to a reduction in shipping revenue due to increases in free shipping offers in order to stimulate sales, as well as a reduction in commissions earned on direct sell-through programs, partially offset by product sales to our licensing partner in the Middle East and gift card breakage recorded during fiscal year 2011.

Gross Profit

Gross margin (gross profit as a percentage of net sales) for the year ended July 30, 2011 was 35.9% as compared to 37.1% for the year ended July 31, 2010. The largest contributors to the decrease in gross margin were the following:

- Product costs as a percentage of sales increased by 0.2 percentage points for the year ended July 30, 2011 as compared to the year ended July 31, 2010.
- All other costs included in cost of sales, including buying costs, store occupancy, store depreciation, freight and distribution center costs, decreased by \$2,417,000 for the year ended July 30, 2011 as compared to the year ended July 31, 2010. This decrease was primarily attributable to headcount reductions resulting from streamlining the buying and merchandising departments, and fewer stores in the year ended July 30, 2011 as compared to the same period in the prior year. However, as a percentage of sales, these costs increased by 1.1 percentage points for the year ended July 30, 2011 as compared to the same period in the prior year due to lower sales.
- Other revenue decreased by \$913,000, primarily due to a reduction in shipping revenue resulting from increases in free shipping offers in order to stimulate sales, as well as a reduction in commissions earned on direct sell-through programs, partially offset by product sales to our licensing partner in the Middle East and gift card breakage recorded during fiscal year 2011.
- Licensing revenue increased by \$639,000, primarily due to an initial, non-refundable \$500,000 payment by EABG upon the execution of our licensing agreement.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the year ended July 30, 2011 decreased by \$5,308,000 to \$49,771,000, or 41.6% of sales, from \$55,079,000, or 41.2% of sales, for the year ended July 31, 2010. In addition to having one additional week of expenses in the prior fiscal year, this decrease is primarily attributable to the following:

- Expenses related to corporate overhead decreased by \$188,000 to \$12,112,000 for the year ended July 30, 2011 from \$12,300,000 for the same period in the prior year. This decrease was primarily due to a decrease in salaries and salary-related costs of \$547,000 resulting from a reduction in full-time personnel, partially offset by \$458,000 of severance and severance-related expenses recorded in connection with the planned departure of our former president in January 2012.
- Store selling, general and administrative expenses decreased by \$2,820,000 to \$21,128,000 for the year ended July 30, 2011 from \$23,948,000 for the same period in the prior year. This decrease was primarily due to decreases in (i) salaries and salary-related costs of \$1,360,000, (ii) telecommunications costs of \$344,000, (iii) store signage costs of \$350,000 and (iv) credit card fees of \$183,000. We also had a loss on the disposal of telecommunications equipment in the prior year of \$169,000, which we did not have in the current year. The decrease in salaries and salary-related costs was due to having fewer stores, which resulted in a reduction in head count as compared to the prior year. The lower store signage costs was the result of changing signs within our stores less frequently during the year ended July 30, 2011 as compared to the same period in the prior year. The lower telecommunications costs and the loss on the disposal of telecommunications equipment in the prior year were the result of the cancellation of a telecommunications contract that required us to maintain a more expensive connection between our stores and our data center. The decrease in credit card fees was due to lower store sales during the year ended July 30, 2011 as compared to the same period in the prior year.
-

Direct selling, general and administrative expenses decreased by \$1,338,000 to \$16,285,000 for the year ended July 30, 2011 from \$17,623,000 for the same period in the prior year. This decrease was primarily due to decreases in (i) catalog expenses of \$1,619,000, (ii) website development expenses of \$280,000 and (iii) customer contact center expenses of \$236,000, partially offset by an increase in e-commerce marketing expenses of \$810,000. The decrease in catalog expenses was due to not mailing the summer clearance catalog during the first quarter of fiscal year 2011 and a spring catalog during the third quarter of fiscal 2011. We did not incur website development expenses during the year ended July 30, 2011 that were incurred during the same period in the prior year in connection with the completion of the migration to our new e-commerce platform. The decrease in customer contact center expenses resulted from a lower head count as compared to the prior year. The increase in e-commerce marketing expenses was related to our efforts to increase our website and online marketing initiatives.

- Brand marketing expenses decreased by \$962,000 to \$246,000 for the year ended July 30, 2011 from \$1,208,000 for the same period in the prior year. The decrease was primarily due to a decrease in public promotional events and complimentary customer offerings as compared to the same period in the prior year.

Impairment of Long-lived Assets

We record impairment charges whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable based on undiscounted cash flows. At July 30, 2011, we identified six underperforming stores that we concluded were impaired due to sustained historical losses at those stores and recorded an impairment charge of \$1,698,000 related to those stores. In addition, we determined that a partially completed software upgrade was not going to be completed and recorded an impairment charge of \$212,000 related to the work that was performed. At July 31, 2010, we identified nine underperforming stores that we concluded were impaired due to sustained historical losses at those stores and recorded an impairment charge of \$1,705,000 related to those stores.

Interest Expense, Net

During the year ended July 30, 2011, net interest expense was \$1,483,000 as compared to \$1,651,000 for the year ended July 31, 2010. The decrease resulted primarily from lower borrowings under our revolving credit facility (described below under "Revolving Credit Facility"), partially offset by a higher interest rate on our term loan (described below under "Term Loan").

Income Tax Provision

Our income tax provision for the years ended July 30, 2011 and July 31, 2010 primarily represents minimum and net worth taxes due in various states. Due to the uncertainty of realization in future periods, no tax benefit has been recognized on the net losses for these years. Accordingly, a full valuation allowance has been established on the current loss and all net deferred tax assets existing at the end of the period excluding the deferred tax liability related to intangible assets, which have an indefinite life.

Discontinued Operations

During the fourth quarter of fiscal year 2010, we made a strategic decision to divest our wholesale division due to continuing losses and in order to focus on our core retail operations. Our wholesale division's operations are classified as discontinued operations for all periods presented in the consolidated financial statements appearing elsewhere in this report. The loss from discontinued operations, net of tax, was \$1,725,000 for the year ended July 30, 2011 as compared to \$12,357,000 for the year ended July 31, 2010. This decrease in our loss was primarily due to a gain of approximately \$1,070,000 that we recorded as a result of the sale of our wholesale division and the cessation of wholesale related operations after the first quarter of fiscal year 2011. Revenue from discontinued operations was \$3,421,000 and \$20,153,000 for the years ended July 30, 2011 and July 31, 2010, respectively.

Liquidity and Capital Resources

Cash Used in Operations

Net cash used in operating activities for the year ended July 30, 2011 was \$11,137,000, resulting primarily from the following:

- net losses for the year ended July 30, 2011 of \$10,330,000 from continuing operations and \$1,725,000 from discontinued operations;

- an increase in inventory of \$3,865,000, which resulted from unusually low inventory levels at the end July 2010;
 - net cash used in operating activities of our discontinued operations of \$2,670,000; and
- a decrease in accounts payable and other accrued expenses of \$1,132,000, which resulted primarily from making more timely payments to our vendors for inventory and other services.

These decreases in cash flow were partially offset by non-cash expenses of \$3,122,000 for depreciation and amortization, \$1,910,000 for the impairment of long-lived assets and \$823,000 for stock compensation expenses.

Cash Provided by Investing Activities

Cash provided by investing activities for the year ended July 30, 2011 was \$4,373,000, which resulted primarily from the proceeds of the sale of the wholesale division's assets of \$4,469,000.

Cash Provided by Financing Activities

Net cash provided by financing activities for the year ended July 30, 2011 was \$6,676,000, which resulted primarily from an inflow of \$4,660,000 of cash that was held in a restricted cash account as of July 31, 2010, coupled with net borrowings under the revolving credit facility of \$2,146,000.

Revolving Credit Facility

We and our subsidiaries have a senior revolving credit facility, as amended (the "Facility") with Wells Fargo, which was scheduled to mature on January 28, 2012. As described below, on September 22, 2011, the Facility was amended to extend the maturity date until January 28, 2013. The Facility originally was for a maximum amount of \$50 million comprised of a \$25 million line of credit with a \$15 million sub-limit for letters of credit, and up to an additional \$25 million commitment in increments of \$5 million at our option so long as we were in compliance with the terms of the Facility. The Facility also originally was secured by a first priority security interest in all of our assets.

The actual amount of credit available under the Facility is determined using measurements based on our receivables, inventory and other measures. Subject to the potential interest rate reductions described below, interest is payable monthly, in arrears, at the Wells Fargo prime rate plus 175 basis points for base rate loans and at LIBOR plus 300 basis points for LIBOR rate loans. There also is a fee of 50 basis points on any unused portion of the Facility.

On September 21, 2009, the Facility was amended to provide for a \$2 million bridge facility at an annual interest rate of LIBOR plus 10% (the "Bridge Facility"), to be repaid upon the earlier of December 7, 2009 and the consummation of a financing in which we received net proceeds of at least \$4.9 million. On October 23, 2009, the Facility was further amended to extend the December 7, 2009 repayment date to August 1, 2010 and to reduce the net proceeds that we were required to receive to an aggregate of \$4.4 million.

On July 30, 2010, we repaid the Bridge Facility with proceeds from the Term Loan described below. In connection therewith, the Facility was amended to, among other things, (i) reduce the line of credit commitment from \$25 million to \$20 million and (ii) provide for the Facility to be secured by a second priority interest in all of our intellectual property and a first priority security interest in substantially all of our other assets.

In connection with the amendments to the Facility described above, we incurred a one-time amendment fee of \$150,000, one half of which was paid in connection with the September 2009 amendment to the Facility and the remainder was paid during the fiscal year ended July 30, 2011.

On September 22, 2011, the Facility was amended to, among other things: (i) extend the maturity date of the Facility from January 28, 2012 to January 28, 2013; (ii) reduce the line of credit commitment from \$20 million to \$12.5 million; (iii) increase the advance rates with respect to credit card receivables included in the borrowing base; and (iv) reduce the minimum availability reserve requirement from \$2 million to \$1.5 million. In addition, the applicable margin for LIBOR rate loans (currently 300 basis points) and for base rate loans (currently 175 basis points) will be maintained or reduced to between 250 and 300 basis points for LIBOR rate loans, and to between 125 and 175 basis

points for base rate loans, based on borrowing base availability.

In connection with this amendment to the Facility, the Company incurred a one-time amendment fee of \$100,000, which will become due and payable upon the earlier of an Event of Default (as defined in the financing agreement) or February 29, 2012.

As of July 30, 2011, we had (i) \$2,415,000 outstanding under the Facility at a base rate of 5.0% and (ii) \$3,000,000 outstanding under the Facility at a LIBOR rate of 3.19%. For the year ended July 30, 2011, borrowings under the Facility peaked at \$5,714,000 and the average borrowing during the period was approximately \$3,002,000. In addition, at July 30, 2011, we had \$620,000 of outstanding letters of credit under the Facility.

As of July 31, 2010, we had (i) \$2,269,000 outstanding under the Facility at a base rate of 5.0% and (ii) \$1,000,000 outstanding under the Facility at a LIBOR rate of 3.43%. For the year ended July 31, 2010, borrowings under the Facility (including the Bridge Facility) peaked at \$16,996,000 and the average borrowing during the period was approximately \$11,435,000. In addition, at July 31, 2010, we had \$1,664,000 of outstanding letters of credit under the Facility.

The Facility contains customary representations and warranties, affirmative and restrictive covenants and events of default. The restrictive covenants limit our ability to create certain liens, make certain types of borrowings and investments, liquidate or dissolve, engage in mergers, consolidations, significant asset sales and affiliate transactions, dispose of inventory, incur certain lease obligations, make capital expenditures, pay dividends, redeem or repurchase outstanding equity and issue capital stock. In lieu of financial covenants, fixed charge coverage and overall debt ratios, we are required to maintain specified minimum availability reserves. At July 30, 2011, we were in compliance with the Facility's covenants and minimum availability reserve requirements.

Term Loan

On July 30, 2010, we and certain of our subsidiaries entered into a financing agreement (the "Hilco Financing Agreement") with the lending parties from time to time a party thereto and Hilco Brands, LLC, as lender and also as arranger and agent ("Hilco"). The Hilco Financing Agreement provides for a term loan in the aggregate principal amount of \$7,000,000 ("Term Loan"). From the Term Loan proceeds, \$2,000,000 was used to repay the Bridge Facility with the balance to be available to us for additional working capital.

One-half of the principal amount of the Term Loan, together with accrued interest, is payable by us on July 30, 2013 (the "Initial Maturity Date") and the other half of the principal amount of the Term Loan, together with accrued interest, is payable on July 30, 2014 (the "Maturity Date"). The Term Loan bears interest at a fixed rate of 9.0% per annum ("Regular Interest") and an additional 6.0% per annum compounded annually ("PIK Interest"). Regular Interest is payable quarterly, in arrears, on the first day of each calendar quarter, commencing on October 1, 2010, and at maturity. PIK Interest is payable on the Initial Maturity Date and the Maturity Date, with us having the right, at the end of any calendar quarter, to pay all or any portion of the then accrued PIK Interest.

The Term Loan is secured by a first priority security interest in all of our intellectual property and a second priority security interest in substantially all of our other assets, all in accordance with the terms and conditions of a Security Agreement between us and Hilco entered into concurrently with the Hilco Financing Agreement. Also, concurrently with the Hilco Financing Agreement, Hilco and Wells Fargo entered into an Intercreditor Agreement, acknowledged by us, setting forth, among other things, their respective rights and obligations as to the collateral covered by the Security Agreement.

The Hilco Financing Agreement and other loan documents contain customary representations and warranties, affirmative and negative covenants and events of default substantially similar to those contained in the Facility, except that the Hilco Financing Agreement contains a debt service coverage ratio covenant, which was to become effective commencing for the fiscal year ended July 30, 2011. However, on July 29, 2011, the Hilco Financing Agreement was amended to extend the date the debt service coverage ratio financial covenant becomes effective to the fiscal year ending July 28, 2012. The restrictive covenants limit our ability to create certain liens, make certain types of borrowings and investments, liquidate or dissolve, engage in mergers, consolidations, significant asset sales and affiliate transactions, dispose of inventory, incur certain lease obligations, make capital expenditures, pay dividends, redeem or repurchase outstanding equity and issue capital stock.

We paid a one-time fee of \$280,000 in connection with the closing of the Term Loan. To finance the amendment to extend the effective date of the debt service coverage ratio financial covenant, the principal amount of the Term Loan

was increased by \$100,000. For the year ended July 30, 2011, we recorded interest expense of approximately \$1,062,000, which is comprised of approximately \$637,000 of Regular Interest and approximately \$425,000 of PIK Interest.

Private Placement

On March 16, 2010, we completed a private placement to accredited investors of 2,907,051 shares of common stock at \$1.05 per share, raising total gross proceeds of approximately \$3,052,000 ("Private Placement"). The investors in the Private Placement also received two-and-a-half year Series A warrants to purchase up to an aggregate of 1,162,820 shares of common stock at an exercise price of \$1.25 per share, and five-year Series B warrants to purchase up to an aggregate of 1,162,820 shares of common stock at an exercise price of \$1.55 per share. Both warrants became exercisable on September 16, 2010. We also issued to Avalon Securities Ltd., the placement agent in the transaction, and its designees, warrants to purchase an aggregate of 218,030 shares of common stock at an exercise price of \$1.21 per share. Except for the exercise price, these warrants are identical to the Series B warrants issued to investors in the Private Placement.

Exchange of Long-Term Debt – Related Party and Conversion of Series A Preferred Stock

On May 18, 2010, we completed the transactions contemplated by the Debt Exchange and Preferred Stock Conversion Agreement, dated as of February 1, 2010, with accounts and funds managed by and/or affiliated with Fursa Alternative Strategies LLC (collectively, “Fursa”). At the closing, we issued to Fursa an aggregate of 8,664,373 shares of common stock upon exchange of approximately \$14,285,000 of outstanding secured long-term debt (including accrued interest) due to Fursa, and conversion of approximately \$8,795,000 of Series A Preferred Stock (including accrued dividends) owned by Fursa, representing all of the outstanding shares of our Series A Preferred Stock, at an effective price of approximately \$2.66 per share. We also issued to Fursa three, five and seven-year warrants, each to purchase 500,000 shares of common stock (for an aggregate of 1,500,000 shares of common stock) at exercise prices of \$2.00, \$2.33 and \$2.66 per share, respectively.

Future Financing Requirements

As of July 30, 2011, our working capital deficiency increased by \$5,430,000 to \$7,960,000. As our business continues to be effected by limited working capital, management plans to carefully manage our working capital and continue to look for ways to improve our working capital position. Management believes that the available borrowings under the Facility, along with our projected operating cash flows, will be sufficient to cover our working capital requirements and capital expenditures through the end of fiscal year 2012. Our ability to achieve our fiscal year 2012 business plan is critical to maintaining adequate liquidity. There can be no assurance that we will be successful in our efforts.

We expect that our capital expenditures for fiscal year 2012 will be approximately \$1,000,000, primarily for improvements to our information technology systems, expenditures to support our website and online marketing initiatives, store refurbishment costs, and other general corporate expenditures.

Off Balance Sheet Arrangements

We are not a party to any material off-balance sheet financing arrangements except relating to open letters of credit as described in Note 8, “Financing Agreements,” included in the notes to the consolidated financial statements appearing elsewhere in this report.

Effect of New Accounting Standards

See Note 2, “Summary of Significant Accounting Policies,” included in the notes to the consolidated financial statements appearing elsewhere in this report for a discussion of recent accounting developments and their impact on our consolidated financial statements. There have been no recently issued accounting updates that had a material impact on our consolidated financial statements for the year ended July 30, 2011 or are expected to have an impact in the future.

Seasonality and Inflation

Our business experiences seasonal sales patterns. Sales and earnings typically peak during the second and third fiscal quarters (November through April), primarily during the holiday season in November and December, as well as the Valentine’s Day holiday in the month of February. As a result, we maintain higher inventory levels during these peak selling periods.

Inflationary factors such as increases in the cost of our products and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current

levels of gross margin and selling, general and administrative expenses as a percentage of net revenue if the selling prices of our products do not increase with these increased costs.

ITEM 7A. – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risks

We are exposed to interest rate risk associated with our Facility. As of July 30, 2011, interest accrued at an agreed to reference rate, which was the Wells Fargo prime rate plus 175 basis points for base rate loans and the LIBOR rate plus 300 basis points for LIBOR rate loans. At July 30, 2011, we had \$2,415,000 outstanding under the Facility at a base rate of 5.0% and (ii) \$3,000,000 outstanding under the Facility at a LIBOR rate of 3.19%. For the year ended July 30, 2011, borrowings under the Facility peaked at \$5,714,000 and the average borrowing during the period was approximately \$3,002,000. An increase or decrease in the interest rate by 100 basis points from the levels at July 30, 2011 would increase or decrease annual interest expense by approximately \$54,000.

Foreign Currency Risks

We buy products from a significant number of domestic vendors who enter into purchase obligations outside of the U.S. All of our product purchase orders are negotiated and settled in U.S. dollars. Therefore, we have no exposure to foreign currency exchange risks. However, fluctuations in foreign currency rates could have an impact on our future purchases.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Frederick's of Hollywood Group Inc.
New York, New York

We have audited the accompanying consolidated balance sheets of Frederick's of Hollywood Group Inc. and subsidiaries as of July 30, 2011 and July 31, 2010 and the related consolidated statements of operations, shareholders' equity and cash flows for the years then ended. Our audits also included the financial statement schedule listed in the Index at item 15 for the years ended July 30, 2011 and July 31, 2010. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Frederick's of Hollywood Group Inc. and subsidiaries at July 30, 2011 and July 31, 2010, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

FREDERICK'S OF HOLLYWOOD GROUP INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. THE COMPANY AND BASIS OF PRESENTATION

Frederick's of Hollywood Group Inc. (the "Company"), through its subsidiaries, sells women's intimate apparel and related products under its proprietary Frederick's of Hollywood® brand predominantly through U.S. mall-based specialty stores, which are referred to as "Stores," and through its catalog and website at www.fredericks.com, which are referred to collectively as "Direct."

During the fourth quarter of fiscal year 2010, the Company made a strategic decision to divest its wholesale division due to continuing losses and in order to focus on its core retail operations. On October 27, 2010, the Company completed the sale to Dolce Vita Intimates LLC ("Dolce Vita") of substantially all of the assets of the wholesale division, except cash, accounts receivable and certain other assets. The wholesale division's operations are classified herein as discontinued operations (See Note 3).

On January 28, 2008, the Company consummated its merger with FOH Holdings, Inc., a privately held Delaware corporation ("FOH Holdings"). As a result, FOH Holdings became a wholly-owned subsidiary of the Company. Following the merger, the Company changed its name from Movie Star, Inc. to Frederick's of Hollywood Group Inc. References herein to "Movie Star" refer to the Company prior to the merger.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation – The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All inter-company transactions and balances have been eliminated in consolidation.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The Company's most significant areas of estimation and assumption are:

- determination of the appropriate amount and timing of markdowns to clear unproductive or slow-moving retail inventory and overall inventory obsolescence;
- estimation of future cash flows used to assess the recoverability of long-lived assets, including trademarks and other intangible assets;
- estimation of expected customer merchandise returns;
- estimation of the net deferred income tax asset valuation allowance; and
- capitalization of deferred catalog costs and the estimated amount of future benefit to be derived from the catalogs.

Fiscal Year – The Company's fiscal year is the 52- or 53-week period ending on the last Saturday in July. The Company's consolidated financial statements for fiscal years 2011 and 2010 consist of the 52-week period ended July

30, 2011 and the 53-week period ended July 31, 2010, respectively.

Cash and Cash Equivalents – The Company considers highly liquid investments with an initial maturity of three months or less to be cash equivalents. As of July 31, 2010, the Company had \$4,660,000 in restricted cash that could only be used to reduce its revolving credit facility (See Note 8).

Accounts Receivable – The Company's accounts receivable is comprised primarily of amounts due from commercial credit card companies such as Visa, MasterCard, and American Express, which are generally received within a few days of the related transaction, so a reserve is not considered necessary. Credit card receivables were \$918,000 and \$970,000 at July 30, 2011 and July 31, 2010, respectively.

Merchandise Inventories –Store inventories are valued at the lower of cost or market using the retail inventory first-in, first-out ("FIFO") method, and Direct inventories are valued at the lower of cost or market, on an average cost basis that approximates the FIFO method. Store and Direct inventories consist entirely of finished goods. Freight costs are included in inventory and vendor promotional allowances are recorded as a reduction in inventory cost.

These inventory methods inherently require management judgments and estimates, such as the amount and timing of permanent markdowns to clear unproductive or slow-moving inventory, which may impact the ending inventory valuations and gross margins. Markdowns are recorded when the sales value of the inventory has diminished. Factors considered in the determination of permanent markdowns include current and anticipated demand, customer preferences, age of the merchandise, and fashion trends. The Company reserves for the difference between the cost of inventory and the estimated market value based upon assumptions about future demand, market conditions, and the age of the inventory. If actual market conditions are less favorable than those projected by management, additional inventory reserves may be required. Historically, management has found its inventory reserves to be appropriate, and actual results generally do not differ materially from those determined using necessary estimates. Inventory reserves were \$547,000 and \$278,000 at July 30, 2011 and July 31, 2010, respectively.

Deferred Catalog Costs – Deferred catalog costs represent direct-response advertising that is capitalized and amortized over its expected period of future benefit. The capitalized costs of the advertising are amortized over the expected revenue stream following the mailing of the respective catalog, which is generally less than three months. The realizability of the deferred catalog costs are also evaluated as of each balance sheet date by comparing the capitalized costs for each catalog, on a catalog by catalog basis, to the probable remaining future gross profit of the related revenue. Direct-response advertising costs of \$1,476,000 and \$1,488,000 are included in prepaid expenses and other current assets in the accompanying consolidated balance sheets at July 30, 2011 and July 31, 2010, respectively. Management believes that they have appropriately determined the expected period of future benefit as of the date of its consolidated financial statements; however, should actual sales results differ from expected sales, deferred catalog costs may be written off on an accelerated basis. Direct-response advertising expense for the years ended July 30, 2011 and July 31, 2010 were \$8,155,000 and \$9,775,000, respectively.

Property and Equipment – Property and equipment are stated at cost, less accumulated depreciation. The Company's policy is to capitalize expenditures that materially increase asset lives and expense ordinary repairs and maintenance as incurred. Depreciation is provided for on the straight-line method over the estimated useful lives of the assets, which is generally three years for computer software, five years for computer equipment, three to seven years for furniture and equipment, and the shorter of the remaining lease term or the estimated useful life for leasehold improvements.

Deferred Financing Costs – Deferred financing costs are amortized using the straight-line method over the terms of the related debt agreements, which approximate the effective interest method. Amortization of deferred financing costs were \$138,000 and \$188,000 for the years ended July 30, 2011 and July 31, 2010, respectively, and were included in interest expense in the accompanying consolidated statements of operations.

Impairment of Long-Lived Assets – The Company reviews long-lived assets, including property and equipment and its amortizable intangible assets, for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable based on undiscounted cash flows. If long-lived assets are impaired, an impairment loss is recognized and is measured as the amount by which the carrying value exceeds the estimated fair value of the assets. The estimation of future undiscounted cash flows from operating activities requires significant estimates of factors that include future sales growth and gross margin performance. Management believes they have appropriately determined future cash flows and operating performance; however, should actual results differ from those expected, additional impairment may be required. The Company recorded impairment charges related to underperforming retail stores in the accompanying consolidated statements of operations of \$1,698,000 and \$1,705,000 for the years ended July 30, 2011 and July 30, 2010, respectively. The Company also recorded an impairment charge of \$212,000 for the year ended July 30, 2011 related to a specific computer software upgrade that is not expected to be completed.

Intangible Assets – The Company has certain indefinite lived intangible assets, principally the Frederick's of Hollywood trade name and domain names. The Company's intangible assets are comprised of \$18,090,000 attributable to its trademark and \$169,000 to its domain names as of July 30, 2011 and July 31, 2010.

Applicable accounting guidance requires the Company to not amortize indefinite life intangible assets, but to test those intangible assets for impairment annually and between annual tests when circumstances or events have occurred that may indicate a potential impairment has occurred. The fair value of the trademarks was determined using the relief-from-royalty method. The relief-from-royalty method estimates the royalty expense that could be avoided in the operating business as a result of owning the respective asset or technology. The royalty savings are measured, tax-effected and, thereafter, converted to present value with a discount rate that considers the risk associated with owning the intangible asset. No impairment was present and no write-down was required when the trademarks were reviewed for impairment in connection with the annual impairment test.

Deferred Rent Obligations – The Company recognizes rent expense for operating leases on a straight-line basis (including the effect of reduced or free rent and contractually obligated rent escalations) over the lease term. The difference between the cash paid to the landlord and the amount recognized as rent expense on a straight-line basis is included in deferred rent in the accompanying consolidated balance sheets. Cash reimbursements received from landlords for leasehold improvements and other cash payments received from landlords as lease incentives are recorded as deferred rent from tenant allowances. Deferred rent related to tenant allowances is amortized using the straight-line method over the lease term as a reduction to rent expense.

Fair Value of Financial Instruments – The Company's management believes the carrying amounts of cash and cash equivalents, accounts receivable, the Facility (defined below), accounts payable and accrued expenses approximate fair value due to their short maturity.

The valuation techniques required by applicable accounting guidance are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect internal market assumptions. These two types of inputs create the following fair value hierarchy:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related asset or liabilities.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of assets or liabilities.

The hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value of the Company's Term Loan (as defined below in Note 8) was estimated using a discounted cash flow analysis with a yield rate based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. At July 30, 2011, the estimated fair value of the Term Loan was \$7,747,000 and is classified within Level 3 of the fair value hierarchy.

Accounting for Stock-Based Compensation – The Company measures and recognizes compensation expense for all share-based payment awards to employees and directors based on estimated fair values on the grant date. The Company recognizes the expense on a straight-line basis over the requisite service period, which is the vesting period. The value of each stock option is estimated on the date of grant using the Black-Scholes option-pricing model. The fair value generated by the Black-Scholes model may not be indicative of the future benefit, if any, that may be received by the option holder.

Income Taxes – Income taxes are accounted for under an asset and liability approach that requires the recognition of deferred income tax assets and liabilities for the expected future consequences of events that have been recognized in

the Company's financial statements and income tax returns. The Company provides a valuation allowance for deferred income tax assets when it is considered more likely than not that all or a portion of such deferred income tax assets will not be realized.

Applicable accounting guidance requires that a position taken or expected to be taken in a tax return be recognized in the financial statements when it is more likely than not that the position would be sustained upon examination by tax authorities. A recognized tax position is then measured at the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. Accounting provisions also require that a change in judgment that results in subsequent recognition, derecognition, or change in a measurement of a tax position taken in a prior annual period (including any related interest and penalties) be recognized as a discrete item in the period in which the change occurs. The Company regularly evaluates the likelihood of recognizing the benefit for income tax positions taken in various federal and state filings by considering all relevant facts, circumstances, and information available.

The Company classifies any interest and penalties related to unrecognized tax benefits as a component of income tax expense.

Revenue Recognition – The Company records revenue at the point of sale for Stores and at the time of estimated receipt by the customer for Direct sales. Outbound shipping charges billed to customers are included in net sales. The Company records an allowance for estimated returns from its retail consumers in the period of sale based on prior experience. At July 30, 2011 and July 31, 2010, the allowance for estimated returns was \$794,000 and \$868,000, respectively. If actual returns are greater than those expected, additional sales returns may be recorded in the future. Sales are recorded net of sales taxes collected from customers at the time of the transaction.

The Company records other revenue for shipping revenue, commissions earned on direct sell-through programs on a net basis as the Company acts as an agent on behalf of the related vendor, and product sales to its license partner in the Middle East. Product sales to the Company's license partner are recognized upon delivery to the partner's freight forwarder. For the years ended July 30, 2011 and July 31, 2010, total other revenue recorded in net sales in the accompanying consolidated statements of operations were \$6,515,000 and \$8,012,000, respectively.

Revenue from licensing arrangements is recognized when earned in accordance with the terms of the underlying agreements. Licensing revenue recorded in net sales in the accompanying consolidated statements of operations was \$644,000 and \$5,000 for the years ended July 30, 2011 and July 31, 2010, respectively.

The Company recognizes the sales from gift cards, gift certificates, and store credits ("Gift Cards and Credits") as they are redeemed for merchandise. Prior to redemption, the Company maintains a deferred revenue liability for Gift Cards and Credits until the Company is released from such liability. The Company's Gift Cards and Credits do not have expiration dates; however, over time, a percentage of them are not redeemed or recovered ("breakage"). Historically, the Company has not recorded breakage, however, based upon its initial evaluation using historical redemption trend data, the Company determined that the likelihood of the redemption of certain unredeemed Gift Cards and Credits is remote and the Company has adjusted its deferred revenue liability to record breakage for these Gift Cards and Credits. Breakage has been recorded in net sales and for the year ended July 30, 2011 net sales includes breakage income of \$584,000. As the Company continues to evaluate its policy, if actual redemptions ultimately differ from the assumptions underlying the Company's breakage adjustments or the Company's future experience indicates the likelihood of redemption becomes remote at a different point in time after issuance, the Company may recognize further adjustments to its accruals for such deferred revenue, which could have an effect on the Company's net sales and results of operations.

Costs of Goods Sold, Buying, and Occupancy – The Company's costs of goods sold, buying, and occupancy includes the cost of merchandise, freight from vendors, shipping and handling, payroll and benefits for the design, buying, and merchandising personnel, warehouse and distribution, and store occupancy costs. Store occupancy costs include rent, deferred rent, common area maintenance, utilities, real estate taxes, and depreciation.

Shipping and Handling Costs – The Company's net sales include amounts billed to customers for shipping and handling at the time of shipment. Costs incurred for shipping and handling are included in costs of goods sold, buying, and occupancy.

Selling, General, and Administrative Expenses – The Company's selling, general and administrative expenses primarily includes payroll and benefit costs for its Stores, Direct and administrative departments (including corporate functions), advertising, and other operating expenses not specifically categorized elsewhere in the consolidated statements of operations.

Advertising Costs – Costs associated with advertising, excluding direct-response advertising, and including in-store signage and promotions, are charged to operating expense when the advertising first takes place. For the years ended July 30, 2011 and July 31, 2010, the Company recorded advertising costs of approximately \$3,975,000 and \$4,473,000, respectively.

Net Loss Per Share – Basic net loss per share is computed by dividing net loss applicable to common shareholders by the weighted average number of common shares outstanding for the period. Diluted net loss per share also includes the dilutive effect of potential common shares outstanding during the period from stock options and warrants.

Foreign Currency Translation – The assets and liabilities of the Company's former Canadian subsidiary, Cinejour Lingerie Inc. ("Cinejour"), which was sold in connection with the sale of the wholesale division, were translated into U.S. dollars at current exchange rates on the balance sheet date and revenue and expenses were translated at average exchange rates for the respective years. The net exchange differences resulting from these translations were recorded as a translation adjustment which was a component of shareholders' equity. Cinejour's functional currency is the Canadian dollar. The operations of Cinejour are included in discontinued operations in the consolidated financial statements.

Supplemental Disclosure of Non-cash Financing Transactions – The Company had outstanding accounts payable and accrued expenses of \$20,000 at July 25, 2009 relating to purchases of property and equipment. At July 30, 2011 and July 31, 2010, there are no amounts outstanding in accounts payable and accrued expenses relating to purchases of property and equipment. During the year ended July 30, 2011, the Company amended its financing agreement with Hilco to increase the principal amount of its Term Loan by \$100,000 in exchange for a one-year extension to comply with its debt service coverage ratio financial covenant (See Note 8).

During the year ended July 31, 2010, the Company acquired equipment through a capital lease for \$167,000, accrued dividends of \$430,000 on its Series A 7.5% Convertible Preferred Stock (“Series A Preferred Stock”), and completed an exchange of long-term debt – related party and conversion of Series A Preferred Stock, including accrued interest and dividends, that resulted in a noncash adjustment to shareholders’ equity of \$23,080,000 (See Note 10).

Segment Reporting – The Company has one reportable segment representing the aggregation of its two operating segments (Stores and Direct), based on their similar economic characteristics, products, and target customers.

Concentrations – The Company has three major vendors that individually exceeded 10% of total purchases in fiscal year 2011. These suppliers combined represented approximately 44% and individually accounted for approximately 15%, 15% and 14% of total purchases in fiscal year 2011. The Company does not believe that the loss of any one of these vendors would adversely impact its operations.

Reclassifications – We have revised our previously reported consolidated balance sheet for the year ended July 31, 2010 to separate the “intangible assets” from “intangible assets and other assets” and to combine “deferred revenue from gift cards” with “accounts payable and other accrued expenses.” These reclassifications are not considered material to the consolidated financial statements.

Recently Issued Accounting Pronouncements – In May 2011, the Financial Accounting Standards Board (“FASB”) and the International Accounting Standards Board issued Accounting Standards Update (“ASU”) No. 2011-04, “Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs” (“ASU No. 2011-04”). ASU No. 2011-04 does not extend the use of fair value accounting, but provides guidance on how it should be applied where its use is already required or permitted by other standards within U.S. GAAP or International Financial Reporting Standards. The amendments in ASU No. 2011-04 change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Amendments in ASU No. 2011-04 include those that: (1) clarify the FASB’s intent about the application of existing fair value measurement and disclosure requirements, and (2) change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. For many of the requirements, the FASB does not intend for the amendments in ASU No. 2011-04 to result in a change in the application of the requirements in Topic 820. ASU No. 2011-04 is effective during interim and annual periods beginning after December 15, 2011. Accordingly, the Company will adopt ASU No. 2011-04 commencing in the third quarter of fiscal year 2012. The Company does not expect the adoption of ASU No. 2011-04 to have a material impact on the Company’s consolidated financial statements.

In June 2011, the FASB issued ASU No. 2011-05, “Presentation of Comprehensive Income” (“ASU No. 2011-05”). ASU No. 2011-05 requires the presentation of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. ASU No. 2011-05 also requires presentation of adjustments for items that are reclassified from other comprehensive income to net income in the statement where the components of net income and the components of other comprehensive income are presented. The updated guidance is effective on a retrospective basis for financial statements issued for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2011. The Company does not expect the adoption of ASU No. 2011-05 to have a material impact on the

Company's consolidated financial statements.

3.

DISCONTINUED OPERATIONS

During the fourth quarter of fiscal year 2010, the Company made a strategic decision to divest the wholesale division to focus on its core retail operations. Therefore, the Company reclassified its consolidated financial statements to reflect the divesting of the wholesale division and to segregate the revenue, costs and expenses, assets and liabilities and net cash flows of this business. The net operating results, net assets and liabilities, and net cash flows of the wholesale division have been reported as “discontinued operations” in the accompanying consolidated financial statements.

On October 27, 2010, the Company entered into and consummated the transactions contemplated by an Asset Purchase Agreement (the “Purchase Agreement”) with Dolce Vita, pursuant to which the Company sold to Dolce Vita substantially all of the assets of the wholesale division, except cash, accounts receivable and certain other assets.

The assets were purchased for an aggregate purchase price of \$4,469,000, subject to adjustment as provided in the Purchase Agreement. Initially, \$250,000 of the purchase price was placed in escrow in order to provide a fund for the payment of any adjustment to the purchase price and any indemnification claims made by the parties after the closing of the transaction. On January 11, 2011, the full amount held in escrow was released pursuant to the Purchase Agreement.

The Company recorded a gain of \$1,070,000 as a result of the sale, which is net of \$225,000 earned by Avalon Securities Ltd., the Company’s investment banking firm, upon consummation of the transaction. Pursuant to the Purchase Agreement, the Company agreed to provide certain transition services to be reimbursed by Dolce Vita for a limited period of time after the closing of the transaction. The transition services were substantially completed as of the end of February 2011.

Revenue from discontinued operations was \$3,421,000 and \$20,153,000 for the years ended July 30, 2011 and July 31, 2010, respectively. Net loss from discontinued operations, before recording a gain of \$1,070,000 on the sale of the wholesale division, was \$2,795,000 for the year ended July 30, 2011. Net loss from discontinued operations was \$12,357,000 for the year ended July 31, 2010. The loss from discontinued operations for the year ended July 31, 2010 included an impairment charge to fixed assets of \$428,000 and a write-down of intangible assets of \$5,351,000.

The current liabilities of the discontinued operations are comprised of accounts payable and accrued expenses as of July 30, 2011 and July 31, 2010. There are no assets remaining as of July 30, 2011 related to discontinued operations. The components of the assets of the discontinued operations consisted of the following as of July 31, 2010 (in thousands):

Accounts receivable, net	\$1,452
Merchandise inventories, net	2,733
Current assets of discontinued operations	\$4,185
Intangible assets, net	\$915
Property and equipment	45
Long-term assets of discontinued operations	\$960

4.

PROPERTY AND EQUIPMENT

Property and equipment at July 30, 2011 and July 31, 2010 consist of the following (in thousands):

July 30, July 31,

Edgar Filing: FREDERICK'S OF HOLLYWOOD GROUP INC /NY/ - Form 10-K

	2011	2010
Furniture and fixtures	\$ 4,796	\$ 5,600
Computer equipment and software	4,873	4,867
Leasehold improvements.	17,000	19,097
Construction in progress	2	224
	26,671	29,788
Less accumulated depreciation and amortization	17,746	15,927
Property and equipment – net	\$ 8,925	\$ 13,861

5. ACCOUNTS PAYABLE AND OTHER ACCRUED EXPENSES

Accounts payable and other accrued expenses at July 30, 2011 and July 31, 2010 consist of the following (in thousands):

	July 30, 2011	July 31, 2010
Accounts payable	\$ 12,395	\$ 13,332
Accrued payroll and benefits	1,474	1,035
Accrued vacation	1,204	1,308
Deferred revenue from gift cards, gift certificates, and store credits	1,427	2,774
Return reserves	794	868
Deferred revenue	393	494
Sales and other taxes payable	760	687
Miscellaneous accrued expense and other	2,335	1,481
Total	\$ 20,782	\$ 21,979

6. INCOME TAXES

The provision for income taxes on continuing operations for the years ended July 30, 2011 and July 31, 2010 consists of the following (in thousands):

	Year Ended	
	July 30, 2011	July 31, 2010
Current:		
Federal	\$ -	\$ (33)
State	67	79
Foreign	-	1
Total current income tax expense	\$ 67	\$ 47
Deferred:		
Federal	\$ 57	\$ -
State	10	-
Total deferred income tax expense	67	-
Total income tax expense	\$ 134	\$ 47

Reconciliations of the provision for income taxes on continuing operations to the amount of the provision that would result from applying the federal statutory rate of 35% to loss before provision for income taxes on continuing operations for the years ended July 30, 2011 and July 31, 2010 are as follows:

	Year Ended	
	July 30, 2011	July 31, 2010
Provision for income taxes at federal statutory rate	35.0 %	35.0 %
Surtax benefit	(1.0)	(1.0)
State income taxes – net of federal income tax benefit	4.1	1.2
Income from debt conversion (see Note 9)	0.0	(20.5)
Other nondeductible expense	(1.6)	(0.3)
Valuation allowance	(37.8)	(14.9)
Effective tax rate	(1.3)%	(0.5)%

The major components of the Company's net deferred income tax liability at July 30, 2011 and July 31, 2010, inclusive of deferred income taxes related continuing and discontinued operations, are as follows (in thousands):

	July 30, 2011	July 31, 2010
Deferred tax assets:		
Merchandise inventories	\$ 1,149	\$ 1,223
Net operating loss and other tax attribute carryforwards	20,933	16,949
Accrued vacation and bonuses	622	653
Deferred rent	1,459	1,452
Deferred revenue	404	712
Stock based compensation	1,555	1,465
Difference between book and tax basis of fixed assets	248	-
Other	489	502
Valuation allowance	(26,690)	(22,081)
	169	875
Deferred tax liabilities:		
Trademark	(7,236)	(7,502)
Difference between book and tax basis of fixed assets	-	(574)
Customer relationship	-	(100)
Other	(237)	(201)
	(7,473)	(8,377)
Net deferred income tax liability	\$ (7,304)	\$ (7,502)

As a result of cumulative losses, management concluded that it is more likely than not that the Company will not realize certain deferred income tax assets. As a result, the Company established a valuation allowance in fiscal years 2011 and 2010 to reduce the deferred income tax assets to an amount expected to be realized. The amount of deferred tax assets expected to be realized is equal to the Company's deferred tax liabilities excluding the deferred tax liabilities on trademarks and domain names which are not expected to reverse in the same periods as the deferred tax assets. Therefore, as of July 30, 2011 and July 31, 2010, valuation allowances have been recorded in the amounts of \$26,690,000 and \$22,081,000, respectively. The valuation allowance increased by \$4,609,000 and \$5,220,000 for the years ended July 30, 2011 and July 31, 2010, respectively.

The Company has a federal net operating loss carryforward for financial reporting purposes of \$52,330,000 at July 30, 2011 that will expire from 2024 to 2031. The Company also has state net operating loss carryforwards in various states that have different expiration dates depending on the state.

Section 382 of the Internal Revenue Code ("Section 382") contains provisions that may limit the availability of net operating carryforwards to be used to offset taxable income in any given year upon the occurrence of certain events, including significant changes in ownership interests. Under Section 382, an ownership change that triggers potential limitations on net operating loss carryforwards occurs when there has been a greater than 50% change in ownership interest by shareholders owning 5% or more of a company over a period of three years or less. Based on management's analysis, FOH Holdings had an ownership change on March 3, 2005, which resulted in Section 382 limitations applying to federal net operating loss carryforwards generated by FOH Holdings prior to that date. The Company's management estimates that all of the pre-ownership change net operating loss carryforwards are below the aggregate Section 382 annual limitations that will be available over the remaining carryforward period. As a result, the Company will be able to fully utilize the pre-ownership change net operating loss carryforwards to the extent that it generates sufficient taxable income within the carryforward period.

Although the Company acquired FOH Holdings, for tax purposes Movie Star was considered to have been acquired. Accordingly, the Company has also concluded that it underwent a change in control under Section 382 with respect to the acquisition of Movie Star on January 28, 2008, and, as a result, the pre-merger net operating loss carryforwards of Movie Star of approximately \$8,644,000 will be subject to annual limitations of approximately \$1,109,000 per year. These net operating losses expire from 2024 to 2027.

Uncertain Tax Positions

A reconciliation of the gross amounts of unrecognized tax benefits for the year ended July 30, 2011 is as follows (in thousands):

Unrecognized tax benefit as of August 1, 2010	\$1,389
Increases:	
Tax positions in current period	24
Tax positions in prior period	-
Decreases:	
Tax positions in prior periods	(12)
Lapse of statute limitations	-
Settlements	-
Unrecognized tax benefit as of July 30, 2011	\$1,401

The amounts in the table above represent the gross amount of unrecognized tax benefits. These amounts resulted in an adjustment to the Company's net operating loss carryforwards. As of July 30, 2011, there is no liability for unrecognized tax benefits as the adjustments for uncertain tax positions resulted in a reduction of the net operating loss carryforwards. If recognized in the future, the tax benefits would have no impact on the Company's effective tax rate as they are not permanent differences and, therefore, relate to deferred income tax assets and liabilities. Recognition of the tax benefits would result in an increase to the Company's net operating loss carryforwards with corresponding adjustment to the valuation allowance.

The Company does not expect that, during the next twelve months, there will be a significant increase or decrease in the total amount of its unrecognized tax benefits. As a result, the Company does not expect a material increase or decrease in its fiscal year 2012 provision for income taxes related to unrecognized tax benefits.

The Company is subject to examination by taxing authorities in the various jurisdictions in which it files tax returns. FOH Holdings is periodically under examination by the Internal Revenue Service. During fiscal year 2008, the Internal Revenue Service completed its examination of FOH Holdings' federal tax returns for fiscal years 2005 and 2006, resulting in the loss or adjustment of previously established net operating loss carryforwards, but with no additional taxes due. The Internal Revenue Service has examined Movie Star's federal income tax returns through the period ended June 30, 2003 and proposed no changes to the tax returns filed. Certain state tax returns are currently under audit by state tax authorities. Due to the Company's carryforward of unutilized net operating losses, tax years for periods ending June 30, 2004 and thereafter are subject to examination by the United States and certain states. Matters raised upon subsequent audits may involve substantial amounts and could result in material cash payments if resolved unfavorably; however, the Company believes that its tax positions are supportable.

7. UNREGISTERED SALE OF EQUITY SECURITIES

On March 16, 2010, the Company completed a private placement ("Private Placement") to accredited investors of 2,907,051 shares of common stock at \$1.05 per share, raising total gross proceeds of approximately \$3,052,000. The investors in the Private Placement also received two-and-a-half year Series A warrants to purchase up to an aggregate of 1,162,820 shares of common stock at an exercise price of \$1.25 per share, and five-year Series B warrants to purchase up to an aggregate of 1,162,820 shares of common stock at an exercise price of \$1.55 per share. Both warrants became exercisable on September 16, 2010, the six-month anniversary of the closing date. Each of the Series A and Series B warrants are callable for \$0.01 per warrant commencing 30 days after their initial exercise date if the Company's stock price exceeds \$2.25 per share and \$3.10 per share, respectively, for seven consecutive trading days and the average daily volume during such period exceeds 100,000 shares per trading day. Additionally, the Series B warrants may be exercised by the holders on a cashless basis.

Avalon Securities Ltd. (“Avalon”) acted as placement agent in the transaction. Upon the closing, the Company paid Avalon approximately \$198,000 in cash commissions and issued to Avalon and its designees warrants to purchase an aggregate of 218,030 shares of common stock at an exercise price of \$1.21 per share. Except for the exercise price, these warrants are identical to the Series B warrants issued to investors in the Private Placement. In addition, the Company paid approximately \$111,000 in other fees related to the Private Placement, \$41,000 of which was paid to Avalon in consulting fees.

8.

FINANCING AGREEMENTS

Revolving Credit Facility

The Company and its subsidiaries (collectively, the “Borrowers”) have a senior revolving credit facility, as amended (the “Facility”), with Wells Fargo Bank, National Association (“Wells Fargo”), which was scheduled to mature on January 28, 2012. As described below, on September 22, 2011, the Facility was amended to extend the maturity date until January 28, 2013. The Facility originally was for a maximum amount of \$50 million comprised of a \$25 million line of credit with a \$15 million sub-limit for letters of credit, and up to an additional \$25 million commitment in increments of \$5 million at the option of the Company so long as the Company was in compliance with the terms of the Facility. The Facility also originally was secured by a first priority security interest in all of the Borrowers’ assets.

The actual amount of credit available under the Facility is determined using measurements based on the Company’s receivables, inventory and other measures. Subject to the potential interest rate reductions described below, interest is payable monthly, in arrears, at the Wells Fargo prime rate plus 175 basis points for base rate loans and at LIBOR plus 300 basis points for LIBOR rate loans. There also is a fee of 50 basis points on any unused portion of the Facility.

On September 21, 2009, the Facility was amended to provide for a \$2 million bridge facility at an annual interest rate of LIBOR plus 10% (the “Bridge Facility”), to be repaid upon the earlier of December 7, 2009 and the consummation of a financing in which the Company received net proceeds of at least \$4.9 million. On October 23, 2009, the Facility was further amended to extend the December 7, 2009 repayment date to August 1, 2010 and to reduce the net proceeds that the Company was required to receive to an aggregate of \$4.4 million.

On July 30, 2010, the Company repaid the Bridge Facility with proceeds from the Term Loan described below. In connection therewith, the Facility was amended to, among other things, (i) reduce the line of credit commitment from \$25 million to \$20 million and (ii) provide for the Facility to be secured by a second priority interest in all of the Borrowers’ intellectual property and a first priority security interest in substantially all of the Borrowers’ other assets.

In connection with the amendments to the Facility described above, the Company incurred a one-time amendment fee of \$150,000, one half of which was paid in connection with the September 2009 amendment to the Facility and the remainder was paid during the fiscal year ended July 30, 2011.

On September 22, 2011, the Facility was amended to, among other things: (i) extend the maturity date of the Facility from January 28, 2012 to January 28, 2013; (ii) reduce the line of credit commitment from \$20 million to \$12.5 million; (iii) increase the advance rates with respect to credit card receivables included in the borrowing base; and (iv) reduce the minimum availability reserve requirement from \$2 million to \$1.5 million. In addition, the applicable margin for LIBOR rate loans (currently 300 basis points) and for base rate loans (currently 175 basis points) will be maintained or reduced to between 250 and 300 basis points for LIBOR rate loans, and to between 125 and 175 basis points for base rate loans, based on borrowing base availability.

In connection with this amendment to the Facility, the Company incurred a one-time amendment fee of \$100,000, which will become due and payable upon the earlier of an Event of Default (as defined in the Financing Agreement) or February 29, 2012.

As of July 30, 2011, the Company had (i) \$2,415,000 outstanding under the Facility at a base rate of 5.0% and (ii) \$3,000,000 outstanding under the Facility at a LIBOR rate of 3.19%. For the year ended July 30, 2011, borrowings under the Facility peaked at \$5,714,000 and the average borrowing during the period was approximately \$3,002,000. In addition, at July 30, 2011, the Company had \$620,000 of outstanding letters of credit under the Facility.

As of July 31, 2010, the Company had (i) \$2,269,000 outstanding under the Facility at a base rate of 5.0% and (ii) \$1,000,000 outstanding under the Facility at a LIBOR rate of 3.43%. For the year ended July 31, 2010, borrowings under the Facility (including the Bridge Facility) peaked at \$16,996,000 and the average borrowing during the period was approximately \$11,435,000. In addition, at July 31, 2010, the Company had \$1,664,000 of outstanding letters of credit under the Facility.

The Facility contains customary representations and warranties, affirmative and restrictive covenants and events of default. The restrictive covenants limit the Company's ability to create certain liens, make certain types of borrowings and investments, liquidate or dissolve, engage in mergers, consolidations, significant asset sales and affiliate transactions, dispose of inventory, incur certain lease obligations, make capital expenditures, pay dividends, redeem or repurchase outstanding equity and issue capital stock. In lieu of financial covenants, fixed charge coverage and overall debt ratios, the Company is required to maintain specified minimum availability reserves. At July 30, 2011, the Company was in compliance with the Facility's covenants and minimum availability reserve requirements.

Term Loan

On July 30, 2010, the Borrowers entered into a financing agreement (the "Hilco Financing Agreement") with the lending parties from time to time a party thereto and Hilco Brands, LLC, as lender and also as arranger and agent ("Hilco"). The Hilco Financing Agreement provides for a term loan in the aggregate principal amount of \$7,000,000 ("Term Loan"). From the Term Loan proceeds, \$2,000,000 was used to repay the Bridge Facility with the balance to be available to the Borrowers for additional working capital.

One-half of the principal amount of the Term Loan, together with accrued interest, is payable by the Borrowers on July 30, 2013 (the "Initial Maturity Date") and the other half of the principal amount of the Term Loan, together with accrued interest, is payable on July 30, 2014 (the "Maturity Date"). The Term Loan bears interest at a fixed rate of 9.0% per annum ("Regular Interest") and an additional 6.0% per annum compounded annually ("PIK Interest"). Regular Interest is payable quarterly, in arrears, on the first day of each calendar quarter, commencing on October 1, 2010, and at maturity. PIK Interest is payable on the Initial Maturity Date and the Maturity Date, with the Borrowers having the right, at the end of any calendar quarter, to pay all or any portion of the then accrued PIK Interest.

The Term Loan is secured by a first priority security interest in all of the Borrowers' intellectual property and a second priority security interest in substantially all of the Borrowers' other assets, all in accordance with the terms and conditions of a Security Agreement between the Borrowers and Hilco entered into concurrently with the Hilco Financing Agreement. Also, concurrently with the Hilco Financing Agreement, Hilco and Wells Fargo entered into an Intercreditor Agreement, acknowledged by the Borrowers, setting forth, among other things, their respective rights and obligations as to the collateral covered by the Security Agreement.

The Hilco Financing Agreement and other loan documents contain customary representations and warranties, affirmative and negative covenants and events of default substantially similar to those contained in the Facility, except that the Hilco Financing Agreement contains a debt service coverage ratio covenant, which was to become effective commencing for the fiscal year ended July 30, 2011. However, on July 29, 2011, the Hilco Financing Agreement was amended to extend the date the debt service coverage ratio financial covenant becomes effective to the fiscal year ending July 28, 2012. The restrictive covenants limit the Borrowers' ability to create certain liens, make certain types of borrowings and investments, liquidate or dissolve, engage in mergers, consolidations, significant asset sales and affiliate transactions, dispose of inventory, incur certain lease obligations, make capital expenditures, pay dividends, redeem or repurchase outstanding equity and issue capital stock.

The Company paid a one-time fee of \$280,000 in connection with the closing of the Term Loan. To finance the amendment to extend the effective date of the debt service coverage ratio financial covenant, the principal amount of the Term Loan was increased by \$100,000. The Company treated the \$100,000 extension fee as a deferred financing fee, which is included in other assets on the consolidated balance sheets.

For the year ended July 30, 2011, the Company recorded interest expense of approximately \$1,062,000, which is comprised of approximately \$637,000 of Regular Interest and approximately \$425,000 of PIK Interest.

Future Financing Requirements

As of July 30, 2011, the Company's working capital deficiency increased by \$5,430,000 to \$7,960,000. As the Company's business continues to be effected by limited working capital, management plans to carefully manage working capital and continue to look for ways to improve the Company's working capital position. Management believes that the available borrowings under the Facility, along with projected operating cash flows, will be sufficient to cover the Company's working capital requirements and capital expenditures through the end of fiscal year 2012. The Company's ability to achieve its fiscal year 2012 business plan is critical to maintaining adequate liquidity. There

can be no assurance that the Company will be successful in its efforts.

9. LONG-TERM DEBT – RELATED PARTY AND PREFERRED STOCK CONVERSION

Background

Preferred Stock

On January 28, 2008, the Company issued an aggregate of 3,629,325 shares of Series A 7.5% Convertible Preferred Stock to Fursa Alternative Strategies LLC (“Fursa”) in exchange for a \$7,500,000 portion of the debt owed by FOH Holdings and its subsidiaries. The Series A Preferred Stock was convertible at any time at the option of the holders into an aggregate of 1,512,219 shares of common stock, subject to adjustment. Pursuant to the anti-dilution adjustment provisions contained in the Company’s Amended and Restated Certificate of Incorporation governing the terms of the Series A Preferred Stock, following the Private Placement, the number of shares of common stock issuable upon conversion of the Series A Preferred Stock was increased from 1,512,219 shares to 1,622,682 shares (see Note 7). Preferred stock dividends for the year ended July 31, 2010 was \$430,000.

Warrants

Also on January 28, 2008, as sole consideration for their commitments to act as standby purchasers in connection with the Company’s \$20 million rights offering, the Company issued to Fursa and Tokarz Investments, LLC warrants to purchase an aggregate of 596,592 shares of common stock, subject to adjustment. Pursuant to the anti-dilution adjustment provisions contained in the warrants, following the Private Placement, the number of shares of common stock issuable upon exercise of the warrants was increased from an aggregate of 596,592 shares to an aggregate of 635,076 shares and the exercise price was decreased from \$3.52 per share to \$3.31 per share (see Note 7). The warrants expired on January 28, 2011.

Tranche C Debt

As of July 25, 2009, the Company also had \$13,336,000 of secured long-term debt due to Fursa (“Tranche C Debt”), which was scheduled to mature on July 28, 2012. This debt bore interest at the fixed rate of 7% per annum with 1% payable in cash and 6% payable in kind. In-kind interest on the Tranche C Debt was \$721,000 for the year ended July 31, 2010.

Exchange of Long-Term Debt – Related Party and Preferred Stock Conversion

On May 18, 2010, the Company completed the transactions contemplated by the Debt Exchange and Preferred Stock Conversion Agreement, dated as of February 1, 2010, with accounts and funds managed by and/or affiliated with Fursa.

At the closing, the Company issued to Fursa an aggregate of 8,664,373 shares of common stock upon exchange of approximately \$14,285,000 of outstanding Tranche C Debt and accrued interest, and conversion of approximately \$8,795,000 of Series A Preferred Stock, including accrued dividends, representing all of the outstanding shares of Series A Preferred Stock, at an effective price of approximately \$2.66 per share.

The Company also issued to Fursa three, five and seven-year warrants, each to purchase 500,000 shares of common stock (for an aggregate of 1,500,000 shares of common stock) at exercise prices of \$2.00, \$2.33 and \$2.66 per share, respectively. The warrants are exercisable for cash or on a cashless basis, at Fursa’s option. At any time after the first anniversary of the issuance date, the Company may redeem the warrants, in whole but not in part, upon not less than 20 business days’ written notice to Fursa, at a redemption price of \$0.01 per share, if the last sale price of the common stock is at least 200% of the exercise price of the warrants for 10 consecutive trading days ending on the day prior to

the date on which notice of redemption is given to Fursa.

41

10. COMMITMENTS AND CONTINGENCIES

Operating Leases – The Company leases its store, warehouse, and office facilities under operating lease agreements expiring on various dates through 2020, with some leases currently operating on a month-to-month basis. Certain leases include lease incentives, rent abatements and fixed rent escalations, for which the effects are recorded and amortized over the initial lease term on a straight-line basis. The Company has options to renew certain leases under various terms as specified within each lease agreement. Lease terms generally require additional payments covering common area maintenance, property taxes, utilities, and certain other expenses. These additional payments are excluded from the table below. Aggregate minimum rental commitments under all non-cancelable leases in effect as of July 30, 2011 were as follows (in thousands):

Fiscal Years Ending	
2012	\$ 11,524
2013	10,532
2014	9,291
2015	8,019
2016	6,413
Thereafter	9,958
	\$ 55,737

Rental expense for the years ended July 30, 2011 and July 31, 2010 consists of the following (in thousands):

	Year Ended	
	July 30, 2011	July 31, 2010
Minimum rentals	\$ 12,756	\$ 12,738
Contingent rentals	162	222
Total rental expense	\$ 12,918	\$ 12,960

Capital Leases – In November 2009, the Company entered into a non-cancelable capital lease for store telecommunications equipment. The present value of the net minimum lease payments was \$69,000 and \$124,000 on the consolidated balance sheet as of July 30, 2011 and July 31, 2010, respectively. The current portion of the capital lease obligation is \$64,000 and \$54,000 as of July 30, 2011 and July 31, 2010, respectively, and is included in accounts payable and accrued expenses on the consolidated balance sheets. The minimum rental commitment under capital leases is \$64,000 for the fiscal year ending 2012 and \$5,000 for the fiscal year ending 2013.

Employment Contracts – The Company has entered into various employment agreements expiring at various dates through January 2014. The Company and Linda LoRe, its former President, entered into a Transition Services, Separation Agreement and General Release (“Separation Agreement”) whereby the Company and Ms. LoRe mutually agreed that, effective September 2, 2011, Ms. LoRe would resign as President. Under the terms of the Separation Agreement, Ms. LoRe will continue as a non-executive employee of the Company through January 20, 2012 (“Separation Date”), during which period she will provide transition services to the Company and continue to receive her base salary of \$400,000 per year and regular employee benefits. The payments and benefits to be provided to Ms. LoRe under the Separation Agreement are substantially consistent with those that were to be provided under her employment agreement in the event of termination. In connection with Ms. LoRe’s separation from the Company, the Company accrued approximately \$458,000 as of July 30, 2011, which represents the contractual severance benefit to be paid to Ms. LoRe after the Separation Date. These payments are excluded from the table below.

Future commitments consist of the following (in thousands):

Fiscal Years Ending

2012	\$ 1,790
2013	1,396
2014	266
	\$ 3,452

State Sales Taxes – The Company sells its products through two channels – Stores and Direct. The Company operates the channels separately and accounts for sales and use tax accordingly. The Company is periodically audited by the states and it is possible states may disagree with the method of assessing and remitting these taxes. The Company believes that it properly assesses and remits all applicable state sales taxes in the applicable jurisdictions and records necessary reserves for any contingencies that require recognition.

Legal Matters – The Company is involved from time to time in litigation incidental to its business. The Company believes that the outcome of such litigation will not have a material adverse effect on its results of operations or financial condition.

11. SHARE-BASED COMPENSATION

Stock Options

The Company adopted the 2003 Employee Equity Incentive Plan on December 1, 2003 to grant options to purchase up to 623,399 shares of common stock to specific employees of its retail operations. In December 2006 and 2007, the Company's Board of Directors authorized an additional 445,285 and 178,114 shares, respectively, to be reserved for issuance under this plan, resulting in a total of 1,246,798 authorized shares. Options granted under the plan generally have a ten-year term and vest 25% on the last day of the January fiscal period for each of the next four years, commencing on the first January following the date of grant. Options to purchase 770,123 shares at an average exercise price of \$2.43 per share were outstanding and exercisable as of July 30, 2011. Options to purchase 975,974 shares at an average exercise price of \$2.38 per share were outstanding as of July 31, 2010, of which 824,380 shares were exercisable. Options can no longer be granted under the 2003 Employee Equity Incentive Plan.

The Company also has the 1988 Non-Qualified Stock Option Plan, under which the Company is authorized to grant options to purchase up to 833,333 shares of common stock to key employees. Options granted under this plan are not subject to a uniform vesting schedule. Options to purchase 732,500 shares at an average exercise price of \$0.96 per share were outstanding at July 30, 2011 and July 31, 2010, of which 552,500 and 362,500 shares were exercisable at July 30, 2011 and July 31, 2010, respectively. In fiscal year 2010, options to purchase 210,000 shares were granted under this plan. No options were granted under this plan in fiscal year 2011.

The Company also has the 2000 Performance Equity Plan (including an Incentive Stock Option Plan). The 2000 Performance Equity Plan originally authorized 375,000 shares of common stock for the issuance of qualified and non-qualified stock options and other stock-based awards to eligible participants. In January 2008, the Company's shareholders approved an increase in the shares available for issuance under this plan to 2,000,000. Options granted under the 2000 Performance Equity Plan are not subject to a uniform vesting schedule. Options to purchase 604,250 shares at an average exercise price of \$2.64 per share were outstanding at July 30, 2011, of which 533,250 shares were exercisable. Options to purchase 681,750 shares at an average exercise price of \$2.47 per share were outstanding at July 31, 2010, of which 533,250 shares were exercisable. In fiscal year 2010, options to purchase 62,500 shares were granted under this plan. No options were granted under this plan in fiscal year 2011.

The Company's Board of Directors adopted the 2010 Long-Term Incentive Equity Plan (including an Incentive Stock Option Plan) on June 29, 2010, under which the Company is authorized 4,000,000 shares of common stock for the issuance of qualified and non-qualified stock options and other stock-based awards to eligible participants. Options granted under the 2010 Long-Term Incentive Equity Plan are not subject to a uniform vesting schedule. Options to purchase 1,022,334 shares at an average exercise price of \$0.89 per share were outstanding at July 30, 2011, of which 147,001 shares were exercisable. Options to purchase 600,000 shares at an average exercise price of \$0.78 per share were outstanding, but not exercisable at July 31, 2010. In fiscal years 2011 and 2010, options to purchase 441,000 and 600,000 shares, respectively, were granted under this plan.

The following is a summary of stock option activity:

	Number of Shares	Weighted Average Exercise Price Per Share	Weighted-Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding as of July 31, 2010	2,990,224	\$ 1.73		
Exercised	4,000	0.17		
Granted	441,000	1.05		
Forfeited	(298,017)	1.86		
Outstanding as of July 30, 2011	3,129,207	\$ 1.63	6.5 years	\$ 115,200
Exercisable on July 30, 2011	2,002,874	\$ 2.02	4.5 years	\$ 115,200

The value of each stock option is estimated on the date of grant using the Black-Scholes option-pricing model. The fair value generated by the Black-Scholes model may not be indicative of the future benefit, if any, that may be received by the option holder. The following assumptions were used for options granted during the years ended July 30, 2011 and July 31, 2010:

	Year ended	
	July 30, 2011	July 31, 2010
Risk-free interest rate	2.7%	2.43% - 3.00%
Expected life (years)	7.0	7.0
Expected volatility	74%	76 – 79%
Dividend yield	0.0%	0.0%

During the year ended July 30, 2011, 4,000 options granted under the 2000 Performance Equity Plan were exercised at an exercise price of \$0.17 per share. No options were exercised during the year ended July 31, 2010. The total fair value of shares vested during the years ended July 30, 2011 and July 31, 2010 was \$493,000 and \$505,000, respectively.

A summary of the status of the Company's non-vested shares as of July 30, 2011, and changes during the year ended July 30, 2011, is presented below:

	Shares (in thousands)	Weighted-Average Grant Date Fair Value
Non-vested shares:		
Non-vested at July 31, 2010	1,270,094	\$ 0.74
Granted	441,000	.62
Vested	(488,329)	.86
Forfeited	(96,432)	1.01
Non-vested at July 30, 2011	1,126,333	\$.63

All stock options are granted at fair market value of the common stock at grant date. As of July 30, 2011, there was approximately \$426,000 of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under the plans. That cost is expected to be recognized over a weighted-average period of 2 years.

During the year ended July 30, 2011, the Company granted to four directors, three officers and certain other employees options to purchase an aggregate of 441,000 shares of common stock under the 2010 Long-Term Incentive Equity Plan. These options are identified as follows:

Number of Options	Exercise Price	Vesting Period
441,000(1)	\$ 1.05	33.3% immediately and 33.3% on each of the first and second anniversary date

(1) 18,666 of these options were forfeited as of July 30, 2011.

During the year ended July 31, 2010, the Company granted to two officers and certain other employees options to purchase an aggregate of 872,500 shares of common stock. Options to purchase 62,500 shares were granted under the 2000 Performance Equity Plan, options to purchase 210,000 shares were granted under the 1988 Non-Qualified Stock Option Plan and options to purchase 600,000 shares were granted under the 2010 Long-Term Incentive Equity Plan. The 2010 Long-Term Incentive Equity Plan is subject to shareholder approval. These options are identified as follows:

Number of Options	Exercise Price	Vesting Period
600,000	\$ 0.78	25% on the first anniversary date, 33.3% on the second anniversary date and 41.7% on the third anniversary date
100,000	0.84	25% on each of the first and second anniversary dates and 50% on the third anniversary date
60,000	0.80	25% on each of the first and second anniversary dates and 50% on the third anniversary date
50,000	1.12	20% each year over 5 years
37,500	(1) 1.16	20% each year over 5 years
25,000	0.76	20% each year over 5 years

(1) 25,000 of these options were forfeited as of July 30, 2011.

Restricted Shares and Share Grants

During the year ended July 30, 2011, the Company issued to four directors, three officers and certain other employees 189,000 shares of restricted common stock pursuant to the terms and conditions of the Company's 2010 Long-Term Incentive Equity Plan. These restricted shares are identified as follows:

Number of Restricted Shares	Price	Vesting Period
189,000	\$ 0.91	33.3% immediately and 33.3% on each of the first and second anniversary date

During the year ended July 31, 2010, the Company issued to two officers and one employee 325,000 shares of restricted common stock pursuant to the terms and conditions of the Company's 2000 Performance Equity Plan. These restricted shares are identified as follows:

Number of Restricted Shares	Price	Vesting Period
150,000	\$ 0.78	33.3% on each of the first, second and third anniversary date
100,000	0.84	25% on each of the first and second anniversary dates and 50% on the third anniversary date
75,000	0.80	25% on each of the first and second anniversary dates and 50% on the third anniversary date

Total expense related to restricted shares and share grants during the years ended July 30, 2011 and July 31, 2010 was approximately \$194,000 and \$262,000, respectively.

12. EMPLOYEE BENEFIT PLANS

The Company maintains a 401(k) profit sharing plan that covers substantially all employees who have completed six months of service and have reached age 18. Employer contributions are discretionary and effective January 1, 2009, the Company discontinued making employer contributions. Accordingly, there were no employer contributions in fiscal years 2011 and 2010.

In 1983, the Company adopted an Employee Stock Ownership and Capital Accumulation Plan (the "Plan"). The Company terminated the Plan effective December 31, 2007. The Plan covered the Company's employees who met the minimum credited service requirements of the Plan. The Plan was funded solely from employer contributions and income from investments. The Company has made no contributions to the Plan since July 1996 and, at that time, all employees became 100% vested in their shares. These shares have been distributed to each employee according to his or her direction and the applicable Plan rules and all participants with a balance were eligible for a distribution. As of July 31, 2010, there was a balance of 41,318 shares of common stock remaining in the Plan. In October 2010, the Company liquidated the remaining shares and transferred the proceeds into separate IRA accounts in each of the remaining participants' names.

13. NET LOSS PER SHARE

The Company's calculations of basic and diluted net loss per share applicable to common shareholders are as follows (in thousands, except per share amounts):

	Year Ended	
	July 30, 2011	July 31, 2010
Net loss from continuing operations	\$(10,330)	\$(9,237)(a)
Net loss from discontinued operations	\$(1,725)	\$(12,357)
Basic and Diluted:		
Weighted average number of shares outstanding	38,517	29,272
Basic and diluted loss per share from continuing operations	\$(.27)	\$(.32)
Basic and diluted net loss per share from discontinued operations	\$(.04)	\$(.42)
Total basic and diluted net loss per share	\$(.31)	\$(.74)

(a) Includes preferred stock dividend of \$430.

There were 156,000 and 207,000 potentially dilutive shares that were not included in the computation of diluted net loss per share for the years ended July 30, 2011 and July 31, 2010, respectively, since their effect would be anti-dilutive.

For the year ended July 30, 2011, there were 2,326,000 shares of common stock issuable upon the exercise of stock options and 4,359,000 shares of common stock issuable upon the exercise of warrants that also were not included in the computation of diluted net loss per share since the respective exercise and conversion prices of these instruments exceeded the average market price of the common stock during the period.

For the year ended July 31, 2010, there were 1,718,000 shares of common stock issuable upon the exercise of stock options and 4,679,000 shares of common stock issuable upon the exercise of warrants that also were not included in the computation of diluted net loss per share since the respective exercise and conversion prices of these instruments

exceeded the average market price of the common stock during the period.

ITEM 9. –CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in company reports filed or submitted under the Securities Exchange Act of 1934 (the “Exchange Act”) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

As required by Rules 13a-15 and 15d-15 under the Exchange Act, an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of July 30, 2011 was made under the supervision and with the participation of our senior management, including our Chief Executive Officer and Chief Financial Officer. Based upon that evaluation, they concluded that our disclosure controls and procedures were effective as of July 30, 2011.

Management’s Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Exchange Act Rule 13a-15(f). Internal control over financial reporting is a process used to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our financial statements for external purposes in accordance with generally accepted accounting principles in the United States. Internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of our financial statements in accordance with generally accepted accounting principles in the United States, and that our receipts and expenditures are being made only in accordance with the authorization of our board of directors and management; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”). Based on our evaluation under the criteria established in Internal Control – Integrated Framework, our management concluded that our internal control over financial reporting was effective as of July 30, 2011.

Attestation Report of the Independent Registered Public Accounting Firm

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management’s report was not subject to attestation by our registered public accounting firm pursuant to the rules of the Securities and Exchange Commission that permit us to provide only management’s report in this annual report.

Changes in Internal Control Over Financial Reporting

During the quarter ended July 30, 2011, there has been no change in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
