A Cautionary Note on Forward-Looking Statements:

This report contains statements (including figures) regarding Mitsui & Co., Ltd. (Mitsui) s views of future developments that are forward-looking in nature and are not simply reiterations of historical facts. These statements are presented to inform stakeholders of the views of Mitsui s management but should not be relied on solely in making investment and other decisions. You should be aware that a number of important risk factors could lead to outcomes that differ materially from those presented in such forward-looking statements. These include, but are not limited to, (i) change in economic conditions that may lead to unforeseen developments in markets for products handled by Mitsui, (ii) fluctuations in currency exchange rates that may cause unexpected deterioration in the value of transactions, (iii) adverse political developments that may create unavoidable delays or postponement of transactions and projects, (iv) changes in laws, regulations, or policies in any of the countries where Mitsui conducts its operations that may affect Mitsui s ability to fulfill its commitments, and (v) significant changes in the competitive environment. In the course of its operations, Mitsui adopts measures to control these and other types of risks, but this does not constitute a guarantee that such measures will be effective.

**Basis of Financial Statements and Summary of
Significant Accounting Policies**

I. Basis of Financial Statements

The accompanying consolidated financial statements of Mitsui & Co., Ltd. (the Company) and its subsidiaries (collectively, the companies) have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S.GAAP). The presentation of certain prior year information has been reclassified to conform to the current year presentation.

II. Summary of Significant Accounting Policies

(1) Inventories

Inventories, consisting mainly of commodities and materials for resale, are stated at the lower of cost, principally on the specific-identification basis, or market.

(2) Marketable securities and investments

The companies classify debt and marketable equity securities, at acquisition, into one of three categories: held-to-maturity, available-for-sale or trading under provisions of Statement of Financial Accounting Standards (SFAS) No. 115.

Trading securities are carried at fair value and unrealized holding gains and losses are included in net income.

Debt securities are classified as held-to-maturity and measured at amortized cost in the Consolidated Balance Sheets only if the companies have the positive intent and ability to hold those securities to maturity. Premium and discount amortized in the period are included in interest income.

Debt and marketable equity securities other than those classified as trading or held-to-maturity securities are classified as available-for-sale securities and carried at fair value with such unrealized holding gains and losses reported as Unrealized holding gains and losses on available-for-sale securities in the Shareholders Equity after income tax effects.

(3) Depreciation

Depreciation of property and equipment (including property leased to others) is computed principally under the declining-balance method for assets located in Japan and under the straight-line method for assets located outside Japan, using rates based upon the estimated useful lives of the related property.

(4) Pension and severance indemnities plans

The companies have pension plans and/or severance indemnities plans covering substantially all employees other than directors. The costs of the pension plans and severance indemnities plans are accrued based on amounts determined using actuarial methods.

(5) Derivative instruments and hedging activities

All derivative instruments are recognized and measured at fair value as either assets or liabilities and changes in the fair value are currently recognized in earnings or reported as Net unrealized gains and losses on delivatives in the Shareholders Equity after income tax effects, depending on the intended use of the derivative instruments and its resulting hedge designation.

(6) Business combinations and intangible assets

On April 1, 2002, the companies fully adopted SFAS No. 141, Business Combinations and SFAS No.142, Goodwill and Other Intangibles Assets. All business combinations are accounted for using the purchase method, and goodwill acquired upon business combinations and indefinite-lived intangible assets are not amortized but instead tested for impairment annually or more frequently if impairment indicators arise. The cumulative effect of a change in accounting principle on the write-off of any unamortized deferred credit related to an excess of fair value of acquired net assets over cost arising from business combinations for which the acquisition date was before July, 1, 2001 and investments accounted for by the equity method acquired before July 1, 2001 was immaterial. The companies completed the transitional impairment test

for goodwill and indefinite-lived intangible assets at April 1, 2002 and determined that the fair value of these assets was in excess of the carrying amount.

(7) Discontinued operations

On April 1, 2002, the companies adopted SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. The companies report the results of the discontinued operations (including gain or loss related to subsidiaries that either have been disposed of or are classified as held for sale), less applicable income taxes (benefit), as a separate line item in the Statements of Consolidated Income under Loss from Discontinued Operations Net (After Income Tax Effect). The amounts in the Statements of Consolidated Income and the Statements of Consolidated Cash Flows in the previous year have been reclassified to conform to the current period presentation.

Table of Contents**Retirement Benefits****1. Summary of Pension and Other Severance Indemnities Plan**

The Company had a non-contributory defined benefit pension plan (the Tax Qualified Pension Plan, TQPP) and participates in a contributory defined benefit Japanese government welfare pension program for its employees (the Employees Pension Fund, EPF) covering substantially all of its employees other than directors. Effective April 1, 1997, the Company merged TQPP into EPF. TQPP remained only for the retired employees with vested benefits as of March 31, 1997.

EPF is composed of a substitutional portion of Japanese Pension Insurance and a corporate portion of a contributory defined benefit plan. For the former, the benefits are based on a standard remuneration schedule under the Welfare Pension Insurance Law and the length of participation, and, for the latter, the benefits are based on the length of service.

EPF was approved by the government for an exemption from the obligation to pay benefits for future employee service related to the substitutional portion on October 01, 2002. In January 2003, the Emerging Issues Task Force reached a final consensus on Issue 03-2 (EITF 03-2), Accounting for the Transfer to the Japanese Government of the Substitutional Portion of Employee Pension Fund Liabilities. EITF 03-2 addresses accounting for a transfer to the Japanese government of a substitutional portion of EPF. EITF 03-2 requires employers to account for the entire separation process of a substitutional portion from a plan upon completion of the transfer to the government of the substitutional portion of the benefit obligation and related plan assets as the culmination of a series of steps in a single settlement transaction. Under this approach, the difference between the fair value of the obligation and the assets required to be transferred to the government should be accounted for and separately disclosed as a subsidy. The related gain or loss on the transfer of the substitutional portion is expected to be recorded during the year ending March 31, 2004 based on completion of the entire process.

The Company has unfunded severance indemnities plans accounted for in accordance with SFAS No. 87, Employers Accounting for Pensions.

Certain subsidiaries participate in other pension plans and/or have unfunded severance indemnities plans. Benefits under the plans are based on the level of compensation at retirement or earlier termination of employment and the length of services.
