DESWELL INDUSTRIES, INC. ANNOUNCES SECOND-QUARTER RESULTS

- 27% Increase in Second Quarter Net Sales -

-Company also Announces Second Quarter Dividend of \$0.24 Per Share-

HONG KONG (November 16, 2004) - Deswell Industries, Inc. (Nasdaq: DSWL) today announced its financial results for the second quarter ended September 30, 2004.

Net sales for the quarter ended September 30, 2004 were \$31.9 million, an increase of 27.3% compared to net sales of \$25.1 million for the quarter ended

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

September 30, 2003. Operating income decreased 0.3% to \$4.50 million, compared to \$4.51 million for the same quarter in 2003. Net income for the quarter decreased 12.0% to \$3.6 million compared to \$4.1 million for the year-ago quarter. The basic earnings per share and diluted earnings per share decreased to \$0.39 and \$0.38, respectively (based on 9,189,000 and 9,432,000 weighted average shares outstanding, respectively), compared to \$0.45 and \$0.44, respectively (based on 9,103,000 and 9,375,000 weighted average shares outstanding, respectively), in the first quarter ended September 30, 2003.

Net sales for the six months ended September 30, 2004 were \$60.7 million, an increase of 18.7%, compared to sales of \$51.2 million for the corresponding period in 2003. Operating income increased 1.7% to \$9.3 million, compared to \$9.2 million in the previous year, and net income decreased 10.1% to \$7.6 million, compared to \$8.5 million in the previous year. The basic earnings per share and diluted earnings per share decreased to \$0.83 and \$0.81, respectively (based on 9,169,000 and 9,448,000 weighted average shares outstanding, respectively), compared to \$0.93 and \$0.92, respectively (based on 9,084,000 and 9,205,000 weighted average shares outstanding, respectively), in the six months ended September 30, 2003.

The Company's cash and cash equivalents for the quarter were \$16.5 million, as compared to \$30.2 million on March 31, 2004. The decreased in cash position was mainly attributed to the funding from cash flow for the construction and acquisition of machinery for the plastic-injection manufacturing plant in Dongguan and for the rapid growth of the electronic and metallic segment. Working capital was \$50.3 million as of September 30, 2004, versus \$52.9 million as of March 31, 2004. The Company has short-term borrowings of \$0.9 million and no long-term borrowings at September 30, 2004.

Mr. Richard Lau, chairman and chief executive officer, commented, "During the quarter, our 27% sales increase was driven by 61% revenue growth at our electronic & metallic division due to our continued penetration of the audio equipment market. Unfortunately, raw material pricing impacted both of our business segments, particularly the plastics operation. Raw material pricing was up 70% to 100% compared to last year. With at least 60% of the sales price already fixed, we have not been able to pass through much of the increased raw material prices on existing contracts. In addition to this, both segments also faced increasing competitions in the marketplace which has led to pricing pressure on our products."

Mr. Lau continued, "We expect growth at our plastic segment to pick up again in late fiscal 2005. An important new growth driver in this segment will be a new Export Tooling Division that will exclusively manufacture large-scale molds. These molds will not be used for manufacturing plastic parts at our facility but rather these molds will be sent directly to customers. The machinery for this division will be fully installed by April 2005."

Second-Quarter Dividends

The Company also announced that on November 12, 2004 its board of directors declared a dividend of \$0.24 per share for the second quarter. The dividend will be payable on December 7, 2004 to shareholders of record as of November 29, 2004.

About Deswell

Deswell manufactures injection-molded plastic parts and components, electronic

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

products and subassemblies, and metallic products for original equipment manufacturers ("OEMs") and contract manufacturers at its factories in the People's Republic of China. The Company produces a wide variety of plastic parts and components used in the manufacture of consumer and industrial products; printed circuit board assemblies using surface mount ("SMT") and finished

products such as telephones, telephone answering machines, sophisticated studio-quality audio equipment and computer peripherals. The Company's customers include Digidesign Inc., Vtech Telecommunications Ltd., Epson Precision (H.K.) Ltd., Inter-Tel Incorporated, Kyocera Mita Industrial Co. (H.K.) Limited, Peavey Electronics Corporation and Emerson.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

(U.S. dollars in thousands except per share data)

1. Management's Statement

In the opinion of Management, the accompanying unaudited financial statements contain all adjustments (all of which are normal and recurring in nature) necessary to present fairly the financial position of Deswell Industries, Inc. (the "Company") at September 30, 2004 and March 31, 2004, the results of operations for the quarters and six months ended September 30, 2004 and September 30, 2003, and the cash flows for the six months ended September 30, 2004 and September 30, 2003. The notes to the Consolidated Financial Statements, which are contained in the Form 20-F Annual Report filed on July 16, 2004 under the Securities Exchange Act of 1934 should be read in conjunction with these Consolidated Financial Statements.

2. Inventories

	-----	-----
	\$ 21,525	\$ 16,174
	=====	=====

3. Earnings Per Share

The basic net income per share and diluted net income per share are computed in accordance with the Statement of Financial Accounting Standards No.128 "Earnings Per Share."

The basic net income per share is computed by dividing income available to common holders by the weighted average number of common shares outstanding during the period. Diluted net income per share gives effect to all dilutive potential common shares outstanding during the period. The weighted average number of common shares outstanding is adjusted to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued. In computing the dilutive effect of potential common shares, the average stock price for the period is used in determining the number of treasury shares assumed to be purchased with the proceeds from exercise of options.

The net income for the six months ended September 30, 2004 and 2003 were both from the Company's continuing operations.

DESWELL INDUSTRIES, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Results of Operations

General

The Company's revenues are derived from the manufacture and sale of (i) injection-molded plastic parts and components, (ii) electronic products and subassemblies and (iii) metallic parts and components. The Company carries out all of its manufacturing operations in southern China, where it is able to take advantage of the lower overhead costs and inexpensive labor rates as compared to Hong Kong.

Quarter Ended September 30, 2004 Compared to Quarter Ended September 30, 2003

Net Sales - The Company's net sales for the quarter ended September 30, 2004 were \$31,924,000, an increase of \$6,845,000 or 27.3% as compared to the corresponding period in 2003. The increase was related to increase in sales of electronic and metallic segment of \$6,982,000 offsetting the decrease in sales of plastic segment of \$137,000. This represented an increase of 61.2% and a decrease of 1.0% respectively, as compared with the respective net sales from these segments in the corresponding period in the prior year.

The increase in net sales in the electronic and metallic segment was mainly due to an increase in orders from both its existing and new customers of \$7,487,000 and \$127,000 respectively, offsetting the net decrease in orders from old customers of \$632,000 in the corresponding period in the prior year. The net increase was resulted from a change in customer mix during the period as compared with last year.

Gross Profit - The gross profit for the quarter ended September 30, 2004 was \$8,461,000, representing a gross profit margin of 26.5%. This compares with the overall gross profit and gross profit margin of \$7,980,000 or 31.8% for the quarter ended September 30, 2003.

Gross profit in the plastic segment decreased by \$470,000 to \$4,972,000 or 36.7% of net sales, for the quarter ended September 30, 2004 compared to \$5,442,000 or 39.8% of net sales, for the quarter ended September 30, 2003. This decrease was mainly attributed to the range of 70% to 100% increase in plastic resin costs since last year, mostly of which we could not pass on to our customers.

Gross profit in the electronic & metallic segment increased by \$951,000 to \$3,489,000 or 19.0% of net sales, for the quarter ended September 30, 2004 compared to \$2,538,000 or 22.3% of net sales, for the same period last year. This decrease was mainly attributed to the general increase in raw material pricing and labor cost of an average 4% and 10% over the prior year. While we continue our long-term focus on attracting higher margin sales, pricing pressure resulted in generally lower selling prices during the quarter.

Selling, general and administrative expenses - SG&A expenses for the quarter ended September 30, 2004 were \$3,962,000, amounting to 12.4% of total net sales, as compared to \$3,469,000 or 13.8% of total net sales for the quarter ended September 30, 2003. There was an increase in selling, general and administrative

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

expenses of \$493,000 over the corresponding period.

- more -

DESWELL INDUSTRIES, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)

SG&A expenses in the plastic segment increased by \$94,000 or 4.0% to \$2,454,000 or 18.1% of net sales, for the quarter ended September 30, 2004 compared to \$2,360,000 or 17.3% of net sales, for the corresponding period in 2003. The increase was primarily related to the increase in depreciation expenses of \$49,000 during the quarter ended September 30, 2004. The SG&A expenses in the electronic & metallic segment increased by \$399,000 or 36.0% to \$1,508,000 or 8.2% of net sales, for the quarter ended September 30, 2004 compared to \$1,109,000 or 9.7% of net sales for corresponding period in 2003. The increase was primarily related to the increase in salary and logistic expenses of \$278,000 and \$88,000 respectively, offsetting the decrease in depreciation expenses of \$46,000 during the quarter ended September 30, 2004.

Operating income - Operating income was \$4,499,000 for the quarter ended September 30, 2004, a decrease of \$12,000 or 0.3% as compared with the corresponding quarter in the prior year.

On a segment basis, the operating income of the plastics division decreased \$564,000 to \$2,518,000 or 18.6% of net sales, in quarter ended September 30, 2004 compared to \$3,082,000 or 22.5% of net sales in corresponding period in 2003. The decrease in operating income was attributable to the decrease in gross profit and the increase in SG&A expenses as described above.

The operating income of electronic & metallic segment increased \$552,000 to \$1,981,000 or 10.8% of net sales, in the quarter ended September 30, 2004 compared to \$1,429,000 or 12.5% of net sales in the corresponding period in 2003. The increase in operating income was attributable to the increase in gross profit offsetting the increase in SG&A expenses as described above.

Other income - Other income was \$32,000 for the quarter ended September 30, 2004, a decrease of \$240,000 or 88.2% as compared with the corresponding period in the prior year. On a segment basis, other income attributable to the plastic segment decreased \$124,000 to \$20,000 in the quarter ended September 30, 2004. This decrease in other income was primarily attributable to decrease in interest income of \$50,000 and an increase in exchange loss of \$67,000 in the quarter ended September 30, 2004 as compared with corresponding period in 2003. Other income attributable to the electronic & metallic segment decreased \$116,000 to \$12,000 in the quarter ended September 30, 2004. This decrease in other income was mainly due to an increase in exchange loss of \$51,000 in the quarter ended September 30, 2004.

Income Taxes - Income taxes expenses for the quarter was \$178,000, an increase of \$39,000 or 28.1% as compared with the corresponding quarter in the prior year. On a segment basis, the income taxes of plastic segment decreased \$61,000 to nil for the quarter ended September 30, 2004 whereas the income tax expenses for the electronic & metallic segment increased \$100,000 to \$178,000 for the quarter ended September 30, 2004, respectively. The decrease in the plastic

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

segment was primarily due to the tax holiday enjoyed in our Dongguan manufacturing plant whereas the increase in the electronic & metallic segment was due to increase in net sales as described above.

Minority Interest - Minority interests represent a 29% minority interest in Integrated International Limited, the holding company holding the capital stock of Deswell's electronic and metallic subsidiaries and a 49% minority interest in the subsidiary conducting marketing for Deswell's plastic and electronic businesses. In January 2003, the Company acquired an additional 20% interest in Integrated, increasing its ownership in that subsidiary from 51% to 71%. Despite the decrease in minority interest in Deswell's electronic & metallic segment, the dollar amount of minority interest increased to \$722,000 for the quarter ended September 30, 2004, from \$508,000 for the corresponding quarter in the prior year, which reflects that both the electronics and metallic subsidiaries and marketing subsidiary generated more net income in the quarter ended September 30, 2004, compared with corresponding quarter in fiscal 2003.

- more -

DESWELL INDUSTRIES, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

Net Income - Net income was \$3,628,000 for the quarter ended September 30, 2004, a decrease of \$493,000 or 12.0%, as compared to net income of \$4,121,000 for the quarter ended September 30, 2003, and net income as a percentage of net sales was decreased from 16.4% to 11.4% for the quarter ended September 30, 2004. The decrease in net income was mainly the result of the decrease in operating income and other income, coupled with the increase in minority interest and increase in income tax expenses as described above.

Net income for the plastic segment decreased by 24.1% to \$2,337,000 for the quarter ended September 30, 2004 compared to \$3,079,000 for the corresponding quarter in 2003. The decrease in net income of the plastic segment was mainly the result of the decrease in operating profits coupled with the decrease in other income as described above.

Net income for the electronic & metallic segment increased by 23.9% to \$1,291,000 for the quarter ended September 30, 2004 compared to \$1,042,000 for the corresponding quarter in 2003. The increase in net income of the electronic & metallic segment was mainly the result of the increase in operating profit offsetting the decrease in other income, the increase in income taxes and minority interest, as described above.

Six Months Ended September 30, 2004 Compared to Six Months Ended

September 30, 2003

Net Sales - The Company's net sales for the six months ended September 30, 2004 were \$60,712,000, an increase of \$9,558,000 or 18.7% as compared to corresponding period in 2003. The increase in sales was mainly related to the increase in sales of plastic segment and electronics and metallic segment of \$605,000 and \$8,953,000 respectively. This represented an increase of 2.2% and 38.1% respectively, as compared with the respective net sales from these

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

segments in the corresponding period in the prior year.

The increase in net sales in the electronic and metallic segment was mainly due to an increase in orders from both existing and new customers of \$9,994,000 and \$178,000 respectively, offsetting the net decrease in orders from old customers of \$1,219,000 in the corresponding period in the prior year. The net increase was resulted from a change in customer mix during the period as compared with last year.

Gross Profit - The gross profit for the six months ended September 30, 2004 was \$16,779,000, representing a gross profit margin of 27.6%. This compares with the overall gross profit and gross profit margin of \$16,391,000 or 32.0% for the six months ended September 30, 2003.

Gross profit in the plastic segment decreased by \$1,146,000 to \$9,976,000 or 35.3% of net sales, for the six months ended September 30, 2004 compared to \$11,122,000 or 40.2% of net sales, for the six months ended September 30, 2003. This was mainly attributed to the range of 70% to 100% increase in plastic resin costs since last year, mostly of which we could not pass on to our customers.

Gross profit in the electronic & metallic segment increased by \$1,534,000 to \$6,803,000 or 21.0% of net sales, for the six months ended September 30, 2004 compared to \$5,269,000 or 22.4% of net sales, for the same period last year. This decrease was mainly attributed to the general increase in raw material pricing and labor cost of an average 4% and 10% over the prior year. While we continue our long-term focus on attracting higher margin sales, pricing pressure resulted in generally lower selling prices during the quarter.

DESWELL INDUSTRIES, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

Selling, general and administrative expenses - SG&A expenses for the six months ended September 30, 2004 were \$7,468,000, amounting to 12.3% of total net sales, as compared to \$7,234,000 or 14.1% of total net sales for the six months ended September 30, 2003. There was an increase in selling, general and administrative expenses of \$234,000 or 3.2% over the corresponding period.

The SG&A expenses in the plastic segment decreased by \$286,000 or 5.9% to \$4,592,000 or 16.3% of net sales, for the six months ended September 30, 2004 compared to \$4,878,000 or 17.6% of net sales, for the corresponding period in 2003. The decrease was primarily related to a write back of staff welfare provision of \$95,000, the decrease in depreciation expenses of \$82,000 and the tightened expenses control during the six months ended September 30, 2004.

The SG&A expenses in the electronic & metallic segment increased by \$520,000 or 22.1% to \$2,876,000 or 8.9% of net sales, for the six months ended September 30, 2004 compared to \$2,356,000 or 10.0% of net sales for corresponding period in 2003. The increase was primarily related to the increase in salary expenses of \$379,000 and increase in selling logistic expenses of \$92,000 offsetting the decrease in depreciation expenses of \$132,000 during the six months ended September 30, 2004. The other expenses were increased due to the increase in sales activities in the electronic & metallic segment.

Operating income - Operating income was \$9,311,000 for the six months ended

Edgar Filing: DESWELL INDUSTRIES INC - Form 6-K

September 30, 2004, an increase of \$154,000 or 1.7% as compared with the corresponding period in the prior year.

On a segment basis, the operating income of plastic segment decreased \$860,000 to \$5,384,000 or 19.1% of net sales, in the six months ended September 30, 2004 compared to \$6,244,000 or 22.6% of net sales in corresponding period in 2003. The decrease in operating income was attributable to the decrease in gross profit offsetting the decrease in SG&A expenses as described above.

The operating income of electronic & metallic segment increased \$1,014,000 to \$3,927,000 or 12.1% of net sales, in the six months ended September 30, 2004 compared to \$2,913,000 or 12.4% of net sales in the corresponding period in 2003. The increase in operating income was attributable to the increase in gross profit offsetting the increase in SG&A expenses as described above.

Other income - Other income was \$62,000 for the six months ended September 30, 2004, a decrease of \$772,000 or 92.6% as compared with the corresponding period in the prior year. On a segment basis, other income attributable to the plastic segment decreased \$634,000 to \$22,000 in the six months ended September 30, 2004. This decrease in other income was primarily attributable to the realized gain on disposal of investment securities of \$520,000 in the six months ended June 30, 2003 but none in 2004 and the decrease in interest income of \$94,000 in fiscal 2004 as compared with corresponding period in 2003. Other income attributable to the electronic & metallic segment decreased \$138,000, to \$40,000 in the six months ended September 30, 2004. This decrease in other income was mainly due to the increase in exchange loss of \$47,000 in the six months ended September 30, 2004.

Income Taxes - Income taxes expenses for the quarter was \$309,000, a decrease of \$121,000 or 28.1% as compared with the corresponding quarter in the prior year. On a segment basis, the income taxes of plastic segment decreased \$248,000 to nil for the six months ended September 30, 2004 whereas the income tax expenses for the electronic & metallic segment increased \$127,000 to \$309,000 for the six months ended September 30, 2004, respectively. The decrease in the plastic segment was primarily due to the tax holiday enjoyed in our Dongguan manufacturing plant whereas the increase in the electronic & metallic segment was due to increase in net sales as described above.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (Continued)

Minority Interest - Minority interests represent a 29% minority interest in Integrated International Limited, the holding company holding the capital stock of Deswell's electronic and metallic subsidiaries and a 49% minority interest in the subsidiary conducting marketing for Deswell's plastic and electronic businesses. In January 2003, the Company acquired an additional 20% interest in Integrated, increasing its ownership in that subsidiary from 51% to 71%. Despite the decrease in minority interest in Deswell's electronic & metallic segment, the dollar amount of minority interest increased to \$1,438,000 for the six months ended September 30, 2004, from \$1,071,000 for the corresponding period in the prior year, which reflects that both the electronics and metallic subsidiaries and marketing subsidiary generated more net income in the six months ended September 30, 2004, compared with corresponding period in fiscal

2003.

Net Income - Net income was \$7,623,000 for the six months ended September 30, 2004, a decrease of \$852,000 or 10.1%, as compared to net income of \$8,475,000 for the six months ended September 30, 2003, and net income as a percentage of net sales was decreased from 16.6% to 12.6% for the six months ended September 30, 2004. The decrease in net income was mainly the result of the decrease in other income and the increase in minority interest offsetting the increase in operating income as described above.

Net income for the plastic segment decreased by 21.6% to \$5,020,000 for the six months ended September 30, 2004 compared to \$6,401,000 for the corresponding quarter in 2003. The decrease in net income of the plastic segment was mainly the result of the decrease in operating profits of \$860,000 coupled with the decrease in other income of \$634,000, despite the decrease in income tax of \$248,000 as described above.

Net income for the electronic & metallic segment increased to \$2,603,000 for the six months ended September 30, 2004 compared to \$2,074,000 for the corresponding quarter in 2003. The increase in net income of the electronic & metallic segment was mainly the result of the increase in operating profit of \$1,012,000 offsetting the decrease in other income of \$138,000, the increase in income taxes of \$127,000 and minority interest of \$233,000, as described above.

Liquidity and Capital Resources

Traditionally, the Company has relied primarily upon internally generated funds and short-term borrowings (including trade finance facilities) to finance its operations and expansion.

As of September 30, 2004, the Company had a working capital surplus of \$50,312,000 and cash and cash equivalent of \$16,454,000. This compares with a working capital surplus of \$52,876,000 and cash and cash equivalent of \$30,193,000 at March 31, 2004. The decrease in cash and cash equivalent was mainly attributed to the capital investment of \$10,099,000, dividend distribution of \$4,406,000 and the increase in restricted cash of \$649,000 during the six months ended September 30, 2004.

The Company has generated sufficient funds from its operating activities to finance its operations and there is little need for external financing other than short-term borrowings that are used to finance accounts receivable and are generally paid with cash generated from operations. The Company has a short-term borrowings of \$903,000 and no long-term borrowings at September 30, 2004.

facilities, which are subject to annual review, include overdrafts, letters of credit, import facilities, trust receipt financing, inward bills financing as well as fixed loans. As of September 30, 2004, the Company had (i) unused credit facilities of \$5,884,000 (ii) cash and cash equivalents of \$16,454,000 and (iii) restricted cash of \$1,039,000, which has been pledged as collateral for those credit facilities.

The Company expects that working capital requirements and capital additions will be funded through a combination of internally generated funds and existing facilities.
