NOTICE OF ANNUAL MEETING OF SHAREHOLDERS

September 30, 2005

At the annual meeting you will be asked to consider and vote upon the following matters:

1. Approval of the Stock Exchange Agreement ("Exchange Agreement"), dated as of February 23, 2005 and amended as of June 20, 2005, by and among OraLabs, NVC Lighting Investment Holdings Limited ("NVC"), and Mr. Chang-Jiang Wu, Mr. Yong-Hong Hu, and Mr. Gang Du (collectively referred to as the "NVC Shareholders"), and the share issuances described therein. The transactions contemplated by the Exchange Agreement include: (i) the issuance by OraLabs of shares representing approximately 94% of the fully diluted outstanding common stock of OraLabs (after giving effect to the redemption and stock issuances described in (ii) and (iii) below) in exchange for the transfer to OraLabs of all of the ownership interests in NVC, which is held by the NVC Shareholders; (ii) the redemption of all of the common stock of OraLabs held by its President, Gary H. Schlatter, individually, in exchange for the transfer to Mr. Schlatter of all of the common stock held by OraLabs in its wholly-owned subsidiary, OraLabs, Inc. (the "Redemption Proposal"); and (iii) the adoption of the 2005 Director Stock Plan (a copy of which is attached as Annex 4 to the accompanying Proxy Statement) and the issuance under that Plan to each of the three present non-employee directors of 100,000 shares of common stock. The effect of these transactions will include that after the Closing, the business previously engaged in by OraLabs will no longer be conducted by OraLabs, and instead, OraLabs will only conduct the business of NVC which will become a subsidiary of OraLabs.
2. Election of the individuals designated by NVC as directors of OraLabs.
3. Amendment of the Articles of Incorporation of OraLabs to change its name to "NVC Lighting Corporation" and to increase the authorized number of shares of common stock to 200,000,000 shares.
4. Approval of the "2005 Stock Option, SAR and Stock Bonus Plan" (a copy of which is attached as Schedule 3 to the Stock Exchange Agreement attached hereto as Annex 1 to the accompanying Proxy Statement) of OraLabs that will cover 5,000,000 shares of common stock.
5. Ratification of the appointment of Murrell, Hall, McIntosh & Co., PLLP as

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

our independent registered public accounting firm for fiscal year 2005.

6. To transact such other business as may properly come before the meeting or any adjournments or postponements thereof.

In light of the actual conflicting interest of Mr. Schlatter in the transactions, the Board of Directors formed a Special Committee consisting of Michael I. Friess and Robert C. Gust to evaluate the Exchange Agreement and to negotiate it on behalf of OraLabs. The Board of Directors, considering among other things, the recommendation of the Special Committee, has approved the Exchange Agreement and determined it to be advisable. Approval of the Board was unanimous except that Mr. Schlatter abstained from the vote. As the two members of the Special Committee and the other non-employee director are each to receive shares of OraLabs common stock at the Closing, the Special Committee retained the services of Capitalink, L.C., the Special Committee's financial advisor, who provided its written opinion that as of August 10, 2005, based on and subject to the limitations, assumptions and qualifications stated in its opinion, the completion of the transactions contemplated by the Exchange Agreement is fair to OraLabs' nonaffiliated public shareholders from a financial point of view.

The Board of Directors has fixed the close of business on August 30, 2005 as the record date for determining all shareholders entitled to receive notice of the annual meeting and to vote at such meeting or any adjournment(s) thereof. A quorum of shareholders is necessary to hold a valid meeting. A quorum will be present if shares representing a majority of the voting power of the outstanding shares are represented by shareholders present at the meeting in person or by proxy. The approval of the Redemption Proposal requires the affirmative vote of the holders of at least the majority of the shares of our common stock entitled to vote as of the record date. The approval of the other proposals require the affirmative vote of the holders of at least a majority of the shares of our common stock present at the meeting in person or by proxy.

The Board of Directors appreciates and welcomes stockholder participation in OraLabs' affairs. Whether or not you plan to attend the annual meeting, please vote by completing, signing and dating the enclosed Proxy and returning it promptly to OraLabs in the enclosed self-addressed, postage-prepaid envelope. If you attend the meeting, you may revoke your Proxy and vote your shares in person.

Shareholders of OraLabs who do not vote in favor of the proposed transactions will have the right to dissent and to seek appraisal of the fair value of their shares if the transactions are completed and they comply with the procedures under Colorado law explained in the accompanying Proxy Statement.

The transactions are described in the accompanying Proxy Statement, which you are urged to read carefully. A copy of the Stock Exchange Agreement is attached as Annex 1 to the accompanying Proxy Statement.

By Order of the Board of Directors

Michael I. Friess, Secretary

SUMMARY TERM SHEET

The following summarizes the principal terms of the proposed transactions under which OraLabs Holding Corp., a Colorado corporation ("OraLabs" or the "Company") will acquire the business of NVC Lighting Investment Holdings Limited ("NVC") as a wholly-owned subsidiary of OraLabs. At the same Closing, the ownership of OraLabs, Inc., the OraLabs' operating subsidiary (the "Subsidiary") that conducts the Company's current business, will be transferred to the current President of the Company in consideration of the redemption by OraLabs of all of the stock in OraLabs owned by him individually. This Summary Term Sheet does not contain all of the information that may be important for you to consider when evaluating the merits of the transactions. You are encouraged to read this Proxy Statement, including the annexes and the documents that have been incorporated by reference into this Proxy Statement, in their entirety before voting. Section references are included below to direct you to a more complete description of the topics discussed in this Summary Term Sheet.

- o You are being asked to approve the Stock Exchange Agreement dated as of February 23, 2005 and amended June 20, 2005 (the "Exchange Agreement"), which provides among other things for (i) the acquisition by OraLabs of all of the ownership interests in NVC in consideration for the issuance to the NVC Shareholders of approximately 94% of the total fully diluted outstanding common stock of OraLabs (assuming the redemption and stock issuances described below), (ii) the transfer by OraLabs to its President of all of the common stock owned by OraLabs in its Subsidiary in consideration for the redemption of all of the OraLabs common stock owned by the President individually (the "Redemption Proposal"), and (iii) the approval of the 2005 Director Stock Plan and the issuance under that plan to each of the three non-employee directors of OraLabs of 100,000 shares of OraLabs common stock. Closing under the Exchange Agreement also requires that the shareholders approve the change in the name of the Company to NVC Lighting Corporation, the increase in the number of authorized shares of common stock to 200,000,000, and the approval of the 2005 Stock Option, SAR and Stock Bonus Plan. You will not receive any securities, money or any other consideration as part of the Closing of the transactions, and the interest held by the nonaffiliated OraLabs shareholders, which is currently about 952,665 shares or 20.30% of the OraLabs outstanding common stock, will be diminished to represent approximately 4.2% of the outstanding common stock upon Closing. The total number of shares outstanding upon closing of the transactions will be approximately 22,727,500, which could increase by an approximate 2,191,667 shares if employee options are exercised prior to closing. See "The Exchange Agreement - The Stock Exchange".
- o In order to approve and adopt the proposals, a quorum of shareholders must be present in person or by proxy at the meeting and the proposals must be approved by a majority of shares entitled to vote (with respect to the Redemption Proposal) and by a majority of the shares present at the meeting with respect to the other proposals. Gary H. Schlatter, the President of the Company and the owner individually of approximately 77.34% of the outstanding common stock, intends to vote in favor of all of the matters to be conducted at the annual meeting.
- o Upon Closing our current shareholders will no longer have an interest

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

in the business currently conducted by us. Instead, the public company will be engaging only in the business of NVC through its ownership of NVC as a wholly-owned subsidiary.

- o The common stock of OraLabs is presently listed for public trading on the NASDAQ small cap market. Prior to the Annual Meeting of the Shareholders, OraLabs intends to submit a new listing application to NASDAQ for continued listing on NASDAQ which is required because of the change in the assets and business of OraLabs. One of the conditions to continued listing will be that the minimum bid price of the common stock must not be less than \$4.00 per share, which cannot be assured. OraLabs believes that it will meet the other requirements for listing on NASDAQ, but there is no assurance that will occur. In the event that OraLabs does not meet NASDAQ listing requirements upon the closing of the transaction with NVC, the common stock of OraLabs is expected to be publicly traded on the NASD Electronic Bulletin Board over-the-counter market (OTC-BB) until it meets the listing requirements of NASDAQ.

- o The proposed transactions involve actual or potential conflicts of interest because Mr. Schlatter will acquire sole ownership of OraLabs, Inc. upon Closing and because all of the other directors will receive 100,000 shares each of OraLabs common stock as part of the Closing. The Board formed a Special Committee, consisting of Michael I. Friess and Robert C. Gust, for the purposes of considering, negotiating and making a recommendation regarding the proposed transactions. See "Certain Relationships and Related Transactions".

- o In March 2005, we retained the services of Capitalink, L.C. ("Capitalink") as the financial advisor to the Special Committee, to give an opinion as to the fairness of the proposed transactions to our nonaffiliated shareholders. See "Special Factors".

- o On August 10, 2005, Capitalink rendered its opinion to the Special Committee that, as of that date and subject to the assumptions, qualifications and limitations set forth in its opinion, the transactions contemplated by the Exchange Agreement were fair, from a financial point of view, to the holders of OraLabs common stock other than OraLabs' officers and directors and their affiliates. The complete Capitalink opinion is attached to this Proxy Statement as Annex 2. Any summary of Capitalink's opinion in this Proxy Statement, is qualified by reference to the full text of the Opinion that is attached as Annex 2 and which we urge you to read carefully in its entirety. The Opinion was directed to our Special Committee and does not constitute a recommendation as to how any holder of our common stock should vote on the proposed transactions. See "Special Factors - Opinion of Financial Advisor to the Special Committee".

- o The Special Committee determined that the transactions are fair to and in the best interests of our common shareholders, other than our officers, directors and their affiliates, and has recommended to our Board that the transactions should be completed under the terms of the Exchange Agreement. See "Special Factors - Recommendation of the Special Committee".

- o Acting on the recommendation of the Special Committee, our Board of Directors (with Mr. Schlatter abstaining) has approved and adopted the Exchange Agreement and authorized the transactions contemplated in that document, and recommends that you vote for approval and adoption of the Exchange Agreement and the transactions contemplated in that

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

document. See "Special Factors - OraLabs Board of Directors".

- o The Exchange Agreement may be terminated at any time before the completion of the transactions by the mutual written consent of its parties or by any party in certain instances described in the Exchange Agreement. See "Termination of the Exchange Agreement".

2

- o If you choose not to vote in favor of the Exchange Agreement and the transactions contemplated by that document, Colorado law entitles you to a judicial appraisal of the fair value of your shares of common stock. There are procedural requirements that you will have to follow if you decide to pursue a judicial appraisal, and merely voting against the Exchange Agreement will not preserve your right of appraisal under Colorado law. Unless such expenses are assessed against us by the court, we will not pay any legal fees or expenses that you might incur in this regard. See "Dissenters' Rights of Appraisal".

3

QUESTIONS AND ANSWERS ABOUT THE PROPOSED TRANSACTIONS

Q: What are the proposed transactions?

A: The business of OraLabs will change to that being conducted by NVC. OraLabs will accomplish this by acquiring from the NVC Shareholders all of the ownership interests in NVC in exchange for issuing to the NVC Shareholders the number of shares that will equal approximately 94% of all of the outstanding common stock of OraLabs upon the conclusion of the Closing. At the Closing and immediately after OraLabs' acquisition of NVC as a wholly-owned subsidiary, OraLabs will redeem all of the common stock owned individually by Gary H. Schlatter in exchange for the conveyance to him of all of the shares owned by OraLabs in its operating subsidiary, OraLabs, Inc. As a condition to completion of the Closing, the name of the public company will change from OraLabs to NVC Lighting Corporation, the number of shares of authorized common stock of the Company will be increased to 200,000,000, and the proposed 2005 Stock Plan, SAR and Stock Bonus Plan, 2005 Director Stock Plan and issuance under that plan of 100,000 shares of common stock each to the current non-employee directors of the Company will be approved. After the transactions close, OraLabs will be controlled by the former shareholders of NVC.

Q: What happens to my stock ownership in OraLabs after the transactions are closed?

A: Nonaffiliated shareholders of OraLabs, other than those shareholders who dissent and seek appraisal of the fair value of their shares, will retain their current stock that consists in total of approximately 952,665 shares. Including the 300,000 shares to be issued to the non-employee directors, there will be a total of 411,000 shares owned by the present directors or their affiliates upon completion of the Closing. The ownership in OraLabs of all nonaffiliated shareholders, which is currently about 20.30% of all of the fully-diluted issued and outstanding stock, will be reduced to about 4.2% upon completion of the Closing. The principals of NVC will be issued

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

approximately 21,364,085 shares, which will comprise 94% of the total number of outstanding shares of approximately 22,727,750. These figures do not include the possible exercise by employees of OraLabs of any of the 131,500 employee options currently outstanding. As a result of these transactions, the nonaffiliated shareholders who own approximately 20.30% of the Company that is conducting the current business of OraLabs will instead own about 4.2% of the Company that will then only conduct the business presently conducted by NVC. See "The Exchange Agreement - The Stock Exchange".

Q: Will OraLabs be a public company after Closing of the transactions?

A: Yes. After the Closing, OraLabs will continue to be a public company registered under Section 12(g) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and will continue to be subject to the annual, quarterly and other reporting requirements of the Exchange Act, the other requirements of the Exchange Act and the requirements of the rules and regulations thereunder.

Q: When do you expect the transactions to close?

A: We are working to complete the transactions as quickly as possible. If the Exchange Agreement and proposed transactions are approved and the other conditions to Closing are satisfied, we expect to complete the transactions on or before September 30, 2005. However, there can be no assurance that the transactions will close by that time, or at all.

4

Q: What business is conducted by NVC?

A: NVC is a leading designer, manufacturer, assembler and marketer of lighting fixtures and related products in The People's Republic of China ("PRC"). Its broad product lines are used in residential, commercial and industrial remodeling and in new construction. Its principal lighting products use a variety of light sources in line and low voltage and are designed for reliable and flexible function, energy efficient operation, attractive appearance, and simple installation and servicing. NVC is also engaged in the marketing, design and manufacture of other incandescent, fluorescent and High Intensity Discharge ("HID") lighting products with applications in the commercial lighting market.

Approximately 91% of the Company's sales in its financial year ended December 31, 2004, were made in the PRC, with approximately 8% in Europe, 0.2% in the Middle East, and 0.2% in Hong Kong. NVC's sales are made to electrical distributors and lighting showrooms as well as to certain wholesale lighting outlets. Such distributors wholesale and/or retail NVC lighting products for use in remodeling of existing structures and in new residential, commercial and institutional construction projects.

Q: Are there risks involved in closing the transactions with NVC?

A: Yes. After the transactions close, the Company's success will be totally dependent upon the success of NVC and its subsidiaries and affiliates. The success of NVC will depend upon numerous factors, including the continued demand for high quality lighting fixtures and related products in the PRC and Europe, expansion of the production facilities of NVC and acquisition of additional equipment, and the expected growth in marketing into existing and new foreign markets. There are no assurances that NVC's operations will be profitable after the Closing of the transactions, notwithstanding its profitable history during the past three years (see "NVC Business

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

Risk Factors").

Q: What vote of shareholders is required to approve the transactions?

A: A quorum of shareholders is necessary to hold a valid meeting. A quorum will be present if shares representing a majority of the voting power of the outstanding shares of common stock are represented by shareholders present in person at the meeting or by proxy. Approval of the redemption of shares and conveyance of ownership of the Company's operating subsidiary, OraLabs, Inc., to Gary H. Schlatter requires the affirmative vote of at least the majority of shares of common stock of OraLabs entitled to vote as of the record date. The remaining transactions that are proposed to be completed require only the affirmative vote of a majority of the voting power of the outstanding shares of OraLabs' common stock that are present in person or by proxy at the meeting. Mr. Schlatter, who individually owns about 77.34% of the outstanding common stock of OraLabs, intends to vote in favor of all of the proposed transactions, which vote would be sufficient to meet the quorum requirements and approve all of the proposed transactions.

Q: What are the income tax consequences of the transactions to me?

A: The transactions will not be taxable to the public shareholders of OraLabs, except to the extent that shareholders request an appraisal of the fair value of their shares. In that event, the payment to those shareholders will be taxable. To review a brief description of the federal income tax consequences to those shareholders, see "Material Federal Income Tax Consequences of the Proposed Transactions".

Q: What conflicts of interest does the Board of Directors have in recommending approval of the proposed transactions?

A: Mr. Schlatter has an actual conflict of interest in that upon completion of the proposed transactions, he will become the sole owner of OraLabs, Inc., which he intends to continue to operate as a private company. The three remaining directors, who are not employees of the Company, will each receive 100,000 shares of OraLabs common stock as part of the Closing. The Board of Directors formed a Special Committee consisting of Messrs. Friess and Gust, who negotiated the Exchange Agreement with NVC, hired their own legal counsel, and obtained a fairness opinion from an independent third party. To review the factors considered by the Special Committee and the Board of Directors in approving the Exchange Agreement, see "Special Factors".

5

Q: How was the fairness opinion obtained?

A: The Special Committee formed by the Board of Directors independently selected and retained a financial advisor to assist in this process. The committee received an opinion from its financial advisor, on which the Special Committee relied, stating that based on and subject to the limitations, assumptions and qualifications stated in that opinion, as of August 10, 2005, the completion of the proposed transactions was fair to the nonaffiliated OraLabs shareholders from a financial point of view.

Q: What rights do I have if I oppose the proposed transactions?

A: Shareholders who oppose the proposed transactions may dissent and seek judicial appraisal of the fair value of their shares, but only if they comply with all of the procedures under Colorado law explained in

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

"Dissenters' Rights of Appraisal" and in Annex 3 to this Proxy Statement. It is a condition to the obligation of OraLabs to close the transactions that holders of not more than 100,000 shares of the OraLabs common stock exercise their dissenters' rights.

SUMMARY

The following summarizes the material aspects of the proposed transactions and highlights selected information contained elsewhere in this Proxy Statement. This summary may not contain all of the information that is important to you, and is qualified in its entirety by the more detailed information contained elsewhere in this Proxy Statement, including the annexes to it, and in the documents incorporated by reference. To understand the proposed transactions fully and for a more complete description of the proposed transactions, you should carefully read this entire Proxy Statement, including the annexes to it and the documents incorporated by reference.

The annual meeting of shareholders of OraLabs will be held at 10:00 a.m. Mountain Time on September 30, 2005 at the principal offices of OraLabs, 18685 E. Plaza Drive, Parker, Colorado. Only OraLabs shareholders of record at the close of business on the record date, August 30, 2005, will be entitled to notice of, and to vote at, the annual meeting. On the record date, there were _____ shares of common stock outstanding and entitled to one vote per share at the annual meeting. Our shares are held by approximately _____ shareholders of record, although there is an additional number of beneficial owners of our common stock.

Shareholders will be asked to consider approval of the Stock Exchange Agreement ("Exchange Agreement"), dated as of February 23, 2005 and amended June 20, 2005, by and among OraLabs, NVC Lighting Investment Holdings Limited ("NVC"), and Mr. Chang-Jiang Wu, Mr. Yong-Hong Hu, and Mr. Gang Du (collectively referred to as the "NVC Shareholders") (see "Proposal One"). Among other things, the transactions contemplated by the Exchange Agreement include (i) the issuance by OraLabs of shares representing approximately 94% of the fully diluted outstanding common stock of OraLabs (after giving effect to the redemption and share issuances described below) in exchange for the transfer to OraLabs of all of the ownership interests in NVC, which is held by the NVC Shareholders, (ii) the redemption of all of the common stock of OraLabs held by its President, Gary H. Schlatter, individually, in exchange for the transfer to Mr. Schlatter of all of the common stock held by OraLabs in its wholly-owned subsidiary, OraLabs, Inc., and (iii) approval of the 2005 Director Stock Plan and the issuance under that plan of 100,000 shares of common stock to each of the three non-employee directors of OraLabs. The effect of these transactions will include that after the Closing, the business previously engaged in by OraLabs will no longer be conducted by OraLabs, which instead will conduct only the business of NVC.

6

There are a number of factors that you should consider in connection with deciding how to vote your shares. They include:

- o the background of the transaction;
- o the factors considered by the Special Committee and the Board of Directors;
- o the opinion of the financial advisor to the Special Committee;
- o the recommendation of the Special Committee to the Board of Directors;
- o the purpose and effect of the proposed transactions; and

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

- o the conflict of interests of certain persons in the proposed transactions.

These factors, in addition to several other factors to be considered in connection with the proposed transactions, are described in this Proxy Statement. For a detailed discussion of each of these factors, see "Special Factors".

Reasons for Engaging in the Transaction (See "Special Factors - Background of the Proposed Transactions")

The Company's operating subsidiary, OraLabs, Inc. has been in business since 1990 and became public via a reverse merger in 1997. Prior to becoming public, the sole owner of the subsidiary was Gary H. Schlatter, who believed that by taking the Company public, the Company could use public shares to facilitate its growth and that being public would facilitate providing ownership interests to employees and others with an interest in the Company's business. Those goals were not met. Historically, the trading volume of shares of the public company has been extremely low and the stock price has remained at a level substantially below that which would attract the interest of investors and other members of the financial community. In addition, there have been significant increases in the costs of being a public company arising out of the Sarbanes-Oxley legislation and related rules of the Securities and Exchange Commission ("SEC") and the National Association of Securities Dealers ("NASD"). As noted in the discussion below of the factors considered by the Special Committee (see "Special Factors"), the Special Committee believed that a reorganization with a company such as NVC that has substantially larger amounts of revenues and which has historically obtained significant net earnings would be beneficial to the nonaffiliated shareholders of OraLabs.

7

Recommendation of the Special Committee and Board of Directors (See "Special Factors - Recommendation of the Special Committee")

The Special Committee of our Board of Directors, consisting of two non-employee directors, was formed to consider and evaluate the proposed transactions. The Special Committee approved the Exchange Agreement and determined that the proposed transactions are in the best interests of OraLabs and its nonaffiliated shareholders. The Special Committee recommended to our Board that the Board determine that the proposed transactions are advisable and in the best interest of OraLabs and our nonaffiliated shareholders and that the completion of the proposed transactions is fair to our nonaffiliated shareholders. The Special Committee also recommended that the Board approve the Exchange Agreement and that the Board determine to submit the proposed transactions to our shareholders and recommend that our shareholders vote to adopt the Exchange Agreement. Even though our non-employee directors will be receiving shares at the Closing, our Board determined that the proposed transactions are advisable and in the best interests of and fair to OraLabs and our nonaffiliated shareholders. Accordingly, our Board approved the Exchange Agreement and recommends that you vote FOR the proposal to adopt the Exchange Agreement and approve the proposed transactions.

Opinion of Capitalink, L.C. (See "Opinion of Financial Advisor to the Special Committee" and Annex 2)

In connection with the proposed transactions, the Special Committee considered the opinion of the Special Committee's financial advisor, Capitalink, L.C., as to the fairness of the proposed transactions to our nonaffiliated

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

shareholders from a financial point of view. Capitalink delivered its opinion to the Special Committee on that, as of August 10, 2005 and based on and subject to the assumptions, limitations and qualifications stated in the opinion, the consideration to be received by our nonaffiliated shareholders pursuant to the Exchange Agreement was fair to those shareholders from a financial point of view. The opinion was provided for the information of the Special Committee and does not constitute a recommendation to any stockholder with respect to any matter relating to the proposed transactions. The full opinion of Capitalink, L.C. is attached as Annex 2.

OraLabs' Position as to the Fairness of the Proposed Transactions (See "Special Factors - OraLabs Board of Directors")

We believe the proposed transactions to be fair to our nonaffiliated shareholders. In reaching this determination we considered a number of factors, including that:

- o the financial performance of OraLabs as measured by its net earnings (loss) has been negative or flat since the end of fiscal year 2001, while on the other hand, the revenues and earnings of NVC have significantly grown since 2003;
- o OraLabs' common stock has historically traded at low prices that do not attract the interest of the investment community and at very low volumes so that there has been minimal liquidity for OraLabs' shareholders even though the stock is traded on the NASDAQ SmallCap Market;
- o Capitalink delivered an opinion to the Special Committee to the effect that as of August 10, 2005, and based on and subject to the limitations, assumptions and qualifications contained in that opinion, the proposed transactions were fair to the nonaffiliated shareholders of OraLabs from a financial point of view; and
- o the proposed transactions were approved and recommended by the Special Committee.

8

Interests of our Directors in the Proposed Transactions (See "Certain Relationships and Related Transactions - OraLabs")

In considering the recommendation of our Board of Directors with respect to the Exchange Agreement and the transactions contemplated thereby, you should be aware that, in addition to the matters discussed above, all of the directors have interests in the proposed transactions that are in addition to or different from the interests of our shareholders generally and that such interests create actual or potential conflicts of interest. Mr. Schlatter will acquire sole ownership of our operating subsidiary, OraLabs, Inc., in exchange for the redemption by OraLabs of all of the shares of OraLabs that Mr. Schlatter owns individually. Mr. Schlatter will retain a beneficial interest in some of the 100,000 shares that The Schlatter Family Partnership owns in OraLabs. The remaining three directors, none of whom are employees, will each receive 100,000 shares of the Company as part of the transactions to occur at Closing.

Election of Directors, Approval of the Name Change, and Increase in Authorized Shares (See "Proposal Two and Proposal Three")

Immediately upon completion of the Closing, all of the members of the Company's Board of Directors and officers will resign and the three current owners and a non-executive director of NVC will be elected as the four members

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

of the Board of Directors, who will appoint such officers as they determine. Upon approval of the proposed transactions, the name of the Company will change to "NVC Lighting Corporation" or such similar name as determined by the Board of Directors. The name change is intended to convey more clearly a sense of the Company's business after the proposed transactions are closed. In addition, the shareholders will be asked to approve the increase in the number of shares of common stock authorized to be issued by the Company from 25,000,000 to 200,000,000. Upon Closing, there will be issued and outstanding approximately 22,727,700 shares of common stock, which may increase by up to an additional number of approximately 2,192,000 shares to the extent that outstanding employee options are exercised prior to Closing (which will cause an increase in the number of shares to be issued to the NVC principals and their designees), and the remaining authorized shares may be issued as the Board of Directors and/or officers of the Company determine from time to time.

Approval of the 2005 Stock Option, SAR and Stock Bonus Plan (See "Proposal Four").

The shareholders will be asked to approve at the annual meeting the proposed 2005 Stock Option, SAR and Stock Bonus Plan. Adoption of the Plan will permit the Company to issue securities to employees, consultants and others who have an interest in the Company.

Plans for OraLabs After Closing of the Proposed Transactions

After the Closing, the business of OraLabs, Inc., the public company's current subsidiary, will continue to be operated as a private company that will be wholly owned by Mr. Schlatter. The OraLabs shareholders will have no further interest in the operations of OraLabs, Inc.

Conditions to the Exchange Agreement (See "The Exchange Agreement - Conditions to the Closing of the Exchange Agreement")

Certain conditions must be satisfied before the parties are obligated to close the transactions under the Exchange Agreement, including the following:

- o the Exchange Agreement and all of the transactions contemplated thereby must be approved by the shareholders of OraLabs;

9

- o OraLabs must receive letters from NVC's independent auditors and attorneys that are satisfactory to OraLabs and confirm the status of certain financial and legal matters relating to NVC's performance under the Exchange Agreement;
- o There must be no legal action that prevents or restrains completion of the proposed transactions;
- o the number of OraLabs shares that are the subject of dissenters' rights exercised by OraLabs' shareholders cannot exceed 100,000 shares; and
- o if continued listing of the public company's shares on the NASDAQ SmallCap Market is not approved by the NASD for reasons attributable to OraLabs, NVC may seek to renegotiate the relative shareholdings to be owned upon completion of the transactions between the NVC shareholders and the OraLabs shareholders.

In addition, other conditions, including the lack of any material adverse change in the condition of the parties and compliance with representations, warranties

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

and covenants, must be satisfied by the parties before the other parties are obligated to complete the proposed transactions.

Termination of the Exchange Agreement (See "The Exchange Agreement - Termination of the Exchange Agreement")

Either party may terminate the Exchange Agreement if Closing does not occur by September 30, 2005, unless such date is extended by the mutual agreement of the parties, or if there is a legal prohibition or restraint that occurs or is threatened with respect to the proposed Closing, or if NVC or OraLabs breaches any of its representations, warranties or agreements under the Exchange Agreement. The parties may agree at any time (including any time after the annual meeting but before consummation of the proposed transactions) to terminate the Exchange Agreement.

Dissenters' Rights of Appraisal (See "Dissenters Rights of Appraisal")

Any stockholder who does not wish to approve the Exchange Agreement has the right under Colorado law to have his, her or its shares appraised by a Colorado state district court. This "right of appraisal" is subject to a number of restrictions and technical requirements. Generally, in order to exercise appraisal rights, among other things, you must not vote in favor of the Exchange Agreement or the transactions contemplated thereby and you must make a written demand for appraisal in compliance with Colorado law before the vote on the Exchange Agreement. Merely voting against the Exchange Agreement will not preserve your right of appraisal under Colorado law. Annex 3 to this Proxy Statement contains the Colorado statutes relating to your right of appraisal. Failure to follow all of the steps required by the statutes will result in the loss of your right of appraisal.

NVC BUSINESS

Background

The principal business of NVC is the design, manufacturing and distribution of an extensive line of lighting fixtures and related lighting products through its 97% owned subsidiary, NVC Industrial Development Company Limited ("NVC Industrial"). NVC Industrial has operations in The People's Republic of China (the "PRC"), Europe, Russia, the Middle East and Hong Kong. NVC Industrial was registered as a limited liability Sino-foreign joint investment enterprise on January 28, 2003 in Huizhou, Guangdong Province in the PRC, with a registered capital of \$1,282,051 (HK\$10,000,000) and a defined period of existence of 15 years to January 27, 2018.

10

NVC Lighting Investment Holdings Limited ("NVC") was incorporated in the Hong Kong Special Administrative Region in the PRC as a private limited liability company on June 11, 2004. As a result of the reorganization and restructuring of NVC, NVC Lighting Company Limited ("NVC Lighting"), a predecessor of NVC Industrial, ceased operations on April 30, 2003 and, on the same date, certain net assets were distributed totaling \$1,767,655 to the registered equity holders of NVC Lighting, who in turn injected the net assets and business into NVC Industrial as part of their capital contribution in NVC. NVC Lighting was originally registered as a limited liability company on November 13, 1998 in Huizhou, Guangdong Province in the PRC with a defined period of existence of 6 years and 49 days to December 31, 2004. On May 1, 2003, the business operations of NVC Lighting were transferred to NVC Industrial. On June 13, 2004, NVC acquired 97% of the outstanding registered capital of NVC Industrial which became a subsidiary of NVC and which was registered as a Sino-foreign joint investment enterprise ("FIE").

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

These two transactions were treated as a recapitalization of an existing business in accordance with the requirements of Financial Accounting Standards Opinion No. 141, BUSINESS COMBINATION, EXHIBIT D. The effect of these recapitalizations was rolled back to December 31, 2002 for financial reporting purposes.

NVC and its subsidiary, NVC Industrial, are hereinafter collectively referred to as NVC.

General

NVC is a leading designer, manufacturer, assembler and marketer of lighting fixtures and related products in the PRC. Its broad product lines are used in residential, commercial and industrial remodeling and in new construction. Its principal lighting products use a variety of light sources in line and low voltage and are designed for reliable and flexible function, energy efficient operation, attractive appearance, and simple installation and servicing. NVC is also engaged in the marketing, design and manufacture of other incandescent, fluorescent and High Intensity Discharge ("HID") lighting products with applications in the commercial lighting market.

Approximately 91% of the Company's sales in its financial year ended December 31, 2004, were made in the PRC, with approximately 8% in Europe, 0.2% in the Middle East, and 0.2% in Hong Kong. The Company's sales are made to electrical distributors and lighting showrooms as well as to certain wholesale lighting outlets. Such distributors wholesale and/or retail NVC lighting products for use in remodeling of existing structures and in new residential, commercial and institutional construction projects.

The Company's primary means of distribution is through independent exclusive distributors of its lighting products located throughout the PRC, Europe, the Middle East, and Russia. NVC has established itself as a lighting supplier by providing high quality and well-designed products, excellent customer service, timely delivery, technical advice and product training. The exclusive distributors maintain their own inventory of NVC lighting products, and, in turn, sell to electrical contractors, builders and at the retail level. Sales to distributors are made through the Company's sales staff and through manufacturers' agents who may also sell other non-competing electrical products. NVC also has a national accounts sales force that focuses on department stores, specialty retail, supermarkets and commercial accounts. NVC works closely with these national accounts to provide custom solutions to their lighting needs and, in turn, to have the Company's lighting products specified for their major renovations or store expansions.

11

Products

NVC produces a wide variety of lighting fixtures and related products for residential, commercial and industrial applications.

The principal lighting products of NVC are (i) lighting control products, such as electronic transformers, electronic ballasts, and control gear for high pressure discharge lamps, and (ii) electrical light sources, such as an incandescent lamp series, fluorescent lamp series, high pressure discharge lamp series, and LED series.

The lighting product lines of NVC are also designed for home lighting, commercial lighting, and outdoor lighting.

The home lighting product lines comprise modern chandelier series,

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

ceiling light series, dining room light series, wall light series, mirror light series, floor light series, and cabinet light series.

The commercial lighting product lines of NVC consist of a downlight series, track lighting series, ceiling spot light and flexible ceiling track lighting light systems, cable system, multiple spot light series, decorative fluorescent luminaries series, reflector downlight series, metal hydride light series, and fluorescent lamp stand series.

The outdoor lighting systems of NVC are comprised of a fiber-optic series, ground light series, embedded light series, underwater light system, flood light series, road light series, and work light series.

The following table reflects, in general, the number and type of products produced by NVC during its fiscal years ended December 31, 2002, 2003, and 2004:

PRODUCTS (UNITS)	2002	2003
Electronic transformers	1,543,245	2,670,824
Energy-saving lamps	1,003,704	1,298,946
Energy-saving tubes	444,257	1,037,578
Ceiling lamps	148,524	353,193
Multiple lights	157,462	345,234
Decorative fluorescent luminaries	219,047	246,570

Other items	1,386,823	2,007,646

Total	11,408,644	18,710,308
	=====	

The following products of NVC are currently the most popular with its customers:

1. ELECTRONIC TRANSFORMERS- Electronic transformers are accessories to lights and light sources in lengthening lighting life, and are extensively used in household lighting and commercial lighting. They are simple and safe to use, are small and light, retard rising temperatures, use low power consumption, and are long lasting.

2. ENERGY-SAVING LAMPS (Also known as "compact fluorescent lamps")- Compared to incandescent lamps, compact fluorescent lamps transform electricity into light with cost savings of nearly 80%. They are more durable, distribute colors more evenly, and are used for indoor and outdoor lighting such as shopping malls and museums. Small fluorescent lamps are often used as an alternative to incandescent lighting because their lamp life is about 10 times longer than incandescent lamps and is 3 to 4 times more efficient.

3. CONTROL GEAR SERIES- These high quality products are the top ranked brand in the PRC in halogen light electronic transformers. NVC offers the following electronic transformer series products: (a) common type electronic transformer; (b) full function (with over-voltage, overload, and short-circuit protection) electronic transformer; (c) dimmable electronic transformer.

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

4. MULTIPLE SPOTLIGHTS- Multiple spotlights can be installed in different ways with adjustable light direction. They are compatible with various lamps, and have a high color rendering index and narrow beam angle.
 5. SPOTLIGHTS- The spotlight series consist primarily of rack spotlights, ceiling spotlights and flexible track systems. They provide options to conform to different and varying space requirements due to adjustable light direction and flexible track designs.
 6. REFLECTOR-DOWN LIGHTS- They are fixed to the ceiling, usually fully recessed, re-distributing light by reflectors to meet different lighting requirement. Various styled reflectors made of high quality aluminum prevent oxidization, provide base lighting or point lighting for indoors use, such as shopping malls, business halls, exhibition halls, hotels, meeting halls, homes, etc.
 7. METAL HALIDE LIGHTS- The main features of a metal hydride light is its durability, high color renderings, UV-prevention, high efficiency and energy saving, a wide range of wattages and ease of repair. They provide highly efficient multi-angled and long-lasting lighting, and reduce maintenance expenses. These lamps are similar to mercury vapor lamps but use metal halide additives inside the arc tube along with mercury and argon. These additives enable lamps to produce more visible light per watt with improved color rendition. Because of the good color rendition and high lumen output, these lamps are very good for sports arenas, stadiums and similar facilities.
 8. DECORATIVE FLUORESCENT LUMINAIRES- Decorative fluorescent lights are used primarily in office ceiling lighting. They improve light efficiency and control glare through reflecting covers. The high quality diffuser used in the luminaires is imported from Japan with a high transmission rate of 75%. Fluorescent lamps are popular because of their relatively high efficacy, diffuse light distribution characteristics, and long operating life. A fluorescent lamp consists of a glass tube filled with argon or argon-krypton gas and a small amount of mercury, coated on the inside with phosphors and with an electrode at both ends.
 9. CEILING SPOTLIGHTS- They are fixed with an electronic transformer, and are energy saving, quiet and retard rising temperature. They provide even, soft and comfortable basic light for household uses or decorative lighting for commercial purposes.
 10. PENDANT LIGHTS- Pendant lights are installed to the ceiling with glass and other types of shades to provide decorative soft lighting. The holding cables are placed in lines, chains and frames. Shades are made of crystal, glass, acrylic and metals with various shapes through electro-plating and painting. They are usually used in dining halls or pubs.
- 13
11. FLOOD LIGHTS- Flood lights are used at sports grounds, harbors, buildings, and studios. They are resistant to dramatic temperature changes, are not easy to break, prevent dust and water damage, are hydromechanical compliant, have wind resistance capabilities, and are safe and long lasting.
 12. ROAD LIGHTS- Road lights are strong and durable with various color options. They are sealed to prevent dust and water damage. The diffuser

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

is of high diffusion, durable at high temperature, and resistant to color changes.

13. ELECTRONIC BALLASTS- NVC supplies the following electronic ballasts:

PRODUCTS	USE
a.) One-for-one, one-for-two lit-box use electronic ballast	Used in outdoor lit-box and advertising b
b.) One-for-one, one-for two PLC use electronic ballast	Used with PLC in reflector down lights an
d.) One-for-one, one-for-two, one-for-three fluorescent lamp use electronic ballast	Used in decorative fluorescent luminari fluorescent stands

In nearly every full-size fluorescent lighting application, electronic ballasts can be used in place of conventional magnetic "core-and-coil" ballasts. Electronic ballasts improve fluorescent system efficacy by converting the standard 60 Hz input frequency to a higher frequency, usually 25,000 to 40,000 Hz. Lamps operating at these higher frequencies produce about the same amount of light, while consuming 12% to 25% less power. Other advantages of electronic ballasts include less audible noise, less weight, virtually no lamp flicker, and dimming capabilities (with specific ballast models).

NVC stresses internal quality control and has obtained recognition in the PRC, having been issued ISO9001:2000 certifications, and has been selected as a AAA business in the PRC's Quality and Service Reputation System. Its products comply with 3C, TUV, CE, EMC and other international standards.

NVC owns the "NVC" trademark, and variations thereof, which are material to the Company's business. NVC considers its other trademarks to be valuable, but not material to its overall business.

PRC Green Lights Program

NVC is a voluntary participant in the China Green Lights Program (the "Program") which is sponsored and jointly funded by the United Nations Development Program and the Global Environment Facility-Enditem. The Program is similar to the Green Lights Program sponsored by the U.S. Environmental Protection Agency ("EPA") regarding energy savings and pollution prevention by encouraging companies and individual residential consumers to install energy efficient lighting technologies. NVC strives to manufacture cost-effective and energy efficient lighting to help its customers reduce costs, and to reduce pollution and radiation and preserve national resources. In the PRC, electricity is primarily generated by thermal power plants using coal. By reducing the need for electrical power consumption, the Project has reduced the emission of green house gases, including the emission of carbon dioxide and nitrogen oxides, resulting in less smog, acid rain and reduced climate changes.

The China Center for the Certification of Energy Conservation Products ("CECP") is the government agency in the PRC responsible for developing voluntary standards and labeling programs for consumer products, including energy-efficient lighting, for sale in the PRC, and has significantly contributed to the Program.

According to the National Development and Reform Commission ("NDRC"), the PRC has saved 45 billion kilowatt-hours of electricity since the launch of the Program in 1996. The Director of the Environmental and Resource Conservation Department of the NDRC recently stated at an international conference on green lighting that China will further promote green lighting during the next five

years to relieve the electricity supply crunch in the PRC.

14

Production

NVC designs and assembles a majority of its lighting products in-house. However, NVC out-sources most of its component manufacturing to a number of independent manufacturers/suppliers who are located in the PRC and abroad. Tools, dies and molds are manufactured by outside sources according to designs and specifications set by NVC. Tooling is consigned to independent tooling shops, largely near NVC manufacturing facilities, which fabricate and finish the components of its products. NVC inspects the components and assembles, tests, packages, stores and ships the finished products.

NVC out sources manufacturing of various components to minimize fixed costs and capital requirements and allowing it the flexibility to respond to market needs. NVC believes its utilization of subcontractors with specialized skills is the most efficient method of manufacturing certain components used in its lighting products. NVC further believes that alternate tool making specialists and fabricators are generally and readily available. NVC uses multiple subcontractors for certain components to facilitate availability and smooth stable supplies. In addition, NVC purchases raw materials used in the manufacturing of its components to control the quality of the raw materials used by the subcontractors and to receive more competitive prices for the raw materials. Currently, NVC also contracts for the assembly of certain products with third parties whose facilities are located in the PRC.

The principal manufacturing plant of NVC is located in Xiaojinkou, Huizhou, Guangdong Province in the PRC. It has approximately 23,871 square meters, and has 25 automated production lines for the manufacture and assembly of its lighting products. Phase I of the construction of the new production facilities at NVC Industrial Park in Ruhu District, Huizhou is scheduled for completion in September 2005, subject to weather conditions. The new production facilities at NVC Industrial Park will have approximately 17,280 square meters and will significantly expand the production capabilities of NVC by adding up to 33 new automated production lines.

Research and Development

NVC spent approximately \$29,352, \$1,984, and \$11,823 on research and development and testing of new products and development of related tooling in the years ended December 31, 2004, 2003, and 2002, respectively. These are not a complete reflection of the actual research and development cost of NVC as certain research and development costs were booked into other categories of expenses.

Approximately 70% of the lighting technologies utilized by NVC were developed within NVC. NVC built and equipped a research and development center at a cost of approximately \$600,000 during 2005.

Sales, Marketing and Distribution

PRC domestic sales revenues of NVC lighting products constituted approximately 91% of its total sales for the fiscal year ended December 31, 2004, and 88% for the 2003 fiscal year.

Sales revenues generated amounted to \$55,898,746 for the year ended December 31, 2004 compared to \$31,051,991 for the year ended 2003, representing an increase of \$24,846,755 or 80% year-on-year. The principal markets of NVC in the PRC are in Beijing, Zhejiang, Jiangsu, Shanghai and Guangdong Province.

NVC has 238 marketing representatives located at 33 sales offices located in medium to large size cities throughout the PRC. NVC has more than 400 franchisees that operate approximately 2,500 stores in the PRC, and marketing and distribution representatives in Britain, Germany, Russia, the Middle East, and the Asia-Pacific area.

As of December 31, 2004, NVC entered into distribution agreements with 58 distributors who agreed to be exclusive distributors of NVC lighting products and agreed to generate specified minimum sales volume over a 10 year period. In accordance with the terms and conditions of the form of Distribution Agreement (the "Agreement"), NVC paid \$120,773 to each exclusive distributor. The costs of these Agreements are amortized on a straight-line basis over the life of the Agreements

During the years ended December 31, 2004 and 2003, NVC advertised its lighting products at a cost of \$1,895,600 and \$1,167,949, respectively.

During the years ended December 31, 2004, and 2003, NVC incurred freight distribution costs of \$1,184,014 and \$524,371, respectively.

Inventories are maintained at production and distribution facilities of NVC located in the PRC and at distribution facilities near Xiaojingkou District. Most orders are shipped from stock inventory within 48 hours of receipt. At December 31, 2004, NVC has inventories of raw materials of \$3,533,273, and finished goods of \$3,537,988, totaling \$7,071,261.

Backlog and Material Customers

NVC has no material long-term supply contracts. NVC is not dependent on any single customer or group of customers, and for the years ended December 31, 2004 and 2003, no single customer accounted for sales in an aggregate amount equal to 10% or more of its consolidated sales revenues.

Competition

NVC is not aware of any published statistics or data that identify the overall market for its products. Nevertheless, NVC believes that it is one of the largest privately-held manufacturers of lighting products in the PRC. NVC estimates that there are more than 1,000 lighting product producers in the PRC. NVC competes not only with manufacturers in its own fields, but also with manufacturers of a variety of other lighting products. A number of competitors are divisions or subsidiaries of much larger multi-national companies, which have substantially greater resources than NVC.

NVC believes that its most significant competitors in the PRC are Phillips Electronics China, GE Lighting Engineering Group CE, Foshan Electrical Lighting Co., Limited, Zhejiang Yangguang Group Stocks Co., Limited, Huizhou TCL Lightening Co. Limited, Audi and GE Lightings (Guangzhou) Co., Limited,, and Guangdong Dongsong Sanzioung Electrical Appliance Co., Limited,.

There is wide price variance in competitive products and NVC believes that its lines of lighting products can be described as moderately priced in order to be attractive to the high-volume commercial and residential markets. However, lighting fixtures are often purchased in small quantities and, as a result, product features may be more important to a purchaser in small quantities than cost. NVC believes that its growth has been attributable principally to the quality design and construction of its products, the quality of its distribution network, sales force and its reputation for prompt delivery

and service.

16

Intellectual Property

As of June 30, 2005, NVC owned a number of PRC patents and had several patent applications on file. NVC also has corresponding foreign patents and registered trademarks in thirty other countries worldwide. There is no assurance that any patents will be issued with respect to pending or future applications. As NVC develops products for new markets and uses, it normally seeks available patent protection. NVC believes that its patents are important, but does not consider itself materially dependent upon any single patent or group of related patents.

Employees

NVC employed approximately 1,195 employees as of December 31, 2004.

As of December 31, 2004, NVC had 13 senior level management personnel, 48 middle management staff, 163 administrative staff, 638 manufacturing and assembling personnel, 59 engineering and technical staff, and 274 marketing and sales representatives.

NVC does not have any unions or other labor organizations. NVC believes that its relations with its employees are good.

The production facilities of NVC include an employee entertainment center, a library, dining hall, and dormitories.

NVC provides health benefits and retirement benefits to its employees as required by PRC labor laws and its social security system. During the years ended December 31, 2004 and 2003, NVC incurred pension costs of \$7,566 and \$13,983, respectively.

NVC provides a variety of training programs for its management and employee personnel, including production processes, quality control, safety, product knowledge, and marketing.

Properties

The manufacturing, warehousing and business operations of NVC are primarily conducted in three short-term leased properties located in Xiaojinkou Town, Huizhou, and Guangdong Province in the PRC. The expiration dates of the leases are between September 2005 and September 2006. Leasing costs amounted to \$193,883 and \$118,183 for the years ended December 31, 2004 and 2003, respectively. One leased property is comprised of three buildings for manufacturing of approximately 8,333 square meters, and one dormitory of approximately 800 square meters. A second leased property has three manufacturing facilities of approximately 9,000 square meters, with three dormitories of approximately 4,000 square meters. The third leased property is comprised of three buildings of approximately 6,538 square meters.

NVC is presently building new additional production and assembly facilities at NVC Industrial Park also located in Ruhu District, Huizhou, Guangdong Province, in the PRC. The new NVC Industrial Park will include four production plants, three dormitories for staff and employees, and one office building which is being built on a site area of 189,000 square meters. Phase I of the construction of the NVC Industrial Park is expected to be completed in September 2005, subject to weather conditions. Additional production facilities are planned for Phase II of the NVC Industrial Park. At December 31, 2004, NVC

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

had paid \$1,304,348 for the land use rights to NVC Industrial Park, and \$1,374,015 for the construction costs and for design fees. The estimated unpaid balance for the completion of the construction of the facilities is \$5,663,073, which will be due during the year ending December 31, 2005 and is included as an outstanding commitment in NVC's financial statements.

17

NVC built a research and development center during 2005 at a cost of approximately \$600,000, which research facility comprises 600 square meters and is located in Ruhu District.

There is no private ownership of land in the PRC and all land ownership is held by the PRC government, its agencies and collectives. Land use rights for industrial use are obtained from the government for periods ranging from 40 to 50 years, and are typically renewable. Land use rights can be transferred upon approval by the land administrative authorities of the PRC (State Land Administration Bureau) upon payment of the required land transfer fees.

Legal Proceedings

Currently, NVC is not a party to any litigation or other legal proceeding that NVC believes could reasonably be expected to have a material adverse effect on its business, results of operation or financial condition. NVC may receive claims of and become subject to consumer protection, employment, labor, product liability and other commercial litigation related to the conduct of its business. Such litigation could be costly and time consuming and could divert the management and key personnel from their business operations. The uncertainty of litigation increases these risks. In connection with such litigation, NVC may be subject to significant damages or equitable remedies relating to the operation of its business and the sale of its products. Any such litigation may materially harm its business, results of operations and financial condition.

RISK FACTORS

DILUTION TO EXISTING SHAREHOLDERS. As a result of completing the transactions contemplated by the Exchange Agreement, the ownership by the nonaffiliated shareholders of OraLabs will be significantly diluted from 20.3% before completion of the transactions to 4.2% after completion of the transactions. Although a third-party advisor rendered its opinion to the Special Committee of the Board that, as of August 10, 2005 and subject to the assumptions, qualifications and limitations set forth in its opinion, the transactions contemplated by the Exchange Agreement were fair, from a financial point of view, to the nonaffiliated shareholders of OraLabs, there can be no assurance as to the future performance of NVC or of the common stock of the Company. See "Special Factors—Opinion of Financial Advisor to the Special Committee". In addition, if the shareholders approve the proposed amendment to the Company's Articles of Incorporation to increase the number of authorized shares to 200,000,000, there will be a substantial number of shares available for issuance by the Company without the approval of shareholders that could have the effect of further diluting the interests of the nonaffiliated shareholders. OraLabs also has the right to issue up to 1,000,000 shares of preferred stock without shareholder approval.

NO ASSURANCE OF NASDAQ LISTING. The continued listing of the Company's common stock on NASDAQ is not a condition of closing the transactions contemplated by the Exchange Agreement. The Company will be obligated to file a new listing application with NASDAQ and there cannot be assurance that the Company will meet all of the requirements for listing, including without

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

limitation the requirement that the minimum bid price of the common stock must not be less than \$4.00 per share. OraLabs believes that it will meet the other requirements for listing on NASDAQ, but there is no assurance that will occur. In the event that OraLabs does not meet NASDAQ listing requirements upon the closing of the transaction with NVC, the common stock of OraLabs is expected to be publicly traded on the NASD Electronic Bulletin Board over-the-counter market (OTC-BB) until it meets the listing requirements of NASDAQ, if ever.

NEW PROJECTS. The new property development projects that NVC is financing to expand its manufacturing and assembly facilities at NVC Industrial Park will be subject to the many risks inherent in the rapid expansion of a high growth business enterprise, including unanticipated design, construction, regulatory and operating problems, and significant risks commonly associated with implementing a marketing strategy in ever changing and expanding markets. There can be no assurance that any of the projects will become operational within the estimated time frames and projected budgets at the time NVC enters into a particular agreement, or at all. In addition, NVC may develop projects as joint ventures in an effort to reduce its financial commitment to individual projects. There can be no assurance that the significant expenditures required to expand its plant will ultimately result in the establishment of increased profitable operations.

When NVC expansion projects become operational, NVC will be required to recruit and train personnel, expand its management information systems and control expenses. If NVC does not successfully address its increased management needs or if NVC is otherwise unable to manage its growth effectively and efficiently, its operating results could be materially and adversely affected.

UNCERTAINTY OF MARKET ACCEPTANCE. NVC is currently selling its lighting products and electrical accessories principally in cities along the coastal region in China. Achieving market acceptance and penetration of NVC products, particularly in new markets, will require substantial marketing efforts and substantial expenditures. There is substantial risk that new markets may not accept or be as receptive to NVC lighting products. Market acceptance of NVC current and proposed new lighting products will depend, in large part, upon its ability to inform potential customers that the distinctive characteristics of its lighting products make them superior to competitors' products and justify their pricing. There can be no assurance that NVC's current and proposed new lighting products will be accepted by consumers or that any of its current or proposed new lighting products will be able to compete effectively against other similar high quality products. Lack of market acceptance and market penetration of NVC lighting products would have a material adverse effect on NVC.

CHANGING CONSUMER PREFERENCES. In common with other companies marketing lighting products, NVC is also subject to ever changing consumer preferences and cost concerns. NVC believes that the energy efficiency and green light aspects of its lighting products make its products reasonably priced.

PRODUCTION CAPACITY. There is no assurance that NVC will be able to increase its production capacity to a level sufficient to meet anticipated increased customers' demands for its lighting products commensurate with its extensive distribution, marketing and promotional efforts. NVC plans to purchase advanced plant machineries for its new production facilities at NVC Industrial Park and to upgrade existing plant machineries, which it believes should increase its production capacity to meet consumers' demands for its lighting products. There is no assurance, however, that NVC's contemplated improvements to its plants and machineries will increase production capacity to the level anticipated or that production can be increased at a rate sufficient to meet

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

anticipated increased demands for its lighting products. There can also be no assurance that the lighting products mix which NVC anticipates will be achieved and which it has used in determining its capital expenditure requirements for plants and machineries will prove to be accurate, making uncertain the future capacity of its plants and machineries. Failure to meet possible increased demands for its lighting products, on a timely basis, could have a material adverse effect on its business, operations and finances.

SALES FORCE. NVC has hired additional sales personnel and sales facilitators during 2004 and will continue its recruiting drive to enable NVC to expand and penetrate into other cities and areas that it currently does not cover. There is no assurance that recruiting additional sales people and sales facilitators will result in increased sales revenues and sales volume. NVC anticipates using additional independent exclusive distributors to sell and distribute its lighting products in new continuous expansion of its markets. NVC cannot predict whether it will be able to obtain and maintain satisfactory sales and distribution arrangements with exclusive distributors and the failure to do so could have a material adverse effect on its business, operations and finances.

19

LIMITED DELIVERY CAPACITY; DELAYS IN DELIVERY OF PRODUCTS. If sales increase at the current growth rate, there is no assurance that NVC will be able to deliver increased product volumes on a timely, efficient basis or on a consistent basis, especially with increased product volumes, and a failure to do so could have a material adverse effect on its business, operations and finances.

GEOGRAPHIC CONCENTRATION; FLUCTUATIONS IN REGIONAL ECONOMIC CONDITIONS. Nearly all of NVC local sales are concentrated in the coastal region of China. Accordingly, NVC is susceptible to fluctuations in its business caused by adverse economic conditions in the coastal region of China. NVC lighting products are priced higher than other non-premium quality products. Although NVC believes that the quality, durability, and efficiency of its lighting products more than compensate for the price differential, there can be no assurance that consumers will be willing to pay more for such products in unfavorable economic conditions, or at all. Difficult economic conditions in other geographic areas into which NVC may expand may also adversely affect its business, operations and finances.

LACK OF INSURANCE. NVC may encounter the risk of liability in connection with the sale of its electrical lighting products should the use of such products cause injury, illness or death. Such risks may be particularly great in a company undergoing rapid and significant growth. NVC does not currently maintain any product liability insurance. There can be no assurance that any insurance will be sufficient to cover potential claims or that a satisfactory level of coverage (if such insurance is subsequently desired by NVC) will be available in the future at a reasonable cost. A partially or completely uninsured successful claim against NVC could have a material adverse effect on its business, operations and finances.

LIMITED TRADEMARK PROTECTION. NVC has registered its trademark and the use of its trade name "NVC" nationally in the PRC. The trademark has been registered with the Trademark Bureau of the State Administration for Industry and Commerce with respect to its lighting products. NVC believes its trademark is important to the establishment of consumer recognition of its lighting products. However, there can be no assurance as to the breadth or degree of protection that the trademark may offer NVC, that NVC will have the financial resources to defend the trademark against any infringement, or that such defense will be successful. Moreover, any events or conditions that negatively impact

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

its trademark could have a material adverse effect on its business, operations and finances.

PROPRIETARY KNOWLEDGE AND ABSENCE OF PATENT PROTECTION. NVC has patents covering certain series of lighting products and expects to rely on know-how and the confidentiality of its formulae and production processes for its lighting products in producing a competitive product line. There is no assurance that any of these factors can be maintained or that they will afford NVC a meaningful competitive advantage.

DEPENDENCE ON EXECUTIVES. NVC is highly dependent on the services and entrepreneurial skills and expertise of Mr. Wu Chang Jiang, Mr. Hu Yong Hong and Mr. Du Gang, and the loss of any of their vital services would have a material and adverse impact on the operations of NVC. They have been primarily responsible for the development of NVC and the development and marketing of its products. NVC has not applied for key-man life insurance on the lives of these executives, but intends to do so in due course after the closing of the Exchange Agreement.

20

EXPANSION RISKS. NVC anticipates that the construction of Phase I of the new production facilities at NVC Industrial Park will be followed by Phase II of the new production facilities at NVC Industrial Park resulting in additional capital expenditures and exerting continued pressure on its cash flow. NVC's cost estimates and projected completion dates for the construction of the new production facilities may change or modify significantly as the projects progressed. Additionally, the projects will entail significant construction risks, including shortages of materials or skilled labor, unforeseen environmental or engineering problems, weather interferences and unanticipated cost increases, any of which, could have a material adverse effect on the construction project and could delay its scheduled openings. A delay in scheduled openings will delay and inhibit NVC growth and production capability. There is no assurance that NVC will be able to sell any or all of its lighting products that its newly-constructed production facilities could produce, and there is no assurance that NVC will be able to source sufficient raw materials and components to allow it to utilize such additional production capacity. The new projects that NVC will finance, develop, and expand its manufacturing and assembly facilities at NVC Industrial Park will be subject to the many risks inherent in the rapid expansion of a high growth business enterprise, including unanticipated design, construction, regulatory and operating problems, and the significant risks commonly associated with implementing a marketing strategy in ever changing and expanding markets. There can be no assurance that any of the projects will become operational within the estimated time frames and projected budgets at the time NVC enters into a particular agreement, or at all. In addition, NVC may develop projects as joint ventures in an effort to reduce its financial commitment to individual projects. When the Company's future expansion projects become operational, it will be required to recruit and train new personnel, expand its management information systems and control expenses. If it does not successfully address its increased management needs or NVC is otherwise unable to manage its growth effectively, its operating results could be materially and adversely affected.

CUSTOMER CREDITWORTHINESS. The Company's ability to collect payments from its customers could be impaired if their creditworthiness deteriorates.

PROPERTY INSURANCE. NVC carries a relatively small amount of property insurance. As a result, any uninsured loss or damage to its properties or other assets could have a material adverse effect on its personnel, financial condition and operations.

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

TERRORIST ATTACKS AND MILITARY CONFLICT. Riots, terrorist attacks and threats, escalation of military activity in response to such attacks or acts of war may negatively affect NVC business, financial condition and results of operations. The Company's business is affected by general economic conditions, fluctuations in consumer confidence and spending, and market liquidity, which can decline as a result of numerous factors outside of its control, such as terrorist attacks and acts of war. Future riots, terrorist attacks, rumors or threats of war, actual conflicts involving the PRC or its allies, or military or trade disruptions affecting its customers may materially and adversely affect its operations.

GOVERNMENT REGULATION. NVC is subject to regulations and laws enacted by the State Council, and by provincial, county and local authorities in the jurisdictions in which its lighting products are manufactured or sold, regarding the manufacturing, storage, and distribution of its lighting products. NVC's facilities are subject to periodic inspection by national, provincial, county and local authorities. NVC believes that it is currently in substantial compliance with all material existing governmental laws and regulations and maintains all material permits and licenses relating to its operations. Nevertheless, there can be no assurance that NVC will continue to be in substantial compliance with current laws and regulations, or whether NVC will be able to comply with any future laws and regulations. To the extent that new regulations are adopted, NVC will be required to conform its activities in order to comply with such regulations. Failure by NVC to comply with applicable laws and regulations could subject NVC to civil remedies, including fines, injunctions, recalls or seizures, as well as potential criminal sanctions, which could have a material and adverse effect on its business, operations and finances.

21

PRC EXCHANGE RATE. Effective July 21, 2005, the People's Bank of China announced that the Renminbi ("Rmb") exchange rate regime is reformed by moving from a fixed rate of exchange based upon the U.S. dollar to a managed floating exchange rate regime based upon market supply and demand of a basket of currencies. As of July 26, 2005, the exchange rate against the Rmb was adjusted to 8.11 Rmb per U.S. dollar which represents an adjustment of approximately two percent. It is expected that the revaluation of the RMB and the exchange rate of the RMB will be changed very gradually in the future.

FOREIGN CURRENCY EXCHANGE. The PRC currency, "Renminbi" or "Yuan", is not a freely convertible currency, which could limit NVC's ability to obtain sufficient foreign currency to support its business operations in the future. NVC relies on the PRC government's foreign currency conversion policies, which may change at any time, in regard to its currency exchange needs. Export for export sales, NVC receives all of its revenues in Renminbi, which is not freely convertible into other foreign currencies. In the PRC, the government exercises strict control over Renminbi reserves through, among other things, direct regulation of the conversion of Renminbi into other foreign currencies and restrictions on foreign imports. Although foreign currencies which are required for "current account" transactions can be bought freely at authorized PRC banks, the proper procedural requirements prescribed by PRC law must be met. At the same time, PRC companies are also required to sell their foreign exchange earnings to authorized PRC banks and the purchase of foreign currencies for capital account transactions still requires prior approval of the PRC government. Such regulation by the PRC government on foreign currency exchange restricts certain of the Company's business operations and a change in any of these government policies, or any other, could further negatively impact its operations. Fluctuations in the "unofficial" exchange rate between Renminbi and the United States dollar in the future could adversely affect NVC's operating

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

results. The functional currency of NVC in the PRC is "Renminbi" and recently the PRC altered its policy of tying that currency to the United States Dollar. Instead, the PRC will be undertaking a managed floating exchange rate regime based on market supply and demand with reference to a basket of currencies. Any significant fluctuations in exchange rates may adversely affect NVC payments and results of its operations as well as the value of its assets and liabilities. Exchange fluctuations may adversely affect the comparability of year-to-year results. Although NVC may use hedging techniques in the future (which it currently does not use), NVC may not be able to completely eliminate the effects of foreign currencies fluctuations. Thus, exchange rate fluctuations could have a material adverse impact on its operating results and stock prices.

PRC SAFE REGULATION. The State Administration of Foreign Exchange ("SAFE") in the PRC has issued public notices that require citizens of the PRC that directly or indirectly establish or control overseas companies to submit an application to the State Administration of Foreign Exchange Control on Overseas Investment Procedures for its approval.

Without such approval, a citizen of the PRC may not use his PRC assets or equity as consideration to acquire the equity of an overseas enterprise or other property rights. Applications to SAFE for foreign exchange registration regarding mergers and acquisitions of a PRC enterprise through an overseas enterprise that is approved, will be subject to supervision and inquiry and proof of capital verification, and foreign exchange registration for foreign investment from the receipt of foreign exchange for equity, transfers; registration of loans to shareholders remittance and reinvestment of the profits, and assignments of equity.

NVC nor its subsidiaries have filed any applications with SAFE. As a result, NVC may be subject to enforcement actions by SAFE, and any penalties or other remedial actions are uncertain because the SAFE notices do not identify any specific penalties for non-compliance. Remedial action for violation of SAFE requirements may be to restrict the ability of NVC's subsidiaries to repatriate and distribute their profits to OraLabs in the United States. However, the results of non-compliance are uncertain, and there is no assurance that such penalties and other unknown remedial measures will not have a material adverse impact upon OraLabs' financial condition and results of operations.

PAYMENT OF DIVIDENDS. In order to pay dividends, a conversion of Renminbi into US dollars is required. Under current PRC law, the conversion of Renminbi into foreign currency generally requires government consent. Government authorities may impose restrictions that could have a negative impact in the future on the conversion process and upon the ability of NVC to meet its cash needs, and to pay dividends. However, a subsidiary of NVC is presently classified as a wholly-owned foreign enterprise ("WFOE") in the PRC that has verifiable foreign investment in the PRC, funding having been made through an official PRC banking channel. Because this subsidiary of NVC qualifies for treatment as a WFOE, the subsidiary can convert Renminbi, declare dividends and its funds can be repatriated to OraLabs in the United States under current laws and regulations in the PRC, subject to limitations and restrictions imposed by PRC laws, such as the SAFE notices issued by the State Administration of Foreign Exchange. See ___ "PRC SAFE Regulation", above. However, the PRC laws governing foreign currency exchange are evolving, and changes in such laws may adversely affect the ability to convert Renminbi, declare dividends and repatriate funds to the United States

TIMELY INFORMATION. As NVC Industrial is based in the PRC, OraLab's shareholders may have more difficulty in obtaining information about NVC on a routine basis than would shareholders of a U.S.-based company. Substantially all of NVC Industrial's manufacturing and distribution operations will continue to be conducted in the PRC and shareholders may have difficulty in obtaining information about NVC from sources other than NVC itself. Information available

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

from newspapers, trade journals, or local, regional or national regulatory agencies such as issuance of construction permits and contract awards for development projects will not be readily available to shareholders. Shareholders of OraLabs will be dependent upon its management for reports of NVC progress, development and activities.

22

OTHER REGULATION. NVC Industrial's business will be subject to regulation and/or licensing by the PRC and by provincial, local and municipal regulation. . Compliance with such regulations and licensing can be expected to be a time-consuming, and expensive process. Compliance with foreign country laws and regulations affecting foreign investment, business operations, currency exchange, repatriation of profits, and taxation, will increase investment risks.

CONTRACTUAL ARRANGEMENTS. In order to comply with PRC regulatory requirements, NVC will operate as a Sino-foreign joint investment enterprise ("FIE) in the PRC.

PRO FORMA COMBINED SUMMARY OF HISTORICAL FINANCIAL DATA

The following selected unaudited pro forma condensed consolidated financial data were prepared as a recapitalization of NVC. NVC'S MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Significant Accounting Estimates and Policies

The discussion and analysis of our financial condition and results of

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

operations is based upon our consolidated financial statements which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates including the allowance for doubtful accounts, the saleability and recoverability of inventory, income taxes and contingencies. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form our basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We must make estimates of the collectability of accounts receivable. We analyze historical write-offs, changes in our internal credit policies and customer concentrations when evaluating the adequacy of our allowance for doubtful accounts. Differences may result in the amount and timing of expenses for any period if we make different judgments or use difference estimates.

As part of the process of preparing our consolidated financial statements, we are required to estimate our income taxes. This process involves estimating our current tax exposure together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income, and, to the extent we believe that recovery is not likely, we must establish a valuation allowance. To the extent that we establish a valuation allowance or increase this allowance in a period, we must include a tax provision or reduce our tax benefit in the statements of operations. We use our judgment to determine our provision or benefit for income taxes, deferred tax assets and liabilities and any valuation allowance recorded against our net deferred tax assets. We believe, based on a number of factors including historical operating losses, that we will not realize the future benefits of a significant portion of our net deferred tax assets and we have accordingly provided a full valuation allowance against our deferred tax assets. However, various factors may cause those assumptions to change in the near term.

We cannot predict what future laws and regulations might be passed that could have a material effect on our results of operations. We assess the impact of significant changes in laws and regulations on a regular basis and update the assumptions and estimates used to prepare our financial statements when we deem it necessary.

Working Capital - At March 31, 2005, the Company had a working capital deficit of \$5,683,077. The principal reason for the working capital deficit is that the on-going construction costs of the new manufacturing plants of NVC are being temporarily classified as accounts payable, rather than the cost of properties.

New Accounting Pronouncements

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities (SFAS 149)". SFAS 149 amends and clarifies certain derivative instruments embedded in other contracts, and for hedging activities under SFAS 133. SFAS 149 is effective for certain contracts entered into or modified by the Company after June 30, 2003. The adoption of SFAS 149 had no impact on the Company's financial position, results of operations, or cash flows.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Instruments with Characteristics of Both Debt and Equity" (SFAS 150). Statement 150 requires liability classification for three types of instruments: 1) Mandatory redeemable shares that obligate the company to deliver cash or other assets to shareholders on fixed or determinable dates; 2) Freestanding written put options and forward purchase contracts on a company's own shares that obligate the company to

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

deliver cash or other assets, and 3) Contracts that obligate a company to issue its own shares in amounts that are unrelated to, or inversely related to, the value of the shares. The adoption of SFAS 150 had no impact on the Company's financial position, results of operations, or cash flows.

In November 2004, the FASB issued SFAS No. 151 "Inventory Costs - an amendment of ARB No. 43, Chapter 4". Statement No. 151 requires that certain abnormal costs associated with the manufacturing, freight, and handling costs associated with inventory be charged to current operations in the period in which they are incurred. The adoption of SFAS 151 had no impact on the Company's financial position, results of operations, or cash flows.

33

In December 2004, the FASB issued a revision of SFAS No. 123 "Share-Based Payment". The statement establishes standards for the accounting for transactions in which an entity exchanges its equity investments for goods and services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. The statement does not change the accounting guidance for share-based payments with parties other than employees.

The statement requires a public entity to measure the cost of employee service received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exception). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). A public entity will initially measure the cost of employee services received in exchange for an award of liability instrument based on its current fair value; the fair value of that award will be remeasured subsequently at each reporting date through the settlement date. Changes in fair value during the requisite service period will be recognized as compensation over that period.

The grant-date for fair value of employee share options and similar instruments will be estimated using option-pricing models adjusted for the unique characteristics of these instruments.

The statement is effective for the quarter beginning January 1, 2006.

In December 2004, the FASB issued SFAS No. 153 "Exchanges of Nonmonetary Assets-amendment of APB Opinion No. 29". Statement 153 eliminates the exception to fair value for exchanges of similar productive assets and replaces it with a general exception for exchange transactions that do not have commercial substance, defined as transactions that are not expected to result in significant changes in the cash flows of the reporting entity. This statement is effective for exchanges of nonmonetary assets occurring after June 15, 2005.

INFORMATION CONCERNING THE ANNUAL MEETING

Time, Place and Date

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of proxies from OraLabs shareholders for use at the annual meeting of shareholders to be held at 10:00 a.m., Mountain Time on September 30, 2005, at OraLab's offices at 18685 E. Plaza Drive, Parker, Colorado 80134, or at any adjournment or postponement thereof, pursuant to the enclosed Notice of Annual Meeting of Shareholders.

34

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

Purpose of the Annual Meeting

At the annual meeting, the shareholders of OraLabs will be asked to consider and vote upon the approval of the Exchange Agreement and the transactions contemplated thereby. A copy of the Exchange Agreement is attached to this Proxy Statement as Annex 1. Based on the factors described below under "Special Factors--Recommendation of the Special Committee and Board of Directors" and on the unanimous recommendation of its Special Committee, the Board of Directors of OraLabs recommends that shareholders vote "FOR" approval of the Exchange Agreement and the transactions contemplated thereby.

Record Date; Voting at the Meeting; Quorum

The Board has fixed the close of business on August 30, 2005 as the record date for the annual meeting. Only shareholders of record as of the close of business on the record date will be entitled to notice of and to vote at the annual meeting. As of the close of business on the record date, OraLabs had outstanding _____ shares of its common stock, held of record by approximately _____ registered holders, although OraLabs believes it has other beneficial owners of its common stock. Holders of the common stock are entitled to one vote per share. The presence in person or by proxy of the holders of not less than a majority of the voting power of the outstanding common stock entitled to vote at the annual meeting constitutes a quorum. Broker non-votes and shares present or represented but as to which a stockholder abstains from voting will be included in determining whether there is a quorum at the annual meeting.

Required Vote

Under Colorado law and the Company's governing documents, the transaction concerning the conveyance to Mr. Schlatter of all of OraLabs' shares in its wholly-owned subsidiary in exchange for the redemption by OraLabs of all of the shares of common stock in OraLabs owned by Mr. Schlatter requires the affirmative vote of the majority of all of the shares entitled to vote on the matter. The remaining proposed transactions require the affirmative vote of a majority of the voting power of the outstanding shares of OraLabs' common stock that are present in person or by proxy at the annual meeting. Gary H. Schlatter currently owns 3,629,350 shares of common stock of OraLabs in his individual capacity, representing approximately 77.34% of our outstanding shares of common stock as of the record date. Mr. Schlatter intends to vote in favor of the proposed transactions, which would satisfy both the quorum and affirmative vote requirements. As Mr. Schlatter owns more than fifty percent (50%) of the voting power, OraLabs is considered a "Controlled Company" for purposes of Rule 4350(c)(5) promulgated by the National Association of Securities Dealers, Inc.

Voting and Revocation of Proxies

The enclosed proxy is solicited on behalf of OraLabs' Board of Directors. The giving of a proxy does not preclude the right to vote in person should any stockholder giving the proxy so desire. Shareholders have an unconditional right to revoke their proxy at any time prior to its exercise, either by filing with OraLabs' secretary at OraLabs' principal executive offices a written revocation or a duly executed proxy bearing a later date or by voting in person at the annual meeting. Attendance at the annual meeting without casting a ballot will not, by itself, constitute revocation of a proxy. Any written notice revoking a proxy should be sent to Corporate Stock Transfer, Inc., 3200 Cherry Creek So. Drive, Suite 430, Denver, CO 80209.

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

Action to be Taken at the Annual Meeting

All shares of common stock represented at the annual meeting by properly executed proxies received prior to or at the annual meeting, unless previously revoked, will be voted at the annual meeting in accordance with the instructions on the proxies. Unless contrary instructions are indicated, proxies will be voted FOR the approval of the Exchange Agreement and the transactions contemplated thereby. As explained below in the section entitled "Dissenters' Rights of Appraisal," a vote in favor of the Exchange Agreement means that the stockholder owning those shares will not have the right to dissent and seek judicial appraisal of the fair value of such stockholder's shares. OraLabs does not know of any matters, other than as described in the Notice of Annual Meeting of Shareholders, which are to come before the annual meeting. If any other matters are properly presented at the annual meeting for action, the persons named in the enclosed proxy card and acting thereunder generally will have discretion to vote on such matters in accordance with their best judgment. Pursuant to our bylaws, an adjournment of the annual meeting may be made by an announcement made at the annual meeting prior to adjournment. We do not anticipate an adjournment of the meeting.

Proxy Solicitation

OraLabs is requesting that banks, brokers and other custodians, nominees and fiduciaries forward copies of the proxy material to their principals and request authority for the execution of proxies. OraLabs may reimburse such persons for their expenses in so doing. No person is authorized to give any information or make any representation not contained in this proxy statement, and if given or made, such information or representation should not be relied upon as having been authorized. OraLabs shareholders should not send any certificates representing shares of common stock with their proxy card.

PROPOSAL ONE: APPROVAL OF THE STOCK EXCHANGE AGREEMENT AND THE TRANSACTIONS BY WHICH (A) ORALABS WILL ISSUE SHARES TO THE NVC SHAREHOLDERS IN EXCHANGE FOR ALL OF THE OWNERSHIP INTEREST IN NVC LIGHTING INVESTMENT HOLDINGS LIMITED, IMMEDIATELY FOLLOWED BY (B) THE REDEMPTION OF ALL OF THE SHARES OF ORALABS OWNED BY GARY H. SCHLATTER, INDIVIDUALLY, IN EXCHANGE FOR THE ISSUANCE TO HIM OF ALL OF THE SHARES OF ORALABS, INC. OWNED BY ORALABS, AND (C) THE APPROVAL OF THE 2005 DIRECTOR STOCK PLAN AND THE ISSUANCE TO THE ORALABS NON-EMPLOYEE DIRECTORS OF 100,000 SHARES EACH UNDER THAT PLAN.

SPECIAL FACTORS

Background of the Proposed Transactions

OraLabs, Inc., the operating subsidiary ("Subsidiary") of OraLabs, began its business in 1990. Gary H. Schlatter, President of OraLabs, was the sole owner of the Subsidiary until 1997. In 1997, Mr. Schlatter made the decision that it would be beneficial for the Subsidiary to operate as a public company because of his beliefs that it would facilitate the use of public stock to finance the growth of OraLabs, that he would have a mechanism such as a stock option plan to facilitate giving his employees an ownership interest in OraLabs with the opportunity to profit by a rising stock price, and that he would have some liquidity with respect to his ownership of the Company. In that year, OraLabs, Inc. completed a reverse merger under which it became the wholly-owned operating subsidiary of a public company whose name was changed to OraLabs Holding Corp.

After several years of being public, Mr. Schlatter determined that operating the Subsidiary as part of a public company did not achieve the benefits that he sought. As part of investigating transactions from time to time for which Mr. Schlatter sought to use public stock as part of the payment

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

consideration, Mr. Schlatter found that due to his overwhelming percentage of stock owned, third parties were treating OraLabs as if it were still a private company without any premium for the fact that it was public. Mr. Schlatter did not obtain the interest of the investment community in OraLabs and as a result, the price of its stock drifted lower and the volume of shares traded remained so low that there was very little liquidity.

36

In early 2001, one of the non-employee directors of OraLabs was presented with a proposal concerning a company that was interested in becoming public through a reverse merger. The business of that company was unrelated to the Subsidiary's business. The non-employee directors of OraLabs considered the proposal and discussed with Mr. Schlatter whether he would be interested in pursuing the transaction under which his shares in OraLabs would be exchanged for OraLabs' shares in the Subsidiary, contingent upon the simultaneous acquisition by OraLabs of the other company. Mr. Schlatter said that he would be interested in considering that type of transaction. The non-employee directors of OraLabs continued discussions with Mr. Schlatter as well as with the other company, which resulted in the other company's tender to OraLabs of a non-binding letter of intent concerning the transactions. The Board (with Mr. Schlatter abstaining) authorized the execution of the letter of intent, but despite the efforts of the non-employee directors during the next couple of months to move the transaction toward the preparation of a definitive agreement, the other company changed its mind about proceeding with the transaction and the discussions between the parties terminated.

As a result of Mr. Schlatter's consideration of that proposal and because of the concurrence by the non-employee directors with Mr. Schlatter's belief that the operations of the Subsidiary as a public company were not providing material benefits to the OraLabs' shareholders, OraLabs continued to be receptive to reorganization transactions with third parties that could enhance the public shareholders' value. The non-employee directors sought such transactions by directly contacting business associates who could have knowledge of such opportunities as well as by placing ads from time to time in the Wall Street Journal.

In May 2001, OraLabs received a letter of intent from another company that followed some very preliminary discussions with the non-employee directors of OraLabs. However, the non-employee directors believed that execution of a letter of intent was premature. Mr. Friess, one of the non-employee directors, was authorized to continue discussions with the company and determine in his discretion whether or not to recommend that a letter of intent be executed. Mr. Friess ultimately concluded that it was not in the interest of OraLabs to proceed with that transaction, and negotiations terminated.

No material discussions about proposed transactions occurred for some time after that. In the Spring of 2002, the directors took note of the fact that the costs of operating as a public company, which were significant in relation to the size of OraLabs and which included both the legal fees involved in OraLabs' public reporting and compliance as well as the auditing fees, could be expected to substantially increase as the result of pending legislation that ultimately was adopted as the Sarbanes-Oxley Act. At that time the Board appointed Messrs. Friess and Gust as an independent committee to evaluate any proposals that may be presented to the Company with respect to a corporate reorganization.

In the late Spring and Summer of 2002, a proposed transaction was reviewed by the independent committee. A Memorandum of Understanding and a Non-disclosure Agreement were executed by Mr. Friess based upon the recommendation of the independent committee and the authorization of the Board

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

of Directors. The Memorandum was subject to customary conditions as well as the agreement that it was nonbinding and that an acceptable agreement was required to be reached between OraLabs and Mr. Schlatter concerning the transaction. After the execution of the Memorandum of Understanding, the Special Committee retained separate counsel to assist it in the negotiation of a definitive agreement. However, as a result of various issues that arose between OraLabs and the other company during the course of negotiating the definitive agreement, the negotiations became protracted to the extent that OraLabs' Board of Directors, upon the recommendation of the Special Committee, terminated the negotiations in the early Fall of 2002.

37

In late 2002, Mr. Friess, acting on behalf of the Special Committee, advised the OraLabs Board of Directors that he had had discussions during the past several weeks with two separate companies who are interested in pursuing a reorganization with OraLabs. He presented information about both companies and their proposed transactions, and the Board of Directors recommended that he proceed with one of the company's proposal. In early 2003, the Special Committee and Mr. Schlatter each retained separate legal counsel to assist in the negotiations of a definitive agreement. Mr. Friess also made preliminary contact with companies engaged in the business of providing fairness opinions so that one could be chosen if a definitive agreement were executed. At and about the same time, negotiations continued concerning a definitive agreement, specifically including the effect, if any, that OraLabs' loss of its NASDAQ listing might have upon the transaction. This discussion was prompted by the price of OraLabs' common stock falling below one dollar and the value of the public float of the Company's common stock falling below the NASDAQ listing requirement. (During the period from August 2002 to late 2003, the NASD sent several notices to OraLabs that its common stock was subject to delisting from the NASDAQ SmallCap Market, but since the reverse split of the common stock that occurred in December 2003, the Company believes that it has been in compliance with the NASDAQ listing requirements.)

During the next several months, issues arose that caused revisions to be made in the proposed terms of the definitive agreement, mostly relating to the financial performance of the other company. The Special Committee recommended to the Board that various terms of the definitive agreement should be renegotiated to take account of those issues. Finally, in October 2003, because all conditions to the execution and delivery of a definitive agreement still were not satisfied, the Board of Directors, upon the recommendation of the Special Committee, terminated the negotiations between the parties.

Commencing in late 2003 and continuing sporadically throughout 2004, a representative of various companies located in China presented information to the non-employee directors about companies that OraLabs might consider for purposes of a corporate reorganization. As information was presented to OraLabs from time to time about the companies, the directors requested additional information when they believed it was appropriate to pursue investigating a company, but none of these discussions proceeded beyond the preliminary investigation level. In October 2004, a financial summary and brief description of NVC was presented to OraLabs. Based on that information, the NVC representative met with two of the non-employee directors in Colorado to discuss NVC in more detail. In late October 2004, the representative of NVC submitted a term sheet for a reorganization effecting NVC and OraLabs. During the next couple of weeks, the Special Committee requested additional information concerning NVC. At the same time, Mr. Schlatter was in China on unrelated business. OraLabs took advantage of Mr. Schlatter's presence in China to arrange a meeting between him and representatives of NVC, which occurred on November 9, 2004. At that meeting, Mr. Schlatter visited the NVC showroom and manufacturing facility and met with a director of NVC's auditing firm. He also met with the

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

General Manager and Board Chairman of NVC's wholly-owned operating subsidiary. During the November 9 meeting, the NVC representatives gave an oral presentation of NVC's business and provided Mr. Schlatter with sales catalogues that included information on NVC's product lines. In addition to viewing the showroom and manufacturing facility, Mr. Schlatter attended the groundbreaking ceremony for construction of an additional NVC facility. When Mr. Schlatter returned to Colorado in mid-November 2004, he presented the results of his meeting with NVC to the other OraLabs directors. In early December 2004, NVC, through its United States counsel presented a first draft of a letter of intent that was revised in certain respects based upon the comments from the OraLabs non-employee directors.

The OraLabs Board of Directors met on December 9, 2004 to review the redraft of a letter of intent. At that meeting, the Board reiterated the appointment of Messrs. Friess and Gust as the Special Committee of the Board of Directors. At that meeting, the Board determined that the Special Committee should continue to negotiate the draft letter of intent until it became satisfied with a version to recommend to the OraLabs Board, and the Special Committee was authorized to retain separate counsel, to negotiate a Definitive Agreement and to obtain a fairness opinion with respect to any proposed transaction. Negotiations continued for a couple of weeks and on December 27, 2004, the Special Committee recommended to the OraLabs Board that it enter into a letter of intent and authorize the officers of OraLabs, with the assistance of the Special Committee to negotiate the terms of a Definitive Agreement with NVC based upon the terms of an executed letter of intent. On February 18, 2005, the Special Committee recommended to the OraLabs Board that it enter into the Stock Exchange Agreement in substantially the form that is attached to this Proxy Statement and that the officers of OraLabs, with the assistance of counsel and the Special Committee conduct appropriate due diligence in order to proceed with the Closing of the contemplated transactions. The Special Committee authorized Michael Friess to proceed with obtaining bids from investment banking firms in connection with obtaining an opinion that the terms of the contemplated transactions are fair from a financial point of view to the nonaffiliated shareholders of OraLabs.

38

As directed by the Special Committee, Michael Friess obtained bids from two investment banking firms regarding rendering the fairness opinion as to the terms of the transactions described in the Exchange Agreement. He discussed those proposals with Mr. Gust, and the Special Committee determined that Capitalink, LC ("Capitalink") submitted the best terms for rendering the opinion, along with an impressive list of transactions on which it had rendered previous fairness opinions. Capitalink is a nationally recognized investment banking and advisory firm. Capitalink, as part of its investment banking and financial advisory business, is regularly engaged in the valuation of businesses and their securities in connection with mergers, acquisitions and private placements. The engagement letter with Capitalink provided for a fixed fee in the amount of \$60,000, with one-half payable at commencement of the engagement and the other half payable upon completion of the engagement and closing of the transactions contemplated by the Exchange Agreement. The fee was payable without regard to the conclusions reached in the opinion. Under the engagement letter, the Company also agreed to reimburse Capitalink for its reasonable and customary out-of-pocket expenses related to the work, and to indemnify Capitalink against certain losses or claims. Capitalink has consented to the inclusion of the description of its engagement in this Proxy and has also approved the inclusion of the opinion as an annex to this Proxy.

RECOMMENDATION OF THE SPECIAL COMMITTEE AND BOARD OF
DIRECTORS; FAIRNESS OF THE PROPOSED TRANSACTIONS

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

SPECIAL COMMITTEE:

In recommending approval of the Exchange Agreement and the proposed transactions to the full OraLabs Board of Directors on August 11, 2005, the Special Committee considered a number of factors. The material factors, both negative and positive are summarized below.

The material positive factors considered include: the nonaffiliated shareholders of OraLabs will own an interest in NVC, a much larger company that has exhibited recent growth that exceeds the financial results of OraLabs; the larger size of NVC may result in more exposure to the financial marketplace than is the case with OraLabs, possibly enhancing the liquidity of an investment in the Company over that which has historically been the case with OraLabs; the presentation and opinion of Capitalink as to the fairness, from a financial point of view, of the transaction to the nonaffiliated shareholders; OraLabs has not generated net income since fiscal year 2002; and OraLabs has not received material benefits of being a public company, while it has borne the financial and personnel burden of operating as a public company.

The material potential negative factors considered include: the ownership of the nonaffiliated shareholders in the public company will be significantly diluted from their current 20.30% ownership interest to approximately a 4.2% interest in NVC; all of the directors of OraLabs have an interest in closing the transactions, in that Mr. Schlatter will acquire sole ownership of OraLabs, Inc. and the three non-employee directors will each be issued 100,000 shares of common stock at closing; shareholders of the public company will have no further interest or opportunity to participate in any growth of OraLabs, Inc., should it occur after the closing, while Mr. Schlatter will receive all of such benefits as the sole owner of OraLabs, Inc.; and the transaction will be taxable to shareholders who exercise their dissenters' rights.

39

The foregoing discussion of the information and factors considered by the Special Committee is not meant to be exhaustive, but includes all material factors, both positive and negative, considered by the Special Committee to support its decision to recommend the approval of the Exchange Agreement and to determine that the transactions contemplated thereby are in the best interest of OraLabs and fair to OraLabs' nonaffiliated shareholders. The Special Committee did not assign relative weights or other quantifiable values to the above factors. Rather, the Special Committee viewed its position and recommendations as being based on the totality of the information presented to and considered by them, and that on balance, the positive factors discussed above outweighed the negative factors discussed above. The Special Committee believes that the terms of the Exchange Agreement are fair, in part, based on the opinion of Capitalink as to the fairness, from a financial point of view, of the proposed transactions. The Special Committee also believes the process that followed in approving the Exchange Agreement was procedurally fair because, even though some additional compensation will be paid to the members of the Special Committee and the other non-employee director at Closing, the Special Committee retained independent legal and financial advisors that assisted it in its evaluation of the Exchange Agreement.

ORALABS BOARD OF DIRECTORS

The Board formed the Special Committee to act solely on behalf of the nonaffiliated shareholders of OraLabs for purposes of considering and negotiating the Exchange Agreement and related matters. The Board appointed Messrs. Friess and Gust to the Special Committee. Mr. Friess has been a director of OraLabs since 1997 and Mr. Gust has been a director since 2000. After

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

formation of the Special Committee, the Special Committee retained Capitalink as its financial advisor and Capitalink provided its opinion to the Special Committee as to the fairness from a financial point of view of the proposed transactions to OraLabs' nonaffiliated shareholders as of August 10, 2005 subject to the limitations, assumptions and qualifications stated therein.

The Board reviewed each of the factors presented by the Special Committee as described above and considered the Special Committee's process and actions in arriving at its recommendation to the Board. In reaching its determination, the Board considered the Special Committee's determinations, recommendations, approval of the Exchange Agreement, and determination of the Exchange Agreement's advisability. It also carefully considered the report and fairness opinion delivered by Capitalink to the Special Committee.

OraLabs is undertaking the transaction with NVC at this time as a result of the Special Committee's consideration of the factors outlined above relating to the limitations on OraLabs' growth as a public company, its recent financial performance, the long-standing concerns of the entire Board (including the Special Committee) regarding the continuing low price of OraLabs' common stock, and the weakness in the market for its stock. OraLabs is also undertaking the transaction at this time because it is straining its financial and personnel resources to: (1) continue to comply on a timely basis with its periodic reporting requirements under the Securities Exchange Act of 1934; and (2) comply with the requirements of the Sarbanes-Oxley Act of 2002. In this regard, OraLabs estimates that the annual expenses it pays in connection with its public reporting responsibilities exceeds approximately \$200,000.00. These expenses include fees of an outside accountant, annual audit and quarterly review fees of its independent auditor, legal fees, and filing costs.

40

The Board believes that sufficient procedural safeguards to ensure fairness of the transaction and to permit the Special Committee to effectively represent the interests of the holders of OraLabs' nonaffiliated shareholders were present. The Board recognized that the members of the Special Committee, as well as the third non-employee director, will benefit by the issuance to each of them of 100,000 shares of OraLabs common stock. The Board believes that the issuances of the stock are reasonable and appropriate under the circumstances because the directors have routinely been very active in analyzing and pursuing prospective transactions involving the Company, including the transactions with NVC, but the Company did not adequately adjust the level of compensation to reflect that degree of service. Those 300,000 shares will be registered under a Registration Statement on Form S-8 to be filed by OraLabs prior to Closing. The Board otherwise believes that the procedural safeguards of the Special Committee are sufficient because the Special Committee retained independent financial advisors and legal counsel and the fact that the Special Committee, even though consisting of directors of OraLabs, is a mechanism well-recognized under corporate law to provide for fairness in transactions of this type. The Exchange Agreement was approved by the two members of the Special Committee as well as by the third non-employee director. Mr. Schlatter abstained from voting upon the approval of the Exchange Agreement because of his conflict relating to his acquisition of ownership of OraLabs, Inc. OraLabs does not believe that any material federal or state regulatory approvals, filings or notices are required by OraLabs in connection with the proposed transactions, other than such clearances, approvals, filings or notices required pursuant to federal and state securities laws.

The Board believes that the proposed transactions are advisable and is fair to and in the best interests of OraLabs and its nonaffiliated shareholders and, based upon the analysis and the opinion of the Special Committee's financial advisor as set forth above (which the Board expressly adopts) and on

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

the recommendation of the Special Committee, recommends to OraLabs' nonaffiliated shareholders that they vote FOR approval of the proposed agreement transactions.

Benefits and Detriments of the Proposed Transactions to OraLabs' Nonaffiliated Shareholders

OraLabs believes that the primary benefit of the proposed transactions to its nonaffiliated shareholders is the possibility of a future increase in the value of their investments in the public company as a result of their ownership in a company whose business is significantly larger than that of OraLabs and whose prospects for growth may exceed that which is expected of OraLabs' current business. In addition, the shareholders may have the opportunity to cash out of their shareholdings by exercise of dissenter's rights. The primary detriment of the proposed transactions to OraLabs' nonaffiliated shareholders is that they will cease to participate in any future earnings of OraLabs, Inc. or to benefit from any increase in its value. In addition, those shareholders who exercise dissenters' rights will owe taxes upon the payment that they receive from the Company for the shares.

Opinion of Financial Advisor to the Special Committee

The Special Committee engaged Capitalink, L.C. ("Capitalink") to provide financial advisory services to the Special Committee with its consideration of the transactions contemplated by the Exchange Agreement (the "Transaction"). Pursuant to its engagement, Capitalink made a presentation to the Special Committee on August 10, 2005. Capitalink subsequently delivered its written opinion to the Special Committee, which stated that, as of August 10, 2005, and based upon and subject to the assumptions made, matters considered, and limitations on its review as set forth in the opinion, the Transaction is fair, from a financial point of view, to the Company's nonaffiliated shareholders. The full text of the written opinion of Capitalink is attached as Annex 2 and is incorporated by reference into this proxy statement.

41

- o You are urged to read the Capitalink opinion carefully and in its entirety for a description of the assumptions made, matters considered, procedures followed and limitations on the review undertaken by Capitalink in rendering its opinion.
- o The Capitalink opinion is not intended to be, and does not constitute, a recommendation to you as to how you should proceed with respect to the Transaction.
- o Capitalink was not requested to opine as to, and the opinion does not in any manner address, the relative merits of the Transaction as compared to any alternative business strategy that might exist for the Company, the Company's underlying business decision to proceed with or effect the Transaction, and other alternatives to the Transaction that might exist for the Company.

In arriving at its opinion, Capitalink took into account an assessment of general economic, market and financial conditions, as well as its experience in connection with similar transactions and securities valuations generally. In so doing, among other things, Capitalink:

- o Reviewed the Exchange Agreement.
- o Reviewed publicly available financial information and other data with respect to OraLabs, including the Annual Report on Form 10-KSB for the

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

year ended December 31, 2004, the Quarterly Report on Form 10-QSB for the three months ended March 31, 2005, the Current Reports on Form 8-K filed December 28, 2004, February 23, 2005 and June 20, 2005.

- o Reviewed financial information and other data with respect to NVC, including the audited financial report for the three years ended December 31, 2004, and management-prepared financial statements for the three months ended March 31, 2005.
- o Reviewed the Transaction's pro forma impact on the Company's nonaffiliated shareholders' ownership interest in OraLabs.
- o Considered the historical financial results and present financial condition of OraLabs and NVC.
- o Reviewed certain publicly available information concerning the trading of, and the market for, the common stock of OraLabs, the Comparable Companies (as hereinafter defined), and a general market index.
- o Reviewed and compared the OraLabs nonaffiliated shareholders' (i) aggregate pre-announcement market value, and (ii) aggregate indicated value on a pre-Transaction basis to the nonaffiliated shareholders' aggregate indicated value on a Post-Transaction basis.
- o Reviewed and analyzed certain financial characteristics of companies that were deemed to have characteristics comparable to OraLabs and NVC.
- o Reviewed and analyzed certain financial characteristics of target companies in transactions where such target company was deemed to have characteristics comparable to those of OraLabs and NVC.
- o Reviewed and analyzed the control premiums paid in certain other transactions.
- o Reviewed and discussed with representatives of OraLabs and NVC certain financial and operating information furnished by them, including financial analyses with respect to their respective business and operations.

42

Capitalink also performed such other analyses and examinations as it deemed appropriate and held discussions with Company management in relation to certain financial and operating information furnished to Capitalink, including financial analyses with respect to its business and operations.

In arriving at its opinion, Capitalink relied upon and assumed the accuracy and completeness of all of the financial and other information that was used without assuming any responsibility for any independent verification of any such information. Further, Capitalink relied upon the assurances of OraLabs and NVC management that management was not aware of any facts or circumstances that would make any such information inaccurate or misleading. With respect to the financial information and projections utilized, Capitalink assumed that such information has been reasonably prepared on a basis reflecting the best currently available estimates and judgments, and that such information provides a reasonable basis upon which it could make an analysis and form an opinion. Capitalink did not make a physical inspection of the properties and facilities of OraLabs and NVC and did not make or obtain any evaluations or appraisals of the assets and liabilities (contingent or otherwise). In addition, Capitalink

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

did not attempt to confirm whether OraLabs and NVC had good title to its assets. Capitalink assumed that the Transaction will be consummated in a manner that complies in all respects with the applicable provisions of the Exchange Act and all other applicable federal and state statutes, rules and regulations. In addition, Capitalink assumed that the Transaction will comply with all applicable non-U.S. laws, regulations and statutes. Capitalink assumes that the Transaction will be consummated substantially in accordance with the terms set forth in the Exchange Agreement, without any further amendments thereto, and that any amendments, revisions or waivers thereto will not be detrimental to the nonaffiliated shareholders of the Company.

Capitalink's opinion is necessarily based upon market, economic and other conditions as they existed on, and could be evaluated as of, August 10, 2005. Accordingly, although subsequent developments may affect its opinion, Capitalink has not assumed any obligation to update, review or reaffirm its opinion.

In connection with rendering its opinion, Capitalink performed certain financial, comparative and other analyses as summarized below. Each of the analyses conducted by Capitalink was carried out to provide a different perspective on the Transaction, and to enhance the total mix of information available. Capitalink did not form a conclusion as to whether any individual analysis, considered in isolation, supported or failed to support an opinion as to the fairness, from a financial point of view, of the Transaction to the Company's nonaffiliated shareholders. Further, the summary of Capitalink's analyses described below is not a complete description of the analyses underlying Capitalink's opinion. The preparation of a fairness opinion is a complex process involving various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances and, therefore, a fairness opinion is not readily susceptible to partial analysis or summary description. In arriving at its opinion, Capitalink made qualitative judgments as to the relevance of each analysis and factor that it considered. In addition, Capitalink may have given various analyses more or less weight than other analyses, and may have deemed various assumptions more or less probable than other assumptions, so that the range of valuations resulting from any particular analysis described above should not be taken to be Capitalink's view of the value of the Company's assets. The estimates contained in Capitalink's analyses and the ranges of valuations resulting from any particular analysis are not necessarily indicative of actual values or actual future results, which may be significantly more or less favorable than suggested by such analyses. In addition, analyses relating to the value of businesses or assets neither purports to be appraisals nor do they necessarily reflect the prices at which businesses or assets may actually be sold. Accordingly, Capitalink's analyses and estimates are inherently subject to substantial uncertainty. Capitalink believes that its analyses must be considered as a whole and that selecting portions of its analyses or the factors it considered, without considering all analyses and factors collectively, could create an incomplete and misleading view of the process underlying the analyses performed by Capitalink in connection with the preparation of its opinion.

The analyses performed were prepared solely as part of Capitalink's analysis of the fairness, from a financial point of view, of the Transaction to the Company's nonaffiliated shareholders, and were provided to the Special Committee in connection with the delivery of Capitalink's opinion. The opinion of Capitalink was just one of the many factors taken into account by the Special Committee in making its determination to approve the Transaction, including those described elsewhere in this Statement.

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

The financial review and analyses include information presented in tabular format. To fully understand Capitalink's financial review and analyses, the tables must be read together with the text presented. The tables alone are not a complete description of the financial review and analyses and considering the tables alone could create a misleading or incomplete view of Capitalink's financial review and analyses.

VALUATION OVERVIEW

Based upon a review of the historical and projected financial data and certain other qualitative data for the OraLabs and NVC, Capitalink utilized several valuation methodologies and analyses to determine ranges of values for both companies. Capitalink utilized the comparable company and the comparable transaction analyses (all of which are discussed in more detail hereafter) for the valuation of OraLabs and the comparable company analysis for the valuation of NVC.

Based on the analysis, Capitalink determined an indicated value of between approximately \$6.4 million and \$7.6 million for OraLabs and approximately \$65.0 million and \$72.0 million for NVC.

Capitalink noted that the ownership of the nonaffiliated shareholders pre-Transaction is 20.3% and post-Transaction will be 4.2%.

The nonaffiliated shareholders' aggregate pre-Transaction interest in OraLabs amounts to between approximately \$1.3 million and \$1.5 million, based on an ownership of approximately 20.3%. The nonaffiliated shareholders' aggregate pre-announcement market value is estimated to be approximately \$1.5 million based on a 24-month average share price prior to the announcement of the Transaction. The nonaffiliated shareholders' aggregate post-Transaction interest in NVC is valued at between approximately \$2.7 million and \$3.0 million, based on an ownership of approximately 4.2%.

ORALABS FINANCIAL PERFORMANCE REVIEW

Capitalink undertook a review of the Company's historical financial data in order to understand and interpret its operating and financial performance and strength. Capitalink reviewed OraLabs' historical financial data for the five years ended December 31, 2004 and the three months ended March 31, 2005 and noted the following:

- o OraLabs derives approximately 70%-80% of its revenue from its lip balm business and believes that it will continue to be the Company's primary business.
- o Revenue was relatively stable over the review period with a low of approximately \$12.9 million in the latest twelve month ("LTM") period ended March 31, 2005 to a high of \$15.4 million in fiscal year ("FY") 2001. Over the review period, the Company experienced declining revenue with a compound annual growth rate of (1.7%).

44

- o The Company's gross profit margin gradually decreased over the review period from approximately 41.3% in FY2000 to approximately 29.1% in FY2004. Gross margin increased somewhat to approximately 29.7% for the LTM period ended March 31, 2005 as a result of the Company's investment in a highly automated facility in FY2004 that made a positive impact on labor costs. OraLabs expects continued cost improvements in operations resulting in incremental improvement in gross margins.

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

- o Earnings before interest, taxes, depreciation and amortization ("EBITDA") decreased from approximately \$2.4 million to approximately \$(0.2) million for the LTM period ended March 31, 2005 reflecting decreasing economies of scale resulting from decreasing sales over the review period.

NVC FINANCIAL PERFORMANCE REVIEW

Capitalink undertook a review of NVC's historical financial data in order to understand and interpret its operating and financial performance and strength. Capitalink reviewed NVC's historical financial data for the three fiscal years ended December 31, 2004 and the three months ended March 31, 2005 and noted the following:

- o Financial results prior to FY2002 were not available. Furthermore, financial results for FY2002 and FY2003 are pro-forma for a combined NVC Lighting and NVC Industrial as NVC did not legally exist prior to its restructuring and reorganization in FY2004.
- o The majority of NVC's revenues and expenses are incurred in the PRC, hence it is exposed to the fluctuations of the Chinese currency, the Renminbi. Capitalink noted that the exchange rate remained stable over the review period at approximately 8.28 Renminbi/USD, hence the USD figures in NVC's audited financial statements are representative of its historical Renminbi performance. There is no assurance however, that the Renminbi will be stable in the future, exposing any non-Chinese investor to currency risks. The Renminbi has been recently devalued and stood at a rate of approximately \$8.10 Renminbi/USD on August 9, 2005.
- o Revenue increased significantly over the review period from approximately \$18.1 million in FY2002 to approximately \$61.1 million for the LTM period ending March 31, 2005, representing an annual compound growth rate of approximately 71.7%. Gross margin stayed relatively stable during the review period at approximately 31%.
- o NVC's earnings before interest and taxes ("EBIT") margin increased slightly from approximately 10.7% in FY2002 to approximately 11.8% for the LTM period ended March 31, 2005 resulting in a compound annual growth rate of approximately 79.2%.
- o NVC's net income has increased from approximately \$1.3 million in FY2002 to approximately \$7.4 million for the LTM period ending March 31, 2005 representing an increase in net margin from approximately 7.0% to approximately 12.2%, or an annual compound rate of approximately 119.3%. Capitalink noted that the income tax rate for a joint venture in China is currently 27%, however NVC enjoys preferential tax rate of half of the official income tax rate from 2004 through 2006.
- o As of March 31, 2005, NVC had no debt and had approximately \$2.4 million in cash and equivalents. NVC is committed to pay approximately \$5.7 million by the end of FY2005 for the construction of new factory premises in Huizhou.

- o A potential cause for concern is NVC's negative working capital of (\$5.7 million) as of March 31, 2005, decreasing from approximately

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

\$2.4 million as of December 31, 2002. The primary drivers of the decreasing working capital during the review period were as follows:

- o An increase in accounts payable with a simultaneous decrease in accounts receivable;
- o NVC invested approximately \$6.4 million in its new factory premises and purchases of fixed assets;
- o The above mentioned distribution agreements cost NVC in excess of \$4 million during the past three years; and
- o Distributions to NVC's owners totaled approximately \$4 million in FY2003 and approximately \$5.5 million in FY2004.

COUNTRY AND INDUSTRY OVERVIEW

NVC operates, manufactures and sells the majority (over 90%) of its products in the PRC. Despite the considerable growth potential of the country and its low cost base, PRC remains a risky environment. Capitalink noted the following significant risk factors:

- o Foreign exchange regulations;
- o Political and legal risk;
- o Lack of accounting transparency;
- o Limitations and restrictions on dividend repatriation;
- o Geographic concentration.

ORALABS STOCK PRICE PERFORMANCE REVIEW

Capitalink reviewed the daily closing market price and trading volume of the Company's common stock since the announcement of the Transaction on December 28, 2004, over the twenty-four month period prior to the announcement, and over the twelve-month period prior to the announcement. Capitalink noted the following:

- o The Company's stock had limited liquidity prior to the announcement of the Transaction with the median number of shares traded at approximately 400 and 1,320 over the twenty-four month and twelve-month period, respectively. Since the announcement, the median number of shares traded was 7,645.
- o Over the twelve months prior to the announcement of the Transaction, the Company's average share price was approximately \$1.77 and ranged from a high of \$3.74 to a low of \$1.03.
- o The Company's common stock outperformed the general market index (Russell 3000) and underperformed the comparable companies index over the twelve-month period prior to the announcement.

ORALABS COMPARABLE COMPANY ANALYSIS

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

A selected comparable company analysis reviews the trading multiples of publicly traded companies that are similar to the Company with respect to business and revenue model, operating sector, product and service offerings and target customer base.

Capitalink located five companies that it deemed comparable to the Company with respect to their industry sector and operating model (the "Comparable Companies"). All of the Comparable Companies manufacture and distribute personal care products, with the exception of Natural Health Trends Corp ("BHIP") that outsources its manufacturing to third parties. They are classified under SIC codes 5122 (Drugs, Proprietarys, and Sundries), 2844 (Toilet Preparations) and 2833 (Medicinals and Botanicals). All of the Comparable Companies are substantially larger than OraLabs, with LTM revenue ranging from approximately \$62.9 million to approximately \$346.3 million, compared with approximately \$12.9 million for OraLabs. As of August 5, 2005, the enterprise value for the Comparable Companies ranged from approximately \$38.1 million to approximately \$284.1 million, compared with approximately \$11.4 million for OraLabs.

Capitalink noted that all of the Comparable Companies are more profitable than OraLabs, with LTM EBITDA margin ranging from approximately 2.1% to approximately 17.5%, compared with approximately (1.7)% for OraLabs.

All of the Comparable Companies have exhibited greater revenue growth than OraLabs, with last fiscal year revenue growth ranging from approximately 9.1% to approximately 112.9%, compared with approximately (6.7)% for OraLabs.

Capitalink generated the following multiples worth noting:

- o The enterprise value to LTM revenue multiple ranged from 0.47 times to 1.10 times, with a mean of 0.76 times.
- o The enterprise value to FY2005 revenue multiple ranged from 0.81 times to 1.10 times, with a mean of 0.93 times.

Capitalink selected an appropriate multiple range for the Company by examining the range provided by the Comparable Companies and taking into account certain company-specific factors. Capitalink expects the Company's valuation multiples to be below the average of the Comparable Companies due to its lower EBITDA margins, negative revenue growth and smaller size.

Based on the above factors, Capitalink applied a selected multiple range and applied it to the Company's LTM and 2005 revenue to determine a range of indicated enterprise values. Capitalink then added net cash of approximately \$1.2 million to derive a range of equity values to obtain an equity value on a marketable minority basis of between approximately \$6.2 million and approximately \$7.6 million.

An analysis of publicly traded comparable companies is not mathematical; rather it involves complex consideration and judgments concerning differences in financial and operating characteristics of the Comparable Companies and other factors that could affect the public trading of the Comparable Companies.

ORALABS COMPARABLE TRANSACTION ANALYSIS

A comparable transaction analysis is based on a review of merger, acquisition and asset purchase transactions involving target companies that are

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

in related industries to the Company. The comparable transaction analysis generally provides the widest range of value due to the varying importance of an acquisition to a buyer (i.e., a strategic buyer willing to pay more than a financial buyer) in addition to the potential differences in the transaction process (i.e., competitiveness among potential buyers).

Capitalink located five transactions announced since January 2003 involving target companies in related industries to OraLabs (the "Comparable Transactions") and for which detailed financial information was available. Target companies were all involved in personal care product manufacturing and distribution.

Based on the information disclosed with respect to the targets in each of the Comparable Transactions, Capitalink calculated and compared total enterprise value as a multiple of LTM revenue and LTM EBITDA.

A review of the analysis indicates mean and median enterprise value multiples to LTM revenue of 1.26 times and 1.23 times, respectively, and mean and median enterprise value multiples to LTM EBITDA of 8.2 times and 8.3 times, respectively.

Capitalink expects the Company to be valued substantially below the mean of the Comparable Transactions multiples due to its significantly lower profitability and smaller size.

Based on the above factors, Capitalink applied a selected multiple range and applied it to the Company's LTM revenue to determine a range of indicated enterprise values. Capitalink then added net cash of approximately \$1.2 million to obtain an equity value range on a marketable controlling interest basis of between approximately \$8.3 million and approximately \$9.6 million.

Capitalink applied a minority discount of 22% in order to obtain an equity value range for the Company on a marketable minority basis of between approximately \$6.5 million and approximately \$7.5 million. The selected minority discount is based on a premiums paid analysis involving transactions where a controlling interest was acquired in a public company by a minority shareholder.

None of the target companies in the Comparable Transactions have characteristics identical to the Company. Accordingly, an analysis of comparable business combinations is not mathematical; rather it involves complex considerations and judgments concerning differences in financial and operating characteristics of the target companies in the Comparable Transactions and other factors that could affect the respective acquisition values.

NVC COMPARABLE COMPANY ANALYSIS

A selected comparable company analysis reviews the trading multiples of publicly traded companies that are similar to NVC with respect to business and revenue model, operating sector, product and service offerings and target customer base.

Capitalink used two tiers of comparable companies for valuing NVC:

- o Companies that design, manufacture and/or distribute lighting products regardless of their geographical location or on which exchange their common stock is trading ("Tier 1 Comparable Companies" or "Lighting Companies"); and

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

- o Manufacturing companies that are located and doing business in China, their common stock is traded on a U.S. exchange and they have similar revenue and margins to NVC ("Tier 2 Comparable Companies" or "US Traded China Based Companies").

Capitalink located seven Tier 1 Comparable Companies and four Tier 2 Comparable Companies and noted that two of the Tier 2 Comparable Companies were publicly held shell companies that acquired the business operations of another company recently.

As of August 5, 2005, almost all of the Tier 1 and Tier 2 Comparable Companies are larger than NVC, with LTM revenue ranging from approximately \$18.6 million to approximately \$277.1 million for the Tier 1 Comparable Companies, and from approximately \$52.2 million to approximately \$249.2 million for the Tier 2 Comparable Companies, compared with approximately \$61.1 million for NVC.

Capitalink noted that NVC is somewhat less profitable on an EBITDA level than the mean of the Tier 1 Comparable Companies and more profitable than the mean of the Tier 2 Comparable Companies, with LTM EBITDA margin ranging from approximately 8.0% to approximately 32.9% for the Tier 1 Comparable Companies, and from approximately 6.2% to approximately 13.6% for the Tier 2 Comparable Companies, compared with approximately 13.1% for NVC.

NVC exhibited greater revenue growth than both Tier 1 and Tier 2 Comparable Companies, with last fiscal year revenue growth ranging from approximately 6.4% to approximately 20.6% for the Tier 1 Comparable Companies, and from approximately 9.5% to approximately 74.9% for the Tier 2 Comparable Companies, compared with approximately 80.8% for NVC. Capitalink noted that the growth rates of the Tier 2 Comparable Companies are generally higher than those of the Tier 1 Comparable Companies, reflecting the growth of the PRC's economy.

Capitalink generated the following multiples worth noting:

- o The enterprise value to LTM revenue multiple ranged from 0.37 times to 1.73 times, with a mean of 1.05 times for the Tier 1 Comparable Companies, and from 0.69 times to 1.87 times, with a mean of 1.27 times for the Tier 2 Comparable Companies.
- o The enterprise value to LTM EBITDA multiple ranged from 3.2 times to 11.5 times, with a mean of 7.0 times for the Tier 1 Comparable Companies, and from 11.2 times to 17.7 times, with a mean of 13.5 times for the Tier 2 Comparable Companies.
- o Capitalink noted that the multiples for the Tier 2 Comparable Companies were generally higher than those of the Tier 1 Comparable Companies, reflecting the growth of the PRC's economy.

Capitalink selected an appropriate multiple range for NVC by examining the range provided by the Comparable Companies and taking into account certain company and geographic-specific factors. Capitalink expects NVC's valuation multiples to be above the mean of the Tier 1 Comparable Companies and below the mean of the Tier 2 Comparable Companies based on the following factors:

- o From an operational perspective, NVC is similar to the Tier 1 Comparable Companies and therefore they served as the basis for the valuation;
- o Tier 2 Comparable Companies are different from an operational perspective, however they are useful in understanding the valuation of Chinese companies in light of their growth characteristics;
- o NVC has similar profitability to both Tier 1 and Tier 2 Comparable

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

Companies;

- o NVC is smaller than most Tier 1 and Tier 2 Comparable Companies;

49

- o NVC has exhibited substantially greater growth than the Tier 1 Comparable Companies and somewhat greater growth than the Tier 2 Comparable Companies;
- o NVC has the lowest leverage of both Tier 1 and Tier 2 Comparable Companies, however, except for General Steel Holdings, it is the only company with a negative working capital in the comparable universe.

Based on the above factors, Capitalink applied a selected multiple range and applied it to NVC's LTM revenue and LTM EBITDA to determine a range of indicated enterprise values. Capitalink then added net cash of approximately \$2.2 million to obtain an equity value on a marketable minority basis of between approximately \$65.0 million and approximately \$72.0 million.

An analysis of publicly traded comparable companies is not mathematical; rather it involves complex consideration and judgments concerning differences in financial and operating characteristics of the Comparable Companies and other factors that could affect the public trading of the Comparable Companies.

Based on the information and analyses set forth above, Capitalink delivered its written opinion to Special Committee, which stated that, as of August 10, 2005, based upon and subject to the assumptions made, matters considered, and limitations on its review as set forth in the opinion the Transaction is fair, from a financial point of view, to the Company's nonaffiliated shareholders. Capitalink is an investment banking firm that, as part of its investment banking business, regularly is engaged in the evaluation of businesses and their securities in connection with mergers, acquisitions, corporate restructurings, private placements, and for other purposes. The Company determined to use the services of Capitalink because it is a recognized investment banking firm that has substantial experience in similar matters. Capitalink has received a fee in connection with the preparation and issuance of its opinion. In addition, the Company has agreed to indemnify Capitalink for certain liabilities that may arise out of the rendering of the opinion. Capitalink does not beneficially own any interest in the Company and has not provided any other services.

Interests of Certain Persons in the Proposed Transactions

In considering the recommendation of the Special Committee and the Board of Directors with respect to the proposed transactions, you should be aware that all members of the Board have interests that present actual or potential conflicts of interest in connection with the transactions. The Special Committee and the Board were aware of these potential or actual conflicts of interest and considered them with other matters described under "Special Factors-Recommendation of the Special Committee and Board of Directors". Upon Closing, Mr. Schlatter will own all of the outstanding stock of OraLabs, Inc., the operating subsidiary of the public company, and therefore will participate in all of its future earnings and any increase in value. Upon Closing, none of the current directors of OraLabs will be an officer or director of the public company, but the directors other than Mr. Schlatter will each receive 100,000 shares of common stock of OraLabs at the time of the Closing of the proposed transactions. An affiliate of Mr. Schlatter, The Schlatter Family Partnership, owns 100,000 shares of OraLabs common stock, which will not be redeemed by OraLabs as part of the Closing.

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

NASDAQ Listing

OraLabs common stock is currently listed for trading on the NASDAQ SmallCap Market. Continued listing on the SmallCap Market after Closing is conditional upon OraLabs obtaining approval from the NASD to such listing. Because the current business of OraLabs will no longer be operated by OraLabs after Closing, and the business of NVC will then be the only business of OraLabs continued listing is conditional upon OraLabs compliance with NASD rules that for all practical purposes are applicable to making a new application to the NASD for NASDAQ listing. One of those requirements is that the minimum bid price of the common stock must not be less than \$4.00 per share.

50

If the common stock of the Company is delisted from the NASDAQ SmallCap Market, the Company would remain a public company but trading of the common stock would be displayed instead on the OTC Bulletin Board until such time as OraLabs complies with the listing qualifications for the NASDAQ SmallCap Market. Stocks displayed on the OTC Bulletin Board have less visibility in the investment community than stocks that are listed on the NASDAQ SmallCap Market. Because the volume of OraLabs' stock traded each day on the NASDAQ SmallCap Market has historically been very low, OraLabs cannot predict whether a delisting of the common stock from NASDAQ and display of trading of the stock on the OTC Bulletin Board would materially cause the stock price to be reduced or liquidity for the stock to be more significantly impaired. NVC has advised OraLabs that it is committed to seeking the listing on the NASDAQ SmallCap Market as soon as it can, should delisting occur. Under the Exchange Agreement, NVC has the right to seek to renegotiate prior to Closing the relative percentages of ownership of OraLabs common stock between the NVC Shareholders and the then public shareholders if delisting from the NASDAQ SmallCap Market is attributable to conduct of OraLabs. However, OraLabs and NVC have agreed that the decline of OraLabs' stock price is not conduct considered attributable to OraLabs for that purpose.

MARKET FOR THE COMMON STOCK

The following sets forth the range of high and low bid information for the Company's common stock for fiscal years 2003 and 2004, and for the first two quarters of fiscal year 2005. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS: ORALABS

Gary H. Schlatter, through an affiliated entity, is the owner of the property leased by OraLabs (the Company's subsidiary) that serves as the Company's headquarters, manufacturing facility and warehouse facility. The lease expires on September 30, 2006. Prior to the Company's relocation in 2004, Mr. Schlatter individually and an affiliated entity respectively leased the two facilities from which the Company conducted its business. Total rent paid by the Company for rent of those facilities in 2004 was \$83,690. Rent paid to Mr. Schlatter's affiliated entity in 2004 after the relocation was \$446,088. The Company believes that its rental rate is comparable to that which would be paid to unaffiliated parties, and the Company believes that if the leases were not to be renewed, the Company could obtain alternative space. Upon closing of the Exchange Agreement, Gary H. Schlatter will acquire sole ownership of OraLabs, Inc. the operating subsidiary of the public company, in consideration for the redemption by the Company of the 3,629,350 shares of the Company owned by Mr. Schlatter in his individual capacity. In addition, each of the other three directors, all of whom are non-employee directors, will receive 100,000 shares of the Company's common stock under the 2005 Director Stock Plan for which approval by the shareholders is requested at the annual meeting.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS: NVC

NVC was incorporated in the Hong Kong Special Administrative Region in the PRC as a private limited liability company on June 11, 2004. Pursuant to the reorganization and restructuring of NVC, NVC Lighting Company Limited ("NVC Lighting") ceased operations on April 30, 2003 and, on the same date, certain net assets were distributed totaling \$1,767,655 to the registered equity holders, including Messrs. Wu Chang-Jiang, Hu Yong-Hong and Du Gang, who are directors of NVC. On May 1, 2003, the business operations of NVC Lighting were transferred to NVC Industrial Development Company Limited ("NVC Industrial"). On June 13, 2004, NVC acquired 97% of the outstanding registered capital of NVC Industrial and 100% of the registered capital of NVC Lighting. On November 17, 2004 NVC Lighting was officially wound up.

As of December 31, 2004, and as of March 31, 2005, NVC had the following

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

balances due to its directors:

NAME ----	AT DECEMBER 31, 2004 -----	AT MARCH 31, 2005 -----
Wu Chang-Jiang	\$ 190,228	195,327
Hu Yong-Hong	\$ 190,228	145,564
Du Gang	\$ 190,228	130,199

The amounts due to the directors arose from their advances of funds to NVC that were applied toward the payments due to the independent distributors of the products of NVC. The amounts due to the directors from NVC are unsecured, interest free and have no fixed repayment terms.

COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT

Section 16(a) of the Securities and Exchange Commission requires our directors, executive officers and holders of more than 10% of our common stock to file with the Securities and Exchange Commission reports regarding their ownership and changes in ownership of our securities. The Company believes that during fiscal year 2004, its directors, executive officers and 10% owners complied with all Section 16(a) filing requirements with the following exceptions: directors Friess, Goldstone and Gust each filed a late report with respect to options awarded to each of them in June 2004 under the Company's 1997 Non-employee Directors Option Plan.

54

Our Board of Directors amended its Code of Ethics that was filed as Exhibit 14.1 to the Company's Form 10-KSB/A for calendar year 2004. The amended Code of Ethics was filed as an exhibit attached to Form 8-K filed by the Company on August __, 2005.

EXECUTIVE COMPENSATION

The Company hereby incorporates by reference, Item 10 (entitled "Executive Compensation") of the Company's Form 10-KSB/A filed for fiscal year 2004, a copy of which is included with this Proxy Statement.

For a discussion of certain compensation matters relating to directors, executive officers and certain shareholders of NVC, please see "NVC Business-Executive Compensation".

MATERIAL FEDERAL INCOME TAX CONSEQUENCES OF THE PROPOSED TRANSACTIONS

The following discussion is a summary of the material federal income tax consequences expected to result to shareholders who exercise dissenters' rights. Except for those shareholders there will be no tax consequences to OraLabs shareholders from completion of the proposed transactions. This summary does not purport to be a complete analysis of all potential tax effects of the proposed transactions. For example, the summary does not consider the effect of any applicable state, local or foreign tax laws. In addition, the summary does not address all aspects of federal income taxation that may affect particular shareholders in light of their particular circumstances and is not intended for shareholders (including insurance companies, tax-exempt organizations, financial institutions or broker-dealers, shareholders who hold their common stock as part of a hedge, straddle or conversion transaction, shareholders who acquired their

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

common stock pursuant to the exercise of an employee stock option or otherwise as compensation, and shareholders who are not citizens or residents of the United States or that are foreign corporations, foreign partnerships or foreign estates or trusts as to the United States) that may be subject to special federal income tax rules not discussed below. The following summary also does not address tax consequences to OraLabs Holding Corp., OraLabs, Inc., NVC or the NVC Shareholders.

This summary is based on the current provisions of the Code, applicable Treasury Regulations, judicial authority and administrative rulings and practice. No ruling from the IRS has been or will be sought nor will an opinion of counsel be obtained with respect to any aspect of the transactions described herein. Accordingly, there can be no assurance that the IRS will not challenge the tax consequences expressed in this discussion or that a court would not sustain this type of challenge. Future legislative, judicial or administrative changes or interpretations could alter or modify the statements and conclusions set forth herein, and any such changes or interpretations could be retroactive and could affect the tax consequences of the proposed transactions to shareholders. We cannot predict at this time whether any current proposed tax legislation will be enacted or, if enacted, whether any tax law changes contained therein would affect the tax consequences of the proposed transactions to shareholders. It is therefore possible that the federal income tax treatment may differ from that described below.

State and local tax laws may also impose income or other taxes upon shareholders who exercise dissenters' rights. State and local income tax laws vary from state to state and this discussion does not address state or local tax issues.

Redemption Treatment for Dissenters

For federal income tax purposes, OraLabs will be deemed to be the source of cash consideration for payments in satisfaction of dissenters' rights. Therefore, to the extent that cash received by a stockholder is from OraLabs, the receipt of cash in satisfaction of dissenters' rights will be treated as a redemption of common stock taxable for federal income tax purposes as determined under section 302 of the Code. Section 302(d) of the Code provides that if the receipt of redemption payments has the effect of a distribution of property, then cash distributed will be treated as a dividend taxable under section 301 of the Code as ordinary income to a stockholder receiving such cash payments, generally to the extent of the stockholder's share of undistributed accumulated earnings and profits of the company. The remainder, if any, will be treated first as a recovery of basis in a stockholder's common stock, and second as capital gain arising from the sale or exchange of property. The determination of whether or not the receipt of cash payments has the effect of a distribution of a dividend will depend on each stockholder's particular circumstances and is made by applying the dividend equivalency tests of section 302 of the Code.

55

Under section 302 of the Code, a stockholder receiving a cash payment as a redemption will not be treated as having received a dividend equivalent distribution if the transaction: it results in a "complete redemption" of the stockholder's equity interest in the company; it results in a "substantially disproportionate" redemption with respect to the stockholder; or it is "not essentially equivalent to a dividend" with respect to the stockholder. Each of these section 302 tests is explained more fully below.

Constructive Ownership of Stock and Other Issues

In applying each of the section 302 tests, shareholders must take into

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

account not only shares that they actually own but also shares they are treated as owning under the constructive ownership rules of section 318 of the Code. Pursuant to the constructive ownership rules, a stockholder is treated as owning any shares that are owned, actually and in some cases constructively, by certain related individuals and entities as well as shares that the stockholder has the right to acquire by exercise of an option or by conversion or exchange of a security. Due to the factual nature of the section 302 tests described below, shareholders should consult their tax advisors to determine whether the conversion of their shares and receipt of a payment pursuant to the exercise of dissenters' rights will be deemed dividend equivalent in their particular circumstances.

Section 302 Tests

One of the following tests must be satisfied in order for the distribution not to be treated as the equivalent of a dividend for federal income tax purposes.

Complete Termination Test. The distribution will result in a "complete redemption" of the stockholder's equity interest in the company only if all of the common stock that is actually owned by the stockholder is sold pursuant to the proposed transactions and the shares that are constructively owned by the stockholder are sold or, with respect to shares owned by certain related individuals, the stockholder effectively waives, in accordance with section 302(c) of the Code, attribution of shares which otherwise would be considered as constructively owned by the stockholder. Certain restrictions apply to the waiver of attribution of shares. Shareholders wishing to satisfy the "complete redemption" test through waiver of the constructive ownership rules should consult their tax advisors.

Substantially Disproportionate Test. The distribution will result in a "substantially disproportionate" redemption with respect to the stockholder if, among other things, the stockholder owns actually and constructively less than 50% of the total combined voting power of all classes of stock after the redemption, and the percentage of the then outstanding voting common stock actually and constructively owned by the stockholder immediately after the purchase is less than 80% of the percentage of the previously outstanding voting common stock actually and constructively owned by the stockholder immediately before the purchase.

56

Not Essentially Equivalent to a Dividend Test. The distribution will be treated as "not essentially equivalent to a dividend" if the reduction in the stockholder's proportionate interest actually and constructively owned constitutes a "meaningful reduction" given the stockholder's particular circumstances. Whether the receipt of a cash payment will be "not essentially equivalent to a dividend" will depend upon the stockholder's particular facts and circumstances. Shareholders should consult their tax advisors as to the application of this test in their particular circumstances.

If a stockholder receives only cash payments and satisfies any of the section 302 tests described above, the stockholder will be treated as if it sold its common stock and will recognize capital gain or loss as described above. If a stockholder does not satisfy any of the section 302 tests described above, the purchase of a stockholder's common stock will not be treated as a sale or exchange under section 302 of the Code. Instead, the amount received by a stockholder in the redemption will be treated as a dividend distribution under section 301 of the Code, taxable at ordinary income tax rates, to the extent, first, of the stockholder's applicable share of OraLabs' current earnings and profits, as defined for U.S. federal income tax purposes, and, second, of the

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

U.S. stockholder's applicable share of OraLabs' current earnings and profits, as defined for U.S. federal income tax purposes. To the extent the amount exceeds the stockholder's applicable share of current and accumulated earnings and profits, the excess first will be treated as a tax free return of capital to the extent of the stockholder's basis in its common stock and any remainder will be treated as capital gain, which may be long term capital gain as described above. The determination of whether a corporation has earnings and profits is complex and the legal standards to be applied are subject to uncertainties and ambiguities. Additionally, the amount of current earnings and profits can be determined only at the end of the taxable year. Accordingly, it is unclear whether OraLabs will have sufficient current and accumulated earnings and profits to cover the amount of any payment made to shareholders. To the extent that a redemption is treated as the receipt by the stockholder of a dividend, the stockholder's tax basis in the redeemed shares will be added to any shares of common stock retained or sold by the stockholder, and may be lost if the stockholder does not actually retain any stock ownership in OraLabs.

Backup Withholding

A stockholder who receives payment for his, her or its common stock by exercise of dissenters' rights may be subject to backup withholding equal to the fourth lowest tax rate under section 1(c) of the Code with respect to the gross proceeds received unless such stockholder (1) is a corporation or other exempt recipient and, when required, establishes this exemption or (2) provides its correct taxpayer identification number, certifies that it is not currently subject to backup withholding and otherwise complies with applicable requirements of the backup withholding rules. A stockholder who does not provide OraLabs with its correct taxpayer identification number may be subject to penalties imposed by the IRS. Any amount withheld under these rules will be credited against the stockholder's federal income tax liability. OraLabs will report to shareholders and to the IRS the amount of any reportable payments arising from exercise of dissenters' rights and any amount withheld. Each stockholder should consult his, her or its own tax advisor with respect to the particular tax consequences to it of the transactions described herein, including the applicability and effect of state, local and foreign tax law.

Fees and Expenses

Whether or not the proposed transactions are consummated, all of the fees and expenses incurred in connection therewith will be paid by the party (either OraLabs or NVC) incurring such fees and expenses. Estimated fees and expenses (rounded to the nearest thousand, except for the SEC filing fee) incurred or to be paid by OraLabs in connection with the proposed transactions are as follows:

57

DESCRIPTION	DOLLAR AMOUNT
Special Committee's Financial Advisor's Fees and Expenses	\$ 60,000.00
Special Committee's Legal and Accounting Fees and Expenses	20,000.00
OraLabs' Legal and Accounting Fees and Expenses	110,000.00
Printing and Mailing Fees and Expenses	5,000.00
SEC Filing Fees	7,000.00

The Stock Exchange

The Exchange Agreement provides that at its Closing, a series of transactions will become effective. If the Exchange Agreement is approved at the annual meeting by the shareholders of OraLabs, and the other conditions to Closing are satisfied, it is anticipated that we will consummate the transactions in the fall of this year. However, there can be no assurance as to the timing of the Closing or that the consummation of the proposed transactions will occur. Upon the completion of the Closing, the following transactions will have occurred:

- o the 3,629,350 shares of OraLabs common stock owned individually by Gary H. Schlatter will have been redeemed by OraLabs and all of the shares owned by OraLabs of its wholly-owned subsidiary, OraLabs, Inc., will be owned by Mr. Schlatter;
- o OraLabs will be the 100% owner of NVC, and the three NVC Shareholders (and/or their designees) will be the owners of approximately 94% of all of the issued and outstanding common stock of OraLabs;
- o the authorized number of shares of OraLabs common stock will be 200,000,000;
- o the name of the public company will be changed from OraLabs Holding Corp. to NVC Lighting Corporation;
- o the 2005 Stock Option, SAR and Stock Bonus Plan covering 5,000,000 shares of common stock will be approved, the 2005 Director Stock Plan will be approved and 300,000 shares will have been issued under the latter Plan to the non-employee directors of OraLabs;
- o the current directors of the public company will resign and be replaced by Mr. Chang-Jiang Wu, Mr. Yong-Hong Hu, Mr. Gang Du and Tracy Hung Wan;
- o the current officers of the public company will resign and be replaced by officers chosen by the new directors; and
- o dissenting shareholders who do not vote to approve the Exchange Agreement and who otherwise strictly comply with the provisions of the Colorado Business Corporation Act regarding statutory appraisal rights will have the right to seek a determination of the fair value of the shares of common stock and payment in cash therefor in lieu of remaining as shareholders of the public company (see "Dissenters' Rights of Appraisal").

This paragraph explains the approximate number of shares to be outstanding upon completion of the Closing. The nonaffiliated shareholders of OraLabs currently own approximately 952,665 shares. Those shares will be retained by them. Affiliates of OraLabs own 111,000 shares and an additional 300,000 shares will be issued to the non-employee directors, resulting in affiliate ownership of 411,000 shares. The total of the 411,000 shares plus the

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

952,665 shares (1,363,665 total shares) will equal 6% of the outstanding shares upon completion of the Closing. Therefore, the principals of NVC or their designees will be issued 21,364,085 shares, or 94% of the total number of 22,727,750 shares to be outstanding. These figures do not take into account the possible exercise of up to 131,500 options that may be exercised prior to Closing by employees of OraLabs. To the extent that any of those options are exercised, additional shares would be issued to the principals of NVC or their designees so that they retain their 94% ownership. If all of the options are exercised, an additional 2,060,167 shares will be issued to the NVC principals or their designees.

Conditions to the Closing of the Exchange Agreement

The respective obligations of OraLabs, NVC and the NVC Shareholders to consummate the transactions under the Exchange Agreement are subject to the fulfillment or waiver at or prior to Closing of certain conditions including the following:

- o the Exchange Agreement and all of the transactions contemplated thereby must be approved by the shareholders of OraLabs;
- o OraLabs must receive a comfort letter from NVC's independent auditors, within ten days prior to the proposed Closing date, that is satisfactory to OraLabs' counsel;
- o OraLabs must receive a legal opinion from an attorney authorized to practice in China as to the legal effect of certain matters, including that the exchange of the stock owned by the NVC Shareholders for stock in OraLabs is legally binding upon them;
- o there must be no legal action that prevents or restrains completion of the proposed transactions;
- o the number of OraLabs shares that are the subject of dissenters' rights exercised by OraLabs' shareholders cannot exceed 100,000 shares;
- o if continued listing of the public company's shares on the NASDAQ SmallCap Market is not approved by the NASD for reasons attributable to OraLabs, NVC may seek to renegotiate the relative shareholdings to be owned upon completion of the transactions between the NVC shareholders and the OraLabs shareholders; and
- o the absence of any material adverse change in the condition of either OraLabs or NVC.

59

Representations and Warranties

The Exchange Agreement contains representations and warranties by the parties. These include, among other things, the following:

- o their respective organization and qualification to do business;
- o their authority to enter into and consummate the Exchange Agreement and the transactions contemplated thereby;
- o the absence of a conflict between the Exchange Agreement and the transactions contemplated thereby, with laws applicable to, and material agreements of, the respective parties;

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

- o the consents and filings required with respect to the Exchange Agreement and the transactions contemplated thereby;
- o the accuracy of the information provided by the parties for inclusion in this Proxy Statement and in filings to be made with the SEC with respect thereto;
- o the absence of undisclosed liabilities and changes in the business of the parties;
- o the status of litigation;
- o compliance with respect to taxes, employee plans and environmental matters;
- o title to properties; and
- o the lack of brokers retained by the parties.

Covenants

The parties have agreed to operate, and to cause their subsidiaries to operate, their respective businesses in the ordinary and usual course prior to Closing of the Exchange Agreement. Specifically, the parties have agreed to:

- o conduct their businesses in the ordinary and usual course of business and consistent with past practice;
- o conduct the business of NVC after Closing as it had been conducted prior to Closing;
- o cause the OraLabs common stock to continue to be listed on the NASDAQ SmallCap Market upon completion of the Closing and/or submit a new NASDAQ SmallCap Market listing application if necessary (if continued listing is not approved by the NASD for reasons attributable to OraLabs, then NVC reserves its right to seek to renegotiate the relative shareholdings between the NVC Shareholders and OraLabs);
- o not make any change in their organizational documents, borrow any funds outside of the ordinary course of business or pay any material obligation or liability not otherwise in the ordinary course of business; and

60

- o not issue, deliver or agree to issue or deliver any stock, bonds or other corporate securities.

Indemnification

NVC, the NVC Shareholders, and OraLabs agreed to certain indemnification obligations under the Exchange Agreement. NVC and the NVC Shareholders have agreed to indemnify OraLabs and its representatives against any loss that may be incurred and which arises out of or is based on any inaccuracy or misrepresentation made by NVC in the Exchange Agreement. OraLabs agreed to indemnify NVC and its representatives, as well as the NVC Shareholders, against any loss that they may incur arising out of or based on any inaccuracy or misrepresentation made by OraLabs under the Exchange Agreement. OraLabs also agree to cause its subsidiary, OraLabs, Inc., to indemnify the public company from any loss that may exist immediately prior to

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

the Closing or that may be asserted after the Closing regarding any claim or liability arising from the operations of OraLabs or any other matter prior to the Closing. The obligations of OraLabs, Inc. will be under a form of indemnification agreement that is attached as Exhibit 1 to the Exchange Agreement that is attached to this Proxy Statement as Annex 1.

Furthermore, OraLabs, Inc. agreed to reimburse the public company for the amount, up to \$20,000, that the public company may be obligated to pay to dissenters who are paid the fair value of their shares under Colorado law (see Dissenters' Rights of Appraisal). The public company will permit OraLabs, Inc. to actively participate in the process of determining the amount payable to dissenters and it is agreed that no offer amount or settlement will be made by it for payments to dissenters without the prior written approval of OraLabs, Inc., which will not be unreasonably withheld. In the event that OraLabs, Inc. makes payments to the public company in satisfaction of this obligation, the public company will issue shares of its common stock to OraLabs, Inc. which, when multiplied by the average of the closing bid and ask price of the common stock of OraLabs as of the close of trading on the date that payment is received by OraLabs, equals the amount paid by OraLabs, Inc. to reimburse the public company. In that event, the Company agreed to use its diligent, good-faith efforts to register those shares as soon as possible thereafter, but the cost of filing fees paid to the SEC or under Blue Sky laws will be the obligation of OraLabs, Inc.

Termination of the Exchange Agreement

The Exchange Agreement may be terminated and the transactions abandoned at any time prior to completion of the Closing (notwithstanding any approval of the Exchange Agreement by the shareholders of OraLabs);

- o by written consent of the parties;
- o by any party if the Closing does not occur by September 30, 2005, which may be extended by mutual agreement of the parties for a period not to exceed 45 days if Closing does not occur or the Proxy Statement has not been cleared by the SEC by September 30, 2005;
- o by either party if the other failed to comply in any material respect with any of its covenants or agreements contained in the Exchange Agreement or if any of the representations or warranties shall be inaccurate in any material respect, or if there shall have been any change after the date of the latest balance sheets in the assets, properties, business or financial condition of the party which could have a materially adverse effect on the value of the party's business; and

61

- o by either party if there shall be any actual or threatened action or proceeding before any court or any governmental body which seeks to restrain, prohibit or invalidate the transactions contemplated by the Exchange Agreement and which, in the judgment of the other party, made in good faith and based on the advice of its legal counsel, makes it inadvisable to proceed with the transactions contemplated by the Exchange Agreement; or any of the transactions contemplated by the Exchange Agreement are disapproved by any regulatory authority whose approval is required to consummate such transactions or in the judgment of such Board of Directors, made in good faith and based on the advice of counsel, there is substantial likelihood that any such approval will not be obtained or will be obtained only upon a condition or conditions which would be unduly burdensome, making it

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

inadvisable to proceed under the Exchange Agreement.

Fees and Expenses

All costs and expenses incurred in connection with the Exchange Agreement and the transactions contemplated thereby will be paid by the party incurring such expenses, including without limitation its attorneys fees, and there are no other payments due from one party to the other in connection with a termination.

Amendment/Waiver

At any time prior to Closing, the Exchange Agreement may be amended by a writing signed by all of the parties thereto, with respect to any of the terms contained in the Exchange Agreement, and any term or condition of the Exchange Agreement may be waived or the time for performance of any such term or condition may be extended by a writing signed by the party for whose benefit the provision is intended.

DISSENTERS' RIGHTS OF APPRAISAL

The following is a summary of dissenters' rights available to OraLabs shareholders, which summary is not intended to be a complete statement of applicable Colorado law and is qualified in its entirety by reference to Article 113, Title 7 of the Colorado Business Corporation Act, which is set forth in its entirety as Annex 3 attached hereto. If you wish to exercise your statutory right to dissent from the proposed transactions, you should read the detailed explanation of your dissenter rights and the procedure that must be followed to exercise those rights set forth below.

Do you have the right to exercise dissenter rights?

To exercise dissenter rights under Colorado law, you must be the shareholder of record of the shares of common stock as to which the dissenter rights are to be exercised on the record date established for the annual meeting, and on the date that the written demand and notice for appraisal described below is made, and the shareholder must continuously hold those shares through the effective time of the proposed transactions.

How to exercise dissenter rights.

To exercise dissenter rights, you must:

- o cause the Company to receive before the vote is taken at the annual meeting, a written notice of the shareholder's intention to demand payment for the shareholder's shares if the proposed transactions are effectuated; and

62

- o not vote the shares in favor of the proposed transactions.

If the transactions are approved by the shareholders at the annual meeting, you will then receive written notice from us giving you detailed instructions of the procedure to be followed to perfect your demand to receive payment for your shares.

Right to Dissent.

You are entitled to dissent from the proposed transactions and obtain payment of the fair value of your shares if and when the proposed transactions

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

are effectuated. Under Article 113 of the Colorado Business Corporation Act ("CBCA"), a shareholder entitled to dissent and obtain payment for the shares may not challenge the corporate action creating the right to dissent unless the action is unlawful or fraudulent with respect to the shareholder or the corporation.

Under CBCA Section 7-113-103(1), a record shareholder may assert dissenters' rights as to fewer than all the shares registered in the record shareholder's name only if the record shareholder dissents with respect to all shares beneficially owned by any one person and causes the corporation to receive written notice which states such dissent and the name, address and federal taxpayer identification number, if any, of each person on whose behalf the record shareholder asserts dissenters' rights.

CBCA Section 7-113-103(2) provides that a beneficial shareholder may assert dissenters' rights as to the shares held on the beneficial shareholder's behalf only if the beneficial shareholder causes the corporation to receive the record shareholder's written consent to the dissent not later than the time the beneficial shareholder asserts dissenters' rights and the beneficial shareholder dissents with respect to all shares beneficially owned by the beneficial shareholder.

We will require that, when a record shareholder dissents with respect to the shares held by any one or more beneficial shareholders, each such beneficial shareholder must certify to us that the beneficial shareholder and the record shareholder or record shareholders of all shares owned beneficially by the beneficial shareholder have asserted, or will timely assert, dissenters' rights as to all such shares as to which there is no limitation on the ability to exercise dissenters' rights.

Before the Annual Meeting

PROCEDURE FOR EXERCISE OF DISSENTERS' RIGHTS. If you wish to assert dissenters' rights you must:

- o cause us to receive before the vote is taken on the proposed transactions at the annual meeting, written notice of the shareholder's intention to demand payment for the shareholder's shares if the proposed transactions are effectuated; and
- o not vote the shares in favor of the proposed transactions. A SHAREHOLDER WHO DOES NOT SATISFY THE FOREGOING REQUIREMENTS WILL NOT BE ENTITLED TO DEMAND PAYMENT FOR HIS OR HER SHARES UNDER CBCA ARTICLE 113.

After the Annual Meeting

NOTICE FROM US. If the proposed transactions are approved at the annual meeting, we will send written notice to dissenters who are entitled to demand payment for their shares. The notice required by us will be given no later than 10 days after the effective time of the proposed transactions and will:

63

- o state that the proposed transactions were authorized and state the effective time or proposed effective date of the transactions;
- o set forth an address at which we will receive payment demands and the address of a place where certificates must be deposited;

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

- o inform holders of uncertificated shares to what extent transfer of the shares will be restricted after the payment demand is received;
- o supply a form demanding payment, which form will request a dissenter to state an address to which payment is to be made;
- o set the date by which we must receive the payment demand and certificates for shares, which date will not be less than 30 days after the date the notice is given;
- o state that if a record shareholder dissents with respect to the shares held by any one or more beneficial shareholders, each such beneficial shareholder must certify to us that the beneficial shareholder and the record shareholder or the record shareholders of all shares owned beneficially by the beneficial shareholder have asserted, or will timely assert, dissenters' rights as to all such shares as to which there is no limitation on the ability to exercise dissenters' rights; and
- o be accompanied by a copy of CBCA Article 113.

DEMAND FOR PAYMENT AND DELIVERY OF SHARE CERTIFICATE. A shareholder who is given a dissenters' notice and who wishes to assert dissenters' rights must, in accordance with the terms of the dissenters' notice,

- o cause us to receive a payment demand (which may be the payment demand form supplied by us and duly completed, or other acceptable writing) and
- o deposit the shareholder's stock certificates.

A shareholder who demands payment in accordance with the foregoing retains all rights of a shareholder, except the right to transfer the shares until the effective time of the proposed transactions, and has only the right to receive payment for the shares after the effective time. A demand for payment and deposit of certificates is irrevocable except that if the effective time does not occur within 60 days after the date set by us by which we must receive the payment demand, we will return the deposited certificates and release the transfer restrictions imposed. If the effective time occurs more than 60 days after the date set by us by which we must receive the payment demand, then we shall send a new dissenters' notice. A SHAREHOLDER WHO DOES NOT DEMAND PAYMENT AND DEPOSIT SUCH SHAREHOLDER'S SHARE CERTIFICATES AS REQUIRED BY THE DATE OR DATES SET IN THE DISSENTERS' NOTICE WILL NOT BE ENTITLED TO DEMAND PAYMENT FOR SUCH SHAREHOLDER'S SHARES UNDER CBCA ARTICLE 113.

DELIVERY OF PAYMENT. At the effective time or upon receipt of a payment demand, whichever is later, we will pay each dissenter who complied with the notice requirements referenced in the preceding paragraph, our estimate of the fair value of the dissenter's shares plus accrued interest. Payment shall be accompanied by an audited balance sheet as of the end our most recent fiscal year or, if that is not available, our balance sheet as of the end of the fiscal year not ending more than sixteen months before the date of payment, and an audited income statement for that year, and an audited statement of changes in shareholders' equity for that year and an audited statement of cash flow for that year, as well as the latest available financial statements, if any, for the interim period, which interim financial statements will be unaudited. Payment will also be accompanied by a statement of our estimate of the fair value of the shares and an explanation of how the interest was calculated, along with a statement of the dissenter's right to demand payment and a copy of CBCA Article 113.

HOW TO DISPUTE PAYMENT AMOUNT. If a dissenter disagrees with our payment or offer, such dissenter may give notice to us in writing of the dissenter's estimate of fair value of the dissenter's shares and of the amount of interest due and may demand payment of such estimate, less any payment made prior thereto, or reject our offer and demand payment of the fair value of the shares and interest due if: (a) the dissenter believes that the amount paid or offered is less than the fair value of the shares or that the interest due was incorrectly calculated, (b) we fail to make payment within 60 days after the date set by us by which we must receive the payment demand, or (c) we do not return deposited certificates in the event the effective time is 60 days after the date set by us by which the payment demand must be received by the shareholder asserting dissenters' rights. A DISSENTER WAIVES THE RIGHT TO DEMAND PAYMENT UNDER THIS PARAGRAPH UNLESS THE DISSENTER CAUSES US TO RECEIVE THE NOTICE REFERENCED IN THIS PARAGRAPH WITHIN 30 DAYS AFTER WE MAKE OR OFFER PAYMENT FOR THE SHARES OF THE DISSENTER.

JUDICIAL APPRAISAL OF SHARES. If a demand for payment made by a dissenter as set forth above is unresolved, we may, within 60 days after receiving the payment demand, commence a proceeding and petition a court to determine the fair value of the shares and accrued interest. If we do not commence the proceeding within the 60 day period, we must pay to each dissenter whose demand remains unresolved the amount demanded. We must commence the proceeding described above in the District Court of the County of Douglas, Colorado. We must make all dissenters whose demands remain unresolved parties to the proceeding as in an action against their shares, and all parties must be served with a copy of the petition. Service on each dissenter shall be by registered or certified mail, to the address stated in such dissenter's payment demand, or if no such address is stated in the payment demand, at the address shown on the corporation's current record of shareholders for the record shareholder holding the dissenter's shares, or as provided by law. Jurisdiction in which the proceeding is commenced is plenary and exclusive. One or more persons may be appointed by the court as appraisers to receive evidence and recommend a decision on the question of fair value. The appraisers will have the powers described in the court order appointing them, or in any amendment to such order. The parties to the proceeding will be entitled to the same discovery rights as parties in other civil proceedings. Each dissenter made a party to the proceeding is entitled to judgment for the amount, if any, by which the court finds the fair value of the dissenter's shares, plus interest, exceeds the amount paid by us, or for the fair value, plus interest, of the dissenter's shares for which we elected to withhold payment.

The court in an appraisal proceeding will determine all costs of the proceeding, including the reasonable compensation and expenses of appraisers appointed by the court. The court will assess the costs against us, except that the court may assess costs against all or some of the dissenters, in the amount the court finds equitable, to the extent the court finds that the dissenters acted arbitrarily, vexatiously, or not in good faith in demanding payment. The court may also assess the fees and expenses of counsel and experts for the respective parties, in amounts the court finds equitable: (a) against us and in favor of any dissenters if the court finds that we did not substantially comply with the procedures for exercise of dissenters' rights set forth in CBCA Article 113; or (b) against either us or one or more dissenters, in favor of any other party, if the court finds that the party against whom the fees and expenses are assessed acted arbitrarily, vexatiously, or not in good faith with respect to the rights provided by CBCA Article 113. If the court finds that the services of counsel for any dissenter were of substantial benefit to other dissenters similarly situated, and that the fees for those services should not be assessed against us, the court may award to such counsel reasonable fees to be paid out of the amounts awarded to the dissenters who were benefited.

It is the intention of the persons named in the accompanying form of proxy to vote such proxy "For" approval of the Exchange Agreement and the transactions by which the Company will acquire all of the ownership interests in NVC in exchange for the issuance of shares to the NVC Shareholders, redeem all of the shares of OraLabs owned by Mr. Schlatter individually in exchange for the transfer to him of all of the shares of OraLabs, Inc. owned by the Company, and issue 100,000 shares of OraLabs common stock to each of the three non-employee directors under the 2005 Director Stock Plan, unless shareholders specifically indicate in their proxies that they desire to vote against or abstain from voting for such transactions. Approval requires an affirmative vote of a majority of the shares entitled to vote with respect to the first two transactions and a majority of the shares present in person or by proxy and entitled to vote at the annual meeting with respect to the third transaction. Management recommends that the shareholders vote "For" approval of the Exchange Agreement and those transactions.

PROPOSAL TWO: ELECTION OF DIRECTORS.

OraLabs' Board of Directors consists of Messrs. Schlatter, Friess, Goldstone and Gust, who will all resign effective upon completion of the Closing of the proposed transactions. There are four nominees for directors, three of whom are principals and shareholders of NVC Lighting Investment Holdings Limited. Each director to be elected will hold office until the next annual meeting of shareholders and until his successor is elected, or until the director's death, resignation or removal.

The nominees for the Board of Directors of OraLabs are as follows:

NAME	AGE	PROPOSED POSITIONS
-----	---	-----
Du Gang	40	Chairman of the Board
Wu Chang Jiang	40	Director and Chief Executive Officer
Hu Yong Hong	39	Deputy Chairman of the Board
Tracy Wan Hung	46	Director

See "NVC Business-NVC Management" for information about the nominees.

It is the intention of the persons named in the accompanying form of proxy to vote such proxy "For" the election of the persons listed above, unless shareholders specifically indicate in their proxies that they desire to vote against or abstain from voting for the electing of any such director to office. Each nominee must be approved by receiving the highest number of affirmative votes of the shares present in person or by proxy and entitled to vote at the annual meeting. Our management recommends that shareholders vote "For" the election of the nominees.

PROPOSAL THREE: AMENDMENT OF THE ARTICLES OF INCORPORATION TO CHANGE THE NAME OF ORALABS FROM ORALABS HOLDING CORP. TO NVC LIGHTING CORPORATION OR SIMILAR AND TO INCREASE THE NUMBER OF COMMON SHARES AUTHORIZED TO 200,000,000.

Management requests stockholder approval to amend the Articles of Incorporation to change the name of OraLabs to NVC Lighting Corporation or similar subject to availability and approval by the Colorado Secretary of State.

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

This change is recommended to reflect the new business direction of OraLabs upon completion of the proposed transactions. In the event that Closing does not occur, the name of OraLabs will not be changed.

66

Management requests stockholder approval to amend the Articles of Incorporation to increase the number of common shares authorized to 200,000,000. This increase will be to provide for enough shares to complete the proposed transactions and will make additional shares available for issuance by OraLabs as may be desired from time to time.

Our Articles of Incorporation currently authorize 25,000,000 common shares, \$0.001 par value, of which 4,693,015 shares are outstanding as of July 29, 2005. Upon issuance of the shares to the NVC Shareholders or their designees and 300,000 shares to the non-employee directors, as well as shares that may be issued upon exercise of employee options, the total number of shares then issued and outstanding could be as many as approximately 25,000,000. NVC believes that it should have a total of 200,000,000 shares authorized under the Articles of Incorporation so that it will have flexibility when it comes to issuing additional shares of common stock. The issuance of shares to the NVC Shareholders or their designees and 300,000 shares to the non-employee directors will substantially dilute the holdings of the nonaffiliated shareholders of OraLabs. Those shareholders will own only approximately 4.2% of the issued and outstanding shares of common stock upon completion of the proposed transactions (without giving effect to the exercise of any employee options), whereas they own approximately 20.30% of the common shares currently issued and outstanding.

In the event that the proposed transactions are not completed at Closing, the increase in authorized shares of common stock will not be given effect. NVC has no current plans, proposals or arrangements for the use of the increase in authorized common shares other than to complete the proposed transactions described in this Proxy Statement. The issuance of additional shares will further dilute the interests of the current nonaffiliated shareholders. The Articles of Incorporation also authorize a class of preferred stock, although none have been issued. No changes will be made to that authority.

It is the intention of the persons named in the accompanying form of proxy to vote such proxy "For" the amendment changing the name of OraLabs and increasing the number of authorized shares, unless shareholders specifically indicate in their proxies that they desire to vote against or abstain from voting for the amendment. Our management recommends that shareholders vote "For" the amendment changing the name of OraLabs and increasing the number of authorized shares. Amending the Articles of Incorporation to change OraLabs' name and to increase authorized shares must be approved by an affirmative vote of a majority of the shares present in person or by proxy at the annual meeting.

PROPOSAL FOUR: APPROVAL OF THE 2005 STOCK OPTION, SAR AND STOCK BONUS PLAN.

The shareholders will be asked to approve the proposed 2005 Stock Option SAR and Stock Bonus Plan (a copy of the plan is attached as Schedule 3 to the Stock Exchange Agreement attached as Annex 1 to this Proxy Statement). Adoption of the plan will permit the Company to issue securities to employees, consultants and others who have an interest in the Company or who the Company wishes to provide services to the Company, including service as a member of the Board of Directors.

It is the intention of the persons named in the accompanying form of Proxy to vote such proxy "For" approval of the plan unless shareholders specifically indicate in their proxies that they desire to vote against or abstain from

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

voting for approval of the plan. Our management recommends that shareholders vote "For" the approval of the plan. Approval of the plan requires an affirmative vote of a majority of the shares present in person or by proxy and entitled to vote at the Annual Meeting.

67

PROPOSAL FIVE: ELECTION OF INDEPENDENT AUDITORS.

The Board of Directors has selected Murrell, Hall, McIntosh & Co., PLLP as the independent auditors to audit the books and accounts of the Company for the fiscal year ending December 31, 2005. Ehrhardt Keefe Steiner & Hottman, P.C. has served as the independent auditors since December 29, 1998. A representative of Murrell, Hall, McIntosh & Co., PLLP is expected to attend the Annual Meeting and will be available to respond to appropriate questions. The following table presents fees for professional audit services rendered by Ehrhardt Keefe Steiner & Hottman P.C. ("EKS&H") for the audit of our annual financial statements for the years ended December 31, 2004 and December 31, 2003, and the reviews of the financial statements included in each of our quarterly reports on Form 10-QSB during the fiscal years ended December 31, 2004 and 2003:

	2004	2003
Audit Fees	\$65,500	\$62,000
Audit-Related Fees	\$0	\$0
Tax Fees	\$0	\$0
All Other Fees	\$0	\$0

Audit Fees are fees incurred in connection with the audit of the Company's consolidated annual financial statements and the review of financial statements in the Company's quarterly reports on Form 10-QSB. All Other Fees are incurred for services other than those described above. The Audit Committee will pre-approve the performance by EKS&H of any services other than those relating to the audit or review of the Company's financial statements, but no other services are anticipated at this time.

In the event that the other proposed transactions are not completed at Closing, it is intended that Ehrhardt Keefe Steiner & Hottman, P.C. will be retained as OraLabs' independent auditors.

It is the intention of the persons named in the accompanying form of proxy to vote such proxy "For" the ratification of the selection of the auditors, unless shareholders specifically indicate in their proxies that they desire to vote against or abstain from voting for the ratification. Our management recommends that shareholders vote "For" the ratification of the appointment of the auditors. Adoption of this ratification must be approved by an affirmative vote of the majority of the shares present at the annual meeting in person or by proxy.

INDEPENDENT AUDITORS' REPORT
TO THE BOARD OF DIRECTORS AND MEMBERS OF
NVC LIGHTING INVESTMENT HOLDINGS LIMITED

(INCORPORATED IN HONG KONG SPECIAL ADMINISTRATIVE REGION WITH LIMITED LIABILITY)

We have audited the accompanying consolidated balance sheet of NVC Lighting Investment Holdings Limited and subsidiaries (the "Company") as of December 31, 2004 and the related consolidated statements of operations, statements of members' equity and cash flows for the years ended December 31, 2004 and 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to in the first paragraph above present fairly, in all material respects, the financial position of NVC Lighting Investment Holdings Limited and subsidiaries as of December 31, 2004 and the results of their operations and cash flows for the years ended December 31, 2004 and 2003, in conformity with accounting principles generally accepted in the United States of America.

NVC LIGHTING INVESTMENT HOLDINGS LIMITED AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (EXPRESSED IN US DOLLARS)

1. DESCRIPTION OF BUSINESS, CONTINUED

As a result of the restructuring and re-organization of the NVC Group, certain of the NVC Lighting's assets and liabilities together with the business then in existence as of April 30, 2003, were distributed in kind to the three registered equity holders on record in proportion to their relative equity holdings as of that date. Pursuant to the Tax Clearance Certificate issued by the Huizhou Municipal Government Tax Authority on May 6, 2003, NVC Lighting ceased its operations and all of its tax liabilities were cleared with the local tax authority.

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

The Company's consolidated financial statements include the accounts of NVC Lighting Investment Holdings Limited, its 97% owned subsidiary, NVC Industrial Development Company Limited and its 100% owned subsidiary, NVC Lighting Company Limited, after elimination of all material intercompany accounts, transactions, and profits. The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. The consolidated financial statements are prepared under the historical cost convention. This basis of accounting

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

differs from that used in the preparation of NVC Holdings' statutory financial statements which are prepared in accordance with generally accepted accounting principles and the relevant Hong Kong Companies Ordinance applicable to enterprises in the Hong Kong Special Administrative Region, and NVC Industrial and NVC Lighting's statutory financial statements which are prepared in accordance with generally accepted accounting principles and the relevant financial regulations applicable to enterprises in the PRC.

Although the reorganized Company did not legally exist as of the date of the pro-forma consolidated financial statements, the directors considered that it is more meaningful and appropriate to present pro-forma consolidated statements of operations and consolidated statements of cash flow for the year ended December 31, 2003. The pro-forma consolidated financial statements have been prepared using the predecessor's historical costs since the reorganizations were all related parties. Under this basis, NVC Holdings has been treated as the holding company of its subsidiaries, NVC Industrial and NVC Lighting, for the financial years presented rather than from the respective dates of their acquisitions as a result of the Company's reorganization and restructuring.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies:

CONSOLIDATION POLICY - All significant inter-company transactions and balances within the Company are eliminated on consolidation.

CASH AND EQUIVALENTS - The Company considers all highly liquid debt instruments purchased with maturity period of three months or less to be cash equivalents. The carrying amounts reported in the accompanying consolidated balance sheet for cash and cash equivalents approximate their fair value.

VALUE ADDED TAX

The Provisional Regulations of the People's Republic of China Concerning Value Added Tax promulgated by the State Council came into effect on January 1, 1994. Under these regulations and the Implementing Rules of the Provisional Regulations of the PRC Concerning Value Added Tax, value added tax is imposed on goods sold in or imported into the PRC and on processing, repair and replacement services provided within the PRC.

Value added tax payable in the PRC is charged on an aggregated basis at a rate of 13% or 17% (depending on the type of goods involved) on the full price collected for the goods sold or, in the case of taxable services provided, at a rate of 17% on the charges for the taxable services provided, but excluding, in respect of both goods and services, any amount

paid in respect of value added tax included in the price or charges, and less any deductible value added tax already paid by the taxpayer on purchases of goods and services in the same financial year.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

FAIR VALUE OF FINANCIAL INSTRUMENTS - The carrying amounts of certain financial instruments, including cash, accounts receivable, other receivables, accounts payable, accrued expenses, and other payables approximate their fair values as at December 31, 2004 because of the relatively short-term maturity of these instruments.

USE OF ESTIMATES - The preparation of financial statements in accordance with generally accepted accounting principles require management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECENT ACCOUNTING PRONOUNCEMENTS - In May 2003, the Financial Accounting Standards Board issued SFAS No. 150 ACCOUNTING FOR CERTAIN FINANCIAL INSTRUMENTS WITH CHARACTERISTICS OF BOTH LIABILITY AND EQUITY. This standard establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. As of December 31, 2004, the Company had no financial instruments with these characteristics.

In April 2003, the Financial Accounting Standards Board issued SFAS No. 149, AMENDMENT OF STATEMENT 133 ON DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES. This statement amends and clarifies financial accounting and reporting for derivative instruments and for hedging activities under FASB No. 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES. As of December 31, 2004, the Company had no derivative or hedging activities.

In November 2004, the FASB issued SFAS No. 151, INVENTORY COSTS - AN AMENDMENT OF ARB NO. 43, CHAPTER 4. SFAS No. 151 requires that certain abnormal costs associated with the manufacturing, freight, and handling costs associated with inventory be charged to current operations in the period in which they are incurred. The adoption of SFAS 151 had no impact on the Company's financial position, results of operations, or cash flows.

In December 2004, the FASB issued a revision of SFAS No. 123, SHARE-BASED PAYMENT. The statement establishes standards for the accounting for transactions in which an entity exchanges its equity investments for goods and services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. The statement does not change the accounting guidance for share-based payments with parties other than employees.

The statement requires a public entity to measure the cost of employee service received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exception). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). A public entity will initially measure the cost of employee services received in exchange for an award of liability instrument based on its current fair value; the fair value of that award will be remeasured subsequently at each reporting date through the settlement date. Changes in fair value during the requisite service period will be recognized as compensation over that period.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The grant-date for fair value of employee share options and similar instruments will be estimated using option-pricing models adjusted for the unique characteristics of these instruments.

The statement is effective for the quarter beginning January 1, 2006.

In December 2004, the FASB issued SFAS No. 153, EXCHANGES OF NONMONETARY ASSETS-AMENDMENT OF APB OPINION NO. 29. SFAS No. 153 eliminates the exception to fair value for exchanges of similar productive assets and replaces it with a general exception for exchange transactions that do not have commercial substance, defined as transactions that are not expected to result in significant changes in the cash flows of the reporting entity. This statement is effective for exchanges of nonmonetary assets occurring after June 15, 2005.

Management believes adoption of these new statements will not have any significant effect on the Company's financial condition or results of operations.

4. CONCENTRATIONS OF BUSINESS AND CREDIT RISK

Substantially all of the Company's bank accounts are in banks located in the PRC which are not protected by the FDIC insurance or other insurance.

The Company provides credit in the normal course of business. The Company performs ongoing credit evaluations of its customers and clients and maintains allowances for doubtful accounts based on factors surrounding the credit risk of specific customers and clients, historical trends, and other information. The Company had no single customer that represented 10% or more of sales in either 2004 or 2003.

During 2003 the Company had four suppliers representing 12%, 15%, 12% and 10% respectively of materials purchases. During 2004 the Company had no suppliers representing 10% or more of purchases.

12. INCOME TAX

Enterprise income tax ("EIT") in the PRC is provided on the basis of the statutory profit for financial reporting purposes, adjusted for income and expense items, which are not assessable or deductible for income tax purposes. Enterprise income tax has been provided in NVC Lighting's financial statements at the rate of 33% on the estimated assessable income derived during the year.

No provision for EIT has been made in the financial statements of NVC Industrial for the year ended December 31 2004 as NVC Industrial has been approved to be recognized as a joint foreign investment enterprise and is therefore exempted from EIT for two years starting from the first year of profitable operation followed by a 50% reduction for the next three years.

There have been no substantial differences between financial and tax reporting of income and expenses, which would give rise to deferred taxes.

Reconciliations between the expected rate and the effective rate for 2004 and 2003 are as follows:

RETIREMENT BENEFIT COSTS - According to the PRC regulations on pensions, the Company contributes to a defined contribution retirement plan organized by municipal government in the province in which the Company was registered; all qualified employees are eligible to participate in the plan. Contributions to the plan are calculated at 18% of the employees' salaries above a fixed threshold amount and the employees contribute 8% while the Company contributes the balance contribution of 10%. The Company has no other material obligation for the payment of retirement benefits beyond the annual contributions under this plan.

For the three months ended March 31, 2005 and 2004, the Company's pension cost charged to the statements of operations under the scheme amounted to \$5,006 and \$0, respectively.

CAPITAL RESERVE - Capital reserve represents that amount of reserve appropriated from the net distributable profit after income tax in each year when a net profit after operations is generated. In accordance with the provisions of the Company's Memorandum and Articles of Association, the Company is required to appropriate 5% to 15% of the net distributable profit after enterprise income tax to capital reserve. Two-third of the capital reserve is set aside for possible use for general reserve and one-third is for staff welfare.

Management believes it has accrued sufficient funds to cover all anticipated staff welfare payments as of March 31, 2005 and that this reserve is not impaired at this date. The Company shall not be required to appropriate any amount to capital reserve when the balance standing in capital reserve is equal to or exceeds 50% of the registered capital.

TAXATION - Taxation on overseas profits has been calculated on the estimated assessable profits for the year at the rates of taxation prevailing in the country in which the Company operates.

Provision for the PRC enterprise income tax is calculated at the prevailing

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

rate based on the estimated assessable profits less available tax relief for losses brought forward.

VALUE ADDED TAX

The Provisional Regulations of the People's Republic of China Concerning Value Added Tax promulgated by the State Council came into effect on January 1, 1994. Under these regulations and the Implementing Rules of the Provisional Regulations of the PRC Concerning Value Added Tax, value added tax is imposed on goods sold in or imported into the PRC and on processing, repair and replacement services provided within the PRC.

Value added tax payable in the PRC is charged on an aggregated basis at a rate of 13% or 17% (depending on the type of goods involved) on the full price collected for the goods sold or, in the case of taxable services provided, at a rate of 17% on the charges for the taxable services provided, but excluding, in respect of both goods and services, any amount paid in respect of value added tax included in the price or charges, and less any deductible value added tax already paid by the taxpayer on purchases of goods and services in the same financial year.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

FAIR VALUE OF FINANCIAL INSTRUMENTS - The carrying amounts of certain

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

financial instruments, including cash, accounts receivable, other receivables, accounts payable, accrued expenses, and other payables approximate their fair values as at March 31, 2005 because of the relatively short-term maturity of these instruments.

USE OF ESTIMATES - The preparation of financial statements in accordance with generally accepted accounting principles require management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RECENT ACCOUNTING PRONOUNCEMENTS - In May 2003, the Financial Accounting Standards Board issued SFAS No. 150 ACCOUNTING FOR CERTAIN FINANCIAL INSTRUMENTS WITH CHARACTERISTICS OF BOTH LIABILITY AND EQUITY. This standard establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. As of March 31, 2005, the Company had no financial instruments with these characteristics.

In April 2003, the Financial Accounting Standards Board issued SFAS No. 149, AMENDMENT OF STATEMENT 133 ON DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES. This statement amends and clarifies financial accounting and reporting for derivative instruments and for hedging activities under FASB No. 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES. As of March 31, 2005, the Company had no derivative or hedging activities.

In November 2004, the FASB issued SFAS No. 151, INVENTORY COSTS - AN AMENDMENT OF ARB NO. 43, CHAPTER 4. SFAS No. 151 requires that certain abnormal costs associated with the manufacturing, freight, and handling costs associated with inventory be charged to current operations in the period in which they are incurred. The adoption of SFAS 151 had no impact on the Company's financial position, results of operations, or cash flows.

In December 2004, the FASB issued a revision of SFAS No. 123, SHARE-BASED Payment. The statement establishes standards for the accounting for transactions in which an entity exchanges its equity investments for goods and services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. The statement does not change the accounting guidance for share-based payments with parties other than employees.

The statement requires a public entity to measure the cost of employee service received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exception). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award (usually the vesting period). A public entity will initially measure the cost of employee services received in exchange for an award of liability instrument based on its current fair value; the fair value of that award will be remeasured subsequently at each reporting date through the settlement date. Changes in fair value during the requisite service period will be recognized as compensation over that period.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

The grant-date for fair value of employee share options and similar instruments will be estimated using option-pricing models adjusted for the unique characteristics of these instruments.

The statement is effective for the quarter beginning January 1, 2006.

In December 2004, the FASB issued SFAS No. 153, EXCHANGES OF NONMONETARY ASSETS-AMENDMENT OF APB OPINION NO. 29. SFAS No. 153 eliminates the exception to fair value for exchanges of similar productive assets and replaces it with a general exception for exchange transactions that do not have commercial substance, defined as transactions that are not expected to result in significant changes in the cash flows of the reporting entity. This statement is effective for exchanges of nonmonetary assets occurring after June 15, 2005.

Management believes adoption of these new statements will not have any significant effect on the Company's financial condition or results of operations.

4. CONCENTRATIONS OF BUSINESS AND CREDIT RISK

Substantially all of the Company's bank accounts are in banks located in the PRC which are not protected by the FDIC insurance or other insurance.

12. INCOME TAX

Enterprise income tax ("EIT") in the PRC is provided on the basis of the statutory profit for financial reporting purposes, adjusted for income and expense items, which are not assessable or deductible for income tax purposes. Enterprise income tax has been provided in NVC Lighting's financial statements at the rate of 33% on the estimated assessable income derived during the year.

No provision for EIT has been made in the financial statements of NVC Industrial for the year ended December 31 2004 as NVC Industrial has been approved to be recognized as a joint foreign investment enterprise and is

ARTICLE VIII TERMINATION

8.1 TERMINATION.

- (a) This Agreement may be terminated by the board of directors of OraLabs or by the owners of NVC, shown on Schedule 1A attached hereto, at any time prior to the Closing Date if: (i) there shall be any actual or threatened action or proceeding before any court or any governmental body which shall seek to restrain, prohibit, or invalidate the transactions contemplated by this Agreement and which, in the judgment of such board of directors, made in good faith and based on the advice of its legal counsel, makes it inadvisable to proceed with the exchange contemplated by this Agreement; or (ii) any of the transactions contemplated hereby are disapproved by any regulatory authority whose approval is required to consummate such transactions or in the judgment of such board of directors, made in good faith and based on the advice of counsel, there is substantial likelihood that any such approval will not be obtained or will be obtained only on a condition or conditions which would be unduly burdensome, making it inadvisable to proceed with the exchange.. In the event of termination pursuant to this paragraph (a) of section 8.1, no obligation, right, or liability shall arise hereunder, and each party shall bear all of the expenses incurred by it in connection with the negotiation, drafting, and execution of this Agreement and the transactions herein contemplated, subject to Section 9.4.
- (b) This Agreement may be terminated at any time prior to the Closing by action of the board of directors of OraLabs if NVC shall fail to comply in any material respect with any of its covenants or agreements contained in this Agreement or if any of the representations or warranties of NVC contained herein shall be inaccurate in any material respect, or if there shall have been any change after the date of the latest balance sheets of NVC, in the assets, properties, business, or financial condition of NVC, which could have a materially adverse affect on the value of the business of NVC, except any changes disclosed in the NVC Schedules, dated as of the date of execution of this Agreement. If this Agreement is terminated pursuant to this paragraph (b) of section 8.1, this Agreement shall be of no further force or effect, and no obligation, right, or liability shall arise hereunder, except

that NVC shall bear its own costs in connection with the negotiation, preparation, and execution of this Agreement, subject to Section 9.4.

24

- (c) This Agreement may be terminated at any time prior to the Closing by action of the owners of NVC, shown on Schedule 1A attached hereto, if OraLabs shall fail to comply in any material respect with any of its covenants or agreements contained in this Agreement or if any of the representations or warranties of OraLabs contained herein shall be inaccurate in any material respect. If this Agreement is terminated pursuant to this paragraph (c) of section 8.1, this Agreement shall be of no further force or effect, and no obligation, right, or liability shall arise hereunder, except that OraLabs shall bear its own costs incurred in connection with the negotiation, preparation, and execution of this Agreement, subject to Section 9.4.
- (d) This Agreement may be terminated by either party if the transactions shall not have been consummated by June 30, 2005, which date will be extended to July 31, 2005 if the Proxy Statement or Information Statement has not then been cleared by the SEC or if such Statement was not cleared by the SEC by June 30, 2005, in either of which events such date may be extended at the written election of either party for a period not to exceed sixty days, or which date may in any case be extended by mutual agreement of the parties in writing. Provided, however, that the right to terminate the Agreement under this paragraph will not be available to a party whose action or failure to act has contributed to the failure of the transactions to be consummated on or before such date and such action or failure to act constitutes a material breach of this Agreement.
- (e) This Agreement may be terminated by either party if within 30 days after mutual execution of this Agreement, such party gives written notice to the other that it is not satisfied, in its sole and absolute discretion, with the results of its due diligence investigation of the other party.

OraLabs and NVC each agree to indemnify the other against any claim by any third person for any commission, brokerage, or finders' fee arising from the transactions contemplated hereby based on any alleged agreement or understanding between the indemnifying party and such third person, whether express or implied from the actions of the indemnifying party.

9.2 GOVERNING LAW. This Agreement shall be governed by, enforced, and construed under and in accordance with the laws of the United States of America and, with respect to matters of state law, with the internal laws of the State of Colorado without giving effect to its choice of law rules. Except as stated at the end of this paragraph, any dispute, controversy or claim arising under or in any way related to this Agreement or the breach thereof shall only be submitted to and settled by binding arbitration before a single arbitrator by

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

The arbitration (or legal proceedings described at the end of this paragraph) will only be conducted in Denver, Colorado, which the parties agree is the exclusive venue for the proceedings. Judgment upon the award rendered by the arbitrators may be entered in any court having jurisdiction thereof. The arbitrator may award reasonable attorneys fees to the prevailing party, or if the arbitrator believes that more than one party has prevailed in separate aspects of the arbitration, the arbitrator may award attorneys fees as it deems appropriate. Notice to NVC shall be deemed to be notice to all Shareholders for all purposes.

9.4 ATTORNEYS' FEES. In the event that any party institutes any arbitration proceeding or a litigation proceeding under Section 9.5 to interpret or enforce this Agreement or to secure relief from any default hereunder or breach hereof, the breaching party or parties shall reimburse the nonbreaching party or parties for all costs, including reasonable attorneys' fees, incurred in connection therewith and in enforcing or collecting any judgment rendered therein.

9.5 CONFIDENTIALITY. OraLabs on the one hand, and NVC and the Shareholders on the other hand, agree that for a period of five (5) years from and after the date of this Agreement (regardless of whether the transactions contemplated hereby are consummated), each will hold, and will cause its directors, officers, employees, affiliates, consultants and advisers (collectively, "Representatives") to hold, in confidence all documents and information furnished to it (the "Receiving Party") by or on behalf of the other party (the "Disclosing Party") either before or after such date, in connection with the transactions contemplated by this Agreement (the "Confidential Material"). Each party agrees that it will use the Confidential Material solely for the purpose of the transactions contemplated by this Agreement (including without limitation descriptions or attachments of Confidential Material in any press releases and public filings that OraLabs determines are necessary or advisable to comply with applicable securities laws or as required by law) and it will not use the Confidential Material in any way detrimental to the other party. In the event that either party is requested in any proceeding to disclose any Confidential Material, such party shall give the other party prompt notice of such request so that the other party may seek an appropriate protective order. If, in the absence of a protective order, a party is nonetheless compelled to disclose Confidential Material, such party may disclose such information without liability hereunder; provided, however, that such party will give the other party written notice of the information to be disclosed as far in advance of its disclosure as is practicable and, upon the request of and at the expense of such other party, such party will use commercially reasonable efforts to obtain assurances that confidential treatment will be accorded to such information. The term "Confidential Material" shall not include information that was or becomes generally available on a non-confidential basis provided that the source of such information was not bound by a confidentiality agreement. Without granting any right or license, the Disclosing Party agrees that the foregoing shall not apply to any information that the Receiving Party can document: (i) is (through no improper action or inaction by the Receiving Party or any affiliate, agent, consultant or employee) generally available to the public, or (ii) was in its possession or known by it prior to receipt from the Disclosing Party, or (iii) was rightfully disclosed to it by a third party without restriction, provided the Receiving Party complies with any restrictions imposed by the third

party, or (iv) was independently developed without use of any Confidential Material of the Disclosing Party by employees of the Receiving Party who have had no access to such information. The parties agree that because money damages may not be a sufficient remedy for any breach of the foregoing covenants and agreements, the Disclosing Party shall be entitled to specific performance and injunctive and other equitable relief as a remedy for any such breach of this Agreement in addition to all monetary remedies available at law or in equity.

27

9.6 EXPENSES OF STOCK EXCHANGE. OraLabs and NVC agree that they will each bear their own costs and expenses in negotiating and closing the transactions contemplated by this Agreement, including but not limited to, attorneys' fees, except as otherwise expressly provided in this Agreement.

This contract is solely between OraLabs, NVC and the Shareholders and, except as specifically provided, no director, officer, stockholder, member, employee, agent, independent contractor, or any other person or entity shall be deemed to be a third party beneficiary of this Agreement.

9.9 ENTIRE AGREEMENT. This Agreement represents the entire agreement between the parties relating to the subject matter hereof, including this Agreement alone fully and completely expresses the agreement of the parties relating to the subject matter hereof. There are no other courses of dealing, understandings, agreements, representations, or warranties, written or oral, except as set forth herein. The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision. Captions appearing in this Agreement are for convenience only and shall not be deemed to explain, limit or amplify the provisions of this Agreement.

9.10 SURVIVAL; TERMINATION. All representations, agreements, warranties and indemnities in this Agreement shall survive only for a period of one year following the Closing Date or termination of this Agreement (except that the provisions of Section 9.5 survive for a period of five years after the date of this Agreement), notwithstanding any investigation by or on behalf of any party, and will be null and void unless arbitration (or litigation under Section 9.5) is brought with respect thereto within one month after the expiration of survival. In addition, all other provisions of this Agreement which by their terms are to be performed after the Closing Date will survive for a period of one year following the Closing Date.

9.11 COUNTERPARTS. This Agreement may be executed in multiple counterparts, each of which shall be deemed an original and all of which taken together shall be but a single instrument.

9.12 AMENDMENT OR WAIVER. Every right and remedy provided herein shall be cumulative with every other right and remedy, whether conferred herein, at law, or in equity, and may be enforced concurrently herewith, and no waiver by any party of the performance of any obligation by the other shall be construed as a waiver of the same or any other default then, theretofore, or thereafter occurring or existing. At any time prior to the Closing Date, this Agreement may be amended by a writing signed by all parties hereto, with respect to any of the terms contained herein, and any term or condition of this Agreement may be

This Agreement shall inure to the benefit of and be enforceable by the permitted successors and assigns of the parties.

9.14 DRAFTS. The submittal of drafts and redrafts of this Agreement or of any other instrument(s) between the parties does not impose any legal obligation upon any party, which will arise only at such time as the parties choose in the exercise of their sole discretions to execute this Agreement.

ARTICLE 1

GENERAL PROVISIONS

1.1 PURPOSE. purpose of this Plan, Stock Option SARs and ISO Option SARs are sometimes collectively herein called "SARs;" and Stock Options and ISO Options are sometimes collectively herein called "Options." The ISO Options to be granted under the Plan are intended to be qualified pursuant to Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"); and the Stock Options to be granted are intended to be "non-qualified stock options" as described in Sections 83 and 421 of the Code. Furthermore, under the Plan, the terms "parent" and "subsidiary" shall have the same meaning as set forth in Subsections (e) and (f) of Section 425 of the Code unless the context herein clearly indicates to the contrary.

1.2 GENERAL. The terms and provisions of this Article I shall be applicable to Stock Options, SARs and ISO Options unless the context herein clearly indicates to the contrary.

1.3 ADMINISTRATION OF THE PLAN. The Plan shall be administered by the Stock Plan Committee (the "Committee") appointed by the Board of Directors (the "Board") of the Company and consisting of at least two (2) members from the Board. Unless otherwise provided in the Plan, the Committee shall have the authority to interpret and construe the Plan, and determine all questions arising under the Plan and any agreement made pursuant to the Plan. Any interpretation, decision or determination made by the Committee shall be final, binding and conclusive. A majority of the Committee shall constitute a quorum, and an act of the majority of the members present at any meeting at which a quorum is present shall be the act of the Committee.

1.4 SHARES SUBJECT TO THE PLAN. Shares of stock ("Stock") covered by Stock Options, SARs, ISO Options and stock bonuses shall consist of 2,000,000 shares of the Common Stock, \$.001 par value, of the Company. However, neither Stock Options, SARs nor ISO Options shall be granted again for shares of Stock which have been subject to SARs which are surrendered in exchange for cash or shares of Stock issued pursuant to the exercise of SARs as provided in Article II hereof.

1.5 PARTICIPATION IN THE PLAN. The Committee shall determine from time to time those Participants who are to be granted Stock Options, SARs, ISO Options and stock bonuses and the number of shares of Stock covered thereby. The aggregate number of shares of Stock under Stock Options and ISO Options granted under the Plan, the Option Price and the ISO Price and the total number of shares of Stock which may be purchased by a Participant on exercise of a Stock Option and an ISO Option shall be approximately adjusted by the Committee to reflect any recapitalization, stock split, merger, consolidation, reorganization, combination, liquidation, stock dividend or similar transaction involving the Company except that a dissolution or liquidation of the Company or a merger or consolidation in which the Company is not the surviving or the resulting corporation, shall cause the Plan and any Stock Option, SAR or ISO Option granted thereunder, to terminate upon the effective date of such dissolution, liquidation, merger or consolidation. Provided, that for the purposes of this Section 1.7, if any merger, consolidation or combination occurs in which the Company is not the surviving corporation and is the result of a mere change in the identity, form or place of organization of the Company accomplished in accordance with Section 368(a)(1)(F) of the Code, then, such event will not cause a termination. Appropriate adjustment may also be made by the Committee in the terms of a SAR to reflect any of the foregoing changes.

1.8 AMENDMENT AND TERMINATION OF THE PLAN. The Plan shall terminate at midnight, February____, 2008, but prior thereto may be altered, changed, modified, amended or terminated by written amendment approved by the Board. Provided, that no action of the Board may, without the approval of the shareholders, increase the aggregate number of shares of Stock which may be purchased under Stock Options, SARs or ISO Options or stock bonuses granted under the Plan; withdraw the administration of the Plan from the Committee; amend or alter the Option Price or ISO Price, as applicable; change the manner of computing the spread upon the exercise of a SAR or amend the Plan in any manner which would impair the applicability of Rule 16b-3 under the Securities Exchange Act of 1934, as amended, to the Plan. Except as provided in this Article I, no amendment, modification or termination of the Plan shall in any manner adversely affect any Stock Option, SAR or ISO Option theretofore granted under the Plan without the consent of the affected Participant.

1.9 EFFECTIVE DATE. The Plan shall be effective February ____, 2005, subject to approval by the holders of a majority of the Common Stock of the Company entitled to vote at a meeting called for such purpose. The Plan will terminate at midnight on February ____, 2008.

1.10 SECURITIES LAW REQUIREMENTS. The Company shall have no obligation or liability to issue any Stock hereunder unless the issuance of such shares would comply with any applicable federal or state securities laws or any other applicable law or regulations thereunder, including but not limited to the effectiveness of a Form S-8 registration statement filed with the U.S. Securities Exchange Commission.

1.11 SEPARATE CERTIFICATES. Separate certificates representing the Common Stock of the Company to be delivered to a Participant upon the exercise of any Stock Option, SAR, or ISO Option will be issued to such Participant.

1.12 PAYMENT FOR STOCK; RECEIPT OF STOCK OR CASH IN LIEU OF PAYMENT.

(A) PAYMENT FOR STOCK. Payment for shares of Stock purchased under this Plan shall be made in full and in cash or check made payable to the Company. Provided, payment for shares of Stock purchased under this Plan may also be made in Common Stock of the Company or a combination of cash and Common Stock of the Company in the event that the purchase of shares is pursuant to the exercise of rights under an SAR attached to the Option and which is exercisable on the date of exercise of the Option. In the event that Common Stock of the Company is utilized in consideration for the purchase of Stock upon the exercise of a Stock Option or an ISO Option, then, such Common Stock shall be valued at the "fair market value" as defined in Section 1.6 of the Plan.

(B) In the alternative, the Committee is authorized to agree to accept an assignment of the proceeds from the sale of the Common Stock to be issued to a Participant for the payment of the option price, if daily executed by a Participant so notarized in sub form deemed necessary and appropriate by The Company in its sole description and acknowledged by the broker-dealer retained by the Participant for a resale of The Common Stock of The Company.

(C) RECEIPT OF STOCK OR CASH IN LIEU OF PAYMENT. Furthermore, a Participant may exercise an Option without payment of the Option Price or ISO Price in the event that the exercise is pursuant to rights under an SAR attached to the Option and which is exercisable on the date of exercise of the Option. In the event an Option with an SAR attached is exercised without payment of the Option Price or ISO Price, the Participant shall be entitled to receive either (i) a cash payment from the Company equal to the excess of the total fair market value of the shares of Stock on such date as determined with respect to which the Option is being exercised over the total cash Option Price or ISO Price of such shares of Stock as set forth in the Option or (ii) that number of whole shares of Stock as is determined by dividing (A) an amount equal to the fair market value per share of Stock on the date of exercise into (B) an amount equal to the excess of the total fair market value of the shares of Stock on such date with respect to which the Option is being exercised over the total cash Option Price or ISO Price of such shares of Stock as set forth in the Option, and fractional shares will be rounded to the next lowest number and the Participant will receive cash in lieu thereof.

1.13 INCURRENCE OF DISABILITY AND RETIREMENT. A Participant shall be deemed to have terminated employment or consulting and incurred a disability ("Disability") if such Participant suffers a physical or mental condition which, in the judgment of the Committee, totally and permanently prevents a Participant from engaging in any substantial gainful employment or consulting with the Company or a subsidiary. A Participant shall be deemed to have terminated employment as an employee or a consultant due to retirement ("Retirement") if such Participant ceases to be an employee or a consultant of the Company or its subsidiary, without cause, after attaining the age of 65.

1.14 STOCK OPTIONS AND ISO OPTIONS GRANTED SEPARATELY. Since the Committee is authorized to grant Stock Options, SARs and ISO Options to Participants, the grant thereof and Stock Option Agreements relating thereto will be made separately and totally independent of each other. Except as it relates to the

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

total number of shares of Stock which may be issued under the Plan, the grant or exercise of a Stock Option or SARs shall in no manner affect the grant and exercise of any ISO Options. Similarly, the grant and exercise of any ISO Option shall in no manner affect the grant and exercise of any Stock Option or SARs.

1.15 GRANTS OF OPTIONS AND STOCK OPTION AGREEMENT. Each Stock Option, ISO Option and/or SAR granted under this Plan shall be evidenced by the minutes of a meeting of the Committee or by the written consent of the Committee and by a written Stock Option Agreement effective on the date of grant and executed by the Company and the Participant. Each Option granted hereunder shall contain such terms, restrictions and conditions as the Committee may determine, which terms, restrictions and conditions may or may not be the same in each case.

1.16 USE OF PROCEEDS. The proceeds received by the Company from the sale of Stock pursuant to the exercise of Options granted under the Plan shall be added to the Company's general funds and used for general corporate purposes.

1.17 NON-TRANSFERABILITY OF OPTIONS. Except as otherwise herein provided, any Option or SAR granted shall not be transferable otherwise than by will or the laws of descent and distribution, and the Option may be exercised, during the lifetime of the Participant, only by him or her. More particularly (but without limiting the generality of the foregoing), the Option and/or SAR may not be assigned, transferred (except as provided above), pledged or hypothecated in any way, shall not be assignable by operation of law and shall not be subject to execution, attachment, or similar process. Any attempted assignment, transfer, pledge, hypothecation, or other disposition of the Option and/or SAR contrary to the provisions hereof shall be null and void and without effect.

1.18 ADDITIONAL DOCUMENTS ON DEATH OF PARTICIPANT. No transfer of an Option and/or SAR by the Participant by will or the laws of descent and distribution shall be effective to bind the Company unless the Company shall have been furnished with written notice and an unauthenticated copy of the will and/or such other evidence as the Committee may deem necessary to establish the validity of the transfer and the acceptance by the successor to the Option and/or SAR of the terms and conditions of such Option and/or SAR.

1.19 CHANGES IN EMPLOYMENT. So long as the Participant shall continue to be an employee or consultant of the Company or any one of its subsidiaries, any Option granted to him shall not be affected by any change of duties or position. Nothing in the Plan or in any Stock Option Agreement which relates to the Plan shall confer upon any Participant any right to continue in the employ as an employee or consultant of the Company or of any of its subsidiaries, or interfere in any way with the right of the Company or any of its subsidiaries to terminate his employment or consulting arrangement at any time.

1.20 SHAREHOLDER RIGHTS. No Participant shall have a right as a shareholder with respect to any shares of Stock subject to an Option prior to the purchase of such shares of Stock by exercise of the Option.

1.21 RIGHT TO EXERCISE UPON COMPANY CEASING TO EXIST. Where dissolution or liquidation of the Company or any merger consolidation or combination in which the Company is not the surviving corporation occurs, the Participant shall have the right immediately prior to such dissolution, liquidation, merger, consolidation or combination, as the case may be, to exercise, in whole or in part, his then remaining Options whether or not then exercisable, but limited to that number of shares that can be acquired without causing the Participant to have an "excess parachute payment" as determined under Section 280G of the Code determined by taking into account all of Participant's "parachute payments" determined under Section 280G of the Code. Provided, the foregoing notwithstanding, after the Participant has been afforded the opportunity to exercise his then remaining Options as provided in this Section 1.21, and to the extent such Options are not timely exercised as provided in this Section 1.21,

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

then, the terms and provisions of this Plan and any Stock Option Agreement will thereafter continue in effect, and the Participant will be entitled to exercise any such remaining and unexercised Options in accordance with the terms and provisions of this Plan and such Stock Option Agreement as such Options thereafter become exercisable. Provided further, that for the purposes of this Section 1.21, if any merger, consolidation or combination occurs in which the Company is not the surviving corporation and is the result of a mere change in the identity, form, or place of organization of the Company accomplished in accordance with Section 368(a)(1)(F) of the Code, then, such event shall not cause an acceleration of the exercisability of any such Options granted hereunder.

1.22 ASSUMPTION OF OUTSTANDING OPTIONS AND SARs. To the extent permitted by the then applicable provisions of the Code, any successor to the Company succeeding to, or assigned the business of, the Company as the result of or in connection with a corporate merger, consolidation, combination, reorganization or liquidation transaction shall assume Options and SARs outstanding under the Plan or issue new Options and/or SARs in place of outstanding Options and/or SARs under the Plan.

ARTICLE III

SARS

3.1 GENERAL TERMS.

(A) GRANT AND TERMS OF SARS. The Committee, when comprised of three or more Directors all of whom are Disinterested Directors, may grant SARS to Participants in connection with Stock Options or ISO Options granted under the Plan. SARS shall not be exercisable (i) at such time that the Committee is comprised of less than three Disinterested Directors or is not comprised solely of Disinterested Directors, (ii) earlier than six months from the date of grant except as specifically provided in Subsection 3.1(b) hereof in the case of the death or Disability of a Participant, and (iii) shall terminate at such time as the Committee determines and shall be exercised only upon surrender of the related Stock Option or ISO Option and only to the extent that the related Stock Option or ISO Option (or the portion thereof as to which the SAR is exercisable) is exercised. SARS may be exercised only by the Participant while actively employed as an employee or a consultant by the Company or a subsidiary except that (i) any SARS previously granted to a Participant which are otherwise exercisable may be exercised, with the approval of the Committee, by the personal representative of a deceased Participant, even if such death should occur within six months of the date of grant (but not beyond the expiration date of such SAR), and (ii) if a Participant terminates his employment as an employee or a consultant with the Company or a subsidiary, as the case may be, on account of Retirement or incurring a Disability, such Participant may exercise any SARS which are otherwise exercisable, with the approval of the Committee, anytime

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

within three months of the date of the termination by Retirement or within 12 months of termination by Disability. If a Participant should die during the applicable three-month period following the date of such Participant's Retirement or during the applicable 12 month period following the date of termination on account of Disability, the rights of the personal representative of such deceased Participant as such relate to any SARs granted to such deceased Participant shall be governed in accordance with (i) of the second sentence of this Subsection 3.1(a) of this Article III. The applicable SAR shall (i) terminate upon the termination of the underlying Stock Option or ISO Option, as the case may be, (ii) only be transferable at the same time and under the same conditions as the underlying Stock Option or ISO Option is transferable, (iii) only be exercised when the underlying Stock Option or ISO Option is exercised, and (iv) may be exercised only if there is a positive spread between the Option Price or ISO Price, as applicable and the "fair market value" of the Stock for which the SAR is exercised.

(B) ACCELERATION OF OTHERWISE UNEXERCISABLE SARs ON RETIREMENT, DEATH, DISABILITY OR OTHER SPECIAL CIRCUMSTANCES. The Committee, in its sole discretion, may permit (i) a Participant who terminates employment as an employee or a consultant with the Company or a subsidiary due to Retirement, (ii) a Participant who terminates employment as an employee or a consultant with the Company or a subsidiary due to a Disability, (iii) the personal representative of such deceased Participant, or (iv) any other Participant who terminates employment as an employee or a consultant with the Company or a subsidiary upon the occurrence of special circumstances (as determined by the Committee) to exercise (within three months of such date of termination of such employment or 12 months in the case of a disabled or deceased Participant) all or any part of any such SARs previously granted to such Participant as of the date of such Participant's Retirement, Disability, death, or as the Committee otherwise so determines, notwithstanding that all installments, if any with respect to such SARs, had not accrued on such date. Provided, such discretionary authority of the Committee may not be exercised with respect to any SAR (or portion thereof if the applicable six-month waiting period for exercise had not expired as of such date, except (i) in the event of the Disability of the Participant or (ii) the death of the Participant, when such disabled Participant or the personal representative of such deceased Participant may, with the consent of the Committee, exercise such SARs notwithstanding the fact that the applicable six-month waiting period had not yet expired.

(C) FORM OF PAYMENT OF SARs. The Participant may request the method and combination of payment upon the exercise of a SAR; however, the Committee has the final authority to determine whether the value of the SAR shall be paid in cash or shares of Stock or both. Upon exercise of a SAR, the holder is entitled to receive the excess amount of the "fair market value" of the Stock (as of the date of exercise) for which the SAR is exercised over the Option Price or ISO Price, as applicable, under the related Stock Option or ISO Option, as the case may be. All applicable federal and state withholding taxes will be paid by the Participant to the Company upon the exercise of a SAR since the excess amount described above will be required to be included within taxable income in accordance with Sections 61 and 83 of the Code.

(D) DISINTERESTED DIRECTORS. As used in this Article III, "Disinterested Directors" shall have the same meaning as the term "disinterested person" set forth in Rule 16b-3(d) under the Securities Exchange Act of 1934, as amended, and shall mean a Director who is not at the time he exercises discretion in administering the Plan eligible, and has not at any time within one year prior thereto been eligible for selection as a person to whom stock may be allocated or to whom stock options or stock appreciation rights may be granted pursuant to the Plan or any other plan of the Company or its affiliates entitling the participants therein to acquire stock, stock options or stock appreciation rights of the Company or any of its affiliates; provided, however, that in the event that the definition of "disinterested person" contained in

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

DATED AS OF FEBRUARY 23, 2005

This First Amendment ("Amendment") is dated for referenced purposes only June 20, 2005, and is by and between ORALABS HOLDING CORP., a Colorado corporation ("OraLabs"), NVC LIGHTING INVESTMENT HOLDINGS LIMITED ("NVC"), and Messrs. Chang-Jiang Wu, Yong-Hong Hu and Gang Du (the "Shareholders").

WHEREAS, the parties entered into a Stock Exchange Agreement dated as of February 23, 2005, as amended by a Letter Agreement dated March 21, 2005 (collectively, the "Original Agreement"); and

WHEREAS, the parties wish to amend the Original Agreement as set forth herein.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which is acknowledged, the parties agree as follows:

1. Except as modified by this Amendment, all provisions of the Original Agreement remain in effect. Capitalized terms used in this Amendment that are not otherwise defined herein, have the same meanings as set forth in the Original Agreement. In the event of a conflict between any provision of this Amendment and any provision of the Original Agreement, the provision of this Amendment will prevail.

2. NVC has delivered to OraLabs its Consolidated Financial Statements as of December 31, 2004 ("Financial Statements"), including the Report of Independent Registered Public Accounting Firm. The Consolidated Statement of Operations included in the Financial Statements shows Net Income for the year ended December 31, 2004, in the amount of \$7,105,027.00.

3. The parties acknowledge that under Section 1.1 of the Original Agreement, the percentage of shares of OraLabs to be issued to the Shareholders at Closing is 94 percent to the extent that there is more than \$7,000,000 of net after tax profits on a consolidated basis for the fiscal year ended December 31, 2004. Accordingly, the parties agree that, unless there is subsequently any restatement of or other revision or adjustment to the Financial Statements that reduces to below \$7,000,000.00 the amount of consolidated net after tax profits

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

for the fiscal year ended December 31, 2004, then the number of shares to be issued to the Shareholders will equal 94 percent of the fully diluted, total issued and outstanding shares of common stock of OraLabs upon completion of the Closing. The fully diluted, total issued and outstanding shares of common stock of OraLabs will include the shares currently outstanding plus shares to be issued at or before Closing as provided in the Original Agreement or otherwise.

4. As a result of delays in delivery of the audited NVC Financial Statements and OraLabs has yet not delivered a fairness opinion from an appropriate source that the terms of this Agreement and the transactions contemplated hereby are fair to the shareholders of OraLabs from a financial standpoint, the parties wish to confirm certain time periods in the Original Agreement to reflect existing circumstances. Accordingly, the following provisions of the Original Agreement are modified:

o The first sentence of Section 8.1(d) will read as follows: "This Agreement may be terminated by either party if the transaction shall not have been consummated or cleared by the SEC on or before September 30, 2005, which date may be extended for a period not to exceed 45 days if the Proxy Statement or Information Statement shall has been cleared by the SEC on or before September 30, 2005, and which date may only be extended by mutual agreement of the parties in writing."

o The final sentence of Section 1.3 will read as follows: "Notwithstanding the foregoing, if this Agreement does not close by September 30, 2005, either party may terminate this Agreement unless that date is extended under Section 8.1(d)."

o The NVC financial statements for the first quarter of 2005, which were required to be delivered by April 30, 2005 in accordance with the provisions of Section 2.3(c), must be delivered by June 30, 2005.

o Under the Letter Agreement, OraLabs was given ten business days after receipt of all requested due diligence information within which to advise NVC of its satisfaction or dissatisfaction with the results of its due diligence investigation, and the right to terminate the Agreement if it is not satisfied with such results. Additional due diligence information was delivered to OraLabs on May 5, 2005, after the April 11, 2005 deadline in the Letter Agreement. OraLabs has advised NVC that it will be presenting follow-up questions with respect to the supplied due diligence materials. Accordingly, the parties agree that OraLabs will continue to have ten business days after it receives the responses to its follow-up due diligence requests within which to advise NVC of its satisfaction or dissatisfaction with the results of the due diligence information, and the right to terminate the Agreement if it is dissatisfied.

5. This Amendment may be executed in multiple counterparts, each of which shall be deemed an original and all of which taken together shall be but a single instrument. Facsimile and electronic signatures shall be accepted as originals.

IN WITNESS WHEREOF, the parties have executed this Amendment as of the date first written above.

Gentlemen:

Pursuant to the Stock Exchange Agreement ("Exchange Agreement"), dated as of February 23, 2005 and amended as of June 20, 2005, by and among OraLabs Holding Corp. We have been retained by the Independent Committee of the Board of Directors to render an opinion as to whether, on the date of such opinion, the Transaction is fair, from a financial point of view, to the Company's nonaffiliated shareholders.

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

We were not asked to consider, and our opinion does not address, the relative merits of the Transaction as compared to any alternative business strategy that might exist for the Company. We were not engaged to seek alternatives to the Transaction that might exist for the Company.

- o Reviewed financial information and other data with respect to NVC, including the audited financial report for the three years ended December 31, 2004, and management-prepared financial statements for the three months ended March 31, 2005.
- o Reviewed the Transaction's pro forma impact on the Company's nonaffiliated shareholders' ownership interest in OraLabs.
- o Considered the historical financial results and present financial condition of OraLabs and NVC.
- o Reviewed certain publicly available information concerning the trading of, and the market for, the common stock of OraLabs, the Comparable Companies (as hereinafter defined), and a general market index.
- o Reviewed and compared the OraLabs nonaffiliated shareholders' (i) aggregate pre-announcement market value, and (ii) aggregate indicated value on a pre-Transaction basis to the nonaffiliated shareholders' aggregate indicated value on a Post-Transaction basis.
- o Reviewed and analyzed certain financial characteristics of companies that were deemed to have characteristics comparable to OraLabs and NVC.
- o Reviewed and analyzed certain financial characteristics of target companies in transactions where such target company was deemed to have characteristics comparable to those of OraLabs and NVC.
- o Reviewed and analyzed the control premiums paid in certain other transactions.
- o Reviewed and discussed with representatives of OraLabs and NVC certain financial and operating information furnished by them, including financial analyses with respect to their respective business and operations.
- o Performed such other analyses and examinations as were deemed appropriate.

In arriving at our opinion we have relied upon and assumed the accuracy and completeness of all of the financial and other information that was used by us without assuming any responsibility for any independent verification of any such information and we further relied upon the assurances of management of the

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

Company and NVC that they are not aware of any facts or circumstances that would make any such information inaccurate or misleading. With respect to the financial information utilized, we assumed that such information has been reasonably prepared on a basis reflecting the best currently available estimates and judgments, and that such information provides a reasonable basis upon which we could make our analyses and form an opinion. We have not made a physical inspection of the properties and facilities of the Company or NVC and have not made or obtained any evaluations or appraisals of the assets and liabilities (contingent or otherwise) of the Company and NVC. We have not attempted to confirm if the Company and NVC have good title to its respective assets.

We assumed that the Transaction will be consummated in a manner that complies in all respects with the applicable provisions of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and all other applicable federal and state statutes, rules and regulations. In addition, we assumed that the Transaction will comply with all applicable non-U.S. laws, regulations and statutes. Further, based upon discussions with Company management, it is assumed that the Transaction will not be a taxable event to the Company's shareholders. We further assumed that the Transaction will be consummated substantially in accordance with the terms set forth in the Agreement, without any further amendments thereto, and without waiver by the Company of any of the conditions to any obligations or in the alternative that any such amendments, revisions or waivers thereto will not be detrimental to the Company or the Company's nonaffiliated shareholders.

Our opinion is necessarily based upon market, economic and other conditions, as they exist on, and could be evaluated as of August 10, 2005. Accordingly, although subsequent developments may affect our opinion, we do not assume any obligation to update, review or reaffirm our opinion.

Our opinion is for the use and benefit of the Independent Committee of the Board of Directors in connection with its consideration of the Transaction and is not intended to be and does not constitute a recommendation to any shareholder of the Company as to how such shareholder should vote with respect to the Transaction. Further, we do not express any opinion as to the underlying valuation or future performance of the Company or NVC or the price at which either the Company's or NVC's common stock would trade at any time in the future.

Based upon and subject to the foregoing, it is our opinion that, as of the date of this letter, the Transaction is fair, from a financial point of view, to the Company's nonaffiliated shareholders.

In connection with our services, we have previously received a retainer and will receive the balance of our fee upon the rendering of this opinion. Neither Capitalink nor its principals beneficially own any interest in the Company or NVC. Capitalink has not provided any services to the Company within the past two years. Our opinion is for the use and benefit of the Independent Committee of the Board of Directors and is rendered in connection with its consideration of the

(1) A shareholder, whether or not entitled to vote, is entitled to dissent and obtain payment of the fair value of the shareholder's shares in the event of any of the following corporate actions:

(a) Consummation of a plan of merger to which the corporation is a party if:

(I) Approval by the shareholders of that corporation is required for the merger by section 7-111-103 or 7-111-104 or by the articles of incorporation; or

(d) Consummation of a sale, lease, exchange, or other disposition of all, or substantially all, of the property of an entity controlled by the corporation if the shareholders of the corporation were entitled to vote upon the consent of the corporation to the disposition pursuant to section 7-112-102(2).

(1.3) A shareholder is not entitled to dissent and obtain payment, under subsection (1) of this section, of the fair value of the shares of any class or series of shares which either were listed on a national securities exchange registered under the federal "Securities Exchange Act of 1934", as amended, [FN1] or on the national market system of the national association of securities dealers automated quotation system, or were held of record by more than two thousand shareholders, at the time of:

(c) Cash in lieu of fractional shares; or

(d) Any combination of the foregoing described shares or cash in lieu of fractional shares.

(2.5) A shareholder, whether or not entitled to vote, is entitled to dissent and obtain payment of the fair value of the shareholder's shares in the event of a reverse split that reduces the number of shares owned by the shareholder to a fraction of a share or to scrip if the fractional share or scrip so created is to be acquired for cash or the scrip is to be voided under section 7-106-104.

(3) A shareholder is entitled to dissent and obtain payment of the fair value of the shareholder's shares in the event of any corporate action to the extent provided by the bylaws or a resolution of the board of directors.

(4) A shareholder entitled to dissent and obtain payment for the shareholder's shares under this article may not challenge the corporate action creating such entitlement unless the action is unlawful or fraudulent with respect to the shareholder or the corporation.

ss. 7-113-103. Dissent by nominees and beneficial owners

(1) A record shareholder may assert dissenters' rights as to fewer than all the shares registered in the record shareholder's name only if the record shareholder dissents with respect to all shares beneficially owned by any one person and causes the corporation to receive written notice which states such dissent and the name, address, and federal taxpayer identification number, if any, of each person on whose behalf the record shareholder asserts dissenters' rights. The rights of a record shareholder under this subsection (1) are determined as if the shares as to which the record shareholder dissents and the other shares of the record shareholder were registered in the names of different shareholders.

(2) A beneficial shareholder may assert dissenters' rights as to the shares held on the beneficial shareholder's behalf only if:

(a) The beneficial shareholder causes the corporation to receive the record shareholder's written consent to the dissent not later than the time the beneficial shareholder asserts dissenters' rights; and

(b) The beneficial shareholder dissents with respect to all shares beneficially owned by the beneficial shareholder.

(3) The corporation may require that, when a record shareholder dissents with respect to the shares held by any one or more beneficial shareholders, each such beneficial shareholder must certify to the corporation that the beneficial shareholder and the record shareholder or record shareholders of all shares owned beneficially by the beneficial shareholder have asserted, or will timely assert, dissenters' rights as to all such shares as to which there is no limitation on the ability to exercise dissenters' rights. Any such requirement shall be stated in the dissenters' notice given pursuant to section 7-113- 203.

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

ss. 7-113-201. Notice of dissenters' rights

(1) If a proposed corporate action creating dissenters' rights under section 7-113-102 is submitted to a vote at a shareholders' meeting, the notice of the meeting shall be given to all shareholders, whether or not entitled to vote. The notice shall state that shareholders are or may be entitled to assert dissenters' rights under this article and shall be accompanied by a copy of this article and the materials, if any, that, under articles 101 to 117 of this title, are required to be given to shareholders entitled to vote on the proposed action at the meeting. Failure to give notice as provided by this subsection (1) shall not affect any action taken at the shareholders' meeting for which the notice was to have been given, but any shareholder who was entitled to dissent but who was not given such notice shall not be precluded from demanding payment for the shareholder's shares under this article by reason of the shareholder's failure to comply with the provisions of section 7-113-202(1).

(2) If a proposed corporate action creating dissenters' rights under section 7-113-102 is authorized without a meeting of shareholders pursuant to section 7-107-104, any written or oral solicitation of a shareholder to execute a writing consenting to such action contemplated in section 7-107-104 shall be accompanied or preceded by a written notice stating that shareholders are or may be entitled to assert dissenters' rights under this article, by a copy of this article, and by the materials, if any, that, under articles 101 to 117 of this title, would have been required to be given to shareholders entitled to vote on the proposed action if the proposed action were submitted to a vote at a shareholders' meeting. Failure to give notice as provided by this subsection (2) shall not affect any action taken pursuant to section 7-107-104 for which the notice was to have been given, but any shareholder who was entitled to dissent but who was not given such notice shall not be precluded from demanding payment for the shareholder's shares under this article by reason of the shareholder's failure to comply with the provisions of section 7-113-202(2).

ss. 7-113-202. Notice of intent to demand payment

(1) If a proposed corporate action creating dissenters' rights under section 7-113-102 is submitted to a vote at a shareholders' meeting and if notice of dissenters' rights has been given to such shareholder in connection with the action pursuant to section 7-113-201(1), a shareholder who wishes to assert dissenters' rights shall:

(a) Cause the corporation to receive, before the vote is taken, written notice of the shareholder's intention to demand payment for the shareholder's shares if the proposed corporate action is effectuated; and

(b) Not vote the shares in favor of the proposed corporate action.

(2) If a proposed corporate action creating dissenters' rights under section 7-113-102 is authorized without a meeting of shareholders pursuant to section 7-107-104 and if notice of dissenters' rights has been given to such shareholder in connection with the action pursuant to section 7-113-201(2), a shareholder who wishes to assert dissenters' rights shall not execute a writing consenting to the proposed corporate action.

(3) A shareholder who does not satisfy the requirements of subsection (1) or (2) of this section is not entitled to demand payment for the shareholder's shares

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

under this article.

ss. 7-113-203. Dissenters' notice

(2) The dissenters' notice required by subsection (1) of this section shall be given no later than ten days after the effective date of the corporate action creating dissenters' rights under section 7-113-102 and shall:

(b) State an address at which the corporation will receive payment demands and the address of a place where certificates for certificated shares must be deposited;

(c) Inform holders of uncertificated shares to what extent transfer of the shares will be restricted after the payment demand is received;

(d) Supply a form for demanding payment, which form shall request a dissenter to state an address to which payment is to be made;

(e) Set the date by which the corporation must receive the payment demand and certificates for certificated shares, which date shall not be less than thirty days after the date the notice required by subsection (1) of this section is given;

(f) State the requirement contemplated in section 7-113-103(3), if such requirement is imposed; and

(g) Be accompanied by a copy of this article.

ss. 7-113-204. Procedure to demand payment

(1) A shareholder who is given a dissenters' notice pursuant to section 7-113-203 and who wishes to assert dissenters' rights shall, in accordance with the terms of the dissenters' notice:

(a) Cause the corporation to receive a payment demand, which may be the payment demand form contemplated in section 7-113-203(2) (d), duly completed, or may be stated in another writing; and

(b) Deposit the shareholder's certificates for certificated shares.

(2) A shareholder who demands payment in accordance with subsection (1) of this section retains all rights of a shareholder, except the right to transfer the shares, until the effective date of the proposed corporate action giving rise to the shareholder's exercise of dissenters' rights and has only the right to receive payment for the shares after the effective date of such corporate action.

(3) Except as provided in section 7-113-207 or 7-113-209(1) (b), the demand for

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

payment and deposit of certificates are irrevocable.

(4) A shareholder who does not demand payment and deposit the shareholder's share certificates as required by the date or dates set in the dissenters' notice is not entitled to payment for the shares under this article.

ss. 7-113-205. Uncertificated shares

(1) Upon receipt of a demand for payment under section 7-113-204 from a shareholder holding uncertificated shares, and in lieu of the deposit of certificates representing the shares, the corporation may restrict the transfer thereof.

(2) In all other respects, the provisions of section 7-113-204 shall be applicable to shareholders who own uncertificated shares.

ss. 7-113-206. Payment

(1) Except as provided in section 7-113-208, upon the effective date of the corporate action creating dissenters' rights under section 7-113-102 or upon receipt of a payment demand pursuant to section 7-113-204, whichever is later, the corporation shall pay each dissenter who complied with section 7- 113-204, at the address stated in the payment demand, or if no such address is stated in the payment demand, at the address shown on the corporation's current record of shareholders for the record shareholder holding the dissenter's shares, the amount the corporation estimates to be the fair value of the dissenter's shares, plus accrued interest.

(2) The payment made pursuant to subsection (1) of this section shall be accompanied by:

(a) The corporation's balance sheet as of the end of its most recent fiscal year or, if that is not available, the corporation's balance sheet as of the end of a fiscal year ending not more than sixteen months before the date of payment, an income statement for that year, and, if the corporation customarily provides such statements to shareholders, a statement of changes in shareholders' equity for that year and a statement of cash flow for that year, which balance sheet and statements shall have been audited if the corporation customarily provides audited financial statements to shareholders, as well as the latest available financial statements, if any, for the interim or full-year period, which financial statements need not be audited;

(b) A statement of the corporation's estimate of the fair value of the shares;

(c) An explanation of how the interest was calculated;

(d) A statement of the dissenter's right to demand payment under section 7-113-209; and

(e) A copy of this article.

ss. 7-113-207. Failure to take action

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

(1) If the effective date of the corporate action creating dissenters' rights under section 7-113-102 does not occur within sixty days after the date set by the corporation by which the corporation must receive the payment demand as provided in section 7-113-203, the corporation shall return the deposited certificates and release the transfer restrictions imposed on uncertificated shares.

(2) If the effective date of the corporate action creating dissenters' rights under section 7-113-102 occurs more than sixty days after the date set by the corporation by which the corporation must receive the payment demand as provided in section 7-113-203, then the corporation shall send a new dissenters' notice, as provided in section 7-113-203, and the provisions of sections 7-113-204 to 7-113-209 shall again be applicable.

ss. 7-113-208. Special provisions relating to shares acquired after announcement

of proposed corporate action

(1) The corporation may, in or with the dissenters' notice given pursuant to section 7-113-203, state the date of the first announcement to news media or to shareholders of the terms of the proposed corporate action creating dissenters' rights under section 7-113-102 and state that the dissenter shall certify in writing, in or with the dissenter's payment demand under section 7-113-204, whether or not the dissenter (or the person on whose behalf dissenters' rights are asserted) acquired beneficial ownership of the shares before that date. With respect to any dissenter who does not so certify in writing, in or with the payment demand, that the dissenter or the person on whose behalf the dissenter asserts dissenters' rights acquired beneficial ownership of the shares before such date, the corporation may, in lieu of making the payment provided in section 7-113-206, offer to make such payment if the dissenter agrees to accept it in full satisfaction of the demand.

(2) An offer to make payment under subsection (1) of this section shall include or be accompanied by the information required by section 7-113-206(2).

ss. 7-113-209. Procedure if dissenter is dissatisfied with payment or offer

(1) A dissenter may give notice to the corporation in writing of the dissenter's estimate of the fair value of the dissenter's shares and of the amount of interest due and may demand payment of such estimate, less any payment made under section 7-113-206, or reject the corporation's offer under section 7-113-208 and demand payment of the fair value of the shares and interest due, if:

(a) The dissenter believes that the amount paid under section 7-113-206 or offered under section 7-113-208 is less than the fair value of the shares or that the interest due was incorrectly calculated;

(b) The corporation fails to make payment under section 7-113-206 within sixty days after the date set by the corporation by which the corporation must receive the payment demand; or

(c) The corporation does not return the deposited certificates or release the transfer restrictions imposed on uncertificated shares as required by section 7-113-207(1).

Edgar Filing: ORALABS HOLDING CORP - Form PREM14A

(2) A dissenter waives the right to demand payment under this section unless the dissenter causes the corporation to receive the notice required by subsection (1) of this section within thirty days after the corporation made or offered payment for the dissenter's shares.

ss. 7-113-301. Court action

(1) If a demand for payment under section 7-113-209 remains unresolved, the corporation may, within sixty days after receiving the payment demand, commence a proceeding and petition the court to determine the fair value of the shares and accrued interest. If the corporation does not commence the proceeding within the sixty-day period, it shall pay to each dissenter whose demand remains unresolved the amount demanded.

(2) The corporation shall commence the proceeding described in subsection (1) of this section in the district court for the county in this state in which the street address of the corporation's principal office is located or, if the corporation has no principal office in this state, in the district court for the county in which the street address of its registered agent is located, or, if the corporation has no registered agent, in the district court for the city and county of Denver. If the corporation is a foreign corporation without a registered agent, it shall commence the proceeding in the county in which the domestic corporation merged into, or whose shares were acquired by, the foreign corporation would have commenced the action if that corporation were subject to the first sentence of this subsection (2).

(3) The corporation shall make all dissenters, whether or not residents of this state, whose demands remain unresolved parties to the proceeding commenced under subsection (2) of this section as in an action against their shares, and all parties shall be served with a copy of the petition. Service on each dissenter shall be by registered or certified mail, to the address stated in such dissenter's payment demand, or if no such address is stated in the payment demand, at the address shown on the corporation's current record of shareholders for the record shareholder holding the dissenter's shares, or as provided by law.

(4) The jurisdiction of the court in which the proceeding is commenced under subsection (2) of this section is plenary and exclusive. The court may appoint one or more persons as appraisers to receive evidence and recommend a decision on the question of fair value. The appraisers have the powers described in the order appointing them, or in any amendment to such order. The parties to the proceeding are entitled to the same discovery rights as parties in other civil proceedings.

(5) Each dissenter made a party to the proceeding commenced under subsection (2) of this section is entitled to judgment for the amount, if any, by which the court finds the fair value of the dissenter's shares, plus interest, exceeds the amount paid by the corporation, or for the fair value, plus interest, of the dissenter's shares for which the corporation elected to withhold payment under section 7-113-208.

expenses of appraisers appointed by the court. The court shall assess the costs against the corporation; except that the court may assess costs against all or some of the dissenters, in amounts the court finds equitable, to the extent the court finds the dissenters acted arbitrarily, vexatiously, or not in good faith in demanding payment under section 7-113- 209.

(2) The court may also assess the fees and expenses of counsel and experts for the respective parties, in amounts the court finds equitable:

(a) Against the corporation and in favor of any dissenters if the court finds the corporation did not substantially comply with part 2 of this article; or

(b) Against either the corporation or one or more dissenters, in favor of any other party, if the court finds that the party against whom the fees and expenses are assessed acted arbitrarily, vexatiously, or not in good faith with respect to the rights provided by this article.

(3) If the court finds that the services of counsel for any dissenter were of substantial benefit to other dissenters similarly situated, and that the fees for those services should not be assessed against the corporation, the court may award to said counsel reasonable fees to be paid out of the amounts awarded to the dissenters who were benefitted.
