Deswell Announces Fourth Quarter 2015 Results

- Company Announces Fourth Quarter Cash Dividend of \$0.035 Per Share -

FOR IMMEDIATE RELEASE

MACAO (June 22, 2015) - Deswell Industries, Inc. (Nasdaq: DSWL) today announced its financial results for the fiscal fourth quarter ended March 31, 2015.

Net sales for the fourth quarter ended March 31, 2015 were \$8.1 million, an increase of 2.3% compared to net sales of \$7.9 million for the same quarter ended March 31, 2014. Net sales increased by 29.6% to \$4.5 million in the Company's plastic segment and decreased by 19.3% to \$3.6 million in the electronic and metallic segment. The operating loss in the fourth quarter was \$0.7 million, compared to an operating loss of \$3.0 million for the same quarter of fiscal 2014.

Total gross margin increased to 11.5% in the fourth quarter ended March 31, 2015 compared to 2.5% in the same quarter last year. Gross profit margin in the plastic segment increased to 22.8% of net sales for the fourth quarter of fiscal 2015 compared to 13.1% of net sales for the same quarter of last fiscal year. The increase in gross profit and margin in the plastic segment was mainly due to decreases in raw materials cost and depreciation expense as a percentage of sales, offsetting an increase in labor cost and factory overheads. The improvement in gross loss and margin in the electronic and metallic segment was mainly attributed to decreases in raw materials cost, offsetting an increase in labor cost as a percentage of sales.

The Company reported net income of \$0.01 million for the fourth quarter ended March 31, 2015 compared to a net loss of \$3.1 million for the quarter ended March 31, 2014. Deswell reported basic and diluted income per share of \$0.00 for the fourth quarter of fiscal 2015 (based on 16,056,000 and 16,056,000 weighted average shares outstanding, respectively), compared to basic and diluted loss per share of (\$0.19) (based on 16,257,000 and 16,257,000 weighted average shares outstanding, respectively), for the quarter ended March 31, 2014.

Net sales for the year ended March 31, 2015 were \$38.1 million, a decrease of 7.0%, compared to sales of \$40.9 million for the corresponding period in fiscal 2014. Operating loss for the year ended March 31, 2015 was \$5.1 million, compared to operating loss of \$7.2 million for fiscal 2014. The Company reported a net loss of \$2.8 million in fiscal 2015, compared to net loss of \$7.5 million for the year ended March 31, 2014. Deswell reported basic and diluted net loss per share of (\$0.17) for fiscal 2015, (based on 16,056,000 and 16,056,000 weighted average share outstanding, respectively), compared to basic and diluted loss per share of (\$0.46) (based on 16,186,000 and 16,186,000 weighted average shares outstanding, respectively), for the prior fiscal year.

The Company's balance sheet remained strong at the end of the fourth quarter of fiscal 2015, with \$14.3 million in cash and cash equivalents at March 31, 2015 compared to \$23.2 million at March 31, 2014. Working capital totaled \$45.9 million as of March 31, 2015, versus \$50.9 million as of March 31, 2014. Furthermore, the Company has no long-term or short-term borrowings as of March 31, 2015.

Mr. Edward So, Chief Executive Officer, commented, "During the quarter we achieved a modest increase in revenues as a result of the continued efforts of our sales team to find new opportunities with our existing customers and to develop new customer relationships. We continue to focus on collaborating with our customers on new products, and while it's taken longer than anticipated to reach the launch date for some of these products, our increased involvement in R&D is shortening that process. We are making continuous efforts to control costs, and as a result we've seen a

decrease in raw materials expense.”

#### Fourth Quarter Dividends

The Company also announced that on June 22, 2015 its board of directors declared a cash dividend of \$0.035 per share for the fiscal fourth quarter ended March 31, 2015. The dividend will be payable on July 16, 2015 to shareholders of record as of June 26, 2015.

#### Forward-Looking Statements

Statements in this press release that are "forward-looking statements" are based on current expectations and assumptions that are subject to risks and uncertainties. For example, our statements regarding our expected growth in sales from the electronic and metallic division in the coming year and our efforts to reduce overhead costs in our plastic division are forward-looking statements. Actual results could differ materially because of the following factors, among others, which may cause revenues and income to fall short of anticipated levels or our overhead expenses to increase: our dependence on a few major customers; vigorous competition forcing product price reductions or discounts; the timing and amount of significant orders from our relatively few significant customers; continuing increases in resin prices that cannot be passed on to customers; unexpected production delays; obsolete inventory or product returns; losses resulting from fraudulent activity of our customers or employees; labor shortages that increase labor and costs; changes in the mix of product products we manufacture and sell; adverse currency fluctuations in the renminbi and Hong Kong dollar when translated to US dollars; potential new accounting pronouncements; and the effects of travel restrictions and quarantines associated with major health problems, such as the Severe Acute Respiratory Syndrome, on general economic activity.

For further information regarding risks and uncertainties associated with the Company’s business, please refer to the “Risk Factors” section of Company’s Annual Report on Form 20-F, copies of which may be obtained from the Website maintained by the Securities and Exchange Commission at <http://www.sec.gov>.

All information in this release is made as of the date of this press release. Deswell undertakes no duty to update any forward-looking statement to conform the statement to actual results or changes in Deswell’s expectations.

The weighted average number of common shares outstanding is adjusted to include the number of additional common shares that would have been outstanding if the potentially dilutive common shares had been issued. In computing the dilutive effect of potential common shares, the average stock price for the period is used in determining the number of treasury shares assumed to be purchased with the proceeds from the exercise of options.

The net income (loss) for the quarter and year ended March 31, 2015 and 2014 were both from the Company's continuing operations.

DESWELL INDUSTRIES, INC.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

Results of Operations

General

The Company's revenues are derived from the manufacture and sale of (i) injection-molded plastic parts and components, (ii) electronic products and subassemblies and (iii) metallic parts and components and distribution sales of audio equipment. The Company carries out all of its manufacturing operations in southern China, where it is able to take advantage of the lower overhead costs and less expensive labor rates as compared with Hong Kong.

Quarter Ended March 31, 2015 Compared to Quarter Ended March 31, 2014

Net Sales - The Company's net sales for the quarter ended March 31, 2015 were \$8,126,000, an increase of \$182,000, or 2.3%, as compared to the corresponding period in fiscal 2014. The increase in sales was mainly related to the increase in sales of \$1,038,000 in our plastic segment, offsetting the decrease of \$856,000 in our electronic and metallic segment. These represent an increase of 29.6% and a decrease of 19.3% respectively, as compared with the net sales from these segments in the corresponding period of the prior fiscal year.

The increase in net sales in our plastic segment was mainly due to an increase in orders from existing customers of \$1,458,000 for printing equipment, motor vehicle, telephone and tooling products, offsetting a decrease in orders from other existing customers of \$420,000, mainly for office equipment and medical products. The decrease of net sales in the electronic and metallic segment was largely due to a decrease in orders of \$1,635,000 from existing customers for professional audio equipment and home entertainment products, offsetting an increase of \$779,000 in sales for professional audio equipment from new customers.

Gross Profit - The gross profit for the quarter ended March 31, 2015 was \$934,000, representing a gross profit margin of 11.5%. This compares with the overall gross profit and gross profit margin of \$199,000 or 2.5% for the quarter ended March 31, 2014.

Gross profit in the plastic segment increased by \$576,000 to \$1,035,000 or 22.8% of net sales, for the quarter ended March 31, 2015, as compared to \$459,000 or 13.1% of net sales, for the quarter ended March 31, 2014. The increase in gross margin in the plastic segment was mainly attributed to the combined effect of decreases in raw materials cost and depreciation, offsetting an increase in labor cost, as compared to the same quarter in the prior year.

Gross loss in the electronic and metallic segment decreased by \$159,000 to a gross loss of \$101,000 for the quarter ended March 31, 2015, as compared to gross loss of \$260,000 for the same period of the last fiscal year. The decrease in gross loss was mainly attributed to decrease in raw materials cost, offsetting an increase in labor cost due to additional allowances, as compared to the same quarter of last fiscal year.

Selling, General and Administrative Expenses – SG&A expenses for the quarter ended March 31, 2015 were \$2,140,000, as compared to \$2,239,000 for the corresponding period of last year. As a percentage of sales, the SG&A expenses were 26.3% for the quarter ended March 31, 2015, as compared to 28.2% for the same quarter of last fiscal year.

The SG&A expenses in the plastic segment decreased by \$190,000 to \$1,349,000, or 29.7% of net sales, for the quarter ended March 31, 2015, as compared to \$1,539,000, or 43.9% of net sales for the corresponding period in fiscal 2014. The decrease in SG&A expenses was due to decreases of \$219,000 in staff and welfare costs, offsetting an increase of \$57,000 in selling expense, as compared with the year-ago quarter.

SG&A expenses in the electronic and metallic segment increased by \$91,000 to \$791,000, or 22.1% of net sales for the quarter ended March 31, 2015, compared to \$700,000, or 15.8% of net sales for the corresponding period in fiscal 2014. The increase in SG&A expenses for the quarter ended March 31, 2015 was mainly due to the increase of \$144,000 in staff cost, offsetting the decrease of \$37,000 in selling expenses, as compared with the corresponding quarter in the prior fiscal year.

---

Other income - Other income was \$463,000 for the quarter ended March 31, 2015, as compared to other expense of \$946,000 for the quarter ended March 31, 2014.

On a segment basis, other expense attributable to the plastic segment was \$44,000 as compared to other expense of \$807,000 for the same quarter last year. The decrease in other expense for the quarter ended March 31, 2015 was mainly due to an exchange loss of \$112,000, a provision of \$29,000 for doubtful debts and a gain of \$97,000 from disposal of fixed assets, as compared to an exchange loss of \$247,000 and charges of \$490,000 for impairment of property, plant and equipment, and \$235,000 for write-down of goodwill in the corresponding year-ago quarter.

Other income attributable to the electronic and metallic segment was \$507,000 for the quarter ended March 31, 2015, as compared to other expense of \$139,000 for the year-ago quarter. The change in other income for the quarter ended March 31, 2015 was mainly due to a gain of \$489,000 on disposal of fixed assets and a provision of \$19,000 for doubtful debts, as compared to an exchange loss of \$50,000 and a loss on disposal of fixed assets of \$155,000, offsetting other income of \$31,000 in the corresponding quarter of the prior fiscal year.

Operating loss - Operating loss was \$743,000 for the quarter ended March 31, 2015, as compared with operating loss of \$2,986,000 for the corresponding quarter in the prior fiscal year.

On a segment basis, the operating loss in the plastic division was \$358,000 in the quarter ended March 31, 2015 compared to an operating loss of \$1,887,000 in the corresponding period of fiscal 2014. The improved operating loss in the plastic division was mainly due to an increase in gross margin as well as a decrease in other expense as described above.

Operating loss in the electronic and metallic segment was \$385,000 in the quarter ended March 31, 2015 compared to operating loss of \$1,099,000 in the corresponding period of fiscal 2014. The decrease in operating loss in the electronic and metallic segment was mainly due to improvement in gross margin and an increase in other income as described above.

Non-operating income – Non-operating income was \$804,000 for the quarter ended March 31, 2015 as compared to non-operating income of \$128,000 for the year-ago quarter. The increase in non-operating income is mainly attributable to an increase of \$563,000 on the fair value of marketable securities and a gain of \$103,000 on the sale of marketable securities, as compared to the year-ago quarter.

Income Taxes – Income tax for the quarter ended March 31, 2015 was comprised of income tax expense of \$19,000 and a deferred tax provision of \$29,000, as compared to income tax expense of \$84,000 and a deferred tax provision of \$179,000 in the corresponding quarter of the prior fiscal year.

On a segment basis, there was income tax expense of \$9,000 and a deferred tax provision of \$29,000 in the plastic segment for the quarter ended March 31, 2015, as compared to income tax expense of \$11,000 and a deferred tax benefit of \$16,000 in the year-ago quarter. Income tax for the electronic and metallic segment for the quarter ended March 31, 2015 was \$10,000, as compared to income tax expense of \$73,000 and a deferred tax provision of \$195,000 in the corresponding quarter of fiscal 2014.

Net income – The Company had net income of \$13,000 for the quarter ended March 31, 2015 as compared to net loss of \$3,121,000 for the quarter ended March 31, 2014.

Net income for the plastic segment for the quarter ended March 31, 2015 totaled \$333,000, as compared to a net loss of \$1,753,000 for the corresponding quarter in fiscal 2014. The increase in net income was mainly the result of increases in gross margin and non-operating income, as well as a decrease in other expense for the quarter as

described above.

Net loss for the electronic and metallic segment for the quarter ended March 31, 2015 was \$320,000, as compared to net income of \$1,368,000 for the corresponding quarter in fiscal 2014. The decrease in net loss in the electronic and metallic segment was primarily the result of improvement in gross margin as well as a decrease in other expense as described above.

---

Year Ended March 31, 2015 Compared to Year Ended March 31, 2014

Net Sales - The Company's net sales for the year ended March 31, 2015 were \$38,077,000, a decrease of \$2,855,000 or 7.0% as compared to \$40,932,000 in the corresponding period in fiscal 2014. The decrease was related to an increase in sales revenues of \$434,000 in our plastic segment and a decrease of \$3,289,000 in our electronic and metallic segment, as compared with the respective net sales from these segments in the corresponding period of the prior fiscal year.

The revenue decrease in the plastic segment was due to a decrease in sales orders from existing customers reflecting continued unstable global economic conditions. The decrease in net sales was related to a decrease of \$2,200,000 in orders from existing customers mainly for medical, gaming and baby cutlery products, offsetting an increase of \$2,662,000 in orders from existing customers for motor vehicle, office equipment and local sales.

The revenue decrease in the electronic and metallic segment was mainly due to a decrease of \$4,713,000 in orders from existing customers for home entertainment products and professional audio instruments, offsetting an increase of \$1,425,000 in orders for professional audio equipment from new customers. The decrease in sales orders was still mainly attributed to the still slow recovery in the American and European economies.

Gross Profit - Gross profit for the year ended March 31, 2015 was \$3,436,000, representing a gross profit margin of 9.0%. This compared with the overall gross profit and gross profit margin of \$3,144,000 or 7.7% for the year ended March 31, 2014.
