TierOne Corporation and Subsidiaries
Notes to Consolidated Financial Statements
(unaudited)

Note 1 - Basis of Presentation

TierOne Corporation (the "Company") is a Wisconsin corporation headquartered in Lincoln, Nebraska. TierOne Corporation is the holding company for TierOne Bank (the "Bank"). At March 31, 2004, TierOne Bank operated from 57 banking offices located in Nebraska, Iowa and Kansas, three loan production offices located in Colorado and one loan production office located in Minnesota.

Note 2 - Basis of Consolidation

Edgar Filing: TIERONE CORP - Form 10-Q

The consolidated financial statements include the accounts of the Bank and its wholly owned subsidiary, TMS Corporation of the Americas ("TMS"). TMS is the holding company of TierOne Investments and Insurance, Inc., a wholly owned subsidiary that administers the sale of insurance and securities products, and TierOne Reinsurance Company, a wholly owned subsidiary, which reinsures credit life and disability insurance policies.

The accompanying interim consolidated financial statements as of March 31, 2004 and for the three months ended March 31, 2004 and March 31, 2003 have not been audited by independent auditors. All significant intercompany accounts and transactions have been eliminated in consolidation. In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation. The interim consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report to Shareholders for the year ended December 31, 2003. The results of operations for the three months ended March 31, 2004 are not necessarily indicative of the results which may be expected for the entire calendar year 2004.

8

TierOne Corporation and Subsidiaries Notes to Consolidated Financial Statements (unaudited)

Note 3 - Earnings Per Share

Basic and diluted earnings per share ("EPS") data are based on the weighted average number of common shares outstanding during each reporting period. Employee Stock Ownership Plan ("ESOP") and 2003 Management Recognition and Retention Plan ("MRRP") shares not committed to be released are not considered to be outstanding for purposes of EPS calculations. The basic EPS calculation excludes the dilutive effect of all common stock equivalents. Diluted EPS is further adjusted for potential common shares that were dilutive and outstanding during the reporting periods. The Company's potentially dilutive common shares at March 31, 2004 represent shares issuable under its 2003 Stock Option Plan and MRRP computed using the treasury stock method. All stock options awarded are assumed to be 100% vested for purposes of the EPS computations.

(Dollars in thousands, except per share data)	Three Months Ended March 31, 2004		Three Mont March 3
	Basic	Diluted	Basic

Note 9 - Stock Based Benefit Plans

The Company established the MRRP which is a stock-based incentive plan that was approved by the shareholders at the Company's Annual Meeting of Shareholders held April 23, 2003.

The following table summarizes shares of the Company's common stock which were subject to award and were granted in April 2003 pursuant to the MRRP:

	March 31, 2004
=====	
Common shares authorized to be awarded by the Management Recognition and Retention Plan	903,003
Common shares awarded by Management Recognition and Retention Plan	(764,850)
Common shares forfeited	--

Shares available for award at March 31, 2004	138,153
=====	

The shares awarded by the MRRP vest to the participants at the rate of 20% per year. As a result, expense for this plan is being recorded over a 60-month period and is based on the market value of the Company's stock as of the date the awards were made. The remaining unamortized cost of the MRRP shares acquired to date is reflected as a reduction in shareholders' equity. Expense under this plan for the three months ended March 31, 2004 was \$682,000.

The Company established the 2003 Stock Option Plan ("SOP") under which 2,257,508 shares of Company common stock are reserved for the grant of stock options to directors, officers and employees. Stock options awarded under the SOP vest to participants at the rate of 20% per year. The exercise price of the options is equal to the fair market value of the common stock on the grant date. At March 31, 2004, 1,852,750 stock options had been granted at an exercise price of \$17.83. There were no stock options exercised or forfeited during the three months ended March 31, 2004.

At March 31, 2004, no outstanding options were exercisable, the weighted-average remaining contractual life of outstanding options was 9.06 years, and there were 404,758 shares remaining available for future grants under the terms of the SOP.

The Company accounts for its stock options in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees ("APB No. 25"). Under the provisions of APB No. 25, since the exercise price of the

Edgar Filing: TIERONE CORP - Form 10-Q

Company's employees' stock options equals the market price of the underlying stock on the date of grant, no compensation expense is recognized. Compensation expense for shares granted under the MRRP is ratably recognized over the period of service, usually the vesting period, based on the fair value of the stock on the date of grant. See Note

15

TierOne Corporation and Subsidiaries Notes to Consolidated Financial Statements (unaudited)

11 for a discussion of a proposed new statement issued by the Financial Accounting Standards Board ("FASB") which would result in a change in the accounting for equity-based compensation.

Pursuant to FASB Statement No. 123, Accounting for Stock-Based Compensation ("SFAS No. 123"), pro forma net income and pro forma EPS are presented in the following table as if the fair value method of accounting for stock-based compensation plans had been utilized:

(Dollars in thousands, except per share data)	Three Months Ended March 31, 2004	Three Mar
=====		
Net income (as reported)	\$6,060	
Add: stock-based employee compensation expense included in reported net income, net of related tax effects	443	
Deduct: total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(715)	

Pro forma net income	\$5,788	
=====		
Basic earnings per share (as reported)	\$ 0.34	
Pro forma basic earnings per share	0.32	
Diluted earnings per share (as reported)	0.33	
Pro forma diluted earnings per share	0.32	
=====		

The pro forma results above may not be representative of the effect on net income in future periods.

The fair value of the option grants was estimated using the Black Scholes option value model, with the following assumptions: dividend yield of 1.00%, expected volatility of 13.2%, risk-free interest rate of 3.5% and an original expected life of ten years for all options granted.

Note 10 - Defined Benefit Pension Plan

On March 31, 2004, the Company merged its single-employer defined benefit pension plan and transferred all pension plan assets and future plan obligations to an unrelated third party plan. This transaction resulted in a \$1.5 million pre-tax gain for the three months ended March 31, 2004 from the curtailment of the liability associated with the plan.

17

TierOne Corporation and Subsidiaries Notes to Consolidated Financial Statements (unaudited)

Note 11 - Recent Accounting Pronouncements

For discussion regarding accounting pronouncements, interpretations, exposure drafts, etc. and their impact on the Company, reference is made to "Recent Accounting Pronouncements" in the Company's Annual Report to Shareholders for the year ended December 31, 2003. The following discussion identifies accounting guidance issued during 2004.

In March 2004, the FASB issued Staff Accounting Bulletin No. 105 ("SAB 105"), Loan Commitments Accounted for as Derivative Instruments. The requirements of SAB 105 require entities that enter into mortgage loan commitments to disclose their accounting policy for such commitments and include the methods and assumptions used to estimate the fair value of loan commitments in the financial statements. Additionally, any hedging strategy associated with mortgage loan commitments is required to be disclosed. The requirements of SAB 105 must be applied to mortgage loan commitments that are accounted for as derivatives and are entered into after March 31, 2004. SAB 105 permits entities to continue using previously applied accounting policies to loan commitments entered into on or before March 31, 2004. The adoption of SAB 105 will not have a material impact on the Company's consolidated financial statements.

On March 31, 2004, the FASB published an Exposure Draft, Share-Based Payment, an Amendment of FASB Statements No. 123 and No. 95 (the "Exposure Draft"). FASB is proposing, among other things, amendments to SFAS No. 123 and thus, the manner in which share-based compensation, such as stock options, will be accounted for by both public and non-public companies. For public companies, the cost of employee services received in exchange for equity instruments including options and restricted stock awards generally would be measured at fair value at the grant date. The grant date fair value would be estimated using option-pricing models adjusted for the unique characteristics of those options and instruments (unless observable market prices for the same or similar options are available). The cost would be recognized over the requisite service period (often the vesting period). The cost of employee services received in exchange for liabilities would be measured initially at the fair value (rather than the previously allowed intrinsic value under APB Opinion No. 25, Accounting for Stock Issued to Employees) of the liabilities and would be remeasured subsequently at each reporting date through settlement date.

The proposed changes in accounting would replace existing requirements under SFAS No. 123, Accounting for Stock-Based Compensation, and would eliminate the ability to account for share-based compensation transactions using APB Opinion No. 25 which did not require companies to expense options. Under the terms of the Exposure Draft, the accounting for similar transactions involving parties other than employees or the accounting for employee stock ownership plans that are subject to AICPA Statement of Position 93-6, Employers' Accounting for Employee Stock Ownership Plans, would remain unchanged.

TierOne Corporation and Subsidiaries
Notes to Consolidated Financial Statements
(unaudited)

The Exposure Draft provides that the proposed statement would be applied to public entities prospectively for fiscal years beginning after December 31, 2004, as if all share-based compensation awards vesting, granted, modified, or settled after December 15, 1994 had been accounted for using the fair value-based method of accounting.

The FASB is soliciting comments on the Exposure Draft through June 30, 2004 and is expected to issue the final statement in the fourth quarter of 2004.

TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations.

General

The Bank, a subsidiary of the Company, is a \$2.3 billion federally chartered stock savings bank headquartered in Lincoln, Nebraska. Established in 1907, the Bank offers customers a wide variety of full-service consumer and commercial banking products and services through a geographically diverse network of 57 banking offices located in Nebraska, Iowa and Kansas, three loan production offices located in Colorado and one loan production office located in Minnesota. Product offerings include residential and commercial real estate loans; consumer, construction and business loans; warehouse mortgage lines of credit; consumer and business checking and savings plans; investment and insurance services; and telephone and internet banking.

The Company's results of operations depend, to a large extent, on net interest income, which is the difference between the income earned on its loan and investment securities portfolios and the cost of funds, consisting of the interest paid on deposits and borrowings. Noninterest income, noninterest expense and provisions for loan losses also affect results of operations. Noninterest income consists primarily of fees and service charges related to deposit and lending activities and gains on loans held for sale. Noninterest expense consists of compensation and employee benefits, office occupancy and equipment, data processing, advertising and other operating expense. Our results of operations are also significantly affected by general economic and competitive conditions, particularly changes in interest rates, government policies and actions of regulatory authorities. Future changes in applicable law, regulations or government policies may materially impact our financial condition and results of operations.

On March 31, 2004, the Company announced it had entered into a definitive agreement to acquire United Nebraska Financial Co. ("UNFC"), the holding company of United Nebraska Bank ("UNB") headquartered in Grand Island, Nebraska. The reported assets of UNFC also include an investment in a national bank subsidiary in suburban Phoenix, Arizona, United Arizona Bank ("UAB"), which will be sold

Edgar Filing: TIERONE CORP - Form 10-Q

prior to the completion of the transaction. The Company will pay \$97.3 million in cash, subject to a post-closing adjustment, to acquire UNFC. The purchase price represents approximately 1.9 times UNFC's December 31, 2003 stated book value of \$51.8 million. At December 31, 2003, UNB operated from 16 banking offices located in Broken Bow, Burwell, Callaway, Columbus, Grand Island, Holdrege, Lexington, North Platte, Omaha, O'Neill and Ord, Nebraska. At December 31, 2003, UNB had total assets of \$513.6 million, total loans of \$292.8 million and total deposits of \$422.5 million. Completion of the acquisition is subject to various conditions precedent, including the sale of UAB and certain other assets and the receipt of all required regulatory approvals. The Company has submitted all required regulatory filings to obtain the necessary approvals.

20

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

As used in this report, unless the context otherwise requires, the terms "we," "us," or "our" refer to TierOne Corporation, a Wisconsin corporation, and our wholly owned subsidiary, TierOne Bank, a federally chartered stock savings bank.

Forward-Looking Statements

In the normal course of business, in an effort to help keep our shareholders and the public informed about the Company's operations, we may from time to time issue or make certain statements, either in writing or orally, that are or contain forward-looking statements, as that term is defined in the federal securities laws. Generally, these statements relate to business plans or strategies, projected or anticipated benefits from potential acquisitions, projections involving anticipated revenues, earnings, profitability or other aspects of our operating results or other future developments in our affairs or the industry in which we may conduct business. These forward-looking statements, which are based on various assumptions (some of which are beyond our control), may be identified by reference to a future period or periods or by the use of forward-looking terminology such as "anticipate," "believe," "commitment," "consider," "continue," "could," "encourage," "estimate," "expect," "intend," "in the event of," "may," "plan," "present," "propose," "prospect," "update," "whether," "will," "would," future or conditional verb tenses, similar terms, variations on such terms or negatives of such terms. Although we believe that the anticipated results or other expectations reflected in such forward-looking statements are based on reasonable assumptions, we can give no assurance that those results or expectations will be attained. Actual results could differ materially from those indicated in such statements due to risks, uncertainties and changes with respect to a variety of factors, including, but not limited to, the following: competitive pressure among depository and other financial institutions may increase significantly; changes in the interest rate environment may reduce interest margins and net interest income as well as adversely affect loan origination and sales activities and the value of certain assets, such as investment securities and mortgage servicing rights; general economic or business conditions, either nationally or in regions in which we do business, may be less favorable than expected, resulting in, among other things, a deterioration in credit quality or a reduced demand for credit; legislation or changes in regulatory requirements, including without limitation, capital requirements, or accounting standards may adversely affect us and the business in which we are engaged; adverse changes may occur in the securities markets; our competitors may have greater financial resources and develop products and technology that enable those competitors to compete more successfully than us; and the growth and profitability of our non-interest income may be less than expected.

Edgar Filing: TIERONE CORP - Form 10-Q

We undertake no obligation to update forward-looking statements to reflect events or circumstances occurring after the date of this Form 10-Q.

21

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Policies

Allowance for Loan Losses

We have identified the evaluation of the allowance for loan losses as a critical accounting policy where amounts are sensitive to material variation. This policy is significantly affected by our judgment and uncertainties and there is a likelihood that materially different amounts would be reported under different, but reasonably plausible, conditions or assumptions. The allowance for loan losses is considered a critical accounting estimate because there is a large degree of judgment in:

- o Assigning individual loans to specific risk levels (pass, special mention, substandard, doubtful and loss);
- o Valuing the underlying collateral securing the loans;
- o Determining the appropriate reserve factor to be applied to specific risk levels for special mention loans and those adversely classified (substandard, doubtful and loss); and
- o Determining reserve factors to be applied to pass loans based upon loan type.

We establish provisions for loan losses, which are charges to our operating results, in order to maintain a level of total allowance for loan losses that management believes covers all known and inherent losses that are both probable and reasonably estimable at each reporting date. Management reviews the loan portfolio no less frequently than quarterly in order to identify those inherent losses and to assess the overall collection probability of the loan portfolio. Management's review includes a quantitative analysis by loan category, using historical loss experience, classifying loans pursuant to a grading system and consideration of a series of qualitative loss factors. The evaluation process includes, among other things:

- o An analysis of delinquency trends;
- o Nonperforming loan trends;
- o Levels of charge-offs and recoveries;
- o Prior loss experience;
- o Total loans outstanding;
- o Volume of loan originations;
- o Type, size, terms and geographic concentration of loans held by us;
- o Value of collateral securing loans;

Edgar Filing: TIERONE CORP - Form 10-Q

- o Number of loans requiring heightened management oversight; and
- o General economic conditions.

This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available or as future events change.

22

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

The allowance for loan losses consists of two elements. The first element is an allocated allowance established for specific loans identified by the credit review function that are evaluated individually for impairment and are considered to be impaired. A loan is considered impaired when, based on current information and events, it is probable that we will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. Impairment is measured by:

- o The fair value of the collateral if the loan is collateral dependent;
- o The present value of expected future cash flows; or
- o The loan's observable market price.

The second element is an estimated allowance established for losses which are probable and reasonable to estimate on each category of outstanding loans. While management uses available information to recognize probable losses on loans inherent in the portfolio, future additions to the allowance may be necessary based on changes in economic conditions and other factors. In addition, various regulatory agencies, as an integral part of their examination process, periodically review our allowance for loan losses. Such agencies may require us to recognize additions to the allowance based on their judgment of information available to them at the time of their examination.

23

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

Comparison of Financial Condition at March 31, 2004 and December 31, 2003

Our total assets were \$2.3 billion at March 31, 2004, a \$47.7 million, or 2.2%, increase from December 31, 2003, due to an increase in net loans. Our available for sale investment securities amounted to \$39.9 million at March 31, 2004, a \$3.6 million, or 8.3%, decrease from December 31, 2003. The decrease in our available for sale investment securities was primarily due to the maturity of a security during the three months ended March 31, 2004. Our mortgage-backed securities portfolio, all of which is available for sale, amounted to \$14.4 million at March 31, 2004, a \$1.3 million, or 8.6%, decrease from December 31, 2003. The decrease in our mortgage-backed securities portfolio is the result of principal payments received in the amount of \$1.3 million during the three

Edgar Filing: TIERONE CORP - Form 10-Q

months ended March 31, 2004.

Net loans, including loans held for sale, totaled \$2.1 billion at March 31, 2004, a \$61.1 million, or 3.0%, increase from December 31, 2003. At March 31, 2004 our one-to-four family residential loans, including loans held for sale, totaled \$545.8 million, a \$13.3 million, or 2.4%, decrease compared to December 31, 2003. During the three months ended March 31, 2004, we purchased \$27.5 million of adjustable-rate first mortgage loans secured by one-to-four family residential properties located in geographically diverse markets across the United States in an effort to reinvest proceeds from loan prepayments. Second mortgage residential loans totaled \$240.9 million at March 31, 2004, a \$17.2 million, or 6.7%, decrease from December 31, 2003. The decrease in second mortgage residential loans is primarily the result of principal payments and prepayments. Commercial real estate and land loans amounted to \$442.7 million, a \$6.5 million, or 1.4%, decrease compared to \$449.2 million at December 31, 2003. Our residential construction loans totaled \$289.0 million, a \$43.3 million, or 17.6%, increase compared to \$245.8 million at December 31, 2003. Commercial construction loans increased \$17.6 million, or 11.4%, to \$171.9 million compared to \$154.2 million at December 31, 2003. Warehouse mortgage lines of credit amounted to \$111.5 million, a \$32.8 million, or 41.6%, increase at March 31, 2004 compared to \$78.8 million at December 31, 2003. The increase in our warehouse mortgage lines of credit was primarily attributable to an increased level of mortgage refinancing during the three months ended March 31, 2004. Our consumer loan portfolio totaled \$312.5 million at March 31, 2004, a \$2.9 million, or 0.9%, increase compared to \$309.7 million at December 31, 2003.

Our total liabilities were \$2.0 billion at March 31, 2004, a \$40.4 million, or 2.1%, increase compared to December 31, 2003. Our total deposits increased by \$98.2 million to \$1.3 billion at March 31, 2004 compared to December 31, 2003. Time deposits increased \$81.9 million, or 14.0%, to \$667.6 million at March 31, 2004 compared to \$585.8 million at December 31, 2003. The increase in time deposits was attributable to a marketing promotion offering a 14-month time deposit yielding 3.0%. Included in our time deposits at March 31, 2004 are \$65.5 million of brokered time deposits. We utilized brokered time deposits as an alternative source of funds for loan origination and purchase activity. Our interest-bearing checking accounts totaled \$301.7 million, a \$6.6 million, or 2.2%,

24

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

increase compared to \$295.1 million at December 31, 2003. Noninterest-bearing checking accounts increased \$5.0 million, or 11.0%, to \$50.3 million at March 31, 2004 compared to \$45.3 million at December 31, 2003. Our money market accounts totaled \$274.1 million, a \$3.1 million, or 1.2%, increase compared to December 31, 2003. Our Federal Home Loan Bank ("FHLB") advances and other borrowings amounted to \$592.3 million at March 31, 2004, a \$53.4 million, or 8.3%, decrease from December 31, 2003 as we determined to use repayments on securities and deposits to fund our lending activities.

At March 31, 2004, shareholders' equity totaled \$302.4 million, an increase of \$7.3 million from December 31, 2003. The increase in shareholders' equity primarily reflects net income for the three months ended March 31, 2004 of \$6.1 million, \$866,000 related to common stock earned by participants in the ESOP and \$682,000 related to the amortization of awards under the MRRP. The increase in shareholders' equity was partially offset by \$935,000 in dividends paid to the Company's shareholders. The first quarterly dividend was \$0.05 per common share

Edgar Filing: TIERONE CORP - Form 10-Q

paid on March 31, 2004 to shareholders of record at the close of business on March 15, 2004.

Comparison of Operating Results for the Three Months Ended March 31, 2004 and March 31, 2003

General. Net income for the three months ended March 31, 2004 was \$6.1 million, or \$0.33 per diluted share (\$0.34 per basic share), compared to net income of \$5.7 million, or \$0.27 per diluted and basic share, for the three months ended March 31, 2003. Net income increased during the three months ended March 31, 2004 primarily due to a gain recognized on the curtailment of the Company's defined benefit pension plan and increased interest income on loans receivable which was partially offset by increased salaries and employee benefits expense. The average interest rate spread declined to 3.01% for the three months ended March 31, 2004 compared to 3.17% for the three months ended March 31, 2003. Net interest margin declined to 3.35% for the three months ended March 31, 2004 compared to 3.70% for the three months ended March 31, 2003. The decline in the average interest rate spread and net interest margin for the three months ended March 31, 2004 reflected the continued compression on net interest income of historically low interest rates which have resulted in continued high levels of prepayments on higher yielding loans. The ratio of average interest-earning assets to average interest-bearing liabilities decreased to 117.23% for the three months ended March 31, 2004 compared to 124.74% for the three months ended March 31, 2003. This decrease was the result of a \$66.0 million decline in the average balance of net interest-earning assets resulting from the Company's stock purchases to fund the shareholder-approved MRRP and fulfill the Company's first stock buyback program during the last eight months of 2003.

Interest Income. Our total interest income for the three months ended March 31, 2004 was \$28.1 million, a \$166,000, or 0.6%, increase compared to \$27.9 million for the three months ended March 31, 2003. The average balances of loans receivable during the three months ended March 31, 2004

25

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

and March 31, 2003 were \$2.0 billion and \$1.8 billion, respectively. The weighted average yield earned on the loan portfolio was 5.36% and 6.04% for the three months ended March 31, 2004 and March 31, 2003, respectively. The declines in the yields on loans receivable during the three months ended March 31, 2004 compared to the three months ended March 31, 2003 was the result of a high level of refinancing activity that occurred throughout 2003 due to a historically low interest rate environment.

Interest Expense. Our total interest expense for both three month periods ended March 31, 2004 and March 31, 2003 was \$10.3 million. The average balance of our interest-bearing deposits increased \$115.3 million, or 10.5%, to \$1.2 billion for the quarter ended March 31, 2004 compared to \$1.1 billion for the quarter ended March 31, 2003. Additionally, the average rate paid on interest-bearing deposits decreased to 1.86% for the three months ended March 31, 2004 compared to 2.27% for the three months ended March 31, 2003, a decrease of 41 basis points. Interest expense on FHLB advances and other borrowings increased \$623,000 to \$4.7 million for the three months ended March 31, 2004 compared to \$4.1 million during the three months ended March 31, 2003. Additionally, the average rate paid on FHLB advances and other borrowings was 3.14% for the three months ended March 31, 2004 compared to 3.79% for the three months ended March 31, 2003, a decrease of 65 basis points.

Rate/Volume Analysis. The following table shows the extent to which changes in interest rates and changes in the volume of interest-earning assets and interest-bearing liabilities affected our interest income and expense during the periods indicated. For each category of interest-earning assets and interest-bearing liabilities, information is provided on changes attributable to (i) changes in rate (change in rate multiplied by prior year volume) and (ii) changes in volume (change in volume multiplied by prior year rate). The combined effect of changes in both rate and volume has been allocated proportionately to the change due to rate and the change due to volume.

TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations

Provision for Loan Losses. We made a provision for loan losses of \$934,000 for the three months ended March 31, 2004 compared to \$1.2 million for the three months ended March 31, 2003. Our portfolio of commercial real estate and land, construction (residential and commercial), business and consumer loans totaled \$1.3 billion at March 31, 2004, an increase of \$242.5 million, or 23.0%, compared to \$1.1 billion at March 31, 2003. These loans are deemed to have higher levels of known and inherent losses than one-to-four family residential loans due to, among other things, the nature of the collateral and the dependency on economic conditions for successful completion or operation of the project. As such, we have made provisions in order to maintain the allowance for loan losses at a level we believe, to the best of our knowledge, covers all known and inherent losses in the portfolio that are both probable and reasonable to estimate at the relevant date. At March 31, 2004, our total nonperforming assets amounted to \$4.1 million, or 0.18% of total assets, compared to \$4.3 million, or 0.19% of total assets, at December 31, 2003. There were no material changes in non-accruing loans or real estate owned during the three months ended March 31, 2004. During the three months ended March 31, 2004 and March 31, 2003, we charged-off, net of recoveries, \$434,000 and \$296,000, respectively, primarily related to consumer loans. At March 31, 2004, December 31, 2003 and March 31, 2003 our allowance for loan losses amounted to 0.96%, 0.96% and 0.94%, respectively, of net loans.

Noninterest Income. Our noninterest income increased by \$1.8 million, or 49.9%, to \$5.4 million for the three months ended March 31, 2004 compared to \$3.6 million for the three months ended March 31, 2003. The increase during the three month period ended March 31, 2004 compared to the same period in 2003 was primarily the result of the Company's decision to merge its defined benefit pension plan with an unrelated third party plan. On March 31, 2004, the Company merged its single-employer defined benefit pension plan and transferred all pension plan assets and future plan obligations to an unrelated third party plan. This transaction resulted in a \$1.5 million gain for the three months ended March 31, 2004 from the curtailment of the liability associated with the

Edgar Filing: TIERONE CORP - Form 10-Q

defined benefit pension plan. Additionally, deposit account and debit card fees increased \$798,000 during the three months ended March 31, 2004 when compared to the same period in 2003 primarily as a result of an increased number of core deposit relationships. Amortization expense related to our mortgage servicing rights portfolio decreased \$620,000 during the three months ended March 31, 2004 compared to the three months ended March 31, 2003. The decrease in mortgage servicing rights amortization expense was attributable to a stabilized interest rate environment and decreased loan prepayment and refinancing activity when compared to the same period in 2003. We made no additional impairment charges related to mortgage servicing rights during the three months ended March 31, 2004 whereas we recorded impairment charges of \$590,000 during the three month period ended March 31, 2003. Amortization expense, impairment charges and impairment recapture related to mortgage servicing rights are recorded as adjustments to fee and service charge income. The aforementioned increases in noninterest income were partially offset by a \$1.6 million decrease in gains on loans held for sale resulting from decreased refinancing activity compared to the same period in 2003.

29

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

Noninterest Expense. Our noninterest expense increased by \$1.5 million, or 13.5%, to \$12.6 million for the three months ended March 31, 2004 compared to \$11.1 million for the three months ended March 31, 2003. The increase during the three months period ended March 31, 2004 compared to the three month period ended March 31, 2003 resulted primarily from \$682,000 in compensation expense relating to the Company's MRRP, a \$591,000 increase in compensation expense relating to annual salary adjustments and staff additions and a \$275,000 increase in compensation expense associated with the Company's ESOP.

Income Tax Expense. Our income tax expense increased by \$293,000 to \$3.6 million for the three months ended March 31, 2004 compared to the same period in 2003. The effective income tax rate for the three months ended March 31, 2004 was 37.3% compared to 36.7% for the three months ended March 31, 2003. The increase in the effective tax rate for the three months ended March 31, 2004 compared to the same period in 2003 was primarily attributable to the partially non-deductible nature of certain expenses related to the Company's ESOP.

30

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity

Our primary sources of funds are deposits, amortization of loans, loan prepayments and maturity of loans, mortgage-backed securities and other investments and other funds provided by operations. While scheduled payments from the amortization of loans and mortgage-backed securities and maturing investment securities are relatively predictable sources of funds, deposit flows and loan prepayments can be greatly influenced by interest rates, economic conditions and competition. Additionally, we utilize outside borrowings, primarily from the FHLB and, more recently, brokered time deposits, as additional funding sources.

Edgar Filing: TIERONE CORP - Form 10-Q

We use our liquidity to fund existing and future loan commitments, maturing time deposits and demand deposit withdrawals, to invest in other interest-earning assets and to meet operating expenses. At March 31, 2004, we had time deposits maturing within the next 12 months totaling \$327.5 million. Based upon historical experience, we anticipate that a significant portion of the maturing time deposits will be redeposited with us.

In addition to cash flow from loan and securities payments and prepayments, we have additional borrowing capacity available to fund our asset growth. We have increased our utilization of borrowings as a cost efficient compliment to deposits as a source of funds. The average balance of our FHLB advances and other borrowings was \$596.1 million and \$429.1 million for the three months ended March 31, 2004 and March 31, 2003, respectively. To date, substantially all of our borrowings have consisted of advances from the FHLB. Pursuant to blanket collateral agreements with the FHLB, the Bank pledged qualifying residential, multi-family residential and commercial real estate mortgages, residential construction and commercial construction loans as collateral for such advances. Other qualifying collateral can be pledged in the event additional borrowing capacity is required.

On April 26, 2004, we completed the issuance of \$30.0 million of floating-rate trust preferred securities. The proceeds from the issuance of these securities, which are callable at par in 2009 and will mature in 2034, will be used for general corporate purposes, including funding common stock repurchases.

31

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

Contractual Obligations, Commitments, Contingent Liabilities and Off-Balance Sheet Arrangements

We use our liquidity to fund existing and future loan commitments, maturing time deposits and demand deposit withdrawals, to invest in other interest-earning assets and to meet operating expenses. At March 31, 2004, we had the following contractual obligations and lending commitments:

(Dollars in thousands)	Total at March 31, 2004	Due In =====		
		1 Year	1-3 Years	3-5
		=====		
Contractual obligations:				
Federal Home Loan Bank advances and other borrowings	\$ 592,333	\$ 71,984	\$ 110,000	\$
Recourse obligations on assets	11,548	11,548	--	
Purchase investment securities	1,081	1,081	--	
Annual rental commitments under non-cancellable operating leases	2,677	569	731	

Total contractual obligations	\$ 607,639	\$ 85,182	\$ 110,731	\$

Edgar Filing: TIERONE CORP - Form 10-Q

Lending commitments:

Commitments to originate loans	\$ 89,703	\$ 89,703	\$ --	\$
Commitments to sell loans	(74,739)	(74,739)	--	
Commitments to purchase loans	98,120	98,120		
Undisbursed portion of loans in process	213,489	213,489	--	
Standby letters of credit	532	532	--	

Unused lines of credit:

Warehouse mortgage lines of credit	474,664	474,664	--	
Business loans	41,529	41,529	--	
Consumer loans	101,045	101,045	--	

Total lending commitments and unused lines of credit	\$ 944,343	\$ 944,343	\$ --	\$
--	------------	------------	-------	----

We have not used any significant off-balance sheet financing arrangements for liquidity purposes or otherwise. Our primary financial instruments with off-balance sheet risk are limited to loan servicing for others, our obligations to fund loans to customers pursuant to existing commitments and commitments to purchase and sell mortgage loans. In addition, we have certain risks due to limited recourse arrangements on loans serviced for others and recourse obligations related to loan sales. At March 31, 2004, the maximum total dollar amount of such recourse was approximately \$10.8 million. Based on historical experience, at March 31, 2004, we had established a liability of

32

TierOne Corporation and Subsidiaries
Management's Discussion and Analysis of Financial Condition
and Results of Operations

\$652,000 with respect to this recourse obligation. In addition, we have not had, and have no intention to have, any significant transactions, arrangements or other relationships with any unconsolidated, limited purpose entities. We have not traded in commodity contracts.

We anticipate that we will continue to have sufficient funds and alternative funding sources to meet our current commitments.

Regulatory Capital

At March 31, 2004, the Bank's regulatory capital exceeded regulatory limits set by the Office of Thrift Supervision. The current regulatory requirements and the Bank's actual levels at March 31, 2004 are set forth in the following table:

(Dollars in thousands)	Required Capital		Actual Capital		Excess Capital	
	Amount	Percent	Amount	Percent	Amount	Percent
Tangible capital	\$ 33,725	1.50%	\$251,414	11.18%	\$217,689	9.6%

Edgar Filing: TIERONE CORP - Form 10-Q

Tier 1 (core) capital	89,934	4.00%	251,414	11.18%	161,480	7.1
Total risk-based capital	156,916	8.00%	271,500	13.84%	114,584	5.8

The Bank remains classified as a "well capitalized" financial institution under Federal regulatory guidelines.

33

TierOne Corporation and Subsidiaries Management's Discussion and Analysis of Financial Condition and Results of Operations

Selected Operating Ratios

Selected operating and other ratios (annualized where appropriate) at or for the three months ended March 31, 2004 and March 31, 2003 are presented in the following table:

	At or for the Three Months Ended March 31,	
	2004	2003
Selected Operating Ratios:		
Average yield on interest-earning assets	5.30%	5.86%
Average rate on interest-bearing liabilities	2.29%	2.69%
Average interest rate spread	3.01%	3.17%
Net interest margin	3.35%	3.70%
Average interest-earning assets to average interest-bearing liabilities	117.23%	124.74%
Net interest income after provision for loan losses to noninterest expense	133.49%	148.43%
Total noninterest expense to average assets	2.28%	2.23%
Efficiency ratio (1)	54.32%	52.16%
Return on average assets	1.10%	1.14%
Return on average equity	8.16%	6.64%
Average equity to average assets	13.44%	17.23%

Other Ratios:

Nonperforming loans as a percent of net loans	0.15%	0.27%
Nonperforming assets as a percent of total assets	0.18%	0.33%
Allowance for loan losses as a percent of nonperforming loans	622.05%	351.46%
Allowance for loan losses as a percent of net loans	0.96%	0.94%

(1) Efficiency ratio is calculated as total other expense divided by the sum of net interest income and total other income.

34

Item 3 - Quantitative and Qualitative Disclosures About Market Risk.

Edgar Filing: TIERONE CORP - Form 10-Q

For a discussion of our asset and liability management policies as well as the methods used to manage our exposure to the risk of loss from adverse changes in market prices and rates market, see "Management's Discussion and Analysis of Financial Condition and Results of Operations - How We Manage Our Risks" and "Quantitative and Qualitative Disclosures About Market Risk" in the Company's Annual Report to Shareholders for the year ended December 31, 2003. There has been no material change in our asset and liability position or the market value of our equity since December 31, 2003.

Item 4 - Controls and Procedures.

Our management evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and regulations and are operating in an effective manner.

35

PART II - OTHER INFORMATION

Item 1 - Legal Proceedings.

There have been no changes with respect to legal proceedings during the three months ended March 31, 2004. Disclosures regarding legal proceedings are incorporated by reference to "Business of TierOne Bank - Legal Proceedings" in the Company's Annual Report on Form 10-K for the year ended December 31, 2003.

Item 2 - Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities

On January 21, 2004, the Company's Board of Directors authorized and the Company subsequently announced a stock repurchase plan providing for the repurchase of up to 2,031,757 shares of the Company's outstanding common stock in open market or privately negotiated transactions. Unless terminated earlier by resolution of the Company's Board of Director's, the plan will expire when the Company has repurchased all shares authorized for repurchase under the plan. No shares were repurchased under the plan during the three month period ended March 31, 2004. As of March 31, 2004, the Company had the authority remaining to repurchase 2,031,757 shares under the plan.

Item 3 - Defaults Upon Senior Securities.

There are no matters required to be reported under this item.

Item 4 - Submission of Matters to a Vote of Security Holders.

There are no matters required to be reported under this item.

Item 5 - Other Information.

There are no matters required to be reported under this item.
