Item 8.01 Other Events.

On February 8, 2017, XBiotech Inc. (the “Company”) announced that it has been granted more time to submit its responses to the Day 180 List of Outstanding Issues (the “LoOIs”) by the European Medicines Agency’s (“EMA”) Committee for Medicinal Products for Human Use (the “CHMP”) in connection with the Company's Marketing Authorization Application (the “MAA”) for Xilonix.

The Company was granted an additional 30 days to submit its responses, extending the “clock-stop” period to March 22, 2017. This extension will allow sufficient time for the Company to complete a pharmacokinetic (“pk”) study in healthy subjects. Data from this study is intended to generate additional time points for pk analysis. These findings are intended to address the relevant LoOIs and will be included in the Company’s response submission scheduled for March 22nd.

This Form 8-K and related presentation contains forward-looking statements, including declarations regarding management's beliefs and expectations, that involve substantial risks and uncertainties. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “would,” “could,” “expects,” “plans,” “contemplate,” “anticipates,” “believes,” “estimates,” “predicts,” “projects,” “intend” or “continue” or the negative of such terms or other comparable terminology, although not all forward-looking statements contain these identifying words. Forward-looking statements are subject to inherent risks and uncertainties in predicting future results and conditions that could cause the actual results to differ materially from those projected in these forward-looking statements. Applicable risks and uncertainties include the risks that the interim data from this clinical trial may not be predictive of the results from the completed clinical trial, that the Company will be unable to successfully complete this clinical trial by year end and the other disclosures set forth in "Risk Factors" in our SEC filings.
