Revenues for the nine months ended September 30, 2005 rose to an all-time high of \$7,750,000, an increase of 160% compared with \$2,978,000 for the first nine months of 2004. These are the highest revenues ever recorded by the Company for any 3-quarter period. Commenting on the results, Shaïke Orbach, President and CEO, said, "We are very pleased with the Company's continued strong momentum as demonstrated by seven consecutive quarters of top-line growth accompanied by improvement in the bottom line. For the nine-month period, our revenues are the highest they have been in our history, while our quarterly revenues are at their strongest level since 1997. This performance demonstrates the revenue-generating power of an increasing number of continuously maturing Design Wins for our multi-port and BYPASS adapters, which have accumulated to 30 over the last two years, each with the potential to generate an ongoing flow of orders over the next few years."

Edgar Filing: SILICOM LTD - Form 6-K

With a sales pipeline consisting of many additional potential customers, we continue to focus on achieving Design Wins from developers and manufacturers operating in the fast-growing market segments of security appliances, data storage and other applications. In this fertile niche, we have established a strong presence which is helping us close additional Design Wins, each of which with the potential to contribute revenues on top of those generated by our current Design Wins. Overall, we are very satisfied by our progress and optimistic as we look towards the future.
