## Item 5. Other Events

On April 20, 2004, HEI issued the following news release:

### **HAWAIIAN ELECTRIC INDUSTRIES, INC. MAINTAINS CASH DIVIDEND AND ANNOUNCES 2-FOR-1 STOCK SPLIT EFFECTED IN THE FORM OF A 100% STOCK DIVIDEND**

HONOLULU Hawaiian Electric Industries, Inc. (NYSE - HE) announced today that its board of directors approved a 2-for-1 stock split to be effected as a 100% share dividend payable on June 10, 2004 (payment or distribution date) to shareholders of record on May 10, 2004 (record date). As a result of the split, shareholders will receive one additional share of common stock for every share owned at the close of business on May 10, 2004. Stock certificates representing the additional shares will be distributed by the Company's co-transfer agent, Continental Stock Transfer & Trust Company. No stock certificates will be distributed to participants for shares held for such participants in the name of the trustee for the Company's Dividend Reinvestment Plan (DRIP). However, participants holding shares in the Company's DRIP will receive statements reflecting the adjustment of their account balances for the stock split.

The split should enhance market liquidity of our stock and broaden our investor base, said Robert F. Clarke, HEI chairman, president and chief executive officer. Because the share dividend will apply to each share of outstanding common stock on the record date it will not affect any shareholder's proportionate interest in the Company.

The board of directors also maintained the regular quarterly cash dividend of 62 cents per share, payable June 10 to stockholders of record at the close of business on May 10 (ex-dividend date is May 6) on shares issued and outstanding on the record date. The dividend is equivalent to an annual rate of \$2.48 per share. The cash dividend is not payable on the shares that will be issued and distributed as a share dividend on June 10, 2004.

We intend to maintain the Company's cash dividend at the current level for the foreseeable future, but future cash dividends will of course be adjusted proportionately for the stock split, said Clarke.

HEI and its subsidiaries are a critical part of Hawaii's economy. HEI supplies power to over 400,000 customers or 93% of the Hawaii market through its electric utilities and a wide array of banking and other financial services to consumers and businesses through the state's third largest bank.
