The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have reviewed the accompanying balance sheets of Chunghwa Telecom Co., Ltd. as of March 31, 2005 and 2004, and the related statements of operations and cash flows for the three months then ended, all expressed in New Taiwan thousand dollars. These financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these financial statements based on our review.

Except for the matters described in the next paragraph, we conducted our reviews in accordance with Statement on of Auditing Standards No. 36 Review of Financial Statements issued by the Auditing Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in Republic of China, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an audit opinion.

As stated in Note 9 to the financial statements, we did not review the financial statements of equity-accounted investments, the investments in which are reflected in the accompanying financial statements using the equity method of accounting. The aggregate carrying values of the equity-accounted investments were NT\$1,410,062 thousand and NT\$1,424,068 thousand as of March 31, 2005 and 2004 and the equity in their net gain (loss) were (NT\$18,973) thousand and NT\$4,586 thousand for the three months then ended.

Based on our reviews, we are not aware of any material modifications that should be made to the financial statements referred to above for them to be in conformity with accounting principles generally accepted in the Republic of China.

As stated in Notes 2 and 3 to the financial statements, the Company's accounts are subject to examination by the Executive Yuan and by the Ministry of Audit of the Control Yuan. The accounts as of and for the year ended December 31, 2003 have been examined by these government agencies, and adjustments from this examinations have been recognized in the accompanying financial statements.

Notice to Readers

*The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.*

*For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.*

**CHUNGHWA TELECOM CO., LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS ENDED MARCH 31, 2005 AND 2004**

**(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)**

**(Reviewed, Not Audited)**

**1. GENERAL**

Chunghwa Telecom Co., Ltd. ( Chunghwa or the Company ) was incorporated on July 1, 1996 in the Republic of China ( ROC ) pursuant to the Telecommunications Act No. 30. The Company is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications ( MOTC ). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications ( DGT ). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to form Chunghwa and the DGT continues to be the industry regulator.

As a dominant telecommunications service provider of fixed-line and cellular telephone services, within the meaning of applicable telecommunications regulations of the ROC, the Company is subject to additional requirements imposed by the MOTC.

The MOTC is in the process of privatizing the Company by reducing the government ownership to below 50% in various stages. In July 2000, the Company received approval from the Securities and Futures Commission (the SFC ) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE ) on October 27, 2000. Certain of the Company s common shares were sold by an auction, in connection with the foregoing privatization plan, in domestic public offerings in June 2001, December 2002, March 2003, April 2003 and July 2003. Certain of the Company s common shares were also sold in an international offering of securities in the form of American Depository Shares ( ADS ) in July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE ). The MOTC intends to continue to sell certain of the Company s common shares in the ROC and throughout the privatization process to the Company s employees. The MOTC has sold 35.11% shares of its shares in the Company as of March 31, 2005.

The number of employees as of March 31, 2005 and 2004 are 28,035 and 29,038, respectively.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements are prepared in conformity with relevant regulations, regulations governing the preparation of financial statements of public companies and accounting principles generally accepted in the Republic of China. The preparation of financial statements requires management to make certain estimates and assumptions that affect the recorded amounts of assets, liabilities, revenues and expenses of the Company. The Company continually evaluates these estimates, including those related to allowances for doubtful accounts, valuation allowances on inventories, useful lives of long term assets, pension plans and income tax. The Company bases its estimates on historical experience and other assumptions, which it believes to be reasonable under the circumstances. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

### **Basis of Presentation**

As a state-owned company, the Company maintains statutory accounts in accordance with the laws and regulations issued by the Executive Yuan, the MOTC, the Ministry of Audit (the MOA) of the Control Yuan and, in the absence of any specific laws and regulations applicable to a particular transaction or account, the regulations governing the preparation of financial statements of public companies and generally accepted accounting principles in the Republic of China. The accounts are subject to annual examinations by the Directorate General of Budget, Accounting and Statistics (the DGBAS) of the Executive Yuan and by the MOA (DGBAS and MOA are hereinafter referred to as government agencies). The objective of these examinations is to evaluate the Company's performance against the budget approved by the Legislative Yuan. The accounts are considered final only after any adjustments based on the annual examinations are taken into account. The accounts for the year ended December 31, 2003 have been examined by these government agencies and resulting adjustments were recorded retroactively.

### **Current Assets and Liabilities**

Current assets are commonly identified as those which are reasonably expected to be realized in cash; or sold or consumed within one year. Current liabilities are obligations which mature within one year.

### **Cash and Cash Equivalents**

Cash and cash equivalents are commercial paper purchased with maturities of three months or less from the date of acquisition.

### **Short-term Investments**

The investments are carried at the lower of cost or market value. An allowance for decline in value is provided when the aggregate carrying value of the investments exceeds the aggregate market value. A reversal of the allowance will result from a subsequent recovery of the carrying value.

The cost of short-term investments sold are determined using the moving weighted-average method.

### **Allowance for Doubtful Receivables**

Allowance for doubtful receivables is provided on the basis of review of the collectibility of individual receivables.

### **Inventories**

Inventories are stated at the lower of cost (weighted-average cost method) or market value (replacement cost or net realizable value).

**Investments in Unconsolidated Companies**

Investments in shares of stock in companies where the Company exercises significant influence in their operating and financial policy decisions are accounted for using the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments. Unrealized profits arising from downstream transactions to equity investees are deferred in the Company's portion of equity income or loss. Profits and losses arising from equipment purchases from equity investees are eliminated and recognized over the estimated remaining useful life of the equipment.

Investments in shares of stock with no readily determinable market value are accounted for using the cost method when the ownership is less than 20%. Reductions in carrying value of those investments less reductions for decline in value are charged to stockholders' equity. Reductions which are determined to be other than temporary are charged to current income. Cash dividends received are recorded as income.

Stock dividends received are accounted for as increases in the number of shares held but not recognized as income.

The cost of investments sold is determined using the weighted-average method.

### **Property, Plant and Equipment**

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed currently.

The Company adopted ROC Financial Accounting Standards No. 35, "Accounting for the Impairment of Long-lived Assets" on December 31, 2004.

An impairment loss is recognized when the recoverable amount of an asset is less than its carrying amount. A reversal of the impairment loss is recognized if there is a subsequent recovery in the value of the asset. The recoverable amount cannot exceed the original cost less accumulated depreciation. An impairment loss on a revalued asset is recognized directly against capital surplus from revaluation for the asset to the extent that the impairment loss does not exceed the amount in the capital surplus from revaluation for that same asset. A reversal of an impairment loss on a revalued asset is credited directly to capital surplus from revaluation under the heading capital surplus from revaluation. However, to the extent that an impairment loss on the same revalued asset was previously recognized in profit or loss, a reversal of that impairment loss is also recognized in profit or loss.

Depreciation expense is determined based upon the asset's estimated useful life using the straight-line method. The estimated useful lives are as follows: land improvements, 10 to 30 years; buildings, 10 to 60 years; machinery and equipment, 6 to 10 years; telecommunication network facilities, 6 to 15 years; and miscellaneous equipment, 3 to 10 years.

Upon sale or disposal of property, plant and equipment, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss is credited or charged to income.

### **Intangible Assets**

The amount recorded for the 3G Concession will be amortized upon the MOTC approval of using the straight-line method over the lower of the legal useful life or estimated useful life. Patents are amortized using the straight-line method over the estimated useful lives ranging from 12 to 20 years. Computer software costs are capitalized and amortized using the straight-line method over the estimated useful lives of three years.

An impairment loss is recognized when the recoverable amount of an intangible asset other than goodwill is less than its carrying amount. A reversal of the impairment loss is recognized if there is a subsequent recovery in the value of the asset. The recoverable amount cannot exceed the original cost less accumulated amortization.

### **Pension Costs**

Pension costs are recognized according to the budget approved by the Legislative Yuan and the actuarial report. In addition, the DGBAS issued instructions that the pension costs of all state-owned companies to be privatized should be measured and recognized on the assumption that there is no privatization and that an additional amount should be calculated on the basis of the employees' service years if the additional amount does not reduce the budgeted net income. An additional minimum liability is recognized, if an unfunded accumulated benefit obligation exists, and an equal amount is recognized as an intangible asset, provided that the asset recognized does not exceed the amount of unrecognized net transition obligation and unrecognized prior service cost.

### **Revenue Recognition**

Revenues are recognized when revenues are realized or realizable and earned. Related costs are expensed as incurred.

Service revenue is based on the fair value of the sales price, after business discount and quantity discount, between the Company and customer. The sales price of service revenue is the amount which matures within one year. The difference between fair value and maturity value is not material and the transactions occur frequently so the interest factor is not included in calculating fair value.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees are recognized upon activation, (b) fixed-monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

### **Expense Recognition**

Expenses including commissions paid to agencies and handset subsidy costs paid to a vendor that sells a handset to a customer who subscribes to the service, as an inducement to enter into a service contract, are charged to income as incurred.

### **Income Tax**

The Company accounts for income tax using the asset and liability method. Under this method, deferred income tax is recognized for investment tax credits and tax consequences of differences between financial statement carrying amounts and their respective tax bases. A valuation allowance is recognized if, available evidence indicates it is more likely than not that a portion or the entire deferred tax asset will not be realized. A deferred tax asset or liability should be classified as current or non-current according to the classification of its related asset or liability. However, if a deferred asset or liability cannot be related to an asset or liability in the financial statements, it should be classified as

current or non-current depending on the expected reversal date of the temporary difference.

Investment tax credits utilized are recognized as reduction of income tax expense.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income taxes (10%) on undistributed earnings are recorded as expense in the year when the stockholders have resolved that the earnings shall be retained.

**Earnings Per Share**

Earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding during the period.

**Foreign-currency Transactions**

The functional currency of the Company is the local currency, the New Taiwan dollar. Thus, the transactions of the Company that are denominated in currencies other than the New Taiwan dollars (the foreign currency ) are recorded in New Taiwan dollars at the exchange rates prevailing on the transaction dates. Gains or losses realized upon the settlement of a foreign currency transaction are included in the period in which the transaction is settled. The balances, at the balance sheet dates, of the foreign currency assets and liabilities are adjusted to reflect the prevailing exchange rates, and the resulting differences are recorded as follows:

- a. Long-term stock investments accounted for by the equity method - as cumulative translation adjustment under stockholders' equity; and
- b. Other assets and liabilities - credited or charged to current income.

**Foreign Currency Forward Exchange Contracts**

The Company enters into foreign currency forward contracts to manage currency exposures in foreign currency-denominated assets and liabilities. The differences in the New Taiwan dollar amounts translated using the current rate and the amounts translated using the contracted forward rates on the contract date are amortized over the terms of the forward contracts using the straight-line method. At the balance sheet dates, the receivables or payables arising from forward contracts are restated using the prevailing current rate at the balance sheet date and the resulting differences are recognized and charged to income. Also the receivables and payables related to the forward contract are netted with the resulting amount presented as either other current monetary asset or other current liability. Any resulting gain or loss upon settlement is charged to income in the period of settlement.

**3. ADJUSTMENTS OF FINANCIAL STATEMENTS**

**For the Year Ended December 31, 2003**

The Company's financial statements for the year ended December 31, 2003 had been examined by the government agencies, and the resulting adjustments had been recorded retroactively as of December 31, 2003. The effects of these adjustments are summarized as follows:

Pursuant to the related regulation, the Company revalued its land owned as of April 30, 2000 based on the publicly announced value on July 1, 1999. These revaluations which were approved by the MOA resulted in increases in the carrying values of property, plant and equipment of \$5,986,074 thousand, liabilities for land value incremental tax of \$211,182 thousand, and capital surplus of \$5,774,892 thousand.

On January 30, 2005, the amendment in Land Tax Act, relating to the article to permanently lower land value incremental tax, went into effect on February 1, 2005. In accordance with the lowered tax rates, the Company recomputed its land value incremental tax, and reclassified the reserve for land value incremental tax of \$116,196 thousand to capital surplus.

On July 1, 1996, pursuant to the guidance on the incorporation of the Company and as instructed by the ROC's Executive Yuan (executive branch), the ROC Government (through the MOTC) transferred to the Company certain land and buildings with a carrying value of \$120,957,303 thousand. Those properties, as of that date, were registered in the name of the ROC's National Properties Bureau (NPB). On September, 2004, all the properties had been registered in the name of the Company.

No interest expense was capitalized for the three months ended March 31, 2005 and 2004.

The loan amount of NT\$0.7 billion from the Common Tunnel Fund was obtained pursuant to a long-term loan agreement with the Common Tunnel Fund managed by Ministry of Interior that allows the Company to obtain unsecured interest-free credit of NT\$1 billion until March 12, 2007, with a restricted lending term of five years. The outstanding principal was payable in three annual installments (NT\$0.2 billion, NT\$0.2 billion and NT\$0.3 billion) starting on March 12, 2005.

**14. STOCKHOLDERS EQUITY**

Under the Company's Articles of Incorporation, authorized capital is divided into 9,647,724,900 common shares (at \$10 par value per share), all of which are issued and outstanding. The Company's Articles of Incorporation and the Republic of China Telecommunications Act provide that the MOTC has the right to purchase two redeemable preferred shares (NT\$10 par value) in the event its ownership in the Company falls below 50% of the outstanding common shares.

For the purpose of privatizing the company, the MOTC sold 1,109,750 thousand common shares of the Company in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange in July 17, 2003.

## Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

The ADS holders generally have the same rights and obligations as other common shareholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights;
- b. Sell their ADSs; and
- c. Receive dividends declared and subscribe to the issuance of new shares.

- 17 -

As of March 31, 2005, the outstanding ADSs were 110,975 thousand units, which equalled approximately 1,109,749 thousand common shares and represented 11.50% of the Company's total outstanding common shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in the Company's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same option as holders of common shares when the Company raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to vote on any change in the name of the Company or the nature of its business and any transfer of a substantial portion of the Company's business or property.
- d. The holder of the preferred shares may not transfer the ownership. The Company must redeem all outstanding preferred shares within three years from the date of their issuance.

Under the ROC Company Law, capital surplus can only be utilized to offset deficits or be declared as stock dividends. Also, such capital surplus and donations can only be declared as a stock dividend by the Company at an amount calculated in accordance with the provisions of existing regulations.

In addition, before distributing a dividend or making any other distribution to stockholders, the Company must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. The cash dividends to be distributed shall not be less than 10% of the total amount of the dividends to be distributed. In addition, if the cash dividend to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Telecommunications service is capital-intensive and the Corporation requires capital expenditures to sustain its competitive position in high-growth market. Thus, the Company's dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

Furthermore, under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of the Company. This reserve can only be used to offset a deficit, or when the balance is 50% of the aggregate par value of the outstanding capital stock of the Company, the Company may, at its option, declare 50% of the reserve as a stock dividend and transfer the amount to capital.

The appropriations and distributions of the 2004 earnings of the Company have been approved by the board of directors on March 29, 2005 as follows, and are pending for the approval of stockholders:

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

	<u>Amount</u>
Special reserve	\$ 4,243
Legal reserve	4,987,031
Dividends- \$4.7 per share	45,344,307
	<u>\$ 50,335,581</u>

- 18 -

The appropriation and distributions of the 2003 earnings of the Company have been approved and resolved by the stockholders on June 25, 2004, for 10% legal reserve of \$4,850,075 thousand, special reserve \$522 thousand and cash dividends of \$43,414,762 thousand (\$4.5 per share).

Under the Integrated Income Tax System that became effective on July 1, 1998, non-corporate stockholders are allowed a tax credit for the income tax paid by the Company on earnings generated in 1999 and onwards. An Imputation Credit Account (ICA) is maintained by the Company for such income tax and the tax credit is allocated to each stockholder.

Balance of Imputation Credit Account (ICA)	\$ 6,328,570	\$ 8,676,914

## Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

As of March 31, 2005, the estimated ICA rate for 2004 earnings and the actual ICA rate for the 2003 earnings was 12.47% and 27.68%, respectively. The credit available for allocation to the stockholders is calculated on the basis of the balance of ICA on the date of distribution of dividends. Accordingly, the estimated ICA rate as of March 31, 2004 may differ from the actual rate determined based on the balance of the ICA on the dividend distribution date.

### e. Undistributed earnings information

As of March 31, 2005 and 2004, the Company's undistributed earnings generated in June 30, 1998 and onward were \$32,336 thousand.

Income tax returns through the year ended December 31, 2003 have been examined by the tax authorities.

**18. PENSION PLAN**

The Company has different pension plans for its employees depending on their classifications. In general, the employees' pension entitlement is based on MOTC regulations, Labor Law and/or the private pension plan of the Company.

The funding of the pension plan for employees classified as staff is based on the budget approved by the Legislative Yuan and a supplementary budget approved by the Executive Yuan. The staff pension fund is administered by a pension fund committee and deposited in its name in a commercial bank. The pension plan for employees classified as workers is funded monthly at 15% or less of their wages and is also administered by a pension committee and deposited in its name in the Central Trust of China.

The Labor Pension Act of ROC will be effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. The employees who were subject to the Labor Standards Law prior to the enforcement of this Act may choose to be subject to the pension mechanism under this Act or continue to remain to be subject to the pension mechanism under the Labor Standards Law. For those employees who were subject to the Labor Standards Law prior to July 1, 2005 and still work for the same company after July 1, 2005 and choose to be subject to the pension mechanism under this Act, their seniority as of July 1, 2005 shall be maintained. The rate of contribution by an employer to the Labor Pension Fund per month shall not be less than 6% of each employee's monthly salary or wage.

Contributions and payments information are as follows:

Pension costs amounted to \$1,204,632 thousand and \$573,070 thousand for the three months ended March 31, 2005 and 2004, respectively. The privatization of the Company was not completed on December 31, 2004, and the new target privatization date is expected to be December 31, 2005. Therefore, based on the assumption that the timing of the privatization is December 31, 2005, the accrued pension cost for staff was \$2,665,246 thousand and prepaid pension cost for workers was \$420,843 thousand as of March 31, 2005, totaling a net accrued pension cost of \$2,244,403 thousand.

## 19. TRANSACTIONS WITH RELATED PARTIES

As the Company is a state-owned enterprise, the ROC Government is one of the Company's customers. The Company provides fixed-line services, wireless services, Internet and data and other services to the various departments and agencies of the ROC Government and other state-owned enterprises in the normal course of business and at arm's-length prices. The information on service revenues from government bodies and related organizations have not been provided because details of the type of users were not maintained by the Company. The Company believes that all costs of doing business are reflected in the financial statements and that no additional expenditures will be incurred as a result of the privatization being completed.

- a. The Company engages in business transactions with the following related parties:

<u>Company</u>	<u>Relationship</u>

**21. FAIR VALUE OF FINANCIAL INSTRUMENTS**

## a. Derivative financial instruments

The Company entered into derivative financial instrument transactions to manage exchange rate exposures related to foreign-currency denominated payables. There were no foreign currency forward exchange contracts outstanding as of March 31, 2005. The outstanding foreign currency forward exchange contracts as of March 31, 2004 were as follows:

Transaction Type	Contract Amount	Fair Value	Maturity Date	Maturity Amount
	(in EUR Thousands)			(in EUR Thousands)
Buy	\$ 3,000	\$ (3,969)	2004.04.29	\$ 3,000
Buy	3,000	(3,240)	2004.05.03	3,000
Buy	5,000	(4,237)	2004.05.05	5,000
Buy	3,000	(3,732)	2004.06.10	3,000
Buy	3,000	(4,468)	2004.06.14	3,000
	<u>\$ 17,000</u>	<u>\$ (19,646)</u>		<u>\$ 17,000</u>

Net unrealized exchange loss for the three months ended March 31, 2004 was \$22,041 thousand.

## 1) Transaction risk

## a) Credit risk

The Company is exposed to credit risk in the event of non-performance of the counter parties to forward contracts on maturity. In order to manage this risk, the Company conducts transactions only with domestic financial institutions with good credit ratings. As a result, no material losses resulting from counter party defaults are anticipated.

## b) Market risk

Market risk is the exposure created by potential exposures to changes of foreign exchange rate related to its foreign-currency-denominated assets and/or liabilities and changes on interest rates related to its obligations.

## c) Liquidation risk and cash flow risk

The Company entered into foreign currency forward exchange contracts to hedge its exposure for the effect of exchange rate fluctuations on net liabilities. At the maturity of the contracts, the Company has sufficient cash to cover the cash out, therefore the Company believes there is not a significant liquidation risk and cash flow risk.

2) Transaction gains and losses

Net exchange loss for the three months ended March 31, 2004 was \$3,708.

- 24 -

## b. Fair value of non-derivative financial instruments

Customers deposits	5,893,261	5,893,261	5,440,666	5,440,666

The Company's basis for determining the fair values is as follows:

- 1) Financial instruments except those mentioned in b) and c) below - the carrying values reported in the balance sheet approximate the fair values of these assets.
- 2) Fair values of investments in unconsolidated companies and funds are based on the net asset values of the investments in unconsolidated companies, if quoted market prices are not available.
- 3) Long-term loans (including current portion of long-term loans). The fair value is discounted value based on projected cash flow. The projected cash flows were discounted using the maturity dates of long-term loans.

**CHUNGHWA TELECOM CO., LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**(Amounts in Millions of New Taiwan Dollars, Unless Stated Otherwise)**

**1. GENERAL**

Chunghwa Telecom Co., Ltd. ( Chunghwa or the Company ) was incorporated on July 1, 1996 in the Republic of China ( ROC ) pursuant to the Telecommunications Act No. 30. The Company is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications ( MOTC ). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications ( DGT ). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off and Chunghwa continues to carry out the business and the DGT continues to be the industry regulator.

As a dominant telecommunications service provider of fixed-line and cellular telephone services, within the meaning of applicable telecommunications regulations of the ROC, the Company is subject to additional requirements imposed by the MOTC.

The MOTC is in the process of privatizing the Company by reducing the government ownership to below 50% in stages. Certain of the Company's common shares were sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of the Company's common shares were also sold to its employees at various dates from October 2000 to April 2005. In July, 2003 the MOTC sold the Company's common shares in an international offering of securities in the form of American Depository Shares ( ADS ). The MOTC intends to continue to sell the Company's common shares in the ROC and throughout the process of privatization to the Company's employees. As of April 15, 2005 the MOTC owns 64.85% shares of the Company.

The Company's common shares were listed and traded on the Taiwan Stock Exchange and the New York Stock Exchange on October 27, 2000 and on July 17, 2003, respectively.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The financial statements have been prepared by the Company pursuant to the rules and regulations of the United States Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments necessary for a fair statement of the results of operations, financial position and cash flows for each period presented. The results for interim periods are not necessarily indicative of results for the full year.

**Cash Equivalents**

Cash equivalents include commercial paper purchased with maturities of three months or less from the date of acquisition.

### **Short-term Investments**

Short-term Investments include commercial paper purchased with original maturities greater than 90 days. The Company has classified investments as held to maturity which the Company has the ability to and intends to hold to maturity. Held-to-maturity investments are reported at amortized cost with any realized gains and losses recorded in other income and expense. Investments in mutual funds and real estate investment trust funds are designated as trading and are carried at their fair value with unrealized valuation gains and losses recognized in earnings.

### **Employee Stock Compensation**

In connection with the privatization plan of the Company, employees may be offered to purchase shares of common stock of the Company at less than fair market value. The Company records the difference between the quoted market price of the stock on the date of purchase and the purchase price as compensation expense and charges to income in the period of the purchase.

### **Derivative Financial Instruments**

The Company enters into forward contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates underlying the value of liabilities denominated in foreign currencies until such liabilities are paid. A forward contract obligates the Company to exchange predetermined amounts of specified foreign currencies at specified exchange rates on specified dates. These foreign currency forward exchange contracts are denominated in the same currency in which the underlying foreign currency liabilities are denominated and bear a contract value and maturity date that approximate the value and expected settlement date, respectively, of the underlying transactions. For contracts that are designated and effective as hedges, unrealized gains and losses on open contracts at the end of each accounting period, resulting from changes in the fair value of these contracts, are recognized in earnings in the same period as gains and losses on the underlying foreign denominated receivables are recognized and generally offset. Gains and losses on forward contracts and foreign denominated liabilities are included in other income (expense), net. The Company does not enter into or hold derivatives for trading or speculative purposes and only enters into contracts with highly rated financial institutions

Derivatives are recognized at fair value and included in either other current liabilities or other current assets on the balance sheet.

### **Recent Accounting Pronouncements**

In December 2004, the FASB issued SFAS No. 123(R) Share-Based Payment. SFAS No. 123(R) requires that companies recognize compensation expense equal to the fair value of stock options or other share based payments for the annual reporting period that begins after June 15, 2005. SFAS No. 123(R) applies to all awards granted after June 15, 2005, and prior period's awards that are modified, repurchased, or cancelled after June 15, 2005. There is no impact to the Company as a result of this standard as the Company does not currently issue stock options to its employees or others.

### **3. U.S. DOLLAR AMOUNTS**

## Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

The Company maintains its accounts and expresses its financial statements in New Taiwan dollars. For convenience only, U.S. dollar amounts presented in the accompanying financial statements have been translated at the noon buying rate for cable transfers as certified for customs purposes by the Federal Reserve Bank of New York as of March 31, 2005, which was NT\$31.46 to US\$1.00. The convenience translations should not be construed as representations that the New Taiwan dollar amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

The loan from the Common Tunnel Fund was obtained pursuant to a long-term loan agreement with the Common Tunnel Fund managed by Ministry of Interior that allows the Company to obtain unsecured interest-free credit until March 12, 2007. The outstanding principal was payable in three annual installments (NT\$0.2 billion, NT\$0.2 billion and NT\$0.3 billion) starting on March 12, 2005.

As of December 31, 2004 and March 31, 2005, the Company has unused credit lines of approximately NT\$190,000 million and NT\$170,200 million (unaudited), which are available for short-term and long-term borrowings.

#### 8. STOCKHOLDERS EQUITY

Under the Company's Articles of Incorporation, authorized capital is 9,647,724,900 common shares. The Company's Articles of Incorporation and the Republic of China Telecommunications Act provide that the MOTC has the right to purchase two redeemable preferred shares (NT\$10 par value) in the event its ownership in the Company falls below 50% of the outstanding common shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in the Company's Articles of Incorporation as follows:

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same stock option as holders of common shares when the Company raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to vote on any change in the name of the Company or the nature of its business and any transfer of a substantial portion of the Company's business or property.
- d. The holder of the preferred shares may not transfer the ownership. The Company must redeem all outstanding preferred shares within three years from the date of their issuance.

- 8 -

For the purpose of privatizing the company, the MOTC sold 1,109,750 thousand common shares of the Company in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange in July 17, 2003.

The ADS holders generally have the same rights and obligations as other common shareholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents; exercise their voting rights, sell their ADSs, and receive dividends declared and subscribe to the issuance of new shares.

As of December 31, 2004 and March 31, 2005, the outstanding ADSs were 110,975 thousand units, which equaled approximately 1,109,749 thousand common shares which represented 11.50% of the Company's total outstanding common shares.

Under the ROC Company Law, capital surplus may only be utilized to offset deficits or be declared as stock dividends. Also, such capital surplus can only be declared as a stock dividend by the Company at an amount calculated in accordance with the provisions of existing regulations.

In addition, before distributing a dividend or making any other distribution to stockholders, the Company must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and, depending on its business needs or requirements may also set aside a special reserve. The cash dividends to be distributed shall not be less than 10% of the total amount of dividends to be distributed. If the cash dividend to be distributed is less than NT\$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of the Company. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of the Company, up to 50% of the reserve may, at the option of the Company, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2004 earnings of the Company have been approved by the board of directors on March 29, 2005 as follows, and are pending for the approval of stockholders:

	<u>Amount</u>
	NT\$
Special reserve	\$ 4
Legal reserve	4,987
Dividends - NT\$4.7 per share	45,344
	<u>\$ 50,335</u>

The appropriation and distributions of the 2003 earning of the Company have been approved and resolved by the stockholders, for 10% legal reserve of NT\$4,850 million, special reserve of NT\$1 million and cash dividends of \$43,414 million (NT\$4.5 per share).

The MOTC, in connection with the privatization plan of the Company, sold shares of stock at discounted prices, to employees at various times from October 2000 to October 31, 2003. The employees purchased the common shares at discounts of 10% and 20% in consideration for their commitment to hold the common shares for two and three years (the holding periods), respectively. In circumstances wherein the employees took advantage of such discounts, the common shares are held by an escrow agent on behalf of the employees/stockholders. There are no circumstances under which the MOTC or the Company would be required to repurchase these common shares. Also, the employees are not required to remain employed with the Company during the duration of the holding periods.

The MOTC, in connection with the compensation of the employees, sold to employees 3,286,907 shares from February 27, 2004 to March 9, 2004, 14,579 shares from May 31, 2004 to June 18, 2004, 382,083 shares from June 30, 2004 to July 6, 2004 and 5,098,515 shares from November 30 to December 8, 2004 for total consideration of NT\$33 million, NT\$0.1 million, NT\$4 million, and NT\$50 million, respectively. The terms of the offers for the share purchases provided that employees purchase common shares from the above offering and hold the shares for one to three years. Such common shares, pursuant to the Enforcement Rule of the Statute Governing Privatization of State-Owned Enterprises, were sold at par value (NT\$10). The employees are not required to remain employed with the Company during the duration of the holding periods. The Company has recognized NT\$162 million (unaudited) as compensation expense for the shares purchased by employees that were subject to par value for the three months ended March 31, 2004.

From March 31, 2005 to April 8, 2005, the MOTC, in connection with the compensation of the employees, sold to employees 3,681,307 shares at par value for total consideration of NT\$37 million (unaudited), and the company has recognized NT\$204 million (unaudited) as compensation expense in April, 2005.

## 9. PENSION PLAN

Pension costs amounted to NT\$1,111 million (unaudited) and NT\$1,330 million (unaudited) for the three months ended March 31, 2004 and 2005, respectively. The Company's contributions to the retirement plan were NT\$581 million (unaudited) and NT\$2,037 million (unaudited) for the three months ended March 31, 2004 and 2005, respectively.

## 10. COMMITMENTS AND CONTINGENT LIABILITIES

As of March 31, 2005, the Company has remaining commitments under non-cancelable contracts with various parties as follows: (a) acquisitions of land and buildings of NT\$3,370 million (unaudited), and (b) acquisitions of telecommunications equipment of NT\$11,241 million (unaudited).

The Company also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operating system software under contracts that expire in various years. Minimum rental commitments under those leases are as follows:

- 10 -

As of March 31, 2005, the Company had unused letters of credit of NT\$7,206 million (unaudited).

The Company has a commitment to contribute NT\$2,500 million to a Fixed Line Fund administered by the Ministry of Interior Affairs and Taiwan Power Company, of which NT\$1,000 million was contributed by the Company on June 30, 1995. If the balance of the Fixed Line Fund is not sufficient for its purpose, the above three parties will determine when to raise additional funds and the contribution amounts from each party. In addition, the Company has a commitment to contribute NT\$2,000 million to a Piping Fund administered by the Taipei City Government, of which NT\$1,000 million was contributed by the Company on August 15, 1996.

## 11. LITIGATION

The Company is involved in various legal proceedings of a nature considered normal to its business. It is the Company's policy to accrue for amounts related to these legal matters when it is probable that a liability has been incurred and the amount is reasonably estimable.

The Company believes that the various asserted claims and litigation in which it is involved will not materially affect its financial position, future operating results or cash flows, although no assurance can be given with respect to the ultimate outcome of any such claim or litigation.

## 12. INFORMATION ON FINANCIAL INSTRUMENTS

### a. The derivative financial instruments

The Company enters into forward contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates underlying the value of liabilities denominated in foreign currencies until such liabilities are paid. There were no foreign currency forward exchange contracts outstanding as of March 31, 2005. The net realized exchange loss for the three months ended March 31, 2004 was of NT\$22 million (unaudited).

### b. The non-derivative financial instruments are as follows:

	December 31, 2004		March 31, 2005	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	NT\$	NT\$	NT\$ (Unaudited)	NT\$ (Unaudited)
<b>Assets</b>				
Cash and cash equivalents	\$ 29,283	\$ 29,283	\$ 33,168	\$ 33,168
Short-term investment	9,115	9,115	17,102	17,102
Investments in unconsolidated companies, accounted for using the equity method	1,429	1,767	1,410	1,722
Refundable deposits (included in other assets - other )	3,357	3,357	3,417	3,417
<b>Liabilities</b>				
Customers' deposits	9,262	7,771	8,813	7,372
Long-term loans (including current portion of long-term loans)	700	700	500	500

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

- 1) Cash and cash equivalents. The carrying amounts approximate fair values because of the short maturity of those instruments.
- 2) Short-term investments. The carrying amounts approximate fair values because of the short maturity of those instruments.
- 3) Investments in unconsolidated companies are accounted for using the equity method. The fair value is based on net asset values of the investments in unconsolidated companies if quoted market prices are not available.
- 4) Refundable deposits. The carrying amounts approximate fair values as the average lease term associated with these deposits is approximately one year.
- 5) Customers' deposits. The fair value is the discounted value based on projected cash flows. The projected cash flows were discounted using the average expected customer service periods.
- 6) Long-term loans (including current portion). The fair value is the discounted value based on projected cash flows. The projected cash flows were discounted using the maturity dates of long-term loans.

### 13. SEGMENT REPORTING

Operating segments are defined as components of an enterprise regarding which separate financial information is available for regular evaluation by the chief operating decision maker, or decision making group, in deciding how to allocate resources and in assessing performance.

The Company organizes its business segments based on the various types of telecommunications services provided to customers. The major business segments operated by the Company are classified as below:

Local operations - the provision of local telephone services;

DLD operations - the provision of domestic long distance call services;

ILD operations - the provision of international long distance call services;

Cellular operations - the provision of cellular and related services;

Paging operation - the provision of paging and related services;

Internet and data operation - the provision of Internet access, lease line, and related services;

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

All other operations - the services other than the above six categories, such as carrying out project research and providing training.

The operating segments are managed separately because each operating segment represents a strategic business unit that serves different markets. All the operating segments of the Company have been aggregated into the above reportable segments.

- 12 -

The Company evaluates performance based on several factors using information prepared on the ROC government regulations basis. The information below is provided on this basis with a summary of US GAAP adjustments to reconcile to the amounts presented in the statement of operations. The Company does not allocate interest and other income, interest expense or taxes to operating segments, nor does the Company's chief operating decision maker evaluate operating segments on these criteria. Except as discussed above, the accounting policies for segment reporting are the same as for the company as a whole. The Company's primary measure of segment profit is based on income or loss from operations.
