Item 8.01. Other Events.

On August 9, 2005, the Company's Audit Committee held a meeting in which it discussed with management and the Company's independent accountants the date on which to recognize the completion of the Company's firm commitment underwritten initial public offering. The Company's registration statement had been declared effective by the Securities and Exchange Commission on June 28, 2005 and the Company's stock began trading on that date. Payment for the stock was not transferred to the Company until the IPO closed on July 1, 2005. In the June 30, 2005 financial information that accompanied the Company's July 28, 2005 earnings release and corresponding Form 8-K filing, the Company recorded the IPO transaction as of the effective date, June 28, 2005. Management and the Audit Committee concluded that the IPO transaction should properly be recorded as of the closing date, July 1, 2005. Additionally, since the conversion of the Company's preferred stock into common stock was effective immediately prior to the closing of the IPO, it should also have been reflected as having occurred July 1, 2005.

The Form 10-Q for the quarter ended June 30, 2005, filed concurrent herewith, reflects this determination and presents financial statements that exclude the impact of the Company's initial public offering.
