Item 7.01. Regulation FD Disclosure

In fiscal 2003, two customers of the Company's German subsidiary asserted claims against the Company in connection with heterojunction field effect transistors the Company sold to them. The Company acquired the heterojunction field effect transistors from the manufacturer pursuant to a distribution agreement. The customers claimed that the heterojunction field effect transistors did not meet the specification provided by the manufacturer. The Company notified the manufacturer and its insurance carrier of these claims. In fiscal 2005, the claim of one of the two customers was settled without any admission of liability on the part of the Company, with a full release from liability, and without any material consideration from the Company, the settlement amount being paid by the Company's insurance carrier. On December 12, 2005, the claim of the second of the two customers was settled without any admission of liability on the part of the Company, with a full release from liability, and without any material consideration from the Company, the settlement amount being paid by the Company's insurance carrier.
