**PART III NARRATIVE**

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Global Power Equipment Group Inc. (the Company) is filing Form 12b-25 because it needs additional time to file its Annual Report on Form 10-K for the year ended December 31, 2005, which is due on March 16, 2006. The primary reason for the delay is that, as disclosed in the Form 8-K filed by the Company on March 8, 2006, the Company reported that it expects to restate its financial statements for the fiscal year ended December 31, 2004, including the second, third and fourth quarters of 2004, and its interim financial statements for the first, second and third quarters of 2005.

Management has become aware of unrecognized expenses related to a heat recovery equipment project in China that was substantially completed in December 2004. This led management to further review the revenue and cost recognition for this project as well as a separate auxiliary power equipment project that had also been sold through the Company's Chinese trading company, Global Power Equipment (Shanghai) Co., Ltd., in 2004. Following this review, the Company, in conjunction with the Company's Board of Directors and after discussion with the Company's independent registered public accounting firm, has determined that gross profit was inadvertently overstated in total for these projects, and that a restatement is required. Currently, management believes that a restatement will result in an unaudited adjustment to prior period financial statements for the second, third and fourth quarters of 2004 and the first, second and third quarters of 2005 that could cumulatively decrease previously reported operating income in an amount that is not currently expected to exceed approximately \$7.0 million.

The Company expects to include restated financial results for the fiscal year ended December 31, 2004, including the second, third and fourth quarters of 2004, and the first, second and third quarters of 2005 in its Annual Report on Form 10-K for the year ended December 31, 2005, which it expects to file on or before March 31, 2006.

In the Company's 2004 Form 10-K that was filed on March 15, 2005, Management's Report on Internal Control Over Financial Reporting, previously concluded that the Company maintained effective internal control over financial reporting as of December 31, 2004. In connection with this restatement, the Company's management has re-evaluated the effectiveness of its internal control over financial reporting as of December 31, 2004 and determined that the Company did not maintain effective internal control over financial reporting as of December 31, 2004 due to a material weakness. For more information regarding the material weakness and the Company's efforts to remediate the material weakness, see the Company's Form 8-K filed with the Securities and Exchange Commission on March 8, 2006.

Management has not yet completed its assessment of internal control over financial reporting as of December 31, 2005, but has concluded that the Company's internal control over financial reporting is ineffective due to the material weakness noted above. Since management has not completed its assessment of internal control over financial reporting as of December 31, 2005, it is possible that management may identify one or more additional material weaknesses.

**Explanation Referred to in Part IV, Item (3) of Form 12b-25**

On March 8, 2006, the Company issued a press release providing a preliminary earnings estimate of a loss of between \$11 to \$13 million for the fourth quarter of 2005, or between \$0.23 to \$0.28 per diluted share, on revenues of approximately \$116 million. This estimate excludes the possible impact from a potential goodwill impairment and/or an increase in deferred tax asset valuation allowance, which are under review as a result of the fourth quarter 2005 loss. These potential non-cash charges could be material.

The Company expects to report a firm backlog at December 31, 2005 of approximately \$387 million compared to \$384 million at the end of September 2005 and \$309 million at December 31, 2004.

At December 31, 2005, the Company had cash and cash equivalents of \$21 million.
