Independent Auditors Report**

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have audited the accompanying balance sheets of Chunghwa Telecom Co., Ltd. as of June 30, 2006 and 2005, and the related statements of operations, changes in stockholders' equity and cash flows for the six months then ended, all expressed in New Taiwan dollars. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of June 30, 2006 and 2005, and the results of its operations and its cash flows for the six months then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the Republic of China.

As stated in Notes 2 and 4 to the financial statements, the Company completed its privatization on August 12, 2005 and the accounts before privatization were subject to examination by the Executive Yuan and by the Ministry of Audit of the Control Yuan. The accounts as of and for the year ended December 31, 2004 have been examined by these government agencies, and adjustments from this examinations have been recognized in the accompanying financial statements.

As stated in Note 3 to the financial statements, on January 1, 2006, the Company adopted the newly released Statements of Financial Accounting Standards No. 34 Accounting for Financial Instruments (SFAS No. 34) and No. 36 Disclosure and Presentation for Financial Instruments (SFAS No. 36) and related revisions of previously released standards.

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2006 AND 2005

(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL

Chunghwa Telecom Co., Ltd. (Chunghwa or the Company) was incorporated on July 1, 1996 in the Republic of China (ROC) pursuant to the Telecommunications Act No. 30. The Company is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications (MOTC). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications (DGT). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to Chunghwa. The DGT continues to be the telecom industry regulator in the ROC.

As a telecommunications service provider of fixed-line and cellular telephone services, within the meaning of applicable telecommunications regulations of the ROC, the Company is subject to additional requirements imposed by the MOTC.

Effective August 12, 2005, the MOTC had completed the process of privatizing the Company by reducing the government ownership to below 50% in various stages. In July 2000, the Company received approval from the Securities and Futures Commission (the SFC) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE) on October 27, 2000. Certain of the Company's common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of the Company's common shares had also been sold in an international offering of securities in the form of American Depository Shares (ADS) in July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE). The MOTC sold 289,431 thousand common shares of the Company by auction in the ROC on August 9, 2005 and 1,350,682 thousand common shares of the Company on August 10, 2005 in an international offering. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of the Company and completed the privatization plan.

The numbers of employees as of June 30, 2006 and 2005 are 25,407 and 27,984, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements were prepared in conformity with relevant regulations (applied before August 12, 2005), regulations governing the preparation of financial statements of public companies and accounting principles generally accepted in the ROC (ROC GAAP). The preparation of financial statements requires management to make certain estimates and assumptions that affect the recorded amounts of assets, liabilities, revenues and expenses of the Company. The Company continually evaluates these estimates, including those related to allowances for doubtful accounts, valuation allowances on inventories, useful lives of long term assets, pension plans and income tax. The Company bases its estimates on historical experience and other assumptions, which it believes to be reasonable under the circumstances. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

Basis of Presentation

As a stated-owned company before August 12, 2005 (privatization date), the accounts of the Company are subject to annual examinations by the Directorate General of Budget, Accounting and Statistics (the DGBAS) of the Executive Yuan and by the Ministry of Auditing (MOA) (DGBAS and MOA are hereinafter referred to as government agencies). The objective of these examinations is to evaluate the Company's performance against the budget approved by the Legislative Yuan. The accounts are considered final only after any adjustments based on the annual examinations are taken into account. The accounts for the year ended December 31, 2004 have been examined by these government agencies and resulting adjustments were recorded retroactively.

Current Assets and Liabilities

Current assets are commonly identified as those which are reasonably expected to be realized in cash, or sold or consumed within one year. Current liabilities are obligations which mature within one year. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

Cash Equivalents

Cash equivalents are commercial paper purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

Available-for-sale Financial Assets

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. When subsequently measured at fair value, the changes in fair value are excluded from earnings and reported as a separate component of stockholders' equity. The accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is recognized and derecognized using settlement date accounting.

The basis for determining the fair value of financial instruments is as follows: List stocks, closing prices as of balance sheet date; open-end bond mutual funds, net assets value as of balance sheet date; bonds, quotes in the OTC market as of balance sheet date; financial instruments without active market, fair value are estimated using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions.

Cash dividends are recognized as investment income upon the grant day but are accounted for as reductions to the original cost of investment if such dividends are declared on the earnings of the investees attributable to periods prior to the purchase of the investments. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. The cost per share is recalculated based on the new number of shares.

If there is objective evidence that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to shareholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables

Revenues are recognized when revenues are realized or realizable and earned. Related costs are expensed as incurred.

Service revenue is based on the fair value of the sales price, after business discount and quantity discount, between the Company and customer. The sales price of service revenue is the amount which matures within one year. The difference between fair value and maturity value is not material and the transactions occur frequently so the interest factor is not included in calculating fair value.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) fixed-monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

Allowance for doubtful receivables is provided on the basis of review of the collectibility of individual receivables.

Inventories

Inventories are stated at the lower of cost (weighted-average cost method) or market value (replacement cost or net realizable value).

Investments Accounted for Using Equity Method

Investments in shares of stock in companies where the Company exercises significant influence in their operating and financial policy decisions are accounted for using the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments. Unrealized profits arising from downstream transactions to equity investees are deferred in the Company's portion of equity income or loss. Profits and losses arising from equipment purchases from equity investees are eliminated and recognized over the estimated remaining useful life of the equipment.

When an indication of impairment is identified in an investment, the carrying amount of the investment is reduced, with the related impairment loss charged to current income.

Financial Assets Carried at Cost

Investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are carried at original cost, such as non-publicly traded stocks. If there is objective evidence that a financial asset is impaired, a loss is recognized. No recording of a subsequent recovery in fair value is allowed.

Property, Plant and Equipment

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed currently.

The Company adopted ROC Financial Accounting Standards No. 35, Accounting for the Impairment of Long-lived Assets on December 31, 2004.

An impairment loss is recognized when the recoverable amount of an asset is less than its carrying amount. A reversal of the impairment loss is recognized if there is a subsequent recovery in the value of the asset. The recoverable amount cannot exceed the original cost less accumulated depreciation. An impairment loss on a revalued asset is recognized directly against capital surplus from revaluation for the asset to the extent that the impairment loss does not exceed the amount in the capital surplus from revaluation for that same asset. A reversal of an impairment loss on a revalued asset is credited directly to shareholder's equity-other adjustments from revaluation under the heading shareholder's equity-other adjustments from revaluation. However, to the extent that an impairment loss on the same revalued asset was previously recognized in profit or loss, a reversal of that impairment loss is also recognized in profit or loss.

Depreciation expense is determined based upon the asset's estimated useful life using the straight-line method. The estimated useful lives are as follows: land improvements, 10 to 30 years; buildings, 10 to 60 years; machinery and equipment, 6 to 10 years; telecommunication network facilities, 6 to 15 years; and miscellaneous equipment, 3 to 10 years.

Upon sale or disposal of property, plant and equipment, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss is credited or charged to income.

Intangible Assets

The amount recorded for the 3G Concession is amortized upon the MOTC approval of using the straight-line method over the lower of the legal useful life or estimated useful life. Patents are amortized using the straight-line method over the estimated useful lives ranging from 10 to 20 years. Computer software costs are capitalized and amortized using the straight-line method over the estimated useful lives of three years.

An impairment loss is recognized when the recoverable amount of an intangible asset other than goodwill is less than its carrying amount. A reversal of the impairment loss is recognized if there is a subsequent recovery in the value of the asset. The recoverable amount cannot exceed the original cost less accumulated amortization.

Idle Assets

Idle assets are carried at the lower of recoverable amount or carrying amount.

Pension Costs

Pension costs subject to defined benefit plan are recognized according to the actuarial report. Pension costs subject to defined contribution plan are recognized according to the amount of contributions by the Company during the employees' service period.

Expense Recognition

Expenses including commissions paid to agencies and handset subsidy costs paid to vendors that sell handsets to customers who subscribe to services as an inducement to enter into a service contract are charged to income as incurred.

Treasury Stock

Cost of treasury stock is shown as a deduction to stockholders' equity. Treasury stock is recorded and is shown as a reduction to stockholders' equity. Upon cancellation of treasury stock, the accounts of common stock and treasury stock are reversed out based on the number of shares registered to be cancelled. The account of additional paid-in capital is adjusted for the difference of the repurchase price and the par value of common stock.

Income Tax

The Company accounts for income tax using the asset and liability method. Under this method, deferred income tax is recognized for investment tax credits and tax consequences of differences between financial statement carrying amounts and their respective tax bases. A valuation allowance is recognized if, available evidence indicates it is more likely than not that a portion or the entire deferred tax asset will not be realized. A deferred tax asset or liability should be classified as current or noncurrent according to the classification of its related asset or liability. However, if a deferred asset or liability cannot be related to an asset or liability in the financial statements, it should be classified as current or noncurrent depending on the expected reversal date of the temporary difference.

Investment tax credits utilized are recognized as reduction of income tax expense.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year when the stockholders have resolved that the earnings shall be retained.

Earnings Per Share

Earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding during the period.

Foreign-currency Transactions

The functional currency of the Company is the local currency, the New Taiwan dollar. Thus, the transactions of the Company that are denominated in currencies other than the New Taiwan dollars (the foreign currency) are recorded in New Taiwan dollars at the exchange rates prevailing on the transaction dates. Gains or losses realized upon the settlement of a foreign currency transaction are included in the period in which the transaction is settled. The balances, at the balance sheet dates, of the foreign currency assets and liabilities are adjusted to reflect the prevailing exchange rates, and the resulting differences are recorded as follows:

- a. Long-term stock investments accounted for by the equity method - as cumulative translation adjustment under stockholders' equity; and
- b. Financial assets and liabilities - credited or charged to current income.

3. REASON AND EFFECT OF THE CHANGES OF ACCOUNTING PRINCIPLE

On January 1, 2006, the Company adopted the newly released Statements of Financial Accounting Standards No. 34 Accounting for Financial Instruments (SFAS No. 34) and No. 36 Disclosure and Presentation for Financial Instruments (SFAS No. 36) and related revisions of previously released SFASs.

- a. Effect of adopting the newly released SFASs and related revisions of previously released SFASs

The Company had categorized its financial assets and liabilities upon initial adoption of the newly released SFASs. The adjustments made to the carrying amounts of the financial instruments categorized as available-for-sale financial assets as adjustments to stockholders' equity were recognized.

The effect of adopting the newly released SFASs is summarized as follows:

	Recognized as a Separate Component of Stockholders Equity
Available-for-sale financial assets	\$ 51,675

For the six months ended June 30, 2006, the adoption of the newly released SFASs had no impact on net income after income tax and basic earnings per share.

b. Reclassifications

Upon the adoption of SFAS No. 34, certain accounts in the financial statements as of and for the six months ended June 30, 2005 were reclassified to conform to the financial statements as of and for the six months ended June 30, 2006. The previous issued financial statements as of and for the six months ended June 30, 2005 are not required to be restated.

Certain accounting policies prior to the adoption of the newly released SFASs are summarized as follows:

Short-term investments

Short-term investments are carried at the lower of cost or market value. An allowance for decline in value is provided when the aggregate carrying value of the investments exceeds the aggregate market value. A reversal of the allowance will result from a subsequent recovery of the carrying value.

The cost of short-term investments sold are determined using the moving weighted-average method.

Certain accounts in the financial statements as of and for the six months ended June 30, 2005 have been reclassified to conform to the classifications prescribed by the newly released and revised SFASs. The reclassifications of the whole or a part of the account balances of certain accounts are summarized as follows:

The loan amount of NT\$0.7 billion from the Fixed - Line Fund was obtained pursuant to a long-term loan agreement with the Fixed - Line Fund managed by Ministry of Interior that allows the Company to obtain unsecured interest-free credit of NT\$1 billion until March 12, 2007, with a restricted lending term of five years. The outstanding principal was payable in three annual installments (NT\$0.2 billion, NT\$0.2 billion and NT\$0.3 billion) starting on March 12, 2005.

As of June 30, 2006, the Company had unused credit lines totaling approximately \$33,729,000 thousand, which are available for short-term and long-term borrowings.

18. STOCKHOLDERS EQUITY

Under the revised Company's Articles of Incorporation dated May 30, 2006, the Company's authorized capital is \$120,000,000,020, which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,455,724,900 shares, and 2 preferred shares (at \$10 par value per share), which are issued and approved by the board of directors on March 28, 2006, and the MOTC purchased 2 preferred shares at par value on April 4, 2006.

For the purpose of privatizing the Company, the MOTC sold 1,109,750 thousand common shares of the Company in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange in July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. As of June 30, 2006, the MOTC has sold 2,460,432 thousand common shares in the form of ADS amounting to 246,043 thousand units.

The ADS holders generally have the same rights and obligations as other common shareholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights;
- b. Sell their ADSs; and
- c. Receive dividends declared and subscribe to the issuance of new shares.

As of June 30, 2006, the outstanding ADSs were 246,043 thousand units and represented 26.02% of the Company's total outstanding common shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in the Company's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when the Company raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of the Company or the nature of its business and any transfer of a substantial portion of the Company's business or property.
- d. The holder of the preferred shares may not transfer the ownership. The Company must redeem all outstanding preferred shares within three years from the date of their issuance.

Under the ROC Company Law, capital surplus can only be utilized to offset deficits or be declared as stock dividends. Also, such capital surplus and donations can only be declared as a stock dividend by the Company at an amount calculated in accordance with the provisions of existing regulations.

In addition, before distributing a dividend or making any other distribution to stockholders, the Company must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: a. from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus; b. no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration in the following years after privatization During the year of privatization, the distributable earnings are limited to the earnings generated after privatization. The remaining distributable earnings can be distributed to the shareholders based on the resolution of shareholders meeting; and c. cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than NT\$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Telecommunications service is a Taiwan's capital-intensive industry and the Company requires capital expenditures to sustain its competitive position in high-growth market. Thus, the Company's dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of the Company. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of the Company, up to 50% of the reserve may, at the option of the Company, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2005 earnings of the company have been approved and resolved by the stockholders on May 30, 2006 as follows:

	Appropriation and Distribution	
	Amount	Dividend Per Share
Legal reserve	\$ 4,765,288	\$
Cash dividends	40,659,617	4.3
Stock dividends	1,891,145	0.2

Employee bonus - stock	230,057	
Remuneration to board of directors and supervisors	15,337	
	\$ 47,791,501	\$ 4.5

The appropriation and distributions of the 2004 earnings of the Company have been approved and resolved by the stockholders on June 21, 2005, for special reserve of \$4,243 thousand, 10% legal reserve of \$4,987,031 thousand and cash dividends of \$45,344,307 thousand (\$4.7 per share). After examination by the MOA, 10% legal reserve was decreased \$701 thousand, from \$4,987,031 thousand to \$4,986,330 thousand. The appropriation and distributions adjustments have been recorded retroactively as of December 31, 2004 in accordance with the applicable government regulations. (See Note 4).

Under the Integrated Income Tax System that became effective on July 1, 1998, non-corporate stockholders are allowed a tax credit for the income tax paid by the Company on earnings generated in 1999 and onwards. An Imputation Credit Account (ICA) is maintained by the Company for such income tax and the tax credit is allocated to each stockholder.

The estimated ICA rate for the year ended December 31, 2005 and the actual ICA rate for the year ended December 31, 2004 were 6.89% and 22.49%, respectively. The credit available for allocation to the stockholders is calculated on the basis of the balance of ICA on the date of distribution of dividends. Accordingly, the estimated rate as of December 31, 2005 may differ from the actual rate determined based on the balance of the ICA on the dividend distribution date.

f. Undistributed earnings information

As of June 30, 2006 and 2005, the Company's undistributed earnings generated in June 30, 1998 and onward was zero.

Income tax returns through the year ended December 31, 2004 had been examined by the tax authorities.

22. EARNINGS PER SHARE

	Amount (Numerator)		Weighted-average Number of Common Shares Outstanding (Denominator)	Net Income per Share (Dollars)	
	Income Before Income Tax	Net Income		Income Before Income Tax	Net Income

Net income	\$ 29,821,176	\$ 24,328,367			
Basic net income per share			9,859,845	\$ 3.02	\$ 2.47

The impact of stock dividends was considered in calculating basic and diluted net income per share for 2005. The basic EPS income before income tax and net income in 2005 would have decreased from NT\$3.09 to NT\$3.02 and from NT\$2.52 to NT\$2.47, respectively.

23. PENSION PLAN

The Company has different pension plans for its employees depending on their classifications before privatization. In general, the employees pension entitlement was based on MOTC regulations, Labor Law and/or the private pension plan of the Company.

Before privatization, the funding of the pension plan for employees classified as staff was based on the budget approved by the Legislative Yuan and a supplementary budget approved by the Executive Yuan. The staff pension fund was administered by a pension fund committee and deposited in its name in a commercial bank. The pension plan for employees classified as workers is funded monthly at 15% or less of their wages and is also administered by a pension committee and deposited in its name in the Central Trust of China Company.

The Company completed privatization plans on August 12, 2005. The Company is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises (the Privatization Fund). After paying all pension obligations for privatization, the plan assets of the Company should be transferred to the Fund for Privatization of Government-owned Enterprises under the Executive Yuan. However, according to the instructions of MOTC, the Company would, on behalf of the MOTC pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization. As of June 30, 2006, the remaining balance of funds to be disbursed to employees on behalf of the MOTC and transferred to Privatization Fund amounted to NT\$501 million.

The Labor Pension Act of ROC is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. The employees who were subject to the Labor Standards Law prior to the enforcement of this Act may choose to be subject to the pension mechanism under this Act or continue to remain to be subject to the pension mechanism under the Labor Standards Law. For those employees who were subject to the Labor Standards Law prior to July 1, 2005 and still work for the same company after July 1, 2005 and choose to be subject to the pension mechanism under this Act, their seniority as of July 1, 2005 shall be maintained. The rate of contribution by an employer to the Labor Pension Fund per month shall not be less than 6% of each employee's monthly salary or wage. The Company contributes 6% of each employee's monthly salary per month beginning July 1, 2005.

After privatization, the pension plan in accordance with the Labor Standards Law is considered as a defined benefit plan. The payments of pension are subject to the service periods and average salaries of six months of employees prior to retirement. The pension assets is funded monthly at 15% or less of their wages and is also administered by a pension committee and deposited in its name in the Central Trust of China Company.

The balance of the Company's plan assets subject to defined benefit plan were \$2,183,922 thousand and \$1,049,791 thousand as of June 30, 2006 and 2005, respectively.

Pension costs amounted to \$1,699,345 thousand (\$1,678,987 thousand subject to defined benefit plan and \$20,358 thousand subject to defined contribution plan) and \$2,409,284 thousand for the six months ended June 30, 2006 and 2005, respectively.

24. TRANSACTIONS WITH RELATED PARTIES

The Company was a state-owned enterprise and the ROC Government is one of the Company's customers. The Company provides fixed-line services, wireless services, Internet and data and other services to the various departments and agencies of the ROC Government and other state-owned enterprises in the normal course of business and at arm's-length prices. The information on service revenues from government bodies and related organizations have not been provided because details of the type of users were not maintained by the Company. The Company believes that all costs of doing business are reflected in the financial statements and that no additional expenditures would be incurred as a result of the privatization being completed.

a. The Company engages in business transactions with the following related parties:

25. COMMITMENTS AND CONTINGENT LIABILITIES

As of June 30, 2006, the Company's remaining commitments under non-cancellable contracts with various parties were as follows:

- a. Acquisitions of buildings of \$2,242,556 thousand.
- b. Acquisitions of telecommunications equipment of \$18,520,835 thousand.
- c. Unused letters of credit of approximately \$3,085,985 thousand.
- d. Contracts to print billing, envelopes and telephone directories of approximately \$256,796 thousand.

e. The Company also has non-cancellable operating leases covering certain buildings, computers, computer peripheral equipment and operating system software under contracts that expire in various years. Minimum rental commitments under those leases are as follows:

Year	Rental
	Amount
The six months ended December 31, 2006	\$ 671,616
2007	1,015,318
2008	687,263
2009	419,980
2010 and thereafter	284,918

f. A commitment to contribute \$2,500,000 thousand to a Fixed Line Fund administered by the Ministry of Interior Affairs and Taiwan Power Company, of which \$1,000,000 thousand has been contributed by the Company on June 30, 1995. If the balance of the Fixed Line Fund is not sufficient for its purpose, the above three parties will determine when to raise additional funds and the contribution amounts from each party.

g. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by the Company on August 15, 1996.

h. A portion of the land used by the Company during the period July 1, 1996 to December 31, 2004 was co-owned by the Company and Chunghwa Post Co., Ltd. (the former Directorate General of Postal Service). In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to the Company to reimburse Chunghwa Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of the Company's ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. However, the Company believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, the Company has filed an appeal at the Taiwan Taipei District Court. As of August 11, 2006, the case is still in the procedure of the first instance at the Taiwan Taipei District Court.

i. On June 2, 2006, the Company's board of directors approved an investment plan to purchase more than 50% of the common stocks issued from CHIEF Telecom Co., Ltd. However, a formalized purchase contract has not been signed by the Company as of August 11, 2006.

On January 1, 2006, the Company adopted the newly released Statements of Financial Accounting Standards No. 34 Accounting for Financial Instruments (SFAS No. 34) and the related information refers to the Note 3 to the financial statements.

b. Methods and assumptions used in the determination of fair values of financial instruments:

- 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. This method does not apply to the financial instruments discussed in notes 2, 3, and 4 below.
- 2) If the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market price of the financial assets are not immediately available, they must be calculated using standard valuation models on the basis of current market parameters.
- 3) Long-term investments are based on the net asset values of the investments in unconsolidated companies, if quoted market prices are not available.
- 4) Long-term loans (including current portion). The fair value is discounted value based on projected cash flow. The projected cash flows were discounted using the maturity dates of long-term loans.

c. Fair value of financial instruments were as follow:

	Amount Based on Quoted Market Price		Amount Determined Using Valuation Techniques	
	June 30, 2006	June 30, 2005	June 30, 2006	June 30, 2005

d. Information about financial risks

1) Market risk

The financial instruments categorized as available for sale financial assets are mainly list stocks and open-end bond mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, the Company would assess the risk before investing, therefore, no material market risk are anticipated.

2) Credit risk

The Company is exposed to credit risk in the event of non-performance of the counter parties to forward contracts on maturity. Contracts with positive fair values at the balance sheet date are evaluated for credit risk. In order to manage this risk, the Company conducts transactions only with financial institutions with good credit ratings. As a result, no material losses resulting from counter party defaults are anticipated.

3) Liquidation risk

The financial instruments categorized as available - for - sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risk are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk are anticipated.

CHUNGHWA TELECOM CO., LTD.

NOTES TO FINANCIAL STATEMENTS

(Amounts in Millions of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL

Chunghwa Telecom Co., Ltd. (Chunghwa or the Company) was incorporated on July 1, 1996 in the Republic of China (ROC) pursuant to the Telecommunications Act No. 30. The Company is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications (MOTC). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications (DGT). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

As a telecommunications service provider of fixed-line and cellular telephone services, within the meaning of applicable telecommunications regulations of the ROC, the Company is subject to requirements imposed by the MOTC.

Effective August 12, 2005, the MOTC had completed the process of privatizing the Company by reducing the government ownership to below 50%. Portions of the MOTC's common share holdings had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Portions of the MOTC's common share holdings had also been sold to the Company's employees at various dates from October 2000 to July 2005. In July 2003, the MOTC sold the Company's common shares in an international offering of securities in the form of American Depository Shares (ADS). In August 2005, the MOTC sold 289,431,000 common shares in the ROC and 1,350,682,000 common shares in an international offering of securities in the form of ADS. As of August 12, 2005, the MOTC owned 47.84% shares of the Company and the privatization plan was completed. As of June 30, 2006 the MOTC owns 42.21% shares of the Company.

The Company's common shares were listed and traded on Taiwan Stock Exchange and New York Stock Exchange on October 27, 2000 and July 17, 2003, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Prior to August 12, 2005, the effective date of privatization, the Company maintained its accounting books and records based on the ROC government regulations for state-owned enterprises, ROC government regulations governing the preparation of financial statements of public companies and accounting principles generally accepted in the ROC (ROC GAAP). Subsequent to August 12, 2005, the Company is no longer required to follow the ROC government regulations for state-owned enterprises. The accompanying unaudited interim financial statements have been prepared to present its financial position, results of operations and cash flows in accordance with accounting principles generally accepted in the United States of America (US GAAP) for interim financial information. The results for interim periods are not necessarily indicative of results for the full year. Accordingly, they do not include all of the information and footnotes required by US GAAP for the complete financial statements. In the opinion of management, all adjustments necessary for a fair presentation have been included.

The Company has established New Prospect Investments Holdings, Ltd. (B.V.I.) and Prime Asia Investments Group Ltd. (B.V.I.) in March, 2006. Both holding companies are operating as investment companies and the Company has 100% ownership right in an amount of US\$1 in each holding company. As of June 30, 2006, the holding companies are subsidiaries of the Company and the financial statements of the holding companies are consolidated into the Company.

Cash Equivalents

Cash equivalents include negotiable certificates of deposit and commercial paper purchased with maturities of three months or less from the date of acquisition.

Short-Term Investments

Short-term investments including open-ended mutual funds, real estate investment trust funds and listed stocks are classified as available-for-sale securities. When subsequently measured at fair value, the changes in fair value are excluded from earnings and reported as a separate component of shareholders' equity. Short-term investments bought and held principally for the purpose of selling them in the near term for generating profits were classified as trading securities and carried at fair value, with unrealized holding gains and losses recognized in earnings.

The credit linked investment is an interest-rate-risk financial instrument with an embedded derivative linked to credit risk in order to gain a higher rate of return. The hybrid financial instrument is remeasured at fair value with changes in fair value reported in earnings. As such, the Company does not bifurcate the embedded derivative from the host contract.

Valuation of Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable in accordance with Statement of Financial Accounting Standards (SFAS) No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets. If the total of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the assets, a loss is recognized for the excess of the carrying amount over the fair value of the asset.

Revenue Recognition

The Company recognizes revenue when they are realized or realizable and earned. Revenues are realized or realizable and earned when the Company has persuasive evidence of an arrangement, the goods have been delivered or the service have been rendered to the customer, the sales price is fixed or determinable and collectibility is reasonably assured. In addition to this general policy, the following are specific revenue recognition policies:

The Company records service revenues over the periods they are earned. The costs of providing services are recognized as incurred. The Company provides incentives to third party dealers which are payable when the end user enters into an airtime contract. Usage revenues from fixed-line services, cellular services, Internet and data services, and inter-connection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees are deferred and recognized over the average expected customer service periods, (b) fixed-monthly fees (on fixed-line services, wireless (cellular and paging) and Internet and data services) are accrued, and (c) prepaid services (fixed-line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

Employee Stock Compensation

The MOTC made the Company's employees an offer to purchase shares of common stock of the Company at a discount from the quoted market price. The Company records compensation expense as the difference between the fair value of common stock offered less the amount of the discounted price at the grant date.

Earnings Per Share

Per share data has been restated for all periods presented to reflect the declaration of the stock dividends.

Comprehensive Income

Comprehensive income includes net income plus the results of certain changes in stockholders' equity during a period from non-owner sources that are not reflected in the statement of operations. Other comprehensive income consists of cumulative translation adjustments and gain on available-for-sale securities and such amounts were (NT\$1) million and NT\$226 million for the periods presented. Under the ROC tax laws, income tax on gains derived from the securities transactions was ceased to be imposed with effect from January 1, 1990, at the same time, losses on securities transactions are no longer deductible from income derived from such transactions. As a result, no deferred income tax on unrealized gains or losses on available-for-sale securities has been recorded.

Recent Accounting Pronouncements

In December 2004, the FASB issued SFAS No. 123(R) Share-Based Payment. SFAS No. 123(R) requires that companies recognize compensation expense equal to the fair value of stock options or other share based payments for the annual reporting period that begins after June 15, 2005. SFAS No. 123(R) applies to all awards granted after January 1, 2006 and prior period's awards that are modified, repurchased, or cancelled after January 1, 2006. There is no impact to the Company as a result of this standard as the Company does not currently issue stock options to its employees or others.

In May 2005, the FASB issued SFAS No. 154 Accounting Changes and Error Corrections. SFAS No. 154 requires that companies apply accounting changes and error corrections to financial statements retrospectively from previous period unless it is impracticable. SFAS No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. There is no impact to the Company as a result of the adoption of this standard as the Company does not currently intend to change its accounting principles, estimate or reporting entity.

3. U.S. DOLLAR AMOUNTS

The Company maintains its accounts and expresses its financial statements in New Taiwan dollars. For convenience only, U.S. dollar amounts presented in the accompanying financial statements have been translated at the noon buying rate for cable transfers as certified for customs purposes by the Federal Reserve Bank of New York as of June 30, 2006, which was NT\$32.33 to US\$1.00. The convenience translations should not be construed as representations that the New Taiwan dollar amounts have been, could have been, or could in the future be, converted into U.S. dollars at this or any other rate of exchange.

The Company entered into a contract with Citibank Taiwan Branch (Citibank) to invest NT\$35 million in a credit linked investment in October 2005. The Company will receive interest on a quarterly basis commencing from December 2005 through March 2007, the maturity date. In addition to the quarterly interest, Citibank will pay an additional amount based on the embedded credit derivate. The embedded credit derivate is linked to credit events of Quanta Display Inc., a Taiwan Stock Exchange listed company. The credit events include bankruptcy, failure to pay certain obligations, acceleration of obligations, repudiation, moratorium and restructuring. If a credit event occurs on any day prior to the maturity date, Citibank may at its option declare a credit event, designate a cash settlement date and pay the cash settlement amount equal to 30% of the outstanding contract amount to the Company in New Taiwan Dollars. The contract also granted a call provision to Citibank enabling it to early terminate the contract. Following the exercise of the call provision, the Bank shall pay the Company the terminated contract amount and any accrued interest.

The contract is accounted for as a hybrid financial instrument and remeasured at fair value at the balance sheet date and any gain or loss is charged to shareholder s equity. On January 9, 2006, the Company sold the contract to a third party and recognized an investment loss of NT\$0.2 million (unaudited).

6. LONG-TERM INVESTMENTS

The long-term investments comprise the following:

	December 31, 2005		June 30, 2006	
	Carrying	% of	Carrying	% of
	Value	Owner-	Value	Owner-
	NT\$	ship	NT\$	ship

	1,866		1,866	
	\$ 3,391		\$ 3,349	

CHI invests in companies engaged in telecom and software businesses. No dividends were declared by CHI for the six months ended June 30, 2005 and 2006, respectively.

TISE designs, manufactures and sells telecommunications equipment. It also provides maintenance services on such telecommunications equipment. Dividends of zero and NT\$42 million (unaudited) were declared by TISE for the six months ended June 30, 2005 and 2006, respectively.

The Company evaluates the investments in TFC, RPTI and Siemens for impairment annually. There were no indicators of impairment noted for the six months ended June 30, 2005 and 2006, respectively. Dividends of NT\$58 million (unaudited) and NT\$29 million (unaudited) were declared by Siemens for the six months ended June 30, 2005 and 2006, respectively.

7. INVESTMENT IN PRIVATE PLACEMENT FUND

The Company invested NT\$500 million in a private placement fund managed by First Global Investment Trust Company Limited (FGIT) from September 27, 2005 to September 28, 2008. FGIT, on-behalf of the Company, invested 95% of the total investment principle in a three-year structured time deposit issued by Far Eastern International Bank and invested the rest of the investment principal in a currency swap with Ta Chong Bank. The Company marks to market the private placement fund without distinguishing and presenting the underlying investment assets separately on its balance sheet. This is because the majority of the fair value of the private placement fund is generated from the three-year structured time deposit and the fair value of the currency swap is nominal. On June 28, 2006, the Company sold the private placement fund and recognized an investment loss of NT\$7 million (unaudited).

8. LONG-TERM LOANS (INCLUDING CURRENT PORTION OF LONG-TERM LOANS)

	December 31, 2005 NT\$	June 30, 2006 NT\$ (Unaudited)
Loan from the Fixed Line Fund	\$ 500	\$ 300

	\$ 300	\$

The loan from the Fixed-Line Fund was obtained pursuant to a long-term loan agreement with the Fixed-Line Fund managed by the Ministry of Interior that allows the Company to obtain unsecured interest-free credit until March 12, 2007. The outstanding principal is carried at its undiscounted amount and is payable in three annual installments (NT\$200 million, NT\$200 million and NT\$300 million) starting on March 12, 2005.

As of June 30, 2006, the Company has unused credit line of approximately NT\$33,729 million (unaudited), which are available for short-term and long-term borrowings.

9. STOCKHOLDERS EQUITY

Under the Revised Company's Articles of Incorporation dated on May 30, 2006, the Company's authorized capital is \$120,000,000,020. The Company's Articles of Incorporation and the Republic of China Telecommunications Act provide that the MOTC has the right to purchase two redeemable preferred shares at NT\$10 (par value) in the event its ownership in the Company falls below 50% of the outstanding common shares. On March 28, 2006, the board of directors approved the issuance of the 2 preferred shares, and the MOTC purchased the 2 preferred shares at par value on April 4, 2006.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in the Company's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when the Company raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of the Company or the nature of its business and any transfer of a substantial portion of the Company's business or property.
- d. The holder of the preferred shares may not transfer the ownership. The Company must redeem all outstanding preferred shares within three years from the date of their issuance.

For the purpose of privatizing the company, the MOTC sold 1,109,750 thousand common shares of the Company in an international offering of securities in the form of ADS amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange in July 17, 2003. Subsequently, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. As of June 30, 2006, the MOTC has sold 2,460,432 thousand common shares in the form of ADS amounting to 246,043 thousand units.

The ADS holders generally have the same rights and obligations as other common shareholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents; exercise their voting rights, sell their ADSs, and receive dividends declared and subscribe to the issuance of new shares.

As of December 31, 2005 and June 30, 2006, the outstanding ADSs were 246,043 thousand units, which equaled approximately 2,460,431 thousand common shares, and represented 26.02% of the Company's total outstanding common shares.

Under the ROC Company Law, capital surplus may only be utilized to offset deficits or be declared as stock dividends. Also, such capital surplus can only be declared as a stock dividend by the Company at an amount calculated in accordance with the provisions of existing regulations.

In addition, before distributing a dividend or making any other distribution to stockholders, the Company must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and, depending on its business needs or requirements may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following:

- a. From 2% to 5% of distributable earnings shall be distributed to employees as employee bonus.
- b. No more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration in the following years after privatization.
- c. Cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed.

During the year of privatization, the distributable earnings are limited to the earnings generated after privatization. The remaining distributable earnings can be distributed to the shareholders based on the resolution of shareholders' meeting.

If cash dividends to be distributed is less than NT\$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of the Company. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of the Company, up to 50% of the reserve may, at the option of the Company, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2005 earnings of the Company have been approved and resolved by the stockholders on May 30, 2006 as follows:

	Amount NT\$
Legal reserve	\$ 4,765
Cash dividends - NT\$4.3 per share	40,660

10. TREASURY STOCK

In order to improve the Company's financial condition and utilize excess funds, the Company acquired 192,000 thousand treasury shares for NT\$11,392 million (unaudited) for the six months ended June 30, 2006. On June 30, 2006, the Company cancelled the treasury stock by reducing common stock of \$1,920 million (unaudited), capital surplus of \$4,269 million (unaudited) and retained earnings of \$5,203 million (unaudited).

11. EMPLOYEE STOCK COMPENSATION

The MOTC provided employees with two stock purchase plans: The market discount plan and the par value plan. There were no market discount plan offerings during the period ended June 30, 2006.

Under the par value plan, the MOTC sold shares of stock to employees at par value (NT\$10). The difference between the market price of the stock on the offering dates and the par value was recognized as compensation expense. The total shares sold to employees by the MOTC for the year ended December 31, 2005 and for the six months ended June 30, 2006 were 4,126,928 shares and 10,411,955 shares, respectively. The MOTC received total proceeds of NT\$41 million and NT\$104 million (unaudited) for the year ended December 31, 2005 and for six months ended June 30, 2006, respectively, from these sales.

The Company recognized NT\$204 million (unaudited) and NT\$503 million (unaudited) as compensation expense for the discounted shares purchased by employees under the par value plan for the six months ended June 30, 2005 and June 30, 2006, respectively.

12. PENSION PLAN

Pension costs for the defined benefit plan amounted to NT\$2,662 million (unaudited) and NT\$1,679 million (unaudited) for the six months ended June 30, 2005 and 2006, respectively, and NT\$1,332 million (unaudited) and NT\$853 million (unaudited) for the three months ended June 30, 2005 and 2006, respectively. Pension costs for the defined contribution plan amounted to nil and NT\$20 million (unaudited) for the six months ended June 30, 2005 and 2006, respectively, and nil and NT\$12 million (unaudited) for the three months ended June 30, 2005 and 2006, respectively. The Company's contributions to all retirement plans were NT\$2,907 million (unaudited) and NT\$872 million (unaudited) for the six months ended June 30, 2005 and 2006, respectively, and NT\$870 million (unaudited) and NT\$430 million (unaudited) for the three months ended June 30, 2005 and 2006, respectively.

The Company approved a Special Retirement Incentive Program (Program C) in December 2005. Program C allowed eligible employees who voluntarily left the Company on March 31, 2006 to also receive benefit payments based on the respective original plan plus additional separation payments. The present value of such amount over and above the lump sum amount that would have been paid to the employees had they stayed until March 31, 2006 was accounted for as special termination benefits. The Company recognized expense of NT\$2,302 million (unaudited) for Program C as of June 30, 2006.

Under applicable ROC regulations, upon the privatization, the obligation related to annuity payments due after the date of privatization for civil service eligible employees who retire prior to that date would be born by the MOTC. The Company completed its privatization plan on August 12, 2005. On the date of privatization, the MOTC settled all employees' past service costs. The portion of the pension obligations that was settled by the MOTC, represented by the difference between the accrued pension liabilities and the deferred pension cost and related deferred income tax assets and was accounted for as contributed capital and recorded in stockholders' equity as of August 12, 2005. After paying all pension obligations for privatization, the plan assets will be transferred to the Fund for Privatization of Government-owned Enterprises under the Executive Yuan. According to the instructions of MOTC, the Company has been requested to administer the distributions to employees for pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, and other related obligations upon the completion of the privatization. As of June 30, 2006 the remaining balance of funds to be disbursed to employees on behalf of the MOTC and transferred to Privatization Fund amounted to NT\$501 million.

13. COMMITMENTS AND CONTINGENT LIABILITIES

As of June 30, 2006, the Company has commitments under non-cancelable contracts with various parties as follows: (a) acquisitions of land and buildings of NT\$2,243 million (unaudited), and (b) acquisitions of telecommunications equipment of NT\$18,521 million (unaudited).

The Company also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operating system software under contracts that expire in various years. Minimum rental commitments under those leases are as follows:

	June 30, 2006 NT\$ (Unaudited)
Within the following year (July 1, 2006 to June 30, 2007)	\$ 1,254
During the second year (July 1, 2007 to June 30, 2008)	803
During the third year (July 1, 2008 to June 30, 2009)	556
During the fourth year (July 1, 2009 to June 30, 2010)	319
During the fifth year and thereafter (July 1, 2010 to thereafter.)	147
	\$ 3,079

As of June 30, 2006, the Company had unused letters of credit of NT\$3,086 million (unaudited).

As a part of the government's effort to upgrade the existing telecommunication infrastructures, the Company and other public utility companies were required by the ROC government to contribute a total of NT\$4,500 million to funds called the Fixed-Line Fund and the Piping Fund (collectively referred to as the funds). Under the Fixed-Line Fund, the Company contributed NT\$1,000 million to the fund, administered by the ROC Ministry of Interior Affairs, on June 30, 1995. Under the Piping Fund, the Company contributed NT\$1,000 million to the fund, administered by the Taipei City Government, on August 15, 1996. Both contributions were accounted for by the Company as other assets other than the Company's balance sheets.

Through the use of the Funds, the governmental agencies will construct new underground fixed-lines and conduits and perform on-going maintenance operations. Currently, a portion of the fixed-lines and conduits are constructed and ready to be used. If the contributions to the funds were not sufficient to finance the construction of the new underground fixed lines and conduits, the contributors to the Funds and the governmental agencies will determine if and when to raise additional funds and the amounts of such contributions from each party.

Although not specifically stated in the written agreements, the Company understands that (a) upon completion of the projects, the Company will receive a proportionate legal interest in the assets; or (b) if the projects are incomplete upon dissolution of the funds, the Company will receive its money back. No expiration or dissolution date is specified in the related documents.

On June 2, 2006, the Company's board of directors approved an investment plan to purchase more than 50% of the common stocks issued from CHIEF Telecom Co., Ltd. However, a formalized purchase contract has not been signed by the Company as of August 11, 2006.

14. LITIGATION

A portion of the land used by the Company during the period July 1, 1996 to December 31, 2004 was co-owned by the Company and Chunghwa Post Co., Ltd. (the former Directorate General of Postal Service). In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to the Company to reimburse Chunghwa Post Co., Ltd. in the amount of \$768 million for land usage compensation due to the portion of land usage area in excess of the Company's ownership, along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. However, the Company believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, the Company has filed an appeal at the Taiwan Taipei District court. As of August 11, 2006, the case is still in the procedure of the first instance at the Taiwan Taipei District Court. While the Company cannot make any assurance regarding the eventual resolution of the litigation, the Company does not believe the final outcome will have a material adverse effect on its results of operations or financial condition. As of June 30, 2006, no provision was provided for the litigation.

The Company is involved in various legal proceedings of a nature considered normal to its business. It is the Company's policy to accrue for amounts related to these legal matters when it is probable that a liability has been incurred and the amount is reasonably estimable.

The Company believes that the various asserted claims and litigation in which it is involved will not materially affect its financial position, future operating results or cash flows, although no assurance can be given with respect to the ultimate outcome of any such claim or litigation.

15. INFORMATION ON FINANCIAL INSTRUMENTS

Non-derivative financial instruments are as follows:

	December 31, 2005		June 30, 2006	
	Carrying	Fair	Carrying	Fair
	Amount	Value	Amount	Value
	NT\$	NT\$	NT\$	NT\$
			(Unaudited)	(Unaudited)
Assets				
Cash and cash equivalents	\$ 41,891	\$ 41,891	\$ 63,206	\$ 63,206
Short-term investments	14,171	14,171	15,956	15,956
Long-term Investments for which it is:				
- Practicable to estimate fair value	1,790	1,790		
- Not practicable	76		1,866	
Refundable deposits (included in other assets - other)	3,577	3,577	3,871	3,871
Liabilities				
Customers' deposits	8,250	7,049	7,820	6,653
Long-term loans (including current portion of long-term loans)	500	500	300	300

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

- a. Cash and cash equivalents and short-term investments - the carrying amounts approximate fair values because of the short maturity of those instruments.
- b. Long-term investments - the fair values of some investments are estimated based on quoted market prices for those or similar investments. For other investments for which there are no quoted market prices, a reasonable estimate of fair value could not be made without incurring excessive costs. Additional information pertinent to the value of an unquoted investment is provided above.
- c. Refundable deposits - the carrying amounts approximate fair values as the carrying amounts are the amount receivable on demand at the reporting date.
- d. Customers' deposits - the fair value is the discounted value based on projected cash flows. The projected cash flows were discounted using the average expected customer service periods.
- e. Long-term loans (including current portion) - the fair value is based on the current rates offered to the Company for debt of the same remaining maturities.

16. SEGMENT REPORTING

Operating segments are defined as components of an enterprise regarding which separate financial information is available for regular evaluation by the chief operating decision maker, or decision making group, in deciding how to allocate resources and in assessing performance.

The Company organizes its business segments based on the various types of telecommunications services provided to customers. The operating segments are segregated as below:

Local operations - the provision of local telephone services;

DLD operations - the provision of domestic long distance call services;

ILD operations - the provision of international long distance call services;

Cellular operations - the provision of cellular and related services;

Paging operations - the provision of paging and related services;

Internet and data operations - the provision of Internet access, lease line, and related services;

All other operations - the services other than the above six categories, such as carrying out project research and providing training.

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

The operating segments are managed separately because each operating segment represents a strategic business unit that serves different markets.

The Company evaluates performance based on several factors using information prepared on the ROC government regulations basis. The information below is provided on this basis with a summary of US GAAP adjustments to reconcile to the amounts presented in the statement of operations. The Company does not allocate interest and other income, interest expense or taxes to operating segments, nor does the Company's chief operating decision maker evaluate operating segments on these criteria. Except as

- 16 -

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

discussed above, the accounting policies for segment reporting are the same as for the company as a whole. The Company's primary measure of segment profit is based on income or loss from operations.

Chunghwa Telecom Reports Operating Results for the First Half

and

Second Quarter of 2006:

Strong Results from Mobile and Internet & Data Businesses

Generate Strong Cash Flow

Taipei, Taiwan, R.O.C. August 31, 2006 - Chunghwa Telecom Co., Ltd (TAIEX: 2412, NYSE: CHT) (Chunghwa or the Company), today reported its operating results for the first half and second quarter of 2006. All figures were prepared in accordance with US GAAP.

Highlights:

- Total revenue increased 0.8% from 1H05 to NT\$91.4 billion

- Internet and data service revenue increased 10.4% from 1H05

- Cash flow from operations increased 22.8% from 1H05 to NT\$46.0 billion

- The number of ADSL subscribers increased 14.0% from June 30, 2005

- Net income totaled NT\$19.8 billion

- Earnings per share (EPS) were NT\$ 2.03, or NT\$20.30 per ADS.

Revenues

Total revenues for the first half of 2006 rose by 0.8% from the same period last year to NT\$91.4 billion, of which 34.2% was from fixed-line services, 39.6% from wireless services and 24.7% from Internet and data services. The increase in revenues was mainly driven by continued growth in the mobile and Internet and data businesses. Revenue from the mobile business grew 1.7% year-on-year and was primarily driven by an increase of postpaid subscriber numbers and value-added service revenue. Revenue from the Internet and data business increased 10.4% year-on-year, led by a continual increase in ADSL subscriber numbers and the effectiveness of the Company's strategy to upgrade ADSL subscribers to higher speed services. Fixed line revenue decreased 6.2% year-on-year. Of this, local revenue decreased 6.9%, mainly due to mobile and broadband substitution. Domestic long distance revenue decreased 8.5% due to mobile substitution and market competition, and International long distance revenue decreased 2.5%, which was mainly a result of a decline in average usage fees due to various promotional campaigns.

Total revenues for the second quarter of 2006 was NT\$46.4 billion, a 3% increase quarter-on-quarter. Of this, 34.4% was from fixed-line services, 39.4% from wireless services and 24.5% from Internet and data services.

Costs and expenses

Total operating costs and expenses increased 6.1% year-on-year to NT\$65.6 billion in the first half of 2006. This was mainly caused by NT\$2.3 billion of compensation expenses related to the early retirement program, NT\$1.55 billion of employee bonuses and NT\$1.21 billion of performance-based bonuses.

Total operating costs and expenses for the second quarter of 2006 were NT\$32.8 billion, a slightly decrease of 0.3% quarter-on-quarter.

Although the compensation expense caused a one-time decline in net income, the headcount reduction is expected to benefit our future operation.

EBITDA and net income

EBITDA for the first half of 2006 decreased 6.2% year-on-year to NT\$46.1 billion and the EBITDA margin decreased 37ppt year-on-year to 50.5%. Net income for the first half of 2006 decreased 20.4% year-on-year to NT\$19.8 billion, representing a net margin of 21.6% compared to 27.4% in the same period last year.

The decline in net income for the first half of 2006 was mainly due to the previously mentioned compensation expense relating to the early retirement program.

Cash Flows

Cash flow from operations maintained its strong growth, increasing 22.8% to NT\$46.0 billion for the first half of 2006, compared to NT\$37.5 billion for the same period in 2005. As of June 30, 2006, the Company's cash and cash equivalents totaled NT\$63.2 billion.
