Table of Contents

PART I

ITEM 1. **BUSINESS**

(dollar amounts in thousands except share and per share data)

General

Bassett Furniture Industries, Incorporated (together with its consolidated subsidiaries, Bassett, we, our or the Company), based in Bassett, Va., a leading retailer, manufacturer and marketer of branded home furnishings. Bassett's products are sold primarily through Bassett Furniture Direct® stores, with secondary distribution through Bassett Design Centers and other multi-line furniture stores. Bassettbaby® cribs and casegoods are sold through specialty stores and mass merchants. Bassett was founded in 1902 and incorporated under the laws of Virginia in 1930.

The Bassett Furniture Direct® (BFD) store program was created in 1997 as a single source home furnishings retail store that provides a unique combination of stylish, well-made furniture and accessories with a high level of customer service. This service includes complimentary room planning, in-home design visits, fast delivery, and custom-order furniture. Our BFD network currently consists of 134 retail stores of which 100 are independently owned (licensee operated), 27 are controlled and consolidated by the Company (Company-owned retail stores) and seven are operated by joint ventures (partnership licensees). Our customers also include over 800 furniture and department stores located throughout the United States. We have four domestic manufacturing facilities.

Material Changes in the Development of Business:

There have been two significant business developments that have materially affected our operations over the last ten years.

First, we created and re-channeled sales through a vertically integrated retail sales network. This strategy both builds on our strengths (brand name, balance sheet, product offerings) and better positions us to capitalize on the changing furniture retail environment. These retail stores, known as Bassett Furniture Direct (BFD), accounted for 68% of our wholesale shipments in 2006.

Second, the furniture industry continues to experience a rapid shift from traditional domestic manufacturing to offshore sourcing in lower cost markets, primarily China and the Pacific Rim countries. This shift in sourcing has resulted in downward pressure on retail prices and reductions in traditional channels of sales distribution as many retailers can source their own products rather than relying on a traditional domestic manufacturer to supply goods. We responded to

Table of Contents

these changes with our BFD program and by reducing our domestic production where we can more efficiently source product. Related to this shift from domestic production to sourcing, over the past 6 years we have reduced our number of facilities from 13 to 4 and reduced headcount from 4,200 to 1,800. During 2005, we made the difficult decision to close another large wood manufacturing facility, our plant located in Mt. Airy, N.C. This action resulted in reductions in headcount of approximately 300 employees and leaves us with one large wood manufacturing plant in Bassett, Va. one small wood assembly plant in Martinsville, Va., one fiberboard supply facility in Bassett, Va., and one upholstery facility in Newton, N.C. We have closed and consolidated six wood factories over the past six years. We strive to provide our customers with home furnishings at competitive prices and, with that goal in mind, will continue to evaluate the cost effectiveness of domestic production on a product by product basis.

Approximately 44% of our 2006 wholesale sales were of imported product compared to 34% in 2005. We define imported product as fully finished product that is sourced. Our domestic product includes certain products that contain components which were also sourced. We continue to believe that a blended strategy including domestically produced products primarily of a custom-order nature combined with sourcing of major collections provides the best value and quality of products to our customers. We expect that overall operating margins will be positively impacted as we shift our mix of domestic versus imported product to a 50/50 mix during 2007.

Other significant business developments that impacted the retail store program and manufacturing operations are summarized below.

Retail:

During the second quarter of 2006, we closed two Company-owned stores, one in Dallas and one in Atlanta. In addition, during the fourth quarter of 2006, we opened one new Company-owned store in Austin, Tx.

In 2005, our Retail Segment underwent significant changes. We increased our number of Company-owned retail stores from 14 to 27 primarily through our acquisitions of 15 retail licensee stores in Dallas, Atlanta and upstate New York. For more discussion on these acquisitions, see Note 15 to the Consolidated Financial Statements included in the Annual Report. Additionally, during our third quarter of 2005, we sold two Company-owned retail stores in Las Vegas, Nev., to an independent licensee for approximately net book value.

We believe having a substantial Company-owned retail store group will provide us better first-hand retail experience that will allow us to make our entire BFD program more successful.

Manufacturing:

As previously mentioned, we have undergone significant changes in domestic manufacturing. Summaries of these changes are as follows:

In the second quarter of 2006, we sold our contemporary furniture business (Weiman). This action reduced our headcount by approximately 60 employees.

In the fourth quarter of 2005, we made the decision to cease operations at our wood manufacturing facility in Mt. Airy, N.C., and made plans to move production of certain products from the Mt. Airy facility to our wood facility in Bassett, Va., with certain other products shifted to imports. This action reduced our headcount by approximately 300 employees.

In the third quarter of 2004, we closed our wood manufacturing facility in Macon, Ga., primarily due to excess capacity at this facility. This plant primarily focused on home office and home entertainment. We determined certain products previously manufactured at the Macon, Ga., facility would be produced at our Mt. Airy, N.C., facility while certain other products would be imported from foreign sources. This action reduced our headcount by 180 employees.

In the first quarter of 2004, we made the decision to close our Hiddenite, N.C., upholstery plant and consolidate our upholstery operations into our Newton, N.C., plant. Management of this plant has increased production capacity through continued improvements in the manufacturing process which currently allows us to deliver custom-made upholstered furniture into the retail customer's home in 30 days or less. This action reduced our headcount by 50 employees.

We closed our wood manufacturing plant in Dublin, Georgia, in the first quarter of 2003. This action reduced our headcount by 320 employees.

We closed our California upholstery plant during the fourth quarter of 2002 and consolidated production into remaining upholstery manufacturing facilities in North Carolina. This action reduced our headcount by 200 employees.

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

We restructured production capacities for our Wood Division in 2001. During the first quarter, production was moved from one facility to another and a wood manufacturing facility was identified for closure and subsequently closed in the second quarter. Additionally, 60 corporate office positions were eliminated in the first and second quarters of 2001.

Table of Contents

Ongoing efforts to match production with demand, offer more competitively priced products and operate more efficient manufacturing facilities resulted in the announcement and subsequent closure of two additional facilities in Bassett, Virginia during the third quarter of 2001. Production was moved to other manufacturing facilities in Virginia or outsourced. Approximately 800 positions were eliminated as a result of this restructuring activity.

Refer to Note 14 of the Consolidated Financial Statements which are filed with this report for a detail of restructuring activity and refer to Management's Discussion and Analysis which is filed with this report for additional discussion on these topics.

Operating Segments

We have strategically aligned our business into three reportable segments: Wholesale, Retail and Investments/Real Estate. The wholesale home furnishings segment is involved principally in the design, manufacture, sourcing, sale and distribution of furniture products to a network of BFD stores (independently-owned stores, Company-owned retail stores and partnership licensees) and independent furniture retailers. Our wholesale segment includes our wood and upholstery operations as well as all corporate selling, general and administrative expenses. During the second quarter of 2006, we sold our contemporary furniture business (Weiman), which was previously included in this segment. The wholesale segment accounted for 74%, 79% and 85%, of net sales during 2006, 2005 and 2004, respectively. The Company currently has four wholesale manufacturing facilities.

Our retail segment currently consists of 27 Company-owned stores in North Carolina, South Carolina, Texas, Georgia and New York. Our retail segment accounted for 26%, 21% and 15% of total net sales in 2006, 2005 and 2004.

Our investments and real estate business segment consists of a 99.8% interest in the Bassett Industries Alternative Asset Fund (Alternative Asset Fund), a portfolio of marketable securities, retail real estate utilized by licensee operated BFD stores and a minority interest in the International Home Furnishings Center (IHFC) in High Point, N.C. The IHFC financial statements are included on pages F-53 to F-72.

We classify our marketable securities as available-for-sale, which are reported at fair value. Unrealized holding gains and losses, net of the related income tax effect, on available-for-sale securities are excluded from income and are reported as other comprehensive income in stockholders' equity. Realized gains and losses from securities classified as available-for-sale are included in income and are determined using the specific identification method for ascertaining the cost of securities sold. All investments are marked-to-market and recorded at their fair value.

The Alternative Asset Fund was organized under the Delaware Revised Uniform Limited Partnership Act and commenced operations on July 1, 1998. Private Advisors, L.L.C. is the general partner (the General Partner) of the Alternative Asset Fund. We and the General Partner are currently the only two partners. The objective of the Alternative Asset Fund is to achieve consistent positive returns, while attempting to reduce risk and volatility, by placing its capital with a variety of hedge funds and experienced portfolio managers. Such hedge funds and portfolio managers employ a variety of trading styles or strategies, including, but not limited to, convertible arbitrage, merger or risk arbitrage, distressed debt, long/short equity, multi-strategy and other market-neutral strategies. The General Partner has discretion to make all investment and trading decisions, including the selection of investment managers. The General Partner selects portfolio managers on the basis of various criteria, including, among other things, the manager's investment performance during various time periods and market cycles, the fund's infrastructure, and the manager's reputation, experience, training and investment philosophy. In addition, the General Partner requires that each portfolio manager have a substantial personal investment in the investment program. Our investment in the Alternative Asset Fund, which totaled \$52,755 at November 25, 2006, includes investments in various other private limited partnerships, which contain contractual commitments with elements of market risk. These contractual commitments, which include fixed-income securities and derivatives, may involve future settlements, which give rise to both market and credit risk. The investment partnership's exposure to market risk is determined by a number of factors, including the size, composition, and diversification of positions held, volatility of interest rates, market currency rates, and liquidity. Risks to these funds arise from possible adverse changes in the market value of such interests and the potential inability of counterparties to perform under the terms of the contracts. However, the risk to the Alternative Asset Fund is limited to the amount of the Alternative Asset Fund investment in each of the funds.

Table of Contents

We account for our investments in the Alternative Asset Fund by marking them to market value each month based on the net asset values provided by the General Partner. The hedge funds and portfolio managers provide the General Partner with estimated net asset values on a monthly basis that represents the amount the partnership would receive if it were to liquidate its investments in the investee funds. The partnership may redeem part of its investments as of the end of each quarter or calendar year, with no less than 45 days prior written notice. (See Note 6 to the Consolidated Financial Statements included in the Annual Report which is filed with this report.)

Refer to Note 19 to the Consolidated Financial Statements which are filed with this report for more information about segment information for 2004, 2005 and 2006 and refer to the Management's Discussion and Analysis which is filed with this report for additional discussion on this topic.

Raw Materials

We use lumber, fabric, leather and other materials in the production of wood and upholstered furniture. These components originate from a variety of domestic and international suppliers and are currently widely available. Prices for these components in the aggregate have been relatively stable over the last several years. We currently assemble and finish these components in several of our plants in the United States.

Trademarks and Patents

Our trademarks, including Bassett and the names of our marketing divisions, products and collections, are significant to the conduct of our business. This importance is due to consumer recognition of the names and identification with our broad range of products. Certain of our trademarks are licensed to independent retailers for use in full store and store gallery presentations of our products. We also own patents, trademarks and copyrights that are important in the conduct of our business.

Seasonality

The furniture industry in which we compete is not considered to be a seasonal industry. However, working capital levels will fluctuate based on overall business conditions and desired service levels.

Backlog

Our backlog of wholesale orders believed to be firm was \$14,365 at November 25, 2006, and \$17,091 at November 26, 2005. It is expected that the November 25, 2006, backlog will be filled within the 2007 fiscal year, with the majority of our backlog being filled during the first quarter of 2007.

Competition

The wholesale furniture industry is very competitive and there are a large number of manufacturers both within and outside the United States who compete in the market on the basis of product quality, price, style, delivery and service. Additionally, certain retailers are increasingly sourcing imported product directly, thus bypassing domestic furniture manufacturers. Based on annual sales revenue, we are one of the largest furniture manufacturers located in the United States. We compete in this environment by providing products which represent excellent value, quality and styling and by providing prompt delivery and courteous service.

The retail furniture industry is very competitive and includes local furniture stores, regional furniture retailers and national department and chain stores. Additionally, there are a growing number of single-vendor branded retailers. There are a large number of fairly new entrants into the industry that have approached the industry from more of a consumer lifestyle and home accessory viewpoint. As a whole, our BFD network, even though it is growing, is much smaller than many of our retail competitors in today's marketplace.

Research and Development

The furniture industry is considered to be a fashion industry subject to constant fluctuations to meet changing consumer preferences and tastes. As such, we are continuously involved in the development of new designs and products. Due to the nature of these efforts and the close relationship to the manufacturing operations, these costs are considered normal operating costs and are not segregated. We are not otherwise involved in traditional research and development activities nor do we sponsor research and development activities of any of our customers.

Table of Contents

Government Regulations

In our view, we have complied in all material respects with all federal, state and local standards in the area of safety, health and pollution and environmental controls. We are involved in environmental matters at certain of our plant facilities, which arise in the normal course of business. Although the final outcome of these environmental matters cannot be determined, based on the facts presently known, it is our opinion that the final resolution of these matters will not have a material adverse effect on our financial position or future results of operations.

People

We employed approximately 1,800 people as of November 25, 2006, none of whom were subject to collective bargaining arrangements. We have not experienced any recent work stoppages. We consider our relationship with our employees to be good.

Foreign and Domestic Operations and Export Sales

We have no foreign operations, and our export sales were approximately \$3.7 million, \$4.7 million and \$5.0 million in 2006, 2005 and 2004 respectively.

Available Information

Through our website www.bassettfurniture.com, we make available free of charge as soon as reasonably practicable after electronically filing or furnishing with the SEC, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments thereto.

ITEM 1A. RISK FACTORS

Our business is subject to a variety of risks. You should carefully consider the risk factors detailed below in conjunction with the other information contained in this document. These risks are not the only ones we face. Interest rates, consumer confidence, housing starts, and other general economic factors that affect many other businesses are particularly significant to us because our principal products are consumer goods. Additional factors that are presently unknown to us or that we currently believe to be immaterial also could affect our business.

Competition from domestic and overseas manufacturers continues to increase and may adversely affect our business, operating results or financial condition.

Our wholesale business segment is involved in the development of our brand, which encompasses the design, manufacture, sourcing, sales and distribution of our home furnishings products, and competes with other U.S. and foreign manufacturers. Industry globalization and the development of manufacturing capabilities in other countries, particularly within Asia, has led to increased competitive pressures brought about by the increasing volume of imported finished goods and components, particularly for casegood products. The increase in overseas production capacity in recent years has created over-capacity for many foreign and U.S. manufacturers, including us, which has led to industry-wide plant consolidation in the U.S. In addition, because many foreign manufacturers are able to maintain substantially lower production costs, including the cost of labor and overhead, imported product is capable of being sold at a lower price to consumers, which, in turn, could lead to additional industry-wide price deflation. Governments in the foreign countries where we source our products also may change their laws, regulations and policies, including those related to currency, tariffs and trade barriers, investments, and taxation. These changes could make it more difficult to service our customers resulting in an adverse effect on our earnings.

Our company-owned BFD stores and others we may acquire in the future may not achieve the anticipated levels of growth and profitability.

Our Company-owned stores currently operate at a loss. Our short-term goal essentially is to operate these stores at break-even to ultimately protect the operating margins generated by our wholesale operation. To be successful, we need to increase our sales per store while decreasing the support costs as a percentage of sales. As part of our strategy, we must hire, train and retain a qualified staff of design consultants to improve the customer experience. Competition with other furniture retailers for qualified design consultants also continues to increase. We also compete with other retailers for management personnel and appropriate retail locations. Failures and delays in implementing our retail strategies or failure to realize the benefits of these strategies could adversely impact our business and operating results.

Table of Contents

Our licensee-owned BFD stores may not be able to meet their obligations to us.

We have a significant amount of accounts and notes receivable from our network of licensee-owned BFD stores. We also own some of the real estate that is leased to the licensees and guarantee some of the debt and/or leases of some of them. If these stores do not generate the necessary level of sales and profits, they may not be able to fulfill their obligations to us resulting in potential bad debt expenses and real estate related losses. We continue to assess our licensees to determine whether additional subordinated financial support will be required by us to ensure their continued operation, thereby requiring them to be consolidated as variable interest entities. Should we be required to consolidate variable interest entities, our future earnings could be reduced.

Failure to successfully anticipate or respond to changes in consumer tastes and trends in a timely manner could adversely impact our business, operating results and financial condition.

Sales of our furniture are dependent upon consumer acceptance of our designs, styles, quality and price. As with all retailers, our business is susceptible to changes in consumer tastes and trends. We attempt to monitor changes in consumer tastes and home design trends through attendance at international industry events and fashion shows, internal marketing research, and communication with our retailers and design consultants who provide valuable input on consumer tendencies. However, such tastes and trends can change rapidly and any delay or failure to anticipate or respond to changing consumer tastes and trends in a timely manner could adversely impact our business, operating results and financial condition.

Our success depends upon our brand, marketing and advertising efforts and pricing strategies, and if we are not able to maintain and enhance our brand, or if we are not successful in these efforts and strategies, our business and operating results could be adversely affected.

Maintaining and enhancing our brand is critical to our ability to expand our base of customers and drive increased traffic at both company-owned and licensee-owned stores. Our advertising and marketing campaign utilizes television, direct mail, catalogs, newspapers, magazines and radio in an effort to maintain and enhance our existing brand equity. We cannot provide assurance that our marketing, advertising and other efforts to promote and maintain awareness of our brand will not require us to incur substantial costs. If these efforts are unsuccessful or we incur substantial costs in connection with these efforts, our business, operating results and financial condition could be adversely affected.

Manufacturing realignments could result in a decrease in our near-term earnings.

We regularly review and evaluate our domestic manufacturing operations and offshore (import) sourcing capabilities. As a result, we sometimes realign those operations and capabilities and institute cost savings programs. These programs can include the consolidation and integration of facilities, functions, systems and procedures. We also may shift certain products from domestic manufacturing to offshore sourcing. These realignments and cost savings programs generally involve some initial cost and can result in decreases in our near-term earnings until we achieve the expected cost reductions. We may not always accomplish these actions as quickly as anticipated, and we may not fully achieve the expected cost reductions.

Fluctuations in the price, availability and quality of raw materials and imported products could result in increased costs or cause production delays which might result in a decline in sales, either of which could adversely impact our earnings.

We use various types of wood, foam, fibers, fabrics, leathers, and other raw materials in manufacturing our furniture. Certain of our raw materials, including fabrics, are purchased both abroad and domestically. Fluctuations in the price, availability and quality of raw materials could result in increased costs or a delay in manufacturing our products, which in turn could result in a delay in delivering products to our customers. For example, lumber prices fluctuate over time based on factors such as weather and demand, which in turn, impact availability. Production delays or upward trends in raw material prices could result in lower sales or margins, thereby adversely impacting our earnings.

Table of Contents

In addition, certain suppliers may require advance notice of our requirements in order to produce products in the quantities we desire. This long lead time may require us to place orders far in advance of the time when certain products will be offered for sale, thereby exposing us to risks relating to shifts in consumer demand and trends, and any downturn in the U.S. economy.

We receive a substantial amount of our earnings and cash flow from our investment in the International Home Furnishings Center (IHFC).

We own 46.9% of IHFC which owns and leases permanent exhibition space in High Point, North Carolina to furniture and accessory manufacturers throughout the United States and in many foreign countries who showcase their products at the High Point Market held each March and September. In fiscal 2006, we recognized \$6.7 million in earnings and received \$6.6 million in dividends from our investment in IHFC. There can be no assurance that we will continue to recognize this level of earnings or receive this level of dividends in the future as leases are typically for five years and the lessees may not renew their respective leases. In addition, a home furnishings market recently started in Las Vegas which could potentially impact the number of manufacturers showcasing their products at the High Point market, thereby reducing the demand for the exhibition space in High Point.

We receive a substantial amount of our earnings and cash flow from our investments in The Bassett Furniture Industries Alternative Asset Fund LP and our marketable securities portfolio.

We have \$52.8 million invested in The Bassett Industries Alternative Asset Fund L.P. (the Fund) in which we are the only limited partner. The objective of the Fund is to achieve consistent positive returns, while attempting to reduce risk and volatility, by placing its capital with a variety of hedge funds and experienced portfolio managers. Such hedge funds and portfolio managers employ a variety of trading styles or strategies, including, but not limited to, convertible arbitrage, merger or risk arbitrage, distressed debt, long/short equity, multi-strategy and other market-neutral strategies. The general partner has discretion to make all investment and trading decisions, including the selection of investment managers. Our investment in the Fund includes investments in various other private limited partnerships, which contain contractual commitments with elements of market risk. These contractual commitments, which include fixed-income securities and derivatives, may involve future settlements, which give rise to both market and credit risk. The investment partnership's exposure to market risk is determined by a number of factors, including the size, composition, and diversification of positions held, volatility of interest rates, market currency rates, and liquidity. Risks to these funds arise from possible adverse changes in the market value of such interests and the potential inability of counterparties to perform under the terms of the contracts. However, the risk to the Fund is limited to the amount of the Fund investment in each of the funds. There can be no assurance that the Fund will continue to produce the levels of returns it has historically provided to support our operating cash flow needs.

At November 25, 2006, we have \$25.9 million in marketable securities on our balance sheet consisting of both equity and debt instruments. This portfolio is diversified among eight different money managers and twenty-five different equity securities. There can be no assurance that this portfolio will produce the levels of returns it has historically provided to support our operating cash flow needs as it is subject to those risks inherent in the stock and money markets including:

changes in trade, monetary and fiscal policies and laws,

changes in interest rates and the effects of inflation, and

changes in the outlook for the economy as a whole or shifts in investor attitudes.

Unsuccessful implementation of our new initiatives may be detrimental to future operating results and financial condition.

In addition to changes in pricing and product assortment, we have embarked on two key initiatives in 2007 that we believe are critical to our operating success. In the second quarter of 2007, we plan to unveil a new store prototype. The design of this store is based on extensive research we have conducted and assessed over the past several years, including the comprehensive market segmentation study completed in 2006. We believe this will increase traffic and provide a better customer experience in both Company-owned and licensee-owned stores. We also plan to capitalize on the opportunities that the Internet affords retailers by introducing a commerce enabled catalog and website. Failure to successfully implement these new initiatives could prove costly and could adversely impact our operating results and financial condition.

Table of Contents

ITEM 1B. UNRESOLVED STAFF COMMENTS

During 2006, the Staff of the Securities and Exchange Commission commenced a review of our 2005 Annual Report on Form 10-K. We have been in discussions with the Staff and have provided responses to the comments raised by the Staff. Even though we have not received final clearance from the Staff, we believe we have satisfactorily responded to each item raised by the Staff and we believe there are no unresolved comments. Refer to Note 2 to our Consolidated Financial Statements for a discussion of the most significant items raised by the Staff.

ITEM 2. PROPERTIES

We own the following manufacturing facilities, by segment:

Wholesale Segment:

J. D. Bassett Manufacturing Company *

Bassett, Va.

Bassett Superior Lines

Bassett, Va.

Bassett Chair Company *

Bassett, Va.

Bassett Table Company *

Bassett, Va.

Bassett Furniture Industries*

Macon, Ga.

Bassett Furniture Industries

Martinsville, Va.

Bassett Fiberboard

Bassett, Va.

Bassett Upholstery Division

Newton, N.C.

Properties designated by an asterisk * have ceased manufacturing operations and are currently held either for sale or as idle facilities in connection with restructuring efforts.

We own the real estate used by certain Bassett Furniture Direct retail stores, ranging from 15,000 to 25,000 square feet each, in the following cities with the number of locations owned in each city noted:

Company-owned retail stores:

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Greenville, S.C. (1)

Concord, N.C. (1)

Greensboro, N.C. (1)

Houston, Texas (4)

Licensee-operated retail stores:

Fredericksburg, Va. (1)

Knoxville, Tenn. (1)

Gulfport, Miss. (1)

Chesterfield, Va. (1)

Louisville, Ky. (1)

Denver, Colo. (1)

Las Vegas, Nev. (2)

In addition, we own leasehold improvements in approximately 25 stores. All of the properties noted above are operated as Bassett Furniture Direct stores.

Table of Contents

We own our general corporate office building, one warehouse, and an outlet store all located in Bassett, Virginia and one warehouse located in Mt. Airy, N.C. We also own leasehold improvements in our High Point, N.C., showroom.

In general, these facilities are suitable and are considered to be adequate for the continuing operations involved. All facilities, except those indicated above as held for sale or idle, are in regular use and provide more than adequate capacity for our manufacturing needs.

The following facilities were sold and disposed of during 2006:

Weiman Upholstery

Christiansburg, Va.

The following facilities were sold and disposed of during 2005:

Bassett Upholstery Division

Hiddenite, N.C.

The following facilities were sold and disposed of during 2004:

Bassett Furniture Industries

Dublin, Ga.

The following facilities were sold and disposed of during 2003:

Bassett Upholstery

Los Angeles, Calif.

The following facilities were sold and disposed of during 2001:

Showroom

Thomasville, N.C.

Bassett Upholstery

Conover, N.C.

Bassett Upholstery

Claremont, N.C.

Warehouse

Los Angeles, Calif.

ITEM 3. LEGAL PROCEEDINGS

We are also involved in various claims and actions, including environmental matters, which arise in the normal course of business. Although the final outcome of these matters cannot be determined, based on the facts presently known, it is our opinion that the final resolution of these matters will not have a material adverse effect on our financial position or future results of operations.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 4B. EXECUTIVE OFFICERS OF THE REGISTRANT

John E. Bassett III, 48, has been with the Company since 1981 and served as Vice President of Wood Manufacturing from 1997 to 2001 and as Vice President Global Sourcing since 2001.

Thomas M. Brockman, 52, joined the Company in late 2003 as Vice President of the Wood Division. From 2000 to 2003 he was a regional Vice President of Manufacturing for Ethan Allen.

Jason W. Camp, 38, joined the Company in 2006 as Senior Vice President of Retail.

Jay R. Hervey, Esq., 47, has served as the General Counsel, Vice President and Secretary for the Company since 1997.

Table of Contents

Matthew S. Johnson, 45, has been with the Company since 1984. Since 2000, he has been serving as Vice President of Merchandising and Design.

Mark S. Jordan, 53, joined the Company in 1999 as Plant Manager. In 2001, he was promoted to Vice President of Upholstery Manufacturing and in 2002 he was promoted to Vice President and General Manager-Upholstery.

Barry C. Safrit, 44, joined the Company as Vice President and Chief Accounting Officer in 1998. In 2001 he was promoted to Vice President and Chief Financial Officer. He was promoted to Senior Vice President and Chief Financial Officer in 2006.

Keith R. Sanders, 62, joined the Company in 1998 as the Vice President of Upholstery Manufacturing . In 1999, he was promoted to Executive Vice President, Operations.

Robert H. Spilman, Jr., 50, has been with the Company since 1984. Since 2000, he has served as Chief Executive Officer and President.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market and Dividend Information:

Bassett's common stock trades on the NASDAQ national securities exchange under the symbol BSET. We had approximately 1,150 registered stockholders at November 25, 2006. The range of per share amounts for the high and low market prices and dividends declared for the last two fiscal years are listed below:

Quarter	Market Prices of Common Stock				Dividends Declared	
	2006		2005		2006	2005
	High	Low	High	Low		
First	\$ 19.60	\$ 17.99	\$ 20.26	\$ 18.00	\$ 0.20	\$ 0.20
Second	19.95	16.59	21.03	18.13	0.20	0.20
Third	18.51	16.56	20.17	18.56	0.20	0.20
Fourth	17.48	15.24	19.62	17.80	0.20	0.20

Issuer Purchases of Equity Securities

	Total	Avg	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (1)	
				Shares	Price
August 27 - September 30, 2006		n/a		\$	8,355
October 1 - October 28, 2006	6,700	\$ 15.41	6,700		8,252
October 29 - November 25, 2006		n/a			8,252

(1) The Company's Board of Directors has authorized the repurchase of up to \$40,000 in Company stock. This repurchase plan was announced on June 23, 1998.

Table of Contents**ITEM 6. SELECTED FINANCIAL DATA**

The selected financial data set forth below for the fiscal years indicated were derived from our audited consolidated financial statements. The information should be read in conjunction with our consolidated financial statements (including the notes thereto) and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing elsewhere in, or incorporated by reference into, this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Table of Contents

ITEM 9A. CONTROLS AND PROCEDURES

a. Evaluation of our Disclosure Controls.

Purchase Accounting Restatement. During 2006, the Staff of the Securities and Exchange Commission commenced a review of our 2005 Annual Report on Form 10-K. The Staff challenged our application of generally accepted accounting principles as it related to the purchase accounting associated with our acquisitions of three retail licensee operations in fiscal 2005. Upon further review, we concurred with the Staff's recommended changes and have restated our 2005 financial statements and 2006 quarterly information as contained in this Annual Report on Form 10-K.

In connection with our acquisitions of the three retail licensee operations in 2005, we initially recognized pre-tax charges of \$4,204 to (1) eliminate the gross profit on inventories previously sold to the licensees by Bassett and subsequently acquired in the acquisitions and (2) reduce goodwill associated with the acquisitions to a value we believed was appropriate. Upon further review, we have determined that these charges should not have been recognized in 2005. Accordingly, the inventories should have been stated at their estimated selling prices less cost of disposal as provided in the Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 141, *Business Combinations* and the full amount of the goodwill should have been recorded on the balance sheet and allocated among the Company's respective reporting units. See also Notes 2 and 15 to our Consolidated Financial Statements.

Post Employment Benefit Obligation Restatement. During our 2006 year end closing process, we determined that previous actuarial assumptions and calculations associated with the death benefit, mortality and discount rates used in our actuarial valuation for our unfunded Supplemental Retirement Income Plan (the Supplemental Plan) were not correct. As specified by Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections*, a replacement of APB Opinion No. 20 and FASB Statement No. 3, we have treated the effects of correcting the errors as a prior period adjustment as of November 30, 2003, the first day of the fiscal year ended November 27, 2004. The restatement adjustments increased post employment benefit obligations by \$5,278, increased deferred tax assets by \$2,111 and decreased retained earnings by \$3,167 as of the end of fiscal 2003. See also Notes 2 and 12 to our Consolidated Financial Statements.

Control Evaluation. As of the end of the period covered by this Annual Report on Form 10-K, our principal executive officer and principal financial officer have evaluated the effectiveness of our disclosure controls and procedures (Disclosure Controls). Disclosure Controls, as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act), are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Exchange Act, such as this Annual Report, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure Controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Our management, including the CEO and CFO, does not expect that our Disclosure Controls will prevent or detect all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based upon their disclosure controls evaluation, our CEO and CFO have concluded that our Disclosure Controls were not effective as of November 25, 2006, due to the lack of sufficient management control processes and accounting personnel to ensure that certain non-routine transactions are properly accounted for and disclosed. This control deficiency resulted in the restatements described above.

b. Management's Report of Internal Control over Financial Reporting.

Management is responsible for establishing and maintaining adequate internal control over financial reporting in accordance with Exchange Act Rule 13a-15. With the participation of our Chief Executive Officer and Chief Financial Officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting as of November 25, 2006, based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Table of Contents

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Our assessment as of November 25, 2006, identified a material weakness in that we lack sufficient management control processes and accounting personnel to ensure that certain non-routine transactions are properly accounted for and disclosed. This control deficiency resulted in the restatements described in paragraph a. of this Item 9A relating to certain purchase accounting transactions and the unfunded liability associated with our Supplemental Retirement Income Plan. Additionally, this control deficiency, if not remediated, could result in a material misstatement to annual or interim consolidated financial statements that would not be prevented or detected.

Based on this evaluation and the material weakness noted above, management concluded that our internal control over financial reporting was not effective as of November 25, 2006.

Our assessment of the effectiveness of our internal control over financial reporting as of November 25, 2006, has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report incorporated by reference under Item 8.

c. Changes in internal control over financial reporting.

There have been no changes in our internal controls over financial reporting during our fourth fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. In the first quarter of 2007, we changed the actuary for our Supplemental Retirement Income Plan and used the actuarial valuation by the new actuary to correct the obligations recorded in our financial statements for this plan.

d. Remediation of deficiency in Disclosure Controls and internal control over financial reporting.

We believe that we did not have sufficient management control processes and accounting personnel to ensure that we properly account for and disclose certain material non-routine transactions and to effectively review significant assumptions associated with those transactions. Our plan to remediate this deficiency includes the following:

Strengthening the personnel in the corporate accounting department. We are currently reviewing the structure of our corporate accounting department and plan to add at least one senior level controller with significant accounting and financial reporting experience.

Improving the internal review process. We plan to develop a more stringent multi-level management research and review process over significant non-routine transactions and estimates to ensure that the accounting and disclosure are in conformity with generally accepted accounting principles.

Improving the research and review of transactions with alternative accounting treatments. We plan to develop a process for new material non-routine transactions whereby alternative accounting treatments are researched and evaluated. Any alternative treatments will be reviewed with the Audit Committee prior to final implementation of the accounting policy.

Although we believe the execution of this plan will improve our systems of disclosure controls and internal controls over financial reporting, the effectiveness of this plan, once executed, will be subject to testing by us and our independent auditors and there can be no assurance at this time that the plan will effectively remediate the material weakness described above.

e. Management Certifications

The certifications of our Chief Executive Officer and Chief Financial Officer required in accordance with Section 302 of the Sarbanes-Oxley Act of 2002 are attached as exhibits to this Annual Report on Form 10-K. The disclosures set forth in this Item 9A contain information concerning (i) the design and evaluation of our Disclosure Controls referred to in paragraph 4 of the certifications and (ii) the design and evaluation of our internal controls over financial reporting referred to in paragraphs 4 and 5 of the certifications. Those certifications should be read in conjunction with this Item 9A for a more complete understanding of the matters covered by the certifications.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

Overview

Bassett Furniture Industries Inc., based in Bassett, Va., is a leading retailer, manufacturer and marketer of branded home furnishings. Bassett® products are sold primarily through Bassett Furniture Direct® stores, with secondary distribution through multi-line furniture stores, many with in-store Bassett Design Centers. Bassettbaby® cribs and casegoods are sold through specialty stores and mass merchants.

Bassett Furniture Direct® (BFD) was created in 1997 as a single source home furnishings retail store that provides a unique combination of stylish, well-made furniture and accessories with a high level of customer service. This service includes complimentary room planning, in-home design visits, fast delivery, and custom-order furniture.

The year 2006 was a challenging one for Bassett and the furniture industry in general. During 2006, our primary area of focus was retail. We were committed to improving the customer experience at our BFD stores, improving the products in these stores, and building the Bassett brand. Late in 2006, the Company made changes in both the leadership and pricing structure of the Company-owned stores which it believes will lead to better performance in 2007. We are firmly committed to our retail strategy and we are continually searching for the most profitable and efficient methods of supplying high quality furniture at moderate price points to our customers.

During 2006, our licensees opened 13 new stores and we opened one new Company-owned store for a total of 14 new stores. We terminated licenses with eight BFD stores and we closed two Company-owned stores, ending 2006 with 134 stores in the network. Overall retail conditions and the Company's initiative to develop a new store prototype have temporarily slowed store count growth. We expect licensees to open between four and six new stores in fiscal 2007.

A major component of our overall retail strategy involves our Company-owned stores. We believe a strong Company-owned retail division would provide us the first-hand experience and immediate feedback to develop programs that are vitally important to the success of our entire BFD network. Pursuit of this strategy will also enable our retail division to acquire and operate additional BFD stores as viable opportunities arise. During 2005, the number of our Company-owned stores grew to 27 through the acquisition of 15 BFD stores located in Dallas, Atlanta and upstate New York. We believe our organizational and financial strength, combined with our retail scale, will provide the platform, best practices and resources needed to drive uniformity throughout our BFD program and drive the improvement needed in the retail stores we have acquired from licensees.

An increasingly important component of our retail strategy and our balance sheet is retail real estate. We expect to continue to invest in high quality retail real estate as the BFD program continues to expand, and we may, on a selective basis, continue to provide various forms of assistance to procure retail real estate for BFD licensees, including lease/sub-lease arrangements and short term lease guarantees.

The furniture industry continues to experience a rapid shift from traditional domestic manufacturing to offshore sourcing in lower cost markets, primarily China and the Pacific Rim countries. This shift in sourcing has resulted in downward pressure on retail prices and reductions in traditional channels of sales distribution, as many retailers can source their own products rather than relying on a traditional domestic manufacturer to supply goods. We believe our BFD program provides us a strong platform from which to market our products. In addition, we will continue to evaluate the cost effectiveness of domestic production on a product by product basis.

We define imported product as fully finished product that is sourced. In 2006, 44% of our wholesale sales were of imported product compared to 34% in 2005. Our domestic product includes certain products that contain components which are also sourced internationally. We continue to believe that a blended strategy including domestically produced products primarily of a custom-order nature combined with importing certain product categories and major collections, provides the best combination of value and quality to our customers. We expect that overall operating margins will be positively impacted as our mix of domestic versus imported product nears 50/50 during 2007.

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations - Continued

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

We intend to execute our strategies in such a way as to preserve our investments while simultaneously minimizing the need for borrowed funds. Maintenance of a strong balance sheet is a stated management goal and vital to our retail growth strategy. The BFD program entails key business risks, including the realization of receivables and the coverage of both direct and contingent liabilities primarily associated with retail real estate. We have established decision criteria and business disciplines aimed at minimizing potential losses from these risks.

Two key components of our balance sheet are our investments in the Bassett Industries Alternative Asset Fund, L.P. (Alternative Asset Fund), a limited partnership, and our interest in the International Home Furnishings Center, Inc. (IHFC). For a description of these investments, see Notes 6 and 9 of the Consolidated Financial Statements.

A major marketing initiative for Bassett during 2006 was the introduction of our first direct to consumer catalog. This catalog better defines and enhances Bassett®'s brand image while explaining to our consumers our product and service capabilities. In addition to the catalog, the Company has several other marketing and merchandising initiatives underway including product introductions centered around the Company's core middle price point category and the development of a new store prototype which will be introduced in the summer of 2007. The Company has engaged consultants to assist with the design and rollout of the new store prototype and the introduction of key elements of the new prototype into certain of our Company-owned stores. These key elements will feature custom furniture solutions, seasonal presentations and personal service. The combination of these initiatives should drive more traffic into our stores and better position us for future sales growth. The Company also will introduce three seasonal catalogs during 2007, the first of which will be mailed during the first quarter of 2007.

Looking ahead to 2007, our primary area of focus continues to be retail. Amidst an extremely challenging retail environment, we must drive improvement in our retail segment's results and we are squarely focused on selling more furniture in our Bassett Furniture Direct stores. This enterprise-wide effort involves every aspect of our Company's merchandising, marketing, operations, recruiting, training and information technology. We have developed a financial plan aimed at reducing our retail losses to a breakeven level over the next two to three years.

Restatements of Previously Reported Results

During 2006, the Staff of the Securities and Exchange Commission commenced a review of our 2005 Annual Report on Form 10-K. The Staff recommended changes to our accounting treatment associated with our acquisitions of three retail licensee operations in fiscal 2005 and our classification of certain notes receivable activity in the statement of cash flows. Upon further review, we concurred with the accounting treatment recommended by the Staff.

In connection with our acquisitions of the three retail licensee operations in 2005, we initially recognized pre-tax charges of \$4,204 to (1) eliminate the gross profit on inventories previously sold to the licensees by Bassett and subsequently acquired in the acquisitions and (2) reduce goodwill associated with the acquisitions to a value we believed was appropriate. Upon further review, we have determined that these charges should not have been recognized in 2005. Accordingly, the inventories should have been stated at their estimated selling prices less cost of disposal as provided in the Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 141, Business Combinations and the full amount of the goodwill should have been recorded on the balance sheet and allocated among the Company's respective reporting units. These changes resulted in increases to pre-tax income in the second and third quarters of 2005 and corresponding increases in previously reported goodwill and inventory amounts. The third quarter of 2005 and all quarters subsequent to the three acquisitions include increases to cost of sales and corresponding reductions to pre-tax income to reflect the additional costs of certain of the acquired inventories that were subsequently sold. These retail inventories consist of a mix of floor samples, store accessories, inventory committed for delivery and other inventories held for resale.

The restatement resulted in a decrease to net income of \$558 for fiscal 2006 and an increase to net income of \$2,251 for fiscal 2005 (see also Note 2 to the Consolidated Financial Statements for a complete reconciliation of the restatement adjustments on the 2005 and 2004 financial statements and Note 20 for further quarterly information).

Table of Contents**Management's Discussion and Analysis of Financial Condition and Results of Operations - Continued**

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

As stated above, we also reduced our cash flows from operations by reclassifying net cash inflows of \$828 and \$622 from cash flows from operating activities to cash flows from investing activities for fiscal 2005 and 2004, respectively, related to certain notes receivable due from retail licensees.

During our 2006 year end closing process, we also determined that previous actuarial assumptions and calculations associated with the death benefit, mortality and discount rates used in our actuarial valuation for our unfunded Supplemental Retirement Income Plan (the Supplemental Plan) were not correct. As specified by Statement of Financial Accounting Standards No. 154, Accounting Changes and Error Corrections, a replacement of APB Opinion No. 20 and FASB Statement No. 3, we have treated the effects of correcting the errors as a prior period adjustment as of November 30, 2003, the first day of the fiscal year ended November 27, 2004. The cumulative effect of the restatement adjustments increased post employment benefit obligations by \$5,278, increased deferred tax assets by \$2,111 and decreased retained earnings by \$3,167 as of the end of fiscal 2003 and 2004. The cumulative effect of the restatement adjustments as of November 26, 2005, were as follows:

	Increase (Decrease)
Post employment benefit obligations	\$ 5,649
Other accrued liabilities	(231)
Deferred tax assets	2,111
Retained earnings	(3,167)
Other long-term assets	140

As the effects of this adjustment on the net plan expense was not material for the years presented, we have not restated the consolidated statements of income. Please refer to Note 12 to the Consolidated Financial Statements for more information on the Supplemental Plan.

Critical Accounting Policies and Estimates

Our consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America which requires that certain estimates and assumptions be made that affect the amounts and disclosures reported in those financial statements and the related accompanying notes. Actual results could differ from these estimates and assumptions. We use our best judgment in valuing these estimates and may, as warranted, solicit external advice. Estimates are based on current facts and circumstances, prior experience and other assumptions believed to be reasonable. The following critical accounting policies, some of which are impacted significantly by judgments, assumptions and estimates, affect our consolidated financial statements.

Consolidation - The consolidated financial statements include the accounts of Bassett Furniture Industries, Incorporated and its majority-owned subsidiaries for whom we have operating control. We also consolidate variable interest entities for which we are the primary beneficiary.

Allowance for Accounts and Notes Receivable - We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. The allowance for doubtful accounts is based on a review of specifically identified accounts and notes receivable in addition to an overall aging analysis. We evaluate the collectibility of our accounts and notes receivable from our licensees on a quarterly basis. Our allowance for doubtful accounts represents our best estimate of potential losses on our accounts and notes receivables and is adjusted accordingly based on historical experience, current developments and economic trends. Actual losses could differ from those estimates.

Inventories - Inventories are stated at the lower of cost or market. Cost is determined for domestic furniture inventories using the last-in, first-out method. The cost of imported inventories is determined on a first-in, first-out basis. We estimate an inventory reserve for excess quantities and obsolete items based on specific identification and historical write-offs, taking into account future demand and market conditions. If actual demand or market conditions in the future are less favorable than those estimated, additional inventory write-downs may be required.

Investments - Investments are marked to market and recorded at their fair value. We account for the Alternative Asset Fund by marking it to market value each month based on the net asset values provided by the general partner. Unrealized holding gains and losses, net of the related

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

income tax effect, on available for sale securities are excluded from income and are reported as other comprehensive income in stockholders equity. Realized gains and losses from securities classified as available for sale are included in income and are determined using the specific identification method for ascertaining the cost of securities sold.

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

Goodwill As specified in Statement of Financial Accounting Standards (SFAS) No. 141, *Accounting for Business Combinations*, goodwill represents the excess of the purchase price over the value assigned to tangible assets and liabilities and identifiable intangible assets of businesses acquired. SFAS No. 142, *Goodwill and Intangible Assets*, requires that goodwill be reviewed for impairment annually or whenever events or changes in business circumstances indicate that the carrying value of the assets may not be recoverable. Our policy is to perform the annual impairment analysis as of the beginning of our fiscal fourth quarter. SFAS No. 142 also requires that the assets and liabilities acquired and the resulting goodwill be allocated to the entity's respective reporting units. We have identified three reporting units for our business: Wholesale, Retail and Real Estate/Investments.

The required impairment test is a two step process. The first step compares the carrying value of each reporting unit that has goodwill with the estimated fair value of the respective reporting unit. Should the carrying value of a reporting unit be in excess of the estimated fair value of that reporting unit, the second step is performed whereby we must calculate the implied fair value of goodwill by deducting the fair value of all tangible and intangible net assets of the reporting unit from the fair value of the reporting unit. This second step represents a hypothetical purchase price allocation as if we had acquired the reporting unit on that date. Our impairment methodology uses a discounted cash flow analysis requiring certain assumptions and estimates to be made regarding future profitability of the reporting unit and industry economic factors. The projected cash flows used for our analysis were based primarily on the Company's three-year operating plan. While we believe such assumptions and estimates are reasonable, the actual results may differ materially from the projected amounts.

Impairment of Long-Lived Assets - We periodically evaluate whether events or circumstances have occurred that indicate long-lived assets may not be recoverable or that the remaining useful life may warrant revision. When such events or circumstances are present, we assess the recoverability of long-lived assets by determining whether the carrying value will be recovered through the expected undiscounted future cash flows resulting from the use of the asset. In the event the sum of the expected undiscounted future cash flows is less than the carrying value of the asset, an impairment loss equal to the excess of the asset's carrying value over its fair value is recorded.

Revenue Recognition - Revenue is recognized when the risks and rewards of ownership and title to the product have transferred to the buyer. This generally occurs upon the shipment of goods to independent dealers or, in the case of Company-owned retail stores, upon delivery to the customer. Our terms vary from 30 to 60 days. An estimate for returns and allowances has been provided in recorded sales. The contracts with our licensee store owners do not provide for any royalty or license fee to be paid to us.

Loss Reserves - We have a number of other potential loss exposures incurred in the ordinary course of business such as environmental claims, product liability, litigation, restructuring charges, and the recoverability of deferred income tax benefits. Establishing loss reserves for these matters requires estimates and judgment with regard to maximum risk exposure and ultimate liability or realization. As a result, these estimates are often developed with the assistance of appropriate advisors, and are based on our current understanding of the underlying facts and circumstances. Because of uncertainties related to the ultimate outcomes of these issues or the possibilities of changes in the underlying facts and circumstances, additional charges related to these issues could be required in the future.

Fiscal 2006 Compared to Fiscal 2005 (as restated)

Net sales, gross margin, selling, general and administrative (SG&A) expenses, and operating income (loss) were as follows for the years ended November 25, 2006, and November 26, 2005 (restated):

	As restated			
	2006		2005	
Net sales	\$ 328,214	100.0%	\$ 335,207	100.0%
Gross margin	102,895	31.3	98,364	29.3
SG&A	(103,551)	-31.5	(91,270)	-27.2
Income from Continued Dumping & Subsidy Offset Act	1,549	0.5	0.0	0.0
Impairment and restructuring charges	(1,359)	0.4	(1,960)	-0.6

Table of Contents

Management's Discussion and Analysis of Financial Condition and Results of Operations - Continued

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

On a consolidated basis, we reported net sales for 2006 of \$328,214, a decrease of \$6,993 or 2% from sales levels attained in fiscal 2005. This decrease was due to a \$20,914 decrease in external wholesale shipments, partially offset by a \$13,921 increase in retail

sales. The wholesale decrease was primarily due to the expected further attrition in our non-BFD distribution channels, combined with sluggish retail sales and partially due to the sale of our Weiman division in the second quarter of 2006. The increase in retail sales was entirely due to a full year of sales for the stores we acquired during 2005.

Gross margin increased in 2006 largely due to the inclusion of more retail stores during 2006 and an increased sales mix of imported product. Our retail segment typically has both higher gross margins and higher SG&A expenses than our wholesale operations, therefore with our 2006 retail sales being a larger percentage of our total sales, our blended margins are higher. Improved retail acceptance of both wood and upholstery imported products also favorably impacted our margins in 2006. Additionally, 2006 and 2005 margins were positively impacted by lower domestic wood inventory levels which led to reductions in accompanying LIFO inventory reserves.

SG&A expenses in 2006 increased by \$12,281 from 2005 to \$103,551. As a percentage of sales, SG&A increased 4.3 points from 27.2% in 2005 to 31.5% in 2006. Wholesale SG&A decreased approximately \$2,800 from 2005. The Company added approximately \$15,000 of retail segment SG&A due primarily to the BFDs acquired in 2005. Although we anticipated an increase in SG&A as a percentage of net sales as we consolidated a complete year of the Dallas, Atlanta and upstate New York retail operations, we expected higher sales levels to reduce the anticipated increase.

During 2006, current year traffic and retail sales trends have negatively impacted our licensee's cash flow and in turn the timing of our wholesale collections. These trends, if not reversed, could negatively impact future operating performance. Our allowance for doubtful accounts represents our best estimate of potential losses on our accounts and notes receivables and is adjusted accordingly based on historical experience, current developments and economic trends. We recorded \$3,364 and \$2,603 of provision for losses on accounts receivable during 2006 and 2005, respectively, to cover potential losses that may arise.

The Continued Dumping and Subsidy Offset Act of 2000 (CDSOA) provides for the distribution of monies collected by U.S. Customs and Border Protection from antidumping cases to qualified domestic producers, in cases where domestic producers have continued to invest in their technology, equipment and people. For the year ended November 25, 2006, the Company recorded \$1,549 in CDSOA subsidies in connection with the case involving wooden bedroom furniture imported from China. Subsidies recorded in fiscal 2005 were insignificant. See Note 7 to the Consolidated Financial Statements. There is no guarantee the Company will receive this level of subsidy in the future. Current legislation repeals the Act after September 30, 2007.

During 2006, we recorded an impairment charge of \$1,359 to write-off our goodwill associated with the retail reporting unit. The overall retail environment and, in particular, the markets in which our Company-owned stores operated, softened during 2006 considerably more than we had anticipated. In addition, our strategy to streamline and standardize operations to reduce overhead and other costs has taken more time than we expected to implement. High gasoline costs, rising interest rates and decreased housing starts contributed to the difficult furniture retail environment. These factors led to increased promotional discounts on our products in an attempt to maintain sales volumes and resulted in a significant increase in the operating losses for our Company-owned stores. We do believe that our retail operations will improve and that operating losses will be reduced in 2007. Our plan is to achieve a break-even level by 2009. However, because of the magnitude of the losses expected in 2007 and 2008, our discounted cash flow analysis indicates that the retail goodwill is impaired.

Our discounted cash flow analysis of the goodwill associated with our wholesale reporting unit indicated that the carrying value was realizable from future cash flows and that the fair value of the reporting unit was in excess of 125% of the book value. This analysis was based primarily on our three-year operating plan that assumes slightly improved market conditions, a relatively healthy network of BFD stores and a more efficient operating model for our Company-owned stores. While we believe the assumptions are reasonable, the actual results may differ materially from the projected amounts. Even with a 10% decrease to the cash flow estimates, the fair value would still be in excess of 110% of the book value. Our wholesale segment which has a long and profitable history, is increasingly dependent on the health of our overall BFD network. As previously mentioned, we recently hired a new executive with significant retail experience to lead our retail organization.

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

The Company has non-operating income primarily from its investments and unconsolidated affiliated companies. Income from investments increased due to slightly better returns on our investment portfolios as compared to 2005. Income from unconsolidated affiliated companies which includes income from IHFC, decreased due to losses related to BFD Northeast, LLC (BFDNE) and Zenith Freight Lines, LLC (Zenith). The losses incurred by BFDNE and Zenith were due largely to lower sales levels caused by the challenging furniture retail environment.

F - 7

Table of Contents**Management's Discussion and Analysis of Financial Condition and Results of Operations - Continued**

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

The effective income tax rate was 15.9% in 2006 and 25.7% in 2005. The effective rate in 2006 and 2005 was lower than statutory rates primarily due to exclusions for tax-exempt income and dividends received from our investment in the IHFC. Our 2006 rate also was increased by the write-off of goodwill associated with our retail segment as it is not tax-deductible.

Net income for the year ended November 25, 2006, was \$5,429 or \$0.46 per diluted share. Net income for the year ended November 26, 2005, was \$9,814 or \$0.82 per diluted share.

Fiscal 2005 (as restated) Compared to Fiscal 2004

Net sales, gross margin, selling, general and administrative (SG&A) expenses, and operating income were as follows for the years ended November 26, 2005 (restated), and November 27, 2004:

	As restated			
	2005		2004	
Net sales	\$ 335,207	100.0%	\$ 315,654	100.0%
Gross margin	98,364	29.3	81,042	25.7
SG&A	(91,270)	-27.2	(77,145)	-24.4
Gain on sale of property	0.0	0.0	3,890	1.2
Restructuring and impaired asset charges	(1,960)	-0.6	(4,060)	-1.3
Income from operations	\$ 5,134	1.5%	\$ 3,727	1.2%

On a consolidated basis, we reported net sales for 2005 of \$335,207, an increase of \$19,553 or 6.2% from sales levels attained in fiscal 2004. This increase was partially due to a \$32,514 increase in wholesale shipments to our BFDs, partially offset by \$21,215 of attrition in wholesale shipments to traditional stores and other channels. Also our retail sales increased \$21,586, primarily due to the acquisitions of 15 BFD stores in Dallas, Atlanta and upstate New York during 2005. The Dallas BFDs became Company-owned at the end of our second quarter, and the Atlanta and upstate New York stores became Company-owned late in our third quarter.

Our BFD Store program has migrated toward more upscale and stylish product, coupled with design assistance, in-home selling, a high degree of customization, and quick delivery. This combination of features has attracted a solid backlog of potential dealers to our program. In 2005, our licensees opened 18 new BFDs and we opened one new Company-owned store for a total of 19 new stores. We terminated licenses with five BFD stores in 2005, due to dealers choosing to pursue selling strategies inconsistent with our BFD program. This resulted in a 14 store net increase in our BFD network for 2005. There were 130 stores in operation at November 26, 2005, 27 of which we own and consolidate. New licensee candidates continue to be required to meet rigorous financial and operational requirements before being approved as licensees.

Gross margin increased in 2005 largely due to the inclusion of more retail stores during 2005 and an increased sales mix of imported product. Our retail segment typically has both higher gross margins and higher SG&A expenses than our wholesale operations, therefore with our 2005 retail sales being a larger percentage of our total sales, our blended margins are higher. Improved retail acceptance of both wood and upholstery imported products also favorably impacted our margins in 2005. Additionally, 2005 margins were positively impacted by lower domestic wood inventory levels which led to reductions in accompanying LIFO inventory reserves.

SG&A expenses in 2005 increased by \$14,125 from 2004 to \$91,270. As a percentage of sales, SG&A increased 2.8 points from 24.4% in 2004 to 27.2% in 2005. Approximately \$9,600 of this increase is due to the BFDs acquired in 2005. This increase in SG&A as a percentage of net sales was anticipated and is expected to increase in 2006 as we will consolidate a complete year of the Dallas, Atlanta and upstate New York retail operations. In addition to increased SG&A due to more Company-owned BFDs, wholesale SG&A increased to support marketing

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

programs targeted to new product introductions, consumer research and building our brand.

At the end of the second quarter of 2005, we acquired a 76% ownership interest in BFD-Dallas, an eight store operation in the greater Dallas, Texas metropolitan area. We accounted for this transaction using the purchase method of accounting. During the third quarter of 2005, we consummated two transactions to acquire seven BFD stores. At the beginning of August, we acquired assets of a licensed three store BFD operation in upstate New York (BFD-UNY). At the end of August, we acquired an additional 36% ownership interest in BFD-Atlanta, a four store operation in Atlanta, Ga., bringing our total ownership percentage to 66%. We accounted for these transactions using the purchase method of accounting. See Note 15 for a further discussion of these transactions.

F - 8

Table of Contents**Management's Discussion and Analysis of Financial Condition and Results of Operations - Continued**

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

In the fourth quarter of 2005, we made the decision to cease operations at our wood manufacturing facility in Mt. Airy, N.C., and move production of certain products from the Mt. Airy facility to our wood facility in Bassett, Va., with certain other products shifted to imports. Related to this action, we recorded \$1,960 in restructuring charges in the fourth quarter of 2005, of which \$920 represents an estimate of the impaired asset write-down of the facility. The remaining \$1,040 represents severance and employee benefits for approximately 300 employees associated with the closure of the plant. See Note 14 to the Consolidated Financial Statements.

The effective income tax provision rate was 25.7% in 2005 and 24.3% in 2004. The income tax provision rate in 2005 and 2004 was lower than statutory rates primarily due to exclusions for tax-exempt income and dividends received from our investment in the IHFC.

Net income for the year ended November 26, 2005, was \$9,814 or \$0.82 per diluted share. Net income for the year ended November 27, 2004, was \$8,209 or \$0.69 per diluted share.

Segment Information

We have strategically aligned our business into three reportable segments: Wholesale, Retail and Investments/Real Estate. The wholesale home furnishings segment is involved principally in the design, manufacture, sourcing, sale and distribution of furniture products to a network of BFD stores (independently-owned stores, Company-owned retail stores and partnership licensees) and independent furniture retailers. Our wholesale segment includes our wood and upholstery operations as well as all corporate selling, general and administrative expenses. During the second quarter of 2006, we sold our contemporary furniture business (Weiman), which was previously included in this segment. Our retail segment consists of Company-owned BFD stores. Our retail segment includes the revenues, expenses, assets and liabilities (including real estate) and capital expenditures directly related to these stores. Our investments/real estate segment consists of our investments (Alternative Asset Fund and marketable securities), distributions in excess of affiliate earnings (IHFC) and retail real estate related to licensee BFD stores. Although this segment does not have operating earnings, income from the segment is included in income from investments in our condensed consolidated statements of income and retained earnings. Our equity investment in IHFC is not included in the identifiable assets of this segment since it has a negative book value and is therefore included in the long-term liabilities section of our condensed consolidated balance sheet. See Note 9 for a further discussion of IHFC.

Wholesale Segment

	As restated					
	2006		2005		2004	
Net sales	\$ 284,803	100.0%	\$ 301,250	100.0%	\$ 289,953	100.0%
Gross profit	68,374	24.0	68,646	22.8	58,447	20.2
SG&A	(56,278)	-19.8	(59,099)	-19.6	(54,744)	-18.9
Operating Earnings	\$ 12,096	4.2%	\$ 9,547	3.2%	\$ 3,703	1.3%

Our wholesale segment had net sales of \$284,803, which represents a decrease of \$16,447, or 5.5% from sales levels attained in fiscal 2005. This decrease was primarily due to expected attrition totaling approximately \$8,500 in sales to regional furniture chains, independent furniture retailers and other non-BFD customers. Additionally, we experienced an approximate \$3,800 reduction in sales due to the sale of our Weiman division in the second quarter of 2006. Sales to BFDs decreased approximately \$3,700 due to overall retail conditions. In 2006, 72% of wholesale shipments were made to BFDs compared to 68% in 2005. In 2007, we expect retail conditions to continue to be challenging and the Company's percentage of BFD sales to be in the range of 72-75%.

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Over the past three years, our wholesale segment has closed three wood plants and one upholstery plant. At the end of 2006, four plants were in operation; one large wood manufacturing plant in Bassett, Va., one small wood assembly plant in Martinsville, Va., one fiberboard supply facility in Virginia, and one upholstery facility in North Carolina. We believe our manufacturing capacity is better aligned with our BFD business and current demand.

F - 9

Table of Contents**Management's Discussion and Analysis of Financial Condition and Results of Operations - Continued**

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

Wholesale shipments	2006		2005		2004	
Wood	\$ 164,030	57.6%	\$ 179,786	59.7%	\$ 177,784	61.3%
Upholstery	117,668	41.3	114,372	38.0	103,478	35.7
Other	3,105	1.1	7,092	2.3	8,691	3.0
Total	\$ 284,803	100.0%	\$ 301,250	100.0%	\$ 289,953	100.0%

Our wood operations experienced decreased shipments in 2006 as compared to 2005. This was primarily due to overall challenging furniture retail conditions, competitive pricing pressures especially in the bedroom category and a lower than expected market response to several of the new groups introduced by the Company in the last two years. Shipments of bedroom products decreased significantly during 2006 as compared to 2005 and account for a majority of the total wood shipment decrease. Partially offsetting this decrease were increases in shipments of our casual dining programs, occasional tables and home office/entertainment products.

Our upholstery operations experienced continued growth in 2006. The sales increases were led by our imported leather products which offer value in the middle price points with numerous options available to upgrade. Additionally, we continue to offer our Simply Yours® custom made upholstery program which delivers custom made upholstery into the consumers' home in 30 days or less. In 2006, we expanded our Simply Yours® upholstery program to include four different product sizes allowing more applications to residential settings with varying scale. Our upholstery products are experiencing a greater sales percentage in our BFD stores relative to the percentage shipped to traditional furniture stores. This is primarily attributable to our custom order and imported leather programs. As the number of BFD stores increase, we expect upholstery sales and contribution to profit and overhead to increase.

During the second quarter of 2006, the Company sold certain assets, primarily inventory and property and equipment, of its Weiman division (a contemporary upholstery furniture business) for net book value. The Company received \$1,300 in cash and a short-term note receivable. Historically, Weiman's operating results and financial position have been included in the Company's wholesale segment (other as it relates to wholesale shipments) for segment reporting. The Company divested these assets as they were determined to be non-core and not aligned with the Company's primary strategic objective of growing and improving the Bassett Furniture Direct network of Company-owned and licensed retail furniture stores.

Our wholesale segment gross margin improved 1.2 percentage points from 22.8% in 2005 to 24.0% in 2006. This improvement was primarily driven by a continued shift to more imported products. Additionally, margins were again positively impacted by lower domestic wood inventory levels which led to reductions in accompanying LIFO inventory reserves. Our gross margin improved by 2.6 points from fiscal 2004 to fiscal 2005 due principally to improved sales mix of imported products partially offset by challenges in our domestic wood production related to plant closings and transitions of product.

Wholesale segment SG&A decreased \$2,821 in 2006 as compared to 2005. This decrease was due to the sale of our Weiman division in the second quarter of 2006 and efforts to reduce discretionary spending in response to the lower sales levels during the third and fourth quarters of 2006.

Operating earnings improved in 2006 due to a combination of the shift to more imported product and efforts to reduce our wholesale segment's cost structure. Operating earnings improved significantly in 2005 from 2004 due to a combination of sales growth, shift to more imported product and efforts to reduce our wholesale segment's cost structure.

Operating earnings (losses)	\$ (12,126)	-14.4%	\$ (1,661)	-2.4%	\$ 172	0.4%

Bassett's 27 corporate stores continued to experience soft conditions at retail. Net sales for the retail segment increased nearly 20% in 2006 from 2005, primarily due to having a full year of sales from the 15 additional stores purchased in 2005. For our 11 stores that were in operation in both 2006 and 2005, we experienced slight sales decreases, primarily due to overall soft retail conditions. Net sales for the retail segment increased by 44% in 2005 from 2004, primarily due to having additional stores operating in 2005.

Our gross margin decreased 1.7 percentage points in 2006 from 2005 and was several percentage points below what we expected. Margins were lower than planned due to selling selected products at clearance prices in order to prepare for the arrival of new products and featured catalog products, promotions geared to respond to the overall soft market conditions, and the discounting related to the clearance events at the two stores that were closed.

Retail segment SG&A increased from \$32,173 in 2005 to \$47,272 in 2006. This increase was anticipated and was due almost entirely to adding the expense structure of the BFDs acquired during 2005. Sales in 2006 were more than 10% below the levels anticipated which resulted in a higher SG&A percentage as a large majority of these costs are relatively fixed in nature. SG&A expenses include occupancy, warehouse, advertising and payroll expenses.

The Company's retail segment experienced an operating loss of \$12,126 for 2006, compared to a loss of \$1,661 for 2005. The increase in the losses are primarily due to the overall softening retail conditions in 2006, selling of selected products at clearance prices in order to prepare for the arrival of new products and featured catalog products and promotions geared to respond to the overall soft market conditions. In addition, during the second quarter of 2006, Bassett made the decision to close two of its corporate stores, one in Texas and one in Georgia. Clearance events conducted at these stores during 2006 negatively impacted earnings by approximately \$0.9 million.

In 2005, we experienced a \$1,833 decrease in operating income. This decrease was primarily due to the 15 acquired stores which negatively impacted operating earnings by approximately \$2,000 due to losses resulting from lower sales and gross margin levels.

Our retail segment includes the expenses of retail real estate utilized by Company-owned retail stores. Rental income and expenses from our properties utilized by independent licensees and partnership licensees are included in our investment and real estate segment.

As previously discussed, changes being made to drive more traffic, improve staffing, and streamline operations are taking longer than anticipated to implement. In addition the Company has recently made changes in the leadership, pricing structure and promotion strategy of the Company-owned stores which it believes will lead to better performance in 2007. This performance improvement aimed at reducing retail segment losses is expected to be accomplished through a combination of top line sales growth in the current 27 Company-owned stores, increased gross margins in the range of 44% to 46%, and reduced levels of retail segment SG&A spending.

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

Investment and Real Estate Segment

Our investments and real estate segment consists of our investments (Alternative Asset Fund and marketable securities), distributions in excess of affiliate earnings (IHFC) and retail real estate related to licensee BFD stores. Although this segment does not have operating earnings, income from the segment is included in income from investments in our condensed consolidated statements of income and retained earnings. Our equity investment in IHFC is not included in the identifiable assets of this segment since it has a negative book value and is therefore included in the long-term liabilities section of our condensed consolidated balance sheet.

Liquidity and Capital Resources

Our November 25, 2006, balance sheet, with minimal borrowings on our revolving line of credit and a sizeable investment portfolio, remains strong and continues to bolster our retail growth strategy, which includes entering into operating leases and lease and loan guarantees for our BFD licensees. Our primary sources of funds in 2006 have been income from investments, including dividends from IHFC. Cash was primarily used in 2006 to fund operations, invest in capital expenditures and pay dividends. The primary sources of cash in 2005 were from operations and our investments. Cash was primarily used in 2005 to invest in capital expenditures and pay dividends. The primary sources of cash in 2004 were from dividends from IHFC and the disposition of certain plant facilities. Cash was used in 2004 to increase inventory levels to better service our customers, purchase capital assets and pay dividends.

The current ratio for the past two years was 2.43 to 1 and 2.19 to 1, respectively. Working capital was \$62,204 at November 25, 2006, and \$57,055 at November 26, 2005.

Net cash generated by (used in) operating activities was \$(5,125), \$11,267 and \$(5,307) in fiscal 2006, 2005 and 2004, respectively. The decrease in operating cash from 2005 to 2006 was primarily related to our retail segment losses, an increase in accounts receivable, and a reduction in payables and accrued liabilities. The reduction in current liabilities related in part to payments of restructuring-related obligations accrued in prior years and a reduction in payables related to the shift in mix from domestic to imported purchases. The increase in operating cash from 2004 to 2005 was primarily related to reductions in domestic wood inventories.

During 2006, current year traffic and retail sales trends have negatively impacted our licensees' cash flow and in turn the timing of our wholesale collections resulting in increases to both our accounts receivable balance and our days sales outstanding. These trends have also affected collections on our notes receivable. In addition, our allowance for doubtful accounts for both accounts and notes receivable increased \$3,375 from \$5,226 to \$8,601. If not reversed, this could negatively impact future operating performance and cash flow.

As noted on the accompanying consolidated balance sheet and statement of cash flows, we segregate property and equipment into two groups: (1) property and equipment utilized by our wholesale and retail segments, and (2) retail real estate utilized by BFD licensees. Over the past three years we have continued to invest in machinery, equipment and technology utilized by our wholesale and retail segments in the amounts of \$3,344, \$4,804 and \$7,866, respectively. In addition for 2006, 2005 and 2004, we have invested \$3,594, \$6,286 and \$3,177 in retail real estate utilized by BFD licensees. In addition to our 2004 capital expenditures, we assumed \$16,231 of notes payable. Our 2004 proceeds from the sales of property and equipment include proceeds received from the sale of our California upholstery facility and our Dublin, Ga., wood manufacturing facility.

Both purchases of investments and proceeds from the sales of investments relate primarily to the active management of a portion of our overall investment portfolio. During the year, marketable securities are bought and sold generating proceeds, purchases, gains and losses. For 2006 and 2005 net proceeds from sales of investments were \$5,845 and \$3,115, respectively. Dividends from an affiliate represent cash distributions from our investment in the IHFC. Our investment in IHFC reflects a credit balance and is shown in the liabilities section of our balance sheet as distributions in excess of affiliate earnings. Based on current and expected future earnings of IHFC, we believe that the market value of this investment is positive and substantially greater than its current negative book value. The financial statements of IHFC are included in our Form 10-K.

Net cash used in financing activities was \$5,249, \$9,128 and \$7,741 in fiscal 2006, 2005 and 2004, respectively. Cash dividends to shareholders and a share repurchase plan have been the primary financing uses of cash in each year. During 2005, we amended our bank credit facility to

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

address restrictive covenants and to extend the facility through November 2007. At November 25, 2006, borrowings under this facility totaled \$4,000. The interest rate on this facility was 6.82% at November 25, 2006, based on LIBOR plus 1.5%. We purchased and retired 58,100 shares of Common Stock during 2006. The average cost of the shares purchased in 2006 was \$17.45, resulting in a total expenditure of \$1,014. These purchases were part of our stock repurchase program, approved in 1998, which allows us to repurchase shares for an aggregate purchase price not to exceed \$40,000. We purchased and retired 8,600 shares

of Common Stock during 2005. The average cost of the shares purchased in 2005 was \$18.00, resulting in a total expenditure of \$155. We purchased and retired 44,800 shares of Common Stock for \$772 during 2004. As of November 25, 2006, we have approximately \$8,200 left in our share repurchase program.

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

Our consolidated financial statements are prepared on the basis of historical dollars and are not intended to show the impact of inflation or changing prices. Neither inflation nor changing prices has had a material effect on our consolidated financial position and results of operations in prior years.

We currently anticipate that wholesale capital spending for fiscal 2007 will approximate \$4,000, primarily for machinery and equipment and information technology related to our initiative to develop e-commerce capabilities in 2007 and 2008. Capital spending for retail real estate is expected to be approximately \$4,000 in 2007 largely for store build-outs related to our new prototype. Our capital expenditure and working capital requirements in the foreseeable future may change depending on many factors, including but not limited to our rate of growth, our operating results and any other adjustments in our operating plan needed in response to competition, acquisition opportunities or unexpected events. We believe that our existing cash and investment portfolio, and our borrowing capacity, together with cash provided by operations, will be more than sufficient to meet our capital expenditure and working capital requirements for the foreseeable future.

Contractual Obligations and Commitments

We enter into contractual obligations and commercial commitments in the ordinary course of business (See Note 17 for a further discussion of these obligations). The following table summarizes our contractual payment obligations and other commercial commitments.

	2007	2008	2009	2010	2011	Thereafter	Total
Post employment benefit obligations (1)	\$ 1,697	\$ 1,697	\$ 1,666	\$ 1,644	\$ 1,599	\$ 10,868	\$ 19,171
Real estate notes payable	622	672	729	8,379	5,447	4,295	20,144
Long-term debt		4,000					4,000
Interest payable	1,609	1,537	1,479	854	448	2,538	8,465
Letters of credit	4,136						4,136
Operating leases (2)	12,851	12,342	11,945	11,720	10,821	37,086	96,765
Lease guarantees	8,722	2,501	2,561	2,343	2,048	2,731	20,906
Loan guarantees	6,339	2,955	753				10,047
Purchase obligations (3)							
Total	\$ 35,976	\$ 25,704	\$ 19,133	\$ 24,940	\$ 20,363	\$ 57,518	\$ 183,634

- (1) Does not reflect a reduction for the impact of any company owned life insurance proceeds to be received. See Note 12 to the Consolidated Financial Statements for more information.
- (2) Does not reflect a reduction for the impact of sublease income to be received. See Note 17 to the Consolidated Financial Statements for more information.
- (3) The Company is not a party to any long-term supply contracts with respect to the purchase of raw materials or finished goods. At the end of fiscal year 2006, we had \$20,893 in open purchase orders, primarily for imported inventories, which are in the ordinary course of business.

Off-Balance Sheet Arrangements

We utilize stand-by letters of credit in the procurement of certain goods in the normal course of business. We lease land and buildings that are primarily used in the operation of BFD stores. We have guaranteed certain lease obligations of licensee operators of the BFD stores as part of our retail expansion strategy. We also have guaranteed loans of certain of our BFD dealers to finance initial inventory packages for these stores. See Contractual Obligations and Commitments table above and Note 17 to the Consolidated Financial Statement for further discussion of operating leases, lease guarantees and loan guarantees, including descriptions of the terms of such commitments and methods used to mitigate risks associated with these arrangements.

Management's Discussion and Analysis of Financial Condition and Results of Operations - Continued

Bassett Furniture Industries, Incorporated and Subsidiaries

(dollars in thousands except share and per share data)

Contingencies

We are involved in various claims and litigation as well as environmental matters, which arise in the normal course of business. Although the final outcome of these legal and environmental matters cannot be determined, based on the facts presently known, it is our opinion that the final resolution of these matters will not have a material adverse effect on our financial position or future results of operations.

Market Risk

We are exposed to market risk for changes in market prices of our various types of investments. Our investments include marketable securities and an investment partnership (Alternative Asset Fund). Our marketable securities portfolio, which totaled \$25,862, at November 25, 2006, is diversified among eight different money managers and twenty-five different equity securities. Although there are no maturity dates for our equity investments, we have plans to partially liquidate our current marketable equity securities portfolio on a scheduled basis over the next four to six years. Maturity dates on other investments in the portfolio range from one to six years.

The Bassett Industries Alternative Asset Fund L.P was organized under the Delaware Revised Uniform Limited Partnership Act and commenced operations on July 1, 1998. Private Advisors, L.L.C. is the general partner (the General Partner) of the Alternative Asset Fund. We and the General Partner are currently the only two partners. The objective of the Alternative Asset Fund is to achieve consistent positive returns, while attempting to reduce risk and volatility, by placing its capital with a variety of hedge funds and experienced portfolio managers. Such hedge funds and portfolio managers employ a variety of trading styles or strategies, including, but not limited to, convertible arbitrage, merger or risk arbitrage, distressed debt, long/short equity, multi-strategy and other market-neutral strategies. The General Partner has discretion to make all investment and trading decisions, including the selection of investment managers. The General Partner selects portfolio managers on the basis of various criteria, including, among other things, the manager's investment performance during various time periods and market cycles, the fund's infrastructure, and the manager's reputation, experience, training and investment philosophy. In general, the General Partner requires that each portfolio manager have a substantial personal investment in the investment program. Our investment in the Alternative Asset Fund, which totaled \$52,755 at November 25, 2006, includes investments in various other private limited partnerships, which contain contractual commitments with elements of market risk. These contractual commitments, which include fixed-income securities and derivatives, may involve future settlements, which give rise to both market and credit risk. The investment partnership's exposure to market risk is determined by a number of factors, including the size, composition, and diversification of positions held, volatility of interest rates, market currency rates, and liquidity. Risks to these funds arise from possible adverse changes in the market value of such interests and the potential inability of counterparties to perform under the terms of the contracts. However, the risk to the Alternative Asset Fund is limited to the amount of the Alternative Asset Fund investment in each of the funds.

We account for our investments by marking them to market value each month based on the net asset values provided by the General Partner. The hedge funds and portfolio managers provide the General Partner with estimated net asset values on a monthly basis that represent the amount the partnership would receive if it were to liquidate its investments in the investee funds. The partnership may redeem part of its investments as of the end of each quarter or calendar year, with no less than 45 days prior written notice (See Note 6 of the Consolidated Financial Statements).

(dollars in thousands except share and per share data)

Safe-harbor, forward-looking statements

This discussion contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 with respect to the financial condition, results of operations and business of Bassett Furniture Industries, Incorporated and Subsidiaries. These forward-looking statements involve certain risks and uncertainties. No assurance can be given that any such matters will be realized. Important factors that could cause actual results to differ materially from those contemplated by such forward-looking statements are described in our annual report on Form 10-K for fiscal 2006 and include:

competitive conditions in the home furnishings industry

general economic conditions

overall consumer demand for home furnishings

BFD store openings

BFD store closings and the profitability of BFD stores (independent licensees, Company-owned retail stores and partnership licensees)

ability to implement our Company-owned retail strategies and realize the benefits from such strategies as they are implemented

fluctuations in the cost and availability of raw materials, labor and sourced products (including foam and certain petroleum based products)

results of marketing and advertising campaigns

information and technology advances

ability to execute new global sourcing strategies

performance of our investment portfolio

future tax legislation, or regulatory or judicial positions

ability to efficiently manage the import supply chain to minimize business interruption

effects of profit improvement initiatives in our domestic wood operations

continued profitability of our unconsolidated affiliated companies, particularly IHFC

Bassett Furniture Industries, Incorporated and Subsidiaries

(In thousands, except share and per share data)

1. Description of Business

Bassett Furniture Industries, Incorporated (together with its consolidated subsidiaries, Bassett, we, our, the Company) based in Bassett, Va., is a leading manufacturer, marketer and retailer of branded home furnishings. Bassett's products, designed to provide quality, style and value, are sold through Bassett Furniture Direct® stores, Bassett Design Centers, and other furniture stores. Bassett's full range of furniture products and accessories are sold through an exclusive network of 134 retail stores known as Bassett Furniture Direct (BFD), of which 100 are independently owned (licensee operated), 27 are controlled and consolidated by the Company (Company-owned retail stores) and 7 are operated by joint ventures (partnership licensees), as well as over 800 furniture and department stores located throughout the United States. The Company has three domestic manufacturing facilities and one fiberboard supply plant.

2. Restatements of Previously Reported Results

During 2006, the Staff of the Securities and Exchange Commission commenced a review of our 2005 Annual Report on Form 10-K. The Staff recommended changes to our accounting treatment associated with our acquisitions of three retail licensee operations in fiscal 2005 and our classification of certain notes receivable activity in the statement of cash flows. Upon further review, we concurred with the accounting treatment recommended by the Staff.

In connection with our acquisitions of the three retail licensee operations in 2005, we initially recognized pre-tax charges of \$4,204 to (1) eliminate the gross profit on inventories previously sold to the licensees by Bassett and subsequently acquired in the acquisitions and (2) reduce goodwill associated with the acquisitions to a value we believed was appropriate. Upon further review, we have determined that these charges should not have been recognized in 2005. Accordingly, the inventories should have been stated at their estimated selling prices less cost of disposal as provided in the Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 141, Business Combinations and the full amount of the goodwill should have been recorded on the balance sheet and allocated among the Company's respective reporting units. These changes resulted in increases to pre-tax income in the second and third quarters of 2005 and corresponding increases in previously reported goodwill and inventory amounts. The third quarter of 2005 and all quarters subsequent to the three acquisitions include increases to cost of sales and lower pre-tax income amounts to reflect the additional costs of certain of the acquired inventories that were subsequently sold. These retail inventories consist of a mix of floor samples, store accessories, inventory committed for delivery and other inventories held for resale.

This purchase accounting restatement had the following effects as of the date of the respective acquisitions:

	Increase
	(Decrease)
Asset impairment charges	\$ (4,204)
Income tax expense	1,681
Deferred tax assets	(1,681)
Goodwill	1,837
Inventories (reverse previous write down to Bassett cost)	2,074
Inventories (write-up to fair value)	487
Deferred tax assets (associated with write-up to inventories)	(194)

This purchase accounting restatement resulted in a decrease to net income for fiscal 2006 of \$558 and an increase to net income for fiscal 2005 of \$2,251. Please refer to Note 20 for the effects on the quarterly periods for 2006 and 2005.

As stated above, we also reduced our cash flows from operations by reclassifying net cash inflows of \$828 and \$622 from cash flows from operating activities to cash flows from investing activities for fiscal 2005 and 2004, respectively, related to certain notes receivable due from retail licensees. The effect of this restatement has also been reflected in footnote disclosures regarding goodwill (Notes 3 and 8), earnings per share (Notes 3 and 18), inventories (Note 4), income taxes (Note 10), segment information (Note 19) and quarterly information (Note 20).

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

During our 2006 year end closing process, we also determined that previous actuarial assumptions and calculations associated with the death benefit, mortality and discount rates used in our actuarial valuation for our unfunded Supplemental Retirement Income Plan (the Supplemental Plan) were not correct. As specified by Statement of Financial Accounting Standards No. 154, Accounting Changes and Error Corrections, a replacement of APB Opinion No. 20 and FASB Statement No. 3, we have treated the

F - 20

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

effects of correcting the errors as a prior period adjustment as of November 30, 2003, the first day of the fiscal year ended November 27, 2004, and accordingly have restated our consolidated balance sheet. The cumulative effect of the restatement adjustments increased post employment benefit obligations by \$5,278, increased deferred tax assets by \$2,111 and decreased retained earnings by \$3,167 as of the end of fiscal 2003 and 2004. The cumulative effect of the restatement adjustments as of November 26, 2005, were as follows:

	Increase (Decrease)
Post employment benefit obligations	\$ 5,649
Other accrued liabilities	(231)
Deferred tax assets	2,111
Retained earnings	(3,167)
Other long-term assets	140

As the effects of this adjustment on the net plan expense were not material for the years presented, we have not restated the consolidated statements of income. The effects of these restatements have also been reflected in the income tax note (Note 10). Please refer to Note 12 to the Consolidated Financial Statements for more information on the Supplemental Plan.

The following consolidated balance sheet, statement of income, statement of stockholders' equity and statements of cash flows reconcile the previously reported and restated financial information.

Table of Contents

Notes to Consolidated Financial Statements - Continued

(In thousands, except share and per share data)

3. Significant Accounting Policies

Principles of Consolidation and Fiscal Year

The consolidated financial statements include the accounts of Bassett Furniture Industries, Incorporated and our majority-owned subsidiaries for whom we have operating control. We also consolidate variable interest entities for which we are the primary beneficiary. All significant intercompany balances and transactions are eliminated in consolidation. Our fiscal year ends on the Saturday nearest November 30.

Cash Equivalents

All temporary, highly liquid investments with original maturities of three months or less are considered to be cash equivalents. The carrying amount of these investments approximates fair value.

Accounts Receivable and Notes Receivable

Substantially all of our trade accounts receivable and notes receivable are due from customers located within the United States. We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. The allowance for doubtful accounts is based on a review of specifically identified accounts in addition to an overall aging analysis. Judgments are made with respect to the collectibility of accounts receivable based on historical experience and current economic trends. Actual losses could differ from those estimates. Allowances for doubtful accounts were \$5,746 and \$3,726 at November 25, 2006, and November 26, 2005, respectively. Notes receivable reserves were \$2,855 and \$1,500 at November 25, 2006, and November 26, 2005, respectively. Accounts and notes receivable are generally secured by liens on merchandise sold to licensees.

Concentrations of Credit Risk and Major Customers

Financial instruments that subject us to credit risk consist primarily of investments, accounts and notes receivable and financial guarantees. Investments are managed within established guidelines to mitigate risks. Accounts and notes receivable subject us to credit risk partially due to the concentration of amounts due from customers. In 2006 and 2005, no customer accounted for more than 10% of total net sales or total accounts receivable in the periods presented.

Inventories

Inventories (finished goods, work in process and raw materials) are stated at the lower of cost or market. Cost is determined for domestic manufactured furniture inventories using the last-in, first-out (LIFO) method. The cost of imported inventories is determined on a first-in, first-out (FIFO) basis. Inventories accounted for under the LIFO method represented 29% and 51% of total inventory before reserves at November 25, 2006, and November 26, 2005, respectively. We estimate inventory reserves for excess quantities and obsolete items based on specific identification and historical write-offs, taking into account future demand and market conditions. If actual demand or market conditions in the future are less favorable than those estimated, additional inventory write-downs may be required.

Property and Equipment

Property and equipment is comprised of all land, buildings and leasehold improvements and machinery and equipment used in the manufacturing and warehousing of furniture, our Company-owned retail operations and the administration of the wholesale and Company-owned retail operations. This property and equipment is stated at cost. Depreciation is computed over the estimated useful lives of the respective assets utilizing the straight-line method. Buildings and improvements are generally depreciated over a period of 10 to 39 years. Machinery and equipment are generally depreciated over a period of 5 to 10 years. Leasehold improvements are amortized based on the underlying lease term, or the asset's estimated useful life, whichever is shorter.

Retail Real Estate

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Retail real estate is comprised of owned and leased properties utilized by licensee operated BFD stores. These properties are located in high traffic, upscale locations that are normally occupied by large successful national retailers. This real estate is stated at cost and depreciated over the useful lives of the respective assets utilizing the straight line method. Buildings and improvements are generally depreciated over a period of 10 to 39 years. Leasehold improvements are amortized based on the underlying lease term, or the asset's estimated useful life, whichever is shorter. As of November 25, 2006, and November 26, 2005, the cost of retail real estate included land of \$6,451 and \$6,451, respectively, and building and leasehold improvements of \$32,267 and \$28,642, respectively. As of November 25, 2006, and November 26, 2005, accumulated depreciation of retail real estate was \$5,217 and \$3,453, respectively. Depreciation expense was \$1,764, \$1,200 and \$962 in 2006, 2005 and 2004, respectively.

F - 26

Table of Contents

Notes to Consolidated Financial Statements - Continued

(In thousands, except share and per share data)

Goodwill

As specified in Statement of Financial Accounting Standards (SFAS) No. 141, *Accounting for Business Combinations*, goodwill represents the excess of the purchase price over the value assigned to tangible assets and liabilities and identifiable intangible assets of businesses acquired. SFAS No. 142, *Goodwill and Intangible Assets*, requires that goodwill be reviewed for impairment annually or whenever events or changes in business circumstances indicate that the carrying value of the assets may not be recoverable. Our policy is to perform the annual impairment analysis as of the beginning of our fiscal fourth quarter. SFAS No. 142 also requires that the assets and liabilities acquired and the resulting goodwill be allocated to the entity's respective reporting units. We have identified three reporting units for our business; Wholesale, Retail and Real Estate/Investments.

Impairment of Long Lived Assets

We periodically evaluate whether events or circumstances have occurred that indicate long-lived assets may not be recoverable or that the remaining useful life may warrant revision. When such events or circumstances are present, we assess the recoverability of long-lived assets by determining whether the carrying value will be recovered through the expected undiscounted future cash flows resulting from the use of the asset. In the event the sum of the expected undiscounted future cash flows is less than the carrying value of the asset, an impairment loss equal to the excess of the asset's carrying value over its fair value is recorded. Fair value is determined based on discounted cash flows or appraised values depending on the nature of the assets. The long-term nature of these assets requires the estimation of cash inflows and outflows several years into the future and only takes into consideration technological advances known at the time of the impairment test.

Investments

Our investments consist of a portfolio of marketable securities and the Bassett Industries Alternative Asset Fund (*Alternative Asset Fund*). We classify our marketable securities as available-for-sale, which are reported at fair value. Unrealized holding gains and losses, net of the related income tax effect, on available-for-sale securities are excluded from income and are reported as other comprehensive income in stockholders equity. Realized gains and losses from securities classified as available-for-sale are included in income and are determined using the specific identification method for ascertaining the cost of securities sold. All investments are marked-to-market and recorded at their fair value. Gains and losses on financial instruments that do not qualify as accounting hedges are recorded as other income or expense. Investments in the *Alternative Asset Fund* are valued on the basis of net asset value, with the resultant difference from the prior valuation included in the accompanying statements of income. The net asset value is determined by the investee fund based on its underlying financial instruments as provided by the general partner.

Unconsolidated Affiliated Companies

The equity method of accounting is used for our investments in affiliated companies in which we exercise significant influence but do not maintain operating control. For equity investments that have been reduced to zero through equity method losses, additional equity losses incurred have reduced notes receivable from the investee.

Revenue Recognition

Revenue is recognized when the risks and rewards of ownership and title to the product have transferred to the buyer. This occurs upon the shipment of goods to independent dealers or, in the case of Company-owned retail stores, upon delivery to the customer. We offer terms varying from 30 to 60 days for wholesale customers. Estimates for returns and allowances for advertising and promotional arrangements have been recorded as a reduction to revenue. The contracts with our licensee store owners do not provide for any royalty or license fee to be paid to us.

Income Taxes

Income taxes are accounted for under the asset and liability method in accordance with SFAS 109, *Accounting for Income Taxes*. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

the enactment date. The Company provides valuation allowances against the net deferred tax asset for amounts that are not considered more likely than not to be realized.

Significant judgment is required in evaluating the Company's federal, state and foreign tax positions and in the determination of its tax provision. Despite management's belief that the Company's tax return positions are fully supportable, the Company may establish and has established reserves when it believes that certain tax positions are likely to be challenged and it may not fully prevail in overcoming

F - 27

Table of Contents

Notes to Consolidated Financial Statements - Continued

(In thousands, except share and per share data)

these challenges. The Company may adjust these reserves as relevant circumstances evolve, such as guidance from the relevant tax authority, its tax advisors, or resolution of issues in the courts. The Company's tax expense includes the impact of reserve provisions and changes to reserves that it considers appropriate, as well as related interest.

Earnings per Share

Basic earnings per share is determined by dividing net income by the weighted average number of shares of common stock outstanding. Diluted earnings per share also considers the dilutive effect for stock options and restricted stock.

Shipping and Handling Costs

Costs incurred to deliver retail merchandise to customers are expensed and recorded in selling, general and administrative expense and totaled \$2,775 for 2006, \$2,385 for 2005 and \$1,437 for 2004. Shipping and handling costs associated with wholesale sales to independent licensees and other customers are borne by the purchaser.

Advertising

Costs incurred for producing and distributing advertising and advertising materials are expensed when incurred. Advertising costs, totaled \$11,194, \$9,278 and \$9,881 and are included in selling, general and administrative expenses in 2006, 2005 and 2004, respectively.

Fair Value of Financial Instruments

Our financial instruments include cash and cash equivalents, accounts receivable, notes receivable, investment securities, cost and equity method investments, accounts payable and long-term debt. Because of their short maturity, the carrying amounts of cash and cash equivalents, accounts receivable, and accounts payable approximate fair value. Our cost and equity method investments generally involve entities for which it is not practical to determine fair values. The carrying amounts of notes receivable approximate fair value as the effective rates for these instruments are comparable to market rates at year-end.

Business Insurance Reserves

We have insurance programs in place to cover workers' compensation and health insurance claims. The insurance programs, which are funded through self-insured retention, are subject to various stop-loss limitations and partially re-insured through a captive insurance program. We accrue estimated losses using historical loss experience. Although we believe that the insurance reserves are adequate, the reserve estimates are based on historical experience, which may not be indicative of current and future losses. We adjust insurance reserves, as needed, in the event that future loss experience differs from historical loss patterns.

Variable Interest Entities

In 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46R), which addresses the consolidation of certain business enterprises (variable interest entities or VIEs), to which the usual condition of consolidation, a controlling financial interest, does not apply. FIN 46R requires an entity to assess its equity investments, among other interests, to determine if they are variable interest entities. As defined in FIN 46R, VIEs are contractual, ownership or other interests in entities that change with the changes in the entities' net asset value. Variable interests in an entity may arise from guarantees, leases, borrowings and other arrangements with the VIE. An entity that will absorb a majority of the variable interest entity's expected losses or expected residual returns, as defined in FIN 46R, is considered the primary beneficiary of the VIE. Under FIN 46R, the primary beneficiary must include the VIE's assets, liabilities and results of operations in its consolidated financial statements.

We analyzed our partnership licensee and our independent licensees under the requirements of FIN 46R. All of these licensees operate as Bassett Furniture Direct stores and are furniture retailers. We sell furniture to these licensees, and in some cases have extended credit beyond normal terms, made lease guarantees, guaranteed loans, or loaned directly to the licensees. Consistent with our critical accounting policies, we have recorded reserves for potential exposures related to these licensees. See Note 17 for disclosure of leases, lease guarantees and loan guarantees.

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Based on financial projections and best available information, substantially all licensees have sufficient equity to carry out their principal operating activities without additional subordinated financial support. We completed our assessment for potential VIEs, and concluded that these entities were not required to be consolidated by us. Since adoption of FIN 46R, we have and will continue to reassess the status of potential VIEs including when facts and circumstances surrounding each potential VIE change.

Recent Accounting Pronouncements

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an Interpretation of FASB Statement No. 109 (*FIN 48*). FIN 48 provides a comprehensive model for the recognition, measurement, presentation and disclosure in a company's financial statements of uncertain tax positions taken, or expected to be taken, on a tax return. If an income tax position exceeds a more likely than not (i.e., greater than 50%) probability of success upon tax audit, we recognize an income tax benefit in our financial statements. Additionally, companies are required to accrue interest and related penalties, if applicable, on all tax exposures consistent with the respective jurisdictional tax laws. This interpretation is effective for fiscal years beginning after December 15, 2006, our fiscal year ending November 30, 2008. We are in the process of evaluating this guidance and therefore have not yet determined the impact that FIN 48 will have on our financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (*GAAP*) and expands disclosure about fair value measurements. SFAS No.157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years (our fiscal 2008), with early adoption permitted. We have not yet determined the impact, if any, that the implementation of SFAS No. 157 will have on our results of operations or financial condition.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* an amendment of FASB Statements No. 87, 88, 106, and 132(R) (*SFAS No. 158*). SFAS No.158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity. This part of the statement is effective for years ending after December 15, 2006, our fiscal 2007. This Statement also requires an employer to measure the funded status of a plan as of the date of its year-end statement of financial position. This part of the statement is effective for years ending after December 15, 2008, our fiscal 2009. We have not yet determined the impact that the implementation of SFAS No. 158 will have on our results of operations or financial condition.

In September 2006, the SEC issued Staff Accounting Bulletin No. 108 *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (*SAB No. 108*). SAB No. 108 provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a current year misstatement. The SEC staff believes that registrants should quantify errors using both a balance sheet and an income statement approach and evaluate whether either approach results in quantifying a misstatement that, when all relevant quantitative and qualitative factors are considered, is material. SAB 108 was effective for fiscal years ending on or after November 15, 2006, and had no impact on our consolidated financial statements.

In June 2006, the Emerging Issues Task Force (*EITF*) reached a consensus on EITF Issue No. 06-03 (*EITF 06-03*), *How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)*. EITF 06-03 provides that the presentation of taxes assessed by a governmental authority that is directly imposed on a revenue-producing transaction between a seller and a customer on either a gross basis (included in revenues and costs) or on a net basis (excluded from revenues) is an accounting policy decision that should be disclosed. The provisions of EITF 06-03 become effective for annual periods ending after December 15, 2006, our fiscal 2007. Our adoption of EITF 06-03 is not expected to have a material effect on our consolidated financial position or results of operations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

For comparative purposes, certain amounts in the 2005 and 2004 financial statements have been reclassified to conform to the 2006 presentation.

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

4. Inventories

Inventories consist of the following:

	November 25, 2006	As restated November 26, 2005
Finished goods	\$ 34,159	\$ 35,773
Work in process	987	1,779
Raw materials and supplies	10,111	12,113
Retail merchandise	14,472	15,695
Total inventories on first-in, first-out cost method	59,729	65,360
LIFO adjustment	(10,849)	(14,365)
	\$ 48,880	\$ 50,995

During 2006 and 2005, we liquidated certain LIFO inventories, which decreased cost of sales by approximately \$3,516 and \$2,573, respectively.

5. Property and Equipment

	November 25, 2006	November 26, 2005
Land	\$ 9,195	\$ 9,229
Buildings and leasehold improvements	58,568	60,198
Machinery and equipment	101,337	113,177
	169,100	182,604
Less accumulated depreciation	(110,175)	(117,960)
	\$ 58,925	\$ 64,644

Depreciation expense for property and equipment was \$7,142, \$8,268 and \$9,069 in 2006, 2005 and 2004, respectively. Net book value of property and equipment utilized by Company-owned stores for 2006 and 2005, was \$25,243 and \$26,285, respectively.

During 2004, we received the proceeds from the sale of our California Upholstery facility and recognized a gain of \$3,890.

6. Investments

Our investments consist of a 99.8% interest in the Alternative Asset Fund and a portfolio of marketable securities.

	November 25, 2006	November 26, 2005
Alternative Asset Fund	\$ 52,755	\$ 51,593
Marketable Securities	25,862	25,297
	\$ 78,617	\$ 76,890

The Alternative Asset Fund commenced operations on July 1, 1998. Private Advisors, L.L.C. is the general partner (General Partner) of the Alternative Asset Fund. Bassett and the General Partner are the only two partners. The objective of the Alternative Asset Fund is to achieve consistent positive returns, while attempting to reduce risk and volatility, by placing its capital with a variety of hedge funds and experienced portfolio managers. Such hedge funds and portfolio managers employ a variety of trading styles or strategies, including, but not limited to, convertible arbitrage, merger or risk arbitrage, distressed debt, long/short equity, multi- strategy and other market neutral strategies. The General Partner has discretion to make all investment and trading decisions, including the selection of investment managers. The General Partner selects portfolio managers on the basis of various criteria, including, among other things, the manager's investment performance during various time periods and market cycles, the fund's infrastructure, and the manager's reputation, experience, training and investment philosophy. In general, the General Partner requires that each portfolio manager have a substantial personal investment in the investment program. Our investment in the Alternative Asset Fund, which totaled \$52,755 at November 25, 2006, includes investments in various other private limited partnerships, which contain contractual commitments with elements of market risk.

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

These contractual commitments, which include fixed-income securities and derivatives, may involve future settlements, which give rise to both market and credit risk. The investment partnership's exposure to market risk is determined by a number of factors, including the size, composition, and diversification of positions held, volatility of interest rates, market currency rates, and liquidity. We account for the investments by marking them to market value each month based on the net asset values provided by the General Partner. The hedge funds and portfolio managers provide the General Partner with estimated net asset values on a monthly basis that represents the amount the partnership would receive if it were to liquidate its investments in the investee funds. The partnership may redeem part of its investments as of the end of each quarter or calendar year, with no less than 45 days prior written notice.

The Alternative Asset Fund was comprised of the following investments. All investments are at fair value and all are below five percent of the respective portfolio manager's total fund investment.

	November 25, 2006	November 26, 2005
Styx Partners, L.P.	\$ 22,698	\$ 21,299
HBK Fund, L.P.	13,094	11,543
Contrarian Capital Trade Claims, L.P.	5,640	8,604
Drawbridge Special Opportunities Fund, L.P.	6,099	5,350
DB Zwim Special Opportunities Fund, L.P.	5,031	4,323
Cash and Other	193	474
	\$ 52,755	\$ 51,593

Our earnings from the Alternative Asset Fund were \$5,162, \$5,000 and \$5,142 for 2006, 2005 and 2004, respectively. We received distributions of \$4,000 and \$3,800 from the sales of investments in the Alternative Asset Fund in 2006 and 2004, respectively. In 2005, we received no cash distributions.

Cost and unrealized holding gains of marketable securities are as follows:

	November 25, 2006	November 26, 2005
Fixed income securities	\$ 3,666	\$ 5,658
Equity securities	16,738	15,495
Total cost	20,404	21,153
Unrealized holding gains	5,458	4,144
Fair value	\$ 25,862	\$ 25,297

Investments in marketable securities are held as available for sale. The realized earnings from our marketable securities portfolio was \$2,121 and \$1,743 for 2006 and 2005, respectively. The change in unrealized holding gains of \$1,314, \$(259) and \$449 is recorded in accumulated other comprehensive income, net of taxes of \$(441) for 2006, \$93 for 2005 and \$(162) for 2004.

7. Income from the Continued Dumping and Subsidy Offset Act

In 2000, the United States Congress passed the Continued Dumping and Subsidy Offset Act (CDSOA). This Act requires that the revenues from antidumping and countervailing duties on a given import be distributed on an annual basis to the domestic producers that were either petitioners or interested parties supporting the petition in the case that resulted in the duties being levied on that import. Originally targeting the steel industry, this legislation has also spread to other industries including wooden bedroom furniture beginning January 5, 2005 (produced in China) for which Bassett supported and petitioned. In 2006, we recognized \$1,549 of pre-tax income associated with the CDSOA. Amounts for 2005

were insignificant. Current legislation repeals the Act after September 30, 2007.

8. Goodwill

The Company had \$3,463 and \$4,272 of goodwill as of November 25, 2006, and November 26, 2005, respectively, recorded as part of other long-term assets in the accompanying consolidated balance sheets. We performed our annual review for impairment as of the beginning of our fourth quarter using a discounted cash flow methodology and determined the goodwill associated with our retail reporting unit was impaired and recorded a \$1,359 charge. The overall retail furniture environment and, in particular, the markets in which our Company-owned stores operate, softened during 2006 considerably more than we had anticipated. In addition, our strategy to streamline and standardize operations to reduce overhead and other costs has taken more time than we expected to implement. High gasoline costs, rising interest rates and decreased housing starts contributed to the difficult furniture retail environment. These factors led to increased promotional discounts on our products in an attempt to maintain sales volumes that resulted in a significant increase in

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

the operating losses for our Company-owned stores. We do believe that our operations will improve and that operating losses will be reduced in 2007 with plans to be at a break-even level by 2009. However, because of the magnitude of the losses expected in 2007 and 2008, our discounted cash flow analysis indicates that the retail goodwill is impaired. Our discounted cash flow analysis on the goodwill associated with our wholesale reporting unit indicated that the carrying value was realizable from future cash flows and that the fair value of the reporting unit was in excess of 125% of the book value. The fair value of the wholesale reporting unit would continue to be in excess of 110% of the book value even assuming a 10% decrease in the cash flow assumptions.

The carrying value of our goodwill by reporting unit and the activity for fiscal 2006 and 2005 is as follows:

	Wholesale	Retail	Real Estate/ Investments	Total
Balance as of November 27, 2004	\$ 240	\$ 15	\$	\$ 255
Goodwill from acquisitions	2,851	1,116		3,967
Other activity	36	14		50
Balance as of November 26, 2005 as restated	\$ 3,127	\$ 1,145	\$	\$ 4,272
Goodwill from acquisitions	278	109		387
Other activity	58	105		163
Fourth quarter impairment charge		(1,359)		(1,359)
Balance as of November 25, 2006	\$ 3,463	\$	\$	\$ 3,463

9. Unconsolidated Affiliated Companies**International Home Furnishings Center:**

The International Home Furnishings Center (IHFC) owns and leases showroom space in High Point, North Carolina. Our ownership interest is 46.9% and is accounted for using the equity method. Our investment reflects a credit balance due to our cumulative receipt of dividends exceeding our cumulative portion of IHFC's earnings. The credit balance was \$11,726 and \$11,833 at November 25, 2006, and November 26, 2005, respectively, and is reflected in the liabilities section in the accompanying consolidated balance sheets as distributions in excess of affiliate earnings. This negative book value resulted from IHFC's refinancing of its real estate based on the market value of the property and using the proceeds to pay a special dividend to its owners. Our share of earnings and dividends from this investment were as follows:

	Earnings Recognized	Dividends Received
Fiscal 2006	\$ 6,666	\$ 6,560
Fiscal 2005	6,367	5,623
Fiscal 2004	6,116	5,623

Summarized financial information for IHFC is as follows:

	2006	2005	2004
Current assets	\$ 19,871	\$ 25,015	\$ 32,600
Non-current assets	46,310	46,229	47,279

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Current liabilities	19,494	17,756	18,936
Long-term liabilities	107,996	115,025	124,370
Revenues	46,764	46,411	44,965
Net income	14,229	13,591	13,053

The complete financial statements of IHFC are included in our annual report on Form 10-K. Based on current and expected future earnings of IHFC, we believe that the market value of this investment is positive and substantially greater than its book value of negative \$11,726 at November 25, 2006.

We also lease 61,789 square feet of showroom space from IHFC, 2.0% of the total space available for lease, at what we believe to be competitive market rates.

F - 32

Table of Contents**Notes to Consolidated Financial Statements - Continued**

Partnership licensees:

As part of our retail expansion strategy, we have made equity investments in two licensee operators of our BFD store program. In 2002, we purchased a 30% ownership interest in BFD Northeast, LLC (BFDNE) for \$600. BFDNE is developing BFD retail stores in New England. As of November 25, 2006, BFDNE operates seven BFD stores. Sales to BFDNE were \$9,062, \$11,440 and \$11,581 for 2006, 2005 and 2004, respectively, and we had notes and accounts receivable, net of reserves, of \$3,586 and \$2,037 due from BFDNE at November 25, 2006, and November 26, 2005, respectively. Our share of income (losses) amounted to \$(1,954), \$(166) and (\$178) for 2006, 2005 and 2004, respectively.

In 2004, we had a 30% ownership interest in BFD Atlanta, LLC (BFD-Atlanta). Sales to BFD-Atlanta were \$3,438, and \$4,307 for 2005 and 2004, respectively. Our share of (losses) were \$(656) and (\$895) in 2005 and 2004, respectively. During 2005, we purchased an additional 36% interest in BFD-Atlanta and began consolidating BFD-Atlanta's operating results and financial position into ours. See Note 14 for a further discussion of our purchase of a controlling interest in BFD-Atlanta.

Other affiliates:

We own 49% of Zenith Freight Lines, LLC, (Zenith) which hauls freight for many of our customers. Our investment balance was \$5,264 at November 25, 2006, and \$5,512 at November 26, 2005, and is recorded in other long-term assets. Company-owned retail stores paid Zenith approximately \$3,700, \$2,589 and \$1,749, for freight expense in 2006, 2005 and 2004, respectively. Our share of income (loss) from the investment in Zenith was \$(248), \$500 and \$523 for 2006, 2005 and 2004, respectively.

Summarized combined financial information for 2006 includes Zenith and BFDNE. Summarized combined financial information for 2005 includes Zenith, BFDNE and BFD-Atlanta through the date of our acquisition of a controlling interest in BFD-Atlanta. Summarized combined financial information for 2004 includes Zenith, BFDNE and BFD-Atlanta.

	2006	2005	2004
Current assets	\$ 7,991	\$ 8,242	\$ 10,046
Non-current assets	9,556	9,508	9,633
Current liabilities	11,774	8,666	9,419
Long-term liabilities	2,815	2,679	5,568
Revenues	37,088	44,474	42,130
Net loss	(3,809)	(546)	(1,001)

10. Income Taxes

A reconciliation of the statutory federal income tax rate and the effective income tax rate, as a percentage of income before income taxes, is as follows:

	November 25, 2006	As restated November 26, 2005	November 27, 2004
Statutory federal income tax rate	35.0%	35.0%	35.0%
Dividends received exclusion	(33.2)	(14.2)	(16.7)
Goodwill impairment	7.4		
Change in income tax valuation allowance	6.3	3.8	4.6
Change in income tax reserves	1.1	(2.8)	1.9
State income tax, net of federal benefit	1.4	4.4	3.4
Other	(2.1)	(0.5)	(3.9)
Effective income tax rate	15.9%	25.7%	24.3%

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

The components of the income tax provision (benefit) are as follows:

	November 25, 2006	As restated November 26, 2005	November 27, 2004
Current:			
Federal	\$ 1,608	\$ 2,739	\$ 206
State	855	582	560
Deferred:			
Federal	(1,411)	(137)	1,579
State	(26)	197	296
Total	\$ 1,026	\$ 3,381	\$ 2,641

The income tax effects of temporary differences and carryforwards, which give rise to significant portions of the deferred income tax assets and deferred income tax liabilities, are as follows:

	November 25, 2006	As restated November 26, 2005
Deferred income tax assets:		
Trade accounts receivable	\$ 3,344	\$ 1,531
Inventories	1,466	1,618
Property and equipment writedowns	480	454
Retirement benefits	5,651	5,702
State net operating loss carryforwards	1,499	1,160
Distributions from affiliates in excess of income	10,155	9,726
Alternative minimum tax credit carryforward (no expiration)		782
Other	1,671	2,031
Gross deferred income tax assets	24,266	23,004
State net operating loss carryforward valuation allowance	(1,406)	(1,000)
Total deferred income tax assets	22,860	22,004
Deferred income tax liabilities:		
Property and equipment	3,159	4,701
Undistributed affiliate income	5,535	4,665
Prepaid expenses and other	155	201
Unrealized holding gains	1,965	1,616
Total gross deferred income tax liabilities	10,814	11,183
Net deferred income tax assets	\$ 12,046	\$ 10,821

The valuation allowance for deferred tax assets increased \$406 in 2006 primarily due to a \$607 increase related to losses in certain states generated in the current year for which we believe that it is more likely than not that these tax benefits would not be realized prior to expiration, partially offset by a \$201 decrease related to the utilization of certain state tax loss carryforwards. We have state net operating loss carryforwards for tax purposes available to offset future taxable state income of \$38,886, which expire in varying amounts between 2007 and 2025. Realization is dependent on generating sufficient taxable income prior to expiration of the loss carryforwards. When realization of any of these

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

previously-reserved carryforwards is more likely than not to occur, the benefit would be recognized as a reduction to income tax expense in that period. We consider our historical and anticipated future pre-tax earnings and any current tax planning strategies when assessing the ultimate realization of the carryforwards.

We have \$1,040 and \$971 in income tax reserves as of November 25, 2006, and November 26, 2005, respectively. Despite our belief that our tax return positions are fully supportable, reserves are established in accordance with Statement of Financial Accounting Standards No. 5,

Accounting for Contingencies, where we believe that certain tax positions are likely to be challenged and we may not fully prevail in overcoming these challenges. We may adjust these reserves as relevant circumstances evolve, such as guidance from the relevant tax authority, our tax advisors, or resolution of issues in the courts. Our tax expense includes the impact of reserve

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

positions and changes to reserves that we consider appropriate, as well as related interest. In fiscal 2006, our tax expense was increased \$439 related to certain state tax matters and interest on certain timing differences and was decreased \$370 related to the resolution of certain partnership accounting issues resulting in a net increase to the tax reserves of \$69. In fiscal 2005, our tax expense was increased \$163 related to interest on certain timing differences and was decreased \$528 primarily related to the resolution of certain partnership accounting issues, state tax matters and permanent deductions resulting in net decrease to the tax reserves of \$365. In fiscal 2004, our tax expense was increased \$281 related to the uncertainty of certain permanent deductions and interest on certain timing differences and was decreased \$74 for the resolution of certain state tax matters. Our reserve also decreased by \$1,289 as a result of a settlement payment. We also cannot predict when or if any other future tax payments related to these tax positions may occur. Therefore, all of the reserves for these positions are classified as current liabilities in our balance sheet.

Income taxes paid, net of refunds received, during 2006, 2005 and 2004 were \$3,579, \$1,570 and \$1,700, respectively.

11. Real Estate Notes Payable and Other Long-Term Debt

Certain of our retail real estate properties have been financed through commercial mortgages which are payable over periods of four to twenty years and have interest rates ranging from 6.73% to 9.18%. These mortgages are collateralized by the respective properties with net book values totaling approximately \$26,000 at November 25, 2006. The current portion of these mortgages, \$622 and \$460 as of November 25, 2006, and November 26, 2005, respectively, has been included as a current liability in other accrued liabilities in the accompanying consolidated balance sheets. The long-term portion, \$19,522 and \$15,144 as of November 25, 2006, and November 26, 2005, respectively, is presented as real estate notes payable in the consolidated balance sheets. The fair value of our real estate notes payable is \$21,026. Our weighted average interest rate is 7.94%. Interest paid during 2006 and 2005 was \$1,293 and \$1,384, respectively.

Maturities of real estate notes payable are as follows:

2007	\$ 622
2008	672
2009	729
2010	8,379
2011	5,447
Thereafter	4,295
	\$ 20,144

We amended our existing revolving credit facility in November 2005 by extending the agreement by one year and amending certain covenants. The credit facility provides for borrowings of up to \$40,000 at a variable interest rate of LIBOR plus 1.5% (6.82% on November 25, 2006). The facility is secured by substantially all of our receivables and inventories. Borrowings under the facility, which matures November 30, 2007, totaled \$4,000 and \$3,000 at November 25, 2006, and November 26, 2005, respectively. After coverage for letters of credit, we had \$21,817 available for borrowing under the facility at November 25, 2006. The average interest rate was 6.46% for the year ended November 25, 2006.

This facility contains, among other provisions, certain defined financial requirements including a maximum ratio of debt to equity and a minimum level of tangible net worth. At November 25, 2006, we were not in compliance with our minimum tangible net worth covenant. We received a waiver of this requirement through fiscal 2007. We were in compliance with all other covenants as of November 25, 2006.

Interest paid during 2006, 2005 and 2004 was \$873, \$619 and \$436, respectively.

12. Post Employment Benefit Obligations

We have an unfunded Supplemental Retirement Income Plan (the Supplemental Plan) that covers two current and certain former employees. Upon retirement, the Supplemental Plan provides for lifetime monthly payments in an amount equal to 65% of the participant's final average

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

compensation as defined in the Supplemental Plan, which amount is reduced by certain social security benefits to be received and other benefits provided by us. The Supplemental Plan also provides a death benefit that is divided into (a) prior to retirement death, which pays the beneficiary 50% of final average annual compensation for a period of 120 months, and (b) post-retirement death, which pays the beneficiary 200% of final average compensation in a single payment. We own life insurance

F - 35

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

policies with a current net death benefit totaling approximately \$6,400 on these employees and expect to substantially fund death benefits with the proceeds from the policies. Funding for the remaining cash flows are expected to be provided through operations. There are no benefits payable as a result of a termination of employment for any reason other than death or retirement, other than a change of control provision which provides for the immediate vesting and payment of the retirement benefit under the Supplemental Plan in the event of an employment termination resulting from a change of control.

Summarized information for the plan measured as of the beginning of the respective year is as follows:

	2006	As Restated 2005
Change in Benefit Obligation:		
Projected benefit obligation at beginning of year	\$ 12,036	\$ 12,043
Service cost	89	88
Interest cost	631	661
Actuarial losses	1,101	258
Benefits paid	(1,038)	(1,014)
Projected benefit obligation at end of year	\$ 12,819	\$ 12,036
Unrecognized transition obligation	(511)	(553)
Unrecognized actuarial loss	(1,432)	(331)
Additional minimum liability recorded as intangible asset	511	142
Additional minimum liability recorded in accumulated other comprehensive income	343	
Net amount recorded in post employment benefit obligations (accumulated benefit obligation)	\$ 11,730	\$ 11,294

	2006	2005	2004
Components of Net Periodic Pension Cost:			
Service cost	\$ 89	\$ 88	\$ 80
Interest cost	631	661	699
Amortization of transition obligation	42	42	42
Amortization of unrecognized actuarial loss			
Net periodic pension cost	\$ 762	\$ 791	\$ 821

Assumptions used to determine net periodic pension cost:

Discount rate	5.75%	5.50%	5.50%
Increase in future compensation levels	6.00%	6.00%	6.00%

Estimated Future Benefit Payments:

Fiscal 2007	\$ 1,168
Fiscal 2008	1,154
Fiscal 2009	1,123
Fiscal 2010	1,088
Fiscal 2011	1,050
Fiscal 2012 through 2016	4,584

We have an unfunded Deferred Compensation Plan that covers two current and certain former employees and provides for voluntary deferral of compensation. This plan has been frozen with no additional participants or benefits permitted. We recognized expense of \$454, \$458 and \$466 in fiscal 2006, 2005 and 2004, respectively, associated with the plan. Our liability under this plan was \$3,533 and \$3,563 as of November 25, 2006, and November 26, 2005, respectively, and is reflected in post employment benefit obligations.

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

We have a qualified defined contribution plan (Employee Savings/Retirement Plan) that covers substantially all employees who elect to participate and have fulfilled the necessary service requirements. Prior to October 1, 2006, employee contributions to the Plan were matched by us at the rate of 115% of the first 2% through 5% of the employee's contribution, based on years of service. Beginning October 1, 2006, employee contributions are matched at the rate of 50% of up to 8% of gross pay, regardless of years of service. The Plan incorporates provisions of Section 401(k) of the Internal Revenue Code. Employer matching contributions to the Plan for 2006, 2005 and 2004 were approximately \$875, \$1,059 and \$1,161, respectively.

13. Capital Stock and Stock Compensation

In the first quarter of fiscal 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment, (SFAS No. 123R) which revises SFAS No. 123, Accounting for Stock-Based Compensation and supersedes Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued to Employees for our stock-based employee and director compensation plans. SFAS 123R requires recognition of the cost of employee services received in exchange for an award of equity instruments in the financial statements over the period the employee is required to perform the services in exchange for the award (presumptively the vesting period). Prior to the adoption of SFAS No. 123R, as permitted by SFAS No. 123, the Company accounted for similar transactions in accordance with APB No. 25 which employed the intrinsic value method of measuring compensation cost. Accordingly, no compensation expense was recognized in the statements of income for options granted with exercise prices equal to the fair value of the Company's common stock on the date of grant.

Effective for the first quarter of fiscal 2006, the Company adopted the fair value recognition provisions of SFAS No. 123R, using the modified prospective approach to transition. Accordingly, prior year amounts have not been restated. Under the modified prospective approach, the provisions of SFAS No. 123R are to be applied to new awards granted after November 27, 2005, and the Company is required to recognize compensation expense for stock options granted prior to the adoption of SFAS No. 123R under the fair value method and recognize those amounts over the remaining vesting period of the stock options. The Company's results of operations for the year ending November 25, 2006, include \$151 of compensation expense related to restricted stock and stock options.

We had a Long Term Incentive Stock Option Plan that was adopted in 1993 (the 1993 Plan) and expired in 2003. Under the 1993 Plan, we had reserved for issuance 450,000 shares of common stock. Options outstanding under the 1993 Plan expire at various dates through 2007. Under the Employee Stock Plan adopted in 1997 (the 1997 Plan), we reserved for issuance 950,000 shares of common stock. In addition, the terms of the 1997 Plan allow for the re-issuance of any stock options which have been forfeited before being exercised. An additional 500,000 shares of common stock were authorized for issuance in 2000. Options granted under the 1997 Plan may be for such terms and exercised at such times as determined by the Organization, Compensation, and Nominating Committee of the Board of Directors. Vesting periods typically range from one to three years. We have approximately 144,000 shares available for grant under the 1997 Plan at November 25, 2006.

We had a Stock Plan for Non-Employee Directors, adopted in 1993 and amended in 2000, which expired in 2003. Under this stock option plan, we reserved for issuance 125,000 shares of common stock, including an additional 50,000 shares of common stock that were authorized for issuance in 2001. No shares were available for grant under the plan at November 25, 2006. These options are exercisable for 10 years commencing six months after the date of grant.

During 2005, we adopted a Non-Employee Directors Stock Incentive Plan (the Incentive Plan). The Incentive Plan authorized incentive awards in the form of restricted stock or stock grants. All Directors of the Company who are not full-time employees of the Company are eligible to receive incentive awards under the Incentive Plan. There were 100,000 shares of common stock reserved for grant under the Incentive Plan. Shares available for grant under the Incentive Plan were 89,059 at November 25, 2006.

Table of Contents

Notes to Consolidated Financial Statements - Continued

(In thousands, except share and per share data)

Option activity under the foregoing plans is as follows:

	Number of shares	Weighted average price per share
Outstanding at November 29, 2003	1,390,252	\$ 19.84
Granted	327,500	20.96
Exercised	(159,355)	14.27
Forfeited	(90,366)	21.97
Outstanding at November 27, 2004	1,468,031	20.43
Granted		
Exercised	(62,362)	14.28
Forfeited	(79,259)	23.53
Outstanding at November 26, 2005	1,326,410	20.54
Granted	150,000	16.96
Exercised	(22,500)	15.83
Forfeited	(38,000)	23.67
Outstanding at November 25, 2006	1,415,910	20.15
Exercisable at November 25, 2006	1,262,577	\$ 20.54
Exercisable at November 26, 2005	1,318,744	\$ 20.57
Exercisable at November 27, 2004	1,344,700	\$ 20.93

The fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing model. The risk free rate is based on the U.S. Treasury rate for the expected life at the time of grant, volatility is based on the average long-term implied volatilities of peer companies, the expected life is based on the estimated average of the life of options, and forfeitures are estimated on the date of grant based on certain historical data. The weighted average for key assumptions used in determining the fair value of options granted during 2006 and 2004 are as follows:

	November 25, 2006	November 27, 2004
Expected life of options in years	5	5
Risk-free interest rate	5.1%	3.0%
Expected volatility	30.0%	40.0%
Dividend yield	4.5%	4.0%

As of November 25, 2006, there were 153,333 unvested stock options and \$504 of total unrecognized compensation cost related to nonvested stock options granted under the Plans (150,000 from a grant during the third quarter of 2006 and 3,333 remaining unvested from a grant in the first quarter of 2004). Substantially all of these options vest over four years with 25% vesting on each anniversary date.

For various price ranges, weighted-average characteristics of outstanding stock options at November 25, 2006, were as follows:

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Range of exercise prices	Options Outstanding			Options Exercisable	
	Number outstanding	Weighted average remaining contractual life (years)	Weighted average exercise price	Number exercisable	Weighted average exercise price
\$9.67 - \$16.12	553,138	3.9	\$ 14.85	549,805	\$ 14.84
16.13 - 22.57	530,500	6.8	20.02	380,500	21.22
22.58 - 32.25	332,272	1.3	29.18	332,272	29.18
	1,415,910			1,262,577	

F - 38

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

The weighted average fair value of options granted during 2006 was \$3.71. No options were granted during 2005. The aggregate intrinsic value of options outstanding and exercisable at November 25, 2006, was \$1,407. The aggregate intrinsic value of options exercised during 2006 was \$47.

The following pro forma information is presented as if we had adopted the fair value method for recognition purposes under SFAS No. 123R for all outstanding and unvested awards in the prior year comparable periods.

	As Restated	
	Year Ended November 26, 2005	Year Ended November 27, 2004
Net income:		
As reported	\$ 9,814	\$ 8,209
Less: pro forma expense, net of tax, related to stock options	(49)	(1,275)
 Pro forma net income	 \$ 9,765	 \$ 6,934
 Earnings per share:		
As reported		
Basic	\$ 0.83	\$ 0.70
Diluted	0.82	0.59
Pro forma		
Basic	0.83	0.69
Diluted	0.82	0.58

We implemented an Employee Stock Purchase Plan (ESPP) in the fourth quarter of fiscal year 2000. This plan allows eligible employees to purchase a limited number of shares of our stock at 85% of market value. Under the plan we sold 14,213 and 13,713 shares to employees in 2006 and 2005, respectively, which resulted in an immaterial amount of compensation expense.

During the second quarter of 2006, we issued 7,800 shares of restricted stock under the 1997 Plan. These shares vest over a two year period with half vesting after one year of service and the other half vesting after two years of service. As of November 25, 2006, there was \$66 of total unrecognized compensation expense related to the restricted shares which will be recognized through the first quarter of 2008.

Our Board of Directors adopted a Shareholders Rights Plan in 1998. If a person or group acquires beneficial ownership of 20% or more of the common stock outstanding, each right distributed under the plan will entitle its holder (other than such person or group) to purchase, at the right s exercise price, a certain number of shares of our Common Stock, other securities or property.

14. Restructuring Charges

During fiscal year 2005, we closed our wood manufacturing facility in Mt. Airy, N.C., due to excess domestic capacity as we continued to experience a shift in demand from domestically produced products to imported products. Production of certain products from the Mt. Airy facility was moved to our wood facility in Bassett, Va. During fiscal year 2004, we closed our upholstery manufacturing facility in Hiddenite, N.C., due to excess capacity created by efficiency improvements realized by the Newton, N.C., facility. We also closed our wood manufacturing facility in Macon, Ga. We sold the Hiddenite property in 2005.

The following summarizes the non-cash asset write-downs and cash severance costs associated with the restructurings:

November 26, 2005

November 27, 2004

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Non-cash writedown of property and equipment to net realizable value	\$	920	\$	2,353

Cash payments	(1,475)
Balance at November 27, 2004	440
Restructuring accrual	1,040
Cash payments	(698)
Balance at November 26, 2005	782
Restructuring accrual	
Cash payments	(753)
Balance at November 25, 2006	\$ 29

15. Acquisition of Retail Licensee Stores (Restated)

During the second quarter of 2005, we acquired a 76% ownership interest in our Dallas, Texas BFD store operation (BFD-Dallas). BFD-Dallas consisted of eight BFD stores in the greater Dallas, Texas metropolitan area. We accounted for this transaction using the purchase method of accounting. As such, as of the end of our second quarter, we began consolidating BFD-Dallas results of operations into our consolidated statements of income.

During the third quarter of 2005, we acquired 100% of the assets of our BFD licensee in upstate New York (BFD-UNY) and an additional 36% interest in our BFD licensee in Atlanta, Georgia (BFD-Atlanta) bringing our total ownership interest to 66%. BFD-UNY consists of two BFD stores in Rochester, N.Y., and one store in Buffalo, N.Y. BFD-Atlanta consisted of four BFD stores in the greater Atlanta, Ga., metropolitan area. We accounted for these transactions using the purchase method of accounting. We began consolidating BFD-UNY s results of operations into our consolidated statements of income in August 2005. We began consolidating BFD-Atlanta s results of operations into our consolidated statements of income in September 2005.

The aggregate purchase consideration for these three transactions was \$3,550, which included \$1,050 of cash and \$2,500 of notes receivable converted to equity. The acquisitions included assets of \$16,768 comprised of cash of \$946, inventory of \$8,336, notes receivable of \$4,100, fixed assets of \$2,415 and other assets of \$971. The Company assumed liabilities of \$22,481 comprised of various accounts and notes payable to the Company of \$13,555, other accounts payable of \$6,512 and long-term debt of \$2,414.

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

The following table summarizes the estimated fair market values of the assets acquired and liabilities assumed at the respective dates of acquisition which were consolidated into our financial position:

	As restated
Fair value of assets acquired	\$ 16,768
Fair value of liabilities assumed	22,481
Net liabilities assumed	5,713
Purchase consideration	3,550
Goodwill and other intangibles before adjustments	9,263
Less identifiable intangible assets	(710)
Reversal of specific reserves associated with these licensees	(4,586)
Goodwill	\$ 3,967

Prior to the acquisitions, we had \$8,968 of accounts and notes receivable from the licensees net of bad debt reserves of \$4,586. At the time of the acquisition, those reserves were used to reduce the amount of goodwill associated with the acquisitions. In addition, because of the negative book value of the acquired licensees, the resulting asset associated with minority interest for the Dallas and Atlanta licensees was recorded as an increase to goodwill. The identifiable intangible assets primarily consists of the value of the licensees' customer bases and will be amortized over five years.

The acquisitions discussed above are central to our overall retail strategies and the purchase consideration paid for these transactions was based on both maintaining distribution for our wholesale business and generating a reasonable store level retail return from these operations. Therefore, we have allocated \$1,116 of the goodwill to our retail segment and \$2,851 to our wholesale segment.

The following unaudited pro forma financial information for 2005 and 2004 is presented to illustrate what the estimated effect of the 2005 acquisitions of BFD-Dallas and BFD-Atlanta would have been if the transactions had occurred as of the beginning of each period presented below. The pro forma results do not include the acquisition of BFD-UNY as complete and accurate financial information was not available for those periods. The pro forma information shows sales net of elimination of inter-company sales and profit. The pro forma financial information is not necessarily indicative of the results of operations as they would have been had the transactions been effected on the assumed date nor is it necessarily indicative of future results.

	Unaudited Pro Forma	
	November 26, 2005	November 27, 2004
Net sales	\$ 344,415	\$ 333,511
Net income	\$ 7,282	\$ 5,008
Diluted earnings per share	\$ 0.61	\$ 0.42

During the first quarter of 2006, we purchased the remaining 34% interest in BFD-Atlanta for \$200 and recorded an additional \$137 of goodwill. During the second quarter of 2006, we purchased an additional 15% interest in BFD-Dallas for \$230 and recorded an additional \$222 of goodwill. As of November 25, 2006, we own 100% of BFD-Atlanta and 91% of BFD-Dallas.

Subsequent to year end, we acquired the remaining 9% of BFD-Dallas for \$120.

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

16. Contingencies

We are involved in various claims and actions, including environmental matters, which arise in the normal course of business. Although the final outcome of these matters cannot be determined, based on the facts presently known, it is our opinion that the final resolution of these matters will not have a material adverse effect on our financial position or future results of operations.

17. Leases, Lease Guarantees and Loan Guarantees

We lease land and buildings that are used in the operation of our Company-owned retail stores as well as in the operation of independent and partnership licensee BFD stores. Our decision to exercise renewal options is primarily dependent on the level of business conducted at the location and the profitability thereof. Some store leases contain contingent rental provisions based upon sales volume. Additionally, we lease showroom space from IHFC, which is priced at what we believe to be a market rate. Lease terms range from one to 15 years and generally have renewal options of between five and 15 years. The following schedule shows future minimum lease payments under non-cancelable leases having remaining terms in excess of one year as of November 25, 2006:

2007	\$ 12,851
2008	12,342
2009	11,945
2010	11,720
2011	10,821
Thereafter	37,086
	\$ 96,765

Lease expense was \$11,507, \$7,726, and \$6,042 for 2006, 2005, and 2004, respectively.

In addition to subleasing certain of these properties, we own retail real estate which we in turn lease to licensee operators of BFD stores. The following schedule shows minimum future rental income related to pass-through rental expense on subleased property as well as rental income on real estate owned by Bassett, excluding subleases based on a percentage of sales.

2007	\$ 5,490
2008	5,816
2009	5,962
2010	5,685
2011	4,897
Thereafter	18,217
	\$ 46,067

Real estate expense (including lease costs, depreciation, insurance, and taxes), net of rental income, was \$775 in 2006, \$684 in 2005 and \$1,071 in 2004 and is reflected in other expense, net in the accompanying consolidated statements of income.

As part of the expansion strategy for our BFD program, we have guaranteed certain lease obligations of licensee operators. Lease guarantees range from one to ten years. The guarantee party is generally required to make periodic fee payments to us in exchange for the guarantee. We were contingently liable under licensee lease obligation guarantees in the amount of \$20,566 and \$16,729 at November 25, 2006, and at November 26, 2005, respectively. Currently, we have also guaranteed one warehouse lease obligation for \$340.

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

We have also guaranteed loans of certain of our BFD dealers to finance initial inventory packages for those stores. Loan guarantees have three year terms, are collateralized by the inventory and generally carry a personal guarantee of the independent dealer. The total contingent liability with respect to these loan guarantees as of November 25, 2006, and November 26, 2005, was \$10,047 and \$12,018, respectively.

F - 42

Table of Contents**Notes to Consolidated Financial Statements - Continued**

(In thousands, except share and per share data)

In the event of default by an independent dealer under the guaranteed lease or loan, we believe that the risk of loss is mitigated through a combination of options that include, but are not limited to, arranging for a replacement dealer, liquidating the collateral, and pursuing payment under the personal guarantees of the independent dealer. The proceeds of the above options are estimated to cover the maximum amount of our future payments under the guarantee obligations. The fair value of guarantees at November 25, 2006, and November 26, 2005, were \$410 and \$700, respectively, and are recorded in accrued liabilities in the accompanying consolidated balance sheets.

18. Earnings Per Share

The following table reconciles basic and diluted earnings per share:

	Shares	Net Income	Earnings Per Share
2006			
Basic EPS	11,808,053	\$ 5,429	\$ 0.46
Effect of Options	93,530		
Diluted EPS	11,901,583	\$ 5,429	\$ 0.46
2005 (As restated):			
Basic EPS	11,785,613	\$ 9,814	\$ 0.83
Effect of Options	137,112		(0.01)
Diluted EPS	11,922,725	\$ 9,814	\$ 0.82
2004:			
Basic EPS	11,686,649	\$ 8,209	\$ 0.70
Effect of Options	167,323		(0.01)
Diluted EPS	11,853,972	\$ 8,209	\$ 0.69

Options to purchase 701,272 shares of common stock in 2006, 732,272 shares of common stock in 2005 and 723,929 shares of common stock in 2004 were outstanding at the end of each such fiscal year and were excluded from the computation as their effect is antidilutive.

19. Segment Information

We have strategically aligned our business into three reportable segments: Wholesale, Retail and Investments/Real Estate. The wholesale home furnishings segment is involved principally in the design, manufacture, sourcing, sale and distribution of furniture products to a network of BFD stores (independently-owned stores, Company-owned retail stores and partnership licensees) and independent furniture retailers. Our wholesale segment includes our wood and upholstery operations as well as all corporate selling, general and administrative expenses. During the second quarter of 2006, we sold our contemporary furniture business (Weiman), which was previously included in this segment.

Our retail segment consists of Company-owned BFD stores. Our retail segment includes the revenues, expenses, assets and liabilities (including real estate) and capital expenditures directly related to these stores.

Our investments/real estate segment consists of our investments (Alternative Asset Fund and marketable securities), distributions in excess of affiliate earnings (IHFC) and retail real estate related to licensee BFD stores. Although this segment does not have operating earnings, income from the segment is included in other income in our condensed consolidated statements of income and retained earnings. Our equity investment in IHFC is not included in the identifiable assets of this segment since it has a negative book value and is therefore included in the long-term liabilities section of our condensed consolidated balance sheet. See Note 9 for a further discussion of IHFC.

Edgar Filing: BASSETT FURNITURE INDUSTRIES INC - Form 10-K

Inter-Company net sales elimination represents the elimination of wholesale sales to our Company-owned BFD stores. Inter-Company income elimination represents the embedded wholesale profit in the Company-owned store inventory that has not been realized. These profits will be recorded when merchandise is delivered to the end retail consumer.

20. Quarterly Results of Operations and Restatements (unaudited)

As discussed more fully in Note 2, the Staff of the Securities and Exchange Commission conducted a review of our 2005 Annual Report on Form 10-K. The Staff recommended changes to our accounting treatment associated with our acquisitions of three retail licensee operations in fiscal 2005. Upon further review, we concurred with the accounting treatment recommended by the Staff. The following table provides quarterly information on both a restated basis and as previously reported for fiscal 2006 and 2005.

	2006 Restated			
	First (a)	Second (a)	Third (a)	Fourth (1)
Net sales	\$ 86,489	\$ 87,663	\$ 77,560	\$ 76,502

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting in accordance with Exchange Act Rule 13a-15. With the participation of our Chief Executive Officer and Chief Financial Officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting as of November 25, 2006, based on the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. Our assessment as of November 25, 2006, identified a material weakness in that we lack sufficient management control processes and accounting personnel to ensure that certain non-routine transactions are properly accounted for and disclosed. This control deficiency resulted in the restatements described in Note 2 to our Consolidated Financial Statements relating to certain purchase accounting transactions and the unfunded liability associated with our Supplemental Retirement Income Plan. Additionally, this control deficiency, if not remediated, could result in a material misstatement to annual or interim consolidated financial statements that would not be prevented or detected.

Based on this evaluation and the material weakness noted above, management concluded that our internal control over financial reporting was not effective as of November 25, 2006.

Our assessment of the effectiveness of our internal control over financial reporting as of November 25, 2006, has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report which is included herein.

Bassett Furniture Industries, Inc.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of Bassett Furniture Industries, Incorporated:

We have audited the accompanying consolidated balance sheets of Bassett Furniture Industries, Incorporated and subsidiaries as of November 25, 2006 and November 26, 2005, and the related consolidated statements of income, shareholders' equity, and cash flows for each of the three years in the period ended November 25, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. The financial statements of International Home Furnishings Center, Inc. (a corporation in which the Company has a 47% interest), have been audited by other auditors whose report has been furnished to us, and our opinion on the consolidated financial statements, insofar as it relates to the amounts included for International Home Furnishings Center, Inc., is based solely on the report of the other auditors. In the consolidated financial statements, the Company's investment in International Home Furnishings Center, Inc. is stated at \$(11,726,000) and \$(11,833,000), respectively at November 25, 2006 and November 26, 2005, and the Company's equity in the net income of International Home Furnishings Center, Inc. is stated at \$6,666,000, \$6,367,000, and \$6,116,000 for each of the three years in the period ended November 26, 2006.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the report of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Bassett Furniture Industries, Incorporated and subsidiaries at November 25, 2006 and November 26, 2005, and the consolidated results of their operations and their cash flows for each of the three years in the period ended November 25, 2006, in conformity with U.S. generally accepted accounting principles.

As more fully described in Note 2 to the consolidated financial statements, the accompanying consolidated financial statements as of November 26, 2005 and for each of the two years in the period ended November 26, 2005 have been restated.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Bassett Furniture Industries, Incorporated's internal control over financial reporting as of November 25, 2006, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 7, 2007 expressed an unqualified opinion on management's assessment and an adverse opinion on the effectiveness of the Company's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of Bassett Furniture Industries, Incorporated:

We have audited management's assessment, included in the accompanying Management's Report on Internal Control over Financial Reporting that Bassett Furniture Industries, Incorporated did not maintain effective internal control over financial reporting as of November 25, 2006, because of the effect of the material weakness that management did not have sufficient management control processes and accounting personnel to ensure that certain non-routine transactions are properly accounted for and disclosed, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Bassett Furniture Industries, Incorporated's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. The following material weakness has been identified and included in management's assessment. Management lacks sufficient management control processes and accounting personnel to ensure that certain non-routine transactions are properly accounted for and disclosed. This control deficiency resulted in restatements to the consolidated financial statements related to purchase accounting and accounting for its post-employment benefit plan. Additionally, this control deficiency, if not remediated, could result in a material misstatement to annual or interim consolidated financial statements that would not be prevented or detected.

Table of Contents

This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the 2006 consolidated financial statements, and this report does not affect our report dated February 7, 2007 on those consolidated financial statements.

In our opinion, management's assessment that Bassett Furniture Industries, Incorporated did not maintain effective internal control over financial reporting as of November 25, 2006, is fairly stated, in all material respects, based on the COSO criteria. Also, in our opinion, because of the effect of the material weakness described above on the achievement of the objectives of the control criteria, Bassett Furniture Industries, Incorporated has not maintained effective internal control over financial reporting as of November 25, 2006, based on the COSO criteria.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

International Home Furnishings Center, Inc.

High Point, North Carolina

We have audited the accompanying consolidated balance sheets of International Home Furnishings Center, Inc. and Subsidiaries as of October 31, 2006 and 2005 and the related consolidated statements of income, stockholders' equity (deficit), and cash flows for each of the three years in the period ended October 31, 2006. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of International Home Furnishings Center, Inc. and Subsidiaries at October 31, 2006 and 2005 and the results of their operations and their cash flows for each of the three years in the period ended October 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

October 31, 2006, 2005 and 2004

NOTE A - DESCRIPTION OF BUSINESS

International Home Furnishings Center, Inc. and its wholly-owned subsidiaries, IHFC Holdings, LLC and IHFC Properties, LLC, (collectively, the Company) are the lessors of permanent exhibition space to furniture and accessory manufacturers which are headquartered throughout the United States and in many foreign countries. This exhibition space, located in High Point, North Carolina, is used by the Home Furnishings Industry to showcase its products at the International Home Furnishings Market (the Market) held each April and October. The details of the operating leases with the Company's tenants are described in Note H.

The Company has been in business since June 27, 1919, and operates under the trade name of International Home Furnishings Center.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

The accounting policy relative to the carrying values of property and equipment is indicated in the caption on the consolidated balance sheet. Other significant accounting policies are as follows:

Principles of Consolidation

The consolidated financial statements include the accounts of International Home Furnishings Center, Inc. and its wholly-owned subsidiaries, IHFC Holdings, LLC, organized on October 4, 2005 and IHFC Properties, LLC, a company organized on December 21, 2000. All material intercompany transactions have been eliminated.

Operating Revenues

Rental income consists entirely of rentals from exhibition space which are recognized on the straight-line basis over the lives of the leases.

Other revenues consist principally of advertising revenue generated from the Company's various Market publications and service revenue generated from various services provided to the Company's tenants. Advertising revenue is recognized in the period the related Market publications are published and service revenue is recognized when the related service has been provided.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Table of Contents

INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

October 31, 2006, 2005 and 2004

NOTE B - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Short-Term Investments

Management determines the appropriate classification of securities at the date individual investment securities are acquired, and the appropriateness of such classification is reassessed at each balance sheet date. Since the Company neither buys investment securities in anticipation of short-term fluctuations in market prices nor commits to holding debt securities to their maturities, investments in debt and marketable equity securities have been classified as available-for-sale. Available-for-sale securities are stated at fair value, and unrealized holding gains and losses, net of the related deferred tax effect, are reported as a separate component of accumulated other comprehensive income in stockholders' equity. Premiums and discounts on investments in debt securities are amortized over their contractual lives. Interest on debt securities is recognized in income as accrued, and dividends on marketable equity securities are recognized in income when declared. Realized gains and losses are included in income and are determined on the basis of the specific securities sold.

Property, Equipment and Depreciation

Expenditures for maintenance, repairs, and minor renewals are charged to expense as incurred. Major renewals and betterments are capitalized. Depreciation is provided primarily on the straight-line method over the following estimated useful lives:

Land improvements	10 years
Building structures	20 to 50 years
Building components	5 to 20 years
Furniture and equipment	3 to 10 years

In accordance with the provisions of Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment and Disposal of Long-Lived Assets*, the Company periodically reviews long-lived assets when indications of impairment exist, and if the value of the assets is impaired, an impairment loss would be recognized.

Deferred Financing Costs

Costs associated with obtaining long-term financing have been deferred and are being amortized to interest expense on the interest method over the term of the related debt. Amortization of deferred financing costs during the years ended October 31, 2006, 2005 and 2004 was \$161,734, \$678,967 and \$588,618, respectively.

Reporting Comprehensive Income

Comprehensive income is the total of net income and other comprehensive income. Other comprehensive income represents changes in equity, other than net income, from transactions and other events and circumstances from non-owner sources. Accordingly, comprehensive income includes all changes in equity during a period except those resulting from investments by stockholders and distributions to stockholders.

Table of Contents

INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

October 31, 2006, 2005 and 2004

NOTE B - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derivative Instruments

The Company may hold and issue derivative instruments for the purpose of hedging the risks related to the variability of cash flows caused by changes in interest rates. The Company's objectives are to decrease the volatility of earnings and cash flows associated with changing interest rates by entering into interest rate floor and cap agreements that effectively limit the range of interest rate exposure on its debt (see Note D).

The Company designates its derivatives based upon criteria established by Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*. For a derivative designated as a cash flow hedge, the effective portion of the derivative's gain or loss is initially reported as a component of other comprehensive income net of tax and subsequently reclassified into earnings when the hedged exposure affects earnings. The ineffective portion of the gain or loss is reported in earnings immediately.

Income Taxes

Income taxes are provided for the tax effects of transactions reported in the consolidated financial statements and consist of taxes currently due plus deferred taxes related to temporary differences between the reported amounts of assets and liabilities and their tax bases. The deferred tax assets and liabilities represent the future tax consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Earnings Per Common Share

The Company follows the provisions of Statement of Financial Accounting Standards No. 128, *Earnings Per Share*, which specifies the computation, presentation and disclosure requirements for earnings per share (EPS). Basic EPS excludes all dilution and has been computed using the weighted average number of common shares outstanding during the year. Diluted EPS reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock. The Company has no potential common shares.

Retirement Plans

The Company maintains a 401(k) qualified retirement plan covering eligible employees under which participants may contribute up to 25% of their compensation subject to maximum allowable contributions. The Company is obligated to contribute, on a matching basis, 50% of the first 6% of compensation voluntarily contributed by participants. The Company may also make additional contributions to the plan if it so elects.

Table of Contents

INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

October 31, 2006, 2005 and 2004

NOTE B - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Retirement Plans (Continued)

In 1991, the Company adopted a nonqualified supplemental retirement benefits plan for key management employees. Benefits payable under the plan are based upon 60% of the participant's average compensation during his or her last five years of employment and are reduced by benefits payable under the Company's qualified retirement plan and by one-half of the participant's social security benefits. Benefits under the plan do not vest until the attainment of normal retirement age; however, a reduced benefit is payable if employment terminates prior to normal retirement age because of death or disability.

Fair Value of Financial Instruments

The carrying amounts of the Company's significant financial instruments, none of which are held for trading purposes, approximate fair value at October 31, 2006 and 2005. Cash and cash equivalents, restricted cash, trade receivables, trade payables, accrued property taxes, other accrued expenses, and income taxes payable approximate fair value because of the short maturities of these instruments. Variable rate long-term debt approximates fair value because of its floating interest rate terms. Fixed rate long-term debt approximates fair value because the interest rate approximates current rates available in the market for loans of similar terms and risks.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In September 2006, FASB issued SFAS No. 158 *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* (SFAS No. 158), an amendment of FASB Statements No. 87, 88, 106, and 132 (R). For fiscal years ending after December 15, 2006, SFAS No. 158 requires an employer to recognize the funded status of a benefit plan on its balance sheet and to recognize the gains or losses and prior service costs, not already recognized, as a component of other comprehensive income, net of taxes. SFAS No. 158 also requires that the defined benefit plan assets and obligations be measured as of the date of the employer's fiscal year-end balance sheet effective for fiscal years ending after December 15, 2008. At October 31, 2006, the Company's nonqualified supplemental retirement plan was underfunded by approximately \$2.3 million, of which approximately \$2 million was recorded in other liabilities. Had the Company adopted SFAS No. 158 as of October 31, 2006, approximately \$300,000 would have been recognized as an additional liability. A similar amount is expected for October 31, 2007, which will be recorded as a liability under SFAS No. 158.

Table of Contents**INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2006, 2005 and 2004****NOTE B - SIGNIFICANT ACCOUNTING POLICIES (Continued)**

FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN No. 48) was issued in June 2006 to clarify the accounting for uncertainty in income taxes recognized in the financial statements in accordance with SFAS No. 109 Accounting for Income Taxes. The interpretation defines a criterion that an individual tax position must meet for any part of the benefit of that position to be recognized in the financial statements. It also provides guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The Interpretation is effective for fiscal years beginning after December 15, 2006. The Company has not determined the effect, if any, that the adoption of FIN No. 48 will have on the Company's financial position or results of operation.

NOTE C - SHORT-TERM INVESTMENTS

The Company's short-term investments in available-for-sale securities consist of debt and marketable equity securities. Debt securities consist primarily of variable rate obligations of state and local governments and U. S. corporations with short-term maturities ranging from seven to 39 days. Marketable equity securities consist primarily of investments in mutual funds. Fair market value of short-term investments approximates amortized cost at October 31, 2006 and 2005.

	Amortized Cost	
	2006	2005
Debt securities	\$ 1,041,745	\$ 7,102,731
Equity securities		120,453
	\$ 1,041,745	\$ 7,223,184

NOTE D - LONG-TERM DEBT

Long-term debt consists of the following at October 31, 2006 and 2005:

	2006	2005
IXIS Real Estate Capital, Inc.		
Revolving credit agreement with a maximum availability of \$25,000,000, maturing on November 1, 2010. Interest is payable monthly at the LIBOR rate plus .6% (5.9229% at October 31, 2006).	\$ 6,000,000	\$ 11,000,000

Table of Contents**INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2006, 2005 and 2004****NOTE D - LONG-TERM DEBT (Continued)**

	2006	2005
Term loan payable with interest-only payments due monthly at 4.99%. All principal and unpaid interest is payable in full on November 1, 2010.	\$ 100,000,000	\$ 100,000,000
	106,000,000	111,000,000
Less current maturities		
	\$ 106,000,000	\$ 111,000,000

The loans payable to IXIS Real Estate Capital, Inc. are secured by substantially all the Company's real estate and a security interest in the Company's restricted cash account. The term loan requires that the Company maintain compliance with certain financial ratios. The Company was in compliance with these covenants at October 31, 2006.

During the year ended October 31, 2002, the Company paid \$833,000 to execute an interest rate cap agreement that had a notional amount of \$124,515,718 at October 31, 2004. The notional amount decreased as principal payments were made on the Company's term debt with Bank of America, N.A. such that the notional amount of the interest rate cap agreement remained equal to the then outstanding balance of the Company's term loan with Bank of America, N.A. Under the agreement, the Company received an amount equal to the LIBOR rate in excess of 8%, if any. The Company designated this interest rate cap agreement as a cash flow hedge of interest payments once the LIBOR rate exceeded 8%. Since the LIBOR rate remained below 8% during the years ended October 31, 2005 and 2004, the hedge was not in effect; therefore, the \$82 and \$80,353 decrease in the fair value of the interest rate cap agreement was charged to earnings during the years ended October 31, 2005 and 2004, respectively, as a component of other nonoperating expense. The interest rate cap agreement was terminated in October 2005 in conjunction with the refinancing of the Company's term loan with Bank of America, N.A.

The Company also entered into an interest rate floor agreement during the year ended October 31, 2002. In connection with the execution of the floor agreement, the Company received \$833,000. The notional amount of the floor agreement was \$124,515,718 at October 31, 2004. The notional amount decreased as principal payments were made on the Company's term debt with Bank of America, N.A. Under the agreement, the Company paid an amount equal to the excess of 2.63% over the LIBOR rate, if any. Since the LIBOR rate decreased below the floor of 2.63% during the year ended October 31, 2004, the hedge was in effect; therefore, the change in fair value of the interest rate floor agreement has been recorded in accumulated other comprehensive income, net of tax, for the year ended October 2004. The interest rate floor agreement was terminated in October 2005 in conjunction with the refinancing of the Company's term debt with Bank of America, N.A.

Interest costs for the years ended October 31, 2006, 2005 and 2004 in the amount of \$17,667, \$7,790 and \$22,438, respectively, were capitalized as part of the building construction costs.

F - 67

Table of Contents**INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2006, 2005 and 2004****NOTE F - COMMITMENTS AND CONTINGENCIES****Land Lease**

During 1975, the Company completed construction of an eleven-story exhibition building. The building is constructed on land leased from the City of High Point, North Carolina under a noncancelable lease. The lease is for an initial term of fifty years with three options to renew for periods of ten years each and a final renewal option for nineteen years. Annual rental under the lease is \$163,689 as of October 31, 2006 and is subject to adjustment at the end of each five-year period, such adjustment being computed as defined in the lease agreement. As part of the lease agreement, the Company constructed a theater complex for public use and office space for use by the City of High Point on the lower levels of the building. Annual rental cash payments over the initial fifty-year lease term are being reduced by \$39,121 which represents amortization of the cost of the theater and office complex constructed for the City of High Point. The unamortized cost of the theater and office complex is reported on the consolidated balance sheet as prepaid rent. At the termination of the lease, the building becomes the property of the City of High Point. Under the terms of the lease, the Company is responsible for all expenses applicable to the exhibition portion of the building. The City of High Point is responsible for all expenses applicable to the theater complex and office space constructed for use by the City.

Future minimum lease payments due under the terms of the lease are as follows:

Year Ending October 31,	
2007	\$ 124,568
2008	124,568
2009	124,568
2010	124,568
2011	124,568
Due after five years	1,442,913
	\$ 2,065,753

Other Commitments

At October 31, 2006, the Company has outstanding commitments for building improvements of approximately \$595,000.

The Company has entered into a noncancelable elevator maintenance contract that expires January 31, 2007. The contract requires monthly payments of \$21,000, with a 4% escalation cap over the life of the contract.

Table of Contents**INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2006, 2005 and 2004****NOTE F - COMMITMENTS AND CONTINGENCIES (Continued)****Contingencies**

Financial Accounting Standards Board Statement 143, *Accounting for Conditional Asset Retirement Obligations*, requires that the Company evaluate its assets to determine the existence of future retirement liabilities resulting from statutory or contractual responsibilities. As of October 31, 2006, the company was unable to estimate the range of settlement dates and the related probabilities for certain asbestos remediation asset retirement obligations (AROs). These conditional AROs are primarily related to fireproofing material containing asbestos installed on portions of its skeletal steel in one exhibition building totaling approximately 376,000 square feet. The asbestos is not subject to abatement unless the buildings are either demolished or the company undertakes major renovations. Because these conditional obligations have indeterminate settlement dates, the company could not develop a reasonable estimate of their fair values. The company will continue to assess its ability to estimate fair values at each future reporting date. The liability will be recognized once sufficient additional information becomes available.

NOTE G - RETIREMENT EXPENSE

Amounts expensed under the Company's 401(k) qualified retirement plan amounted to \$189,861, \$185,407, and \$178,247 for the years ended October 31, 2006, 2005 and 2004, respectively.

The following table sets forth the benefit obligation, and the funded status of the Company's nonqualified supplemental retirement plan, amounts recognized in the Company's financial statements; and the principal weighted average assumptions used:

	2006	2005	2004
Reconciliation of benefit obligation			
Obligation at November 1	\$ 4,391,341	\$ 3,307,416	\$ 2,678,850
Service cost	421,073	1,063,490	111,629
Interest cost	138,737	206,495	64,256
Actuarial (gain) loss	(43,841)	(107,184)	531,557
Benefit payments	(2,602,135)	(78,876)	(78,876)
Obligation at October 31	2,305,175	4,391,341	3,307,416
Reconciliation of fair value of plan assets			
Fair value of plan assets at November 1			
Employer contributions	2,602,135	78,876	78,876
Benefit payments	(2,602,135)	(78,876)	(78,876)

Fair value of plan assets at October 31

	2006	2005	2004
Funded status			
Funded status at October 31	\$ (2,305,175)	\$ (4,391,341)	\$ (3,307,416)
Unrecognized transition (asset) obligation	(87,047)	(80,180)	(93,021)
Unrecognized actuarial (gain) loss	533,608	497,552	612,871
Prepaid (accrued) benefit cost	(1,858,614)	(3,973,969)	(2,787,566)
Amounts recognized in the statement of financial position as of October 31			
Prepaid (accrued) benefit cost	(1,858,614)	(3,973,969)	(2,787,566)
Accrued benefit liability	(137,369)	(51,235)	(42,197)
Net amount recognized	(1,995,983)	(4,025,204)	(2,829,763)

The net periodic benefit cost for the plan includes the following components:

Service cost	421,073	1,063,490	111,629
Interest cost	138,737	206,495	64,256
Amortization of net transition obligation	(7,914)	(7,914)	(7,914)
Amortization of unrecognized loss	21,018	12,246	
Net periodic benefit cost	572,914	1,274,317	167,971

The weighted average actuarial assumptions used to determine benefit obligations for the plan are as follows:

Discount rate	6.0%	6.0%	8.0%
Rate of salary increase	5.0	5.0	5.0

During 2005, the Company granted additional retirement benefits to one of its key employees covered under the nonqualified supplemental retirement plan in recognition of years of service provided to the Company beyond normal retirement age as defined in the plan. This change resulted in a significant increase in expense for the year.

The following amounts represent the benefit payments, which reflect expected future service, as appropriate, expected to be paid during the 10 year period ended October 31, 2016:

2007	\$ 78,876
2008	78,876
2009	78,876
2010	78,876
2011	118,458
2012-2016	1,217,174

Because the plan is unfunded, the Company's expected contributions are equal to the benefit payment schedule above.

Table of Contents**INTERNATIONAL HOME FURNISHINGS CENTER, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****October 31, 2006, 2005 and 2004****NOTE H - RENTALS UNDER OPERATING LEASES**

The Company's leasing operations consist principally of leasing exhibition space. Property on operating leases consists of substantially all of the asset buildings, exclusive of theater complex included on the consolidated balance sheets. Leases are typically for five-year periods and contain provisions to escalate rentals based upon either the increase in the consumer price index or increases in ad valorem taxes, utility rates and charges, minimum wage imposed by federal and state governments, maintenance contracts for elevators and air conditioning, maintenance of common areas, social security payments, increases resulting from collective bargaining contracts, if any, and such other similar charges and rates required in operating the Company. Tenants normally renew their leases.

The following is a schedule of minimum future rentals under noncancelable operating leases as of October 31, 2006, exclusive of amounts due under escalation provisions of lease agreements:

Year Ending October 31,	
2007	\$ 33,771,661
2008	30,723,114
2009	25,765,545
2010	14,885,016
2011	3,723,220
Total minimum future rentals	\$ 108,868,556

Rental income includes contingent rentals under escalation provisions of leases of \$1,719,212, \$1,399,479 and \$1,535,633 for the years ended October 31, 2006, 2005 and 2004, respectively.

The Company leases exhibition space to one of the Company's shareholders. Rental income from this related party amounted to \$530,824, \$621,380 and \$644,934 for the years ended October 31, 2006, 2005 and 2004, respectively.

NOTE I - CONCENTRATIONS OF CREDIT RISK

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash deposits in excess of federally insured limits and trade accounts receivable from customers predominantly in the Home Furnishings Industry. As of October 31, 2006, the Company's bank balances exceeded federally insured limits by \$10,534,052. The Company's trade accounts receivable are generally collateralized by merchandise in leased exhibition spaces which is in the Company's possession.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

October 31, 2006, 2005 and 2004

NOTE J - STOCKHOLDERS' DEFICIT

The stockholders' deficit resulted from the payment of dividends substantially in excess of accumulated earnings. The dividends in excess of accumulated earnings were financed, in part, with the proceeds of long-term debt. Although interest on this debt will negatively impact future earnings, management believes, based on projections of future operations and cash flows, that future earnings will provide adequate equity capital for the Company and that operating cash flows will be sufficient to provide for debt service and for the Company's other financing and investing needs.

NOTE K - SUBSEQUENT EVENT

On December 7, 2006, the Board of Directors authorized payment of a cash dividend totaling \$6,000,000 to stockholders of record as of December 7, 2006.
