Item 1.01 Entry into a Material Definitive Agreement.

On June 28, 2007, the Registrant entered into a development and license agreement with Boston Scientific Corporation (BSC) and Boston Scientific Scimed, Inc. (BSS) pursuant to which the Registrant may develop certain products and license to BSC intellectual property to permit BSC to commercialize certain products. The agreement provides for payments by BSC to the Registrant as consideration for the Registrant's performance of its development obligations and also provides for possible royalty payments by each party to the other party if certain elections are made. The Registrant will conduct development activities under the agreement pursuant to a development plan that sets forth a description of items to be provided, including specifications and requirements.

On June 28, 2007, in connection with its development and license agreement with BSC and BSS, the Registrant entered into a common stock purchase agreement with BSS pursuant to which it sold to BSS an aggregate of 368,188 shares of common stock for a total of \$2,499,996.52 in an initial closing. The purchase price of each share of common stock sold in the initial closing, which occurred on June 28, 2007, was \$6.79. Pursuant to the common stock purchase agreement, a second closing for the purchase of additional shares of the Registrant's common stock with an aggregate purchase price of \$2,500,000 will take place within ten business days after the date that certain milestones specified in the development and license agreement are achieved. The purchase price of each share of common stock to be sold in the second closing will be determined at the time of such second closing based on the greater of (a) \$2.53 and (b) the product of (i) the average closing sales price of the Registrant's common stock on the Nasdaq Stock Market for the 60 consecutive trading days prior to the second closing and (ii) 1.25. On June 28, 2007 and in connection with the common stock purchase agreement, the Registrant entered into a registration rights agreement with BSS pursuant to which the Registrant has agreed to file to register for resale the shares of common stock sold in the initial closing within 270 days of such closing. The agreement also obligates the Registrant to file to register for resale any shares of common stock sold in a second closing under the common stock purchase agreement, if such second closing occurs, within 135 days of such closing.

The common stock purchase agreement and registration rights agreement are attached hereto as Exhibits 4.1 and 4.2, respectively, and are incorporated herein by reference. On June 28, 2007, we issued a press release announcing the transactions with BSC and BSS. A copy of the press release is attached as Exhibit 99.1 hereto and is incorporated herein by reference.

Item 3.02. Unregistered Sales of Equity Securities.

The information set forth in Item 1.01 is hereby incorporated by reference into this Item 3.02. The common stock issued pursuant to the common stock purchase agreement was issued in reliance on the exemption from registration contained in Section 4(2) of the Securities Act of 1933, as amended, and/or Regulation D, Rule 506 promulgated under the Securities Act, in that the issuance did not involve a public offering.

Under the common stock purchase agreement, BSS represented that it was an accredited investor as defined in Regulation D and that it was acquiring the common stock for investment only and not with a view to or for sale in connection with any distribution thereof, and appropriate legends

were affixed to the common stock issued in the private placement.
