ChipMOS REPORTS SECOND QUARTER 2008 RESULTS

Hsinchu, Taiwan, August 20, 2008 ChipMOS TECHNOLOGIES (Bermuda) LTD. (ChipMOS or the Company) (NASDAQ: IMOS) today reported unaudited consolidated financial results for the second quarter ended June 30, 2008. All U.S. dollar figures in this release are based on the exchange rate of NT\$30.36 against US\$1.00 as of June 30, 2008.

Net revenue on a US GAAP basis for the second quarter of 2008 was NT\$4,817.1 million or US\$158.7 million, an increase of 0.8% from NT\$4,779.0 million or US\$157.4 million in the first quarter of 2008 and a decrease of 17.4% from NT\$5,833.5 million or US\$192.1 million for the same period in 2007. Under US GAAP, the gross margin for the second quarter of 2008 was 7.2%, compared to 9.1% for the first quarter of 2008 and 27.6% for the same period in 2007.

Net loss on a US GAAP basis for the second quarter of 2008 was NT\$674.5 million or US\$22.2 million, and NT\$8.04 or US\$0.26 per basic common share, compared to net income of NT\$209.0 million or US\$6.9 million, and NT\$2.49 or US\$0.08 per basic common share, for the first quarter of 2008. Net income under US GAAP includes non-cash gains for changes in the fair value of the embedded derivative liabilities of NT\$31.3 million or US\$1.0 million and amortization of discount on convertible notes of NT\$85.5 million or US\$2.8 million for the second quarter of 2008 and non-cash gains for changes in the fair value of the embedded derivative liabilities of NT\$129.6 million or US\$4.3 million and amortization of discount on convertible notes of NT\$86.7 million or US\$2.9 million for the first quarter of 2008. Excluding the above special items regarding non-cash gains for changes in the fair value of the embedded derivative liabilities and the convertible notes, non-GAAP adjusted net loss for the second quarter of 2008 was NT\$620.3 million or US\$20.4 million, and NT\$7.40 or US\$0.24 per basic common share, compared to non-GAAP adjusted net income of NT\$166.1 million or US\$5.5 million, and NT\$1.98 or US\$0.07 per basic common share in the first quarter of 2008.

The unaudited consolidated financial results of ChipMOS for the second quarter ended June 30, 2008 included the financial results of ChipMOS TECHNOLOGIES INC., ChipMOS Japan Inc., ChipMOS U.S.A., Inc., ChipMOS TECHNOLOGIES (H.K.) Limited, MODERN MIND TECHNOLOGY LIMITED and its wholly-owned subsidiary ChipMOS TECHNOLOGIES (Shanghai) LTD., and ThaiLin Semiconductor Corp.

S.J. Cheng, Chairman and Chief Executive Officer of ChipMOS, said, We are pleased to report that our revenue in the second quarter was within our stated guidance. Gross margin in the second quarter of 2008 declined as compared to the first quarter of 2008 primarily due to lower capacity utilization in memory final testing and price erosion of DRAM business. Flash revenues declined 7% quarter over quarter and contributed to around 29% of our total revenue in Q2, down from 32% in the previous quarter. In a more positive light, among our flash sector, Mask ROM revenues were up 10% quarter over quarter and contributed to 7% of flash revenue. Mixed-signal revenues were also up 11% quarter over quarter and contributed to 8% of our total revenue. Revenues from our LCD driver IC increased 3% in the second quarter of 2008 compared to the first quarter of 2008, reflecting a brief recovery in demand from our customers. DRAM revenues remained relatively flat, up 1% in the second quarter of 2008 compared to the previous quarter.

S.K. Chen, Chief Financial Officer of ChipMOS, said, Our CapEx in the second quarter was US\$15.2 million, which was down from US\$26.2 million in the first quarter of 2008. In July, we received the final approval from Shanghai government to cut down our capital investment obligation before end of this year to US\$130 million. We have completed our obligation by investing the remaining US\$7.5 million of investment commitment in early August. Combining our cash position and undrawn credit lines provided by banks, we have more than sufficient financial resources to face the debt due in 2008. There is no urgent need for company to raise additional fund in any form from the market.

Note:

(1) The adjustment of 1Q08 CapEx resulted from the correction of intercompany transfer of fixed assets in 1Q08.

Third Quarter 2008 Outlook

Mr. Cheng continued, The overall DRAM market visibility in following quarters remains limited. We do not anticipate the recovery of our DRAM business due to weaker than expected PC demand. We remain cautious on the LCD market due to weak seasonal demand. However, we still notice better demands from our customers in Q4 as compared to Q3. In addition, gold bumping business will maintain its growth momentum in the second half due to new customer programs. Mask ROM and mixed-signal revenues should continue to grow with the increase in demands from customers. Considering the overall market situation among our product segments, we currently expect that Q3 revenue to be in the range of approximately US\$149 million to US\$159 million, which is down 6% to flat as compared to Q2, and gross margin to be in the range of 2.5% to 5.5%. In the current down cycle, we are strongly confident in our ability to maintain healthy operations and we plan to continue our disciplined capital expenditures and to strictly focus on cost savings and customer expansion.

Use of Non-GAAP Financial Information

To supplement our consolidated income statement (unaudited) for the three months ended Jun. 30, 2008 on a US GAAP basis, the Company uses a non-GAAP measure of net income (loss), which is US GAAP net income (loss) adjusted to exclude two non-cash items referred to as special items. The two non-cash items excluded are changes in the fair value of the embedded derivative liabilities and amortization of discount on convertible notes. These items are considered by the management to be outside of the Company's core operating results. For example, changes in the fair value of the embedded derivative liabilities relate heavily to the Company's stock price, interest rate and volatility, all of which are difficult to predict and outside of the control of the Company and its management.

For these reasons, management uses non-GAAP adjusted measures of net income (loss) and non-GAAP net income (loss) per share to evaluate the performance of our core businesses and to estimate future core performance. In addition, this information facilitates our management's internal comparisons to our historical operating results as well as to the operating results of our competitors.

The Company's management finds these supplemental non-GAAP measures to be useful, and we believe these non-GAAP measures are useful to investors in enabling them to perform additional analyses of past, present and future operating performance and as a supplemental means to evaluate our core operating results. However, readers are reminded that non-GAAP numbers are merely a supplement to, and not a replacement for, US GAAP financial measures. They should be read in conjunction with the US GAAP financial measures. It should be noted as well that our non-GAAP information may be different from the non-GAAP information provided by other companies.

The convenience translation should not be construed as representations that the NT Dollar amounts have been, or could be in the future be, converted into US dollars at this or any other exchange rate.
- (2) The Company's management believes excluding non-cash special item for the changes in the fair value of the embedded derivative liabilities from its non-GAAP financial measure of net income (loss) is useful for itself and investors as such gain (expense) does not have any impact on cash available to the Company.
- (3) The Company's management believes excluding non-cash amortization expense of discount on convertible notes from its non-GAAP financial measure of net income (loss) is useful for itself and investors as such expense does not have any impact on cash available to the Company.
- (4) Non-GAAP diluted net loss per share for the first quarter of 2008 was US\$0.04, same as that under US GAAP since US GAAP adjusted diluted net loss has excluded the two non-cash special items for non-GAAP reconciliation.
