**ChipMOS REPORTS SECOND QUARTER 2009 RESULTS**

**Hsinchu, Taiwan, August 19, 2009** ChipMOS TECHNOLOGIES (Bermuda) LTD. ( ChipMOS or the Company ) (NASDAQ: IMOS) today reported unaudited consolidated financial results for the second quarter ended June 30, 2009. All U.S. dollar figures in this release are based on the exchange rate of NT\$32.77 against US\$1.00 as of June 30, 2009.

Net revenue on a US GAAP basis for the second quarter of 2009 was NT\$2,932.7 million or US\$89.5 million, a decrease of 39.1% from NT\$4,817.1 million or US\$147.0 million for the same period in 2008 and an increase of 28.6% from NT\$2,280.7 million or US\$69.6 million in the first quarter of 2009.

Net loss attributable to ChipMOS on a US GAAP basis for the second quarter of 2009 was NT\$1,208.2 million or US\$36.9 million, and NT\$15.46 or US\$0.47 per basic common share, compared to net loss attributable to ChipMOS of NT\$1,984.0 million or US\$60.5 million, and NT\$23.99 or US\$0.73 per basic common share, for the first quarter of 2009. Net loss attributable to ChipMOS under US GAAP includes amortization of discount on convertible notes of NT\$26.3 million or US\$0.8 million for the second quarter of 2009 and amortization of discount on convertible notes of NT\$26.3 million or US\$0.8 million for the first quarter of 2009. Excluding the above special items regarding the convertible notes, non-GAAP adjusted net loss attributable to ChipMOS for the second quarter of 2009 was NT\$1,181.9 million or US\$36.1 million, and NT\$15.13 or US\$0.46 per basic common share, compared to non-GAAP adjusted net loss attributable to ChipMOS of NT\$1,957.7 million or US\$59.7 million, and NT\$23.67 or US\$0.72 per basic common share in the first quarter of 2009.

The unaudited consolidated financial results of ChipMOS for the second quarter ended June 30, 2009 included the financial results of ChipMOS TECHNOLOGIES INC., ChipMOS Japan Inc., ChipMOS U.S.A., Inc., ChipMOS TECHNOLOGIES (H.K.) Limited, MODERN MIND TECHNOLOGY LIMITED and its wholly-owned subsidiary ChipMOS TECHNOLOGIES (Shanghai) LTD., and ThaiLin Semiconductor Corp.

S.J. Cheng, Chairman and Chief Executive Officer of ChipMOS, said, Despite encouraging results in our LCD drivers and mixed signal products assembly and test business in the quarter, total second quarter revenues remained lower on a year over year basis. This is a direct result of our DRAM business, which still remains far behind what we have seen from other products in the semiconductor industry and well behind historic DRAM volume levels. We do not have any certainty as to when DRAM volumes and pricing will improve but expect to see earlier and more improvement in the niche DRAM category. Overall, our mandate remains clear. We are focused on strengthening the company's financial position and flexibility. We have made considerable progress this year and expect further progress as we move forward. As a result, after two quarters of cash outflows, we achieved US\$5.8 million of positive free cash flow from operations in the second quarter. Our excellent customer service combined with our strict cost controls and our conservative capital expenditure approach is clearly paying off for ChipMOS.

S.K. Chen, Chief Financial Officer of ChipMOS, said, Capital expenditures in the second quarter were US\$8.3 million compared to US\$14.1 million in the year-ago period, and US\$1.5 million in the prior quarter. We reduced our net loss in the second quarter by 39 percent compared to the first quarter. We are encouraged by this trend but fully understand there is much more progress to be made in order to return to the company's prior healthy and strong financial performance. Earlier in the year we secured repayment extensions and modifications that deferred about 77% of the 2009 loan repayment obligation of ChipMOS. We are optimistic we can build on that success by reaching more favorable agreements with other ChipMOS investors, in line with our efforts to improve the company's financial strength.

**Third Quarter 2009 Outlook**

Mr. Cheng continued, Overall, our business situation continues to improve and we continue to manage and adjust inline with the market changes. We entered the second half of 2009 in an improved position. Revenue is stable in our LCD and mixed signal markets. We have lowered our cost base and continue to make progress, including our conservative capital expenditures. Even though we have made progress, there is still much more to be done as we work to ensure ChipMOS' long-term industry leadership.

Considering the overall market situation and customer forecasts, we currently expect a high single digit percentage revenue growth for the third quarter as compared to the second quarter due to the increased utilization rate and higher ASP in the Company's LCD business. Finally, we currently expect gross margin on a consolidated basis for the third quarter of 2009 to be in the range of approximately negative 25% to negative 32% primarily due to the continued impact of the low utilization rate in DRAM final test capacity.

**Investor Conference Call / Webcast Details**

**Use of Non-GAAP Financial Information**

To supplement our consolidated income statement (unaudited) for the three months ended Jun. 30, 2009 on a US GAAP basis, the Company uses a non-GAAP measure of net income (loss) attributable to ChipMOS, which is US GAAP net income (loss) attributable to ChipMOS adjusted to exclude two non-cash items referred to as special items. The two non-cash items excluded are changes in the fair value of the embedded derivative liabilities and amortization of discount on convertible notes. These items are considered by the management to be outside of the Company's core operating results. For example, changes in the fair value of the embedded derivative liabilities relate heavily to the Company's stock price, interest rate and volatility, all of which are difficult to predict and outside of the control of the Company and its management.

For these reasons, management uses non-GAAP adjusted measures of net income (loss) attributable to ChipMOS and non-GAAP earnings (loss) per share attributable to ChipMOS to evaluate the performance of our core businesses and to estimate future core performance. In addition, this information facilitates our management's internal comparisons to our historical operating results as well as to the operating results of our competitors.

The Company's management finds these supplemental non-GAAP measures to be useful, and we believe these non-GAAP measures are useful to investors in enabling them to perform additional analyses of past, present and future operating performance and as a supplemental means to evaluate our core operating results. However, readers are reminded that non-GAAP numbers are merely a supplement to, and not a replacement for, US GAAP financial measures. They should be read in conjunction with the US GAAP financial measures. It should be noted as well that our non-GAAP information may be different from the non-GAAP information provided by other companies.
