This Proxy Statement is being furnished to holders of common stock, par value \$0.001 per share (the **Common Stock**), of Monolithic Power Systems, Inc., a Delaware corporation (the **Company**), in connection with the solicitation of proxies by the Company's Board of Directors (the **Board**) for use at the Annual Meeting of Stockholders (the **Annual Meeting**) to be held on Thursday, June 10, 2010 at 10:00 a.m., Pacific Daylight Time, and at any adjournment or postponement thereof for the purpose of considering and acting upon the matters set forth herein. The Annual Meeting will be held at the Company's corporate headquarters, located at 6409 Guadalupe Mines Road, San Jose, CA 95120. The telephone number at that location is (408) 826-0600.

This Proxy Statement, the accompanying form of proxy card and the Company's Annual Report to Stockholders are first being mailed on or about April 30, 2010 to all stockholders of record at the close of business on April 19, 2010 (the **Record Date**).

Record Date; Outstanding Shares

Only stockholders of record at the close of business on the Record Date are entitled to notice of, and to vote at, the Annual Meeting and any adjournment thereof. Such stockholders are entitled to cast one vote for each share of Common Stock held as of the Record Date on all matters properly submitted for the vote of stockholders at the Annual Meeting. On the Record Date, 36,012,255 shares of Common Stock were issued and outstanding. No shares of the Company's Preferred Stock were issued and outstanding. For information regarding security ownership by management, directors, and beneficial owners of more than 5% of the Common Stock, see the section of this Proxy Statement entitled **Security Ownership of Certain Beneficial Owners and Management**.

Procedure for Submitting Stockholder Proposals

Requirements for stockholder proposals to be considered for inclusion in the Company's proxy materials. Proposals of stockholders of the Company which are to be presented by such stockholders at the Company's 2011 annual meeting of stockholders must meet the stockholder proposal requirements contained in Rule 14a-8 of the Securities Exchange Act of 1934, as amended (the **1934 Act**), and must be received by the Company no later than December 10, 2010 in order that they may be included in the proxy statement and form of proxy relating to that meeting. Such stockholder proposals should be submitted to the Company's principal executive office located at 6409 Guadalupe Mines Road, San Jose, CA 95120, Attention: Corporate Secretary. No such stockholder proposals were received by the Company in respect of the Annual Meeting prior to the deadline for this year's meeting.

Requirements for stockholder proposals to be brought before an annual meeting but not included in the Company's proxy materials. If a stockholder wishes to present a proposal at the Company's 2011 annual meeting, and the proposal is not intended to be included in the Company's proxy statement relating to that meeting, the stockholder must give advance notice to the Company prior to the deadline for such meeting as determined in accordance with the Company's Bylaws (which are attached as Exhibit 3.4 to our Form S-1 Registration Statement filed with the SEC on November 15, 2004). Under the Company's Bylaws, in order to be deemed properly presented, notice of proposed business must be delivered to or mailed and received by the Secretary of the Company at the principal executive offices of the Company not fewer than 90 or more than 120 calendar days before the one year anniversary of the date on which the Company first mailed its proxy statement to stockholders in connection with the previous year's annual meeting of stockholders (the **Notice Period**). As a result, the Notice Period for the Company's 2011 annual meeting will begin on January 1, 2011 and end on January 31, 2011. However, in the event the date of the 2011 annual meeting will be changed by more than 30 days from the date of this year's meeting, notice by the stockholder to be timely must be so received not later than the close of business on the later of: (1) 90 calendar days in advance of the 2011 annual meeting and (2) 10 calendar days following the date on which public announcement of the date of the 2011 annual meeting is first made. A stockholder's notice to the Secretary of the Company shall set forth as to each matter the stockholder

Table of Contents

proposes to bring before the 2011 annual meeting: (a) a brief description of the business desired to be brought before the 2011 annual meeting and the reasons for conducting such business at the 2011 annual meeting, (b) the name and address, as they appear on the Company's books, of the stockholder proposing such business, (c) the class and number of shares of the Company that are beneficially owned by the stockholder, (d) any material interest of the stockholder in such business, and (e) any other information that is required to be provided by the stockholder pursuant to Rule 14a-8 of the 1934 Act, in his or her capacity as a proponent to a stockholder proposal. If a stockholder gives notice of such a proposal after the Notice Period, the stockholder will not be permitted to present the proposal to the stockholders for a vote at the 2011 annual meeting.

Voting

Voting prior to the Annual Meeting. Most stockholders have three options for submitting their votes prior to the Annual Meeting: (1) by following the instructions for Internet voting printed on your proxy card, (2) by using the telephone number printed on your proxy card, or (3) by completing the enclosed proxy card, signing and dating it and mailing it in the enclosed postage-prepaid envelope. If you have Internet access, the Company encourages you to record your vote on the Internet. It is convenient, and it saves the Company significant postage and processing costs. In addition, when voting via the Internet or by telephone prior to the meeting date, your vote is recorded immediately, and there is no risk that postal delays will cause your vote to arrive late, and therefore not be counted. All shares entitled to vote and represented by properly executed proxy cards received prior to the Annual Meeting, and not revoked, will be voted at the Annual Meeting in accordance with the instructions indicated on those proxy cards. If no instructions are indicated on a properly executed proxy card, the shares represented by that proxy card will be voted as recommended by the Board. If any other matters are properly presented for consideration at the Annual Meeting, including, among other things, consideration of a motion to adjourn the Annual Meeting to another time or place (including, without limitation, for the purpose of soliciting additional proxies), the persons named as proxies in the enclosed proxy card and acting thereunder will have discretion to vote on those matters in accordance with their best judgment. The Company does not currently anticipate that any matters other than the proposals described herein will be raised at the Annual Meeting.

Voting by attending the meeting. A stockholder may also vote his or her shares in person at the Annual Meeting. A stockholder planning to attend the Annual Meeting should bring proof of identification for entrance to the Annual Meeting. If a stockholder attends the Annual Meeting, he or she may also submit his or her vote in person, and any previous votes that were submitted by the stockholder, whether by Internet, telephone or mail, will be superseded by the vote that such stockholder casts at the Annual Meeting. If you wish to attend the Annual Meeting in person but you hold your shares through someone else, such as a broker, you must bring proof of your ownership to the Annual Meeting. For example, you could bring an account statement showing that you beneficially owned shares of our Common Stock as of the Record Date as acceptable proof of ownership. You must also contact your broker and follow its instructions in order to vote your shares at the Annual Meeting. You may not vote your shares at the Annual Meeting unless you have first followed the procedures outlined by your broker.

Changing vote; revocability of proxy. Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted at the Annual Meeting. Proxies may be revoked by: (1) filing a written notice of revocation bearing a later date than the previously submitted proxy which is received by the Secretary of the Company at or before the taking of the vote at the Annual Meeting, (2) duly executing a later dated proxy relating to the same shares and delivering it to the Secretary of the Company at or before the taking of the vote at the Annual Meeting or (3) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a previously submitted proxy). Any written notice of revocation or subsequent proxy card must be received by the Secretary of the Company prior to the taking of the vote at the Annual Meeting. Such written notice of revocation or subsequent proxy card should be hand delivered to the Secretary of the Company or should be sent so as to be delivered to Monolithic Power Systems, Inc., 6409 Guadalupe Mines Road, San Jose, CA 95120, Attention: Corporate Secretary prior to the date of the Annual Meeting.

Table of Contents

Expenses of Solicitation

The Company will bear all expenses of this solicitation, including the cost of preparing and mailing this solicitation material. The Company may reimburse brokerage firms, custodians, nominees, fiduciaries and other persons representing beneficial owners of Common Stock for their reasonable expenses in forwarding solicitation material to such beneficial owners. Directors, officers and employees of the Company may also solicit proxies in person or by telephone, letter, e-mail, telegram, facsimile or other means of communication. Such directors, officers and employees will not be additionally compensated, but they may be reimbursed for reasonable out-of-pocket expenses in connection with such solicitation. The Company may engage the services of a professional proxy solicitation firm to aid in the solicitation of proxies from certain brokers, bank nominees and other institutional owners. The Company's costs for such services, if retained, will not be significant.

Quorum; Required Votes; Abstentions; Broker Non-Votes

Holders of a majority of the outstanding shares entitled to vote must be present at the Annual Meeting in order to have the required quorum for the transaction of business. Stockholders are counted as present at the meeting if they: (1) are present in person or (2) have properly submitted a proxy card by mail or voted by telephone or by using the Internet. If the shares present at the Annual Meeting do not constitute the required quorum, the Annual Meeting may be adjourned to a subsequent date for the purpose of obtaining a quorum.

The required votes to approve the proposals to be considered at this Annual Meeting are as follows:

The affirmative vote of a plurality of the votes duly cast is required for the election of directors.

The affirmative vote of a majority of the votes duly cast is required to ratify the appointment of Deloitte & Touche LLP as the independent registered public accounting firm of the Company.

Under the General Corporation Law of the State of Delaware, both abstaining votes and broker non-votes are counted as present and entitled to vote and are, therefore, included for purposes of determining whether a quorum is present at the Annual Meeting. An abstaining vote is not counted as a vote cast for the election of directors, but is counted as a vote cast against proposals requiring approval by a majority of the votes cast, such as the ratification of our independent registered public accounting firm. A broker non-vote is not counted as a vote cast for the election of directors or proposals requiring approval by a majority of the votes cast and, therefore, does not have the effect of a vote against such proposals. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

PROPOSAL ONE

Dr. Zhou is a senior business executive with over 20 years of industry experience at large, multi-national corporations with global footprints. Dr. Zhou has an extensive background in the global manufacturing and electronics industry. This experience allows him to contribute his valuable executive leadership talent and understanding of international business to Board deliberations. Dr. Zhou's recent appointment to the Board also allows him to bring a new perspective, new ideas and new outlooks to the Board. Based on the Board's identification of these qualifications, skills and experiences, the Board has concluded that Dr. Zhou should serve as a director of the Company.

Board Leadership Structure

The Company has eight Board members, six of which the Board has determined are independent and two of which are insiders. The Board has designated one of the independent directors, Mr. Chang, as the Lead Director because our President and Chief Executive Officer, Mr. Hsing, also serves as the Chairman of the Board. We believe that the number of independent, experienced directors that make up our Board, along with the independent oversight of our Lead Director, benefits the Company and our stockholders by providing a

Table of Contents

counterbalance to the management perspective provided by Mr. Hsing and Mr. Moyer during Board deliberations.

We recognize that different board leadership structures may be appropriate for different companies. We believe that our current Board leadership structure is optimal for us. Our leadership structure demonstrates to our employees, suppliers, customers and other stakeholders that we are governed by strong, balanced leadership, with a single person setting the tone for the Board and management and having primary responsibility for managing our day-to-day operations. This message is increasingly important as we continue to seek to achieve business success through new product releases and gaining market share in our industry. At the same time, our leadership structure sends the message that we also value strong, independent oversight of our management operations and decisions in the form of our Lead Director. Further, having a single leader for both the Company and the Board eliminates the potential for strategic misalignment or duplication of efforts, and provides clear leadership for the Company.

As discussed above the positions of Chairman of the Board and President and Chief Executive Officer are held by the same person and the Board has appointed a Lead Director, Mr. Herbert Chang. Mr. Chang's roles and responsibilities as the Lead Director include:

1. Reviewing meeting agendas, schedules, and information sent to the Board;
2. Retaining independent advisors on behalf of the Board, or committees, as the Board may determine is necessary or appropriate;
3. Ensuring personal availability for consultation and communication with independent directors and with the Chairman of the Board, as appropriate;
4. Performing such other functions as the independent directors may designate from time to time.
5. Presiding at all meetings of the Board at which the Chairman is not present, including executive sessions of the independent directors;
6. Serving as liaison between the Chairman and independent directors;
7. Calling meetings of independent directors; and
8. Ensuring that the Board is at least two-thirds independent and that key committees are independent.

Our independent directors meet in executive session during a portion of every regularly scheduled Board meeting, and otherwise as needed. Our Lead Director presides over meetings of our independent directors and we believe that these meetings help to ensure an appropriate level of independent scrutiny of the functioning of our Board.

Board Oversight of Risk

The Board is primarily responsible for the oversight of risks that could affect the Company. The Company's senior management team, which conducts the Company's day-to-day risk management, is responsible for assisting the Board with its risk oversight function. This oversight is conducted principally through committees of the Board, as disclosed in the descriptions of each of the committees below and in the charters of each of the committees, but the full Board has retained responsibility for general oversight of risk. The Board satisfies its responsibility by requiring each committee chair to regularly submit reports regarding the committee's considerations and actions, as well as by requiring officers responsible for oversight of particular risks within the Company to submit regular reports. As these reports are submitted independent of review by Mr. Hsing, our President and Chief Executive Officer and the Chairman of our Board, the Board believes that its conduct of its risk oversight function has no impact on the Board's leadership structure other than to reinforce the involvement of the Board in ongoing management of the

Company.

In addition to requiring regular reporting from committees and officers, the Board also hears from third-party advisors in order to maintain oversight of risks that could affect the Company, including the Company's

Table of Contents

independent auditors, outside counsel, compensation consultants and others. These advisors are consulted on a periodic basis and as particular issues arise in order to provide the Board with the benefit of independent expert advice and insights on specific risk-related matters.

At its regularly scheduled meetings, the Board also receives management updates on the business, including operational issues, financial results and business outlook and strategy.

Our Audit Committee also assists the full Board in its oversight of risk by discussing with management the Company's compliance with legal and regulatory requirements, the Company's policies with respect to risk assessment and management of risks that may affect the Company, and the Company's system of disclosure control and system of controls over financial reporting.

We believe the division of risk management responsibilities described above is an effective approach for addressing the risks facing our Company and that our Board leadership structure supports this approach.

Board Meetings and Committees

The Board held a total of six (6) meetings during 2009. During 2009, except for Mr. Moyer, each director attended at least 75% of the meetings of the Board and the committees upon which such director served.

Audit Committee. The Board has a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the 1934 Act, which currently consists of three members: Victor K. Lee, Douglas McBurnie and Umesh Padval. Mr. Lee is the chairman of the Audit Committee. This committee oversees the Company's financial reporting process and procedures, is responsible for the appointment and terms of engagement of the Company's independent registered public accounting firm, reviews and approves the Company's financial statements, and coordinates and approves the activities of the Company's independent registered public accounting firm. The Board has determined that Mr. Lee is an audit committee financial expert, as defined under the rules of the Securities and Exchange Commission (SEC), and all members of the Audit Committee are independent in accordance with the applicable SEC regulations and the applicable listing standards of NASDAQ. The Audit Committee held five (5) meetings during 2009. Compensation Committee. The Board has designated a Compensation Committee consisting of four members: Karen A. Smith Bogart, Herbert Chang, Umesh Padval, and Jeff Zhou. Mr. Padval is the chairman of the Compensation Committee. This committee is responsible for providing oversight of the Company's compensation policies, plans and benefits programs and assisting the Board in discharging its responsibilities relating to (a) oversight of the compensation of the Company's Chief Executive Officer and other executive officers, and (b) approving and evaluating the executive officer compensation plans, policies and programs of the Company. The committee also assists the Board in administering the Company's 2004 Equity Incentive Plan and 2004 Employee Stock Purchase Plan. The committee may delegate authority to subcommittees when appropriate. All members of the Compensation Committee are independent in accordance with the applicable listing standards of NASDAQ. The Compensation Committee held eight (8) meetings during 2009. Board members, recommending candidates for election to the Board, developing overall governance guidelines and overseeing the overall performance of the Board. All members of the Nominating and Corporate Governance Committee are independent in accordance with the applicable listing standards of NASDAQ. The Nominating and Corporate Governance Committee held three (3) meetings in 2009. The Nominating and Corporate Governance Committee acts pursuant to a written charter adopted by the Board on April 19, 2010, which is available in the Investor Relations section of our website at <http://www.monolithicpower.com> and is also attached to this Proxy Statement as Appendix C.

Nomination Process

The Board has adopted guidelines for the identification, evaluation and nomination of candidates for director. The Nominating and Corporate Governance Committee considers the suitability of each candidate, including any candidates recommended by stockholders holding at least 5% of the outstanding shares of the Company's voting securities continuously for at least 12 months prior to the date of the submission of the recommendation for nomination. If the Nominating and Corporate Governance Committee wishes to identify new independent director candidates for Board membership, it is authorized to retain and approve fees of third party executive search firms to help identify prospective director nominees. Our policy on board diversity relates to the selection of nominees for the Board. Our policy provides that while creating a Board with a variety of experiences and viewpoints should always be considered by the Nominating and Corporate Governance Committee when considering director nominees, a director nominee should neither be chosen nor excluded because of race, color, gender, national origin or sexual orientation or identity. Instead, in selecting a director nominee, the Nominating and Corporate Governance Committee focuses on skills, expertise or background that would complement the existing Board, recognizing that the Company's businesses and operations are diverse and global in nature. While there are no specific minimum qualifications for director nominees, the ideal candidate should (a) exhibit independence, integrity, and qualifications that will increase overall Board effectiveness, and (b) meet other requirements as may be required by applicable rules, such as financial literacy or expertise for audit committee members. The Nominating and Corporate Governance Committee uses the same process for evaluating all nominees, regardless of the original source of the nomination. After completing its review and evaluation of director candidates, the Nominating and Corporate Governance Committee recommends to the Board the director nominees for selection.

A stockholder that desires to recommend a candidate for election to the Board should direct such recommendation in writing to Monolithic Power Systems, Inc., 6409 Guadalupe Mines Road, San Jose, CA 95120, Attention: Corporate Secretary, and must include the candidate's name, home and business contact information, detailed biographical data and qualifications, information regarding any relationships between the candidate and the Company within the last three years and evidence of the nominating person's ownership of Company stock. Such stockholder nomination must be made pursuant to the notice provisions set forth in the Company's Bylaws and for each proposed nominee who is not an incumbent director, the stockholder's notice must set forth all of the information regarding such proposed nominee set forth in the Company's Bylaws.

Stockholder Communications

The Board has approved a Stockholder Communication Policy to provide a process by which stockholders may communicate directly with the Board or one or more of its members. You may contact any of our directors by writing to them, whether by mail or express mail, c/o Monolithic Power Systems, Inc., 6409 Guadalupe Mines Road, San Jose, CA 95120, Attention: Corporate Secretary. Any stockholder communications that the Board is to receive will first go to the Corporate Secretary, who will log the date of receipt of the communication as well as the identity of the correspondent in the Company's stockholder communications log. The Corporate Secretary will review, summarize and, if appropriate, draft a response to the communication in a timely manner. The Corporate Secretary will then forward copies of the stockholder communication to the Board member(s) (or specific Board member(s) if the communication is so addressed) for review, provided that such correspondence

concerns the functions of the Board or its committees or otherwise requires the attention of the Board or its members.

Table of Contents**Attendance at Annual Meetings of Stockholders by the Board of Directors**

We do not have a formal policy regarding attendance by members of the Board at our annual meetings of stockholders. One of our directors attended our 2009 Annual Meeting.

Code of Ethics and Business Conduct

The Company has adopted a Code of Ethics and Business Conduct, which is applicable to our directors and employees, including our principal executive officer, principal financial officer, principal accounting officer or controller or persons performing similar functions. The Code of Ethics and Business Conduct is available in the Investor Relations section of our website at <http://www.monolithicpower.com>. The Company will disclose on its website any amendment to the Code of Ethics and Business Conduct, as well as any waivers of the Code of Ethics and Business Conduct, that are required to be disclosed by the rules of the SEC or NASDAQ.

Director Compensation

The Company's compensation plan for its non-employee directors was developed by First Niagara, an independent consulting company hired by the Board, based on a review of the market data of our competitors and to reflect the time commitments our non-employee directors are asked to make to the Company. The non-employee director compensation plan provides a common base fee for each non-employee director, as well as additional fees for service on the various Board committees and supplemental fees for the role of committee chairman, as follows (all fees below per annum):

Base Fee	\$ 30,000
Nominating and Corporate Governance Committee Chairman	\$ 6,000
Nominating and Corporate Governance Committee Member	\$ 3,000
Audit Committee Chairman	\$ 15,000
Audit Committee Member	\$ 7,500
Compensation Committee Chairman	\$ 8,000
Compensation Committee Member	\$ 4,000

Each year, on the date of the first meeting of the Board or Compensation Committee, as applicable, the Company grants each non-employee director who has been on the Board for at least six months an option to purchase 25,000 shares of Common Stock. This grant is effective as of the first day that the Company's trading window re-opens (or as of the date of the meeting of the Board or Compensation Committee, as applicable, if the Company's trading window is open on such date) and the option fully vests on the first anniversary of the date of grant and is otherwise governed by the terms of our 2004 Equity Incentive Plan. Additionally, the Company grants each new non-employee director an option to purchase 40,000 shares of Common Stock when joining the Board, which option vests over two years and is otherwise governed by the terms of the 2004 Equity Incentive Plan. The size and vesting schedule of the equity awards were selected following the review of competitive market data described above.

Throughout the year, director participation on the Board committees may have changed, so their actual payment may not reflect their current responsibilities. The following table sets forth the total compensation paid by the Company to each non-employee director in fiscal 2009. Mr. Hsing and Mr. Moyer, who are our employees, did not receive additional compensation for their services as directors. However, they had a role in setting director compensation for our non-employee directors.

Representatives of Deloitte & Touche are expected to be present at the Annual Meeting with the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions. EXECUTIVE OFFICER COMPENSATION

Compensation Discussion and Analysis

Overview

The primary goal of our named executive officer compensation program is the same as our goal for operating the Company to create long-term value for our stockholders. Toward this goal, we have designed and implemented our compensation programs for our named executives to motivate and reward them for sustained financial and operating performance and leadership excellence, to align their interests with those of our stockholders and to encourage them to remain with the company for long and productive careers. Most of our compensation elements simultaneously fulfill one or more of our performance, alignment and retention objectives. These elements consist of salary, long-term equity and short-term non-equity incentive compensation. In deciding on the type and amount of compensation for each executive, we focus on both current pay and the opportunity for future compensation. We feel that maintaining a balance of short-term and long-term compensation elements encourages decision making that optimizes short-term results and at the same time, is in keeping with the long-term goals of the Company. We combine the compensation elements for each executive in a manner we believe optimizes the executive's contribution to the Company.

Determining Compensation

In 2009, First Niagara was retained by the Compensation Committee to conduct an independent review of the Company's executive compensation program, focusing on:

The external reasonableness of the Company's executive compensation program, which program includes such components as base compensation and non-equity and equity incentive awards, compared to the executive compensation programs of other publicly-traded technology companies of similar size and market value; and

The program's effectiveness in supporting the Company's ongoing business strategy.

Other than its independent review of the Company's non-employee director and executive compensation programs, First Niagara did not perform any other work for the Company.

In 2009, the Company's compensation programs were compared to 14 publicly-traded semiconductor companies, each with market capitalization of between \$480.0 million and \$2.0 billion. The Company's market capitalization was in the mid-range of the group, making this group ideal for direct compensation comparisons. The peer group was developed by First Niagara with the assistance from management and the Compensation Committee, and consists of: Atheros Communications, Cavium Networks, Inc., Fairchild Semiconductor, Integrated Device Technologies, International Rectifier, Intersil Corporation, Microsemi Corporation, Netlogic Microsystems Inc., Power Integrations Inc., RF Micro Devices, Inc., Rambus Inc., Semtech Corporation, Standard Microsystems and Volterra Semiconductor.

In its review of the Company's executive compensation program, First Niagara considered all elements of total direct compensation for all of the Company's executive officers. First Niagara's review included an analysis of cash compensation, including base compensation and non-equity incentive plan awards, and equity incentives for both individual officers and the Company in total. For equity grants, consideration was given to the value, timing and performance-based features of the equity awards granted to our executives and the total potential dilution from equity compensation programs. The details regarding the results of the review are as follows:

The base compensation of the Company's executive officers was compared to the median and 75th percentile of the surveyed companies, with there being a modest lag to the median in the base compensation for certain of our named executives. For the remaining executive officers, their current base compensation is at or slightly above the median and below the 75th percentile. The relationship to

Table of Contents

the median in the base compensation for these executive officers reflects the broader responsibilities and higher value of these positions at MPS.

The non-equity incentive award opportunities for MPS executive officers were compared to bonus opportunities at the surveyed companies. Based on the results, First Niagara did not recommend any revision to the target incentive opportunities. According to the report by First Niagara, the performance criteria in the plan and the weighing between individual and company performance reflects best practices for achieving a desirable balance across company, team and individual performance. The plan document appropriately includes the ability for the Compensation Committee to use discretion in operating the plan as well as incorporates the use of discretion by the Chief Executive Officer to adjust awards to recognize high performance that are not included in the planned performance metrics.

The equity incentive awards for MPS executive officers were compared to those granted at the surveyed companies. According to the report by First Niagara, MPS equity usage reflects practices typical to a growing, performance-based organization that is strongly tied to the interests of shareholders. A considerable amount of each executive's compensation opportunity is tied to stock price improvement. MPS also began using performance criteria for vesting certain awards, which also maintains a shareholder-focused award program.

Based on the analysis described above, First Niagara concluded that the compensation for our named executive officers generally reflects the competitive market, taking into account the intended compensation philosophy of the Company, which is to provide executive compensation that is performance based and in alignment with shareholders' interests, and that assists with employee retention.

The Role of the Compensation Committee and CEO

The Compensation Committee has primary responsibility for overseeing the design, development and implementation of the compensation program for the CEO and the other named executive officers. The Compensation Committee Charter, which is available in the Investor Relations section of our website at <http://www.monolithicpower.com>, was originally adopted on October 26, 2007, and is updated periodically. The Compensation Committee meets on no less than a quarterly basis (in 2009 it met eight times) and has the authority to delegate any of its responsibilities to subcommittees as appropriate.

The Compensation Committee independently evaluates the performance of the CEO and determines CEO compensation in light of the goals and objectives of the compensation program. The CEO and the Compensation Committee together assess the performance of the other named executive officers and determine their compensation, based on initial recommendations from the CEO. The other named executive officers do not play a role in their own compensation determinations, other than calculating achievement compared to discrete financial objectives, discussing individual performance objectives with the CEO and assisting with the compilation of external benchmark data for the Compensation Committee to review. The Company's CEO regularly attends the meetings of the Compensation Committee. In 2009, the Company's CEO attended all of the meetings of the Compensation Committee. The Compensation Committee does, however, regularly meet in closed session without the CEO or other management personnel present.

Base Compensation

The current base compensation for our named executives is as follows:

Named Executive Officer	Base Salary
Michael Hsing	\$ 400,000
Deming Xiao	\$ 320,000
Maurice Sciammas	\$ 300,000
Paul Ueunten	\$ 280,000
C. Richard Neely, Jr.	\$ 280,000

Table of Contents

There have been no increases in the base compensation of our named executive officers in 2009, other than what was disclosed in the Company's last definitive proxy statement and Mr. Xiao, whose base compensation increased from \$300,000 in 2009, as described below.

In February 2010, the Compensation Committee, having reviewed the study by First Niagara and taking into account the roles and responsibilities of our named executive officers, increased Mr. Xiao's annual salary from \$300,000 to \$320,000. The Compensation Committee determined to make this annual salary adjustment because Mr. Xiao's job responsibilities increased significantly since assuming his role as President of MPS Asia in 2008. Mr. Xiao is now managing manufacturing and research and development teams both in the United States and in China.

The increase in the base compensation of our executive officers in 2008 and 2009 generally brought their cash compensation up to the median levels of the peer group. The Compensation Committee feels that these are appropriate levels of base compensation for the named executive officers because it results in their salaries being more competitive and consistent with the salaries offered at the peer group companies.

Long-term Equity Incentive Compensation

Long-term equity awards are designed to reward and help us retain our valued executives, to help us effectively compete for executives that can strategically position the Company for future growth and financial success, and to encourage our executives to focus on achieving both short-term goals as well as long-term development goals for the future.

Stock option awards are granted to encourage long-term retention and performance and remain a popular means of compensation for the following reasons: (1) goal-setting is not required; (2) the related compensation is essentially tax-deferred; and (3) employees generally receive more shares than if restricted shares were used, which increases the employees upside potential if the stock price increases. Performance units are generally granted in lower quantities and are used to reward individual outstanding performance. There are several types of performance units:

those that convey immediate value on vesting, and as such, the executive is assured some amount of value as long as he/she remains employed through the vesting period. Vesting periods may vary, at the discretion of the Compensation Committee; and

those that are time-based but have an acceleration component that is performance-based. The performance-based objectives include, but are not limited to, meeting non-GAAP earnings per share targets and completing certain management objectives.

Generally, options and performance units granted to our named executive officers vest over a period of four years as determined by the Compensation Committee. The Compensation Committee believes that this vesting schedule for our named executive officers is appropriate because such vesting period provides a proper incentive to the named executive officers while still retaining the long-term retention goals of such awards.

In granting options and performance units to our named executive officers under the Company's 2004 Equity Incentive Plan, the Compensation Committee bases the size of the awards on such considerations as the value of options and restricted stock awarded to individuals in comparable positions at peer group companies, the Company's and individual's performance against the Company's goals and the goals set for such individual, the number of options and performance units currently held by the executive officer and the overall percentage of shares held by executive officers. In 2009, we did not grant any equity awards to purchase our common stock to our incumbent officers.

The Company granted performance units to all of its named executive officers in February 2008. With the exception of the award to Mr. Xiao, those awards had an acceleration feature that was based on the Company's

Table of Contents

percentage growth in revenue relative to certain of the Company's peers and the Company's overall earnings margin relative to the semiconductor industry. In February 2010, the Compensation Committee determined that the 2009 acceleration metric for these performance units was satisfied and therefore approved the acceleration of these performance units to our named executive officers, as follows:

Name	Number of Shares Accelerated in February 2010	Number of Shares to be Accelerated in February 2011
Michael Hsing	3,750	3,750
Maurice Sciammas	1,250	1,250
Paul Ueunten	1,250	1,250
C. Richard Neely, Jr.	1,250	1,250

The award to Mr. Xiao had an acceleration feature that was based on meeting certain management objectives. In February 2010, the Compensation Committee determined that the 2009 acceleration metric for these performance units was satisfied and approved the acceleration of 7,500 shares in each of April 2010 and February 2011.

On February 25, 2010, the Board granted the following performance units to our named executive officers. These performance units generally vest over four years, with a graded acceleration feature that allows all or a portion of these awards to be accelerated if certain performance conditions are satisfied. The amount of shares to be accelerated is based on achieving certain performance targets, with the minimal acceleration occurring if performance exceeds at least 110% of non-GAAP earnings per share set forth in the Company's annual operating plan approved by the Board, as determined by the Compensation Committee in its sole discretion. The Compensation Committee has the discretion not to accelerate any shares, if it so chooses, even if the performance targets are met.

Name	Number of Performance Units Granted
Michael Hsing	200,000
Deming Xiao	60,000
Maurice Sciammas	30,000
Paul Ueunten	30,000
C. Richard Neely, Jr.	30,000

The number of units that were granted was dependent on the position and responsibility of each of the named executive officers and the extent to which each of these officers was viewed as being able to develop the vision, drive the strategy and affect certain cost savings for the Company at large.

Short-Term Non-Equity Incentive Compensation

In 2009, the Compensation Committee approved non-equity incentive bonus opportunities based on meeting certain revenue and non-GAAP financial targets and achieving certain corporate and individual goals during 2009. The Compensation Committee felt that the performance criteria in the plan and the weighting between individual and company performance reflects best practices for achieving a desirable balance across company, team and individual performance. For purposes of this metric, non-GAAP operating income is defined as GAAP operating income, less stock-based compensation expense and extraordinary one-time charges. The plan has variable performance payouts based on achieving financial and discretionary goals. The plan structure is as follows:

1. A target bonus as a percentage of salary was established for each of the executive officers (see table below). Actual results that were 90% or less of the defined metrics resulted in zero bonus payouts, actual results equal to the defined metrics resulted in the target bonus payout, and actual results above

Table of Contents

100% up to 115% of the defined metrics resulted in increasing target bonus payouts up to a maximum limit for each executive as described in the table below.

2. For the executive officers, excluding the CEO:
 - a. 75% of the target bonus is evenly allocated between the Company's revenue and operating income targets, as established in the annual operating plan.
 - b. 15% of the target bonus is established based on achievement of management objectives, as approved by the CEO and the Compensation Committee.
 - c. Finally, the CEO can authorize the remaining 10% of target bonus for the other executive officers based on his discretion, subject to Compensation Committee approval.

3. For the CEO:
 - a. The CEO's target bonus is 100% based on Company revenue and operating income.
 - b. The Compensation Committee can authorize an additional 20% of target bonus for the CEO.

For 2009, the non-equity incentive opportunities as a percentage of base salaries were as follows:

Name	Minimum	Target	Maximum
Michael R. Hsing	0%	100%	220%
Deming Xiao	0%	80%	156%
Maurice Sciammas	0%	80%	156%
Paul Ueunten	0%	80%	156%
C. Richard Neely, Jr.	0%	80%	156%

The maximum potential payout for each of our named executive officers for 2009 was:

Name	Maximum Payout
Michael R. Hsing	\$ 880,000
Deming Xiao	\$ 468,000
Maurice Sciammas	\$ 468,000
Paul Ueunten	\$ 437,000
C. Richard Neely, Jr.	\$ 437,000

2009 was a difficult year due to the financial market crisis that impacted the semiconductor industry starting in the fourth quarter of 2008 and continuing into the first quarter of 2009. Decisions regarding revenue and non-GAAP financial targets were made based on the best information available at the beginning of 2009, which information the Compensation Committee used to set the targets. During the course of the year, however, the economic outlook improved and the Company had a much better year than originally anticipated. As a result, the non-equity incentive plan formulas would have amounted to the maximum payout under the plan for each of our executive officers. When the Compensation Committee and CEO determined the payouts based on actual performance during the second half of 2009, they decided to significantly reduce actual payouts because of the unusual economic circumstances surrounding the annual targets. These non-equity incentive payouts have been reflected in the Summary Compensation Table below.

Severance and Change-in-Control Arrangements

We have severance and change-in-control arrangements with all of our named executive officers pursuant to employment agreements, which provide for such executives to receive certain payments and benefits upon termination of their employment with the Company in certain circumstances, including in connection with a change-in-control. For all change-in-control arrangements, the named executive officer is entitled to benefits if his or her employment is terminated without cause or if he or she leaves for good reason within one year

Table of Contents

following a change-in-control. A change-in-control of the Company refers to a merger or consolidation after which our shareholders do not hold a majority of our outstanding voting securities, any transaction involving the transfer of greater than 50% of our voting power, or a sale of substantially all our assets. Cause is generally defined as: the named executive officer's failure to perform the duties or responsibilities of his or her employment, the named executive officer personally engaging in illegal conduct that is detrimental to the Company, the named executive officer being convicted of or pleading *nolo contendere* to a felony or other crime involving moral turpitude, or the named executive officer committing a material act of dishonesty, fraud or misappropriation of property. Good Reason generally means the named executive officer's termination of employment following the expiration of any cure period following the occurrence of: a material reduction in compensation (except where a substantially equivalent reduction is applied to all officers of the Company), a material reduction in the named executive officer's duties, or a material change in the location at which the named executive officer performs services.

The Company implemented the severance and change-in-control agreements for retention purposes and to ensure the continued loyalty and service of our named executive officers notwithstanding the possibility of a change-in-control. These arrangements were subjectively determined through negotiations with each named executive officer and are discussed in Potential Payments Upon Termination or Termination Upon Change-in-Control with Termination below.

Other Compensation

The Compensation Committee does not provide compensation packages for our executives that include extravagant perquisites nor do we provide our executives with non-qualified deferred compensation plans and defined benefit plans, other than our 401(k) plan for which our Company does not make a matching contribution. The Company also offers a number of other benefits to named executive officers pursuant to benefit programs that provide for broad-based employee participation. These benefit programs include the Employee Stock Purchase Program, broad-based equity awards, medical, dental and vision insurance, long-term and short-term disability insurance, life and accidental death and dismemberment insurance and health and dependent care flexible spending accounts.

We do not provide pension arrangements or post-retirement health coverage for our named executive officers or other employees.

Equity Incentive Grant Policies

We maintain the Monolithic Power Systems Equity Award Grant Policy, which is designed to comply with: (i) the administrative provisions of the Company's 2004 Equity Incentive Plan and such other plans as the Company may adopt from time to time (which we refer to collectively as the Plans), (ii) the requirements of the Delaware General Corporation Law, (iii) the corporate governance requirements of NASDAQ, (iv) applicable rules and regulations of the SEC, including those relating to Section 16 of the 1934 Act, and (v) relevant sections of the Internal Revenue Code, including Sections 422 (incentive stock options), 409A (deferred compensation) and 162(m) (performance based compensation). Grants to our named executive officers are made pursuant to this policy. Grants to our named executive officers must be approved by the Board and will only be granted at specific times during the year, as described in further detail below.

Plan and Corporate Authorization

Under the Plans, the authorization to administer the grant of equity incentive awards is conferred upon the Board or any committee of the Board as properly constituted under applicable laws. The Board has delegated to the Compensation Committee the authority to serve as administrator of the Plans (including the authority to grant awards under the Plans), and has approved a charter outlining the responsibilities of this committee which also includes this express authority. The delegation of authority to the Compensation Committee is not exclusive; the

Table of Contents

Board retains the right to formally approve award grants as well. The Compensation Committee may form and delegate authority to subcommittees when appropriate.

In addition, the Board has delegated limited authority for grants of equity awards under the Plans to new employees and consultants to a committee consisting of the Chief Executive Officer (which committee we refer to as the Equity Award Committee). The authority does not extend to grants to the named executive officers. The delegation of authority to the Equity Award Committee is not exclusive; the Board and Compensation Committee retain the right to formally approve award grants as well.

Equity Grants to New Hires

It is the Company's policy not to time equity award grants in relation to the release of material non-public information, and it is the intent of this policy to specify the timing of effectiveness of equity awards granted hereunder in order to avoid such timing. This policy applies to all employees of the Company, including the named executive officers.

Grants to newly hired employees and consultants (other than Executive Officers as defined below) will generally be made on the first Monday and third Monday of each month. Management submits the Company's employee equity award recommendations to the Equity Award Committee and/or the Compensation Committee and, if such equity awards are approved by the Equity Award Committee or the Compensation Committee, such equity awards will be granted effective as of the date of a meeting approving such awards as evidenced by written minutes of such meeting or the date of the last verification signature or electronic verification over email in the event of a written consent in lieu of the meeting. In the event that the Compensation Committee meets on any date other than the first Monday or third Monday of the month, the awards approved at such meeting for newly hired employees who are not Executive Officers will be granted and priced effective as of the next scheduled grant date.

New hire grants made to Executive Officers (defined as the Chief Executive Officer, Chief Financial Officer, Chief Legal Officer, Chief Operations Officer, President, employees who are members of the Board and any other employee determined by the Board to be an Executive Officer) may not be granted by the Equity Award Committee and will only be granted on the date of the next regularly scheduled Board meeting subsequent to the Executive Officer's start date and following the recommendation of such grant by the Compensation Committee.

Equity Grants to Existing Employees or Incumbent Members of the Board

Generally, annual grants of equity awards shall be made to key performers quarterly at a regularly scheduled Board meeting for employees who are not Executive Officers. Grants of equity awards to Executive Officers shall be made four times per year in an open trading window by the Board or the Compensation Committee at a regularly scheduled meeting following the approval of such equity awards by the Compensation Committee to help avoid making such grants at a time when the Company's trading market may not be in possession of material information regarding the Company.

Equity awards to non-employee members of the Board shall be made by the Board or pursuant to any automatic grant provisions in the Plans.

Prior to the adoption of a formal equity incentive grant policy, we granted equity instruments in a manner similar to the process described above.

There are no stock ownership guidelines for the Company's named executive officers. The Company has chosen not to implement stock ownership guidelines for its named executive officers because there are a limited number of executive officers of the Company and many of them own a large number of shares in the Company. As of December 31, 2009, our executive officers, directors and affiliates beneficially owned 30% of the Company's common stock.

Table of Contents**Potential Payments Upon Termination or Termination Upon Change-in-Control*****Employment Agreements and Change-in-Control Arrangements***

We have entered into employment agreements with each of our named executive officers. The employment agreements establish the initial titles and reporting responsibilities for the named executive officers and the following minimum base salaries (subject to increase) for the named executive officers: Mr. Hsing, \$400,000; Mr. Neely, \$280,000; Mr. Xiao, \$280,000; Mr. Sciammas, \$280,000; and Mr. Ueunten, \$252,000. The employment agreements also provide for each named executive officer to participate in our equity, bonus and benefits programs. Each of these employment agreements was amended in December 2008 to bring the agreements into compliance with Section 409A of the Internal Revenue Code.

In addition to the terms described above, the employment agreements also provide certain severance benefits upon termination and termination within 12 months subsequent to a change-in-control, as described in the following table. A change-in-control of the Company refers to a merger or consolidation after which our shareholders do not hold a majority of our outstanding voting securities, any transaction involving the transfer of greater than 50% of our voting power, or a sale of substantially all our assets. The Company has followed general market practices for senior executives in allowing limited change-in-control arrangements for selected officers.

Michael R. Hsing	Employment Agreement dated March 10, 2008	Base salary and benefits for 12 months; acceleration of vesting of stock options equal to the number of options that would have vested had the executive remained an employee for 12 months following the termination of employment. Each of the employment agreements with the Company's named executive officers also contains a provision whereby during the period of employment and thereafter, the executive shall not, without the prior written consent of the Company, disclose or use any confidential information or proprietary data other than for the Company's interest. These employment agreements also contain a covenant not to solicit, beginning with the date of the executive's termination and until one year thereafter.

On December 16, 2008, our Compensation Committee approved certain amendments to the employment contract for Michael Hsing designed to, among other things, provide that in the event that any severance payment or other benefits payable to Mr. Hsing constituted parachute payments under Section 280G of the Internal Revenue Code and would be subject to the applicable excise tax, the Company will pay Mr. Hsing a gross-up payment sufficient to pay the excise tax and any additional federal or state taxes arising from such payments. Prior to approving these amendments, our Compensation Committee reviewed data regarding gross-up payments to chief executive officers in our peer group, and decided that these amendments were appropriate in order to maintain a competitive compensation package and provide appropriate incentives to Mr. Hsing.

On December 16, 2008, our Compensation Committee also approved certain amendments to the employment contracts for C. Richard Neely, Jr., Maurice Sciammas, Deming Xiao and Paul Ueunten designed to,

among other things, provide that in the event that any severance payment or other benefits payable to such persons constituted parachute payments under Section 280G of the Internal Revenue Code and would be subject to the applicable excise tax, the Company will pay such persons a gross-up payment sufficient to pay the applicable excise tax. The payment of any additional excise tax and any additional federal, state or other taxes arising from the payment made by the Company pursuant to the previous sentence will be the sole responsibility of the individual. Estimated Payments Upon Termination or Change-in-Control

The following table sets forth the payments required to be made to each named executive officer in connection with the termination of their employment upon specified events assuming a stock price of \$23.97 per share, the closing price on December 31, 2009. The amounts shown also assume that the termination was effective December 31, 2009, and thus include amounts earned through such time and are estimates of the amounts which would be paid out in a lump sum to the executives upon their termination. These amounts do not include any tax benefits for which the Company may become liable as a result of the employment agreements between the Company and the named executives. The actual amounts paid can only be determined at the time of the termination of the executive's employment.
