Equipment Operations Net (Cash) Debt	\$ (1,770)	\$ 338	nm

BURR RIDGE, IL. (MARKET WIRE) CNH Global N.V. (NYSE: CNH) announced its financial results for the second quarter which ended June 30, 2010. For the quarter, Net Sales increased 10.7% (7.9% on a constant currency basis) to \$3.9 billion as positive performance in the Americas and Rest of World markets more than offset difficult economic conditions in Western and Eastern Europe. Equipment Operations posted an Operating Profit of \$330 million as a result of higher volumes, better pricing and reduced industrial costs. Operating profit improved \$169 million at a margin of 8.4%.

The segmental Net Sales split was 80% agricultural equipment and 20% construction equipment, largely in line with the comparable period of 2009, on a constant currency basis. The geographical distribution of revenue for the period was 42% North America, 24% Western Europe, 17% Latin America, and 17% Rest of World. The Group's ability to access the global agricultural and construction equipment markets through its dispersed manufacturing and dealership networks allowed CNH to increase revenues.

Equipment Operations generated \$1.3 billion in cash flow from operating activities in the first half. This was used to finance capital expenditures of \$90 million with the balance reducing Group indebtedness. During the quarter, CNH Equipment Operations completed a new refinancing transaction through the issuance of \$1.5 billion in notes with a maturity of 2017, improving the Group's debt duration profile. The proceeds will be used to retire the Group's

existing \$500 million in notes due 2014 and to pay down certain inter-company debt by the end of 2010. CNH Equipment Operations ended the period with a net cash position of \$1.8 billion, an increase of \$2.1 billion from the comparable period in 2009.

CNH's 49% effective tax rate for the period is higher than the Group's normalized expectations of 32% to 36% and is largely due to losses in Europe, as a result of production curtailment, that could not be tax effected.

Net Income before restructuring and exceptional items for the period at \$140 million (\$144 million inclusive of exceptional items) resulted in the Group generating an EPS of \$0.59 (\$0.60 inclusive of exceptional items) compared to a loss of \$(0.06) in the comparable prior year period.

2010 Market Outlook

CNH anticipates that global agricultural equipment markets will be flat in 2010. The CNH outlook for the global construction equipment markets is for an increase of 25% to 30% in 2010.

2010 CNH Outlook

It is probable, in the view of the Group's performance to date and current forecasts for trading activity for the business in the remainder in the year, that CNH will upgrade guidance for 2010 when announcing Q3 2010 results.

SEGMENT RESULTS

Agricultural Equipment

(US\$ in millions)	Quarter Ended		Percent Change
	6/30/2010	6/30/2009	
Net Sales of Equipment	\$ 3,148	\$ 3,011	4.5%
Gross Profit	\$ 644	\$ 523	23.1%
Gross Margin	20.5%	17.4%	3.1pts
Operating Profit	\$ 317	\$ 255	24.3%
Operating Margin	10.1%	8.5%	1.6pts

Agricultural Equipment Industry and Market

Worldwide agricultural industry retail unit sales decreased 4% compared to the second quarter of 2009. Global tractor sales fell 4% and global combine sales fell 6% for the quarter. North American markets rose 3%, with tractors up 3% and combine sales stable as the outlook for net farm income supported continued strong demand in the large cash crop segments. Strong commodity prices and the continuation of government support programs drove demand in Latin America where tractor sales rose 39% and combines were up 41%. Difficult economic conditions drove the decline in Western Europe with industry sales

dropping 17% for the quarter, with tractor sales down 16% and combines down 35%. Rest of World markets were down 7%, with a drop in tractor sales of 7% and a rise in combine sales of 10%.

CNH Agricultural Equipment Second Quarter Results

Net Sales in the agricultural equipment segment increased 4.5% for the quarter (2.3% on a constant currency basis) as solid performances in the Americas more than offset the difficult market conditions in Western and Eastern Europe, the CIS, and Australia. Operating Margin for the period increased 10.1% from 8.5% in the comparable period in 2009. This improved profit performance was largely the result of improved industrial economics, product mix, and favorable geographic distribution of revenues.

Company and dealer inventories closed the period largely in line with estimated market demand and historical norms for the period.

CNH continued to invest in its agricultural equipment product portfolio and industrial capacity during the quarter. Significant effort continued to be invested in the preparation of Tier 4/Stage III A product introductions with product pre-sells to be launched in the second half of 2010. These new products, to be launched in the North American and European markets, will not only be upgraded to meet compliance standards for engine emissions, but will also encompass performance and styling upgrades.

Prior period capacity expansions contributed to CNH's ability to meet market demand, especially in Brazil with the Group's Sorocaba and Curitiba facilities for tractors and combines. In India, CNH has expanded capacity to meet local market and export tractor demand, and to increase component capacity in support of the CNH industrial network.

Construction Equipment

(US\$ in millions)	Quarter Ended		Percent Change
	6/30/2010	6/30/2009	
Net Sales of Equipment	\$ 790	\$ 547	44.4%
Gross Profit	\$ 117	\$ 2	nm
Gross Margin	14.8%	0.4%	14.4pts
Operating Profit	\$ 13	\$ (94)	nm
Operating Margin	1.6%	(17.2)%	18.8pts

Construction Equipment Industry and Market

Global industry unit volume of construction equipment rose 60% in the second quarter compared to the prior year, with light equipment up 38% and heavy equipment up 82%. North American demand was up 13%, with heavy equipment volumes up 8% and light equipment rising 15%. Western European markets rose 17% as the industry stabilized off of last year's extremely low levels. In Latin America, the market more than doubled, driven by strong demand and a very low comparative base. Industry sales in Rest of World markets jumped approximately 90% on strong growth in the APAC region driven by steady growth in China.

CNH Construction Equipment Second Quarter Results

Construction equipment sector Net Sales increased 44.4% (38.6% on a constant currency basis) as, similar to the agricultural segment, unit demand in the Americas and certain Rest of World markets more than offset a decline in Net Sales in Europe. The sector posted an Operating Profit for the quarter of \$13 million and an Operating Margin of 1.6%, reversing the \$(94) million loss in the comparable quarter in 2009. This improved performance was a result of the increased commercial volume, the reduction in cost base from prior period restructuring actions, and improved industrial economics, resulting primarily from reduced input costs.

Despite the sector posting an improved performance, conditions remain tenuous in developed markets, resulting in a material portion of the sector's industrial capacity remaining under-utilized, primarily in Europe. The sector continued to make good progress reducing whole goods inventory levels primarily in North America, Western and Eastern Europe, with a corresponding improvement in working capital. Conversely, due to increased demand in Latin America, particularly Brazil, where CNH holds a strong share position and large installed machine park, capacity utilization is being expanded in two manufacturing sites to meet projected demand and reduce manufacturing bottlenecks.

CNH continued to invest in its construction equipment product portfolio during the period, with product launches for a new backhoe (designed for Tier 4 engine compliance) in Q4 2010 and a new skid steer in Q1 2011, on schedule; both products represent material upgrades in performance for the operator and are in line with the Group's global platform strategy.

CNH Financial Services Second Quarter Results

(US\$ in millions)	Quarter Ended		Percent Change
	6/30/2010	6/30/2009	
Net Income	\$ 33	\$ 45	(26.7)%
On-Book Asset Portfolio	\$ 14,519	\$ 8,991	61.5%
Managed Asset Portfolio	\$ 16,998	\$ 18,054	(5.9)%

Financial Services Net Income for the quarter ending June 30, 2010 was \$33 million, a reduction of \$12 million compared to the quarter ending June 30, 2009. Due to the adoption of the new accounting standards, on-book receivables are higher by \$5.7 billion compared to June 2009, with corresponding higher interest margins and risk costs, as well as the absence of gains and losses on ABS transactions.

While retail originations for the first half of the year were higher than 2009, the managed asset portfolio decreased \$1.1 billion from June 2009 due to lower activity levels in the construction equipment market as well as lower dealer financing balances. Delinquency levels during the second quarter showed improvement in both absolute and as percentage values.

Unconsolidated Equipment Operations Subsidiaries

During the second quarter results for the Group's unconsolidated Equipment Operations subsidiaries improved to \$21 million from a \$(15) million net loss in the comparable period in the prior year. This improvement in performance was largely driven by the Group's joint venture in Turkey with TTF, in Japan through our distribution partner HFT and Kobelco Construction Machinery and in Pakistan with Al Ghazi in agricultural tractors. In India, our joint venture with L&T for backhoe production and distribution has improved performance significantly.

Business Development

In Russia, CNH completed the commercial joint venture with Kamaz on May 27, 2010, which is integrally related to the industrial JV which was completed in the first quarter. The company has initiated commercial and industrial activities with the completion of these milestones, with investments to be progressively increased in conjunction with our partners and Russian regulatory approvals. Despite the difficult economic and harvest conditions present in many areas of the CIS, total industry volumes are beginning to recover. Reduced wheat stocks, and a gradually improving financing environment point to improved market conditions for agricultural and construction equipment in 2011.

Other

Exceptional and Other Items

As part of the Group's divestment of LBX Company LLC on May 10, 2010, the Company recognized an after-tax gain of \$4 million.

The Company anticipates the completion of the redemption of its \$500 million in notes due in 2014 on July 28, 2010, and as a result, CNH will incur a loss on retirement of debt of \$22 million in the third quarter of 2010.

ABOUT CNH

CNH Global N.V. is a world leader in the agricultural and construction equipment businesses. Supported by more than 11,600 dealers in approximately 170 countries, CNH brings together the knowledge and heritage of its Case and New Holland brand families with the strength and resources of its worldwide commercial, industrial, product support and finance organizations. CNH Global N.V., whose stock is listed at the New York Stock Exchange (NYSE: [CNH](#)), is a majority-owned subsidiary of Fiat S.p.A. (FIA.MI). More information about CNH and its Case and New Holland products can be found online at www.cnh.com.

CNH CONFERENCE CALL AND WEBCAST

CNH management will hold a conference call tomorrow, to review its second quarter 2010 results. The conference call webcast will begin at 7:00 a.m. U.S. Central Time; 8:00 a.m. U.S. Eastern Time. This call can be accessed through the investor information section of the company's website at www.cnh.com and will be transmitted by CCBN.

NON-GAAP MEASURES

CNH utilizes various figures that are *Non-GAAP Financial Measures* as this term is defined under Regulation G as promulgated by the SEC. In accordance with Regulation G, CNH has detailed either the computation of these measures from multiple U.S. GAAP figures or reconciled these non-GAAP financial measures to the most relevant U.S. GAAP equivalent in the accompanying tables to this press release. Some of these measures do not have standardized meanings and investors should consider that the methodology applied in calculating such measures may differ among companies and analysts. CNH's management believes these non-GAAP measures provide useful supplementary information to investors in order that they may evaluate CNH's financial performance using the same measures used by our management. These non-GAAP financial measures should not be considered as a substitute for, nor superior to, measures of financial performance prepared in accordance with U.S. GAAP.

CNH defines *Equipment Operations gross profit* as net sales of equipment less costs classified as cost of goods sold. CNH defines *Equipment Operations operating profit* as gross profit less costs classified as selling, general and administrative and research and development costs. CNH defines *Equipment Operations gross margin* as gross profit as a percent of net sales of equipment. CNH defines *Equipment Operations operating margin* as operating profit as a percent of net sales of equipment. *Net Debt (Cash)* is defined as total debt (including intersegment debt) less cash and cash equivalents, deposits in Fiat affiliates cash management pools, cash held in trust for redemption of notes due in 2014 and intersegment notes receivable. CNH defines *Net income (loss) and diluted EPS before restructuring and exceptional items* as Net income (loss) attributable to CNH, less restructuring charges and exceptional items, after tax. *Equipment Operations working capital* is defined as accounts and notes receivable and other-net, excluding intersegment notes receivables, plus inventories less accounts payable. The U.S. dollar computation of cash generated from working capital, as defined, is impacted by the effect of foreign currency translation and other non-cash transactions. CNH defines the *change in net sales on a constant currency basis* as the difference between prior year actual net sales and current year net sales translated at prior year average exchange rates. Elimination of the currency translation effect provides constant comparisons without the distortion of currency rate fluctuations.

FORWARD LOOKING STATEMENTS

Forward-looking statements. This press release includes *forward-looking statements* within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact contained in this press release, including statements regarding our competitive strengths, business strategy, future financial position, operating results, budgets, projected costs and plans and objectives of management, are forward-looking statements. These statements may include terminology such as *may, will, expect, could, should, intend, estimate, anticipate, believe, outlook, continue, remain, on track, goal, or similar terminology.*

Our outlook is predominantly based on our interpretation of what we consider key economic assumptions and involves risks and uncertainties that could cause actual results to differ. Crop production and commodity prices are strongly affected by weather and can fluctuate significantly. Housing starts and other construction activity are sensitive to the availability of credit and to interest rates and government spending. Some of the other significant factors which may affect our results include general economic and capital market conditions, the cyclical nature of our business, customer buying patterns and preferences, foreign currency exchange rate movements, our hedging practices, our customers' access to credit, restrictive covenants in our debt agreements, actions by rating agencies concerning the ratings of our debt securities and asset backed securities, risks related to our relationship with Fiat S.p.A., the effect of the contemplated demerger pursuant to which CNH would

be separated from Fiat S.p.A.'s automotive business, political uncertainty and civil unrest or war in various areas of the world, pricing, product initiatives and other actions by competitors, disruptions in production capacity, excess inventory levels, the effect of changes in laws and regulations (including those related to tax, healthcare, retiree benefits, government subsidies and international trade), the results of legal proceedings, technological difficulties, results of our research and development activities, changes in environmental laws, employee and labor relations, pension and health care costs, relations with and the financial strength of dealers and critical suppliers, the cost and availability of supplies from our suppliers, raw material costs and availability, energy prices, real estate values, animal diseases, crop pests, harvest yields, government farm programs and consumer confidence, housing starts and construction activity, concerns related to modified organisms and fuel and fertilizer costs. Additionally, our achievement of the anticipated benefits of our margin improvement initiatives depends upon, among other things, industry volumes as well as our ability to effectively rationalize our operations and to execute our brand strategy. Further information concerning factors that could significantly affect expected results is included in our annual report on Form 20-F for the year ended December 31, 2009.

We can give no assurance that the expectations reflected in our forward-looking statements will prove to be correct. Our actual results could differ materially from those anticipated in these forward-looking statements. All written and oral forward-looking statements attributable to us are expressly qualified in their entirety by the factors we disclose that could cause our actual results to differ materially from our expectations. We undertake no obligation to update or revise publicly any forward-looking statements.

2010 Second Quarter

Financial Results

July 21, 2010

Harold Boyanovsky

President and Chief Executive Officer

Richard Tobin

Chief Financial Officer

Marco Casalino

Vice President and Treasurer

Gerry Spahn

Senior Director, Investor Relations

This presentation includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact contained in this press release, including statements regarding our competitive strengths, business strategy, future financial position, operating results, budgets, projected costs and plans and objectives of management, are forward-looking statements. These statements may include terminology such as may, will, expect, could, should, intend, estimate, believe, outlook, continue, remain, on track, goal, or similar terminology.

Our outlook is predominantly based on our interpretation of what we consider key economic assumptions and involves risks and uncertainties that could cause actual results to differ. Crop production and commodity prices are strongly affected by weather and can fluctuate significantly. Housing starts and other construction activity are sensitive to the availability of credit and to interest rates and government spending. Some of the other significant factors which may affect our results include general economic and capital market conditions, the cyclical nature of our business, customer buying patterns and preferences, foreign currency exchange rate movements, our hedging practices, our customers' access to credit, restrictive covenants in our debt agreements, actions by rating agencies concerning the ratings of our debt securities and asset backed securities, risks related to our relationship with Fiat S.p.A., the effect of the contemplated demerger pursuant to which CNH would be separated from Fiat S.p.A.'s automotive business, political uncertainty and civil unrest or war in various areas of the world, pricing, product initiatives and other actions by competitors, disruptions in production capacity, excess inventory levels, the effect of changes in laws and regulations (including those related to tax, healthcare, retiree benefits, government subsidies and international trade), the results of legal proceedings, technological difficulties, results of our research and development activities, changes in environmental laws, employee and labor relations, pension and health care costs, relations with and the financial strength of dealers and critical suppliers, the cost and availability of supplies from our suppliers, raw material costs and availability, energy prices, real estate values, animal diseases, crop pests, harvest yields, government farm programs and consumer confidence, housing starts and construction activity, concerns related to modified organisms and fuel and fertilizer costs. Additionally, our achievement of the anticipated benefits of our margin improvement initiatives depends upon, among other things, industry volumes as well as our ability to effectively rationalize our operations and to execute our brand strategy. Further information concerning factors that could significantly affect expected results is included in our annual report on Form 20-F for the year ended December 31, 2009.

We can give no assurance that the expectations reflected in our forward-looking statements will prove to be correct. Our actual results could differ materially from those anticipated in these forward-looking statements. All written and oral forward-looking statements attributable to us are expressly qualified in their entirety by the factors we disclose that could cause our actual results to differ materially from our expectations. We undertake no obligation to update or revise publicly any forward-looking statements.

Net sales of equipment of \$3.9 billion, up 10.7% in the second quarter and \$7.2 billion, up 8.5% for the first six months

Agricultural equipment 4.5% in the second quarter and 3.4% for the first six months

Construction equipment 44.4% in the second quarter and 36.5% for the first six months

Equipment operations operating profit increase of \$169 Million compared to Q2 2009, and \$274 million compared to the first six months of 2009

Q2 Operating Margin increased to 8.4% compared to 4.5% in Q2, 2009

First Half Operating Margin increased to 6.6% compared to 3.0% in the first half of 2009

Equipment operations net cash position increased by \$1.2 Billion to \$1.8 Billion for the six months

Net income before restructuring and exceptional items of \$140 Million in the second quarter and \$178 for the first six months

	Q2 2010	YTD 2010
Basic EPS before restructuring and exceptional items:	\$ 0.59/share	\$ 0.75/share
Diluted EPS before restructuring and exceptional items:	\$ 0.59/share	\$ 0.75/share

Appendix

Geographic Area as Defined by CNH are:

North America United States and Canada

Western Europe Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom

Latin America Mexico, Central and South America, and the Caribbean Islands

Rest of World those areas not included in North America, Western Europe and Latin America as defined above.

Market Share / Market Position Data

Certain industry and market share information in this report has been presented on a worldwide basis which includes all countries, with the exception of India.

In this report, management estimates of market share information are generally based on retail unit data in North America, on registrations of equipment in most of Europe, Brazil, and various Rest of World markets and on retail and shipment unit data collected by a central information bureau appointed by equipment manufacturers associations including the Association of Equipment Manufacturers in North America, the Committee for European Construction Equipment in Europe, the ANFAVEA in Brazil, the Japan Construction Equipment Manufacturers Association and the Korea Construction Equipment Manufacturers Association, as well as on other shipment data collected by an independent service bureau.

Not all agricultural or construction equipment is registered, and registration data may thus underestimate, perhaps substantially, actual retail industry unit sales demand, particularly for local manufacturers in China, Southeast Asia, Eastern Europe, Russia, Turkey, Brazil and any country where local shipments are not reported.

In addition, there may also be a period of time between the shipment, delivery, sale and/or registration of a unit, which must be estimated, in making any adjustments to the shipment, delivery, sale, or registration data to determine our estimates of retail unit data in any period.

The following table summarizes CNH's Equipment Operations long term debt maturities at June 30, 2010 and December 31, 2009:

	June 30, 2010	December 31, 2009
Public Notes **		
Payable in 2009 (June)	\$ 1,490	\$
Payable in 2013 (September)	977	973
Payable in 2014*** (March)	500	500
Payable in 2016 (January)	250	250
Total Public Notes	3,217	1,723
Funding from Fiat Affiliates		
Fiat Committed Revolving Facility		16
Notes Payable in 2010 (May) and 2012 (August)	62	115
Notes Payable in 2017 (June)	800	800
	862	931
Other Long Term Uses of Credit Lines	887	861
Other Long Term Debt	17	17
Long Term Intersegment	487	473
Total	\$ 5,470	\$ 4,005

* Including Current Maturities of Long Term Debt.

** Public Notes are reported net of any premium/discount.

*** Called as of June 28, 2010 with redemption on July 28, 2010

CNH utilizes various figures that are Non-GAAP Financial Measures as this term is defined under Regulation G as promulgated by the SEC. In accordance with Regulation G, CNH has detailed either the computation of these Measures from multiple U.S. GAAP figures or reconciled these non-GAAP financial measures to the most relevant U.S. GAAP equivalent in the accompanying tables in this presentation. Some of these measures do not have standardized meanings and investors should consider that the methodology applied in calculating such measures may differ among companies and analysts. CNH's management believes these non-GAAP measures provide useful supplementary information to investors in order that they may evaluate CNH's financial performance using the same measures used by our management. These non-GAAP financial measures should not be considered as a substitute for, nor superior to, measures of financial performance prepared in accordance with U.S. GAAP.

Non-GAAP measures include:

Net Income (Loss) Before Restructuring and Exceptional Items

Operating Profit

Net Debt

CNH defines net income (loss) before restructuring and exceptional item as net income (loss) attributable to CNH, less restructuring charges and exceptional items, after tax. We believe that net income (loss) before restructuring and exceptional items is a useful figure for measuring the performance of our operations.

(U.S. GAAP, US\$ in mils., except per share data)

	Second Quarter		Year-to-Date	
	2010	2009	2010	2009
Net income (loss) attributable to CNH	\$ 144	\$ (67)	\$ 160	\$ (193)
Restructuring, after tax:				
Restructuring		71	2	73
Tax benefit		(19)		(20)
Restructuring, after tax		52	2	53
Exceptional items:				
Gain from the sale of business, net of tax	(4)		(4)	
Tax charge for Medicare Part D retiree drug subsidy			20	
Net Income (loss) before restructuring and exceptional items	\$ 140	\$ (15)	\$ 178	\$ (140)
Weighted average common shares outstanding diluted	238	237	238	237
Diluted earnings (loss) per share before restructuring and exceptional items	\$ 0.59	\$ (0.06)	\$ 0.75	\$ (0.59)

CNH defines Equipment Operations Gross Profit as net sales less of equipment cost of goods sold. CNH defines Equipment Operations Operating Profit as Gross Profit less selling, general and administrative and research and development costs. Operating Margin is Operating Profit expressed as a percentage of net sales of equipment. The following table summarizes the computation of Equipment Operations Gross and Operating Profit for all periods presented:

(U.S. GAAP, US\$ in mils.)

	Second Quarter				Year-to-Date			
	2010	% of Net Sales	2009	% of Net Sales	2010	% of Net Sales	2009	% of Net Sales
Net sales	\$ 3,938		\$ 3,558		\$ 7,175		\$ 6,610	
Less:								
Cost of goods sold	3,177		3,033		5,875		5,660	
Gross Profit	761	19.3%	525	14.8%	1,300	18.1%	950	14.4%
Less:								
Selling, general and administrative	319		269		615		562	
Research and development	112		95		211		188	
Operating Profit	\$ 330	8.4%	\$ 161	4.5%	\$ 474	6.6%	\$ 200	3.0%

U.S. GAAP Operating Profit by Segment

Agricultural Equipment	\$ 317	10.1%	\$ 255	8.5%	\$ 497	8.6%	\$ 385	6.9%
Construction Equipment	\$ 13	1.6%	\$ (94)	(17.2)%	\$ (23)	(1.6)%	\$ (185)	(18.0)%

(U.S. GAAP, US\$ in mils.)

	Second Quarter Three Month Ended June 30		Year-to-Date Six Months Ended June 30	
	2010	2009	2010	2009
Trading Profit Under IFRS				
Agricultural Equipment	\$ 289	\$ 219	\$ 443	\$ 327
Construction Equipment	5	(102)	(30)	(205)
Financial Services	47	48	104	107
Trading Profit Under IFRS	341	165	517	229

The following reconciles trading profit to operating profit under US GAAP:

Equipment Operations Trading Profit Under IFRS	\$ 294	\$ 117	\$ 413	\$ 122
Accounting for Benefit Plans	(1)	(10)	(7)	(20)
Intangible Asset Amortization, Primarily Development Costs	(46)	(30)	(83)	(55)
IFRS Reclassifications *	61	45	113	85
Other Adjustments	(17)	(19)	(33)	(37)
Total Adjustments	(3)	(14)	(10)	(27)
Plus: U.S. GAAP Other, net	39	58	71	105
U.S. GAAP Operating Profit	\$ 330	\$ 161	\$ 474	\$ 200

* The net reclassification of interest compensation to Financial Services to cost of goods sold and the interest component of unfunded benefit plans to interest expense

Edgar Filing: CNH GLOBAL N V - Form 6-K

The following table sets forth total debt and Net Debt (Cash) total debt (including intersegment debt) less cash and cash equivalents, deposits in Fiat affiliates cash management pools, cash held in trust for the redemption of note due in 2014 and intersegment notes receivable as of June 30, 2010 and December 31, 2009:

(in millions)		Consolidated		Equipment Operations		Financial Services	
		30-Jun-10	31-Dec-09	30-Jun-10	31-Dec-09	30-Jun-10	31-Dec-09
