BARCLAYS PLC AND BARCLAYS BANK PLC

Overview

As of January 1, 2010, for management reporting purposes, the Group reorganized its activities under three business groupings: Global Retail Banking (GRB); Corporate and Investment Banking, and Barclays Wealth (CIBBW); and Absa. The Group retained its Head Office and Other Operations activity.

These changes were made to the Group structure to create a better alignment of customers and clients with the products and services offered by Barclays across the markets in which it operates.

GRB will focus on mass consumer, mass affluent and local business customers. The physical footprint of these businesses expanded significantly over the three years prior to the effective date of the reorganization and with it the number of customers served. This reflected investment in customer-facing staff, distribution channels, and customer recruitment and has enabled Barclays to increase the ratio of non-UK to UK business, whilst also strengthening the Group's UK franchises.

In CIBBW, Barclays Corporate includes the medium and larger customer segment from the former Barclays Commercial Bank, coupled with the corporate relationships from the former GRCB Western Europe and the complete country operations of certain countries from the former GRCB Emerging Markets. In aggregate, Barclays Corporate is grouped into three market segments for management and reporting purposes UK & Ireland, Continental Europe (Spain, Italy, Portugal and France), and New Markets (India, Pakistan, Indonesia, Russia and the UAE).

Barclays Corporate was brought alongside Barclays Capital because the Group believed it would see significant synergies in sharing relationship management and sector expertise between the two businesses, driven by the increasing sophistication, interdependence and international nature of client requirements from corporate banking and investment banking clients.

Many of the clients of Barclays Capital and Barclays Corporate seek the services of Barclays Wealth and, for this reason, Barclays Wealth forms part of CIBBW.

The Investment Management activities also form part of CIBBW, reflecting the Group's oversight of its retained 19.9% stake in BlackRock Inc.

Revision of Financial Statement Segmental Disclosures

Barclays PLC presented segmental disclosures that reflect the new organizational structure in its interim results as of, and for the six months ended, June 30, 2010, that were furnished to the U.S. Securities and Exchange Commission (the SEC) on Form 6-K (File No. 001-09246) on August 5, 2010 for incorporation by reference into various registration statements. Barclays PLC and Barclays Bank PLC are furnishing this Form 6-K to the SEC in order to incorporate into their various registration statements revised financial statement segmental disclosures in respect of certain disclosures that were made in the joint Annual Report of Barclays PLC and Barclays Bank PLC on Form 20-F for the year ended December 31, 2009, as filed with the SEC on March 19, 2010 (the 2009 Form 20-F). The revised financial disclosures reflect the Group's new organizational structure and the Group's previous publication of unaudited revised figures, which were furnished to the SEC on Form 6-K (File No. 001-09246) on March 22, 2010. Whilst these revisions change the reported results of certain of the segments that comprise the Group's business, they do not change the Group's overall income statement, balance sheet or other primary statements.

Accordingly, the segmental disclosures on page 199 (Note 21 (Goodwill)) and pages 278 to 282 (Note 53 (Segmental Reporting)) in the 2009 Form 20-F have been revised in the audited financial statements of Barclays PLC included as Exhibit 99.1 to this Form 6-K to reflect the new organizational structure. Additionally, the accounting policies information on page 167 (Note 3 (Basis of Preparation)) has been revised to reflect the Group's new business structure as set out in Note 53, which came into effect for financial reporting purposes on January 1, 2010.

This Form 6-K includes the audited financial statements of Barclays PLC and Barclays Bank PLC in their entirety but only the above referenced portions of the financial statements of Barclays PLC and the audit report of PricewaterhouseCoopers LLP relating to the financial statements of Barclays PLC have been changed from the versions contained in the 2009 Form 20-F.

Presentation of information

Barclays PLC is a public limited company registered in England under company number 48839. The Company, originally named Barclay & Company Limited, was incorporated in England and Wales on 20th July 1896 under the Companies Acts 1862 to 1890 as a company limited by shares. The company name was changed to Barclays Bank Limited on 17th February 1917 and it was reregistered in 1982 as a public limited company under the Companies Acts 1948 to 1980. On 1st January 1985, the company changed its name to Barclays PLC.

Barclays Bank PLC is a public limited company registered in England under company number 1026167. The Bank was incorporated on 7th August 1925 under the Colonial Bank Act 1925 and on 4th October 1971 was registered as a company limited by shares under the Companies Acts 1948 to 1967. Pursuant to The Barclays Bank Act 1984, on 1st January 1985 the Bank was reregistered as a public limited company and its name was changed from Barclays Bank International Limited to Barclays Bank PLC.

All of the issued ordinary share capital of Barclays Bank PLC is owned by Barclays PLC. The Annual Report for Barclays PLC also contains the consolidated accounts of, and other information relating to, Barclays Bank PLC. The Annual Report includes information required to be included in the Barclays PLC and Barclays Bank PLC Annual Report on Form 20-F for 2009. Form 20-F will contain as exhibits certificates pursuant to Sections 302 and 906 of the Sarbanes-Oxley Act of 2002, signed by the Group Chief Executive and Group Finance Director, with respect to both Barclays PLC and Barclays Bank PLC. Except where otherwise indicated, the information given is identical with respect to both Barclays PLC and Barclays Bank PLC.

The accounts of Barclays Bank PLC included in this document do not comprise statutory accounts within the meaning of Section 434 of the Companies Act 2006. The statutory accounts of Barclays Bank PLC, which contain an unqualified audit report and do not contain any statement under Section 498(2) or (3) of that Act, will be delivered to the Registrar of Companies in accordance with Section 441 of that Act and are published as a separate document.

Draft BBA Code for Financial Reporting Disclosure

In accordance with the agreement set out in the FSA discussion paper, *Enhancing financial reporting disclosure by UK credit institutions*, Barclays confirms that it has complied with the draft BBA Code for Financial Reporting Disclosure.

In October 2009, the British Bankers' Association published a draft Code for Financial Reporting Disclosure. The draft Code sets out five disclosure principles together with supporting guidance. The principles are that UK banks will: provide high quality, meaningful and decision-useful disclosures; review and enhance their financial instrument disclosures for key areas of interest; assess the applicability and relevance of good practice recommendations to their disclosures acknowledging the importance of such guidance; seek to enhance the comparability of financial statement disclosures across the UK banking sector; and clearly differentiate in their annual reports between information that is audited and information that is unaudited.

The Group and other major UK banks have voluntarily adopted the draft Code in their 2009 financial statements. The Group's 2009 financial statements have therefore been prepared in compliance with the draft Code's principles and the Group aims to continue to enhance its disclosures in line with developing market practice and areas of focus.

Statutory Accounts

The consolidated accounts of Barclays PLC and its subsidiaries are set out on pages 167 to 282 along with the accounts of Barclays PLC itself on pages 183 to 185. The consolidated accounts of Barclays Bank PLC and its subsidiaries are set out on pages 283 to 300. The accounting policies on pages 167 to 177 and the Notes commencing on page 186 apply equally to both sets of accounts unless otherwise stated.

Independent Registered Public Accounting Firm's report

Report of Independent Registered Public Accounting Firm To the Board of Directors and Shareholders of Barclays PLC

In our opinion, the accompanying Consolidated income statements and the related Consolidated balance sheets, Consolidated cash flow statements and, Consolidated statements of comprehensive income and Consolidated statements of changes in equity present fairly, in all material respects, the financial position of Barclays PLC (The Company) and its subsidiaries at 31st December 2009 and 31st December 2008 and the results of their operations and cash flows for each of the three years in the period ended 31st December 2009, in conformity with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board. Also, in our opinion the Company maintained, in all material respects, effective internal control over financial reporting as of 31st December 2009, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organisations of the Treadway Commission (COSO).

The Company's management are responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's report on internal control over financial reporting as it pertains to Barclays PLC in the section headed "Accountability and Audit".

Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant

estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

/s/ PricewaterhouseCoopers LLP

Edgar Filing: BARCLAYS PLC - Form 6-K

PricewaterhouseCoopers LLP

London, United Kingdom

9th March 2010, except with respect to our opinion on the Consolidated Financial Statements insofar as it relates to the effects of changes in segments in Notes 21 and 53 and Note 3 of the Accounting Policies section in the Consolidated Financial Statements, for which the date is 31st August 2010.

Consolidated accounts Barclays PLC

Accounting policies

Significant accounting policies

1. Reporting entity

These financial statements are prepared for the Barclays PLC Group under Section 399 of the Companies Act 2006. The Group is a major global financial services provider engaged in retail and commercial banking, credit cards, investment banking, wealth management and investment management services. In addition, individual financial statements have been prepared for the holding company, Barclays PLC (the Company), under Section 397 of the Companies Act 2006.

Barclays PLC is a public limited company, incorporated in England and Wales having a registered office in England and is the holding company of the Group.

2. Compliance with International Financial Reporting Standards

The consolidated financial statements of the Barclays PLC Group, and the individual financial statements of Barclays PLC, have been prepared in accordance with International Financial Reporting Standards (IFRS) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC), as published by the International Accounting Standards Board (IASB). They are also in accordance with IFRS and IFRIC interpretations as adopted by the European Union.

The principal accounting policies applied in the preparation of the consolidated and individual financial statements are set out below. These policies have been consistently applied. Changes in accounting policy are set out on page 177.

3. Basis of preparation

The consolidated and individual financial statements have been prepared under the historical cost convention modified to include the fair valuation of investment property, certain financial instruments and contracts to buy or sell non-financial items and trading inventories to the extent required or permitted under accounting standards and as set out in the relevant accounting policies. They are stated in millions of pounds Sterling (£m), the currency of the country in which Barclays PLC is incorporated. The financial statements have been revised to reflect the revised business structure as set out in Note 53, which came into effect for financial reporting purposes on 1st January 2010.

Critical accounting estimates

The preparation of financial statements in accordance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgement in the process of applying the accounting policies. The notes to the financial statements set out areas involving a higher degree of judgement or complexity, or areas where assumptions are significant to the consolidated and individual financial statements such as fair value of financial instruments (Note 50), allowance for impairment (Note 47), goodwill (Note 21), intangible assets (Note 22), retirement benefit obligations (Note 30), derecognition of financial assets (Note 29), taxation (Note 10) and credit risk (Note 47).

4. Consolidation

Subsidiaries

Edgar Filing: BARCLAYS PLC - Form 6-K

The consolidated financial statements combine the financial statements of Barclays PLC and all its subsidiaries, including certain special purpose entities (SPEs) where appropriate, made up to 31st December. Entities qualify as subsidiaries where the Group has the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities,

generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered in assessing whether the Group controls another entity. Details of the principal subsidiaries are given in Note 41.

SPEs are consolidated when the substance of the relationship between the Group and that entity indicates control. Potential indicators of control include, amongst others, an assessment of the Group's exposure to the risks and benefits of the SPE.

This assessment of risks and benefits is based on arrangements in place and the assessed risk exposures at inception. The initial assessment is reconsidered at a later date if:

- a) the Group acquires additional interests in the entity;
 - b) the contractual arrangements of the entity are amended such that the relative exposure to risks and benefits change; or
 - c) if the Group acquires control over the main operating and financial decisions of the entity.
- Subsidiaries are consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date that control ceases.

The acquisition method of accounting is used to account for the purchase of subsidiaries. The cost of an acquisition is measured at the fair value of the assets given, equity instruments issued and liabilities incurred or assumed, plus any costs directly related to the acquisition.

The excess of the cost of an acquisition over the Group's share of the fair value of the identifiable net assets acquired is recorded as goodwill. See accounting policy 14 for the accounting policy for goodwill. A gain on acquisition is recognised in profit or loss if there is an excess of the Group's share of the fair value of the identifiable net assets acquired over the cost of the acquisition. Intra-group transactions and balances are eliminated on consolidation and consistent accounting policies are used throughout the Group for the purposes of the consolidation.

As the consolidated financial statements include partnerships where a Group member is a partner, advantage has been taken of the exemption under Regulation 7 of the Partnerships (Accounts) Regulations 2008 with regard to the preparation and filing of individual partnership financial statements.

In the individual financial statements, investments in subsidiaries are stated at cost less impairment, if any.

Associates and joint ventures

An associate is an entity in which the Group has significant influence, but not control, over the operating and financial management policy decisions. This is generally demonstrated by the Group holding in excess of 20%, but no more than 50%, of the voting rights.

A joint venture exists where the Group has a contractual arrangement with one or more parties to undertake activities typically, though not necessarily, through entities which are subject to joint control.

Unless designated as at fair value through profit and loss as set out in policy 7, the Group's investments in associates and joint ventures are initially recorded at cost and increased (or decreased) each year by the Group's

Table of Contents

168

Consolidated accounts Barclays PLC

Accounting policies

continued

share of the post-acquisition profit (or loss), or other movements reflected directly in the other comprehensive income of the associated or jointly controlled entity. Goodwill arising on the acquisition of an associate or joint venture is included in the carrying amount of the investment (net of any accumulated impairment loss). When the Group's share of losses or other reductions in equity in an associate or joint venture equals or exceeds the recorded interest, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the entity.

The Group's share of the results of associates and joint ventures is based on financial statements made up to a date not earlier than three months before the balance sheet date, adjusted to conform with the accounting policies of the Group. Unrealised gains on transactions are eliminated to the extent of the Group's interest in the investee. Unrealised losses are also eliminated unless the transaction provides evidence of impairment in the asset transferred.

In the individual financial statements, investments in associates and joint ventures are stated at cost less impairment, if any.

5. Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using their functional currency, being the currency of the primary economic environment in which the entity operates.

Foreign currency transactions are translated into the appropriate functional currency using the exchange rates prevailing at the dates of the transactions. Monetary items denominated in foreign currencies are retranslated at the rate prevailing at the period end. Foreign exchange gains and losses resulting from the retranslation and settlement of these items are recognised in the income statement except for qualifying cash flow hedges or hedges of net investments. See policy 12 for the policies on hedge accounting.

Non-monetary assets that are measured at fair value are translated using the exchange rate at the date that the fair value was determined. Exchange differences on equities and similar non-monetary items held at fair value through profit or loss, are reported as part of the fair value gain or loss. Translation differences on equities classified as available for sale financial assets and similar non-monetary items are included directly in equity.

For the purposes of translation into the presentational currency, assets, liabilities and equity of foreign operations are translated at the closing rate, and items of income and expense are translated into Sterling at the rates prevailing on the dates of the transactions, or average rates of exchange where these approximate to actual rates.

The exchange differences arising on the translation of a foreign operation are included in cumulative translation reserves within shareholders' equity and included in the profit or loss on disposal or partial disposal of the operation.

Goodwill and fair value adjustments arising on the acquisition of foreign subsidiaries are maintained in the functional currency of the foreign operation, translated at the closing rate and are included in hedges of net investments where appropriate.

6. Interest, fees and commissions

Interest

Interest is recognised in interest income and interest expense in the income statement for all interest bearing financial instruments classified as held to maturity, available for sale or other loans and receivables using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or liability (or group of assets and liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts the expected future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the instrument. The application of the method has the effect of recognising income (and expense) receivable (or payable) on the instrument evenly in proportion to the amount outstanding over the period to maturity or repayment.

In calculating effective interest, the Group estimates cash flows (using projections based on its experience of customers' behaviour) considering all contractual terms of the financial instrument but excluding future credit losses. Fees, including those for early redemption, are included in the calculation to the extent that they can be measured and are considered to be an integral part of the effective interest rate. Cash flows arising from the direct and incremental costs of issuing financial instruments are also taken into account in the calculation. Where it is not possible to otherwise estimate reliably the cash flows or the expected life of a financial instrument, effective interest is calculated by reference to the payments or receipts specified in the contract, and the full contractual term.

Fees and commissions

Unless included in the effective interest calculation, fees and commissions are recognised on an accruals basis as the service is provided. Fees and commissions not integral to effective interest arising from negotiating, or participating in the negotiation of a transaction from a third party, such as the acquisition of loans, shares or other securities or the purchase or sale of businesses, are recognised on completion of the underlying transaction. Portfolio and other management advisory and service fees are recognised based on the applicable service contracts. Asset management fees related to investment funds are recognised over the period the service is provided. The same principle is applied to the recognition of income from wealth management, financial planning and custody services that are continuously provided over an extended period of time.

Commitment fees, together with related direct costs, for loan facilities where draw down is probable are deferred and recognised as an adjustment to the effective interest on the loan once drawn. Commitment fees in relation to facilities where draw down is not probable are recognised over the term of the commitment.

Table of Contents

169

Insurance premiums

Insurance premiums are recognised in the period earned.

Net trading income

Income arises from the margins which are achieved through market-making and customer business and from changes in fair value caused by movements in interest and exchange rates, equity prices and other market variables. Trading positions are held at fair value and the resulting gains and losses are included in the income statement, together with interest and dividends arising from long and short positions and funding costs relating to trading activities.

Dividends

Dividends are recognised when the right to receive payment is established. In the individual financial statements of Barclays PLC, this is when the dividends are received or when the dividends are appropriately authorised by the subsidiary.

7. Financial assets and liabilities

Financial assets

The Group classifies its financial assets in the following categories: financial instruments at fair value through profit or loss; loans and receivables; held to maturity investments and available for sale financial assets. Management determines the classification of financial assets and liabilities at initial recognition.

Financial instruments at fair value through profit or loss

Financial instruments are classified in this category if they are held for trading, or if they are designated by management under the fair value option. Instruments are classified as held for trading if they are:

- a) acquired principally for the purposes of selling or repurchasing in the near term;

 - b) part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking; or

 - c) a derivative, except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument.
- It is not possible to transfer a financial instrument out of this category whilst it is held or issued with the exception of non-derivative financial assets held for trading which may be transferred out of this category from 1st July 2008 after initial classification where:

- a) in rare circumstances, it is no longer held for the purpose of selling or repurchasing in the near term, or

- b) it is no longer held for the purpose of trading, it would have met the definition of a loan and receivable on initial classification and the Group has the intention and ability to hold it for the foreseeable future or until maturity.

Financial instruments included in this category are recognised initially at fair value and transaction costs are taken directly to the income statement. Gains and losses arising from changes in fair value are included directly in the income statement.

Regular way purchases and sales of financial instruments held for trading or designated under the fair value option are recognised on trade date, being the date on which the Group commits to purchase or sell the asset. The fair value option is used in the following circumstances:

- a) financial assets backing insurance contracts and financial assets backing investment contracts are designated at fair value through profit or loss because the related liabilities have cash flows that are contractually based on the performance of the assets or the related liabilities are insurance contracts whose measurement incorporates current information. Fair valuing the assets through profit and loss significantly reduces the recognition inconsistencies that would arise if the financial assets were classified as available for sale;
- b) financial assets, loans to customers, financial liabilities, financial guarantees and structured notes may be designated at fair value through profit or loss if they contain substantive embedded derivatives;
- c) financial assets, loans to customers, financial liabilities, financial guarantees and structured notes may be designated at fair value through profit or loss where doing so significantly reduces measurement inconsistencies that would arise if the related derivatives were treated as held for trading and the underlying financial instruments were carried at amortised cost; and
- d) certain private equity and other investments that are managed, and evaluated on a fair value basis in accordance with a documented risk management or investment strategy and reported to key management personnel on that basis.

[Loans and receivables](#)

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and which are not classified as available for sale. Loans and receivables are initially recognised at fair value, including direct and incremental transaction costs. They are subsequently valued at amortised cost, using the effective interest method (see accounting policy 6).

Regular way purchases and sales of loans and receivables are recognised on contractual settlement.

[Held to maturity](#)

Held to maturity investments are non-derivative financial assets with fixed or determinable payments that the Group's management has the intention and ability to hold to maturity. They are initially recognised at fair value including direct and incremental transaction costs. They are subsequently valued at amortised cost, using the effective interest method (see accounting policy 6).

Table of Contents

170

Consolidated accounts Barclays PLC

Accounting policies

continued

Regular way purchases of held to maturity financial assets are recognised on trade date, being the date on which the Group commits to purchase the asset.

Available for sale

Available for sale assets are non-derivative financial assets that are designated as available for sale and are not categorised into any of the other categories described above. They are initially recognised at fair value including direct and incremental transaction costs. They are subsequently held at fair value. Gains and losses arising from changes in fair value are included as a separate component of equity until sale when the cumulative gain or loss is transferred to the income statement. Interest determined using the effective interest method (see accounting policy 6), impairment losses and translation differences on monetary items are recognised in the income statement.

Regular way purchases and sales of available for sale financial instruments are recognised on trade date, being the date on which the Group commits to purchase or sell the asset.

A financial asset classified as available for sale that would have met the definition of loans and receivables may only be transferred from the available for sale classification where the Group has the intention and the ability to hold the asset for the foreseeable future or until maturity.

Embedded derivatives

Some hybrid contracts contain both a derivative and a non-derivative component. In such cases, the derivative component is termed an embedded derivative. Where the economic characteristics and risks of the embedded derivatives are not closely related to those of the host contract, and the host contract itself is not carried at fair value through profit or loss, the embedded derivative is bifurcated and reported at fair value with gains and losses being recognised in the income statement.

Profits or losses cannot be recognised on the initial recognition of embedded derivatives unless the host contract is also carried at fair value.

Derecognition of financial assets

The Group derecognises a financial asset, or a portion of a financial asset, where the contractual rights to that asset have expired. Derecognition is also appropriate where the rights to further cash flows from the asset have been transferred to a third party and, with them, either:

(i) substantially all the risks and rewards of the asset; or

(ii) significant risks and rewards, along with the unconditional ability to sell or pledge the asset.

Where significant risks and rewards have been transferred, but the transferee does not have the unconditional ability to sell or pledge the asset, the Group continues to account for the asset to the extent of its continuing involvement (continuing involvement accounting).

Edgar Filing: BARCLAYS PLC - Form 6-K

To assess the extent to which risks and rewards have been transferred, it is often necessary to perform a quantitative analysis. Such an analysis will compare the Group's exposure to variability in asset cash flows before the transfer with its retained exposure after the transfer.

Where neither derecognition nor continuing involvement accounting is appropriate, the Group continues to recognise the asset in its entirety and recognises any consideration received as a financial liability.

Loan commitments

Loan commitments, where the Group has a past practice of selling the resulting assets shortly after origination, are held at fair value through profit or loss. Other loan commitments are accounted for in accordance with accounting policy 23.

Financial liabilities

Financial liabilities are measured at amortised cost, except for trading liabilities and liabilities designated at fair value, which are held at fair value through profit or loss. Financial liabilities are derecognised when extinguished.

An exchange of an existing debt instrument for a new instrument with the lender on substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. An assessment is made as to whether the terms are substantially different considering qualitative and quantitative characteristics. For example, if the discounted present value calculated using the original effective interest rate of the cash flows under the new terms, including fees, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability, or if the qualitative assessment concludes that the nature and risk profile of the original financial liability is materially different from that of the new financial liability based on the terms of the instruments including repayment terms, coupon terms and call options, the original financial liability is extinguished.

When an exchange is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. The difference between the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Determining fair value

Where the classification of a financial instrument requires it to be stated at fair value, fair value is determined by reference to a quoted market price for that instrument or by using a valuation model. Where the fair value is calculated using valuation models, the methodology is to calculate the expected cash flows under the terms of each specific contract and then discount these values back to a present value. These models use as their basis independently sourced market parameters including, for example, interest rate yield curves, equities and commodities prices, option volatilities and currency rates. For financial liabilities measured at fair value, the carrying amount reflects the effect on fair value of changes in own credit spreads derived from observable market data, such as spreads on Barclays issued bonds or credit default swaps. Most market parameters are either directly observable or are implied from instrument prices. The model may perform numerical procedures in the pricing such as interpolation when input values do not directly correspond to the most actively traded market trade parameters. However, where valuations include significant unobservable inputs, the transaction price is deemed to provide the best evidence of initial fair value for accounting purposes. As such, profits or losses are recognised upon trade inception only when such profits can be measured solely by reference to observable market data. For valuations that include significant unobservable inputs, the difference between the model valuation and the initial transaction price is recognised in profit or loss:

Table of Contents

171

a) on a straight-line basis over the term of the transaction, or over the period until all model inputs will become observable where appropriate, or;

b) released in full where previously unobservable inputs become observable.

Various factors influence the availability of observable inputs and these may vary from product to product and change over time. Factors include, for example, the depth of activity in the relevant market, the type of product, whether the product is new and not widely traded in the marketplace, the maturity of market modelling and the nature of the transaction (bespoke or generic). To the extent that valuation is based on models or inputs that are not observable in the market, the determination of fair value can be more subjective, dependant on the significance of the unobservable input to the overall valuation. Unobservable inputs are determined based on the best information available, for example by reference to similar assets, similar maturities or other analytical techniques.

8. Impairment of financial assets

The Group assesses at each balance sheet date whether there is objective evidence that loans and receivables or available for sale financial investments are impaired. These are impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more loss events that occurred after the initial recognition of the asset and prior to the balance sheet date (a loss event) and that loss event or events has had an impact on the estimated future cash flows of the financial asset or the portfolio that can be reliably estimated. The criteria that the Group uses to determine that there is objective evidence of an impairment loss include:

a) significant financial difficulty of the issuer or obligor;

b) a breach of contract, such as a default or delinquency in interest or principal payments;

c) the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;

d) it becomes probable that the borrower will enter bankruptcy or other financial reorganisation;

e) the disappearance of an active market for that financial asset because of financial difficulties; or

f) observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:

Edgar Filing: BARCLAYS PLC - Form 6-K

(i) adverse changes in the payment status of borrowers in the portfolio;

(ii) national or local economic conditions that correlate with defaults on the assets in the portfolio.

For loans and receivables the Group first assesses whether objective evidence of impairment exists individually for loans and receivables that are individually significant, and individually or collectively for loans and

receivables that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed loan and receivable, whether significant or not, it includes the asset in a group of loans and receivables with similar credit risk characteristics and collectively assesses them for impairment. Loans and receivables that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

The amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The amount of the loss is recognised using an allowance account and recognised in the income statement.

Where appropriate, the calculation of the present value of the estimated future cash flows of a collateralised loan and receivable asset reflect the cash flows that may result from foreclosure costs for obtaining and selling the collateral, whether or not foreclosure is probable.

For the purposes of a collective evaluation of impairment, loans and receivables are grouped on the basis of similar risk characteristics, taking into account asset type, industry, geographical location, collateral type, past-due status and other relevant factors. These characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the counterparty's ability to pay all amounts due according to the contractual terms of the assets being evaluated.

Future cash flows in a group of loans and receivables that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets in the group and historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted based on current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not currently exist.

The methodology and assumptions used for estimating future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

Following impairment, interest income is recognised using the effective rate of interest which was used to discount the future cash flows for the purpose of measuring the impairment loss.

When a loan is uncollectable, it is written off against the related allowance for loan impairment. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off are credited to the income statement.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognised in the income statement.

Equity securities or properties acquired in exchange for loans in order to achieve an orderly realisation are accounted for as a disposal of the loan and an acquisition of equity securities or investment properties. Where control is obtained over an entity as a result of the transaction, the entity is consolidated. Any further impairment of the assets or business acquired is treated as an impairment of the relevant asset or business and not as an impairment of the original instrument.

Table of Contents

172

Consolidated accounts Barclays PLC

Accounting policies

continued

In the case of available for sale equity securities, a significant or prolonged decline in the fair value of the security below its cost is also considered in determining whether impairment exists. Where such evidence exists, the cumulative net loss that has been previously recognised directly in equity is removed from equity and recognised in the income statement. In the case of debt instruments classified as available for sale, impairment is assessed based on the same criteria as all other financial assets. Reversals of impairment of debt instruments are recognised in the income statement. Reversals of impairment of equity shares are not recognised in the income statement, increases in the fair value of equity shares after impairment are recognised directly in equity.

9. Sale and repurchase agreements (including stock borrowing and lending)

Securities may be lent or sold subject to a commitment to repurchase them (a repo). Such securities are retained on the balance sheet when substantially all the risks and rewards of ownership remain with the Group, and the counterparty liability is included separately on the balance sheet when cash consideration is received.

Similarly, where the Group borrows or purchases securities subject to a commitment to resell them (a reverse repo) but does not acquire the risks and rewards of ownership, the transactions are treated as collateralised loans when cash consideration is paid, and the securities are not included in the balance sheet.

The difference between sale and repurchase price is accrued over the life of the agreements using the effective interest method. Securities lent to counterparties are also retained in the financial statements. Securities borrowed are not recognised in the financial statements, unless these are sold to third parties, at which point the obligation to repurchase the securities is recorded as a trading liability at fair value and any subsequent gain or loss included in net trading income.

10. Securitisation transactions

The Group enters into securitisation transactions in respect of its own financial assets and to facilitate client transactions as described in Note 29 to the accounts.

All financial assets continue to be held on the Group balance sheet, and a liability recognised for the proceeds of the funding transaction, unless:

- a) substantially all the risks and rewards associated with the financial instruments have been transferred, in which case, the assets are derecognised in full; or
- b) if a significant portion, but not all, of the risks and rewards have been transferred, the asset is derecognised entirely if the transferee has the ability to sell the financial asset, otherwise the asset continues to be recognised only to the extent of the Group's continuing involvement.

Where a) or b) above applies to a fully proportionate share of all or specifically identified cash flows, the relevant accounting treatment is applied to that proportion of the asset.

11. Collateral and netting

The Group enters into master agreements with counterparties whenever possible and, when appropriate, obtains collateral. Master agreements provide that, if an event of default occurs, all outstanding transactions with the counterparty will fall due and all amounts outstanding will be settled on a net basis.

Collateral

The Group obtains collateral in respect of customer liabilities where this is considered appropriate. The collateral normally takes the form of a lien over the customer's assets and gives the Group a claim on these assets for both existing and future customer liabilities.

The Group also receives collateral in the form of cash or securities in respect of other credit instruments, such as stock borrowing contracts, and derivative contracts in order to reduce credit risk. Collateral received in the form of securities is not recorded on the balance sheet. Collateral received in the form of cash is recorded on the balance sheet with a corresponding liability. These items are assigned to deposits received from bank or other counterparties. Any interest payable or receivable arising is recorded as interest expense or interest income respectively except for funding costs relating to trading activities which are recorded in net trading income.

Netting

Financial assets and liabilities are offset and the net amount reported on the balance sheet if, and only if, there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise an asset and settle the liability simultaneously. In many cases, even though master netting agreements are in place, the lack of an intention to settle on a net basis results in the related assets and liabilities being presented gross on the balance sheet.

12. Hedge accounting

Derivatives are used to hedge interest rate, exchange rate, commodity, and equity exposures and exposures to certain indices such as house price indices and retail price indices related to non-trading positions.

Where derivatives are held for risk management purposes, and when transactions meet the required criteria, the Group applies fair value hedge accounting, cash flow hedge accounting, or hedging of a net investment in a foreign operation as appropriate to the risks being hedged.

When a financial instrument is designated as a hedge, the Group formally documents the relationship between the hedging instrument and hedged item as well as its risk management objectives and its strategy for undertaking the various hedging transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items.

The Group discontinues hedge accounting when:

- a) it is determined that a derivative is not, or has ceased to be, highly effective as a hedge;
- b) the derivative expires, or is sold, terminated, or exercised;
- c) the hedged item matures or is sold or repaid; or
- d) a forecast transaction is no longer deemed highly probable.

Table of Contents

173

In certain circumstances, the Group may decide to cease hedge accounting even though the hedge relationship continues to be highly effective by no longer designating the financial instrument as a hedging instrument. To the extent that the changes in the fair value of the hedging derivative differ from changes in the fair value of the hedged risk in the hedged item; or the cumulative change in the fair value of the hedging derivative differs from the cumulative change in the fair value of expected future cash flows of the hedged item, the hedge is deemed to include ineffectiveness. The amount of ineffectiveness, provided it is not so great as to disqualify the entire hedge for hedge accounting, is recorded in the income statement.

Fair value hedge accounting

Changes in fair value of derivatives that qualify and are designated as fair value hedges are recorded in the income statement, together with changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

If the hedge relationship no longer meets the criteria for hedge accounting, it is discontinued. For fair value hedges of interest rate risk, the fair value adjustment to the hedged item is amortised to the income statement over the period to maturity of the previously designated hedge relationship using the effective interest method.

If the hedged item is sold or repaid, the unamortised fair value adjustment is recognised immediately in the income statement.

Cash flow hedges

For qualifying cash flow hedges, the fair value gain or loss associated with the effective portion of the cash flow hedge is recognised initially in shareholders equity, and recycled to the income statement in the periods when the hedged item will affect profit or loss. Any ineffective portion of the gain or loss on the hedging instrument is recognised in the income statement immediately.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the hedged item is ultimately recognised in the income statement. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was recognised in equity is immediately transferred to the income statement.

Hedges of net investments

Hedges of net investments in foreign operations, including monetary items that are accounted for as part of the net investment, are accounted for similarly to cash flow hedges; the effective portion of the gain or loss on the hedging instrument is recognised directly in equity and the ineffective portion is recognised immediately in the income statement. The cumulative gain or loss previously recognised in equity is recognised in the income statement on the disposal or partial disposal of the foreign operation.

Hedges of net investments may include non-derivative liabilities as well as derivative financial instruments although for a non-derivative liability only the foreign exchange risk is designated as a hedge.

Derivatives that do not qualify for hedge accounting

Derivative contracts entered into as economic hedges that do not qualify for hedge accounting are held at fair value through profit or loss.

13. Property, plant and equipment

Property and equipment is stated at cost less accumulated depreciation and provisions for impairment, if required. Additions and subsequent expenditures are capitalised only to the extent that they enhance the future economic benefits expected to be derived from the assets.

Depreciation is provided on the depreciable amount of items of property and equipment on a straight-line basis over their estimated useful economic lives. The depreciable amount is the gross carrying amount, less the estimated residual value at the end of its useful economic life.

The Group uses the following annual rates in calculating depreciation:

Freehold buildings and long-leasehold property

(more than 50 years to run)	2-3.3%
Leasehold property (less than 50 years to run)	Over the remaining life of the lease
Costs of adaptation of freehold and leasehold property ^a	7-10%
Equipment installed in freehold and leasehold property ^a	7-10%
Computers and similar equipment	20-33%
Fixtures and fittings and other equipment	10-20%

Depreciation rates, methods and the residual values underlying the calculation of depreciation of items of property, plant and equipment are kept under review to take account of any change in circumstances.

When deciding on depreciation rates and methods, the principal factors the Group takes into account are the expected rate of technological developments and expected market requirements for, and the expected pattern of usage of, the assets. When reviewing residual values, the Group estimates the amount that it would currently obtain for the disposal of the asset after deducting the estimated cost of disposal if the asset were already of the age and condition expected at the end of its useful economic life.

No depreciation is provided on freehold land, although, in common with all long-lived assets, it is subject to impairment testing, if deemed appropriate.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the income statement.

Investment property is property held to earn rentals or for capital appreciation or for both rather than for sale or use in the business. The Group initially recognises investment properties at cost, and subsequently at their fair value at each balance sheet date reflecting market conditions at the reporting date. The fair value of investment property is determined by reference to current market prices for similar properties, adjusted as necessary for condition and location, or by reference to recent transactions updated to reflect current economic conditions. Discounted cash flow techniques may be employed to calculate fair value where there have been no recent transactions, using current external market inputs such as market rents and interest rates. Valuations are carried out by management with the support of appropriately qualified independent valuers.

Movements in fair value subsequent to initial recognition are included in the income statement. No depreciation is provided in respect of investment properties.

Note

- ^a Where leasehold property has a remaining useful life of less than 15 years, costs of adaptation and installed equipment are depreciated over the remaining life of the lease.

14. Intangible assets

Goodwill

Goodwill arises on the acquisition of subsidiaries and associates and joint ventures, and represents the excess of the fair value of the purchase consideration and direct costs of making the acquisition, over the fair value of the Group's share of the assets acquired, and the liabilities and contingent liabilities assumed on the date of the acquisition.

For the purpose of calculating goodwill, fair values of acquired assets, liabilities and contingent liabilities are determined by reference to market values or other valuation methodologies including discounted cash flow techniques, using market rates or by using risk-free rates and risk-adjusted expected future cash flows. Goodwill is capitalised and reviewed annually for impairment, or more frequently when there are indications that impairment may have occurred. Goodwill is allocated to cash-generating units for the purpose of impairment testing. Goodwill on acquisitions of associates and joint ventures is included in the amount of the investment. Gains and losses on the disposal of an entity include the carrying amount of the goodwill relating to the entity sold.

Computer software

Computer software is stated at cost, less amortisation and provisions for impairment, if required.

The identifiable and directly associated external and internal costs of acquiring and developing software are capitalised where the software is controlled by the Group, and where it is probable that future economic benefits that exceed its cost will flow from its use over more than one year. Costs associated with maintaining software are recognised as an expense when incurred.

Capitalised computer software is amortised over three to five years.

Other intangible assets

Other intangible assets consist of brands, customer lists, licences and other contracts, core deposit intangibles, mortgage servicing rights and customer relationships. Other intangible assets are initially recognised when they are separable or arise from contractual or other legal rights, the cost can be measured reliably and, in the case of intangible assets not acquired in a business combination, where it is probable that future economic benefits attributable to the assets will flow from their use. The value of intangible assets which are acquired in a business combination is generally determined using income approach methodologies such as the discounted cash flow method and the relief from royalty method that estimate net cash flows attributable to an asset over its economic life and discount to present value using an appropriate rate of return based on the cost of equity adjusted for risk.

Other intangible assets are stated at cost less amortisation and provisions for impairment, if any, and are amortised over their useful lives in a manner that reflects the pattern to which they contribute to future cash flows, generally over 4-25 years.

15. Impairment of property, plant and equipment and intangible assets

Edgar Filing: BARCLAYS PLC - Form 6-K

At each balance sheet date, or more frequently where events or changes in circumstances dictate, property, plant and equipment and intangible assets, are assessed for indications of impairment. If indications are present, these assets are subject to an impairment review. Goodwill is subject to an impairment review as at the balance sheet date each year. The impairment review comprises a comparison of the carrying amount of the asset with its recoverable amount: the higher of the asset's or the cash-generating unit's fair value less costs to sell and its value in use. Fair value less costs to sell is calculated by reference to the amount at which the asset could be disposed of in a binding sale agreement in an arm's length transaction evidenced by an active market or recent transactions for similar assets. Value in use is

calculated by discounting the expected future cash flows obtainable as a result of the asset's continued use, including those resulting from its ultimate disposal, at a market-based discount rate on a pre-tax basis.

The carrying values of fixed assets and goodwill are written down by the amount of any impairment and this loss is recognised in the income statement in the period in which it occurs. A previously recognised impairment loss relating to a fixed asset may be reversed in part or in full when a change in circumstances leads to a change in the estimates used to determine the fixed asset's recoverable amount. The carrying amount of the fixed asset will only be increased up to the amount that it would have been had the original impairment not been recognised. Impairment losses on goodwill are not reversed. For the purpose of conducting impairment reviews, cash-generating units are the lowest level at which management monitors the return on investment on assets.

16. Financial guarantees

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantees are initially recognised in the financial statements at fair value on the date that the guarantee was given. Other than where the fair value option is applied, subsequent to initial recognition, the Group's liabilities under such guarantees are measured at the higher of the initial measurement, less amortisation calculated to recognise in the income statement any fee income earned over the period, and any financial obligation arising as a result of the guarantees at the balance sheet date, in accordance with policy 23.

Any increase in the liability relating to guarantees is taken to the income statement in Provisions for undrawn contractually committed facilities and guarantees provided. Any liability remaining is recognised in the income statement when the guarantee is discharged, cancelled or expires.

17. Issued debt and equity securities

Issued financial instruments or their components are classified as liabilities where the contractual arrangement results in the Group having a present obligation to either deliver cash or another financial asset to the holder, to exchange financial instruments on terms that are potentially unfavourable or to satisfy the obligation otherwise than by the exchange of a fixed amount of cash or another financial asset for a fixed number of equity shares. Issued financial instruments, or their components, are classified as equity where they meet the definition of equity and confer on the holder a residual interest in the assets of the Group. The components of issued financial instruments that contain both liability and equity elements are accounted for separately with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component.

Financial liabilities, other than trading liabilities and financial liabilities designated at fair value, are carried at amortised cost using the effective interest method as set out in policy 6. Derivatives embedded in financial liabilities that are not designated at fair value are accounted for as set out in policy 7. Equity instruments, including share capital, are initially recognised at net proceeds, after deducting transaction costs and any related income tax. Dividend and other payments to equity holders are deducted from equity, net of any related tax.

18. Share capital

Share issue costs

Incremental costs directly attributable to the issue of new shares or options including those issued on the acquisition of a business are shown in equity as a deduction, net of tax, from the proceeds.

Table of Contents

175

Dividends on ordinary shares

Dividends on ordinary shares are recognised in equity in the period in which they are paid or, if earlier, approved by the Barclays PLC (the Company) shareholders.

Treasury shares

Where the Company or any member of the Group purchases the Company's share capital, the consideration paid is deducted from shareholders' equity as treasury shares until they are cancelled. Where such shares are subsequently sold or reissued, any consideration received is included in shareholders' equity.

19. Insurance contracts and investment contracts

The Group offers wealth management, term assurance, annuity, property and payment protection insurance products to customers that take the form of long- and short-term insurance contracts.

The Group classifies its wealth management and other products as insurance contracts where these transfer significant insurance risk, generally where the benefits payable on the occurrence of an insured event are at least 5% more than the benefits that would be payable if the insured event does not occur.

Contracts that do not contain significant insurance risk or discretionary participation features are classified as investment contracts. Financial assets and liabilities relating to investment contracts, and assets backing insurance contracts are classified and measured as appropriate under IAS 39, 'Financial Instruments: Recognition and Measurement' as set out in policy 7.

Long-term insurance contracts

These contracts insure events associated with human life (for example, death or survival) over a long duration. Premiums are recognised as revenue when they become payable by the contract holder. Claims and surrenders are accounted for when notified. Maturities on the policy maturity date and regular withdrawals are accounted for when due.

A liability for contractual benefits that are expected to be incurred in the future is recorded when the premiums are recognised, based on the expected discounted value of the benefit payments and directly related administration costs, less the expected discounted value of the future premiums that would be required to meet the benefits and other expenses. The calculation of the liability contains assumptions regarding mortality, maintenance expenses and investment income.

Liabilities under unit-linked life insurance contracts (such as endowment policies) in addition reflect the value of assets held within unitised investment pools.

Short-term insurance contracts

Under its payment protection insurance products the Group is committed to paying benefits to the policyholder rather than forgiving interest or principal on the occurrence of an insured event, such as unemployment, sickness, or injury. Property insurance contracts mainly compensate the policyholders for damage to their property or for the value of property lost.

Premiums are recognised as revenue proportionally over the period of the coverage. Claims and claims handling costs are charged to income as incurred, based on the estimated liability for compensation owed to policyholders arising from events that have occurred up to the balance sheet date even if they have not yet been reported to the Group, based on assessments of individual cases reported to the Group and statistical analyses for the claims incurred but not reported.

Edgar Filing: BARCLAYS PLC - Form 6-K

Deferred acquisition costs (DAC)

Commissions and other costs that are related to securing new insurance and investment contracts are capitalised and amortised over the estimated lives of the relevant contracts.

Deferred income liability

Fees that are designed to recover commissions and other costs related to either securing new insurance and investment contracts or renewing existing investment contracts are included as a liability and amortised over the estimated life of the contract.

Value of business acquired

On acquisition of a portfolio of contracts, such as through the acquisition of a subsidiary, the Group recognises an intangible asset representing the value of business acquired (VOBA), representing the future profits embedded in acquired insurance contracts and investment contracts with a discretionary participation feature. The asset is amortised over the remaining terms of the acquired contracts.

Liability adequacy test

Liability adequacy tests are performed at each balance sheet date to ensure the adequacy of contract liabilities net of DAC and VOBA assets. Current best estimates of future contractual cash flows, claims handling and administration costs, and investment returns from the assets backing the liabilities are taken into account in the tests. Where a deficiency is highlighted by the test, DAC and VOBA assets are written off first, and insurance liabilities increased when these are written off in full.

Any deficiency is immediately recognised in the income statement.

Reinsurance

Short- and long-term insurance business is ceded to reinsurers under contracts to transfer part or all of one or more of the following risks: mortality, investment and expenses. All such contracts are dealt with as insurance contracts. The benefits to which the Group is entitled under its reinsurance contracts are recognised as reinsurance assets. The Group assesses reinsurance assets at each balance sheet date. If there is objective evidence of impairment, the carrying amount of the reinsurance asset is reduced accordingly, resulting in a charge to the income statement.

20. Leases

Lessor

Assets leased to customers under agreements, which transfer substantially all the risks and rewards of ownership, with or without ultimate legal title, are classified as finance leases. When assets are held subject to a finance lease, the present value of the lease payments, discounted at the rate of interest implicit in the lease, is recognised as a receivable. The difference between the total payments receivable under the lease and the present value of the receivable is recognised as unearned finance income, which is allocated to accounting periods under the pre-tax net investment method to reflect a constant periodic rate of return.

Assets leased to customers under agreements which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. The leased assets are included within property, plant and equipment on the Group's balance sheet and depreciation is provided on the depreciable amount of these assets on a systematic basis over their estimated useful lives. Lease income is recognised on a straight-line basis over the period of the lease unless another systematic basis is more appropriate.

Lessee

The leases entered into by the Group are primarily operating leases.

Operating lease rentals payable are recognised as an expense in the income statement on a straight-line basis over the lease term unless another systematic basis is more appropriate.

Table of Contents

Consolidated accounts Barclays PLC

Accounting policies

continued

21. Employee benefits

The Group provides employees worldwide with post-retirement benefits mainly in the form of pensions. The Group operates a number of pension schemes which may be funded or unfunded and of a defined contribution or defined benefit nature. In addition, the Group contributes, according to local law in the various countries in which it operates, to Governmental and other plans which have the characteristics of defined contribution plans.

For defined benefit schemes, actuarial valuation of each of the scheme's obligations using the projected unit credit method and the fair valuation of each of the scheme's assets are performed annually, using the assumptions set out in Note 30. The difference between the fair value of the plan assets and the present value of the defined benefit obligation at the balance sheet date, adjusted for any historic unrecognised actuarial gains or losses and past service cost, is recognised as a liability in the balance sheet. An asset arising, for example, as a result of past over funding or the performance of the plan investments, is recognised to the extent that it does not exceed the present value of future contribution holidays or refunds of contributions. Gains and losses on curtailments are recognised when the curtailment occurs which is when there is a demonstrable commitment to make a significant reduction in the number of employees covered by the plan or amendments have been made to the terms of the plan so that a significant element of future service will no longer qualify for benefits or will qualify only for reduced benefits. The gain or loss comprises any resulting change in the present value of the defined benefit obligation, any resulting change in the fair value of the plan assets and any related actuarial gain or loss that had not previously been recognised since they fell within the corridor.

Cumulative actuarial gains and losses in excess of the greater of 10% of the assets or 10% of the obligations of the plan (the corridor) are recognised in the income statement over the remaining average service lives of the employees of the related plan, on a straight-line basis.

For defined contribution schemes, the Group recognises contributions due in respect of the accounting period in the income statement. Any contributions unpaid at the balance sheet date are included as a liability.

The Group also provides health care benefits to certain retired employees, which are accrued as a liability in the financial statements over the period of employment, using a methodology similar to that for defined benefit pensions plans.

Short-term employee benefits, such as salaries, paid absences, and other benefits including any related payroll taxes are accounted for on an accruals basis over the period in which the employees provide the related services. Bonuses are recognised to the extent that the Group has a present obligation to its employees that can be measured reliably.

All expenses related to employee benefits are recognised in the income statement in staff costs, which is included within operating expenses.

22. Share-based payments to employees

The Group engages in equity settled share-based payment transactions in respect of services received from certain of its employees. The fair value of the services received is measured by reference to the fair value of the shares or share options granted on the date of the grant. The cost of the employee services received in respect of the shares or share options granted is recognised in the income statement over the period that the services are received, which is the vesting period. The

Edgar Filing: BARCLAYS PLC - Form 6-K

fair value of the options granted is determined using option pricing models, which take into account the exercise price of the option, the current share price, the risk-free interest rate, the expected volatility of the share price over the life of the option and other relevant factors. Except for those which include terms related to market conditions, vesting conditions, which are service conditions or performance conditions, included in the terms of the grant are not taken into account in estimating fair value. Non-market vesting conditions are taken into account by adjusting the number of shares or share options included in the measurement of the cost of employee services so that ultimately, the amount recognised in the income statement reflects the number of vested shares or options. Where vesting conditions are related to market conditions, the charges for the services received are recognised regardless of whether or not the market-related vesting condition is met, provided that the non-market vesting conditions are met. Similarly, non-vesting conditions, which are other conditions not being service conditions or performance conditions, are taken into account in estimating the grant date fair value and share-based payment charges and are recognised when all non-market vesting conditions are satisfied irrespective of whether the non-vesting

conditions are satisfied. If meeting a non-vesting condition is a matter of choice, failure to meet the non-vesting condition is treated as a cancellation, resulting in an acceleration of recognition of the cost of the employee services.

23. Provisions

Provisions are recognised for present obligations arising as consequences of past events where it is more likely than not that a transfer of economic benefit will be necessary to settle the obligation, and it can be reliably estimated.

When a leasehold property ceases to be used in the business or a demonstrable commitment has been made to cease to use a property, provision is made where the unavoidable costs of the future obligations relating to the lease are expected to exceed anticipated rental income and other benefits. The net costs are discounted using market rates of interest to reflect the long-term nature of the cash flows.

Provision is made for the anticipated cost of restructuring, including redundancy costs when an obligation exists. An obligation exists when the Group has a detailed formal plan for restructuring a business and has raised valid expectations in those affected by the restructuring by starting to implement the plan or announcing its main features. The provision raised is normally utilised within nine months.

Provision is made for undrawn loan commitments and similar facilities if it is probable that the facility will be drawn and result in the recognition of an asset at an amount less than the amount advanced.

Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is uncertain or cannot be reliably measured. Contingent liabilities are not recognised but are disclosed unless they are remote.

24. Taxes, including deferred taxes

Income tax payable on taxable profits (Current Tax), is recognised as an expense in the period in which the profits arise. Income tax recoverable on tax allowable losses is recognised as an asset only to the extent that it is regarded as recoverable by offset against current or future taxable profits.

Deferred income tax is provided in full, using the liability method, on temporary differences arising from the differences between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rates and legislation enacted or substantially enacted by the balance sheet date which are expected to apply when the deferred tax asset is realised or the deferred tax liability is settled. Current Tax assets and liabilities are only offset when they arise in the same tax reporting group and where there is both the legal right and the intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

25. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Executive Committee. The Executive Committee, which is responsible for allocating resources and assessing performance of the operating segments, has been identified as the chief operating decision maker.

All transactions between business segments are conducted on an arm's length basis, with intra-segment revenue and costs being eliminated in Head Office. Income and expenses directly associated with each segment are included in determining business segment performance.

26. Cash and cash equivalents

For the purposes of the cash flow statement, cash comprises cash on hand and demand deposits, and cash equivalents comprise highly liquid investments that are convertible into cash with an insignificant risk of changes in value with original maturities of less than three months.

Repurchase and reverse repurchase agreements are not considered to be part of cash equivalents.

27. Trust activities

The Group commonly acts as trustees and in other fiduciary capacities that result in the holding or placing of assets on behalf of individuals, trusts, retirement benefit plans and other institutions. These assets and income arising thereon are excluded from these financial statements, as they are not assets of the Group.

Accounting developments

Changes to Accounting Policy

The Group has continued to apply the accounting policies used for the 2008 Annual Report and has adopted the following:

The 2008 amendments to IFRS 2 – Shared-Based Payment-Vesting Conditions and Cancellations which has led to a change in accounting for share-based payments to employees. As a result, non-vesting conditions are taken into account in estimating the grant date fair value and the timing of recognition of charges. No prior year adjustments have been made as the impact on previous years is immaterial

IFRS 7 – Improving Disclosures about Financial Instruments, an amendment to IFRS 7 – Financial Instruments: Disclosures, which has resulted in additional disclosures being made regarding liquidity risk and fair value of financial instruments

IAS 1 – Presentation of Financial Statements (revised), which has resulted in the reformatting of the statement of recognised income and expense into a statement of comprehensive income and the addition of a statement of changes in equity. This does not change the recognition, measurement or disclosure of specific transactions and events required by other standards

Future accounting developments

Consideration will be given during 2010 to the implications, if any, of the following revised standards as follows:

IFRS 3 – Business Combinations and IAS 27 – Consolidated and Separate Financial Statements are revised standards issued in January 2008. The revised IFRS 3 applies prospectively to business combinations first accounted for in accounting periods beginning on or after 1st July 2009 and the amendments to IAS 27 apply retrospectively to periods beginning on or after 1st July 2009. The main changes in existing practice resulting from the revision to IFRS 3 affect acquisitions that are achieved in stages and acquisitions where less than 100% of the equity is acquired. In addition, acquisition-related costs – such as fees paid to advisers – must be accounted for separately from the business combination, which means that they will be recognised as expenses unless they are directly connected with the issue of debt or equity securities. The revisions to IAS 27 specify that changes in a Parent’s ownership interest in a subsidiary that do not result in the loss of control must be accounted for as equity transactions. Until future acquisitions take place that are accounted for in accordance with the revised IFRS 3, the main impact on Barclays will be that, from 2010, gains and losses on transactions with non-controlling interests that do not result in loss of control will no longer be recognised in the income statement but directly in equity. In 2009, gains of £3m were recognised in income relating to such transactions.

The following standards and amendments to existing standards have been published and are mandatory for the Group’s accounting periods beginning on or after 1st January 2010 or later periods, but have not been adopted. They are not expected to result in significant changes to the Group’s accounting policies.

Edgar Filing: BARCLAYS PLC - Form 6-K

Embedded derivatives: Amendments to IFRIC 9 and IAS 39

Group cash-settled share-based payment transactions: Amendments to IFRS 2

Eligible Hedged Items (an amendment to IAS 39)

IFRS classification of rights issues: Amendment to IAS 32

IAS 24 Related Party Disclosures

Prepayments and minimum funding requirements (Amendments to IFRIC 14)

IFRIC 17 Distribution of non-cash assets to owners

IFRIC 18 Transfers of assets from customers

IFRIC 19 Extinguishing financial liabilities with equity instruments

Improvements to IFRS 2008

Improvements to IFRS 2009

IFRS 9 Financial Instruments: Classification and Measurement was published on 12th November 2009. It is the first phase of a project to replace IAS 39 and will ultimately result in fundamental changes in the way that the Group accounts for financial instruments. Adoption of the standard is not mandatory until accounting periods beginning on or after 1st January 2013 but early adoption is permitted. However, it is not available for adoption in the EU until it has been endorsed.

The main differences from IAS 39 are as follows:

All financial assets, except for certain equity investments, would be classified into two categories:

amortised cost, where they generate solely payments of interest and principal and the business model is to collect contractual cash flows that represent principal and interest; or

fair value through profit or loss.

Certain non-trading equity investments would be classified at fair value through profit or loss or fair value through Other comprehensive income with dividends recognised in net income.

Embedded derivatives are no longer considered for bifurcation but are included in the assessment of the cash flows for the classification of the financial asset as a whole.

Edgar Filing: BARCLAYS PLC - Form 6-K

Financial assets which meet the requirements for classification at amortised cost are optionally permitted to be measured at fair value if that eliminates or significantly reduces an accounting mismatch.

Reclassifications are required if, and only if, there is a change in the business model.

Aspects of financial instrument accounting which will be addressed in future phases of the project include the accounting for financial liabilities, impairment of amortised cost financial assets and hedge accounting. The Group is assessing the impacts of the first phase in the project, as well as following developments in the future phases.

Other			14
	114,340	64,509	33,077

Interest received in 2009 was £32,437m (2008: £41,017m, 2007: £49,441m) and interest paid in 2009 was £20,889m (2008: £38,975m, 2007: £37,821m). The Group is required to maintain balances with central banks and other regulatory authorities and these amounted to £2,470m at 31st December 2009 (2008: £1,050m).

Note

- a Other non-cash movements principally comprise movements in exchange rates and the fair value of available for sale investments less subordinated debt hedging.

The Parent Company's principal activity is to hold the investment in its wholly-owned subsidiary, Barclays Bank PLC. Dividends received are treated as operating income.

The Company was not exposed at 31st December 2009 or 2008 to significant risks arising from the financial instruments it holds; which comprised cash, balances with central banks and other assets which had no credit or market risk.

Non-cash transactions

During 2008 Barclays Bank PLC issued £4,050m of Mandatorily Convertible Notes (MCNs), which had mandatorily converted into ordinary shares of Barclays PLC by 30th June 2009. Barclays PLC's right to receive the MCNs was included in other assets in 2008, with a corresponding increase, net of issue costs, in other equity. In 2009, Barclays PLC waived its rights over the MCNs, which have been added to its cost of investment in its subsidiary.

The accompanying notes form an integral part of the accounts.

Notes to the accounts**For the year ended 31st December 2009****1 Dividends per share**

The Directors have recommended the final dividend in respect of 2009 of 1.5p per ordinary share of 25p each, amounting to a total of £176m, which will be paid on 19th March 2010. The financial statements for the year ended 31st December 2009 do not reflect these dividends, which will be accounted for in shareholders equity as an appropriation of retained profits in the year ending 31st December 2010. The financial statements to 31st December 2009 include the 2009 interim dividend of £113m.

2 Net interest income

	2009	2008	2007
	£m	£m	£m
Interest arising from:			
Cash and balances with central banks	131	174	145
Available for sale investments	1,937	2,355	2,580
Loans and advances to banks	513	1,267	1,416
Loans and advances to customers	18,456	23,754	19,559
Other interest income	199	460	1,596
Interest income	21,236	28,010	25,296
Deposits from banks	(634)	(2,189)	(2,720)
Customer accounts	(2,716)	(6,697)	(4,110)
Debt securities in issue	(3,889)	(5,910)	(6,651)
Subordinated liabilities	(1,718)	(1,349)	(878)
Other interest expense	(361)	(396)	(1,339)
Interest expense	(9,318)	(16,541)	(15,698)
Net interest income	11,918	11,469	9,598

Interest income includes £185m (2008: £135m, 2007: £113m) arising from impaired loans.

Other interest income principally includes interest income relating to reverse repurchase agreements. Similarly, other interest expense principally includes interest expense relating to repurchase agreements and hedging activity.

Included in net interest income is hedge ineffectiveness as detailed in Note 14.

An analysis of the impairment charges by class of financial instrument is included in Note 47.

8 Staff costs

	2009	2008	2007
	£m	£m	£m
Salaries and accrued incentive payments	8,081	5,787	6,322
Social security costs	606	444	480
Pension costs – defined contribution plans	224	221	119
Pension costs – defined benefit plans (Note 30)	(33)	89	150
Other post-retirement benefits (Note 30)	16	1	9
Other	1,054	662	531
Staff costs	9,948	7,204	7,611

Included in salaries and incentive payments is £290m (2008: £257m, 2007: £551m) arising from equity settled share-based payments, of which £56m (2008: £23m, 2007: £60m) is a charge related to option-based schemes and of which £12m (2008: £35m, 2007: £74m) relates to discontinued operations. Also included is £8m (2008: £3m, 2007: £8m) arising from cash settled share-based payments.

In December 2009, the UK government announced that the Finance Bill 2010 will introduce a bank payroll tax of 50% applicable to discretionary bonuses over £25,000 awarded to UK bank employees between 9th December 2009 and 5th April 2010. Draft legislation and further guidance on its application has been published. Based on this, and in accordance with IAS 19 – Employee benefits, the Group has accrued for the estimated tax payable in respect of employee services provided during the period. For 2009, £190m has been included within Other Staff Costs in respect of 2009 cash awards. A further provision of £35m has also been included in Other Staff Costs in respect of certain prior year awards being distributed during the tax window, which may fall within the proposed legislation.

Edgar Filing: BARCLAYS PLC - Form 6-K

Staff costs above relate to continuing operations only. Total staff costs for the Group (including both continuing and discontinued operations) was

£10,683m (2008: £7,779m, 2007: £8,405m) comprising salaries and accrued incentive payments of £8,595m (2008: £6,273m, 2007: £6,993m), social security costs of £621m (2008: £464m, 2007: £508m), pension costs of £217m (2008: £326m, 2007: £291m), other post-retirement benefits of £19m (2008: £1m, 2007: £10m) and other staff costs of £1,231m (2008: £715m, 2007: £603m).

The total average number of persons employed by the Group (including both continuing and discontinued operations) during the year was 153,800 (2008: 151,500).

The figures shown in the above table relate to fees paid to PricewaterhouseCoopers LLP and its associates for continuing operations of business. Fees paid to other auditors not associated with PricewaterhouseCoopers LLP in respect of the audit of the Company's subsidiaries were £3m (2008: £3m, 2007: £2m).

Edgar Filing: BARCLAYS PLC - Form 6-K

- a) Fees payable for the audit of the Company's associates pursuant to legislation comprise the fees for the statutory audit of the subsidiaries and associated pension schemes both inside and outside Great Britain and fees for the work performed by the associates of PricewaterhouseCoopers LLP in respect of the consolidated financial statements of the Company. The fees relating to the audit of the associated pension schemes were £0.5m (2008: £0.2m, 2007: £0.3m).

- b) Other services supplied pursuant to such legislation comprise services in relation to statutory and regulatory filings. These include audit services for the review of the interim financial information under the Listing Rules of the UK listing authority and fees paid for reporting under Section 404 of the US Sarbanes-Oxley Act (Section 404). In 2009 and 2008 fees paid for reporting under Section 404 are not separately identifiable from the fees of the audit of the Group's annual accounts and the Company's associates.

- c) Other services relating to taxation include compliance services such as tax return preparation and advisory services such as consultation on tax matters, tax advice relating to transactions and other tax planning and advice.

- d) Services relating to corporate finance transactions comprise due diligence related to transactions and other work in connection with such transactions. Excluded from the total auditors' remuneration above are fees paid to PricewaterhouseCoopers LLP and associates relating to BGI (discontinued operations) of £4m (2008: £3m, 2007: £8m).

continued

10 Tax

The charge for tax is based upon the UK corporation tax rate of 28% (2008: 28.5%, 2007: 30%) and comprises:

	2009	2008	2007
	£m	£m	£m
Current tax charge/(credit)			
Current year	1,249	1,201	2,013
Adjustment for prior years	(118)	98	10
	1,131	1,299	2,023
Deferred tax charge/(credit)			
Current year	45	(577)	(297)
Adjustment for prior years	(102)	(269)	(27)
	(57)	(846)	(324)
Total charge	1,074	453	1,699

The effective tax rate for the years 2009, 2008 and 2007 is lower than the standard rate of corporation tax in the UK of 28% (2008: 28.5%, 2007: 30%). The differences are set out below:

	2009	2008	2007
	£m	£m	£m
Profit before tax	4,585	5,136	6,223
Tax charge at standard UK corporation tax rate of 28% (2008: 28.5%, 2007: 30%)	1,284	1,464	1,867
Adjustment for prior years	(220)	(171)	(17)
Effect of overseas tax rates different from UK standard tax rate	(27)	175	(82)
Non-taxable gains and income (including amounts offset by unrecognised tax losses)	(112)	(859)	(136)
Share-based payments	(38)	201	71
Deferred tax assets not recognised/(previously not recognised)	27	(504)	(159)
Change in tax rates	(12)	(1)	24
Other non-allowable expenses	172	148	131
Overall tax charge	1,074	453	1,699
Effective tax rate	23%	9%	27%

Edgar Filing: BARCLAYS PLC - Form 6-K

The effective tax rate for 2009, based on profit before tax on continuing operations was 23.4% (2008: 8.8%). The effective tax rate differs from the UK tax rate of 28% (2008: 28.5%) because of non-taxable gains and income, different tax rates applied to taxable profits and losses outside the UK, disallowed expenditure and adjustments in respect of prior years. The low effective tax rate of 8.8% on continuing operations in 2008 mainly resulted from the Lehman Brothers North American business acquisition.

	2009	2008	2007
	million	million	million
Basic weighted average number of shares in issue	10,890	7,389	6,410
Number of potential ordinary shares	594	188	177
Diluted weighted average number of shares	11,484	7,577	6,587
	p	p	p
Basic earnings per share	86.2	59.3	68.9
Continuing operations	24.1	51.4	60.6
Discontinued operations	62.1	7.9	8.3
Diluted earnings per share	81.6	57.5	66.9
Continuing operations	22.7	49.8	58.8
Discontinued operations	58.9	7.7	8.1

The calculation of basic earnings per share is based on the profit attributable to equity holders of the Parent and the number of basic weighted average number of shares excluding own shares held in employee benefits trusts and shares held for trading.

The basic weighted average number of shares in issue in the year ended 31st December 2009 reflects the full year impact of the 1,803 million shares issued during 2008, the 2,642 million shares that were issued during the first six months of 2009 following conversion in full of the Mandatorily Convertible Notes, and the weighted average impact of the 379 million warrants exercised during 2009. The increase in the number of potential ordinary shares is primarily driven by the warrants issued in 2008 becoming dilutive in 2009 as the average share price exceeded the warrants' exercise price.

When calculating the diluted earnings per share, the profit attributable to equity holders of the Parent is adjusted for the dilutive impact of the potential conversion of outstanding options held in respect of Absa Group Limited that would increase the Group's non-controlling interests on exercise. In addition, the weighted average number of shares in issue is adjusted for the effects of all dilutive potential ordinary shares held in respect of Barclays PLC, totalling 594 million (2008: 188 million, 2007: 177 million).

Of the total number of employee share options and share awards at 31st December 2009, 97 million were anti-dilutive (2008: 64 million, 2007: nil).

Subsequent to the balance sheet date, the Group continued to make on-market purchases of treasury shares for the purposes of satisfying its various employee share schemes. No adjustment has been made to earnings per share in respect of these purchases.

12 Trading portfolio

	2009	2008
	£m	£m
Trading portfolio assets

Notes to the accounts**For the year ended 31st December 2009**

continued

13 Financial assets designated at fair value**Held on own account**

	2009	2008
	£m	£m
Loans and advances	22,390	30,187
Debt securities	4,007	8,628
Equity securities	6,256	6,496
Other financial assets	8,658	9,231

Financial assets designated at fair value held on own account **41,311** 54,542

The maximum exposure to credit risk on loans and advances designated at fair value at 31st December 2009 was £22,390m (2008: £30,187m). The amount by which related credit derivatives and similar instruments mitigate the exposure to credit risk at 31st December 2009 was £1,416m (2008: £2,084m).

The net loss attributable to changes in credit risk for loans and advances designated at fair value was £2,370m in 2009 (2008: £2,550m). The gains on related credit derivatives was £229m for the year (2008: £519m).

The cumulative net loss attributable to changes in credit risk for loans and advances designated at fair value since initial recognition is £5,321m at 31st December 2009 (2008: £2,951m). The cumulative change in fair value of related credit derivatives at 31st December 2009 is £744m (2008: £515m).

Held in respect of linked liabilities to customers under investment contracts/liabilities arising from investment contracts

	2009	2008
	£m	£m
Financial assets designated at fair value held in respect of linked liabilities to customers under investment contracts	1,257	66,657
Cash and bank balances within the portfolio	422	2,526

Assets held in respect of linked liabilities to customers under investment contracts **1,679** 69,183

Liabilities to customers under investment contracts **(1,679)** (69,183)

A portion of the Group's fund management business in 2008, mostly relating to BGI, takes the legal form of investment contracts, under which legal title to the underlying investment is held by the Group, but the inherent risks and rewards in the investments are borne by the investors. In the normal course of business, the Group's financial interest in such investments is restricted to fees for investment management services.

Due to the nature of these contracts, the carrying value of the assets is always the same as the value of the liabilities and any change in the value of the assets results in an equal but opposite change in the value of the amounts due to the policyholders.

Edgar Filing: BARCLAYS PLC - Form 6-K

The Group is therefore not exposed to the financial risks – market risk, credit risk and liquidity risk – inherent in the investments and they are omitted from the disclosures on financial risks in Notes 47 to 49.

On the balance sheet, the assets are included as Financial assets designated at fair value – held in respect of linked liabilities to customers under investment contracts –. Balances within the portfolio have been included in the Group's cash balances. The associated obligation to deliver the value of the investments to customers at their fair value on-balance sheet date is included as Liabilities to customers under investment contracts –.

The increase/decrease in fair value arising from the return on the investments and the corresponding increase/decrease in linked liabilities to customers is disclosed in Note 6.

Table of Contents**14 Derivative financial instruments**

The Group's objectives and policies on managing the risks that arise in connection with derivatives, including the policies for hedging, are included in Notes 46 to 49.

The fair values and notional amounts of derivative instruments held for trading are set out in the following table:

Forward foreign exchange	5,386	18	(103)			
Exchange traded interest rate swaps	32,257			18,767		
Derivatives designated as fair value hedges	58,054	438	(618)	35,702	1,459	(572)
Derivatives designated as hedges of net investments						
Forward foreign exchange	5,321	22	(97)	2,019	4	(76)
Currency swaps	971		(137)	3,675	21	(1,563)
Derivatives designated as hedges of net investment	6,292	22	(234)	5,694	25	(1,639)
Derivative assets/(liabilities) held for risk management	180,018	1,177	(1,397)	124,950	2,806	(4,001)
Interest rate derivatives, designated as cash flow hedges, primarily hedge the exposure to cash flow variability from interest rates of variable rate loans to banks and customers, variable rate debt securities held and highly probable forecast financing transactions and reinvestments.						

Interest rate derivatives designated as fair value hedges primarily hedge the interest rate risk of fixed rate borrowings in issue, fixed rate loans to banks and customers and investments in fixed rate debt securities held.

Edgar Filing: BARCLAYS PLC - Form 6-K

Currency derivatives are primarily designated as hedges of the foreign currency risk of net investments in foreign operations.

The Group's total derivative asset and liability position as reported on the balance sheet is as follows:

	Notional contract amount £m	2009 Fair value		Notional contract amount £m	2008 Fair value	
		Assets £m	Liabilities £m		Assets £m	Liabilities £m
Year ended 31st December						
Total derivative assets/(liabilities) held for trading	39,131,979	415,638	(402,019)	45,740,782	981,996	(964,071)
Total derivative assets/(liabilities) held for risk management	180,018	1,177	(1,397)	124,950	2,806	(4,001)
Derivative assets/(liabilities)	39,311,997	416,815	(403,416)	45,865,732	984,802	(968,072)

Derivative assets and liabilities subject to counterparty netting agreements amounted to £343bn (2008: £862bn). Additionally, the Group held £31bn (2008: £55bn) of collateral against the net derivative assets exposure.

Table of Contents

195

14 Derivative financial instruments continued

The Group has hedged the following forecast cash flows, which primarily vary with interest rates. These cash flows are expected to impact the income statement in the following periods, excluding any hedge adjustments that may be applied:

	Total £m	Up to one year £m	Between one to two years £m	Between two to three years £m	Between three to four years £m	Between four to five years £m	More than five years £m
2009							
Forecast receivable cash flows	3,304	467	838	837	700	370	92
Forecast payable cash flows	558	51	96	122	145	116	28
2008							
Forecast receivable cash flows	2,569	875	586	596	347	127	38
Forecast payable cash flows	974	275	166	175	145	123	90

The maximum length of time over which the Group hedges exposure to the variability in future cash flows for forecast transactions, excluding those forecast transactions related to the payment of variable interest on existing financial instruments, is nine years (2008: seven years).

All gains or losses on hedging derivatives relating to forecast transactions, which are no longer expected to occur, have been recycled to the income statement.

A loss of £1,478m on hedging instruments was recognised in relation to fair value hedges in net interest income (2008: £2,439m gain). A gain of £1,604m on the hedged items was recognised in relation to fair value hedges in net interest income (2008: £2,423m loss).

Ineffectiveness recognised in relation to cash flow hedges in net interest income was a gain of £21m (2008: £14m gain). Ineffectiveness recognised in relation to hedges of net investment was a loss of £5m (2008: £2m gain).

17 Securities borrowing, securities lending, repurchase and reverse repurchase agreements

Amounts included in the balance sheet and reported on a net basis where the Group has the intention and the legal ability to settle net or realise simultaneously were as follows:

a) Reverse repurchase agreements and cash collateral on securities borrowed

Amounts advanced to counterparties under reverse repurchase agreements and cash collateral provided under stock borrowing agreements are treated as collateralised loans receivable. The related securities purchased or borrowed subject to an agreement with the counterparty to repurchase them are not recognised on-balance sheet where the risks and rewards of ownership remain with the counterparty.

2009	2008
£m	£m

Edgar Filing: BARCLAYS PLC - Form 6-K

Banks	67,872	55,471
Customers	75,559	74,883
Reverse repurchase agreements and cash collateral held on securities borrowed	143,431	130,354
b) Repurchase agreements and cash collateral on securities lent		

Securities that are not recorded on the balance sheet (for example, securities that have been obtained as a result of reverse repurchase and stock borrowing transactions) may also be lent or sold subject to a commitment to repurchase – such securities remain off-balance sheet. In both instances, amounts received from counterparty are treated as liabilities, which at 31st December were as follows:

	2009	2008
	£m	£m
Banks	93,692	87,403
Customers	105,089	94,882
Repurchase agreements and cash collateral on securities lent	198,781	182,285
18 Other assets

Edgar Filing: BARCLAYS PLC - Form 6-K

	(858)	11	(122)	403	356	532	1,659	342	41	2,364
Liabilities	(945)	(46)	(368)						(1,075)	(2,434)
Assets	87	57	246	403	356	532	1,659	342	1,116	4,798
At 31st December 2008	(858)	11	(122)	403	356	532	1,659	342	41	2,364

The amount of deferred tax liability expected to be settled after more than 12 months is £955m (2008: £1,949m).

The amount of deferred tax asset expected to be recovered after more than 12 months is £2,446m (2008: £4,593m).

The deferred tax assets balance includes £197m (2008: £2,139m) which is the excess deferred tax assets over deferred tax liabilities in entities which have suffered a loss in either the current or prior year. This is based on management assessment that it is probable that the relevant entities will have taxable profits against which the temporary differences can be utilised.

Deferred tax assets have not been recognised in respect of deductible temporary differences (gross) of £4m (2008: £9m), unused tax losses (gross) of £8,542m (2008: £4,083m loss) and unused tax credits of £nil (2008: £46m). Tax losses of £8,516m expire in 2029. The other tax losses, tax credits and temporary differences do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Group can utilise benefits. The unused tax losses include amounts relating to non-UK branches of Barclays Bank PLC where the future tax benefit might be restricted to the amount in excess of the UK rate.

The amount of temporary differences associated with investments in subsidiaries, branches, associates and joint ventures for which deferred tax liabilities have not been recognised is £738m (2008: £8,429m).

The Group holds investments in associates listed on the Johannesburg Stock Exchange: Pinnacle Point Group Limited, Blue Financial Services Limited (acquired during 2009) and Sekunjalo Investments Limited (acquired during 2009). The fair value of the Group's investment in these associates is £15m (2008: £60m). Ambit Properties Limited was disposed during 2009 (2008: fair value of £51m).

Aggregate cash consideration paid for additional investments in associates and joint ventures was £82m (2008: £96m), which also included New China Trust. Additional investments for non-cash consideration, include Barclays Vida y Pensiones Compañía de Seguros (£69m) and associates held by Crescent Real Estate

Edgar Filing: BARCLAYS PLC - Form 6-K

Holdings LLC (£89m).

Summarised financial information for the Group's associates and joint ventures is set out below:

21 Goodwill

	2009	2008
	£m	£m
Net book value		
At beginning of year	7,625	7,014
Acquisitions	63	400
Business disposals/discontinued operations	(1,503)	(10)
Impairment charge	(1)	(112)
Exchange and other adjustments	48	333
At end of year	6,232	7,625

Goodwill is allocated to business operations according to business segments identified by the Group under IFRS 8, as follows:

	2009	2008
	£m	£m ^b
Goodwill allocation by business segment^a		
UK Retail Banking	3,146	3,139
Barclays Commercial Bank	22	10
Barclaycard	525	413
GRCB Western Europe	886	948
GRCB Emerging Markets	39	49
GRCB Absa	1,116	1,084
Barclays Capital	107	95
Barclays Global Investors		1,496
Barclays Wealth	391	391
Goodwill	6,232	7,625

The goodwill disposal relates to Barclays Global Investors. During 2009, the allocation of balances has been updated to reflect certain changes in the business structure.

Goodwill is reviewed annually for impairment, or more frequently when there are indicators that impairment may have occurred, by comparing the carrying value to its recoverable amount.

Impairment testing of goodwill

The recoverable amount of each operation's goodwill is based on value-in-use or fair value less costs to sell calculations. The calculations are based upon discounting expected pre-tax cash flows at a risk-adjusted interest rate appropriate to the cash generating unit, the determination of both of which requires the exercise of judgement. The estimation of pre-tax cash flows is sensitive to the periods for which forecasts are available and to assumptions regarding the long-term sustainable cash flows. While forecasts are compared with actual performance and external economic data, expected cash flows naturally reflect management's view of future performance.

Edgar Filing: BARCLAYS PLC - Form 6-K

At 31st December 2009, the goodwill allocated to UK Retail Banking was £3,146m (2008: £3,139m) including £3,130m (2008: £3,130m) relating to Woolwich, the goodwill allocated to GRCB Absa was £1,116m (2008: £1,084m) and the goodwill allocated to Barclays Global Investors was £nil (2008: £1,496m). The remaining aggregate of goodwill of £1,986m (2008: £1,915m) consists of balances relating to multiple business operations which are not considered individually significant.

Key assumptions used in impairment testing for significant goodwill

UK Retail Banking

The recoverable amount of UK Retail Banking has been determined based on a value in use calculation. The calculation uses cash flow predictions based on financial budgets approved by management covering a three-year period, with a terminal growth rate of 3% applied thereafter. The forecast cash flows have been discounted at a rate of 14%. The recoverable amount exceeded the carrying amount including goodwill by £1.2bn. A one percentage point change in the discount rate or the terminal growth rate would reduce the recoverable amount by £0.7bn and £0.5bn respectively. A reduction in the forecast cash flows of 5% per annum would reduce the recoverable amount by £0.4bn.

Global Retail and Commercial Banking Absa

The recoverable amount of GRCB Absa has been determined based on a value in use calculation. The calculation uses cash flow predictions based on financial budgets approved by management covering a three year period, with a terminal growth rate of 6% applied thereafter. The forecast cash flows have been discounted at a rate of 14%. The result of the impairment test is not sensitive to reasonably possible changes in key assumptions.

Barclays Global Investors

All of the goodwill in Barclays Global Investors has been disposed of following the sale of this business to BlackRock, Inc on 1st December 2009. The value of the goodwill was recovered in full as a result of the transaction.

Note

- a Following the changes to the Group's operating segments described in Note 53, the only significant changes to the allocation of goodwill by segment disclosed in the 2009 Form 20-F are:

the allocation to Barclays Absa of £1.1bn of goodwill previously held by GRCB Absa; and

the allocation to Barclays Corporate of £0.3bn of goodwill relating to the acquisition of Barclays Russia, previously held by GRCB Western Europe.

There were in addition a number of other, smaller, realignments following the re-organisation. The table above has not been restated.

- b Figures have been restated for the transfer of Barclays Russia from GRCB Emerging Markets to GRCB Western Europe during 2009.

Of the depreciation charge for the year £759m (2008: £606m) relates to continuing operations.

The fair value of Barclays investment property is based on valuations supported by appropriately qualified independent valuers.

Leased assets represent assets leased to customers under operating leases.

Certain of the Group's equipment is held on finance leases, see Note 37.

Table of Contents

202

Notes to the accounts**For the year ended 31st December 2009**

continued

24 Financial liabilities designated at fair value

	2009		2008	
	Fair value	Contractual amount due on maturity	Fair value	Contractual amount due on maturity
	£m	£m	£m	£m
Debt securities	72,191	77,636	61,297	69,197
Deposits	6,275	6,544	10,518	10,109
Other	7,736	8,811	5,077	6,761
Financial liabilities designated at fair value	86,202	92,991	76,892	86,067

At 31st December 2009, the own credit adjustment arose from the fair valuation of £61.5bn of Barclays Capital structured notes (2008: £54.5bn). The movement in Barclays credit spreads in the year affected the fair value of these notes and as a result revaluation losses of £1,820m were recognised in trading income (2008: £1,663m gains).

The cumulative own credit net gain that has been recognised on issued notes is £501m at 31st December 2009 (2008: £2,321m).

25 Other liabilities

	2009	2008
	£m	£m
Accruals and deferred income	6,007	6,495
Sundry creditors	5,972	6,049
Obligations under finance leases (Note 37)	122	96
Other liabilities	12,101	12,640

Included in the above are balances of £10,966m (2008: £11,068m) expected to be settled within no more than 12 months after the balance sheet date; and balances of £1,135m (2008: £1,572m) expected to be settled more than 12 months after the balance sheet date.

Accruals and deferred income includes £108m (2008: £101m) for the Group's estimated share of levies that will be raised by the Financial Services Compensation Scheme (FSCS). The provision is based on estimates of the Group's market participation in the relevant charging periods and the interest FSCS will pay on the facilities provided by HM Treasury in support of its obligations to depositors of banks declared in default. The total of these facilities is understood to be some £20bn.

While it is anticipated that the substantial majority of these facilities will be repaid wholly from recoveries from the institutions concerned, there is the risk of shortfall, such that the FSCS may place additional levies on FSCS participants. It is not currently possible to estimate the amount of potential additional levies, or

Edgar Filing: BARCLAYS PLC - Form 6-K

the Group's share, which is expected to be based on a future level of market participation, or the effect that such levies may have upon operating results in any particular financial period.

26 Insurance assets and liabilities

Insurance assets

Reinsurance assets are £92m (2008: £123m) and relate principally to the Group's long-term business. Reinsurers' share of provisions relating to the Group's short-term business are £7m (2008: £32m). The reinsurance assets expected to be recovered after more than one year are £85m (2008: £91m).

Insurance contract liabilities including unit-linked liabilities

Insurance liabilities comprise the following:

	2009	2008
	£m	£m
Insurance contract liabilities:		
linked liabilities	139	125
non-linked liabilities	1,886	1,908
Provision for claims	115	119
Insurance contract liabilities including unit-linked liabilities	2,140	2,152

Insurance contract liabilities relate principally to the Group's long-term business. Insurance contract liabilities associated with the Group's short-term non-life business are £132m (2008: £73m).

Table of Contents

203

26 Insurance assets and liabilities continued**Movements in insurance liabilities and reinsurance assets**

Movements in insurance assets and insurance contract liabilities were as follows:

	2009		2008			
	Gross	Reinsurance	Net	Gross	Reinsurance	Net
	£m	£m	£m	£m	£m	£m
At beginning of year	2,152	(123)	2,029	3,903	(157)	3,746
Change in year	(12)	31	19	(1,751)	34	(1,717)
At end of year	2,140	(92)	2,048	2,152	(123)	2,029

Assumptions used to measure insurance liabilities

The assumptions that have the greatest effect on the measurement of the amounts recognised above, and the processes used to determine them were as follows:

Long-term business linked and non-linked

Mortality mortality estimates are based on standard industry and national mortality tables, adjusted where appropriate to reflect the Group's own experience. A margin is added to ensure prudence for example, future mortality improvements for annuity business.

Renewal expenses level and inflation expense reserves are a small part of overall insurance liabilities, however, increases in expenses caused by unanticipated inflation or other unforeseen factors could lead to expense reserve increases. Expenses are therefore set using prudent assumptions. Initial renewal expense levels are set by considering expense forecasts for the business and, where appropriate, building in a margin to allow for the increasing burden of fixed costs on the UK closed life book of business. The inflation assumption is set by adding a margin to the market rate of inflation implied by index-linked gilt yields.

Short-term business

Short-term business for single premium policies the proportion of unearned premiums is calculated based on estimates of the frequency and severity of incidents.

Changes in assumptions

There have been no changes in assumptions in 2009 that have had a material effect on the financial statements.

Uncertainties associated with cash flows related to insurance contracts and risk management activities

The assumptions used to determine uncertainties in cash flows and the processes used to manage risk were as follows:

Long-term insurance contracts (linked and non-linked)

Edgar Filing: BARCLAYS PLC - Form 6-K

For long-term insurance contracts where death is the insured risk, the most significant factors that could affect the frequency and severity of claims are the incidence of disease, such as AIDS, or general changes in lifestyle, such as in eating, exercise and smoking. Where survival is the insured risk, advances in medical care and social conditions are the key factors that increase longevity.

The Group manages its exposure to risk by operating in part as a unit-linked business, prudent product design, applying strict underwriting criteria, transferring risk to reinsurers, managing claims and establishing prudent reserves.

Short-term insurance contracts

For payment protection contracts where inability to make payments under a loan contract is the insured risk, the most significant factors are the health of the policyholder and the possibility of unemployment which depends upon, among other things, long-term and short-term economic factors. The Group manages its exposure to such risks through prudent product design, efficient claims management, prudent reserving methodologies and bases, regular product, economic and market reviews and regular adequacy tests on the size of the reserves.

Absa insures property and motor vehicles, for which the most significant factors that could affect the frequency and severity of claims are climatic change and crime. Absa manages its exposure to risk by diversifying insurance risks accepted and transferring risk to reinsurers.

Sensitivity analysis

The following table presents the sensitivity of the level of insurance contract liabilities disclosed in this note to movements in the actuarial assumptions used to calculate them. The percentage change in variable is applied to a range of existing actuarial modelling assumptions to derive the possible impact on net profit after tax. The disclosure is not intended to explain the impact of a percentage change in the insurance assets and liabilities disclosed above.

	2009	Net profit after tax impact £m	2008	Net profit after tax impact £m
	Change in variable %		Change in variable %	
Long-term insurance contracts:				
Improving mortality (annuitants only)	10		10	1
Worsening of mortality (assured lives only)	10	14	10	20
Worsening of base renewal expense level	20	11	20	19
Worsening of expense inflation rate	10	3	10	1
Short-term insurance contracts:				
Worsening of claim expense assumptions	10	5	10	3
Any change in net profit after tax would result in a corresponding increase or decrease in shareholders' equity.				

The above analyses are based on a change in a single assumption while holding all other assumptions constant. In practice this is unlikely to occur.

Table of Contents

204

Notes to the accounts**For the year ended 31st December 2009**

continued

26 Insurance assets and liabilities continued**Options and guarantees**

The Group's insurance contracts do not contain options or guarantees that give rise to material risk.

Concentration of insurance risk

The Group considers that the concentration of insurance risk that is most relevant to the Group financial statements is according to the type of cover offered and the location of insured risk. The following table shows the maximum amounts payable under all of the Group's insurance products. It ignores the probability of insured events occurring and the contribution from investments backing the insurance policies. The table shows the broad product types and the location of the insured risk, before and after the impact of reinsurance that represents the risk that is passed to other insurers.

	2009			2008		
	Before Reinsurance £m	Reinsurance £m	After Reinsurance £m	Before Reinsurance £m	Reinsurance £m	After Reinsurance £m
Total benefits insured by product type						
Long-term insurance contracts	13,405	(1,547)	11,858	19,193	(3,591)	15,602
Short-term insurance contracts	49,359	(4,145)	45,214	36,228	(2,735)	33,493
Total benefits insured	62,764	(5,692)	57,072	55,421	(6,326)	49,095
Total benefits insured by geographic location						
United Kingdom	5,727	(363)	5,364	8,120	(525)	7,595
Other European Union	1,724	(20)	1,704	6,519	(2,305)	4,214
Africa	55,313	(5,309)	50,004	40,782	(3,496)	37,286
Total benefits insured	62,764	(5,692)	57,072	55,421	(6,326)	49,095
Reinsurer credit risk						

For the long-term business, reinsurance programmes are in place to restrict the amount of cover on any single life. The reinsurance cover is spread across highly rated companies to diversify the risk of reinsurer solvency. Net insurance reserves include a margin to reflect reinsurer credit risk.

27 Subordinated liabilities

Subordinated liabilities, which are all issued by Barclays Bank PLC (The Bank) or other subsidiaries of the Group, include accrued interest and comprise dated and undated loan capital as follows:

Table of Contents

205

27 Subordinated liabilities continued**Security and subordination**

None of the undated loan capital is secured.

The Junior Undated Floating Rate Notes (the Junior Notes) rank behind the claims against the Bank of depositors and other unsecured unsubordinated creditors and holders of dated loan capital.

All other issues of undated loan capital rank pari passu with each other and behind the claims of the holders of the Junior Notes, except for the 6% and 6.86% Callable Perpetual Core Tier One Notes (the TONs) and the 5.3304%, 5.926%, 6.3688%, 7.434% and 14% Step-up Callable Perpetual Reserve Capital Instruments (the RCIs) (such issues, excluding the TONs and the RCIs, being the Undated Notes and Loans).

The TONs and the RCIs rank pari passu with each other and behind the claims of the holders of the Undated Notes and Loans.

Interest**Notes**

- a) These TONs bear a fixed rate of interest until 2032. After that date, in the event that the TONs are not redeemed, the TONs will bear interest at rates fixed periodically in advance, based on London interbank rates.
- b) These RCIs bear a fixed rate of interest until 2036. After that date, in the event that the RCIs are not redeemed, the RCIs will bear interest at rates fixed periodically in advance, based on London interbank rates.
- c) These RCIs bear a fixed rate of interest until 2016. After that date, in the event that the RCIs are not redeemed, the RCIs will bear interest at rates fixed periodically in advance, based on London interbank rates.
- d) These Notes bear interest at rates fixed periodically in advance, based on London interbank rates.
- e) These RCIs bear a fixed rate of interest until 2019. After that date, in the event that the RCIs are not redeemed, the RCIs will bear interest at rates fixed periodically in advance, based on London interbank rates.
- f) These Bonds bear a fixed rate of interest until 2021. After that date, in the event that the Bonds are not redeemed, the coupon will be reset to a fixed margin over a reference gilt rate for a further period of five years.

Edgar Filing: BARCLAYS PLC - Form 6-K

- g) The interest rate on these Bonds is fixed for the life of this issue.
- h) These Notes bear a fixed rate of interest until 2020. After that date, in the event that the Notes are not redeemed, the coupon will be reset to a fixed margin over a reference gilt rate for a further period of five years.
- i) These Notes bear a fixed rate of interest until 2015. After that date, in the event that the Notes are not redeemed, the coupon will be reset to a fixed margin over a reference gilt rate for a further period of five years.
- j) These Notes bear a fixed rate of interest until 2017. After that date, in the event that the Notes are not redeemed, the coupon will be reset to a fixed margin over a reference gilt rate for a further period of five years.
- k) These Notes bear a fixed rate of interest until 2027. After that date, in the event that the Notes are not redeemed, the coupon will be reset to a fixed margin over a reference gilt rate for a further period of five years.
- l) These Loans bear a fixed rate of interest until 2028 based on a US Dollar principal amount, but the interest payments have been swapped, resulting in a Yen interest rate payable, which is fixed periodically in advance based on London interbank rates. After that date, in the event that the Loans are not redeemed, the Loans will bear Yen interest rates fixed periodically in advance, based on London interbank rates.
- m) These RCIs bear a fixed rate of interest until 2019. After that date, in the event that the RCIs are not redeemed, the RCIs will bear interest at rates fixed periodically in advance, based on London interbank rates.
- n) These RCIs bear a fixed rate of interest until 2017. After that date, in the event that the RCIs are not redeemed, the RCIs will bear interest at rates fixed periodically in advance, based on London interbank rates.
- o) These Notes bear a fixed rate of interest until 2018. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance, based on London interbank rates.

Notes to the accounts

For the year ended 31st December 2009

continued

27 Subordinated liabilities continued

Barclays Bank PLC is not obliged to make a payment of interest on its Undated Notes and Loans excluding the 9.25% Perpetual Subordinated Bonds, 7.7% Undated Subordinated Notes and 8.25% Undated Subordinated Notes if, in the preceding six months, a dividend has not been declared or paid on any class of shares of Barclays PLC or, in certain cases, any class of preference shares of the Bank. The Bank is not obliged to make a payment of interest on its 9.25% Perpetual Subordinated Bonds if, in the immediately preceding 12 months interest period, a dividend has not been paid on any class of its share capital. Interest not so paid becomes payable in each case if such a dividend is subsequently paid or in certain other circumstances. During the year, the Bank declared and paid dividends on its ordinary shares and on all classes of preference shares.

No payment of principal or any interest may be made unless the Bank satisfies a specified solvency test.

The Bank may elect to defer any payment of interest on the 7.7% Undated Subordinated Notes and 8.25% Undated Subordinated Notes. Until such time as any deferred interest has been paid in full, neither the Bank nor Barclays PLC may declare or pay a dividend, subject to certain exceptions, on any of its ordinary shares, preference shares, or other share capital or satisfy any payments of interest or coupons on certain other junior obligations.

The Bank may elect to defer any payment of interest on the RCIs (b, c, e, m and n above). Any such deferred payment of interest must be paid on the earlier of (i) the date of redemption of the RCIs, (ii) the coupon payment date falling on or nearest to the tenth anniversary of the date of deferral of such payment, and (iii) in respect of e above only, substitution. Whilst such deferral is continuing, neither the Bank nor Barclays PLC may declare or pay a dividend, subject to certain exceptions, on any of its ordinary shares or preference shares.

The Bank may elect to defer any payment of interest on the TONs if it determines that it is, or such payment would result in it being, in non-compliance with capital adequacy requirements and policies of the FSA. Any such deferred payment of interest will only be payable on a redemption of the TONs. Until such time as the Bank next makes a payment of interest on the TONs, neither the Bank nor Barclays PLC may (i) declare or pay a dividend, subject to certain exceptions, on any of their respective ordinary shares or Preference Shares, or make payments of interest in respect of the Bank's Reserve Capital Instruments and (ii) certain restrictions on the redemption, purchase or reduction of their respective share capital and certain other securities also apply.

Repayment

Notes

p) These TONs are repayable, at the option of the Bank, in whole on any coupon payment date falling in or after June 2032.

q) These RCIs are repayable, at the option of the Bank, in whole on any coupon payment date falling in or after December 2036.

Edgar Filing: BARCLAYS PLC - Form 6-K

- r) These RCIs are repayable, at the option of the Bank, in whole on any coupon payment date falling in or after December 2016.
 - s) These RCIs are repayable, at the option of the Bank, in whole on any coupon payment date falling in or after June 2019.
 - t) These Notes are repayable, at the option of the Bank, in whole or in part on any interest payment date.
 - u) These Notes are repayable, at the option of the Bank, in whole on any interest payment date.
 - v) These Bonds are repayable, at the option of the Bank, in whole in 2021, or on any fifth anniversary thereafter.
 - w) These Bonds are repayable, at the option of the Bank, in whole at any time.
 - x) These Notes are repayable, at the option of the Bank, in whole in 2020, or on any fifth anniversary thereafter.
 - y) These Notes are repayable, at the option of the Bank, in whole in 2015, or on any fifth anniversary thereafter.
 - z) These Notes are repayable, at the option of the Bank, in whole in 2017, or on any fifth anniversary thereafter.
 - aa) These Notes are repayable, at the option of the Bank, in whole in 2027, or on any fifth anniversary thereafter.
 - ab) These Loans are repayable, at the option of the Bank, in whole in 2028, or on any fifth anniversary thereafter.
 - ac) These RCIs are repayable, at the option of the Bank, in whole on any coupon payment date falling in or after December 2019.
 - ad) These RCIs are repayable, at the option of the Bank, in whole on any coupon payment date falling in or after December 2017.
 - ae) These Notes are repayable, at the option of the Bank, in whole on any interest payment date falling in or after December 2018.
 - af) These Notes are repayable, at the option of the Bank, in whole on any interest payment date falling in or after April 2018.
- In addition, each issue of undated loan capital is repayable, at the option of the Bank, in whole for certain tax reasons, either at any time, or on an interest payment date. There are no events of default except non-payment of principal or mandatory interest.

Any repayments require the prior notification to the FSA.

All issues of undated loan capital have been made in the eurocurrency market and/or under Rule 144A, and no issues have been registered under the US Securities Act of 1933.

None of the Group's dated loan capital is secured. The debt obligations of the Bank, Barclays Spain, BBG, BBB, Barclays Zambia, Barclays Kenya and Absa rank ahead of the interests of holders of their equity and the dated loan capital has been issued on the basis that the claims thereunder are subordinated to the respective claims of their depositors and other unsecured unsubordinated creditors.

Interest**Notes**

- a) The interest rates on these Notes are fixed for the life of those issues.
- b) These Notes bear interest at rates fixed periodically in advance based on London or European interbank rates.
- c) These Notes bear a fixed rate of interest until 2010. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on Johannesburg interbank acceptance rates.
- d) These Notes bear interest at rates fixed periodically in advance based on Johannesburg interbank acceptance rates.

Edgar Filing: BARCLAYS PLC - Form 6-K

- e) These Notes bear a fixed rate of interest until 2012. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on Johannesburg interbank acceptance rates.
- f) These Notes bear a fixed rate of interest until 2015. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on Johannesburg interbank acceptance rates.
- g) These Notes bear a fixed rate of interest until 2012. After that date, in the event that the Notes are not redeemed, the coupon will be reset to a fixed margin over a reference gilt rate for a further period of five years.
- h) These Notes bear a fixed rate of interest until 2014. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on European interbank rates.
- i) This Loan bears a fixed rate of interest based on a US Dollar principal amount, but the interest payments have been swapped, resulting in a Yen interest rate payable which is fixed periodically in advance based on London interbank rates.
- j) Repayable at the option of the issuer, prior to maturity, on conditions governing the respective debt obligations, some in whole or in part, and some only in whole.
- k) These Notes bear interest at rates fixed periodically in advance based on the Bank of Botswana Certificate Rate. All of these Notes will be compulsorily converted to Preference Shares of BBB, having a total par value equal in sum to the principal amount of Notes outstanding at the time of conversion, should BBB experience pre-tax losses in excess of its retained earnings and other capital surplus accounts.
- l) These Notes bear interest at rates fixed periodically in advance based on the Bank of Zambia Treasury Bill rate. All of these Notes will be compulsorily converted to Preference Shares of Barclays Zambia, having a total par value equal in sum to the principal amount of Notes outstanding at the time of conversion, should Barclays Zambia experience pre-tax losses in excess of its retained earnings and other capital surplus accounts.
- m) These Notes bear a fixed rate of interest until 2018. After that date in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on London interbank rates.
- n) These Notes bear a fixed rate of interest until 2014. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on Johannesburg interbank acceptance rates.
- o) These Notes bear interest at rates fixed periodically in advance based on the Central Bank of Kenya Treasury Bill rates.
- p) These Notes bear interest at rates fixed periodically in advance based on the Central Bank of Zambia Treasury Bill rates.

27 Subordinated liabilities continued

The 7.4% Subordinated Notes 2009 (the 7.4% Notes) issued by the Bank were registered under the US Securities Act of 1933. All other issues of dated loan capital by the Bank, Barclays Spain, BBG, BBB, Barclays Zambia, Barclays Kenya and Absa, which were made in non-US markets, have not been so registered.

Repayment terms

Unless otherwise indicated, the Group's dated loan capital outstanding at 31st December 2009 is redeemable only on maturity, subject in particular cases, to provisions allowing an early redemption in the event of certain changes in tax law or, in the case of BBB and Barclays Zambia, to certain changes in legislation or regulations.

Any repayments prior to maturity require, in the case of the Bank, the prior notification to the FSA, in the case of BBB, the prior approval of the Bank of Botswana, in the case of Barclays Zambia, the prior approval of the Bank of Zambia, and in the case of Absa, the prior approval of the South African Registrar of Banks.

There are no committed facilities in existence at the balance sheet date which permit the refinancing of debt beyond the date of maturity.

Provisions expected to be recovered or settled within no more than 12 months after 31st December 2009 were £466m (2008: £333m).					

Sundry provisions are made with respect to commission clawbacks, warranties and litigation claims.

29 Securitisations

The Group was party to securitisation transactions involving its residential mortgage loans, business loans and credit card balances. In addition, the Group acts as a conduit for commercial paper, whereby it acquires static pools of residential mortgage loans from other lending institutions for securitisation transactions.

In these transactions, the assets, or interests in the assets, or beneficial interests in the cash flows arising from the assets, are transferred to a special purpose entity, or to a trust which then transfers its beneficial interests to a special purpose entity, which then issues floating rate debt securities to third-party investors.

Securitisations may, depending on the individual arrangement, result in continued recognition of the securitised assets and the recognition of the debt securities issued in the transaction; lead to partial continued recognition of the assets to the extent of the Group's continuing involvement in those assets or to derecognition of the assets and the separate recognition, as assets or liabilities, of any rights and obligations created or retained in the transfer. Full derecognition only occurs when the Group transfers both its contractual right to receive cash flows from the financial assets, or retains the contractual rights to receive the cash flows, but assumes a contractual obligation to pay the cash flows to another party without material delay or reinvestment, and also transfers substantially all the risks and rewards of ownership, including credit risk, prepayment risk and interest rate risk.

Table of Contents

210

Notes to the accounts**For the year ended 31st December 2009**

continued

29 Securitisations continued

The following table shows the carrying amount of securitised assets, stated at the amount of the Group's continuing involvement where appropriate, together with the associated liabilities, for each category of asset on the balance sheet:

	2009		2008
	Carrying amount of assets		Carrying amount of assets
	£m	Associated liabilities	Associated liabilities
	£m	£m	£m
Loans and advances to customers			
Residential mortgage loans	10,374	(10,738)	12,754
Credit card receivables	1,288	(1,288)	1,888
Other personal lending	94	(124)	212
Wholesale and corporate loans and advances	4,835	(5,999)	7,702
Total	16,591	(18,149)	22,556

Assets designated at fair value through profit or loss

Retained interest in residential mortgage loans	26	316
---	----	-----

Balances included within loans and advances to customers represent securitisations where substantially all the risks and rewards of the asset have been retained by the Group.

The excess of total associated liabilities over the carrying amount of assets primarily reflects timing differences in the receipt and payment of cash flows, and foreign exchange movements where the assets and associated liabilities are denominated in different currencies.

Retained interests in residential mortgage loans are securities which represent a continuing exposure to the prepayment and credit risk in the underlying securitised assets. The total amount of the loans was £14,795m (2008: £31,734m). The retained interest is initially recorded as an allocation of the original carrying amount based on the relative fair values of the portion derecognised and the portion retained.

30 Retirement benefit obligations**Pension schemes**

The UK Retirement Fund (UKRF), which is the main scheme of the Group, amounting to 93% of all the Group's schemes in terms of benefit obligations, comprises ten sections.

Edgar Filing: BARCLAYS PLC - Form 6-K

The 1964 Pension Scheme

Most employees recruited before July 1997 are members of this non-contributory defined benefit scheme. Pensions are calculated by reference to service and pensionable salary and are normally subject to a deduction from State pension age.

The Retirement Investment Scheme (RIS)

A defined contribution plan for most joiners between July 1997 and 1st October 2003. This was closed to new entrants on 1st October 2003 and the large majority of existing members of the RIS transferred to Afterwork in respect of future benefit accrual with effect from 1st January 2004. There are no longer any active members of the RIS.

The Pension Investment Plan (PIP)

A defined contribution plan created from 1st July 2001 to provide benefits for employees of Barclays Capital.

Afterwork

Combines a contributory cash balance element with a voluntary defined contribution element. The majority of new employees outside of Barclays Capital since 1st October 2003 are eligible to join Afterwork. In addition, the large majority of active members of the RIS (now closed) were transferred to Afterwork in respect of future benefit accrual after 1st January 2004.

Career Average Section

The Career Average Section was established in the UKRF with effect from 1st May 2004 following the transfer of members from the Woolwich Pension Fund. The Career Average Section is a non-contributory career average scheme and was closed to new entrants on 1st December 2006.

1951 Fund Section, AP89 Section, BCPS Section, CCS Section and Mercantile Section

Five new sections were established in the UKRF with effect from 31st March 2007 following the merger of the UKRF with five smaller schemes sponsored from within the Group. All five sections are closed to new members.

The 1951 Fund Section, AP89 Section and Mercantile Section provide final salary benefits calculated by reference to service and pensionable salary.

The BCPS and CCS Sections provide defined contribution benefits. The benefits built up in these sections in relation to service before 6th April 1997 are subject to a defined benefit minimum.

In addition, the costs of ill-health retirements and death in service benefits are generally borne by the UKRF for each of the ten sections. From November 2008, members were given the option to contribute by way of salary sacrifice to the UKRF.

On 10th September 2009, the Trust Deed was amended such that with effect from 1st April 2010 the following sections of the UKRF will close to the accrual of future pension benefits: 1964 Pension Scheme; AP89 Section; 1951 Fund Section; Mercantile Section; Career Average Section; and CCS Section. Members of these sections will be eligible to accrue future service pension benefits in either Afterwork or PIP from 1st April 2010. This gave rise to the recognition of a curtailment gain during the year of £487m, the recognition of actuarial losses of £79m and an additional cost of £37m included in other staff costs.

Table of Contents

211

30 Retirement benefit obligations continued**Governance**

The UKRF operates under trust law and is managed and administered on behalf of the members in accordance with the terms of the Trust Deed and all relevant legislations. The Corporate Trustee is Barclays Pension Funds Trustees Limited (BPFTL), a private limited company incorporated on 20th December 1990 and is a wholly owned subsidiary of Barclays Bank PLC. The Trustee is the legal owner of the assets of the UKRF which are held separately from the assets of the Group.

The Trustee Board comprises six Management Directors selected by Barclays, of whom three are independent Directors with no relationship with Barclays or the UKRF, and three are Member Nominated Directors. In addition there are three Alternate Management Directors and three Alternate Member Nominated Directors. Member Nominated Directors are selected from those eligible active staff and pensioner members who apply to be considered for the role.

The Pensions Act 2004 (the Act) requires corporate trustees to take responsibility for making arrangements for the nomination and selection of Member Nominated Directors (MNDs). A formal procedure has been in place since 1st September 2007, which is fully compliant with the legal requirements and reflects best practice. Eligibility for nomination and selection is open to all members of the UKRF but excludes those in receipt of solely spouses, civil partners, dependants or ex-spouse participants pensions, deferred pensioners and members with eligibility for death benefits only.

Under the Act, the Bank and the Trustee must agree on the funding rate, including a recovery plan to fund any deficit against the scheme specific statutory funding objective. The first ongoing funding valuation to be completed under this legislation was carried out as at 30th September 2007.

There are other pension schemes (both defined benefit and defined contribution) in the UK and overseas. The same principles of pension governance applies to UK based schemes, although different legislation covers overseas schemes where, in most cases, the Bank has the power to determine the funding rate.

The following tables present an analysis of defined benefit obligation and fair value of plan assets for all the Group's pension schemes and post-retirement benefits (the latter are unfunded) and present the amounts recognised in the income statement including those related to post-retirement health care.

	2009			2008			2007

The UKRF funded status, as measured using the IAS 19 assumptions detailed below, has decreased from a deficit of £0.9bn at 31st December 2008 to a deficit of £3.5bn at 31st December 2009. The most significant reasons for this change were the decrease in AA corporate bond yields which resulted in a lower discount rate of 5.61% (31st December 2008: 6.75%) and an increase in the long-term inflation assumption to 3.76% (31st December 2008: 3.16%). The impact of the change in assumptions was partially offset by a one-off curtailment credit resulting from the closure of the UK final salary pension schemes to existing members, better than expected asset performance, and contributions paid in excess of the pension expense.

Note

^a Included within other assets.

Table of Contents

213

30 Retirement benefit obligations continued**Assumptions**

Obligations arising under defined benefit schemes are actuarially valued using the projected unit credit method. Under this method, where a defined benefit scheme is closed to new members, such as in the case of the 1964 Pension Scheme, the current service cost expressed as a percentage of salary is expected to increase in the future, although this higher rate will be applied to a decreasing payroll. The latest actuarial IFRS valuations were carried out as at 31st December using the following assumptions:

	UK schemes		Overseas schemes	
	2009 % p.a.	2008 % p.a.	2009 % p.a.	2008 % p.a.
Discount rate	5.61	6.75	7.53	7.09
Rate of increase in salaries	4.26	3.66	5.49	5.93
Inflation rate	3.76	3.16	3.78	3.98
Rate of increase for pensions in payment	3.56	3.06	3.27	3.17
Rate of increase for pensions in deferment	3.76	3.16	2.81	4.37
Initial health care inflation	7.00	8.00	8.50	9.00
Long-term health care inflation	5.00	5.00	5.00	5.01
Expected return on plan assets	6.70	6.80	7.44	7.95

The expected return on plan assets assumption is weighted on the basis of the fair value of these assets. Health care inflation assumptions are weighted on the basis of the health care cost for the period. All other assumptions are weighted on the basis of the defined benefit obligation at the end of the period.

The UK Schemes discount rate assumption is based on a liability-weighted rate derived from an AA corporate bond yield curve.

The overseas health care inflation assumptions relate to the US.

Mortality assumptions

The post-retirement mortality assumptions used in valuing the liabilities of the UKRF were based on the standard 2000 series tables as published by the Institute and Faculty of Actuaries. These tables are considered to be most relevant to the population of the UKRF based on their mortality history. These were then adjusted in line with the actual experience of the UKRF's own pensioners relative to the standard table. An allowance has been made for future mortality improvements based on the medium cohort projections published by the Continuous Mortality Investigation Bureau subject to a floor of 1% pa on future improvements. On this basis the post-retirement mortality assumptions for the UKRF includes:

	2009	2008	2007	2006	2005
Longevity at 60 for current pensioners (years)					
Males	27.5	27.4	26.7	25.8	25.8
Females	28.7	28.5	27.9	29.5	29.5
Longevity at 60 for future pensioners currently aged 40 (years)					

Edgar Filing: BARCLAYS PLC - Form 6-K

Males	29.6	29.5	28.0	27.1	27.1
Females	30.6	30.5	29.1	30.7	30.6
Sensitivity analysis					

Sensitivity analysis for each of the principal assumptions used to measure the benefit obligation of the UKRF are as follows:

	Impact on UKRF benefit obligation (Decrease)/ Increase	Impact on UKRF benefit obligation (Decrease)/ Increase
	%	£bn
0.5% increase to:		
Discount rate	(8.5)	(1.6)
Rate of inflation	7.7	1.5
1 year increase to longevity at 60	2.5	0.5

Following the amendment to the UKRF Trust Deed on 10th September 2009, the UKRF benefit obligation is not sensitive to future salary growth.

Table of Contents

214

Notes to the accounts

For the year ended 31st December 2009

continued

30 Retirement benefit obligations continued**Post-retirement health care**

A one percentage point change in assumed health care trend rates, assuming all other assumptions remain constant would have the following effects for 2009:

	1% increase	1% decrease
	£m	£m
Effect on total of service and interest cost components	1	(1)
Effect on post-retirement benefit obligation	13	(11)
Assets		

A long-term strategy has been set for the asset allocation of the UKRF which comprises a mixture of equities, bonds, property and other appropriate assets. This recognises that different asset classes are likely to produce different long-term returns and some asset classes may be more volatile than others.

The long-term strategy ensures that investments are adequately diversified. Asset managers are permitted some flexibility to vary the asset allocation from the long-term strategy within control ranges agreed with the Trustees from time to time.

The UKRF also employs derivative instruments, where appropriate, to achieve a desired exposure or return, or to match assets more closely to liabilities. The value of assets shown reflects the actual physical assets held by the scheme, with any derivative holdings reflected on a mark to market basis. The expected return on asset assumptions overall have been based on the portfolio of assets created after allowing for the net impact of the derivatives on the risk and return profile of the holdings.

During the second half of 2009, an investment de-risking programme was agreed for the UKRF between the Bank and the Trustee in order to achieve a better matching between assets and liabilities and to reduce the investment risk profile of the plan. This involved a partial sale of physical equities and purchase of index-linked gilts.

The value of the assets of the schemes, their percentage in relation to total scheme assets, and their expected rate of return at 31st December 2009 and 31st December 2008 were as follows:

UK schemes			Overseas schemes			Total		
Value	% of	Expected	Value	% of	Expected	Value	% of	Expected
£m	total fair	rate	£m	total fair	rate	£m	total fair	rate
	value of			value of			value of

a Excludes £890m (2008: £675m) representing the money purchase assets of the UKRF.

Table of Contents**30 Retirement benefit obligations continued**

The UKRF plan assets include £58m relating to UK private equity investments (2008: £27m) and £921m relating to overseas private equity investments (2008: £735m). These are disclosed within Equities.

Amounts included in the fair value of plan assets include £4m (2008: £5m) relating to shares in Barclays Group, £5m (2008: £11m) relating to bonds issued by the Barclays Group, £nil (2008: £nil) relating to other investments in the Barclays Group, and £10m (2008: £17m) relating to property occupied by Group companies.

The expected return on assets is determined by calculating a total return estimate based on weighted average estimated returns for each asset class. Asset class returns are estimated using current and projected economic and market factors such as inflation, credit spreads and equity risk premiums.

The Group actual return on plan assets was an increase of £2,351m (2008: £3,480m decrease).

Actuarial gains and losses

The actuarial gains and losses arising on plan liabilities and plan assets are as follows:

Notes to the accounts**For the year ended 31st December 2009**

continued

30 Retirement benefit obligations continued**Funding**

The most recent triennial funding valuation of the UK Retirement Fund (UKRF) was performed with an effective date of 30th September 2007. In compliance with the Pensions Act 2004, the Bank and Trustee have agreed a scheme-specific funding target, statement of funding principles, and a schedule of contributions. This agreement forms the basis of the Group's commitment that the fund has sufficient assets to make payments to members in respect of their accrued benefits as and when they fall due. This funding valuation uses a discount rate that reflects a prudent expectation of long-term future investment returns from the current and assumed future investment strategy, and takes into account projected future salary increases when assessing liabilities arising from accrued service.

As at 30th September 2007 the funding valuation showed a surplus of £0.2bn. The Scheme Actuary prepares an annual update of the funding position as at 30th September. The latest annual update was carried out as at 30th September 2009 and showed a deficit of £4.8bn. The next triennial funding valuation will take place with an effective date of 30th September 2010.

The Group has agreed funding contributions which, in aggregate, are no less than those which are sufficient to meet the Group's share of the cost of benefits accruing over each year. The Group has, in the recent past, chosen to make funding contributions in excess of this, more consistent with the IAS 19 service cost; and in 2009 made an additional voluntary contribution of £150m.

Defined benefit contributions paid with respect to the UKRF were as follows:

	£m
Contributions paid	
2009	525
2008	336
2007	355

Excluding the UKRF, the Group is expected to pay contributions of approximately £1m to UK schemes and £59m to overseas schemes in 2010.

The Group is committed to making estimated contributions to UKRF in 2010 of £290m, with potential additional voluntary contributions dependent on the scheme's funding level.

During the year, the following share issues took place:

Conversion of Mandatorily Convertible Notes

The Mandatorily Convertible Notes (MCNs), issued by Barclays Bank PLC on 27th November 2008, were converted into 2,642 million ordinary shares in Barclays PLC by 30th June 2009 at the conversion price of £1.53276. £661m was credited to share capital and the remaining £3,221m (net of issuance costs) was credited to the share premium account.

Warrants

On 31st October 2008 Barclays PLC issued, in conjunction with a simultaneous issue of Reserve Capital Instruments issued by Barclays Bank PLC, warrants to subscribe for up to 1,516.9 million new ordinary shares at a price of £1.97775 to Qatar Holding LLC and HH Sheikh Mansour Bin Zayed Nahyan.

On 28th October 2009, Qatar Holding LLC exercised 379.2 million warrants to subscribe for new Barclays PLC Shares. £94m was credited to share capital and the remaining £655m was credited to the share premium account.

Share repurchase

Edgar Filing: BARCLAYS PLC - Form 6-K

No share repurchases were made during the year. In 2008, Barclays PLC repurchased shares at a cost of £173m.

At the 2009 AGM on 23rd April 2009, Barclays PLC was authorised to repurchase 837,620,130 of its ordinary shares of 25p. The authorisation is effective until the AGM in 2010.

Shares under option

The Group has four schemes that give employees rights to subscribe for new shares in Barclays PLC. A summary of the key terms of each scheme are included in Note 44.

At 31st December 2009, 91.3 million (2008: 94.1 million) options were outstanding under the terms of the Sharesave Share Option Scheme (Sharesave), no options were outstanding under the terms of the Executive Share Option Scheme (ESOS) (2008: 0.5 million), 0.1 million (2008: 0.4 million) options were outstanding under the terms of the Woolwich Executive Share Option Plan (Woolwich ESOP) and 12.6 million (2008: 20.5 million) options were outstanding under the terms of the Incentive Share Option Plan (ISOP) enabling certain Directors and members of staff to subscribe for ordinary shares between 2009 and 2017 at prices ranging from 144p to 547p.

In addition to the above, the independent trustee of the Barclays Group (ESAS) Employees Benefit Trust (ESAS Trust), established by Barclays Bank PLC in 1996, operates the Executive Share Award Scheme (ESAS). ESAS is a deferred share bonus plan for employees of the Group. The key terms of the ESAS are described in Note 44. The independent trustees of the ESAS Trust make awards of Barclays shares and grant options over Barclays shares to beneficiaries of the ESAS Trust. Beneficiaries of the ESAS Trust include employees and former employees of the Barclays Group.

Edgar Filing: BARCLAYS PLC - Form 6-K

Tax		207	(165)	840	882
Repurchase of shares	10				10
At 31st December 2008	394	617	(1,190)	132	2,793

Available for sale net gains transferred to net profit includes £349m gain (2008: £212m gain) relating to continuing operations and £66m gain (2008: £nil) relating to discontinued operations.

The capital redemption reserve and other capital reserve represent transfers from retained earnings in accordance with relevant legislation. These reserves are not distributable.

The available for sale reserve represents the unrealised change in the fair value of available for sale investments since initial recognition.

The cash flow hedging reserve represents the cumulative gains and losses on effective cash flow hedging instruments that will be recycled to the income statement when the hedged transactions affect profit or loss.

The currency translation reserve represents the cumulative gains and losses on the retranslation of the Group's net investment in foreign operations, net of the effects of hedging.

Transfers from cash flow hedging reserve

Gains and losses transferred from the cash flow hedging reserve were to: interest income: £22m loss (2008: £4m loss), interest expense: £272m gain (2008: £74m loss), net trading income: £165m loss (2008: £119m gain), and administration and general expenses: £7m gain (2008: £60m loss).

The treasury shares primarily relate to Barclays PLC shares held by employee benefit trusts in relation to the Executive Share Award Scheme, Performance Share Plan and Sharepurchase Scheme, to the extent that such shares have not been allocated to employees. These schemes are described in Note 44.

The total number of Barclays shares held in Group employee benefit trusts at 31st December 2009 was 125.1 million (2008: 217.9 million). No dividend rights have been waived on these shares. The total market value of the shares held in trust, based on the year-end share price of £2.75 (2008: £1.53), was £344m (2008: £333m). As at 31st December 2009, options over 15.6 million (2008: 19.1 million) of the total shares held in the trusts were exercisable.

The Group operates in a number of countries subject to regulations under which subsidiaries and other operations have to maintain minimum levels of capital. The current policy of the Group is that the local capital requirements are met, to the greatest possible extent, through the retention of profit. Certain countries also operate exchange control regulations which limit the amount of dividends that can be remitted to non-resident shareholders.

34 Contingent liabilities and commitments

The following table summarises the nominal principal amount of contingent liabilities and commitments with off-balance sheet risk:

2009	2008
£m	£m

Edgar Filing: BARCLAYS PLC - Form 6-K

Acceptances and endorsements	375	585
Guarantees and letters of credit pledged as collateral security	15,406	15,652
Securities lending arrangements	27,406	38,290
Other contingent liabilities	9,587	11,783
Contingent liabilities	52,774	66,310
Documentary credits and other short-term trade related transactions	762	859
Undrawn note issuance and revolving underwriting facilities:		
Forward asset purchases and forward deposits placed	46	291
Standby facilities, credit lines and other	206,467	259,666
Commitments	207,275	260,816
Nature of instruments		

In common with other banks, the Group conducts business involving acceptances, performance bonds and indemnities. The majority of these facilities are offset by corresponding obligations of third parties.

An acceptance is an undertaking by a bank to pay a bill of exchange drawn on a customer. The Group expects most acceptances to be presented, but reimbursement by the customer is normally immediate. Endorsements are residual liabilities of the Group in respect of bills of exchange, which have been paid and subsequently rediscounted.

Guarantees and letters of credit are given as security to support the performance of a customer to third parties. As the Group will only be required to meet these obligations in the event of the customer's default, the cash requirements of these instruments are expected to be considerably below their nominal amounts.

Until the disposal of BGI on 1st December 2009, the Group facilitated securities lending arrangements for its managed investment funds whereby securities held by funds under management were lent to third parties. Borrowers provided cash or investment grade assets as collateral equal to 100% of the market value of the securities lent plus a margin of 2% - 10%. The Group has agreed with BlackRock to continue to provide indemnities to support these arrangements for a further three years. As at 31st December 2009, the value of the collateral held was £28,248m (2008: £39,690m) and that of the stock lent was £27,406m (2008: £38,290m).

Other contingent liabilities include transaction-related customs and performance bonds and are, generally, short-term commitments to third parties which are not directly dependent on the customer's creditworthiness.

Table of Contents

221

34 Contingent liabilities and commitments continued

Commitments to lend are agreements to lend to a customer in the future, subject to certain conditions. Such commitments are either made for a fixed period, or have no specific maturity but are cancellable by the lender subject to notice requirements.

Documentary credits commit the Group to make payments to third parties, on production of documents, which are usually reimbursed immediately by customers.

Capital commitments

At 31st December 2009 the commitments for capital expenditure under contract amounted to £129m (2008: £48m).

Assets pledged

Assets are pledged as collateral to secure liabilities under repurchase agreements, securitisations and stock lending agreements or as security deposits relating to derivatives. The disclosure includes any asset transfers associated with liabilities under repurchase agreements and securities lending transactions.

The following table summarises the nature and carrying amount of the assets pledged as security against these liabilities:

	2009	2008
	£m	£m
Trading portfolio assets	96,176	81,186
Loans and advances	48,846	28,789
Available for sale investments	24,264	32,321
Other	77	3,812
Assets pledged	169,363	146,108
Collateral held as security for assets		

Under certain transactions, including reverse repurchase agreements and stock borrowing transactions, the Group is allowed to resell or repledge the collateral held. The fair value at the balance sheet date of collateral accepted and repledged to others was as follows:

	2009	2008
	£m	£m
Fair value of securities accepted as collateral	357,159	424,819
Of which fair value of securities repledged/transferred to others	283,334	374,222

35 Legal proceedings

On 25th November 2009, the UK Supreme Court decided the test case relating to current account overdraft charges in favour of the banks. The Office of Fair Trading subsequently confirmed that it will not proceed with its investigation into the fairness of these charges following the Supreme Court judgment.

Edgar Filing: BARCLAYS PLC - Form 6-K

Accordingly, we are seeking to have all outstanding claims which were premised on the same legal principles as those at issue in the test case discontinued or dismissed. There remain a small number of residual complaints challenging the charges on a different basis, but these complaints are not expected to have a material effect on Barclays.

Barclays Bank PLC, Barclays PLC and various current and former members of Barclays PLC's Board of Directors have been named as defendants in five proposed securities class actions (which have been consolidated) pending in the United States District Court for the Southern District of New York. The consolidated amended complaint, dated 12th February 2010, alleges that the registration statements relating to American Depositary Shares representing Preferred Stock, Series 2, 3, 4 and 5 (ADS) offered by Barclays Bank PLC at various times between 2006 and 2008 contained misstatements and omissions concerning (amongst other things) Barclays portfolio of mortgage-related (including US subprime-related) securities, Barclays exposure to mortgage and credit market risk and Barclays financial condition. The consolidated amended complaint asserts claims under Sections 11, 12(a)(2) and 15 of the Securities Act of 1933. Barclays considers that these ADS-related claims against it are without merit and is defending them vigorously. It is not possible to estimate any possible loss in relation to these claims or any effect that they might have upon operating results in any particular financial period.

On 15th September 2009 motions were filed in the United States Bankruptcy Court for the Southern District of New York by Lehman Brothers Holdings Inc. (LBHI), the SIPA Trustee for Lehman Brothers Inc. (the Trustee) and the Official Committee of Unsecured Creditors of Lehman Brothers Holdings Inc. (the Committee). All three motions challenge certain aspects of the transaction pursuant to which Barclays Capital Inc. (BCI) and other companies in the Barclays Group acquired most of the assets of Lehman Brothers Inc. (LBI) in September 2008 and the court order approving such sale. The claimants seek an order: voiding the transfer of certain assets to BCI; requiring BCI to return to the LBI estate alleged excess value BCI received; and declaring that BCI is not entitled to certain assets that it claims pursuant to the sale documents and order approving the sale. On 16th November 2009, LBHI, the Trustee and the Committee filed separate complaints in the Bankruptcy Court asserting claims against BCI based on the same underlying allegations as the pending motions and seeking relief similar to that which is requested in the motions. On 29th January 2010, BCI filed its response to the motions. Barclays considers that the motions and claims against BCI are without merit and BCI is vigorously defending its position. On 29th January 2010, BCI also filed a motion seeking delivery of certain assets that LBHI and LBI have failed to deliver as required by the sale documents and the court order approving the sale. It is not possible to estimate any possible loss to Barclays in relation to these matters or any effect that these matters might have upon operating results in any particular financial period.

Barclays is engaged in various other litigation proceedings both in the United Kingdom and a number of overseas jurisdictions, including the United States, involving claims by and against it which arise in the ordinary course of business. Barclays does not expect the ultimate resolution of any of the proceedings to which Barclays is party to have a significant adverse effect on the financial position of the Group and Barclays has not disclosed the contingent liabilities associated with these claims either because they cannot reasonably be estimated or because such disclosure could be prejudicial to the conduct of the claims.

Notes to the accounts**For the year ended 31st December 2009**

continued

36 Competition and regulatory matters

The scale of regulatory change remains challenging and the global financial crisis is resulting in a significant tightening of regulation and changes to regulatory structures globally, especially for banks that are deemed to be of systemic importance. Concurrently, there is continuing political and regulatory scrutiny of the operation of the banking and consumer credit industries in the UK and elsewhere which, in some cases, is leading to increased regulation. For example, the Credit Card Accountability, Responsibility and Disclosure Act of 2009 in the US will restrict many credit card pricing and marketing practices. The nature and impact of future changes in the legal framework, policies and regulatory action cannot currently be fully predicted and are beyond Barclays control but, especially in the area of banking regulation, are likely to have an impact on Barclays businesses and earnings.

The market for payment protection insurance (PPI) has been under scrutiny by the UK competition authorities and financial services regulators. Following a reference from the Office of Fair Trading (OFT), the UK Competition Commission (CC) undertook an in-depth enquiry into the PPI market. The CC published its final report on 29th January 2009 concluding that the businesses which offer PPI alongside credit face little or no competition when selling PPI to their credit customers. In March 2009, Barclays submitted a targeted appeal focused on the prohibition on sale of PPI at the point of sale (POSP) remedy on the basis that it was not based on sound analysis, and is unduly draconian. The Competition Appeals Tribunal (CAT) upheld Barclays appeal on two grounds, meaning that the CC will be required to reconsider the POSP remedy and the basis for it, and made an order to that effect on 26th November 2009.

This remittal process is expected to take until the autumn of 2010, at which time the CC will publish its final Remedies Order.

Separately, in 2006, the FSA published the outcome of its broad industry thematic review of PPI sales practices in which it concluded that some firms fail to treat customers fairly and that the FSA would strengthen its actions against such firms. Tackling poor PPI sales practices remains a priority for the FSA. In September 2009, the FSA issued a Consultation Paper on the assessment and redress of PPI complaints made on or after 14th January 2005. The FSA has announced that it intends to publish a final version of the policy statement in early 2010 and will amend the DISP (Dispute Resolution: Complaints) rules in the FSA Sourcebook. Barclays voluntarily complied with the FSA's request to cease selling single premium PPI by the end of January 2009.

The OFT has carried out investigations into Visa and MasterCard credit card interchange rates. A decision by the OFT in the MasterCard interchange case was set aside by the CAT in 2006. The OFT is progressing its investigations in the Visa interchange case and a second MasterCard interchange case in parallel and both are ongoing. The outcome is not known but these investigations may have an impact on the consumer credit industry in general and therefore on Barclays business in this sector. In 2007, the OFT expanded its investigations into interchange rates to include debit cards.

Notwithstanding the Supreme Court ruling in relation to the test case (see Note 35 on page 221) Barclays continues to be involved in the OFT's work on personal current accounts. The OFT initiated a market study into personal current accounts (PCAs) in the UK in 2007 which also included an examination of other retail banking products, in particular savings accounts, credit cards, personal loans and mortgages in order to take into account the competitive dynamics of UK retail banking. In 2008, the OFT published its market study report, in which it concluded that certain features of the UK PCA market were not working well for consumers. The OFT reached the provisional view that some form of regulatory intervention is necessary in the UK PCA market. The OFT also held a consultation to seek views on the findings and possible measures to address the issues raised in its report. In October 2009, the OFT published a follow-up report containing details of voluntary initiatives in relation to transparency and switching agreed between the OFT and the industry. A further follow-up report is expected in March 2010 to provide details of voluntary initiatives agreed in relation to charging structures. Barclays has participated fully in the market study process and will continue to do so.

US laws and regulations require compliance with US economic sanctions, administered by the Office of Foreign Assets Control, against designated foreign countries, nationals and others. HM Treasury regulations similarly require compliance with sanctions adopted by the UK government. Barclays has been

Edgar Filing: BARCLAYS PLC - Form 6-K

conducting an internal review of its conduct with respect to US Dollar payments involving countries, persons and entities subject to these sanctions and has been reporting to governmental authorities about the results of that review. Barclays received inquiries relating to these sanctions and certain US Dollar payments processed by its New York branch from the New York County District Attorney's Office and the US Department of Justice which, along with other authorities, has been reported to be conducting investigations of sanctions compliance by non-US financial institutions. Barclays has responded to those inquiries and is cooperating with the regulators, the Department of Justice and the District Attorney's Office in connection with their investigations of Barclays conduct with respect to sanctions compliance. Barclays has also received a formal notice of investigation from the FSA, and has been keeping the FSA informed of the progress of the US investigations and Barclays internal review. Barclays review is ongoing. It is currently not possible to predict the ultimate resolution of the issues covered by Barclays review and the investigations, including the timing and potential financial impact of any resolution, which could be substantial.

37 Leasing

The Group is both lessor and lessee under finance and operating leases, providing asset financing for its customers and leasing assets for its own use. In addition, assets leased by the Group may be sublet to other parties. An analysis of the impact of these transactions on the Group balance sheet and income statement is as follows:

a) As Lessor**Finance lease receivables**

The Group specialises in asset-based lending and works with a broad range of international technology, industrial equipment and commercial companies to provide customised finance programmes to assist manufacturers, dealers and distributors of assets.

Finance lease receivables are included within loans and advances to customers. The Group's net investment in finance lease receivables was as follows:

	Gross investment in finance lease receivables	Future finance income	2009 Present value of minimum lease payments receivable	Unguaranteed residual values	Gross investment in finance lease receivables	Future finance income	2008 Present value of minimum lease payments receivable	Unguaranteed residual values
	£m	£m	£m	£m	£m	£m	£m	£m
Not more than one year	3,513	(456)	3,057	55	3,929	(689)	3,240	149
Over one year but not more than five years	7,597	(1,117)	6,480	154	8,668	(1,673)	6,995	355
Over five years	2,084	(427)	1,657	407	3,419	(768)	2,651	25
Total	13,194	(2,000)	11,194	616	16,016	(3,130)	12,886	529

The allowance for uncollectable finance lease receivables included in the allowance for impairment amounted to £321m at 31st December 2009 (2008: £189m).

Operating lease receivables

The Group acts as lessor, whereby items of plant and equipment are purchased and then leased to third parties under arrangements qualifying as operating leases. The items purchased to satisfy these leases are included within plant and equipment (see Note 23) and are generally disposed of at the end of the lease term.

The future minimum lease payments expected to be received under non-cancellable operating leases at 31st December 2009 were as follows:

2009

Tax	(43)	(28)	(71)
Gain on sale, net of tax	6,288	156	6,444

On 1st December 2009 the Group completed the sale of BGI to BlackRock, Inc. (BlackRock) recognising a profit on disposal before tax of £6,331m. The tax charge of £43m reflects the application of UK substantial shareholdings relief in accordance with UK tax law.

Edgar Filing: BARCLAYS PLC - Form 6-K

The consideration at completion was \$15.2bn (£9.5bn), including 37.567 million new BlackRock shares, giving an economic interest of 19.9% of the enlarged BlackRock group. Barclays Group holds 4.9% of the voting rights and under the terms of the transaction may not acquire additional voting rights and will vote in accordance with the recommendations of the BlackRock Board of Directors. John Varley and Robert E Diamond Jr. have been appointed to the BlackRock Board, which comprises 18 Directors. The Group is not deemed to exercise significant influence and the investment has been accounted for as an available for sale equity investment.

The Group has provided BlackRock with customary warranties and indemnities in connection with the sale. Barclays will also continue to indemnify securities lending arrangements until 30th November 2012 (included within contingent liabilities in Note 34) and provide support to certain BGI cash funds until December 2013 in the form of credit derivatives (included within derivative liabilities in Note 14) and financial guarantees (included within provisions in Note 28).

In addition, Barclays, BlackRock and their respective affiliates also enter into agreements and transactions with one another in the ordinary course of their respective businesses and on an arm's length commercial basis, subject to applicable regulation and agreements with relevant regulators.

In connection with its financing of its acquisition of BGI, BlackRock entered into a 364-day revolving credit facility with a group of lenders including Barclays, who is also acting as revolving agent. Of the \$2bn credit facility, \$0.8bn was committed by other lenders and following completion BlackRock had borrowed or notified to be borrowed \$1.5bn under the facility. All amounts borrowed under this facility have been fully repaid and the facility was terminated prior to 31st December 2009.

Prior year disposals

In 2008, the Group disposed of Barclays Life Assurance Limited. There were no material disposals in 2007.

Note

a Net cash consideration received from the sale of BGI, excluding the effect of hedging, cash balances disposed of and transaction costs paid, was £2,469m.

40 Acquisition of subsidiaries**a) Crescent Real Estate**

On 19th November 2009, Barclays formed Crescent Real Estate Holdings LLC a joint venture with Goff Capital, Inc., to assume 99.7% ownership of Crescent Real Estate Equities Limited partnership (Crescent) following the completion of a debt restructuring transaction. Crescent is a real estate investment company that owns and manages office space, as well as investments in resort residential developments and luxury hotels across the US. These properties are accounted for as investment properties.

The assets and liabilities of Crescent at acquisition were as follows:

	Carrying value pre- acquisition £m	Fair value adjustments £m	Fair values £m
Assets			
Loans and advances to customers	85		85
Investment in associates and joint ventures	132	(45)	87
Property, plant and equipment	879	69	948
Other assets	154	(2)	152
Total assets	1,250	22	1,272
Liabilities			
Deposits from banks	(170)		(170)
Other liabilities	(102)	3	(99)
Total liabilities	(272)	3	(269)
Net assets	978	25	1,003
Group share of net assets acquired	978	25	1,003
Acquisition cost			
Loans			1,003
Total consideration			1,003
No goodwill arose on acquisition.			

The results of Crescent's operations have been included from 19th November 2009 and did not materially contribute to the consolidated profit before tax. It is impracticable to disclose the revenue and profit or loss of the combined entity as though the acquisition date had been 1st January 2009.

40 Acquisition of subsidiaries continued**b) Other acquisitions**

Other acquisitions made by the Group during the year included 100% of PT Bank Akita on 1st February 2009 and 100% of the Portuguese credit card business of Citibank International PLC on 1st December 2009.

The Group increased its share in Abseq Properties (Pty) Ltd (previously accounted for as an associate) to 85% on 30th January 2009. On 6th April 2009, the Group acquired 100% of Care Principles as part of a debt restructuring transaction.

None of these acquisitions were individually material.

Details of the net assets acquired and the consideration paid are set out in aggregate below. The results of their operations have been included from the dates acquired and contributed a loss of £17m to the consolidated profit before tax.

	Carrying value pre- acquisition £m	Fair value adjustments £m	Other adjustments £m	Fair values £m
Assets				
Loans and advances to customers	598	(9)		589

Cash outflows in respect of acquisitions	

The aggregate net outflow of cash from the acquisition of the above Group entities was £28m, representing cash consideration and attributable costs.

Prior year acquisitions

The initial accounting for the 2008 acquisition of the North American businesses of Lehman Brothers was completed on 22nd September 2009. There were no revisions to the initial accounting disclosed in the 2008 financial statements. Approximately £2.3bn of the assets acquired as part of the acquisition had not been received by 31st December 2009, approximately £1.8bn of which were recognised as part of the accounting for the acquisition and are included in the balance sheet as at 31st December 2009. Ongoing legal proceedings related to the acquisition, including in respect of assets not yet received, are discussed in Note 35.

In addition, in 2008 the Group acquired Macquarie Bank Limited's residential mortgage businesses, Goldfish credit card UK businesses and 100% of the ordinary shares of Expobank.

In 2007, the Group acquired 100% of the ordinary shares of each of Indexchange Investment AG, Equifirst Corporation and Walbrook Group Limited.

In accordance with Section 410(2)(a) of the Companies Act 2006, the above information is provided solely in relation to principal subsidiaries.

The country of registration or incorporation is also the principal area of operation of each of the above subsidiaries. Investments in these subsidiaries are held directly by Barclays Bank PLC except where marked*.

Full information of all subsidiaries will be included in the Annual Return to be filed at UK Companies House.

Entities in which the Group holds less than half the voting rights

Edgar Filing: BARCLAYS PLC - Form 6-K

There are a number of entities in which the Group holds less than half the voting rights which are consolidated when the substance of the relationship between the Group and the entity indicates that the entity is controlled by the Group. Such entities are deemed to be controlled by the Group when relationships with such entities give rise to benefits that are in substance no different from those that would arise were the entity a subsidiary.

The consolidation of such entities may be appropriate in a number of situations, but primarily when:

the operating and financial policies of the entity are closely defined from the outset (i.e. it operates on an 'autopilot' basis) with such policies being largely determined by the Group;

the Group has rights to obtain the majority of the benefits of the entity and/or retains the majority of the residual or ownership risks related to the entity; or

the activities of the entity are being conducted largely on behalf of the Group according to its specific business objectives. Such entities are created for a variety of purposes including securitisation, structuring, asset realisation, intermediation and management.

Subsidiaries with a different reporting date from that of the Parent of 31st December

Entities may have a different reporting date from that of the Parent of 31st December. Dates may differ for a variety of reasons including local reporting regulations or tax laws. In accordance with our accounting policies, for the purpose of inclusion in the consolidated financial statements of Barclays PLC, entities with different reporting dates are made up until 31st December.

Table of Contents

230

Notes to the accounts**For the year ended 31st December 2009**

continued

41 Investment in subsidiaries continued**Entities where the Group's interest exceeds 50% which are excluded from consolidation**

Although the Group's interest in the equity voting rights in certain entities exceeds 50%, or it may have the power to appoint a majority of their Boards of Directors, they are excluded from consolidation because the Group either cannot direct the financial and operating policies of these entities, or on the grounds that another entity has a superior economic interest in them. Consequently, these entities are not deemed to be controlled by Barclays.

The table below includes information in relation to such entities as required by the Companies Act 2006 Section 410(2)(b).

Country of registration or incorporation	Name	Percentage of ordinary share capital held %	Equity share- holders funds £m	Retained loss for the year £m
UK	Fitzroy Finance Limited	100		
Cayman Islands	Palomino Limited	100	1	

42 Related party transactions and Directors remuneration**a) Related party transactions**

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operation decisions, or one other party controls both. The definition includes subsidiaries, associates, joint ventures and the Group's pension schemes, as well as other persons.

Subsidiaries

Transactions between Barclays PLC and subsidiaries also meet the definition of related party transactions. Where these are eliminated on consolidation, they are not disclosed in the Group financial statements. Transactions between Barclays PLC and its subsidiary, Barclays Bank PLC are fully disclosed in its balance sheet and income statement. A list of the Group's principal subsidiaries is shown in Note 41.

Associates, joint ventures and other entities

The Group provides banking services to its associates, joint ventures, the Group pension funds (principally the UK Retirement Fund) and to entities under common directorships, providing loans, overdrafts, interest and non-interest bearing deposits and current accounts to these entities as well as other services. Group companies also provide investment management and custodian services to the Group pension schemes. The Group also provides banking services for unit trusts and investment funds managed by Group companies and are not individually material. All of these transactions are conducted on the same terms as third-party

transactions.

Entities under common directorships

The Group enters into normal commercial relationships with entities for which members of the Group's Board also serve as Directors. The amounts included in the Group's financial statements relating to such entities that are not publicly listed are shown in the table opposite under Entities under common directorships.

continued

42 Related party transactions and Directors remuneration continued

No guarantees, pledges or commitments have been given or received in respect of these transactions in 2009, 2008 or 2007.

Derivatives transacted on behalf of the Pensions Funds Unit Trusts and Investment Funds amounted to £192m (2008: £318m, 2007: £22m).

In 2008 Barclays paid £12m (2007: £18m) of its charitable donations through the Charities Aid Foundation, a registered charitable organisation, in which a Director of the Company was a Trustee. In 2009, following personnel changes, Charities Aid Foundation is not a related party.

Key Management Personnel

The Group's Key Management Personnel, and persons connected with them, are also considered to be related parties for disclosure purposes. Key Management Personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of Barclays PLC (directly or indirectly) and comprise the Directors of Barclays PLC and the Officers of the Group, certain direct reports of the Group Chief Executive and the heads of major business units.

There were no material related party transactions with Entities under common directorship where a Director or other member of Key Management Personnel (or any connected person) is also a Director or other member of Key Management Personnel (or any connected person) of Barclays.

The Group provides banking services to Directors and other Key Management Personnel and persons connected to them. Transactions during the year and the balances outstanding at 31st December 2009 were as follows:

	Directors, other Key Management Personnel and connected persons		
	2009	2008	2007
	£m	£m	£m
Loans outstanding at 1st January	7.3	7.4	7.8
Loans issued during the year	1.9	6.9	2.7
Loan repayments during the year	(1.6)	(5.5)	(3.2)
Loans outstanding at 31st December	7.6	8.8	7.3
Interest income earned	0.1	0.4	0.4

No allowances for impairment were recognised in respect of loans to Directors or other members of Key Management Personnel (or any connected person) in 2009, 2008 or 2007.

Edgar Filing: BARCLAYS PLC - Form 6-K

	2009	2008	2007
	£m	£m	£m
Deposits outstanding at 1st January	28.7	8.9	15.0
Deposits received during the year	160.0	235.7	114.4
Deposits repaid during the year	(158.0)	(221.9)	(115.0)
Deposits outstanding at 31st December	30.7	22.7	14.4
Interest expense on deposits	0.1	0.5	0.6

During 2009 the membership of the Group Executive Committee increased. These additional persons became Officers of the Group and as such are included in Key Management Personnel for 2009, but not 2008.

Of the loans outstanding above, £0.1m (2008: £1.6m, 2007: £nil) relates to Directors and other Key Management Personnel (and persons connected to them) that left the Group during the year. Of the deposits outstanding above, £3.7m (2008: £6.1m, 2007: £2.8m) related to Directors and other Key Management Personnel (and persons connected to them) that left the Group during the year. The amounts disclosed as at 1st January includes deposits outstanding for those who became Directors or Key Management Personnel during the year.

All loans to Directors and other Key Management Personnel (and persons connected to them), (a) were made in the ordinary course of business, (b) were made on substantially the same terms, including interest rates and collateral, as those prevailing at the same time for comparable transactions with other persons and (c) did not involve more than a normal risk of collectability or present other unfavourable features; with the exception of £692 provided on an interest free basis.

A loan of £692 provided on an interest free basis was granted to one non-Director member of Barclays Key Management to purchase a commuter rail ticket. The maximum loan outstanding during the year was £692. Commuter rail ticket loans are provided to all Barclays staff members upon request on the same terms.

b) Disclosure required by the Companies Act 2006

The following information is presented in accordance with the Companies Act 2006:

Directors remuneration

	2009	2008
	£m	£m
Aggregate emoluments	8.8	6.0
Gains made on the exercise of share options	8.9	
Amounts paid under long-term incentive schemes		7.4
	17.7	13.4

Actual pension contributions of £18,786 were paid to money purchase schemes on behalf of one Director (2008: £11,745, one Director). Notional pension contributions to money purchase schemes were £nil (2008: £nil).

As at 31st December 2009, two Directors were accruing retirement benefits under a defined benefit scheme (2008: two Directors).

One Director (Frits Seegers) agreed to waive his fees as non-executive Director of Absa Group Limited and Absa Bank Limited. The fees for 2009 were ZAR 0.1m (£0.01m). The fees for 2008 were ZAR 0.4m (£0.03m). In both 2008 and 2009 the fees were paid to Barclays.

Directors and Officers shareholdings and options

The beneficial ownership of the ordinary share capital of Barclays PLC by all Directors and Officers of Barclays PLC (involving 23 persons) and Barclays Bank PLC (involving 24 persons) at 31st December 2009 amounted 20,000,820 ordinary shares of 25p each (0.18% of the ordinary share capital outstanding) and

Edgar Filing: BARCLAYS PLC - Form 6-K

20,008,541 ordinary shares of 25p each (0.18% of the ordinary share capital outstanding), respectively.

Directors and Officers of Barclays PLC held in total (involving 12 persons) at 31st December 2009, options to purchase 3,279,642 Barclays PLC ordinary shares of 25p each at prices ranging from 255p to 470p under Sharesave and ranging from 317p to 520p under the Incentive Share Option Plan, respectively.

Table of Contents

234

Notes to the accounts**For the year ended 31st December 2009**

continued

42 Related party transactions and Directors remuneration continued**Advances and credit to Directors and guarantees on behalf of Directors**

In accordance with Section 413 of the Companies Act 2006 and in relation to those who served as Directors of the Company at any time in the financial year, the total amount of advances and credits at 31st December 2009 was £1.8m (2008: £0.8m). The total amount of guarantees on behalf of Directors at 31st December 2009 was £nil (2008: £nil).

c) US disclosures

For US disclosure purposes, the aggregate emoluments of all Directors and Officers of Barclays PLC who held office during the year (2009: 28 persons, 2008: 24 persons, 2007: 22 persons) for the year ended 31st December 2009 amounted to £29.8m (2008: £26.8m, 2007: £64.6m). In addition, the aggregate amount set aside for the year ended 31st December 2009, to provide pension benefits for the Directors and Officers amounted to £0.7m (2008: £0.9m, 2007: £1.1m). The aggregate emoluments of all Directors and Officers of Barclays Bank PLC who held office during the year (2009: 29 persons, 2008: 25 persons, 2007: 23 persons) for the year ended 31st December 2009 amounted to £30.1m (2008: £26.9m and 2007: £64.9m). In addition, the aggregate amount set aside by the Bank and its subsidiaries for the year ended 31st December 2009, to provide pension benefits for the Directors and Officers amounted to £0.7m (2008: £0.9m, 2007: £1.1m).

43 Events after the balance sheet date

On 1st January 2010, the Group acquired 100% ownership of Standard Life Bank Plc for a consideration of £227m in cash. The assets acquired include a savings book of approximately £5.8bn, and a mortgage book with outstanding balances of approximately £7.5bn.

As announced on 3rd November 2009, the Group has made changes to its business structure, which will be reflected in the Group's external financial reporting for periods commencing 1st January 2010. The segmental information presented in Note 53 represents the business segments and other operations used for management and reporting purposes during the year ended 31st December 2009.

On 17th February 2010, 626.8 million of the 758.4 million warrants held by PCP Gulf Invest 3 Limited (a subsidiary of Nexus Capital Investing Limited) were exercised for an aggregate exercise price of approximately £1,240m. As a result 626.8 million new ordinary shares were issued representing a 5.2% ownership in the Group's enlarged share capital.

44 Share-based payments

The Group operates share schemes for employees throughout the world. The main current schemes are:

Sharesave

Eligible employees in the UK, Spain and Ireland may participate in the Barclays Sharesave scheme. Under this scheme, employees may enter into contracts to save up to £250 per month (Ireland: €500, Spain: €135) and, at the expiry of a fixed term of three, five or seven years (Spain: three years), have the option to use these savings to acquire shares in the Company at a discount, calculated in accordance with the rules of the scheme. The discount is currently 20% of the market price at

Edgar Filing: BARCLAYS PLC - Form 6-K

the date the options are granted. Participants in the scheme have six months from the date of vest in which the option can be exercised.

UK Sharepurchase

UK Sharepurchase was introduced in January 2002. It is an HM Revenue & Customs approved all-employee share plan. The plan is open to all eligible UK employees, including executive Directors. Under the plan, participants are able to purchase up to £1,500 worth of Barclays PLC ordinary shares per tax year, which, if kept in trust for five years, can be withdrawn from the plan tax-free. Matching shares were introduced to the scheme during 2005 where the purchase of Barclays shares by the participant are matched equally by the Company up to a value of £600 per tax year. Any shares in the plan will earn dividends in the form of additional shares, which must normally be held by the trustee for three years before being eligible for release.

Global Sharepurchase

Global Sharepurchase was introduced in August 2009. The plan is open to all eligible employees in countries outside the UK, including executive Directors. In 2009, the plan was launched in Germany, Hong Kong, Japan, Singapore and Switzerland. Under the plan, participants are able to purchase up to £1,500 worth of Barclays PLC ordinary shares per calendar year, from post-tax salary. The purchase of Barclays shares by the participant is matched by the Company on a one-for-one basis up to a value of £600 per calendar year. Matching Shares are forfeited if the participant chooses to sell shares purchased from their post-tax salary before the third anniversary of purchase. Any shares in the plan will earn dividends in the form of additional shares, which must normally be held by the trustee for three years before being eligible for release.

Executive Share Award Scheme (ESAS)

For certain employees of the Group an element of their annual bonus is in the form of a deferred award of a provisional allocation of Barclays PLC shares under ESAS. The total value of the bonus made to the employee of which ESAS is an element is dependent upon the business unit, Group and individual employee performance. The ESAS element of the annual bonus must normally be held for at least three years. Additional bonus shares are subsequently awarded to recipients of the provisional allocation and vest upon achieving continued service for three and five years from the date of award. ESAS awards are also made to eligible employees for recruitment purposes. All awards are subject to potential forfeit if the individual resigns and commences work with a competitor business.

Performance Share Plan (PSP)

The Performance Share Plan (PSP) was approved by shareholders at the 2005 AGM to replace the ISOP scheme. Performance shares are free Barclays shares for which no exercise price is payable and which qualify for dividends. Performance share awards are communicated to participants as an initial allocation. Barclays performance over a three-year period determines the final number of shares that may be released to participants.

Incentive Share Plan (Incentive Shares)

The Incentive Share Plan (Incentive Shares) was introduced in March 2008. Incentive Shares are granted to participants in the form of a provisional allocation of Barclays shares which vest upon achieving continued service after three years. Participants do not pay to receive an award or to receive a release of shares. Incentive Shares qualify for dividends.

44 Share-based payments continued

Options granted under the following schemes are over subsidiaries of Barclays PLC:

Absa Group Limited Share Incentive Trust (AGLSIT)

In terms of the rules of Absa Group Limited Share Incentive Trust, the maximum number of shares which may be issued or transferred and/or in respect of which options may be granted to the participants shall be limited to shares representing 10% of the total number of issued shares from time to time. This is an equity-settled share-based payment arrangement and options are allocated to Absa employees according to the normal human resources talent management processes. The options issued up to August 2005 had no performance criteria linked to them and vested in equal tranches after three, four and five years respectively. No dividends accrue to the option holder over the vesting period. The options expire after a period of ten years from the issuing date. Options issued since August 2005 have performance criteria associated with them, which require headline earnings per share to exceed an agreed benchmark over a three-year period from the grant date for the options to vest. Participants need to be in the employ of Absa at the vesting date in order to be entitled to the options.

Absa Group Limited Executive Share Award Scheme (AGLESAS)

The ESAS is an equity-settled share-based payment arrangement, where the participant's notional bonus comprises a number of restricted nil-cost options, based on the allocation price of ordinary shares. Such an initial allocation is held in trust or in the name of the participant. If the participant is in the employ of Absa after the three-year vesting period, the participant will receive 20% matched shares. If the bonus award remains in the ESAS for another two years, the participant receives another 10% matched shares. Dividend shares are paid to participants on the ordinary shares as if the shares were held from inception. The number of dividend shares awarded is therefore calculated on the initial allocation and on the 20% and/or 10% matched shares, over the three- or five-year period. Employees that receive a performance bonus in excess of a predetermined amount were compelled to place a set percentage of their bonus award into the ESAS. Employees also had the option of utilising more of their bonus award for voluntary ESAS options.

Absa Group Limited Performance Share Plan (AGLPSP)

The Performance Share Plan (PSP) was implemented in 2008. Performance shares are free Absa Group Limited shares for which no exercise price is payable and which qualify for dividends. Performance share awards are communicated to participants as an initial allocation. Absa Group Limited's performance over a three-year period determines the final number of shares that may be released to participants.

Options remain outstanding under the following closed schemes:

Incentive Share Option Plan (ISOP)

The ISOP was open by invitation to the employees and Directors of Barclays PLC. Options were granted at the market price at the date of grant calculated in accordance with the rules of the plan, and are normally exercisable between three and ten years from that date. The final number of shares over which the option may be exercised is determined by reference to set performance criteria. The number of shares under option represents the maximum possible number that may be exercised. No awards were made under ISOP during 2009.

Woolwich Executive Share Option Plan (Woolwich ESOP)

Options originally granted over Woolwich PLC shares at market value were exercised in 2001 or exchanged, in accordance with the proposals made under the offer to acquire the Woolwich, for options over Barclays PLC shares. Under the rules of ESOP, the performance conditions attached to the exercise of options were disappplied on acquisition of Woolwich PLC by Barclays. Options lapse ten years after grant.

Edgar Filing: BARCLAYS PLC - Form 6-K

In addition, there were no options outstanding at year end under the following closed schemes:

Absa Group Broad-based Black Economic Empowerment transaction (BEE)

The Group entered into a black economic empowerment (BEE) transaction with Batho Bonke Capital (Proprietary) Limited in July 2004. The shares issued in terms of the transaction vested immediately. Due to the shares issued vesting immediately and also as a result of the issue being before 1st January 2005, the provisions of IFRS 2 Share-based payments were not applicable. In the current period 49.9% of the options were repurchased from Batho Bonke (Proprietary) Limited at a discount to their fair value. Batho Bonke utilised the proceeds to exercise 11,970,536 options. The Group provided bridging finance for the remaining 24,678,764 options. The life of these options was effectively extended for three months, effective 1st June 2009. The modification did not result in an increase in the fair value of these options and therefore, in terms of the provisions of IFRS 2, no cost was recognised in the statement of comprehensive income in the current period.

The bridging finance was redeemed on 1st September 2009 and Batho Bonke Capital (Proprietary) Limited exercised the balance of the options outstanding.

Absa Group Limited Share Ownership Administrative Trust (AGLSOT)

AGLSOT enabled all Absa employees to participate in a one-off offer to purchase 200 redeemable cumulative option-holding preference shares. Each redeemable preference share carries the option to acquire one Absa ordinary share. Options vest after three years and lapse after five years from the date of issue. Exercise may occur in lots of 100 only and within a price range varying from R48 to R69 (£3.81 to £5.48) dependent on the 30-day volume weighted trading price on the JSE Limited. Options are redeemed by Absa on the final exercise date.

Executive Share Option Scheme (ESOS)

The ESOS is a long-term incentive scheme and was available by invitation to certain senior executives of the Group with grants usually made annually. Options were issued with an exercise price equivalent to the market price at the date of the grant without any discount, calculated in accordance with the rules of the scheme, and are normally exercisable between three and ten years from that date. No further awards are made under ESOS.

Barclays Global Investors Equity Ownership Plan (BGI EOP)

The EOP was provided to key employees of BGI and was wound up following the disposal of BGI. The exercise price of the options was determined by the Remuneration Committee of Barclays PLC based on the fair value of BGI as determined by an independent appraiser. The options were granted over shares in Barclays Global Investors UK Holdings Limited, a subsidiary of Barclays Bank PLC.

Options were not exercisable until vesting, with a third of the options held generally becoming exercisable at each anniversary of grant. The shareholder had the right to offer to sell the shares to Barclays Bank PLC 355 days following the exercise of the option. The most recently agreed valuation was £109.45, at 30th November 2009. No awards were made under the BGI EOP in 2009.

The scheme rules provided that in the event of a sale of the business, outstanding options vest before the disposal. During the year the Group disposed of Barclays Global Investors. Accordingly, the share-based payment charge has been accelerated in these financial statements.

Notes to the accounts**For the year ended 31st December 2009**

continued

44 Share-based payments continued

At the balance sheet date the following cash-settled schemes operated within the Group:

Absa Group Limited Phantom Performance Share Plan (Phantom PSP)

The Phantom PSP is a cash-settled plan and payments made to participants in respect of their awards are in the form of cash. The Phantom PSP shares (and any associated notional dividend shares) are awarded at no cost to the participants. The amount that is ultimately paid to the participants is equal to the market value of a number of ordinary shares as determined after a three-year vesting period. The vesting of the Phantom PSP awards will be subject to two non-market performance conditions which will be measured over a three-year period, starting on the first day of the financial year in which the award is made. The award will vest after three years to the extent that the performance conditions are satisfied. These awards are forfeited in total if Absa performance fails to meet the minimum criteria.

Absa Group Limited Phantom Executive Share Award Scheme (Phantom ESAS)

The Phantom ESAS is a cash-settled share-based payment arrangement, where the participant's notional bonus comprises a number of restricted nil-cost options, based on the allocation price of ordinary shares. If the participant is in the employ of the Group after the three-year vesting period, the participant will receive 20% bonus phantom shares. If the bonus award remains in the Phantom ESAS for another two years, the participant receives an additional 10% bonus phantom shares. Dividend phantom shares are paid to participants on the ordinary phantom shares as if the shares were held from inception. The number of dividend phantom shares awarded is therefore calculated on the initial allocation and on the 20% and 10% bonus phantom shares, over the three- or five-year period. Employees that receive performance bonuses in excess of a predetermined amount are compelled to place a set percentage of the bonus award in the Phantom ESAS. Employees also have the option of utilising more of their bonus award for voluntary ESAS phantom shares.

The weighted average fair value per option granted during the year is as follows:

	2009	2008
	£	£
Sharesave	1.43	0.92
PSP	2.81	4.89
Sharepurchase	1.82	3.38
ISP	2.58	4.22
ESAS	1.08	4.09
AGLPSP	6.88	7.76
AGLESAS	6.82	7.17

Fair values for Sharesave and PSP are calculated at the date of grant using either a Black-Scholes model or Monte Carlo simulation. Sharepurchase, ISP, ESAS, AGLPSP and AGLESAS are nil cost awards on which the performance conditions are substantially completed at the date of grant. Consequently the fair value of these awards is based on the market value at that date.

Edgar Filing: BARCLAYS PLC - Form 6-K

As described above, the terms of the ESAS scheme require shares to be held for a set number of years from the date of vest. The calculation of the vest date fair value of such awards includes a reduction for this post-vesting restriction. This discount is determined by calculating how much a willing market participant would rationally pay to remove the restriction using a Black-Scholes option pricing model. The total discount required in 2009 is £10m (2008: £10m, 2007: £66m).

The significant weighted average assumptions used to estimate the fair value of the options granted in 2009 are as follows:

	2009	
	Sharesave	PSP
Weighted average share price	3.51	2.34
Weighted average exercise price	2.70	1.77
Expected volatility	45%	45%
Expected option life	4 years	2 years

The significant weighted average assumptions used to estimate the fair value of the options granted in 2008 are as follows:

	2008	
	Sharesave	PSP
Weighted average share price	3.11	5.45
Weighted average exercise price	2.51	2.07
Expected volatility	37%	37%
Expected option life	4 years	3 years

The significant weighted average assumptions used to estimate the fair value of the options granted in 2007 are as follows:

	2007			
	Sharesave	PSP	BGI EOP	AGLSIT
Weighted average share price	5.82	7.07	95.33	9.18
Weighted average exercise price	4.81		95.33	7.62
Expected volatility	25%	25%	20%	30%
Expected option life	4 years	3 years	4 years	5 years

Table of Contents

44 Share-based payments continued

Expected volatility and dividend yield on the date of grant have been used as inputs into the respective valuation models for Sharesave and PSP.

The yield on UK government bonds with a commensurate life has been used to determine the risk-free discount rate of 3% for Sharesave and PSP. Option life is estimated based upon historical data for the holding period of options between grant and exercise dates.

For the purposes of determining the expected life and number of options to vest, historical exercise patterns have been used, together with an assumption that a certain percentage of options will lapse due to leavers.

The assumed dividend yield for Barclays PLC is the average annual dividend yield on the date of grant of 2%.

Analysis of the movement in the number and weighted average exercise price of options is set out below:

Notes to the accounts

For the year ended 31st December 2009

continued

45 Off-balance sheet arrangements

In the ordinary course of business and primarily to facilitate client transactions, the Group enters into transactions which may involve the use of off-balance sheet arrangements and special purpose entities (SPEs). These arrangements include the provision of guarantees, loan commitments, retained interests in assets which have been transferred to an unconsolidated SPE or obligations arising from the Group's involvements with such SPEs.

Guarantees

The Group issues guarantees on behalf of its customers. In the majority of cases, the Group will hold collateral against the exposure, have a right of recourse to the customer or both. In addition, the Group issues guarantees on its own behalf. The main types of guarantees provided are: financial guarantees given to banks and financial institutions on behalf of customers to secure loans; overdrafts; and other banking facilities, including stock borrowing indemnities and standby letters of credit. Other guarantees provided include performance guarantees, advance payment guarantees, tender guarantees, guarantees to Her Majesty's Revenue and Customs and retention guarantees. The nominal principal amount of contingent liabilities with off-balance sheet risk is set out in Note 34 (Contingent liabilities and commitments).

Loan commitments

The Group enters into commitments to lend to its customers subject to certain conditions. Such loan commitments are made either for a fixed period or are cancellable by the Group subject to notice conditions. Information on loan commitments and similar facilities is set out in Note 34 (Contingent liabilities and commitments).

Leasing

The Group leases various offices, branches, other premises and equipment under non-cancellable operating lease arrangements. With such operating lease arrangements, the asset is kept on the lessor's balance sheet and the Group reports the future minimum lease payments as an expense over the lease term. Information on leasing can be found in Note 37 (Leasing).

Special purpose entities

SPEs are entities that are created to accomplish a narrow and well defined objective. There are often specific restrictions or limits around their ongoing activities. The Group's transactions with SPEs take a number of forms, including:

The provision of financing to fund asset purchases, or commitments to provide finance for future purchases.

Derivative transactions to provide investors in the SPE with a specified exposure.

The provision of liquidity or backstop facilities which may be drawn upon if the SPE experiences future funding difficulties.

Direct investment in the notes issued by SPEs.

Depending on the nature of the Group's resulting exposure, it may consolidate the SPE on to the Group's balance sheet. The consolidation of SPEs is considered at inception, based on the arrangements in place and the assessed risk exposures at that time. In accordance with IFRS, SPEs are consolidated when the substance of the relationship between the Group and the entity indicates control. Potential indicators of control include, amongst others, an assessment of the Group's exposure to the risks and benefits of the SPE. The initial consolidation analysis is revisited at a later date if:

- i) the Group acquires additional interests in the entity;
- ii) the contractual arrangements of the entity are amended such that the relative exposures to risks and rewards change; or
- iii) the Group acquires control over the main operating and financial decisions of the entity.

A number of the Group's transactions have recourse only to the assets of unconsolidated SPEs. Typically, the majority of the exposure to these assets is borne by third parties and the Group's risk is mitigated through over-collateralisation, unwind features and other protective measures.

The business activities within the Group where SPEs are used include multi-seller conduit programmes, asset securitisations, client intermediation, credit structuring, asset realisations and fund management. These activities are described below. In addition, later sections provide quantitative information on the Group's involvements with CDOs, SIVs, SIV-Lites and conduits.

Multi-seller conduit programmes

Barclays creates, administers and provides liquidity and credit enhancements to several commercial paper conduit programmes, primarily in the United States. These conduits provide clients access to liquidity in the commercial paper markets by allowing them to sell consumer or trade receivables to the conduit, which then issues commercial paper to investors to fund the purchase. The conduits have sufficient collateral, credit enhancements and liquidity support to maintain an investment grade rating for the commercial paper.

Asset securitisations

The Group has assisted its customers with the formation of asset securitisations, some of which are effected through the use of SPEs. These entities have minimal equity and rely on funding in the form of notes to purchase the assets for securitisation. As these SPEs are created for other companies, the Group does not usually control these entities and therefore does not consolidate them. The Group may provide financing in the form of senior notes or junior notes and may also provide derivatives to the SPE. These transactions are included on the balance sheet.

The Group has also used SPEs to securitise part of its originated and purchased retail and commercial lending portfolios and credit card receivables. These SPEs are usually consolidated and derecognition only occurs when the Group transfers its contractual right to receive cash flows from the financial assets, or retains the contractual rights to receive the cash flows, but assumes a contractual obligation to pay the cash flows to another party without material delay or reinvestment, and also transfers substantially all the risks and rewards of ownership, including credit risk, prepayment risk and interest rate risk. The carrying amount of securitised assets together with the associated liabilities are set out in Note 29.

Table of Contents

241

45 Off-balance sheet arrangements continued

Client intermediation

The Group has structured transactions as a financial intermediary to meet investor and client needs. These transactions involve entities structured by either the Group or the client and they are used to modify cash flows of third party assets to create investments with specific risk or return profiles or to assist clients in the efficient management of other risks. Such transactions will typically result in a derivative being shown on the balance sheet, representing the Group's exposure to the relevant asset. The Group also invests in lessor entities specifically to acquire assets for leasing. Client intermediation also includes arrangements to fund the purchase or construction of specific assets (most common in the property industry).

Credit structuring

The Group structures investments to provide specific risk profiles to investors. This may involve the sale of credit exposures, often by way of derivatives, to an entity which subsequently funds those exposures by issuing securities. These securities may initially be held by Barclays prior to sale outside of the Group.

Asset realisations

The Group establishes SPEs to facilitate the recovery of loans in circumstances where the borrower has suffered financial loss.

To the extent that there are guarantees and commitments in relation to SPEs the details are included in Note 34 Contingent liabilities and commitments.

Collateralised debt obligations (CDOs)

The Group has structured and underwritten CDOs. At inception, the Group's exposure principally takes the form of a liquidity facility provided to support future funding difficulties or cash shortfalls in the vehicles. If required by the vehicle, the facility is drawn with the amount advanced included within loans and advances on the balance sheet. Upon an event of default or other triggering event, the Group may acquire control of a CDO and, therefore, be required to fully consolidate the vehicle for accounting purposes. The potential for transactions to hit default triggers before the end of 2010 has been assessed and is included in the determination of £714m impairment charges and other credit provisions in relation to ABS CDO Super Senior and other credit market exposures for the year ended 31st December 2009.

The Group's exposure to ABS CDO Super Senior positions before hedging was £1,931m as at 31st December 2009, equivalent to an aggregate 50.83% decline in value on average for all investors. This represents the Group's exposure to High Grade CDOs, stated net of write-downs and charges. These facilities are fully drawn and included within loans and advances on the balance sheet.

Collateral

The collateral underlying unconsolidated CDOs comprised 78% residential mortgage-backed securities, 3% non-residential asset-backed securities and 19% in other categories (a proportion of which will be backed by residential mortgage collateral).

The remaining Weighted Average Life (WAL) of all collateral is 5.9 years. The combined Net Asset Value (NAV) for all of the CDOs was £0.9bn.

Funding

Edgar Filing: BARCLAYS PLC - Form 6-K

The CDOs were funded with senior unrated notes and rated notes up to AAA. The capital structure senior to the AAA notes on cash CDOs was supported by a liquidity facility provided by the Group. The senior portion covered by liquidity facilities is on average 88% of the capital structure.

The initial WAL of the notes in issue averaged 6.7 years. The full contractual maturity is 38.2 years.

Interests in third party CDOs

The Group has purchased securities in and entered into derivative instruments with third party CDOs. These interests are held as trading assets or liabilities on the Group's balance sheet and measured at fair value. The Group has not provided liquidity facilities or similar agreements to third party CDOs.

Structured investment vehicles (SIVs)

The Group does not structure or manage SIVs. Group exposure to third party SIVs comprised:

£16m (2008: £52m) of senior liquidity facilities.

Derivative exposures included on the balance sheet at their net fair value of £53m (2008: £273m).

SIV-Lites

The Group has exposure to two SIV-Lite transactions. The Group is not involved in their ongoing management. Exposures have decreased to £461m (2008: £638m) representing drawn liquidity facilities of £106m and assets designated at fair value of £355m.

Notes to the accounts

For the year ended 31st December 2009

continued

45 Off-balance sheet arrangements continued

Commercial paper and medium-term note conduits

The Group provided £16bn in undrawn backstop liquidity facilities to its own sponsored CP conduits. The Group fully consolidates these entities such that the underlying assets are reflected on the Group balance sheet.

These consolidated entities in turn provide facilities of £753m to third party conduits containing prime UK buy-to-let RMBS. As at 31st December 2009, the entire facility had been drawn and is included in available for sale financial investments.

The Group provided backstop facilities to support the paper issued by four third party conduits. These facilities totalled £287m, with underlying collateral comprising 100% auto loans. Drawings on these facilities were £125m as at 31st December 2009 and are included within loans and advances to customers.

The Group provided backstop facilities to four third party SPEs that fund themselves with medium-term notes. These notes are sold to investors as a series of 12-month securities and remarketed to investors annually. If investors decline to renew their holdings at a price below a pre-agreed spread, the backstop facility requires the Group to purchase the outstanding notes at scheduled maturity. The Group has provided facilities of £1.6bn to SPEs holding prime UK and Australian owner-occupied Residential Mortgage Back Securities (RMBS) assets. As at the balance sheet date these facilities had been drawn and were included in loans and advances.

46 Financial risks

Financial risk management

The Group is a major global financial services provider engaged in retail and commercial banking, credit cards, investment banking, wealth management and investment management services. Financial instruments are fundamental to the Group's business and managing financial risks, especially credit risk, is a fundamental part of its business activity.

The Group's risk management policies and processes are designed to identify and analyse risk, to set appropriate risk appetite, limits, and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date data. Risk management policies, models and systems are regularly reviewed to reflect changes to markets, products and best market practice.

Risk responsibilities

The Board approves risk appetite and the Board Risk Committee (BRC) monitors the Group's risk profile against this appetite:

Edgar Filing: BARCLAYS PLC - Form 6-K

The Chief Risk Officer, under delegated authority from the Group Chief Executive and Group Finance Director, has responsibility for ensuring effective risk management and control;

Business Heads are responsible for the identification and management of risk in their businesses;

Business risk teams, each under the management of a Business Risk Director, are responsible for assisting Business Heads in the identification and management of their business risk profiles for implementing appropriate controls. These risk management teams also assist Group Risk in the formulation of Group Risk policy and the implementation of it across the businesses;

Within Group Risk, Risk-Type Heads and their teams are responsible for establishing a risk control framework and risk oversight; and

Internal Audit is responsible for the independent review of risk management and the control environment. Oversight of risk management is exercised by the Group Risk Oversight Committee which is chaired by the Chief Risk Officer under authority delegated by the Group Finance Director. The Group Risk Oversight Committee oversees management of the Group's risk profile, exercised through the setting, review and challenge of the size and constitution of the profile when viewed against the Group risk appetite.

The Executive Committee monitors and manages risk-adjusted performance of businesses and receives a regular update on forward risk trends and the Group Risk Profile Report.

The BRC reviews the Group risk profile, approves the Group Control Framework and approves minimum control requirements for principal risks.

The Board Audit Committee (BAC) considers the adequacy and effectiveness of the Group Control Framework and receives quarterly reports on control issues of significance and half-yearly reports on impairment allowances and regulatory reports.

Both BRC and BAC also receive reports dealing in more depth with specific issues relevant at the time. The proceedings of both Committees are reported to the full Board. The Board approves the overall Group risk appetite.

The Group Risk Oversight Committee is chaired by the Chief Risk Officer and oversees the management of the Group's risk profile and all of its significant risks. Oversight is exercised through the setting, review and challenge of the size and constitution of the profile when viewed against the Group's risk appetite. It has delegated and apportioned responsibility for credit risk management to the Retail and Wholesale Credit Risk Management Committees.

The main financial risks affecting the Group are discussed in Notes 47 to 49.

47 Credit risk

Credit risk is the risk of suffering financial loss, should any of the Group's customers, clients or market counterparties fail to fulfil their contractual obligations to the Group. Credit risk arises mainly from commercial and consumer loans and advances, credit cards, and loan commitments arising from such lending activities, but can also arise from credit enhancement provided, such as financial guarantees, letters of credit, endorsements and acceptances.

The Group is also exposed to other credit risks arising from investments in debt securities and other exposures arising from its trading activities (trading exposures) including, non-equity trading portfolio assets, derivatives as well as settlement balances with market counterparties and reverse repurchase loans.

Losses arising from exposures held for trading (derivatives, debt securities) are accounted for as trading losses, rather than impairment charges, even though the fall in value causing the loss may be attributable to credit deterioration.

Maximum exposure to credit risk before collateral held or other credit enhancements

The following table presents the maximum exposure at 31st December 2009 and 2008 to credit risk of balance sheet and off-balance sheet financial instruments, before taking account of any collateral held or other credit enhancements and after allowance for impairment and netting where appropriate.

For financial assets recognised on the balance sheet, the exposure to credit risk equals their carrying amount. For financial guarantees granted, the maximum exposure to credit risk is the maximum amount that Barclays would have to pay if the guarantees were to be called upon. For loan commitments and other credit related commitments that are irrevocable over the life of the respective facilities, the maximum exposure to credit risk is the full amount of the committed facilities.

This analysis and all subsequent analyses of credit risk include only financial assets subject to credit risk. They exclude other financial assets, mainly equity securities held in trading portfolio or available for sale as well as non-financial assets. The nominal value of off-balance sheet credit related instruments are also shown, where appropriate.

Financial assets designated at fair value held in respect of linked liabilities to customers under investment contracts have not been included as the Group is not exposed to credit risk on these assets. Credit losses in these portfolios, if any, would lead to a reduction in the linked liabilities and result in no direct loss to the Group.

Whilst the Group's maximum exposure to credit risk is the carrying value of the assets or, in the case of off-balance sheet items, the amount guaranteed, committed, accepted or endorsed, in most cases the likely exposure is far less due to collateral, credit enhancements and other actions taken to mitigate the Group's exposure.

47 Credit risk continued**Credit risk concentrations**

A concentration of credit risk exists when a number of counterparties are engaged in similar activities and have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions.

The analyses of credit risk concentrations presented below are based on the location of the counterparty or customer or the industry in which they are engaged.

47 Credit risk continued**Loans and advances****Credit risk management***Governance and responsibilities*

The credit risk management teams in each business are accountable to the Business Risk Directors in those businesses who, in turn, report to the heads of their businesses and also to the Chief Risk Officer.

The credit risk function provides Group-wide direction of credit risk-taking. The teams within this function manage the resolution of all significant credit policy issues and run the Credit Committee, which approves major credit decisions. Each business segment has an embedded credit risk management team. These teams assist Group Risk in the formulation of Group Risk policy and its implementation across the businesses.

The principal committees that review credit risk management, formulate overall Group credit policy and resolve all significant credit policy issues are the Board Risk Committee, the Group Risk Oversight Committee, the Wholesale Credit Risk Management Committee and the Retail Credit Risk Management Committee.

The Wholesale Credit Risk Management Committee (WCRMC) oversees wholesale exposures, comprising lending to businesses, banks and other financial institutions. The WCRMC monitors exposure by country, industry sector, individual large exposures and exposures to sub-investment grade countries.

The Retail Credit Risk Management Committee (RCRMC) oversees exposures, which comprise unsecured personal lending (including small businesses), mortgages and credit cards. The RCRMC monitors the risk profile and performance of the retail portfolios by receipt of key risk measures and indicators at an individual portfolio level, ensuring mitigating actions taken to address performance are appropriate and timely. Metrics reviewed will consider portfolio composition and both an overall stock and new flow level.

The monthly Wholesale and Retail Credit Risk Management Committees exercise oversight through review and challenge of the size and constitution of the portfolios when viewed against Group Risk Appetite for wholesale and retail credit risks. They are chaired by the Wholesale and Retail Credit Risk Directors.

Credit monitoring

Wholesale and corporate loans which are deemed to contain heightened levels of risk are recorded on early-warning or watch lists. These lists are graded in line with the perceived severity of the risk attached to the lending and its probability of default. The lists are updated on a monthly basis and are closely monitored.

Regardless of whether they are recorded on early-warning or watch lists, all wholesale and corporate loans are subject to a full review of all facilities on, at least, an annual basis. More frequent interim reviews may be undertaken should circumstances dictate.

Retail loans (which tend to comprise homogeneous assets) are monitored on a portfolio basis.

Credit risk measurement

Barclays uses statistical modelling techniques throughout its business in its credit rating systems. They enable a coherent approach to risk measurement across all credit exposures, retail and wholesale. The key building blocks in the measurement system are the probability of customer default (PD), exposure in the event of default (EAD), and severity of loss-given-default (LGD). The models are reviewed regularly to monitor their robustness relative to actual performance and

Edgar Filing: BARCLAYS PLC - Form 6-K

amended as necessary to optimise their effectiveness.

For wholesale and corporate lending, Barclays assesses the credit quality of borrowers and other counterparties and assigns them an internal risk rating. Barclays credit rating contains 21 grades, representing the Group's best estimate of credit risk for a counterparty based on current economic conditions. Retail customers are not all assigned internal risk ratings in this way for account management purposes, therefore their probability of default is considered.

The Group considers Credit Risk Loans (defined as all customers overdue by 90 days or more, and/or individually impaired or restructured) and loan loss rates when assessing the credit performance of its loan portfolios, other than those held at fair value. For the purposes of historical and business unit comparison, loan loss rates are defined as total annualised credit impairment charge (excluding available for sale assets and reverse repurchase agreements) divided by gross loans and advances to customers and banks (at amortised cost).

Credit risk mitigation

Where appropriate, the Group takes action to mitigate credit risk such as reducing amounts outstanding (in discussion with the customers, clients or counterparties if appropriate), using credit derivatives, securitising assets, and disposals.

Diversification to avoid unwanted credit risk concentrations is achieved through setting maximum exposure guidelines to individual counterparties. Excesses are reported to the Board Risk Committee and the Group Risk Oversight Committee. Mandate and scale limits are used to limit the stock of current exposures in a loan portfolio and the flow of new exposures into a loan portfolio. Limits are typically based on the tenor and nature of the lending.

Collateral and security

The Group routinely obtains collateral and security to mitigate credit risk.

The Group ensures that any collateral held is sufficiently liquid, legally effective, enforceable and regularly reassessed. Before attaching value to collateral, businesses holding specific, agreed classes of collateral must ensure that they are holding a correctly perfected charge.

Before reliance is placed on third party protection in the form of bank, government or corporate guarantees or credit derivative protection from financial intermediary counterparties, a credit assessment is undertaken.

Security structures and legal covenants are subject to regular review, at least annually, to ensure that they remain fit for purpose and remain consistent with accepted local market practice.

All loans and advances are categorised as either:

neither past due nor individually impaired;

past due but not individually impaired; or

individually impaired, which includes restructured loans.

The impairment allowance includes allowances against financial assets that have been individually impaired and those subject to collective impairment.

Credit risk loans comprise loans and advances to banks and customers 90 days overdue or more and those subject to individual impairment. The coverage ratio is calculated by reference to the total impairment allowance and the carrying value (before impairment) of credit risk loans.

For the purposes of the analysis of credit quality, the following internal measures of credit quality have been used:

Financial statements description	Retail lending	Wholesale lending	Default grade
	Probability of default	Probability of default	
Strong	0.0-0.60%		

Edgar Filing: BARCLAYS PLC - Form 6-K

		0.0-0.05%	1-3
		0.05-0.15%	4-5
		0.15-0.30%	6-8
		0.30-0.60%	9-11
Satisfactory	0.60-10.00%	0.60-2.15%	12-14
		2.15-11.35%	15-19
Higher risk	10.00% +	11.35% +	20-21

Financial statement descriptions can be summarised as follows:

Strong there is a very high likelihood of the asset being recovered in full.

Satisfactory whilst there is a high likelihood that the asset will be recovered and therefore, of no cause for concern to the Group, the asset may not be collateralised, or may relate to retail facilities, such as credit card balances and unsecured loans, which have been classified as satisfactory, regardless of the fact that the output of internal grading models may have indicated a higher classification. At the lower end of this grade there are customers that are being more carefully monitored, for example, corporate customers which are indicating some evidence of some deterioration, mortgages with a high loan to value ratio, and unsecured retail loans operating outside normal product guidelines.

Higher risk there is concern over the obligor's ability to make payments when due. However, these have not yet converted to actual delinquency. There may also be doubts over value of collateral or security provided. However, the borrower or counterparty is continuing to make payments when due and is expected to settle all outstanding amounts of principal and interest.

Notes to the accounts**For the year ended 31st December 2009**

continued

47 Credit risk continued**Loans and advances that are past due but not individually impaired**

An age analysis of loans and advances that are past due but not individually impaired is set out below.

For the purposes of this analysis an asset is considered past due and included below when any payment due under strict contractual terms is received late or missed. The amount included is the entire financial asset, not just the payment, of principal or interest or both, overdue.

The table below provides a breakdown of total financial assets past due but not individually impaired. In general, retail and wholesale loans fall into this category for two separate reasons. Retail loans and advances to customers may come under this category because the impairment allowance on such loans is calculated on a collective not individual basis. This reflects the homogenous nature of the assets, which allows statistical techniques to be used, rather than individual assessment.

In contrast, some loans to wholesale and corporate customers and banks may come under this category because of instances where a payment on a loan is past due without requiring an individual impairment allowance. For example, an individual impairment allowance will not be required when a loss is not expected due to a corporate loan being fully secured or collateralised. As a result, it is past due but not individually impaired.

Notes to the accounts

For the year ended 31st December 2009

continued

47 Credit risk continued

Renegotiated loans and advances

Loans and advances are generally renegotiated either as part of an ongoing customer relationship or in response to an adverse change in the circumstances of the borrower. In the latter case renegotiation can result in an extension of the due date of payment or repayment plans under which the Group offers a concessionary rate of interest to genuinely distressed borrowers. This will result in the asset continuing to be overdue and will be individually impaired where the renegotiated payments of interest and principal will not recover the original carrying amount of the asset. In other cases, renegotiation will lead to a new agreement, which is treated as a new loan.

Collateral and other credit enhancements held

Financial assets that are past due or individually assessed as impaired may be partially or fully collateralised or subject to other forms of credit enhancement.

Assets in these categories subject to collateralisation are mainly corporate loans, residential mortgage loans and finance lease receivables. Credit card receivables and other personal lending are generally unsecured (although in some instances a charge over the borrowers property of other assets may be sought).

Corporate loans

Security is usually taken in the form of a fixed charge over the borrower's property or a floating charge over the assets of the borrower. Loan covenants may be put in place to safeguard the Group's financial position. If the exposure is sufficiently large, either individually or at the portfolio level, credit protection in the form of guarantees, credit derivatives or insurance may be taken out.

For these and other reasons collateral given is only accurately valued on origination of the loan or in the course of enforcement actions and as a result it is not practicable to estimate the fair value of the collateral held.

Residential mortgage loans

These are secured by a fixed charge over the property.

A description and the estimated fair value of collateral held in respect of residential mortgage loans that are past due or individually assessed as impaired is as follows:

Nature of assets

Edgar Filing: BARCLAYS PLC - Form 6-K

	2009	2008
	Fair value £m	Fair value £m
Residential property	9,628	7,264

Collateral included in the above table reflects the Group's interest in the property in the event of default. That held in the form of charges against residential property in the UK is restricted to the outstanding loan balance. In other territories, where the Group is not obliged to return any sale proceeds to the mortgagee, the full estimated fair value has been included.

Finance lease receivables

The net investment in the lease is secured through retention of legal title to the leased assets.

Collateral and other credit enhancements obtained

The carrying value of assets held by the Group as at 31st December 2009 as a result of the enforcement of collateral was as follows:

Nature of assets

	2009	2008
	Carrying amount £m	Carrying amount £m
Residential property	71	171
Commercial and industrial property	66	2
Other credit enhancements	248	61
Total	385	234

Any properties repossessed are made available for sale in an orderly and timely fashion, with any proceeds realised being used to reduce or repay the outstanding loan. For business customers, in some circumstances, where excess funds are available after repayment in full of the outstanding loan, they are offered to any other, lower ranked, secured lenders. Any additional funds are returned to the customer. Barclays does not, as a rule, occupy repossessed properties for its business use.

The Group does not use assets obtained in its operations. Assets obtained are normally sold, generally at auction, or realised in an orderly manner for the maximum benefit of the Group, the borrower and the borrower's other creditors in accordance with the relevant insolvency regulations.

Table of Contents

255

47 Credit risk continued**Debt securities**

Trading portfolio assets, financial assets designated at fair value and available for sale assets are measured on a fair value basis. The fair value will reflect, among other things, the credit risk of the issuer.

Most listed and some unlisted securities are rated by external rating agencies. The Group mainly uses external credit ratings provided by Standard & Poors or Moody's. Where such ratings are not available or are not current, the Group will use its own internal ratings for the securities.

An analysis of the credit quality of the Group's debt securities is set out below:

	2009				2008			
	AAA to BBB- (investment grade) £m	BB+ to B £m	B- and below £m	Total £m	AAA to BBB- (investment grade) £m	BB+ to B £m	B-and below £m	Total £m

Available for sale financial investments:								
Treasury and other eligible bills	4,049	1,870		5,919	2,823	1,180		4,003
Debt securities	40,184	3,185	519	43,888	55,817	2,347	667	58,831

Edgar Filing: BARCLAYS PLC - Form 6-K

Total available for sale financial investments	44,233	5,055	519	49,807	58,640	3,527	667	62,834
Total debt securities	165,571	12,192	2,571	180,334	205,807	16,542	2,343	224,692
%	91.8	6.8	1.4	100.0	91.6	7.4	1.0	100.0

Included in the table above, there are impaired available for sale debt securities with a carrying value at 31st December 2009 of £265m (2008: £329m), after a write-down of £692m (2008: £363m).

Collateral is not generally obtained directly from the issuers of debt securities. Certain debt securities may be collateralised by specifically identified assets that would be obtainable in the event of default.

Derivatives

Derivatives are measured on a fair value basis.

The credit quality of the Group's derivative assets according to the credit quality of the counterparty at 31st December 2009 and 2008 was as follows:

	2009				2008			
	AAA to BBB- (investment grade) £m	BB+ to B £m	B- and below £m	Total £m	AAA to BBB- (investment grade) £m	BB+ to B £m	B- and below £m	Total £m
Derivatives	399,534	15,565	1,716	416,815	939,071	42,266	3,465	984,802
%	95.9	3.7	0.4	100.0	95.3	4.3	0.4	100.0

Credit risk from derivatives is mitigated where possible through netting agreements whereby derivative assets and liabilities with the same counterparty can be offset. Group policy requires all netting arrangements to be legally documented. The ISDA Master Agreement is the Group's preferred agreement for documenting OTC derivatives. It provides the contractual framework within which dealing activities across a full range of OTC products are conducted and contractually binds both parties to apply close-out netting across all outstanding transactions covered by an agreement if either party defaults or other predetermined events occur.

Collateral is obtained against derivative assets, depending on the creditworthiness of the counterparty and/or nature of the transaction. Any collateral taken in respect of OTC trading exposures will be subject to a haircut which is negotiated at the time of signing the collateral agreement. A haircut is the valuation percentage applicable to each type of collateral and will be largely based on liquidity and price volatility of the underlying security. The collateral obtained for derivatives is either cash, direct debt obligation government (G14+) bonds denominated in the domestic currency of the issuing country, debt issued by supranationals or letters of credit issued by an institution with a long-term unsecured debt rating of A+/A3 or better. Where the Group has ISDA master agreements, the collateral document will be the ISDA Credit Support Annex (CSA). The collateral document must give Barclays the power to realise any collateral placed with it in the event of the failure of the counterparty, and to place further collateral when requested or in the event of insolvency, administration or similar processes, as well as in the case of early termination.

Edgar Filing: BARCLAYS PLC - Form 6-K

Derivative assets and liabilities would be £374bn (2008: £917bn) lower than reported if netting were permitted for assets and liabilities with the same counterparty or for which the Group holds cash collateral.

Notes to the accounts**For the year ended 31st December 2009**

continued

47 Credit risk continued**Reverse repurchase agreements**

Reverse repurchase agreements and securities borrowing arrangements are collateralised loans typically of short maturities.

The loans are fully collateralised with highly liquid securities legally transferred to the Group. The level of collateral is monitored daily and further collateral called when required.

	2009				2008			
	AAA to BBB- (investment grade) £m	BB+ to B £m	B- and below £m	Total £m	AAA to BBB- (investment grade) £m	BB+ to B £m	B- and below £m	Total £m
Financial assets designated at fair value held on own account:								
Other financial assets	4,749	1,955	1,053	7,757	3,882	3,401		7,283
Reverse repurchase agreements	136,366	6,674	391	143,431	122,188	6,101	2,065	130,354
Total reverse repurchase agreements	141,115	8,629	1,444	151,188	126,070	9,502	2,065	137,637

No reverse repurchase agreements held by the Group at 31st December 2009 or 2008 were individually impaired, however during the year, the Group wrote off £43m of reverse repurchase agreements (2008: 124m).

Edgar Filing: BARCLAYS PLC - Form 6-K

Other credit risk assets

The Group's other assets that are subject to credit risk are cash with central banks of £81,483m (2008: £30,019m), items in course of collection from other Banks £1,593m (2008: £1,695m), other financial assets £3,476m (2008: £3,096m).

Cash and balances at central banks

Substantially all balances are held with central banks. There is limited credit risk in relation to balances at central banks.

Items in the course of collection from other banks

There is limited credit risk in relation to items in the course of collection through the clearing system from other banks. Other financial assets

Other financial assets

Other financial assets comprise £3,476m (2008: £3,096m) of other assets and £344m (2008: £609m) of assets held at fair value.

Off-balance sheet

The Group applies fundamentally the same risk management policies for off-balance sheet risks as it does for its on-balance sheet risks. In the case of commitments to lend, customers and counterparties will be subject to the same credit management policies as for loans and advances. Collateral may be sought depending on the strength of the counterparty and the nature of the transaction.

Credit market exposures

Barclays Capital's credit market exposures primarily relate to US residential mortgages, commercial mortgages and leveraged finance businesses that have been significantly impacted by the continued deterioration in the global credit markets. The exposures include both significant positions subject to fair value movements in the profit and loss account and positions that are classified as loans and advances and available for sale.

The exposures are set out by asset class below:

	As at 31.12.09 £m	As at 31.12.08 £m
US Residential Mortgages		
ABS CDO Super Senior	1,931	3,104
Other US sub-prime and Alt-A	1,392	7,729
Monoline wrapped US RMBS	6	1,639
Commercial mortgages		
Commercial real estate loans and properties	7,734	11,578
Commercial mortgage-backed securities	471	735
Monoline wrapped CMBS	30	1,854

Other Credit Market Exposures

Leveraged finance ^a	5,507	9,048
SIVs, SIV-Lites and CDPCs	553	1,113
Monoline wrapped CLO and other	2,126	4,939
Total exposures	19,750	41,739
Loan to Protium	7,859	

On 16th September 2009, Barclays Capital sold assets of £7,454m, including £5,087m in credit market assets, to Protium Finance LP (Protium), a newly established fund. As part of the transaction, Barclays extended a £7,669m 10-year loan to Protium Finance LP. At 31st December 2009, this loan had a carrying value of £7,859m (including accrued interest).

Note

a This is a change in presentation from 31st December 2008, which reflected certain loan facilities originated post 1st July 2007.

48 Market risk**Market risk management**

Market risk is the risk that the Group's earnings or capital, or its ability to meet business objectives, will be adversely affected by changes in the level or volatility of market rates or prices such as interest rates, credit spreads, commodity prices, equity prices and foreign exchange rates. The majority of market risk exposure resides in Barclays Capital. Barclays is also exposed to market risk through interest rate risk on its non-trading activities and through the pension fund.

Organisation and structure

The Board approves market risk appetite for trading and non-trading activities. The Market Risk Director is responsible for the Market Risk Control Framework and, under delegated authority from the Chief Risk Officer, sets a limit framework within the context of the approved market risk appetite. A daily market risk report summarises Barclays market risk exposures against agreed limits. This daily report is sent to the Chief Risk Officer, the Market Risk Director, the Group Finance Director and the appropriate Business Risk Directors.

The head of each business, assisted by the business risk management team, is accountable for all market risks associated with its activities. Each business is responsible for the identification, measurement, management, control and reporting of market risk as outlined in Barclays Market Risk Control Framework. Oversight and support is provided to the business by the Market Risk Director, assisted by the Group Market Risk team. The Market Risk Committee reviews, approves, and makes recommendations concerning the market risk profile across Barclays including risk appetite, limits and utilisation. The Committee meets monthly and is chaired by the Market Risk Director. Attendees include the Chief Risk Officer, respective business risk managers and Group Market Risk.

Traded market risk

Barclays policy is to concentrate trading activities in Barclays Capital. This includes transactions where Barclays Capital acts as principal with clients or with the market. For maximum efficiency, client and market activities are managed together.

Risk measurement and control

The measurement techniques used to measure and control traded market risk include Daily Value at Risk (DVaR), Expected Shortfall, average of the three worst hypothetical losses from the DVaR simulation (3W), Global Asset Class stress testing and Global Scenario stress testing.

DVaR is an estimate of the potential loss arising from unfavourable market movements, if the current positions were to be held unchanged for one business day. Barclays Capital uses the historical simulation methodology with a two-year unweighted historical period at the 95% confidence level.

The historical simulation calculation can be split into three parts:

Calculate hypothetical daily profit or loss for each position over the most recent two years, using observed daily market moves.

Sum all hypothetical profit or losses for day one across all positions, giving one total profit or loss. Repeat for all other days in the two-year history.

DVaR is the 95th percentile selected from the two years of daily hypothetical total profit or loss.

The DVaR model has been approved by the FSA to calculate regulatory capital for the trading book. The approval covers general market risk in interest rate, foreign exchange, commodities and equity products, and issuer specific risk for the majority of single name and portfolio traded credit products.

Edgar Filing: BARCLAYS PLC - Form 6-K

DVaR is an important market risk measurement and control tool and consequently the model is regularly assessed. The main approach employed is the technique known as back-testing which counts the number of days when a loss (as defined by the FSA), exceeds the corresponding DVaR estimate, measured at the 99% confidence level.

The FSA categorises a DVaR model as green, amber or red. A green model is consistent with a good working DVaR model and is achieved for models that have four or less back-testing exceptions in a 12-month period. For Barclays Capital's trading book, green model status was maintained for 2009 and 2008.

Expected Shortfall is the average of all hypothetical losses from the historical simulation beyond DVaR. To improve the control framework, formal monitoring of 3W (average of the three worst observations from the DVaR historical simulation) was started in the first half of 2009.

Stress testing provides an indication of the potential size of losses that could arise in extreme conditions. Global Asset Class stress testing has been designed to cover major asset classes including interest rate, credit spread, commodity, equity and foreign exchange rates. They are based on past stress moves in respective asset class prices and rates. Global Scenario stress testing is based on hypothetical events which could lead to extreme yet plausible stress type moves, under which profitability is seriously challenged.

Market Risk is controlled through the use of limits where appropriate on the above risk measures. Limits are set at the total Barclays Capital level, risk factor level such as interest rate risk, and business line level. Book limits such as foreign exchange and interest rate sensitivity limits are also in place.

Notes to the accounts

For the year ended 31st December 2009

continued

48 Market risk continued**Analysis of traded market risk exposures**

Barclays Capital's market risk exposure, as measured by average total DVaR, increased by 45% to £77m (2008: £53m). The rise was mainly due to volatility considerations, increased interest rate and credit spread exposure, and the Lehman Brothers North America businesses acquisition. Volatility impacted average DVaR because 2008's extreme volatility impacted DVaR throughout 2009 but only impacted 2008 DVaR in the last four months of 2008.

Expected shortfall and 3W averaged £121m and £209m respectively representing increases of £51m (73%) and £93m (80%) compared to 2008. The daily average, maximum and minimum values of DVaR, Expected Shortfall and 3W were calculated as below.

DVaR (95%)

	12 months to			12 months to		
	31st December 2009			31st December 2008		
	Average £m	High ^a £m	Low ^a £m	Average £m	High ^a £m	Low ^a £m

	121	188	88	70	146	41

Expected shortfall

3W	209	301	148	116	282	61
----	-----	-----	-----	-----	-----	----

Non-traded interest rate risk

Non-traded interest rate risk arises from the provision of retail and wholesale (non-traded) banking products and services.

Barclays objective is to minimise non-traded risk. This is achieved by transferring risk from the business to a local treasury or Group Treasury, who in turn hedge the net exposure with the external market. Limits exist to ensure no material risk is retained within any business or product area. The majority of non-trading interest rate market exposures are within Global Retail and Commercial Banking, and Group Treasury. Trading activity is not permitted outside Barclays Capital.

Risk measurement and control

The risk in each business is measured and controlled using both an income metric (Annual Earnings at Risk) and a present value metric (Daily Value at Risk or stress testing). In addition scenario stress analysis is carried out by the business and reviewed by senior management and business-level asset and liability committees, when required.

Annual Earnings at Risk (AEaR) measures the sensitivity of net interest income (NII) over the next 12 months. It is calculated as the difference between the estimated income using the current yield curve and the lowest estimated income following a 100 basis points increase or decrease in interest rates, subject to a minimum interest rate of 0%. Balances are adjusted for an assumed behavioural profile. This includes the treatment of non-maturity deposits.

Daily Value at Risk and stress testing is calculated using a Barclays Capital consistent approach. Both these metrics are calculated by each respective business area with oversight provided by Group Market Risk.

Risk exposures are monitored by respective business risk managers with oversight provided by Group Market Risk. The main business limits are approved by Market Risk Committee. Book limits such as foreign exchange and interest rate sensitivity limits are also in place where appropriate.

To further improve the market risk control framework, Group Market Risk initiated an ongoing programme of conformance visits to non-traded Treasury operations. These visits review both the current market risk profile and potential market risk developments, as well as verifying conformance with Barclays policies and standards as detailed in the market risk control framework.

Note

- a The high (and low) DVaR figures reported for each category did not necessarily occur on the same day as the high (and low) DVaR reported as a whole. Consequently, a diversification effect number for the high (and low) DVaR figures would not be meaningful and it is therefore omitted from the above table.

Table of Contents

259

48 Market risk continued**Analysis of net interest income sensitivity**

The tables below show the pre-tax net interest income sensitivity for the non-trading financial assets and financial liabilities held at 31st December 2009. The sensitivity has been measured using AEaR methodology as described above. The benchmark interest rate for each currency is set as at 31st December 2009. The figures include the effect of hedging instruments but exclude exposures held or issued by Barclays Capital as these are measured and managed using DVaR.

Net interest income sensitivity (AEaR) by currency

	+100 basis points 2009 £m	100 basis points 2009 £m	+100 basis points 2008 £m	100 basis points 2008 £m
GBP	30	(360)	3	(273)
USD	(43)	14	(25)	7
EUR	(34)		(34)	30
ZAR	29	(27)	13	(13)
Others	(1)	4		(8)
Total	(19)	(369)	(43)	(257)
As percentage of net interest income	(0.16%)	(3.10%)	(0.37%)	(2.24%)

Non-traded interest rate risk, as measured by AEaR, was £369m in 2009, an increase of £112m compared to 2008. This estimate takes into account the rates in place as at 31st December 2009. The increase mainly reflects the reduced spread generated on retail and commercial banking liabilities in the lower interest rate environment. If the interest rate hedges had not been in place then the AEaR risk for 2009 would have been £704m (2008: £670m).

DVaR is also used to control market risk in Global Retail and Commercial Banking – Western Europe and in Group Treasury. The indicative average DVaRs for 2009 are £1.4m (2008: £1.3m) for Western Europe and £1.0m (2008: £0.6m) for Group Treasury.

Notes to the accounts

For the year ended 31st December 2009

continued

48 Market risk continued

Foreign exchange risk

The Group is exposed to two sources of foreign exchange risk.

a) Transactional foreign currency exposure

Transactional foreign exchange exposures represent exposure on banking assets and liabilities, denominated in currencies other than the functional currency of the transacting entity.

The Group's risk management policies prevent the holding of significant open positions in foreign currencies outside the trading portfolio managed by Barclays Capital which is monitored through DVaR.

There were no material net transactional foreign currency exposures outside the trading portfolio at either 31st December 2009 or 2008. Due to the low level of non-trading exposures no reasonably possible change in foreign exchange rates would have a material effect on either the Group's profit or movements in equity for the year ended 31st December 2009 or 2008.

b) Translational foreign exchange exposure

The Group's translational foreign currency exposure arises from both its capital resources (including investments in subsidiaries and branches, intangible assets, non-controlling interests, deductions from capital and debt capital instruments) and risk weighted assets (RWAs) being denominated in foreign currencies. Changes in foreign exchange rates result in changes in the Sterling equivalent value of foreign currency denominated capital resources and risk weighted assets. As a result, the Group's regulatory capital ratios are sensitive to foreign exchange rate movements.

The Group's capital ratio hedge strategy is to minimise the volatility of the capital ratios caused by foreign exchange rate movements. To achieve this, the Group aims to maintain the ratio of foreign currency Core Tier 1, Tier 1 and Total Capital resources to foreign currency RWAs the same as the Group's capital ratios.

The Group's foreign currency capital resources include investments in subsidiaries and branches, intangible assets, non-controlling interests, deductions from capital and debt capital instruments.

The Group's investments in foreign currency subsidiaries and branches create capital resources denominated in foreign currencies. Changes in the Sterling value of the investments due to foreign currency movements are captured in the currency translation reserve, resulting in a movement in Core Tier 1 capital.

During 2009, structural currency exposures net of hedging instruments increased from £6.4bn to £12.5bn primarily as a result of US Dollar hedging decisions taken in accordance with the Group's capital ratio hedge strategy for foreign exchange rate movements.

To create foreign currency Tier 1 and Total Capital resources additional to the Core Tier 1 capital resources, the Group issues, where possible, debt capital in non sterling currencies. This is primarily achieved by the issuance of debt capital from Barclays Bank PLC, but can also be achieved by subsidiaries issuing capital in

Edgar Filing: BARCLAYS PLC - Form 6-K

local currencies.

The carrying value of the Group's foreign currency net investments in subsidiaries and branches and the foreign currency borrowings and derivatives used to hedge them as at 31st December 2009 were as follows:

At 31st December 2009

Functional currency of the operation involved	Foreign currency net investments £m	Borrowings which hedge the net investments £m	Derivatives which hedge the net investments £m	Structural currency exposures pre economic hedges £m	Economic hedges £m	Remaining structural currency exposures £m
