By: Name: Title: /s/ ELENA SHMATOVA Elena Shmatova General Director

Amsterdam and New York (December 2, 2010) - VimpelCom Ltd (VimpelCom or the Company) (NYSE: VIP), a leading international provider of telecommunications services, today announced its operating and financial results for the quarter ended September 30, 2010.

Third Quarter Highlights:

Number of mobile subscriptions increased to 92.0 million (up 40.7% y-o-y); broadband subscriptions grew to 3.1 million (up 58.8% y-o-y)

Net operating revenues increased by 24.1% y-o-y to \$2.8 billion

Adjusted OIBDA* reached \$1.4 billion (up 20.0% y-o-y); consolidated OIBDA margin was 48.8%

Net income attributable to VimpelCom Ltd was \$495.9 million (up 14.1% y-o-y)

Net cash from operating activities was \$1,096.8 million (up 3.1% y-o-y)

Capex was \$520.1 million and year-to-date Capex was \$1,080.9 million

Net debt during the quarter increased by \$46 million primarily as a result of payment for the OJSC VimpelCom squeeze out, partially offset by cash generated by operating activities

Recent Developments:

The Ukrainian Anti-Monopoly Committee confirmed its prior approval of the transaction to combine OJSC VimpelCom and Kyivstar GSM under VimpelCom Ltd

VimpelCom Group issued ruble bonds with five-year maturity in the amount of approximately \$658 million to refinance its US dollar denominated debt

Commercial launch of 3G networks in Kazakhstan and Kyrgyzstan

Signed an agreement to combine VimpelCom and Weather to create a new global telecom group

The Supervisory Board of VimpelCom Ltd declared the payment of an interim dividend in 2010 of US\$0.46 per American depositary share

Edgar Filing: OPEN JOINT STOCK CO VIMPEL COMMUNICATIONS - Form 6-K

* Hereafter Adjusted OIBDA is referred to as OIBDA and Adjusted OIBDA margin is referred to as OIBDA margin (See definitions of Adjusted OIBDA and Adjusted OIBDA margin in Attachment A)

VimpelCom Ltd - Third Quarter 2010 Operating and Financial Results

Consolidated Financial Results*

			3Q 10/		3Q 10/
CONSOLIDATED OPERATIONS (US\$, millions)	3Q 10	3Q 09	3Q 09	2Q 10	2Q 10
Net operating revenues	2,824.4	2,275.8	24.1%	2,641.6	6.9%
Adjusted OIBDA	1,377.7	1,148.3	20.0%	1,261.8	9.2%
Adjusted OIBDA margin, %	48.8%	50.5%		47.8%	
SG&A	799.1	599.2	33.4%	766.4	4.3%
SG&A percentage	28.3%	26.3%		29.0%	
Net income attributable to VimpelCom Ltd.	495.9	434.5	14.1%	334.7	48.2%
Net income attributable to VimpelCom Ltd. per ADS, basic (US\$)	0.39	0.44		0.28	
Net cash from operating activities	1,096.8	1,064.1	3.1%	1,000.9	9.6%
Capital expenditures	520.1	123.2	322.2%	381.4	36.4%
ROCE, %	21.5%	19.8%		22.7%	

Commenting on the results, VimpelCom s Chief Executive Officer, Alexander Izosimov, said, *Our third quarter results reflect the macroeconomic situation in the countries where we operate, consolidation of Kyivstar and seasonal effects typical for the summer period. Our quarterly revenues reached \$2.8 billion, while the OIBDA margin remained in the high 40 s. Our focus on profitability and cash flow generation helped to substantially increase net income, while keeping ROCE above 20%. The strength of our cash flows allowed us to declare a sizeable interim dividend of \$600 million.*

Our increased scale and financial strength position us well to capture opportunities and strategic benefits of industry consolidation. Our recently announced agreement with Weather Investments is a significant step in this direction. Given the size and complexity of the transaction, we are satisfied with the progress made thus far. We remain committed and continue to move forward as outlined in our October 4th announcement. We are working towards fulfilling all necessary conditions precedent, including obtaining approval of VimpelCom s Supervisory Board and securing the necessary regulatory approvals and anticipate the closing in the first half of 2011.

Mr. Izosimov continued, However, while scale is an important strength in a rapidly evolving telecom industry, it is critical to sustain competitive positions in the core markets. We are clearly dissatisfied with our recent loss of market share in the Russian mobile market. The new management team in Russia already started to implement a set of measures to regain momentum in our business development. This includes prioritized network expansion, distribution optimization and pricing efficiency with focused plans for each region, to strengthen and facilitate the development of our business. We understand that our strategy requires certain time, strong focus on execution and resources, but we are confident that VimpelCom will restore its market positions.

* Please see the consolidated results on a pro-forma basis in the Attachment G.

Consolidated revenue	2,824.4	24.1%	2,275.8	7,697.2	20.4%	6,394.3	7,561.6
Russia	2,099.4	7.5%	1,953.0	6,059.9	11.1%	5,452.2	6,462.4
Ukraine	426.0	652.7%	56.6	781.4	403.8%	155.1	210.2
CIS	361.0	21.5%	297.0	992.0	15.0%	862.3	934.6
Consolidated adjusted OIBDA	1,377.7	20.0%	1,148.3	3,680.7	15.6%	3,184.6	3,735.9
%	48.8%		50.5%	47.8%		49.8%	49.4%
Russia	987.9	-0.7%	995.0	2,862.5	4.2%	2,748.0	3,267.7
%	47.1%		50.9%	47.2%		50.4%	50.6%
Ukraine	242.2	1901.7%	12.1	416.9	1362.8%	28.5	11.0
%	56.9%		21.4%	53.4%		18.4%	5.2%
CIS	176.0	13.8%	154.7	477.5	10.1%	433.8	459.2
%	48.8%		52.1%	48.1%		50.3%	49.1%

Consolidated net operating revenues increased by \$548.6 million or 24.1% year-on-year mainly due to the consolidation of Kyivstar, which contributed \$376.6 million, as well as organic revenue growth of \$146.4 million in Russia and \$34.7 million in the CIS.

Quarterly, net operating revenue increased by \$182.8 million or 6.9%, mainly due to \$115.4 million growth from Ukraine and \$82.4 million revenue growth from Russia and the CIS. Sequential growth in key areas was mainly driven by increases in the active customer base, coupled with growing usage and seasonally higher roaming revenues.

Consolidated OIBDA improved year-on-year by \$229.4 million. Ukraine and the CIS were the main contributors adding \$230.1 million and \$21.3 million respectively. Overall OIBDA margin decreased 1.7 percentage points from 50.5% to 48.8% year-on-year primarily due to resumed market investments in Russia partly offset by margin improvement in Ukraine.

OIBDA increased on a sequential basis by \$115.9 million or 9.2%. This growth reflects decline in interconnect costs in Ukraine and ongoing cost control measures. The current consolidated OIBDA margin in high 40 s reflects the steady state of our business and is in line with our expectations.

Consolidated Capex increased by \$396.8 million or 322.2% year-on-year following a return to our normal investment profile. The last twelve months Capex-to-revenue ratio was 15.0%.

VimpelCom Ltd - Third Quarter 2010 Operating and Financial Results

Russia - Business Context, Operations and Financial Results

Russia is the largest and most important part of our business. During 2010, our competitive position in the mobile segment weakened due to insufficient investments in network development made in the past six quarters. In addition, lack of focused activities on the market led to stagnation and quality erosion of our active customer base. As a result, mobile revenue growth rates year-on-year and quarter-on-quarter, although solid for a saturated market, were lower than those of our competitors.

Our key priority is to regain momentum and reverse the negative trend in the quality of our active customer base in the mobile segment. We intend to close the gap in the mobile data segment and see it not only as a new source of revenue, but increasingly as an important element influencing the loyalty of our customers. We are revising our approach to distribution, focusing on smart pricing and loyalty programs backed by further strengthening of our presence in retail and properly balanced capital investments.

Our fixed-line business performed well during the quarter with strong sequential growth in the wholesale business and corporate segment, reflecting our increased sales efforts and growing demand for data services. The consumer side of the fixed segment, mainly represented by FTTB technology, also showed positive dynamics with revenue growth of 30% year-on-year and 4% quarter-on-quarter. We continue to expand our unique high-quality IPTV product, which is currently available to customers in 13 cities.

Russian consolidated fixed and mobile OIBDA margin decreased year-on-year from 50.9% to 47.0%, which we see as the normal operational level after we resumed our investments into the market and new products, limited during 2009. Our mobile OIBDA margin, although slightly down quarter-on-quarter, remains above 50%.

We have already accelerated our investments in scale and quality of our networks. CAPEX in 3Q2010 increased 59% sequentially and more than threefold year-on-year. Despite much higher investments, our ROIC remained stable, reflecting our continued efforts in profitability and cash generation.

VimpelCom Ltd - Third Quarter 2010 Operating and Financial Results

Ukraine - Business Context, Operations and Pro-forma Financial Results*

In Ukraine, the macroeconomic situation continues to improve. In the telecom market, we observe a more stable competitive situation. This environment has supported a reversal in the previous negative revenue trend and we reported 3.6% year-on-year growth in consolidated revenues in Ukraine on a pro-forma basis. Sequentially, revenues increased 9.6% driven by increased subscriptions, usage and seasonally higher roaming.

After the Ukrainian Anti-Monopoly Committee s final decision on October 19 related to the Kyivstar transaction, we began the active phase of integrating our operations. We remain confident that we will be able to achieve the synergies as initially anticipated.

Quarterly operating highlights in Ukraine:

Our marketing activities focused on the price sensitive segment helped to reverse the trend and increase our active customer base, which was up 4.1% quarter-on-quarter

ARPU increased quarter-on-quarter by 7.3% and 4.4% year-on-year driven by continuous increase in usage and seasonal trends

Consolidated mobile OIBDA margin was up to 58.5% on the back of revenue growth and operational excellence

We remain one of the leaders in the Ukrainian broadband market in terms of new broadband subscriptions adding 50,000 customers, a 205.0% increase compared to 3Q09

SG&A costs decreased by 75.5 million UAH or 8.0% year-on-year as a result of the ongoing operational excellence program started in 2009, and helped drive substantial improvements in the OIBDA margin. Quarter-on-quarter SG&A costs grew just 2.3% despite the substantial growth in revenues.

Capital expenditures were up 6.7% year-on-year but down quarter-on-quarter mostly due to delayed deliveries, which we expect in the fourth quarter of 2010. We continue to invest in the development of our business with Capex/Revenue expected to be at around 15% calculated on an actual annualized basis. We see the development of our fixed data networks as a priority.

Overall, we see further recovery of the Ukrainian telecom market and are confident in sustaining our leadership position.

* Ukraine reporting segment includes operations of Kyivstar, URS and GTI. Pro forma basis means that the numbers are presented assuming that the business combination with Kyivstar had taken place on January 1, 2009

VimpelCom Ltd - Third Quarter 2010 Operating and Financial Results

CIS - Business Context, Operations and Financial Results *

In the CIS, we achieved considerable organic revenue growth both on a year-on-year and quarter-on-quarter basis. The results from our largest CIS market, Kazakhstan, continued to demonstrate strong dynamics, with robust revenue growth and high OIBDA margin. During the quarter, we achieved double-digit revenue growth in Georgia and Tajikistan, and we saw a reversal of negative market trends in Uzbekistan and accelerated recovery in Kyrgyzstan.

CIS mobile subscriptions grew to almost 15 million representing a 22.8% increase year-on-year

Net operating revenues reached \$361.0 million, an increase of 21.5% year-on-year including a 11.7% organic growth; consolidated CIS OIBDA margin remains strong at 48.8%, in line with our targeted level of high 40 s

In Kazakhstan, growth in revenue was over 12% in local currency year-on-year and 7.6% quarter-on-quarter, reflecting growth in both mobile and fixed operations

Total number of broadband subscriptions increased 178.7% year-on-year and 15.0% quarter-on-quarter as we continue to develop our broadband projects in Kazakhstan, Uzbekistan and Armenia

Year-on-year growth of selling and marketing expenses is due to consolidation of Kyrgyzstan and substantial growth in subscription base there. Sequential increase addresses competitive situation in Armenia and Uzbekistan and ongoing business expansion in our core markets

Capex for the CIS markets increased substantially both year-on-year and quarter-on-quarter to support our network expansion, which is mainly focused on increasing mobile penetration and investments in fixed networks.

Overall, we are pleased with the results from our CIS business unit. We continue to invest in the region and expect to benefit from growing penetration of voice and data services.

VimpelCom Ltd - Third Quarter 2010 Operating and Financial Results

South-East Asia Overview

Our Vietnamese joint-venture maintained its operations on a limited level during the third quarter as shareholders negotiations continued on the optimal way of further financing and expanding the business. We do not consolidate the Vietnamese operations in our financial reporting.

In Cambodia, recently we managed to reverse the negative trends stemming from regulatory action earlier this year. Although the quarterly results were slightly below our expectations, we are confident that our business in Cambodia will be on track by the end of the year.

For more information on financial and operating data for specific countries, as well as reconciliation of OIBDA, please refer to the supplementary file FinancialOperatingQ32010.xls on our website at http://www.vimpelcom.com/news/qrep.wbp.

The Company s management will discuss its third quarter 2010 results during a conference call and slide presentation on December 2, 2010 at 4:30 pm CET, (10:30 am US ET). The call and slide presentation may be accessed via webcast at the following URL address http://www.vimpelcom.com. The conference call replay will be available through December 9, 2010. The slide presentation webcast will also be available for download on VimpelCom s website http://www.vimpelcom.com.

VimpelCom consists of telecommunications operators providing voice and data services through a range of wireless, fixed and broadband technologies. The VimpelCom group is headquartered in Amsterdam and has operations in Russia, Ukraine, Kazakhstan, Uzbekistan, Tajikistan, Georgia, Armenia, Kyrgyzstan, Vietnam and Cambodia, covering territory with a total population of about 345 million. VimpelCom operating companies provide services under the Beeline and Kyivstar brands. VimpelCom s ADSs are listed on the New York Stock Exchange under the symbol VIP.

This press release contains forward-looking statements, as the phrase is defined in Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements include those relating to our transaction with Weather Investments, realization of synergies in Ukraine and the expected growth and development of our operations. These and other forward-looking statements are based on management s best assessment of the Company s strategic and financial position and of future market conditions and trends. These discussions involve risks and uncertainties. The actual outcome may differ materially from these statements as a result of continued volatility in the economies in the markets in which the Company operates, unforeseen developments from competition, governmental regulation of the telecommunications industries, general political uncertainties in the markets in which the Company operates and/or litigation with third parties. In addition, there can be no assurance that all of the conditions precedent to completion of our transaction with Weather Investments will be satisfied. The actual outcome may also differ materially if the Company is unable to obtain all necessary corporate approvals relating to its business, if the Company is unable to successfully integrate its Ukrainian operations and other newly-acquired businesses and other factors. There can be no assurance that such risks and uncertainties will not have a material adverse effect on the Company. Certain factors that could cause actual results to differ materially from those discussed in any forward-looking statements include the risk factors described in the Company s registration statement on Form F-4 filed with the U.S. Securities and Exchange Commission (the SEC), OJSC VimpelCom s public filings with the SEC, including its Annual Report on Form 20-F for the year ended December 31, 2009, and other public filings made by the Company with the SEC, which risk factors are incorporated herein by reference. The Company disclaims any obligation to update developments of these risk factors or to announce publicly any revision to any of the forward-looking statements contained in this release, or to make corrections to reflect future events or developments.

VimpelCom Ltd - Third Quarter 2010 Operating and Financial Results

Attachment A: Definitions

Adjusted OIBDA is a non-U.S. GAAP financial measure. Adjusted OIBDA, previously referred to as EBITDA or OIBDA by OJSC VimpelCom, is defined as operating income before depreciation, amortization and impairment loss. Our management uses adjusted OIBDA and adjusted OIBDA margin as supplemental performance measures and believes that adjusted OIBDA and adjusted OIBDA margin provide useful information to investors because they are indicators of the strength and performance of the Company s business operations, including its ability to fund discretionary spending, such as capital expenditures, acquisitions and other investments, as well as indicating its ability to incur and service debt. In addition, the components of adjusted OIBDA include the key revenue and expense items for which the Company s operating managers are responsible and upon which their performance is evaluated. Adjusted OIBDA also assists management and investors by increasing the comparability of the Company s performance against the performance of other telecommunications companies that provide OIBDA or EBITDA (earnings before interest, taxes, depreciation and amortization) information. This increased comparability is achieved by excluding the potentially inconsistent effects between periods or companies of depreciation, amortization and impairment loss, which items may significantly affect operating income between periods. However, our adjusted OIBDA results may not be directly comparable to other companies reported OIBDA or EBITDA results due to variances and adjustments in the components of OIBDA (including our calculation of adjusted OIBDA) or calculation measures. Additionally, a limitation of adjusted OIBDA s use as a performance measure is that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues or the need to replace capital equipment over time. Reconciliation of adjusted OIBDA to net income, the most directly comparable U.S. GAAP financial measure, is presented below in the reconciliation tables section as well as in the supplementary file FinancialOperatingQ22010.xls on our website at http://www.vimpelcom.com/news/grep.wbp.

Adjusted OIBDA margin is a non-U.S. GAAP financial measure. We calculate adjusted OIBDA margin as adjusted OIBDA divided by net operating revenues, expressed as a percentage. Reconciliation of adjusted OIBDA margin to net income as a percentage of net operating revenues, the most directly comparable U.S. GAAP financial measure, is presented below in the reconciliation tables section as well as in the supplementary file FinancialOperatingQ12010.xls on our website at http://www.vimpelcom.com/news/qrep.wbp.

ARPU (Monthly Average Revenue per User) is calculated by dividing service revenue during the relevant period, including roaming revenue and interconnect revenue, but excluding revenue from connection fees, sales of handsets and accessories and other non-service revenue, by the average number of subscriptions during the period and dividing by the number of months in that period.

Broadband subscriptions are the customer contracts that served as a basis for revenue generating activity in the three months prior to the measurement date, as a result of activities including monthly internet access using FTTB, xDSL and WiFi technologies as well as mobile internet access via USB modems using 3G/HSDPA technologies.

Capital expenditures (Capex) - purchases of new equipment, new construction, upgrades, software, other long lived assets and related reasonable costs incurred prior to intended use of the non current asset, accounted at the earliest event of advance payment or delivery. Long-lived assets acquired in business combinations are not included in capital expenditures.

CIS Geographic Segment for the purpose of VimpelCom s reporting includes our operations in the following countries: Kazakhstan, Kyrgyzstan, Uzbekistan, Tajikistan, Armenia and Georgia. Starting from the second quarter 2010 OJSC VimpelCom s operation in Ukraine was included into a separate reporting segment together with Kyivstar and reported on a pro-forma basis for all periods starting from the first quarter of 2010.

VimpelCom Ltd - Third Quarter 2010 Operating and Financial Results

Free cash flow is a non-U.S. GAAP financial measure and is calculated as net income plus depreciation and amortization minus capital expenditures for the reported period (a quarter or a year, respectively). The Company believes that free cash flow provides useful information to investors because it is an indicator of our company s operational and financial performance and represents our ability to generate cash to maintain or expand our asset base. The Company also refers to free cash flow in determining its dividends. Free cash flow should not be considered in isolation as an alternative to operating cash flow or any other measure of the company s cash flows management. Reconciliation of free cash flow to net income, the most directly comparable U.S. GAAP financial measure, is presented below in the reconciliation tables section (Attachment C).

General and administrative costs (G&A) include salaries and outsourcing costs, including related social contributions required by law; stock price-based compensation expenses; repair and maintenance expenses; rent, including lease payments for base station sites; utilities; other miscellaneous expenses, such as insurance, operating taxes, license fees, and accounting, audit and legal fees.

Households passed are households located within buildings, in which indoor installation of all the FTTB equipment necessary to install terminal residential equipment has been completed.

SEA Geographic segment VimpelCom s operations in South-East Asia, which include operations in Cambodia and VimpelCom s respective equity in net results of operations of its Vietnamese associate entity GTEL-Mobile JSC (GTEL-Mobile).

Mobile subscriptions are SIM-cards registered in the system as of a measurement date, users of which generated revenue at any time during the three months prior to the measurement date. This includes revenue coming from any incoming and outgoing calls, subscription fee accruals, debits related to service, outgoing SMS, Multimedia Messaging Service (referred to as MMS), data transmission and receipt sessions, but does not include incoming SMS and MMS sent by VimpelCom or abandoned calls. VimpelCom s total number of mobile subscriptions also includes SIM-cards for use of mobile Internet service via USB modems.

Mobile services are wireless voice and data transmission services excluding WiFi.

MOU (Monthly Average Minutes of Use per User) is calculated by dividing the total number of minutes of usage for incoming and outgoing calls during the relevant period (excluding guest roamers) by the average number of mobile subscriptions during the period and dividing by the number of months in that period.

Net debt is a non-U.S. GAAP financial measure and is calculated as the sum of interest bearing long-term debt and short-term debt minus cash and cash equivalents. The Company believes that net debt provides useful information to investors because it shows the amount of debt outstanding to be paid after using available cash and cash equivalent, as well as short-term investments. Net debt should not be considered in isolation as an alternative to long-term debt and short-term debt, or any other measure of the company financial position. Reconciliation of net debt to long-term debt and short-term debt, the most directly comparable U.S. GAAP financial measures, is presented below in the reconciliation tables section.

Reportable segments The Company identified Russia mobile, Russia fixed-line, CIS mobile, CIS fixed-line, Ukraine mobile, Ukraine fixed-line and Asia mobile reporting segments based on the business activities in different geographical areas. Although Georgia is no longer a member of the CIS, consistent with VimpelCom s historic reporting practice VimpelCom continues to include Georgia in its CIS reporting segment. Mobile lines include activities for the providing of wireless telecommunication services to the Company s subscribers; fixed-line includes all activities for providing wireline telecommunication services, broadband and consumer Internet. Revenues and expenses are shown net of intercompany transactions within one geographical segment. Intersegment revenues and expenses between different geographical segments are eliminated at the consolidated level. Starting second quarter of 2010 VimpelCom also started to consider VimpelCom s respective equities in net results of operations of the Company s associates Morefront Holdings Ltd. and GTEL-Mobile as part of operations of Russia mobile and Asia mobile reporting segments, respectively, as well as VimpelCom s DVB-T and DVB-H activities were allocated to Russia fixed-line and Russia mobile segments, respectively. The comparative information was retrospectively adjusted.

VimpelCom Ltd - Third Quarter 2010 Operating and Financial Results

ROCE is a non-U.S. GAAP financial measure and is calculated as operating income for the last twelve months divided by the sum of net debt, total equity and redeemable noncontrolling interest calculated as an average of the quarter-end balances for the last four quarters. The Company believes that ROCE (return on capital employed) provides useful information to management of our company and investors because it is an indicator of our company s operational performance and represents a return on employed capital at the end of each reported period. Calculation of ROCE on the basis of U.S. GAAP financial measures is presented in the reconciliation tables section below (Attachment C).

ROIC is a non-U.S. GAAP financial measure and is calculated as operating income for the last twelve months divided by the sum of property and equipment, licenses, intangible assets, goodwill, software and frequency permissions as reflected on the balance sheet as of the end of the period. The Company believes that ROIC (return on invested capital) provides useful information to management of our company because it is an indicator of our company s operational performance and provides a useful indication of how profitably our company used its resources in each reportable segment over the reported period. Calculation of ROIC on the basis of U.S. GAAP financial measures is presented below in the reconciliation tables section below (Attachment C).

Sales and marketing costs (S&M) include marketing, advertising and dealer commissions expenses.

Ukraine segment Due to change in the reporting structure of VimpelCom and in line with intentions made public by the Company in the previous quarter, Ukraine was considered to be a separate reporting segment apart from the CIS and includes the operations of VimpelCom s indirect Ukrainian subsidiaries Closed Joint Stock Company Ukrainian Radio Systems (URS) and Golden Telecom Limited Liability Company (GT LLC)), as well as Kyivstar.

VAS (value added services) includes short messages (SMS), multimedia messages (MMS), caller number identification, call waiting, data transmission, mobile Internet, downloadable content and other services.

Voice revenue for the purpose of press-release voice revenue includes voice revenue generated by our subscribers, roaming revenues generated by our subscribers and guest roamers and interconnect revenue. In our annual report and annual report on Form 20-F we report each of these types of revenues separately.

VimpelCom Ltd Group financial results for the third quarter of 2010 Amsterdam December 2 , 2010 nd

© VimpelCom Ltd 2010 2 Disclaimer This presenta

This presentation contains "forward-looking statements", as the phrase is defined in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements relate to the Company's strategy, development plans and anticipated performance. The forward-looking statements are based on management's best assessment of the Company's strategic and financial position, and future market conditions and trends. These discussions involve risks and uncertainties. The actual outcome may differ materially

from these statements as а result of continued volatility in the economies in the markets in which the Company operates, unforeseen developments from competition, governmental regulation of the telecommunications industries and general political uncertainties in the markets in which the Company operates and/or litigation with third parties. The actual outcome may also differ materially if the Company is unable to obtain all necessary corporate approvals relating to its business, if the Company is unable to successfully integrate newly-acquired businesses and other factors. There can be no assurance that these risks and uncertainties will not have a material adverse effect on the Company, that the Company will be able to grow or that it will be successful in executing its strategy and development plans. Certain factors that could cause actual results to differ materially from those discussed in any forward-looking statements include the risk factors described in the Company s registration statement on Form F-4 filed with the U.S. Securities and Exchange Commission (the SEC), OJSC VimpelCom s public filings with the SEC, including its Annual Report

on
Form
20-F
for
the
year
ended
December
31,
2009,
and
other
public
filings
made
by
the Company with the SEC, which risk factors are incorporated herein by reference.
VimpelCom
disclaims any obligation to update developments of these risk factors or to
announce publicly any revision to any of the forward-looking statements contained herein, or

to make corrections to reflect future events or developments.

© VimpelCom Ltd 2010 8 Dividend policy

On November 15, 2010, Supervisory Board declared the payment of an interim dividend of US\$0.46 per ADS or \$600 million

The annual dividends are equal to a minimum of 50% of Free Cash Flow from Kyivstar and 50% of Free Cash Flow from VimpelCom's Russian operations

Free Cash Flow is defined as consolidated net income plus depreciation and amortization minus capital expenditures

The payments may be in the form of annual and interim dividends as well as extraordinary dividends

The exact amount and timing of any dividend declarations and payments will require VimpelCom Board approval
