ChipMOS RECEIVES APPROVAL FOR EXTENSION OF REPAYMENT SCHEDULE ON

ITS SHORT-TERM BANK LOANS FROM TAIWAN BANK CREDITORS

Hsinchu, Taiwan, December 30, 2010 - ChipMOS TECHNOLOGIES (Bermuda) LTD. (Nasdaq: IMOS) (the Company or ChipMOS) today announced that the Company's 88.96% subsidiary ChipMOS TECHNOLOGIES INC. (ChipMOS Taiwan) has reached agreement with and received approval from its bank creditors for an extension of its repayment schedule on its short-term loans.

S.K. Chen, Chief Financial Officer of ChipMOS, said, "We appreciate the continued support of our bank syndicate in reaching this extension agreement. Our goal is to continue to pay down debt in 2011 and subsequently on a repayment schedule anticipated to reduce total debt to less than US\$300 million by the end of 2011. This is another step in our ongoing efforts to strengthen our financial position, while concurrently providing the excellent test and assembly services customers rely on ChipMOS for."

The key extended repayment terms and conditions include agreement by ChipMOS Taiwan to repay 20% of the outstanding non-revolving short-term loans principal on December 31, 2010 and to repay the balance in eight quarterly installments by the end of 2012. ChipMOS Taiwan will be required to set aside NT\$50 million per month with Bank of Taiwan from January 2011 until December 2012 to fund the scheduled estimated principal repayments. ChipMOS Taiwan can maintain its current revolving short-term facilities, which as of December 29, 2010 had an aggregate outstanding principal amount of US\$25.2 million, but will be required to increase the collateral to secure up to 60% of the outstanding principal amount by the end of 2011. For repayment of long-term loans, ChipMOS Taiwan also has agreed to set aside with Bank of Taiwan NT\$300 million per month for 2011, NT\$270 million per month for 2012 and NT\$150 million per month for 2013 to meet the principal repayment schedule. The bank creditors have agreed that ChipMOS Taiwan may arrange additional bank loans for purchasing operating materials by using its available assets as collateral; and also have agreed to not unilaterally foreclose and seize any machinery, property or deposits of ChipMOS Taiwan and to waive any penalties that might otherwise have to be imposed on the Company in case of breach under the existing loan agreements.

Tables below reflect the anticipated impact of the extension agreement with bank creditors on ChipMOS Taiwan's estimated future principal payments under the short-term loans as compared to the original payment schedule as of December 31, 2010, and also show the long-term loans principal repayment schedule (All translations from NT dollars to U.S. dollars were made at the exchange rate of NT\$30.47 against US\$1.00 as of Nov. 30, 2010):

Non-revolving short-term loans estimated principal repayment schedule

	Original Payment Amount		After Extension Estimated Payment (**)	
	NT\$ (in million)	US\$	NT\$ (in million)	US\$
Dec. 31, 2010	1,467.8	48.1	655.2	21.5(*)
2011			406.3	13.3
2012			406.3	13.3
Total	1,467.8	48.1	1,467.8	48.1

* As agreed, the payment amount of US\$21.5 million included the off set of the time deposit of US\$11.9 million as collateral with the banks.

** The Estimated Payment After Extension may be changed subject to final agreements signed with banks.

Long-term loans principal payment schedule

	Payment Amount	
	NT\$	US\$
	(in million)	
2011	3,751.5	123.1
2012	3,101.5	101.8
2013	1,824.2	59.9
2014 to 2015	345.0	11.3
Total	9,022.2	296.1

The above-listed long-term loans are excluding operating lease payment of US\$27.0 million, US\$18.8 million and US\$1.9 million for 2011, 2012 and 2013, respectively. ChipMOS Taiwan anticipates that its cash in hand as of December 31, 2010, and expected cash flow from its operations will provide a sufficient source of cash for short-term and long-term loan principal payments to be made in 2011 and years going forward.

About ChipMOS TECHNOLOGIES (Bermuda) LTD.:

ChipMOS (<http://www.chipmos.com/>) is a leading independent provider of semiconductor testing and assembly services to customers in Taiwan, Japan, and the U.S. With advanced facilities in Hsinchu and Southern Taiwan Science Parks in Taiwan and Shanghai, ChipMOS and its subsidiaries provide testing and assembly services to a broad range of customers, including leading fabless semiconductor companies, integrated device manufacturers and independent semiconductor foundries.
