**Table of Contents****ZIX CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(Unaudited)

**1. Basis of Presentation**

The accompanying condensed consolidated financial statements of Zix Corporation ( ZixCorp, the Company, we, our, us ) should be read in conjunction with the audited consolidated financial statements included in the Company's 2011 Annual Report on Form 10-K. These financial statements are unaudited, but have been prepared in the ordinary course of business for the purpose of providing information with respect to the covered interim periods. Management of the Company believes that all adjustments necessary for a fair presentation for such periods have been included and are of a normal recurring nature. The results of operations for the three-month period ended March 31, 2012, are not necessarily indicative of the results to be expected for any future periods or for the full fiscal year.

**2. Recent Accounting Standards and Pronouncements***Testing for Goodwill Impairment*

In September 2011, the Financial Accounting Standards Board ( FASB ) amended guidance on testing goodwill for impairment. Under the new guidance, entities testing goodwill for impairment have the option of performing a qualitative assessment before calculating the fair value of a reporting unit in step 1 of the goodwill impairment test. If entities determine, on the basis of qualitative factors, that the fair value of a reporting unit is more likely than not less than the carrying value amount, the two-step impairment test would be required. Otherwise, further testing would not be needed. The new guidance does not change how goodwill is calculated, nor does it revise the requirement to test goodwill annually for impairment or between tests if events or circumstances warrant. The amended guidance became effective for us on January 1, 2012. This new guidance did not have a material impact on our condensed consolidated financial statements.

*Presentation of Other Comprehensive Income*

In June 2011, the FASB issued guidance that requires entities to report components of comprehensive income in either a continuous statement of comprehensive income or two separate but consecutive statements. The guidance removes the option to present the components of other comprehensive income ( OCI ) as part of the statement of stockholder's equity. This guidance became effective for us for January 1, 2012, and must be applied retrospectively for all periods presented in the financial statements. The new guidance does not apply to entities that have no items of OCI in any period presented. This new guidance did not have a material impact on our condensed consolidated financial statements.

**3. Stock Options and Stock-based Employee Compensation**

As of March 31, 2012, there were 7,293,835 options outstanding and 536,313 available for grant. Of those options available for grant, 314,789 options were available for grant to employees and 221,524 were available for grant to the Company's directors. For the three-month period ended March 31, 2012, the total stock-based employee compensation expense was recorded to the following line items of the Company's condensed consolidated statements of operations:

	<b>Three Months Ended March 31,</b>	
	<b>2012</b>	<b>2011</b>
Cost of revenues	\$ 25,000	\$ 12,000
Research and development	21,000	13,000
Selling, general and administrative	157,000	83,000
Stock-based compensation expense	\$ 203,000	\$ 108,000

There were 12,100 stock options exercised for the three-month period ended March 31, 2012, and 410,800 stock options exercised for the three-month period ended March 31, 2011. The excess tax benefit recorded in the three-month period ended March 31, 2012 and 2011 related to these option exercises was \$2,000 and \$11,000, respectively. Deferred tax assets totaling \$61,000 and \$35,000, resulting from stock-based

compensation expense relating to the Company's U.S. operations, were recorded for the three-month periods ended March 31, 2012 and 2011, respectively. As of March 31, 2012, there was \$1,986,000 of total unrecognized stock-based compensation related to non-vested stock-based compensation awards granted under the stock option plans. This cost is expected to be recognized over a weighted average period of 1.31 years.

**Table of Contents****Stock Option Activity**

The following is a summary of all stock option transactions during the three months ended March 31, 2012:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Yrs)	Aggregate Intrinsic Value

<b>Outstanding at March 31, 2012</b>	<b>7,293,835</b>	<b>\$ 4.37</b>	<b>4.74</b>	<b>\$ 2,192,000</b>
Options exercisable at March 31, 2012	6,205,712	\$ 4.59	3.95	\$ 2,005,000

For additional information regarding the Company's Stock Options and Stock-based Employee Compensation, see Note 4 to the consolidated financial statements contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

**4. Supplemental Cash Flow Information**

Supplemental cash flow information relating to interest, taxes and non-cash activities:

	Three Months Ended March 31,	
	2012	2011
Cash paid for interest	\$ 4,000	\$ 4,000
Cash income tax payments	\$ 104,000	\$ 59,000
Non-cash investing and financing activities:		
Payables related to purchases of fixed assets	\$ 38,000	\$ 38,000

**5. Receivables, net**

	March 31, 2012	December 31, 2011
Receivables	\$ 1,178,000	\$ 711,000
Allowance for returns and doubtful accounts	(29,000)	(7,000)
Note receivable	458,000	458,000
Allowance for note receivable	(458,000)	(458,000)
<b>Receivables, net</b>	<b>\$ 1,149,000</b>	<b>\$ 704,000</b>

The allowance for doubtful accounts includes all specific accounts receivable which we believe are likely not collectible based on known information. In addition, we record 2.5% of all accounts receivable greater than 90 days past due, net of those accounts specifically reserved, as a general allowance against accounts that could potentially become uncollectible.

## Edgar Filing: ZIX CORP - Form 10-Q

The note receivable represents the remaining outstanding balance of an original note related to the sale of a product line in 2005 in the amount of \$540,000. This was fully reserved at the time of the sale as the note's collectability was not assured. The note receivable is fully reserved at March 31, 2012.

### 6. Earnings Per Share and Potential Dilution

Basic earnings per share are computed using the weighted average number of common shares outstanding for the period. The dilutive effect of potential common shares outstanding is included in diluted earnings per share. The computations for basic and diluted earnings per share for the three months ended March 31, 2012 and 2011, are as follows:

	March 31,	
	2012	2011
Basic weighted average shares	63,022,777	67,182,916
Effect of dilutive securities:		
Employee and director stock options	741,958	1,323,280
Warrants		1,500,710
Potential dilutive common shares	63,764,735	70,006,906

**Table of Contents**

During the three months ended March 31, 2012, weighted average shares related to 5,064,681 stock options were excluded from the calculation of diluted earnings per share because the exercise price of the stock options was in excess of the market price and such stock options are therefore anti-dilutive. During the three months ended March 31, 2011, weighted average shares related to 3,713,714 stock options and 145,853 warrants were excluded from the calculation of diluted earnings per share because the stock options and warrants were similarly anti-dilutive.

**7. Commitments and contingencies**

A summary of our fixed contractual obligations and commitments at March 31, 2012, is as follows:

	Total	Payments Due by Period		
		1 Year	Years 2 & 3	Beyond 3 Years
Operating leases	\$ 3,606,000	\$ 1,276,000	\$ 1,882,000	\$ 448,000

We have not entered into any material, non-cancelable purchase commitments at March 31, 2012.

***Claims and Proceedings***

We are subject to legal proceedings, claims, and litigation against our business. While the outcome of these matters is currently not determinable and the costs and expenses of prosecuting and defending these matters may be significant, we currently do not expect that the ultimate costs to resolve these matters will have a material adverse effect on our consolidated financial statements.

**8. Fair Value Measurements**

FASB guidance regarding fair value measurement establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets for identical assets or liabilities; Level 2, defined as inputs other than quoted prices for similar assets and liabilities in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions.

For certain of the Company's financial instruments, including cash and cash equivalents, trade receivables, and accounts payable, the fair values approximate carrying values due to the short-term maturities of these instruments. The carrying values of other current assets and accrued expenses are also not recorded at fair value, but approximate fair values primarily due to their short-term nature.

**9. Common Stock Repurchase Program**

On November 9, 2011, the Company announced that its board of directors approved a share repurchase program authorizing the company to purchase up to \$15,000,000 of its shares of common stock from time to time in the open market. The amount and timing of specific repurchases are subject to market conditions, applicable legal requirements and other factors. The share purchases will be funded from existing cash resources and may be suspended or discontinued at any time, however, the share repurchase program will expire on June 30, 2012. The Company repurchased 1,685,308 shares at an aggregate cost of \$4,998,000 under this program during the three months ended March 31, 2012, and repurchased 2,184,353 shares at an aggregate cost of \$6,000,000 under this program during the three months ended December 31, 2011.

**10. Income Taxes**

At the end of 2011, the Company recorded a \$15,000,000 tax benefit by reducing the valuation allowance related to its deferred tax assets. This reduction was determined through an assessment of future deferred tax asset utilization following accounting guidance which relies largely on historical earnings. Using the same methodology, and updating the future taxable earnings estimates based on first quarter 2012 actual earnings, the Company believes its future U.S. federal taxable earnings estimate to be established at the end of 2012 will exceed the estimate used at the end of 2011. For this reason, the Company offset its first quarter 2012 federal deferred tax provision by reducing its valuation allowance by an equal amount, thereby eliminating from its deferred tax provision federal taxes in excess of the estimated Alternative Minimum Tax from the Company's first quarter 2012 financial statements. The Company expects to follow this same methodology in the second and third quarters of 2012 and will reevaluate the need for its valuation allowance at December 31, 2012, following the same assessment that was performed at December 31, 2011. A substantial portion of the state deferred tax valuation allowance was reduced, and a tax benefit recognized, in the assessment performed at December 31, 2011. As a result, state deferred taxes were provided for in the three month period ended March 31, 2012.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
NOTE ON FORWARD-LOOKING STATEMENTS AND RISK FACTORS**

Statements in this report which are not purely historical facts or which necessarily depend upon future events, including statements about trends, uncertainties, hopes, beliefs, anticipations, expectations, plans, intentions or strategies for the future, may be forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934. Forward-looking statements involve risks and uncertainties that could cause actual events or results to differ materially from the events or results described in the forward-looking statements, including risks and uncertainties described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011. Any of these risk factors could have a material adverse effect on our business, financial condition or financial results and reduce the value of an investment in our securities. We may not succeed in addressing these and other risks associated with an investment in our securities, with our business and with our achieving any forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements. All forward-looking statements are based upon information available to us on the date the statements are made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

**Overview**

We are a leader in providing secure, Internet-based applications in a Software as a Service ( SaaS ) model. ZixCorp's Email Encryption Service enables the use of secure email for sensitive information exchange primarily in the healthcare, financial services, insurance and government sectors. More than 1,400 hospitals and over 1,700 financial institutions, including some of the most influential companies and government organizations, use our Email Encryption Service. WellPoint and the Securities and Exchange Commission ( SEC ) are among these notable customers. Our Email Encryption Service is enhanced by ZixDirectory®, which includes approximately 30 million members. ZixDirectory allows for emails to be sent seamlessly whenever possible, across the largest email encryption community in the world.

The business operations and service offerings are supported by the ZixData Center , a network operations center dedicated to secure electronic transaction processing. The operations of the ZixData Center are independently audited annually to maintain AICPA SysTrust<sup>SM</sup> certification in the areas of security, confidentiality, integrity and availability. Auditors also produce a SAS70 Type II report on the effectiveness of operational controls used over the audit period. The center is staffed 24 hours a day with a proven 99.99% reliability. We enable email communications to be sent in a trusted, safe, and secure manner. This is our core competency and we believe it is a competitive advantage.

**Critical Accounting Policies and Estimates**

The preparation of financial statements and related disclosures in accordance with accounting principles generally accepted in the United States requires the Company's management to make estimates and assumptions that affect the amounts reported in the Company's condensed consolidated financial statements and accompanying notes. Actual results could differ from these estimates and assumptions. Critical accounting policies and estimates are defined as those that are both most important to the portrayal of the Company's financial condition and results and require management's most subjective judgments.

We describe our significant accounting policies in Note 2, *Summary of Significant Accounting Policies*, of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2011. We discuss our *Critical Accounting Policies and Estimates* in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2011.

Email Encryption is a subscription-based service. The following table sets forth a quarter-over-quarter comparison of the Company's revenues:

	Three Months Ended		3-month Variance	
	March 31,		2012 vs. 2011	
	2012	2011	\$	%
Revenues	\$ 10,301,000	\$ 9,271,000	1,030,000	11%

The increase in revenue was due to the growth inherent in a successful subscription model with steady additions to the subscriber base coupled with a high rate of existing customer renewals.

**Revenue Indicators Backlog, Orders and Deployments**

**Backlog** Our end-user order backlog is comprised of contractually bound agreements that we expect to amortize into revenue as the services are performed. The timing of revenue is affected by both the length of time required to deploy a service and the length of the service contract.

As of March 31, 2012, total backlog was \$52,309,000 and we expect approximately 58% of the total backlog to be recognized as revenue during the next twelve months. As of March 31, 2012, the backlog was comprised of the following elements: \$17,570,000 of deferred revenue that has been billed and paid, \$5,682,000 billed but unpaid, and approximately \$29,057,000 of unbilled contracts. The first quarter ending backlog was a 5% increase over the \$49,652,000 backlog at the end of the first quarter 2011 and 3% below the ending backlog of \$53,724,000 at December 31, 2011. Although our subscription model generally delivers sequential quarterly increases in our backlog, we do, from time to time as experienced in the first quarter of 2012, see minor decreases in backlog due to normal timing of renewal orders and the amortization of scheduled revenue on existing contracts.

**Orders** Total orders were \$9,051,000 and \$8,973,000 for the three-month periods ended March 31, 2012 and 2011, respectively. Total orders include contract renewals, NFYOs, and in the case of new multi-year contracts, the years beyond the first year of service. NFYOs were \$1,705,000 and \$1,492,000 for the three-month period ended March 31, 2012 and 2011, respectively.

**Cost of Revenues**

The following table sets forth a quarter-over-quarter comparison of the cost of revenues:

	Three Months Ended		3-month Variance	
	March 31,		2012 vs. 2011	
	2012	2011	\$	%

## Edgar Filing: ZIX CORP - Form 10-Q

Cost of revenues	\$ 1,855,000	\$ 1,817,000	\$ 38,000	2%
------------------	--------------	--------------	-----------	----

Cost of revenues is comprised of costs related to operating and maintaining the ZixData Center, a field deployment team, customer service and support and the amortization of Company-owned, customer-based computer appliances. A significant portion of the total cost of revenues relates to the ZixData Center, which currently has excess capacity. The two percent period over period increase resulted from increases in average wages and benefits paid to existing staff, including a small increase in stock-based compensation expense.

**Table of Contents****Research and Development Expenses**

The following table sets forth a quarter-over-quarter comparison of our research and development expenses:

	Three Months Ended March 31,		3-month Variance 2012 vs. 2011	
	2012	2011	\$	%
Research and development expenses	\$ 1,477,000	\$ 1,313,000	\$ 164,000	12%

Research and development expenses consist primarily of salary, benefits, and stock-based compensation for our development staff, and other direct and indirect costs associated with enhancing our existing products and services and developing new products and services. The 12% period over period increase resulted primarily from additional research and development investments including wages and benefits of \$96,000 due to the increase in average R&D headcount and additional contracted services of \$63,000.

**Selling, General and Administrative Expenses**

The following table sets forth a quarter-over-quarter comparison of our selling, general and administrative expenses:

	Three Months Ended March 31,		3-month Variance 2012 vs. 2011	
	2012	2011	\$	%
Selling, general and administrative expenses	\$ 4,330,000	\$ 3,760,000	\$ 570,000	15%

Selling, general and administrative expenses consist primarily of salary, stock-based compensation and benefit costs for marketing, sales, executive and administrative personnel as well as costs associated with advertising, promotions, professional services and general corporate activities. The period over period increase of \$570,000 resulted primarily from; (i) higher sales commission expense of approximately \$238,000 resulting from an increase in NFYOs and a decrease in deferred commissions, (ii) an increase in wages and benefits of approximately \$52,000 resulting from an increase in average headcount, (iii) an increase in stock-based compensation expense of approximately \$67,000, and (iv) an increase in professional fees, primarily outside legal counsel of \$160,000.

**Interest Expense**

We incurred no interest expense for the three months ended March 31, 2012. Interest expense was \$4,000 for the quarter ended March 31, 2011, and consisted of imputed interest related to a license subscription promissory note payable.

**Investment and Other Income**

Investment and other income was \$5,000 and \$46,000 for the three months ended March 31, 2012 and 2011, respectively. Other income consists of interest and other income items earned in the normal course of business.

**Provision for Income Taxes**

The provision for income taxes was \$218,000 and \$24,000 for the three-month periods ended March 31, 2012 and 2011, respectively. The operating losses incurred by the Company's U.S. operations in past years and the resulting net operating losses for U.S. Federal tax purposes are subject to a \$56,513,000 reserve because of the uncertainty of future taxable income levels sufficient to utilize the net operating losses and credits. Our March 31, 2012, provision of \$218,000 includes \$92,000 in state taxes currently payable based on gross revenues, \$69,000 related to deferred state taxes, \$36,000 related to the federal Alternative Minimum Tax, and \$21,000 in taxes related to our Canadian operations. Our March 31, 2011, provision of \$24,000 consisted of a benefit from refundable tax credits on our U.S. operations totaling \$8,000, and taxes related to our Canadian operations totaling \$19,000; and \$13,000 in state taxes based on gross revenues.

There were no penalty-related charges to selling, general and administrative expenses accrued or recognized for the same comparative periods. Additionally, we have not taken a tax position that would have a material effect on the financial statements or the effective tax rate for the three-month period ended March 31, 2012. We are currently subject to a three-year statute of limitations by major tax jurisdictions.

## **Table of Contents**

At March 31, 2012, the Company partially reserved its U.S. net deferred tax assets due to the uncertainty of future taxable income sufficient to utilize net loss carryforwards prior to their expiration. The Company did not reserve a portion, \$50,288,000, of its U.S. net deferred tax assets. The majority of this unreserved portion related to \$41,083,000 in U.S. net operating losses ( NOLs ) because we believe the Company will generate sufficient taxable income in future years to utilize these NOLs prior to their expiration. The remaining balance consists of \$6,029,000 relating to temporary differences between GAAP and tax-related expense, \$2,272,000 relating to U.S. state income tax credits and net operating loss carryovers, \$895,000 related to Alternative Minimum Tax credits, and \$9,000 of our Canadian deferred tax asset relating to temporary differences between GAAP and tax-related expense.

At the end of 2011, the Company recorded a \$15,000,000 tax benefit by reducing the valuation allowance related to its deferred tax assets. This reduction was determined through an assessment of future deferred tax asset utilization following accounting guidance which relies largely on historical earnings. Using the same methodology, and updating the future taxable earnings estimates based on first quarter 2012 actual earnings, the Company believes its future U.S. federal taxable earnings estimate to be established at the end of 2012 will exceed the estimate used at the end of 2011. For this reason, the Company offset its first quarter 2012 federal deferred tax provision by reducing its valuation allowance by an equal amount, thereby eliminating from its deferred tax provision federal taxes in excess of the estimated Alternative Minimum Tax from the Company's first quarter 2012 financial statements. The Company expects to follow this same methodology in the second and third quarters of 2012 and will reevaluate the need for its valuation allowance at December 31, 2012, following the same assessment methodology that was performed at December 31, 2011. Adjusting our valuation allowance could have a significant impact on operating results in the period that it becomes more likely than not that an additional portion of our deferred tax assets will or will not be realized.

We have determined that utilization of existing net operating losses against future taxable income is not subject to limitation by Section 382 of the Internal Revenue Code. Future ownership changes, however, may limit the company's ability to fully utilize its existing net operating loss carryforwards against future taxable income.

As indicated earlier, the operating losses incurred by our U.S. operations and the resulting net operating losses for U.S. Federal tax purposes are subject to a partial reserve. Significant judgment is required in determining any reserve recorded against the deferred tax asset. In assessing the need for a reserve, we consider all available evidence, including past operating results, estimates of future taxable income, and the feasibility of tax planning strategies.

### ***Net Income***

The net income for the three months ended March 31, 2012, of \$2,426,000 is a slight improvement of \$27,000 compared to the net income of \$2,399,000 for the same period last year. Our increased revenue and resulting higher gross margin was offset by increased R&D and SG&A spending, and a higher tax expense as discussed above.

### **Liquidity and Capital Resources**

#### ***Overview***

Based on our performance over the last four quarters and current expectations, we believe our cash and cash equivalents and cash generated from operations, will satisfy our working capital needs, capital expenditures, investment requirements, contractual obligations, commitments, future customer financings, and other liquidity requirements associated with our operations through at least the next twelve months. We plan for and measure our liquidity and capital resources through an annual budgeting process. At March 31, 2012, our cash and cash equivalents totaled \$18,006,000 and we held no debt. Our revenue growth is expected at approximately 10% to 15% for the full year 2012 compared to 2011.

Cash and cash equivalents at March 31, 2012, were \$18,006,000, a decrease of \$2,674,000 from the December 31, 2011, balance. This decrease was primarily driven by the repurchase of \$4,998,000 of our common stock under a repurchase program approved by our Board of Directors in November 2011. Approximately \$4,000,000 remained in this program as of March 31, 2012. The program is set to expire June 30, 2012. This decrease in cash was partially offset by cash collections from customers, and relatively flat accounts payable and accrued expenses.

We believe a significant portion of all other spending is discretionary and flexible and that we have the ability to adjust overall cash spending to react, as needed, to any shortfalls in projected cash.

**Table of Contents****Sources and Uses of Cash Summary**

	Three Months Ended March 31,	
	2012	2011
Net cash provided by operations	\$ 2,533,000	\$ 3,414,000
Net cash used in investing activities	\$ (228,000)	\$ (2,498,000)
Net cash used in financing activities	\$ (4,979,000)	\$ (3,772,000)

Our primary source of liquidity from our operations is the collection of revenue in advance from our customers and accounts receivable from our customers, net of the timing of payments to our vendors and service providers.

Our investing activities in the first quarter of 2012 consisted of computer and networking equipment purchases. In the first quarter 2011, we utilized \$2,290,000 to purchase commercial paper and \$208,000 to purchase computer and networking equipment.

Cash used in financing activities in the first quarter of 2012 included the \$4,998,000 repurchase of common stock described above. We also repurchased \$5,000,000 of common stock in the first quarter of 2011 and funded a \$34,000 promissory note associated with computer operating system licenses. These usages were partially offset by \$1,262,000 received from the exercise of stock options and warrants in the first quarter 2011.

**Options and Warrants of ZixCorp Common Stock**

We have significant options outstanding that are currently vested. There is no assurance that any of these options will be exercised; therefore, the extent of future cash inflow from additional option activity is not certain. The following table summarizes the options that were outstanding as of March 31, 2012. The vested shares are a subset of the outstanding shares. The value of the shares is the number of shares multiplied by the exercise price for each share.

Exercise Price Range	Summary of Outstanding Options			Total Value of Vested Shares
	Outstanding Shares	Total Value of Outstanding Shares	Vested Shares (included in Outstanding shares)

<b>Total</b>	<b>7,293,835</b>	<b>\$ 31,843,000</b>	<b>6,205,712</b>	<b>\$ 28,469,000</b>

All 145,853 warrants remaining at December 31, 2011, expired in January 2012.

**Off-Balance Sheet Arrangements**

None.

**Contractual Obligations, Contingent Liabilities and Commitments**

A summary of our fixed contractual obligations and commitments at March 31, 2012, is as follows:

## Edgar Filing: ZIX CORP - Form 10-Q

	Total	Payments Due by Period		
		1 Year	Years 2 & 3	Beyond 3 Years
Operating leases	\$ 3,606,000	\$ 1,276,000	\$ 1,882,000	\$ 448,000

We have not entered into any material, non-cancelable purchase commitments at March 31, 2012.

We have severance agreements with certain employees which would require the Company to pay approximately \$1,629,000 if all such employees separated from employment with our Company following a change of control, as defined in the severance agreements.

**Table of Contents****ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We have no material changes to the disclosure on this matter made in our Annual Report on Form 10-K for the year ended December 31, 2011.

**ITEM 4. CONTROLS AND PROCEDURES**

The Company, under the supervision and with the participation of its management, including the Chief Executive Officer and the Principal Accounting Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e)) under the Exchange Act as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and the Principal Accounting Officer concluded that the Company's disclosure controls and procedures were effective as of March 31, 2012.

**Changes in Internal Controls over Financial Reporting**

During the three months ended March 31, 2012, there have been no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect internal control over financial reporting.
