Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of

Ameren Corporation Savings Investment Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Ameren Corporation Savings Investment Plan (the Plan) at December 31, 2012 and 2011, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Savings Investment Plan

Notes to Financial Statements

December 31, 2012 and 2011

1. Description of the Plan General

The following is a summary of the various provisions of the Ameren Corporation Savings Investment Plan (the Plan). Participants should refer to the Plan document for more complete information.

The Plan s purpose is to provide all regular full-time management and contract employees (the Participants) of Ameren Corporation (the Company) and its wholly owned subsidiaries the option to defer a portion of their annual base compensation, and incentive and other compensation (for management employees), for federal income tax purposes in accordance with Section 401(k) of the Internal Revenue Code (the Code). The Plan is subject to certain provisions of ERISA, as amended, and regulations of the Securities and Exchange Commission.

The Company serves as sponsor of the Plan, and, consequently, has the authority to amend or terminate the Plan subject to certain restrictions. The Board of Directors of the Company has the authority and responsibility for the general administration of the Plan. Fidelity Management Trust Company, as Trustee, has the authority and responsibility to hold and protect the assets of the Plan in accordance with Plan provisions and with the Trust and Administrative Agreement.

Participation

All regular full-time employees are eligible to participate upon employment. If employees do not make an election, nor opt-out within 30 days of employment; they are automatically enrolled at a 6% pre-tax contribution rate, invested in a Target Retirement Date fund based upon their age 65, and further enrolled in auto-escalation increasing their pre-tax contribution 1% annually. Employees may opt-out or make alternative elections at any time.

Contributions

All Participants can contribute a maximum of 100% of their base compensation to the Plan. The Plan was amended on January 1, 2010, for management employees to include additional pay, besides base pay, as 401(k) eligible pay. Additional pay includes, but is not limited to, short-term incentive pay, bonuses, overtime, continuous operations pay and premium pay. Participant contributions are subject to annual limitations imposed by the Code (\$17,000 in 2012 and \$16,500 in 2011). The Company will make an Employer Basic Matching Contribution plus an Employer Additional Matching Contribution in an amount equal to a percent of the amount each Participant contributes to the Plan, up to a certain maximum percentage of the Participant s compensation that he or she elects to contribute to the Plan each year. The amount of Company matching contribution depends on the Participant s employment classification, and for contract employees is determined by the collective bargaining agreement with the specific union representing the Participants. The Company also makes true-up Employer Basic Matching Contributions for Participants who contribute the IRS maximum before the end of the year and, as a result, do not receive the full company match. The Employer Additional Matching Contributions are invested in the Ameren Stock Fund, and as such, are nonparticipant-directed investments, but Participants have the opportunity to immediately allocate these contributions to different investments if so desired.

Ameren Corporation

Savings Investment Plan

Notes to Financial Statements

December 31, 2012 and 2011

The Plan permits catch-up contributions for all employees age 50 and older. Eligible employees could contribute \$5,500 in 2012 and 2011 as a catch-up contribution. The Company does not match catch-up contributions.

Participants direct their contributions and the Employer Basic Matching Contributions by electing that such contributions be placed in a single investment fund or allocated in increments of one percent to any combination of investment funds. Such fund allocation elections may be changed daily.

Earnings derived from the assets of any investment fund are reinvested in the fund to which they relate. Participants may elect daily to reallocate, by actual dollar or percentage in one percent increments, the value of their accounts between funds. Pending investment of the assets into any investment fund, the Trustee may temporarily make certain short-term investments.

Notes Receivable from Participants

The Plan permits Participants to borrow from their accounts within the Plan. Such borrowings may be made subject to the following: (1) the minimum amount of the loan is \$1,000, (2) the amount of the loan may not exceed the lesser of \$50,000 or 50% of the vested amount in the Participant s account, (3) the loan will bear a fixed interest rate and repayments will be made through mutual agreement subject to certain statutory repayment time limits, (4) each loan shall bear a reasonable interest rate as determined under policies established for the Plan and (5) such other rules and regulations as may be adopted by the Company. At December 31, 2012 and 2011, the interest rates on participant loans ranged from 4.00 percent to 10.50 percent.

Vesting

The amounts in Participants accounts, including Company contributions, are fully vested at all times.

Payment of Benefits

The total amount of a Participant s account shall be distributed to the Participant according to one of the options as described in the Plan document and as elected by the Participant. All distributions shall be in the form of cash except that Participants may elect to have his or her interest in the Ameren Stock Fund distributed in shares of Ameren common stock. Participants may withdraw certain basic contributions, rollover contributions and related earnings thereon upon reaching age 59 1/2, in the event of total disability or financial hardship as defined by the Plan or the Code. For purposes of distributions, the Participant s account value will be determined as of the last business day coincident with or immediately preceding the day of distribution. Contributions to the Plan and investment income thereon are taxable to Participants upon distribution pursuant to the rules provided for under the Plan and the Code.

The Plan also allows, at the discretion of the Company, participants of the former Union Electric Company Employee Stock Ownership Plan and the former Ameren Corporation Employee Stock Ownership Plan for Certain Employees of AmerenCIPS, to receive distributions prior to termination of employment of (a) all or a portion of a Participant s account balance acquired at least 84 months prior to a distribution and (b) any portion of a Participant s account balance acquired by dividends or other income. Any such distributions would be subject to tax withholding and potentially a 10% early withdrawal penalty similar to any other early Plan distribution unless the distribution is rolled over to an individual retirement account or other qualified plan.

Plan Termination

The Company intends to continue the Plan indefinitely. However, the Company may at any time and for any reason, subject to ERISA and Internal Revenue Service regulations, suspend or terminate the Plan provided that such action does not retroactively adversely affect the rights of any Participant under the Plan.

2. Summary of Significant Accounting Policies Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting, except that benefit payments to Participants are recorded upon distribution.

Investment contracts held by defined-contribution plans are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, as contract value is the amount Participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

All investments are presented at fair value as of December 31, 2012 and 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income from Ameren common stock is recorded when received. Net appreciation in fair value of investments includes the Plan s gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

Fees associated with administering the Plan are generally paid by the Plan. Trustee and recordkeeping fees are primarily paid via (1) revenue sharing payments (payments made directly from investment managers to the recordkeeper), (2) fees accrued in the investment funds that do not pay revenue sharing, and (3) flat dollar fees that are assessed to all Participants quarterly.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

New Accounting Standards

In May 2011, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The amendments are of two types: (i) those that clarify the Board s intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The adoption of this standard did not have a material impact on the Plan s financial statements.

In October 2012, the FASB issued Accounting Standards Update No. 2012-04, *Technical Corrections and Improvements* (ASU 2012-04) which makes technical corrections and improvements to a variety of topics in the Accounting Standards Codification (the ASC). The changes include source literature amendments, guidance clarification, reference corrections and relocated guidance. ASU 2012-04 also includes amendments to the ASC to reflect the measurement and disclosure requirements of ASC Topic 820, *Fair Value Measurements and Disclosures*. The technical corrections and improvements are effective upon the issuance of ASU 2012-04. The amendments in this update are effective for annual periods beginning after December 15, 2012. Plan management does not believe the adoption of this update will have a material impact on the Plan s financial statements.

4. Fair Value Measurements

The authoritative guidance issued by the FASB regarding fair value measurement provides a framework for measuring fair value for all assets and liabilities that are measured and reported at fair value. The guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk or the risks inherent in the inputs to the valuation, were used in the valuation process. Inputs to valuation can be readily observable, market corroborated, or unobservable. Valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs were used. The provisions also establish a fair value hierarchy that prioritizes the inputs used to measure fair value. All financial assets and liabilities carried at fair value were classified in one of the following three hierarchy levels:

Level 1: Inputs based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the reporting date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Ameren Corporation

Savings Investment Plan

Notes to Financial Statements

December 31, 2012 and 2011

Level 3: Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

The asset or liability s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during 2012. Common stocks are valued at the closing price reported on the active markets on which the individual securities are traded. Mutual funds and collective trust funds are valued at the net asset value (NAV) of shares or units held by the Plan at year end, representing the value at which shares of the fund may be purchased or redeemed. The fair value of the investments within the funds are based on quoted prices in active markets and securities valued using observable inputs or quotations from inactive markets. Under ordinary market conditions, redemptions are permitted as of valuation dates and are executed at NAV. A full redemption of the Northern Trust Company Collective Stable Asset Fund that was initiated by the Plan will be paid out within 12 months following the redemption request.

The following table sets forth, by level within the fair value hierarchy, Plan assets measured at fair value on a recurring basis as of December 31, 2012:

At December 31, 2011, the Plan held Company common stock with a cost and market value of \$199,667,749 and \$191,741,896, respectively. During 2011, the Plan purchased shares at a cost of \$21,572,951 and sold shares valued at \$26,824,933.

At December 31, 2011, the Plan held \$2,963,787 in the Fidelity Management Trust Company Institutional Cash Portfolio, which is managed by the Trustee.

Fees paid by the Plan to the Trustee for recordkeeping and trust services were \$826,137 and \$1,170,694 for the years ended December 31, 2012 and December 31, 2011, respectively.

These transactions are allowable party-in-interest transactions under Section 408(b)(8) of ERISA.

7. Reconciliation of Financial Statements to Form 5500

8. Federal Income Tax Status

The Company obtained its latest determination letter May 28, 2008, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Code. Although the Plan has been amended since receiving the determination letter, the Plan s administrator and the Plan s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. Subsequent Events

On March 14, 2013, Ameren announced it entered into a definitive agreement to divest its merchant generation business, Ameren Energy Resources Company (AER), to an affiliate of Dynegy Inc. AER consists primarily of Ameren Energy Generating Company (Genco), including Genco s 80 percent ownership interest in Electric Energy, Inc., AmerenEnergy Resources Generating Company, and Ameren Energy Marketing Company. Approximately 600 employees will be impacted by the divestiture. Assets for these employees in the Savings Investment Plan will remain in the Plan unless the employee voluntarily requests to withdraw them.

Subsequent event procedures have been carried out to the date of the financial statement issuance.
